**AVIF3023 Apply regulations and policies  
during remote pilot aircraft systems  
operations**

**Release: 1**

# **AVIF3023 Apply regulations and policies during remote pilot aircraft systems operations**

## **Modification History**

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

## **Application**

This unit involves the skills and knowledge required to apply regulations and policies during remote pilot aircraft systems (RPAS) operations, in compliance with relevant regulatory requirements of the Civil Aviation Safety Authority and national operating standards.

It includes complying with relevant regulations and legal obligations, complying with established industrial relations practices and requirements, and complying with relevant local laws and regulations.

This unit addresses aviation non-technical skill requirements (mental, social and personal-management abilities) related to safety management duties of aviation personnel, and contributes to safe and effective performance in complex aviation operational environments.

Operations are conducted as part of recreational, commercial and military aircraft activities across a variety of operational contexts within the Australian aviation industry.

Work is performed independently or under limited supervision within a single-pilot or multi-crew RPAS environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Use for Defence Aviation is to be in accordance with relevant Defence Orders, Instructions, Publications and Regulations.

## **Pre-requisite Unit**

Not applicable.

## **Competency Field**

F – Safety Management

## **Unit Sector**

Not applicable.

## Elements and Performance Criteria

### ELEMENTS

### PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

**1 Comply with relevant regulations and legal obligations**

- 1.1 Sources of information on regulatory requirements and legal obligations relevant to operations are identified and accessed in accordance with workplace procedures
- 1.2 An understanding of regulatory requirements and legal obligations relevant to operations is developed and applied to day-to-day work in the aviation industry
- 1.3 Compliance with regulatory requirements and legal obligations in safety, security and operational tasks is maintained

**2 Comply with established industrial relations practices and requirements**

- 2.1 Sources of information on established industrial relations practices and requirements relevant to the aviation industry are identified and accessed in accordance with workplace procedures
- 2.2 An understanding of established industrial relations practices and requirements relevant to the aviation industry is developed and applied to day-to-day work in the aviation industry
- 2.3 An understanding of employer/employee obligations and responsibilities is developed and applied to day-to-day work in the aviation industry

**3 Comply with relevant local laws and regulations**

- 3.1 Regulations and other local, state/territory and commonwealth laws relevant to work activities of RPAS crew are correctly identified and applied
- 3.2 Compliance with relevant local, state/territory and commonwealth laws and regulations is maintained

## Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## **Range of Conditions**

Range is restricted to essential operating conditions and any other variables essential to the work environment.

## **Unit Mapping Information**

This unit replaces and is equivalent to AVIF3023A Apply regulations and policies during remote pilot aircraft systems (RPAS) operations.
