BSBMED303 Maintain patient records

Release: 2

BSBMED303 Maintain patient records

Modification History

Release	Comments
Release 2	This version released with BSB Business Services Training Package Version 2.0. Version created to clarify intent.
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to maintain patient records within an existing medical records management system, under the supervision of a senior receptionist or practice manager.

It applies to individuals who apply a broad range of competencies in various medical administration contexts. They are skilled operators who are expected to exercise discretion and judgement in accessing and maintaining patient records while fully respecting patient privacy and the confidentiality of their details.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Administration – Medical Services Administration
