Application

This unit describes the skills and knowledge required to work collaboratively in providing services to implement a range of strategies as part of recovery oriented service provision for people with mental illness.

This unit applies to work with people living with mental illness in a range of community services work contexts.

*The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.*
# Elements and Performance Criteria

**ELEMENT**

*Elements define the essential outcomes*

**PERFORMANCE CRITERIA**

*Performance criteria describe the performance needed to demonstrate achievement of the element.*

<table>

<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Share and collect information to collaboratively inform the plan for recovery | 1.1 Work in a recovery oriented framework that respects the person’s experience, culture and unique recovery journey and the agreed recovery alliance relationship  
1.2 Use a collaborative approach to discuss and determine information to be collected and sources of information to be accessed  
1.3 Explain any organisation or program requirements including the commitment to access and equity, and limits to confidentiality  
1.4 Obtain consent from the person according to organisation policy and procedure  
1.5 Gather and document information from the person and other agreed sources to explore and clarify the person’s preferences, meanings and needs  
1.6 Apply best practice principles, if formal assessment is to be conducted, and work within organisation policy and procedures relating to assessment protocols  
1.7 Together identify the range and potential effects of social and other barriers that are impacting on the person |
| 2. Facilitate collaborative planning process for recovery | 2.1 Work collaboratively to develop a plan for recovery and transition based on the person’s choices, preferences, values, needs and goals and discuss different planning options and tools  
2.2 Facilitate planning sessions using effective communication strategies in a manner that respects the person as their own expert, fosters their strengths and supports them as the driver of their recovery journey  
2.3 Discuss and confirm the person’s choices for personal wellness, development of self-efficacy, cultural requirements, values, meanings and purpose in life  
2.4 Work collaboratively with the person to identify strategies and priorities to achieve goals including |
