Assessment Requirements for BSBITB801 Implement advanced electronic technologies

Release: 1

Assessment Requirements for BSBITB801 Implement advanced electronic technologies

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- research and evaluate appropriate electronic technology for a given business system
- analyse, develop and implement plans for an effective e-business solution, e-retail solution, mobile business solution and electronic supply chain management solution to meet specific organisational needs.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe trends in e-commerce and e-business systems
- outline business policies and procedures impacting job role or function
- identify relevant legislation, codes and standards relevant to the implementation of electronic technologies, including any obligations under the Australian Quality Training Framework (AQFT) Standards
- explain the effects of infrastructure on implementation of electronic technologies
- outline the technologies for implementing secure electronic payments
- explain methods for assuring safe and secure payment using electronic media
- explain current computing devices and technologies for mobile commerce
- explain principles of supply chain management.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the information and communications technology – IT building and implementation field of work and include access to required assessment facilities and resources.

Assessors must satisfy NVR/AQTF assessor requirements.
