Performance Evidence

Evidence of the ability to:

- use a recordkeeping system to create, access, store and maintain accurate records, according to organisational and legislative requirements
- identify and recommend improvements to recordkeeping system or own work practices
- communicate with relevant people about patient records.

Note: if a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline relevant legislation, standards and/or codes of practice that affect patient recordkeeping
- explain workplace policies and procedures related to patient recordkeeping, including privacy and confidentiality
- describe the process used to set up and maintain a patient record
- explain how coding systems help users to access and to maintain patient records.
**Assessment Conditions**

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the medical services administration field of work and include access to:

- a recordkeeping system
- documented procedures
- case studies and, where possible, real situations
- office equipment and resources.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
