## BSBSTR603 Develop business continuity plans

### Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 7.0.

### Application

This unit describes the skills and knowledge required to work within the business continuity framework to develop and implement business continuity plans for an organisation to manage risk and ensure business resilience when faced with a disruptive event. This unit addresses the knowledge and processes necessary to develop and maintain business continuity requirements.

The focus is on risk and vulnerability assessment, business impact assessments, and business continuity and communication plans.

The unit applies to individuals working in positions of authority who are approved to implement change across the division, business area, program area or project area.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

### Unit Sector

Critical Thinking and Problem Solving – Business Strategy
