Performance Evidence

Evidence of the ability to:

- identify potential emergencies and their causes, with input from others, including specialist advisers and emergency agencies and document them in a risk register
- identify and prioritise options for initial response to contain or limit emergencies and their impact, and for liaison with emergency services
- plan initial response procedures including:
  - categorising major types of potential emergencies
  - identifying required resources
  - checking equipment
  - documenting required actions for a range of major types of emergency, with input from others and in keeping with standards and current industry practice
  - identifying training needs and providers
- implement initial response procedures including:
  - documenting and displaying actions required
  - outlining own role
  - following appropriate procedures
- contribute to post-event activities including supporting others and contributing to debriefing
- monitor emergency response and address deficiencies including:
  - consulting
  - documenting and reporting results
  - identifying improvements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.
Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe basic emergency prevention controls typically installed in a workplace including:
  - emergency alerting systems
  - emergency protection systems
  - smoke alarms, fire alarms and fire extinguishers
  - required safety wear
  - security systems
- describe the enterprise physical site and work areas
- explain enterprise reporting procedures for an emergency
- detail the essential actions of self and others in an emergency
- describe hazards and precautions to be taken during an emergency
- list hazards arising from evacuation
- detail the information needs of emergency response personnel during reporting, arrival and response to an emergency
- identify internal and external sources of work health and safety (WHS) information and data and how to access them
- summarise organisational and workplace WHS policies and procedures
- describe the organisational structure, roles and responsibilities contributing to the implementation of emergency procedures
- describe the powers of safety representatives and other authorised WHS personnel to implement an immediate cease work if an immediate danger to WHS exists
- summarise the principles and priorities for evacuation, checking and accounting for people
- summarise the principles of fire protection and emergency response
- outline relevant Commonwealth and state or territory WHS Acts, regulations, codes of practice, standards and guidance material and how it applies to the implementation of emergency procedures
- identify roles and responsibilities of WHS personnel
- give examples of emergency responses typically used in workplaces
- detail the WHS information needs of work unit or work team.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced by individuals carrying out work health and safety duties in the workplace and include access to:

- office equipment and resources
- workplace policies and procedures
- WHS legislation, regulations and codes of practice
- case studies and, where possible, real situations
- interaction with others.
Assessors must satisfy NVR/AQTF assessor requirements.
