BSBSMB423 Create a digital technology plan for small business

Release: 1

BSBSMB423 Create a digital technology plan for small business

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 3.0.

Application

This unit describes the skills and knowledge required to develop a plan for identifying and implementing new and emerging digital technologies to achieve small business goals. It involves undertaking a basic review of business digital readiness, identifying opportunities to improve business effectiveness and efficiency, and developing an action plan for implementing digital technologies in a small business.

It applies to individuals who operate a small business either that operates independently, or that operates as part of a larger organisation. Individuals in this role are responsible for adopting and promoting approaches to improve small business operations.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Management and Leadership – Small and Micro Business

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
