AVIO0037 Manage the flow of items for screening by X-ray screening equipment

Release: 1

AVIO0037 Manage the flow of items for screening by X-ray screening equipment

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Application

This unit involves the skills and knowledge required to manage the flow of items for screening by X-ray screening equipment, in a transport security environment, in compliance with relevant regulatory requirements and workplace procedures.

It includes monitoring item flow; controlling loading of X-ray equipment; providing assistance to persons with specific needs; and processing a diplomatic bag.

This unit addresses transport security technical skill requirements (physical, mental and task-management abilities) related to transport security duties of aviation, maritime and cargo security personnel, and contributes to safe and effective performance in operational transport security environments.

Operations are conducted across a variety of operational contexts within the Australian transport security environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Pre-requisite Unit

Not applicable.

Competency Field

O – Security

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

PERFORMANCE CRITERIA

Elements describe the essential Performance criteria describe the performance needed to

outcomes.

demonstrate achievement of the element.

- | | |
|---|--|
| 1 Monitor item flow | 1.1 Flow of items is monitored and appropriate action is taken to maintain a steady flow through X-ray screening equipment |
| | 1.2 Customer service standards and procedures are applied when controlling flow of items through X-ray screening equipment |
