Assessment Requirements for BSBRKG404 Monitor and maintain records in an online environment

Release: 1

Assessment Requirements for BSBRKG404 Monitor and maintain records in an online environment

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- monitor usage of online business or records system
- monitor application of system procedures
- manage record creation, update, migration and disposal processes.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline key provisions of relevant legislation that apply to a records system
- explain the general principles and processes of records management and records management systems, including, but not limited to;
 - systems of control
 - records continuum theory
 - mandate and ownership of business process
- explain the operation of the online recordkeeping environment including location and nature of transactions.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the knowledge management – recordkeeping field of work and include access to:

- relevant legislation, regulations, standards and codes
- relevant workplace documentation and resources
- case studies and, where possible, real situations

- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.
