Assessment Requirements for BSBSUS404 Assess, implement, monitor and report on waste management

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Performance Evidence

Evidence of the ability to:

- research an organisation's waste stream including:
 - types and volume of waste
 - disposal arrangements and cost
- create and implement a waste management plan, in accordance with legislative and organisational requirements
- report on implementation of waste management plan, according to organisational requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the waste management hierarchy and how it could be applied in the organisation
- explain the technique for assessing waste management risk
- outline the legislative and regulatory context relevant to waste management
- outline the organisation's policies, procedures and practices that relate to the waste management strategy and plan
- explain how to assess training needs within the organisation.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the environmental sustainability field of work and include access to:

- relevant legislation and workplace policies and procedures

- interaction with others
- case studies or, where possible, real situations.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
