Assessment Requirements for BSBCOM503 Develop processes for the management of breaches in compliance requirements

Assessment Requirements for BSBCOM503 Develop processes for the management of breaches in compliance requirements

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- obtain and keep up to date with organisational compliance requirements
- develop procedures for managing organisational compliance breaches
- monitor the organisation's compliance to requirements including:
- review complaints
- interrogate the management information system
- identify and assign staff to manage breaches in compliance requirements
- identify and inform senior management and regulatory authorities of breaches in compliance
- seek advice from internal and external personnel
- follow up on compliance breaches.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe analysis techniques relevant to the review and interpretation of an identified breach in compliance requirements
- outline the compliance requirements applicable to the organisation
- outline elements of a compliance program/management system including:
  - documentation of compliance requirements relevant to the organisation
  - specification of compliance management functions, accountabilities and responsibilities within the organisation
  - compliance related management information systems
  - record keeping systems required for compliance management

- liaison procedures with relevant internal and external personnel on compliance related matters
- breach management policies and processes including the identification, classification, investigation, rectification and reporting of breaches in compliance requirements
- compliance reporting procedures
- corporate induction and training processes related to compliance management
- processes for the internal and external communication and promotion of information on compliance requirements and compliance program/management system
- compliance complaints handling systems
- continuous improvement processes for compliance including monitoring, evaluation and review
- strategies for developing a positive compliance culture within the organisation
- techniques and performance indicators for monitoring the operation of a compliance/program management system
- list internal and external job roles with an interest in compliance
- describe organisational responsibilities for compliance
- identify the planning processes of the organisation
- outline potential breaches in compliance requirements
- identify relevant organisational policies and procedures including:
  - procedures for breaches in compliance requirements
  - compliance plans and policies in various compliance areas
  - organisational standards for operations and ethics
- explain reporting processes on compliance management including reports on breaches and rectification action
- identify sections of relevant Australian and international standards dealing with aspects of breach management processes and responsibilities
- identify relevant standards for quantitative and qualitative data analysis techniques relevant to compliance related evaluation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the regulation, licensing and risk – compliance field of work and include access to:

- relevant legislation, regulations, standards and organisational policies and procedures
- data files
- relevant internal and external personnel
- computer resources and business technology
- case studies and, where possible, real situations.

Assessors must satisfy NVR/AQTF assessor requirements.
