Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this unit of competency:**

The individual being assessed must provide evidence of specified essential knowledge as well as skills.

This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions.

It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings.

Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible.
Access and equity considerations: All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work. All workers should develop their ability to work in a culturally diverse environment. In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people. Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment: This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged. Resources required for assessment include: access to appropriate workplace where assessment can take place, simulation of realistic workplace setting for assessment, relevant organisation policy, protocols and procedures.

Method of assessment: Observation in the workplace, Written assignments/projects, Case study and scenario analysis, Questioning, Role play simulation.
