Assessment Requirements for BSBPMG415 Apply project risk management techniques

Release: 1

Assessment Requirements for BSBPMG415 Apply project risk management techniques

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- assist others in identifying and prioritising potential risks and developing risk-management strategies, plans and reporting mechanisms
- apply, monitor and review risk-control measures, including contingency measures to mitigate risks
- evaluate, review and report on risk-management processes and make recommendations for future improvements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify tools to help determine potential risks for a specific project
- explain strategies for managing project risks and their application in different situations
- explain the importance of risk-contingency measures.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership – project management field of work and include access to:

- project management documentation for risk management
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.
