Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- established, implemented and evaluated a collaborative approach to at least 3 different projects or service delivery situations, demonstrating skills to address complex and interrelated challenges using:
 - collaborative communication
 - critical thinking
 - problem solving

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- legal and ethical considerations for collaborative practice, including:
 - copyright and intellectual property
 - privacy, confidentiality and disclosure
- types of collaboration and collaborative projects that apply to particular areas of community services and health practice
- different services models and professional philosophies in community services and health practice
- types of behaviours that support effective collaborative relationships
- benefits of collaboration for individuals, organisations and communities, including the value of collaboration as a problem-solving tool

- types of tools and documents to support the establishment, implementation and maintenance of collaborative practice
- typical blockers to the collaborative process, particularly in a service delivery context
- different roles played by people in a collaborative process
- typical problems encountered in a collaborative process and how they may be avoided or resolved
- ways of evaluating projects in terms of their success as collaborative undertakings

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources
- modelling of industry operating conditions, including presence of situations that allow interactions with individuals and organisations

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
