**Release: 1**

# Assessment Requirements for BSBSUS402 Implement an environmental management plan

## Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

## Performance Evidence

Evidence of the ability to:

- interpret an environmental plan to establish underpinning organisational and legislative requirements
- prepare an implementation process schedule that incorporates resource requirements and meets organisational and legislative obligations
- communicate individual roles and responsibilities to staff
- address training and support needs
- implement and monitor the schedule against required outcomes
- review results and prepare required documentation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

## Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline organisational and legislative requirements in relation to environmental management
- explain methods used to identify and address training needs
- describe how resource requirements are identified
- explain methods for creating and communicating schedules
- explain how to monitor, review and record results of the implementation process.

## Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the sustainability field of work and include access to:

- relevant legislation and workplace policies and procedures
- interaction with others
- case studies or, where possible, real situations.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
