Performance Evidence

Evidence of the ability to:

- access, use and review a knowledge management system in accordance with organisational policies and procedures
- provide feedback to the organisation about improvements to the knowledge management system
- produce records of outcomes resulting from the use of the system.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify key provisions of relevant legislation, regulations, standards and codes of practice that may affect knowledge management
- describe organisational policies and procedures for knowledge management.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in knowledge management – information management field of work and include access to:

- office equipment and resources
- examples of information documents found in the workplace
- a knowledge management system (which can be a simulated system to satisfy privacy and confidentiality provisions).

Assessors must satisfy NVR/AQTF assessor requirements.
