Merged CHC30212/CHC30408/CHC30312. Change to packaging rules.  
Significant change to core units. Minimum work requirement of 120 hours. |

Qualification Description

This qualification reflects the role of workers in the community and/or residential setting who follow an individualised plan to provide person-centred support to people who may require support due to ageing, disability or some other reason. Work involves using discretion and judgement in relation to individual support as well as taking responsibility for own outputs. Workers have a range of factual, technical and procedural knowledge, as well as some theoretical knowledge of the concepts and practices required to provide person-centred support.

To achieve this qualification, the candidate must have completed at least 120 hours of work as detailed in the Assessment Requirements of the units of competency.

*No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.*

Packaging Rules

Total number of units = 13

Qualification Description

This qualification reflects the role of chaplains and/or pastoral and spiritual care workers who provide ongoing ethical, moral and spiritual support to clients using a person-centred approach.

Workers operate within the guidelines and practices of their organisation and within the professional and ethical standards of their relevant association. The development of self-awareness and identity underpin effective work in pastoral and spiritual care and are developed over time, through professionally supervised practice and mentoring.

Work may take place in a range of contexts, including schools, community outreach and local churches in a paid or volunteer capacity. Work in these roles may also require commissioning from a recognised religious institution.

To achieve this qualification, the candidate must have completed at least 100 hours of work as detailed in the Assessment Requirements of units of competency.

*National school chaplaincy regulations or legislation may apply to this qualification.*

Qualification Description

This qualification reflects the role of support workers who complete specialised tasks and functions in aged services; either in residential, home or community based environments. Workers will take responsibility for their own outputs within defined organisation guidelines and maintain quality service delivery through the development, facilitation and review of individualised service planning and delivery.

Workers may be required to demonstrate leadership and have limited responsibility for the organisation and the quantity and quality of outputs of others within limited parameters.

To achieve this qualification, the candidate must have completed at least 120 hours of work as detailed in the Assessment Requirements of the units of competency.

*No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.*

Qualification Description

This qualification reflects the role of financial counsellors working in the following two contexts.

- Generalist financial counsellors who work in a variety of agencies that meet the requirements for the Australian Securities and Investments Commission (ASIC) exemption from a financial services or credit licence under ASIC class order 10/1063. Financial counsellors work across a variety of metropolitan, rural and remote settings.

- Rural financial counsellors who undertake specialised financial counselling work that assists primary producers and rural small business owners in debt, and are employed in agencies funded for this purpose. These agencies meet the requirements for the ASIC exemption from a financial services/credit licence by meeting the conditions of ASIC class order 11/926.

All financial counsellors have specialist knowledge of legal remedies and options to manage debt and financial difficulty and are advocates who work in a model of social justice and client empowerment.

This qualification is NOT related to the work performed by financial planners or financial advisers whose role is to provide clients with strategies to address their investment options and require a financial services licence for their work under the *National Consumer Credit Protection Act 2010*. This qualification is also not appropriate for financial capability workers.
This qualification does NOT refer to therapeutic counselling. Psychological issues, which affect individuals, families and groups such as gambling, substance abuse, child abuse and mental or physical health problems require referral to a professionally qualified practitioner. However, a recognition of, and an ability to work within, a counselling framework and the way in which other issues may interact with financial issues is highly relevant to financial counselling practice.

To achieve this qualification, the candidate must have completed 220 hours of work as detailed in the Assessment Requirements of units of competency.

Qualification Description

This qualification reflects the roles of community services, case management and social housing workers involved in the managing, co-ordinating and/or delivering of person-centred services to individuals, groups and communities.

At this level, workers have specialised skills in community services and work autonomously under broad directions from senior management. Workers are usually providing direct support to individuals or groups of individuals. Workers may also have responsibility for the supervision of other workers and volunteers and/or case management; program coordination or the development of new business opportunities.
Note that the Statutory & forensic child, youth & family welfare specialisation must be achieved in order to meet the minimum education requirements for child protection and youth justice practice in Victoria. In addition, to meet the minimum education requirements for entry into child protection practice in Victoria, diploma qualifications must be approved by the Australian Community Workers Association (ACWA).

To achieve this qualification, the candidate must have completed at least 100 hours of work as detailed in the Assessment Requirements of units of competency.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

Qualification Description

This qualification reflects the role of workers who are middle managers or managers across a range of community sector organisations. These people work independently and report to executive management, directors or boards of management. They undertake a range of functions requiring the application of knowledge and skills to achieve results in line with the organisation's goals and strategic directions.

At this level, workers have responsibility for planning and monitoring service delivery, recruitment and performance management of other paid or unpaid workers, managing risk and contributing to continuous improvement within the scope of their specific role. This may include management of a specific programs or project, or broader management of a community-based organisation, early childhood education service, not-for-profit organisation or community centre.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

Qualification Description

This qualification reflects the role of individuals who work as family and/or couples relationship counsellors. They may work independently or in organisations, providing counselling interventions, (rather than counselling support) for families and/or couples experiencing relationship issues of a complex nature.

Counselling contexts may include pre- or post- separation and divorce or where the client has involvement with the Family Law system. Counsellors at this level are making high level, independent, complex judgements in highly specialised contexts.

To achieve this qualification, the candidate must have completed 50 hours of work as detailed in the Assessment Requirements of units of competency.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

Entry Requirements

Entry to this qualification is open to individuals who:

- hold an undergraduate degree or higher qualification in Counselling, Psychology, Social Work, Social Science or equivalent
or

- hold a Diploma of Counselling from the CHC Community Services Training Package or equivalent

or

- can provide documented evidence of previous experience in a family counselling environment in a job role involving the self-directed application of knowledge with substantial depth in some areas, the exercise of independent judgement and decision making, and a range of technical and other skills.

Qualification Description

This qualification reflects the role of family dispute resolution practitioners who provide services and interventions for families experiencing high levels of relationship conflict where clients may be involved in the family law system. They may work as independent practitioners or in larger agencies.

Dispute resolution in this qualification has a direct link to the provisions of the *Family Law Act 1975* and the *Family Law (Family Dispute Resolution Practitioners) Regulations 2008*. Practitioners make high level, independent, complex judgements in highly specialised contexts. Some practitioner roles may also involve full responsibility and accountability for all aspects of own work as well as responsibility for broader management functions such as analysis, program planning, budgeting and strategy design.

To achieve this qualification, the candidate must have completed 50 hours of work as detailed in the Assessment Requirements of units of competency.

Entry Requirements

Entry to this qualification is open to individuals who:

- hold an undergraduate degree or higher qualification in Psychology, Social Work, Law, Conflict Management, Dispute Resolution, Family Law Mediation or equivalent or
• hold accreditation under the National Mediator Accreditation System (NMAS)
  or
• hold the Mediation skill set from the Community Services Training Package (CHC)
  or
• can provide documented evidence of previous experience in a dispute resolution environment in a job role involving self-directed application of knowledge with substantial depth in some areas, exercise of independent judgement and decision-making, and a range of technical and other skills.

Qualification Description

This qualification reflects the role of child protection workers who provide specialist services to clients with complex and diverse needs, and act as a resource for other workers. Workers at this level use critical thinking, communication and evaluation skills and make complex judgements in specialist contexts as part of a collaborative team. Their role involves service planning, delivery and evaluation and may include responsibility and accountability for the work of both self and others.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

Entry Requirements

Entry to this qualification is open to individuals who:

- hold an undergraduate degree or postgraduate qualification in a discipline related to work in the community sector

or

- have significant previous experience working in a community sector organisation, in a job role involving the self-directed application of knowledge with substantial depth in a specialist area of practice and the exercise of judgement and decision making

or

- hold CHC50313 Diploma of Child, Youth and Family Intervention or equivalent

Performance Evidence

Evidence of the ability to:

- apply practices that promote innovation within a team including:
  - modelling open and respectful communications
  - contributing to the make-up and rules of the team
  - planning and scheduling of activities
  - reflecting on activities, feedback and challenges to identify improvement options
- encourage others to contribute to innovation in the team
- implement improvements and communicate about them.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain what innovation is, the different types of innovation and the benefits of innovation
- describe the internal and external factors that contribute to a team becoming and remaining innovative including:
  - team characteristics
  - the role of group dynamics and diversity
  - broader environmental factors
- explain how activities can encourage or hinder innovation in a team including:
  - allocation of time and activities
  - modelling behaviour
  - rewards and recognition
  - communications
• feedback.

**Assessment Conditions**

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the creativity and innovation and include access to:

- workplace documents
- case studies and, where possible, real situations
- office equipment and resources
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to create an environment that enables and supports the application of innovative practice focusing on a holistic approach to the integration of innovation across all areas of work practice.

It applies to individuals working in leadership or management roles in any industry or community context. The individual could be employed by the organisation, but may also be an external contractor, the leader of a cross organisation team or of a self-formed team of individuals. The work group could be permanent or temporary in nature.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to:

- use various techniques and tools to stimulate creative or innovative thinking
- research, review and critically analyse trends in thinking and emerging practices as they relate to an organisation’s current thinking and practices
- develop own capacity to lead innovative thinking and practice in an organisational context
- complete a workplace project or case study to demonstrate a comprehensive understanding and application of key concepts, current theories and processes for introducing, communicating, promoting, supporting and sustaining innovative thinking and practices in an organisational context.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- compare and contrast current and past theories and thinking about innovation
- explain how theory and thinking on innovation and creativity can contribute to applied practice
- discuss the impact of leadership style on innovation in organisations, including how specific approaches may encourage or inhibit innovation
- discuss the relevance of organisational and industry context on innovation
- analyse the internal and external conditions or factors that impact on organisational innovation
- outline strategies for identifying, assessing and managing risks associated with innovation
- provide examples of innovation drivers in an organisation
- provide examples of innovation enablers in an organisation
• list and describe mechanisms at system or process level that can support innovative practices
• discuss typical challenges and barriers to innovation within an organisation and ways of overcoming these challenges and barriers.

**Assessment Conditions**

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the creativity and innovation field of work and include access to:

• workplace documentation and resources
• office equipment and materials
• case studies or, where available, real situations
• interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to use and respect copyright. It covers maintaining control over the copyright owner’s work, commercialising copyright material, preventing the unauthorised use of an original work and using other party’s original work legitimately.

It applies to people who may be authors, creators or other owners of works covered by copyright. It also applies to employees who have a role in ensuring that their organisation’s copyright is protected and/or that their organisation uses others’ copyright appropriately to benefit the organisation without infringing the rights of copyright owners.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to:

- review and interpret information to determine how copyright applies in the organisation
- implement and review organisational policies and procedures to ensure that own and others’ original works are protected
- recommend actions to address risks and infringements
- communicate advice or recommendations about copyright to a range of stakeholders
- identify the need for training on copyright and implement training as appropriate.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the legislative framework for copyright and its application to the organisation
- list and describe the types of works that attract copyright
- identify sources of information and advice on copyright
- explain methods to limit or deter unauthorised use of copyright material
- explain direct and indirect infringement
- give examples of action to take if infringement occurs
- give examples of when authorisation for use of copyright material is needed and how to obtain it
- outline different types of licenses and how they apply to the organisation
- outline options for commercialisation of copyright and potential benefits for the organisation.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the regulation, licensing and risk – intellectual property field of work and include access to:

- relevant legislation, regulations, standards and codes
- relevant workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Performance Evidence

Evidence of the ability to:
- systematically identify and implement learning opportunities for others
- collect feedback on team and individual performance
- give and receive feedback from team members to encourage participation in and effectiveness of the team
- collaboratively develop learning plans to match skill needs of individuals and groups
- provide mentoring and coaching assistance to teams and individuals
- monitor and review workplace learning.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:
- describe facilitation techniques to encourage team development and improvement
- outline organisational policies, plans and procedures for developing teams
- identify career paths and competency standards relevant to the industry.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the workforce learning and development field of work and include access to:
- office equipment and resources
- learning and development plans, policies and procedures
- case studies and, where available, real situations
• interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to develop and implement a mentoring program for a particular section or group within an educational organisation, or for a specific business purpose or objective within an enterprise whose core business is not education, or as a collaborative partnership spanning more than one organisation (such as to advance occupational or industry-specific skill needs).

It applies to individuals who plan, develop, implement, monitor and evaluate a mentoring program that results in learning forged through a defined and active learning partnership with a mentor. The program should develop and use tools that enhance both the learning and the phased relationship, and it should be monitored and evaluated to ensure it explores and meets the mentee’s learning needs.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to:

- develop a mentoring program plan in consultation with others including:
  - establishing a management structure
  - determining support structures
  - establishing methods and resources to achieve designated outcomes
  - mentor and mentee selection process
- develop appropriate tools and resources for a mentoring program
- establish mentor-mentee policies and procedures
- coordinate mentor-mentee communications
- evaluate and document results of mentoring program.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain the purposes and benefits of a mentoring program
- outline the components of a mentoring program plan
- explain mentoring program design principles
- explain the roles of a mentor and a mentee
- explain criteria that could be used to screen and match mentors and mentees
- identify legislation and organisational policies relevant to mentoring, including confidentiality and privacy requirements
- explain how resource requirements vary according to the mentoring program mode
- describe how mentoring program data is collected and where data is stored
- outline methods for evaluating and reporting on mentoring programs.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the workforce learning and development field of work and include access to:

- office equipment and resources
- relevant legislation and workplace documents
- case studies and, where available, real situations

**Application**

This unit describes the skills and knowledge required to plan and develop a coaching strategy and to monitor implementation of the coaching program within an organisational context. A coaching strategy may be:

- an internal program forming part of the professional development activities of an educational organisation (such as a Registered Training Organisation) or an enterprise whose core business is not education
- developed for an external client, for example as part of the range of learning services offered or conducted in a collaborative partnership with more than one organisation.

It applies to individuals working to ensure learning advances individual and organisational capabilities. Leaders in learning are typically required to develop and implement coaching strategies in a systematic manner, and to monitor, review and improve strategies to optimise learning outcomes for individuals and the organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to:

- identify the organisation’s standards and values, whether stated or implied by the way the organisation conducts its business
- evaluate own behaviour and performance against these and adjust to achieve required standards
- develop and implement performance plans and key performance indicators (KPIs) to meet organisation’s goals and objectives
- use established communication channels to raise questions about standards and values that may be damaging to the organisation
- ensure own behaviour and performance contributes to the integrity and credibility of the organisation
- facilitate processes to make decisions that are based on:
  - relevant information
  - examination of options and associated risks
  - input from relevant people
- communicate about making and implementing decisions including:
  - facilitating agreement on the preferred course of action and implementation plans
  - monitoring and feedback on the implementation and impact of decisions.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain how to identify an organisation’s standards and values when they are:
  - stated
Assessment Requirements for BSBMGT401 Show leadership in the workplace

- implied
- articulate organisational values and expectations of behaviour
- explain basic theory of group behaviour
- outline the organisation’s process for raising questions about standards and values
- give examples of behaviours and performance that would typically be considered damaging to an organisation
- explain concepts including:
  - organisational values
  - role modelling
  - integrity and credibility
  - leadership.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- relevant workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to implement the operational plan by monitoring and adjusting operational performance, planning and acquiring resources and providing reports on performance as required.

It applies to individuals who plan activities to achieve the measurable, stated objectives of the team and the organisation. At this level work will normally be carried out within routine and non-routine methods and procedures which require planning, evaluation, leadership and guidance of others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Application

This unit describes the skills and knowledge required to implement the organisation’s continuous improvement systems and processes. It covers using systems and strategies to actively encourage the team to participate in the process, monitoring and reviewing performance, and identifying opportunities for further improvements.

It applies to managers who have an active role in implementing the continuous improvement process to achieve the organisation’s objectives. Their position is closely associated with the creation and delivery of products and services which means that they have an important role in influencing the ongoing development of the organisation.

At this level, work will normally be carried out within routine and non-routine methods and procedures, which require planning, evaluation, leadership and guidance of others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to:

- implement continuous improvement systems and provide mentoring and coaching support to enable individuals and teams to participate in decisions, take responsibility, show initiative and implement improvement processes
- implement processes to inform team members about savings and productivity/service improvements achievements
- communicate effectively to support the continuous improvement system and implementation of improvements
- apply continuous improvement to customer services including internal and external customers
- implement, monitor and adjust improvement plans, processes and procedures to improve performance
- document performance to identify further opportunities for improvement
- manage records and reports within the organisation’s systems and procedures.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- give examples of continuous improvement processes
- list typical areas of need for coaching and mentoring to support continuous improvement
- explain how change management techniques can support continuous improvement and initiative
- identify the organisation’s systems and data that can be used for benchmarking and monitoring performance for continuous improvement.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- relevant workplace documentation and resources

Application

This unit describes the skills and knowledge required to supervise staff who perform agreed duties at an alternative site (usually home) during some or all of the scheduled work hours. Off-site work is a flexible employment option that meets all legal and regulatory employment requirements.

It applies to individuals who may be supervisors or team leaders and have responsibility for overseeing the work of off-site staff.

Increasingly, managers and staff are at different locations and the opportunities for face to face communication are reduced. In these cases, individuals must develop different techniques and approaches to ensure quality standards and work outcomes are met.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to:

- implement strategies to facilitate work and provide guidance, supervision and support for off-site staff to meet agreed work outcomes
- facilitate communications with off-site staff, supervisors, managers and other relevant personnel to clarify roles and responsibilities, agree on work outcomes, maintain work relationships and manage performance
- apply feedback and performance management methods for off-site staff.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- give examples of off-site work that are typical in the organisation or industry
- explain challenges that are likely to arise with off-site work and strategies to address them
- outline legal and ethical requirements and organisational policies and procedures that apply to off-site work.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- relevant legislation and regulations
- relevant workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Application

This unit describes the skills and knowledge required to manage the performance of staff who report to them directly. Development of key result areas and key performance indicators and standards, coupled with regular and timely coaching and feedback, provide the basis for performance management.

It applies to individuals who manage people. It covers work allocation and the methods to review performance, reward excellence and provide feedback where there is a need for improvement.

The unit makes the link between performance management and performance development, and reinforces both functions as a key requirement for effective managers.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Application

This unit describes the skills and knowledge required to lead and manage continuous improvement systems and processes. Particular emphasis is on the development of systems and the analysis of information to monitor and adjust performance strategies, and to manage opportunities for further improvements.

It applies to individuals who take an active role in managing a continuous improvement process in order to achieve an organisation’s objectives.

At this level, work will normally be carried out using complex and diverse methods and procedures which require the exercise of considerable discretion and judgement, using a range of problem-solving and decision-making strategies.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to use interpersonal and risk management skills to:
- clearly communicate the organisation’s objectives, values and standards to a range of stakeholders using appropriate media and language
- influence, support and provide resources for individuals and groups to:
  - participate in consultations and decision making processes
  - contribute to innovation and improvements
  - achieve their responsibilities and objectives
- facilitate consultative decision making processes with relevant internal and external stakeholders
- demonstrate ethical conduct and professional competence and continuing professional development
- encourage others to adopt business ethics and build their commitment to the organisation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:
- explain business ethics and their application to leadership
- outline leadership styles and their application in supporting the organisation’s mission, objectives and values
- explain the impact of legislation in providing leadership in the organisation
- explain the organisation’s mission, purpose and values
- describe organisation objectives, plans and strategies
- explain organisational change processes.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- relevant legislation, regulation, standards and codes
- relevant workplace documentation and resources
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Performance Evidence

Evidence of the ability to:

- analyse and evaluate systems and performance in key areas of the organisation and identify opportunities for improvement, seeking advice from experts as appropriate
- promote the value of creativity, innovation and sustainability and recognise successes
- support the testing and trialling of new ideas and undertake risk management and cost-benefit analysis for options
- plan for and implement improvements using organisation’s processes for approvals, project management and change management
- facilitate effective contributions to and communications about continuous improvement and innovation
- capture insights, experiences and ideas for improvements and incorporate them into the organisation’s knowledge management systems and future planning.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline cost-benefit analysis methods
- describe creativity and innovation theories and concepts
- list organisational learning principles
- identify quality management and continuous improvement theories
- describe relevant risk management concepts
- outline relevant sustainability practices.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

- consult and communicate effectively with relevant stakeholders to:
  - confirm or revise the organisation’s mission, vision and values
  - validate findings of research and analysis
  - get input to and endorsement of strategic plans
  - brief relevant parties about the plan
- analyse organisation’s internal and external environment to formulate strategic plans including:
  - background and research relevant to the plan
  - legislation, regulations and codes of practice, including for intellectual property
  - objectives, strategies and priorities
  - roles and responsibilities
  - performance indicators
  - timeframes
  - consideration of co-operative ventures
  - cost-benefit and risk analysis
- seek advice from appropriate experts wherever necessary
- monitor and evaluate the implementation of the plan and make refinements as appropriate
- review effectiveness of planning processes and identify opportunities for improvement.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:
• outline the legislation, regulations and codes of practice relevant to the organisation’s strategic plan.
• give examples of risks and risk management strategies relevant to strategic planning including:
  • intellectual property rights and responsibilities
  • other risks
• outline strategic planning methodologies including political, economic, social and technological (PEST) analysis and strengths, weaknesses, opportunities and threats analysis (SWOT)
• identify internal and external sources of information relevant to the organisation's market, competitors, customer base, vision, values and capabilities
• outline techniques for developing organisational values.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership field of work and include access to:

• relevant legislation, regulations, standards and codes
• workplace documentation and resources
• case studies and, where possible, real situations
• interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Performance Evidence

Evidence of the ability to:
- show development of a sponsorship and event marketing plan that includes:
  - objectives and purpose of strategy
  - a comprehensive rationale
  - a detailed budget
  - an implementation plan
  - methods to measure effectiveness
- implement a sponsorship AND an event marketing strategy, including draft contracts and evidence of negotiations
- evaluate success of sponsorship and event marketing strategy.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:
- explain different sponsorships and events suitable for marketing in own context
- outline methods of evaluating effectiveness of sponsorship and event marketing strategies
- explain sources of advice available on contract requirements for sponsorship and event marketing.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the business development – marketing field of work and include access to:
- office equipment and resources
- relevant workplace documents and data
- case studies and, where possible, real situations.

Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to design marketing campaigns, to implement campaigns and to analyse success of a campaign.

It applies to individuals who possess a sound theoretical knowledge base and who support enterprise or client marketing interests by undertaking a unique set of resourcing, planning and implementation activities.

Depending on size and structure of the organisation, this role generally applies to a person with managerial responsibility, or specialist staff such as a campaign or operations manager.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to:

- work with others to decide a project's quality requirements
- document a quality-management plan
- implement quality control and assurance processes for a defined project using a range of tools and methodologies
- review outcomes and recommend process improvements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain quality management theory
- explain relevant standards that apply in the organisation
- describe quality assurance and control techniques, key tools and methodologies
- describe roles and responsibilities of quality management personnel
- explain methods for managing continuous improvement.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership – project management field of work and include access to:

- project documentation including quality criteria, evidence of quality monitoring and improvement practices
- case studies and, where possible, real situations
- Interaction with others.
Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to identify, analyse and refine project costs to produce a budget, and to use this budget as the principal mechanism to control project cost.

It applies to individuals responsible for managing and leading a project in an organisation, business, or as a consultant.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Oral Communication

- Participates in verbal exchanges using clear language and appropriate non-verbal features
- Uses active listening and questioning to elicit views and opinions of others and confirm understanding

Numeracy

- Uses mathematical formulae to calculate resources against project requirements and to measure work output against predetermined criteria

Navigate the world of work

- Understands and adheres to organisational policies and procedures

Interact with others

- Collaborates with co-workers to negotiate and facilitate shared understanding of individual roles and group objectives
- Manages workplace conflict by recognising contributing factors and implementing resolution strategies

Get the work done

- Develops plans to identify project responsibilities and needs, and allocate project personnel, with an awareness of how this contributes to overall project goals
- Uses analytical skills to review performance and decide on actions needed
- Reflects on how variables impact outcomes to gain insights into concepts that may be adapted in future situations

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- explain escalation and issues management models
- describe frameworks for authority delegations
- identify and analyse organisation or industry governance models in context of the project
- describe project governance plans
- explain methods to moderate and solve conflicts in context of project management.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Management and Leadership – Project Management field of work and include access to:

- examples of project governance documentation
- records of governance implementation in stakeholder and team activities.
Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to undertake a straightforward project or a section of a larger project. It covers developing a project plan, administering and monitoring the project, finalising the project and reviewing the project to identify lessons learned for application to future projects.

This unit applies to individuals who play a significant role in ensuring a project meets timelines, quality standards, budgetary limits and other requirements set for the project.

The unit does not apply to specialist project managers. For specialist project managers, the other units of competency in the project management field (BSBPMG) will be applicable.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to:
- define the parameters of the project including:
  - project scope
  - project stakeholders, including own responsibilities
  - relationship of project to organisational objectives and other projects
  - reporting requirements
  - resource requirements
- use project management tools to develop and implement a project plan including:
  - deliverables
  - work breakdown
  - budget and allocation of resources
  - timelines
  - risk management
  - recordkeeping and reporting
- consult and communicate with relevant stakeholders to generate input and engagement in planning, implementing and reviewing the project
- provide support to team members to enable them to achieve deliverables and to transition them as appropriate at completion of the project
- finalise the project including documentation, sign-offs and reporting
- review and document the project outcomes.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:
• give examples of project management tools and how they contribute to a project
• outline types of documents and other sources of information commonly used in defining the parameters of a project
• explain processes for identifying and managing risk in a project
• outline the organisation’s mission, goals, objectives and operations and how the project relates to them
• explain the organisation’s procedures and processes that are relevant to managing a project including:
  • lines of authority and approvals
  • quality assurance
  • human resources
  • budgets and finance
  • recordkeeping
  • reporting
• outline the legislative and regulatory context of the organisation in relation to project work, including work health and safety (WHS) requirements.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the management and leadership – project management field of work and include access to:

• relevant legislation, regulations, standards and codes
• relevant workplace documentation and resources
• case studies and, where possible, real situations
• interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Performance Evidence

Evidence of the ability to:

- authorise a range of concurrent projects, including:
  - justifying projects and designating project managers through needs analysis
  - conducting project selection and prioritisation
  - making project-authorisation recommendations
- define and plan program scope, including:
  - defining and confirming project- and program-level objectives, major deliverables and resource requirements
  - determining and agreeing measurable outcomes and benefits to enable program performance evaluation
  - developing, agreeing on and communicating scope definition, scope management strategies and plans

Application

This unit describes the skills and knowledge required to identify risks and to apply established risk management processes to a defined area of operations that are within the responsibilities and obligations of the role.

It applies to individuals with a broad knowledge of risk analysis or project management who contribute well developed skills in creating solutions to unpredictable problems through analysis and evaluation of information from a variety of sources. They may have responsibility to provide guidance or to delegate aspects of these tasks to others.

In this unit, risks applicable within own work responsibilities and area of operation, may include projects being undertaken individually or by a team, or operations within a section of the organisation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:
- discuss commonwealth, state/territory and local government legislative requirements and industry codes of practice relating to small business planning
- explain methods of evaluation
- summarise WHS responsibilities and procedures for identifying hazards relevant to the business
- outline planning processes
- describe preparation of a business plan
- identify principles of risk management relevant to business planning
- explain reasons for, and benefits of, business planning
- outline setting goals and objectives
- explain types of business planning – feasibility studies; strategic, operational, financial and marketing planning.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the Management and Leadership – Small and Micro Business field of work and include access to:

- office equipment and resources
- relevant legislation, regulations, standards and codes
- relevant workplace documentation
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Performance Evidence

Evidence of the ability to:

- scope and develop organisational policies and procedures that comply with legislative requirements and support the organisation’s sustainability goals covering at a minimum:
  - minimising resource use
  - resource efficiency
  - reducing toxic material and hazardous chemical use
  - employing life cycle management approaches
  - continuous improvement
- plan and implement sustainability policy and procedures including:
  - agreed outcomes
  - performance indicators
  - activities to be undertaken
  - assigned responsibilities
  - record keeping, review and improvement processes
- consult and communicate with relevant stakeholders to generate engagement with sustainability policy development, implementation and continuous improvement
- review and improve sustainability policies.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the environmental or sustainability legislation, regulations and codes of practice applicable to the organisation identify internal and external sources of information and explain how they can be used to plan and develop the organisation’s sustainability policy
• explain policy development processes and practices
• outline organisational systems and procedures that relate to sustainability
• outline typical barriers to implementing policies and procedures in an organisation and possible strategies to address them.

Assessment Conditions
Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the sustainability field of work and include access to:
• relevant legislation, regulations, standards and codes
• relevant workplace documentation and resources
• case studies and, where possible, real situations
• interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to assist with providing advice about the legislative duties, rights and obligations of individuals and parties prescribed in work health and safety (WHS) legislation. It includes identification of WHS legislation, duties, rights and obligations and the necessary actions to ensure compliance in the workplace.

This unit applies to individuals who assist with providing advice about the legislative duties, rights and obligations of individuals and parties prescribed in WHS laws as part of a systematic approach to managing WHS. This unit applies to people who work in a broad range of WHS roles across all industries.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) are equivalent and generally either can be used in the workplace. In jurisdictions where the Model WHS Legislation has not been implemented RTOs are advised to contextualise the unit of competency by referring to the existing State/Territory OHS legislative requirements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Performance Evidence

Evidence of the ability to assist with:

- determining current work health and safety (WHS) legal requirements for the workplace
- providing advice to parties and individuals about current WHS legal requirements for the workplace, including underpinning principles, legal duties, rights and obligations and WHS regulator functions and powers
- assessing workplace compliance with WHS legislative requirements
- determining the training needs of individuals and parties in relation to WHS requirements
- developing and implementing workplace changes in order to achieve WHS legal compliance.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- detail the duties, rights and obligations of individuals and parties as specified in relevant WHS legislation, and specify the location of relevant information on WHS legislation
- describe the functions and powers of the relevant WHS regulator and how they are exercised
- identify internal and external sources of WHS information, and how to access them
- outline the objectives and principles underpinning WHS legislation
- specify method/s used for:
  - assessing WHS compliance
  - determining training needs in relation to WHS compliance
  - implementing changes to achieve WHS compliance.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced by individuals carrying out work health and safety duties in the workplace and include access to:

- relevant Acts, regulations, codes of practice, standards and guidance material
- relevant workplace documentation
- reports from individuals and parties consulted in ensuring WHS compliance
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements. In addition, assessors for this unit of competency must hold a WHS qualification or equivalent at Diploma level or higher.

Performance Evidence

Evidence of the ability contribute, as appropriate to own job role and work area, to:

- developing work health and safety (WHS) policy
- planning the Work Health and Safety management system (WHSMS) to incorporate return-to-work and injury management procedures and other elements relevant to the work area
- communicating and explaining WHS policy and the WHSMS to others to facilitate their contribution in developing, implementing and evaluating the systems
- implementing the plan
- evaluating WHS performance and communicating the outcomes
- reviewing and improving the WHSMS.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline the elements of the organisation's WHSMS with reference to the relevant commonwealth and state or territory WHS Acts, regulations, codes of practice and standards.
- identify regulatory authority WHSMS tools, standards and guidance material and explain how they apply to the work area
- explain the importance of effective return-to-work and injury management in a WHSMS
- identify limitations of a WHSMS, problems with WHSMS implementation and possible negative effects on WHS
- outline organisational WHS policies, procedures, processes and systems and how they apply to the work area.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced by individuals carrying out work health and safety duties in the workplace and include access to:

- office equipment and resources
- relevant Acts, regulations, codes of practice, standards and guidelines
- workplace WHS policies and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.

Performance Evidence

Evidence of the ability to:

- manage effective work health and safety (WHS) risk management consultation and participation processes including:
  - identifying those who need to be involved
  - reviewing and improving exiting processes
  - ensuring processes are appropriate to the organisation and WHS risks
- arrange for necessary resources during WHS risk management, including:
  - identifying and budgeting for requirements
  - procuring resources and ensuring availability
- review and improve existing WHS risk management processes, including:
  - using workplace information and data
  - consulting with individuals and parties
  - considering effectiveness, current risk controls, lessons learnt from events, changes in the internal and external contexts, emerging risks and performance against indicators
- develop a WHS risk management framework including:
  - using suitable sources of information and data to determine the purposes, objectives, principles and structure
- establish the context for WHS risk management including:
  - identifying duty holders, legislative requirements, impacting individuals, parties and factors
  - defining risk criteria
- assess risks including:
  - identifying hazards
  - undertaking risk analysis and evaluation
  - addressing requirements of WHS legislation, WHS risk assessment and workplace WHS information and data
- control risks including:
• selecting from control options according to outcomes of risk assessment, WHS hazards and risk controls, and WHS legislation
• preparing and implementing risk control measures
• monitor and review the WHS risk management process according to the organisation’s WHS management system (WHSMS) requirements
• record the WHS risk management process according to the organisation’s WHS information system (WHSIS) requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

To complete the unit requirements safely and effectively, the individual must:
• explain different definitions of hazard and risk and how they are used by different individuals and parties
• outline internal and external sources of WHS information and data and how to access them
• identify organisational WHS policies, procedures, processes and systems
• identify other functional areas that impact on the management of WHS
• describe the principles and practices of a systematic approach to managing WHS
• describe the principles of duty of care, including concepts of causation, foreseeability and preventability
• describe the principles of incident causation and injury processes
• list a range of risk analysis and assessment techniques and tools and their application and limitations
• outline relevant and applicable Australian legislation, standards and publications
• define risk as the effect of uncertainty on objectives
• define risk management as a duty of persons conducting businesses or undertakings (PCBUs) or officers under WHS legislation
• give examples of standard industry risk controls for a range of hazards
• outline techniques, tools and processes for identifying health and safety hazards and controlling risks:
  • hazard and risk checklists
  • hazard hunts
  • job safety analyses
  • manifests and registers, including for dangerous goods, hazardous chemicals and plant
  • safe work method statements
  • surveys using questionnaires, interviews and other survey techniques
  • workplace inspections and walk-throughs
• describe toxicology of hazardous chemicals and potential health effects in the workplace.
Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced by individuals carrying out work health and safety duties in the workplace and include access to:

- office equipment and resources
- relevant WHS legislation, standards and guidelines
- workplace policies and procedures
- reports from other parties consulted during the approach to WHS risk management
- case studies and, where possible, real situations
- interaction with others.

Assessors must satisfy NVR/AQTF assessor requirements.

Application

This unit describes the skills and knowledge required to understand signs and sources of stress within the broader framework of the job role and work environment.

It applies to individuals who usually work with some guidance and supervision in an environment where they are likely to encounter difficult customers and situations from time to time. It typically applies in a contact centre environment owing to the very measured, structured, high volume and potentially repetitive nature of the work, but can apply in any work environment.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- provided support to 2 different people living with dementia:
  - using a person-centred approach to support
  - using appropriate communication strategies
  - assisting in implementing a range of suitable activities that meet the person’s needs

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- up to date research on dementia and the different manifestations of dementia, including:
  - Alzheimer’s disease
  - vascular dementia or multi-infarct dementia
  - Lewy bodies
Assessment Requirements for CHCAGE005 Provide support to people living with dementia

- excessive alcohol intake or Korsakov Syndrome
- fronto temporal lobar degeneration (FLTD) including Pick’s disease
- Huntington’s disease
- Parkinson’s disease
- younger onset dementia
- dementia as a progressive neurological condition, including pathological features:
  - amyloid plaques
  - neurofibrillary tangles
  - loss of connection between cells and cell death
- common indicators and symptoms of dementia
- behaviours of concern, needs driven behaviour model and de-escalation procedures

  - reassuring words, phrases and body language
  - validation
  - empathy
  - acceptance of the person’s reality
  - acknowledgement
  - allowing expressions of distress
  - providing verbal and physical reassurance
  - frequent reminiscence to connect with person
Assessment Conditions

Skills must have been demonstrated in an ageing support workplace with the addition of simulations and scenarios where the full range of contexts and situations have not been provided in the workplace. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe, impractical or threatens the dignity of the older person.

The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including individualised plans and any relevant equipment outlined in the plan
- modelling of industry operating conditions, including scenarios that reflect a range of dementia support services involving a range of dementia symptoms and behaviours of concern

Overall, assessment must involve some real interactions with people with dementia, colleagues and families/carers.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

• use of suitable facilities, equipment and resources, including:
  • individualised plans
  • equipment relevant to the persons mobility requirements
  • workplace health and safety manual
  • infection control manual
  • manual handling and lifting/no-lift policies of the organisation
  • equipment manufacturer's instructions
• modelling of industry operating conditions, including:
  • using real people when using equipment
• scenarios that reflect standard operating procedures and contingencies relevant to service

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

Application

This unit describes the skills and knowledge to identify and manage immediate suicide risk and work with the individual to achieve safe outcomes. It includes the requirements for developing a clear safety plan for addressing any immediate danger to the person at risk or others, mobilising access to emergency medical help when needed and facilitating links with further support.

This unit applies to people in formal helping roles in any community service context. Suicide safety may involve face-to-face, telephone or remote contact with the person involved.

_The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice._

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- safely supported at least 2 individuals by performing the activities outlined in the performance criteria of this unit. This includes following support requirements of an established individualised plan and supporting each of the following activities:
  - bed bathing
  - dressing, undressing and grooming
  - eating and drinking using appropriate feeding techniques
  - oral hygiene
  - shaving
  - showering
  - toileting and the use of continence aids
  - using aids and equipment including devices used by the person
- performed the following hazardous manual handling scenarios at least once:
  - transferring a person between bed and chair
  - transferring a person in and out of car
  - falls recovering
Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- different contexts for provision of personal support and impacts on the way services are provided
- role and responsibilities of the personal support providers and workers
- concepts of enablement and re-ablement
- legal and ethical requirements related to the provision of personal support, and how these are applied in an organisation and individual practice:
  - privacy, confidentiality and disclosure
  - duty of care
  - work health and safety, including manual handling
- basics of:
  - body hygiene
  - grooming
  - oral hygiene
  - human body system
- personal safety and security risks associated with provision of personal support and strategies to minimise those risks
- features, functions and safe use of equipment and aids used in provision of personal support and devices used by the person including the importance of adjusting equipment and aids to the needs of the individual
- techniques for completing physical support routines
- infection control procedures
- organisational reporting technologies

Assessment Conditions

Skills must have been demonstrated in a relevant workplace that provides personal support services to people, with the addition of simulations and scenarios where the full range of contexts and situations have not been provided in the workplace. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe, impractical or threatens the dignity of the person. The following conditions must be met for the unit:

- use of suitable facilities and resources including:
  - individualised plans specifying different personal support needs
  - equipment outlined in individualised plans
  - modelling of industry operating conditions including involvement of real people when simulating the provision of service and equipment use

Overall, assessment must involve some real interactions with people who require personal support.
Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
