Apply the principles of confidentiality,
privacy and security within the medical
environment**

Assessment Requirements for BSBMED305 Apply the principles of confidentiality, privacy and security within the medical environment

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- communicate with others according to accepted codes of conduct
- assess whether information is disclosable
- identify and communicate a conflict of interest
- store records and confidential documentation according to organisational requirements
- identify and store drugs, equipment and materials requiring secure storage appropriately.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain enterprise policies and procedures for confidentiality, privacy and security
- identify relevant legislation relevant to confidentiality, privacy, security, record storage and work health and safety practices.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the medical services administration field of work and include access to:

- office equipment and resources
- case studies or actual experiences related to confidentiality, privacy and security issues.

Assessors must satisfy NVR/AQTF assessor requirements.
