Assessment Requirements for BSBITA401 Design databases

Release: 1

Assessment Requirements for BSBITA401 Design databases

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- produce a database, containing a minimum of THREE tables, which uses queries, reports and forms
- communicate with relevant personnel to check database design against requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe how the advanced functions of database software applications are to be applied
- describe the impact of formatting and design on the presentation and readability of data.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the information and communications technology – IT analysis and design field of work and include access to:

- office equipment and resources
- sample data.

Assessors must satisfy NVR/AQTF assessor requirements.
