Release: 1

AVIO0019 Apply and monitor aviation workplace security procedures

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Application

This unit involves the skills and knowledge required to apply and monitor aviation workplace security procedures in compliance with relevant regulatory requirements and national operating standards.

This includes checking and monitoring personnel and goods entering a workplace, carrying out surveillance of work areas, dealing with and writing reports on security incidents/emergencies, and completing required documentation.

This unit addresses aviation non-technical skill requirements (mental, social and personal-management abilities) related to aviation security duties of aviation personnel and contributes to safe and effective performance in complex aviation operational environments.

Operations are conducted as part of recreational, commercial aircraft activities across a variety of operational contexts within the Australian aviation industry.

Work is performed independently or under limited supervision as a single operator or within a team environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.
