Assessment Requirements for BSBSUS406 Identify and apply sustainability rating tools

Release: 1

Assessment Requirements for BSBSUS406 Identify and apply sustainability rating tools

Modification History

Release	Comments
Release 1	This version first released with BSB Business Services Training Package Version 2.0.

Performance Evidence

Evidence of the ability to:

- conduct research to identify sustainability rating tools and their implementation requirements
- communicate with relevant stakeholders to obtain approval to proceed with implementation and provide ongoing information
- gather data using sustainability rating tools according to specified methodology and organisational requirements
- analyse data to prepare and present final report according to internal and external requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- list and describe sustainability rating tools applicable to the organisation
- outline categories and credits used in the sustainability rating tools
- explain methodologies for using sustainability rating tools
- summarise the organisational and rating tool requirements for the storage of data
- explain how sustainability rating tools relate to the organisation's environmental goals and objectives.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the sustainability field of work and include access to:

- relevant sustainability rating documentation
- case studies or, where possible, real situations
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
