This unit of competency could be assessed through practical demonstration of developing a life cycle asset management plan. Targeted written (including alternative formats where necessary) or verbal questioning to assess the candidate's underpinning knowledge would provide additional supporting evidence of competence. The demonstration and questioning would include collecting evidence of the candidate's knowledge and application of ethical standards and relevant federal, and state or territory legislation and regulations. This assessment may be carried out in a simulated or workplace environment.

Critical aspects for assessment and evidence required to demonstrate competency in this unit
A person who demonstrates competency in this unit must be able to provide evidence of:

- conducting a risk analysis and evaluating potential factors that may impact on asset management objectives
- establishing asset management objectives through research and consultation
- knowledge of organisation's practices, ethical standards and legislative requirements associated with developing
a life cycle asset management plan

- organising processes to formulate, review and evaluate an asset management strategy
- preparing a detailed budget outlining resource requirements to support asset management activities.

**Context of and specific resources for assessment**

Resource implications for assessment include:

- a registered provider of assessment services
- competency standards
- assessment materials and tools
- suitable assessment venue and equipment
- workplace documentation
- candidate special requirements
- cost and time considerations.

Where applicable, physical resources should include equipment modified for people with disabilities.

Access must be provided to appropriate learning and/or assessment support when required.

Assessment processes and techniques must be culturally appropriate, and appropriate to the language and literacy capacity of the candidate and the work being performed.

Validity and sufficiency of evidence require that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice with a decision of competence only taken at the point when the assessor has complete confidence in the person's competence
- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence
- where assessment is for the purpose of recognition (RCC/RPL), the evidence provided will need to be current and show that it represents competency demonstrated over a period of time
- assessment can be through simulated project-based activity and must include evidence relating to each of the elements in this unit.

In all cases activity and must include evidence relating to
each of the where practical assessment is used it will be combined with targeted questioning to assess the underpinning knowledge. Questioning will be undertaken in such a manner as is appropriate to the language and literacy levels of the candidate and any cultural issues that may affect responses to the questions, and will reflect the requirements of the competency and the work being performed.
Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Assets** may include:
- static or dynamic assets
- buildings
- equipment
- furniture
- goodwill
- land
- property
- vehicles.

**Asset management objectives** may relate to:
- environmental considerations
- industry benchmarks
- maintenance and repair
- maintenance of asset register
- performance measures.

**Research and survey techniques** may include:
- analysing asset reporting systems
- discussions with colleagues and clients
- group workshops and brainstorming
- interviews and questionnaires
- reviewing documentation, reports and risk management plans
- organisational or industry-based surveys.

**Information** may include:
- asset registers
- depreciation schedules
- details of maintenance schedules
- inventory turnover analysis
- output from dedicated fixed asset software
- residual life of assets
- total purchase and disposals for a period.

**Roles and responsibilities** may be influenced by:
- applicable codes of conduct
- job description and employment arrangements
- organisational policy relevant to work role
- skills, training and competencies
- supervision and accountability requirements, including
Asset management activities may include:

- team structures.
- accounting, including cost accounting
- asset creation and acquisition
- asset maintenance
- asset strategies
- audit and management reviews
- condition and performance monitoring
- disposals
- information and support systems
- operations
- renewals.

Budgets may include:

- assets and liabilities
- budget delegations
- cash flow budgets
- projected expenditure by item
- projected income by source
- reporting mechanisms
- security measures
- variation and review procedures.

Organisational requirements may be outlined and reflected in:

- access and equity principles and practice guidelines
- business and performance plans
- complaint and dispute resolution procedures
- goals, objectives, plans, systems and processes
- legal and ethical requirements and codes of practice
- mission statements and strategic plans
- OHS policies, procedures and programs
- policies and procedures in relation to client service
- quality and continuous improvement processes and standards
- quality assurance and procedure manuals.

Legislative requirements may be outlined and reflected in:

- Australian standards, and quality assurance and certification requirements
- award and enterprise agreements
- codes of practice covering the market sector and industry, financial transactions, taxation, environment, construction, land use, native title, zoning, utilities use (water, gas and electricity), and contract or common law
- environmental and zoning laws affecting access security, access and property use
- general duty of care to clients
- home building requirements
- local regulations and by-laws
- privacy laws applying to owners, contractors and tenants
- relevant federal, and state or territory legislation that affects organisational operation, including:
  - anti-discrimination and diversity
  - environmental issues
  - EEO
  - industrial relations
  - OHS
- strata, community and company titles
- tenancy agreements
- trade practices laws and requirements.

**Factors that may impact on asset management objectives** could relate to:

- actual or estimated residual life
- commercial or technical obsolescence
- effect of planned maintenance
- effective life
- location in life cycle
- prediction of deterioration or failure
- previous inspection date and process
- when constructed, rehabilitated or replaced.

**Comparative market data** may include:

- best practice information
- national and international benchmarking
- inter-organisation comparison data.

**Analysis** may include:

- computer modelling
- examination of cash flows and other financial projections
- examination of collected data
- explorative, descriptive, causative or predictive analysis
- quantitative and qualitative analysis
- probability analysis
- time series recognition.

**Performance criteria** may relate to:

- age
- condition assessment
- cost
- depreciation
- downtime
- emergency operation and backup
- functionality
- life span
- maintenance requirements and cost
- replacement
- security
- service levels.

**Resources** may include:
- materials
- personnel
- tools and equipment
- training
- transport.

**Quality assurance goals and strategies** may include:
- a formal structure against which progress can be evaluated
- budgets and timetables that enable the commitment of resources at appropriate points in the project
- compliance with Australian standards
- contingency plans to cater for a change of corporate focus or significant project difficulties
- continuous improvement strategies
- mechanisms for involving a wide variety of interested parties or stakeholders in the project
- procedures for monitoring and evaluating project outcomes and client satisfaction
- reducing risk by anticipating, evaluating and developing strategies for the management of possible problems
- reporting procedures and protocols.

**Relevant people** may include:
- clients
- engineers and technicians
- government personnel
- installers
- legal representatives
- management and colleagues
- property owners
- site personnel
- subcontractors
- technical experts
- tenants.

**Relevant documentation** may include:
- certification, including inspection certificates
- costings, receipts and invoices
- logs of equipment and system problems or faults
- operational checks and maintenance conducted
- parts and components replaced and materials used
- planning permits
- property leases, plans or contracts
- recommendations for repairs
- service and maintenance records
- testing and commissioning results
- warranty conditions and allowances.

**Business equipment and technology** may include:
- data storage devices
- email
- facsimile machines
- internet, extranet and intranet
- photocopiers
- printers
- scanners
- software applications, such as databases and word applications
- work computers.

**Evaluation methods** could be qualitative or quantitative and may include:
- checklists
- cost data analysis
- expert and peer review
- interviews
- observation
- questionnaires
- review of quality assurance data.

Unit Descriptor

Unit descriptor
This unit of competency specifies the outcomes required to manage the performance of a property investment. It requires the ability to source and analyse market information, assess industry trends and develop performance criteria to measure and monitor performance of property investments.

The unit may form part of the licensing requirements for persons working in the property industry, including in the real estate, business broking, stock and station agency and property operations and development sectors, in those States and Territories where these are regulated activities.

Application of the Unit

Application of the unit
This unit of competency supports the work of those involved in managing the performance of a property investment.

Licensing/Regulatory Information

ELEMENT PERFORMANCE CRITERIA

identify facts, issues, patterns, interrelationships and trends.

4.3 Trends are accurately assessed to provide meaningful information on performance of property investment.

4.4 Factors increasing or diminishing investment risk are identified, analysed and discussed with client.

4.5 Sound reasoning is applied to ensure consistency of interpretations based on available information.

4.6 Information is securely maintained with due regard to client confidentiality, and legislative and organisational requirements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

Required skills:

- analytical skills to apply statistical methods and techniques
- computing skills to access the internet and web pages, prepare and complete online forms, lodge electronic documents and search online databases
- interpersonal skills to relate to people from a range of social, cultural and ethnic backgrounds and varying physical and mental abilities and liaise with property investment stakeholders
- organisational skills to maintain records and databases, organise and prepare property investment information and build property investment models
- problem solving skills to determine factors that may affect property markets
- research skills to analyse and interpret property and market information and identify relevant sources of information
- technology skills to use financial and assessment software and spreadsheets.

Required knowledge and understanding:

- a range of research methods and analysis techniques
- budgeting methods and techniques
- concepts and strategies for placement of capital in property for investment
- current property and investment market
- economics as it applies to property development
- ethical practices and relevant codes of conduct
- industry benchmarks
REQUIRED SKILLS AND KNOWLEDGE

- local property market conditions and overall trends in the industry
- relevant federal and state or territory legislation and local government regulations related to:
  - anti-discrimination
  - consumer protection
  - environmental issues
  - equal employment opportunity (EEO)
  - financial probity
  - franchise and business structures
  - industrial relations
  - OHS
  - privacy
  - property sales, leasing and management
- taxation as it applies to property development.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Overview of assessment

This unit of competency could be assessed through practical demonstration of managing the performance of a property investment. Targeted written (including alternative formats where necessary) or verbal questioning to assess the candidate's underpinning knowledge would provide additional supporting evidence of competence. The demonstration and questioning would include collecting evidence of the candidate's knowledge and application of ethical standards and relevant federal, and state or territory legislation and regulations. This assessment may be carried out in a simulated or workplace environment.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to provide evidence of:

- analysing property investment information and identifying property trends and risk factors
- interpreting and applying applicable legal, ethical and organisational requirements
- arranging required resources to support the
implementation of performance measurement strategies

- establishing performance criteria to assess property investment performance through an assessment of sourced market information
- knowledge of organisation's practices, ethical standards and legislative requirements associated with managing the performance of a property investment
- testing the performance of property investments against market parameters
- using suitable analysis methods and techniques to identify and assess economic trends, market data and developments.

**Context of and specific resources for assessment**

Resource implications for assessment include:

- a registered provider of assessment services
- assessment materials and tools
- candidate special requirements
- competency standards
- cost and time considerations
- suitable assessment venue and equipment
- workplace documentation.

Where applicable, physical resources should include equipment modified for people with disabilities.

Access must be provided to appropriate learning and/or assessment support when required.

Assessment processes and techniques must be culturally appropriate, and appropriate to the language and literacy capacity of the candidate and the work being performed.

Validity and sufficiency of evidence require that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice with a decision of competence only taken at the point when the assessor has complete confidence in the person's competence
- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence
- where assessment is for the purpose of recognition (RCC/RPL), the evidence provided will need to be
current and show that it represents competency demonstrated over a period of time

- assessment can be through simulated project-based activity and must include evidence relating to each of the elements in this unit.

In all cases activity and must include evidence relating to each of the where practical assessment is used it will be combined with targeted questioning to assess the underpinning knowledge. Questioning will be undertaken in such a manner as is appropriate to the language and literacy levels of the candidate and any cultural issues that may affect responses to the questions, and will reflect the requirements of the competency and the work being performed.
Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the performance criteria is detailed below. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Property investment* may include:

- concepts and plans
- strategies and placement of capital in property for investment
- productive use of property and assets
- customer service outcomes.

*Clients* may be:

- developers
- financial institutions
- fund managers
- individuals
- internal departments
- internal and external property groups
- investment organisations
- joint ventures
- owner-occupiers
- partners
- small and large principals
- unit trustees.

*Relevant people* may include:

- accountants
- agents
- analysts
- clients
- government personnel
- legal representatives
- management and colleagues
- members of industry associations
- site personnel
- taxation specialists.

*Client needs and expectations* may relate to:

- immediate capital gains
- long-term capital gains.

*Consultative processes* may include:

- face-to-face meetings
- telephone, facsimile and written communication.
Information may include:
- bank reports
- general knowledge of industry
- government statistics
- industry reports and indices
- market intelligence from industry operators or other interested parties
- media reports
- published analytical reports.

Legislative requirements may be outlined and reflected in:
- Australian standards
- general duty of care to clients
- home building requirements
- privacy requirements
- relevant federal, and state or territory legislation that affects organisational operation, including:
  - anti-discrimination and diversity
  - environmental issues
  - EEO
  - industrial relations
  - OHS
- codes of practice covering the market sector and industry, financial transactions, taxation, environment, construction, land use, native title, zoning, utilities use (water, gas and electricity), and contract or common law
- strata, community and company titles
- tenancy agreements
- trade practices laws and guidelines.

Organisational requirements may be outlined and reflected in:
- access and equity principles and practice guidelines
- business and performance plans
- complaint and dispute resolution procedures
- goals, objectives, plans, systems and processes
- legal and ethical requirements and codes of practice
- mission statements and strategic plans
- OHS policies, procedures and programs
- policies and procedures in relation to client service
- quality and continuous improvement processes and standards
- quality assurance and procedure manuals.

Analysis may include:
- computer modelling
- examination of cash flows and other financial projections
- examination of collected data
- quantitative and qualitative analysis
- probability analysis
- time series recognition.

**Market conditions** may be influenced by:
- availability of alternatives
- business confidence
- economic conditions
- level of competition.

**Performance criteria:**
- may include:
  - quantitative and qualitative assessments
  - may be:
    - financial and non-financial
    - statistical and non-statistical.

**Risks** may relate to:
- age of property
- asset allocation and investment spread
- borrowing risk
- gearing
- alternative investments
- competitive development
- exit strategy and investment scenario analysis
- interest rates
- level of regulation
- lifestyle choices
- market and property sector risks, including:
  - fluctuations in economic cycle
  - interest rates
  - stock market
- technology in use
- tenancy security
- volatility of income and capital.

**Quality assurance goals and strategies** may include:
- a formal structure against which progress can be evaluated
- budgets and timetables that enable the commitment of resources at appropriate points in the project
- compliance with Australian standards
- contingency plans to cater for a change of corporate focus or significant difficulties
- continuous improvement strategies
- mechanisms for involving a wide variety of interested parties or stakeholders in the project
- procedures for monitoring and evaluating project outcomes and client satisfaction
- reducing risk by anticipating, evaluating and developing strategies for the management of possible problems
Targets and milestones may include:
- reporting procedures and protocols.
- agreed reporting requirements
- asset life cycle reporting
- completion of key tasks
- measurement and achievement of set outcomes.

Documentation may include information relating to:
- budgets and operating costs
- legal documentation
- management policy and procedures
- property leases, plans or contracts
- service and maintenance records
- sub-plans, including environment, human resource management and marketing.

Resources may include:
- materials, tools and equipment
- personnel
- training
- transport.

Market parameters may relate to:
- ability to control investment
- administrative talent
- balancing a portfolio
- capacity to improve assets
- capital growth versus short-term gains
- cash flows
- class and type of property
- demographics
- exit strategies
- gearing possibilities
- geographic aspects
- limits to the financial resources
- market standing
- return on investment
- return versus risk
- taxation considerations.

4.4 Regular reports on property portfolio management activities are provided to relevant people.
4.5 Information is securely maintained with due regard to client confidentiality, and legislative and organisational requirements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

Required skills:

- analytical skills to interpret financial data, assess property performance, and research property or facility application and usage and benchmark for optimisation
- communication skills to negotiate leases, purchases and rent reviews
- computing skills to access the internet and web pages, prepare and complete online forms, lodge electronic documents and search online databases
- interpersonal skills to relate to people from a range of social, cultural and ethnic backgrounds and varying physical and mental abilities
- literacy skills to interpret written and oral information, including property portfolio plans
- organisational skills to implement and review the portfolio management system and develop and complete strategies within established timeframes
- research skills to analyse and interpret property investment documentation and identify relevant sources of information
- technical skills to develop reports.

Required knowledge and understanding:

- a range of research methods and analysis techniques
- administration of property or facility usage plans
- contract law and property performance
- cost-in-use issues such as occupancy costs, service charges and maintenance costs
- industry practice and benchmarks
- lease rights and responsibilities
- life cycle costing
- local property market conditions and overall trends in the industry
- organisational and professional procedures, ethical practices and business standards
- relevant federal and state or territory legislation and local government regulations
REQUIRED SKILLS AND KNOWLEDGE

related to:

- anti-discrimination
- consumer protection
- environmental issues
- equal employment opportunity (EEO)
- financial probity
- franchise and business structures
- industrial relations
- OHS
- privacy
- property sales, leasing and management
- risk management associated with property portfolio management.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Overview of assessment

This unit of competency could be assessed through practical demonstration of planning the management of a property portfolio. Targeted written (including alternative formats where necessary) or verbal questioning to assess the candidate's underpinning knowledge would provide additional supporting evidence of competence. The demonstration and questioning would include collecting evidence of the candidate's knowledge and application of ethical standards and relevant federal, and state or territory legislation and regulations. This assessment may be carried out in a simulated or workplace environment.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

A person who demonstrates competency in this unit must be able to provide evidence of:

- assessing risk and identifying portfolio performance constraints through analysis of asset life cycle, class and use
- conducting analysis of portfolio performance requirements against sourced market information and industry benchmarks
- designing and documenting strategic plans for the
review of the portfolio management system

- determining client performance expectations through consultation and conducting research of relevant documentation and legislation
- knowledge of organisation's practices, ethical standards and legislative requirements associated with planning and managing a property portfolio
- preparing plans and reports on portfolio management and suggesting improvements through systematic review of portfolio management against set criteria.

**Context of and specific resources for assessment**

Resource implications for assessment include:

- a registered provider of assessment services
- assessment materials and tools
- candidate special requirements
- competency standards
- cost and time considerations
- suitable assessment venue and equipment
- workplace documentation.

Where applicable, physical resources should include equipment modified for people with disabilities.

Access must be provided to appropriate learning and/or assessment support when required.

Assessment processes and techniques must be culturally appropriate, and appropriate to the language and literacy capacity of the candidate and the work being performed.

Validity and sufficiency of evidence require that:

- competency will need to be demonstrated over a period of time reflecting the scope of the role and the practical requirements of the workplace
- where the assessment is part of a structured learning experience the evidence collected must relate to a number of performances assessed at different points in time and separated by further learning and practice with a decision of competence only taken at the point when the assessor has complete confidence in the person's competence
- all assessment that is part of a structured learning experience must include a combination of direct, indirect and supplementary evidence
- where assessment is for the purpose of recognition (RCC/RPL), the evidence provided will need to be current and show that it represents competency demonstrated over a period of time
• assessment can be through simulated project-based activity and must include evidence relating to each of the elements in this unit.

In all cases activity and must include evidence relating to each of the where practical assessment is used it will be combined with targeted questioning to assess the underpinning knowledge. Questioning will be undertaken in such a manner as is appropriate to the language and literacy levels of the candidate and any cultural issues that may affect responses to the questions, and will reflect the requirements of the competency and the work being performed.
Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the performance criteria is detailed below. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Portfolio performance** may relate to:
- concepts and plans
- customer service outcomes
- productive use of property and assets
- strategies and placement of capital in property for investment.

**Clients** may include:
- developers
- financial institutions
- fund managers
- internal and external property groups
- investment organisations
- joint ventures
- owner-occupiers
- partners
- unit trustees.

**Relevant people** may include:
- accountants
- analysts
- clients
- government personnel
- legal representatives
- management and colleagues
- members of industry associations
- supervisors
- taxation specialists.

**Client needs and expectations** may relate to:
- immediate capital gains
- long-term capital gains.

**Risk** may relate to:
- access restrictions on property
- borrowing risk
- gearing
- market and property sector risks, including:
  - fluctuations in economic cycle
  - interest rates
• stock market
• risk factors and return expectations
• specific property risk
• volatility of income and capital.

**Industry benchmarks** may include:
• discounted cash flow
• employment rates
• industry association performance index
• inflation rate
• internal rate of return
• life cycle costing
• published vacancy factors
• tenancy mix.

**Market conditions** may be influenced by:
• availability of alternatives
• business confidence
• economic conditions
• level of competition.

**Performance of portfolio** may be influenced by:
• capacity to improve assets
• capital growth versus short-term gain
• cash flows
• change to organisational structure
• demographics
• gearing possibilities
• geographic aspects
• limits to financial resources
• return on investment
• return versus risk
• taxation considerations
• type of property or facility.

**Legislative requirements** may be outlined and reflected in:
• Australian standards
• general duty of care to clients
• home building requirements
• privacy requirements
• relevant federal, and state or territory legislation that affects organisational operation, including:
  • anti-discrimination and diversity
  • environmental issues
  • EEO
  • industrial relations
  • OHS
• relevant industry codes of practice covering the market sector and industry, financial transactions, taxation, environment, construction, land use, native title, zoning,
utilities use (water, gas and electricity), and contract or
common law
• strata, community and company titles
• tenancy agreements
• trade practices laws and guidelines.

**Organisational requirements** may be outlined and reflected in:
• access and equity principles and practice guidelines
• business and performance plans
• complaint and dispute resolution procedures
• emergency and evacuation procedures
• employer and employee rights and responsibilities
• goals, objectives, plans, systems and processes
• legal and ethical requirements and codes of practice
• mission statements and strategic plans
• OHS policies, procedures and programs
• policies and procedures in relation to client service
• policies and procedures relating to own role and responsibility
• quality and continuous improvement processes and standards
• quality assurance and procedure manuals
• records and information systems and processes.

**Asset life cycle** is:
• acquisition
• disposal
• operation and maintenance
• planning for and establishing a new asset.

**Class** of assets in portfolio may include:
• infrastructure
• land
• land and improvements
• plant and equipment.

**Asset information** may be contained within:
• business plans
• comparative market data
• depreciation schedules
• financial documents
• government statistics
• marketing plans
• property valuation statements
• qualitative and quantitative data
• reports and inventories
• taxation records.

**Strategic issues** may relate to:
• changes in return on investment expectations
• political considerations
• portfolio balance
Evaluated refers to evaluation methods that could be qualitative or quantitative and may include:

- the environment.
- checklists
- cost data analysis
- expert and peer review
- interviews
- observation

CSCOFM304A Protect the safety and welfare of young offenders

Modification History
CSCOFM304A Release 2: Layout adjusted. No changes to content.
CSCOFM304A Release 1: Primary release.

Unit Descriptor
This unit of competency describes the outcomes required to ensure the protection of young people who are in detention as a result of court orders and who need special supervision.

Application of the Unit
This unit can be applied using a combination of training outcomes and performance in the workplace, with the principal evidence developed through performance in routine work functions in the workplace.
Customisation will be required to accommodate the different work sites and defined work role contexts in which this unit will be applied.

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the required performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

<td>2.3 Ensure that special needs are referred to specialist support according to referral protocols and procedures.</td>
</tr>
<tr>
<td></td>
<td>2.4 Use special protective strategies based on the interests and needs of young offenders and the level of assessed risk.</td>
</tr>
<tr>
<td></td>
<td>2.5 Identify a range of programs for individual young offenders and provide information and support to access recommended programs.</td>
</tr>
<tr>
<td></td>
<td>2.6 Provide information about responsibilities, statutory mandates and consequences of options for the safety and protection of young offenders to key people and agencies.</td>
</tr>
<tr>
<td></td>
<td>2.7 Comply with processes for monitoring and evaluating participation in programs and support provided by specialist services.</td>
</tr>
<tr>
<td></td>
<td>2.8 Assess the implications for use of a <em>range of options</em> and incorporate in planning and negotiating with young offenders and their supporters.</td>
</tr>
</tbody>
</table>
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

**Required skills:**
- applying appropriate communication techniques to workplace situations
- assessing risks, special needs and developmental levels for young offenders
- checking and confirming with reliable sources inside and outside the organisation the accuracy and relevance of information
- analysing information for assessment of risks, special needs and significant changes
- taking responsibility for duty of care outcomes based on the degree of risk and the special needs of young offenders, including personal contact
- preserving the rights and responsibilities of young offenders and their safety and welfare
- making conclusions that are clearly based on available information
- clearly establishing expectations and boundaries in workplace relationships
- willingness to adapt to changes and new circumstances with flexibility
- openness to ideas of others
- using communication strategies to resolve problems and conflict
- providing supervision and care, based on assessed risk and justifiable degree of care and concern
- responding to emergencies.

**Required knowledge:**
- categories of risk identified in the organisation's risk management plans and relevant to the offender
- procedures and requirements for reporting risks and incidents involving young offenders
- legislation relevant to work role and responsibilities and service guidelines, such as:
  - reporting sexual and other abuse
  - responding to emergencies
  - reporting incidents
  - supervision and surveillance of offenders at risk
  - protective supervision of offenders at risk of harm
  - access to information and restriction of access
  - appropriate relationships with offenders
  - appropriate relationships with colleagues
  - rights and responsibilities of offenders
  - referral to specialist and support agencies
  - suicide prevention strategy
• special needs of offenders
• organisation's code of conduct, code of ethics and duty of care
• range of specialist support services and programs available to young offenders
• processes for getting advice and assistance when there are problems
• cultural practices that will have an impact on decisions made about what allowances are made and permission given
• impact of popular beliefs on values, attitudes and behaviour
• current issues facing young people
• context of criminal behaviour in young people
• social, political, historical and economic context of the response of the justice system to criminal behaviour in young people.
Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Overview of assessment

The knowledge requirements of this unit may be assessed off the job, for example, in a structured learning process, and performance outcomes, which should be assessed ideally in the workplace in routine activities and in conjunction with other units with specific functional focus.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of employability skills as they relate to this unit.

Context of and specific resources for assessment

This unit should be assessed in the work environment and using evidence drawn from the routine application of work performance.

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered by an individual when working with young offenders
- copies of legislation, policies, procedures and guidelines relating to working with young offenders within the organisation
- case studies and workplace scenarios to capture the range of situations that may be encountered when working with young offenders
- access to appropriate learning and assessment support when required.

Method of assessment

The following assessment methods are suggested:

- observation of performance in routine workplace activities within a range of agreed responsibilities and in various work locations
- written and/or oral questioning to assess knowledge and
understanding

- completion of workplace documents and reports produced as part of routine work activities
- third-party reports from experienced practitioners
- completion of performance feedback from supervisors and colleagues.

**Guidance information for assessment**

Assessment methods should reflect workplace demands, and any identified special needs of the candidate, including language and literacy implications and cultural factors that may affect responses to the questions.

In all cases where practical assessment is used it will be combined with targeted questioning to assess the underpinning knowledge.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Assessing the needs* may be achieved by:

- case management
- referral to specialist teams and agencies
- special observation
- counselling
- reviewing history of breaches and disciplinary action
- involvement of family and social support
- medical referral
- peer support programs
- cultural programs
- program intervention.

*Risks* may refer to:

- death, including suicide
- self-harm
- physical injury
- assaulting and harming others
- illness
- physical, emotional and sexual abuse
- harassment and bullying
- accidents
- criminal actions
- risk taking
- social isolation
- depression
- family and personal trauma
Personal needs of young offenders may be addressed by:

- social and cultural alienation.
- preparing documentation for court processes
- obtaining a decision from a court process
- using communication techniques, such as:
  - active listening
  - reflective, summarising questions and statements
  - gaining agreement on actions
  - appropriate language and questioning techniques
- action planning
- setting boundaries for roles and actions
- demonstrating empathy and rapport building
- conflict management
- managing grief and change processes
- negotiating agreement.

Procedures may refer to:

- organisational policies, procedures and guidelines
- federal, and state or territory legislation
- program procedures and guidelines
- court orders and conditions of sentencing.

Range of options may include:

- case management
- programmed intervention
- classification and review
- need and risk assessment
- reporting and referring systems
- protective care
- routine and incident reports
- review of sentence plan
- investigations
- dynamic security
- security system.

Unit Descriptor

This unit of competency describes the outcomes required to implement effectively and confidently the security policies of the organisation. It covers the competency to assess and respond to general security risks.

Application of the Unit

This unit is a core unit for all certificate qualifications and applies to all people working in detention centres, correctional centres or prisons, community corrections offices, justice administration offices and on work sites where detainees, prisoners or offenders are under statutory supervision. Candidates will not hold statutory responsibility and will be supervised in their work duties.

Licensing/Regulatory Information

## Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

### Required skills:

- complying with security procedures
- using equipment for the purpose and in the manner intended and authorised
- operating and checking routine activities and equipment for security factors
- identifying faults in security procedures and problems in equipment and practices
- giving advice to others about security
- responding to incidents and emergencies
- using information systems

### Required knowledge:

- an awareness of all aspects of organisation's policies, objectives, principles, philosophy, strategic plans and procedures relevant to security
- environmental or sustainability legislation, regulations and codes of practice applicable to industry
- requirements for incident records and reports
- requirements for emergency evacuation
- use of equipment and safety procedures
- faults and potential problems and the requirements for reporting them
- risks and emergencies and the requirements for identifying and responding to them
- strategies for reducing and managing risk factors
- duty of care responsibilities and requirements
## Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

### Overview of assessment

Evidence for assessment must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.

### Critical aspects for assessment and evidence required to demonstrate competency in this unit

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of employability skills as they relate to this unit
- the application of security procedures followed in a range of contexts (two or more) over time

### Context of and specific resources for assessment

Valid assessment of this unit requires:

- access to a workplace environment or one that closely resembles normal work practice and replicates the range of security conditions likely to be encountered by an individual working alone and as part of a team
- access to a range of communication equipment relevant to the workplace
- access to emergency resources
- copies of legislation, policies, procedures and guidelines relating to security in the organisation
- access to appropriate learning and assessment support when required

### Method of assessment

The following assessment methods are suggested:

- observation of performance in routine workplace activities within a range of agreed responsibilities and in various work locations
- written and/or oral questioning to assess knowledge and understanding
- completion of workplace documents and reports produced as part of routine work activities
- third-party reports from experienced practitioners
- simulations conducted in training programs
- completion of performance feedback from supervisors and colleagues

**Guidance information for assessment**

This unit should be assessed in conjunction with all other units with components of safety and security.

The unit contains knowledge that may be assessed off the job, for example in a structured learning process, and performance outcomes that should be assessed ideally in the workplace in routine activities and in conjunction with other units with specific functional focus.

Assessment methods should reflect workplace demands, and any identified special needs of the candidate, including language and literacy implications and cultural factors that may affect responses to the questions.

In all cases where practical assessment is used it will be combined with targeted questioning to assess the underpinning knowledge.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Security and emergency procedures** must include:

- all aspects of organisation's policies and procedures relevant to security relating to own work role
- security guidelines
- supervision, management and accountability for movements and activities of staff, offenders and members of the public
- use and maintenance of general security equipment relevant to work roles and responsibilities
- relevant legislation and statutory requirements governing work role in the justice system

**Security risks** include any emergency identified by an organisational risk analysis, which may include:

- bomb
- building invasion/armed invasion
- civil disorder
- death - accidental, natural, homicide or suicide
- deliberate self-harm
- escapes
- failure of utilities
- fire
- flood
- hazardous substances incidents
- hostage situations
- medical emergencies
- preservation of crime scene
<table>

</tr>
</tbody>
</table>

- Appropriate equipment and terminology for emergency warnings may include:
  - personal duress alarms
  - audible or visual alarms
  - audible or vibrating pagers
  - communications technology, including radios
  - coded or uncoded public address announcements
  - screen or monitor alerts
  - home detention anklets
  - itemisers
  - Biometrics
  - Biometrics as entry systems

- Routine review of security procedures and responses may include:
  - briefings
  - debriefings
  - critical incident stress debriefing
  - emergency exercises or simulations
  - table or desktop exercises
  - local emergency procedure training sessions

- Up-to-date and accurate records may be written, electronic or paper-based and may include:
  - computer databases
  - daily logs
  - occurrences or movement logs
  - journal records
  - incident reports
  - standard organisational forms
  - maintenance schedules
CSCSAS206A Respond to medical emergencies

Modification History
CSCSAS206A Release 2: Layout adjusted. No changes to content.
CSCSAS206A Release 1: Primary release.

Unit Descriptor
This unit of competency describes the outcomes required to maintain the immediate safety and welfare of individuals in a medical emergency. The unit covers emergency response and first aid and would apply to all staff in correctional services.

Application of the Unit
This unit applies to all people working in detention centres, correctional centres or prisons, community corrections offices, justice administration offices and on work sites where detainees, prisoners or offenders are under statutory supervision. Candidates will not hold statutory responsibility and will be supervised in their work duties.
Training Package users should ensure implementation is consistent with any specific workplace and/or relevant legislative requirements in relation to first aid, including state or territory requirements for currency.
Application may be contextualised as required to reflect workplace requirements relating to specific risks and hazards and associated injuries.

Licensing/Regulatory Information

| 1 Provide an immediate response to urgent conditions. | 1.1 Identify alarm codes and responses for medical emergencies.  
1.2 Control any **hazards** and consider the safety of self, the casualty and others in all action taken.  
1.3 Assess the casualty's condition in line with **established first aid principles**.  
1.4 Call for medical support according to the nature and urgency of the casualty's condition.  
1.5 Provide first aid management and monitor the casualty's **vital signs** according to established first aid principles.  
1.6 Record and report incidents and own response according to organisational requirements.  
1.7 Participate in incident debriefing and counselling according to organisational policies. |
| 2 Supervise an incident site. | 2.1 Assess the degree of risk and apply **emergency procedures** if required, considering the safety of self and others in all actions taken.  
2.2 Maintain a calm and confident manner in all communication and actions.  
2.3 Comply precisely with your organisation's occupational health and safety (OHS) and infection control guidelines.  
2.4 Call for specialist help if required and according to the urgency of the situation.  
2.5 Report all aspects of the incident and response accurately and according to the required process. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Required skills:

- assessing hazards and risks to safety and welfare
- applying infection control precautions and other OHS guidelines
- applying established first aid principles
- calling an ambulance and providing relevant details
- assessing and monitoring condition of casualty
- communicating effectively and assertively in a medical emergency
- recording and documenting reports on medical emergencies.

Required knowledge:

- organisation's policies and procedures relating to responding to medical emergencies
- responsibilities of first responding officer
- basic principles of and concepts underlying the practice of first aid
- priorities of management in first aid when dealing with life-threatening conditions
- OHS requirements in the provision of first aid
- infection control principles and procedures
- first aiders' skills and limitations
- organisation's reporting procedures and format
- duty of care responsibilities and humane treatment.
Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Overview of assessment

Assessment of this unit can be applied using a combination of training outcomes and performance in the workplace or in a suitable simulation that draws upon the context or range of applications appropriate to the workplace and the defined work role and responsibilities.

Because of the unpredictable factors included in this unit, assessment in the workplace may depend on indirect or supplementary evidence, particularly the use of simulations or practice drills.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of employability skills as they relate to this unit
- ability to respond to medical emergencies in a range of (two or more) contexts or occasions, over time.

Context of and specific resources for assessment

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when responding to medical emergencies, including coping with difficulties, irregularities and breakdowns in routine
- copies of legislation, policies, procedures and guidelines relating to medical responses to emergency situations
- access to appropriate learning and assessment support when required.

Method of assessment

Evidence must include observation and information generated in the workplace as well as observation of performance in routine work functions or, where this is not possible, in a simulated exercise to confirm the transferability of the
The following assessment methods are suggested:

- observation of performance in routine workplace activities within a range of agreed responsibilities and in various work locations
- written and/or oral questioning to assess knowledge and understanding
- completion of workplace documents and reports produced as part of routine work activities
- third-party reports from experienced practitioners
- completion of performance feedback from supervisors and colleagues
- scenarios
- simulations or role plays.

**Guidance information for assessment**

Assessment methods should reflect workplace demands, and any identified special needs of the candidate, including language and literacy implications and cultural factors that may affect responses to the questions.

In all cases where practical assessment is used it will be combined with targeted questioning to assess the underpinning knowledge.

# Required Skills and Knowledge

## REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- communication, teamwork and literacy skills sufficient to:
  - interpret and clarify written or verbal instructions
  - write content in a style appropriate to target users and audience
  - communicate information to specific audiences
  - structure text-based content effectively for target audiences and delivery format
  - work collaboratively in a team environment - both independently on assignment and under direction
  - respond positively to constructive feedback
- conceptual skills sufficient to generate a range of text-based content ideas in response to a brief
- technical skills sufficient to:
  - proficiently use word processing tools
  - check and proofread written content using manual and automated systems
- self-management and planning skills sufficient to:
  - prioritise work tasks
  - source information and reference material in a timely fashion
  - meet deadlines
  - seek expert assistance when problems arise

### Required knowledge

- industry knowledge, including:
  - roles and responsibilities of project team members
  - issues and challenges that arise when writing content
- understanding the way readers scan and read written material
- writing and communication principles for the relevant medium
- writing and presentation techniques for the relevant medium
- sound knowledge of grammar and punctuation
- media laws sufficient to identify defamation and obscenity and seek expert advice on issues that could lead to legal action
- copyright clearance procedures
- OHS as it relates to working for periods of time on computers
# Evidence Guide

## EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

<table>
<thead>

## Range Statement

**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Production requirements** may include:

- availability of staff
- budget
- confidentiality
- contractual
- copyright
- deadlines
- duration of items for on-air presentation
- editing process
- intellectual property
- location
- number of content items
- schedule
- specified number of words
- station procedures.

**Content** may include:

- community service announcements
- copy for interactive media products
- copy for newsletters or other print media
- intros, outros and back announcements
- items for wikis
- news and current affairs items for community broadcasting
- on-air presentation material
- sponsorship announcements
- surveys:
  - online
  - print
  - telephone polling.

**Relevant personnel** may include:

- asset creators
- authors
- broadcasters
- clients
- content experts

Required Skills and Knowledge

REQUIRED KNOWLEDGE & SKILLS

Knowledge requirements include:
- company policy and procedures
- knowledge or awareness of relevant acts and regulations
- legal systems and procedures
- industry codes of practice
- computer systems
- procedure writing

Skills requirements include:
- computerised spreadsheet and database
- data analysis and interpretation
- evaluative and general analytical skills
- negotiation and interpersonal skills
Evidence Guide

EVIDENCE GUIDE

Assessment of performance requirements in the unit should be undertaken in an industry context. The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competency for the unit. Competency is demonstrated by performance of all stated criteria including the Range Statement applicable to the workplace.

Overview of assessment requirements

To achieve competency in this unit, a person must be able to demonstrate:
- knowledge of relevant industry and legislative requirements
- knowledge of relevant company policies and procedures
- knowledge of relevant security measures for preparing and banking receipts
- ability to batch monetary items
- ability to prepare deposit facilities
- ability to lodge flows

Critical aspects of evidence

Evidence required for demonstration of consistent performance:

Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statement and contexts applicable to the work environment.

Delivery/relationship to other units:

This unit may be assessed on its own or it may be assessed with other units that cover related skills and knowledge.

Evidence is most relevant when provided through an integrated activity which combines the elements of competency for the unit, or a cluster of units of competency.

Assessment requirements

Method of assessment:

For valid and reliable assessment of this unit, evidence must be gathered through a range of methods to indicate consistent performance.

Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning.
on underpinning knowledge and skills and other methods as required.

**Context of assessment:**

Assessment of performance requirements in this unit should be undertaken within the financial services industry context and should cover aspects of personal/financial responsibility and accountability.

Aspects of competency, including the attainment of relevant knowledge and skills, may be assessed in a relevant workplace, a closely simulated work environment, or other appropriate means that clearly meet industry competency requirements.

**Resources required for assessment:**

Unless otherwise specified, there are no significant resource implications for assessment of this unit, apart from access to a relevant workplace or closely simulated office environment and the use of a range of office equipment, technology and consumables. These may include standard commercial computer hardware, software, telephones, facsimiles, and other relevant office equipment.

**Range Statement**
The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that will affect performance.

The following variables may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts. If **bold italicised** text is shown in Performance Criteria, details of the text are provided in the Range Statement.

**Batches** are: grouped receipts treated as a separate transaction entity

**Deposits facilities** may include:
- bank deposit slip
- direct debit transaction report

**Banking methods** may include:
- personal
- through third party security company
- pick-up

**Security measures** may include:
- banking of all negotiable instruments on day received
- all batches posted on day of receipt
- cash management processes

**Company policy and procedures** may include:
- operations manual
- internal control guidelines
- computer system documentation

**Industry and legislative requirements** may cover:
- Australian Accounting Standards
- relevant insurance act
- Consumer Credit legislation
- Privacy Act
- Taxation Act
- industry code of practice
- Australian Securities and Investments Commission (ASIC) Code
- Trade Practices Act
- Stamp Duties Act

**Proof of lodgement** may include:
- bank stamped deposit facility
- verified transaction listing

Evidence Guide

EVIDENCE GUIDE

Assessment of performance requirements in the unit should be undertaken in an industry context. The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competency for the unit. Competency is demonstrated by performance of all stated criteria including the Range Statement applicable to the workplace.

Overview of assessment requirements

To achieve competency in this unit, a person must be able to demonstrate:

- knowledge of organisational policies and procedures for processing journal entries
- knowledge of industry and legislative requirements for processing journal entries
- ability to check and verify supporting documentation
- ability to prepare journals
- ability to authorise journals
- ability to enter data into organisational accounting systems
- ability to check journal processing reports
- ability to file documentation

Critical aspects of evidence

Evidence required for demonstration of consistent performance:

Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statement and contexts applicable to the work environment.

Delivery/relationship to other units:

This unit may be assessed on its own or it may be assessed with other units that cover related skills and knowledge.

Evidence is most relevant when provided through an integrated activity which combines the elements of competency for the unit, or a cluster of units of competency.

Assessment requirements

Method of assessment:

For valid and reliable assessment of this unit, evidence must be gathered through a range of methods to indicate consistent performance.

Assessment of this unit of competence will
usually include observation of processes and procedures, oral and/or written questioning on underpinning knowledge and skills and other methods as required.

**Context of assessment:**
Assessment of performance requirements in this unit should be undertaken within the financial services industry context and should cover aspects of personal/financial responsibility and accountability.

Aspects of competency, including the attainment of relevant knowledge and skills, may be assessed in a relevant workplace, a closely simulated work environment, or other appropriate means that clearly meet industry competency requirements.

**Resources required for assessment:**
Unless otherwise specified, there are no significant resource implications for assessment of this unit, apart from access to a relevant workplace or closely simulated office environment and the use of a range of office equipment, technology and consumables. These may include standard commercial computer hardware, software, telephones, facsimiles, and other relevant office equipment.

**Range Statement**
The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that will affect performance.

The following variables may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts. If **bold italicised** text is shown in Performance Criteria, details of the text are provided in the Range Statement.

- ability to read and interpret financial data
- communication skills
- ability to relate to people from a range of social, cultural and ethnic backgrounds
- ability to work to set timelines
Evidence Guide

EVIDENCE GUIDE

Assessment of performance requirements in the unit should be undertaken in an industry context. The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competency for the unit. Competency is demonstrated by performance of all stated criteria including the Range Statement applicable to the workplace.

Overview of assessment requirements

To achieve competency in this unit, a person must be able to demonstrate:
accurate and timely preparation and processing of financial documents in accordance with the organisation's policies and procedures

Critical aspects of evidence

Evidence required for demonstration of consistent performance:
Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statement and contexts applicable to the work environment.

Delivery/relationship to other units:
This unit may be assessed on its own or it may be assessed with other units that cover related skills and knowledge.
Evidence is most relevant when provided through an integrated activity which combines the elements of competency for the unit, or a cluster of units of competency.

Assessment requirements

Method of assessment:
For valid and reliable assessment of this unit, evidence should be gathered through a range of methods to indicate consistent performance.
Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on underpinning knowledge and skills and other methods as required.

Context of assessment:
This unit may be assessed in the workplace or in a simulated environment.

Resources required for assessment:
Assessment of this unit of competence
requires access to company policies and practices and the technology/systems used by the company to provide services to customers.

Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that will affect performance.

The following variables may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts. If **bold italicised** text is shown in Performance Criteria, details of the text are provided in the Range Statement.

**Information** may include:
- names
- addresses
- amounts of money/figure
- dates
- account numbers/card numbers/cheque numbers

**Documents** may include:
- application forms
- claim forms
- petty cash vouchers
- invoices
- purchase orders
- receipts
- credit notes
- statements
- deposit books
- delivery dockets
- remittance advice
Appropriate personnel may include: supervisor, manager, account department, accounts clerk, petty cash officer

Organisational procedures may include: legal and organisation policy and guidelines, procedures for entering and balancing deposits, procedures for checking validity of cheques and card vouchers, security procedures, cash handling procedures, Australian Accounting and Auditing Standards

Legislation and regulations may include: award and enterprise agreement, occupational health and safety (OH&S) legislation, privacy, equal employment opportunity (EEO) legislation, Anti-discrimination legislation

Validity may include: signature, dates, amounts

Banking documentation may include: withdrawal forms, deposit slips/books, cheques

Banking guidelines may include: cash bundled, accurate forms, banking summary provided, banking electronically

Evidence Guide

EVIDENCE GUIDE

Assessment of performance requirements in the unit should be undertaken in an industry context. The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competency for the unit. Competency is demonstrated by performance of all stated criteria including the Range Statement applicable to the workplace.

Overview of assessment requirements

To achieve competency in this unit, a person must be able to demonstrate:
knowledge of organisational reporting format standards
ability to develop reports to specifications
ability to access report data
ability to analyse data
ability to prepare reports
ability to distribute reports to relevant parties

Critical aspects of evidence

Evidence required for demonstration of consistent performance:

Competition in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statement and contexts applicable to the work environment.

Delivery/assessment relationship to other units:

This unit may be assessed on its own or it may be assessed with other units that cover related skills and knowledge.

Evidence is most relevant when provided through an integrated activity, which combines the elements of competency for the unit, or a cluster of units of competency.

Assessment requirements

Method of assessment:

For valid and reliable assessment of this unit, evidence should be gathered through a range of methods to indicate consistent performance.

Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on underpinning knowledge and skills and
other methods as required.

**Context of assessment:**

Assessment of performance requirements in this unit should be undertaken within the financial services industry context and should cover aspects of personal/financial responsibility and accountability.

Aspects of competency, including the attainment of relevant knowledge and skills, may be assessed in a relevant workplace, a closely simulated work environment, or other appropriate means that clearly meet industry competency requirements.

**Resources required for assessment:**

Unless otherwise specified, there are no significant resource implications for assessment of this unit, apart from access to a relevant workplace or closely simulated office environment and the use of a range of office equipment, technology and consumables. These may include standard commercial computer hardware, software, telephones, facsimiles, and other relevant office equipment.

**Range Statement**
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that will affect performance.

The following variables may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts. If **bold italicised** text is shown in Performance Criteria, details of the text are provided in the Range Statement.

**Modelling tools** may include:
- interaction of financial data as it flows from the source to the required output
- a process for testing assumptions against a variety of scenarios

**Response** may involve:
- taking action in respect of management requests/ recommendations

**Company requirements and timelines** may include:
- policy documentation
- verbal instructions
- written instructions
- internal control guidelines
- computer system documentation

**Unit Sector(s)**
Not applicable.

**Relationship to other units**
This unit replaces FNSICORG302A.
This unit replaces FNSICORG302A.
HLTAHW507B Work effectively in social and emotional well being

Modification History
Not Applicable

Unit Descriptor
Unit Descriptor
This unit describes the skills and knowledge required as an introduction for an Aboriginal or Torres Strait Islander health worker to provide social and emotional well being support.

It addresses the rights and responsibilities of the position, the system in which this work is undertaken and the professional boundaries and cultural issues relating to this type of work.

Application of the Unit
Application
Application of the skills and knowledge described in this unit will vary greatly according to the community in which that individual will work.

Regional differences between communities mean that health workers from different areas may have different roles with different skill and knowledge needs.

Licensing/Regulatory Information

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

1. Work within the context of social and emotional well being

1.1 Acknowledge differences between roles of social and emotional well being workers and Aboriginal Primary Health Care workers as appropriate

1.2 Identify difficulties that the worker may encounter in carrying out their role in the community and take into consideration in the work

1.3 Take into account the changing role of females and males within Aboriginal and Torres Strait Islander communities in service delivery

1.4 Work within the role and limitations of the worker's job definition and community expectations of their role
### ELEMENT

2. Work within the legal and ethical boundaries of the social and emotional well being worker

#### PERFORMANCE CRITERIA

2.1 Complete documentation in accordance with legal and ethical requirements

2.2 Maintain confidentiality in accordance with organisational policies and protocols

2.3 Include traditional healers in the health team as appropriate

2.4 Liaise with other organisations as appropriate

2.5 Consider the rights of the individual in all work undertaken within the social and emotional well being area

2.6 Carry out duties within the Mental Health Act (or equivalent) as required for social and emotional well being work

3. Work is undertaken with the clients involved with the justice system

3.1 Advocate for and support clients involved with the justice system as appropriate and in accordance with organisational policies and protocols

3.2 Identify and observe the role and limitations of social and emotional well being work within the justice system

3.3 Access the processes of the justice system that will impact on clients on behalf of clients as appropriate

4. Maintain accountability and responsibilities

4.1 Access and work in accordance with organisation policies and procedures in regard to workers

4.2 Undertake all work within the organisation's reporting and accountability frameworks

4.3 Follow organisation occupational health and safety guidelines

4.4 Access information to clarify the employer's responsibilities to the worker

4.5 Observe organisation requirements for participation in processes as appropriate (eg. in regard to performance appraisal systems)
5. Observe professional boundaries when working

5.1 Define, understand and communicate professional boundaries to clients in a culturally appropriate manner

5.2 Maintain confidentiality when working with clients and other agencies

5.3 Observe organisational boundaries when working with clients and other agencies

5.4 Clarify organisation expectations with particular regard to the professional and personal boundaries in social and emotional well being work in relation to counselling other staff, or advising management on staff counselling

6. Complete relevant documentation

6.1 Collect information (ie. data) as required to the complete workplace documentation

6.2 Complete documentation appropriate to the social and emotional well being work role in line with organisation requirements and reporting arrangements (such as reports to funding bodies)

7. Demonstrate commitment to the philosophy of social and emotional well being

7.1 Demonstrate in all work undertaken, understanding and consideration of the underpinning values and philosophy of social and emotional well being in the context of Aboriginal and/or Torres Strait Islander health work

7.2 Demonstrate in all work undertaken, commitment to the empowerment of Aboriginal and/or Torres Strait Islander people and access and equity principles

7.3 Give clients, family and community opportunity to participate in service planning and support activities

7.4 Plan and implement social and emotional well being work taking into account personal values, history, experiences and family/kinship
ELEMENT

8. Work with people from culturally and linguistically diverse backgrounds

PERFORMANCE CRITERIA

8.1 Demonstrate in all work undertaken consideration and understanding of cultural and linguistic differences

8.2 Adapt all work to meet the specific cultural and linguistic needs of clients
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Traditional healing
- Cultural law and its consequences
- Rights as employees - industrial awards, duty of care, occupational health and safety, worker's compensation
- Support systems available for employees - e.g. counselling, unions, professional associations
- The role, rights and responsibilities relating to social and emotional well being work:
  - legal responsibilities to clients, organisation and self
  - reporting responsibilities
  - accountability to organisation and community
  - confidentiality requirements for social and emotional well being work
  - ethical responsibilities
  - professional boundaries
- Justice system and its processes
- Mental Health Act and relevant regulations
- Conflict resolution and mediation
- Stress management techniques
- The changing roles of Aboriginal men and women in communities
- Broad knowledge of:
  - government structures
  - political structures
  - adult guardianship
  - rights of clients
REQUIRED SKILLS AND KNOWLEDGE

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Undertake social and emotional well being work with a range of clients within the legal and ethical boundaries of the social and emotional well being worker and with a commitment to the philosophy of social and emotional well being
- Maintain the professional boundaries of the work role and address accountability and responsibilities appropriately
- Address the needs of clients from culturally and linguistically diverse backgrounds
- Balance expectations of the organisation, the community and clients in undertaking social and emotional well being work

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Use high level effective communication skills
- Apply skills in
  - liaising and networking
  - problem solving skills
  - conflict resolution
  - assertiveness
  - stress management
  - advocacy
- Work within a team

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects of assessment:
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

Conditions of assessment:
This unit includes skills and knowledge specific to Aboriginal and/or Torres Strait Islander culture
Assessment must therefore be undertaken by a workplace assessor who has expertise in the unit of competency or who has the current qualification being assessed and who is:
- Aboriginal or Torres Strait Islander him/herself
or:
- accompanied and advised by an Aboriginal or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

It is critical that in assessing this unit, consideration is given to the sensitive nature of some aspects of the unit, particularly as they apply to Aboriginal and/or Torres Strait Islander history and culture
EVIDENCE GUIDE

Method of assessment: Assessment methods should be sensitive to emotional reactions of individuals being assessed, and it is highly recommended that access be made available as required to support, such as counselling in social and emotional well being.

Assessment should include a combination of:

- Small group discussions and participation
- Role play/simulation
- Workbooks
- Case studies
- Self assessment journals

Context of assessment: Competence should be demonstrated working individually, under supervision or as part of a primary health care team working with Aboriginal and/or Torres Strait Islander clients.

Assessment should replicate workplace conditions as far as possible.

Related units: This unit may be assessed independently or in conjunction with other units with associated workplace application.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Cultural respect

This competency standard supports the recognition, protection and continued advancement of the inherent rights, cultures and traditions of Aboriginal and Torres Strait Islander peoples.

It recognises that the improvement of the health status of Aboriginal and Torres Strait Islander people must include attention to physical, spiritual, cultural, emotional and social well being, community capacity and governance.

Its application must be culturally sensitive and supportive of traditional healing and health, knowledge and practices.

Community control

Community participation and control in decision-making is essential to all aspects of health work, and the role of the health worker is to support the community in this process.

Supervision

Supervision must be conducted in accordance with prevailing state/territory and organisation legislative and regulatory requirements.

References to supervision may include either direct or indirect supervision of work by more experienced workers, supervisors, managers or other health professionals.

A person at this level should only be required to make decisions about clients within the organisation’s standard treatment protocols and associated guidelines.
RANGE STATEMENT

Legislative requirements

Federal, state or territory legislation may impact on workers' practices and responsibilities. Implementation of the competency standards should reflect the legislative framework in which a health worker operates. It is recognised that this may sometimes reduce the application of the Range of Variables in practice. However, assessment in the workplace or through simulation should address all essential skills and knowledge across the Range of Variables.

Aboriginal and/or Torres Strait Islander Health Workers may be required to operate in situations that do not constitute 'usual practice' due to lack of resources, remote locations and community needs. As a result, they may need to possess more competencies than described by 'usual practice circumstances'.

Under all circumstances, the employer must enable the worker to function within the prevailing legislative framework.

The context of social and emotional well being may include:

- Statutory framework with which the work takes place
- Facts/myths about mental health
- History of the local Aboriginal and/or Torres Strait Islander people
- Remoteness and access to other services
- Traditional/cultural context
- Historical context of the work, such as changing attitudes to mental health, alcohol and drug use, changing approaches to working with clients
- Changing social context of the work, such as consumer-centred approach, changing government and societal views on mental health, alcohol and drugs, de-institutionalisation
- Political context (e.g. government policies and initiatives affecting mental health, community controlled health, community funding)
- Economic context (e.g. the current economic status of the client and how it impacts on their mental health, alcohol and drug issues and other addictions)
RANGE STATEMENT

*Services may include:*  
- Counselling  
- Advocacy  
- Practical support  
- Assessment, treatment and management of clients  
- Referral processes  
- 'Back to Country' principles

*Different models of work may include:*  
- Community development and education  
- Mental health (social and emotional well being) promotion  
- Case management/shared case management  
- Working with families  
- Psychological, alcohol and drug rehabilitation models  
- Peer support/self help  
- Crisis intervention  
- Early intervention models  
- Prevention models  
- Clinical mental health services  
- Residential services  
- Respite care  
- Home based support/community support  
- Traditional healing
RANGE STATEMENT

Stakeholders and representatives include:

- Clients
- Carers
- Family, friends, peers, community
- Clinical mental health services
- Drug and alcohol teams
- Drug and alcohol rehabilitation facilities
- Local community elders
- Government agencies (eg. Family and Children’s Services)

And may include:

- Community organisations
- Client support networks
- Government representatives, agencies and service providers
- Accommodation services
- Financial support services
- Employment services
- Vocational support services
- Youth groups
- Sexual assault services/refuges

Underpinning values and philosophies of the sector include:

- Empowerment for Aboriginal and Torres Strait Islander people
- A holistic client centred approach to service delivery
- Promotion of social and emotional well being
- Early intervention strategies
- Prevention strategies
- Delivery of culturally appropriate services
- Commitment to meeting the needs and upholding the rights of clients
- Encouragement of personal growth and development towards recovery and wellness
RANGE STATEMENT

Commitment to principles of access and equity refers to:

- Creation of a client centred culture in service delivery and support
- A non discriminatory approach to all people using the services
- Ensuring that all work allows catering for differences

Cultural and linguistic differences include:

- Different cultural and social contexts
- Local cultural protocols and traditions
- English as a second or third language, use of Kriol
- Social variables that impact on mental illness

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Participate in a facilitated group healing process | 1.1 Develop and agree to rules for participation in a healing group as part of a group, ensuring safety, confidentiality and cultural security during and after the process  
1.2 Practise verbal and non-verbal communication skills within the group  
1.3 Practise self reflection and record key issues  
1.4 Disclose self selected past emotional influences with the group involved in the healing process and relate to the present situation and potential future issues  
1.5 Examine trans-generational trauma with the group using appropriate techniques |
ELEMENT

2. Observe local cultural traditions and practice

PERFORMANCE CRITERIA

2.1 Acknowledge traditional ownership of the land and seek permission to allow the healing process to take place on the land

2.2 Recognise the presence of traditional land owners in the healing process, including their role in the spiritual aspects of the healing process

2.3 Clarify local kinship structures, roles and obligations through discussion with elders

2.4 Acknowledge the importance of the support processes of extended families in preparation for healing and in undergoing a healing process

2.5 Discuss cultural grieving processes

2.6 Support self-expression and healing through art, dancing, storytelling, singing and/or painting
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. This includes knowledge of:

- Communication
- Story telling therapies
- Male & female perspectives
- Trans-generational trauma
- Story maps
- Alternative therapies - art, music
- Professional boundaries
- Referral processes
- Joint counselling techniques
- Local language, culture & practices
- Self healing journey processes

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Use appropriate verbal and non-verbal communication to understand and support self and others within the context of a healing process
- Apply self reflection practices and disclosure to facilitate a healing process for self and others
- Acknowledge and clarify the contribution of traditional roles, structures and processes to the healing process
- Use appropriate techniques to support the healing process through self-expression

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of...
REQUIRED SKILLS AND KNOWLEDGE
the identified work role
This includes the ability to apply skills in:
- Communication
- Sharing
- Keeping a journal
- Referral
- Self healing/self reflection

Evidence Guide
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects of assessment:
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

Resource implications:
- To deliver and assess in this unit it is essential that the trainer/assessor have special skills in group therapy and facilitation, with particular experience and expertise in working with and empathy for Aboriginal and/or Torres Strait Islander people in community settings
- It is essential for the delivery of this unit that back up counselling arrangements for unexpected or unusual traumas are arranged and made available
EVIDENCE GUIDE

Conditions of assessment: This unit includes skills and knowledge specific to Aboriginal and/or Torres Strait Islander culture.

Assessment must therefore be undertaken by a workplace assessor who has expertise in the unit of competency or who has the current qualification being assessed and who is:

- Aboriginal or Torres Strait Islander him/herself

or:

- accompanied and advised by an Aboriginal or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

It is critical that in assessing this unit, consideration is given to the sensitive nature of some aspects of the unit, particularly as they apply to Aboriginal and/or Torres Strait Islander history and culture.

Method of assessment: Assessment methods should be sensitive to emotional reactions of individuals being assessed, and it is highly recommended that access be made available as required to support, such as counselling in social and emotional well being.

Context of assessment:

- A bush/residential setting is preferred for delivery of this competency to ensure that the participants are able to complete, or work with their colleagues to support their completion of, a healing journey away from external influences such as work or home (though with sufficient proximity to their home to enable them to deal with emergencies that may arise)

- The setting will also enable the participants to appreciate and acknowledge the cultural practices and healing of the traditional landowners and traditional healers in the appropriate context.
EVIDENCE GUIDE

Related units: This unit may be assessed independently or in conjunction with other units with associated workplace application

Range Statement
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Cultural Respect

This competency standard supports the recognition, protection and continued advancement of the inherent rights, cultures and traditions of Aboriginal and Torres Strait Islander peoples. It recognises that the improvement of the health status of Aboriginal and Torres Strait Islander people must include attention to physical, spiritual, cultural, emotional and social well being, community capacity and governance. Its application must be culturally sensitive and supportive of traditional healing and health, knowledge and practices.

Community Control

Community participation and control in decision-making is essential to all aspects of health work, and the role of the health worker is to support the community in this process.
RANGE STATEMENT

Supervision

Supervision must be conducted in accordance with prevailing State/Territory and organisation legislative and regulatory requirements.

References to supervision may include either direct or indirect supervision of work by more experienced workers, supervisors, managers or other health professionals.

A person at this level should only be required to make decisions about clients within the organisation's standard treatment protocols and associated guidelines.

Legislative Requirements

Federal, State or Territory legislation may impact on workers' practices and responsibilities. Implementation of the competency standards should reflect the legislative framework in which a health worker operates. It is recognised that this may sometimes reduce the application of the Range of Variables in practice. However, assessment in the workplace or through simulation should address all essential skills and knowledge across the Range of Variables.

Aboriginal and/or Torres Strait Islander Health Workers may be required to operate in situations that do not constitute 'usual practice' due to lack of resources, remote locations and community needs. As a result, they may need to possess more competencies than described by 'usual practice circumstances'.

Under all circumstances, the employer must enable the worker to function within the prevailing legislative framework.
RANGE STATEMENT

A facilitated group healing process includes:

- Sharing self selected past emotional influences
- Reflection
- Emotional support
- Confidentiality
- Examination of trans-generational trauma
- Self healing process
- Different therapies and techniques, such as story telling, art therapy, local traditional therapies, family genograms, narrative therapy
- Male and female perspectives
- Local traditional healers and/or community elders

Past emotional influences may include (but not be limited to):

- Death/loss of a family member, friend or community member
- Loss of a friend
- Loss of country
- Removal of a relative (stolen generations)
- Removal of self from family
- Birth of a child
- End of a marriage/relationship (self or family)
- Suicide or self harm of family member, friend, community member
- Sexual assault, abuse of self, family member, community member, friend
- Domestic/family violence
- Loss of a job
- Cultural issues

Process of acquisition of this competency unit must include:

- Support from counsellors (preferably Aboriginal and/or Torres Strait Islander) with appropriate experience in working with Aboriginal and/or Torres Strait Islander people to provide support where personal issues arise that require additional support or counselling

Additional support may be required from:

- Local community elders
- Traditional healers
- Specialist counselling services

ELEMENT

2. Provide a healing response to loss, grief and/or trauma

   2.1 Determine appropriate healing response to loss, grief and/or trauma in relation to the needs of each situation and the individuals involved

   2.2 Provide appropriate support and available resources to assist individuals and families to deal with their loss, grief and/or trauma

   2.3 Provide timely referral as appropriate to support ongoing healing in line with the needs of the situation and individuals involved

   2.4 Maintain duty of care, confidentiality and cultural protocols

3. Maintain individual and community safety and cultural security in response to trauma

   3.1 Recognise effects of stress on individuals and communities in relation to experiences of loss, grief and trauma, including transgenerational trauma and grief

   3.2 Identify culturally appropriate strategies for responding to stress at the community, family and individual levels

   3.3 Monitor own stress level in relation to working in the area of loss, grief and trauma, including transgenerational trauma and grief and use appropriate stress management strategies
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Concepts of loss and grief
- Nature and effects of psychological trauma
- Effects of spiritual trauma
- Effects of transgenerational trauma and grief
- Effects of colonisation and institutional racism on Aboriginal people
- Cultural protocols and taboos
- Organisational codes of conduct and ethical codes
- Referrals to specialist services
- Indicators of health issues e.g. substance misuse, mental illness
- Statutory responsibilities including duty of care requirements
- Narrative therapy approaches
- Negative effects of stress/stress indicators
- Symptoms of post traumatic stress
- Awareness of own values and attitudes around loss, grief and trauma
- Organisational policies and practices

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Develop culturally appropriate responses to situations of loss, grief and trauma
- Address safety issues effectively

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of
REQUIRED SKILLS AND KNOWLEDGE
the identified work role
This includes the ability to apply skills in:
- Counselling
- Cultural
- Culturally appropriate approaches to therapy
- Communication
- Networking
- Negotiation
- Assessment
- Dealing with cross-cultural issues
- Stress management

Evidence Guide
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects of assessment:
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
EVIDENCE GUIDE

Conditions of assessment: This unit includes skills and knowledge specific to Aboriginal and/or Torres Strait Islander culture.

Assessment must therefore be undertaken by a workplace assessor who has expertise in the unit of competency or who has the current qualification being assessed and who is:

- Aboriginal or Torres Strait Islander him/herself
- accompanied and advised by an Aboriginal or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

Context of assessment: A bush/residential setting is preferred for delivery of this competency to ensure that the participants are able to complete, or work with their colleagues to support their completion of, a healing journey away from external influences such as work or home (though with sufficient proximity to their home to enable them to deal with emergencies that may arise).

The setting will also enable the participants to appreciate and acknowledge the cultural practices and healing of the traditional landowners and traditional healers in the appropriate context.

Related units: This unit may be assessed independently or in conjunction with other units with associated workplace application.

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Cultural respect

This competency standard supports the recognition, protection and continued advancement of the inherent rights, cultures and traditions of Aboriginal and Torres Strait Islander peoples.

It recognises that the improvement of the health status of Aboriginal and Torres Strait Islander people must include attention to physical, spiritual, cultural, emotional and social well being, community capacity and governance.

Its application must be culturally sensitive and supportive of traditional healing and health, knowledge and practices.

Community control

Community participation and control in decision-making is essential to all aspects of health work, and the role of the health worker is to support the community in this process.

Supervision

Supervision must be conducted in accordance with prevailing state/territory and organisation legislative and regulatory requirements.

References to supervision may include either direct or indirect supervision of work by more experienced workers, supervisors, managers or other health professionals.

A person at this level should only be required to make decisions about clients within the organisation's standard treatment protocols and associated guidelines.
RANGE STATEMENT

Legislative requirements

Federal, state or territory legislation may impact on workers' practices and responsibilities. Implementation of the competency standards should reflect the legislative framework in which a health worker operates. It is recognised that this may sometimes reduce the application of the Range of Variables in practice. However, assessment in the workplace or through simulation should address all essential skills and knowledge across the Range of Variables.

Aboriginal and/or Torres Strait Islander Health Workers may be required to operate in situations that do not constitute 'usual practice' due to lack of resources, remote locations and community needs. As a result, they may need to possess more competencies than described by 'usual practice circumstances'.

Under all circumstances, the employer must enable the worker to function within the prevailing legislative framework.

Losses may include:

- Loss of family/community member
- Loss through disability/illness
- Loss through miscarriage/abortion
- Loss of culture/language/community/land
- Loss of livelihood/house/possessions
- Loss through incarceration
- Losses incurred through the effects of institutional racism

Trauma may include:

- Physical
- Psychological
- Spiritual
- Emotional (transgenerational)

Communities may include:

- Traditional
- Rural, remote or metropolitan
- Individuals or groups within a community
- People with specified needs
RANGE STATEMENT

Healing responses may include:

- Individual, family, couple counselling
- Group work
- Involvement of elders
- Community action
- Oral, written, audio-visual resources
- Narrative approach

Resources may include:

- Those of the organisation
- Those acquired from other agencies
- System/support/administration/policy
- Material/financial/facilities/equipment
- Developmental/information/training
- Information technology

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Apply knowledge of the basic structure of the healthy human body | 1.1 Use accepted health terminology to describe the normal structure, function and location of the *major body systems*
| | 1.2 Apply a basic understanding of the fundamental principles of maintaining a healthy body
| | 1.3 Work with knowledge of the major components of each body system and their location in relation to other structures
| 2. Apply basic knowledge of factors that support healthy functioning of the body | 2.1 Work with a basic understanding of how to maintain the whole body in an overall state of health
| | 2.2 Work with a basic understanding of the relationships between body systems required to *support healthy functioning*
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Basic structure and functions of the body systems and associated components, including
  - cardiovascular system
  - respiratory system
  - musculo-skeletal system
  - endocrine system
  - nervous system
  - digestive system
  - urinary system
  - reproductive system
  - integumentary system
  - lymphatic system
  - the special senses - smell, taste, vision, equilibrium and hearing
  - cells, tissues and organs
- Basic maintenance for a healthy body

Essential skills:
The candidate must demonstrate the ability to do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Use and articulate accurately common health terminology related to human anatomy and physiology
- Apply essential knowledge as outlined to own work role
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- Evidence must demonstrate the individual's ability to apply their knowledge within the requirements of an identified modality of health care or support services to a specific age group
- Consistency of application of knowledge should be demonstrated over the required range of workplace applications relevant to an identified work role

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible.
- Where, for reasons of safety, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible.
- Resources for assessment may include access to materials and space as required to demonstrate competence, such as:
  - anatomical models, charts and/or diagrams
  - relevant technology - internet and CD-ROM
  - workplace or simulated work environment

Method of assessment:

- Assessment must include questioning (verbal and written) to address Essential Knowledge as outlined in this unit

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

*Major body systems include:*

- Cardiovascular system
- Respiratory system
- Musculo-skeletal system
- Endocrine system
- Nervous system
- Digestive system
- Urinary system
- Reproductive system
- Integumentary system
- Lymphatic system
- The special senses - smell, taste, vision, equilibrium and hearing

*Processes, conditions and resources required by the body to support healthy functioning may include but are not limited to:*

- Body regulation including
  - maintenance of body temperature
  - body fluids (including e.g. absorption of water from digestive system, loss of water through skin, distribution of water by cardiovascular system)
  - elimination of wastes from the body
  - maintenance of blood pressure
- Protection from infection
- Physical activity - active and passive

Unit Descriptor
Descriptor
This unit of competency describes a detailed level of knowledge of anatomy and physiology required to confirm physical health status

Application of the Unit
Application
The application of knowledge and skills described in this competency unit may relate to functions such as providing information to clients or assisting in the provision of health care services

Work at this level may require guidance and/or supervision, especially where provision of direct client services are involved

Some disciplines may require a state/territory regulatory determination regarding delegation and supervision

</table>
| 1. Obtain information about physical health status | 1.1 Work with a detailed understanding of the structure and functioning of body systems  
  1.2 Take into account the range of factors that may have impacted on an identified physical condition  
  1.3 Obtain information through observation and/or questioning to identify any actual or potential problems regarding health status |
| 2. Check physical health status | 2.1 Use detailed knowledge of the structure and functioning of body systems to check health status prior to delivering health intervention or service in line with plan of care  
  2.2 Clarify the significance of physical health status in relation to a particular intervention in line with job role and organisation requirements  
  2.3 Consult appropriate person to clarify implications and significance of physical health status in the case of uncertainty or limits on own capability or authority |
3. Identify variations from normal physical health status

3.1 Identify a range of signs and symptoms of variations from normal health status using standard methods and protocols

3.2 Identify potential factors responsible for significant variations from normal health status

3.3 Identify potential risk factors associated with variations from normal health status

3.4 Recognise and refer potentially serious issues in line with organisation requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Common and medical anatomical terminology
- Concepts underpinning human anatomy and physiology, including:
  - levels of structural organisation of body systems
  - human life processes
  - homeostasis and the relationship between homeostatic imbalance and disease
- Structure, physiology of normal functioning of body systems, including:
  - cells, tissues and organs
  - cardiovascular system
  - respiratory system
  - musculo-skeletal system
  - endocrine system
  - digestive system
  - urinary system
  - reproductive system
  - integumentary system
  - lymphatic system
  - nervous system, including sensory systems - eye and ear
  - the special senses - smell, taste, vision, equilibrium and hearing
  - immune system
- Processes of metabolism, nutrition, body temperature regulation, biological maturation, inheritance and aging
- Causes of disease:
  - pathogens
  - inherited genetic conditions
REQUIRED SKILLS AND KNOWLEDGE

- trauma, toxins and other environmental hazards
- nutritional factors
- degenerative changes in vital organ systems
- the loss of normal control mechanisms such as the uncontrolled growth of cancer cells
- Defence systems and immunity responses in relation to the whole body and the individual body systems.
- Common disorders, problems and complaints associated with each body system and its components, especially where relevant to specific health care services to be provided.
- Potential impacts of a range of factors, both internal (such as physical, mental, emotional factors) and external (e.g. in relation to specific health interventions) in relation to identified body systems and their components.

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Accurately use and articulate medical and/or paramedical terminology related to human anatomy and physiology and associated health issues in the context of providing specific health care services.
- Explain in clear language relevant aspects of the structure and functioning of the body systems with particular reference to specific health care services to be provided.
- Describe the major components of each body system and their location in relation to other structures.
- Explain the principles of functional anatomy in relation to each body system using concepts and principles specific to the nature of particular health care to be provided.
- Explain the key factors necessary to healthy functioning of each body system and inter-relationships between body systems needed to maintain overall health.
- Explain common problems associated with each body system and its components using terms relevant to specific health care to be provided.
- Recognise variations from normal functioning and determine an appropriate response in terms of:
  - referral to an appropriate medical, nursing or allied health professional
  - provision of appropriate health care services.
- Refer to or seek assistance from an appropriate medical or paramedical authority in relation to variations from normal functioning.
- Articulate scope of practice and boundaries for each individual team member
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- Candidates must demonstrate their ability to apply Essential Knowledge identified for this competency unit before undertaking workplace application
- This competency unit should be assessed in conjunction with competency unit(s) related to specific health care services (e.g. complementary therapies, enrolled nursing, dental or out-of-hospital care)
- Evidence must demonstrate the individual's ability to apply their knowledge within the requirements of an identified aspect of delivering health care or health care support services
- Consistency of performance should be demonstrated over the required range of workplace situations relevant to an identified work role

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible.
- Where, for reasons of safety, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible.
- Simulation assessment should be carried out prior to workplace assessment.
- Resources for assessment may include access to materials and space as required to demonstrate competence, such as:
  - Relevant organisation policies and procedures
  - Anatomical models, charts and/or diagrams as required to support explanations
  - Relevant equipment
  - Workplace and simulated work environment.

Method of assessment may include:

- Observation in the workplace with questioning to address appropriate application of knowledge
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning - verbal and/or written
- Role-play / simulation

Related units:

- This unit must be assessed in conjunction with competency units related to assessment of clients for a particular area of health care delivery (e.g. units in assessing clients for care involving complementary therapies, enrolled nursing, dental or ambulance response)

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Major body systems include:

- Cardiovascular system
- Respiratory system
- Musculo-skeletal system
- Endocrine system
- Nervous system, including sensory system - eye and ear
- Digestive system
- Urinary system
- Reproductive system
- Integumentary system
- Lymphatic system
- The special senses - smell, taste, vision, equilibrium and hearing
- Immune system
RANGE STATEMENT

Common problems to be identified may include:

- Cardiovascular problems, such as:
  - congestive cardiac failure
  - angina pectoris
  - cardiac arrest
  - thrombosis

- Dental problems, such as:
  - gingivitis
  - halitosis

- Digestive system problems, such as:
  - gastro-intestinal bleeding
  - gastroenteritis

- Ear health conditions, such as:
  - otitis media
  - impairment

- Endocrine system problems, such as:
  - diabetes mellitus

- Eye problems, such as:
  - myopia
  - impairment
  - cataracts

- Gastro-intestinal and abdominal conditions, such as:
  - gallstones
  - gastroenteritis
  - diverticulitis

continued ...
RANGE STATEMENT

Common problems to be identified may include:
(contd)

- Genitourinary conditions, such as:
  - UTI
  - incontinence
  - dysuria
  - prostatic cancer
- Integumentary system problems, such as:
  - burns
  - open wounds
  - wound infection
- Musculo-skeletal system problems, such as:
  - soft tissue injury
  - fractures
- Nervous system problems, such as:
  - cerebrovascular accident
  - seizure
  - dementia
- Reproductive system problems, such as:
  - obstetric emergencies
- Respiratory system problems, such as:
  - bronchospasm (asthma and anaphylaxis)
  - upper respiratory tract infection
- Skin condition, infections and wounds, such as:
  - impetigo
  - dermatitis

Factors with potential to impact physical health may include but are not limited to:

- External factors, such as:
  - diet and nutritional factors
  - use of alcohol, tobacco and other substances
  - environmental factors impacting health
  - level and type of physical activity
- Internal factors, such as:
  - inter-relationship between body systems
  - emotional responses
  - patterns of thinking
  - disease process
  - pathogens
RANGE STATEMENT

Organisation requirements may include but are not limited to:
- Clinical practice guidelines
- Protocols
- Organisation policies and/or procedures

Own capability or authority may include but is not limited to:
- Authority to practice
- Organisation policies

Observation and/or questioning may depend upon:
- Status of client (may be under anaesthetic or even deceased, depending on particular area of practice)

Health history may include:
- History of any presenting problem (character, severity and duration of symptoms)
- History of any actual or potential problems associated with activities of daily living
- Client concerns and beliefs regarding their problems
- Past health history, including use of alcohol, tobacco and other substances
- Medications being taken
- Allergies
- Family circumstances, including identifying environmental health factors that may contribute to client's health issues
- Basic dietary information, including diet history to determine food and drink intake

Factors responsible for abnormal readings may include:
- Differences in temperature measurements due to a range of internal and external body factors
- Effect of exertion and anxiety on pulse rate and blood pressure
- Faulty equipment or improper use of equipment
- Failure to correctly calibrate equipment
- Impact of environmental factors on equipment
RANGE STATEMENT

Information provided to client may include:

- Summary of health assessment findings
- Information about potential impact of a range of internal and external factors on health.
- Information on likely causes and management of uncomplicated health conditions.
- Information on strategies to maintain good health and manage chronic health problems.
- Information on specific health issues and available health care services/treatments.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Demonstrate awareness of life challenging conditions | 1.1 Discuss the nature and impacts of a *range of life threatening conditions*  
1.2 Review current approaches to treatment/care  
1.3 Discuss mainstream and complementary health approaches to management of life challenging illnesses  
1.4 Discuss the stages of death and dying and the grief cycle  
1.5 Discuss the principles and aims of a *palliative approach*  
1.6 Identify *psychosocial factors* which may effect quality of life  
1.7 Identify *physical factors* arising from the disease and treatment process which may effect quality of life  
1.8 Identify *cultural factors* which may effect quality of life  
1.9 Identify *practical and financial factors* which may effect quality of life |
<table>
<thead>
<tr>
<th><strong>ELEMENT</strong></th>
<th><strong>PERFORMANCE CRITERIA</strong></th>
</tr>
</thead>
</table>
| 2. Demonstrate knowledge of support resources for client and careers | 2.1 Recognise the importance of support persons and resources  
2.2 Outline the scope of and utilisation of available resources  
2.3 Promote client access to individualised information |
| 3. Develop a care/treatment plan | 3.1 Gather and record data for inclusion in care plan  
3.2 Conduct physical examination if relevant/appropriate  
3.3 Use knowledge of relevant complementary and alternative health care modality to identify an appropriate care/treatment plan  
3.4 Take into account factors which may interfere with the effectiveness of the care/treatment for each  
3.5 Take into account possible care/treatment reactions and contra-indications |
| 4. Review factors effecting client wellbeing | 4.1 Recognise the impact of diagnosis of a life challenging illness  
4.2 Explain the stages of the healing process  
4.3 Explain the fundamentals of supportive care  
4.4 Awareness of possible limitations of the client resources  
4.5 Support clients capacity to choose treatment/care options that effect wellbeing |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 5. Communicate need for acute intervention | 5.1 Understand the importance of timely intervention  
 | 5.2 Identify changes in client condition  
 | 5.3 Identify need for intervention  
 | 5.4 Communicate changes in client condition to carers where appropriate/relevant  
 | 5.5 Communicate need for additional or other intervention  
 | 5.6 Refer to other health professionals where appropriate  |
| 6. Empower the client to discover and utilise their inner resources | 6.1 Respect client treatment choices  
 | 6.2 Employ conscious language  
 | 6.3 Demonstrate the use of silence, inner and outer  
 | 3.4 Create therapeutic healing space  
 | 6.5 Awareness of the transformational potential of the healing process  |
ELEMENT  PERFORMANCE CRITERIA

7. Evaluate services/treatment

7.1 Build and maintain a relationship of trust with the client, with active promotion of and strict adherence to confidentiality

7.2 Undertake monitoring of client health in line with plan of care

7.3 Question client/carer to ascertain their level of comfort and compliance with the treatment

7.4 Ascertain degree of improvement or changes in the client’s condition and compare with expectations in the plan of care

7.5 Provide client with clear information about their level of improvement in relation to their plan of care

7.6 Assess and review of treatment as required

7.7 Document progress according to requirements

7.8 Evaluate impact of ongoing treatment in relation to client’s physical, mental and emotional condition and behaviour

7.9 Encourage clients to maintain their health by active involvement in their treatment and plan of care

7.10 Consult with other treatment practitioners as necessary and appropriate

8. Demonstrate a commitment to self care

8.1 Own emotional responses to death and dying are identified, reflected upon, issues raised and discussed with supervisor and/or other appropriate person

8.2 Potential impact of personal responses on self and others is acknowledged and actioned as appropriate

8.3 Demonstrate strategies for self care including debriefing

8.4 Identify the need for additional assistance and emotional support

8.5 Identify practitioner/ client boundary issues

8.6 Identify conflict between professional demands and personal and family commitments

8.7 Demonstrate ability to process ethical and moral dilemmas
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- A broad range of life challenging conditions and their implications
- Broad knowledge of other complementary and alternative health care treatments able to be used in the treatment of life challenging illness
- Broad knowledge of possible mainstream treatments being used to treat life challenging illnesses
- Detailed knowledge of therapies/treatment and/or care strategies used by the complementary and alternative health care modality being delivered
- Emergency care and first aid procedures
- Health care professionals/services locally, nationally, and internationally and of their relationship to other professions and organisations
- Health terminology
- Legal requirements for practice
- Occupational health and safety procedures
- Possible contraindications and interactions with other treatments
- Principles of confidentiality
- Relevant codes of practice
- The death and dying and grief cycle
- The special characteristics and strengths of supportive care.
- Understanding of psychophysical and psychosocial implications of trauma and life challenging illnesses
- Understanding of the nature of living and dying

**Essential skills:**
It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

© Commonwealth of Australia, 2017
REQUIRED SKILLS AND KNOWLEDGE

This includes the ability to:

- Appropriately record details of client treatment according to clinic guidelines
- Communicate effectively with clients and colleagues
- Communicate in an appropriate manner considering age, ethnicity, gender, medical condition and social situation
- Consult colleagues for special expertise
- Correctly identify client information needs
- Demonstrate appreciation of the relative merits of the options available in regard to cost, benefit and availability of resources
- Demonstrate communication and negotiation skills
- Determine appropriate action to take on the basis of client's condition and identified needs
- Determine the meaning and significance of information given by the client
- Explain relevant services
- Give palliative treatment/care honestly and with compassion and respect for the individual and carers
- Give specific care according to the age and gender and specific care needs of the client
- Identify appropriate avenues for referral support
- Identify treatment/care options and establish treatment/care regimes
- Maintain professional boundaries throughout the progression of the condition
- Negotiate strategies to overcome any obstacles to cure
- Practise self care
- Prepare treatment plans
- Provide client with required information
- Provide treatment/care
- Read and interpret medical reports and other data relevant to the case
- Recognise conditions that may pose a serious risk to the client and to know when to seek immediate help or advice from other professional sources
- Refer to other health professionals if relevant
- Reflect upon own practice
- Support clients, carers in trauma, grief and loss
- Use interpersonal and questioning skills
- Use problem solving processes
- Work in a way that demonstrates an understanding of underpinning values of supportive care

Evidence Guide

EVIDENCE GUIDE
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this competency unit:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
- Assessment of sole practitioners must include a range of clinical situations and different client groups covering at minimum, age, culture and gender
- Assessment of sole practitioners must consider their unique workplace context, including:
  - interaction with others in the broader professional community as part of the sole practitioner's workplace
  - scope of practice as detailed in the qualification and component competency units
  - holistic/integrated assessment including:
    - working within the practice framework
    - performing a health assessment
    - assessing the client
    - planning treatment
    - providing treatment
EVIDENCE GUIDE

Context of and specific resources for assessment:

- An appropriately stocked and equipped clinic or simulated clinic environment
- Relevant resource and information material
- Relevant paper-based/video assessment material
- Qualified assessors

Method of assessment:

- Observation in the workplace (if possible)
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Clinical skills involving direct client care are to be assessed initially in a simulated clinical setting (laboratory). If successful, a second assessment is to be conducted during workplace application under direct supervision

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related units:

- This unit should be assessed in conjunction with competency unit(s) related to planning/delivery of the specific complementary and alternative health care service being undertaken
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Range of life threatening conditions:

- Cancer
- Illnesses where it is expected that death will be a direct consequence of the specified illness. This definition is inclusive of both a malignant and non-malignant illness. Life limiting illnesses might be expected to shorten an individual's life expectancy (Draft Standards for Providing Quality Palliative Care to all Australians. PCA November 2004).
RANGE STATEMENT

Palliative approach services include:

- Assisting in the psychological, cultural and spiritual aspects of care for the client
- Identify the clients, family and carer as the unit of care
- Maintaining the client's dignity
- Maximising self-care and self-determination for the client
- Participating in a team approach to address the needs of clients, families and carers ensuring a palliative approach
- Practice reflects an understanding of the impact of a palliative approach in an organisation
- Practice that reflects an understanding of the aims of a palliative approach
- Providing support for clients, family, worker and carer using a palliative approach
- Recognising symptoms of pain, discomfort and other symptoms and the clients need for pain relief
- Recognising the signs that death may be imminent
- Seeking advice from appropriate person e.g. supervisor, team leader or palliative care team
- Understanding the needs of clients approaching end-of-life

Support resources may include:

- Family and community resources
- Financial resources
- Inner resources
- Time resources

Strategies for self care may include:

- Accessing additional for emotional support
- Health care treatment
- Professional supervision
- Respite from the demands of displaying warmth and empathy towards others
- Self monitoring and reflection
- Support for negotiating moral dilemmas
- Support for personal and spiritual growth
RANGE STATEMENT

Worker emotional responses may include:

- A range of emotions that may be demonstrated or displayed as a response to the process of loss and grief, for example:
  - crying and feelings of sadness
  - fear, anger, silence and may appear singularly or together and prolong the worker's own grief
  - poor concentration

Client need may include:

- Acute medical intervention
- Comfort
- Cultural and spiritual supports
- Emotional supports
- Pastoral care
- Personal care and hygiene
- Personal supports and relationships.
- Sexuality and Intimacy supports
- Social activities.

Treatment and support options may include:

- Family, friends, community, workplace
- Financial
- Intellectual
- Time resource

Psychosocial factors affecting quality of life may include:

- Anxiety, depression, PTSD, risk of suicide
- Body image, self-concept and sexuality
- Denial of condition
- Family, social and workplace support
- Fear and stress experienced by family members, barriers to clients
- Gender issues
- Self concept and body image
- Sexuality issues
- Social impairment
RANGE STATEMENT

*Physical factors arising from disease and treatment process affecting quality of life may include:*
- Bowel problems
- Cognitive problems
- Devitalisation
- Disfigurement
- Fatigue
- Incontinence
- Lymphedema
- Malnutrition
- Nausea and vomiting
- Odour
- Oral symptoms
- Pain
- Pregnancy, lactation and fertility issues
- Respiratory problems
- Sleep problems
- Stage of life issues

*Cultural factors effecting quality of life may include*
- Communication
- Cultural sensitivities about diagnosis and treatment
- Knowledge of interpreter services
- Language barriers

*Practical and financial factors affecting quality of life may include*
- Access to treatment and resources
- Costs associated with diagnosis and treatment, supportive therapies, prostheses, and aids
- Costs associated with travel and accommodation
- Discrimination with regard to insurance, business dealings, access to loans
- Geographical location isolation
- Loss of income

*Strategies for self care may include*
- Access intervention if needed
- Attention to nutrition, adequate sleep and exercise
- Context for personal and spiritual growth
- Professional supervision
- Reflective practice
RANGE STATEMENT

Ethical issues may include:

- Conflict between the client's and/or family's wishes and/or practitioner feelings
- Conflict that may occur in relation to personal values and decisions made by or for the client
- Decisions regarding medical treatment

| 1. Identify a range of chronic diseases and conditions | 1.1 Discuss the type and nature of a range of *chronic diseases or conditions*  
1.2 Review current approaches to treatment/care  
1.3 Discuss mainstream and complementary health approaches to management of a range of chronic diseases or conditions |
| 2. Identify the impact of chronic diseases or conditions on the client and their family | 2.1 Identify the chronic diseases or conditions and its effect on the body  
2.2 Discuss the different physical and/or psychological impacts of the chronic diseases or conditions can have on the client, their family and their lifestyle  
2.3 Refer or discuss the chronic diseases or conditions with other health care professionals as appropriate |
**ELEMENT**

3. Develop a care/treatment plan

3.1 Gather and record data for inclusion in care plan

3.2 Conduct physical examination if relevant/appropriate

3.3 Use knowledge of relevant complementary and alternative health care modality to identify an appropriate care/treatment plan

3.4 Take into account factors which may interfere with the effectiveness of the care/treatment for each

3.5 Take into account possible care/treatment reactions and *contraindications*

4. Provide service/treatment according to care/treatment plan

4.1 Fully explain care/treatment to the client and respond to all enquiries

4.2 Ensure consent for treatment

4.3 Deliver service/treatment according to the care/treatment plan

4.4 Ensure clients are treated with dignity and respect

4.5 Respect cultural and religious differences

4.6 Recognise and promptly respond to reactions to treatment (adverse or otherwise) if necessary

4.7 Review the treatment plan and negotiate continuing care with the client

4.8 Fully document assessments and recommendations
ELEMENT

5. Evaluate services/treatment

PERFORMANCE CRITERIA

5.1 Build and maintain a relationship of trust with the client, with active promotion of and strict adherence to confidentiality

5.2 Undertake monitoring of client health in line with plan of care

5.3 Question client/carer to ascertain their level of comfort and compliance with the treatment

5.4 Ascertain degree of improvement or changes in the client’s condition and compare with expectations in the plan of care

5.5 Provide client with clear information about their level of improvement in relation to their plan of care

5.6 Assess and review of treatment as required

5.7 Document progress according to requirements

5.8 Evaluate impact of ongoing treatment in relation to client’s physical, mental and emotional condition and behaviour

5.9 Encourage clients to maintain their health by active involvement in their treatment and plan of care

5.10 Consult with other treatment practitioners as necessary and appropriate

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- A broad range of chronic diseases and conditions and their implications
REQUIRED SKILLS AND KNOWLEDGE

- Broad knowledge of other complementary and alternative health care treatments able to be used in the treatment of chronic diseases/conditions
- Broad knowledge of possible mainstream treatments being used to treat chronic diseases
- Detailed knowledge of therapies/treatment and/or care strategies used by the complementary and alternative health care modality being delivered
- Emergency care and first aid procedures
- Health terminology
- Legal requirements for practice
- Occupational health and safety procedures
- Possible contraindications and interactions with other treatments
- Principles of confidentiality
- Relevant codes of practice

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Communicate effectively with clients and colleagues
- Demonstrate communication and negotiation skills
- Identify treatment/care options and establish treatment/care regimes
- Negotiate strategies to overcome any obstacles to cure
- Prepare treatment plans
- Provide treatment/care
- Read and interpret medical reports and other data relevant to the case
- Refer to other health professionals if relevant
- Reflect upon own practice
- Use interpersonal and questioning skills
- Use problem solving processes

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
- Assessment of sole practitioners must include a range of clinical situations and different client groups covering at minimum, age, culture and gender
- Assessment of sole practitioners must consider their unique workplace context, including:
  - interaction with others in the broader professional community as part of the sole practitioner’s workplace
  - scope of practice as detailed in the qualification and component competency units
  - holistic/integrated assessment including:
    - working within the practice framework
    - performing a health assessment
    - assessing the client
    - planning treatment
    - providing treatment
EVIDENCE GUIDE

Method of assessment

- Observation in the work place (if possible)
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Clinical skills involving direct client care are to be assessed initially in a simulated clinical setting (laboratory). If successful, a second assessment is to be conducted during workplace application under direct supervision

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related units:

This unit should be assessed in conjunction with competency unit(s) related to planning/delivery of the specific complementary and alternative health care service being undertaken

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Chronic diseases and conditions include but are not limited to:

- Arthritis
- Asthma
- Autoimmune diseases
- Cancer
- Chronic kidney disease
- Chronic obstructive pulmonary disease
- Chronic renal disease
- Coronary heart disease
- Depression
- Diabetes
- Oral diseases
- Osteoporosis
- Stroke

Contraindications may include but is not limited to:

- Ability or willingness to comply with treatment/care
- Acute health episodes
- Life-threatening situations
- Personal or life circumstances

Client compliance refers to:

- Ability to follow instructions or suggestions
- Visual impairment
- Willingness to follow instructions or suggestions

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Prepare for transport | 1.1 Confirm transport with relevant personnel  
1.2 Explain procedure to client or relevant personnel and answer any questions as required  
1.3 Prepare for the safe and timely transportation of the client  
1.4 Select equipment and check to ensure that it is clean, complete and correctly functioning for transportation according to transportation requirements  
1.5 Check any other equipment to ensure that it is attached correctly and safely to transportation equipment |
| 2. Transport client | 2.1 Transport client to designated location in accordance with transportation requirements and organisation policy  
2.2 Manoeuvre equipment to ensure client comfort and safety and minimise risk to self |
ELEMENT  PERFORMANCE CRITERIA

3. Deliver client

3.1 Deliver client to designated location and inform relevant personnel of client's arrival as required
3.2 Inform relevant personnel of client's needs as required
3.3 Return equipment as required
3.4 Carry out reporting requirements as appropriate

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:
- Client confidentiality and privacy requirements
- Client handling procedures
- Infection control procedures
- Procedures for securing a client
- When client issues need to be referred to an appropriate health professional

**Essential skills:**
It is critical that the candidate demonstrate the ability to:
- Follow instructions in accordance with organisation procedures
- Transport and deliver client to correct destination according to safe working practices
- Communicate effectively with clients

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of
REQUIRED SKILLS AND KNOWLEDGE

the identified work role

This includes the ability to:

- Apply safe working practices, including manual handling techniques
- Interpret and follow the instructions and guidance of health professionals involved with the care of clients
- Solve problems including the ability to use available resources and prioritise workload
- Use numeracy skills ranging from the ability to complete basic arithmetic calculations such as addition, subtraction, multiplication, division to recording numbers
- Use oral communication skills required to fulfil job roles in a safe manner and as specified by the organisation, including skills in:
  - asking questions
  - providing clear information
  - listening to and understanding workplace instructions
  - clarifying workplace instructions when necessary
  - competence in English or a community language, depending on client group and organisation requirements
- Use reading and writing skills required to fulfil job roles in a safe manner and as specified by the organisation
  - the level of skill may range from the ability to understand symbols used in OHS signs, to reading workplace safety pamphlets or procedure manuals, to reading labels and manufacturers' specifications for equipment use
  - literacy support available in the workplace may range from having access to support or assistance from expert/mentor/supervisor, to having no communication supports available
  - literacy may be required in English or a community language
  - Work with others and display empathy with client and relatives

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

Context of and specific resources for assessment:

- Access to equipment used for transporting clients
- Relevant policies and procedures manuals
- Organisation charts
- Instructions for the use of equipment
EVIDENCE GUIDE

Method of assessment:

- Observation of work activities in transporting clients
- Observation of simulation and/or role play involving transporting clients
- Discussion of physical and/or behavioural contingency scenarios involving duty of care
- Authenticated transcripts of relevant education/training courses
- Recognition of relevant life/work experience
- Written assignments/projects or questioning should be used to assess knowledge
- Authenticated reports of experience in transporting clients (Documentation associated with performance reviews, client feedback forms, supervisor/co-ordinator evaluations of work performance)
- Training records associated with OH Safety training, Orientation/Induction Training, Safe Manual Handling
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related unit:

This unit can be assessed independently, however it may be assessed wholly or partly with:

- HLTCS305C Assist with client movement
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Transportation requirements may include:
- Mode of transport
- Destination
- Information specific to the client
- Transportation of deceased persons
- Accompaniment by health professionals eg nurse or medical officer
- Client clothing requirements
- Documentation requirements

Transportation equipment may include but is not limited to:
- Wheelchair
- Stretcher
- Trolley
- Bed
- Motor vehicle

Other equipment may include but is not limited to:
- IV stand
- Monitors
- Humidicrib
- Oxygen

Client needs may include:
- Appropriate escort eg registered nurse, medical officer, parent, carer, attendant
- Nutritional requirements
- Comfort requirements
Unit Sector(s)

Not Applicable
HLTCSD306C Respond effectively to difficult or challenging behaviour

Modification History
Not Applicable

Unit Descriptor
Descriptor
This unit of competency describes the skills and knowledge required to respond effectively to difficult or challenging behaviour of clients and others

These skills are associated with handling difficult incidents rather than managing ongoing behaviour difficulties

Application of the Unit
Application
The unit will be suitable for work roles such as Security Officers, Care Assistance Workers and others exposed to difficult and challenging behaviour

Application of this unit should be contextualised to reflect any requirements, issues and practices specific to each workplace

3.4 Seek advice and assistance from legitimate sources as and when appropriate |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Client issues needing to be referred to an appropriate health professional
- OHS issues relating to difficult and challenging behaviour
- Organisation's reporting processes

Essential skills:
It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Effectively use techniques for monitoring own service area including client satisfaction
- Foresee and respond quickly and effectively to contingencies
- Identify when assistance is required
- Interpret and follow the instructions and guidance of health professionals involved with the care of client
- Maintain duty of care
- Maintain personal safety and the safety of others
- Monitor and/or maintain security equipment
- Remain alert to potential incidents of difficult or challenging behaviour
- Remain calm and positive in adversity
- Speak in a firm, diplomatic and culturally appropriate manner
- Think and respond quickly and strategically
- Use literacy skills in reading, writing and oral communication to fulfil job role in a safe manner and as specified by the organisation, including:
  - understand symbols used in OHS signs
REQUIRED SKILLS AND KNOWLEDGE

- read workplace safety pamphlets or procedure manuals and labels
- use appropriate verbal and non verbal communication styles
- ask questions
- provide clear information
- listen to and understand workplace instructions and clarify when necessary
- apply literacy skills as required in English or a community language.
- Use numeracy skills to complete basic arithmetic calculations such as addition, subtraction, multiplication, division to recording numbers
- Use problem solving skills to:
  - effectively utilise available resources
  - prioritise workload
- Work with others and display empathy with client and relatives

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace (simulating difficult or challenging behaviour) or in a simulated workplace and under the normal range of work conditions
- This unit can be assessed independently, but holistic assessment practice is encouraged with other related units of competency
- Assessment may be conducted on one occasion but should include a diverse range of sources of difficult and challenging behaviours, as may be expected in the workplace
- A diversity of assessment tasks is also essential for holistic assessment
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Planned responses may be based on:

- Established organisation procedures
- Knowledge of individual persons and underlying causes
- Own ability and experience
## RANGE STATEMENT

**Difficult or challenging behaviours may include:**

- Aggression
- Confusion or other cognitive impairment
- Intoxication
- Intrusive behaviour
- Manipulation
- Noisiness
- Self-destructive
- Verbal offensiveness
- Wandering

**Strategies for dealing with challenging behaviours may include:**

- Diversional activities
- Following established emergency response procedures
- Referring to appropriate personnel eg supervisor, security officer

**Selection of strategies for dealing with challenging behaviours may be based on:**

- Established procedures and guidelines
- Potential effect on different parties, clients, staff and others
- The nature of the incident

**Organisation policies and procedures may include:**

- Debriefing of staff involved in incident
- Incident reporting and documentation
- Operational guidelines for handling incidents and/or cases involving difficult and challenging behaviour

## Unit Sector(s)

Not Applicable
HLTFA301C Apply first aid

Modification History

Unit Descriptor

Descriptor
This unit of competency describes the skills and knowledge required to provide first aid response, life support, management of casualty(s), the incident and other first aiders, until the arrival of medical or other assistance.

Application of the Unit

Application
These skills and knowledge may be applied in a range of situations, including community and workplace settings.

Training Package users should ensure implementation is consistent with any specific workplace and/or relevant legislative requirements in relation to first aid, including State/Territory requirements for currency.

Application of these skills and knowledge should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries.

A current Senior First Aid, Workplace Level 2 or Level 2 qualification may provide evidence of skills and knowledge required by this competency unit. However, as with all evidence of competence, evidence must be assessed against the requirements specified in the competency unit.

<tr>
<td></td>
<td>1.2 Minimise immediate risk to self and casualty’s health and safety by controlling any hazard in accordance with occupational health and safety requirements</td>
</tr>
<tr>
<td></td>
<td>1.3 Assess casualty and identify injuries, illnesses and conditions</td>
</tr>
</tbody>
</table>
ELEMENT

2. Apply first aid procedures

PERFORMANCE CRITERIA

2.1 Calmly provide information to reassure casualty, adopting a communication style to match the casualty's level of consciousness

2.2 Use available resources and equipment to make the casualty as comfortable as possible

2.3 Respond to the casualty in a culturally aware, sensitive and respectful manner

2.4 Determine and explain the nature of casualty's injury/condition and relevant first aid procedures to provide comfort

2.5 Seek consent from casualty prior to applying first aid management

2.6 Provide first aid management in accordance with established first aid principles and Australian Resuscitation Council (ARC) Guidelines and/or State/Territory regulations, legislation and policies and industry requirements

2.7 Seek first aid assistance from others in a timely manner and as appropriate

2.8 Correctly operate first aid equipment as required for first aid management according to manufacturer/supplier's instructions and local policies and/or procedures

2.9 Use safe manual handling techniques as required

2.10 Monitor casualty's condition and respond in accordance with effective first aid principles and procedures

2.11 Finalise casualty management according to casualty's needs and first aid principles
ELEMENT 3. Communicate details of the incident

PERFORMANCE CRITERIA

3.1 Request ambulance support and/or appropriate medical assistance according to relevant circumstances using relevant communication media and equipment

3.2 Accurately convey assessment of casualty's condition and management activities to ambulance services/other emergency services/relieving personnel

3.3 Prepare reports as appropriate in a timely manner, presenting all relevant facts according to established procedures

3.4 Accurately record details of casualty's physical condition, changes in conditions, management and response to management in line with established procedures

3.5 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisation policies

4. Evaluate own performance

4.1 Seek feedback from appropriate clinical expert

4.2 Recognise the possible psychological impacts on rescuers of involvement in critical incidents

4.3 Participate in debriefing/evaluation as appropriate to improve future response and address individual needs

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:
REQUIRED SKILLS AND KNOWLEDGE

- ARC Guidelines relating to provision of first aid as outlined
- Awareness of stress management techniques and available support
- First aid management of:
  - abdominal injuries
  - allergic reactions
  - altered and loss of consciousness
  - bleeding
  - burns - thermal, chemical, friction, electrical
  - cardiac arrest
  - casualty with no signs of life
  - chest pain
  - choking/airway obstruction
  - injuries: cold and crush injuries; eye and ear injuries; head, neck and spinal injuries; minor skin injuries; needle stick injuries; soft tissue injuries including sprains, strains, dislocations
  - envenomation - snake, spider, insect and marine bites
  - environmental impact such as hypothermia, hyperthermia, dehydration, heat stroke
  - fractures
  - medical conditions, including cardiac conditions, epilepsy, diabetes, asthma and other respiratory conditions
  - near drowning
  - poisoning and toxic substances (including chemical contamination)
  - respiratory distress
  - seizures
  - shock
  - stroke
  - substance misuse - common drugs and alcohol, including illicit drugs
- Social/legal issues:
  - duty of care
  - need to be culturally aware, sensitive and respectful
  - importance of debriefing
  - confidentiality
  - own skills and limitations
- Understanding of the use of an Automated External Defibrillator (AED), including when to use and when not to

continues...

Essential knowledge (contd):

- Working knowledge of:
REQUIRED SKILLS AND KNOWLEDGE

- basic occupational health and safety requirements in the provision of first aid
- basic principles and concepts underlying the practice of first aid
- chain of survival
- first aiders' skills and limitations
- infection control principles and procedures, including use of standard precautions
- priorities of management in first aid when dealing with life threatening conditions
- procedures for dealing with major and minor injury and illness

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Administer medication in line with state/territory regulations, legislation and policies
- Apply first aid principles
- Call an ambulance and/or medical assistance according to relevant circumstances and report casualty’s condition
- Communicate effectively and assertively in an incident
- Conduct an initial casualty assessment
- Demonstrate correct procedures for performing CPR using a manikin, including standard precautions (i.e. as per unit HLT CPR201A Perform CPR)
- Demonstrate:
  - ability to call an ambulance
  - consideration of the welfare of the casualty
  - safe manual handling
  - site management to prevent further injury
- Evaluate own response and identify appropriate improvements where required
- Follow OH&S guidelines
- Infection control, including use of standard precautions
- Make prompt and appropriate decisions relating to managing an incident in the workplace
- Plan an appropriate first aid response in line with established first aid principles, policies and procedures, ARC Guidelines and/or State/Territory regulations, legislation and policies and industry requirements and respond appropriately to contingencies in line with own skills
- Prepare a written incident report or provide information to enable preparation of an incident report
- Provide assistance with self-medication as per subject's own medication regime and in line with State/Territory legislation, regulations and policies and any available
REQUIRED SKILLS AND KNOWLEDGE

- medical/pharmaceutical instructions
- Use literacy and numeracy skills as required to read, interpret and apply guidelines and protocols

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package. The evidence guide supplements assessment requirements that apply to all units in this Training Package. Users of this evidence guide should first read the package's assessment guidelines.

Critical aspects of assessment:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competence should be demonstrated working individually and, where appropriate, as part of a first aid team
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace or community setting
- Currency of first aid knowledge and skills is to be demonstrated in line with State/Territory regulations, legislation and policies, ARC and industry guidelines

Context and resources required for assessment:

- Skills in performing first aid procedures are to be assessed through demonstration, with questioning to confirm essential knowledge
- For assessment purposes, demonstration of skills in CPR procedures requires using a model of the human body (resuscitation manikin) in line with Australian Resuscitation Council Guidelines
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related units: This unit incorporates the content of units:

- HLTCP201B Perform CPR
- HLTFA201B Provide basic emergency life support

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Contextualisation to address specific requirements may include:

- Focus on first aid management of specific types of injury
- First aid provision under specific constraints or circumstances (e.g. in confined spaces, in maritime work environment or in work environment involving identified risks/hazards)

Established first aid principles include:

- Preserve life
- Prevent illness, injury and condition(s) becoming worse
- Promote recovery
- Protect the unconscious casualty

Vital signs include:

- Consciousness
- Breathing
- Circulation

A hazard is:

- A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these

Hazards may include:

- Physical hazards
- Biological hazards
- Chemical hazards
- Hazards associated with manual handling

Risks may include:

- Risks from equipment, machinery and substances
- Risks from first aid equipment
- Environmental risks
- Exposure to blood and other body substances
- Risk of further injury to the casualty
- Risks associated with the proximity of other workers and bystanders
- Risks from vehicles
RANGE STATEMENT

*Casualty's condition is managed for:*

- Abdominal injuries
- Airway obstruction
- Allergic reactions
- Altered and loss of consciousness
- Bleeding
- Burns - thermal, chemical, friction, electrical
- Chest pain/cardiac arrest
- Injuries: cold and crush injuries; eye and ear injuries; head, neck and spinal injuries; minor skin injuries; needle stick injuries; soft tissue injuries including sprains, strains, dislocations
- Near drowning
- Envenomation - snake, spider, insect and marine bites
- Environmental conditions such as hypothermia, hyperthermia, dehydration, heat stroke
- Fractures
- Medical conditions, including cardiac conditions, epilepsy, diabetes, asthma and other respiratory conditions
- No signs of life
- Poisoning and toxic substances (including chemical contamination)
- Respiratory distress/arrest
- Seizures
- Shock
- Stroke
- Substance misuse - common drugs and alcohol, including illicit drugs.
RANGE STATEMENT

First aid management must take into account applicable aspects of:

- The setting in which first aid is provided, including:
  - workplace policies and procedures
  - industry/site specific regulations, codes etc.
  - OHS requirements
  - state and territory workplace health and safety legislative requirements
  - location and nature of the incident
  - situational risks associated with, for example, electrical and biological hazards, weather, motor vehicle accidents
  - location of emergency services personnel.
- The use and availability of first aid equipment and resources
- Infection control
- Legal and social responsibilities of first aider

Resources and equipment are used appropriate to the risk to be met and may include:

- AED
- First aid kit
- Auto-injector
- Puffer/inhaler
- Resuscitation mask or barrier
- Spacer device

Communication media and equipment may include but are not limited to:

- Telephones, including landline, mobile and satellite phones
- HF/VHF radio
- Flags
- Flares
- Two way radio
- Email
- Electronic equipment
- Hand signals

Appropriate clinical expert may include:

- Supervisor/manager
- Ambulance officer/paramedic
- Other medical/health worker
RANGE STATEMENT

Documentation may include:

- Injury report forms
- Workplace documents as per organisation requirements

Documentation may include recording:

- Time
- Location
- Description of injury
- First aid management
- Fluid intake/output, including fluid loss via:
  - blood
  - vomit
  - faeces
  - urine
- Administration of medication including:
  - time
  - date
  - person administering
  - dose
- Vital signs

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Prepare to respond to emergency in a remote situation | 1.1 Prepare for isolated travel or work, accounting for expected contingencies  
1.2 Assess casualty's condition and determine appropriate response in order to minimise hazards and determine need for medical assistance  
1.3 Evaluate options for transporting casualty or waiting for medical assistance in relation to environmental issues, transport availability and casualty's condition |
ELEMENT
2. Provide first aid in a remote situation

PERFORMANCE CRITERIA
2.1 Determine and explain the nature of casualty's injury/condition and relevant first aid procedures to provide comfort
2.2 Seek consent from casualty prior to applying first aid management
2.3 Provide first aid response to address casualty's condition and in accordance with effective first aid principles
2.4 Respond to the casualty in a culturally aware, sensitive and respectful manner
2.5 Monitor casualty's condition and undertake ongoing first aid procedures as required
2.6 Calmly provide information to reassure casualty during the wait for medical assistance, adopting a communication style to match the casualty's level of consciousness
2.7 Provide shelter from elements in accordance with environmental conditions
2.8 Document condition of casualty over time to assist in on-going management

3. Work in conjunction with medical and emergency services support

3.1 Establish communication links to medical services, using relevant communication equipment to ensure prompt control action is undertaken
3.2 Request ambulance support or appropriate medical assistance according to relevant circumstances
3.3 Administer medication under direct instruction from an authorised health worker as required
3.4 Assist in the evacuation of the casualty by following directions given by emergency services as required
ELEMENT 4. Evaluate the incident

PERFORMANCE CRITERIA

4.1 Evaluate management of the incident and where required develop an action plan in consultation with relevant parties

4.2 Participate in debriefing/evaluation in order to improve future operations and address individual’s needs

4.3 Formulate and review contingency planning to identify and select improved or alternative management principles and procedures as required
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Awareness of stress management techniques and available support
- Infection control principles and procedures, including use of standard precautions
- Principles for evaluating management options relating to transporting casualty and/or waiting for assistance
- Principles of identifying and preparing area for safe evacuation (including aero-medical evacuation)
- Principles of preparing for providing first aid in an area remote from ready assistance, including identifying and preparing supplies to address contingencies specific to different types of situation
- Understanding of OHS principles
- Working knowledge of communication systems, equipment and methods as available in the remote situation

**Essential skills:**
It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Accurately listen to, clarify and apply medical instructions
- Administer medication under direct instruction from an authorised health worker and in accordance with State/Territory regulations, legislation and policies
- Communicate effectively and assertively and show leadership in an incident
- Conduct an initial casualty assessment in a remote situation
- Demonstrate:
REQUIRED SKILLS AND KNOWLEDGE

- Adequate infection control procedures, including standard precautions
- Identification and preparation of area for safe evacuation (including aero-medical evacuation)
- Safe manual handling
- Evaluate available options for transporting or maintaining condition of casualty
- Improvise treatment and associated resources
- Interpret and use listed documents
- Make prompt and appropriate decisions relating to managing an incident in a remote situation
- Plan an appropriate first aid response in line with established first aid principles, policies and procedures, ARC Guidelines and/or state/territory regulations, legislation and policies and industry requirements and respond appropriately to contingencies in line with own level of skills and knowledge
- Prepare a written incident report or provide information to enable preparation of an incident report
- Transport casualty safely using available methods
- Undertake contingency planning in relation to providing a first aid response in a remote situation
- Use available communication methods and equipment to access medical assistance
- Use available resources effectively to manage pain
- Use literacy and numeracy skills as required to read, interpret and apply guidelines and protocols

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects of assessment:
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competence should be demonstrated working individually and, where appropriate, as part of a first aid team
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace or community setting
- Currency of first aid knowledge and skills is to be demonstrated in line with State/Territory regulations, legislation and policies, Australian Resuscitation Council and industry guidelines
- Assessment should utilise aspects of actual or simulated remote situation relevant to work or community context

Method of assessment may include:
- Skills in performing first aid procedures are to be assessed through demonstration, with questioning to confirm essential knowledge
- Skills may be assessed through simulations, using anatomical models, manikins or in a high fidelity simulation centre

Access and equity considerations:
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Related unit: This unit should be assessed either after or in conjunction with achievement of the following related competency unit:

- HLTFA301C Apply first aid

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Contextualisation to address specific requirements may include:

- Focus on first aid management of specific types of injury
- First aid provision under specific constraints or circumstances (e.g. in confined spaces, in maritime work environment or in work environment involving identified risks/hazards)

Preparation for isolated/remote travel may include:

- Selection of relevant communication equipment
- Accessing relevant first aid supplies and resources to cater for environmental conditions
- Considering access/egress opportunities
- Notifying relevant authorities of travel plans
RANGE STATEMENT

In remote/isolated situations consideration to travel or wait would depend upon:

- Severity of injury
- Time required for medical assistance to arrive
- Whether movement might hinder rescue
- Advice given by authorised health worker
- Whether contact with medical and/or emergency services has been achieved

Documentation, especially in remote/isolated situations may include recording:

- Time
- Location
- Description of injury
- First aid management
- Fluid/oral intake/output, including fluid loss via:
  - blood
  - vomit
  - faeces
  - urine
- Administration of medication including time, date, person administering, dose
- Vital signs

Authorised health worker may include:

- Paramedic/ambulance officer
- General practitioner
- Nurse practitioner

Unit Sector(s)

Not Applicable
HLTFA402C Apply advanced first aid

Modification History

Not Applicable
Unit Descriptor

This unit deals with the provision of advanced first aid response, life support, management of casualty(s), the incident and other first aiders, until the arrival of medical or other assistance, and provision of support to other providers.

This unit builds on HLTFA301B: Apply first aid to include additional skills and use of a range of equipment.

Application of the Unit

Training Package users should ensure implementation is consistent with any specific workplace and/or relevant legislative requirements in relation to first aid, including State/Territory requirements for currency.

Application of these skills and knowledge should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries.

This unit includes coverage of skills and knowledge in advanced resuscitation techniques.

Competency outcomes in advanced resuscitation are to be equivalent to unit:

- HLTFA404B Apply advanced resuscitation techniques

To achieve equivalence of outcome, providers assessing HLTFA402C may refer to specific detail included in unit HLTFA404B and may choose to award both units.

Licensing/Regulatory Information

Not Applicable
Pre-Requisites

Pre-requisite units  This unit must be assessed after successful achievement of pre-requisite:
- HLTFA301B Apply first aid

Employability Skills Information

Employability Skills  This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.  The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Assess the situation</td>
<td></td>
</tr>
<tr>
<td>1.1</td>
<td>Identify, assess and minimise hazards that may pose a risk of injury or illness to self and others</td>
</tr>
<tr>
<td>1.2</td>
<td>Assess risks to first aider and others and determine appropriate response to ensure prompt control of situation</td>
</tr>
<tr>
<td>1.3</td>
<td>Ascertain and prioritise need(s) for emergency services/medical assistance and undertake triage where required</td>
</tr>
<tr>
<td>1.4</td>
<td>Deploy resources to appropriate locations as required in line with workplace procedures</td>
</tr>
</tbody>
</table>
ELEMENT

2. Manage the casualty(s)

PERFORMANCE CRITERIA

2.1 Determine and explain the nature of casualty's injury/condition and relevant first aid procedures to provide comfort

2.2 Respond to the casualty in a culturally aware, sensitive and respectful manner

2.3 Seek consent for management of the casualty's injury/illness from person(s) where relevant

2.4 Determine and implement welfare procedure according to casualty(s) needs

2.5 Control effects of injury and determine and apply appropriate first aid management to meet the needs of the casualty and situation

2.6 Assist with self-medication in accordance with State/Territory regulations, legislation and policies and manufacturer's/supplier's instructions and subject to casualty's regime

2.7 Monitor casualty's condition and respond in a timely manner in accordance with effective first aid principles

2.8 Correctly operate basic life support equipment where appropriate according to relevant legislation and manufacturer's/supplier’s instructions

2.9 Apply safety procedures for operation of pressurised gases

2.10 Use safe manual handling techniques

2.11 Finalise management according to casualty's needs and first aid principles
ELEMENT

3. Coordinate first aid activities until arrival of medical assistance

PERFORMANCE CRITERIA

3.1 Identify available resources required and establish communication links with appropriate personnel, emergency management services and medical assistance as appropriate

3.2 Deploy correct amount of resources to appropriate locations in an effective manner to ensure timely arrival of required resources

3.3 Document the provision of resources and recommend modifications as required

3.4 Monitor the condition of casualties in accordance with first aid principles and workplace procedures

3.5 Coordinate evacuation of casualties according to relevant evacuation procedures

3.6 Arrange support services for personnel involved in the incident in accordance with relevant principles and procedures

4. Communicate essential incident details

4.1 Maintain communication with relevant personnel using appropriate media and equipment

4.2 Communicate first aid information with other providers/carers as appropriate to meet their needs and in accordance with workplace procedures

4.3 Calmly provide information to reassure casualty, adopting a communication style to match the casualty's level of consciousness

4.4 Prepare an incident report in line with organisation requirements

4.5 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisation policies
ELEMENT | PERFORMANCE CRITERIA
---|---
5. Evaluate the incident | 5.1 Evaluate management of the incident and where required develop an action plan in consultation with relevant parties
| 5.2 Participate in debriefing/evaluation in order to improve future operations and address individual's needs
| 5.3 Formulate and review contingency planning to identify and select alternative management principles and procedures as required

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Working knowledge of:
  - legal responsibilities and duty of care, including confidentiality
  - basic anatomy (skeleton, muscles, joints, bones), physiology and toxicology
  - ARC Guidelines and/or State/Territory regulations, legislation and policies relating to provision of first aid
  - procedures for dealing with major and minor accidents in the workplace
  - infection control principles and procedures, including using standard precautions
  - how to gain access to and interpret material safety data sheets (MSDSs)
  - company/organisation standard operating procedures (SOPs)
  - priorities of management in first aid
  - occupational health and safety requirements in the provision of first aid.
  - capabilities of emergency management services
  - first aiders' skills and limitations
  - safe storage and handling procedures for pressurised gases
REQUIRED SKILLS AND KNOWLEDGE

- advanced resuscitation techniques as per HLTFA404A Apply advanced resuscitation techniques
- First aid management procedures in accordance with ARC Guidelines, state/territory regulations, legislation and policies and organisation requirements for conditions identified in the Range Statement and including:
  - use of AED, oxygen, bronchodilator
  - spinal care
  - management of anaphylactic shock reaction
  - use of analgesic gases
- Incident management procedures:
  - manual handling, hazardous substances, dangerous goods or chemicals
  - basic triage for a multiple casualty incident
  - safe access to the casualty
  - awareness of confined spaces and dangerous places
  - removal of casualty to safe area, if appropriate
  - coordinate activities of other first aiders, if applicable
- First aid management procedures may also relate to emergency childbirth
- Complications and associated methods of management for conditions identified in the Range Statement
- State and territory regulatory requirements relating to currency of skill and knowledge

Essential knowledge (contd):

- Social issues, especially in particular workplace or community context(s) in which first aid is to be applied, including:
  - importance of debriefing
  - need to be culturally aware, sensitive and respectful
  - confidentiality
  - own skills and limitations
- Awareness of stress management techniques and available support
- Safety procedures for the operation of pressurised gases

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Administer medication in line with State/Territory regulations, legislation and policies
REQUIRED SKILLS AND KNOWLEDGE

and any available medical/pharmaceutical instructions

- Apply advanced resuscitation techniques as per HLTFA404A Apply advanced resuscitation techniques
- Call an ambulance and/or medical assistance according to relevant circumstances and report casualty's condition
- Communicate effectively and assertively and show leadership in an incident
- Comply with OHS legislation
- Conduct an initial casualty assessment
- Demonstrate the application of first aid principles
- Demonstrate:
  - adequate infection control procedures
  - consideration of the welfare of the casualty
  - safe manual handling
  - safe storage and handling procedures for pressurised gases
- Interpret and use listed documents
- Make prompt and appropriate decisions relating to managing an incident in the workplace
- Manage specific injuries/illnesses and conditions as identified in the Range Statement for this competency unit
- Plan an appropriate first aid response in line with established first aid principles, policies and procedures, ARC Guidelines and/or State/Territory regulations, legislation and policies and industry requirements and respond appropriately to contingencies in line with own skills
- Prepare a written incident report or provide information to enable preparation of an incident report
- Provide assistance with self-medication as per subject's own medication regime and in line with State/Territory legislation, regulations and policies and any available medical/pharmaceutical instructions
- Use a range of first aid equipment as outlined in the Range Statement
- Use literacy and numeracy skills as required to read, interpret and apply guidelines and protocols

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects of assessment:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competence should be demonstrated working individually and, where appropriate, as part of a first aid team
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace or community setting
- Currency of first aid knowledge and skills is to be demonstrated in line with state/territory regulations, legislation and policies, ARC and industry guidelines

Method of assessment may include:

- Skills in performing first aid procedures are to be assessed through demonstration, with questioning to confirm essential knowledge
- Skills may be assessed through simulations, using anatomical models, manikins or in a high fidelity simulation centre
- For assessment purposes, demonstration of skills in CPR procedures requires using a model of the human body (resuscitation manikin) in line with ARC Guidelines

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Contextualisation to address specific requirements may include:

- Focus on first aid management of specific types of injury
- First aid provision under specific constraints or circumstances (eg. in confined spaces, in maritime work environment or in work environment involving identified risks/hazards)

First aid management must take into account:

- Workplace policies and procedures
- Industry/site specific regulations, codes etc.
- OHS requirements
- State and territory workplace health and safety requirements

A hazard is:

- A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these

Hazards may include:

- Physical hazards
- Biological hazards
- Chemical hazards
- Hazards associated with manual handling
RANGE STATEMENT

Risks may include:

- Risks from worksite equipment, machinery and substances
- Risks from first aid equipment (oxygen cylinders, AED)
- Environmental risks
- Exposure to blood and other body substances
- Risk of further injury to the casualty
- Risks associated with the proximity of other workers and bystanders
- Risks from vehicles
- Fallen power lines, step and touch potential
RANGE STATEMENT

Casualty's condition is managed for:

- Abdominal injuries
- Airway obstruction
- Allergic reactions
- Altered and loss of consciousness
- Bleeding
- Burns - thermal, chemical, friction, electrical
- Chest pain
- Injuries: cold and crush injuries; eye and ear injuries; head, neck and spinal injuries; minor skin injuries; needle stick injuries; soft tissue injuries including sprains, strains, dislocations
- Near drowning
- Envenomation - snake, spider, insect and marine bites
- Environmental conditions such as hypothermia, hyperthermia, dehydration, heat stroke
- Fractures
- Medical conditions, including cardiac conditions, epilepsy, diabetes, asthma and other respiratory conditions
- No signs of life
- Pain relief
- Poisoning and toxic substances (including chemical contamination)
- Respiratory distress
- Shock
- Seizures
- Stroke
- Substance misuse - all drugs and alcohol, including illicit drugs

First Aid management skills must include in accordance with ARC Guidelines, State/Territory regulations, legislation and policies and industry requirements:

- Administration of analgesia
- CPR
- Infection control
- AED
- Identification and management of anaphylactic shock reaction in accordance with ARC Guidelines, State/Territory regulations, legislation and policies and industry requirements
- Oxygen administration
RANGE STATEMENT

First aid management must account for:

- Location and nature of the workplace
- Environmental conditions eg electricity (high or low voltage), biological risks, weather, motor vehicle accidents
- Location of emergency services personnel
- Number of casualties and potential casualties
- Use and availability of first aid equipment, resources and pharmaceuticals
- Types of dangers/risks to the casualty and any others in the vicinity of the situation
- Confined spaces, subject to industry need

Medications may include in accordance with ARC Guidelines, State/Territory regulations, legislation and policies and industry requirements:

- Oxygen
- Analgesics
- Bronchodilators
- Casualty's own medications
- Auto-injectors

Resources and equipment are used appropriate to the risk to be met and may include:

- Oxygen resuscitation/cylinders
- AED
- Thermometers
- Auto-injectors
- Back boards
- Stretchers
- Soft bag resuscitator
- First aid kit
- Casualty's medication
- Analgesic inhalers
- Analgesic gas equipment
- Resuscitation mask or barrier
- Spacer device
- Cervical collars
RANGE STATEMENT

Information to be documented may include:

- Time
- Location
- Description of injury
- First aid management
- Fluid intake/output, including fluid loss via:
  - blood
  - vomit
  - faeces
  - urine
- Administration of medication including:
  - time
  - date
  - person administering
  - dose
- Vital signs

Established first aid principles include:

- Checking the site for danger to self, the casualty and others and minimising the danger
- Checking and maintaining the casualty's airway, breathing and circulation

Unit Sector(s)

Not Applicable
HLTFS207C Follow basic food safety practices

Modification History
Not Applicable

Unit Descriptor
Descriptor This unit of competency describes the skills and knowledge required for basic food safety practices including personal hygiene, conduct when working in a food service environment, basic pest control requirements and basic food disposal requirements. It describes the most basic level of competence required by any person in any industry who directly handles food.

Application of the Unit
Application This unit supports the implementation of national and state food safety legislation and regulations and is based on the national Food Safety Guideline Competency Standards.

Licensing/Regulatory Information

Employability Skills

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Maintain food safety while carrying out food handling activities | 1.1 Handle food according to the *food safety program*
| 1.2 Identify and report processes and practices which are not consistent with the food safety program
| 1.3 Take corrective action, within level of responsibility, and according to the food safety program
| 1.4 Report any corrective action to supervisor, and according to legislative and organisation protocols |
| 2. Comply with personal hygiene standards | 2.1 Ensure *personal hygiene* meets the requirements of the food safety program
| 2.2 *Report health conditions and/or illness*, as required by the food safety program
| 2.3 Wear *appropriate clothing and footwear* as required by the food safety program |
ELEMENT

3. Contribute to the cleanliness of food handling areas, according to the food safety program

PERFORMANCE CRITERIA

3.1 Maintain the workplace in a clean and tidy order to meet workplace requirements
3.2 Comply with workplace measures to prevent pests entering food premises
3.3 Identify and report indicators of pest presence

4. Dispose of food according to food safety program

4.1 Keep food for disposal separate, according to food safety program requirements
4.2 Dispose of food according to the food safety program requirements

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Appropriate bandages and dressings to be used when undertaking food handling
- Clothing and footwear requirements for working in and/or moving between food handling areas
- Food disposal requirements
- Food safety requirements and procedures related to own work, which will depend on the nature of food handled and food handling responsibilities
- Legal responsibilities relating to personal hygiene practices and the reporting of illness as required by the food safety program, which:
  - at a minimum must meet the requirements of Food Safety Standard 3.2.2 and/or state legislation/regulations
  - may also include restrictions on wearing of jewellery and other adornments such as nail polish
REQUIRED SKILLS AND KNOWLEDGE

- Personal clothing maintenance, laundering and storage requirements
- Pest containment requirements
- Possible consequences of not following these procedures
- Responsibilities for maintaining the work area in a clean and tidy state
- Suitable standard for materials, equipment and utensils used in the food handling area
- Use and storage of cleaning equipment as required to carry out own work responsibility
- Waste collection, recycling and handling procedures relevant to own work responsibilities

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Apply knowledge of aspects of the food safety program relevant to the work role
- Comply with personal hygiene requirements
- Comply with workplace cleanliness requirements
- Demonstrate appropriate disposal of food

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Carry out workplace responsibilities to meet the requirements of the food safety program relating to own work
- Correct situations or procedures that do not meet the food safety program, within the limits of work responsibility
- Handle and dispose of recalled or contaminated food, waste and recyclable material according to food safety program where this is part of the work responsibility
- Handle, clean and store equipment, utensils, packaging materials and similar items according to the requirements of the food safety program
- Identify and report signs of pest infestation according to the food safety program
- Identify and report situations or procedures that do not meet the food safety program
- Maintain personal hygiene consistent with the food safety program
- Maintain the work area in a clean and tidy state
- Monitor own work and implement any controls as required by the food safety program
- Report health conditions and illness as appropriate and according to the food safety program
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Take necessary precautions when moving around the workplace and/or from one task to another to maintain food safety
REQUIRED SKILLS AND KNOWLEDGE

- Wear and maintain appropriate clothing and footwear as required by work tasks and consistent with the requirements of the food safety program

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Assessment should be structured on whole work activities and address all knowledge and skill requirements
- Simulations may be used to represent workplace conditions as closely as possible
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - Food safety program
  - Food handling area
  - Relevant reporting procedures
EVIDENCE GUIDE

Method of assessment
- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Role play simulation

Access and equity considerations:
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

A food safety program:

- Systematically identifies the food safety hazards that may be reasonably expected to occur in all food handling operations of the food business
- Identifies where and how each hazard can be controlled, describes how these controls are to be monitored, the corrective action required if control conditions are not met and information to be recorded
- Must comply with relevant national, state and industry legislation/regulations
- For the purpose of applying this guideline competency standard in circumstances where formal food safety programs are not a legal requirement, the term can be understood to cover the same detail as would be covered by a food safety program. Where a business has not identified food safety hazards, determined where and how these hazards are to be controlled and how controls are to be monitored, this guideline competency standard would not apply

Procedures outlining food safety responsibilities may be:

- Provided in formats to suit the workplace such as written, verbal, diagrams and electronic advice

Food handling refers to:

- Basic handling and inspection
- Preparation
- Cooking
- Cooling
- Processing
- Display
- Packaging
- Storage
- Transportation

Responsibility for maintaining food safety:

- Relates to own tasks and responsibilities
- Is based on implementing the food safety program as established for the workplace
RANGE STATEMENT

Products/materials handled and stored may include:

- Raw materials
- Ingredients
- Consumables
- Part-processed product
- Finished product
- Cleaning materials

Minimum personal hygiene requirements:

- Are specified by the food safety program
- Must, at a minimum, meet legal requirements as set out in the Food Safety Standard 3.2.2, Division 4:14 and/or state legislation/regulations

Reporting of health conditions and illnesses requirements:

- Are specified by the food safety program
- Must, at a minimum, meet legal requirements as set out in Food Safety Standard 3.2.2, Division 4:13 and/or state legislation/regulations.

Appropriate clothing and footwear:

- Depends on work requirements
- Should be designed to ensure that the body and clothing itself, does not contaminate food or surfaces likely to come into contact with food
- Examples of clothing designed to prevent contamination by the body include hair nets, beard snoods and gloves
RANGE STATEMENT

*Personal hygiene requirements set out in Food Safety Standard 3.2.2. Division 4.15 include:*

- Taking all practicable measures to ensure that a food handlers body, and anything they are wearing does not contaminate food or surfaces
- Take all practicable measures to prevent contact with ready-to-eat food
- Level of outer clothing is appropriate for food handling
- Only waterproof bandages and dressings are used on exposed body parts
- Not eating over unprotected food or surfaces likely to come into contact with food
- Not sneeze, blow or cough over unprotected food or surfaces likely to come into contact with food
- Not spit, smoke or use tobacco or similar preparations in areas in which food is handled
- Not urinate or defecate except in the toilet
- Wash hands:
  - Whenever hands are likely to be a source of contamination
  - Immediately before working with ready-to-eat food after handling raw food
  - Immediately after using the toilet
  - Before commencing or recommencing food handling
  - Immediately after smoking, coughing, sneezing, using a handkerchief or disposable tissue, eating, drinking or using tobacco or similar substances
- When washing hands:
  - use hand washing facilities provided
  - thoroughly clean hands using soap or other effective means, and warm running water
  - thoroughly dry hands on a single use towel or other way that is not likely to transfer pathogenic micro-organisms to the hands
RANGE STATEMENT

Reporting of health conditions and illnesses requirements set out in Food Safety Standard 3.2.2, Division 4:14... must include:

- Reporting any disease the food handler may be suffering or carrying, to the supervisor
- Not engaging in food handling where there is a reasonable likelihood of food contamination as a result of the disease
- If continuing work on food handling premises - take reasonable measures to prevent food from being contaminated as a result of the disease

Food for disposal is held and kept separate until it is:

- Destroyed or otherwise used or disposed of so that it cannot be used for human consumption
- Returned to the supplier
- Further processed in a way that ensures its safety and suitability
- Ascertained to be safe and suitable

Food for disposal includes:

- Food that is subject to recall
- Food that has been returned
- Food that is not safe or suitable
- Food that is reasonably suspected of not being safe or suitable

<td>2.5 Communicate all additional and/or revised processes and procedures to food handlers</td>
</tr>
</tbody>
</table>
ELEMENT
3. Maintain food safety in the workplace

PERFORMANCE CRITERIA
3.1 Identify processes and procedures that could result in a breach of food safety procedures and take preventive or corrective action
3.2 Support food handlers to complete food safety records to meet the food safety program and legal requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Appropriate communication skills and techniques to convey the requirements of the food safety program to others in the workplace.
- Auditing arrangements, roles and responsibilities as they relate to own work responsibilities, which may include an understanding of internal and external audit processes.
- Current technical and process knowledge required to participate in investigations of non-conformance within level of responsibility.
- Legal obligations for food safety relating to personal and company liability, which:
  - at a minimum, includes awareness of relevant national, state and industry-specific legislation/regulations.
  - may also include customer requirements.
- Principles of a systematic approach to managing food safety, which includes:
  - identification of hazards that are likely to occur.
  - establishing appropriate methods of control.
  - monitoring controls.
  - describing corrective action to be taken if control conditions are not met.
  - recording information.
- Procedures to identify and separate non conforming product and recall procedures and responsibilities relevant to the food business.
- Properties, handling, preparation, processing, display, packaging and storage requirements of materials and products used in the food handling area in order to make judgments about safety of food within the parameters established by the food safety program.
- Record keeping requirements and systems used in the workplace.
- Systems, procedures and support programs in place in the food business to implement the food safety program.
REQUIRED SKILLS AND KNOWLEDGE

Essential skills:
It is critical that the candidate demonstrate the ability to

- Apply knowledge of all aspects of the food safety program
- Meet reporting requirements
- Undertake hazard identification and management

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Collect and analyse data and other food safety information to identify breaches of food safety procedures within level of responsibility
- Communicate information about the food safety program and related procedures to others in the food handling area
- Demonstrate monitoring techniques used in the food handling area, which may include:
  - visual inspection
  - sampling methods
  - testing methods
  - record keeping and all other procedures required to implement the food safety program in the food handling area
- Make judgments on action required to respond to non-conformance and follow procedures to identify, separate and/or recall non-conforming food as required, within level of responsibility
- Monitor the recording of food safety information to confirm that the records accurately reflect performance and meet the requirements of the food safety program
- Participate in investigating actual and potential non-conformance and complaints from customers relating to food safety
- Review practice and procedures to prevent or minimise non-conformance within level of responsibility

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Assessment should be structured on whole work activities and address all knowledge and skill requirements
- Simulations may be used to represent workplace conditions as closely as possible
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - Food safety program
  - Food handling area
  - Relevant reporting procedures

Method of assessment:

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Role play simulation
EVIDENCE GUIDE

Access and equity considerations:
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related units:
This competency unit should be assessed in conjunction with:
- HLTFS310C Apply and monitor food safety requirements

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Food safety program includes:

- A food safety program systematically identifies the food safety hazards that may be reasonably expected to occur in all food handling operations of the food business. It identifies where and how each hazard can be controlled, describes how these controls are to be monitored, the corrective action required if control conditions are not met and information to be recorded
- The food safety program must comply with relevant national, state and industry legislation/regulations
- For the purpose of applying this guideline competency standard in circumstances where formal food safety programs are not a legal requirement; the term can be understood to cover the same detail as would be covered by a food safety program
- Where a business has not identified food safety hazards, determined where and how these hazards are to be controlled and how controls are to be monitored, this guideline competency standard would not apply

Processes and procedures to maintain the food handling area may include:

- Cleaning and sanitation
- Pest control
- Food disposal
- Equipment calibration
- Temperature measuring devices

Formats for the provision of food safety responsibilities may include:

- Written
- Verbal
- Diagrams
- Electronic
RANGE STATEMENT

Food handling area may include::

- An area where any or all of the following occur:
  - basic food handling
  - food inspection
  - food preparation
  - cooking
  - cooling
  - processing
  - display
  - packaging
  - storage
  - transportation

Identifying breaches of food safety procedures and taking corrective action must:

- Take place in the context of the food safety program
- Within scope of responsibility

Record keeping requirements include:

- Legal requirements
- Food safety program requirements

Unit Sector(s)

| 1. Implement the food safety program | 1.1 *Monitor and control food safety hazards* as required by the *food safety program*
| | 1.2 Promptly report non-conformance where food safety control requirements are not met and take corrective action
| | 1.3 Record food safety information to meet the requirements of the food safety program
| 2. Assist in the identification of breaches of food safety procedures | 2.1 Identify and report processes and conditions which could result in a breach of food safety procedures
| | 2.2 Take corrective action to meet the requirements of the food safety program
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- An understanding of the methods used in the workplace to monitor that food safety is under control, which:
  - may include an understanding of the purpose of sampling and taking measurements such as temperature and pH and conducting inspections and tests
  - includes an understanding of the procedures to follow where inspections and tests are part of the work responsibility
- Methods and procedures used in the workplace to control food safety hazards
- Methods used in the workplace identify and separate food which may be unsafe
- Microbiological, physical and chemical hazards related to the foods handled in the workplace. This includes the types of hazards likely to occur, the conditions under which they occur and possible consequences
- Purpose of corrective action and the appropriate corrective action to take if monitoring indicates that food safety control requirements are not met. Corrective action is typically described in the food safety program
- Purpose of keeping records and the recording requirements of the food safety program
- Recall procedures as they relate to own work responsibilities
- Safe food handling requirements and procedures related to work responsibilities
- Sources of information on procedures and responsibilities for food safety relating to own work
- Understanding of the properties, handling and storage requirements of equipment, materials and products handled and used

Essential skills:

It is critical that the candidate demonstrate the ability to

- Apply knowledge of all aspects of the food safety program
REQUIRED SKILLS AND KNOWLEDGE

- Meet reporting requirements
- Undertake hazard identification and management

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Follow procedures to identify, separate and report product which is or may be non-conforming and/or implement other necessary corrective action within level of responsibility
- Identify if food safety requirements or parameters are not met within level of responsibility
- Monitor food safety hazards as required by the food safety program. This may include methods such as visual inspection, sampling and testing
- Participate in investigating and reporting on unsafe food as identified by internal monitoring and/or customer complaints
- Record results of monitoring and maintain records as required by the food safety program
- Report practices or processes in own work that could result in unsafe food
- Take corrective action as required by food safety program within level of responsibility
- Use food safety program information to find advice on food safety responsibilities relating to own work

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Food safety hazards may include:

- Biological agents in food
- Chemical agents in food
- Physical agents in food
- Condition of food

That has the potential to cause an adverse health effect
(See Standard 3.2.1)

Food safety program

- A food safety program systematically identifies the food safety hazards that may be reasonably expected to occur in all food handling operations of the food business. It identifies where and how each hazard can be controlled, describes how these controls are to be monitored, the corrective action required if control conditions are not met and information to be recorded
- The food safety program must comply with relevant national, state and industry legislation/regulations
- For the purpose of applying this guideline competency standard in circumstances where formal food safety programs are not a legal requirement; the term can be understood to cover the same detail as would be covered by a food safety program
- Where a business has not identified food safety hazards, determined where and how these hazards are to be controlled and how controls are to be monitored, this guideline competency standard would not apply

Applying and monitoring food safety program must include:

- Monitoring food safety
- Carrying out corrective action
- Reporting matters outside level of responsibility

Responsibility for applying and monitoring food must include:

- The context of
  - the food safety program
  - own tasks and responsibilities
RANGE STATEMENT

Examples of breaches to food safety procedures include, but are not limited to:

- Failure to check delivery temperatures of potentially hazardous, chilled food
- Failure to place temperature sensitive food in refrigerators promptly
- Failure to wash hands when required
- Use of cloths for unsuitable purposes

Monitoring describes the methods used to confirm that food safety hazards are controlled. Examples include, but are not limited to:

- Monitoring food safety
- Taking temperatures
- Collecting samples
- Visual inspections
- Conducting other tests as required

Corrective action may include:

- Extending cooking time
- Reprocessing
- Reworking
- Withdrawing food

| 1. Identify and select **hand and power tools** | 1.1 Identify and follow the occupational health and safety requirements for using hand and power tools  
1.2 Select, correctly fit and use appropriate *personal protective equipment*  
1.3 Select hand and power tools consistent with the needs of the task  
1.4 Check tools for serviceability and safety and report any faults to supervisor  
1.5 Identify power supply  
1.6 Select equipment needed to hold or support power tool application |
| 2. Use hand tools | 2.1 Locate and hold in place material needed for hand tool application  
2.2 Use hand tools safely and effectively  
2.3 Safely locate hand tools when not in immediate use |
ELEMENT  

PERFORMANCE CRITERIA

3. Use power tools

3.1 Locate and hold in place material needed for power tool application

3.2 Use power tools safely and effectively

3.3 Safely locate power tools when not in immediate use

4. Clean up

4.1 Clean, maintain and store tools correctly and according to organisation requirements

4.2 Clean, visually check and store power leads/hoses

4.3 Clean and store equipment

4.4 Clear the work area and remove waste

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Functions and use of hand and power tools
- Operating procedures
- Safety requirements for tool operation

Essential skills:

It is critical that the candidate demonstrate the ability to

- Work safely and follow the organisation's occupational health and safety practices
- Apply relevant knowledge of the tools required to be used in performing maintenance
REQUIRED SKILLS AND KNOWLEDGE

- Work on the organisation’s buildings, plant, equipment and machinery
- Identify boundaries of role and when to refer problems to a tradesperson in relation to the use of tools
- Demonstrate compliance with occupational health and safety regulations applicable to the use of tools
- Apply correct operating procedures for the use of tools
- Interactively communicate with others in relation to the use of power tools

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. This includes the ability to:

- Apply appropriate hand-eye coordination in the use of tools
- Apply problem solving skills - the ability to use available resources and prioritise workload
- Communicate with others in relation to work to be undertaken and potential workplace disruption
- Demonstrate work safely to instructions
- Follow infection control practices
- Handle/hold materials during operation of tools
- Select appropriate tool for intended task and materials involved
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues, including appropriate practices to ensure efficient use of resources
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Hand tools may include, but are not limited to:

- Adjustable spanners
- Bars (crow and pinch)
- Bolt cutters
- Brooms
- Chisels
- Hacksaws and handsaws
- Hammers
- Measuring tapes
- Nips
- Picks/mattocks
- Pliers
- Sealant gun
- Shovel/spades
- Sledge hammers
- Spanners and wrenches
- Spirit level
- Straight edge
- String lines
- Trowels and float
- Wire cutters
- Paint brushes/rollers
- Spatula/putty knives
- Screwdrivers

Power tools include but are not limited to:

- Drills
- Nail guns
- Staplers
- Sanders
- Angle grinders
- Pneumatic wrenches
- Circular saw
- Jig saws
- Planers
- Routers
- Jackhammer
- Other tools powered by compressed air or electricity
RANGE STATEMENT

*Personal protective equipment may include, but is not limited to:*

- Overalls, boots
- Hard hat/cap
- Safety glasses/goggles
- Gloves
- Ear plugs/muff
- Face mask/respirator

### Required Skills and Knowledge

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Availability of resources and assistance within and external to the organisation in relation to cultural diversity issues
- Own cultural conceptions and pre-conceptions and perspective of diverse cultures
- Recognition of cultural diversity in Australian society with many individuals living in
REQUIRED SKILLS AND KNOWLEDGE

- Recognition of cultural influences and changing cultural practices in Australia and its impact on diverse communities that make up Australian society
- Recognition of culture as a dynamic social phenomenon
- Recognition of culture as a range of social practices and beliefs evolving over time
- Recognition of impact of cultural practices and experiences on personal behaviour, interpersonal relationships, perception and social expectations of others
- Recognition of the unique way individuals may experience a culture and respond to past experiences
- Recognition that the word 'normal' is a value-laden, excluding concept that often precludes acknowledgment of the diversity of people, their life experiences and situations
- The principles of equal employment opportunity, sex, race, disability, anti-discrimination and similar legislation and the implications for work and social practices
- The role and use of language and cultural interpreters

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply culturally respectful practices in the workplace and to demonstrate respect and inclusiveness of culturally diverse people in all work practices
- Form effective workplace relationships with co-workers and colleagues of diverse backgrounds and cultures
- Participate in identifying and implementing culturally safe work practices
- Respond respectfully and sensitively to cultural beliefs and practices that may cause harm
- Sensitively and respectfully communicate with persons of diverse backgrounds and cultures
- Use basic conflict resolution and negotiation skills
- Use effective strategies to address and eliminate discrimination and bias in the workplace

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or a simulated workplace environment under the normal range of work conditions
- Assessment should be conducted on more than one occasion to cover a variety of circumstances to establish consistency
- Holistic assessment of this competency unit is encouraged, to ensure application of these skills in conjunction with specific work functions but the unit may be delivered and assessed independently

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Work practices may relate to:

- Dealing with persons of diverse gender, sexuality and age
- Compliance with duty of care policies of the organisation
- Collection and provision of information
- Communication
- Provision of assistance
- Contact with families and carers
- Physical contact
- Care of deceased persons
- Handling personal belongings
- Provision of food services

Work practices that are culturally appropriate would be non-discriminatory and free of bias, stereotyping, racism and prejudice.

Cultural diversity may include:

- Ethnicity
- Race
- Language
- Cultural norms and values
- Religion
- Beliefs and customs
- Kinship and family structure and relationships
- Personal history and experience, which may have been traumatic
- Gender and gender relationships
- Age
- Disability
- Sexuality
- Special needs
RANGE STATEMENT

*Communication may be:* 
- Verbal 
- Appropriate gestures and facial and physical expressions 
- Posture 
- Written 
- Signage 
- Through an interpreter or other person

*Strategies to eliminate bias and discrimination may include:* 
- Cross cultural work teams 
- Cross cultural employee representation on committees 
- Workplace free of culturally insensitive literature, posters, signage 
- Inclusion in decision-making

Unit Descriptor
Descriptor
This unit describes the communication and work practice skills and knowledge required to work with Aboriginal and Torres Strait Islander people in the health industry context.
It deals specifically with cross-cultural awareness and issues involving working with Aboriginal and Torres Strait Islander individuals, organisations and communities.

Application of the Unit
Application
The unit applies equally to those operating in health care policy or program planning, development and evaluation contexts or in direct service delivery contexts.
Application of this unit should be contextualised to reflect any requirements, issues and practices specific to each workplace and/or local community.

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Reflect an awareness of Aboriginal and Torres Strait Islander history and cultures in work practices | 1.1 Acknowledge and respect the impact of events and issues in Aboriginal and/or Torres Strait Islander history during service delivery  
1.2 Demonstrate knowledge of and respect for the diversity of culture, skin and language groups, family structures, art and religion in Indigenous cultures as part of service delivery |
| 2. Reflect an awareness of own and other cultural realities in work practices | 2.1 Identify the potential impact of cultural factors on service delivery to Aboriginal and/or Torres Strait Islander clients  
2.2 Address cultural realities in order to facilitate full participation in service delivery by Aboriginal and/or Torres Strait Islander clients and/or co-workers  
2.3 Negotiate appropriate strategies to effectively accommodate cultural differences in the workplace  
2.4 Identify and utilise resources to facilitate effective service delivery in a cross cultural context  
2.5 Ensure work practices used in a cross cultural context are grounded in an awareness of one's own culture and the cultural realities of others |
ELEMENT

3. Communicate effectively with Aboriginal and Torres Strait Islander people

PERFORMANCE CRITERIA

3.1 Identify communication issues and ensure they are addressed to develop and maintain effective relationships with Aboriginal and/or Torres Strait Islander clients and/or co-workers

3.2 Employ appropriate communication strategies to support a culturally safe environment for delivery of health services

3.3 Identify ineffective and/or inappropriate communication strategies and remodel them to support delivery of health services

3.4 Identify and utilise resources to facilitate effective communication within the workplace

3.5 Engage the services of Aboriginal and Torres Strait Islander interpreters, health workers and colleagues as cultural brokers as required to meet duty of care

4. Reflect cultural safety in workplace and professional relationships

4.1 Ensure workplace and professional relationships are based on mutual respect, tolerance of diversity and a shared understanding of cultural safety

4.2 Identify critical issues influencing workplace and professional relationships with Aboriginal and/or Torres Strait Islander co-workers and clients

4.3 Identify and utilise effective strategies to develop and maintain effective relationships with Aboriginal and/or Torres Strait Islander co-workers and clients as appropriate

4.4 Take responsibility for revisiting strategies to assist in the resolution of any difficulties, differences or misunderstandings that may occur
ELEMENT

5. Work in partnership with Aboriginal and Torres Strait Islander people and communities

PERFORMANCE CRITERIA

5.1 Develop and implement strategies to increase participation of Aboriginal and Torres Strait Islander people in health service delivery

5.2 Ensure delivery of health care, services and programs reflect culturally safe and appropriate practice

5.3 Ensure health care, services and programs encourage self-determination and community control to ensure improved health outcomes

5.4 Identify and utilise resources to promote effective partnerships with Aboriginal and/or Torres Strait Islander people, organisations and communities

5.5 Support the development of effective partnerships between staff, Aboriginal and Torres Strait Islander people and their communities to facilitate accessibility, affordability, accountability, acceptability of appropriate healthcare and workplace services
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- An understanding of Aboriginal and Torres Strait Islander culture and history, the impact of European settlement, loss of land and culture, the importance of law and kinship
- Appreciation of cultural shock and its impact on health and well being
- Basic understanding and awareness of the differences between cultures, particularly the cultures of Aboriginal and Torres Strait Islander people and others
- Factors which contribute to Aboriginal and Torres Strait Islander ill health and common diseases experienced by these groups of people
- Knowledge of availability of interpreter resources
- Relevant legislation and policies, which may include:
  - codes of practice
  - commonwealth, and/or territory/state legislation
  - community standards and regulations
  - organisation's policies and practices
- Understanding and awareness of the diversity of Aboriginal and Torres Strait Islander cultures
- Understanding and awareness of the social, political and economic issues affecting Aboriginal and Torres Strait Islander people
- Understanding of own culture, western systems and structures and how this impacts on Aboriginal and Torres Strait Islander cultures
- Understanding of past and present power relations and its impact on the workplace and communities
- Understanding of racism and discrimination, and laws pertaining to these issues

**Essential skills:**

It is critical that the candidate demonstrate the ability to effectively do the task outlined in
REQUIRED SKILLS AND KNOWLEDGE

elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Advocate for anti racism
- Demonstrate respect for a person and their culture
- Form effective relationships with a person from another culture
- Form mutual mentoring arrangements with Aboriginal and/or Torres Strait Islander people
- Participate in developing and implementing strategies for sharing power and facilitating participation, self-determination and self-control by Aboriginal and Torres Strait Islander people and communities
- Participate in identifying and implementing culturally safe work practices
- Reflect on actions and events to make and maintain cross cultural relationships
- Reflect on self and make changes to work in a cross cultural context
- Sensitively and respectfully communicate in a cross cultural context
- Use cultural safety approaches

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed both on and off job
- In order to work with local Aboriginal and/or Torres Strait Islander communities, workers must demonstrate an understanding of Aboriginal and/or Torres Strait Islander culture and history, the local community and other communities
- Assessment of this unit is recommended to involve a person who is Aboriginal or Torres Strait Islander or who has worked closely with Aboriginal and/or Torres Strait Islander people and communities
- Assessment should be conducted on more than one occasion to cover a variety of circumstances to establish consistency
- Holistic assessment of this competency unit is encouraged, to ensure application of these skills in conjunction with specific work functions in the health industry but the unit may be delivered and assessed independently

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Products that are required as evidence include:

- Documentation on the development and implementation of strategies employed to address issues identified in relation to:
  - cultural differences
  - workplace communication
  - workplace and professional relationships
  - Aboriginal and Torres Strait Islander participation, self-determination, and community control in relation to health care policies, programs and/or service delivery

Processes that are required as evidence include:

- How opportunities were provided for Aboriginal and Torres Strait Islander participation in the planning, delivery and evaluation of health care policies, programs or services
- Why particular communication strategies and/or work practices were chosen or modified
- How resources were identified and utilised to:
  - facilitate service delivery in a cross cultural context
  - facilitate effective communication within the workplace
  - promote effective partnerships

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Cultural differences may include:
- Interpersonal approach
- Thinking/learning styles
- Expectations
- Responsibilities
- Priority setting
- Experience and working styles
- Gender and kinship differences

Strategies to accommodate cultural differences in the workplace may include:
- Workplace induction program
- General guidelines and standards for approaching specific tasks and issues
- Develop understanding of own culture and history
- Develop awareness of key aspects and impacts of Aboriginal and/or Torres Strait Islander culture and history on current health issues
- Understanding similarities to identify common ground of cultural groups in the workplace
- Contextualising given workplace
- Code of practice at all levels of the organisation

Resources to facilitate effective service delivery in a cross cultural context may include:
- People identified with appropriate cultural knowledge
- Workplace design to accommodate cultural needs
- Workplace policy
- Reference groups

Events and issues in Aboriginal and/or Torres Strait Islander history may include but are not limited to:
- Pre- and post-colonisation history
- Legislation
- Stolen generations
- Deaths in custody
- Health
- Land Rights
- Maralinga
- Mabo
- Religion
RANGE STATEMENT

Communication strategies to ensure safe service delivery may include:

- Common workplace strategies:
  - identify the barriers to effective cross cultural communication and the causes of ineffective cross cultural communication
  - visual/iconic strategies - diagrams, tables, graphs, pictures
  - flow charts, video images
  - use of computer technology and other media

- Strategies for individuals:
  - gestures and non-verbal techniques
  - display of positive regard and respect
  - non-judgemental approaches
  - ongoing personal/interpersonal skill development
  - forming partnerships with all cultural groups to achieve particular work goals
  - monitoring and reflecting on own actions to ensure cultural values are not imposed on others

Resources to facilitate effective communication may include:

- Resources to support visual and iconic strategies
- Aboriginal and/or Torres Strait Islander Health workers, liaison officers and other colleagues

Interpreters may be:

- Registered
- Other multilingual people not related to the person

Strategies for developing effective relationships may include:

- Negotiation of roles and responsibilities in the workplace
- Development, monitoring and review of culturally safe work practices
- Identification of and consultation with key contact people such as Aboriginal liaison officers
- Display empathy appropriately
- Be flexible
- Develop the capacity to take turns - stand back wait for your turn
RANGE STATEMENT

Strategies to resolve difficulties may include:
- Negotiation of culturally appropriate guidelines
- Identification of appropriate mediators
- Negotiating a workplace code of practice

Strategies to increase participation in health service delivery may include:
- Consultation with community representatives
- Community participation in decision making processes at all levels

Culturally appropriate practices may include:
- Strategies for providing a service for women's and men's health issues
- Allowances made for cultural obligations

Resources to promote effective partnerships may include:
- Formation of appropriate reference groups
- Policy/guidelines - memorandum of understanding
- Two way flow of information and resources

Work practices may include but are not limited to the following functions or be in the following settings:
- Hospital or other facility/services admission, entry and discharge processes
- Referral protocols
- Reception and enquiry services
- Diagnostic services
- Inpatient services
- Non-inpatient and community services
- Screening services
- Health promotion
- Public health
- Non-government or agency
- Urban, rural and remote community settings
RANGE STATEMENT

Factors contributing to Aboriginal and Torres Strait Islander people’s ill health include:

- History of European/Aboriginal contact
- Loss of culture, land, identity and Indigenous law
- Loss of family links
- Geographical remoteness
- Lack of relevant and culturally appropriate education
- Lack of meaningful employment or occupation
- Lack of relevant health knowledge
- Food and nutrition
- Smoking
- Alcohol and substance abuse
- Mental stress
- Poor maternal health
- Feelings of isolation and vulnerability and being culturally unsafe
- Violence
- Environmental health factors (housing, sewerage, water supply, hygiene)
- Late presentation, diagnosis and treatment

Culturally appropriate work practices may recognise:

- Food customs
- Kin relationships
- Lifestyle preferences
- Gender
- Language preferences

Unit Sector(s)

Not Applicable
HLTIN301C Comply with infection control policies and procedures

Modification History
Not Applicable
Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required for workers to comply with infection control policies and procedures. All procedures must be carried out in accordance with current infection control guidelines, Australian and New Zealand Standards for maintaining infection control and the policies and procedures of the organisation.

This unit acknowledges the importance of complying with an effective infection control strategy that ensures the safety of the client (or end-user of health-related products/services), maintains personal protection and prevents the transmission of infections from person to person.

All tasks must be carried out in accordance with State or Territory legislative requirements that affect work practices of the organisation and/or worker.

Application of the Unit

Application

This unit is applicable to workers who are responsible for following workplace procedures to maintain infection control.

Application of this unit should be contextualised to reflect any specific workplace infection risks, hazards and associated infection control practices.

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Follow infection control guidelines | 1.1 Demonstrate the application of *standard precautions* to prevent the spread of infection in accordance with organisation requirements  
1.2 Demonstrate the application of *additional precautions* when standard precautions alone may not be sufficient to prevent transmission of infection  
1.3 *Minimise contamination* of materials, equipment and instruments by aerosols and splatter |
ELEMENT
2. Identify and respond to infection risks

PERFORMANCE CRITERIA
2.1 Identify infection risks and implement an appropriate response within own role and responsibility
2.2 Document and report activities and tasks that put clients and/or other workers at risk
2.3 Respond appropriately to situations that pose an infection risk in accordance with the policies and procedures of the organisation
2.4 Follow procedures for risk control and risk containment for specific risks
2.5 Follow protocols for care following exposure to blood or other body fluids as required
2.6 Place appropriate signs when and where appropriate
2.7 Remove spills in accordance with the policies and procedures of the organisation

3. Maintain personal hygiene

3.1 Maintain hand hygiene by washing hands before and after client contact and/or after any activity likely to cause contamination
3.2 Follow handwashing procedures
3.3 Implement hand care procedures
3.4 Cover cuts and abrasions with water-proof dressings and change as necessary

4. Use personal protective equipment

4.1 Wear personal protective clothing and equipment that complies with Australian/New Zealand Standards, and is appropriate for the intended use
4.2 Change protective clothing and gowns/aprons daily, more frequently if soiled and where appropriate, after each client contact
ELEMENT

5. Limit contamination

PERFORMANCE CRITERIA

5.1 Demarcate and maintain clean and contaminated zones in all aspects of health care work

5.2 Confine records, materials and medicaments to a well-designated clean zone

5.3 Confine contaminated instruments and equipment to a well-designated contaminated zone

6. Handle, package, label, store, transport and dispose of clinical and other waste

6.1 Wear appropriate personal protective clothing and equipment in accordance with occupational health and safety policies and procedures when handling waste

6.2 Separate waste at the point where it has been generated and dispose of into waste containers that are colour coded and identified

6.3 Store clinical or related waste in an area that is accessible only to authorised persons

6.4 Handle, package, label, store, transport and dispose of waste appropriately to minimise potential for contact with the waste and to reduce the risk to the environment from accidental release

6.5 Dispose of waste safely in accordance with policies and procedures of the organisation and legislative requirements
ELEMENT 7. Clean environmental surfaces

PERFORMANCE CRITERIA

7.1 Wear personal protective clothing and equipment during cleaning procedures
7.2 Remove all dust, dirt and physical debris from work surfaces
7.3 Clean all work surfaces with a neutral detergent and warm water solution before and after each session or when visibly soiled
7.4 Decontaminate equipment requiring special processing in accordance with quality management systems to ensure full compliance with cleaning, disinfection and sterilisation protocols
7.5 Dry all work surfaces before and after use
7.6 Replace surface covers where applicable
7.7 Maintain and store cleaning equipment
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

To demonstrate competence for this unit the worker must acquire the essential knowledge and skills described:

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Additional precautions
- Aspects of infectious diseases including:
  - opportunistic organisms
  - pathogens
- Basic microbiology including:
  - bacteria and bacterial spores
  - fungi
  - viruses
- Clean and sterile techniques
- Disease transmission:
  - paths of transmission including direct contact, aerosols and penetrating injuries
  - risk of acquisition
  - sources of infecting microorganisms including persons who are carriers, in the incubation phase of the disease or those who are acutely ill
- Effective hand hygiene:
  - procedures for routine handwash
  - procedures for surgical handwash
  - when hands must be washed
- Good personal hygiene practice including hand care
- Identification and management of infectious risks in the workplace
- Organisation requirements relating to immunisation, where applicable
- Personal protective equipment:
  - guidelines for glove use
REQUIRED SKILLS AND KNOWLEDGE

- guidelines for wearing gowns and waterproof aprons
- guidelines for wearing masks as required
- guidelines for wearing protective glasses
- Standard precautions
- Susceptible hosts including persons who are immune suppressed, have chronic diseases such as diabetes and the very young or very old
- Surface cleaning:
  - cleaning procedures at the start and end of the day
  - managing a blood or body fluid spill
  - routine surface cleaning
- Sharps handling and disposal techniques
- The organisation's infection control policies and procedures

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Consistently apply handwashing, personal hygiene and personal protection protocols
- Consistently apply clean and sterile techniques
- Consistently apply protocols to limit contamination

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- **Apply standard precautions:**
  - consistently ensure instruments used for invasive procedures are sterile at time of use (where appropriate)
  - consistently follow the procedure for washing and drying hands
  - consistently limit contamination
  - consistently maintain clean surfaces and manage blood and body fluid spills
  - consistently protect materials, equipment and instruments from contamination until required for use
  - consistently put into practice clean and sterile techniques
  - consistently use personal protective equipment
- **Apply additional precautions when standard precautions are not sufficient**
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
Evidence Guide

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- Observation of workplace performance is preferred for assessment of this unit
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The assessee must demonstrate compliance with the organisation's infection control policy as it relates to specific job role
- Consistency of performance should be demonstrated over the required range of workplace situations

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible

Method of assessment

- Evidence of essential knowledge and understanding may be provided by:
  - traditional or online (computer-based) assessment
  - written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Staff and/or client feedback
- Supporting statement of supervisor
- Authenticated evidence of relevant work experience and/or formal/informal learning
- Role play/simulation
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance.

Standard precautions include:

- Aseptic technique
- Personal hygiene practices especially washing and drying hands (e.g. before and after client contact)
- Use of personal protective equipment
- Techniques to limit contamination
- Surface cleaning and management of blood and body fluid spills
- Safe handling of sharps
- Safe disposal of sharps and other clinical waste
- Appropriate reprocessing and storage of reusable instruments
RANGE STATEMENT

Additional precautions may include:
- Special ventilation requirements
- Additional use of personal protective equipment
- Dedicated equipment (e.g., to each client or as appropriate to work function)
- Use of a special facility

Minimising contamination may include but is not limited to:
- Protecting materials, equipment and instruments from contamination until required for use
- Ensuring instruments used for invasive procedures are sterile at time of use
- Cleaning all environmental surfaces

Infection risks may include but are not limited to:
- Sharps injury
- Waste
- Discarded sharps
- Human waste and human tissues
- Related waste
- General waste
- Inhalation of aerosols
- Contact with blood and other body substances
- Personal contact with infectious materials, substances and/or clients
- Stock including food which has passed 'use-by' dates
- Animals, insects and vermin

Procedures for risk control may include but are not limited to:
- Eliminating a hazardous process
- Using personal protective equipment appropriately
- Changing a system of work to reduce a hazard
- Isolating the hazard
- Using protective devices to decrease exposure
- Using safe handling techniques
- Following infection control policies and procedures
- Procedures to minimise the risk of exposure to blood and body fluids
RANGE STATEMENT

Protocols for care following exposure to blood or other body fluids may include but are not limited to:

- Immediate care following:
  - A sharps injury
  - A splash of blood or other body fluids
- Post exposure care
- Record keeping and notification
- Legal requirements for the notification of all work related occurrences of injury, disease or illness

Hand hygiene procedures may include:

- Routine handwash
- Surgical handwash
- Use of antiseptic wipes and alcohol based preparations in specific situations where waterless hand hygiene is acceptable

Hand care may include but is not limited to:

- Suitable water-based hand creams that are registered on the Australian Register of Therapeutic Goods
- Using warm water for handwashing
- Drying hands thoroughly after handwashing
- Wearing heavy-duty utility gloves when handling irritant chemicals

Protective clothing and equipment may include but are not limited to:

- Gowns and waterproof aprons that comply with Australian/New Zealand standards
- Examination gloves and surgical gloves that comply with current Australian/New Zealand standards
- Glasses, goggles or face-shields
- Surgical face masks that comply with current Australian/New Zealand standards
- Footwear to protect from dropped sharps and other contaminated items
- Guidelines for latex allergic clients and staff

Clean zone includes but is not limited to:

- Storage areas for materials, medicaments, equipment
- Sterile storage areas
- Administration areas
RANGE STATEMENT

Contaminated zone includes but is not limited to:
- Area used for items that have become contaminated during use
- Receiving area for contaminated instruments in the instrument reprocessing centre

Waste may include but is not limited to:
- Clinical waste:
  - discarded sharps
  - human tissues
  - laboratory waste
  - any other waste as specified by the workplace
- Related waste:
  - radiographic waste
  - chemical and amalgam waste
  - cytotoxic waste
  - pharmaceutical waste
  - radioactive waste
- General waste

Disposal of waste requirements may include:
- Disposal in accordance with:
  - Environment Protection (Waste Management) Policy
  - Environment Protection (Waste Management) Regulations
  - Australian and New Zealand standards
  - Organisation policies and procedures

Cleaning procedures include but are not limited to:
- Damp dusting benches, equipment and shelving
- Maintaining the interior of drawers and cupboards in a clean and tidy state
- Cleaning floors daily using a mop and water and detergent
- Storing cleaning equipment clean and dry
- Managing the removal of a small blood or body fluid spill

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify *conditions requiring a nutrition care plan* most commonly encountered by the client group | 1.1 Identify food service systems  
1.2 Identify the conditions commonly encountered by the client group requiring a nutrition care plan or dietary modification  
1.3 Identify *nutrient imbalance* contributing to common lifestyle diseases and disorders  
1.4 Identify dietary factors associated with common lifestyle diseases/diet related chronic diseases and other nutrition-related conditions, food intolerances, allergies |
| 2. Identify the special nutritional and dietary needs of client groups | 2.1 Identify special nutritional and dietary needs for conditions encountered by the client group  
2.2 Report identified dietary and nutrition needs to the dietitian |
ELEMENT

3. Develop or modify meals and menus to meet the special nutritional and dietary needs of client groups

PERFORMANCE CRITERIA

3.1 Plan and modify meals and menus to meet the nutritional and dietary needs of the client group, using standard guidelines

3.2 Assess meals and menus for their suitability for texture modification to meet special nutritional and dietary needs, using standard guidelines

3.3 Consult with dietitian about the special nutritional and dietary needs of client groups

3.4 Incorporate sufficient choices of dishes and drinks in to menus for special needs, using standard guidelines

4. Plan meals to meet the nutritional needs of 'at risk' groups

PERFORMANCE CRITERIA

4.1 Identify groups 'at risk' of nutritional deficiencies

4.2 Identify the nutritional needs of 'at risk' groups, and note the differences to 'well' population

4.3 Plan meals to meet the nutritional needs of 'at risk' groups

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Australian Dietary Guidelines
- Basic cooking methods and equipment
- Basic knowledge of food preparation and food service systems
- Planning and evaluating meals and menus
- Basic principles of nutrition
REQUIRED SKILLS AND KNOWLEDGE

- Basic principles of nutrition, diet therapy, nutrition supplements and factors that place clients at risk of malnutrition and inadequate hydration
- Common fluid and food restrictions
- Costing (portion size, mathematics) procedures
- Infection control policy and procedures relevant to food service provision
- OHS work practices relevant to the specific workplace and in accordance with relevant state/territory/national legislation
- Other relevant dietary guidelines
- Range of menus and menu items
- Requirements of certain menus
- Standardised recipes
- Various cultural requirements in relation to food, relevant to the profile of the community served by the organisation
- Work organisation methods

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Communicate constructively with clients and other staff to ensure best service
- Identify and assist in developing a care plan for particular client groups
- Modify meals and menus according to specific nutritional and dietary needs

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Demonstrate safe food handling practices
- Plan and evaluate meals and menus
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility
- Use numeracy skills that may range from the ability to complete basic arithmetic calculations to the collating to recording of numbers and costing of menus

**Evidence Guide**

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

Concurrent assessment and relationship with other competency units:

This unit can be assessed independently, however it may be assessed in conjunction with:

- HLTNA301B Provide assistance to nutrition and dietetic services
- HLTNA304B Plan meals and menus to meet cultural and religious needs

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - food safety and HACCP procedure manuals
  - manufacturers' manuals and recommendations for equipment
  - food packaging and storage requirements
  - OHS, cultural diversity and other relevant legislation
  - work plan
  - enterprise policy, mission statements, procedures

Method of assessment:

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Conditions requiring dietary modification include but are not limited to:

- Acquired brain injury
- Cancer
- Chewing/swallowing difficulties
- Coeliac disease
- Constipation
- Diabetes
- Food allergies and intolerance's
- Gastro-intestinal disorders
- Heart disease
- HIV/AIDS
- Hypertension
- Malnutrition
- Overweight and obesity
- Poor dental health
- Renal disease
- Stroke

Other nutrition-related conditions include, for example:

- Absence of teeth or poorly fitting dentures
- Coeliac disease
- Constipation
- Iron deficiency anaemia
- Poor appetite

Nutrient imbalance may include but is not limited to:

- Food intake patterns
- High fat and/or cholesterol
- Low fibre
- Low Kjs
- Low fluid
- High salt
- High sugar
- Excess kilojoules
RANGE STATEMENT

Special dietary needs include but are not limited to:

- Allergy/food intolerance diets (e.g. lactose-free)
- Fluid diets
- Gluten-free
- High energy, high protein
- Modified energy
- Modified fat
- Modified fibre
- Modified protein
- Modified sodium (or more rarely potassium)
- Texture modified

Texture modification may include:

- Food textures:
  - unmodified
  - texture A (soft)
  - texture B (minced and moist)
  - texture C (smooth puree)
- Thickened fluids:
  - unmodified fluids (regular)
  - level 150 (mildly thick)
  - level 400 (moderately thick)
  - level 900 (extremely thick)

Nutritional requirements of 'at risk' client groups may include but are not limited to:

- Specific requirements for common lifestyle related diseases/disorders such as diabetes, heart disease, obesity, hypertension, dental caries, and constipation
- High energy and/or high protein for those with:
  - inadequate dietary intake
  - poor appetite
  - unintentional weight loss
  - increased energy needs due to illness
- Nutritional imbalances such as food intake patterns, high fat and/or cholesterol, low fibre, high salt, high sugar, excess kilojoules
RANGE STATEMENT

'At risk' groups may include but are not limited to:

- Low socio-economic status
- Older persons
- People with disabilities
- Extended care
- Aboriginal and Torres Strait Islander people
- Pregnant women
- Those with acute or chronic diseases/disorders requiring dietary management

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Australian Dietary Guidelines
- Basic cooking methods and equipment
- Basic knowledge of food preparation and food service systems
- Basic principles of nutrition
- Basic principles of nutrition, diet therapy, nutrition supplements and factors that place clients at risk of malnutrition and inadequate hydration
- Common fluid and food restrictions
REQUIRED SKILLS AND KNOWLEDGE

- Costing (portion size, mathematics) procedures
- Infection control policy and procedures relevant to food service provision
- OHS work practices relevant to the specific workplace and in accordance with relevant state/territory/national legislation
- Planning and evaluating meals and menus
- Range of menus and menu items
- Requirements of certain menus
- Standardised recipes
- Various cultural requirements in relation to food, relevant to the profile of the community served by the organisation
- Work organisation methods

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Identify and develop meals and menus that meet specific cultural and religious needs of client groups
- Communicate constructively with clients and other staff to ensure best service

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Plan and evaluate meals and menus
- Demonstrate safe food handling practices
- Use numeracy skills ranging from the ability to complete basic arithmetic calculations to the collating to recording of numbers and costing of menus
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

Concurrent assessment and relationship with other units:

This unit can be assessed independently, however it may be assessed in conjunction with:

- HLTNA303B Plan and modify menus according to special dietary needs

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - Food safety and HACCP procedure manuals
  - Manufacturers/ manuals and recommendations for equipment
  - Food packaging and storage requirements
  - OHS, cultural diversity and other relevant legislation
  - Work plan
  - Enterprise policy, mission statements, procedures

Method of assessment:

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Cuisine of cultural groups within Australian society includes, but is not limited to:

- Aboriginal and Torres Strait Islander
- Asian
- European
- Indian
- Mediterranean
- Mexican
- South American
- South Pacific Islander
- African
RANGE STATEMENT

Religious groups within Australian society who may follow particular dietary restrictions include but are not limited to:

- Jewish
- Hindu
- Muslim
- Some Christian denominations eg Seven Day Adventist

Factors influencing food choices include but are not limited to:

- Availability and accessibility
- Familiarity
- Beliefs and values
- Food advertising
- Cultural preferences

Food-related religious needs include but are not limited to:

- Kosher
- Halal
- Hindu (vegetarian - ovo-lacto, lacto or vegan)

</thead>
</table>
| 1. Apply key *principles of population health approach* to work | 1.1 Identify current and historic concepts of *health and its determinants*  
1.2 Identify key principles to a population health approach and use to assess current work approach  
1.3 Modify work approach so as to apply key principles of population health |
| 2. Gather information on the organisations within which population health work is conducted | 2.1 Identify relevant local, state and national organisations supporting population health work  
2.2 Clarify each organisations' contribution to population health work  
2.3 Develop the role of the worker within the multi-sectoral and multi-strategic approach to population health |
| 3. Work within the context of the population health approach | 3.1 Reflect consideration of the historical social, political and economic context in all population health work  
3.2 Check all work to ensure it complies with relevant legislative and regulatory frameworks |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Basic knowledge of recent public health strategies and relevant local codes of practice and legislation
- Basic principles of health promotion, e.g. as per Ottawa Charter
- Basic principles of population health
- Equity issues in population health
- Importance of principles and practices to enhance sustainability in the workplace, including environmental, economic, workforce and social sustainability
- National, State and local health initiatives and priorities
- Organisations involved in population health in Australia
- The components of population health including health promotion, environmental health, health protection and prevention of communicable and non communicable diseases

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Apply effective communication and interpersonal skills including written or verbal communication
- Apply problem solving skills
- Contribute effectively to meetings
- Discuss a population health approach in specific work role context
- Gather information from written sources and/or through verbal questioning
- Recognise and use opportunities to enhance sustainability in the workplace
REQUIRED SKILLS AND KNOWLEDGE

- Translate 'big picture' information into value at the local level

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this competency unit:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

**Access and equity considerations:**

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit is most appropriately assessed in the classroom environment
- This unit may be undertaken by workers training for a range of jobs in the population health and related sectors
- Assessment where practicable should allow for knowledge of population health to be applied to a prospective or actual work role
- Access to:
  - A range of government and non-government policy documents and reports and statistics

Method of assessment may include:

- Interviewing and questioning
- Assignment
- Scenarios as a basis for the application knowledge of the population health approach to a specific work role
- Scenarios as a basis for the application of knowledge about the foundations of the health of populations to a specific work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

The term population may refer to:

- General Australian population
- Any subgroup within that population identified by age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status, etc.
- Any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area

Context includes:

- Statutory framework within which work takes place
- Historical context of work, e.g. changing attitudes to environmental health, changing approaches to public health
- Changing social context of work, e.g. changing government and societal views of environmental health, health promotion and disease prevention aspects of primary health care
- Political context, e.g. government policies and initiatives affecting environmental health work
- Economic context, e.g. the current economic situation as it relates to and affects environmental health and the subsequent impact on individual and community needs

Concepts/models of health include:

- Medical model
- Salutogenic model
- Social view of health
- Academic/professional models of health
RANGE STATEMENT

Different models of work in the sector may include:
- Early intervention/ disease prevention
- Community development and education
- Health promotion
- Working with individuals
- Working with families and the community
- Community funded indigenous environmental health workers
- Government health services funded indigenous environmental health workers

Health determinants may include:
- Political
- Biological and genetic factors
- Physical environment
- Socio-economic factors (e.g. Social gradient, stress, early life, social exclusion, work, unemployment, social support, addiction, food, transport, housing, etc.)
- Behavioural
- Cultural
- Quality of health services

Key principles to a population health approach may include:
- Population focus
- Preventive focus with stress on building individual/community's capacity to control health determinants for a better quality of life
- Sensitivity to access and equity issues
- Sensitivity to cultural differences
- Health as a resource for everyday living and not as end in itself
- Health as a result of complex interaction among determinants
- Shared responsibility of health
- Educational-Ecological approach
- Evidence-based approach
- Principles of equity and non-discriminatory practice
RANGE STATEMENT

For some workers, especially those working with remote and/or Indigenous communities, additional principles might include:

- A holistic and community development approach
- Commitment to empowering individuals and the community
- Commitment to meeting the needs and upholding the rights of individuals and the community

Different settings for population health action may include:

- Home
- School
- Hospital
- Health services
- Community
- Work
- Transport
- Sports and recreation facilities

Examples of local, state and national organisations, and initiatives supporting Population Health work include:

- Establishments that provide primary health care
- Community Clinics
- Local public health units
- State and national Health departments
- Professional and industry associations
- Non-government organisations
- International health organisations

National charters/declarations include:

- Health for All by the Year 2000
- Health Promotion: Bridging the Equity Gap

Unit Sector(s)

Not Applicable
HLTPOP302C Contribute to working with the community to identify health needs

Modification History

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Assist in conducting a literature review</td>
<td>1.1 Identify organisation reports and key documents and assess for relevance to the aims of the literature review 1.2 Consult key stakeholders from the community and other relevant bodies for sources of information relevant to the literature review 1.3 Identify and source information and data at local, state or regional level that may assist in defining and assessing the <em>health needs</em> of a community 1.4 Provide feedback to the work team or team leader on sources of information and stakeholder views</td>
</tr>
<tr>
<td>2. Participate in a consultation process with the target community</td>
<td>2.1 Contribute to discussions with key stakeholders regarding the health problem, its causes and appropriate interventions/solutions 2.2 Provide briefing materials throughout the consultation process to identify and clarify issues of interest/concern to stakeholders and own organisation 2.3 Provide <em>feedback</em> to the team leader or work team on the results of the consultation process</td>
</tr>
</tbody>
</table>
ELEMENT

3. Contribute to activities that assist the community to identify their health needs

PERFORMANCE CRITERIA

3.1 Make positive contributions to activities that develop an understanding of the factors contributing to the health problem of the community

3.2 Provide feedback to team members/leader to facilitate discussion and clarify issues arising from the review of literature and consultation process with the community and relevant stakeholders

3.3 Collect further information and data when needed for input into the analysis and presentation of results arising from the review of literature and consultation process

3.4 Recommend activities that would build the capacity of the community to identify their health needs to relevant stakeholders

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection
REQUIRED SKILLS AND KNOWLEDGE

and prevention of communicable and non communicable diseases

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply effective communication and interpersonal skills including:
  - high level written or verbal communication
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply analytical thinking, problem solving and critical appraisal
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Identify and source relevant data and information
- Provide feedback in a comprehensive and logical manner
- Work as part of a multi-disciplinary team and/or autonomously
- Work planning and management

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom and may contain a strong theoretical emphasis
- Access to:
  - a range of government and non government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non government policy documents and reports and statistics
  - organisation policies and procedures
EVIDENCE GUIDE

Method of assessment
- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

Related units:
This unit should be undertaken and assessed in conjunction with the following units:
- HLTPOP303C Contribute to population health project planning
- HLTPOP304C Contribute to evaluating a population health project

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Health need is defined as:
- State, conditions or factors in the community which, if absent, prevent people from achieving the optimum of physical, mental and social well-being.

Types of need:
- Normative need (based on expert opinion)
- Expressed need (based on inferences made from observation of use of health services)
- Comparative need (derived from examining the services provided in a similar population)
- Felt need (based on what members of the community say they need)

Health problem and community being targeted may be identified through one of the following ways:
- Consultation with supervising Population Health professional
- Position/job description
- Policy documents/legislation detailing national, state or local health goals

Means of finding relevant literature may include:
- Web searches for publications and research reports from relevant organisations
- Catalogue searches

Briefing materials may include:
- Written summaries of issues or opinion
- Pamphlets, brochures, charted and tabled data
- Collections of reports, articles or research results

Feedback may include:
- Written reports
- Brief commentary or summary presentations
RANGE STATEMENT

Consultation may take the form of one of the following:

- Interviews (personal, phone, formal or informal)
- Nominal group process
- Questionnaires
- Delphi Method
- Focus groups
- Forums
- Books
- Journals
- Hospital records
- Notification systems
- Registers
- Sentinel recording systems
- Surveys
- Annual public health reports
- Existing epidemiological/socio-demographic data
- National Population Health and Health Promotion agencies and organisations
- General practitioners/primary care service
- Local health authorities
- Councils
- Voluntary agencies
- Relevant databases, such as HEAPS
- Publications of Australia Bureau of Statistics (ABS)
- Experts in the field (practice and academia)
- Target group representatives

Key stakeholders may include:

- Representatives of relevant health agencies operating in the local community
- Community advocates or change agents
- Representatives/leaders of the target population
- Population health professionals/Supervisors
- Federal, State or local health service and population health planners
- Federal, State or local health service providers
- Other health and/or non-government organisations
RANGE STATEMENT

Data may be:

- Qualitative
- Quantitative

Types of data required about the target group may include:

- Demographic characteristics (e.g. age, sex, ethnic composition, residence, education level achieved)
- Patterns of behaviour
- Lifestyle

Ethical considerations that guide data collection and consultation processes may include:

- Privacy and confidentiality
- Responsibility to help a community respond to needs they identify which might not necessarily coincide with stated priority health needs

1 Hawe, Degeling and Hall, Evaluating Health Promotion, p. 17.

| 2. Plan implementation of strategies | 2.1 Identify project strategies from project plan  
2.2 Identify tasks to be undertaken to implement strategies in consultation with *relevant personnel*  
2.3 Timetable tasks to be undertaken to implement strategies in consultation with relevant personnel  
2.4 Source resources required to implement strategy  
2.5 Cost tasks to be undertaken |
3. Plan implementation of evaluation tasks

3.1 Identify project evaluation measures from the project plan

3.2 Identify, in consultation with relevant personnel, tasks to be undertaken to collect data using the identified evaluation measures

3.3 Timetable, in consultation with relevant personnel, tasks to be undertaken to collect data using the identified evaluation measures

3.4 Source resources required to collect data using measures identified

3.5 Cost tasks to be undertaken

4. Present planning information

4.1 Select appropriate methods of presenting planning information on the basis of planner needs

4.2 Ensure presentation is logical and assertions are supported by references to relevant data and information
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

**Essential skills:**

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Analyse, judge and incorporate feedback where required
- Apply effective communication and interpersonal skills including:
  - high level written or verbal communication
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply analytical thinking, problem solving and critical appraisal
REQUIRED SKILLS AND KNOWLEDGE

- Develop and implement a process that ensures consultation with key stakeholders throughout the planning process
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Pay attention to equity
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - network of stakeholders
  - organisation policies and procedures

Method of assessment

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

Related units:

This unit should be undertaken and assessed in conjunction with the following units:

- HLTOPPOP302C Contribute to working with the community to identify health needs
- HLTOPPOP304C Contribute to evaluating a population health project

It is recommended that this be undertaken in conjunction with PSPPM402B Manage simple projects to obtain a more holistic view of program planning, management and evaluation process
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Population health projects may vary considerably in scope and content:

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment
- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national
- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status etc.
  - any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area
  - any setting/organisation whose practices influence health behaviour (e.g. clinical services, general practice, school, workplaces, etc.)
- Population health projects can target individuals, groups or organisations
- Population health projects may relate to different health determinants (e.g. biological, economic, behavioural, social, etc.)

Communities or target populations in population health:

- The community or population may vary considerably in character, size, needs and capacity to access information and services
RANGE STATEMENT

Sources of information for planning may include:

- Literature from population health and related disciplines such as published book, peer-reviewed papers (especially systematic reviews) and reports
- Literature outlining marketing and behaviour change strategies specific to the target population
- Demographic data and information
- Socio-economic data and information
- Data and information from health research and health studies
- Expert informants
- Key representatives of the target population
- National, State and local health policy documents and implementation guidelines

Planning models include:

- PRECEDE-PROCEED
- Model of rational planning (McCarthy)
- Hawe, Degeling and Hall's Program Planning Model

Goal(s) refer to:

- What the project aims to ultimately achieve

Objectives refer to:

- What the project needs to attain to achieve project goals

Strategy refers to:

- A plan of action to achieve a project goal

Relevant personnel for consultation may include:

- Individuals who have undertaken similar work or worked with a similar target population
- Individuals who control access to any of the factors that may influence delivery of the project strategies (e.g. stakeholders, target population, etc.)
- Individuals who may potentially provide resources

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- Knowledge of evaluation (types, levels of evaluation)
- National, state and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

Essential skills:
It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Analyse, judge and incorporate feedback where required
- Apply effective communication and interpersonal skills including:
  - high level written or verbal communication
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply analytical thinking, problem solving and critical appraisal
REQUIRED SKILLS AND KNOWLEDGE

- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Identify and consult with key stakeholders throughout the monitoring and evaluation process
- Pay attention to equity
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - network of stakeholders
  - organisation policies and procedures

Method of assessment

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

Related units:

This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP302C Contribute to working with the community to identify health needs
- HLTPOP303C Contribute to population health project planning

It is recommended that this be undertaken in conjunction with PSPPM402B Manage simple projects to obtain a more holistic view of program planning, management and evaluation process
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Population health projects may vary considerably in scope and content:

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment
- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national
- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status etc.
  - any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area
  - any setting/organization whose practices influence health behaviour (e.g. clinical services, general practice, school, workplaces, etc.)
- Population health projects can target individuals, groups or organisations
- Population health projects may relate to different health determinants (e.g. biological, economic, behavioural, social, etc.)

Communities or target populations in population health:

- The community or population may vary considerably in character, size, needs and capacity to access information and services
RANGE STATEMENT

Stakeholders may include:
- Representatives of relevant health agencies operating in the local community
- Community advocates or change agents
- Representatives/leaders of the target population
- Population health professionals/Supervisors
- Federal, state or local health service and population health planners
- Federal, state or local health service providers
- Other health and/or non-government organisations

Different levels of evaluation include:
- Process evaluation (measures the activities of the project, project quality and who it is reaching)
- Impact evaluation (measures the immediate effect of the project, relates to project objectives)
- Outcome evaluation (measures the long-term effect of the project, relates to project goals)

Evaluation measures can be:
- Qualitative
- Quantitative

Evaluation design can specify:
- Data collection at the end of the project
- Before and after comparisons
- Trials with a control group

Relevant personnel for consultation may include:
- Community/target population members and leaders
- Public health sector staff
- Community health sector staff
- Private health sector staff
- Volunteer networks
- General practitioners
- Administrators
- Researchers
- Educators
- Academics
- Business and industry representatives

| 1. Address information needs of the community and householders | 1.1 Monitor and observe potential environmental health hazards or risks in the community and household as part of work role  
1.2 Discuss any issues of concern with community members and householders to determine information needs, and level of support required  
1.3 Discuss any difficulties or obstacles that may exist which has prevented the householder/community member from being able to address issues of concern |
| 2. Provide information and support | 2.1 Provide information and support to community members as required or requested in accordance with identified job role, and worker's roles and responsibilities  
2.2 Report any problems, difficulties or obstacles that are outside of area of responsibility or expertise in accordance with organisational policy and procedures |
**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Alternative ways of providing information e.g. seeking the assistance of Aboriginal Health Workers, or others in the community to help provide information or support if cultural relationships such as "poison cousins" prevents interaction
- Basic knowledge of germ theory and disease transmission
- Own roles and responsibilities
- What are environmental health hazards and risks and why

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Recognise the way in which diseases are transmitted and identify strategies for prevention

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Effectively communicate with community members, the employing organisation and in some instances outside agencies or relevant others
- Monitor and identify potential environmental health risks and hazards as part of job role
- Recognise the way in which diseases are transmitted, and strategies for prevention
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this competency unit:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment of this unit of competency needs to occur more than once and/or over a period of time
- Assessment of performance must be in relation to issues relevant to the indigenous environmental workers job role and area of responsibility
- If this unit is being assessed in the context of personal and domestic hygiene gender issues and cultural sensitivities need to be considered

**Access and equity considerations:**

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

**Context of and specific resources for assessment:**

- Assessment must take place on the job
- Access to:
  - resources, tools or equipment in order to be able to demonstrate or show householders or community members possible strategies to deal with any issues of concern if required
EVIDENCE GUIDE

Method of assessment:

- Assessment may include:
  - observations
  - questioning
  - evidence gathered from the work place
- Assessment may also include the way in which competency is applied to other environmental health specific units over a period of time

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Monitoring potential environmental health hazards or risks will depend upon the Indigenous Environmental Health Workers job role, and context (area) of environmental health within the workers responsibility.
RANGE STATEMENT

These environmental health hazards or risks may include, but are not limited to:

- Non functional health hardware in the house e.g. toilets, taps, drains, pipes, washing machines, hot water service, etc.
- Problems associated with poor housing design and construction e.g. waste water pooling in other areas of the house as a result of inappropriately graded wet areas, living areas built to close to wet areas, lack of adequate food preparation surfaces and storage, shelving in houses, etc.
- Overcrowding
- Pooling water from leaking taps or rubbish lying around in the yard or community which could potentially become a breeding ground for mosquitoes
- Littering in the community and/ or not enough bins in the community
- Sick dogs sleeping with people
- Problem with dust blowing around in people's yards and the general community
- Domestic and personal hygiene issues
- Unsafe food storage and handling practices

Issues of concern refers to:

- Any environmental health issue or hazard identified by the worker as part of their work role which directly relates to the need to provide information and/ or support to householders and/ or community members

Determine information needs may refer to:

- Identifying how much householders and community members already know about the potential disease threats in relation to the issue of concern or hazard
- Identifying what information still needs to be provided to householders and community members to assist them in making informed choices or decisions
RANGE STATEMENT

Some difficulties or obstacles may refer to:

- Non durable health hardware already installed in houses that constantly breaks
- Houses that have been poorly constructed or designed, and as a result are contributing to a range of health problems
- Large numbers of family visiting the household at any one time
- Lack of ongoing repairs and maintenance to health hardware
- Issues in relation to "shame" e.g. house holder or community member not being able to afford to buy health hardware items eg. toilet paper, shampoo, soap, cleaning agents, or inability to read labels and direction of use on detergent bottles and cleaning agents
- Cultural issues e.g. sleeping with dogs because they are a very important part of a person's culture and life
- Not having access to fridges/ freezers to store food
- Not having access to washing machines to wash clothes
RANGE STATEMENT

Provide information and support may include:

- Informing and showing householders basic plumbing skills e.g. changing washers, reseating taps, unblocking drains, etc.
- Informing and showing householders/ community members possible strategies to utilise the yard area to reduce the impact of overcrowding e.g. cooking areas, sheltered areas, wind breaks, shelving out of reach of dogs, etc.
- Informing and showing householders/ community members potential mosquito breeding items that may be lying around in the yard or community e.g. broken upside down cars that are collecting water, tins, pet water containers that haven't been changed regularly, etc.
- Informing and showing householders and community members the importance of protecting themselves from mosquito bites
- Informing and showing community members strategies to prevent the transmission of disease in a food storage and handling context e.g. importance of washing hands after going to the toilet, not sneezing or coughing on food, covering food, not leaving food out over night near the campfire or on the stove, not re-freezing food that has already been thawed out, etc.
- Informing and showing community members strategies to prevent the transmission of diseases that may be highlighted/ accentuated by personal and domestic hygiene issues e.g. correct detergent or cleaning agent to use for the task required, way in which to clean the house and the various items within it, correct use of white goods such as washing machines, etc.

Reporting may be:

- Verbally in either first language or English
- Written in either first language or English
- By showing supervisor the problem if and when appropriate
RANGE STATEMENT

Organisation may refer to:

- Community council
- Community clinic
- Other employer bodies/ agencies

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify existing local disaster planning strategies | 1.1 Identify local community organisations providing emergency services through discussions  
1.2 Clarify disaster plan and/or strategies and disaster planning exercises for the community |
| 2. Identify own role in the delivery of the disaster plan | 2.1 Identify local disaster planning processes  
2.2 Identify roles and responsibilities of the disaster planning coordinator and other persons and determine worker's own role  
2.3 Identify relevant state/territory lead agency local representative and contact as appropriate  
2.4 Put in place appropriate joint planning |
| 3. Ensure role of community organisations in the delivery of the disaster plan is understood | 3.1 Identify and explain roles and responsibilities of community organisation  
3.2 Undertake assessment of skills and possible training of community organisation representatives  
3.3 Undertake disaster planning exercises in line with community and organisation requirements |
ELEMENT

4. Provide feedback on disaster plan

PERFORMANCE CRITERIA

4.1 Assess the effectiveness of the disaster plan
4.2 Identify and document ways to improve the disaster plan
4.3 Provide supervisor/manager and disaster planning coordinator with information on the effectiveness of the disaster plan and suggested ways to improve
Required Skills and Knowledge

RELATED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Local resources, suppliers and trades people
- Project development
- Relevant equipment and technology (types, sources, operation and maintenance)
- Relevant policies, protocols and procedures of the organisation
- Small group facilitation
- The content of the disaster plan

*Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Communicate effectively
- Demonstrate implementation skills related to the worker's role and responsibilities in implementing the disaster plan
- Network, negotiate

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:

- The workplace is recommended including assessment by supervision and peers.
- Information may be gathered from supervisors and peers, by observation and inquiries and from written and other sources.
- Off-the-job role plays and exercises may also be used.

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Disasters may include:
- Floods
- Cyclones
- Nuclear
- Fires
- Riots/raids
- Earthquakes

A disaster plan (and planning strategies or processes) means:
- Guidelines and/or plans for responding to various types of disaster, detailing worker roles and responsibilities, resource needs and sources and situation management strategies

The disaster plan coordinator refers to:
- The person in the community/service/organisation (or another organisation) who is assigned the responsibility of co-ordinating the full implementation of the Disaster Plan

Community organisations may include:
- State/territory health department
- Police
- Social security
- Local government
- Emergency services
- Non-government organisations
- Service providers of various types
- Community groups who provide care to the community

Lead agency means:
- The organisation with primary co-ordination responsibility for managing the response to the disaster
RANGE STATEMENT

Cultural context:

- The competency standards are based upon acknowledgment and support of the diverse cultural and traditional values of communities that the health worker works in
- Health workers are upholders of traditional and cultural values
- Their behaviour and practice must be culturally sensitive and supportive of traditional healing and health, knowledge and practices

Community control:

- Community participation and control in decision-making is essential to all aspects of health work, and the role of the health worker is to support the community in this process

Supervision:

- In this document, references to supervision describe supervision of work by more experienced workers, supervisors, managers or other health professionals, either directly or indirectly

Elements and Performance Criteria

**ELEMENT** | **PERFORMANCE CRITERIA**
---|---
1. Determine *appropriate media* | 1.1 Select an appropriate medium that is readily accessible by the target group in response to the requirements of a specific health campaign or issue
| 1.2 Assess potential interest of selected medium and make arrangements to provide appropriate information
| 1.3 Follow *organisation protocols* when liaising with the media

2. Provide information to the media | 2.1 Provide relevant and succinct information to the media with regard to new and specific health promotion initiatives
| 2.2 Provide *relevant and succinct information* on health promotion initiatives to media on an ongoing basis
| 2.3 Provide information relevant to target group
| 2.4 Follow organisation protocols when providing information
ELEMENT

3. Publicise a campaign or issue

PERFORMANCE CRITERIA

3.1 Establish relationship with media contacts

3.2 Gather campaign or issue details and support materials

3.3 Present campaign or issue details and support materials in a logical, relevant and concise manner to the selected media

3.4 Record information provided to media and maintain

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- Media practices and procedures
- Methods of establishing beneficial media relationships
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alm Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Requirements of different medium types
- Social change and advocacy processes
- The need to provide information which is accurate, particularly with regard to libel and discrimination issues
- The role of media in disseminating information
- The role of the media to present information in a newsworthy/informative manner
REQUIRED SKILLS AND KNOWLEDGE

- The significance of organisation confidentiality in relation to the public release of information
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases
- Working knowledge, consistent with the elements of competence, of the organisation's applicable media policy and procedures and relevant industry codes of practice

**Essential skills:**

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Accurately communicate organisation policy
- Apply procedures for liaising with media
- Apply effective communication and interpersonal skills including:
  - language competence
  - literacy and reading competence
  - writing competence
- Apply analytical thinking, problem solving and critical appraisal
- Communicate information in a fluent, clear and interesting manner
- Demonstrate public speaking and media presentation skills
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Liaise with media and other organisation personnel
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

**Evidence Guide**

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment may be conducted on more than one occasion to cover a variety of situations
- A diversity of assessment tasks is essential for holistic assessment
- Access is required to:
  - equipment such as overhead projector and other presentation aids, appropriate computer software
  - mock audience, if simulated case study
EVIDENCE GUIDE

Method of assessment: Assessment may include:
- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff/client feedback
- Portfolio
- Supporting statement of supervisor(s)
- Authenticated evidence of relevant work experience and/or formal/informal learning
- Case studies and scenarios as a basis for discussion of issues and strategies to contribute to best practice in the work environment

Related units:
- This unit can be assessed independently
- However, holistic assessment practice with other appropriate units of competency is encouraged

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Organisations liaising with the media may include:
- Health services
- Government services and departments
- Schools
- Local community organisations
- Clubs
- Churches and associations
- Industry

Organisational protocols may include:
- Following organisational policies and procedures
- Maintaining personal presentation standards and expectations
- Ensuring media liaison person is fully briefed and prepared
- Acknowledging support of other organisations
- Seeking advice from superiors where appropriate
- Observing relevant Federal and State legislation and regulations

Appropriate media may include:
- Print (local and daily newspapers, business newspapers, generalist magazines, specialist magazines, articles or reviews)
- Television (news interviews, commercials, programs or documentaries)
- Radio (interviews, talk-back or commercials)
- Internet (organisation web-sites, other government department and private web-sites, online forums)

Campaigns or issues may include:
- Statewide initiatives
- Locality wide interventions
- Single setting interventions
- Single location interventions
- Long-term interventions
RANGE STATEMENT

Requirements of the media may include:

- Deadlines
- Written reports
- Verbal presentations
- Photos
- Amenities
- Briefing area
- Access to media liaison person
- Bilingual personnel or bilingual information

Relevant and succinct information may include:

- Information that according to protocol is available for public release
- Information that is factual and avoids speculation
- Language that can be readily understood by a majority of the audience, in order to avoid misinterpretation

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Apply the principles of the population health approach to relevant work | 1.1 Identify current and historic concepts of health and its determinants  
1.2 Identify key principles to a population health approach  
1.3 Modify work approach so as to apply key principles of population health |
| 2. Select from of a range of 'change action' frameworks that underpin population health work | 2.1 Identify relevant population health 'change action' frameworks  
2.2 Match appropriate 'change action' frameworks to population health tasks on the basis of theory and/or past evidence  
2.3 Recognise and reflect a multi-disciplinary and multi-strategic approach in population health work  
2.4 Notice and remedy the consequences of poor selection |
ELEMENT

3. Work effectively within the local, state, national and international context within which a population health worker operates

PERFORMANCE CRITERIA

3.1 Identify and assess relevant local, state and national organisations, networks, policies and initiatives supporting population health

3.2 Explore priority population health issues at the local, state, national level and international levels

3.3 Determine limitations on actions resulting from legislation etc. and discuss with superiors, peers and other team members

3.4 Clarify own role as part of a multi-sectoral and multi-strategic approach to population health
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities and relevant legislative frameworks
- Population health issues in Australia
- Principles and practices of population health
- Range of population health strategies and application of best practice in population health
- Relevant international charters/declarations and documents (e.g. Ottawa Charter, Alma Ata, Jakarta Declaration, The Solid Facts by WHO)
- Social determinants of health
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases
- Types of organisations involved in population health in Australia

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
REQUIRED SKILLS AND KNOWLEDGE

- consultation
- conflict resolution and mediation
- Gather information from documentation, consultation and other sources
- Translate 'big picture' information into value at the local and regional level

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom and may contain a strong theoretical emphasis
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non government policy documents and reports and statistics
  - organisation policies and procedures

Method of assessment

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

The term population may refer to:

- General Australian population
- Any sub-group within that population identified by age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status, etc.
- Any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area

Relevant work implies:

- That not all of a particular worker's (paid) role may be classified as 'population health'
- Indeed for most workers, population health work will be a component only (sometimes small) of their total work role.
- This unit applies only to that part of the role that adopts the population health principles and change action frameworks listed below

Concepts/models of health include:

- Medical model
- Salutogenic model
- Social view of health
- Academic/professional models of health
RANGE STATEMENT

Health determinants may include:
- Political
- Biological and genetic factors
- Physical environment
- Social factors (e.g. social gradient, stress, early life, social exclusion, work, unemployment, social support, addiction, food, transport, housing, etc.)
- Behavioural
- Cultural
- Quality of and access to health services

Key principles to a population health approach may include:
- Population focus
- Preventive focus with stress on building individual/community's capacity to control health determinants for a better quality of life
- Sensitivity to access and equity issues/health inequalities
- Sensitivity to cultural differences
- Health as a resource for everyday living and not as end in itself
- Health as a result of complex interaction among determinants
- Health as a context for power relations with society
- Shared responsibility of health
- Educational-Ecological approach
- Evidence-based approach
- Principles of equity and non-discriminatory practice
RANGE STATEMENT

Change action frameworks of population health may include:

- Upstream investment (investment directed at root causes to maximise potential benefits)
- Increased accountability for health outcomes
- Re-orienting health sector
- Capacity building
- Working in partnerships (e.g. joint ventures, collaboration, alliances, coalitions, partnerships)
- Employment of mechanisms to promote community participation
- Public policy development (legislation and regulation, resource allocation and incentives)
- Creation of supportive natural and built environments
- Addressing health inequalities/health inequalities approach
- Personal and social development through provision of information and education for health and enhancement of life skills

Different settings for population health action may include:

- Home
- School
- Hospital
- Health services
- Community
- Work
- Transport
- Sports, arts and recreation facilities

Examples of local, national and international organisations, networks and initiatives supporting Population Health work include:

- Establishments that provide primary health care
- Community clinics
- Local public health units
- State and national Health departments
- Professional and industry associations
- Non-government organisations
- International health organisations
RANGE STATEMENT

Relevant international charters/declarations include:

- Lalonde Report
- The Solid Facts by WHO
- Health for All by the Year 2000
- Declaration of Alma Ata
- Healthy Toronto 2000
- 38 Targets for Health in the European region
- Ottawa Charter for Health Promotion
- Jakarta Declaration on Health Promotion into the 21st Century
- Health Promotion: Bridging the Equity Gap

Unit Sector(s)

Not Applicable
HLTPOP502C Work with the community to identify health needs

Modification History
Not Applicable
Unit Descriptor

Descriptor

This unit develops the skills necessary to assist particular populations/subgroups of interest/communities to define and assess their health needs.

It develops the ability to carefully work with them to examine the problem being targeted and to understand how and why it occurs.

The results from the needs assessment guides the design, planning and evaluation of population health projects or interventions.

This unit specifically addresses the second stage of health needs assessment as outlined in Application.

Application of the Unit

Application

There are two stages in health needs assessment:

• The first relates to the task of identifying and prioritising health problems
• The second relates to translating these national goals into concrete action within local communities

The first stage of needs assessment often lies in the hands of health policy makers and population health professionals.

Results of this stage are documented in policy papers or legislation detailing national, state or local health goals and the mobilisation of allocated funds.

Recognising that community is the centre of gravity for the promotion of health, the second stage ensures the relevance and appropriateness of programs and offers members of the community a chance to engage in the planning process.

Employability Skills
This unit contains Employability Skills

Elements and Performance Criteria Pre-Content
Elements define the essential outcomes of a unit of competency.
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

ELEMENT
PERFORMANCE CRITERIA
1. Conduct a literature review
   1.1 Clearly identify health problem and target group being addressed
   1.2 Identify and access relevant sources of data
   1.3 Use the literature review to reveal the established causes of the health problem, other intervention programs that have been conducted to address the health problem and general information about the target group
   1.4 Critically appraise information accessed through literature review in terms of reliability and applicability
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 2. Collect other relevant data to further define target group | 2.1 Identify relevant types of data required to further define target group  
2.2 Collect required data that cannot be obtained through a literature search, according to organisation procedures and ethical considerations  
2.3 Document description of target group in a manner that would provide sufficient information for purposes of evaluation and for examination of those considering duplicating interventions |
| 3. Investigate the health problem as it occurs and is perceived within the community | 3.1 Identify appropriate means of consulting the target group regarding the health problem, its causes and appropriate interventions/solutions  
3.2 Implement means of consultation with target group and experts using allocated resources and according to organisation procedures and ethical considerations  
3.3 Document results of consultation in a manner useful to planning, evaluating and duplicating interventions and according to organisation procedures and ethical considerations |
| 4. Work with the community to identify and define their health needs | 4.1 Clearly identify factors contributing to the health problem on the basis of findings from the literature review and other data collected and discuss with the community  
4.2 Sort out, in a logical manner, factors that identify causal pathways defining health needs and discuss with the community  
4.3 Recommend activities that would build the capacity of the community to identify their health needs to relevant stakeholders |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

**Essential skills:**
It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. This includes the ability to:

- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
REQUIRED SKILLS AND KNOWLEDGE

- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom and may contain a strong theoretical emphasis
- Access to:
  - A range of government and non-government policy documents and reports and statistics
  - Journals, books and external expertise
  - Documents and other materials (charters, declarations, discussion papers, etc.) from International Conferences on Population Health
  - A range of Government and non government policy documents and reports and statistics
  - Organisation policies and procedures

Method of assessment may include:

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report
EVIDENCE GUIDE

Related units: This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP503C Plan a population health project
- HLTPOP504C Evaluate a population health project

Other relevant units include:

- PSPPM402B Manage simple projects
- CHCCOM403A Use targeted communication skills to build relationships
- LGACOM502B Devise and conduct community consultations

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Health need is defined as:

- State, conditions or factors in the community which, if absent, prevent people from achieving the optimum of physical, mental and social well-being

Types of need

- Normative need (based on expert opinion)
- Expressed need (based on inferences made from observation of use of health services)
- Comparative need (derived from examining the services provided in a similar population)
- Felt need (based on what members of the community say they need)
RANGE STATEMENT

*Health problem and group being targeted may be initially identified through one of the following ways:*

- Consultation with supervising Population Health professional
- Position/job description
- Policy documents/legislation detailing national, state or local health goals

*Means of finding relevant literature may include:*

- Using the subject catalogue
- Using abstracts or indexes (e.g. Index Medicus, Psychological Abstracts, Sociological Abstracts, ERIC, Social Sciences Citation Index, Current Contents, FAMILY, APAIS)
- Computer searches

*Critical appraisal of literature refers to:*

- Process of review that enables one to decide how useful pieces of research work are

*Reliability of literature (particularly relating to interventions) refers to:*

- The logical soundness of method, results and conclusions drawn by authors

*Applicability of literature (particularly relating to interventions) refers to:*

- The extent to which the finding could extend to, or be replicated, in other groups - particularly the group being targeted
RANGE STATEMENT

Relevant sources of information include:

- Books
- Journals
- Hospital records
- Notification systems
- Registers
- Sentinel recording systems
- Surveys
- Annual public health reports
- Existing epidemiological/socio-demographic data
- National Population Health and Health Promotion agencies and organisations
- General practitioners/primary care service
- Local health authorities
- Councils
- Voluntary agencies
- Relevant databases such as HEAPS
- Publications of Australia Bureau of Statistics (ABS)
- Experts in the field (practice and academia)
- Target group representatives

Data may be:

- Qualitative
- Quantitative

Types of data required about the target group may include:

- Demographic characteristics (e.g. age, sex, ethnic composition, residence, education level achieved)
- Patterns of behaviour
- Lifestyle

Ethical considerations that guide data collection and consultation processes may include:

- Privacy and Confidentiality
- Responsibility to help a community respond to needs they identify which might not necessarily coincide with stated priority health needs
RANGE STATEMENT

Consultation may take the form of one of the following:
- Interviews (personal, phone, formal or informal, etc.)
- Nominal group process
- Questionnaires
- Delphi method
- Focus groups
- Forums

The term "causal pathways" refers to:
- Series of factors and events that seem to lead up to the problem

Causal pathways may include the following components:
- Risk markers: identify the target group, outlines the characteristics associated with occurrence of problem but do not necessarily directly contribute to it
- Risk factors: directly account for why the problem is occurring
- Contributing factors: contribute to or account for the risk factors and could be sorted out into predisposing factors, enabling factors and reinforcing factors

Stakeholders may include:
- Representatives of relevant health agencies operating in the local community
- Community advocates or change agents
- Representatives/leaders of the target population
- Population health professionals/Supervisors
- Federal, State or local health service and population health planners
- Federal, State or local health service providers
- Other health and/or non-government organisations

### Required Skills and Knowledge

#### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases
REQUIRED SKILLS AND KNOWLEDGE

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Analyse, judge and incorporate feedback where required
- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply budgeting skills
- Apply evaluation design skills
- Apply monitoring skills
- Demonstrate effective goal and objective writing
- Develop and implement a process that ensures consultation with key stakeholders throughout the planning process
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Pay attention to equity
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non-government policy documents and reports and statistics
  - organisation policies and procedures
EVIDENCE GUIDE

Method of assessment

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

Related units:

This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP502C Work with the community to identify health needs
- HLTPOP504C Evaluate a population health project

It is recommended that this unit is undertaken in conjunction with the following unit to obtain a more holistic view of program planning, management and evaluation processes:

- PSPPM402B Manage simple projects

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Population health projects may vary considerably in scope and content:

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment
- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national
- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status etc.
  - any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area
  - any setting/organization whose practices influence health behaviour (e.g. clinical services, general practice, schools, workplaces, etc.)
- Population health projects can target individuals, groups or organizations
- Population health projects may vary in duration and intensity
- Population Health projects may relate to different health determinants (e.g. biological, economic, behavioural, social, etc.)

Communities or target populations in population health:

- The community or population may vary considerably in character, size, needs and capacity to access information and services
RANGE STATEMENT

Stakeholders may include:

- Representatives of relevant health agencies operating in the local community
- Community advocates or change agents
- Representatives/leaders of the target population
- Population health professionals/Supervisors
- Federal, state or local health service and population health planners
- Federal, state or local health service providers
- Other health and/or non-government organisations

Sources of information for planning may include:

- Literature from population health and related disciplines such as published book, peer-reviewed papers (especially systematic reviews) and reports
- Literature outlining marketing and behaviour change strategies specific to the target population
- Demographic data and information
- Socio-economic data and information
- Data and information from health research and health studies
- Expert informants
- Key representatives of the target population
- National, State and local health policy documents and implementation guidelines

Planning models include:

- PRECEDE-PROCEED
- Model of rational planning (McCarthy)
- Hawe, Degeling and Hall's Program Planning Model

Goal(s) refers to:

- What the project aims to ultimately achieve

Objectives refer to:

- What the project needs to attain to achieve project goal(s)

Strategy refers to:

- A plan of action to achieve a project goal
RANGE STATEMENT

Appropriate strategies should take into account:

- Current Australian trends in health inequalities
- Current evidence relating to health and its social determinants
- Socioeconomic variables, and measures of health inequality at an area and individual level

Relevant personnel for consultation may include:

- Individuals who have undertaken similar work or worked with a similar target population
- Individuals who control access to any of the factors that may influence delivery of the project strategies (e.g. stakeholders, target population, etc.)
- Individuals who may potentially provide resources

</tr>
</thead>
</table>
| 1. Monitor the performance of a population health project | 1.1 Monitor project activities to ensure they are being delivered in accordance with project plan  
1.2 Regularly review results of monitoring to allow any problems or opportunities to be addressed |
| 2. Evaluate a population health project | 2.1 Collect data as per procedures outlined in the evaluation plan  
2.2 Interpret data and summarise in a manner that allows for conclusions to be made, with before and after comparisons made when relevant |
| 3. Report on the outcome of a population health project evaluation | 3.1 Ensure the purpose, content and format of the evaluation report are as outlined in the project plan  
3.2 Include in the report discussion of the evaluation process and results  
3.3 Disseminate report to stakeholders in accordance with the project plan |
 Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Equity issues in population health
- Evaluation (types, levels of evaluation)
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Analyse, judge and incorporate feedback where required
- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
REQUIRED SKILLS AND KNOWLEDGE

- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Identify and consult with key stakeholders throughout the monitoring and evaluation process
- Pay attention to equity
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non government policy documents and reports and statistics
  - organisation policies and procedures

Method of assessment

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report
EVIDENCE GUIDE

Related units: This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP502C Work with the community to identify health needs
- HLTPOP503C Plan a population health project

It is recommended that this unit is undertaken in conjunction with the following unit to obtain a more holistic view of program planning, management and evaluation processes:

- PSPPM402B Manage simple projects

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

*Population health projects may vary considerably in scope and content:*

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment
- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national
- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status etc.
  - any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area
  - any setting/organisation whose practices influence health behaviour (e.g. clinical services, general practice, schools, workplaces, etc.)
- Population health projects can target individuals, groups or organizations
- Population health projects may vary in duration and intensity
- Population health projects may relate to different health determinants (e.g. biological, economic, behavioural, social, etc.)

*Communities or target populations in population health:*

- The community or population may vary considerably in character, size, needs and capacity to access information and services
RANGE STATEMENT

Different levels of evaluation include:
- Process evaluation (measures the activities of the project, project quality and who it is reaching)
- Impact evaluation (measures the immediate effect of the project relates to project objectives)
- Outcome evaluation (measures the long-term effect of the project relates to project goals)

Evaluation measures can be:
- Qualitative
- Quantitative

Evaluation design can specify:
- Data collection at the end of the project
- Before and after comparisons
- Trials with a control group

Relevant personnel for consultation may include:
- Community/target population members and leaders
- Public health sector staff
- Community health sector staff
- Private health sector staff
- Volunteer networks
- General practitioners
- Administrators
- Researchers
- Educators
- Academics
- Business and industry representatives

Stakeholders may include:
- Representatives of relevant health agencies operating in the local community
- Community advocates or change agents
- Representatives/leaders of the target population
- Population health professionals/supervisors
- Federal, state or local health service and population health planners
- Federal, state or local health service providers
- Other health and/or non-government organisations

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assess existing capacity for change | 1.1 Examine and respond to the context within which a program sits  
1.2 Identify pre-existing capacities to support change  
1.3 Assess practitioner's sphere of influence and role in achieving change |
| 2. Clarify intended outcome | 2.1 Identify the key action areas of capacity building that are to be addressed  
2.2 Set goals and objectives that are specific, measurable, achievable and based on principles of effective capacity building practice |
| 3. Select and implement appropriate capacity building strategy | 3.1 Identify and select appropriate capacity building strategies in consultation with relevant stakeholders and target group  
3.2 Implement capacity building strategies according to relevant legislation, organisational policies or procedures and ethical considerations |
ELEMENT
4. Evaluate effectiveness of selected strategy

PERFORMANCE CRITERIA
4.1 Monitor and document results of implementation of capacity building strategies
4.2 Evaluate success of capacity building strategies against goals, using existing tools for evaluating capacity building efforts

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:
- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- The various capacity building strategies
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases
- Understanding of capacity building theory and framework

Essential skills:
It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role
REQUIRED SKILLS AND KNOWLEDGE
This includes the ability to:

- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

Evidence Guide
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated
- May need to be assessed in conjunction with other units of competency addressing capacity building strategies
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non government policy documents and reports and statistics
  - organisation policies and procedures
EVIDENCE GUIDE

Method of assessment may include:

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Context within which a capacity building program sits may include:

- Physical environment
- Economic environment
- Political environment
- Organisational environment
- Socio-cultural environment
RANGE STATEMENT

Pre-existing capacities may include relevant:
- Skills
- Structures
- Partnerships
- Resources

Dimensions of capacity building include:
- Development of infrastructure
- Enhancement of program sustainability
- Fostering problem solving capabilities

Key action areas of capacity building include:
- Organisational development
- Workforce development
- Resource allocation
- Partnerships
- Leadership

Principles of effective capacity building practice include:
- Respecting and valuing pre-existing capacities
- Developing mutual respect
- Being responsive to context within which capacity building program sits
- Avoiding pre-packaged ideas and strategies

Examples of capacity building strategies include:
- Canvassing opportunities for a program
- Lobbying for support
- Developing skills in others
- Supporting policy development
- Negotiating with management
- Guiding the establishment of partnerships
- Contributing to organisational planning
- Establishing relevant infrastructure (eg. community organisations)
RANGE STATEMENT

Relevant stakeholders may include:
- Other health and/or non-government organisations
- Community advocates or change agents
- Population health professionals/Supervisors
- Policy and decision makers in the specific community
- Other individuals, groups or communities most likely to be affected by strategies or action plans
- Community/Organisation leaders
- Community elders
- Council members

Different levels of target groups include:
- Individuals
- Groups
- Communities
- Organisations
- Inter-organisation/coalitions

Ethical considerations may include
- Respect for individual and cultural differences
- Privacy and confidentiality issues relating to information collection, storage and dissemination

Existing tools for evaluating capacity building efforts may include:
- Indicators to Help with Capacity Building in Health Promotion (NSW Health, 1999, North Sydney)
- Community Capacity Index (Bush, Robert and Dower Jo, 2003, University of Queensland)
- Qualitative tools: focus groups, key informant group, surveys/interviews
- Quantitative tools: case study, surveys, experiments (RCT, cohort, case-control, cross-sectional)

Unit Sector(s)

HLTOP508C Write a grant application

Modification History
Not Applicable

Unit Descriptor

Descriptor
This unit is concerned with the writing of a grant application or submission for a modest population health project
It also covers the preliminary investigations and planning of a project for which a grant is sought

Application of the Unit

Application
The grant application or submission planning phase is essential as it results in the development of the framework and contents of a grant application
The project planning and budgeting component of this competency is limited to utilising strategies, processes and techniques commonly utilised and proven within the worker's organisation for small level projects

Licensing/Regulatory Information

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Equity issues in population health
REQUIRED SKILLS AND KNOWLEDGE

- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Project budgeting as appropriate to small projects
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Ottawa Charter, Alma Ata, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Analyse, judge and incorporate feedback where required
- Apply effective communication and interpersonal skills including:
  - high level written and verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Demonstrate analytical thinking, problem solving and critical appraisal
- Develop a population health project plan with reference to current health policy and practices
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Identify and consult with key internal and external stakeholders throughout the planning process
- Investigate and identify appropriate funding sources and ensure a fit between their funding categories, priorities and evaluation criteria and a proposed project plan
- Pay attention to meeting organisation requirements for project plans
- Undertake project planning
- Undertake work planning and management
- Work as part of a team and/or autonomously
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access required to:
  - a range of government and non government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - organisation policies and procedures
EVIDENCE GUIDE

Method of assessment may include:

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Population health projects may vary considerably in scope and content:

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment

- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national

- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status, etc.
  - any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area
  - any setting/organisation whose practices influence health behaviour (e.g. clinical services, general practice, schools, workplaces, etc.)

- Population health projects can target individuals, groups or organizations
- Population health projects may vary in duration and intensity
- Population health projects may relate to different health determinants (e.g. biological, economic, behavioural, social, etc.)
RANGE STATEMENT

Stakeholders are: Any group or organisation that influences a project or is affected by it:
- External stakeholders can include:
  - partners and collaborating organisations
  - grant making organizations
  - representatives of target communities
- Internal stakeholders can include:
  - management
  - project team members
  - other staff

Other relevant personnel for consultation may include:
- Public health sector staff
- Community health sector staff
- Private health sector staff
- Volunteer networks
- General practitioners
- Administrators
- Researchers
- Educators
- Academics
- Business and industry representatives

Goal(s) refer to:
- What the project aims to ultimately achieve

Strategy refers to:
- A plan of action to achieve a project goal

Communities or target populations in population health:
- The community or population may vary considerably in character, size, needs and capacity to access information and services

Documentary evidence include:
- Staff CV’s, organisation policies and practices, budgets, licenses
RANGE STATEMENT

Sources of information for planning may include:

- Literature from population health and related disciplines such as published book, peer-reviewed papers (especially systematic reviews) and reports
- Literature outlining marketing and behaviour change strategies specific to the target population
- Demographic data and information
- Socio-economic data and information
- Data and information from health research and health studies
- Expert informants
- Key representatives of the target population
- National, state and local health policy documents and implementation guidelines

</tbody>
</table>
ELEMENT | PERFORMANCE CRITERIA
---|---
4. Coordinate volunteer support | 4.1 Seek volunteers for disaster plan designated roles, via identified organisations and public processes
4.2 Clarify roles and responsibilities are clarified
4.3 Identify team leaders by discussion with organisations
4.4 Hold meetings to discuss disaster plan and personnel requirements

5. Ensure training for volunteers and staff | 5.1 Establish training requirements for volunteers and staff
5.2 Develop training programs
5.3 Undertake promotion of training
5.4 Develop and promote training schedule
5.5 Provide training
5.6 Evaluate and modify training as required

6. Evaluate and modify disaster plan | 6.1 Consult key people about effectiveness of the disaster plan
6.2 Adapt the disaster plan to meet community needs
6.3 Distribute the amended disaster plan to key people
6.4 Provide additional training as required

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*
The candidate must be able to demonstrate essential knowledge required to effectively do
REQUIRED SKILLS AND KNOWLEDGE

the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Community networks
- Community views on disaster management
- Existing disaster plans (developed by other organisations who service the Community
- Legislation relating to disaster management
- Local disaster planning processes and networks
- Local resources, suppliers and trades people
- Project development
- Relevant equipment and technology
- Relevant Federal, State and Local government policies, guidelines and
- Relevant policies, protocols and procedures of the organisation

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply communication and liaison skills
- Apply negotiation skills
- Apply skills in human resource management
- Apply small group facilitation skills
- Deliver training
- Undertake networking
- Undertake planning

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:

- The workplace is recommended for assessment including by supervisor and peers, by observation and inquiries, and from written and other sources.
- Off-the-job role plays and exercises may also be used.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Disasters may include:
- Floods
- Cyclones
- Fires
- Earth quakes
- Nuclear accidents
- Riots, raids

A disaster plan(s) is:
- Guidelines and/or plans for responding to various types of disaster, detailing the roles and responsibilities of workers, resource needs and sources and situation management strategies

Government agencies may include:
- State/territory health department
- Police
- Social Security
- Local Government
- Emergency Services

Community organisations may include:
- Government and non-government agencies
- Health care service providers
- Other service providers
- Tradespeople
- Community groups who provide care to the community

Resources may include:
- Premises
- Grounds
- Accommodation
- Workplace equipment
- Materials
- Plant vehicles
- Exclusive use
- Occupation
RANGE STATEMENT

Key people will include:
- Those within and external to organisation
- Community leaders and representatives
- Agencies/service representatives
- Trade and professional services

Cultural context:
- The competency standards are based upon acknowledgment and support of the diverse cultural and traditional values of communities that the health worker works in. Health workers are upholders of traditional and cultural values. Their behaviour and practice must be culturally sensitive and supportive of traditional healing and health, knowledge and practices

Community control:
- Community participation and control in decision-making is essential to all aspects of health work, and the role of the health worker is to support the community in this process.

Supervision:
- In this document, references to supervision describe supervision of work by more experienced workers, supervisors, managers or other health professionals, either directly or indirectly.

Legislative requirements:
- Clinical practice may be governed by federal, state or territory legislation, which defines workers' roles and responsibilities
- Implementation of the competency standards must reflect the legislative framework in which a health worker operates
- Lack of resources, remote locations and community needs often require health workers to operate in situations which do not constitute "usual practice"
- Because of this, health workers may need to possess more competencies than described by "usual practice circumstances"
- Lack of resources or the environment in which the health worker works does not negate the requirement for the worker to work within a legislative framework, and be enabled by the employer to do so

Unit Descriptor

Descriptor

This unit specifies the workplace performance required for an entry level worker to participate in work health and safety (WHS) processes in the workplace in order to ensure their own health and safety at work as well as that of others in the workplace who may be affected by their actions.

Application of the Unit

Application

Application of this unit should be contextualised to reflect any specific workplace risks, hazards and associated safety practices.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.
Employability Skills Information

Employability Skills This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

17) Plan and prepare to work safely

1.1 Identify hazards in the work area, and take action to control risk

1.2 Report residual risk according to organisation procedures

1.3 Carry out pre-start checks as required according to work procedures

18) Conduct work safely

2.1 Use personal protective equipment correctly

2.2 Follow work procedures and workplace instructions for ensuring safety when planning and conducting work

2.3 Report incidents and injuries to designated personnel in line with work procedures and workplace instructions

2.4 Undertake WHS housekeeping in work area in line with work procedures and workplace instructions

2.5 Identify own levels of stress and fatigue to ensure ability to work safely and sustainably

19) Participate in WHS consultative activities

3.1 Contribute to workplace meetings, workplace inspections or other WHS consultative activities

3.2 Raise WHS issues with designated personnel according to organisation procedures

3.3 Provide input to improve workplace WHS systems and processes, according to organisation
20) Follow emergency response procedures

4.1 Identify and report *emergency situations*
4.2 Follow organisation procedures for responding to emergencies

**Required Skills and Knowledge**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- A basic understanding of the hierarchy of risk control
- Awareness of the relationship between WHS and sustainability in the workplace, including the contribution of safe work practices to environmental, economic, workforce and social sustainability
- Common WHS issues and the impact on workplace systems, equipment and processes
- Legal rights and responsibilities of the workplace parties
- Nature of common workplace hazards such as chemicals, bodily fluids, sharps, noise, manual handling, work postures, underfoot hazards and moving parts of machinery
- Roles and responsibilities of Health and Safety Representatives (HSRs) and Health and Safety committees (HSCs)
- Roles and responsibilities of workers, officers and Persons Conducting a Business or Undertaking (PCBUs)
- Safety measures related to common workplace hazards
- Safety signs and their meanings, including signs for:
  - dangerous goods class signs
  - emergency equipment
  - personal protective equipment
  - specific hazards such as sharps, radiation
- Sources of WHS information in the workplace with some limited knowledge of external sources of WHS information
- Standard emergency signals, alarms and required responses
- The difference between hazard and risk
- Workplace specific information including:
  - designated person(s) for raising WHS issues
- hazards of the particular work environment
- organisation and work procedures particularly those related to performance of own work, specific hazards and risk control, reporting of hazards, incidents and injuries, consultation, use of PPE and emergency response
- potential emergencies relevant to the workplace
- potential emergency situations, alarms and signals, and required response

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Apply WHS knowledge when participating in processes to address own health and safety within their work area

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Clarify meaning with peers and supervisors
- Demonstrate preparedness to be involved in WHS activities, including inspections and meetings
- Follow clear, logical verbal or clear, logical Plain English written instructions
- Give accurate verbal or written descriptions of incidents or hazards
- Interpret selected pictorial/graphical and written signs/instructions

**Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects of assessment:**
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence gathered by an assessor to determine competence will include practical demonstration of competence, including:
  - workplace demonstration, simulation exercise, scenario or role play
  - indirect evidence from workplace supervisor reports and workplace documentation

**Products that could be used as evidence include:**
- Verbal and written responses to verbal, pictorial, or physical scenarios
- Demonstrated action to scenarios, simulations, role plays
- Completed hazard or incident reports, completed workplace inspection checklists
- Reports from work group members, supervisor

**Processes that could be used as evidence include:**
- How contributions were made to consultative processes
- How hazard inspections were carried out

**Access and equity considerations:**
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

A hazard is: A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these

Common workplace hazards (from Safe Work Australia Work Health And Safety Risks - Code of Practice) include:

- Manual tasks - Overexertion or repetitive movement can cause muscular strain
- Gravity - Falling objects, falls, slips and trips of people can cause fractures, bruises, lacerations, dislocations, concussion, permanent injuries or death
- Electricity - Potential ignition source. Exposure to live electrical wires can cause shock, burns or death from electrocution
- Machinery and equipment - Being hit by moving vehicles, or being caught by moving parts of machinery can cause fractures, bruises, lacerations, dislocations, permanent injuries or death
- Hazardous chemicals - Chemicals (such as acids, hydrocarbons, heavy metals) and dusts (such as asbestos and silica) can cause respiratory illnesses, cancers or dermatitis
- Extreme temperatures - Heat can cause burns, heat stroke or fatigue. Cold can cause hypothermia or frost bite
- Noise - Exposure to loud noise can cause permanent hearing damage
- Radiation - Ultra violet, welding arc flashes, micro waves and lasers can cause burns, cancer or blindness
- Biological - Micro-organisms can cause hepatitis, legionnaires’ disease, Q fever, HIV/AIDS or allergies
- Psychosocial hazards - Effects of work-related stress, bullying, violence and work-related fatigue
Risk:

In relation to any hazard, means the probability and consequences of injury, illness or damage resulting from exposure to a hazard

Hierarchy of risk control (from Safe Work Australia Work Health And Safety - Risks Code of Practice) includes:

The ranking of ways control risks ranked from the highest level of protection and reliability to the lowest, including:

- Level 1 controls
  - Eliminate hazards
- Level 2 controls
  - Substitute the hazard with something safer
  - Isolate the hazard from people
  - Use engineering controls
- Level 3 controls
  - Use administrative controls
  - Use personal protective equipment (PPE)

Examples of risks requiring management in a direct client care work environment may include:

- Worker fatigue or burnout requiring appropriate supervision and stress management
- Injury or damage resulting from violent or aggressive behaviour, requiring strategies to defuse or avoid behaviours of concern
- Risks relating to working in client’s homes, requiring appropriate worker education and associated strategies
- Fire in client’s homes requiring workers to provide basic information on home fire safety

Residual risk is:

The risk which remains after controls have been implemented
**Personal protective equipment (PPE) includes:** Equipment worn by a person to provide protection from hazards, by providing a physical barrier between the person and the hazard and may include:

- head protection
- face and eye protection
- respiratory protection
- hearing protection
- hand protection
- clothing and footwear

**Incidents include:** Any event that has caused, or has the potential for, injury, ill-health or damage

**Designated personnel may include:**

- Team leaders/supervisors
- Officers
- HSRs
- HSC members
- PCBUs
- Organisation WHS personnel
- Other persons designated by the organisation

**WHS housekeeping includes:** Workplace and personal routines designed to improve health and safety; for example, cleaning up spills, keeping walkways, exits and traffic areas clear
Emergency situations may include Any abnormal or sudden event that requires immediate action such as:

- Serious injury events
- Events requiring evacuation
- Fires and explosions
- Hazardous substance and chemical spills
- Explosion and bomb alerts
- Security emergencies, such as armed robberies, intruders and disturbed persons
- Internal emergencies, such as loss of power or water supply and structural collapse
- External emergencies and natural disasters, such as flood, storm and traffic accident impacting on the organisation

Unit Descriptor

Descriptor

This unit specifies the workplace performance required by a worker to contribute to work health and safety (WHS) processes where there is responsibility for own work outputs and possibly limited responsibility for the work output of others.

Application of the Unit

Application

Application of this unit should be contextualised to reflect any specific workplace risks, hazards and associated safety practices.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.

Employability Skills Information

Employability Skills

This unit contains Employability Skills
Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

21) Plan and conduct work safely

1.1 Plan work in accordance with relevant WHS legislation, standards, codes of practice/compliance codes and guidance material

1.2 Identify hazards as part of work planning and work process

1.3 Address identified hazards prior to starting work using judgement within defined scope of responsibilities

1.4 Report residual risk according to organisation procedures

1.5 Report incidents and injuries in line with organisation policies and procedures

1.6 Undertake WHS housekeeping in work area

1.7 Monitor own levels of stress and fatigue to ensure ability to work safely and sustainably

22) Support others in working safely

2.1 Share information on safe work practices and work procedures with others, including members of the work group where relevant

2.2 Check the WHS practices of less experienced members of the workgroup or other stakeholders in the work context

2.3 If appropriate provide guidance and coaching to less experienced members of the workgroup to support them in working safely

2.4 If appropriate support others accurately record incidents and complete associated workplace documentation according to organisation procedures

23) Contribute to WHS participative processes

3.1 Raise WHS issues in accordance with organisation procedures within appropriate timeframes

3.2 Contribute to workplace meetings, workplace inspections or other consultative activities

3.3 Provide assistance to workgroup members or other stakeholders to contribute to workplace safety

24) Contribute to hazard identification, WHS risk assessment and risk control activities

4.1 Report identified hazards and inadequacies in risk controls within appropriate timeframes

4.2 Check the workplace for hazards using itemised checklist(s) in accordance with work procedures

4.3 Contribute to risk assessments
4.4 Provide input to development and implementation of control measures, with reference to the hierarchy of risk control

25) Participate in the control of emergency situations

5.1 Identify emergency signals and alarms and respond to them appropriately

5.2 Take initial action to control/confine emergency according to organisation procedures, and taking account of the nature and scope of the emergency

5.3 Implement emergency response procedures within scope of training and competence
Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Basic hazard identification procedures such as workplace inspections and review of workplace data
- Hierarchy of risk control and its application
- Nature of common workplace hazards relevant to work role
- Personal protective equipment (PPE) requirements including use, storage and maintenance
- Principles of basic risk assessment
- Relationship between WHS and sustainability in the workplace, including the contribution of maintaining health and safety to environmental, economic, workforce and social sustainability
- Roles and responsibilities of Health and Safety Representatives (HSRs) and Health and Safety committees (HSCs)
- Roles and responsibilities of workers, officers and Persons Conducting a Business or Undertaking (PCBUs)
- Safety signs and their meanings, including signs for:
  - dangerous goods class signs
  - emergency equipment
  - personal protective equipment
  - specific hazards such as sharps, radiation
- Sources of WHS information within the workplace and awareness of external sources of WHS information, including Safe Work Australia and relevant state/territory regulators
- Standard emergency signals, alarms and required responses
- The difference between hazard and risk
- The legal rights and responsibilities of the workplace parties
- Workplace specific information including:
  - hazards of the particular work environment
  - hazard identification procedures relevant to the hazards in their workplace
  - designated person(s) for raising WHS issues
  - organisation and work procedures particularly those related to performance of own work, specific hazards and risk control, reporting of hazards, incidents and injuries and WHS issue resolution, consultation, use of PPE and emergency response
  - potential emergency situations, alarms and signals and required response
This describes the essential skills and knowledge and their level required for this unit.

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Contribute to WHS processes in the work context by:
  - addressing their own health and safety
  - addressing health and safety of others who may be affected by their actions
  - identifying ways to keep up to date with current WHS issues as they apply to workplace systems, equipment and processes
  - supporting members of the workgroup who may be less experienced in the workplace in regard to WHS matters
  - taking initiative to address hazards and manage risks at a systemic level

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Check the workplace for hazards and risks using an itemised checklist
- Provide advice and feedback in a constructive and supportive manner
- Take into account and use opportunities to address waste minimisation, environmental responsibility and sustainable practice issues

**Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects of assessment:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence gathered by an assessor to determine competence will include practical demonstration of competence, including:
  - workplace demonstration, simulation exercise, scenario or role play
  - indirect evidence from workplace supervisor reports, workplace documentation, and written responses to problems, scenarios and case studies
- Evidence of performance over time must be obtained to inform a judgement of competence

Products that could be used as evidence include:

- Verbal and written responses to verbal, pictorial or physical scenarios
- Demonstrated response to scenarios, simulations, role plays
- Completed hazard or incident reports, completed workplace inspection checklists
- Reports from workgroup members, supervisors

Processes that could be used as evidence include:

- How workplace checks/inspections are carried out
- How hazards are addressed
- How mentoring of fellow workgroup members is undertaken
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Access and equity considerations:
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Hazard identification is: The process of identifying sources of harm, and may be required:

- before new forms of work and organisation of work are implemented
- before changes are made to workplace, equipment, work processes or work arrangements
- as part of planning major tasks or activities, such as equipment shutdowns
- following an incident report
- when new knowledge becomes available
- at regular intervals during normal operations
- prior to disposal of equipment, or materials

A hazard is: A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these
RANGE STATEMENT

Common workplace hazards (from Safe Work Australia Work Health And Safety Risks - Code of Practice) include:

- Manual tasks - Overexertion or repetitive movement can cause muscular strain
- Gravity - Falling objects, falls, slips and trips of people can cause fractures, bruises, lacerations, dislocations, concussion, permanent injuries or death
- Electricity - Potential ignition source. Exposure to live electrical wires can cause shock, burns or death from electrocution
- Machinery and equipment - Being hit by moving vehicles, or being caught by moving parts of machinery can cause fractures, bruises, lacerations, dislocations, permanent injuries or death
- Hazardous chemicals - Chemicals (such as acids, hydrocarbons, heavy metals) and dusts (such as asbestos and silica) can cause respiratory illnesses, cancers or dermatitis
- Extreme temperatures - Heat can cause burns, heat stroke or fatigue. Cold can cause hypothermia or frost bite
- Noise - Exposure to loud noise can cause permanent hearing damage
- Radiation - Ultra violet, welding arc flashes, micro waves and lasers can cause burns, cancer or blindness
- Biological - Micro-organisms can cause hepatitis, legionnaires’ disease, Q fever, HIV/AIDS or allergies
- Psychosocial hazards - Effects of work-related stress, bullying, violence and work-related fatigue

Risk: In relation to any hazard, means the probability and consequences of injury, illness or damage resulting from exposure to a hazard

Residual risk is The risk which remains after controls have been implemented
RANGE STATEMENT

Examples of risks requiring management in a direct client care work environment may include:

- Worker fatigue or burnout requiring appropriate supervision and stress management
- Injury or damage resulting from violent or aggressive behaviour, requiring strategies to defuse or avoid behaviours of concern
- Risks relating to working in client’s homes, requiring appropriate worker education and associated strategies
- Fire in client’s homes requiring workers to provide basic information on home fire safety

Organisation procedures include:

- Policies and procedures underpinning the management of WHS, including:
  - Hazard, incident and injury reporting
  - Hazard identification, risk assessment and control
  - Human resources policies and procedures such as harassment and grievance procedures, induction programs, team meetings, alcohol and drug policies
  - Consultation and participation
  - Quality system documentation

WHS housekeeping includes:

- Workplace and personal routines designed to improve health and safety: for example, cleaning up spills, keeping walkways, exits and traffic areas clear
RANGE STATEMENT

Information includes:
- Hazard, incident and investigation reports
- Workplace inspection reports
- Incident investigation reports
- Minutes of meetings
- Job Safety Analyses (JSAs) and risk assessments
- Safety Data Sheet (SDS) and registers
- Employees handbooks
- Manufacturers’ manuals and specifications
- Information from Health and Safety Representatives
- Reports from Health and Safety committee
- Information from external sources on hazards and risk relevant to the work group

Work procedures include:
- Standard operating procedures
- Batch specifications
- Operator or manufacturer manuals
- Procedures for selecting, fitting, using and maintaining personal protective equipment

Mentoring and coaching may include:
- Providing guidance and explanation on implementation of work and organisation procedures
- Providing feedback
- Providing encouragement
- Assisting with problem solving

Incidents include:
Any event that has caused or has the potential for injury, ill-health or damage

Other workplace documentation may include:
- Job checklists, schedules
- Workplace inspection checklists
**RANGE STATEMENT**

**Risk controls include:**
- The devices and methods to, where practicable, eliminate the hazard or, where this is not practicable, minimise the risk associated with the hazard

**Designated persons may include:**
- Team leaders/supervisors
- Officers
- HSRs
- HSC members
- PCBUs
- Organisation WHS personnel
- Other persons designated by the organisation

**Hierarchy of risk control** (from Safe Work Australia Work Health And Safety - Risks Code of Practice) includes:
- The ranking of ways control risks ranked from the highest level of protection and reliability to the lowest, including:
  - Level 1 controls
    - Eliminate hazards
  - Level 2 controls
    - Substitute the hazard with something safer
    - Isolate the hazard from people
    - Use engineering controls
  - Level 3 controls
    - Use administrative controls
    - Use personal protective equipment (PPE)

**Emergency signals and alarms may include:**
- Machinery malfunction alarms
- Fire alarms
- Evacuation alarms or announcements
- Reversing beepers on mobile plant
RANGE STATEMENT

Emergency may include any abnormal or sudden event that requires immediate action such as:

- Serious injury events
- Events requiring evacuation
- Fires and explosions
- Hazardous substance and chemical spills
- Explosion and bomb alerts
- Security emergencies, such as armed robberies, intruders and disturbed persons
- Internal emergencies, such as loss of power or water supply and structural collapse
- External emergencies and natural disasters, such as flood, storm and traffic accident impacting on the organisation

Unit Descriptor

Descriptor

This unit specifies the workplace performance required by a worker with supervisory responsibilities to maintain organisation work health and safety (WHS) processes

Application of the Unit

Application

Application of this unit should be contextualised to reflect any specific workplace risks, hazards and associated safety practices

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.

Employability Skills Information

Employability Skills

This unit contains Employability Skills
Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

26) Provide information to the work group

1.1 Clearly and accurately explain to the work group relevant provisions of WHS legislation, standards, codes of practice/compliance codes and guidance material

1.2 Provide information on organisation policies and procedures in a readily accessible manner and clearly explain to the work group

1.3 Explain roles and responsibilities of Health and Safety Representatives (HSRs) and Health and Safety Committees (HSCs)

1.4 Provide information to the work group, in an accessible and understandable format, on hazards, the outcomes of risk assessments, and required risk controls

27) Ensure others are able to implement safe work practices

2.1 Ensure personal protective equipment appropriate to the work is available and functional

2.2 Implement processes to confirm that others in the work group are following safe work practices, and organisation policies and procedures.

2.3 Identify WHS training needs and either address or report these needs to those with control

28) Implement WHS participative processes

3.1 Consult with the work group and provide advice in relation to WHS matters relevant to their work

3.2 Ensure WHS issues raised are dealt with promptly, and in accordance with organisation procedures and legislative requirements, or referred to appropriate personnel

3.3 Record outcomes of consultation regarding WHS and promptly communicate these outcomes to the work group

29) Monitor compliance with work procedures

4.1 Check work procedures for availability, clarity and completeness, addressing any deficiencies or reporting them to appropriate persons

4.2 Identify and address any deviations from procedures or report to appropriate persons

4.3 Evaluate hazard identification and reporting processes are for effectiveness and address any deficiencies or report to appropriate persons

4.4 Monitor WHS housekeeping practices to ensure that workplace standards are maintained, and take action to address any deficiencies
4.5 Ensure own behaviour is consistent with organisation and work procedures

5.1 Ensure hazards are identified and eliminated with residual risk reported according to organisation procedures

5.2 Conduct risk assessments

5.3 Develop control measures, taking account of the hierarchy of risk control

5.4 Implement and support outcomes of risk assessments and identified risk controls

5.5 Identify and address and/or report deficiencies in WHS risk controls according to organisation procedures

5.6 Identify personal professional limitations and seek expert advice as required

6.1 Obtain feedback to ensure that workgroup is aware of organisation reporting requirements

6.2 Review WHS records to confirm that they are completed in an accurate, thorough and timely manner in accordance with legislative and organisation requirements

6.3 Use aggregate information and data from records to identify hazards and monitor risk controls

7.1 Obtain feedback to ensure that emergency procedures are available and known by the work group

7.2 Implement processes to ensure that emergency equipment is available and routinely checked for functionality

7.3 Implement processes to ensure that others in the workgroup are able to respond appropriately to emergencies

7.4 Conduct or contribute to investigations to identify cause of emergencies

7.5 Identify and implement or support control measures to prevent recurrence and minimise risk of emergencies

**Required Skills and Knowledge**
This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- General duty requirements of the national Work Health and Safety model and relevant state/territory legislation that influence regulatory requirements relevant to the particular industry/type of work site
- Hazard identification procedures such as workplace inspections and review of workplace data
- Knowledge and understanding of guidance material including codes of practice/compliance codes relevant to the particular industry/type of work site
- Legislative requirements for record keeping and reporting
- Nature of common workplace hazards relevant to work role
- PPE requirements including use, storage and maintenance
- Principles of risk assessment
- Relationship between WHS and sustainability in the workplace, including the importance of maintaining safety in the workplace to establishing and maintaining environmental, economic, workforce and social sustainability
- Roles and responsibilities of Health and Safety Representatives (HSRs) and Health and Safety committees (HSCs)
- Roles and responsibilities of workers, officers and Persons Conducting a Business or Undertaking (PCBUs)
- Sources of WHS information both internal and external to the workplace, including Safe Work Australia and relevant state/territory regulators
- Standards and guidelines related to emergency procedures
- The difference between hazard and risk
- The hierarchy of risk control and its application
- Workplace specific information including:
  - designated person(s) for raising WHS issues
  - hazard identification procedures relevant to the hazards in their work place
  - hazards of the particular work environment
  - organisation procedures related to WHS including hazard, incident and injury reporting, hazard identification, risk assessment and control, consultation and participation, incident investigation, record keeping
  - potential emergency situations, alarms and signals and required response
  - risk controls for specific hazards
  - work procedures related to the work of the team/work group including use of PPE and emergency response
This describes the essential skills and knowledge and their level required for this unit.

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Maintain WHS processes in the work context particularly in relation to the supervision of a small workgroup

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Communicate with personnel in the work team, other work teams, managers and expert advisers
- Conduct team meetings
- Relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities
- Supervise and direct staff
- Take into account, use and promote opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use language and literacy skills to interpret WHS documentation
- Use technical skills to access WHS information

**Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects of assessment:**
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence gathered by an assessor to determine competence will include:
  - written or verbal responses to scenarios and case studies
  - provision of workplace examples
  - evidence from workplace supervisor reports
  - portfolio of workplace documentation
- Evidence of performance over time must be obtained to inform a judgement of competence

**Products that could be used as evidence include:**
- Verbal and written responses to verbal, written or physical scenarios
- Completed examples of information provided to work group, risk assessments, risk controls developed, reports to managers, reports on workplace inspections, audits, emergency exercises
- Reports from work group members, supervisor

**Processes that could be used as evidence include:**
- How information transfer was organised and conducted
- How risk assessments were conducted
- How deviations from workplace procedures were addressed
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related units:

- HLTWHS00A Contribute to WHS processes

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

WHS legislation varies in different states and will include:
- National Work Health and Safety Model
- Current relevant State/territory WHS legislation
- Relevant state/territory Manual Handling Code of Conduct

Standards include:
Documents produced by national bodies, WHS regulators or industry bodies, that prescribe preventative action to avert occupational deaths, injuries and diseases
Standards are of an advisory nature only, except where a law adopts the standard and thus makes it mandatory
They may be called up as evidence in court or other enforcement action

Codes of practice/compliance codes are:
Documents generally prepared to provide advice to employers and workers, of an acceptable way of achieving standards
Codes of practice/compliance codes may:
- be incorporated into regulations
- not relate to a standard
- be called up as evidence in court or other enforcement action

Guidance material:
Is an advisory technical document, providing detailed information for use by unions, officers, PCBU's, health and safety committee members and representatives, safety officers and others requiring guidance
Advises on ‘what to do’ and ‘how to do it’
Has no legal standing
**RANGE STATEMENT**

*Organisation policies and procedures include:* Policies and procedures underpinning the management of WHS including:

- hazard, incident and injury reporting
- hazard identification, risk assessment and control
- human resources policies and procedures such as harassment and grievance procedures, induction programs, team meetings, alcohol and drug policies
- consultation and participation
- incident investigation
- quality system documentation

*A hazard is:* A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these
RANGE STATEMENT

Common workplace hazards (from Safe Work Australia Work Health And Safety - Risks Code of Practice) include:

- Manual tasks - Overexertion or repetitive movement can cause muscular strain
- Gravity - Falling objects, falls, slips and trips of people can cause fractures, bruises, lacerations, dislocations, concussion, permanent injuries or death
- Electricity - Potential ignition source. Exposure to live electrical wires can cause shock, burns or death from electrocution
- Machinery and equipment - Being hit by moving vehicles, or being caught by moving parts of machinery can cause fractures, bruises, lacerations, dislocations, permanent injuries or death
- Hazardous chemicals - Chemicals (such as acids, hydrocarbons, heavy metals) and dusts (such as asbestos and silica) can cause respiratory illnesses, cancers or dermatitis
- Extreme temperatures - Heat can cause burns, heat stroke or fatigue. Cold can cause hypothermia or frost bite
- Noise - Exposure to loud noise can cause permanent hearing damage
- Radiation - Ultra violet, welding arc flashes, micro waves and lasers can cause burns, cancer or blindness
- Biological - Micro-organisms can cause hepatitis, legionnaires’ disease, Q fever, HIV/AIDS or allergies
- Psychosocial hazards - Effects of work-related stress, bullying, violence and work-related fatigue

Risk:

In relation to any hazard, means the probability and consequences of injury, illness or damage resulting from exposure to a hazard
RANGE STATEMENT

Risk assessments involve analysing a hazard to:

- Identify factors influencing the risk and the range of potential consequences:
  - effectiveness of existing controls
  - likelihood of each consequence considering exposure and hazard level

And combining these in some way to obtain a level of risk

Risk controls include:

- The devices and methods to, where practicable, eliminate the hazard or, where this is not practicable, minimise the risk associated with the hazard

Examples of risks requiring management in a direct client care work environment may include:

- Worker fatigue or burnout requiring appropriate supervision and stress management
- Injury or damage resulting from violent or aggressive behaviour, requiring strategies to defuse or avoid behaviours of concern
- Risks relating to working in client’s homes, requiring appropriate worker education and associated strategies
- Fire in client’s homes requiring workers to provide basic information on home fire safety

Personal protective equipment (PPE) includes:

- Equipment worn by a person to provide protection from hazards, by providing a physical barrier between the person and the hazard and may include:
  - head protection
  - face and eye protection
  - respiratory protection
  - hearing protection
  - hand protection
  - clothing and footwear
RANGE STATEMENT

Work procedures include:

- Standard operating procedures
- Batch specifications
- Operator or manufacturer manuals
- Procedures for selecting, fitting, using and maintaining personal protective equipment.

Hazard identification is:

The process of identifying sources of harm and may be required:

- at design or pre purchase of equipment and materials
- at commissioning or pre-implementation of new processes or practices
- before new forms of work and organisation of work are implemented
- before changes are made to workplace, equipment, work processes or work arrangements
- as part of planning major tasks or activities, such as equipment shutdowns
- following an incident report
- when new knowledge becomes available
- at regular intervals during normal operations
- prior to disposal of equipment, buildings or materials

Reporting processes include:

- Hazards reports
- Maintenance requests and reports
- Reports on completion of inspections
- Incident reports
- Reports of non-compliance with work procedures
- Reporting on progress of action plans
RANGE STATEMENT

WHS housekeeping practices address items such as:

- Workplace cleanliness and tidiness
- Unobstructed walkways and emergency exits
- Underfoot conditions
- Work space around equipment and machinery
- Functioning services such as lighting, air flow and ventilation, emergency lighting
- Storage areas including manual handling issues, storage, personal protective equipment
- Signage

Residual risk is:

The risk which remains after controls have been implemented

Hierarchy of risk control (from Safe Work Australia Work Health And Safety - Risks Code of Practice) includes:

The ranking of ways control risks ranked from the highest level of protection and reliabilitity to the lowest, including:

- Level 1 controls
  - Eliminate hazards
- Level 2 controls
  - Substitute the hazard with something safer
  - Isolate the hazard from people
  - Use engineering controls
- Level 3 controls
  - Use administrative controls
  - Use personal protective equipment (PPE)
RANGE STATEMENT

**Expert advice can be obtained from:**

Persons either internal or external to the organisation including:

- safety professionals
- ergonomists
- employee assistance and workplace counselling services
- occupational hygienists
- audiologists
- safety engineers
- toxicologists
- occupational health professionals
- Health and Safety Representatives (HSRs)
- Health and Safety committees (HSCs)

Other persons providing specific technical knowledge or expertise in areas related to WHS including:

- risk managers
- health professionals
- injury management advisors
- legal practitioners with experience in WHS
- engineers (e.g. design, acoustic, mechanical, civil)
- security and emergency response personnel
- workplace trainers and assessors
- maintenance and trade persons
RANGE STATEMENT

WHS records may include:

- Hazard, incident and investigation reports
- Workplace inspection reports
- Incident investigation reports
- First aid records
- Minutes of meetings
- Job Safety Analyses (JSAs) and risk assessments
- Safety Data Sheet (SDS) and registers
- Employees handbooks
- Plant and equipment operation records including those relevant to registered plant
- Maintenance and testing reports
- Training records
- Environmental monitoring records
- Health surveillance records

Legislative requirements for record keeping include those specified under:

WHS legislation for:

- serious incident and injury reporting
- registered plant
- hazardous substances and dangerous goods
- environmental monitoring
- health surveillance

Privacy legislation

Emergencies may include any abnormal or sudden event that requires immediate action such as:

- Serious injury events
- Events requiring evacuation
- Fires and explosions
- Hazardous substance and chemical spills
- Explosion and bomb alerts
- Security emergencies, such as armed robberies, intruders and disturbed persons
- Internal emergencies, such as loss of power or water supply and structural collapse
- External emergencies and natural disasters, such as flood, storm and traffic accident impacting on the organisation
RANGE STATEMENT

Emergency equipment is equipment required as part of the emergency response by the organisation and includes:

- First aid equipment
- Eye wash shower or portable eye washes
- Fire extinguishers and equipment
- Communication equipment
- Evacuation alarms
- Evacuation equipment, especially that for disabled persons
- Torches
- Items of clothing such as coloured hats and vests

Incidents include: Any event that has caused or has the potential for injury, ill-health or damage

Unit Sector(s)

Unit Descriptor

Descriptor

This unit specifies the workplace performance required by an individual responsible for ongoing management of work health and safety (WHS) within an area of management responsibility where the WHS management processes have been set up by other persons, either internal or external to the organisation.

Application of the Unit

Application

Application of this unit should be contextualised to reflect any specific workplace risks, hazards and associated safety practices.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.
Employability Skills Information

Employability Skills  This unit contains Employability Skills
Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

33) Manage WHS information and records

1.1 Identify and access relevant WHS legislation, standards, codes of practice/compliance codes, guidance material and other sources of WHS information and evaluate their relevance to the specific work context

1.2 Collect and collate WHS information to provide information on WHS requirements, trends and risk controls

1.3 Review records and record keeping processes to ensure that legal requirements for WHS record keeping are identified and addressed

1.4 Implement and monitor processes for ensuring that WHS records are accurately completed, collected and stored in accordance with legal requirements and workplace procedures

34) Manage WHS participative processes

2.1 Monitor participative processes to ensure compliance with legislative requirements and organisation procedures

2.2 Evaluate information provided to workers to ensure it is in a readily accessible and understandable format

2.3 Implement and monitor processes for ensuring that workgroup members have an opportunity, either directly or through their representative, to contribute to decisions that may affect their health and safety

2.4 Evaluate processes for addressing WHS issues, to ensure issues raised through consultation are resolved promptly and in line with organisation procedures and legislative requirements

2.5 Promptly provide information about the outcomes of consultation in a format and medium that is readily accessible to workers
35) Manage WHS risk management processes

3.1 Ensure hazard, incident, and injury reporting and investigation processes are in place, to meet legislative requirements and to inform future prevention strategies

3.2 Ensure processes are in place so that hazard identification and risk assessments occur according to organisation procedures

3.3 Ensure risk controls and hazard specific procedures are consistent with the hierarchy of control and are monitored to support compliance with legislative and regulatory requirements

3.4 Ensure processes are in place to identify and address any WHS implications of either proposed or implemented changes to the workplace, work processes or organisation of work

3.5 Recognise limits of own professional expertise and consult expert advisors as required

36) Manage WHS training program

4.1 Conduct an WHS training needs assessment for workgroup members, that takes account of legislative and regulatory requirements, internal policies and procedures, existing skills of workgroup members and risk control requirements

4.2 Implement and monitor training programs to ensure identified WHS training requirements are addressed

4.3 Implement and monitor processes to ensure that all new workers receive WHS induction

4.4 Access and consult relevant WHS and training specialists as required, in the development and implementation of the WHS training program(s)

37) Manage WHS continuous improvement process

5.1 Consider input from individuals and workgroup in identifying and implementing WHS improvement

5.2 Determine WHS priorities in consultation with appropriate managers and stakeholders

5.3 Develop WHS action plans taking account of priorities and training needs

5.4 Monitor achievements against the WHS plans and update plans accordingly
Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Hazard identification procedures
- Knowledge and understanding of guidance material including codes of practice/compliance codes relevant to the particular industry/type of work site
- Legal and practical requirements for WHS training, WHS record keeping and reporting
- Legislative requirements for consultation
- Principles of risk assessment
- Relationship between WHS and sustainability in the workplace, including the contribution of maintaining health and safety to environmental, economic, workforce and social sustainability
- Roles and responsibilities of Health and Safety Representatives (HSRs) and Health and Safety committees (HSCs)
- Roles and responsibilities of workers, officers and Persons Conducting a Business or Undertaking (PCBUs)
- Sources of WHS information both internal and external to the workplace, including Safe Work Australia and relevant state/territory regulators
- Systems for identifying skill needs, for example:
  - identifying additional training needs of learners
  - performance reviews
  - training needs analysis
- The difference between hazard and risk
- The hierarchy of control and its application
- Understanding the national Work Health and Safety model and relevant state/territory legislation that influence regulatory requirements relevant to the particular industry/type of work site
- Workplace specific information including:
  - awards and enterprise agreements that impact on the particular workplace
  - designated person(s) for raising WHS issues
  - hazard identification procedures relevant to the hazards in their workplace
  - hazards of the particular work environment and how they cause harm
  - organisation procedures related to WHS including hazard, incident and injury reporting, hazard identification, risk assessment and control, consultation and participation, incident investigation, record keeping
This describes the essential skills and knowledge and their level required for this unit.

- the characteristics and composition of the workforce and how they may impact on the management of WHS
- workplace support services e.g. employee assistance providers, workplace counselling and medical services
- relevant WHS training and training providers

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Manage WHS processes for a small organisation or group(s) of persons undertaking a range of work

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply an action planning process
- Assimilate information from a range of sources to evaluate effectiveness of processes
- Communicate with supervisors, other managers, staff, WHS inspectors and expert advisers in a range of contexts, and using a range of media and formats.
- Conduct effective meetings
- Develop solutions to complex WHS problems, utilising information from a range of sources
- Relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities
- Support others to identify and access appropriate external support services such as medical, social and psychological support
- Take into account and support staff to use opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use language and literacy and conceptual skills to analyse and evaluate WHS information
- Use technical skills to access WHS information
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects of assessment:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence gathered by an assessor to determine competence will include:
  - written or verbal responses to scenarios and case studies
  - reports from persons who have been involved in the management processes
  - portfolio of workplace documents
- Evidence of performance over time must be obtained to inform a judgement of competence

Products that could be used as evidence include:

- Verbal and written responses to verbal, pictorial or physical scenarios
- Demonstrated action to scenarios, simulations, role plays
- Completed reports to senior managers
- Written directions, emails, memos and other information provided to supervisors in area of responsibility
- Reports from team leaders, senior managers, other managers, specialist advisors

Processes that could be used as evidence include:

- How training needs were identified and addressed
- How action plans are developed, monitored and updated
- How hazard identification and risk assessment occur
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

WHS legislation varies in different states and will include:

- National Work Health and Safety Model
- Current relevant State/territory WHS legislation
- Relevant state/territory Manual Handling Code of Conduct
Standards include: Documents produced by national bodies, WHS regulators or industry bodies, that prescribe preventative action to avert occupational deaths, injuries and diseases

Standards are of an advisory nature only, except where a law adopts the standard and thus makes it mandatory

They may be called up as evidence in court or other enforcement action

Codes of practice/compliance codes are: Documents generally prepared to provide advice to employers and workers, of an acceptable way of achieving standards

Codes of practice/compliance codes may:

- be incorporated into regulations
- not relate to a standard
- be called up as evidence in court or other enforcement action

Guidance material: Is an advisory technical document, providing detailed information for use by unions, officers, PCBU’s, health and safety committee members and representatives, safety officers and others requiring guidance

Advises on ‘what to do’ and ‘how to do it’

Has no legal standing
**Other sources of WHS information include**

Persons, organisations and references where knowledge about WHS may be obtained

These sources may be:

**Internal, including:**
- hazard, incident and investigation reports
- workplace inspections
- incident investigations
- minutes of meetings
- Job Safety Analyses (JSAs) and risk assessments
- organisation data such as insurance records, enforcement notices and actions, workers compensation data, WHS performance data
- reports and audits
- Safety Data Sheet (SDS) and registers
- employees handbooks
- workers including questionnaire results
- Health and Safety Representatives
- manufacturers’ manuals and specifications

**External, including:**
- Employee Assistance Program providers and workplace counselling services
- relevant state WHS Acts, regulations, codes and guidance material
- other relevant legislation
- Safe Work Australia
- State/territory regulatory bodies
- databases such as national and state injury data
- WHS specialists and consultants
- newspapers and journals, trade/industry publications
- internet sites
- industry networks and associations including unions and employer groups
- WHS professional bodies
- specialist advisors
- research information
**WHS information includes:**
- Requirements under WHS legislation, regulations, standards, codes of practice/compliance codes and guidelines
- Rights and responsibilities
- Information on hazards including SDSs
- Collated information on hazard incidents and injuries
- Investigation and audit reports
- Outcomes of hazard identifications and workplace inspections
- Risk assessments
- Risk controls
- Workplace WHS policies and procedures
- Work procedures
- Training records

**Risk controls include:**
The devices and methods to, where practicable, eliminate the hazard or, where this is not practicable, minimise the risk associated with the hazard

**Legal requirements for record keeping include:**
- That specified under WHS legislation and regulations for:
  - Serious incident and injury reporting
  - Registered plant
  - Hazardous substances and dangerous goods
  - Environmental monitoring
  - Health surveillance
  - Privacy legislation.
**WHS records may include:**
- Hazard, incident and investigation reports
- Workplace inspection reports
- Incident investigation reports
- First aid records
- Minutes of meetings
- Job Safety Analyses (JSAs) and risk assessments
- Safety Data Sheet (SDS) and registers
- Plant and equipment operation records including those relevant to registered plant
- Maintenance and testing reports
- Training records
- Environmental monitoring records
- Health surveillance records

**Participative processes include:**
Processes that:
- inform workers and other stakeholders of WHS matters
- seek their input
- offer opportunity for stakeholders to participate in decisions that may impact on their health and safety

Participative processes may also be referred to as ‘consultative processes’, however ‘participation’ implies a higher level of involvement

**Organisation policies and procedures include:**
Policies and procedures underpinning the management of WHS including:
- hazard, incident and injury reporting
- hazard identification, risk assessment and control
- human resources policies and procedures such as harassment and grievance procedures, induction programs, team meetings, alcohol and drug policies
- consultation and participation
- incident investigation
- quality system documentation
Consultation includes processes for:

Seeking information or the opinions from one or more people prior to decision-making

Consultation should particularly include those who may affect the outcomes or be affected by the decisions made but may also include specialist sources

A hazard is:

A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these

Common workplace hazards (from Safe Work Australia Work Health And Safety Risks - Code of Practice) include:

- Manual tasks - Overexertion or repetitive movement can cause muscular strain
- Gravity - Falling objects, falls, slips and trips of people can cause fractures, bruises, lacerations, dislocations, concussion, permanent injuries or death
- Electricity - Potential ignition source. Exposure to live electrical wires can cause shock, burns or death from electrocution
- Machinery and equipment - Being hit by moving vehicles, or being caught by moving parts of machinery can cause fractures, bruises, lacerations, dislocations, permanent injuries or death
- Hazardous chemicals - Chemicals (such as acids, hydrocarbons, heavy metals) and dusts (such as asbestos and silica) can cause respiratory illnesses, cancers or dermatitis
- Extreme temperatures - Heat can cause burns, heat stroke or fatigue. Cold can cause hypothermia or frost bite
- Noise - Exposure to loud noise can cause permanent hearing damage
- Radiation - Ultra violet, welding arc flashes, micro waves and lasers can cause burns, cancer or blindness
- Biological - Micro-organisms can cause hepatitis, legionnaires’ disease, Q fever, HIV/AIDS or allergies
- Psychosocial hazards - Effects of work-related stress, bullying, violence and work-related fatigue
**Incident includes:** Any event that has caused or has the potential for injury, ill health or damage

**Hazard identification is:** The process of identifying sources of harm and may be required:

- at design or pre purchase of equipment and materials
- at commissioning or pre-implementation of new processes or practices
- before new forms of work and organisation of work are implemented
- before changes are made to workplace, equipment, work processes or work arrangements
- as part of planning major tasks or activities, such as equipment shutdowns
- following an incident report
- when new knowledge becomes available
- at regular intervals during normal operations
- prior to disposal of equipment, buildings or materials

**Risk:** In relation to any hazard, means the probability and consequences of injury, illness or damage resulting from exposure to a hazard

**Risk assessments involve:** Analysing a hazard to:

- identify factors influencing the risk and the range of potential consequences
- effectiveness of existing controls
- likelihood of each consequence considering exposure and hazard level
- and combining these in some way to obtain a level of risk
Hierarchy of risk control (from Safe Work Australia Work Health And Safety - Risks Code of Practice) includes:

The ranking of ways control risks ranked from the highest level of protection and reliability to the lowest, including:

- Level 1 controls
  - Eliminate hazards
- Level 2 controls
  - Substitute the hazard with something safer
  - Isolate the hazard from people
  - Use engineering controls
- Level 3 controls
  - Use administrative controls
  - Use personal protective equipment (PPE)

Expert advisors include:

Persons either internal or external to the organisation including:

- safety professionals
- ergonomists
- employee assistance and workplace counselling services
- occupational hygienists
- audiologists
- safety engineers
- toxicologists
- occupational health professionals
- Health and Safety Representatives (HSRs)
- Health and Safety committees (HSCs)

Other persons providing specific technical knowledge or expertise in areas related to WHS including:

- risk managers
- health professionals
- injury management advisors
- legal practitioners with experience in WHS
- engineers (e.g. design, acoustic, mechanical, civil)
- security and emergency response personnel
- workplace trainers and assessors
- maintenance and trade persons
**WHS induction includes:**  The processes by which new workers are introduced to, and acquainted with their job and the new workplace, including familiarisation with:

- hazards and risks associated with the work,
- risk control measures,
- welfare facilities and
- emergency response procedures

**Stakeholders are:**  Those people or organisations who may be affected by, or perceive themselves to be affected by an activity or decision including:

- officers
- PCBU
- Health and Safety representatives (HSRs)
- Health and Safety committees (HSCs)
- workers and contractors
- the community

**WHS action plans include:**  Documented plans developed within the workplace to implement a systematic approach to WHS management and contain:

- actions that support an integrated strategy to address deficiencies, meet obligations or provide for improved outcomes
- allocated responsibilities
- timeframes

**Unit Sector(s)**

Unit Descriptor

Descriptor

This unit specifies the workplace performance required by an individual who is responsible for the review and improvement of a systematic approach to managing WHS, where there is some autonomy regarding development of policies, procedures and processes, and in the allocation of roles and resources.

Application of the Unit

Application

Application of this unit should be contextualised to reflect any specific workplace risks, hazards and associated safety practices.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.
### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

### Elements and Performance Criteria Pre-Content

| Elements define the essential outcomes of a unit of competency. | The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement. |
Elements and Performance Criteria

38) Collect and analyse information

1.1 Identify and access relevant WHS legislation, standards, codes of practice/compliance codes, guidance material and other sources of WHS information and evaluate their relevance to workplace performance

1.2 Analyse other WHS information from a wide range of internal and external sources in relation to organisation needs, including information relating to sustainability issues

1.3 Identify due diligence requirements of management personnel

1.4 Identify relationship of WHS to other functional areas and management processes, including management to achieve a range of sustainable outcomes

1.5 Identify implications for the workplace of any changes in WHS legislation, regulations, standards, codes of practice/compliance codes and guidance materials

1.6 Identify WHS implications of proposed changes to the workplace, work processes or work organisation

1.7 Identify valid and reliable indicators of WHS performance in consultation with stakeholders

39) Evaluate information to establish WHS framework

2.1 Evaluate organisation policies and procedures for compliance with legislative requirements and a systematic approach to managing WHS

2.2 Develop and/or implement processes to ensure that WHS responsibilities and duties are documented and accountability processes are in place

2.3 Review processes for specification, design, purchasing and commissioning of new buildings, plant, equipment and work processes within a safe design framework to ensure that WHS issues are addressed

2.4 Analyse information and compare against relevant benchmarks where available

2.5 Document outcomes of analysis and communicate them to key personnel and stakeholders

2.6 Identify resources for effective management of WHS and develop a budget

2.7 Recognise limits of own expertise and seek expert advice as required
40) Initiate improvements

3.1 Determine priorities in consultation with appropriate managers and according to consultative procedures

3.2 Identify potential barriers to improvement

3.3 Develop an WHS plan in consultation with stakeholders and key personnel

3.4 Identify resources required for implementation of plan

41) Maintain improvements

4.1 Establish processes to monitor achievement against the plan and update plans as required

4.2 Monitor effectiveness of the systematic approach to managing WHS on an ongoing basis

4.3 Consult stakeholders and key personnel according to legislative requirements and organisation procedures
Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Due diligence and general duty requirements of WHS legislation
- Examples of WHS management benchmarks
- Hazards of the particular work environment and how they cause harm
- Hazard identification procedures relevant to the hazards in their workplace:
  - awards and enterprise agreements that impact on the particular workplace
  - organisation procedures related to WHS including hazard, incident and injury reporting, hazard identification, risk assessment and control, consultation and participation, incident investigation, record keeping
  - the characteristics and composition of the workforce and how they may impact on the management of WHS
- Job and work role design and how this impacts on workplace safety and worker wellbeing (e.g. remote work, shift work, solo worker)
- Legal requirements for WHS record keeping and reporting
- Legislative requirements for consultation
- Principles of risk assessment
- Principles of safe design processes
- Regulatory requirements relevant to the particular industry/type of work site
- Relationship between WHS and managing sustainability issues in the workplace, including environmental, economic, workforce and social sustainability
- Requirements for hazard identification
- Roles and responsibilities of Health and Safety Representatives (HSRs) and Health and Safety committees (HSCs)
- Roles and responsibilities of workers, officers and Persons Conducting a Business or Undertaking (PCBUs)
- Sources of WHS information both internal and external to the workplace, including Safe Work Australia and relevant state/territory regulators
- The difference between hazard and risk
- The hierarchy of risk control and its application
- Use and limitations of a range of WHS performance measures
- WHS management processes including elements of WHS management systems
- Workplace specific information on WHS
This describes the essential skills and knowledge and their level required for this unit.

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Review and improve WHS processes for an organisation or part of an organisation

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Analyse and interpret WHS legislation, regulations, standards, codes of practice/compliance codes and guidance material for relevance to the organisation context
- Apply a quality improvement process
- Assimilate information from a range of sources to evaluate effectiveness of processes
- Communicate with supervisors, other managers, staff, WHS inspectors and expert advisers in a range of contexts, and using a range of media and formats
- Conduct effective meetings
- Establish and promote opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Identify and support individuals to access external and internal support services as employee assistance programs, workplace counselling and medical services as appropriate
- Relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities
- Use language and writing skills to develop easily understood policies and procedures
- Use technical skills to access WHS information

**Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects of assessment:**
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence gathered by an assessor to determine competence will include:
  - verbal and/or written responses to scenarios, case studies and role plays
  - written reports
  - reports from persons who have been involved in review and improvement processes
  - portfolio of workplace documents
- Evidence of performance over time must be obtained to inform a judgement of competence

**Products that could be used as evidence include:**
- Verbal and written responses to case studies, scenarios
- Responses to scenarios, simulations, role plays
- Completed reports, plans, policies and procedures developed
- Written directions, emails, memos and other information
- Reports from team leaders, senior managers, other managers, specialist advisors

**Processes that could be used as evidence include:**
- How WHS information was sourced and analysed
- How consultation to determine priorities were conducted
- How achievement against the WHS plan was monitored
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Access and equity considerations:**

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

**Related units:**

Assessment of this unit should address and build on the content of related unit:

- HLTWHS300A Contribute to WHS processes

**Range Statement**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**WHS legislation varies in different states and will include:**

- National Work Health and Safety Model
- Current relevant state/territory WHS legislation
- Relevant state/territory Manual Handling Code of Conduct
Standards include:

Documents produced by national bodies, WHS regulators or industry bodies that prescribe preventative action to avert occupational deaths, injuries and diseases.

Standards are of an advisory nature only, except where a law adopts the standard and thus makes it mandatory. They may be called up as evidence in court or other enforcement action.

Codes of practice/compliance codes are:

Documents generally prepared to provide advice to employers and workers, of an acceptable way of achieving standards.

Codes of practice/compliance codes may:

- be incorporated into regulations
- not relate to a standard
- be called up as evidence in court or other enforcement action.

Guidance material is:

Is an advisory technical document, providing detailed information for use by unions, officers, PCBU health and safety committee members and representatives, safety officers and others requiring guidance.

Advises on ‘what to do’ and ‘how to do it’

Has no legal standing

Hierarchy of risk control (from Safe Work Australia Work Health And Safety - Risks Code of Practice) includes:

The ranking of ways control risks ranked from the highest level of protection and reliability to the lowest, including:

- Level 1 controls
  - Eliminate hazards
- Level 2 controls
  - Substitute the hazard with something safer
  - Isolate the hazard from people
  - Use engineering controls
- Level 3 controls
  - Use administrative controls
  - Use personal protective equipment (PPE)
WHS information includes: Persons, organisations and references where knowledge about WHS may be obtained. These sources may be:

Internal, including:

- hazard, incident and investigation reports
- workplace inspections
- incident investigations
- minutes of meetings
- Job Safety Analyses (JSAs) and risk assessments
- organisation data such as insurance records, enforcement notices and actions, workers compensation data, WHS performance data
- reports and audits
- Safety Data Sheet (SDS) and registers
- employees handbooks
- employees including questionnaire results
- Health and Safety Representatives
- manufacturers’ manuals and specifications

External, including:

- Employee Assistance Program providers and workplace counselling services
- relevant state WHS Acts, regulations, codes and guidance material
- other relevant legislation
- Safe Work Australia
- State/territory regulatory bodies
- databases such as national and state injury data
- WHS specialists and consultants
- newspapers and journals, trade/industry publications
- internet sites
- industry networks and associations including unions and employer groups
- WHS professional bodies
- specialist advisors
- research information
Due diligence requirements include:

All precautions reasonable in the circumstances to protect the health and safety of workers and others who may be affected by actions or omissions of the individual or corporation.

Other functional areas and management processes refers to:

Functions other than WHS specific functions that impact on the management of WHS and may include:

- strategic planning
- purchasing, procurement and contracting
- logistics including supply chain and distribution
- HR, IR and personnel management, including payroll
- engineering and maintenance
- information, data and records management
- finance and auditing
- environmental management
- quality management.

Indicators of WHS performance include:

- Lead indicators that assess how successfully a workplace is developing or improving WHS by measuring the activities that drive or ‘lead’ the safety performance. They may be either:
  - a quantitative indicator that can be counted or measured and described numerically (for example, number of safety audits conducted) or
  - a qualitative indicator that describes or assesses a quality or behaviour (such as rating of management commitment to achieving ‘best practice’ in WHS).

- Lag indicators that assess how successfully a workplace is developing or improving WHS by measuring outcomes such as numbers or frequency of injuries or claims costs:
  - They measure loss and, as changes to these measures usually take considerable time (or ‘lag’) behind the implementation of any improvement strategy, they are termed lag indicators.
Stakeholders are Those people or organisations who may be affected by, or perceive themselves to be affected by, an activity or decision including:
- officers
- PCBUs
- Health and Safety Representatives (HSRs)
- Health and Safety committees (HSCs)
- workers and contractors
- the community

Organisation policies and procedures include:
Policies and procedures underpinning the management of WHS including:
- hazard, incident and injury reporting
- hazard identification, risk assessment and control
- human resources policies and procedures such as harassment and grievance procedures, induction programs, team meetings, alcohol and drug policies
- consultation and participation
- incident investigation
- quality system documentation.

Legislative requirements include:
- National Work Health and Safety Model
- Current relevant State/territory WHS legislation
- Other relevant legislation covering:
  - dangerous goods
  - workers compensation
  - environment protection
  - privacy legislation
  - contract law
  - criminal law
  - common law
  - industrial relations law
  - equal employment opportunity and anti-discrimination law.
**Systematic approach to managing WHS includes:**

- all the comprehensive processes that are combined in a methodical and ordered manner to minimise the risk of injury or ill health in the workplace
- processes of planning, allocation of resources, communication, consultation, hazard management, record keeping, reporting, training and assessment, and review and evaluation for ongoing improvement.

**Accountability includes:**

The processes of verification of proper conduct or by which a person with (WHS) responsibilities demonstrates fulfilment of those responsibilities to those to whom they are answerable.

**Safe design is:**

A process that applies information and data about human capabilities and behaviour to the design of objects, facilities, procedures and environments that people use.

Safe design generally provides for the minimisation of risk through engineering, rather than reliance on human behaviour.

**Benchmarks may include:**

- legislation
- regulations
- codes of practice/compliance codes
- national standards
- Australian standards
- industry standards
- standards established by other organisations
- standards developed internally by the organisation.

**Resources include:**

- personnel
- finance
- hardware and equipment.
**Expert advice may be sought from:**

Persons either internal or external to the organisation including:

- safety professionals
- ergonomists
- employee assistance and workplace counselling services
- occupational hygienists
- audiologists
- safety engineers
- toxicologists
- occupational health professionals
- Health and Safety Representatives (HSRs)
- Health and Safety committees (HSCs)

Other persons providing specific technical knowledge or expertise in areas related to WHS including:

- risk managers
- health professionals
- injury management advisors
- legal practitioners with experience in WHS
- engineers (e.g. design, acoustic, mechanical, civil)
- security and emergency response personnel
- workplace trainers and assessors
- maintenance and trade persons

**Barriers may include:**

- language
- literacy and numeracy
- special needs of workers
- shift work and rostering arrangements
- contractual arrangements
- timing of information provision
- workplace organisation structures (e.g. geographic, hierarchical)
- workplace culture related to WHS.
The strategy for implementing the WHS policy and includes:

- strategic documents developed to improve WHS within an organisation that identifies objectives together with strategies and accountabilities for achieving the objectives and:
- WHS performance indicators (i.e. objectives and targets that are achievable and practical) reflecting systematic approaches to managing WHS
- is usually developed annually but may be developed for a shorter or longer period
- is reviewed regularly
- provides the basis for WHS Action Plans which are developed to implement the strategic WHS plan

Key personnel include:

- managers from other areas
- people involved in WHS decision making
- people who are impacted by decisions

- OHS in relation to operating machinery such as safely switching off machinery before cleaning is started
- collecting, analysing and organising information by navigating websites to locate required information
- planning and organising activities by navigating websites to locate required information
- problem-solving skills by extracting files and virus scanning
- use of technology by accessing and using the Internet

**Required knowledge**

- how to initiate and conclude an Internet connection
- when a connection attempt fails, what could be the cause and what to do
- appropriate uses of different Internet protocols and data types (WWW, email, etc)
- WWW search engines
- what a URL is
- using email to respond to a newsgroup post
- what shareware is
- maintaining (upper/lower) case : URLs, file names, passwords
- "zip" are files and why are they used
- difference between Java and JavaScript
- ways to you use the Internet to obtain product information and technical support
- time it takes to download one megabyte of data using a fast modem
- privacy and security measures related to on line tasks
- information you would refuse to provide when filling out a form on a web page
- what cookies are
- types of files that can carry viruses
- scanning for viruses before and after extracting the files from a compressed archive
- copyright ownership on the types of data you retrieve
- manuals, safety and other documentation that are relevant to this task and where are they kept and information that is included in these documents

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Software applications** may include:
- a wide range of programs, some current examples of which may be Eudora, Netscape.

**Relevant terminology** used may include:
- ISDN, PPP, TCP/IP, URL, Java, JavaScript, HTML, Download, WWW, cookies, zip files and others.

LGACOM502B Devise and conduct community consultations

Modification History
LGACOM502B Release 1: Primary release.

Unit Descriptor
This unit covers devising and conducting community consultations and reporting on results. The vital and unique responsibility councils have to engage and consult with communities in order to respond to the needs of the community in a timely and effective manner is recognised.

Application of the Unit
This unit supports the attainment of skills and knowledge required for competent workplace performance in councils of all sizes. Knowledge of the legislation and regulations within which councils must operate is essential. The unique nature of councils, as a tier of government directed by elected members and reflecting the needs of local communities, must be appropriately reflected.

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency. Performance criteria describe the required performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Devise consultation strategies | 1.1. A range of consultation strategies is identified and assessed for suitability.  
1.2. *Interested and affected parties* are identified.  
1.3. *Resources* required to conduct consultation are assessed.  
1.4. *Consultation strategies* are chosen that *enable and encourage relevant groups* or individuals to be involved.  
1.5. *Legislative* and council requirements are reviewed to ensure strategies meet all criteria. |
| 2. Conduct consultations | 2.1. *Information* is prepared that is clear, accurate and appropriate to the needs of all parties.  
2.2. All people involved in conducting the consultations are briefed on the process of consultation and the parties involved.  
2.3. *Information is presented* to affected parties at an appropriate time and place.  
2.4. *Access and equity* requirements are implemented in the consultations.  
2.5. Measures to expedite community consultation are taken to ensure consultation occurs within an identified time frame.  
2.6. Consultation is undertaken in an orderly manner to ensure all viewpoints are canvassed. |
| 3. Record, analyse and report on results | 3.1. Public consultation responses and processes are formatted to enable informed decision making to proceed.  
3.2. Appropriate suggestions for improvement are incorporated into design parameters.  
3.3. Summaries of responses and adopted amendments are provided to interested parties to ensure public consultation is recognised.  
3.4. Other issues raised during consultation are directed to relevant department or person to respond to community concern.  
3.5. An accurate report on community consultation that includes recommendations is prepared to enable informed decision making to occur.  
3.6. The overall effectiveness of the consultation process is reviewed and evaluated and action is taken where necessary. |
Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit

**Required Skills**

- consultation, presentation, negotiation and report writing
- research
- planning and organising
- information gathering and analysis

**Required Knowledge**

- relevant council policies and procedures
- relevant legislation, including planning and anti-discrimination
- relevant sections of local government act
- access and equity issues
- strategies for consultation
- codes of conduct and ethics
Evidence Guide

Overview of assessment requirements
A person who demonstrates competency in this unit will be able to perform the outcomes described in the Elements to the required performance level detailed in the Performance Criteria. The knowledge and skill requirements described in the Range Statement must also be demonstrated. For example, knowledge of the legislative framework and safe work practices that underpin the performance of the unit are also required to be demonstrated.

Critical aspects of evidence to be considered
The demonstrated ability to devise and conduct community consultations where:

- consultation ensures council’s image or reputation is maintained or enhanced
- community consultation produces valid and useful information

Context of assessment
Assessment of performance requirements in this unit should be undertaken within the context of the local government framework. Competency is demonstrated by performance of all stated criteria, including the Range of Variables applicable to the workplace environment.

Method of assessment
The following assessment methods are suggested:

- observation of the learner performing a range of workplace tasks over sufficient time to demonstrate handling of a range of contingencies
- written and/or oral questioning to assess knowledge and understanding
- completion of workplace documentation
- third-party reports from experienced practitioners
- completion of self-paced learning materials including personal reflection and feedback from trainer, coach or supervisor

Evidence required for demonstration of consistent performance
Evidence should be gathered over a period of time in a range of actual or simulated management environments.

Resource implications
Access to a range of real or simulated consultation processes including:

- public and community meetings and forums
- surveys and door knocks
- appropriate communications equipment and aids such as overhead projectors and computer-based presentations
Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the Performance Criteria is detailed below.

**Interested and affected parties** may include: • community groups  
• other authorities  
• individuals  
• emergency authorities (police, fire and ambulance)  
• private sector business interests  
• special interest groups  
• experts

**Resources** may include: • human  
• financial  
• locations

**Consultation strategies** may include: • public meetings  
• phone-ins  
• questionnaires  
• informal gatherings  
• door knocks  
• council meetings

**Enabling and encouraging relevant groups** to be involved may include: • physical accessibility  
• diverse language needs  
• culture, including Indigenous, youth and non-English speaking background  
• physical environment  
• number of people

**Legislation** may include: • local government  
• anti-discrimination  
• planning

**Information** may include: • written and oral records  
• anecdotes  
• reports  
• instructions  
• directions from supervisor or management  
• interviews  
• formal and informal team meetings

**Access and equity** may include: • subject matter  
• manner in which consultations are conducted  
• physical accessibility
• community profile

Presentation of information may include:
• graphics
• models
• computer animations
• video displays
• overhead transparencies
• handouts
• display plans
• interpreter service

| 1. Identify purchasing requirements | 1.1. Purchasing requirements are identified from material specifications, orders and instructions in accordance with workplace procedures  
1.2. Purchasing requirements are prioritised, where required, in consultation with others  
1.3. Quantities, quality of goods, price limitations and delivery requirements are determined or confirmed in consultation with appropriate personnel |
| 2. Source materials and consumables | 2.1. Source/s of materials and/or consumables are identified from workplace preferred supplier lists or through networks and knowledge of local and/or overseas suppliers  
2.2. Difficulties in supply are reported in accordance with workplace procedures  
2.3. Availability of supply is confirmed |
| 3. Check costings | 3.1. Alternative suppliers are contacted to check costings  
3.2. Actual costs are compared to predicted costs  
3.3. Any recommendations regarding alternative suppliers are communicated to appropriate personnel following workplace procedures  
3.4. Delegation to order goods/materials/equipment is exercised |
| 4. Purchase materials and consumables | 4.1. Capacity of supplier to meet price, quality and delivery expectations is checked  
4.2. Purchase order/list is developed in accordance with workplace procedures  
4.3. Order is placed with supplier and delivery schedules are confirmed  
4.4. Appropriate orders and invoices are exchanged according to workplace procedures |
| 5. Maintain and monitor material and consumable supplies | 5.1. Stock is regularly monitored using inventory records and physical checks, where applicable, to ensure maintenance of supply  
5.2. Up-to-date records of materials and consumables are maintained  
5.3. Acquisition requirements are documented in accordance with workplace procedures |
| 6. Liaise with other departments | 6.1. Communication channels with other departments are established in accordance with workplace procedures |
ELEMENT | PERFORMANCE CRITERIA
--- | ---
 | 6.2. Liaison with other departments is conducted to ensure customer requirements are achieved

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This section describes the skills and knowledge required for this unit.

**Required skills**

- collect, organise and understand information related to the purchasing systems and activities, including the relevant technical, regulatory, environmental and safety requirements
- communicate ideas and information to enable clarification of the requirements, coordination of purchasing with site supervisor, other workers and customers, and the reporting of outcomes and problems
- plan and organise activities to avoid any backtracking, workflow interruptions or wastage
- work with others and in a team by recognising dependencies and using cooperative approaches to optimise workflow and productivity
- use mathematical ideas and techniques to correctly calculate and estimate material requirements
- create and apply systematic problem solving techniques to anticipate purchasing problems, avoid re-working and avoid wastage
- use the workplace technology related to the purchasing, including calculators and measuring devices and computing/computer-aided systems

**Required knowledge**

- contemporary supply/purchasing systems theory
- company operating procedures, including procedures for purchasing materials and consumables
- material and consumable usage rates
- operation requirements of equipment and work systems in own work area
## Evidence Guide

Unit Descriptor

This unit of competency describes the outcomes required to demonstrate ethical conduct required of those in public service. It includes applying ethical standards and dealing with ethical problems.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Application of the Unit

This unit supports the attainment of skills and knowledge required for applying ethical conduct and accountability required in those working in government employment.

In practice, ethical conduct is demonstrated in the context of other generalist or specialist work activities such as building and maintaining networks, delivering client services, using financial resources, procuring goods or services, etc.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.
Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the required performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| **1. Apply ethical standards** | 1.1 Interpretation of *ethical values and principles* is reviewed with senior staff to ensure accuracy.  
1.2 Personal *work practices* are undertaken in compliance with public sector ethics standards, organisational policy and *guidelines*.  
1.3 Verbal and written advice and reports are prepared containing information which is impartial, substantiated, accurate and complete.  
1.4 Public *resources* are *used* in accordance with public sector ethics standards, organisational policy and guidelines.  
1.5 *Conflicts of interest* are identified, declared, addressed and documented in accordance with policy and procedures.  
1.6 Personal behaviour and relationships with the public, suppliers and business contacts are conducted in accordance with ethics standards, policy and guidelines. |
| **2. Deal with ethical problems** | 2.1 Situations which pose ethical problems are resolved or *referred* in accordance with organisational guidelines.  
2.2 Decision-making *processes* used to resolve ethical problems are recorded in accordance with organisational policy and procedures.  
2.3 Organisational policies/codes on the prevention and reporting of *unethical conduct* are accessed and applied. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Required skills:

Look for evidence that confirms skills in:

- applying objective and impartial evaluation of conflicting requirements
- using ethical decision making
- preparing written advice and reports requiring accuracy of expression
- accessing legislation and codes of ethics electronically or in hard copy
- tailoring communication to suit different audiences
- responding to diversity, including gender and disability
- applying occupational health and safety procedures relating to ethical work practices

Required knowledge:

Look for evidence that confirms knowledge and understanding of:

- the nature of ethics and ethical values
- fundamental ethical principles such as justice, respect for persons, procedural fairness, confidentiality, responsible care
- values of public sector office
- natural justice/procedural fairness
- equal employment opportunity, equity and diversity principles
- where to access ethical decision making/problem solving models, organisational codes and procedures
- procedures for declaring conflicts of interest
- protocols for reporting fraud, corruption and maladministration
- occupational health and safety procedures relating to ethical work practices
Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for the Training Package.

Units to be assessed together

- Pre-requisite units that must be achieved prior to this unit: Nil
- Co-requisite units that must be assessed with this unit: Nil
- Co-assessed units that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPGOV303B Build and maintain internal networks
  - PSPGOV305B Access and use resources and financial systems
  - PSPGOV307B Organise workplace information
  - PSPGOV308B Work effectively with diversity
  - PSPGOV309A Address client needs
  - PSPGOV312A Use workplace communication strategies
  - PSPGOV314A Contribute to conflict management
  - PSPIM301A Process claims
  - PSPLAND302A Investigate tenure and land use history
  - PSPLEGN301B Comply with legislation in the public sector
  - PSPOHS301A Contribute to workplace safety
  - PSPPROC302A Undertake basic procurement
- This unit should be co-assessed with other units to supply the context for ethical behaviour

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- ethical conduct in a range of (3 or more) contexts (or occasions, over time) where contexts may be generalist or specialist work activities such as building and maintaining networks, delivering client services, using financial resources, procuring goods or services etc

Resources required to carry out assessment

These resources include:

- ethics-related legislation and guidelines
- codes of conduct and codes of ethics
- public sector standards, procedures and protocols
- ethical decision making/problem solving models
- manager/mentor/network who role models ethical conduct
Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when working ethically in a public sector environment, including coping with ambiguity, difficulties, irregularities and breakdowns in routine
- ethical conduct in a range of (3 or more) contexts (or occasions, over time) where contexts may be generalist or specialist work activities such as building and maintaining networks, delivering client services, using financial resources, procuring goods or services etc.

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
**Range Statement**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording, if used in the Performance Criteria, is detailed below. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs if the candidate, accessibility of the item, and local industry and regional contexts.

| Ethical values and principles may include: | • respect for the law  
• integrity  
• objectivity  
• accountability  
• honesty  
• openness  
• responsibility  
• impartiality  
• diligence  
• trustworthiness  
• confidentiality  
• respect for persons  
• responsible care  
• probity  
• economy and efficiency  
• natural justice/procedural fairness, that is:  
  • the right to be heard/put your case  
  • the right to be informed of a complaint or case against you  
  • the right to know the outcomes/recommendations of an investigation involving you  
  • the right to know reasons for decisions affecting you  
  • the right to privacy  
  • the right to representation  
  • the right to silence  
  • the decision maker should not be a judge in his/her own cause |
| Work practices may include: | • behaviours  
• conduct  
• relationships with work colleagues, external individuals and organisations  
• the manner in which work activities are carried out |
| Legislation and guidelines may include: | • legislation for public sector management  
• freedom of information  
• privacy legislation  
• equal employment opportunity and anti-discrimination law  
• public sector standards |
- Ministerial directions
- State/Territory or Commonwealth codes of ethics
- organisational codes of conduct
- sets of values
- organisational mission and values statements
- organisational policy, procedures/guidelines
- government policy
- professional codes of ethics and conduct
- equity guidelines, workplace diversity guidelines

**Public resources** may include:

- time
- stationery
- equipment
- telephones
- Internet
- Email

**Use** of public resources includes:

- effective use
- efficient use - avoiding/minimising waste
- not for private use

**Conflicts of interest** may include:

- potential, perceived and actual conflicts
- bribery
- improper use of official information
- improper use of resources, including plant and equipment
- acceptance of gifts
- entertainment
- previous and outside employment, including voluntary work
- favours for friends and/or relatives
- memberships of organisations
- political activity
- pecuniary and non-pecuniary conflicts

Ethical problems which may need to be **referred** rather than resolved at this level may include:

- conflict between public sector standards and personal values
- conflict between public sector standards and other standards such as professional standards
- conflict between public sector standards and directions of a senior officer or Minister
- tension between two 'rights', for example, the right to privacy versus the right to freedom of information
- conflict regarding issues of personal and organisational intellectual property

**Referrals** of ethical problems may be made to:

- line management
- chief executive officer
- public service commissioner
- public sector standards body
- organisational ethics committee
- internal grievance mechanisms, including identified officers
- confidant programs (whistleblower protection programs)
- organisational professional reporting procedures
- unions and professional bodies
- ombudsman
- police

**Processes** for resolving ethical problems may include:

- accessing relevant standards and other information
- withdrawing from a situation
- using models of ethical decision making/problem solving
- reflection, discussion, seeking clarification from others.

**Unethical conduct** may include:

- fraud, corruption, maladministration and waste
- unauthorised access to and/or use of information, money/finances, vehicles, equipment, resources, time
- improper actions during contractual processes, such as release of intellectual property, infringing copyright, release of tender information, inappropriate disclosure during tender process
- improper public comment on matters relating to the government and/or the organisation
- falsifying records
- giving false testimonials
- dishonesty
- improper use of plant and equipment, credit cards, frequent flyer points, telephones, email and Internet
- extravagant or wasteful practices
- personal favours
- preferential treatment
- putting barriers in place, hindering, blocking action
- compromising behaviour including sexual harassment
- lack of confidentiality
- directing others to act unethically
- oppressive/coercive management decisions
- resorting to illegality to obtain evidence

Unit Descriptor

This unit covers the ethical conduct required of those in public service and the responsibility to encourage ethical conduct in others - colleagues or supervised staff. It includes contributing to an ethical public sector workplace and participating in ethical decision making. In practice, ethical conduct is demonstrated in the context of other generalist or specialist work activities such as applying government processes, delivering and monitoring services to clients, using resources, conducting interviews, giving evidence, awarding contracts etc. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Application of the Unit

This unit supports the attainment of skills and knowledge required for applying ethical conduct and accountability required in those working in government employment.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.
Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in *bold italics* is explained in the Range Statement following.
# Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Contribute to an ethical public sector workplace | 1.1 Information on the *ethical values and principles* of the workplace is accessed, its interpretation confirmed with others and applied accordingly  
1.2 Application of ethical values and principles is discussed with senior management and colleagues to ensure common understanding and application  
1.3 *Others* are assisted to access and use public sector ethics *legislation and guidelines* to ensure their work practices comply with requirements  
1.4 The differences between public sector ethics/values and personal beliefs/values are explained to others to encourage understanding and compliance  
1.5 Hypothetical work practices that would constitute *unethical conduct* are identified and discussed with work colleagues, and strategies to avoid or deal with them are identified in accordance with organisational policy and procedures |
| 2. Participate in ethical decision making | 2.1 Real and potential *ethical problems* are identified, and decision making processes are used to resolve or *refer* them in accordance with organisational policy and procedures  
2.2 Information is regularly accessed to ensure currency in ethical knowledge, and ethical judgment is developed through involvement in workplace discussions or ongoing professional development related to ethical standards and practices  
2.3 Other staff are supported as necessary to contribute to ethical discussions and problem solving to develop their ethical judgment  
2.4 Processes for preventing and reporting unethical conduct are used and others are assisted in their application |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

**Required skills:**

- accessing legislation and codes of ethics electronically or in hard copy
- reading complex and formal documents such as legislation and codes of ethics, applying them and assisting others to apply them to work practices
- applying objective and impartial evaluation of ethical problems
- using participative ethical decision making/problem solving
- preparing written reports that contain information that is impartial, substantiated, accurate and complete
- responding to diversity, including gender and disability
- adjusting communication to suit different audiences
- applying occupational health and safety procedures relating to ethical work practices

**Required knowledge:**

Look for evidence that confirms knowledge and understanding of:

- the nature of public sector ethics and ethical values as opposed to personal beliefs/value systems
- fundamental ethical principles such as justice, respect for persons and responsible care
- other ethics standards such as professional standards
- natural justice/procedural fairness
- equal employment opportunity, equity and diversity principles
- ethical decision making/problem solving models
- procedures and protocols for reporting unethical conduct
- environmental and occupational health and safety procedures relating to ethical work practice
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to, a range of (2 or more) generalist or specialist units of competency in the Certificate IV in Government. Choice from the following units is recommended:
  - PSPGOV402B Deliver and monitor service to clients
  - PSPGOV403B Use resources to achieve work unit goals
  - PSPGOV406B Gather and analyse information
  - PSPGOV408A Value diversity
  - PSPGOV411A Deal with conflict
  - PSPGOV412A Use advanced workplace communication strategies
  - PSPGOV414A Provide workplace mentoring
  - PSPGOV422A Apply government processes
  - PSPLEGN401A Encourage compliance with legislation in the public sector
  - PSPPROC409A Receive and select offers
  - PSPREG407B Produce formal record of interview
  - PSPREG410B Give evidence

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- ethical conduct demonstrated and supported in others in a range of (3 or more) contexts (or occasions, over time) where contexts include generalist or specialist work activities such as applying government processes, delivering and monitoring services to clients, using resources, conducting interviews, giving evidence, awarding contracts, etc

Resources required to carry out assessment

These resources include:

- ethics-related legislation and guidelines
- codes of conduct and codes of ethics
- public sector standards, procedures and protocols
Where and how to assess evidence

Valid assessment of this unit requires:

- ethical decision making models

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when working ethically in a public sector environment, including coping with ambiguity, difficulties, irregularities and breakdowns in routine

- ethical conduct demonstrated and supported in others in a range of (3 or more) contexts (or occasions, over time) where contexts include generalist or specialist work activities such as applying government processes, delivering and monitoring services to clients, using resources, conducting interviews, giving evidence, awarding contracts, etc

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

For consistency of assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
# Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in *bold italics* in the Performance Criteria is explained here.

Unit Descriptor

This unit covers the requirements for entry into/working as a trainee in the public sector. It includes compliance with the principles of public sector legislation and guidelines, the use of public sector and organisational procedures when dealing with others at work, respect for individual differences and career planning.

In practice, working in a public sector environment may overlap with other generalist or specialist public sector work activities such as communicating with others, delivering client service, using resources, handling information.

The unit serves as the introductory unit of competency in the Working in Government competency themes of Effective Work and Diversity, and in the Competency Fields of Ethics&Accountability, and Legislation&Compliance, so provides the introductory unit for:

- PSPGOV301B Work effectively in the organisation
- PSPGOV308B Work effectively with diversity
- PSPGOV310A Work in and with small, regional and remote organisations
- PSPETHC301B Uphold the values and principles of public service
- PSPLEGN301B Comply with legislation in the public sector
- 
- No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

Application of the Unit

</tbody>
</table>
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- accessing and identifying information
- scanning techniques to locate main ideas
- reading written materials such as manuals and codes of practice
- responding to diversity, including gender and disability
- using interpersonal communication including negotiating strategies to clarify understanding
- recognising own and others' emotions in the workplace
- using information technology and the Internet
- applying public sector legislation such as occupational health and safety and environmental procedures in the workplace

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- public sector legislation, regulations and guidelines
- organisation guidelines and procedures
- principles of cultural awareness, workplace diversity and emotional intelligence and their application in the workplace
- codes of conduct
- equal employment opportunity, equity and diversity principles
- principles of personal career planning
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPGOV202B Use routine workplace communication techniques
  - PSPGOV203B Deliver a service to clients
  - PSPGOV204B Access and use resources
  - PSPGOV205B Participate in workplace change
  - PSPGOV206B Handle workplace information
  - PSPGOV208A Write routine workplace materials
  - PSPOHS201B Follow workplace safety procedures

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- completing work in a range of (3 or more) public sector contexts, such as different work functions or roles (or 3 or more occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to work in the public sector
- case studies and workplace scenarios to capture the range of situations likely to be encountered when working in a public sector environment

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment, or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when working in a public sector environment, including coping with difficulties, irregularities and breakdowns in routine
- completing work in a range of (3 or more) public sector contexts, such as different work functions or roles (or 3 or more occasions, over time).
Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations.

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses.

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

### Legislation may include:
- anti-discrimination
- duty of care
- employee relations
- employment
- equal employment opportunity
- fraud control
- freedom of information
- government security management
- occupational health and safety
- privacy
- public sector management
- whistleblowers protection
- workplace diversity
- workplace harassment
- international legislation/codes of practice

### Guidelines may include:
- public sector standards
- relevant public sector code of ethics
- organisational code of conduct
- organisational mission and values statements
- organisational procedures/guidelines
- government policy
- Ministerial directions
- directives from head of organisation
- standard operational procedures

### Key principles may include:
- honesty and integrity
- confidentiality and non-disclosure of official information
- security of information, resources, facilities and people
- due care and diligence
- avoiding conflicts of interest
- obeying lawful and reasonable direction
- compliance with the law

### Clients may include:
- the public
- private enterprise
- other public sector organisations

Unit Descriptor

This unit covers understanding the reasons for change and initiating specific changes related to the work unit. It includes suggesting options and opportunities for change, encouraging commitment to workplace change, monitoring and evaluating change and dealing with ambiguity in the change process.

In practice, providing input to change may overlap with other generalist or specialist public sector work activities such as acting ethically, complying with legislation, applying government processes, gathering and analysing information, using resources, etc.

This is one of 6 units of competency in the Working in Government and Management Competency Fields that deal with change. Related units are:

- PSPGOV205B Participate in workplace change
- PSPGOV306B Implement change
- PSPGOV514A Facilitate change
- PSPMNGT604B Manage change
- PSPMNGT703A Lead and influence change

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

Application of the Unit

Not applicable.
Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.

ELEMENT PERFORMANCE CRITERIA
communicated to management as required.

Required Skills and Knowledge
This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements
Look for evidence that confirms skills in:
- communicating with a diverse range of individuals at different levels in the organisation
- applying problem solving strategies in the context of managing ambiguity and change
- working in teams
- applying monitoring and observation methods
- giving and receiving feedback, including 'managing upwards'
- responding to diversity, including gender and disability

Knowledge requirements
Look for evidence that confirms knowledge and understanding of:
- legislation, policy and procedures relating to public sector workplaces
- a range of change management models and their application to the work environment
- organisational structure and culture
- the nature of change and its effects in the workplace, including occupational health and safety issues such as workplace stress
- group dynamics
- emotional intelligence
- equal employment opportunity, equity and diversity principles
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- Pre-requisite units that must be achieved prior to this unit: Nil
- Co-requisite units that must be assessed with this unit: Nil
- Co-assessed units that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPGOV406B Gather and analyse information
  - PSPGOV408A Value diversity
  - PSPGOV411A Deal with conflict
  - PSPGOV412A Use advanced workplace communication strategies
  - PSPGOV414A Provide workplace mentoring
  - PSPGOV416A Monitor performance and provide feedback
  - PSPGOV418A Develop internal and external networks
  - PSPGOV422A Apply government processes
  - PSPLEG401A Encourage compliance with legislation in the public sector

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- provision of input to change in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to the public sector environment
- a range of change management models and their application
- case studies and workplace scenarios to capture the range of situations likely to be encountered when providing input to change processes

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment, or one that closely resembles normal work practice and replicates the range of conditions likely to be
encountered when providing input to change processes, including coping with difficulties, irregularities and breakdowns in routine
- provision of input to change in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations.

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:
- case studies
- portfolios
- projects
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

For consistency of assessment
Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

Unit Descriptor

This unit covers the requirements for handling difficult interpersonal situations and addressing the conflicts that may arise in day-to-day work activities. It includes identifying the cause of conflict, establishing and implementing strategies for dealing with conflict and evaluating the response and outcomes. It does not include formal negotiation, counselling or mediation.

In practice, dealing with conflict may overlap with other generalist or specialist public sector work activities such as acting ethically, complying with legislation, applying government processes, gathering and analysing information, using advanced communication strategies, etc.

This is one of 4 units of competency in the Working in Government and Human Resource Management Competency Fields that deal with conflict. Related units are:

- PSPGOV314A Contribute to conflict management
- PSPGOV508A Manage conflict
- PSPHR603B Provide advisory and mediation services

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

Application of the Unit

Not applicable.

Licensing/Regulatory Information

Not applicable.
Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in *bold italics* is explained in the Range Statement following.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Identify the cause of conflict** | 1.1 The *conflict situation*, including the *cause*, is analysed and the position of each party established.  
1.2 Steps are taken to prevent the escalation of the conflict, in accordance with organisational procedures.  
1.3 All points of view are encouraged, accepted and treated with respect.  
1.4 Factors and issues relevant to the situation are identified, clarified and confirmed using appropriate *communication techniques*.  
1.5 Proceedings to settle the dispute/conflict in accordance with *legislation, organisational policy and procedures* are initiated with minimal delay. |
| 2. **Establish and implement strategies for dealing with conflict** | 2.1 All parties involved in the conflict are encouraged to take shared responsibility for finding a solution to the situation.  
2.2 The strategy is selected for resolution, taking account of *social and cultural differences* and consistency with organisational policies and procedures.  
2.3 Assertive feedback is provided to the parties and constructive feedback is accepted from the parties non-defensively.  
2.4 Outcomes are agreed that meet individual, organisational and legislative requirements.  
2.5 *Assistance* is obtained where necessary in accordance with organisational policy and procedures. |
| 3. **Evaluate response and outcome** | 3.1 Records and reports are maintained in accordance with legislation, policy and procedures.  
3.2 Accurate and constructive observations of incidents are provided in reviewing and debriefing the situation.  
3.3 Effectiveness of response is evaluated and reviewed in accordance with organisational policy and procedures. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- using a range of communication strategies/skills with a diverse workforce and client base including assertiveness, listening, non-verbal communication, language style, problem solving
- using problem solving to deal with unexpected issues or attitudes
- dealing with difficult situations and people
- responding to diversity, including gender and disability
- applying procedures relating to occupational health and safety and environment in the context of conflict resolution

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, regulations, organisational policies, procedures and guidelines relating to conflict in the public sector workplace
- types of conflict in the workplace and typical causes
- conflict theory including signs, stages, levels, factors involved, results
- group processes and roles people play
- organisational structures and workplace culture
- different social and cultural practices
- conflict resolution skills and strategies
- personal power and positional power
- grievance procedures in the public sector
- equal employment opportunity, equity and diversity principles
- public sector legislation such as occupational health and safety and environment in the context of conflict resolution
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPGOV405B Provide input to change processes
  - PSPGOV406B Gather and analyse information
  - PSPGOV408A Value diversity
  - PSPGOV412A Use advanced workplace communication strategies
  - PSPGOV417A Identify and treat risks
  - PSPLEGN401A Encourage compliance with legislation in the public sector
  - PSPOHS401B Implement workplace safety procedures and programs

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- conflict dealt with in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to conflict management in the public sector
- grievance procedures in the public sector
- strategies and guidelines for dealing with workplace conflict
- case studies and workplace scenarios to capture the range of situations likely to be encountered when dealing with conflict

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when dealing with conflict in the workplace, including coping with difficulties, irregularities and
breakdowns in routine
• conflict dealt with in a range of (3 or more) contexts (or occasions, over time).

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
• people with disabilities
• people from culturally and linguistically diverse backgrounds
• Aboriginal and Torres Strait Islander people
• women
• young people
• older people
• people in rural and remote locations.

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:
• case studies
• portfolios
• questioning
• scenarios
• simulation or role plays
• authenticated evidence from the workplace and/or training courses

For consistency of assessment
Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
**Range Statement**

The Range Statement provides information about the context in which the unit of competency is carried out. Unit Descriptor

This unit covers the establishment and development of a professional mentoring relationship. It includes establishing the need for mentoring, developing a mentoring plan/framework, facilitating the mentoring relationship, monitoring the mentoring relationship, terminating the mentoring arrangement, and evaluating the effectiveness of mentoring.

In practice, the provision of workplace mentoring may overlap with other generalist or specialist public sector work activities such as acting ethically, complying with legislation, applying government processes, gathering and analysing information, etc.

This unit is one of 4 units of competency in the Working in Government Competency Field that deal with coaching/mentoring. Related units are:

- PSPGOV311A Work with a coach or mentor
- PSPGOV415A Provide workplace coaching
- PSPGOV506A Support workplace coaching and mentoring

- No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

Application of the Unit

Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in **bold italics** is explained in the Range Statement following.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| **1. Establish the need for mentoring** | 1.1 The purpose of the *mentoring* relationship is identified.  
1.2 The expectations and goals of the mentoring relationship are clarified with the other party.  
1.3 Skill sets that may be shared within the objectives/goals of the mentoring relationship are identified and confirmed.  
1.4 A *mentoring agreement/contract* is negotiated and agreed in accordance with the identified need, personal expectations and cultural or other considerations. |
| **2. Develop a mentoring plan/framework** | 2.1 The scope and boundaries of the mentoring relationship are identified in accordance with organisational procedures.  
2.2 *Ground rules* are established and realistic expectations are negotiated.  
2.3 Confidentiality of the relationship is established and maintained in accordance with *legislation, policy and procedures*.  
2.4 The perceptions of others outside the mentoring relationship are managed in accordance with organisational procedures. |
| **3. Facilitate mentoring relationship** | 3.1 Confidence, self esteem, respect and trust are developed in the mentoring relationship.  
3.2 Personal experiences and knowledge are shared with the person being mentored in accordance with agreed objectives.  
3.3 The person being mentored is supported to develop/use skills in problem solving and decision making.  
3.4 Personal and professional networks are used to assist/support the person being mentored.  
3.5 The person being mentored is assisted to identify and access opportunities for development.  
3.6 *Techniques* are used for resolving differences/problems without damaging the relationship, or assistance is obtained in accordance with organisational policy and procedures. |
| **4. Monitor mentoring relationship** | 4.1 Planning assistance and guidance are provided as requested by the person being mentored in a form and style to suit their requirements.  
4.2 Feedback is provided to the person being mentored on progress towards achieving the expectations and goals of the mentoring process.  
4.3 Changes in the mentoring relationship are recognised and discussed.  
4.4 Closure of the mentoring arrangement is negotiated and managed once objectives have been met or either party wishes to withdraw. |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 5. Evaluate effectiveness of mentoring | 5.1 The *benefits* gained from the mentoring process are established and discussed.  
5.2 The *personal benefits* gained from providing mentoring are reflected on and articulated.  
5.3 The benefits and outcomes of the mentoring arrangement for the *organisation* are identified and reported in accordance with organisational policy and procedures to improve the mentoring system/program. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- applying legislation, regulations and policies relating to the provision of workplace mentoring in the public sector
- developing empathy
- networking
- planning and time management
- thinking laterally
- motivating others
- setting goals
- reflecting
- problem solving
- engaging in relationship building including trust, confidentiality and rapport building
- using a range of communication strategies including listening, questioning, giving and receiving feedback
- responding to diversity, including gender and disability
- applying procedures relating to occupational health and safety and environmental legislation in the context of workplace mentoring

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, regulations, policies, procedures and guidelines relating to the provision of workplace mentoring in the public sector
- cultural diversity related to mentoring
- codes of conduct
- codes of ethics
- learning styles
- mentoring methodologies and strategies
- acceptable behaviour in the mentoring relationship
- equal employment opportunity, equity and diversity principles
- public sector legislation such as occupational health and safety and environmental legislation in the context of workplace mentoring
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- Pre-requisite units that must be achieved prior to this unit: Nil
- Co-requisite units that must be assessed with this unit: Nil
- Co-assessed units that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPGOV405B Provide input to change processes
  - PSPGOV406B Gather and analyse information
  - PSPGOV408A Value diversity
  - PSPGOV411A Deal with conflict
  - PSPGOV412A Use advanced workplace communication strategies
  - PSPGOV416A Monitor performance and provide feedback
  - PSPGOV418A Develop internal and external networks
  - PSPLEG417A Encourage compliance with legislation in the public sector
  - PSPOHS401B Implement workplace safety procedures and programs

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- provision of workplace mentoring in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to the provision of workplace mentoring, including organisation-specific documents where possible
- current workplace mentoring methodologies and strategies
- case studies and workplace scenarios to capture the range of mentoring situations likely to be encountered in the public sector

Where and how to

Valid assessment of this unit requires:
assess evidence

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when providing workplace mentoring, including coping with difficulties, irregularities and breakdowns in routine.
- provision of workplace mentoring in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations.

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

For consistency of assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

### Mentoring:

- has a long-term focus on personal growth and learning
- includes a wide range of learning oriented to:
  - exchange of wisdom
  - support
  - guidance in personal or career growth
- is a relationship, not just a procedure or activity
- is one person professionally assisting the professional development of another
- is a developmental effort to build skills and knowledge for advancement based on merit, rather than alliances/politically-based partnerships to advance careers based on politics rather than aptitude
- is provided by a mentor who:
  - facilitates the growth of the person being mentored
  - provides information, guidance and constructive comments
  - evaluates the plans of the person being mentored, decisions, goals and objectives
  - supports, encourages and, where necessary, highlights shortfalls in agreed performance
  - maintains confidentiality in the relationship
  - does NOT take over problems and try to solve them
  - does NOT give advice, criticisms or solutions, but supports the person being mentored to make their own decisions
  - is not the direct manager of the person being mentored

### Mentoring agreement/contract may include:

- explicit expectations/purpose
- well-defined objectives
- issues (past, present, future) that may constrain achievement of the objectives
- clear statement of what the mentor will and will not do
- goals set by the organisation
- expected timeframe/time commitments
- meeting arrangements - face-to-face, distance, email

### Cultural or other considerations may

- choosing a mentor with appropriate attributes depending on the purpose and objectives of the relationship
include:

- age
- cultural background
- educational level
- ethnicity
- expertise
- family responsibilities
- gender
- interests
- interpersonal approach
- language
- learning/thinking styles
- life experience
- marital status
- personality
- physical ability
- political orientation
- religious belief
- sexual orientation
- socio-economic background
- work experience
- working styles

**Ground rules** may include:

- relationship is voluntary
- mentoring partners should not be in the same chain of command
- supervisors of both mentoring partners must approve, where mentoring arrangement is internal
- mentor's guidance and counsel does not supersede that of the supervisor in work-related matters
- training for mentoring partners
- a mentoring agreement
- active involvement of both partners in the mentoring process
- internal or external mentoring arrangements
- 'no-fault divorce' provision where either party can end the relationship any time for any reason, or no reason (Gordon F Shea, 1999, Making the most of being mentored)

**Legislation, policy and procedures** may include:

- State/Territory and Commonwealth legislation and regulations such as:
  - public sector management acts
  - privacy legislation
  - equal employment opportunity, anti-discrimination and harassment legislation
  - occupational health and safety legislation
  - ethics and accountability standards
Techniques for resolving differences may include:

- finding a mutually beneficial solution
- self-disclosure
- inviting discussion
- providing explanations
- not taking it personally when information provided is rejected
- not laying blame
- using 'I' messages
- accessing assistance
- withdrawing from the mentoring arrangement

Benefits may include:

- empowerment
- opportunity to acquire competencies and professional experience
- insights into the organisational culture, attitudes, protocols and expected behaviours
- increased potential for career mobility and promotion
- a supportive environment in which successes and failures can be evaluated
- networking opportunities
- development of professional abilities and self-confidence
- recognition and job satisfaction
- mutual respect

Personal benefits to the mentor may include:

- renewed enthusiasm for their role if they are an experienced employee
- challenging discussions with people who may have fresh perspectives
- satisfaction from contributing to another's development
- opportunities to reflect upon and articulate the role of mentor
- improved ability to share experiences and knowledge
- opportunities to test new ideas
- broader picture/strategic overview

Benefits to the organisation may include:

- increased productivity
- new competencies in the person being mentored
- staff motivation
- more committed, involved and responsible personnel at all levels
- personal and trusting developmental relationships
- knowledge sharing
- increased people focus
- safeguard investment in high potential people

Unit Descriptor

This unit covers the identification and treatment of risk using the organisation's risk management procedures and treatments. It applies to the risks inherent in all aspects of everyday work in the public sector as well as to specific functional activities and projects related to the particular mandate of the organisation. The unit covers establishment of the risk context, identification, analysis and evaluation of risks, risks treatment, and monitoring and review of risk treatment plan.

In practice, identifying and treating risk occurs in the context of other generalist or specialist public sector work activities such as acting ethically, complying with legislation, applying government processes, handling classified information, using resources, administering projects, providing parliamentary support, making arrests, using financial processes, undertaking scientific research, awarding contracts, undertaking native title assessments, assessing compensation claims, road transport compliance, etc.

This is one of 4 units of competency in the Working in Government and Management Competency Fields that deal with risk. Related units are:

- PSPGOV517A Coordinate risk management
- PSPMNGT608B Manage risk
- PSPMNGT704A Undertake enterprise risk management

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Application of the Unit

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Establish the risk context | 1.1 The nature and extent of the work activity are established within the broader organisational context.  
1.2 The outcomes to be achieved are identified and documented as required.  
1.3 The relationship between the activity and its environment is analysed and critical factors in the environment that may impact on the achievement of outcomes are identified.  
1.4 Stakeholders are identified and consulted to identify their opinions, concerns and needs related to the activity and the management of risks related to it.  
1.5 Risk evaluation criteria are determined for the activity in accordance with legislation, policy and procedures related to risk management in the organisation. |
| 2. Identify risks | 2.1 Methods for identifying risks are selected in accordance with risk management policy and procedures, budgetary and time constraints relative to the type of activity to be undertaken.  
2.2 Sources of risk are identified and documented as required.  
2.3 Risk events related to each source of risk are identified and recorded in accordance with risk management policy and procedures.  
2.4 Consultation and communication is undertaken to ensure all possible risks are identified. |
| 3. Analyse risks | 3.1 The probability of identified risks occurring is analysed and rated in accordance with risk management policy and procedures.  
3.2 The consequences of identified risks occurring are analysed and rated according to organisational procedures.  
3.3 Current control measures for any of the identified risks are considered in the risk analysis, and residual risks are analysed and included if necessary.  
3.4 Levels of risk are determined in accordance with risk matrix used by the organisation.  
3.5 Consultation/communication is undertaken as required to confirm risk levels, and analysis is documented in accordance with organisational risk management procedures. |
| 4. Evaluate risks | 4.1 Risks are evaluated by comparing the level of risk with risk evaluation criteria established at the beginning of the risk management process.  
4.2 The importance of the activity, its outcomes and the degree of control over the risks are considered. |
<table>

</tr>
<tr>
<td></td>
<td>6.3 Acceptable risks are monitored to ensure these risk levels do not increase over time.</td>
</tr>
<tr>
<td></td>
<td>6.4 Consultations are conducted and data relating to risks and risk treatments are collected, analysed and used to improve risk management in own area of operation.</td>
</tr>
<tr>
<td></td>
<td>6.5 Risk treatment plan is reviewed in accordance with timetable for review of plan and updated as required.</td>
</tr>
<tr>
<td></td>
<td>6.6 Input is provided into formal reviews/audits of risk in the organisation to improve risk management outcomes.</td>
</tr>
</tbody>
</table>
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- applying legislation, regulations and policies relating to risk management
- researching and analysing the wider context affecting the organisation
- assessing and evaluating risks
- monitoring and reviewing risks and risk treatments
- communicating and consulting with a diverse range of stakeholders
- estimating and arranging resources needed for implementation of risk treatments
- responding to diversity, including gender and disability
- applying procedures relating to occupational health and safety and environment in the context of risk management

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, regulations, policies, procedures and guidelines relating to risk management
- AS/NZS ISO31000:2009 Risk management - Principles and Guidelines
- the organisation's risk management framework
- the relationship of risk to context - how the context may define the risks
- the importance of consultation and communication at every stage of the risk management cycle
- risk management as a core activity of everyday work in the public sector
- the diversity of risks in the public sector
- equal employment opportunity, equity and diversity principles
- public sector legislation such as occupational health and safety and environment in the context of risk management
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPFIN401A Use public sector financial processes
  - PSPGOV402B Deliver and monitor service to clients
  - PSPGOV405B Provide input to change processes
  - PSPGOV406B Gather and analyse information
  - PSPGOV409A Provide support to Parliament
  - PSPGOV422A Apply government processes
  - PSPGOV419A Work with interpreters
  - PSPLAND402A Undertake native title assessments
  - PSPPM405A Administer simple projects
  - PSPPROC410A Administer contracts
  - PSPREG406C Make arrests
  - PSPSEC405A Handle security classified information

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- identification and treatment of risks in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to risk management
- AS/NZS ISO 31000:2009 Risk management - Principles and Guidelines
- other national and international risk management standards
- case studies and workplace scenarios to capture the range of
risk management situations likely to be encountered

**Where and how to assess evidence**

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when identifying and treating risks, including coping with difficulties, irregularities and breakdowns in routine
- identification and treatment of risks in a range of (3 or more) contexts (or occasions, over time).

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations.

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

</tr>
<tr>
<td>- jurisdictional policies, guidelines and web sites, for example <a href="http://www.riskmanagement.qld.gov.au">www.riskmanagement.qld.gov.au</a></td>
</tr>
</tbody>
</table>

Risk management:

- is a logical and systematic process of identifying, analysing, evaluating, treating and monitoring risks related to any strategy, plan, process, program or procedure that will enable the organisation to minimise losses and maximise opportunities.

- may be considered in relation to an organisation's:
  - people
  - assets and physical environment
  - reputation and image
  - legal issues
  - business continuity
  - finances

- may include written procedures to ensure staff know:
  - what
  - how
  - when, and
  - by whom, action is to be taken to treat risks in the organisation

Methods for identifying risks may include:

- analysis of past records
- personal, local or overseas experience
- interviews/discussions with stakeholders
- surveys/questionnaires
- audits and physical inspections
- observation of activity
• analysis of scenarios
• research of external sources
• using industry experts/consultants

**Risks** may include:
• physical injury or death
• failure of machinery or equipment
• breaches of security
• fraud
• litigation
• client dissatisfaction
• unfavourable publicity

**Risks** may be:
• internal
• external
• random
• real
• perceived

**Sources of risk** may include:
• human behaviour
• technology/technical issues
• occupational health and safety
• legal
• political
• property/equipment
• environmental
• financial/market
• natural events

**Risk events** are:
• what can happen, as opposed to the source (how a risk may arise) and the impact (what is the implication if it happens)

**Probability of identified risk** may be:
• almost certain
• likely
• possible
• unlikely
• rare

**Consequences of identified risk** may be:
• insignificant
• minor
• moderate
• major
• catastrophic

**Control measures** may:
• reduce the probability of the risk occurring, the consequences of the risk, or both
• include:
  • training
  • supervision
- minimising/restricting exposure
- physical barriers
- relocation

**Level of risk** may be:
- low - treated with routine procedures
- moderate - with specific responsibility allocated for the risk, and monitoring and response procedures implemented
- high - requiring action, as it has potential to be damaging to the organisation
- extreme - requiring immediate action, as the potential could be devastating to the organisation

**Documentation of analysis** may include:
- table showing all risks, any existing controls, probability of occurring, consequences and subsequent level of risk

**Acceptable risks** are:
- those which an organisation has determined have the least potential for harm
- not necessarily insignificant

**Risks may be acceptable because**:
- the risk level is so low that it does not warrant spending time and money to treat it
- the risk is low and the benefits outweigh the cost of treating it
- the opportunities presented are much greater than the threat

**Unacceptable risks** are:
- those which an organisation has determined have the most potential for harm

**Options for treating risks** may include:
- avoiding the risk, for example, by terminating the activity or conducting it in another way (these actions may have different risks attached)
- controlling the risk, by reducing the probability of the risk occurring, the consequences of the risk, or both
- transferring the risk, for example, by arranging insurance, contracting some or all of the activity to another organisation or person, etc
- retaining the risk, and making contingency plans/funds allocation for covering any loss or other negative effect from the risk

**Risk treatment plan** may include:
- sources of risk and risk events
- analysis of risks - probability, consequences and risk levels
- prioritised list of unacceptable risks
- treatment options selected
- person/s responsible for implementing treatment options
- resources required
- performance measures
- timeframe for implementation
- timetable for review of plan
**Resources** may include:
- physical - equipment, motor vehicles, furniture
- human - management, employees, volunteers
- financial - funding, budget allocation, sponsorship
- resources that are part of the risk treatment, not just implementation of the treatment plan
- training and briefing sessions
- changes to the organisation's operating structure

**Changes** may mean that:
- new risks are created
- existing risks are increased or decreased
- risks no longer exist
- the priority order of risks changes
- risk treatment strategies are no longer effective

**Unit Sector(s)**
Not applicable.

**Competency field**
Working in Government.

Unit Descriptor

This unit covers the application of a knowledge of government processes. It includes applying information relating to Machinery of Government, and applying knowledge of organisational functions and protocols Legislation/regulations applying across the public sector, such as equal employment opportunity, equity and diversity etc, are not addressed here, as these are covered in PSPLEGN401A Encourage compliance with legislation in the public sector.

In practice, knowledge of government processes is applied in the context of other generalist and specialist work activities such as delivering and monitoring services to clients, using resources, conducting interviews, giving evidence, awarding contracts etc.

This is one of 3 units of competency in the Working in Government Competency Field that deal with government processes. Related units are:

- PSPGOV515A Develop and use political nous
- PSPGOV601B Apply government systems

This unit replaces PSPGOV401A Apply knowledge of government processes. The units are not equivalent as this unit has additional knowledge requirements, and 2 additional performance criteria for dealing with ambiguity in the public sector; further, an element relating to legislation has been deleted because of overlap with PSPLEGN401A Encourage compliance with legislation in the public sector

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

Application of the Unit

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Apply information relating to the Machinery of Government** | 1.1 Up-to-date information relating to *Machinery of Government* relevant to work responsibilities is identified, accessed and applied.  
1.2 Ambiguity in the structure and function of the organisation or work area as a result of past, present or future Machinery of Government changes is identified and advice obtained and implemented on required work priorities and outcomes for the transition period.  
1.3 Role ambiguity as a result of past, present or future Machinery of Government changes is managed in accordance with organisational directions. |
| 2. **Apply knowledge of organisational functions** | 2.1 Up-to-date *information* relating to the *structure* and functions of the organisation is accessed and applied.  
2.2 Appropriate persons are identified to ensure correct levels of authority are utilised to deal with responsibilities within the organisation.  
2.3 Areas of work where delegations apply are identified and delegation levels within the organisation are confirmed in accordance with organisational procedures/guidelines.  
2.4 Approvals are obtained in the workplace in accordance with organisational delegations. |
| 3. **Apply knowledge of protocols** | 3.1 Up-to-date information relating to government *protocols* is identified, accessed and applied.  
3.2 Protocols are observed in dealings with other organisations and with persons from within and outside the organisation.  
3.3 Written protocols, formats and standards are adhered to in writing government documents. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- locating and accessing information
- acquiring, retaining and recalling information
- applying information and protocols
- discarding redundant information
- dealing with ambiguity and Machinery of Government changes
- communicating with a diverse workforce
- responding to diversity, including gender and disability
- applying workplace safety procedures in the context of work in the public sector

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- Westminster System
- separation of powers
- systems of government
- Parliamentary structures (bicameral/unicameral)
- role and function of Parliament
- role and structures of Parliamentary committees
- application of statutory requirements imposed by central agencies such as Treasury, Premiers, Prime Minister and Cabinet
- delegations
- Parliamentary procedures impacting on the organisation (such as petitions, Ministerial statements, Question Time, Questions without Notice, Questions on Notice)
- Parliamentary process and how it affects operational objectives and timeframes
- Cabinet processes
- Bill to Act process
- Machinery of Government and administrative arrangements
- range and type of legislation relating to the public sector including occupational health and safety
- public sector code/s of ethics, code/s of conduct and statements of values
- equal employment opportunity, equity and diversity principles
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- *Pre-requisite* units that must be achieved prior to this unit: Nil
- *Co-requisite* units that must be assessed with this unit: Nil
- *Co-assessed units* that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPGOV402B Deliver and monitor service to clients
  - PSPGOV403B Use resources to achieve work unit goals
  - PSPGOV404B Develop and implement work unit plans
  - PSPGOV405B Provide input to change processes
  - PSPGOV406B Gather and analyse information
  - PSPGOV407B Provide a quotation
  - PSPGOV409A Provide support to Parliament
  - PSPPROC410A Administer contracts
  - PSPREG410B Give evidence
  - PSPREG411A Gather information through interviews

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of government processes in a range of (3 or more) contexts (or occasions, over time) in generalist or specialist work activities such as delivering and monitoring services to clients, using resources, conducting interviews, giving evidence, administering contracts, etc

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to the public sector
- organisational structures
- Machinery of Government information
- case studies and workplace scenarios to capture the range of situations likely to be encountered when applying government processes

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be
encountered when applying government processes, including coping with difficulties, irregularities and breakdowns in routine

- applying government processes in a range of (3 or more) contexts (or occasions, over time) in contexts relating to generalist or specialist work activities such delivering and monitoring services to clients, using resources, conducting interviews, giving evidence, administering contracts, etc.

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations.

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. Unit Descriptor

This unit covers coordination of risk management in the business unit/organisation. It includes maintaining infrastructure and processes, supporting staff to manage risk, facilitating risk recovery, and monitoring and reviewing risk management.

In practice, coordinating risk management may overlap with other generalist or specialist public sector work activities such as acting ethically, complying with legislation, providing client service, leading a group, developing policy etc.

This is one of 4 units of competency in the Working in Government and Management Competency Fields that deal with risk. Related units are:

- PSPGOV417A Identify and treat risks
- PSPMNGT608B Manage risk
- PSPMNGT704A Undertake enterprise risk management

Licensing/Regulatory Information

Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- applying legislation, regulations and policies relating to risk management
- undertaking research and analysis of the wider context affecting the organisation
- assessing and evaluating risks
- monitoring and reviewing risks and risk treatments
- communicating and consulting with a diverse range of stakeholders
- applying problem solving using conceptual and reasoning skills
- using formal language and style for written plans
- undertaking discussion using exchange of complex oral information
- using a variety of words and language structures to explain complex, formal documents and assisting others to apply them in the workplace
- responding to diversity, including gender and disability
- applying procedures relating to occupational health and safety and environment in the context of risk management

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, regulations, policies, procedures and guidelines relating to risk management
- risk management strategy
- organisational structure, functions and operation
- audit requirements
- AS/NZS ISO 31000:2009 Risk management - Principles and Guidelines
- risk management cycle
- the relationship of risk to context - how the context may define the risks
- the importance of consultation and communication at every stage of the risk management cycle
- approval processes
- range of evaluation methodologies
- the diversity of risks in the public sector
- equal employment opportunity, equity and diversity principles
- public sector legislation such as occupational health and safety and environment in the context of risk management
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- Pre-requisite units that must be achieved prior to this unit: Nil
- Co-requisite units that must be assessed with this unit: Nil
- Co-assessed units that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC501B Promote the values and ethos of public service
  - PSPGOV502B Develop client services
  - PSPGOV507A Undertake negotiations
  - PSPGOV508A Manage conflict
  - PSPGOV509A Conduct evaluations
  - PSPGOV511A Provide leadership
  - PSPGOV512A Use complex workplace communication strategies
  - PSPGOV515A Develop and use political nous
  - PSPGOV516A Develop and use emotional intelligence
  - PSPLEGN501B Promote compliance with legislation in the public sector
  - PSPPOL501A Develop organisation policy

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- coordination of risk management in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to risk management
- AS/NZS ISO 31000:2009 Risk management - Principles and Guidelines
- other national and international risk management standards
- case studies and workplace scenarios to capture the range of risk management situations likely to be encountered
Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when managing risk management system, including coping with difficulties, irregularities and breakdowns in routine
- coordination of risk management in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- authenticated evidence from the workplace and/or training

For consistency of assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

| Resources may include: | • information in paper-based or electronic format  
| | • risk analysis tools  
| | • briefings, information sessions, training |

| Legislation, policy and procedures may include: | • Commonwealth and State/Territory legislation relating to risk management  
| | • other national and international risk management standards  
| | • the organisation's risk management policies and practices  
| | • codes of conduct/codes of ethics  
| | • AS/NZS ISO 31000:2009 Risk management - Principles and Guidelines  
| | • ISO Guide 73:2009 Risk Management, Vocabulary  
| | • professional standards for risk management, for example certified practising risk manager (CPRM)  
| | • jurisdictional policies, guidelines and web sites, for example www.riskmanagement.qld.gov.au |

| Audits may be: | • undertaken by trained staff and/or external auditors according to documented schedules in risk management strategy |

| Information provided to staff may include: | • paper-based or electronic information such as via intranet  
| | • information sessions  
| | • briefings  
| | • training programs  
| | • arrangements such as coaching and mentoring |

| Advice to staff may include: | • verbal advice  
| | • documented advice  
| | • references to existing information in paper-based or electronic format |

| Learning and development may include: | • formal training through a Registered Training Organisation  
| | • in-house training  
| | • on-the-job learning  
| | • coaching or mentoring  
| | • information sessions provided internally or by external consultants |
Methods of promotion may include:
- information sessions
- briefings
- written materials
- training

Recovery processes may include:
- repair or replacement of equipment
- retraining
- alternative suppliers, production sources or methods
- temporary outsourcing

Monitoring methodology may include:
- observations
- physical inspections
- incident reports
- questionnaires
- interviews with stakeholders
- regular reviews of risk treatment procedures
- repeat of the risk management process

Expected outcomes may be documented in:
- risk management strategy
- key performance indicators
- risk management policies and procedures

Unit Descriptor

This unit covers the preparation of a written submission responding to a tender to provide goods or services on a cost-recovery or for profit basis. It includes identifying opportunities to provide goods or services, analysing tender requirements, determining proposal methodology, preparing estimates, submitting a tender and reviewing the tender process.

In practice, developing a tender submission response may overlap with other generalist or specialist public sector work activities such as applying government systems, acting ethically, complying with legislation, managing resources, managing risk, etc.

This is one of 2 units of competency in the Working in Government Competency Field dealing with quoting/tendering for work. The related unit is:

- PSPGOV407B Provide a quotation

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

Application of the Unit

Not applicable.

Licensing/Regulatory Information

Not applicable.
Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify opportunities to provide goods or services | 1.1 The *business unit's* or organisation's place in the market is identified.  
1.2 Organisational resources/expertise available for purchase by others are identified and matched to opportunities.  
1.3 *Business case* is developed to demonstrate viability of opportunities and is submitted for approval in accordance with organisational policy and procedures. |
| 2. Analyse tender requirements | 2.1 Scope of the *tender* requirement is identified.  
2.2 Requirements are confirmed with the funder/purchaser in accordance with organisational policy and procedures.  
2.3 Cultural issues are identified and clarified where necessary particularly when responding to international opportunities to sell services. |
| 3. Determine proposal methodology | 3.1 Methodology is selected based on available resources, available expertise and client requirements.  
3.2 Methodology is selected in accordance with organisational and public sector requirements for probity and accountability. |
| 4. Prepare estimate | 4.1 Estimate is prepared to take account of all requirements and allows for contingencies.  
4.2 Estimate is structured to provide for cost recovery or return a profit according to *legislation, policy and procedures*.  
4.3 Costs are estimated to enable provision of goods or *services* to the standards required by the *client*.  
4.4 Estimate is checked for accuracy and detailed in accordance with organisational procedures and client requirements. |
| 5. Submit a tender | 5.1 Tender is prepared in accordance with organisational policy and procedures.  
5.2 Required details are addressed and client requirements met in preparing tender response.  
5.3 Tender is submitted within required timeframe.  
5.4 Organisational recordkeeping requirements for tender responses are met. |
| 6. Review tender process | 6.1 Changes and variations to the tender are negotiated to meet the needs of the client and the organisation in accordance with contractual arrangements, organisational policy, procedure and delegated authority.  
6.2 Tender response, outcome and preparation process are evaluated using feedback from a range of *stakeholders* and the results are used to improve subsequent quotations. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- applying legislation, policy and guidelines
- using numeracy in selecting and applying mathematical concepts, estimating, checking reasonableness of results
- using a range of mathematical language to communicate mathematical information
- managing financial and other resources
- using literacy for oral and written clarification of issues and for negotiating variations and changes with clients
- using required language and style for written submissions
- using technical and other vocabulary
- networking strategically with clients, suppliers and stakeholders
- evaluating and reviewing information
- responding to diversity, including gender and disability

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- State/Territory or Commonwealth legislation and guidelines that apply to selling government services locally, nationally and internationally
- organisational guidelines, policies and practices
- financial accountability requirements
- legal requirements of selling government services
- implications of different contracting agreements
- whole-of-life considerations
- delegations
- approval processes
- range of evaluation methods
- tender management processes
- equal employment opportunity, equity and diversity principles
- public sector legislation such as occupational health and safety and environment in the context of developing tender responses
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC601B Maintain and enhance confidence in public service
  - PSPGOV601B Apply government systems
  - PSPGOV602B Establish and maintain strategic networks
  - PSPGOV605A Persuade and influence opinion
  - PSPLEGN601B Manage compliance with legislation in the public sector
  - PSPMNGT602B Manage resources
  - PSPMNGT608B Manage risk
  - PSPMNGT609B Formulate business strategies
  - PSPMNGT610A Manage public sector financial resources
  - PSPMNGT613A Develop partnering arrangements
  - PSPPM601B Direct complex project activities

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- development of tender submission responses in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to development of tender responses
- case studies and workplace scenarios to capture the range of situations likely to be encountered when developing tender submission responses

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when developing tender submission responses,
including coping with difficulties, irregularities and breakdowns in routine

- development of tender submission responses in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

Unit Descriptor

This unit covers compliance with legislation and related public sector policy guidelines and procedures. It includes identifying and complying with legislative requirements and reporting incidents of non-compliance.

In practice, complying with legislation is demonstrated in the context of other generalist or specialist work activities such as delivering client services, using financial resources, procuring goods or services.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Application of the Unit

Not applicable.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify legislative requirements | 1.1 Information is accessed that covers the range of legislation and guidelines relating to the workplace and is current and comprehensive.  
1.2 Key requirements of relevant pieces of legislation are identified and confirmed with senior staff.  
1.3 Requirements of legislation are clarified to confirm understanding and ensure consistency of interpretation and application.  
1.4 Clarification is obtained of the way various pieces of legislation are integrated to provide a legislative framework for public sector work.  
1.5 Advice is obtained when apparently conflicting legislative directives are found. |
| 2. Comply with legislative requirements | 2.1 Work practices are carried out in accordance with the requirements of legislation relating to the work environment.  
2.2 Own conduct is reviewed and feedback from others is used to confirm continuing compliance with legislative requirements. |
| 3. Report incidents of non-compliance | 3.1 Possible breaches of legislation are raised promptly with an authorised person/body in accordance with organisational procedures.  
3.2 Inadequacies in workplace procedures which may contribute to non-compliance are raised in accordance with organisational procedures. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- undertaking research and evaluation
- undertaking self-assessment
- reading complex and formal documents such as legislation and related materials to apply them to work practices and to identify inappropriate conduct
- communicating with others involving exchanges of complex oral and written information
- using technology to access legislative requirements
- responding to diversity, including gender and disability
- applying environmental and occupational health and safety procedures

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- the range of legislation relating to the public sector (including occupational health and safety and environment) and the key requirements of each
- public sector codes of ethics/conduct
- equal employment opportunity, equity and diversity principles
- organisational processes/procedures for responding to legislative issues
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC301B Uphold the values and principles of public service
  - PSPGOV305B Access and use resources and financial systems
  - PSPGOV307B Organise workplace information
  - PSPIM301A Process claims
  - PSPPROC302A Undertake basic procurement
  - PSPSEC301A Secure government assets

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of Employability Skills as they relate to this unit
- compliance with legislation in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- public sector legislation, regulations and guidelines
- procedures and protocols
- scenarios and case studies to capture the range of situations likely to be encountered when complying with public sector legislation

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when complying with legislation in the public sector, including coping with difficulties, irregularities and apparently conflicting legislative requirements
- compliance with legislation in a range of (3 or more)
contexts (or occasions, over time).

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations.

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

*Legislation and guidelines* may relate to:

- public sector standards:
  - codes of conduct/ethics
  - guarantee of service
  - legislated standards
  - State/Territory/Commonwealth/organisational standards
  - technical/industrial standards
  - professional standards
  - industry competency standards
  - anti-corruption legislation
  - whistleblowers' protection
- public sector employment:
  - employee relations
  - chief executive officer's instructions
  - Commissioner's instructions
  - public sector notices
- workplace environment:
  - equal employment opportunity
  - affirmative action
  - workplace diversity
  - anti-discrimination
  - workplace harassment
  - occupational health and safety
  - duty of care
- security, storage, handling and classification of documents
- financial management and accountability:
  - Treasurer's instructions
  - contractual obligations
- transparency:
  - freedom of information
  - professional reporting
  - accountability
  - fair trading
- business and community:
  - privacy
  - trade practices
  - competition
  - road transport legislation
- information and records management standards and legislation
- the organisation's enabling legislation, regulations
- aspects of common law, criminal law, contract law, employment law and administrative law, including judges' rules
- international legislation/codes of behaviour

**Conflicting legislative directives** may include:

- apparent contradiction between statutes
- apparent conflict between statutes and policy requirements

**Inadequacies in workplace procedures** may include:

- insufficient financial/other controls
- insecure Internet/fax access
- non-auditable records processes
- ambiguous guidelines
- no guidelines
- unnecessary complexity
- use of non-current legislation

**Unit Sector(s)**
Not applicable.

Unit Descriptor

This unit covers productive diversity management to maximise workforce effectiveness. It includes contributing to, promoting and monitoring a diversity strategy; facilitating the development of a workforce that promotes and values diversity; and facilitating communication with a diverse workforce.

In practice, managing diversity occurs in the context of other generalist or specialist work activities such as managing compliance, managing people and performance, managing recruitment and selection, managing employee relations, managing client service etc.

This unit is one of a series of 6 competencies relating to diversity in the public sector, located in the Competency fields of *Working in Government* and *Management*. Related units of competency are:

- PSPGOV201B Work in a public sector environment
- PSPGOV308B Work effectively with diversity
- PSPGOV408A Value diversity
- PSPGOV505A Promote diversity
- PSPMNGT702A Influence and shape diversity management

This unit replaces and is equivalent to *PSPMNGT605A Manage diversity*.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

Application of the Unit

Not applicable.
Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.
# Elements and Performance Criteria

## ELEMENT 1. Contribute to the development of a diversity strategy

1.1 The organisational context and framework for the diversity strategy are identified and key result areas are established.

1.2 A *diversity strategy* is developed that identifies *diversity issues* and objectives to enhance business unit and organisational effectiveness in accordance with *public sector legislation and policies*.

1.3 The strategy is used to identify *benefits and opportunities* provided by a diverse workforce and complies with legislative requirements, organisational policies and practices.

1.4 Diversity objectives in the strategy are linked with the demographic profile of the client base, the organisation's strategic goals and the core business of the *business unit*.

1.5 The strategy is developed in consultation with *stakeholders*, including people from key equity groups and the organisation's clients.

1.6 The strategy is designed to provide a mechanism through which diversity issues can be integrated within *organisational policies and procedures*, for example, recruitment and selection.

## ELEMENT 2. Promote and review diversity strategy

2.1 The strategy is communicated and *promoted* within the business unit and the organisation in accordance with audience needs and organisational requirements.

2.2 The need for diversity support programs is identified and programs are established in accordance with the objectives of the diversity strategy.

2.3 Individuals are encouraged to align everyday work with the diversity strategy in recognition that individuals are the implementers who will ensure the strategy's success.

2.4 Progress of diversity strategies within business plans is monitored and reported on in accordance with organisational policy and procedures.

2.5 The effectiveness of the strategy in contributing to organisational effectiveness is monitored and reviewed according to its specifications, and recommendations for enhancements are identified and acted upon.

## ELEMENT 3. Facilitate the development of a workforce that promotes and values diversity

3.1 Benefits of a *diverse workforce* are identified and communicated to those working within the business unit and the organisation.

3.2 Initiatives and resources to address *barriers* to equal employment opportunity within the organisation are developed or adopted in accordance with the diversity strategy.

3.3 A range of leadership styles is employed to facilitate
ELEMENT

PERFORMANCE CRITERIA

intercultural management and to manage diverse teams.

3.4 The diversity factors associated with individuals within the workforce are identified and utilised in the delivery of services to diverse clients.

3.5 A range of working styles that are reflective of a diverse workforce is accepted and encouraged, unified to the organisational context.

3.6 Diversity training and awareness programs are utilised, as appropriate, to promote the benefits of a diverse workforce.

4. Facilitate communication within a diverse workforce

4.1 Language, literacy and numeracy issues are identified and addressed to facilitate full participation of all members of the workforce in work and development activities.

4.2 A range of communication strategies is employed to meet the needs of a diverse workforce and client base.

4.3 The target audience is identified and tailored communications strategies are adopted.

4.4 Resources to facilitate effective communication within the workplace are identified and utilised in accordance with organisational policy and procedures.

4.5 Ineffective and inappropriate communication strategies are identified and adjusted to meet the information needs of a diverse workforce and client base.
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- monitoring and reporting on the progress of diversity strategies
- using communication involving exchanges of complex oral information
- communicating with people from diverse backgrounds (including gender and disability)
- managing diverse teams
- applying intercultural management
- using a variety of words and language structures to explain complex ideas to diverse audiences
- interpreting and explaining complex, formal documents and assisting others to apply them in the workplace
- preparing written advice and reports requiring reasoning and precision of expression
- using plain English in written documents

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- the concept of diversity and its integration within and across all human resource and management functions and areas
- cultural diversity, including issues of racism, discrimination, harassment and victimisation
- the organisation's policies and strategic goals relating to diversity and the implications of these for current and future human resource management
- the relationship between management of diversity and organisational effectiveness
- equal employment opportunity, access and equity principles
- productive diversity principles including flexibility, multiplicity, devolution, negotiation and pluralism
- institutional racism and resulting indirect discrimination
- jurisdictional legislation, instructions, directions and standards that underpin or impact on workplace diversity
- public sector policies, practices and procedures related to diversity
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC601B Maintain and enhance confidence in public service
  - PSPGOV601B Apply government systems
  - PSPGOV602B Establish and maintain strategic networks
  - PSPLEGN601B Manage compliance with legislation in the public sector
  - PSPMNGT603B Facilitate people management
  - PSPMNGT606B Manage quality client service
  - PSPMNGT615A Influence workforce effectiveness
  - PSPPOL603A Manage policy implementation

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- diversity management in a range of (2 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- information on diversity management in the context of public sector management and human resource management
- legislation, policy, procedures and guidelines relating to/impacting on diversity
- case studies and workplace scenarios to capture the range of situations likely to be encountered when managing diversity

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions
likely to be encountered in the workplace, including coping with difficulties, irregularities and breakdowns in routine

- management of diversity in a range of (2 or more) contexts (or occasions, over time)
- a variety of management contexts (2 or more) such as managing compliance, managing people and performance, managing recruitment and selection, managing employee relations, managing client service etc

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

For consistency of assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

*A diversity strategy is:*

- an expression of what a business unit or organisation intends to do to utilise diversity as a productive resource in order to maximise effectiveness and efficiency

*Diversity issues may include:*

- equal employment opportunity issues such as:
  - direct and indirect discrimination - discriminatory systems and practices
  - harassment
  - racism
  - under-representation of equity groups in the public sector
  - employment of equity groups concentrated at lower levels in the public sector
  - women making up more than half of the public sector workforce but disproportionately represented at lower salary levels
  - barrier (or glass ceiling) that prevents equity group members progressing to higher salary levels
  - disproportionate representation of equity group members in non-permanent, casual or contract positions
  - inappropriate supervisory treatment of equity group members
  - sidelining staff from diverse backgrounds to 'diversity roles' rather than the opportunity to pursue what interests them, or where they add most value
  - workplace systems or practices that don't allow a balance between work and family responsibilities
  - inequitable access to acting opportunities, workplace training and development
  - culturally inappropriate workplaces
  - making reasonable adjustment to work processes
  - enabling access to buildings to people with a disability
  - quality of service delivery to clients from diverse backgrounds
  - people from recognised diversity groups not choosing to be identified through usual statistical collection methods
- questioning/disregarding the dominant paradigm of the organisation
- inappropriate treatment of those who don't fit the dominant paradigm of the organisation
- risks associated with diversity not managed
- different values:
  - uncertainty avoidance
  - collectivist/individualist
  - power/distance
  - masculine/feminine
- resolving communication issues
- developing cultural competence
- negotiating commonalities
- resolving conflict
- negotiating difference

Public sector legislation and policies (relating to diversity) may include:

- Commonwealth legislation addressing diversity issues, for example:
  - Racial Discrimination Act 1975
  - Sex Discrimination Act 1984
  - Disability Discrimination Act 1992
  - Workplace Relations Act 1996
  - Privacy Act 1988
- State/Territory legislation addressing diversity issues, such as Victoria's Racial and Religious Tolerance Act
- public service/public sector management acts
- workplace diversity guidelines
- national and international codes of practice and standards
- the organisation's plans, strategies and policies relating to diversity
- policies relating to language services
- government policy mandating equal employment opportunity and/or workplace diversity requirements, such as:
  - Managing diversity in the Western Australian public sector, August 1995
  - Valuing cultural diversity, State of Victoria, 2002
- public sector ethics/values/codes of conduct
- public sector management standards (subordinate law)
- Commissioner's directions/instructions
Benefits and opportunities of diversity in the workplace may include:

- community guidelines, policy and practices (such as those within Aboriginal and Torres Strait Islander communities)
- improved client service (internal and external)
- improved access to government services and programs
- improved relationship with the community
- wider sources of recruitment
- greater responsiveness to change
- cultural enrichment
- a workplace reflective of local demographics
- promotion of creativity
- retention of staff
- community public relations
- facilitation of attainment of organisation goals
- improved service delivery
- promoting equity and fairness
- creation of a harmonious and supportive work environment
- increased skills and experience added to the workplace
- balanced workforce in terms of age, gender, race and culture

Business unit may include:

- a program
- sub-program
- cost centre
- area
- division
- branch
- production unit or section located within the organisation

Stakeholders may include:

- all those individuals and groups both inside and outside the organisation that have some direct interest in the organisation's behaviour, actions, products and services, including
  - employees at all levels of the organisation
  - other government and non-government organisations
  - union and association representatives
  - boards of management
  - government
  - Ministers
  - community
  - clients

Organisational policies and procedures may

- recruitment and selection
- learning and development
relate to:

- performance management
- promotion and retention of staff
- employment conditions
- organisational mission and values
- performance assessment

**Methods of promoting diversity plans may include:**

- written documentation
- manuals
- policy and procedure statements
- guides
- information brochures and pamphlets
- oral advice and guidance
- one-on-one meetings
- small group meetings
- telephone contact and/or electronic mail
- training programs
- online resources

**Diverse workforce** refers to:

- a workforce comprising employees with differences in:
  - age
  - culture
  - disability
  - educational background
  - ethnicity
  - expertise
  - family responsibilities
  - gender
  - interests
  - interpersonal approach
  - language
  - learning styles
  - life experience
  - marital status
  - not fitting the dominant paradigm of the organisation
  - personality
  - physical capability
  - race
  - religious belief
  - sexual orientation
  - socio-economic status
  - thinking styles
Barriers to equal employment opportunity may include:

- individual and structural/institutional racism, sexism and other forms of exclusion and discrimination
- direct and indirect discrimination
- issues related to cultural diversity
- exclusionary workplace practices

Communication strategies may include:

- small group information sessions
- use of plain English
- translated information
- use of bilingual staff

**Unit Descriptor**

This unit covers planning and development of projects which may be reasonably complex in terms of scope, degree of risk, political, cultural and social factors that apply, consequences of failure and degree of control of the projects. It includes identifying project opportunities, undertaking scoping, analysing the feasibility of projects, developing project plans and managing the establishment of projects. Contract management requirements are not included as this aspect is addressed by units of competency within the Competency field of *Procurement and Contract Management*.

In practice, designing complex projects overlaps with other generalist and specialist work activities such as acting ethically, coordinating resource allocation and usage, developing client services, undertaking research and analysis.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

**Application of the Unit**

Not applicable.

**Licensing/Regulatory Information**

Not applicable.

**Pre-Requisites**

Not applicable.
Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in *bold italics* is explained in the Range Statement following.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Identify project opportunities and undertake scoping** | 1.1 A *critical analysis* of the need for a project is conducted in accordance with organisational *policy and procedures*.  
1.2 A project definition study is undertaken, where necessary, to determine the scope of the project.  
1.3 Project scoping is completed in accordance with organisational policy and procedures and identifies a rationale for the project that includes the purpose, outcomes/expected benefits.  
1.4 *Stakeholders* are identified and canvassed to ensure that their requirements are addressed in project planning. |
| 2. **Analyse project feasibility** | 2.1 Research and analysis is undertaken to identify impacts and risks, *constraining factors* and alternate options.  
2.2 Technical feasibility, supportability and cost effectiveness of the project are analysed and the outcome is reported to key stakeholders.  
2.3 Alternatives for project design are assessed and a preferred option that fits the strategic direction of the organisation/work unit is identified and reported.  
2.4 Relevant specialists are consulted to determine the extent of financial, technical, security, scheduling, *whole-of-life support* and probity, and other risks.  
2.5 A business case is prepared and *approvals* to proceed with project development are obtained in accordance with organisational policy, procedures and guidelines. |
| 3. **Develop project plans** | 3.1 Project aims, objectives and impacts are defined in the *project plan*, and timeframes and resources to complete quality deliverables on time and within budget are identified.  
3.2 Projected outcomes are recorded in measurable and achievable forms and indicators to monitor the performance of the project are developed and agreed by relevant parties.  
3.3 Potential risks are investigated and identified in the project plan and a risk management process is established to analyse information and options to *manage risks*.  
3.4 Skills, roles and responsibilities of team members and stakeholders are clarified and agreed, and reporting requirements are identified.  
3.5 *Management of project parameters* is addressed in the project plan and evaluation criteria are designed in accordance with organisational policy and practice.  
3.6 *Project management tools* are utilised for planning in accordance with project requirements and the project is designed and *documented* in consultation with *specialists* to
ELEMENT

4. Manage establishment of project

PERFORMANCE CRITERIA

meet user requirements.

4.1 If required, stakeholders are lobbied in accordance with organisational policy and procedures, to negotiate endorsement for the project.

4.2 Terms of reference are written and agreed to by stakeholders and resources are obtained in accordance with organisational procedures to establish the project.

4.3 Project scope and objectives are reviewed and analysed, and a strategy is developed to establish work breakdown structures to implement the project.

4.4 Project infrastructure is identified and established in accordance with organisational policy and procedures.

4.5 Specialist and technical support relevant to the project is obtained in accordance with the project plan.

4.6 Project governance structure and processes are established as detailed in the project plan.
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- using project planning techniques related to projects that may be reasonably complex in terms of scope, degree of risk, political, cultural and social factors that apply, consequences of failure and degree of control of the projects
- detailing requirements, writing recommendations and preparing plans requiring precision of expression
- negotiating timelines, roles and responsibilities with stakeholders and team members
- scheduling project activities
- communicating with stakeholders using a range of communication styles to suit different audiences and purposes
- responding to diversity, including gender and disability
- using project management tools suited to planning reasonably complex projects
- applying risk management techniques in project establishment including risk sharing and transfer
- using public relations strategies to promote and gain endorsement for projects
- including workplace safety issues in project planning requirements
- accessing/preparing information electronically or in hard copy

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, organisational policies and procedures that may impact on the project and management of the project, for example:
  - public sector codes of ethics/conduct
  - occupational health and safety and environmental and sustainability requirements
- project governance requirements
- financial management requirements
- quality standards
- risk management
- procurement
- human resources
- equal employment opportunity, equity and diversity principles
- project planning methods which may be reasonably complex in terms of scope, degree of risk, political, cultural and social factors that apply, consequences of failure and degree of control of the projects
- project management tools suited to planning reasonably complex projects
- principles relating to the planning phase of project management
- the project specifications
- market capability
- resource plans
- project approval processes
- scheduling packages
- cost schedule control systems
- integrated logistics support
- work breakdown structures
- change management in the context of designing complex projects
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC501B Promote the values and ethos of public service
  - PSPGOV502B Develop client services
  - PSPGOV503B Coordinate resource allocation and usage
  - PSPGOV504B Undertake research and analysis
  - PSPGOV505A Promote diversity
  - PSPGOV507A Undertake negotiations
  - PSPGOV512A Use complex workplace communication strategies
  - PSPPM502B Manage complex projects
  - PSPPM503B Close complex projects
  - PSPPROC502A Establish contract management arrangements

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see table following for examples)
- complex projects designed in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, guidelines, procedures and protocols relating to project planning and management
- workplace project documentation
- scenarios and case studies
- examples of project management tools

Where and how to

Valid assessment of this unit requires:
assess evidence

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when initiating projects, including coping with difficulties, irregularities and breakdowns in routine
- complex projects designed in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- demonstration
- observation
- portfolios
- projects
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

For consistency of assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

**Critical analysis** may include:
- internal and external environment scan
- political imperatives
- previous and current related projects
- policies likely to be impacted
- cost-benefit analysis

**Policy and procedures** may include:
- government legislation (Federal, State and Local) affecting organisation's administration such as:
  - public sector management acts
  - financial management and accounting legislation and regulations
  - privacy legislation
  - environmental/sustainability legislation
- government and organisational guidelines and procedures relating to:
  - project governance
  - resourcing
  - security
  - strategic plans
  - recruitment
  - risk management
  - procurement guidelines
  - designation approvals
  - industrial agreements

**Stakeholders** may include:
- project sponsor/funding bodies
- clients or customers (internal and external)
- industry
- other agencies
- general public
- relevant interest groups
- unions
- functional areas
- the organisation's senior management
- Ministers
Constraining factors may include:

- political
- industrial
- legislative
- technical
- financial
- social
- cultural
- security/privacy
- environmental
- logistical support
- resources

Whole-of-life support may include:

- maintenance
- supply
- technical data
- personnel
- training
- facilities
- packaging, handling
- storage and transportation
- support and test equipment
- computing support

Approval may be required from:

- project sponsor
- business owner of the project
- program manager
- line manager
- specialist project management office
- chief executive officer, manager or management representative
- funding body
- customer or client

Project plan will include some or all of:

- acquisition strategies
- budget and financial management strategy
- contract management
- cost estimates
- evaluation criteria
- expected outcomes/measurable benefits of the project
- facilities
- inclusions and exclusions from project
- information/communication strategy
- intellectual property strategies
- milestones
- objectives
- outputs/project deliverables and their acceptance criteria
- people plan including human resource management and human resource development
- performance criteria/indicators
- project control mechanisms
- project implementation strategy
- project governance strategy
- purpose
- quality assurance
- quality control
- quality standards for project
- rationale
- required project resources
- resource management
- risk management
- roles and responsibilities
- schedule/timeline
- task/work breakdown structure (WBS)

**Risk management** may include:

- acceptance
- avoidance
- minimisation
- transfer

**Management** may include:

- risk management
- schedule management
- financial management
- communication, including reporting
- resources management
- logistics management
- scope management
- change management
- quality management
- people management
Project parameters include:

- procurement management
- occupational health and safety management
- project scope - outcomes, objectives, project deliverables
- feasibility
- skills required for project team
- people required for project including specialist expertise
- communications including reporting requirements
- risks associated with project including people, environment, resources, technology change during the life of the project, if applicable
- steering committee arrangements
- timeframe and milestones
- cost
- resources for project
- acquisition/procurement
- organisational structure for project
- project quality control and operational flexibility
- project governance structure
- monitoring through staged rollout
- project delivery requirements
- pilot outcomes
- intellectual property
- integration of project within organisation
- transition arrangements
- change management
- project evaluation

Project management tools may include:

- risk analysis
- organisational project governance framework
- communications plan
- reporting framework
- project management software and other tools:
  - Gantt and bar charts
  - Program Evaluation and Review Technique (PERT) charts
  - Critical Path Method
  - cost schedule control system
  - logistics support analysis
  - life cycle cost analysis
  - spreadsheets
  - recording systems - electronic and manual
**Documented information** may include:
- reports detailing strategy
- statement of requirement/work
- industry development proposals
- project plans
- resource plans
- project team work plans
- risk and issues plan and log
- performance evaluation criteria
- reports to industry
- whole-of-life support proposals
- project definition study

**Relevant specialists** may include:
- legal
- technical
- financial
- other functional areas
- other relevant agencies
- logistics

**Work breakdown structures** may include:
- how the work is to be performed and how cost and schedule data are to be tracked and reported
- identification of the project tasks (deliverables)
- identification of specific management responsibilities for tasks

**Project infrastructure** may include:
- staffing levels/need for recruitment action and training
- equipment and technical support
- resource requirements including travel, finance etc
- project office accommodation
- management infrastructure

**Unit Sector(s)**
Not applicable.

4.2 Support package arrangements are identified and offered to stakeholders who will be required to apply the project results.

4.3 Options for stakeholders to take account of environmental and cultural factors in applying the project results are included in the support package.

4.4 Operational and support authorities are consulted to investigate any testing/trialling/building and evaluation requirements resulting from the project, and funding implications estimated in project report.
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- leading and mentoring people to achieve project outcomes
- maintaining agreement of stakeholders and team members to timelines, roles and responsibilities
- negotiating with stakeholders and team members using communication styles to suit different audiences and purposes
- responding to diversity, including gender and disability
- using project management tools applicable to reasonably complex projects
- applying ethical decision making and problem solving related to project management of reasonably complex projects
- writing recommendations and preparing project reports requiring precision of expression
- applying workplace safety procedures in line with project requirements
- accessing/preparing information electronically or in hard copy

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, organisational policies and procedures that may impact on project implementation, for example:
  - public sector codes of ethics/conduct
  - occupational health and safety and environmental and sustainability requirements
- project governance requirements
- quality standards
- risk management
- procurement guidelines
- financial management and budgetary framework
- human resources
- equal employment opportunity, equity and diversity principles
- project management tools to suit a range of reasonably complex projects in terms of scope, degree of risk, political, cultural and social factors that apply, consequences of failure and degree of control of the project
- project management systems
- organisational and political context
- critical analysis in a project management context
- business and commercial issues related to the projects managed
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite units** that must be achieved prior to this unit: Nil
- **Co-requisite units** that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC501B Promote the values and ethos of public service
  - PSPGOV502B Develop client services
  - PSPGOV503B Coordinate resource allocation and usage
  - PSPGOV504B Undertake research and analysis
  - PSPGOV505A Promote diversity
  - PSPPM501B Design complex projects
  - PSPPM503B Close complex projects
  - PSPPROC501A Manage contract risk
  - PSPPROC503A Manage contract performance

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- management of complex projects in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, guidelines, procedures and protocols relating to project management in the organisation and the public sector
- workplace project documentation
- scenarios and case studies
- examples of project management tools

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions
likely to be encountered when managing complete projects, including coping with difficulties, irregularities and breakdowns in routine

- management of complex projects in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- demonstration
- portfolios
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

For consistency of assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

*Project plans* will include some or all of:

- acquisition strategies
- budget and financial management strategy
- contract management
- cost estimates
- evaluation criteria
- expected outcomes/measurable benefits of the project
- facilities
- inclusions and exclusions from project
- information/communication strategy
- intellectual property strategies
- milestones
- objectives
- outputs/project deliverables and their acceptance criteria
- people plan including human resource management and human resource development
- performance criteria/indicators
- project control mechanisms
- project implementation strategy
- project governance strategy
- purpose
- quality assurance
- quality control
- quality standards for project
- rationale
- required project resources
- resource management
- risk management
- roles and responsibilities
- schedule/timeline
- task/work breakdown structure (WBS)

*Required systems for project management* may include:

- planning and monitoring system
- financial management including:
include:

- budget allocation/funding
- income generated
- expenditure
- recordkeeping for documented information such as:
  - correspondence
  - quality data including survey, needs, test results
  - contracts
  - time allocated and spent on each aspect of the project
  - progress reports
  - performance reports against milestones
  - project outcomes
  - samples, prototypes, models

Project management tools may include:

- risk analysis
- organisational project governance framework
- communications plan
- reporting framework
- project management software and other tools:
  - Gantt and bar charts
  - Program Evaluation and Review Technique (PERT) charts
  - Critical Path Method
  - cost schedule control system
  - logistics support analysis
  - life cycle cost analysis
  - spreadsheets
  - recording systems - electronic and manual

Integration of project activities may include:

- scope
- time
- cost
- quality
- human resources
- communications
- risk
- procurement

Management may include:

- scope management
- communication and reporting
- schedule management
- financial management
- fraud control
- quality management
- resources management
- people management
- logistics management
- risk management
- contract management
- project implementation
- transition
- change management

*Development* may include:

- regular meetings
- feedback
- encouragement
- mentoring and coaching
- additional physical and human resources (within allocated budget) if and as required

*Policy and procedures* may include:

- government legislation (Federal, State and Local) affecting organisation's administration such as:
  - public sector management acts
  - financial management and accounting legislation and regulations
  - privacy legislation
- government and organisational guidelines and procedures relating to:
  - project governance
  - resourcing
  - security
  - strategic plans
  - recruitment
  - risk management
  - procurement guidelines
  - designation approvals
  - industrial agreements
  - environment and sustainability

*Stakeholders* may include:

- project sponsor/funding bodies
- clients or customers (internal and external)
- industry
- other agencies
- general public
- relevant interest groups
- unions
- functional areas
- the organisation's senior management
- Ministers
- project team
- steering committee
- end user
- supplier/service provider

**Contract change proposals** may include:
- administration
- cost
- engineering, technical, technology changes
- resources
- scope
- specifications
- time

**Specifications** may include:
- functional
- technical
- performance
- material

**Unit Sector(s)**

Unit Descriptor

This unit covers closure of projects that may be reasonably complex in terms of scope, degree of risk, political, cultural and social factors that apply, consequences of failure and degree of control of the projects. It includes reviewing project activity and managing project closure. Contract management requirements are not included as this aspect is addressed by units of competency within the Competency field of Procurement and Contract Management. In practice, closing complex projects overlaps with other generalist and specialist work activities such as acting ethically, coordinating resource allocation and usage, developing client services, undertaking research and analysis. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Application of the Unit

Not applicable.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.
Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Review project activity | 1.1 Evaluation of project process, supplier performance and achievement against objectives is undertaken in consultation with stakeholders and results are reported in accordance with the project plan evaluation framework and organisational policy and procedures.  
1.2 The extent to which clients needs were met is evaluated and action to rectify problems is identified and documented.  
1.3 Implications of project outputs/outcomes for policies and operating procedures are identified and recommendations are made for their amendment.  
1.4 Information obtained from the evaluation of the project is provided in accordance with organisational requirements so it may be used to improve relevant policy and practice. |
| 2. Manage project closure | 2.1 Any funding associated with the project is acquitted against project budget items, and financial records are checked for accuracy and completed in accordance with organisational procedures.  
2.2 Project wind-down is managed and documentation, records and approvals are handled in accordance with project plan and organisational policy and procedures.  
2.3 Project stakeholders are debriefed, and infrastructure and resources are redeployed in accordance with organisational policy and procedures.  
2.4 Project hand-over to user/s is completed in accordance with organisational procedures, and lessons learnt are documented and reported to stakeholders to assist in continuous improvement.  
2.5 Stakeholders are advised of procedures and authorities for initial support to apply project results where relevant, and strategies are provided to manage long-term project momentum in accordance with organisational requirements. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- analysing results and evaluating outcomes against objectives
- writing recommendations and preparing reports requiring precision of expression
- communicating with stakeholders and team members using a range of communication styles to suit different audiences and purposes
- responding to diversity, including gender and disability
- debriefing stakeholders and redeploying resources and infrastructure
- acquitting and reporting on resource expenditure including time and costs
- using project management tools applicable to reasonably complex projects
- applying workplace safety procedures in line with project requirements
- accessing/Preparing information electronically or in hard copy

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, organisational policies and procedures that may impact on project finalisation, for example:
  - public sector codes of ethics/conduct
  - occupational health and safety and environmental and sustainability requirements
  - project governance requirements
  - quality standards
  - risk management
  - procurement guidelines
  - financial management
  - human resource management and development
  - equal employment opportunity, equity and diversity principles
  - project specifications and objectives
- project management tools to suit a range of reasonably complex projects in terms of scope, degree of risk, political, cultural and social factors that apply, consequences of failure and degree of control of the project
- project management principles and systems
- critical analysis in a project management context
- business and commercial issues related to the projects managed
- organisational and political environment
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that **must** be achieved **prior** to this unit: Nil
- **Co-requisite** units that **must** be assessed **with** this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC501B Promote the values and ethos of public service
  - PSPGOV502B Develop client services
  - PSPGOV503B Coordinate resource allocation and usage
  - PSPGOV504B Undertake research and analysis
  - PSPGOV505A Promote diversity
  - PSPGOV507A Undertake negotiations
  - PSPGOV512A Use complex workplace communication strategies
  - PSPGOV517A Coordinate risk management
  - PSPPM501B Design complex projects
  - PSPPM502B Manage complex projects
  - PSPPROC504A Finalise contracts

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- reviewing and closing complex projects in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, guidelines, procedures and protocols relating to project close-out
- workplace project documentation
- scenarios and case studies
- examples of project management tools suited to reasonably complex projects
Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when reviewing and closing complex projects, including coping with difficulties, irregularities and breakdowns in routine
- reviewing and closing complex projects in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- demonstration
- observation
- portfolios
- projects
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

For consistency of assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments

Unit Descriptor

This unit covers the work activities required to carry out complex project activities or multiple projects simultaneously. Typically this work is undertaken by project officers who are required to work on projects for multiple clients, or all aspects of larger projects. They are sometimes responsible for all the project deliverables, and at other times they work in teams on aspects of a number of projects. Contract management requirements are not included, as this aspect is addressed by units of competency within the Competency field of Procurement and Contract Management.

The unit includes reviewing and confirming requirements of each project/activity, organising and undertaking project activities, managing the progress of multiple projects/activities and finalising projects/activities.

In practice, conducting complex project activities overlaps with other generalist and specialist work activities such as acting ethically, coordinating resource allocation and usage, developing client services, undertaking research and analysis.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Application of the Unit

Elements and Performance Criteria Pre-Content
Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.
Elements and Performance Criteria

**ELEMENT**  | **PERFORMANCE CRITERIA**
--- | ---
1. **Review and confirm project requirements** | 1.1 Limits of own responsibility and reporting requirements are confirmed for each of the projects/project activities assigned.  
1.2 Information and supporting materials for each project/project activity are obtained in accordance with project requirements, organisational policy and procedures.  
1.3 *Project plans* are analysed and requirements, timeframes, roles, responsibilities and *stakeholder* involvement are confirmed for each.  
1.4 Project management procedures and controls are confirmed in accordance with each project plan, and any required changes are negotiated according to the project plan change management strategy.  
1.5 Project plans are updated with confirmed information for milestones, resources, team members and steering committee details.

2. **Organise and undertake project activities** | 2.1 Personal work plans are prepared to assign activities, timeframes and milestones for all projects/project activities to a single planning management framework to meet the progress requirements for each project/project activity.  
2.2 Where project requirements cannot be accommodated and clashes occur, negotiations are conducted with project managers and/or supervisory staff to find a compromise satisfactory to all stakeholders.  
2.3 Project tasks are accomplished in accordance with project plans and any changes are managed in accordance with the approved project change strategy.  
2.4 *Project data* is captured and recorded in accordance with project requirements.  
2.5 Specialist advice and support are provided to project managers, steering committees and stakeholders as required to achieve project objectives.

3. **Manage progress of multiple projects/activities** | 3.1 *Project management tools* are used for integration and timing of project activities and achievement of project outcomes.  
3.2 Risks to progress and achievement of project objectives are anticipated and reported to project management for action in accordance with *risk management* plans.  
3.3 Completion of project activities and progress against targets and milestones are monitored and corrective action is taken if needed, in accordance with project plans and in *consultation with project managers*.  
3.4 Problem solving to find innovative *solutions* to project
ELEMENT                  PERFORMANCE CRITERIA
problems or unplanned-for contingencies is undertaken in consultation with project management.
3.5 Progress reports are provided as required by project communication plans.

4. Finalise project activities
4.1 Project deliverables for each project/activity are completed to the required standard in the required timeframes.
4.2 Recordkeeping associated with each project is completed as required by project plans.
4.3 Project processes are evaluated, issues identified and recommendations made for continuous improvement of projects/activities.
4.4 Project reports are prepared containing required information completed to the required standard using agreed style, voice and formats.
4.5 Project hand-overs of deliverables and return of borrowed/unused materials are completed in accordance with project plans and organisational procedures.
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- managing the logistics of dealing with multiple projects/activities, masters and milestones
- managing self, time and costs
- using project management tools
- negotiating changes to timelines, roles and responsibilities
- communicating with project managers and other stakeholders using a range of communication styles to suit different audiences and purposes
- responding to diversity, including gender and disability
- recording information, writing recommendations and preparing reports requiring complex language structures and precision of expression
- applying workplace safety procedures in line with project requirements
- accessing/preparing information electronically or in hard copy

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, organisational policies and procedures that may impact on projects and management of the projects, for example:
  - public sector codes of ethics/conduct
  - occupational health and safety and environmental and sustainability standards
- project governance requirements
- quality standards
- risk management
- procurement
- financial management
- human resources
- equal employment opportunity, equity and diversity principles
- principles of project management
- project management tools to suit the combination of projects/activities carried out
- risk management strategies for carrying out multiple projects
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC501B Promote the values and ethos of public service

- reporting framework
- project management software and other tools:
  - Gantt and bar charts
  - Program Evaluation and Review Technique (PERT) charts
  - Critical Path Method
  - cost schedule control system
  - logistics support analysis
  - life cycle cost analysis
  - spreadsheets
  - recording systems - electronic and manual

Risk management may include:

- removing the risk
- transferring the risk
- minimising the risk
- accepting the risk
- preparing a contingency plan
- keeping reserves

Consultation with project managers may also include:

- steering committees
- project sponsors
- business owners of the projects
- program managers
- specialist project management office
- chief executive officer, manager or management representative
- funding body representatives
- customers or clients

Solutions to problems may include:

- reducing costs
- researching and applying more efficient methods of completing project tasks
- seeking further resources to meet deadline
- negotiating an extension of deadline or redefining completion or quantities or quality of outcomes
- sharing of ideas to gain improvements to work undertaken within the project
- outsourcing aspects of the project
- changing roles and responsibilities within project team

Unit Descriptor

This unit covers direction of project activities in situations where a person has strategic responsibility, accountability and decision making for the overall management of complex project(s). It includes identifying project scope in a strategic context, managing establishment and integration of project activities, and finalising and reviewing project activities. Contract management requirements are not included as this aspect is addressed by units of competency within the Competency field of Procurement and Contract Management.

In practice, directing complex project activities may occur in the context of other generalist and specialist work activities such as acting ethically, applying government systems, managing resources, managing client services, managing change.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify project scope in a strategic context | 1.1 Organisational requirements are anticipated/identified and communicated to project developers and managers.  
1.2 Project definition studies are undertaken and the results are analysed against similar projects already conducted to determine/approve the scope of projects.  
1.3 **Project infrastructure** is approved in accordance with organisational **policy and procedures**.  
1.4 Projects are initiated in accordance with the organisation's strategic direction in consultation with clients.  
1.5 Conceptual and analytical skills are applied to develop a management strategy to ensure project objectives and client requirements are met.  
1.6 An effective **risk management** system is developed and applied to ensure project objectives are met within the organisation's accountability framework. |
| 2. Manage establishment of projects | 2.1 The political context is managed and **stakeholder** expectations are influenced in accordance with organisational policy and procedures, to ensure endorsement and **whole-of-life support** for the project.  
2.2 Project scope and objectives are analysed to determine the **work breakdown structures** to achieve project objectives on time and within budget, and project infrastructure is acquired and allocated.  
2.3 **Project plans** are approved and a personal work plan for checking progress, mentoring, reading reports, providing feedback and authorising approvals is developed in accordance with project requirements.  
2.4 Processes identified for monitoring, evaluating and reporting performance against project objectives are established in accordance with project requirements. |
| 3. Manage integration of project activities | 3.1 All aspects of the project and related projects are **integrated** and links are established to ensure objectives remain appropriate.  
3.2 Consultation and reporting mechanisms are applied in accordance with project requirements to regularly consult with and provide advice to staff and contractors, and to discuss progress to ensure effective results.  
3.3 Stakeholders' motivations are identified and considered in the management of the project.  
3.4 Progress is monitored to ensure time, performance, cost and quality of project are achieved, and change proposals are investigated, negotiated and approved in consultation with...
ELEMENT | PERFORMANCE CRITERIA
--- | ---

stakeholders.

3.5 High-level judgment is applied to provide ongoing advice and to resolve disagreements and disputes to the satisfaction of parties involved.

4. Finalise and review project activities

4.1 Finalisation plans are developed to ensure all objectives are achieved, whole-of-life support will be maintained, and transition to next/following projects is facilitated.

4.2 *Documented information* is evaluated, and lessons learnt are analysed and reported to stakeholders to assist in continuous improvement.

4.3 Evaluation of project achievement against objectives is monitored in accordance with the evaluation framework and is reported to approval authorities and stakeholders in accordance with organisational policy and procedures.
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- managing projects
- leading and mentoring people to achieve project outcomes
- maintaining commitment of stakeholders and project teams
- negotiating with stakeholders and team members using a range of communication styles to suit different audiences and purposes
- responding to diversity, including gender and disability
- using project management tools applicable to complex project activities
- applying risk management techniques including risk sharing and transfer
- managing finances to bring in complex projects within budget
- applying ethical decision making and problem solving related to project management of complex projects
- writing recommendations and preparing reports requiring precision of expression
- applying workplace safety procedures in line with project requirements
- accessing/preparing information electronically or in hard copy

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, organisational/jurisdictional policies and procedures that may impact on project implementation, for example:
  - public sector codes of ethics/conduct
  - occupational health and safety and environmental and sustainability requirements
- project governance requirements
- quality standards
- risk management
- procurement guidelines
- budgetary framework
- financial management requirements
- human resources
- public relations
- equal employment opportunity, equity and diversity principles
- project specifications and objectives
- project management tools and techniques suited to a range of complex projects
activities

- project management systems
- organisational and political context
- critical analysis in a project management context
- cost schedule control systems to handle potential budget blow-outs
- business and commercial issues related to the projects managed
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite units** that must be achieved **prior** to this unit: Nil
- **Co-requisite units** that must be assessed **with** this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPGOV601B Apply government systems
  - PSPGOV604A Foster leadership and innovation
  - PSPGOV605A Persuade and influence opinion
  - PSPMNGT604B Manage change
  - PSPMNGT605B Manage diversity
  - PSPMNGT606B Manage quality client service
  - PSPMNGT608B Manage risk
  - PSPOHS602A Manage workplace safety
  - PSPPOL601A Develop public policy
  - PSPPROC602B Direct the management of contracts

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- complex project activities directed in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, guidelines, procedures and protocols relating to project management
- workplace project documentation
- scenarios and case studies to capture the range of situations likely to be encountered when directing complex project activities

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions
likely to be encountered when directing complex project activities, including coping with difficulties, irregularities and breakdowns in routine
• project activities directed in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
• people with disabilities
• people from culturally and linguistically diverse backgrounds
• Aboriginal and Torres Strait Islander people
• women
• young people
• older people
• people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:
• case studies
• demonstration
• portfolios
• questioning
• scenarios
• authenticated evidence from the workplace and/or training courses

For consistency of assessment
Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in bold italics in the Performance Criteria is explained here.

**Project infrastructure** may include:
- resources including budget
- specialist and technical support
- contractors
- project management skills required
- make-up of project team
- developing the team
- steering committee
- project site, equipment, technology, consumables

**Policy and procedures** may include:
- government legislation (Federal, State and Local) affecting organisation's administration such as:
  - public sector management acts
  - financial management and accounting legislation and regulations
  - privacy legislation
- government and organisational guidelines and procedures relating to:
  - project governance
  - resourcing
  - security
  - strategic plans
  - recruitment
  - risk management
  - procurement guidelines
  - designation approvals
  - industrial agreements
  - environment and sustainability

**Risk management** may include:
- acceptance
- avoidance
- transfer
- minimisation

**Stakeholders** may include:
- project sponsor/funding bodies
- clients or customers (internal and external)
- industry
- other agencies
- general public
- relevant interest groups
- unions
- functional areas
- the organisation's senior management
- Ministers
- project team
- steering committee
- end user
- supplier/service provider

**Whole-of-life support** may include:

- maintenance
- supply
- technical data
- personnel
- training
- facilities
- packaging, handling
- storage and transportation
- support and test equipment
- computing support

**Work breakdown structures** may include:

- how the work is to be performed and how cost and schedule data are to be tracked and reported
- identification of project tasks
- identification of specific management responsibilities for tasks

**Project plans** will include some or all of:

- acquisition strategies
- budget and financial management strategy
- contract management
- cost estimates
- evaluation criteria
- expected outcomes/measureable benefits of the project
- facilities
- inclusions and exclusions from project
- information/communication strategy
- intellectual property strategies
- milestones
- objectives
- outputs/project deliverables and their acceptance criteria
- people plan including human resource management and human resource development
- performance criteria/indicators
- project control mechanisms
- project implementation strategy
- project governance strategy
- purpose
- quality assurance
- quality control
- quality standards for project
- rationale
- required project resources
- resource management
- risk management
- roles and responsibilities
- schedule/timeline
- task/work breakdown structure (WBS)

Integration of project activities may include:

- scope
- time
- cost
- quality
- human resources
- communications
- risk
- procurement
- organisational project management framework

Documented information may include:

- statement of requirement/work
- industry development proposals
- project plans
- risk and issues plan and log
- transition plans
- project completion report
- supplier performance reports
- whole-of-life support plans
- reports detailing strategies
- performance evaluation criteria
- project team work plans

Unit Descriptor

This unit covers assistance in the planning, research and writing of policy, typically provided by a policy research officer. It includes assisting with policy development planning, researching, contributing to the developments of policy options, and assisting with drafting and dissemination of policy.

Contribution to the development of policy expected of all public sector staff is covered in PSPPOL401A Contribute to policy development, rather than this specialist unit.

In practice, assisting with specialist policy development may overlap with other generalist or specialist work activities such as applying government processes, providing client services, gathering and analysing information, providing input to change.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

Application of the Unit

Not applicable.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.
Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in bold italics is explained in the Range Statement following.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| **1. Assist with policy development planning** | 1.1 Research is conducted into the wider internal and external environment to identify related policies for context and identify other policies likely to be impacted.  
1.2 Internal and external **stakeholders** are identified and prioritised and their contact details are checked to ensure that key individuals and groups are engaged as early as possible and throughout the **policy** development process.  
1.3 **Key aspects** to be included in the policy development plan are identified and research assistance is provided to determine the content of each in accordance with organisational requirements. |
| **2. Research information for policy development** | 2.1 **Sources** of information are identified and **evaluated**.  
2.2 Information required to support the policy development process is gathered and collated in accordance with organisational requirements.  
2.3 Gaps, ambiguity and conflicting views in the information are identified, recorded and referred to the principal policy developer, or additional research is conducted to clarify them. |
| **3. Contribute to the development of policy options** | 3.1 Possible policy options are formulated and analysed under guidance, to identify their strengths and weaknesses.  
3.2 Possible **criteria for choosing** preferred policy option are researched and prioritised in terms of their applicability to the task. |
| **4. Assist in drafting policy** | 4.1 Initial drafts or selected sections of the policy are written in accordance with organisational requirements.  
4.2 Written and oral feedback from stakeholders is captured and included in re-drafting as required.  
4.3 The progress of policy development against the timeframe and milestones is monitored and reminders are provided to keep the process on track in accordance with the policy development plan.  
4.4 Policy writing is undertaken in accordance with **organisational requirements for style, format and contents**. |
| **5. Assist with policy dissemination** | 5.1 Recipients for approved policy documents, particularly those who will be responsible for implementing the new or revised policy, are identified and information is provided on the **outcomes** in accordance with organisational requirements.  
5.2 Routine enquiries on the release and content of the policy are dealt with or referred in accordance with organisational procedures. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- reading and evaluating complex and formal documents such as policy and legislation
- researching, analysing and presenting information
- preparing written reports requiring precision of expression and language and structures suited to the intended audience
- working with others to consult on and validate policy
- adjusting communication to suit different audiences
- responding to diversity, including gender and disability
- reconciling different points of view and conflicting information
- accessing policies and legislation electronically or in hard copy
- identifying and addressing the environmental, sustainability and occupational health and safety implications of policy/s being developed

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- policy development processes and practices in the public sector
- the policy cycle
- current policies underpinning the work area
- policy research methods and protocols
- organisation and government procedures and protocols
- public sector code/s of ethics and code/s of conduct
- principles of community engagement in policy development
- equal employment opportunity, equity and diversity principles
- environmental, sustainability and occupational health and safety implications of policy/s being developed
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- Pre-requisite units that must be achieved prior to this unit: Nil
- Co-requisite units that must be assessed with this unit: Nil
- Co-assessed units that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPGOV402B Deliver and monitor service to clients
  - PSPGOV405B Provide input to change processes
  - PSPGOV406B Gather and analyse information
  - PSPGOV408A Value diversity
  - PSPGOV422A Apply government processes

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- assistance with specialist policy development in a range of (2 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- public sector policy and legislation
- public sector standards, procedures and protocols
- policy development guidelines
- guidelines for public sector research

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when assisting with the development of policy, including coping with difficulties, irregularities and breakdowns in routine
- assistance with specialist policy development in a range of (2 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as
literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

**Stakeholders** may include:

- all those individuals and groups both inside and outside the organisation that have some direct interest in the organisation's conduct, actions, products and services, including:
  - employees at all levels of the organisation
  - other public sector organisations
  - private sector organisations
  - non-government organisations
  - other jurisdictions
  - union and association representatives
  - boards of management
  - government
  - Ministers
  - clients
  - the public
  - special interest groups

**Policy** may include:

- public policy
- public sector policy
- central agency policy
- whole of government policies
- international policy
- organisational policy relating to a range of functions, such as:
  - human resources
  - administration
  - financial management
  - work practices
  - training
  - information technology
  - technical/professional requirements
  - environmental and sustainability practices

**Key aspects of the policy development plan** may include:

- context
- rationale
include:
- issues to be addressed
- expected outcomes
- timeframe
- research methods
- resource requirements for development
- key stakeholders
- communication strategy
- feedback mechanisms for review
- milestones
- precedents
- risk analysis
- possible complications
- success measures
- possible resource implications for implementation

Sources of information may include:
- stakeholder consultation and submissions
- focus groups
- developments in other public sector or private sector organisations
- similar policies and practices that may be benchmarked
- current and closed files
- surveys
- literature reviews
- Internet

Evaluation of information sources may be in terms of:
- sufficiency
- authenticity
- appropriateness
- currency

Criteria for choosing preferred policy option may include:
- likely effectiveness
- implementation timeframe and costs (including infrastructure)
- interaction with other policies (existing or being developed)
- consistency with broader government agendas

Organisational requirements for style, format and contents may require policies to be:
- forward-looking
- outward-looking
- principles-based
- innovative, creative, flexible
- evidence-based
- inclusive
- consistent
Outcomes of the policy development process may include:

- self-contained, with adequate coverage of the subject matter
- accessible to the intended audience/understandable to all users
- in gender-neutral non-discriminatory language
- nature of the policy change
- match with stakeholder expectations
- implementation requirements
- expected costs
- timelines
- contextual factors (including any impact on other related policies)

Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- reading complex and formal documents such as policy and legislation and providing information on their application
- researching and providing information
- preparing written reports requiring accuracy of expression and language and structures suited to the intended audience
- working with legislation drafters and legal advisers
- writing guidelines in plain English
- working as a member of a team to consult on and prepare policy guidelines
- adjusting communication to suit different audiences
- responding to diversity, including gender and disability
- gathering and analysing policy feedback
- accessing policies and legislation electronically or in hard copy
- identifying and addressing the environmental and occupational health and safety implications of policy/s being implemented

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- practices and procedures for developing policy guidelines
- policy feedback mechanisms
- current organisation policies
- whole of government policies and international policy obligations that impact on organisation policy
- organisation and government procedures and protocols
- public sector code/s of ethics and code/s of conduct
- equal employment opportunity, equity and diversity principles
- environmental and occupational health and safety implications of policy/s being implemented
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

### Units to be assessed together

- **Pre-requisite units** that must be achieved prior to this unit: Nil
- **Co-requisite units** that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPGOV402B Deliver and monitor service to clients
  - PSPGOV405B Provide input to change processes
  - PSPGOV406B Gather and analyse information
  - PSPGOV408A Value diversity
  - PSPGOV422A Apply government processes

### Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- policy information given and received in a range of (3 or more) contexts (or occasions, over time)

### Resources required to carry out assessment

These resources include:

- public sector policy and legislation
- public sector standards, procedures and protocols
- guidelines and protocols for developing policy guidelines

### Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when giving and receiving organisation policy, including coping with difficulties, irregularities and breakdowns in routine
- policy information given and received in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- portfolios
- projects
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses methods

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

**Organisation policy** may include:
- any aspect of an organisation's business, such as policies relating to:
  - core business
  - client services
  - business structure
  - human resources
  - administration
  - financial management
  - work practices
  - training
  - information technology
  - technical/professional requirements

**Policy guidelines** may include:
- advice on:
  - interpretation of policy intent
  - application of principles-based policy
  - policy implementation
  - processes and procedures

**Consultations** may be with:
- policy developer
- legal advisers (as policy is increasingly expressed in legislation rather than administrative directions)
- legislation drafters
- management
- end users

**Diversity** may include:
- age
- cultural background
- educational level
- ethnicity
- expertise
- family responsibilities
- gender
- interests
- interpersonal approach
- language
- life experience
- marital status
- personality
- physical ability
- political orientation
- religious belief
- sexual orientation
- socio-economic background
- thinking/learning styles
- work experience
- working styles

Not applicable.
Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in *bold italics* is explained in the Range Statement following.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Identify relevant policy** | 1.1 *Work situations* that are shaped by government or organisation policy are identified in accordance with public sector guidelines.  
1.2 *Policy* relating to particular work situations is identified and located. |
| 2. **Implement policy** | 2.1 Policy to be implemented is interpreted under direction to identify and plan for change in work practices.  
2.2 The implications of policy for individual work practices are identified, and practices are confirmed/adjusted to reflect policy requirements in accordance with organisational procedures.  
2.3 Others affected by policy requirements are supported to accommodate those requirements.  
2.4 Policy is implemented to support achievement of outcomes intended in specific work areas. |
| 3. **Monitor and report on policy implementation** | 3.1 Information that will assist with the evaluation of the effectiveness of policy implementation is gathered, recorded and reported under direction in accordance with organisational procedures.  
3.2 *Information* that will assist with the evaluation of the impact of policy implementation on organisational outcomes is gathered, recorded and reported under direction in accordance with organisational procedures. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- reading complex and formal documents such as policy and legislation and providing information on their application
- researching and providing information
- preparing written reports requiring accuracy of expression and language and structures suited to the intended audience
- working with legislation drafters and legal advisers
- writing guidelines in plain English
- working as a member of a team to consult on and prepare policy guidelines
- adjusting communication to suit different audiences
- responding to diversity, including gender and disability
- gathering and analysing policy feedback
- accessing policies and legislation electronically or in hard copy
- identifying and addressing the environmental and occupational health and safety implications of policy/s being implemented

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- practices and procedures for developing policy guidelines
- policy feedback mechanisms
- current organisation policies
- whole of government policies and international policy obligations that impact on organisation policy
- organisation and government procedures and protocols
- public sector code/s of ethics and code/s of conduct
- equal employment opportunity, equity and diversity principles
- environmental and occupational health and safety implications of policy/s being implemented
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- *Pre-requisite* units that must be achieved prior to this unit: Nil
- *Co-requisite* units that must be assessed with this unit: Nil
- *Co-assessed units* that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to, public sector generalist and specialist units in the Certificate IV in Government.

Choice from the following is recommended:

- PSPGOV402B Deliver and monitor service to clients
- PSPGOV403B Use resources to achieve work unit goals
- PSPGOV408A Value diversity
- PSPGOV422A Apply government processes
- PSPREG407B Produce formal record of interview
- PSPREG410B Give evidence
- PSPPROC409A Receive and select offers

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- policy implementation supported in a range of (2 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- relevant policy and legislation
- public sector standards, procedures and protocols
- policy guidelines

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when supporting policy implementation, including coping with difficulties,
irregularities and breakdowns in routine
- policy implementation supported in a range of (2 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:
- case studies
- portfolios
- projects
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

For consistency of assessment
Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in *bold italics* in the Performance Criteria is explained here.

*Work situations* may include:
- processes
- outcomes
- priorities
- client services
- core business
- service delivery mode/s
- organisational structure

*Policy* may include:
- government policy
- organisation policy

*Information for evaluation* may include:
- statistical data
- qualitative data
- anecdotal feedback
- survey data
- stakeholder opinions

Unit Descriptor

This unit covers the requirements of giving evidence in a range of legal proceedings. It includes preparing for proceedings, presenting evidence, and following up outcomes of proceedings.

In practice, giving evidence may overlap with other generalist or specialist public sector work activities such as acting ethically, complying with public sector legislation, applying government processes, working with interpreters.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Not applicable.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.
**Employability Skills Information**

This unit contains employability skills.

**Elements and Performance Criteria Pre-Content**

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in *bold italics* is explained in the Range Statement following.

**Elements and Performance Criteria**

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Prepare for proceedings | 1.1 *Arrangements for, role and involvement* in proceedings are confirmed.  
1.2 *Documentation and exhibits* are prepared in accordance with *legislation, policy and procedures*.  
1.3 Any *witnesses* are supported as required, in accordance with organisational policy and procedures, to attend proceedings and give evidence. |
| 2. Present evidence | 2.1 *Protocols* and *rules of evidence* relevant to the setting and the organisation involved are adhered to throughout proceedings.  
2.2 Feedback from counsel and/or police and comments by *deciding authority* are noted and incorporated.  
2.3 *Evidence* is presented in a clear, concise and articulate manner in accordance with organisational standards.  
2.4 Quality and *standard of evidence and presentation* enhance the reputation and image of the organisation with the public, legal profession and colleagues.  
2.5 Considered expert evidence is provided on request in accordance with the organisation's policy and consistent with qualifications and expertise. |
| 3. Follow up outcomes of proceedings | 3.1 The outcomes of the proceedings are noted and filed, and reports are completed where required according to organisational requirements.  
3.2 Any *required actions* are implemented in accordance with organisational policies and procedures. |
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

Skill requirements

Look for evidence that confirms skills in:

- presenting evidence clearly and concisely
- writing reports
- word processing
- taking notes
- communicating with people from diverse backgrounds
- responding to diversity, including gender and disability
- making comparisons and exercising judgment about facts in written materials
- report writing using formal structures and language
- applying public sector standards and legislation such as occupational health and safety and environment in the context of giving evidence

Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- court prosecution processes
- common law versus judicial precedent versus legislation
- specific powers of the organisation
- court/tribunal/commission structures
- jurisdiction of each court/tribunal/commission
- appeals systems
- role of legal personnel in judicial or quasi-judicial systems
- procedures and protocols in different judicial or quasi-judicial systems
- types of offences
- general principles of criminal liability
- exemptions and defences
- types of evidence admissible in judicial or quasi-judicial systems
- legislative requirements of presenting evidence
- use of notes in court/tribunal/commission
- organisation policies and procedures relating to preparation of documents and evidence and providing expert opinion
- public sector legislation such as occupational health and safety and environment relating to the presentation of evidence
Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

Units to be assessed together

- **Pre-requisite** units that must be achieved prior to this unit: Nil
- **Co-requisite** units that must be assessed with this unit: Nil
- **Co-assessed units** that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPLEGN401A Encourage compliance with legislation in the public sector
  - PSPGOV408A Value diversity
  - PSPGOV419A Work with interpreters
  - PSPGOV422A Apply government processes
  - PSPREG401C Exercise regulatory powers

Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- giving evidence in a range of (3 or more) contexts (or occasions, over time)

Resources required to carry out assessment

These resources include:

- legislation, policy, procedures and protocols relating to presentation of evidence
- case studies and workplace scenarios to capture the range of likely offences for which evidence needs to be presented

Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when giving evidence, including coping with difficulties, irregularities and breakdowns in routine
- giving evidence in a range of (3 or more) contexts (or
Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse backgrounds
- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- demonstration
- observation
- questioning
- scenarios
- simulation or role plays
- authenticated evidence from the workplace and/or training courses

For consistency of assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.
Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in **bold italics** in the Performance Criteria is explained here.

**Arrangements for, role and involvement** may include:
- confirmation of time, date and location of proceedings
- confirmation of evidence required to be presented
- working with/briefing legal counsel

**Proceedings** may include:
- criminal, coronial and civil courts
- defence tribunals
- industrial relations commissions
- State industrial tribunals
- workers compensation tribunals
- human rights commissions
- equal opportunity commissions
- land and environment courts
- royal commissions
- disciplinary hearings
- administrative reviews
- Parliamentary hearings

**Documentation and exhibits** may include:
- reports
- photographs
- items of evidence
- media footage
- reports of incidents
- files, correspondence, meeting notes
- radio/telephone record logs

**Legislation, policy and procedures** may include:
- legislation relevant to proceedings
- legislation relevant to the organisation
- operational performance standards
- organisational personnel practices and guidelines
- organisational quality standards

**Witnesses** may include:
- those directly involved
- bystanders
- experts
- organisational personnel
- distressed or unwilling witnesses
Protocols may include:
- complainants
- rules of court
- correct mode of address for judges, magistrates and other court users, in and out of court
- procedures for entering and leaving a courtroom
- complying with security procedures
- file handling procedures
- procedures for handling exhibits

Rules of evidence include:
- admissibility
- contemporaneousness

Deciding authority may include:
- magistrate
- judge

Evidence may include:
- different aspects in chief, cross-examination and re-examination

Standards for giving evidence may include:
- voice clarity
- language
- impartiality
- respect for people and offices held
- standards of dress
- forms of address

Required action may include:
- follow-up action with legal authorities
- re-listing for conciliation conference or arbitration
- dealing with evidence, which may include disposal
- preparing agreed orders
- updating files
- closing files

PUACOM009B Release 1: Primary release.

Unit Descriptor
This unit covers the development of a media strategy and the management of the media and provision of information for a major incident.

Application of the Unit
This unit applies to public safety workers who have been delegated media liaison responsibilities during major incidents, either at the scene or in a command centre.

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements describe the essential outcomes of a Unit of Competency. Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
# Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| **1. Assess scene and organisation requirements** | 1.1 Restricted and/or special access areas are clearly defined to media personnel to safeguard the operation and prevent contamination of evidence.  
1.2 Media access to personnel/volunteers/victims/casualties is controlled.  
1.3 Operational responsibilities and provision of information to media is assessed. |
| **2. Develop media strategy** | 2.1 Media plan is used to form the media strategy  
2.2 Arrangements are made to meet *media requirements* according to incident characteristics and current developments.  
2.3 Organisational media representative is selected and briefed according to availability, knowledge of incident, media presence and role played in the incident.  
2.4 Media briefing area is allocated with required resources where possible.  
2.5 Media co-operation is gained in order to co-ordinate *information* flow and to provide information to the public on matters of safety and public interest.  
2.6 Media strategy is changed at any time to suit operational demands and level of incident.  
2.7 Approval is gained for information releases where appropriate.  
2.8 Information briefing sessions and tours are scheduled at appropriate times in line with operational responsibilities and media requirements.  
2.9 Media personnel and VIP are provided with Occupational Health and Safety clothing where appropriate. |
| **3. Provide information to media** | 3.1 Organisational protocols are followed when liaising with the media.  
3.2 Organisational media representative provides current developments of incident where appropriate.  
3.3 Interview and photo opportunities are scheduled and conducted to provide information where appropriate.  
3.4 Other organisations are consulted with at the incident to ensure a consistent presentation of information to the media.  
3.5 Accurate records of media enquiries and interviews |
3.6 A two-way communication process between organisation and media is maintained.

4. Promote the organisation via the media

4.1 Work and achievements of organisation, volunteer and other organisation personnel at incident is promoted throughout the incident to assist in maintaining morale and public profile.

4.2 Own demeanour and presentation reflects the professional standards of the organisation and support for victims and others affected by the incident.

Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- attention to detail
- communicating facts in a fluent, clear and interesting manner
- conducting press conferences and group interviews
- empathy with victims and operational personnel
- liaison with media and other organisation personnel
- media presentation
- public speaking
- retaining professionalism under duress

Required Knowledge

- knowledge of current practices for media liaison
- legal and organisation requirements relating to confidentiality, libel, accuracy, discrimination
- newsworthiness of information
- requirements of different media newspapers, magazines, radio, television
- requirements of local v's regional v's national media
- requirements of media to present information in a newsworthy/entertaining manner
- role of media in disseminating information

Unit Descriptor

This unit covers the competency of building networks which facilitate the promotion and representation of the organisation.

Application of the Unit

This unit applies to public safety managers with a broad and strategic role in promoting the organisation’s mission and services.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

PUACOM007B Liaise with other organisations (Fire sector specific)

Employability Skills Information

This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency. Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where *bold italicised* text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
# Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Build networks and develop working relationships | 1.1 Formal and informal networks are established at the local, regional and national levels to support ongoing and future liaison and collaboration.  
1.2 The roles and responsibilities of *stakeholders* are recognised and taken account of in interactions.  
1.3 Working relationships are developed with stakeholders and used in a way which provides identifiable benefits to the organisation and the community from shared expertise and resources.  
1.4 Dealings with stakeholders are conducted in line with ethical and professional standards to develop a relationship of trust and mutual understanding.  
1.5 Feedback is obtained from other organisations and governments to inform and improve service delivery. |
| 2. Represent the organisation | 2.1 The organisation's message is imparted accurately and in a clear, concise and confident manner to gain stakeholder's understanding and commitment.  
2.2 The organisation's representation is sought and promoted on external bodies.  
2.3 Opportunities to promote the organisation through media, government and the community are utilised in a positive and constructive manner, in line with organisational requirements.  
2.4 Advice to stakeholders is provided consistent with organisation policy, needs, quality standards and legislative responsibilities.  
2.5 Advice is provided in the context of strategic planning for the organisation.  
2.6 Advice is provided confidentially on matters sensitive to governments and the organisation, in line with privacy and confidentiality legislation and guidelines. |
Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills
- building networks and relationships
- gaining cooperation of others
- speaking publicly

Required Knowledge
- confidentiality requirements
- goals and objectives of the organisation
- legislation
- organisation policies
- regulation
- responsibilities of three levels of government relevant to the organisation
- roles and responsibilities of other agencies and relevant organisations
- statutes impacting on the organisation

Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit

It is essential for this unit that competence be demonstrated in establishment and maintenance of networks which will promote the organisation and achieve the organisation's outcomes.

Consistency in performance
Evidence should be gathered over a period of time in a range of actual or simulated workplace environments.

Context of assessment
On the job or in a simulated work environment.

Specific resources for assessment
No special requirements.
Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the Performance Criteria is detailed below.

**Stakeholders** may include:
- local
- state/territory and federal governments
- industry
- national and international associations
- other emergency management and non-government organisations e.g. Red Cross/Salvation Army/Cave Rescue
- volunteers
- community groups
- technical advisers
- consultants
- work groups and individuals internal to the organisation
- customers
- utilities

Unit Sector(s)

Not applicable.
PUADEFCH001B Provide pastoral care

Modification History
Not applicable.

Unit Descriptor

This unit covers the competency required to provide pastoral care and counsel to members of an organisation.

Chaplains are required to be religious leaders immersed in the practices of their accredited faith group and to operate within a spiritual framework. This includes the provision of spiritual advice and support on a day-to-day basis to members of the organisation and their family members.

This competency is required by all Defence chaplains.

Application of the Unit

The application of this unit in the workplace - the environments, complexities and situations involved - will be written during Phase II of the Review of the PUA00 Public Safety Training Package.

This text will be useful for the purposes of job descriptions, recruitment advice or job analysis; where possible, it will not be too job specific to allow other industries to import it into other Training Packages, where feasible.

Licensing/Regulatory Information

</table>
| 1. **Encourage spiritual formation in the organisation** | 1.1 Mental, emotional and spiritual well being of the *organisation* community is monitored and documented  
1.2 Frameworks for responding to crises are provided in accordance with *organisational requirements*  
1.3 Opportunities for the organisation community to deepen spiritual awareness are provided  
1.4 Spiritual quests of the organisation community are attended to |
| 2. **Provide supportive networks** | 2.1 Information on availability of chaplaincy and other pastoral services is provided to the organisation and organisation members  
2.2 *Pastoral care* and welfare programs are implemented in accordance with organisational requirements  
2.3 Collaborative relationships with local clergy are established  
2.4 Family members are supported in their home in accordance with organisational requirements  
2.5 Liaison with support agencies is undertaken and maintained |
| 3. **Administer the pastoral care of the organisation** | 3.1 The specific needs of organisation members are determined through consultation  
3.2 An appropriate program is developed in liaison with the organisation members and coordinating authority  
3.3 Pastoral care is provided for organisation members in accordance with organisational requirements  
3.4 Pastoral support to organisational members in their work, home and leisure environments is provided in accordance with organisational requirements  
3.5 Pastoral support is provided to family members in crisis in accordance with organisational requirements  
3.6 Pastoral issues and trends are reported in accordance with organisational requirements |
| 4. **Counsel organisation members and their** | 4.1 Assessment of the organisation's members seeking counsel is conducted in accordance with |
families

4.2 Relationship is established and maintained with community members

4.3 Pastoral counselling is conducted in accordance with organisational requirements

4.4 Community members are referred to appropriate agencies in accordance with organisational requirements

4.5 Post trauma pastoral care programs are implemented as required

5. Maintain records

5.1 Pastoral care and counselling proceedings are documented in accordance with organisational policy

5.2 Records are maintained in accordance with organisational requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- meet denominational or multi-faith requirements
- communication skills including the capacity to:
  - read and interpret spoken and written texts which include abstract ideas and symbolism
  - present abstract and symbolic ideas to groups and individuals
  - take part in and facilitate interpersonal exchanges with groups and individuals, selecting language style suitable to audience and context for the purpose of establishing, maintaining and developing relationships, exploring issues and or problem solving
  - actively listen, summarise and clarify ideas
  - provide positive and empathetic feedback
  - use a variety of verbal and non-verbal communication techniques including body language, language style and gesture
  - follow instructions and report information
  - organisational
  - planning
  - counselling
  - facilitate small group discussion
  - liaison
  - analytical and evaluation
  - retain professionalism under duress
  - encourage members of faith group

Required Knowledge

- world religions together with associated religious beliefs and practices
- denominational doctrines, worship and practices
- principles of chaplaincy care
- relevant organisational processes and protocols
- relevant records maintenance requirements
- relevant support agencies
- code of behaviour
- organisation guidelines and standards for privacy, confidentiality, defamation, duty of care
- professional codes of practice
- ethical standards
- verbal and non-verbal communication techniques including body language, language style, active listening, questioning
REQUIRED SKILLS AND KNOWLEDGE

- composition of faith group

Evidence Guide

EVIDENCE GUIDE

| Critical aspects for assessment and evidence required to demonstrate competency in this unit | Assessment must confirm the ability to meet denominational or multi-faith requirements and to facilitate the spiritual formation of the organisation |
| Context of and specific resources for assessment | It is essential that competency in this unit is demonstrated through the provision of pastoral care in a caring, non-intrusive and non-judgemental manner |

**Consistency in performance**

Competency should be demonstrated over time in a range of actual and/or simulated pastoral care contexts to ensure competency is demonstrated in a full range of pastoral care, support and counselling activities

**Context of assessment**

Competency should be assessed in the workplace or in a simulated work environment.

When assessing this unit consideration should be given to limitations placed on the provision of pastoral care due to specific organisational policies.

**Specific resources for assessment**

There are no special resource requirements for this unit

**Guidance information for assessment**

Information that will assist or guide assessment will be written during Phase II of the Review of the PUA00 Public Safety Training Package.

Elements describe the essential outcomes of a Unit of Competency. Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the Required Skills and Knowledge and/or the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Identify the issue(s)** | 1.1 Circumstances that require the provision of *ethical and pastoral advice* are observed, received and clarified  
1.2 Issues are identified and confirmed if necessary through consultation with appropriate personnel |
| 2. **Analyse and research the issue(s)** | 2.1 Circumstances are analysed and the issue(s) are interpreted and clearly defined  
2.2 *Research* related to the issue(s) is conducted and the findings are analysed and recorded  
2.3 Manner of pastoral advice to be provided is determined |
| 3. **Provide ethical and pastoral advice** | 3.1 An affiliation is established with the organisation member(s)  
3.2 Ethical and pastoral advice is provided within specified time, confidentiality constraints and in accordance with *organisational requirements* or *ethical and moral guidelines*  
3.3 Decisions are made in consultation with appropriate personnel, based on the advice provided |
| 4. **Review ethical and pastoral advice** | 4.1 Ethical and pastoral advice is analysed in accordance with standard review procedures  
4.2 Conclusions on the ethical and pastoral advice are determined following the analysis  
4.3 Identified deficiencies in ethical and pastoral advice are addressed and corrected |
Required Skills and Knowledge

REQUARED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- meet denominational or multi-faith requirements
- communication skills include the capacity to:
  - gather information from a variety of sources and using range of media
  - analyse complex personal and organisational issues
  - take part in and facilitate interpersonal exchanges with groups and individuals, selecting language style suitable to audience and context for the purpose of establishing, maintaining and developing relationships, exploring issues and/or problem solving
  - actively listen, summarise and clarify ideas
  - provide positive and empathetic feedback
  - liaison
  - facilitation
  - retain professionalism under duress
  - empathy

Required Knowledge

- world religions together with associated religious beliefs and practices
- denominational doctrines, worship and practices
- specialised information sources
- research techniques
- analysis and interpretation processes
- relevant organisational requirements
- code of behaviour
- organisation guidelines and standards for privacy, confidentiality, defamation, duty of care
- professional codes of practice
- ethical standards
- verbal and non-verbal communication techniques including body language, language style, active listening, questioning
## Evidence Guide

### Evidence Guide

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to identify the issues, conduct research, analyse and interpret information and to meet denominational or multi-faith requirements in the framing and presenting of ethical and pastoral advice.

The chaplain must at all times comply with professional code of practice ethical standards and demonstrate an awareness of access, equity and diversity principles and practices.

#### Consistency in performance

Competency should be demonstrated in a range of actual or simulated ethical and pastoral advisory contexts.

#### Context of and specific resources for assessment

**Context of assessment**

Competency should be assessed by observing a chaplain in an advisory role within the workplace or simulated environment.

When assessment is conducted in a simulated environment, the simulation should re-create realistic workplace scenarios which may include role plays based on a full range of ethical and pastoral advice, covering all of the critical aspects of evidence.

**Specific resources for assessment**

There are no special resource requirements for this unit.

#### Guidance information for assessment

Information that will assist or guide assessment will be written during Phase II of the Review of the PUA00 Public Safety Training Package.
## RANGE STATEMENT

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the Performance Criteria is detailed below.

| **Organisation may include** | Australian Defence Force  
Police forces  
Fire services  
Emergency services |
|-----------------------------|--------------------------------------------------|
| **Ethical and pastoral advice may be** | Provided by a chaplain dealing with ethical, personal, professional, vocational, religious, spiritual, morale, or moral problems or circumstances  
Provided to members of an organisation as individuals or in their capacity as supervisors/managers  
Formal or informal, written or verbal |
| **Research may include** | The chaplain seeking assistance from the organisation staff or chaplains of other faiths to analyse and interpret information  
Research may be limited by time or confidentiality constraints |
| **Organisational requirements may include** | Legislation  
Policies  
Procedures  
Practices  
Standards  
Conventions  
Goals, objectives, plans, systems and processes  
Access, equity and diversity principles and practices  
Quality and continuous improvement processes and standards  
Performance plans  
Defined resource parameters |
| **Ethical and moral guidelines should** | Comply with professional codes of practice, ethical standards and may include denominational or multi-faith requirements |
RANGE STATEMENT

Unit Sector(s)

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- evaluate and prioritise risks
- facilitation
- identification of stakeholders
- negotiation with stakeholders
- problem definition
- risk analysis
- use emergency risk modelling processes to estimate risk

Required Knowledge

- emergency management concepts
- knowledge of current principles and practices to conduct activities which exercise elements of public safety management
- principles and guidelines
- problem solving and decision making techniques
- research, demographic and economic analysis techniques

Evidence Guide

EVIDENCE GUIDE
## EVIDENCE GUIDE

### Critical aspects for assessment and evidence required to demonstrate competency in this unit

It is essential that the interactions between hazards, communities and environments be fully identified and described. Evaluation of risk must be undertaken against established criteria in consultation with relevant communities.

### Consistency in performance

Candidates should be expected to present evidence from within a real environment.

### Context of and specific resources for assessment

**Context of assessment**

Evidence of competence in this unit should be collected from within a real environment.

**Specific resources for assessment**

For the demonstration of competence in this unit it will be necessary to work within a real life environment. Underpinning knowledge may be assessed through written assignments, project reports, debriefings and action learning projects.

### Guidance information for assessment

Information that will assist or guide assessment will be written during Phase II of the Review of the PUA00 Public Safety Training Package.
Range Statement

RANGE STATEMENT

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the Performance Criteria is detailed below.

RANGE STATEMENT

manufacturing sector
The food processing group)
Functionally-based groupings such as service providers responsible for systems or networks which provide for the movement of people
Goods
Services and information on which health, safety comfort and economic activity depends (lifelines)
Organisationally-based groupings such as Government organisations
non-government organisations
Members of Parliament

Hazards may include

any situation
condition or thing that has the potential to disrupt damage or bring loss to things people value
Natural hazards. These include events such as:
• bushfire
• severe storm
• flood
• cyclone
• storm surge
• earthquake
• and extreme heat or cold
Technological hazards are those events caused by the failure of socio-technical systems. These include events such as:
• dam/levee failure and systems failures related to
• agriculture (eg drought)
• food contamination
• industrial sites
• infrastructure and transportation
Biological hazards. These include the spread of disease among plants, animals or people
Civil/political hazards. These include events such as:
• terrorism
• sabotage
### RANGE STATEMENT

- civil unrest
- hostage situations and enemy attack

#### The environment

The environment is a set of conditions or influences which surround or interact with communities and hazards.

- **Built Environment** - elements such as buildings and infrastructure which provide for the movement of people, goods and services
- **Physical Environment** - elements from the natural environment such as:
  - topographical features
  - water bodies
  - vegetation communities
  - and ecosystems

#### Concepts of the environment may include

- **Social Environment** - elements such as:
  - politics
  - economics
  - commerce
culture and public safety service provisions which relate to how the community functions

#### Characteristics of hazards communities and environments include

Determination of information about significant fields such as:

- likelihood
- spatial distribution
- intensity speed of onset
- duration and the concern that the hazard arouses in the community

#### Standards and guidelines are to include

- Australian Standard AS/NZS 4360
- Emergency Risk Management Guidelines 1999

Corequisite Unit/s

Co-requisite Unit/s  Nil
PUAEMR009B Facilitate emergency risk assessment

Modification History
PUAEMR009B Release 2: Layout adjusted. Minor edits to unit wording.
PUAEMR009B Release 1: Primary release.

Unit Descriptor
This unit describes the outcomes required to facilitate development of an agreed list of prioritised risks using an emergency risk management process developed in close cooperation with the community and consistent with the Australian Standard AS/NZS ISO 31000:2009. No licencing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Application of the Unit
This unit applies to workers who undertake emergency risk assessment with a community or part of a community. Such assessments are conducted at local, regional or state level by local governments, emergency management committees, public safety agencies, major event managers or other organisations that need to understand emergency risk to a community. This unit is relevant to individuals whose role is to act as the project manager or facilitator for working groups used to conduct an emergency risk assessment.

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.

Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where *bold italicised* text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
## Elements and Performance Criteria

### 1 Identify, define and engage the community

1.1 A community profile is developed to identify broad characteristics and special needs.

1.2 Known risks, **stakeholder** analysis, community and agency **sources of information** are used to identify communication and consultation networks that may be useful.

1.3 A working group is established with an appropriate balance of expertise, representation and authority.

1.4 Group’s knowledge of emergency risk management principles, terminology and processes is developed.

1.5 Means of implementing the emergency risk management process are negotiated with stakeholders.

1.6 **Communication options** are selected to develop a communication plan.

1.7 Need for specialised information, additional skills and expertise is identified.

### 2 Establish context and risk criteria

2.1 Community concerns, **drivers/triggers**; applicable legislative, regulatory and organisational requirements; policies, procedures and desired outcomes are identified.

2.2 Objectives and scope are identified using emergency risk management standards and guidelines.

2.3 **Information on community characteristics**, safety expectations, risk perceptions and the roles and requirements of stakeholders is collected.

2.4 **Practical constraints**, existing treatment strategies and community expectations are considered when developing relevant **risk criteria**.

2.5 Draft criteria and supporting explanations are circulated widely for comment.

### 3 Identify and analyse risks

3.1 **Sources of risk** are identified by considering the interaction of hazards, communities and the environment.

3.2 Elements at risk are identified.

3.3 Vulnerability of communities and/or the environment is determined by considering their susceptibility and resilience to sources of risk.

3.4 Risk statements describing consequences are generated.

3.5 Risks are analysed by considering the likelihood of
3.6 Risks are rated in accordance with agreed risk criteria.

3.7 Stakeholders are consulted throughout the process.

4 Evaluate risks

4.1 Risks requiring additional analysis or treatment are determined.

4.2 Tolerability and acceptability of risks are agreed with stakeholders.

4.3 Risk treatments are prioritised using agreed risk criteria.

5 Promote ongoing commitment and ownership for the process and outcomes

5.1 Consultation is undertaken at all stages of the process using a wide range of networks and individuals.

5.2 A variety of communication strategies is used.

5.3 All stages of the process, decisions taken and outcomes are documented accurately in accordance with accountability and audit requirements.

5.4 Information is provided to the community in ways that suit their language, literacy and cultural needs.

6 Monitor and review the process and outcomes

6.1 Emergency risk assessment is completed efficiently.

6.2 All relevant data and contact information for key individuals and organisations is regularly reviewed for currency and updated.

6.3 Risk register is reviewed in accordance with the review schedule or in response to drivers/triggers.

6.4 Opportunities for improving emergency management processes are reported.
Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

**Required Skills**

- define and solve problems
- demonstrate effective interpersonal interactions
- gain cooperation of stakeholders
- listen actively
- locate and interpret community information
- manage projects
- maximise the participation of committee members
- monitor and enhance team work
- negotiate agreed outcomes despite incomplete and/or uncertain information
- recognise the relevance and significance of information for the emergency risk management process
- resolve conflicts between participants constructively
- summarise and explain key information clearly
- value diversity of views and perceptions of risks

**Required Knowledge**

- emergency risk management concepts and principles included in the current National Emergency Risk Assessment Guidelines
- risk identification tools, such as bow-tie diagram
- format of risk statements and risk register
- structure of risk criteria and the application of scenario dynamics (how a hazard creates consequences)
- concepts of ‘credible consequence level’, likelihood rating, confidence rating, ‘as low as reasonably practicable’ principle
- application of spatial analysis techniques
- jurisdiction or organisational emergency risk management principles and guidelines
- problem solving and decision making techniques
- research, demographic and economic analysis techniques
Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to:

- explain emergency risk management concepts, the process and how to promote its benefits to a wide range of audiences
- apply the emergency risk assessment process (National Emergency Risk Assessment Guidelines)
- facilitate the development of an appropriate and sustainable emergency risk assessment in cooperation with the community and stakeholders
- work with committee members to translate a wide range of risk perceptions, issues of concern and risk evaluation criteria into an agreed set of prioritised risks
- promote community cooperation, input and ownership for the emergency risk management process used and the outcomes
- produce an agreed risk register for a community
- obtain feedback, monitor and review the process and outcomes
- maintain momentum and achieve the project outcomes within available resources
- establish a project and see it through to produce a risk register that has broad community and stakeholder support

Consistency in performance

Competency should be demonstrated in at least two different contexts throughout the life of a community emergency risk management project, or during components of a number of projects.

Context of and specific resources for assessment

Context of assessment

Competency should be assessed facilitating a group emergency risk management process in the workplace or in a simulated workplace environment

Specific resources for assessment

For the demonstration of competence in this unit it will be necessary to participate in a real-world project

Underpinning knowledge may be assessed through written assignments, project reports, debriefings and action learning projects in real or simulated
This unit contains many transferable skills, such as communication, consultation, research and analysis skills that can be applied in the emergency risk management context.

Assessors should use formative assessment strategies in a simulated environment to contextualise underpinning knowledge. Summative assessment requires application of the unit in a real-world project, often in an action-learning project.

Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the Performance Criteria is detailed below.

Stakeholders may include: staff
- client groups
- decision makers
- members of the public
- community groups
- industry groups
- public and private sector organisations
- non-government organisations
- elected officials

Sources of information may include:
- community information booklets
- credible individuals, group and community leaders
- documented risk assessments by companies, organisations
- family and historical records
- libraries, research reports, Australian Bureau of Statistics data
- special needs groups, significant cultural organisations
- media, council and emergency service personnel and records

Communication options may include:
- community meetings
- pamphlets/flyers/brochures
- print newsletters
- noticeboards
Drivers/triggers may include:
- changes in community characteristics
- changes in legislation, policies and disaster/emergency management plans
- changes in insurance policies and premiums
- new sources of risk or changed perception of risk
- planning deficiencies
- recent emergency incident reports/debriefs, safety issues
- recent judicial decisions
- strategic and corporate plans

Legislative, regulatory and organisational requirements may include:
- arrangements specified in emergency management, land-use, environmental or other legislation
- organisational or jurisdictional emergency risk management policies or procedures
- existing disaster plans, agreements or memoranda of understanding
- local planning regulations, development controls and environmental plans

Standards and guidelines include:
- HB 327:2010, Communicating and consulting about risk
- National Emergency, Management Committee (2010), National Emergency Risk Assessment Guidelines or updates thereof.
- jurisdictional or organisational emergency risk management policies and procedures

Information on community characteristics may include:
- characteristics of natural, local and built environments
- demographics (population distribution, social, cultural, health status and education data)
• details of key infrastructure and emergency/support services
• economic activity reports (employment, products, services, revenue)
• government reports e.g. environmental impacts

**Practical constraints** may include:
• arrangements, roles and responsibilities set down in existing emergency management plans
• availability of technical expertise, technology, equipment
• budgets, time, availability and capability of people
• land use planning
• legislation covering emergency management, environmental management, safety standards, local government regulations
• limited community knowledge of emergency risk management processes and benefits
• political, social and cultural considerations

**Risk criteria** may include:
• the nature and types of causes and consequences that can occur and how they will be measured
• how likelihood will be defined
• the timeframe(s) of the likelihood and/or consequence(s)
• how the level of risk is to be determined
• the views of stakeholders
• the level at which risk becomes acceptable or tolerable
• whether combinations of multiple risks should be taken into account and, if so, how and which combinations should be considered

**Sources of risk** may include:
• commercial and legal relationships
• economic systems and relationships
• human behaviour
• natural events
• built environment failures
• disease (plant, animal or human)
• political circumstances
• technology/technical issues
• management activities and controls

**The environment** may include:
• social environment (individuals, families and common interest groups that form whole communities),
• build environment (human-made assets that underpin the functioning of a community),
- economic environment, and/or
- natural environment

**Unit Sector(s)**

Not applicable.
PUAEMR010B Undertake emergency planning

Modification History
Not applicable.

Unit Descriptor
This unit covers the competency required to collaboratively develop new/revised emergency plans by organisations such as: local government, emergency service or government agencies and departments; event organisers; managers of utilities, critical infrastructure or high occupancy buildings; and service providers.

The unit recognises that emergency planning requires processes and outcomes to be regularly checked, tested, revised and updated as conditions change. Planning is also seen as an important way of building the resilience of organisations and communities through their active involvement in the process.

Application of the Unit
The application of this unit in the workplace - the environments, complexities and situations involved - will be written during Phase II of the Review of the PUA00 Public Safety Training Package.

This text will be useful for the purposes of job descriptions, recruitment advice or job analysis; where possible, it will not be too job specific to allow other industries to import it into other Training Packages, where feasible.
Licensing/Regulatory Information
Not applicable.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- consider wide range of alternatives before making logical decisions
- define and solve problems
- demonstrate attention to detail
- demonstrate effective interpersonal interactions
- encourage the participation of other committee members
- gain cooperation of stakeholders
- listen actively
- locate and interpret community information
- manage components of projects
- negotiate collective outcomes
- provide credible, reliable and timely information and well reasoned advice and opinions
- recognise the relevance and significance of information for the planning process
- resolve conflicts constructively with a minimum of fuss
- summarise and explain key information clearly
- think creatively ('big picture', 'outside the box')
- value diversity of views and perceptions of risks
- work cooperatively
- work within organisational boundaries and cultures
- write clearly, concisely using accurate terminology

Required Knowledge

- Australian Standard AS/NZS 4360
- culture, diversity and history of communities, environments and associated concerns, issues and sensitivities, perception of risks
- decision making techniques
- emergency risk management terminology, concepts and principles
- group dynamics, strategies for team building and resolving conflict
- meeting procedures
- planning process and the kinds of outcomes and benefits for communities
- relevant legislative and regulatory requirements
- research tools and demographic and economic analysis techniques, emergency risk management tools
Evidence Guide

EVIDENCE GUIDE
## EVIDENCE GUIDE

### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to:

- explain the planning process and promote its benefits to a wide range of audiences
- develop an appropriate and sustainable emergency planning process in cooperation with the committee and own organisation/constituency
- work with committee members and own organisation/constituency to develop plans that are readily understandable by users and able to be implemented effectively
- work cooperatively with others to develop emergency plans that have own organisation/constituency approval and broad community and stakeholder support
- promote ownership from stakeholders for the planning process used and the planning outcomes
- evaluate planning process and outcomes with organisation/constituency
- maintain momentum and achieve allocated planning tasks within available resources

### Context of assessment

Consistency in performance

Competency should be demonstrated in a range of contexts throughout the life of an emergency planning project, or during components of a number of projects.

Context of assessment

Competency should be assessed making significant contributions to an emergency planning process either as an individual or as the representative of a stakeholder, organisation or constituency in the workplace or in a simulated workplace environment.

Specific resources for assessment

Access to a community and the opportunity to participate in an actual, or simulated, emergency planning process.

### Guidance information for assessment

Information that will assist or guide assessment will be written during Phase II of the Review of the PUA00 Public Safety Training Package.
## Range Statement

### RANGE STATEMENT

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the Performance Criteria is detailed below.

<table>
<thead>
<tr>
<th>Communities are groups with shared associations and may include</th>

| Community information | Characteristics of natural, local and built environments |
RANGE STATEMENT

may include

Demographics (population distribution, social, cultural, health status and education data)
Details of key infrastructure and emergency/support services
Economic activity reports (employment, products, services, revenue)
Government reports (eg. environmental impacts)

Sources of community information may include

Community information booklets
Credible individuals, group and community leaders
Documented outcomes of emergency risk management processes conducted by communities, organisations and companies
Family and historical records
Libraries, research reports, Australian Bureau of Statistics data
Media, council and emergency service personnel and records
Special needs groups, significant cultural organisations

Sources of risk may include

Commercial activity and legal relationships
Economic
Human behaviour and individual activities
Industrial activities
Management activities and controls
Natural events
Political circumstances
Technology/technical issues
Terrorism

Planning for response may include

Collecting, processing and disseminating information
Communications systems
Coordinating and deploying resources
Liaison between organisations, agencies
Management structure
Negotiating outside assistance and providing assistance to other areas
RANGE STATEMENT

Operation of the emergency operations centre
Preparation and activation of warnings, distribution of public information
Roles of support organisations

Planning for the evacuation may include identification of

Enabling legislation and/or regulations
Evacuation routes
Health and safety needs of mass gatherings
Management structure
Organisations responsible for arranging and coordinating transport
Organisations responsible for conducting and assisting with the evacuation
Organisations responsible for operating evacuation centres
Preparation and activation of warnings, distribution of public information, media management
Registration teams
Sites suitable as assembly areas
Sites suitable as evacuation centres
Strategies for communicating with diverse ethnic, cultural and language groups
Strategies for gaining community cooperation

Planning for recovery may include

Assisting with business continuity
Counselling emotionally-affected people
Establishing and managing emergency financial relief schemes
Managing environmental rehabilitation programs
Managing overwhelming demand
Management structure
Providing immediate emergency accommodation
Providing personal support
Roles and responsibilities of agencies and organisations
Repairing or replacing damaged public utilities, services and assets
### RANGE STATEMENT

**Elements and Performance Criteria Pre-Content**

| Elements describe the essential outcomes of a Unit of Competency. | Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the Required Skills and Knowledge and/or the Range Statement. Assessment of performance is to be consistent with the Evidence Guide. |
# Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Use communication systems and equipment | 1.1 Equipment is used and operated safely to support communications consistent with organisation's policies and procedures  
1.2 **Communication equipment** and techniques are selected to best meet the task, context and needs of the situation  
1.3 The **communication system** is correctly utilised to facilitate transmission and reception  
1.4 Communication systems are operationally maintained according to organisation's policies and procedures |
| 2. Transmit and receive communications | 2.1 Information is transmitted concisely and clearly to facilitate accurate reception of the message in accordance with organisation's policy and procedures  
2.2 Contact is acknowledged, communication is confirmed and action initiated  
2.3 Communication faults and deficiencies are reported according to organisation's policy and procedures  
2.4 Alternative communication strategies are employed according to organisational procedures to address identified faults and deficiencies in communication  
2.5 Communication is processed and recorded in accordance with organisation's policies and procedures |
| 3. Maintain communications equipment | 3.1 Fault finding techniques are applied and basic maintenance conducted according to organisational policies and procedures  
3.2 Faulty equipment is identified and noted for repair |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- clean and service communication equipment according to organisational procedures
- report communication faults and deficiencies according to organisational procedures
- use verbal communication procedures consistent with the organisation's communication system
- utilise the organisation's communication processes and systems

Required Knowledge

- organisational policy and procedures relevant to the operation of communication equipment
- range of communication equipment available to the organisation
- the organisation's communication system

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the Performance Criteria is detailed below.

**Communication equipment may include**
- personal computers and modems
- radio
- facsimiles
- signalling devices
- mobile
- landline and satellite telephones
- pagers

**Communication systems may include**
- organisation's networks
- communication protocols
- verbal communication procedures
- geographical information systems
- relevant legislation such as Telecommunications Act

**Verbal communication procedures may include**
- pro-words
- phonetic alphabet
- call signs
- coded messages
- use of abbreviations
- emergency procedures

**Voice procedures may include**
- rhythm
- speed
- volume
- pitch
- sentences
- correcting mistakes
- repetitions

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.

Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the Required Skills and Knowledge and/or the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
## Elements and Performance Criteria

### ELEMENT | PERFORMANCE CRITERIA
--- | ---
1. **Conduct an assessment of incident** | 1.1 A risk assessment of all factors impacting upon the response is conducted  
1.2 An initial assessment of *resources* required is conducted  
1.3 Resources required to deal with the incident are identified  
1.4 *Constraints* which may impede the response are identified  
1.5 *Initial response options* are identified and assessed  
2. **Establish control and command** | 2.1 Control is assumed in accordance with the organisation's policies and procedures  
2.2 *Communication systems* are activated in accordance with organisation's policies and procedures  
2.3 Reporting processes are activated in accordance with organisational policies and procedures to provide continuous monitoring and evaluation of incident  
2.4 *Command and control facilities* are established  
3. **Develop operational plan** | 3.1 *Operational plan* is developed and adjusted if required in accordance with response requirements and operational guidelines  
3.2 Response strategies are identified  
3.3 Tactics to effectively manage the incident are identified in accordance with the operational plan  
3.4 Tasks are determined and prioritised  
4. **Implement operational plan** | 4.1 Operational plan is communicated to teams in accordance with the organisation's guidelines  
4.2 Resources are deployed to ensure that the operational plan is implemented in accordance with organisation guidelines  
4.3 Operations are conducted and monitored in accordance with the operational plan  
4.4 Operational reports are issued in accordance with *policy and procedures*  
4.5 Operations are modified as required by the situation  
4.6 Resources are requested, acquired and deployed  
5. **Manage post incident** | 5.1 Resources are accounted for and demobilised in
<table>

<td></td>
<td>5.5 Debriefing conducted in accordance with organisational guidelines</td>
</tr>
<tr>
<td></td>
<td>5.6 Recommendations are made for changes in policies and procedures</td>
</tr>
</tbody>
</table>
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- accessing information and support from the control facility
- development of response plans including predicting consequences and identifying improvements
- effective and efficient deployment of human and physical resources including:
  - electronic data exchange systems etc.
  - equipment and consumables
  - identification and correct use of equipment
  - materials
  - other organisations
  - personnel
  - personnel and external authorities
  - processes and procedures
  - radio frequency devices
  - team and personnel management
  - team dynamics
  - use of a range of information technology devices including computers
  - using tools and techniques to solve problems

Required Knowledge

- codes of practice or other legislative requirements
- current principles and practices in response activities
- display of the following knowledge and skills in terms of job role or function:
  - emergency management plans
  - emergency site layout
  - focus of operation of work systems and equipment
  - legislation
  - organisational command structure
  - relevant agreements
  - roles and responsibilities of all organisations
  - security and confidentiality of material
### Evidence Guide

**EVIDENCE GUIDE**

<table>
<thead>
<tr>
<th>Critical aspects for assessment and evidence required to demonstrate competency in this unit</th>
<th>It is essential for this unit that competence be demonstrated in assessment of incident both functionally and strategically; development of a plan and implementation of response in accordance with the organisation's policies and procedures. Strategic reaction to changes within the emergency environment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Consistency in performance</td>
<td>Evidence should be gathered over a period of time in a range of actual or simulated workplace environments</td>

Range Statement

RANGE STATEMENT

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the Performance Criteria is detailed below.

**Initial response options will be determined by**

- the availability of resources and estimated outcome
- organisational guidelines
- regulatory authorities
- legislative requirements

**Risks to life and property may include**

- fire
- flood
- hazardous materials
- landslip
- severe storm
- biological agents
- fauna rescue

**Transport may include**

- on road
- off road
- aviation
- maritime
- rail

**Command facility may include**

- field facility such as an existing airfield helipads or established operations centre

**En route hazards may include**

- traffic
- prevailing weather
- road conditions
- terrain
- debris
- plumes
- animals
- atmospheric hazards
- tidal conditions
RANGE STATEMENT

- restricted areas
- wires/masts/aerials
- other aircraft
- interference communications

Hazardous conditions may include
- adverse weather
- after dark operations
- difficult terrain
- dangerous goods and substances
- time pressure
- visibility

Incident assessment may include
- type of incident
- risk to life
- property and environment hazards

Unit Descriptor

This unit covers the competency to take and establish control of a multi-agency response to an emergency situation. Control refers to the overall direction of emergency management activities in an emergency situation. Authority for control is established in legislation or in an emergency plan and carries with it the responsibility for tasking other organisations in accordance with the needs of the situation. Control relates to situations and operates horizontally across organisations.

Application of the Unit

This unit applies to public safety workers who have a command role within their own organisation and are required to administer control of workers from all agencies in a multi-agency response environment.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

PUAOPE007B Command agency personnel within a multi-agency (Fire sector specific)
PUAOPE016A Manage a multi team response (Fire sector specific)

Employability Skills Information

This unit contains employability skills.

</table>
| 1. Take control | 1.1 Control is established in accordance with designated responsibility/authority.  
1.2 The identity of the controller is communicated to participating organisations/authorities and to relevant authorities/organisations pertinent to the emergency/incident situation.  
1.3 The nature and complexity of the emergency/incident is identified through liaison with relevant personnel/authorities. |
| 2. Establish a control facility | 2.1 An appropriate control facility is established in accordance with approved operating procedures and principles.  
2.2 The establishment of the facility is communicated to participating and relevant personnel/authorities.  
2.3 Communication systems and procedures are established to facilitate the functions of control. |
| 3. Establish and maintain a control structure | 3.1 A control structure is established appropriate to the nature and complexity of the emergency, encompassing specific roles and responsibilities of each participating organisation.  
3.2 The control structure is expanded or contracted in response to changes within the emergency environment.  
3.3 Control systems are managed ensuring flow of information is clear, accurate, timely and follows agreed reporting mechanisms.  
3.4 Control systems are managed ensuring human, physical, fiscal and communication systems are identified, allocated and deployed in accordance with the control structure.  
3.5 Control systems are managed ensuring accurate recording and reporting systems are established and maintained. |
| 4. Establish procedures to permit control to be exercised | 4.1 Control structure is communicated to participating organisations and relevant authorities/individuals who may have a regulatory or economic interest applicable to the emergency/incident.  
4.2 Communication is implemented to provide an effective exchange between the controller and all organisations engaged in the emergency, supporting organisations, coordinator, higher authorities, media. |

</table>
Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- accessing information and support from organisations
- application of relevant agreements
- codes of practice or other legislative requirements
- development of response plans including predicting consequences and identifying improvements
- effective and efficient use of human and physical resources including:
  - equipment and consumables
  - identification and correct use of equipment
  - materials
  - operative and non-operative personnel
  - personnel and external authorities
  - processes and procedures
- using a range of information technology devices including:
  - computers
  - radio frequency devices
  - electronic data exchange systems etc
- using tools and techniques to solve problems

Required Knowledge

- decision making
- emergency site layout
- knowledge of current principles and practices to conduct an activity which exercises elements of public safety management
- operation of work systems and equipment
- security and confidentiality of material
Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit

It is essential for this unit that competence be demonstrated in effective assignment and monitoring of organisation allocated task(s):

- Analyse emergency situations both functionally and strategically
- Select, prioritise, implement and evaluate appropriate courses of action
- Strategically react to changes within the emergency environment
- Incorporate risk management and contingency processes
- Modify activities to cater for variations and changes in emergency contexts and environments
- Establish plans
- Describe consequences
- Complete tasks
- Identify improvements
- Apply precautions relevant to the task
- Hazard specific policies and procedures
- Issue resolution procedures
- Job procedures and work instructions
- Guidelines relating to safe use of machinery and equipment
- Quality assurance procedures (where existing)
- Privacy
- Confidentiality and security procedures
- Waste pollution and environmental management
- Recovery management processes
- Work completed systematically ensuring minimal damage to equipment and emergency site

Consistency in performance

Evidence should be gathered over a period of time in a range of actual or simulated workplace environments.

Context of and specific resources for assessment

Context of assessment

Assessment may occur in an operational environment or in an industry-approved simulated work environment.

Specific resources for assessment

Resources should involve access to, or simulation of, emergency situations in a multi-agency response environment. This includes resources relating to:
equipment, personnel, facilities etc appropriate to the emergency situation.
Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the Performance Criteria is detailed below.

**Types of emergencies (imminent or actual) may include:**
- natural events
- drought
- fire (forest
- grasslands
- urban)
- avalanche snow/ice/hail
- tsunami
- windstorm/tropical storm
- hurricane/typhoon
- biological
- extreme heat/cold
- flood/wind driven water
- earthquakes/land shifts
- volcanic eruption
- tornado/cyclone
- landslide/mudslide
- dust/sand storms
- lightning storm
- oil spills
- marine life rescue

**Technological/industrial events may include:**
- radiological accidents
- dam/levee failure
- fuel/resource shortages
- hazardous material releases
- explosions/fire
- transportation accidents
- building/structure collapse
- power/utility failure
- extreme air pollution
- strikes
- business interruption
- financial collapse
- high rise or underground incidents
- industrial accident and confined spaces

**Civil/political events may include:**
- economic
- general strike
- terrorism
- sabotage
- hostage situation(s)
- civil unrest
- eco-terrorism
- enemy attack

**Considerations in the determination of the nature extent and potential of an emergency** may include:

- risk to life
- risk to property
- risk to environment
- scope and scale of incident including likely duration of incident
- resource availability
- potential for changes in situation
- topography
- weather
- speed of onset
- hazard agent(s)
- location
- demography
- magnitude
- intensity

**Resources** may include:

- human-operations personnel
- volunteers
- support personnel
- local
- state/territory and federal governments
- physical-equipment
- machinery
- vehicles
- technology devices
- communication devices
- fiscal

**Information management system** may include:

- data receival
- recording
- storage and dispatch modes
- procedures and protocols
- types of technology – electronic data exchange devices
- audio and visual recording mechanisms
- security and authorisation assignment

**Control facility establishment procedures and principles**

- legislation
- proximity to emergency/incident
- size and type of structure
may include consideration of:
- special incident requirements
- communication modes
- topography
- environment
- climatic conditions
- logistical operations
- site access and exit requirements
- security requirements
- equipment characteristics
- support services
- amenities
- span of control

Communication processes and systems may include:
- designation of appropriate modes and channels of communication
- communication responsibilities of personnel
- radio communications
- inter organisation liaison
- data transfer
- telecommunications
- interpersonal communications

Participating and relevant organisations/authorities may comprise:
- emergency organisations
- ancillary organisations
- higher authorities
- public
- media
- clients
- government and semi government authorities and departments
- witnesses
- victims
- occupational health and safety specialists
- emergency management specialists
- service providers
- other analysts and other stakeholders

Agreed reporting mechanisms may include:
- authorisation distribution and developments of reports in accordance with regulatory and organisational requirements and may include:
  - media reports
  - ministerial reports
  - coronial reports
  - situation reports-within emergency
  - for external distribution-status reports
Activities controlled may include:

- performance evaluations
- legal reports
- final reports
- briefing papers

Sources of information/documents may include:

- operations
- planning
- logistics
- communications
- mapping
- aircraft
- information displays
- resourcing
- emergency procedures
- standard operating procedures
- relevant Australian or international documentation in disaster/emergency management
- organisational and workplace operating procedures and policies
- client requirements
- communications technology equipment
- oral, aural or signed communications
- personal and work area
- work procedures and practices
- evacuation procedures
- occupational health and safety procedures
- applicable State, Territory and Commonwealth legislation and regulations which relate to:
  - public safety
  - state of emergency
  - occupational health and safety regulations and legislation
  - Workplace Relations Act(s)
  - workers compensation
  - privacy and confidentiality legislation
  - freedom of information
  - environment protection legislation
  - equal opportunity
  - equal employment opportunity and affirmative action
  - legislation
  - standards and certification requirements
  - quality assurance procedures
• memorandum of understanding/agreement
• conventions
• protocols
• policies
• codes of practice
• maps
• field reports

Unit Descriptor

This unit covers the competence to command an organisation's personnel within a multi-agency emergency response environment. Command is the internal direction of the members and resources of an organisation in the performance of the organisation's roles and tasks by agreement or in accordance with relevant legislation. Command operates vertically within an organisation.

Application of the Unit

This unit applies to Public Safety personnel who have a command role within their own organisation and are required to administer that command in a multi-agency response environment. It does not include the requirement to administer command of personnel from other agencies in a multi-agency response.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

PUAOPE021A Control a Level 1 incident
PUAOPE015A Conduct briefings and debriefings (Fire sector specific)
Employability Skills Information

This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency. Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Take command                              | 1.1 Command is exercised in accordance with organisation authority and guidelines.  
|                                              | 1.2 The identity, location and contact details of the commander are communicated to internal personnel and to relevant external authorities/organisations/individuals pertinent to the emergency/incident. |
| 2. Establish a command facility              | 2.1 An appropriate *command facility* is established and operated in accordance with organisational guidelines.  
|                                              | 2.2 Details of the facility are communicated to internal personnel and to relevant external authorities/organisations/individuals as required.  |
| 3. Establish a command structure             | 3.1 A command structure is established appropriate to the nature and complexity of the task(s) undertaken by the organisation.  
|                                              | 3.2 The command structure is expanded, contracted or modified in response to changes within the emergency environment.  |
| 4. Establish procedures to permit command to be exercised | 4.1 Command structure is communicated to internal personnel and external authorities/individuals whom may have a regulatory interest applicable to the emergency/incident.  
|                                              | 4.2 Command *information management system* is implemented.  
|                                              | 4.3 Communication mechanisms and procedures are implemented between levels of command in accordance with organisational guidelines.  
|                                              | 4.4 Liaison is established and maintained to meet control and command requirements.  
|                                              | 4.5 A public information system is established in accordance with control plan requirements.  |
| 5. Determine operational command plan         | 5.1 Tasks are received and/or determined in accordance with the control requirements.  
|                                              | 5.2 Operational command plan to implement strategies is developed and modified as required in accordance with organisational guidelines.  
|                                              | 5.3 Appropriate tactics to effectively manage the emergency/incident are identified in accordance with the operational command plan.  |
 ELEMENT  

6. Manage resources under organisation command  

6.1 **Resources** are deployed to ensure that the operational command plan is implemented in accordance with organisational guidelines.  

6.2 Human and physical resources are effectively managed to achieve command plan outcomes.  

7. Manage operation(s)  

7.1 Operations are conducted in accordance with the operational command plan.  

7.2 Significant changes in status and actions taken are reported consistent with organisational policy and procedures.  

7.3 Operations are redirected as required to meet changes in the conditions which affect the emergency/incident situation.  

8. Conclude operation(s)  

8.1 Physical, human and capital resources are accounted for in accordance with organisational guidelines.  

8.2 **Debriefing** requirements are met in accordance with organisational guidelines.  

8.3 Operational documentation is completed to organisation standards.  

8.4 Reports are produced as required.  

9. Review operations  

9.1 Plans and guidelines are evaluated and reviewed.  

9.2 Effectiveness of command and interaction with control is evaluated and documented.  

9.3 Reports are produced and communicated in accordance with established protocols.
Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

**Required Skills**

- accessing information and support from the control facility, other organisations' personnel and external authorities
- analyse emergency situations both functionally and strategically
- development of response plans including predicting consequences and identifying improvements
- effective and efficient deployment of human and physical resources including:
  - operative and non-operative personnel
  - materials
  - equipment and consumables
- effective deployment, monitoring and communication of organisation allocated task(s)
- identification and correct use of equipment
- implement response in accordance with organisational procedures and within bounds of authority
- incorporate risk management and contingency processes
- liaise effectively with emergency controller
- operation of work systems and equipment
- processes and procedures
- secure emergency/operations site
- select, prioritise, implement and evaluate appropriate strategies
- strategically react to changes within the emergency environment
- using a range of information technology devices including:
  - computers
  - radio frequency devices
  - electronic data exchange systems etc
- using tools and techniques to solve problems

**Required Knowledge**

- applications of relevant agreements
- code of practice or other legislative requirements
- emergency site layout
- identification and correct use of equipment
- knowledge of current principles and practices to conduct an activity which exercises elements of public safety management
- organisational command structure
- processes and procedures
- security and confidentiality of material
Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit

It is essential for this unit that competence be demonstrated in:

- Effective deployment, monitoring and communication of organisation allocated task(s)
- Analysis of emergency situations both functionally and strategically
- Selection, prioritisation, implementation and evaluation of appropriate strategies
- Implementation of response in accordance with organisational procedures and within bounds of authority
- Securing emergency/operations site
- Strategic reaction to changes within the emergency environment,
- Incorporation of risk management and contingency processes
- Effective liaison with emergency controller and
- Logging and recording all actions and decisions

Consistency in performance

Evidence should be gathered over a period of time in a range of actual or simulated workplace environments.

Context of and specific resources for assessment

Context of assessment

Assessment may occur in an operational environment or in an industry-approved simulated work environment.

Specific resources for assessment

Resources should involve access to or simulation of emergency situations in a multi-organisation response environment. This includes resources relating to: equipment, personnel, facilities etc appropriate to the emergency situation and within the bounds of responsibility as designated within the requirements of control.
Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the Performance Criteria is detailed below.

Types of emergencies (imminent or actual) may include:
- natural events
- drought
- fire (forest
- range
- urban)
- avalanche snow/ice/hail
- tsunami
- windstorm/tropical storm
- hurricane/typhoon
- biological
- extreme heat/cold
- flood/wind driven water
- earthquakes/land shifts
- volcanic eruption
- tornado/cyclone
- landslide/mudslide
- dust/sand storms
- lightning storm
- search and rescue
- fauna rescues e.g. marine life rescue

Technological/industrial events may include:
- radiological accidents
- dam/levee failure
- fuel/resource shortages
- hazardous material releases
- explosions/fire
- transportation accidents
- building/structure collapse
- power/utility failure
- extreme air pollution
- strikes
- business interruption
- financial collapse

Civil/political events may include:
- economic
- general strike
- terrorism
- sabotage
- hostage situation(s)
Considerations in the determination of the nature, extent and potential of an emergency may include:

- civil unrest
- eco-terrorism
- enemy attack
- risk to life
- risk to property
- risk to environment
- scope and scale of incident including likely duration of incident
- resource availability
- potential for changes in situation
- topography
- weather
- speed of onset
- hazard agent location
- demography

Resources may include:

- human-operations personnel
- volunteers
- support personnel
- local
- state/territory and federal governments
- physical-equipment
- machinery
- vehicles
- technology devices
- communication devices
- aviation and marine vessels

Information management system may include:

- data receiveal
- recording
- storage and dispatch modes
- procedures and protocols
- types of technology – electronic data exchange devices
- audio and visual recording mechanisms
- public/media information dissemination
- security and authorisation assignment
- recording and documenting of incident

Personnel support activities may include supply of:

- catering
- sanitation
- shelter
- rest/relief counselling services
- stress management services
Command facility establishment procedures and principles may include consideration of:

- proximity to emergency/incident
- size and type of structure
- special incident requirements
- communication modes
- logistical operations
- site access and exit requirements
- security requirements
- equipment characteristics
- support services
- amenities
- parking
- topography
- environment
- climatic conditions
- logistical operations

Communication processes and systems may include:

- designation of appropriate modes and channels of communication
- communication responsibilities of personnel
- radio communications
- inter organisation liaison
- data transfer
- telecommunications
- interpersonal communications

Internal and external personnel and authorities may include:

- operational personnel
- emergency organisations
- ancillary organisations
- higher authorities
- public
- media
- clients
- government and semi government authorities and departments
- witnesses
- victims
- occupational health and safety specialists
- emergency management specialists
- service providers
- other analysts and stakeholders

Support services may include:

- emergency agencies
- water
- gas and power agencies
- welfare and counselling organisations
- medical organisations
- equipment suppliers
- contractors
- community service organisations
- land management agencies
- transport

**Debriefing** may include:
- critical incident stress debriefing
- performance evaluations
- operational analysis

**Agreed reporting mechanisms** will involve:
- authorisation
- distribution and development of reports in accordance with regulatory and organisational requirements and may include:
  - media reports
  - ministerial reports
  - coronial reports
  - situation reports-within emergency for external distribution-status reports
  - performance evaluations
  - legal reports
  - final reports
  - briefing papers

**Activities** controlled include:
- operations
- planning
- logistics
- communications

**Sources of information/documents** may include:
- emergency procedures
- standard operating procedures
- maps
- field reports
- relevant Australian or international documentation in disaster/emergency management
- organisational and workplace operating procedures and policies
- client requirements
- communications technology equipment
- oral
- aural or signed communications
- personal and work area work procedures and practices
- evacuation procedures
- occupational health and safety procedures
applicable state, territory, commonwealth legislation and regulations which relate to:
- public safety
- state of emergency
- occupational health and safety regulations and legislation
- Workplace Relations Act(s)
- workers compensation
- privacy and confidentiality legislation
- freedom of information
- environment protection legislation
- equal opportunity
- equal employment opportunity and affirmative action legislation
- standards and certification requirements
- quality assurance procedures
- memorandum of understanding/agreement
- conventions
- protocols
- policies
- codes of practice

Unit Sector(s)
Not applicable.
PUAOPE008B Coordinate resources within a multi-agency emergency response

Modification History
Not applicable.

Unit Descriptor
This unit covers the competency to bring together organisations and other resources to support an emergency management response.

Coordination refers to the bringing together of organisations and other resources to support an emergency management response. It involves the systematic acquisition and application of resources (organisational, human and equipment) in an emergency situation.

Application of the Unit
The application of this unit in the workplace - the environments, complexities and situations involved - will be written during Phase II of the Review of the PUA00 Public Safety Training Package.

This text will be useful for the purposes of job descriptions, recruitment advice or job analysis; where possible, it will not be too job specific to allow other industries to import it into other Training Packages, where feasible.

Licensing/Regulatory Information
Not applicable.

| **1. Commence coordination** | 1.1 The coordination arrangements are invoked in accordance with agreed authority/responsibility  
1.2 A coordination facility is established in accordance with the requirements of control  
1.3 The coordination arrangements are communicated to participating organisations and to relevant authorities/organisations pertinent to the emergency/incident situation |
| **2. Establish and maintain a coordination network** | 2.1 A *coordination network* is established appropriate to the nature and complexity of the emergency  
2.2 The coordination network integrates with the control and command activities to meet the objectives of the control plan  
2.3 The coordination network is expanded, contracted or modified in response to changes within the emergency environment |
| **3. Manage resource requirements in accordance with control requirements** | 3.1 *Resources* are identified through the coordination network and external providers/authorities which may be appropriate to control requirements  
3.2 Resources are acquired to meet the requirements of the control plan  
3.3 Resources are supplied to meet operational requirements within negotiated timeframes  
3.4 Allocated resources are monitored to ensure operational effectiveness and to confirm additional requirements |
| **4. Conclude coordination activities** | 4.1 An *audit* is undertaken to ensure that resources are acquired and supplied in a cost-effective and efficient manner (where applicable)  
4.2 Resources released from the emergency are returned to providers as appropriate  
4.3 Acquisition and supply of resources meet the requirements of control |
| **5. Review coordination** | 5.1 *Debriefs* are conducted to evaluate coordination effectiveness  
5.2 Reports are produced as required and communicated in accordance with established protocols |
ELEMENT | PERFORMANCE CRITERIA

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

**Required Skills**

- accessing information and support from the control facility
- advanced communication and interpersonal skills
- apply relevant agreements, codes of practice or other legislative requirements
- development of response plans including predicting consequences and identifying improvements
- effective and efficient deployment of human and physical
- electronic data exchange systems
- focus of operation of work systems and equipment
- logistics management
- other organisations' personnel and external authorities
- radio frequency devices
- resources including:
  - operative and non-operative personnel
  - materials
  - equipment and consumables
  - use equipment
  - using a range of information technology devices including computers
  - using tools and techniques to solve problems

**Required Knowledge**

- control and organisation command structure
- emergency site layout
- knowledge of principles and practices to conduct an activity which exercises elements of public safety management
- security and confidentiality of material
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

It is essential for this unit that competence be demonstrated in ability to:

Implement coordination response in accordance with control plan and within bounds of authority

Identify, select, prioritise, implement and evaluate appropriate strategies for the acquisition and deployment of resources in accordance with control and command plan requirements

analyse resources requirements in accordance with present and future control requirements

implement and maintain an effective communication system both internal and external to an emergency

monitor the deployment of resources in meeting control requirements

maintain procurement and workplace records

strategically react to changes within the emergency environment

incorporate risk management and contingency processes

evaluate performance of coordination in meeting the requirements of control

modify activities to cater for variations and changes in emergency contexts and environments

apply underpinning knowledge and skills when establishing plans

describe consequences

complete tasks

identify improvements

apply safety precautions relevant to the task

show evidence of application of relevant workplace procedures including hazard policies and procedures, issue resolution procedures, job procedures and work instruction guidelines relating to the procurement of resources, quality assurance procedures (where existing), privacy, confidentiality and security procedures, waste, pollution and environmental management recovery processes

Consistency in performance
## EVIDENCE GUIDE

| Context of and specific resources for assessment | Evidence should be gathered over a period of time in a range of actual or simulated workplace environments |
| Context of assessment | Assessment may occur in an operational environment or in an industry-approved simulated work environment |
| Specific resources for assessment | Resources should involve access to or simulation of emergency situations in a multi-organisation response environment. This includes identification, procurement and deployment of equipment, personnel, facilities etc. appropriate to the emergency situation and within the bounds of responsibility as designated within the requirements of control |
| Guidance information for assessment | Information that will assist or guide assessment will be written during Phase II of the Review of the PUA00 Public Safety Training Package. |
## Range Statement

**RANGE STATEMENT**

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the Performance Criteria is detailed below.

<table>
<thead>

**Information management system may include**
- communication devices
- data receival
- recording
- storage and dispatch modes
- procedures and protocols
- types of technology - electronic data exchange devices
- audio and visual recording mechanisms
- security and authorisation assignment

**Personnel support activities may include supply of**
- catering
- sanitation
- shelter
- rest/relief counselling services
- stress management services
- medical

**Control facility establishment procedures and principles may include consideration of**
- proximity to emergency/incident
- size and type of structure
- special incident requirements
- communication modes
- logistical operations
- site access and exit requirements
- security requirements
- equipment characteristics
- support services
- amenities
- parking

**Communication processes and systems may include**
- designation of appropriate modes and channels of communication
- communication responsibilities of personnel
- radio communications
- inter organisation liaison
- data transfer

RANGE STATEMENT

Coordination network may include

- financial analysis
- operative and support organisations
- contractors
- other emergency organisations
- water
- gas and power agencies
- welfare and counselling organisations
- medical organisations
- equipment suppliers
- contractors
- community service organisations
- land management agencies
- Federal
- State/territory and local government authorities

Audit may comprise

- supply mechanisms
- supply cost
- damage reports
- reconciliation

Sources of information/documents may include

- emergency procedures
- standard operating procedures
- relevant Australian or international documentation in disaster/emergency management
- organisational and workplace operating procedures and policies
- client requirements
- communications technology equipment
- oral
- aural or signed communications
- personal and work area work procedures and practices
- evacuation procedures
- occupational health and safety procedures
- applicable State, Territory, Commonwealth legislation
RANGE STATEMENT

and regulations which relate to:

- public safety
- state of emergency
- occupational health and safety regulations and legislation
- Workplace Relations Act(s)
- workers compensation
- privacy and confidentiality legislation
- freedom of information
- environment protection legislation
- equal opportunity
- equal employment opportunity and affirmative action legislation
- standards and certification requirements
- quality assurance procedures
- memorandum of understanding/agreement
- conventions
- protocols
- policies
- codes of practice
- procurement procedures

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency.

Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the Required Skills and Knowledge and/or the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Prepare and respond to   | 1.1 Operation and task information is obtained
| rescue                       | 1.2 Appropriate *rescue equipment* is identified and selected based on incident information as directed by the supervisor
|                              | 1.3 *Personal protective equipment* is selected based on the nature of the rescue operation
|                              | 1.4 Any further details of the nature of the rescue are received en route
|                              | 1.5 Anticipated *hazards* and associated risks are discussed with rescue team members whilst on approach
| 2. Participate in assessing  | 2.1 Rescue scene reconnaissance is conducted and identified hazards and results are reported to the supervisor
| the rescue scene             | 2.2 *Communication* with other team members is maintained using appropriate techniques and terminology
|                              | 2.3 Hazards and *environmental conditions* are minimised or controlled
|                              | 2.4 Health and safety and security procedures are correctly followed in accordance with organisational policy and relevant legislation
|                              | 2.5 Personal capabilities and limitations are recognised and referred to the supervisor
|                              | 2.6 Need for additional personnel and/or specialist equipment is reported to the supervisor
| 3. Perform rescue            | 3.1 Access to incident and/or casualties is gained using techniques and equipment in accordance with organisational procedures
|                              | 3.2 Rescue procedures are conducted in accordance with the supervisor’s instructions and organisational procedures
|                              | 3.3 Casualties are prepared for removal
|                              | 3.4 Casualties are extricated safely using appropriate equipment rescue techniques and procedures
|                              | 3.5 Incident scene is constantly monitored for hazards to prevent injury to self or others
| 4. Conclude rescue operations| 4.1 Equipment is recovered, cleaned and maintained to organisational standards and manufacturers’ procedures and restowed to maintain operational

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- identify signs of structural collapse
- personal protective equipment worn in accordance with organisational requirements
- use rescue equipment

Required Knowledge

- capabilities and limitations of rescue equipment
- casualty handling techniques
- disaster victim identification procedure
- environmental hazards
- lines and knots
- manual handling techniques
- nationally agreed hazard marking systems
- personal hygiene
- procedures for reporting injuries and accidents
- relevant legislative and regulatory requirements
- ropes
- safety precautions
- surface search and surface clearance of casualties
- techniques and aids
- types of collapse patterns
- types of structures

Evidence Guide

EVIDENCE GUIDE
## EVIDENCE GUIDE

### Critical aspects for assessment and evidence required to demonstrate competency in this unit

- Applies safe work practices in rescue operations. Uses equipment in accordance with organisational procedures.
- Responds and reacts to instructions in a safe, correct and timely manner

### Consistency in performance

Evidence should be gathered over a period of time in a range of actual or simulated workplace environments.

### Context of assessment

- Competence may be assessed on-the-job or in a simulated rescue scenarios

### Specific resources for assessment

- Identify signs of structural collapse
- Personal protective equipment worn in accordance with organisational requirements
- Use rescue equipment

### Guidance information for assessment

Information that will assist or guide assessment will be written during Phase II of the Review of the PUA00 Public Safety Training Package.
Range Statement

RANGE STATEMENT

Unit Descriptor

This unit covers the competency to drive vehicles safely, including the systematic, safe and efficient control of all vehicles functions and effective management of hazardous situations under operational conditions.

Application of the Unit

This unit applies to all Public Safety workers who are required to operate vehicles both on and off road during public safety operations.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency. Performance Criteria describe the required performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Prepare vehicle for operational response | 1.1 The *vehicle* is selected to meet operational requirements and is suitable to use in the terrain.  
1.2 Preliminary check of the vehicle is completed to ensure it is serviceable.  
1.3 Equipment and accessories are checked to ensure they are available and serviceable.  
1.4 *Cabin drill* and *start up checks* are completed in accordance with operational standards.  
1.5 Engine is started in accordance with *manufacturer's specifications*.  
1.6 Audible and visual warning systems are checked to ensure that they are all operational. |
| 2. Drive the vehicle | 2.1 Vehicle is prepared for, and safely operated in terrain suitable to the vehicle.  
2.2 Vehicles and/or trailers are operated and positioned in accordance with traffic regulations and organisation's policies and procedures and to ensure safe and efficient operation.  
2.3 Low risk driving techniques are used which minimise the likelihood of injury to persons or damage to equipment or property and in accordance with the organisation's policies and procedures. |
| 3. Monitor traffic, road and terrain under operational conditions | 3.1 Vehicle movement is controlled in response to external conditions to ensure safety of persons.  
3.2 The most efficient route of travel is taken through monitoring factors likely to cause delays or route deviations.  
3.3 *Traffic and surface conditions* are consistently monitored and acted upon to enable safe operation and ensure no injury to people or damage to property, equipment, loads and facilities. |
Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit.

Required Skills

- low risk driving techniques
- monitor and anticipate traffic hazard

Required Knowledge

- ancillary equipment
- appreciation of automotive systems
- emergency vehicle requirements and regulations
- knowledge of emergency vehicle inspection procedures
- knowledge of equipment and accessories
- local area knowledge
- traffic legislation
- traffic rules and regulations
- vehicle operating procedures

Evidence Guide

Critical aspects for assessment and evidence required to demonstrate competency in this unit

It is essential for this unit that competence be demonstrated in a practical demonstration of driving skills. Maintaining personal safety, safety awareness and awareness of traffic conditions and other road users is critical.

Consistency in performance

Evidence should be gathered over a period of time in a range of actual or simulated workplace environments.

Context of and specific resources for assessment

Context of assessment

Competency must be demonstrated in a simulated operational situation under varying conditions.

Specific resources for assessment

Assessment of this competency will require access to a relevant vehicle.
Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the Performance Criteria is detailed below.

**Vehicles** may include:
- all types of operational vehicles
- tankers
- troop carrier
- rescue vehicles
- buses
- bulk water carrier
- all terrain vehicles
- pumpers
- aerial appliances
- communication vehicles
- command /control vehicles

**Operational conditions** may include:
- non-emergency driving
- emergency response driving
- off-road driving
- hazardous environmental conditions
- driving in special environments (e.g. on actual airport movement areas)
- prevailing weather
- time of day/night
- visibility
- recovery

**Considerations** may include:
- procedures
- traffic conditions
- levels of emergency response
- adverse weather
- traffic regulations
- warning devices
- adverse terrain
- type of vehicle
- adverse surfaces

**Cabin drill** may include:
- adjustment of seats
- seatbelts
- mirrors and steering
- radio on
- all crew seated/restrained
- dash layout
- gauges
**Start-up check** may include:
- warning lights
- fuel
- coolant
- oil
- pump
- water
- equipment/locker security
- visual inspection of vehicle
- operation of emergency warning devices (lights/sirens)
- crew intercom
- physical check or scan of gauges

**Instruments/gauges** may include:
- warning lights
- tachometer
- temperature
- electrical charging
- systems indicators (high beam
- turn signals
- parking brakes)
- speedometer
- oil pressure
- brake warning lights
- audible warning devices
- water tank level indicator

**Relevant legislation and procedures** may include:
- traffic regulations
- organisation policy and procedures
- accident procedures
- emergency parking
- possession of appropriate licence

**Manufacturer’s specifications** may include:
- engine characteristics
- systems warning functions
- radius of turning circle
- safety procedures
- horsepower rating
- maximum vehicle weight
- fuel capacity for range
- clearance height
- engagement procedures
- no-spin locking differential
- anti-lock braking systems

**Traffic conditions** may include:
- parking
include:

- traffic pattern and density
- known peak traffic periods and community functions and events
- effect of weather on roads
- road surface
- visibility

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills, including clear and direct communication and active listening and questioning techniques, using language and concepts appropriate to cultural differences and using and interpreting non-verbal communication to identify and confirm client requirements
- organisational and self-management skills to complete required tasks according to client requirements, workplace policies and procedures, and required timeframes
- problem-solving skills to deal with contingencies when scheduling burials or cremations
- teamwork skills to consult with colleagues to identify and organise required resources
- literacy and numeracy skills to accurately complete and review relevant documentation
- interpersonal skills to relate to people from a range of social, cultural, religious and ethnic backgrounds and with a range of physical and mental abilities
- customer service skills, including ability to maintain confidentiality of client information.

Required knowledge

- burial procedures
- social, religious and cultural differences and traditions
- professional funeral services industry parameters in dealing with the deceased and the bereaved
- broad working knowledge of relevant federal, state or territory, and local government legislation and regulations relating to consumer protection, and funeral arrangements and associated documentation
- workplace policies and procedures regarding arranging funerals.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to accurately identify, organise and schedule funeral arrangements that meet client needs
- ability to liaise with funeral and external personnel to identify and organise required aspects of funeral and to deal with contingencies in organising and scheduling burials or cremations
- sensitive communication with the bereaved according to funeral services industry parameters and protocols
- arranging funerals on multiple occasions to ensure consistency of performance and ability to respond to different situations.

Context of and specific resources for assessment

Assessment must ensure:

- access to appropriate computers, communication technology and software programs to coordinate funeral arrangements
- consultation with funeral services personnel, such as cemetery or crematorium staff
- interaction with diverse client types to allow candidate to respond to range of funeral requirements and client requests
- access to relevant documentation, such as funeral schedules and pricing information.
EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of candidate consulting clients and liaising with funeral and external personnel to identify, organise and schedule funeral arrangements
- written or verbal questioning to assess knowledge and understanding of relevant procedures regarding funeral arranging
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SIFFNL004A Arrange and oversee viewings.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Client may include:

- immediate family
- extended family
- friends
- designated people.
RANGE STATEMENT

*Funeral service location* may include:
- local
- intrastate
- interstate
- overseas
- at sea.

*Special requirements* may include:
- social, cultural and religious considerations, requirements and rituals, which may include:
  - deceased person’s country of origin
  - funeral and mourning dress standards
  - funeral rites
  - cultural rituals to assist grieving
  - duration of mourning
  - wakes
  - religious denomination
  - spiritual symbolism
  - public profile of the deceased
  - burial procedures
  - time required between death and burial or cremation
  - geographical location of funeral
  - taboos regarding death
  - text readings or scriptures
  - speakers and readers
  - placing special personal effects with the deceased person
  - use of music
  - placement of candles
  - choice and placement of flowers
  - photographs
  - specific coffin or casket design
  - orientation of coffin
- viewing
- vigil
- prayers
- dressing
- blessing of the deceased.
RANGE STATEMENT

Workplace policies and procedures may include:

- standard operating policies and procedures
- standards and certification requirements
- quality assurance procedures
- OHS procedures
- emergency procedures, including fire and accident procedures
- security procedures.

Relevant legislation and regulations may include:

- cemeteries’ Acts
- Births, Deaths and Marriages Registration
- consumer protection
- Coroner’s Act
- intrastate, interstate and overseas repatriation regulations

Relevant guidelines may relate to:

- legal requirements
- embalming technique
- condition of deceased
- geographical location, including special location of funeral
- available time.

Funeral arrangements may include:

- time
- date
- location
- viewings
- transport requirements
- special requirements
- catering
- audiovisual recording of funeral
- music and visual presentations.
RANGE STATEMENT

Relevant funeral personnel may include:

- funeral director
- funeral arranger
- transfer staff
- transportation services
- mortuary technician
- embalmer
- cemetery representatives
- church or chapel coordinator
- coffin or casket manufacturer.

Appropriate personnel may include:

- clergy or celebrant
- organist
- choir
- florist
- caterer
- printer
- hospital or nursing home staff
- stonemason
- legal representative
- embassy officials
- support groups
- government regulators
- registrar of births, deaths and marriages
- treating doctor
- coroner.

Resources may include:

- selected text readings or scriptures
- order of service
- prayer cards
- speakers or readers
- personal effects
- music
- sound system
- DVD or VCR player
- lighting and candles
- flowers
- photographs.
RANGE STATEMENT

Relevant documentation may include:

- funeral arranger's briefing notes
- identification of body
- death and funeral notices
- memorial book
- contract for funeral service
- clothing and jewellery receipts
- casket or coffin orders
- application for burial or cremation
- order for cremation
- permit for cremation
- embalming form and details
- pre-arrangement costing details.

</tbody>
</table>
ELEMENT  | PERFORMANCE CRITERIA
--- | ---
3 Perform funeral ceremony. | 3.1 Deliver address according to appropriate public speaking strategies and agreed timeframe.
 | 3.2 Include ceremony participants according to agreed funeral ceremony arrangements.
 | 3.3 Close funeral ceremony according to agreed funeral ceremony arrangements.
4 Review funeral ceremony. | 4.1 Request *client feedback and review* according to workplace policies and procedures.
 | 4.2 Reflect on own performance and note *areas for improvement* and *appropriate strategies*.
 | 4.3 Record and report evaluation according to workplace policies and procedures.
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills, including clear and direct communication and active listening and questioning techniques, to develop knowledge of the deceased and make effective public presentations during funeral ceremonies
- planning skills to develop structured funeral ceremony presentations according to required timeframe
- organisational skills to identify and organise required resources
- literacy and numeracy skills to develop and review written funeral speeches and meet agreed timeframes for performance of ceremony
- interpersonal skills to relate to people from a range of social, cultural, religious and ethnic backgrounds and with a range of physical and mental abilities
- customer service skills, including ability to maintain confidentiality of client information.

Required knowledge

- burial and inurnment procedures
- social, religious and cultural differences and traditions
- professional funeral services industry parameters and protocols in dealing with the bereaved and the deceased
- workplace policies and procedures regarding performing funeral celebrancy.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to liaise with appropriate family members and friends of the deceased and funeral personnel to establish relevant information in order to prepare appropriate funeral ceremony
- sensitive communication with the bereaved according to funeral services industry protocols and parameters
- identification and organisation of required resources
- effective public speaking techniques to sensitively deliver appropriate funeral speeches according to client requirements and required timeframes
- planning and conducting funeral ceremonies on multiple occasions to ensure consistency of performance and ability to respond to different situations.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills in an environment where a funeral address can be delivered to an audience and where friends or family members of the deceased can participate
- interaction with clients
- access to resources, such as a sound system.
EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of candidate liaising with relevant parties to establish client requirements and relevant resources and delivering an effective funeral ceremony speech
- review of prepared funeral ceremony speeches that address client requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SIFIND001B Work effectively in the funeral services industry.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Clients may include:

- immediate family
- extended family
- friends
- designated people
- service groups, such as Returned and Services League (RSL) or Masonic Lodge.
RANGE STATEMENT

Funeral personnel may include:
- funeral director
- funeral arranger
- transfer staff
- cemetery or crematorium staff
- church or chapel coordinator.

Funeral ceremony arrangements may include:
- committal style, such as:
  - burial
  - inurnment
  - cremation
  - entombment
- memorial service
- selection of text readings or scriptures
- public acknowledgment of deceased
- choice of speakers or readers
- inclusion of work and community colleagues
- placing special personal effects with the deceased
- use of music
- audiovisual, such as videos or DVDs
- use of lighting
- placement of candles
- choice and placement of flowers
- photographs
- special locations, such as:
  - outdoors
  - private home
  - cemetery
  - crematorium.
RANGE STATEMENT

**Resources** may include:

- selected text readings or scriptures
- speakers or readers
- personal effects
- music
- sound system
- lighting and candles
- flowers
- photographs.

**Workplace policies and procedures** may include:

- standard operating policies and procedures
- communication protocols
- personal presentation
- OHS
- standards and certification requirements
- quality assurance procedures.

**Public speaking techniques** may include:

- methods for managing nerves, such as:
  - centering breathing
  - practising material
  - checking environment and facilities
  - positive thinking
  - tone, pitch and volume of voice
  - pace of delivery
  - use of body language and eye contact.

**Client feedback and review** may include:

- formal client feedback mechanisms
- informal client feedback.

**Areas for improvement** may include:

- organisational skills
- time management skills
- public speaking skills.

**Appropriate strategies** may include:

- formal training
- assistance from colleagues
- self-reflection.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- following set routines and procedures
- interpersonal communication skills to:
  - inform customers of delays
  - state price or total and amount of cash received
  - request adequate supplies of wrapping material or bags through clear and direct communication
  - ask questions to identify and confirm requirements
  - share information
  - use language and concepts appropriate to cultural differences
  - use and interpret non-verbal communication
  - questioning and active listening
  - dealing with different types of transactions
  - wrapping and packing techniques
  - store bag checking procedures
  - merchandise handling techniques
  - literacy skills in regard to sales and delivery documentation
  - numeracy skills in regard to rendering change.

The following knowledge must be assessed as part of this unit:

- store policy and procedures in relation to:
  - customer service
  - point-of-sale transactions
  - allocated duties and responsibilities
  - exchanges and returns
  - handling, packing and wrapping of goods or merchandise
  - the range of services provided by the store
  - stock availability
  - relevant legislation and statutory requirements, including:
    - Trade Practices Act and consumer law
    - industry codes of practice
    - OHS
  - cash and non-cash handling procedures, including:
REQUIRED SKILLS AND KNOWLEDGE

- opening and closing point-of-sale terminal
- clearance of terminal and transference of tender
- maintenance of cash float
- tendering of change
- counting cash
- calculating non-cash documents
- balancing point-of-sale equipment
- recording takings
- security of cash and non-cash transactions
- change required and denominations of change
- numeracy skills in regard to workplace functions:
  - addition
  - subtraction
  - multiplication
  - division
  - percentages
  - use of a calculator
- functions and procedures for operating point-of-sale equipment, including:
  - registers
  - numerical display board
  - calculators
  - electronic scales
  - scanners.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:
- consistently operates point-of-sale equipment according to manufacturer instructions and store policy and procedures
- consistently applies store policy and procedures in regard to cash handling and point-of-sale transactions
- interprets, calculates and records numerical information accurately
- processes sales transaction information responsibly and accurately according to store policy and procedures
- constantly applies store policy and procedures in regard to the handling, packing, wrapping and delivery of goods or merchandise.

Context of and specific resources for assessment

Assessment must ensure access to:
- a real or simulated work environment
- relevant documentation, such as:
  - stock, inventory and price lists
  - financial transaction dockets and slips
  - lay-by, credit and product return slips
  - store policy and procedures manuals
- a range of point-of-sale equipment.
EVIDENCE GUIDE

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of performance in the workplace
- a role play
- third-party reports from a supervisor
- customer feedback
- answers to questions about specific skills and knowledge
- review of portfolios of evidence and third-party workplace reports of on-the-job performance.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SIRXRSK001A Minimise theft
- SIRXCCS002A Interact with customers
- SIRXINV001A Perform stock control procedures
- SIRXFIN001A Balance point-of-sale terminal.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically in the context of the job role and with other relevant units that make up the skill set or qualification.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the performance criteria is detailed below.
RANGE STATEMENT

**Point-of-sale equipment** may include:
- cash register
- cash drawer
- scanner
- EFTPOS terminal
- electronic scales
- security tagging
- numerical display board.

**Store policy and procedures** in regard to:
- operation of point-of-sale equipment
- security
- sales transactions
- handling techniques of stock
- financial transactions
- cash handling.

**Point-of-sale documents** may include:
- order forms
- lay-by slips
- credit slips
- product return slips
- message pads
- promotional materials.

**Customers** may include:
- new or repeat contacts
- internal and external contacts
- customers with routine or special requests
- people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities.

**Numerical problems** may include:
- calculations of cash amounts and change
- addition and subtraction
- multiplication and division
- percentages
- measurement
- estimation of quantities.
RANGE STATEMENT

**Point-of-sale transactions** may include:

- EFTPOS
- cheques
- travellers cheques
- credit cards and store cards
- smart cards
- lay-by
- returns
- exchanges
- gift vouchers.

**Wrapping and packaging materials** may include:

- boxes
- bags
- paper
- bubble wrap
- gift wrapping
- adhesive tape
- ribbon
- string.

**Delivery methods** may include:

- parcel pick-up
- post or express post
- courier
- freight
- domestic or international delivery.

</tbody>
</table>

1. Maintain retail equipment.  
   1.1. Identify purpose of *equipment* used in store or department.  
   1.2. Operate equipment, according to design specifications and *safety requirements*.  
   1.3. Identify equipment faults and report to *relevant personnel*.  
   1.4. Identify and apply maintenance program for retail equipment according to *store policy and procedures*.  

2. Apply keyboard skills.  
   2.1. Operate keyboard using typing techniques within designated speed and accuracy requirements.  
   2.2. Enter and edit information accurately.  

3. Operate data entry equipment.  
   3.1. Enter data using relevant equipment, according to store policy and procedures.  
   3.2. Operate price marking equipment, according to manufacturer instructions and store policy.  
   3.3. Enter data accurately and within designated time limits.
Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

**Required skills**

- planning and organising skills to complete tasks in set timeframe
- problem solving skills to deal with different types of transactions
- literacy and numeracy skills to:
  - read store procedures for operating equipment
  - enter data
  - perform point-of-sale transactions
  - follow common fault-finding procedures

**Required knowledge**

- store policy and procedures in regard to:
  - the operation and maintenance of store retail equipment
  - reporting problems and faults
- relevant legislation and statutory requirements in regard to operating retail technology, including Work Health and Safety (WHS) requirements
- relevant industry codes of practice
- purpose and impact of using electronic technology
- licensing requirements for carrying and moving merchandise (if applicable)
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- operates a range of store retail equipment according to store policy and procedures and industry codes of practice
- operates and maintains a range of store retail equipment according to manufacturer instructions and design specifications
- applies store maintenance program and reports faults and problems
- consistently applies safe working practices in the operation and maintenance of store retail equipment according to OHS legislation and codes of practice
- reads and interprets operation manuals to solve routine faults and errors and maintains and uses equipment effectively
- uses keyboard skills to enter and edit data accurately
- completes tasks in set timeframe.

**Context of and specific resources for assessment**

Assessment must ensure access to:

- a real or simulated work environment
- relevant documentation, such as:
  - store policy and procedure manuals
  - manufacturer instructions and operation manuals
- a range of store retail equipment.

**Methods of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of performance in the workplace
- a role play
- third-party reports from a supervisor
- customer feedback
- answers to questions about specific skills and knowledge
- review of portfolios of evidence and third-party workplace reports of on-the-job performance.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Equipment** may include:
- point-of-sale terminals
- electronic bar coding equipment for price labelling and stocktaking
- portable data entry
- printers
- EFTPOS terminals
- electronic ordering equipment
- wrapping and packing equipment
- equipment for carrying or moving merchandise
- equipment for storage of merchandise, including refrigerators
- weighing machines
- thermometers
- security tag systems
- trolley return equipment
- computers
- scanners
- numerical keyboard equipment, including calculators.

**Safety requirements** may include:
- hazard identification (e.g. workplace inspections)
- emergency, fire and accident procedures
- personal safety procedures
- stress management
- procedures for the use of personal protective clothing and equipment
- reporting incidents and accidents in the workplace.

**Relevant personnel** may include:
- supervisor
- team leader
- manager.

**Store policy and procedures** in regard to:
- store administration
- clerical systems
- operating and maintaining retail equipment
- Work Health and Safety (WHS).

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpersonal communication skills to:
  - follow routine instructions through clear and direct communication
  - ask questions to identify and confirm requirements
  - use language and concepts appropriate to cultural differences
  - use and interpret non-verbal communication
- ability to follow store policy and procedures
- maintaining personal presentation
- interpersonal communication skills, including:
  - non-discriminatory verbal and non-verbal communication
  - listening, questioning and observation
- literacy skills in reading and interpreting workplace documents.

The following knowledge must be assessed as part of this unit:

- store policy and procedures in regard to:
  - workplace ethics
  - shift availability or non-attendance
  - staff rosters
  - interpersonal conflict
  - dealing with grievances
  - personal animosity
  - discriminatory behaviour
  - harassment
  - staff counselling and disciplinary procedures
  - equal opportunity issues
  - part-time, casual, full-time work, contract employment
  - hygiene and self-presentation
- store organisational structure
- structure of the retail industry
- rights and responsibilities of employers and employees in retail workplace
- responsibilities under an Australian apprenticeship contract of training (if applicable)
- major changes affecting retail workplaces
- following set routines and procedures
REQUIRED SKILLS AND KNOWLEDGE
• relevant legislation and statutory requirements, such as:
  • equal opportunity legislation
  • equal employment opportunity (EEO) legislation
  • anti-discrimination legislation
  • workplace relations
  • industry awards and agreements.

Evidence Guide
EVIDENCE GUIDE
The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit
Evidence of the following is essential:
• responsibly applies store policy and procedures in regard to workplace ethics, including interpretation of staff rosters, notification of the availability for work, allocated duties and job description
• recognises and describes the organisational culture of the workplace, including organisational structure, mission and goals
• applies store policy and procedures and legislative requirements in regard to internal and external client contact, especially the use of non-discriminatory language and attitudes
• knows employee's own rights and responsibilities in regard to awards and agreements
• identifies and describes the role of various parties, including employer and employee associations
• applies store policy and procedures in regard to personal dress, presentation, hygiene and code of conduct
• consistently meets store scheduling routines and uses time effectively.
EVIDENCE GUIDE

Context of and specific resources for assessment

Assessment must ensure access to:

- a real or simulated work environment
- relevant documentation, such as:
  - store or sample policy and procedures in regard to workplace ethics
  - store or sample job descriptions and organisational charts
  - store or sample documentation regarding mission and goals for the company
  - store or sample policy and procedures in regard to the rights and responsibilities of employers and employees in the workplace
  - awards and agreements
  - government legislation on equal opportunity, equal employment opportunity (EEO) and anti-discrimination
  - store or sample policies on OHS.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of performance in the workplace
- a role play
- third-party reports from a supervisor
- customer feedback
- research projects or case studies
- written or verbal questioning to assess knowledge and understanding
- review of portfolios of evidence and third-party workplace reports of on-the-job performance.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example this unit can be assessed with the following units:

- SIRXCOM001A Communicate in the workplace
- SIRXOHS001A Apply safe working practices
- SIRXCLM001A Organise and maintain work areas
- SIRXICT001A Operate retail technology
EVIDENCE GUIDE

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically in the context of the job role and with other relevant units that make up the skill set or qualification.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

Store policy and procedures may relate to:

- workplace ethics
- modes of communication
- store hours of operation
- completing work out of hours
- contact with customers
- job descriptions and responsibilities
- interaction with other team members
- interaction with supervision and management
- OHS.

Organisational culture may include:

- organisational structure, including own position and role within the structure
- chain of command
- workplace policy and procedures
- organisational values
- mission statement
- workplace goals.
RANGE STATEMENT

Non-discriminatory attitudes may include:
- age
- race
- colour
- national or ethnic origin
- sex
- pregnancy or marital status
- disability
- religion
- sexual preference.

Customers may include:
- new or repeat contacts
- internal and external contacts
- customers with routine or special requests
- people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities.

Staff or management may:
- come from a range of social, cultural and ethnic backgrounds
- have varying degrees of language and literacy levels.

Sources of information may include:
- media
- reference books
- libraries
- unions
- industry associations
- industry publications
- internet
- information services
- personal observation and experience
- colleagues, supervisors and managers
- industry contacts, mentors and advisers.
RANGE STATEMENT

**Information** may include:
- industry working conditions
- employee and employer rights and responsibilities
- environmental issues and requirements
- industrial relations issues and major organisation
- career opportunities within the industry
- the work ethic required to work in the industry
- industry expectations of staff
- quality assurance
- new products and services.

**Legislation** may include:
- federal, state or territory and local legislation
- food safety
- OHS.

**Store information** may:
- be written or verbal
- relate to store policy and procedures, including:
  - contact with customers
  - job descriptions and responsibilities
  - interaction with other team members
  - interaction with supervision and management.

**Daily work routine** may include:
- interacting with customers
- interacting with supervisors and other staff members
- handling telephone enquiries
- organising and maintaining work areas
- maintaining merchandise and displays
- preparing goods for delivery
- observing scheduled breaks
- assisting other team members
- working within required timelines.

**Tasks** may be:
- routine
- rostered
- non-routine.

Competency field: Working in Industry
SIRXLS001A Sell products and services

Modification History
Not applicable.

Unit Descriptor
Unit descriptor
This unit describes the performance outcomes, skills and knowledge required to sell products and services in a retail environment. It involves the use of sales techniques and encompasses the key selling skills from approaching the customer to closing the sale. It requires a basic level of product knowledge.

Application of the Unit
Application of the unit
This competency applies to frontline sales personnel. It requires the recognition and demonstration of verbal and non-verbal communication skills to determine customer requirements, sell the benefits of products and services, overcome objections and close sales. Personal evaluation is utilised to maximise sales in accordance with industry codes of practice, relevant legislation and store policy.

Licensing/Regulatory Information
Not applicable.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- selling techniques, including:
  - opening techniques
  - recognising buying signals
  - strategies to focus customer on specific merchandise
  - add-ons and complementary sales
  - overcoming customer objections
  - closing techniques
- verbal and non-verbal communication skills
- handling difficult customers
- negotiation skills
- sales performance appreciation
- questioning, listening and observation
- literacy skills in regard to:
  - reading and understanding product information
  - reading and understanding store policies and procedures
  - recording information
- numeracy skills in regard to:
  - handling payment for goods
  - weighing and measuring goods.

The following knowledge must be assessed as part of this unit:

- store policies and procedures, in regard to:
  - selling products and services
  - allocated duties and responsibilities
- store merchandise and service range
- specific product knowledge for area or section
- relevant legislation and statutory requirements
- relevant industry codes of practice
- customer types and needs, including:
  - customer buying motives
  - customer behaviour and cues
REQUIRED SKILLS AND KNOWLEDGE

- individual and cultural differences
- demographics, lifestyle and income
- types of customer needs, e.g. functional, psychological.

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- applies product knowledge and uses appropriate sales approach to sell the benefits of products and services, overcome objections and close sales
- uses questioning, listening and observation skills to determine customer requirements
- consistently applies store policies and procedures in regard to selling products and services
- maximises sales opportunities according to store policies and procedures
- consistently applies industry codes of practice, relevant legislation and statutory requirements in regard to selling products and services
- evaluates personal sales performance to maximise future sales.
EVIDENCE GUIDE

Context of and specific resources for assessment

Assessment must ensure access to:
- a retail work environment
- relevant documentation, such as policy and procedures manuals
- a range of customers with different requirements
- a range of merchandise and products appropriate to the retail workplace
- product labels and sources of product information.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:
- observation of the candidate in the workplace
- third-party reports from a supervisor
- customer feedback
- answers to questions about specific skills and knowledge
- review of portfolios of evidence and third-party workplace reports of on-the-job performance.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically in the context of the job role and with other relevant units that make up the skill set or qualification.

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Store policy** and procedures in regard to:
- interaction with customers
- selling products and services.

**Legislative requirements** may include:
- Trade Practices and Fair Trading Acts
- tobacco laws
- liquor laws
- lottery legislation
- industry codes of practice
- OHS
- sale of second-hand goods
- sale of X and R rated products
- trading hours
- transport, storage and handling of goods.

**Product knowledge** may include:
- warranties
- features and benefits
- use-by dates
- handling and storage requirements
- stock availability
- safety features
- price.
RANGE STATEMENT

Relevant sources of information may include:
- internet
- staff members
- store or supplier product manuals
- product profiles
- videos
- demonstrations
- labels
- store tours.

Customers may include:
- new or repeat contacts
- external and internal contacts
- customers with routine or special requests
- people from a range of social, cultural and ethnic backgrounds and with varying physical and mental abilities.

Sales transactions may be completed:
- face to face
- over the telephone
- online.

Routine customer questions may relate to:
- price and price reductions
- quality
- availability
- features and benefits.

Problem solving may be affected by:
- store policies and procedures
- resource implications.

SITXICT001A Build and launch a website for a small business

Modification History
Not applicable.

Unit Descriptor

Unit descriptor
This unit describes the performance outcomes, skills and knowledge required to build a basic website to meet business needs, including selecting a hosting service and appropriate web development software, planning the website structure and undertaking the actual construction of the site. It requires the technical skills and knowledge typically needed by a business that elects to develop its own site rather than access the services of IT professionals.

This unit satisfies the requirements of BSBEBUS506A Plan and develop a business website, in the Business Services Training Package. BSBEBUS506A has been customised to articulate the technical skills required for building a website and define the scope of skills and knowledge required.

Application of the Unit

Application of the unit
This unit describes a skill relevant to any business within the service industries and applies to the full range of industry sectors and environments. It is particularly relevant to those in small businesses who develop their own websites.

Licensing/Regulatory Information
Not applicable.
Pre-Requisites

</table>
4 Select and use a web hosting service.

4.1 Identify **relevant sources of information on web hosting options**.

4.2 Evaluate different web hosting services and select according to business and technical requirements.

4.3 Upload files to selected web hosting service according to technical requirements and business agreements.

5 Test and critically evaluate website.

5.1 Test website functions, processes and navigation to confirm operational status, appearance, accuracy and ease of operation.

5.2 Evaluate effectiveness of interactive forms to ensure that required sales data is collected for the business.

5.3 Evaluate website according to business website strategy to ensure it projects a business image suited to the e-business model.

5.4 Identify any problems, develop a range of strategies to solve them and select appropriate and sustainable solutions.
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- techniques for using colour and enhancing text within a website
- techniques for capture and manipulation of digital images and graphics, including insertion into a website
- writing skills to develop and review website content for diverse purposes and audiences.

The following knowledge must be assessed as part of this unit:

- general understanding of the internet and world wide web and their application and relevance to individual businesses
- current e-business environment for a particular business context
- general overview of different services and operation systems used by internet service providers
- general principles of website architecture and design
- role of a website in the marketing mix and ways in which the marketing effectiveness of a website can be enhanced
- key features of a marketing-oriented website
- general features of browsers, search engines and web crawlers, including how these impact on website design, decisions and meta-tags
- relationships between content and site design
- functions and features of micro-content elements such as headings, highlighted words and hyperlink text
- underlying impact of hypertext markup language (HTML) and cascading style sheets on site design
- features and uses of frames, forms and tables within a website
- privacy issues, codes of practice and legislative requirements in relation to the development of a website including:
  - OECD Guidelines for Consumer Protection in the Context of Electronic Commerce
  - World Wide Web Consortium (W3C) guidelines
  - copyright laws
  - defamation laws
  - privacy legislation and confidentiality requirements
  - intellectual property
  - legal and regulatory policies affecting e-business.
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to build a website to meet a specific business need through the integration and application of appropriate business and technical skills
- knowledge of the key features and functions to be incorporated into a business website.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills using current equipment, software and authoring tools to develop a business website to meet a particular business need.
EVIDENCE GUIDE

Methods of assessment
A range of assessment methods should be used to assess the practical skills and knowledge required to build and launch a website. The following examples are appropriate for this unit:

- evaluation of a website developed by the candidate through testing of the site against key criteria
- oral or written questioning to assess knowledge of functions, features, security requirements, ISP services and website design requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- BSBEBUS604A Develop a business website strategy
- BSBEBUS507A Manage the business aspects of a website.

Assessing employability skills
Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.

Range Statement
RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording in the performance criteria is detailed below.

**Business purpose** may include:

- promotion
- sales
- contracting and procurement
- auctions
- provision of information
- collaboration
- support to multiple businesses
- change to supply chain integration
- electronic payments
- consultancy services
- certification.
RANGE STATEMENT

Website features and capabilities may involve:

- marketing features
- legal requirements
- privacy and confidentiality requirements
- security requirements
- authentication facility or link
- customer service requirements
- shopping cart facilities
- electronic payment facilities
- online catalogues and brochures
- knowledge bases
- frequently asked questions (FAQs)
- thumbnails
- active links
- navigation buttons
- colour, sound, video, images and graphics
- downloadable files
- search facility
- facility of user feedback on content and operation of website
- text and tags in HTML
- cut down versions of web pages in wireless markup language (WML) for access by wireless application protocol (WAP) telephones.

Ease of operation may include:

- homepage download time
- time to download files
- difficulty in navigation.

Authoring tools and software may include a wide range of text editors and commercial applications such as:

- WordPad
- Notepad
- FrontPage
- Dreamweaver
- Adobe Photoshop.
RANGE STATEMENT

**Security requirements** may include:
- password protection
- limited viewing of rates
- limited downloading of images or image encoding
- payment mechanism.

**Content features** may include:
- knowledge bases
- products and services
- catalogues and brochures
- thumbnails
- FAQs
- company profile
- staff profiles
- business history
- client testimonials
- published materials.

**Page presentation** may include:
- animated sequences
- sound
- movie sequence
- plug ins
- downloadable files
- use of bold, italics, subscript, superscript and strikethrough
- different fonts and font sizes
- colour
- images, e.g. photographs and graphics
- bulleted or numbered lists
- tables
- interactive forms for bookings or enquiries.

**Features** to enhance web pages may include use of:
- frames
- colour
- photographic images
- graphics
- text enhancement.
RANGE STATEMENT

Linked pages may include:

- relative links: between a page and the home page
- fully qualified uniform resource locator (URL) link: to a page on another website.

Relevant sources of information on web hosting options may include:

- internet service providers (ISPs)
- industry associations
- IT media reviews and articles.

1.3 Provide information on options and services available to **people with a disability**

1.4 Identify support requirements of **people with a disability**

1.5 Utilise appropriate **communication styles**

2 **Empower people with a disability to communicate their needs and choices**

2.1 Use positive images of **people with a disability** to ensure positive interactions

2.2 Assist **people with a disability** to develop their personal networks

2.3 Provide information and resources to facilitate participation in recreation activities for **people with a disability**, including assistive technology

2.4 Utilise strategies which respect difference in communications

2.5 Identify and establish effective environments for empowering **people with a disability**

3 **Assist people with a disability to establish relationships with key people**

3.1 Identify key people and organisations that can assist **people with a disability**

3.2 Clearly communicate roles and responsibilities of these people and their organisations to **people with a disability**, including reasonable community expectation

3.3 Provide strategies to develop and maintain relationships with key people on an individual basis

4 **Apply strategies for linking people with a disability to recreation opportunities**

4.1 Create opportunities to develop supportive connections

4.2 Identify potential and real **barriers to participation** and implement effective strategies to address them

4.3 Monitor and review the strategies utilised to link **people with a disability** to recreation opportunities

4.4 Develop further strategies to maximise independence and inclusion
4.5 Identify and communicate opportunities beyond the program/activity to **people with a disability**

**Required Skills and Knowledge**

Not applicable.
Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

Critical aspects of evidence to be considered

Assessment must confirm the ability integrated demonstration of all elements of competency and their performance criteria, in particular the ability to:

- identify preferred communication styles of people with a disability
- identify barriers which affect the access and participation of people with a disability
- determine and implement strategies to overcome barriers which affect the access and participation of people with a disability
- assist people with a disability to establish relationships with key people

Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s):

- Nil

This unit must be assessed in conjunction with the following unit(s):

Application of the Disability Discrimination Act

Ability to analyse and interpret information appropriate to determine strategies to overcome historical, cultural or physical factors which affect the access and participation of people with a disability

Interpersonal skills in order to build rapport with people with a disability

Resource implications

Physical resources - assessment of this competency requires access to

a real or simulated work environment

appropriate documentation and resources normally used in the workplace

genuine clients with a disability, ie, not the peers of the learner, in a community recreation setting

Human resources - assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must

be competent in this unit

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

have attained the mandatory competency
requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations

Consistency in performance

Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to the work environment.

Context for assessment

This unit of competency must be assessed in the context of community recreation in Australia. For valid and reliable assessment the community recreation activity should closely replicate the work environment. The environment should be safe, with the hazards, circumstances and equipment likely to be encountered in a real workplace.

This unit of competence should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes.

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

1.3 Determine the composition and nature of the **programs** which will address the identified needs of both clients and the organisation

1.4 Undertake appropriate work to ascertain support, the capacity for a coordinated effort and factors which will affect provision of **programs**

1.5 Undertake research to identify key people, issues to be addressed, possible strategies and options for action

2 **Develop a recreation program plan**

2.1 Establish objectives and evaluation procedures

2.2 Undertake appropriate planning and liaison including developing draft plans in consultation with **relevant people**

2.3 Establish **work** plans and **administration procedures**

2.4 Identify **resources** necessary for the conduct of **programs**, determine a promotional plan/s and establish a **budget**

2.5 Determine recreation program content and design to meet industry standards and necessary approvals gained

2.6 Undertake risk audit

2.7 Take into account the cultural, linguistic and special needs of the **target group/s**

3 **Implement the programs**

3.1 Obtain and allocate necessary **resources** required for the conduct of recreation **programs**

3.2 Implement **work plan, administration procedures** and promotional strategy

3.3 Monitor, review and modify the recreation program or cancelled if necessary to meet **new circumstances**

3.4 Conduct the recreation program safely to meet stated outcomes and objectives

3.5 Follow occupational health and safety and the
4 Evaluate the program

4.1 Actively seek feedback on the program.

4.2 Assess the recreation program against its planned goals and objectives in accordance with organisational policies and procedures.

4.3 Discuss outcomes of the evaluation of the recreation program with relevant people to determine future directions.

Required Skills and Knowledge

Not applicable.
Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

Critical aspects of evidence to be considered

Assessment must confirm the ability integrated demonstration of all elements of competency and their performance criteria, in particular the ability to:
- determine the range of activities and events that the organisation could provide in response to client needs
- collaborate and consult with relevant people
- plan programs to meet identified client and organisation needs
- implement programs
- monitor, review and evaluate the program

Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s):
- SRCCRD003B Promote access, equity and diversity in community recreation

This unit must be assessed in conjunction with the following unit(s):
- Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s):
- Nil

Required knowledge and skills

Required knowledge
- Organisation's objectives, policies and procedures
- Sources of information on client needs and expectations in order to effectively plan a recreation program for clients
- Resource availability within organisation for recreation programs
- Resources and support within the community for recreation programs
Resource allocation policies within the organisation
Insurance policy/arrangements
Occupational health and safety legislation relevant to the provision of recreation services
Organisation emergency policy and procedures
Required skills
Basic research skills to identify relevant community sources of information and resources
Organisational skills to coordinate resources necessary for recreation initiative
Communication skills in order to determine client needs
Planning and coordination requirements of a range of activities and events
Monitoring, reviewing and modifying programs

Resource implications
Physical resources - assessment of this competency requires access to
a real or simulated work environment
appropriate documentation and resources normally used in the workplace
a work environment in order to identify the need for, and plan and provide, a recreational program
Human resources - assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must be competent in this unit
be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area
have attained the mandatory competency
requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations

Consistency in performance

Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to the work environment.

Context for assessment

This unit of competency must be assessed in the context of community recreation in Australia. For valid and reliable assessment the community recreation activity should closely replicate the work environment. The environment should be safe, with the hazards, circumstances and equipment likely to be encountered in a real workplace.

This unit of competence should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes.

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

| 1. **Promote infant's and toddler's social development through recreation activities** | 1.1 Encourage infants and toddlers to initiate and develop contact with others  
1.2 Structure experiences and **recreation equipment and toys** in a way which promotes cooperation  
1.3 Plan opportunities for social interaction between infants and toddlers with respect to their needs, interests and **stage of development**  
1.4 Acknowledge and encourage appropriate and effective communication between infants and toddlers  
1.5 Maintain a clean and hygienic **environment** according to regulations and organisation policy and procedures and **resources** |
| 2. **Create a positive relationship between infants and toddlers and their parents** | 2.1 Support infant's and toddler's attachment to their parents  
2.2 Assist parents to make constructive separations from their infants or toddlers  
2.3 Support parents in understanding the importance of infant's and toddler's feelings of trust, autonomy and initiative  
2.4 Instructor to respond to different **parenting styles** when fostering positive relationships between infants and toddlers and their parents |
| 3. **Provide guidance to parents participating in recreation programs with infants and toddlers** | 3.1 Encourage parents to initiate and develop contact with others  
3.2 Explain safety and hygiene requirements to parents  
3.3 Interactions with infants and toddlers establish meaningful routines and create a stable environment  
3.4 Respond promptly to infant's and toddler's signals of distress and encourage parents to do the same |
3.5 Show expressions of affection to both parents and infants and toddlers

3.6 Assist parents to deal with infant's and toddler's fearful behaviour

3.7 Praise infant's and toddler's attempts to perform recreation skills

3.8 Encourage parents to set and reinforce safe and realistic limits for infants and toddlers

3.9 Stress to parents the emphasis on the importance of constant supervision of infants and toddlers in and around a recreation environment

3.10 Allow infants and toddlers to learn recreation skills in an environment that is free of shame, intimidation and force

3.11 Assist parents to deal with infant's and toddler's egocentric behaviour and their frustration and anger

4 Form a positive relationship with infants and toddlers

4.1 Developmentally appropriate communication initiated with the infants and toddlers and relevant to the infants and toddlers

4.2 Use key words and cues of meaning to infants and toddlers

4.3 Use language at the infant's or toddler's level

Required Skills and Knowledge

Not applicable.
Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

**Critical aspects of evidence to be considered**

Assessment must confirm the ability integrated demonstration of all elements of competency and their performance criteria, in particular the ability to:

- evaluate whether conditions are suitable to commence the session
- communicate effectively with infants, toddlers and parents
- observe participants and recognise when and how intervention should take place to improve relationships
- select toys and equipment appropriate to foster social interaction between infants, toddlers and parents in the recreation environment
- conduct activities and games to develop relationships
- ensure adherence to safety and hygiene policies and procedures
- conduct activities and/or games in accordance with the accepted best practice principles of recreation activity

**Interdependent assessment of units**

This unit must be assessed after attainment of competency in the following unit(s):

SRCCRO007B Operate in accordance with accepted instructional practices, styles and legal and ethical responsibilities

This unit must be assessed in conjunction with the following unit(s):

Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s):

SRCAQU013B Collect and analyse information on the philosophy and structure
Required knowledge and skills

- Required knowledge
  - Infant's and toddler's stages of development
  - Temperament and personality characteristics
  - Parenting styles
  - Toys, activities and games to encourage interaction
  - Relevant equipment and safety requirements, including occupational health and safety and legislative requirements
  - Hazards to infants and toddlers in a recreation environment

- Required skills
  - Skills used to conduct developmentally appropriate activities and games, eg, movement, voice, etc
  - Ability to provide explanations and instructions
  - Communication skills to exchange information with infants, toddlers and parents in the recreation environment
  - Risk minimisation skills to maintain a safe and hygienic environment

Resource implications

- Physical resources - assessment of this competency requires access to a real or simulated work environment appropriate documentation and resources normally used in the workplace
  - a recreation environment
  - other equipment
  - suitable participants
  - rules, policies and regulations of relevant peak bodies and/or employer organizations

- Human resources - assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors...
(or persons within the assessment team) must be competent in this unit be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations

Consistency in performance

Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to the work environment

Context for assessment

## Elements and Performance Criteria

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>Element</th>
<th>Performance Criteria</th>
</tr>
</thead>
</table>
| 1 Plan and prepare an effective learning environment | 1.1 Identify individual and/or group **learning outcomes** to inform the planning and design of activities  
1.2 Demonstrate two techniques to assess individual and group **learning needs**  
1.3 Refer client learning needs beyond the capabilities of the enterprise and staff to alternate enterprises or contract specialist staff  
1.4 Apply knowledge of client **learning needs** to establish a programme and sequence of activities that addresses these needs and meets the overall **learning outcomes**  
1.5 Determine and select an adventure environment that will meet the **learning outcomes** of the group, the **learning needs** of individuals and satisfy local environmental requirements  
1.6 Determine factors affecting a client's perception of risk and plan an appropriate balance between real and perceived risk, matched to the readiness of the client, in order to achieve the activity outcomes and meet the client's **learning needs**  
1.7 Ensure technical equipment used in the activities complies with minimum safety standards  
1.8 Ensure staff conducting the adventure activities are suitably qualified  
1.9 Establish a working agreement through contractual leadership |
| 2 Plan for progression and transfer of learning | 2.1 Select and apply a **model of adventure/experiential learning** in program design in order to meet **learning outcomes**  
2.2 Structure and sequence learning experiences in accordance with the model and with activity-specific requirements that takes into |
account the learning needs of the client

2.3 Determine the focus of an adventure activity and use a facilitation technique to articulate it to the client in terms of the potential transfer of learning to different environments and contexts

2.4 Incorporate measures for monitoring individual and group progression or change in planned adventure activities

2.5 Establish contingency plans for adventure activities based on individual and/or group reflection and/or emergent issues such as conflict, misadventure

3 Manage learning activities in an outdoor environment

3.1 Implement minimum impact practices and display a respect and understanding of the outdoor environment by personal example

3.2 Recognise and monitor the physical and emotional safety of individuals and the group

3.3 Implement facilitation approaches that establish group norms thereby allowing individuals to share in the responsibility for their learning and safety

3.4 Foresee situations of potential physical and emotional danger and take action to manage these dangers

3.5 Address the learning needs of individuals and the group through a variety of activities

3.6 Re-evaluate client needs throughout activities using appropriate models and techniques such as debriefing and "checking in"

4 Establish and maintain positive group dynamics

4.1 Examine various leadership styles and approaches

4.2 Determine positive and negative influences of the group leader on group dynamics

4.3 Use communication techniques with individuals and groups that are sensitive to their perceptions, beliefs and values

4.4 Encourage and support clients to ask questions, give feedback and express feelings

4.5 Treat individuals and groups in a manner that is
seen to be fair, just and consistent

4.6 Model own behaviour that avoids reinforcing negative stereotypes and is responsive to the feelings demonstrated by clients

4.7 Recognise and reinforce the value of individual differences in terms of their contribution within the group to stimulate collaborative work between clients

5 Facilitate the transfer of learning relevant to program outcomes

5.1 Use knowledge, understanding and implementation of a suitable facilitation model to incorporate the transfer of learning

5.2 Select a type of facilitation activity that is relevant to the client and to program outcomes and conduct it in a manner which results in group and individual recognition of opportunities for learning transfer

5.3 Respond to situational demands and make changes to planned facilitated activities

5.4 Identify the behaviour of individuals and groups during adventure activity(s) to be used as part of a reflection phase

5.5 Identify and apply the roles and responsibilities of the facilitator and comply with facilitation guidelines in the conduct of reflective opportunities

5.6 Facilitate individuals and group to identify their future learning needs

5.7 Use a suitable facilitation activity to achieve the development of personal and group action plans

6 Evaluate adventure-based learning activities

6.1 Monitor client participation in adventure activities to identify if and/or where changes are needed

6.2 Obtain feedback from a range of sources on program/activity delivery

6.3 Apply feedback to review all aspects of the adventure-based learning activity

6.4 Evaluate and review outcomes for all clients

6.5 Review outcomes against individual client goals
6.6 Use feedback from others, in consultation with professional supervision, to identify areas where own professional practice can be improved and ways of improving

How to address learning needs through varied activities

Methods for stimulating and assessing individual and group progression

Theories on the transfer of learning and ways of transferring learning in different contexts

Physical and psychological needs of clients

Balance between real and perceived risk

Motivation techniques and strategies

Forms of reflective learning

Programming and sequencing of activities within programmes

Stages of group formation

Required skills

Skills in outdoor adventure activity

Leadership skills to motivate and work with diverse groups

Communication skills to enable effective facilitation

Identifying group dynamics and interaction between group members

Negotiation skills to resolve potential conflict situations

Reflective learning techniques

Resource implications

Physical resources - assessment of this unit of competency requires access to client groups

environment suitable for the conduct of adventure-based activities. This may include outdoor or indoor activities

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must be competent in this unit but preferably be competent in the unit at the level above (i.e., SROABL003B)

be competent, as a minimum, in the units
SRXFAD001A, SRXRIK001A and SRXEMR001A to ensure adequate risk management during the assessment

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations

**Consistency in performance**

Due to issues such as behaviour, facilitation approaches and different learning needs, this unit of competency must be assessed over a minimum of two (2) sessions with peers in a simulated environment AND a minimum of three (3) sessions with different client groups in order to ensure consistency of performance over the Range Statements and contexts applicable to conducting adventure based activities to facilitate learning for clients

**Context for assessment**

This unit of competency must be assessed in the context of an outdoor recreation activity and must be demonstrated when facilitating adventure activities with clients in a real workplace environment

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that underpin effective workplace practices.

The three levels of performance (1, 2 and 3) denote the level of competency required to perform the task:

- Use routine approaches
- Select from routine approaches
- Establish new approaches
Collecting, analysing and organising information - Collecting information on client's goals and desired outcomes

Communicating ideas and information - Facilitating client learning during adventure activity

Planning and organising activities - Planning activities that will promote learning

Working with teams and others - Working with other staff and groups of clients during adventure based activities

Using mathematics
cal ideas and techniques
- Not applicable

Solving problems - Dealing with inappropriate behaviour in group activities

Using technology - Not applicable

Please refer to the Assessment Guidelines for advice on how to use the Key Competencies.
Range Statement

Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

</tr>
</tbody>
</table>
2 Present a talk to a public forum

2.1 Deliver the talk in an audible manner

2.2 Deliver the talk in a manner that engages and holds the audience's attention

2.3 Develop ideas logically, coherently and complete the talk in the given time

2.4 Use appropriate vocabulary and grammatical structures

2.5 Use a confident and fluent manner that uses appropriate register and tone and employ a variety of pace, pitch, stress and volume

2.6 Use relevant non-verbal communication and body language

2.7 Enhance the presentation through the selection, organisation and presentation of supporting materials such as visuals

2.8 Deal with questions effectively and impromptu talk

Required Skills and Knowledge

Not applicable.
Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of the factors that influence the preparation and presentation of an impromptu talk and a longer prepared speech.

Assessment of performance should be over a period of time covering all categories from the Range Statements.

Assessment must confirm the ability to apply knowledge and appropriate techniques to prepare information for a speech.

Present a speech that contains relevant information.

Present a speech in a manner that engages and holds the audience’s attention.

Deliver a speech using appropriate vocabulary and communication skill.

Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s):

Nil

This unit must be assessed in conjunction with the following unit(s):

Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s):

Nil

Required knowledge and skills

Required knowledge:

Knowledge of organisational codes of practice and guidelines for the delivery of speeches to the public.

Knowledge of decision making and conflict resolution strategies for answering difficult questions.
Knowledge of the organisation, its key functions, personnel, aims and objectives

Required skills

Problem solving in order to answer difficult questions fully and correctly, or to refer to others if answer is not known

Interpersonal skills in order to develop a rapport with audience

Communication (verbal and listening skills)

Observation in order to monitor effect of talk and adjust if necessary

Negotiation skills to negotiate outcomes with the audience and control audience reception of your talk

Flexibility skills to be able to adjust the talk on the spot in order to achieve the best outcome

Resource implications

Physical resources - assessment of this competency requires access to
an appropriately equipped theory space
a microphone
a lectern
a stage

access to relevant information

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must

be competent in this unit
be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area
be personnel with career oriented participant competency at the appropriate level
have attained the mandatory competency requirements for assessors under the
Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations

Consistency in performance

Due to the issues such as variable conditions of athlete participation this unit of competency must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to career oriented participants.

Context for assessment

This unit of competency must be assessed in the context of a sporting activity with a range of real clients. For valid and reliable assessment the activity should be conducted in a real or simulated environment with sporting participants. The environment should be safe, with noise to a level experienced with an activity in full operation and support serviced provided for optimum performance.

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes.

Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>Element</th>
<th>Performance Criteria</th>
</tr>
</thead>
</table>
| 1 Collect information to plan a session or program | 1.1 Identify sources of information required to plan a session or program  
1.2 Ensure information is as up-to-date, accurate and comprehensive as available sources allow  
1.3 Check conflicting information with relevant sources  
1.4 Respect participants' and organisation's rights to confidentiality  
1.5 Give consideration to the full range of participant's needs  
1.6 Determine the condition of the participant in consultation with relevant support personnel and the participants aims and priorities  
1.7 Conduct relevant tests and assessments  
1.8 Assess the likely demands of the activity on the participants  
1.9 Advise participants of any obvious reasons why they should not participate in a given session or program |
| 2 Produce a session or program plan | 2.1 Develop a plan which includes aims relevant to identified needs and learning  
2.2 Ensure the plan includes tasks and activities to achieve the aims and is realistic to the participants and resources available |
2.3 Identify and consider external factors which are likely to disrupt or influence the delivery, value and outcome of the session or program when planning the program.

2.4 Assess and confirm session and participant-specific risks are within acceptable levels of supervision.

2.5 Ensure the plan conforms to legislation, health and safety requirements and accepted good practice, taking into account age and stage of development of participants.

2.6 Ensure the plan enables everyone to take part to the best of their ability, according to their needs and avoids discrimination or stereotyping.

2.7 Seek agreement on the plan with staff, participants and organisations where relevant.

3 Resource a session

3.1 Arrange a venue appropriate for the session, the participants and their abilities.

3.2 Arrange equipment and resources appropriate for the activity and participants.

3.3 Ensure equipment is safely modified and/or conditioned for use by different participant groups.

3.4 Check resources for availability and safety.

3.5 Arrange financial resources necessary for the session, where relevant.

3.6 Ensure arrangements make the best use of available resources and minimise damage to the chosen environment.

3.7 Ensure arrangements are sufficiently flexible to allow the activity to be modified to meet particular needs.

3.8 Confirm arrangements and resources with the appropriate staff, support personnel, organisations and participants.

3.9 Provide advice to participants on physical resource requirements for the session.

3.1 Organise and brief support personnel as to the
0 extent and limitations of responsibilities, special needs of participants and expectations regarding attitudes to participants

**Required Skills and Knowledge**

Not applicable.
Evidence Guide

Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of the factors influencing the planning of a session or program for participants using a particular facility or location.

Assessment of performance should be over a period of time covering all relevant categories within the Range Statements that are applicable in the learners work environment.

In particular, assessment must confirm the ability to:
- collect information to plan a session or program
- produce a session or program plan
- resource a session or program

Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s):
- BSBCMN202A Organise and complete daily work activities
- SRXOHS001B Follow defined Occupational Health and Safety policies and procedures
- SRXCAI001B Assist in preparing sport and recreation sessions for participants
- SRXCAI003B Provide equipment for activities

This unit must be assessed in conjunction with the following unit(s):
- activity-specific competencies in the area of fitness, community recreation, sport or outdoor recreation where relevant
For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)

SRXCAI005B Conduct a sport and recreation session for participants

Required knowledge and skills

Required knowledge

Sources of information on participant needs and expectations in order to effectively plan a sport and/or recreation session or program for participants

Legislation relevant to confidentiality to ensure this information is included in planning for a sport and/or recreation session or program for participants

Factors affecting group and individual needs to ensure this information is included in planning for a sport and/or recreation session or program for participants

Reasons for individual participation in a sport and/or recreation activity to ensure this information is included in planning for a sport and/or recreation session for participants

Health and other reasons affecting ability to participate in an activity

Organisation's policy and procedures in regard to planning a sport and/or recreation session for participants

Policies, procedures and requirements specific to the venue/facility

Risk analysis processes in order to evaluate the risk of planned sport and/or recreation activities

Activity specific knowledge of identified planned sport and/or recreation activities

Required skills

Activity specific skills for identified planned sport and/or recreation activities

Organisational skills to coordinate resources
necessary for planned sport and/or recreation activities

Ability to communicate effectively in order to plan effective sessions or programs for participants

Questioning skills in order to determine appropriate sport and/or recreation activities to meet participant needs

Ability to convey and interpret information in order to effectively and efficiently receive information and incorporate this into the planning of sessions or programs

### Resource implications

Physical resources - assessment of this competency requires access to participants, equipment and a facility/venue for the conduct of a sport and/or recreation session

Human resources - assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must be competent in this unit be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations

### Consistency in performance

Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the complete Range Statements and contexts applicable to planning a specific recreation session in defined locations

### Context for assessment

This unit of competency must be assessed in the context of a sport or recreation activity
with a range of clients. For valid and reliable assessment the sport or recreation activity should closely replicate the work environment. The environment should include real clients and be safe with the hazards, circumstances and equipment likely to be encountered in a real workplace.

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes.

Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, participants or other appropriate persons.

<td>1.2 Monitor <em>influencing factors</em> which may influence the performance of the group or individual</td>
</tr>
<tr>
<td></td>
<td>1.3 Modify session, where necessary, based on an assessment of the conditions, participant status, facilities and equipment</td>
</tr>
<tr>
<td></td>
<td>1.4 Conduct activities within the session at a level and pace to suit the capabilities of individuals and/or the group</td>
</tr>
<tr>
<td><strong>2</strong> Maintain a positive social environment</td>
<td>2.1 Meet participants punctually and make them feel welcome and at ease</td>
</tr>
<tr>
<td></td>
<td>2.2 Inform participants of session aims and objectives and encourage them to set realistic goals</td>
</tr>
<tr>
<td></td>
<td>2.3 Balance group and individual needs appropriately and continuously monitor</td>
</tr>
<tr>
<td></td>
<td>2.4 Encourage group co-operation, participation and interaction</td>
</tr>
<tr>
<td></td>
<td>2.5 Establish group norms and standards and take appropriate action to address issues of equity, gender, ethnicity and <em>emotional well-being</em></td>
</tr>
<tr>
<td></td>
<td>2.6 Balance, where relevant, levels of real and perceived risk in accordance with group and individual goals and abilities</td>
</tr>
<tr>
<td></td>
<td>2.7 Use negotiation and conflict resolution strategies to deal with potential problems</td>
</tr>
<tr>
<td></td>
<td>2.8 Use recognition and positive feedback to engender motivation and enjoyment</td>
</tr>
<tr>
<td></td>
<td>2.9 Make decisions over participant behaviour fairly and deal with any disagreements or conflicts with promptly and firmly</td>
</tr>
</tbody>
</table>
3 Establish effective communication

3.1 Establish strategies where relevant to maintain communication strategies between all group members

3.2 Communicate instructions in a manner suitable to the participants which is clear, accurate and contains all relevant information

3.3 Encourage participants to seek clarification of information when necessary

3.4 Communicate feedback to participant's at an appropriate time, on session technique and correct usage of equipment and aim to raise the participant's self-esteem and motivation

4 Ensure participant safety

4.1 Ensure personal skills are at an adequate level to engender participant confidence and to determine and maintain participant safety

4.2 Identify and note current standing practices for emergency procedures and situations outside the normal routine and deal with them in accordance with organisation's procedures

4.3 Brief participants on safe and responsible behaviour and make them aware of rules, codes, organisation's Occupational Health and Safety requirements, restrictions and the need to minimise damage to equipment and the environment

4.4 Organise participants into manageable groups with appropriate levels of supervision to situational variances and legislative requirements

4.5 'Warm up' participants through safe and appropriate exercises relevant to the proposed session

4.6 Continuously monitor compliance with regulations and restrictions

4.7 Continuously monitor location of clients, as appropriate to the recreation session

4.8 Arrange equipment in a safe manner and appropriate to the session and continuously monitor equipment use for correct usage and compliance with safety procedures
4.9 Distribute safety equipment effectively throughout the group

4.1 Identify potential hazards, continuously assess risks during the session and confirm them as within acceptable limits in accordance with risk management policy and procedures

5 Prepare clients to end the session

5.1 Allocate sufficient time for 'cooling down' and discussions with participants

5.2 Collect and check issued equipment for damage and wear

5.3 Give participants the opportunity to provide feedback and identify further needs

5.4 Return the environment/facility to a condition acceptable for future use

5.5 Supervise participant's departure in a manner appropriate to the situation

6 Evaluate the session

6.1 Determine the parameters for evaluation

6.2 Ensure the evaluation includes the views of participants and other staff taking part

6.3 Offer feedback and receive suggestions constructively

6.4 Identify areas where personal performance could be improved and agree on ways of obtaining this improvement agreed

Required Skills and Knowledge

Not applicable.
Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

Critical aspects of evidence to be considered

- Assessment must confirm sufficient knowledge of the factors influencing the conduct of a recreation session for participants using a particular facility or location.
- Assessment of performance should be over a period of time covering all relevant categories within the Range Statements that are applicable in the learners work environment.
- In particular, assessment must confirm the ability to conduct a particular recreation session to suit.
- Different participants needs.
- Different session aims.
- Different types of participant groups.

Interdependent assessment of units

- This unit must be assessed after attainment of competency in the following unit(s):
  - SRXFAD001A Provide first aid.
  - SRXEMR001A Respond to emergency situations.
  - SRXCAI002B Assist in conducting sport and recreation sessions for participants.

- This unit must be assessed in conjunction with the following unit(s):
  - Activity-specific competencies in the area of fitness, community recreation, sport or outdoor recreation where relevant.

For the purpose of integrated assessment, this unit may be assessed in conjunction with...
the following unit(s)
SRXCAI003B Provide equipment for activities
SRXCAI004B Plan a session or program for participants

**Required knowledge and skills**

**Required knowledge**
- Duty of Care requirements when dealing with clients
- Relevant Occupational Health and Safety Legislation pertaining to the conduct of activities and care of participants
- Organisation's policy and procedures for conducting a sport and recreation session for participants
- Activity specific Codes of Practice and guidelines for identified activities to ensure session is conducted according to these practices and guidelines
- Site/facility requirements to ensure a sport and recreation session for participants is conducted appropriately
- Activity aims and participants goals in order to ensure the sport and recreation session is conducted in a manner that will fulfil both
- Group dynamics with respect to stages of group formation
- Leadership styles in order to adjust presentation according to dynamics of the group
- Decision making and conflict resolution strategies for dealing with group and individual situations

**Required skills**
- Ability to conduct risk assessment of planned sport and recreation session to ensure safety of participants and staff
- Problem solving strategies to resolve issues relevant to session-specific problems as well as participants interaction/conflict
Conflict resolution and negotiation skills to resolve conflict that arises

Interpersonal skills to build rapport with participants and enhance interaction with participants

Communication (verbal and listening skills) in order to accurately and effectively pass on information about the sport and recreation session to participants and to hear possible problems/conflicts that participants may have during the session

Flexibility skills in order to modify session plans as required in order to achieve client's and organisation's aims from the activity

**Resource implications**

Physical resources - assessment of this competency requires access to participants, equipment and a facility/venue for the conduct of a recreation session

Human resources - assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must be competent in this unit be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations

**Consistency in performance**

Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to the conduct of a recreation session within a particular activity area
**Context for assessment**

This unit of competency must be assessed in the context of a sport or recreation activity with a range of clients. For valid and reliable assessment the sport or recreation activity should closely replicate the work environment. The environment should include real clients and be safe with the hazards, circumstances and equipment likely to be encountered in a real workplace.

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes.

Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, participants or other appropriate persons.

**KEY COMPETENCIES**

<table>
<thead>
<tr>
<th>Collect, Analyse &amp; Organise Information</th>

<td>1</td>
<td>-</td>
</tr>
</tbody>
</table>

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency.
that underpin effective workplace practices.

The three levels of performance (1, 2 and 3) denote the level of competency required to perform the task:

Use routine approaches

Select from routine approaches

Establish new approaches

**Collecting, analysing and organising information** - Assessing participants status, ensuring participant safety, determining parameters for evaluation,

**Communicating ideas and information** - Informing session
aims, encouraging group co-operation and participation, communicating instructions

**Planning and organising activities** - 'Warm up' and 'cool down' activities, supervising participants departure at the end of the session, distributing safety equipment

**Working with teams and others** - Seeking feedback from participants, maintaining communication with all group members

**Using mathematical ideas and techniques** - Using terms in
sessions

Solving problems -
Resolving conflict when it arises, modifying session where necessary

Using technology - Not applicable

Please refer to the Assessment Guidelines for advice on how to use the Key Competencies.
Range Statement

Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

</tr>
<tr>
<td></td>
<td>2.3 Encourage <strong>participants</strong> or their representatives to contribute to program design</td>
</tr>
</tbody>
</table>
|         | 2.4 Ensure the **program plan** conforms to legislation, health and safety requirements and accepted good
practice

2.5 Ensure the program plan is consistent with strategies to overcome discrimination and stereotyping

2.6 Ensure the sequence of sessions within the program is designed to enhance participation and participants motivation

2.7 Ensure where relevant, the plan is agreed with staff, participants and organisations

2.8 Complete all documentation correctly

3 Coordinate and allocate program resources

3.1 Arrange a venue appropriate for the program, the participants and their abilities

3.2 Arrange equipment and resources appropriate for the program and participants

3.3 Take steps to ensure that selected staff have the necessary skills/qualifications and the ability to work sympathetically with the participants to achieve positive interaction and a supportive atmosphere

3.4 Select staff with adequate skills to engender confidence in the participants and enhance motivation throughout the program

3.5 Safely modify and/or condition equipment for use by different participant groups in a variety of contexts

3.6 Check resources for availability and safety

3.7 Arrange where relevant, financial resources necessary for the program

3.8 Ensure arrangements support the planned sequencing and coordination of sessions

3.9 Confirm arrangements and resources with the appropriate staff, organisations and participants

3.10 Provide clear, accurate and concise information and advice to participants on physical resource requirements for the activity
3.1 Brief, assisting personnel as to the extent and limitations of responsibilities, special requirements of participants and expectations regarding attitudes to participants

Required Skills and Knowledge

Not applicable.
Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

**Critical aspects of evidence to be considered**

- Assessment must confirm sufficient knowledge of the factors influencing the planning of a recreation program for participants using a particular facility or location.
- Assessment of performance should be over a period of time covering all relevant categories within the Range Statements that are applicable in the learners work environment.
- In particular, assessment must confirm the ability to plan a program of individual sessions to suit different participant needs.
- Different program aims.
- A minimum of three different types of participant groups.
- Different program contexts from the range of variables statements.

**Interdependent assessment of units**

This unit must be assessed after attainment of competency in the following unit(s):

- SRXCAI003B Provide equipment for activities
- SRXCAI004B Plan a session or program for participants
- SRXCAI005B Conduct a sport and recreation session for participants
- BSBCMN402A Develop work priorities
- SRXRIK001A Undertake risk analysis of activities

This unit must be assessed in conjunction.
with the following unit(s)

activity-specific competencies in the area of fitness, community recreation, sport or outdoor recreation where relevant

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)

SRXCAI007B Conduct a sport and recreation program

Required knowledge and skills

Required knowledge

Sources of information necessary to effectively organise an identified sport and recreation program

Legislation relevant to ensure compliance with confidentiality requirements of participants participating in a sport and recreation program

Knowledge of group dynamics and factors affecting group and individual needs in order to effectively organise a sport and recreation program

Reasons for client participation in a recreation program in order to ensure appropriate sport and recreation programs are organised

Health and other reasons affecting ability to participate in a session or a recreation program

Organisation's policies and procedures in regard to organising sport and recreation programs

Policies, procedures and requirements specific to the venue/facility in order to ensure appropriate sport and recreation programs are organised

Risk analysis processes in order to ensure all possible risks associated with an organised sport and recreation program have been identified and appropriate action taken to ensure safety of participants and staff

Activity-specific knowledge of the sport and
recreation program organised

Required skills

Activity-specific skills of the sport and recreation program organised

Organisational skills in order to effectively plan a sport and recreation program, including all relevant details necessary to ensure smooth and efficient operation

Research skills to determine participant needs and organise a sport and recreation program that will suit these needs

Resource implications

Physical resources - assessment of this competency requires access to participants, equipment and a facility/venue for the conduct of recreation programs

Human resources - assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must be competent in this unit

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations

Consistency in performance

Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to the organisation of programs within a recreation sector

Context for assessment

This unit of competency must be assessed in the context of a sport or recreation activity
with a range of clients. For valid and reliable assessment the sport or recreation activity should closely replicate the work environment. The environment should include real clients and be safe with the hazards, circumstances and equipment likely to be encountered in a real workplace.

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes.

Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, participants or other appropriate persons.

1.4 Demonstrate effective communication techniques  
1.5 Establish a rapport/relationship with the client and express a genuine interest in client needs/requirements  
1.6 Create an effective service environment through verbal and non-verbal presentation according to enterprise policies and procedures |
| 2 Present a positive organisational image | 2.1 Provide information to the public to maintain organisation's image and accountability  
2.2 Establish and maintain professional ethics to enhance client commitment and build return client base  
2.3 Demonstrate actions that are in keeping with the required organisational image |

## Required Skills and Knowledge

Not applicable.
Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

Critical aspects of evidence to be considered

- Assessment must confirm sufficient knowledge of communication techniques and organisation's products and services.
- Assessment of performance should be over a minimum of five (5) client encounters including a variety of clients and enquiries, covering the prescribed number of categories from the Range Statements.
- Assessment must confirm the ability to apply this knowledge and appropriate techniques to create a welcoming client environment.
- Create an effective service environment.
- Build a return client base.

Interdependent assessment of units

- This unit must be assessed after attainment of competency in the following unit(s)
  - Nil

- This unit must be assessed in conjunction with the following unit(s)
  - Nil

- For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)
  - Nil

Required knowledge and skills

- Required knowledge
  - State/Territory/Commonwealth legislation, regulations, industry codes of practice, standards and guidelines, procedures and protocols, in regard to meeting and greeting customers.
  - Consumer law, environmental law,
Occupational Health and Safety (OH&S), discrimination/equal employment opportunity, harassment and other laws specific to local government, state and federal legislation
Privacy legislation
Codes of Conduct
Relevant product knowledge and organisation standards

Required skills
Language skills which allow for adequate communication with the client
Literacy skills to the level required to acquire the required product knowledge
Numeracy skills to the level required to interpret the client requirements and meet their needs

Resource implications
Physical resources - assessment of this unit of competency requires access to
a real work environment with exposure to a minimum of five (5) real clients, representative of a normal client base
a variety of work related products and services

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must be competent in this unit but preferably be competent in the unit at the level above be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the
Standards for Registered Training Organisations

Consistency in performance

Due to issues such as the diversity of clients and enquiries, this unit of competency must be assessed over a minimum of five (5) client encounters with a variety of clients and enquiries, in order to ensure consistency of performance over the Range Statements and contexts applicable to creating client relationships.

Context for assessment

This unit of competency must be assessed in the context of creating a client relationship with a range of real clients. For validity and reliability the assessment should occur in the workplace. The interactions should be representative of a realistic workday.

This unit of competency should be assessed through the observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes.

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

</tr>
</tbody>
</table>
3.7 Document delegations of the Board's authority

3.8 Undertake and evaluate duties outlined in job descriptions of Board members regularly as a whole Board assessment and an individual Director assessment

4 Monitor trends and changes in the industry

4.1 Ensure the Board is aware of emerging issues in the industry that are likely to have an impact on the organisation's business

4.2 Evaluate the identified emerging issues within a risk management and due diligence framework for their impact on the organisation

4.3 Ensure those emerging issues requiring attention by the organisation are dealt with by the Board in an appropriate manner

4.4 Demonstrate how the Board regularly reviews its policies and procedures to take account of the emerging issues

5 Monitor the organisation's operations

5.1 Ensure preparation for meetings is adequate and timely

5.2 Record meeting attendance and encourage effective participation by all Board members

5.3 Utilise information provided in analysing the efficiency and effectiveness of the organisation in meeting its stated objectives and performance targets

5.4 Review policies, procedures, operations and workplace responsibilities of the organisation and adapt accordingly

6 Supervise the senior management of the organisation

6.1 Receive information and advice regularly from the senior management of the organisation to form the basis of informed decision-making

6.2 Provide instructions to the senior management of the organisation to implement specific policy directions as required

6.3 Seek feedback from senior management of the organisation in relation to the implementation of the specific policy directions
6.4 Assess the performance of the Chief Executive Officer (CEO) regularly in accordance with the legal framework under which they are engaged

Required Skills and Knowledge
Not applicable.
Evidence Guide

Critical aspects of evidence to be considered

Assessment must confirm sufficient knowledge of being an effective paid or unpaid member of the Board of a sport or recreation organisation in the work environment.

Assessment of performance should be over a period of time covering all categories of the Range Statements that are applicable in the learner's environment.

In particular, assessment must confirm the ability to:
- identify the core business and establish the strategic direction of the organisation;
- follow legal requirements when carrying out Board duties;
- work within the structure of the organisation;
- monitor trends and changes in the industry;
- monitor the organisation's operations;
- supervise the senior management of the organisation.

Interdependent assessment of units

This unit must be assessed after attainment of competency in the following unit(s):

Nil

This unit must be assessed in conjunction with the following unit(s):

SRXGOV002B Undertake the role of an individual Director of an organisation

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s):
Nil

Required knowledge and skills

Required knowledge

Knowledge of natural justice and fair process as it relates to the evaluation and assessment of the effectiveness and efficiency of a Board and individual Directors

Knowledge of the business and operations of the organisation as it relates to participating in the formulation of strategic directions

Knowledge of the legal framework under which the organisation operates and the Memorandum and/or Articles of Association of the organisation

Knowledge of roles and responsibilities of particular functions on the Board such as Chairperson, Secretary and Director

Knowledge of the role policies and procedures play in the effective running of an organisation

Knowledge of the separation of the governance (Board) and management (Chief Executive Officer) functions of the organisation and how the management issues are effectively functions of the Board that are delegated to the Chief Executive Officer (CEO)

Knowledge of performance measurement systems as they relate to the measurement of the efficiency and effectiveness of the organisation in meeting its stated performance targets

Knowledge of effective human resource management practices as they relate to the delegation, monitoring and evaluation of the Chief Executive Officer (CEO) and senior management

Knowledge of issues to do with Occupational Health and Safety (OH&S) as they relate to the employment of staff

Required skills

Literacy and numeracy skills as they relate to
the reading, comprehension, evaluation and analysis of documentation that relates to the organisation's strategic direction, governance policy guidelines, undertaking of the function of Director and the monitoring of trends in industry.

Research skills as they relate to the monitoring of trends in industry.

Verbal communication skills as they relate to the presentation of cogent arguments within the Board processes.

Written communication skills as they relate to the presentation of papers at a Board meeting.

Negotiation skills as they relate to active participation in Board discussions and decision-making.

Consultation skills as they relate to the meaningful engagement of relevant stakeholders in the organisation's operations.

Policy development skills as they relate to the drafting of, consultation on and endorsement of policies and procedures for the effective operation of the organisation.

**Resource implications**

Physical resources - assessment of this competency requires access to either real or simulated organisations and their respective Board processes.

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must be competent in this unit but preferably be competent in the unit at the level above be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area have attained the mandatory competency requirements for assessors under the
Consistency in performance

Due to issues such as performing various duties as a member of a Board of an organisation, this unit of competency must be assessed over period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to participating as a member of an effective Board of an organisation.

Context for assessment

This unit of competency must be assessed in the context of participating as a member of an effective Board of a sport or recreation organisation.

Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes.

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

These levels do not relate to the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the Standards for Registered Training Organisations.
Qualifications Framework. They relate to the seven areas of generic competency that underpin effective workplace practices.

The three levels of performance (1, 2 and 3) denote the level of competency required to perform the task:

- Use routine approaches
- Select from routine approaches
- Establish new approaches

**Collecting, analysing and organising information** - Collecting information on the core business of the organisation

**Communicating ideas**
and information - Reporting to the Board on a task that was allocated

Planning and organising activities - Planning and organising regular Board meetings

Working with teams and others - Working as a member of a Board of an organisation

Using mathematical ideas and techniques - Analysing financial documents for the organisation

Solving problems - Identifying the need to hold an extraordina
ry meeting

**Using technology**
- Taking part in a teleconference

Please refer to the Assessment Guidelines for advice on how to use the Key Competencies.
Range Statement

Range Statements
The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- verbal and non-verbal communication techniques, such as:
  - asking relevant and appropriate questions
  - providing explanations
  - demonstrating
  - using listening skills
  - providing information clearly
- safety skills to implement OHS requirements, by acting and responding safely in order to:
  - identify hazards
  - conduct prestart-up checks if required
  - observe and interpret learner behaviour that may put people at risk
- time-management, skills to:
  - ensure all learning objectives are covered
  - pace learning
- reflection skills in order to:
  - identify areas for improvement
  - maintain personal skill development
- literacy skills to:
  - complete and maintain documentation
  - read and follow learning programs and plans
  - read and analyse learner information
- technology skills to operate audio-visual and technical equipment
- interpersonal skills to:
  - engage, motivate and connect with learners
  - provide constructive feedback
  - maintain appropriate relationships
  - establish trust
  - use appropriate body language
  - maintain humour
  - demonstrate tolerance
  - manage a group
  - recognise and be sensitive to individual difference and diversity
- observation skills to:
  - monitor learner acquisition of new skills, knowledge and competency
### REQUIRED SKILLS AND KNOWLEDGE

**Requirements**
- assess learner communication and skills in interacting with others
- identify learner concerns
- recognise learner readiness to take on new skills and tasks

**Required knowledge**
- learner characteristics and needs
- content and requirements of the relevant learning program and/or delivery plan
- sources and availability of relevant learning resources and learning materials
- content of learning resources and learning materials
- training techniques that enhance learning and when to use them
- introductory knowledge of learning principles and learning styles
- key OHS issues in the learning environment, including:  
  - roles and responsibilities of key personnel
  - responsibilities of learners
  - relevant policies and procedures, including hazard identification, risk assessment, reporting requirements, safe use of equipment and emergency procedures
  - risk controls for the specific learning environment
**Evidence Guide**

<table>
<thead>
<tr>
<th>EVIDENCE GUIDE</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.</td>
</tr>
</tbody>
</table>

| Overview of assessment | Assessment must address the scope of this unit and reflect all components of the unit. A range of appropriate assessment methods and evidence-gathering techniques must be used to determine competency. A judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated. |

<table>
<thead>
<tr>
<th>Critical aspects for assessment and evidence required to demonstrate competency in this unit</th>
<th>Evidence of the ability to:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• carry out a minimum of three training sessions, involving demonstrating and instructing particular work skills for different groups; with each session addressing:</td>
</tr>
<tr>
<td></td>
<td>• different learning objectives</td>
</tr>
<tr>
<td></td>
<td>• a range of techniques and effective communication skills appropriate to the audience.</td>
</tr>
</tbody>
</table>

| Context of and specific resources for assessment | Evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be provided. |

| Method of assessment |

| Guidance information for assessment | For further information about assessment of this and other TAE units, refer to relevant implementation guidance published on the IBSA website (www.ibsa.org.au). |
### Range Statement

**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

<table>
<thead>
<tr>
<th><strong>Learner characteristics</strong> may include:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• language, literacy and numeracy levels</td>
<td>• learning styles</td>
</tr>
<tr>
<td>• past learning and work experiences</td>
<td>• specific needs</td>
</tr>
<tr>
<td>• workplace culture.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Safe learning environment may include:</strong></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• exit requirements</td>
<td>• personal protective equipment</td>
</tr>
<tr>
<td>• safe access</td>
<td>• safe use of equipment.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Instruction and demonstration objectives may include:</strong></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• competencies to be achieved</td>
<td>• generic and technical skills, which may be:</td>
</tr>
<tr>
<td>• provided by the organisation</td>
<td>• developed by a colleague</td>
</tr>
<tr>
<td>• individual or group objectives</td>
<td>• learning outcomes.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Learning resources may include:</strong></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• any material used to support learning, such as:</td>
<td>• learner and user guides</td>
</tr>
<tr>
<td>• trainer and facilitator guides</td>
<td>• example training programs</td>
</tr>
<tr>
<td>• specific case studies</td>
<td>• professional development materials</td>
</tr>
<tr>
<td>• assessment materials</td>
<td>• a variety of formats</td>
</tr>
<tr>
<td>• those produced locally</td>
<td>• those acquired from other sources.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Learning materials may include:</strong></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• handouts for learners</td>
<td>• materials sourced from the workplace, e.g. workplace documentation, operating procedures, and specifications.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>Details may include:</strong></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• location and time</td>
<td>• outcomes of instruction or demonstration</td>
</tr>
</tbody>
</table>
### RANGE STATEMENT

<table>
<thead>
<tr>
<th>Reason for instruction or demonstration</th>
<th>who will be attending instruction session.</th>
</tr>
</thead>
</table>

**OHS procedures may include:**

- emergency procedures
- hazards and their means of control
- incident reporting
- use of personal protective equipment
- safe work practices
- safety briefings
- site-specific safety rules.

**Delivery techniques may include:**

- coaching
- demonstration
- explanation
- group or pair work
- providing opportunities to practise skills and solve problems
- questions and answers.

**Coaching may include:**

- learning arrangements requiring immediate interaction and feedback
- on-the-job instruction and 'buddy' systems
- relationships targeting enhanced performance
- short-term learning arrangements
- working on a one-to-one basis.

**Measures may include:**

- informal review or discussion
- learner survey
- on-the-job observation
- review of peer coaching arrangements.

TAEDEL401A Plan, organise and deliver group-based learning

Modification History
Not applicable.

Unit Descriptor
| Unit descriptor | This unit describes the performance outcomes, skills and knowledge required to plan, organise and deliver training for individuals within a group. |

Application of the Unit
| Application of the unit | This unit typically applies to a person working as an entry-level trainer, teacher or facilitator in or with a training and assessment organisation. The person will be working from a learning program developed by someone else, and structuring the learning around that program. |

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
<table>

<tr>
<th>Prerequisite units</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>
Employability Skills Information

| Employability skills | This unit contains employability skills. |

Elements and Performance Criteria Pre-Content

| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Interpret learning environment and delivery requirements | 1.1. Access, read and interpret *learning program documentation* to determine delivery requirements  
1.2. Use available information and documentation to identify group and individual learner needs and learner characteristics  
1.3. Identify and assess constraints and risks to delivery  
1.4. Confirm personal role and responsibilities in planning and delivering training with relevant personnel |
| 2. Prepare session plans | 2.1. Refine existing learning objectives according to program requirements and specific needs of individual learners  
2.2. Develop *session plans* and document these for each segment of the learning program  
2.3. Use knowledge of learning principles and theories to generate ideas for managing session delivery |
| 3. Prepare resources for delivery | 3.1. Contextualise existing learning materials to meet the needs of the specific learner group  
3.2. Finalise learning materials and organise facility, technology and equipment needs in time for delivery of learning sessions  
3.3. Confirm overall delivery arrangements with relevant personnel |
| 4. Deliver and facilitate training sessions | 4.1. Conduct each session according to session plan, modified where appropriate to meet learner needs  
4.2. Use the diversity of the group as another resource to support learning  
4.3. Employ a range of delivery methods as training aids to optimise learner experiences  
4.4. Demonstrate effective facilitation skills to ensure effective participation and group management |
| 5. Support and monitor learning | 5.1. Monitor and document learner progress to ensure outcomes are being achieved and individual learner needs are being met  
5.2. Make adjustments to the delivery sessions to reflect specific needs and circumstances  
5.3. Manage *inappropriate behaviour* to ensure learning can take place  
5.4. Maintain and store learner records according to |
<table>

<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>organisational requirements</td>
</tr>
</tbody>
</table>
## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- presentation skills to ensure delivery is engaging and relevant, including:
  - synthesising information and ideas
  - preparing equipment, such as data projectors and computer presentation applications
  - speaking with appropriate tone and pitch
  - using language appropriate to audience
  - encouraging and dealing appropriately with questions
- group facilitation skills to ensure that:
  - every individual has an opportunity for participation and input
  - group cohesion is maintained
  - behaviour that puts others at risk is observed, interpreted and addressed
  - discussion and group interaction are enhanced
- conflict resolution and negotiation skills to:
  - identify critical points, issues, concerns and problems
  - identify options for changing behaviours
- oral communication and language skills to:
  - motivate learners to transfer skills and knowledge
  - engage with the learner
- interpersonal skills to maintain appropriate relationships and ensure inclusivity
- observation skills to monitor individual and group progress

### Required knowledge

- introductory knowledge of learning theories
- sound knowledge of learning principles
- sound knowledge of learner styles
- industry area and subject matter of the delivery
- learner group profile, including characteristics and needs of individual learners in the group
- content and requirements of the learning program and/or delivery plan
- different delivery methods and techniques appropriate to face-to-face group delivery
- techniques for the recognition and resolution of inappropriate behaviours
- behaviours in learners that may indicate learner difficulties
- organisational record-management systems and reporting requirements
- evaluation and revision techniques
REQUIRED SKILLS AND KNOWLEDGE

- specific resources, equipment and support services available for learners with special needs
- relevant policy, legal requirements, codes of practice and national standards, including commonwealth and state or territory legislation that may affect training and assessment in the vocational education and training sector
- OHS relating to the facilitation of group-based learning, including:
  - assessment and risk control measures
  - reporting requirements for hazards
  - safe use and maintenance of relevant equipment
  - emergency procedures
  - sources of OHS information
  - role of key workplace persons
- policies and procedures relevant to the learning environment
# Evidence Guide

## EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

Assessment must address the scope of this unit and reflect all components of the unit. A range of appropriate assessment methods and evidence-gathering techniques must be used to determine competency. A judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated.

### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- facilitate group-based learning by preparing and delivering a series of training sessions, including:
  - at least two consecutive sessions, of a duration commensurate with a substantive training session (e.g. 40-60 minutes), that follow one of the learning program designs
  - at least one session delivered to a different learner group, with evidence of how the characteristics and needs of this group were addressed
- identify and respond to diversity and individual needs
- access and use documented resources and support personnel to guide inclusive practices.

### Context of and specific resources for assessment

Evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be provided.

Assessment must ensure access to:

- training products, such as training packages and accredited course documentation.

### Method of assessment

### Guidance information for assessment

For further information about assessment of this and other TAE units, refer to relevant implementation guidance published on the IBSA website (www.ibsa.org.au).
Range Statement

**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Learning program documentation may include: | • competencies or other benchmarks to be achieved  
| | • for each chunk or segment of the learning program:  
| | • specific learning outcomes derived from the benchmarks  
| | • overview of content to be covered  
| | • learning resources, learning materials and activities  
| | • delivery methods  
| | • number and duration of training sessions or classes required, and overall timelines  
| | • OHS issues to be addressed in delivery  
| | • identification of assessment points to measure learner progress  
| | • assessment methods and tools to be used to collect evidence of competency, where assessment is required. |

| Session plans may include: | • outline of objectives and content to be addressed  
| | • plan of delivery methods and learning activities to be used within the session  
| | • timelines and duration for each learning activity  
| | • formative assessment points and opportunities  
| | • learning materials required. |

| Inappropriate behaviour may include: | • violent or inappropriate language  
| | • verbal or physical abuse or bullying  
| | • insensitive verbal or physical behaviour towards other learners or the trainer/facilitator, including cultural, racial, disability or gender-based insensitivities  
| | • dominant or overbearing behaviour  
| | • disruptive behaviour  
| | • non-compliance with safety instructions. |

Elements and Performance Criteria Pre-Content

| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Establish effective work environment for learning | 1.1. Establish and agree upon objectives and scope of the work-based learning  
1.2. Analyse work practices and routines to determine their effectiveness in meeting established learning objectives  
1.3. Identify and address *OHS implications* of using work as the basis for learning |
| 2. Develop a work-based learning pathway | 2.1. Address *contractual requirements* and responsibilities for learning at work  
2.2. Arrange for integration and monitoring of external learning activities with the *work-based learning pathway*  
2.3. Obtain agreement from relevant personnel to implement the work-based learning pathway |
| 3. Establish the learning-facilitation relationship | 3.1. Identify context for learning and individual's learning style  
3.2. Select appropriate technique or process to facilitate learning and explain the basis of the technique to learner  
3.3. Develop, document and discuss *individualised learning plan* with learner  
3.4. Access, read and interpret documentation outlining the OHS responsibilities of the various parties in the learning environment  
3.5. Monitor supervisory arrangements appropriate to learner's levels of knowledge, skill and experience to provide support and encouragement and ensure learner's health and safety |
| 4. Implement work-based learning pathway | 4.1. Sequence introduction of workplace tasks, activities and processes to reflect the agreed work-based learning pathway  
4.2. Explain objectives of work-based learning and the processes involved to learner  
4.3. Encourage learner to take responsibility for learning and to self-reflect  
4.4. Develop techniques that facilitate learner's transfer of skills and knowledge |
| 5. Maintain and develop the learning/facilitation | 5.1. Prepare for each session  
5.2. Structure learning activities to support and reinforce new learning, build on strengths, and identify areas |
<table>

</table>
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- oral communication and language skills to:
  - motivate the learner
  - transfer skills and knowledge
- interpersonal skills to maintain appropriate relationships
- observation skills to monitor individual progress
- literacy skills to:
  - read and interpret organisational documents, legal documents and contracts
  - complete and maintain documentation
- organisational skills to provide guidance and feedback to individuals
- communication skills, including:
  - using effective verbal and non-verbal language
  - using critical listening and questioning techniques
  - giving constructive and supportive feedback
  - assisting learners to paraphrase advice or instructions back to the trainer/facilitator
  - providing clear and concrete options and advice
  - using appropriate industry/profession terminology and language
  - ensuring language, literacy and numeracy used is appropriate to learners

Required knowledge

- systems, processes and practices within the organisation where work-based learning is taking place
- operational demands of the work and impact of changes on work roles
- organisational work culture, including industrial relations environment
- systems for identifying skill needs
- introductory knowledge of different learning styles and how to encourage learning in each, for example:
  - visual learners
  - audio learners
  - kinaesthetic learners
  - theoretical learners
- relevant policy, legislation, codes of practice and national standards that may affect training and assessment in the vocational education and training sector
- OHS relating to the work role, including:
  - hazards relating to the industry and specific workplace
## REQUIRED SKILLS AND KNOWLEDGE

- reporting requirements for hazards and incidents
- specific procedures for work tasks
- safe use and maintenance of relevant equipment
- emergency procedures
- sources of OHS information
## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

Assessment must address the scope of this unit and reflect all components of the unit. A range of appropriate assessment methods and evidence-gathering techniques must be used to determine competency. A judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated.

### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- prepare and facilitate work-based learning
- provide evidence of a minimum of two examples of developing work-based learning pathways, that include:
  - identifying needs for learning
  - analysing work practices, work environment and work activities
  - organising and allocating work in a way that reflects learning needs and provides effective learning opportunities through work processes
- provide a minimum of two examples of a learning facilitation relationship being conducted:
  - with different individuals
  - demonstrating communication skills and flexibility
  - demonstrating one or more of the processes or techniques identified.

### Context of and specific resources for assessment

Evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be provided.

Assessment must ensure access to information about work activities.

### Method of assessment

### Guidance information for assessment

For further information about assessment of this and other TAE units, refer to relevant implementation guidance published on the IBSA website (www.ibsa.org.au).
Range Statement

<table>

<tr>
<td>• direct guidance and modelling from experienced co-workers and experts</td>
</tr>
<tr>
<td>• opportunities for practice.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Individualised learning plan may include:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• information about individual's learning style, learner characteristics, and the context for learning</td>
</tr>
<tr>
<td>• clear boundaries and expectations of the learning/facilitation relationship</td>
</tr>
<tr>
<td>• documented equity or additional support needs for the learner</td>
</tr>
<tr>
<td>• performance benchmarks to be achieved</td>
</tr>
<tr>
<td>• activities and processes which together will achieve the benchmarks.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Ethical behaviour includes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• trust</td>
</tr>
<tr>
<td>• integrity</td>
</tr>
<tr>
<td>• privacy and confidentiality of the session</td>
</tr>
<tr>
<td>• following organisational policies</td>
</tr>
<tr>
<td>• knowing own limitations</td>
</tr>
<tr>
<td>• having a range of other intervention referrals ready when needed</td>
</tr>
<tr>
<td>• honesty</td>
</tr>
</tbody>
</table>
### RANGE STATEMENT

- fairness to others.

**Impact** may be:

- successful achievement, rate of achievement, or lack of achievement of identified goals
- achievement of other outcomes as a result of the relationship
- development of new goals
- new or increased motivation to learn
- greater capacity to learn
- increase in learner's self-confidence.

**Self-evaluation and reflection** may include:

- asking critical questions about:
  - own ability
  - what worked or didn't work
  - how the relationship building process could be improved
- reviewing records and journals on sessions and critically evaluating own performance
- reviewing feedback from learner and identifying critical aspects and areas for improvement.

### Elements and Performance Criteria Pre-Content

| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Define parameters of the learning program | 1.1. Clarify *purpose* and type of learning program with key stakeholders  
1.2. Access and confirm the competency standards and *other training specifications* on which to base the learning program  
1.3. Identify language, literacy and numeracy requirements of the program  
1.4. Identify and consider characteristics of the target learner group |
| 2. Work within the vocational education and training (VET) policy framework | 2.1. Access relevant *VET policies* and frameworks, and apply to work practices  
2.2. Identify changes to training packages and accredited courses and apply these to program development  
2.3. Conduct work according to organisational quality assurance policies and procedures |
| 3. Develop program content | 3.1. Research, develop and document specific subject matter content according to agreed design options  
3.2. Evaluate existing learning resources for content relevance and quality  
3.3. Specify assessment requirements of the learning program |
| 4. Design structure of the learning program | 4.1. Break the learning content into manageable segments and document timeframe for each segment  
4.2. Determine and confirm *delivery strategies* and required assessment methods and tools  
4.3. Document complete learning program in line with organisational requirements  
4.4. Review complete program with key stakeholders and adjust as required  
4.5. Ensure a safe learning progression by analysing risks in the learning environment and including a risk control plan |
### Required Skills and Knowledge

#### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- organisational skills to ensure resources are available and suitable
- evaluation skills to determine the time required for each learning segment and the overall timelines of the learning program
- cognitive skills to develop the learning program content and design its structure
- language and literacy skills to read and interpret a range of documentation, including technical and subject matter documents, references and texts

#### Required knowledge

- information about training package developers and course accreditation agencies responsible for specific learning program parameters
- training packages and relevant competency standards to be used as the basis of the learning program
- other performance standards and criteria to be used as the basis of the learning program, where relevant
- distinction and relationship between a training package/accredited course, learning strategy and learning program, where linked
- different purposes and focus of learning programs
- sound knowledge of learning principles
- instructional design principles relating to different design options for learning program design and structure
- availability and types of different relevant learning resources, learning materials and pre-developed learning activities
- methodology relating to developing and documenting new learning activities and related learning materials
- different delivery modes and methods
- relevant policies, legal requirements, codes of practice and national standards, including commonwealth and state or territory legislation that may affect training and assessment in the VET sector
- relevant OHS knowledge relating to the work role, and OHS considerations that need to be included in the learning program
# Evidence Guide

**EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

<table>
<thead>
<tr>
<th>Overview of assessment</th>
<th>Assessment must address the scope of this unit and reflect all components of the unit. A range of appropriate assessment methods and evidence-gathering techniques must be used to determine competency. A judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated.</th>
</tr>
</thead>
</table>
| Critical aspects for assessment and evidence required to demonstrate competency in this unit | Evidence of the ability to:  
  - design, develop and review learning programs within the VET context  
  - prepare and develop a minimum of two learning programs:  
    - that contain differentiated learning program designs to reflect particular needs, contexts and timelines  
    - at least one of which must be based on competency standards or accredited courses and must cover at least one entire unit of competency or accredited course module. |
| Context of and specific resources for assessment | Evidence must be gathered in the workplace whenever possible. Where no workplace is available, a simulated workplace must be provided. |
| Method of assessment |  |
| Guidance information for assessment | For further information about assessment of this and other TAE units, refer to relevant implementation guidance published on the IBSA website (www.ibsa.org.au). |
## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Purpose may include: | developing vocational competency or vocational skills  
|                      | developing language, literacy and numeracy skills  
|                      | developing general education  
|                      | meeting legislative, licensing and registration requirements, such as OHS requirements. |

| Other training specifications may include: | curriculum specifications  
|                                           | product specifications  
|                                           | organisational work requirements and training needs  
|                                           | induction needs  
|                                           | language, literacy and numeracy development needs  
|                                           | regulatory and licensing requirements. |

| Vocational education and training policies may include: | policies and procedures set by national organisations, such as the National Quality Council  
|                                                         | Australian Quality Training Framework  
|                                                         | other relevant policies. |

| Delivery strategies may include: | focus of delivery in terms of size and type of group  
|                                | context of delivery, for example:  
|                                |    in the workplace  
|                                |    in a training room  
|                                |    in a community setting  
|                                | mode of delivery, for example:  
|                                |    face-to-face  
|                                |    online  
|                                |    blended delivery mode  
|                                | delivery methods, for example:  
|                                |    lock-step, learner-paced and mixed  
|                                |    interactive, participative and collaborative  
|                                |    blended delivery methods. |

TAEDES402A Use training packages and accredited courses to meet client needs

Modification History

Not applicable.

Unit Descriptor

| Unit descriptor | This unit describes the performance outcomes, skills and knowledge required to use training packages and accredited courses as tools to support industry, organisation and individual competency development needs. |

Application of the Unit

| Application of the unit | This unit typically applies to a person working in or with training and/or assessment organisations as an entry-level trainer, teacher, facilitator or assessor. It assumes that the person is working from a pre-defined training product, such as a training package or accredited course, and applying that product to meet client needs. |

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Elements and Performance Criteria Pre-Content

| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Select appropriate training package or accredited course</td>
<td>1.1. Confirm training and/or assessment needs of client</td>
</tr>
<tr>
<td></td>
<td>1.2. Identify and source training packages and/or accredited courses which could satisfy client needs</td>
</tr>
<tr>
<td></td>
<td>1.3. Use training products in line with the <em>training and assessment organisation's quality assurance policies</em> and procedures</td>
</tr>
<tr>
<td>2. Analyse and interpret the qualifications framework</td>
<td>2.1. Read and interpret qualification rules</td>
</tr>
<tr>
<td></td>
<td>2.2. Review and determine applicable licensing requirements and prerequisites</td>
</tr>
<tr>
<td></td>
<td>2.3. Determine suitable electives that meet client needs and job roles</td>
</tr>
<tr>
<td>3. Analyse and interpret units of competency and accredited modules</td>
<td>3.1. Select individual unit or accredited module to meet client needs</td>
</tr>
<tr>
<td></td>
<td>3.2. Read, analyse and interpret all parts of the unit or accredited module for application to client needs</td>
</tr>
<tr>
<td></td>
<td>3.3. Analyse links between unit and/or accredited module to develop effective applications for the client</td>
</tr>
<tr>
<td></td>
<td>3.4. Document analysis of unit or accredited module in a clear and accessible manner</td>
</tr>
<tr>
<td>4. Contextualise units and modules for client applications</td>
<td>4.1. Use information from the client to contextualise the unit or accredited module to meet client needs</td>
</tr>
<tr>
<td></td>
<td>4.2. Use advice on contextualisation produced by the training package developer or course developer to meet client needs</td>
</tr>
<tr>
<td>5. Analyse and interpret assessment guidance</td>
<td>5.1. Read, analyse and apply the assessment guidance of the relevant training package or accredited course</td>
</tr>
<tr>
<td></td>
<td>5.2. Determine any special requirements for assessment or reasonable adjustment to suit client needs</td>

</tbody>
</table>
**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This section describes the skills and knowledge required for this unit.

### Required skills

- communication and interpersonal skills to collaborate with others in using training products
- planning skills to develop a structure for a particular application of training packages and accredited courses
- cognitive skills to analyse, interpret and apply the various components of selected training packages and accredited courses
- research skills to analyse and interpret training package and accredited course content to meet client needs

### Required knowledge

- Australian Qualifications Framework (AQF) guidelines, including characteristics of AQF qualification levels
- functions and responsibilities of training package developers and course accreditation agencies, and their roles as key vocational education and training (VET) organisations
- dimensions of competency
- format and structure of accredited courses
- format and structure of competency standards
- function of training packages and accredited curriculum as benchmarks in a competency-based VET training and assessment system
- methodology relating to analysing and using competency standards for a range of applications and purposes to meet the needs of a diverse range of VET clients
- language and terminology used in training packages and accredited courses
- parts of training packages that can be contextualised and parts that cannot
- structure of training packages and the role and purpose of each endorsed component
- sources of training package information
**Evidence Guide**

<table>

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Client may include: | • individual learners  
|                   | • candidates for assessment  
|                   | • organisations or enterprises with specific training needs. |

| Training and assessment organisation may include: | • registered training organisation (RTO)  
|                                                | • organisation working in a partnership arrangement with an RTO to provide recognised training and assessment services  
|                                                | • organisation that provides non-recognised training and assessment services. |

| Quality assurance policies may include: | • Australian Quality Training Framework requirements as they apply to RTOs  
|                                        | • organisational internal quality policies and procedures. |

| Contextualising units: | • means linking the requirements of the competency standard to the work environment of a particular client or client group  
|                       | • may include:  
|                       | • identifying specific types of tools and equipment relevant to the competency  
|                       | • identifying specific organisational policies, procedures, processes and forms relevant to the competency  
|                       | • linking organisation-specific terminology to the competency  
|                       | • identifying specific people relevant to the competency. |

</tr>
</tbody>
</table>
### Elements and Performance Criteria

| 1. Prepare for assessment | 1.1 Interpret **assessment plan** and confirm organisational, legal and ethical requirements for conducting assessment with relevant people |
|  | 1.2 Access and interpret relevant **benchmarks for assessment** and nominated **assessment tools** to confirm the requirements for evidence to be collected |
|  | 1.3 Arrange identified material and physical resource requirements according to assessment system policies and procedures |
|  | 1.4 Organise **specialist support** required for assessment |
|  | 1.5 Explain, discuss and agree details of the assessment plan with candidate |
| 2. Gather quality evidence | 2.1 Use agreed **assessment methods** and instruments to gather, organise and document evidence in a format suitable for determining competence |
|  | 2.2 Apply the principles of assessment and rules of evidence in gathering quality evidence |
|  | 2.3 Determine opportunities for evidence gathering in actual or simulated activities through consultation with the candidate and relevant personnel |
|  | 2.4 Determine opportunities for integrated assessment activities and document any changes to assessment instruments where required |
| 3. Support the candidate | 3.1 Guide candidates in gathering their own evidence to support recognition of prior learning (RPL) |
|  | 3.2 Use appropriate communication and interpersonal skills to develop a professional relationship with the candidate that reflects sensitivity to **individual differences** and enables two-way **feedback** |
|  | 3.3 Make decisions on reasonable adjustments with the candidate, based on candidate’s needs and characteristics |
|  | 3.4 Access required specialist support in accordance with the assessment plan |
|  | 3.5 Address any OHS risk to person or equipment immediately |
| 4. Make the assessment decision | 4.1 Examine collected evidence and evaluate it to ensure that it reflects the evidence required to demonstrate competence |
|  | 4.2 Use judgement to infer whether competence has been demonstrated, based on the available evidence |
|  | 4.3 Make assessment decision in line with agreed assessment procedures and according to agreed assessment plan |
|  | 4.4 Provide clear and constructive feedback to candidate regarding |
| 5. Record and report the assessment decision | 5.1 Record assessment outcomes promptly and accurately  
| | 5.2 Complete and process an assessment report according to agreed assessment procedures  
| | 5.3 Inform other relevant parties of the assessment decision according to confidentiality conventions  
| 6. Review the assessment process | 6.1 Review the assessment process in *consultation* with relevant people to improve own future practice  
| | 6.2 Document and record the review according to relevant assessment system policies and procedures |
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- analysis and interpretation skills to:
  - break down competency standards
  - interpret assessment tools and other assessment information, including those used in RPL
  - identify candidate needs
  - make judgements based on assessment of available evidence

- observation skills to:
  - recognise candidate’s prior learning
  - determine candidate’s performance
  - identify when candidate may need assistance during the assessment processes

- research and evaluation skills to:
  - access required human and material resources for assessment
  - access assessment system policies and procedures
  - access RPL policies and procedures
  - evaluate evidence
  - evaluate assessment process

- cognitive skills to:
  - weigh up the evidence and make a judgement
  - consider and recommend reasonable adjustments

- decision-making skills to:
  - recognise a candidate’s prior learning
  - make a decision on a candidate’s competence

- literacy skills to:
  - read and interpret relevant information to conduct assessment
  - prepare required documentation and records or reports of assessment outcomes in required format

- communication and interpersonal skills to:
  - explain the assessment, including RPL process
  - give clear and precise instructions
  - ask effective questions
  - provide clarification
  - discuss process with other relevant people
  - give appropriate feedback
  - discuss assessment outcome
  - use language appropriate to candidate and assessment environment
  - establish a working relationship with candidate.
Required knowledge

- competency-based assessment, including:
  - vocational education and training as a competency-based system
  - criterion-referenced assessment as distinct from norm-referenced assessment
  - competency standards as the basis of qualifications
  - structure and application of competency standards
  - principles of assessment and how they are applied
  - rules of evidence and how they are applied
  - range of assessment purposes and assessment contexts, including RPL
  - different assessment methods, including suitability for gathering various types of evidence, suitability for content of units, and resource requirements and associated costs
  - reasonable adjustments and when they are applicable
  - types and forms of evidence, including assessment instruments that are relevant to gathering different types of evidence used in competency-based assessment, including RPL
  - potential barriers and processes relating to assessment tools and methods
  - assessment system, including policies and procedures established by the industry, organisation or training authority
- RPL policies and procedures established by the organisation
- cultural sensitivity and equity considerations
- relevant policy, legislation, codes of practice and national standards, including commonwealth and state or territory legislation that may affect training and assessment in the vocational education and training sector, such as:
  - copyright and privacy laws in terms of electronic technology
  - security of information
  - plagiarism
  - training packages and competency standards
  - licensing requirements
  - industry and workplace requirements
  - duty of care under common law
  - recording information and confidentiality requirements
  - anti-discrimination, including equal employment opportunity, racial vilification and disability discrimination
  - workplace relations
  - industrial awards and enterprise agreements
- OHS responsibilities associated with assessing competence, such as:
  - requirements for reporting hazards and incidents
  - emergency procedures
  - procedures for use of relevant personal protective equipment
  - safe use and maintenance of relevant equipment
- sources of OHS information.

### Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| **Assessment plan** may include: | • overall planning, describing:  
| | • what is to be assessed  
| | • when assessment is to take place  
| | • where assessment is to take place  
| | • how assessment is to take place. |

| **Benchmarks for assessment:** | • refer to a criterion against which the candidate is assessed  
| | • may be a competency standard/unit of competency, assessment criteria of course curricula, performance specifications, or product specifications. |

| **Assessment tools** include: | • the learning or competency unit(s) to be assessed  
| | • the target group, context and conditions for the assessment  
| | • the tasks to be administered to the candidate  
| | • an outline of the evidence to be gathered from the candidate  
| | • the evidence criteria used to judge the quality of performance (i.e. the assessment decision-making rules)  
| | • the administration, recording and reporting requirements  
| | • the evidence of how validity and reliability have been tested and built into the design and use of the tool. |

| **Specialist support** may include: | • assistance by third party, such as carer or interpreter  
| | • support from specialist educator  
| | • provision of developed online assessment activities  
| | • support for remote or isolated candidates and assessors  
| | • support from subject matter or safety experts  
| | • advice from regulatory authorities  
| | • assessment teams and panels  
| | • support from lead assessors  
| | • advice from policy development experts. |

| **Assessment methods** include: | • particular techniques used to gather different types of evidence, such as:  
| | • direct observation |
- structured activities
- oral or written questioning
- portfolios of evidence
- review of products
- third-party feedback.

**Individual differences** may include:
- English language, literacy and numeracy barriers
- physical impairment or disability
- intellectual impairment or disability
- medical condition that may impact on assessment, such as arthritis, epilepsy, diabetes and asthma
- learning difficulties
- mental or psychological disability
- religious and spiritual observances
- cultural images and perceptions
- age
- gender.

**Feedback** may include:
- ensuring assessment/RPL process is understood
- ensuring candidate concerns are addressed
- enabling questions and answers
- confirming outcomes
- identifying further evidence to be provided
- discussing action plans
- confirming gap training needed
- providing information regarding available appeal processes
- suggesting improvements in evidence gathering and presentation.

**Consultation** may involve:
- moderation with other assessors, or training and assessment coordinators
- discussions with client, team leaders, managers, RPL coordinators, supervisors, coaches and mentors
- technical and subject experts
- English language, literacy and numeracy experts.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to plan and organise the assessment process, including recognition of prior learning (RPL), in a competency-based assessment system. It also includes the development of simple assessment instruments.

Application of the Unit

This unit typically applies to assessors and workplace supervisors with assessment planning responsibilities; and trainers or other assessors responsible for planning assessment, including RPL. The unit is suitable for those with an existing assessment strategy which documents the overall framework for assessment.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.
Elements and Performance Criteria Pre-Content

**ELEMENT**  
*Elements describe the essential outcomes of a unit of competency.*

**PERFORMANCE CRITERIA**  
*Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.*

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Determine assessment approach | 1.1 Identify candidate and confirm *purposes and context of assessment/RPL* with relevant people according to legal, organisational and ethical requirements  
1.2 Identify and access *benchmarks for assessment/RPL* and any specific assessment guidelines |
| 2. Prepare the assessment plan | 2.1 Determine evidence and *types of evidence* needed to demonstrate competence, according to the *rules of evidence*  
2.2 Select *assessment methods* which will support the collection of defined evidence, taking into account the context in which the assessment will take place  
2.3 Document all aspects of the *assessment plan* and confirm with relevant personnel |
| 3. Develop assessment instruments | 3.1 Develop *simple assessment instruments* to meet target group needs  
3.2 Analyse *available assessment instruments* for their suitability for use and modify as required  
3.3 *Map assessment* instruments against unit or course requirements  
3.4 Write clear instructions for candidate about the use of the instruments  
3.5 Trial draft assessment instruments to validate content and applicability, and record outcomes |
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- cognitive interpretation skills to:
  - interpret competency standards and other assessment documentation, including material relating to reasonable adjustment
  - identify opportunities for integrated competency assessment
  - contextualise competency standards to the operating assessment environment, including RPL
  - consider access and equity needs of diverse candidates
- technology skills to use appropriate equipment and software to communicate effectively with others
- research and evaluation skills to:
  - obtain competency standards, assessment tools and other relevant assessment resources
  - research candidate characteristics and any reasonable adjustment needs
  - evaluate feedback, and determine and implement improvements to processes
- literacy skills to read and interpret relevant information to design and facilitate assessment and recognition processes
- communication skills to discuss assessment, including RPL processes with clients and other assessors
- interpersonal skills to:
  - demonstrate sensitivity to access and equity considerations and candidate diversity
  - promote and implement equity, fairness, validity, reliability and flexibility in planning an assessment processes.

Required knowledge

- ethical and legal requirements of an assessor
- competency-based assessment, including:
  - work focused
  - criterion referenced
  - standards based
  - evidence based
- different purposes of assessment and different assessment contexts, including RPL
- how to read and interpret the identified competency standards as the benchmarks for assessment
- how to contextualise competency standards within relevant guidelines
- four principles of assessment and how they guide the assessment process
- purpose and features of evidence, and different types of evidence used in competency-based assessments, including RPL
- rules of evidence and how they guide evidence collection
- different types of assessment methods, including suitability for collecting various types of evidence
• assessment instruments and their purpose; different types of instruments; relevance of
different instruments for specific evidence-gathering opportunities.
### Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

| Guidance information for assessment | |
|-------------------------------------|
**Range Statement**

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

| Purposes of assessment/ RPL may include: | • recognising current existing competence of candidates  
• determining if competence has been achieved following learning  
• establishing candidate progress towards achievement of competence  
• determining language, literacy and numeracy needs of candidates  
• certifying competence through a qualification or Statement of Attainment  
• licensing or regulatory requirements. |
|---|---|
| Context of assessment/ RPL may include: | • environment in which the assessment/RPL will be carried out, including real or simulated workplace  
• opportunities for collecting evidence in a number of situations  
• relationships between competency standards and:  
  • evidence to support RPL  
  • work activities in the candidate’s workplace  
  • learning activities  
• who carries out the assessment/RPL. |
| Organisational, legal and ethical requirements may include: | • assessment system policies and procedures  
• assessment strategy requirements  
• reporting, recording and retrieval systems for assessment, including RPL  
• quality assurance systems  
• business and performance plans  
• access and equity policies and procedures  
• collaborative and partnership arrangements  
• defined resource parameters  
• mutual recognition arrangements  
• industrial relations systems and processes, awards, and enterprise agreements  
• Australian Quality Training Framework  
• registration scope  
• human resources policies and procedures  
• legal requirements, including: |
- anti-discrimination
- equal employment opportunity
- job role, responsibilities and conditions
- relevant industry codes of practice
- confidentiality and privacy requirements
- OHS considerations, including:
  - ensuring OHS requirements are adhered to during the assessment process
  - identifying and reporting OHS hazards and concerns to relevant personnel.

**Benchmarks for assessment/RPL** may include:

- criterion against which the candidate is assessed or prior learning recognised, which may be:
  - competency standard/unit of competency
  - assessment criteria of course curricula
  - performance specifications of an enterprise or industry
  - product specifications.

**Types of evidence** may include:

- direct
- indirect
- supplementary.

**Rules of evidence** ensure that evidence collected is:

- valid
- sufficient
- authentic
- current.

**Assessment methods** are the particular techniques used to gather evidence and may include:

- direct observation, for example:
  - real work/real time activities at the workplace
  - work activities in a simulated workplace environment
- structured activities, for example:
  - simulation exercises and role-plays
  - projects
  - presentations
  - activity sheets
- questioning, for example:
  - written questions, e.g. on a computer
  - interviews
  - self-assessment
  - verbal questioning
  - questionnaires
  - oral or written examinations (applicable at higher AQF levels)
- portfolios of evidence, for example:
### Assessment Plan

**Assessment plan** may include:

- overall planning document describing:
  - what is to be assessed
  - when assessment is to take place
  - where assessment is to take place
  - how assessment is to take place.

### Simple Assessment Instruments

**Simple assessment instruments** may include:

- instruments developed by an assessor as part of formative or summative assessment activities, including:
  - profiles of acceptable performance measures
  - templates and proformas
  - specific questions or activities
  - evidence and observation checklists
  - checklists for the evaluation of work samples
  - recognition portfolios
  - candidate self-assessment materials
  - instruments developed elsewhere that have been modified by the assessor for use with a particular client group.

### Available Assessment Instruments

**Available assessment instruments** may include:

- commercially available instruments
- those created by others inside the registered training organisation.

### Map Assessment

**Map assessment** means:

- showing a clear relationship between the evidence and the requirements of the unit.

PSPPROC607A Manage strategic contracts

Modification History
PSPPROC607A Release 2: Layout adjusted. No changes to content.
PSPPROC607A Release 1: Primary release.

Unit Descriptor
This unit covers the competencies required to manage contracts for strategic purchases, to effectively minimise risks and achieve value for money to meet an organisation's core objectives. It includes managing the establishment, performance and evaluation of strategic contracts.

In practice, managing strategic contracts may occur in the context of other generalist and specialist work activities, such as maintaining and enhancing confidence in public service or local government, establishing and maintaining strategic networks, managing compliance with legislation in the public service or local government, managing risk, developing a business case, planning for strategic procurement, coordinating strategic procurement and negotiating strategic procurement.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit
This unit applies to those in specialist procurement and contracting.

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where *bold italicised* text is used, further information is detailed in the range statement. Assessment of performance is to be consistent with the evidence guide.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Manage contract establishment | 1.1. Requirements of *contracts and strategic initiatives* are discussed, clarified and agreed by all parties.  
1.2. Responsibilities for establishing and carrying out procedures are assigned to achieve contract outcomes.  
1.3. Effective communication strategies and processes are established and implemented to assist ongoing communication between internal and external stakeholders and contractors.  
1.4. Relationship management is undertaken of all levels of personnel involved in procurement and contract management, within probity boundaries.  
1.5. Strategic relationships are established and managed within probity boundaries to improve procurement capability and performance.  
1.6. Risk management plans are updated according to organisational policy and procedures. |
| 2. Manage contract performance | 2.1. Progress of contracts is *monitored* against set targets and performance measures to ensure success of procurement activities.  
2.2. Should monitoring find that set targets, performance measures and probity requirements are not being met, action is taken to rectify performance in a timely manner.  
2.3. Advice and support are provided to solve problems, make improvements and maintain progress.  
2.4. Disputes are managed promptly according to contractual conditions to achieve resolution and maintain contract performance and progress.  
2.5. Opportunities to continuously improve procurement outcomes are sought and negotiated with contractors.  
2.6. Approvals are provided or gained for *contract variations* that are negotiated and agreed between the parties.  
2.7. Opportunities are provided for stakeholders and contractors to have input into and receive feedback on progress during the performance of the contract.  
2.8. Internal and external stakeholders are engaged as necessary throughout the life of the contract to maintain progress. |
| 3. Manage contract evaluation | 3.1. Evaluation of contract performance is undertaken relative to planned performance measures and in |
consultation with stakeholders and contractors.

3.2. Where stakeholders and contractors do not agree, dispute resolution is undertaken according to organisational policy and procedures.

3.3. Conclusions are detailed against agreed criteria to provide a complete picture of performance of contractors, organisation's procurement processes and value for money.

3.4. Performance of strategic initiatives is measured relative to planned outcomes in consultation with industry and other stakeholders.

3.5. Lessons learnt from evaluations of contracts and strategic initiatives are documented according to organisational requirements and used to continuously improve future procurement activities.

3.6. Contractors and stakeholders are advised of evaluation outcomes in a timely manner according to organisational guidelines.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - consult and negotiate with stakeholders
  - network, within probity boundaries, with stakeholders
  - build and manage effective working relationships
  - write business cases, plans, reports, submissions and other complex documents
  - read complex documents, such as contracts, legislation and guidelines
  - provide feedback

- teamwork skills to:
  - manage teams of expert negotiators in functions such as finance, legal, technical and engineering
  - manage strategic relationships
  - model effective management and leadership approaches
  - respond to diversity
  - refer issues to the correct person

- problem-solving skills to:
  - apply decision-making processes or methodologies
  - identify and resolve strategic contract management issues
  - apply understanding of supplier issues and supply chain management in the context of managing strategic contracts

- initiative and enterprise skills to:
  - identify, assess and implement opportunities for performance improvement
  - apply OHS, environmental, sustainability and corporate social responsibility practices in the context of managing strategic contracts

- planning and organising skills to:
  - undertake research and business analysis
  - manage financial and other resources
  - manage strategic procurement contracts, contract management plans and sub-plans

- learning skills to keep up-to-date with:
  - best practice examples in strategic procurement
  - relevant procurement legislation, policies and procedures

- technology skills to:
  - operate organisational IT systems
  - use electronic procurement templates

Required knowledge
• commonwealth, state or territory, and local government legislation, policies, practices and guidelines:
  • relating to managing strategic contracts, including environmental purchasing guidance
  • such as OHS and equity and diversity
• organisational procurement policies, practices and approval processes
• aspects of law of contract, trade practices law, and commercial law relating to managing strategic contracts
• probity principles and issues
• codes of conduct, codes of practice and standards of individual behaviour relating to management of contracts and relationships with contractors
• government procurement environment
• legal requirements of government contracting
• financial rules and regulations
• implications of particular contracting arrangements
• whole-of-life considerations
• procurement management processes
• cultural issues relating to contract management and industry development
• relationship management at all personnel levels
• environmental, sustainability and corporate social responsibility principles relevant to managing strategic contracts
Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Competency must be demonstrated in managing strategic contracts consistently and in accordance with legislative and organisational requirements.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to:

- develop contract management plans and sub-plans suited to the nature of the contracts
- establish contract management relationships with stakeholders using strategic techniques such as start up workshops, service level agreements, etc.
- implement contract management plans
- manage contractors to ensure the delivery of contract outcomes, using flexibility and initiative to deal with issues as they arise
- implement contract performance measures
- provide contractors with performance feedback
- deal promptly and proactively with contract disputes and refer to higher authority when this is not possible
- communicate effectively with internal and external stakeholders about the operation of contracts
- uphold probity standards in all dealings with contractors.

Consistency in performance

Competency should be demonstrated by providing evidence of undertaking a range of relevant work tasks in an actual or simulated procurement environment on at least two separate occasions.

Context of and specific resources for assessment

The unit of competency is to be assessed in the workplace or a simulated workplace environment.

Access may be required to:

- legislation, policy, procedures and protocols relating to managing strategic contracts
- codes of conduct and codes of practice
- long-term government policy papers, such as White Papers
- strategic procurement plans and direction statements
- workplace scenarios and case studies relating to a range of strategic procurement and disposal activities.

Method of assessment

The following assessment methods are suggested:
questions to assess understanding of relevant legislation and procedures
review of strategies and approaches adopted for managing strategic contracts
review of contract management plans and related sub-plans, such as transition plans, probity plans, contract variations, contract performance reports and reviews, budgets, negotiation notes from meetings with contractors, risk assessments, formal sign-offs and approvals, contract closure reports, and other documentation prepared or reviewed by the candidate in a range of contexts
review of stakeholder engagement approaches adopted by the candidate.

In all cases, practical assessment should be supported by questions to assess underpinning knowledge and those aspects of competency which are difficult to assess directly. Candidates for this qualification must demonstrate a high level of understanding and practical workplace application of underpinning knowledge. Questioning techniques should suit the language and literacy levels of the candidate.

Guidance information for assessment

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- PSPETHC601B Maintain and enhance confidence in public service
- PSPLEGN601B Manage compliance with legislation in the public sector
- PSPMNGT607B Develop a business case
- PSPMNGT608B Manage risk
- PSPPM601B Direct complex project activities
- PSPPROC604B Plan for strategic procurement
- PSPPROC605B Coordinate strategic procurement
- PSPPROC606B Negotiate strategic procurement.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Contracts and strategic initiatives** may include:
- non-traditional procurement and finance activities
- strategic procurement activities, such as industry development
- in-house option directives
- inter and intra-government agreements
- memoranda of understanding and memoranda of agreement
- public private partnerships (PPP)
- purchases from suppliers
- coordinated procurement arrangements
- whole of government procurement arrangements
- cooperative procurement arrangements.

**Stakeholders** may include:
- end users
- customers or clients
- sponsors
- current or potential providers or suppliers
- technical or functional experts or advisers
- commonwealth, state or territory, and local government
- the organisation
- other public sector organisations
- employees, unions and staff associations
- industry bodies
- local communities
- lobby groups and special user groups.

**Monitoring** may involve:
- progress meetings and regular progress reports from contractor
- visits to contractor's premises
- provision of samples
- tests and verification
- independent audit
- end-user feedback.

**Contract variation** may include modification of:
- targets
- performance measures
- procurement plans
- resourcing
Evaluation of contractor performance may include:

- monitoring and evaluation processes.
- strengths and weaknesses
- client acceptance of service delivery (client satisfaction)
- meeting delivery and completion dates
- compliance with other contractual requirements
- performance in relation to relevant policy objectives, such as industry development, care for the environment, OHS and affirmative action
- achievements of the contractor in developing Australian and New Zealand supply networks
- general relationships, including effectiveness of communication at all levels
- performance of key technical personnel
- acceptability and cost of whole-of-life technical support, including lead times and availability of spares and maintenance services
- achievements in innovation and quality improvement programs
- acceptability and suitability for future agreements, including potential status as an approved contractor
- adherence to codes of practice and codes of conduct.
- effectiveness of project management, including project plan and responsibilities and accountabilities set out in it
- quality of the business case, as indicated by achievement of planned outcome and contribution to program objectives
- effectiveness of contractor qualification processes
- value obtained in bid clarification and post-tender negotiation
- effectiveness of project management systems, focusing particularly on management information
- effectiveness of risk management, including corruption risks and probity risks
- methods for controlling variations in cost, time, quality and performance from initial planning to completion
- adequacy of safeguards against fraud, error and impropriety
- incidence of material losses due to waste or inefficiency
- overall performance in terms of cost, time, service and quality
- compliance with procurement policy.
Value for money must reflect:

- whole-of-life program benefits
- residual values
- disposal costs or disposal return
- costs of parts
- servicing and maintenance
- industry benchmarks.

Unit Descriptor

This unit covers the competency required by people whose primary role is contract management to implement strategies that ensure effective contract performance. It includes managing the business relationship, performance of the contract, and contract issues; and implementing a communication strategy.

In practice, managing contract performance may overlap with other public sector and local government generalist and specialist work activities, such as promoting the values and ethos of public service or local government, undertaking negotiations, promoting compliance with legislation in the public sector, finalising contracts, managing procurement risk, planning to manage a contract, planning for procurement outcomes and making procurement decisions.

PSPPROC414A Manage contracts is the appropriate unit for people undertaking contract management as a minor part of their work role.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

This unit applies to those who may or may not have had involvement in the procurement process preceding execution of the contract.

Licensing/Regulatory Information

Not applicable.
Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the range statement. Assessment of performance is to be consistent with the evidence guide.
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Manage the business relationship | 1.1. *Probity* is managed in accordance with organisational requirements, *legislation, policy and public sector standards*.  
1.2. Obligations to the contractor are met according to contractual arrangements.  
1.3. Consideration of conflicts of interest and their resolution are recorded according to public sector standards and organisational requirements.  
1.4. Business relationship with contractor is managed in the public interest through *formal and informal mechanisms* according to public sector standards and organisational policy and procedures. |
| 2. Manage performance of the contract | 2.1. Start-up or transition arrangements are implemented according to contract requirements and organisational procedures.  
2.2. *Contract management plan* is monitored for effectiveness on a regular basis and adapted as necessary during the life of the contract.  
2.3. Performance of *contract* is monitored against key performance indicators and tracking milestones to ensure obligations under the agreement are being met.  
2.4. E-procurement, financial and other resources are managed as necessary according to contract requirements and organisational procedures.  
2.5. Emerging and potential *risks* are identified and managed according to organisational risk management procedures. |
| 3. Manage contract issues | 3.1. Contract *variations* are managed according to contract management plan, organisational policy and procedures, and probity requirements.  
3.2. *Early signs of under-performance* are identified, and *action is taken to improve performance* to the agreed level and documented according to contract's communication and information policy.  
3.3. *Disputes* and complaints are investigated and *resolved* or referred according to contract's management plan and contractual arrangements.  
3.4. *Negotiation of issues* relating to the contract is conducted and approvals are obtained according to stipulations in the contract.  
3.5. Conflict is addressed and resolved where possible or |
other actions are taken according to contractual arrangements.

3.6. Non-compliance with codes of conduct, codes of practice and standards of behaviour is dealt with in a timely manner.

4. **Implement communication and information strategy**

4.1. **Communication** on the performance of the contract is maintained with all stakeholders according to organisational protocols and public sector standards.

4.2. Management reporting is carried out according to tracking milestones and organisational requirements.

4.3. **Contract information** is maintained for **organisational purposes** according to organisational policy and procedures.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

**Required skills**

- communication skills to:
  - consult and negotiate with contractors and stakeholders, involving complex oral and written exchanges of information
  - network, within probity boundaries, with contractors and stakeholders
  - read complex documents, such as contracts, legislation and guidelines
  - write management reports and keep records of meetings, liaison, notes and follow-up actions
  - provide feedback

- teamwork skills to:
  - build effective working relationships with contractors and stakeholders, within probity boundaries
  - model effective team management approaches
  - respond to diversity
  - refer issues to the correct person

- problem-solving skills to:
  - resolve disputes, conflict and complaints
  - make judgements about when to refer disputes, conflict and complaints to others
  - apply understanding of supplier issues/supply chain management in the context of contract management

- initiative and enterprise skills to:
  - apply the content of complex documents, such as contracts, legislation and guidelines
  - apply OHS, environmental, sustainability and corporate social responsibility practices in the context of contract management

- planning and organising skills to:
  - manage contract documentation
  - plan and organise contract meetings, reports and reviews

- learning skills to keep up-to-date with:
  - best practice examples in procurement practice
  - relevant procurement legislation, policies and procedures

- technology skills to:
  - operate organisational IT systems
  - use electronic procurement templates

**Required knowledge**

- commonwealth, state or territory, and local government legislation, policies,
practices and guidelines:

- relating to contract management, including environmental purchasing and corporate social responsibility guidance
- such as OHS and equity and diversity
- organisational procurement policies, practices and approval processes
- contract management for a range of contractual situations
- privacy and confidentiality issues
- probity principles and issues
- codes of conduct, codes of practice and standards of individual behaviour relating to management of contracts and relationships with contractors
- whole-of-life considerations
- financial and accounting issues relevant to the contract
- legal aspects of negotiation
- aspects of law of contracts, trade practices law and commercial law relevant to the management of contracts relating to complex procurement
- equal employment opportunity relevant to the management of contracts
- OHS requirements relevant to the management of contracts
- environmental, sustainability and corporate social responsibility principles relevant to the management of contracts
Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Competency must be demonstrated in managing contract performance consistently in accordance with legislative and organisational requirements.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to:

- develop and implement an appropriate contract management plan, using templates where available
- develop and implement an appropriate transition plan, using templates where available
- develop and maintain a sound business relationship with contractors within probity guidelines, upholding probity standards in all dealings with them
- manage contractor performance so that goods and services are delivered according to the contract
- provide the contractor with performance feedback
- deal promptly and proactively with contract issues and disputes and refer to higher authority when this is not possible
- communicate effectively with internal and external stakeholders about the operation of the contract.

Consistency in performance

Competency should be demonstrated by providing evidence of undertaking a range of relevant work tasks in an actual or simulated procurement environment on at least two separate occasions.

Context of and specific resources for assessment

The unit of competency is to be assessed in the workplace or a simulated workplace environment.

Access may be required to:

- legislation, policy, procedures and protocols relating to procuring goods and services and managing contracts
- codes of conduct and codes of practice
- workplace scenarios and case studies relating to a range of procurement activities associated with managing contract performance
- case studies that incorporate dilemmas and probity requirements relating to managing contract performance.
**Method of assessment**

The following assessment methods are suggested:

- questions to assess understanding of relevant legislation and procedures
- review of strategies and approaches adopted for managing contract performance
- review of contract management plans, contracts, contract variations, contractor performance reports, communication strategy and other documentation prepared by the candidate in a range of contexts
- review of stakeholder engagement approaches adopted by the candidate.

In all cases, practical assessment should be supported by questions to assess underpinning knowledge and those aspects of competency which are difficult to assess directly. Questioning techniques should suit the language and literacy levels of the candidate.

**Guidance information for assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- PSPETHC501B Promote the values and ethos of public service
- PSPGOV507A Undertake negotiations
- PSPLEGN501B Promote compliance with legislation in the public sector
- PSPPROC504B Finalise contracts
- PSPPROC505A Manage procurement risk
- PSPPROC506A Plan to manage a contract
- PSPPROC507A Plan for procurement outcomes
- PSPPROC508A Make procurement decisions.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Probity** principles:
- may include:
  - accountability
  - transparency
  - confidentiality
  - managing conflict of interest
  - impartiality
- are maintained to:
  - ensure conformity to processes
  - facilitate accountability
  - ensure proponents are treated in a fair and equitable manner
  - encourage commercial completion
  - preserve public and private sector confidence in government processes.

**Legislation, policy and public sector standards** may include:
- financial management legislation
- government procurement, purchasing and contracting legislation, policy and guidelines
- council rules and by-laws
- public sector standards
- codes of conduct, codes of practice and standards of individual behaviour
- cross-cultural and social justice issues
- environmental and sustainability policies
- corporate social responsibility policies.

**Formal and informal mechanisms** may include:
- non-confrontational interaction
- hospitality
- formal contract variations
- formal negotiations
- formal and informal meetings
- regular and *ad hoc* reporting
- review processes.

**Contract management**
- risk management plan
- contingency plan
**plan** may include:
- communication and public relations plan
- human resource management plan
- disposal plan
- contract review plan
- setting up routines
- quality assurance systems
- arrangements for transfer of legal responsibility
- insurances
- strategies to avoid implied acceptance of varied conditions through non-enforcement of contractual obligations
- environmental/green procurement, sustainability and corporate social responsibility principles.

**Contracts** may include:
- formal written contracts
- standing offers (panels)
- multi-use lists and similar arrangements
- inter and intra-government agreements
- letters of intent
- memoranda of understanding and memoranda of agreement
- licensing agreements
- in-house option directives.

**Risks** may include:
- supplier inability to meet obligations
- end user or buyer inability to meet obligations
- scope creep
- client requirements not fully understood
- becoming too dependent on a single supplier
- disruption to continuity and consistency of service if too many suppliers are selected
- other environmental influences
- corruption risks
- probity risks.

**Variation** to agreements may arise from:
- change of scope
- negotiation of new terms and conditions
- dissolution of contracts
- inability to deliver.

**Early signs of under-performance** may be detected through:
- tracking milestones
- regular meetings
- meeting records and follow-up
- file management and audit trail
- stakeholder surveys on performance
- ongoing review of deliverables.

**Actions taken to improve performance** may include:
- discussion with contractor
- regular interaction
- ongoing performance feedback
- provision of support
- expert advice.

**Disputes** may include:
- disputes over:
  - requirements
  - delivery schedules
  - price changes
  - additional tasking
  - payment schedules
  - complaints from third parties
  - formal and informal.

Techniques available to resolve disputes include:
- conference
- negotiation
- mediation
- arbitration
- resort to contractual conditions
- litigation.

**Negotiation of issues** may include:
- contract variations
- continuous improvement
- innovations
- non-compliance
- consequences.

**Actions** as a result of unresolved conflict may include:
- mediation
- court action
- termination of contract.

**Communication strategies** may include:
- clear communication
- understanding the needs of the service provider and the client
- setting regular times to talk, meet or check on progress
- protocols for dealing with other stakeholders
- emergency contact arrangements
- diary system to monitor milestones, timeframes, receipt of deliverables, etc.
- strategies for ensuring information flow at critical
stages of the contract.

**Contract information**
may include:

- contract and variations
- contract management plan
- financial records, including funding submissions, budgets, delegations, invoices and payments
- contractor performance information
- contract reports
- information about disputes and other issues
- complaints and compliments.

**Organisational purposes**
may include:

- probity and accountability
- budget reporting
- feeding into future procurement processes
- performance management of suppliers
- internal and external reviews and audits
- governance requirements
- legal compliance.

**Unit Sector(s)**
Not applicable.

**Competency field**
Procurement and Contract Management.
PSPPROC506A Plan to manage a contract

Modification History
PSPPROC506A Release 2: Layout adjusted. No changes to content.
PSPPROC506A Release 1: Primary release.

Unit Descriptor
This unit covers the ability to establish arrangements for contract management. It includes confirming contract requirements, preparing a contract management plan, and implementing contract strategies and contractual arrangements.

In practice, planning to manage a contract may overlap with other public sector and local government generalist and specialist work activities, such as promoting the values and ethos of public service or local government, undertaking negotiations, promoting compliance with legislation in the public sector, managing contract performance, finalising contracts, managing procurement risk, planning for procurement outcomes and making procurement decisions.

PSPPROC414A Manage contracts is the appropriate unit for people undertaking contract management as a minor part of their work role.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit
This unit applies to those whose primary role is contract management, and who may or may not have had involvement in the procurement process preceding execution of the contract.

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range statement. Assessment of performance is to be consistent with the evidence guide.
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Confirm contract requirements | 1.1. *Legislation, public sector standards and organisational requirements* relating to probity, financial management, approvals and other considerations are identified for inclusion in the contract management plan.  
1.2. Contract requirements are re-confirmed with all parties.  
1.3. Obligations to the contractor, limits of authority and delegations relating to contract are determined according to contractual arrangements and organisational policy and procedures.  
1.4. Start-up or transition arrangements are confirmed. |
| 2. Prepare contract management plan | 2.1. *Contract risks* are identified and risk management plan is developed in line with contract requirements and organisational policy and procedures.  
2.2. Procedures to identify, receive and address contract variations are determined according to contract requirements and organisational policy and procedures.  
2.3. Procedures to investigate, resolve or refer disputes or complaints are determined according to contract requirements and organisational policy and procedures.  
2.4. Key performance indicators are developed and negotiated, and administrative processes are identified and approved for the life of the contract according to organisational policy procedures.  
2.5. Contract management plan that addresses key elements is documented, approved and maintained according to organisational requirements.  
2.6. Expected standards of behaviour, probity and privacy principles are applied to all elements of contract management plan.  
2.7. Environmental, sustainability and corporate social responsibility principles are applied to all elements of contract management plan. |
| 3. Develop stakeholder relationships | 3.1. *Stakeholder* networks and relationships are identified.  
3.2. Networking strategies are used, within probity boundaries, to establish, develop and maintain working relationships to promote benefits to the contract requirements.  
3.3. Confidence of stakeholders is developed and maintained through high standards of behaviour and |
ethical conduct.

3.4. Negotiation strategies are used to achieve positive outcomes when difficult situations arise.

3.5. Communication requirements are identified and confirmed in line with contractual obligations and stakeholder needs.

4. **Implement contract strategies**

4.1. Requirements of confidentiality and freedom of information are identified for the contract.

4.2. *Communication/information strategy* is developed that matches needs of the organisation, the contract and the contractor's business environment.

4.3. Contract review requirements are established with stakeholders.

4.4. *Contract review strategy* is developed to review management of the contract, contractor performance and user satisfaction.

5. **Implement contractual arrangements**

5.1. Business relationship with contractor is established and managed according to organisational policy and procedures and probity requirements.

5.2. Start-up or transition arrangements are implemented.

5.3. Financial, administrative and information management processes are established.

5.4. Contractual arrangements are implemented according to contract management plan.

5.5. Appropriate *contract records* are maintained for the life of the contract.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - consult and negotiate with contractors and stakeholders
  - network, within probity boundaries, with contractors and stakeholders
  - develop a written contract management plan and sub-plans
  - read complex documents, such as contracts, legislation and guidelines
  - provide feedback

- teamwork skills to:
  - model effective team management approaches
  - respond to diversity
  - refer issues to the correct person

- problem-solving skills to:
  - apply OHS requirements in the context of contract management
  - apply understanding of supplier issues and supply chain management in the context of procurement risk management

- initiative and enterprise skills to:
  - apply the content of complex documents, such as contracts, legislation and guidelines
  - apply OHS, environmental, sustainability and corporate social responsibility practices in the context of planning for contract management

- planning and organising skills to manage and update the contract management plan and sub-plans

- learning skills to keep up-to-date with:
  - best practice examples in procurement practice
  - relevant procurement legislation, policies and procedures

- technology skills to:
  - operate organisational IT systems
  - use electronic procurement templates

Required knowledge

- commonwealth, state or territory, and local government legislation, policies, practices and guidelines:
  - relating to contract management, including environmental purchasing, sustainability and corporate social responsibility guidance relevant to the contract
  - such as OHS and equity and diversity

- organisational procurement policies, practices and approval processes

- contract management planning for a range of contractual situations
• privacy and confidentiality issues
• probity principles and issues
• codes of conduct, codes of practice and standards of individual behaviour relating to management of contracts and relationships with contractors
• whole-of-life considerations
• financial and accounting issues relevant to the contract
• equal employment opportunity relevant to the contract
• OHS requirements relevant to the contract
Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Competency must be demonstrated in the ability to plan to manage a contract consistently in accordance with legislative and organisational requirements.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to:

- develop a contract management strategy in consultation with key stakeholders
- develop a contract management plan suited to more complex contracts, using templates if available, which may include sub-plans such as risk, transition and probity
- implement the contract management strategy and the contract management plan
- develop and maintain a sound business relationship with internal and external stakeholders
- manage the performance of contractors to ensure the effective delivery of value for money outcomes under the contract
- manage more complex contract disputes to achieve prompt resolution and refer to higher authority when necessary
- review contract throughout to identify opportunities for continuous improvement
- act within own delegations and refer issues to higher authority when necessary.

Consistency in performance

Competency should be demonstrated by providing evidence of undertaking a range of relevant work tasks in an actual or simulated procurement environment on at least two separate occasions.

Context of and specific resources for assessment

The unit of competency is to be assessed in the workplace or a simulated workplace environment.

Access may be required to:

- legislation, policy, procedures and protocols relating to procuring goods and services and managing contracts
- codes of conduct and codes of practice
- workplace scenarios and case studies relating to a range of procurement activities associated with planning to manage a contract
- case studies that incorporate dilemmas, and probity requirements relating to planning to manage a contract.
**Method of assessment**  
The following assessment methods are suggested:
- questions to assess understanding of relevant legislation and procedures
- review of strategies and approaches adopted for planning to manage a contract
- review of contract management plans, contracts, probity plans, budgets, transition plans, approvals and sign-offs, and other documentation prepared by the candidate in a range of contexts
- review of stakeholder engagement approaches adopted by the candidate.

In all cases, practical assessment should be supported by questions to assess underpinning knowledge and those aspects of competency which are difficult to assess directly. Questioning techniques should suit the language and literacy levels of the candidate.

**Guidance information for assessment**  
Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:
- PSPETHC501B Promote the values and ethos of public service
- PSPGOV507A Undertake negotiations
- PSPLEGN501B Promote compliance with legislation in the public sector
- PSPPROC503B Manage contract performance
- PSPPROC504B Finalise contracts
- PSPPROC505A Manage procurement risk
- PSPPROC507A Plan for procurement outcomes
- PSPPROC508A Make procurement decisions.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Legislation, public sector standards and organisational requirements** may include:

- financial management legislation
- government procurement, purchasing and contracting legislation, policy and guidelines
- ethics standards
- codes of conduct and codes of practice
- environmental purchasing
- may include:
  - accountability
  - transparency
  - confidentiality
  - managing conflict of interest
  - impartiality
  - are maintained to:
    - ensure conformity to processes
    - facilitate accountability
    - ensure proponents are treated in a fair and equitable manner
    - encourage commercial completion
    - preserve public and private sector confidence in government processes

**Probity principles:**

- accountability
- transparency
- confidentiality
- managing conflict of interest
- impartiality
- are maintained to:
  - ensure conformity to processes
  - facilitate accountability
  - ensure proponents are treated in a fair and equitable manner
  - encourage commercial completion
  - preserve public and private sector confidence in government processes

**Other considerations** may include:

- corporate governance
- intellectual property
- privacy
- freedom of information requirements
- public liability insurance considerations

**Contracts** may include:

- formal written contracts
- standing offers (panels)
- multi-use lists and similar arrangements
- inter and intra-government agreements
- letters of intent
- memoranda of understanding and memoranda of agreement
- licensing agreements
- in-house option directives
Contract requirements may include:

- terms and conditions
- specifications
- risk
- managing hospitality
- clauses dealing with:
  - variations
  - insurances
  - notices
  - disputes
  - intellectual property
  - privacy
  - confidentiality
  - milestones
  - payments
  - breaches

Delegations may include:

- financial delegations
- procurement delegations
- compliance with instructions or finance circulars
- special consideration if they concern travel, computers or software, leasing arrangements or issuing indemnities, or other special categories of goods and services
- other delegations, such as disposals and human resources
- confirmation by chief financial officer
- ministerial authorisation

Contract risks may include:

- contextual/environmental factors
- supplier inability to meet obligations
- end user or buyer inability to meet obligations
- unclear contract terms and conditions
- contractual disputes
- factors outside the control of either party, such as global health pandemic, failure of third-party businesses, and natural disasters
- implications if dependence on one supplier, versus risks in lack of continuity and consistency of services provided

Variation to agreements may arise from:

- change of scope
- negotiation of new terms and conditions
- dissolution of contracts

Procedures to resolve disputes may include:

- conference
- negotiation
- mediation
- arbitration
Disputes may include:
- disputes over:
  - requirements
  - delivery schedules
  - price changes
  - additional tasking
  - payment schedules
  - complaints from third parties

Administrative processes may include:
- file and records management
  - audit trail
  - methodology for recording meetings
  - notes and follow-ups of meetings and actions agreed
  - management reporting

Contract management plan may include:
- risk management plan
- contingency plan
- communication and public relations plan
- human resource management plan
- disposal plan
- contract review plan
- setting up routines
- quality assurance systems
- arrangements for transfer of legal responsibility
- insurances
- strategies to avoid implied acceptance of varied conditions through non-enforcement of contractual obligations
- environmental/green procurement, sustainability and corporate social responsibility principles

Stakeholders may include:
- contractor
- buying organisation
- board of management
- steering committee
- advisory panel
- staff
- union
- industry
- client
- end user
- parliamentarian
- the public
**Communication/information strategies** may include:

- setting regular times to talk, meet or check on progress
- protocols for dealing with other stakeholders
- appeals mechanisms for resolving conflict between clients and service providers
- clear communication
- reliability
- emergency contact arrangements
- diary system to monitor milestones, timeframes, receipt of deliverables, etc.
- strategies for ensuring information flow at critical stages of the contract

**Contract review strategy** may include:

- planning process
- evaluation considerations at each stage of the contract
- sources and methods of gathering data
- role of audit trails
- measuring outputs
- meeting client needs
- innovation
- strategies for continuous improvement

**Contract records** may include:

- contract and variations
- contract management plan
- financial records, such as funding submissions, budgets, delegations, invoices and payments
- contractor performance information
- contract reports
- information about disputes and other issues
- complaints and compliments

Procurement and Contract Management.
PSPPROC505A Manage procurement risk

Modification History
PSPPROC505A Release 2: Layout adjusted. No changes to content.
PSPPROC505A Release 1: Primary release.

Unit Descriptor
This unit covers the ability to manage risks associated with all stages of procurement. It includes assessing risk, and preparing, implementing and reviewing a risk management plan. In practice, managing procurement risk may overlap with other public sector and local government generalist and specialist work activities, such as promoting the values and ethos of public service or local government, undertaking negotiations, promoting compliance with legislation in the public sector, managing contract performance, finalising contracts, planning to manage a contract, planning for procurement outcomes and making procurement decisions. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit
The unit applies to those in specialist procurement who plan for procurement risks across all stages of the procurement cycle.

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the range statement. Assessment of performance is to be consistent with the evidence guide.
### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Assess risk** | 1.1. *Legislation, policies*, business processes and resources impacting on the contract are identified.  
1.2. Procurement outcomes and internal inputs necessary for effective performance are identified.  
1.3. Critical success factors necessary for the achievement of procurement outcomes are identified and confirmed.  
1.4. Non-trivial *procurement risks* relating to the procurement activity are identified.  
1.5. Potential *probity risks* are identified.  
1.6. Causes of risk are analysed and their potential impact is determined.  
1.7. Likelihood and consequences of risks are determined and *risk assessments* are developed. |
| 2. **Prepare risk management plan** | 2.1. Preliminary *risk management* plan is developed that addresses risks identified in planning phase of procurement activity.  
2.2. Risks that will be accepted and those requiring *treatment* are identified.  
2.3. Treatments that reduce risks to an acceptable level are designed according to organisational requirements.  
2.4. Plan for implementing new treatments, additional *risk controls* or modifications to existing controls is developed.  
2.5. Risk level is re-checked at key points during procurement process, and risk management plan is reviewed and adjusted to cover procurement activity risks not already identified. |
| 3. **Implement and review risk management plan** | 3.1. Risk controls and treatments are implemented according to the treatment plan.  
3.2. Risk management plan is implemented, and regularly reviewed and revised to include potential or emerging risks during the life of the procurement activity.  
3.3. Review results are used to improve risk treatments and controls. |
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- Communication skills to:
  - write risk management plans using templates or a recognised risk management methodology
  - interpret complex, formal documents
  - make verbal and written recommendations about the management of procurement and contracting risks
  - provide feedback

- Teamwork skills to:
  - model effective team management approaches
  - respond to diversity
  - refer issues to the correct person

- Problem-solving skills to analyse risks associated with procurement and contract using a recognised risk management methodology

- Initiative and enterprise skills to identify procurement risks and opportunities using a recognised risk management methodology

- Planning and organising skills to manage and update the risk management plan

- Learning skills to keep up-to-date with:
  - best practice examples in procurement practice
  - relevant procurement legislation, policies and procedures

- Technology skills to:
  - operate organisational IT systems
  - use electronic procurement templates

Required knowledge

- Commonwealth, state or territory, and local government legislation, policies, practices and guidelines:
  - relating to contract risk management
  - such as OHS and equity and diversity

- Organisational procurement policies, practices and approval processes

- Risk management procedures

- Probity principles and issues, particularly as they relate to probity risks

- Codes of conduct, codes of practice and standards of individual behaviour relating to the procurement process

- Risks associated with financial and accounting issues relevant to procurement and contract management

- Supplier issues and supply chain management in the context of procurement risk management
• aspects of law of contracts, trade practices law and commercial law relevant to risk management relating to complex procurement
• OHS requirements relevant to procurement and contract management
• equal employment opportunity relevant to procurement and contract management
• environmental, sustainability and corporate social responsibility principles relevant to procurement and contract management
Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Competency must be demonstrated in the ability to manage procurement risk consistently in accordance with legislative and organisational requirements.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to:

- use recognised risk management methodologies to identify and assess risks for all stages of a procurement activity
- prepare a risk management plan for a procurement activity, using templates where available
- implement risk management plans
- review and revise risk management plans to reflect the changing procurement context and environment during the procurement activity
- liaise and consult with stakeholders to ensure that risks are appropriately identified and managed
- make recommendations to higher management about options for the management of procurement risks.

Consistency in performance

Competency should be demonstrated by providing evidence of undertaking a range of relevant work tasks in an actual or simulated procurement environment on at least two separate occasions.

Context of and specific resources for assessment

The unit of competency is to be assessed in the workplace or a simulated workplace environment.

Access may be required to:

- legislation, policy, procedures and protocols relating to procuring goods and services and managing procurement risk
- codes of conduct and codes of practice
- workplace scenarios and case studies relating to a range of procurement activities associated with managing procurement risk
- case studies that incorporate dilemmas and probity requirements relating to managing procurement risk.

Method of assessment

The following assessment methods are suggested:

- questions to assess understanding of relevant legislation and procedures
- review of strategies and approaches adopted for managing
procurement risk
- review of risk assessments, risk management plans, contract management plans, contracts, probity plans, budgets, transition plans and other documentation prepared by the candidate in a range of contexts
- review of stakeholder engagement approaches adopted by the candidate.

In all cases, practical assessment should be supported by questions to assess underpinning knowledge and those aspects of competency which are difficult to assess directly. Questioning techniques should suit the language and literacy levels of the candidate.

**Guidance information for assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- PSPETHC501B Promote the values and ethos of public service
- PSPGOV507A Undertake negotiations
- PSPLEGN501B Promote compliance with legislation in the public sector
- PSPPROC503B Manage contract performance
- PSPPROC504B Finalise contracts
- PSPPROC506A Plan to manage a contract
- PSPPROC507A Plan for procurement outcomes
- PSPPROC508A Make procurement decisions.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Legislation and policies may include:
- commonwealth or state and territory legislation, including equal employment opportunity and anti-discrimination law
- council rules and by-laws
- national and international codes of practice and risk management standards
- organisational policies and practices
- government policy
- codes of conduct and codes of practice
- national competition policy.

Procurement risks may include:
- contextual and environmental factors
- too many or too few potential suppliers
- unsophisticated marketplace
- timeframes for procurement too short
- inappropriate method of procurement used
- inadequate budget and other resources
- inappropriate form of contract selected
- supplier inability to meet obligations
- end user or buyer inability to meet obligations
- unclear contract terms and conditions
- contractual disputes
- factors outside the control of either party, such as global health pandemic, failure of third-party businesses or natural disasters
- implications if dependence on one supplier, versus risks in lack of continuity and consistency of services provided
- changes to government policy.

Probity risks may include:
- corruption
- fraud
- conflict of interest (actual, perceived or potential)
- unfair treatment of providers or potential providers
- misuse of resources
- misuse of information
- manipulation of the marketplace.
Risk assessments differentiate between risks that have:
- high impact/consequence/likelihood
- low impact/consequence/likelihood.

Risk management is often considered in relation to an organisation's:
- people
- assets and physical environment
- reputation and image
- legal issues
- business continuity
- finances
- stated outcomes.

Risk treatments may include those that:
- avoid risk
- transfer risk
- reduce likelihood
- reduce consequence
- partially reduce assessed risk level so that risk can be accepted.

Risk controls may include:
- legislation
- government policies and guidance
- organisational policies, processes and procedures
- standardised documentation and templates
- hierarchy of controls, such as fraud control plans and security plans
- staff skills and knowledge.

Unit Descriptor

This unit covers the ability to manage contracts. It includes undertaking preparations, establishing and maintaining contract management arrangements, monitoring and maintaining contract performance, and completing and reviewing contracts.

In practice, managing contracts overlaps with other generalist and specialist public sector work activities, such as upholding and supporting the values and principles of public service and local government, identifying and treating risks, exercising delegations, applying government processes, encouraging compliance with legislation in the public sector or local government, planning procurement, developing and distributing requests for offers and selecting providers.

Those who specialise in procurement are catered for by the units PSPPROC503B, PSPPROC504B, PSPPROC505A and PSPPROC506A, which address in depth the aspects of contract management performed by those who specialise in procurement.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

This unit applies to those who are not specialist contract managers, but manage contracts as part of their role rather than as their primary role.

Licensing/Regulatory Information

Employability Skills Information
This unit contains employability skills.

Elements and Performance Criteria Pre-Content
Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range statement. Assessment of performance is to be consistent with the evidence guide.
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Prepare to manage a contract | 1.1. *Contract* requirements, approvals and funding arrangements are confirmed and clarified where necessary, and obligations and limits of authority as contract manager are identified in line with contractual and organisational requirements.  
1.2. Operational elements of the contract are confirmed and contact is made with *specialists* and *stakeholders* to clarify and assist with contract administration issues.  
1.3. *Key contract clauses* are identified and their content is clarified as necessary to ensure contract requirements are understood.  
1.4. Process, timings, and key performance indicators are identified from the contract and confirmed with stakeholders.  
1.5. *Risks* are confirmed and a risk management plan is developed or reviewed in line with contract requirements and organisational policy and procedures.  
1.6. *Contract management strategy* is developed or *obtained* and key details are entered from the contract.  
1.7. Contract management team is formed and roles and responsibilities are allocated. |
| 2. Implement a contract management strategy | 2.1. Start-up or transition arrangements are confirmed and implemented according to contract requirements and organisational procedures.  
2.2. Information and *communication strategies* are established to meet contractor, stakeholder and organisational needs.  
2.3. Risk management plan is monitored for effectiveness and adapted as necessary during the life of the contract.  
2.4. Relationship with contractors and stakeholders is established and managed according to organisational policy and procedures and probity requirements.  
2.5. Specialist expertise is obtained as necessary for progress meetings and for advice on or resolution of contract issues.  
2.6. Consideration is given to OHS, environmental and sustainability principles and corporate social responsibility principles as they apply to the contract.  
2.7. Contract information/documentation is maintained for organisational purposes according to organisational... |
policy and procedures.

3. **Monitor and maintain performance of a contract**

   3.1. Obligations to contractor and stakeholders are met according to contractual arrangements and organisational financial management requirements.

   3.2. *Monitoring and control measures* and performance indicators are used to manage performance of contract and ensure that all obligations under the agreement are being met.

   3.3. *Contract variations* are managed in accordance with the contract, organisational policy and procedures, and probity requirements.

   3.4. *Disputes* and complaints are investigated and *resolved* or referred according to contract requirements.

   3.5. *Negotiation* of issues relating to the contract is managed and approvals are obtained according to stipulations in the contract proper.

   3.6. Communication is maintained with all stakeholders on the performance of the contract according to organisational protocols and public sector standards.

4. **Complete and review contract.**

   4.1. Client satisfaction with contract deliverables is confirmed.

   4.2. Contracts are finalised, amended, cancelled or terminated according to contractual arrangements.

   4.3. Strategies are applied to manage close-out, and ensure renewal of contract or transition to a new contract meet organisational guidelines, probity requirements and public sector standards.

   4.4. *Review* is undertaken of contract management, contractor performance relevant to measures at each stage of the contract, user satisfaction and audit results, when necessary.

   4.5. Where measures or outcomes are not met in full, variances are documented and explained.

   4.6. Information from the review and audit is used to report on contractor performance, to review contract management practice and make recommendations for improvement.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - consult and negotiate with contractors and stakeholders, involving complex oral and written exchanges of information
  - network, within probity boundaries, with diverse stakeholders and contractors
  - read complex documents, such as contracts, legislation and guidelines
  - provide feedback
- teamwork skills to:
  - work independently or under direction as appropriate to the situation
  - model team leadership approaches if appropriate
  - respond to diversity
  - refer issues to the correct person
- problem-solving skills to apply simple supply chain management and supplier issues management to the process of contract management
- initiative and enterprise skills to:
  - apply the content of complex documents, such as contracts, legislation and guidelines
  - apply OHS, environmental, sustainability and corporate social responsibility practices in the context of contract management
- planning and organising skills to manage contract documentation
- learning skills to keep up-to-date with relevant procurement legislation, policies and procedures
- technology skills to:
  - operate organisational IT systems
  - use electronic procurement templates

Required knowledge

- commonwealth, state or territory, and local government legislation, policies, practices and guidelines:
  - relating to contract management, including environmental purchasing and corporate social responsibility guidance
  - such as OHS and equity and diversity
- organisational procurement policies, practices and approval processes
- contract performance management
- privacy and confidentiality issues
- probity principles and issues
- codes of conduct, codes of practice and standards of individual behaviour
relating to managing contracts and relationships with contractors
- whole-of-life considerations relating to the ownership, operation and disposal/completion of the goods or services
- equal employment opportunity
- financial and accounting issues relevant to the contract
Evidence Guide

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Competency must be demonstrated in the ability to manage contracts consistently in accordance with legislative and organisational requirements.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Assessment must confirm the ability to:

- develop a contract management strategy in consultation with key stakeholders
- develop a suitable contract management plan, using templates if available
- implement the contract management plan
- manage the performance of contractors
- provide contractors with performance feedback
- manage contract disputes to achieve prompt resolution and refer to higher authority when necessary
- review contracts throughout to identify opportunities for continuous improvement
- act within own delegations and refer issues to higher authority when necessary
- uphold probity standards in all dealings with contractors.

Consistency in performance

Competency should be demonstrated by providing evidence of undertaking a range of relevant work tasks in an actual or simulated procurement environment on at least two separate occasions.

Context of and specific resources for assessment

The unit of competency is to be assessed in the workplace or a simulated workplace environment.

Access may be required to:

- legislation, policy, procedures and protocols relating to procuring goods and services and managing contracts
- codes of conduct and codes of practice
- workplace scenarios and case studies relating to a range of procurement activities associated with managing contracts
- case studies that incorporate dilemmas, and probity requirements relating to managing contracts.

Method of assessment

The following assessment methods are suggested:

- questions to assess understanding of relevant legislation
and procedures

- review of strategies and approaches adopted for managing contracts
- review of contract management plans, contracts, contract variations, contractor performance reports, contract closure documents and other documentation prepared by the candidate in a range of contexts
- review of stakeholder engagement approaches adopted by the candidate.

In all cases, practical assessment should be supported by questions to assess underpinning knowledge and those aspects of competency which are difficult to assess directly. Questioning techniques should suit the language and literacy levels of the candidate.

**Guidance information for assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- PSPETHC401A Uphold and support the values and principles of public service
- PSPGOV417A Identify and treat risks
- PSPGOV421A Exercise delegations
- PSPLEGN401A Encourage compliance with legislation in the public sector
- PSPPROC411A Plan procurement
- PSPPROC412A Develop and distribute requests for offers
- PSPPROC413A Select providers and develop contracts.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Contracts** may include:
- memoranda of understanding and memoranda of agreement
- in-house option directives
- common use arrangements/standing offers
- inter and intra-government agreements
- letters of intent
- licensing agreements

**Specialists** may include:
- procurement and contracting
- corporate finance
- outsourced procurement or contracting advisers
- legal advisers
- functional/business
- technical
- business owner of the contract
- OHS
- environmental
- audit and probity
- appropriate cross-government department experts

**Stakeholders** may include:
- end users, customers or clients, and sponsors
- current or potential providers or suppliers
- technical or functional experts or advisers
- commonwealth, state or territory, and local government
- the organisation
- other public sector organisations
- employees, unions and staff associations
- industry bodies
- local communities
- lobby groups and special user groups

**Key contract clauses** may include:
- specifications
- variations
- insurances
• notices
• disputes
• intellectual property
• privacy
• confidentiality
• milestones
• payments
• breaches
• penalties
• expected standards of behaviour

**Risks** may include:
• contractor inability to meet agreements
• end user or buyer inability to meet obligations
• limited number of suppliers
• corruption risks
• probity risks

**Contract management strategy** may include:
• formal contract management plan
• contract management checklist
• setting up routines
• checking quality assurance systems
• transferring legal responsibility
• avoiding implied acceptance of varied conditions through non-enforcement of contractual obligations
• applying environmental, sustainability and corporate responsibility principles

**Contract management strategy may be obtained from:**
• procurement/contracting area
• specialist contract managers
• central agencies, such as state supply boards, and contract and management services
• finance area
• legal advisers
• outsourced providers of contracting services

**Communication strategies** may include:
• setting regular times to talk, meet or check on progress
• protocols for dealing with other stakeholders
• emergency contact arrangements
• diary system to monitor milestones, timeframes, receipt of deliverables, etc.
• strategies for ensuring information flow at critical stages of the contract

**Monitoring and control**
• inspections
**measures** may include:
- tests
- audits
- reviews
- meetings
- progress reports
- verifications
- identification of non-conformances
- corrective actions

**Contract variations** may include:
- change of scope
- change in prices
- change in quantity
- change to specifications
- negotiation of new terms and conditions
- dissolution of contracts
- in writing
- verbal variations, confirmed in writing
- variations by action/inaction

**Disputes** may include:
- disputes over:
  - requirements
  - delivery schedules
  - price changes
  - additional tasking
  - payment schedules
  - complaints from third parties

Techniques available to **resolve** disputes include:
- conference
- negotiation
- mediation
- expert determination
- arbitration
- resort to contractual conditions
- legal considerations

**Negotiation** of issues may include:
- contract variations
- continuous improvement
- innovations
- non-compliance
- consequences

**Review** may include:
- planning process
- evaluation considerations at each stage of the contract
- sources and methods of gathering data
- role of audit trails, where applicable
- measuring outputs
- meeting client needs
- considering new and different ways of delivering the service or product in the future
- strategies for continuous improvement

<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Enter data to system | 1.1. Data is entered into systems without error and within time requirements as specified in relevant *organisation policy and procedures*
| | 1.2. Data is allocated to correct systems and accounts and *related systems* are updated
| | 1.3. System controls are maintained to ensure the integrity and security of client and payee database |
| 2. Create payment facility | 2.1. Payment facility is processed accurately in accordance with organisation policy and procedures
| | 2.2. Document*ation* is maintained in a secure manner to protect the privacy and interests of all parties |
| 3. Verify payments against documentation | 3.1. Authorisation for payment is confirmed with information on payment facility matching approved documentation
| | 3.2. Discrepancies are identified and followed up promptly |
| 4. Effect payments | 4.1. Payments are made within agreed credit arrangements in accordance with organisation policy and procedures and *industry and legislative requirements*
| | 4.2. Payment instruments are signed in accordance with relevant authority levels and related systems updated promptly to ensure that the integrity of accounting systems are maintained
| | 4.3. Primary documentation associated with payment is cancelled or noted to ensure multiple payments are not made |
| 5. File documentation | 5.1. Documentation is filed promptly in accordance with organisation policy and procedures
| | 5.2. Location of filed documentation is easily accessible and traceable |
### Required Skills and Knowledge

#### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to:
  - determine and confirm work requirements and interact with customers, using questioning and active listening as required
  - share information, listen and understand
  - use language and concepts appropriate to cultural differences
- numeracy skills to make financial calculations
- information technology skills for accessing and using accounting systems, spreadsheets, databases and internet information
- evaluation skills to determine payment status and any discrepancies
- literacy skills for data analysis and entry
- organisational skills, including the ability to plan and sequence work

#### Required knowledge

- awareness of relevant acts and regulations
- industry codes of practice
- organisation policy and procedures
- relevant legal systems and procedures impacting on payment systems
## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range Statement and the Assessment Guidelines for the Training Package.

<table>
<thead>
<tr>

</thead>
</table>
| **Method of assessment** | - evaluating an integrated activity which combines the elements of competency for the unit or a cluster of related units of competency  
- verbal or written questioning on underpinning knowledge and skills  
- evaluating samples of work  
- accessing and validating third party reports. |
Range Statement

**RANGE STATEMENT**

The range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Organisation policy and procedures may include: | • computer system documentation  
| | • internal control guidelines  
| | • operations manuals. |
| Related systems may include: | • assets system  
| | • claims  
| | • commissions and fees  
| | • holding/suspense accounts  
| | • receivables  
| | • reinsurance  
| | • tax related. |
| Systems controls: | • protect against the corruption of payee:  
| | • name  
| | • address  
| | • bank account details. |
| Payment facility documentation may include: | • authorisation slips  
| | • batch records  
| | • cheque cancellations  
| | • confirmation of receipt  
| | • delivery dockets  
| | • invoices  
| | • payment requests  
| | • periodic approvals  
| | • signature verifications  
| | • stop payments. |
| Industry and legislative requirements may cover: | • Anti-Money Laundering and Counter Terrorism Financing Acts  
| | • Consumer Credit Protection (Fees) Act  
| | • industry codes of practice  
| | • occupational health and safety (OHS) acts and guidelines  
| | • Privacy Act  
| | • relevant Insurance Act |

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Receipts** may include:
- bankers orders
- cash
- cash journal entry
- cheques
- credit cards:
  - direct
  - mail
  - telephone
- direct debits
- direct drawing
- payroll deduction
- postal money order.

**Organisation policy and procedures** may include:
- computer systems documentation
- internal control guidelines
- operations manuals.

**Industry and legislative requirements** may cover:
- Cash Transaction Act
- consumer credit legislation
- industry codes of practice
- occupational health and safety (OHS) acts and guidelines
- Privacy Act
- relevant Insurance Act
- Stamp Duties Act
- Taxation Act.

**Receipt systems** may include:
- assets
- cash receipts debiting
- commissions
- investment
- loans
- receipting system may take account of optimising legislative requirements including Financial Institutions Duty (FID).
### RANGE STATEMENT

| Systems may be:                  | • computer based  
|                                | • manual.        
| Data and allocation discrepancies may include: | • incorrect account allocation  
|                                | • keystroke error. |

# Required Skills and Knowledge

## REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- high level communication skills to:
  - determine and confirm internal control requirements by consulting with staff on internal control procedures and using questioning and active listening as required
  - liaise with others, share information, listen and understand
  - use language and concepts appropriate to cultural differences
- well-developed research and analysis skills for accessing and managing complex information
- well-developed literacy skills for interpreting and analysing complex documentation including relevant legislation and producing accessible guidelines and reports
- numeracy skills to accurately analyse, record and store data in accordance with organisational requirements
- IT skills for accessing and using appropriate software such as spreadsheets and databases and using internet information
- learning skills to maintain knowledge of changes to compliance legislation and requirements
- problem solving skills to identify any issues that have the potential to impact on the financial controls in the organisation and to develop options to resolve these issues when they arise
- organisational skills, including the ability to plan and sequence work

### Required knowledge

- ethical considerations and confidentiality for management and handling of files and records
- financial legislation such as:
  - taxable transactions
  - reporting requirements
- methods of work practices and routines
- organisational guidelines and procedures
- principles of internal control and auditing

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify and record and system requirements | 1.1. Comprehensive specifications are prepared based on requirements of potential users with any conflicting requirements and solutions are negotiated prior to and during the development process  
1.2. Objectives are defined and specifications documented to establish the expected inputs, outputs and means of delivery  
1.3. System and records requirements are prioritised according to importance and urgency of user needs  
1.4. Security requirements to maintain system integrity are identified and incorporated into the system design  
1.5. Features of any existing system and records are reviewed to establish their suitability and usability  
1.6. Recording processes are established according to accepted practice and in accordance with legislation and codes of practice |
| 2. Evaluate alternative systems | 2.1. Features of various systems are compared and measured against user requirements to enable identification of alternative systems and solutions  
2.2. Cost-benefit analysis of alternative systems and solutions is carried out and recommendations documented |
| 3. Acceptance test system | 3.1. System is tested in an operational environment to ensure compliance with user requirements, company policy and guidelines, system specifications and relevant legislation or industry codes of practice  
3.2. Formal confirmation from all users is obtained on acceptability of new system/system changes against all criteria and system specifications |
| 4. Prepare system documentation | 4.1. System documentation is prepared thoroughly and accurately using easily understood language and in a clear format to support system implementation and training  
4.2. Users are consulted to ensure clarity, accuracy, thoroughness and usability of system documentation  
4.3. System documentation is made easily accessible and is constantly reviewed and updated to ensure currency and accuracy |
<p>| 5. Implement reporting | 5.1. Implementation is carried out in accordance with |</p>
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| systems and records | specified guidelines and timelines and contingency plans established to deal with any potential delays or problems  
5.2. Effective training schedules and programs are established to support implementation  
5.3. All data are transferred from existing to the new or modified system and records without error or loss  
5.4. Systems and records are updated regularly to identify ongoing benefits and threats to the organisation  
5.5. Files are maintained within organisational and statutory requirements and discrepancies identified and remedied  
5.6. Integrity of systems and records complies with organisational and statutory requirements  
5.7. transactions are monitored to identify taxation and other liabilities |
| 6. Monitor reporting systems | 6.1. Transactions are analysed and accounted for completely and are correctly related to the accounting period  
6.2. Processes for recording and classifying transactions are communicated and promoted to support internal verification of records  
6.3. Sources of input data and documentation are standardised in structured formats to minimise errors  
6.4. Back-ups are maintained in an accessible location to safeguard data in accordance with organisational and audit requirements |
| 7. Review reporting procedures | 7.1. Sources of input data and documentation records are systematically checked for accuracy and reliability  
7.2. Reporting requirements are established and analysed regularly to identify variations and compliance with established processes for recording and classifying transactions  
7.3. Written reports, explanatory notes and financial results are maintained to support source documentation |
## Required Skills and Knowledge

<table>
<thead>
<tr>
<th>REQUIRED SKILLS AND KNOWLEDGE</th>
</tr>
</thead>
</table>
This section describes the skills and knowledge required for this unit.

### Required skills

- communication skills to:
  - determine and confirm system requirements with users
  - liaise with others, share information, listen and understand
  - use language and concepts appropriate to cultural differences
- research and analysis skills for accessing, analysing and managing financial services systems and data
- well-developed literacy skills for preparing clear written systems specifications and guidance manuals for organisations and business units
- numeracy skills for financial calculations and analysis
- highly developed IT skills for developing and integrated financial systems and using spreadsheets, databases and internet information
- learning skills to maintain knowledge of financial system features, requirements and procedures
- problem solving skills to identify any system issues that have the potential to impact on organisations and to develop options to resolve these issues when they arise
- organisational skills, including the ability to plan and sequence work and correctly schedule activities of others

### Required knowledge

- ethical considerations for the handling of financial reconstruction such as:
  - conflict of interests
  - confidentiality
  - disclosure requirements
- financial legislation such as:
  - taxable transactions
  - reporting requirements
- methods of data protection including:
  - back-ups
  - security
- principles and practices of budgetary control such as:
  - double-entry bookkeeping
  - accrual accounting
- principles of internal control including statutory reporting
- procures and procedures for recording and storing financial data
## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

<table>
<thead>
<tr>
<th>Critical aspects for assessment and evidence required to demonstrate competency in this unit</th>
<th>Evidence of the ability to:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• interpret and comply with and statutory requirements, organisational policies and procedures</td>
</tr>
<tr>
<td></td>
<td>• assess the impact of taxation and other liabilities, relevant legislation and industry codes of practice</td>
</tr>
<tr>
<td></td>
<td>• identify record and systems requirements</td>
</tr>
<tr>
<td></td>
<td>• evaluate alternative systems and acceptance test systems</td>
</tr>
<tr>
<td></td>
<td>• prepare systems documentation and implement reporting systems and records</td>
</tr>
<tr>
<td></td>
<td>• monitor and review reporting systems.</td>
</tr>
</tbody>
</table>

### Context of and specific resources for assessment

Assessment must ensure:

- competency is demonstrated in the context of the financial services work environment and conditions specified in the range statement either in a relevant workplace or a closely simulated work environment
- access to and the use of a range of common office equipment, technology, software and consumables
- access to integrated financial systems software and data.

### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples, in combination, are appropriate for this unit:

- evaluating an integrated activity which combines the elements of competency for the unit or a cluster of related units of competency
- verbal or written questioning on underpinning knowledge and skills which may include formal examinations
- setting and reviewing workplace projects and business simulations
- evaluating samples of work
- accessing and validating third party reports.

### Guidance information for assessment

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Systems and records may include: | • management information systems  
| | • proformas and other documents  
| | • software packages  
| | • user manuals. |

| Records may include: | • asset management accounts  
| | • cash and trading accounts  
| | • client histories  
| | • credit balances  
| | • electronic formats such as:  
| | • forms  
| | • spreadsheets  
| | • expense accounts  
| | • loan accounts  
| | • master files. |

| System testing may include: | • ensuring operational capability matches system specifications and user requirements  
| | • running current system in parallel with new or modified system for defined periods of time. |

| Company policy and guidelines may include: | • accounts and records  
| | • auditing practices and procedures  
| | • clerical and administrative systems  
| | • client service  
| | • corporate governance  
| | • information technology. |

| Legislation and industry codes of practice may include: | • Australian Accounting Standards  
| | • Australian Auditing Standards  
| | • Australian Institute of Company Directors policies  
| | • consumer affairs law  
| | • contract law  
| | • corporate governance  
| | • corporations law  
| | • Privacy Act |
## RANGE STATEMENT

</tbody>
</table>

### System specifications may include:

- applicable to large, medium or small organisations
- company policies and guidelines
- compliance and reporting requirements
- cost
- integration with existing or other systems, data and records
- technical, functional and operational features.

### Organisational and statutory requirements may include:

- electronic forms
- exception reports
- financial analysis assessments including growth prospects against prior and current periods
- overdue accounts and debt recovery procedures
- reporting requirements and financial reporting cycles.

### Discrepancies may include:

- absence of audit trails
- expenditure report mismatches
- inappropriate authorisations
- incorrect payments
- incorrect report formats
- unreconciled cash flows and operating statements
- variances from budget and phasings.

### Transactions may include:

- financial adjustments such as:
  - write-offs
  - revaluations
  - journal entries
  - payments
  - purchases
  - receipting.

### Taxation and other liabilities may include:

- Capital Gains Tax (CGT)
- Corporate Tax
- Fringe Benefits Tax (FBT)
- Goods and Services Tax (GST)
- State Government charges (e.g. payroll taxes)
- superannuation requirements.

### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples, in combination, are appropriate for this unit:

- evaluating an integrated activity which combines the elements of competency for the unit or a cluster of related units of competency
- simulated tasks involving preparation of budgets from supplied data
- verbal or written questioning on underpinning knowledge and skills which may include formal examinations
- evaluating samples of work.

### Guidance information for assessment
Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Budget objectives may include: | • annual planning  
| | • cost reduction  
| | • rolling forecasts:  
| | • next period  
| | • monthly  
| | • next year.  

| Expenditure and revenue items may include: | • capital expenditure

BSBHRM602B Manage human resources strategic planning

Modification History
Not applicable.

Unit Descriptor

| Unit descriptor | This unit describes the performance outcomes, skills and knowledge required to develop, implement and maintain a strategic approach to managing human resources in an organisation. The unit is critical for any human resources manager and should be undertaken after a firm grounding has been established in a range of human resources activities.
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement. |

Application of the Unit

| Application of the unit | This unit applies to human resources managers or policy and planning staff with specific responsibility for ensuring that the organisation has the structure and staff to meet current and foreseeable business and performance objectives. In most instances this role will be undertaken by someone from a large organisation and will support an established strategic or business plan. |

Licensing/Regulatory Information
Not applicable.

Pre-Requisites

</thead>
</table>
| 1. Research planning requirements | 1.1. Analyse strategic plans to determine human resource strategic direction, objectives and targets  
1.2. Undertake additional environmental analysis to identify emerging practices and trends that may impact on human resources management in the organisation  
1.3. Identify future labour needs, skill requirements and options for sourcing labour supply  
1.4. Consider new technology and its impact on job roles and job design  
1.5. Review recent and potential changes to industrial and legal requirements |
| 2. Develop human resources strategic plan | 2.1. Consult relevant managers about their human resources preferences  
2.2. Agree on human resources philosophies, values and policies with relevant managers  
2.3. Develop strategic objectives and targets for human resources services  
2.4. Examine options for the provision of human resources services and analyse costs and benefits  
2.5. Identify appropriate technology and systems to support agreed human resources programs and practices  
2.6. Write strategic human resources plan and obtain senior management support for the plan  
2.7. Develop risk management plans to support the strategic human resources plan |
| 3. Implement human resources strategic plan | 3.1. Work with others to see that the plan is implemented  
3.2. Monitor and review the plan  
3.3. Adapt plan should circumstances change  
3.4. Evaluate and review performance against plan objectives |
## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- literacy skills to:
  - read relevant documentation
  - write plans
- numeracy skills to undertake cost-benefit analysis of available options
- planning and organisational skills to develop and implement plans
- research, learning and analysis skills to ensure necessary information is gathered prior to writing plans

### Required knowledge

- human resources practices and functions
- impact of technology on job roles
- labour market options for sourcing labour supply
- requirements of a strategic plan

</tr>
</thead>
</table>
| Critical aspects for assessment and evidence required to demonstrate competency in this unit | • development of a strategic human resources plan which includes relevant research and data and demonstrates a clear alignment with broader business objectives  
• implementation and review of the plan. |

| Context of and specific resources for assessment | Assessment must ensure access to appropriate documentation and resources normally used in the workplace. |

<table>
<thead>
<tr>
<th>Method of assessment</th>
<th>The following assessment methods are appropriate for this unit:</th>
</tr>
</thead>
</table>
|                      | • assessment of reports on strategic human resources issues and human resources planning  
• direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate  
• evaluation of strategic objectives and targets for human resources services  
• review of human resources plan and risk management plans  
• oral or written questioning to assess knowledge of human resources practices and functions. |

| Guidance information for assessment | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended. |
### Range Statement

**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential italicised operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Emerging practices and trends** may include:

- ageing workforce
- changes in consumer patterns or community expectations
- economic trends
- labour market trends
- multi-generational teams
- new products or services
- new technologies
- political or legislative changes
- qualification or educational changes
- working internationally.

**Future labour needs** may include:

- labour required to achieve organisation's strategic objectives, for example:
  - competency
  - number
  - quality
  - type.

**Options for sourcing labour supply** refer to:

- employing a range of recruitment options
- hiring casual labour
- hiring new graduates or trainees
- employing off-shore workers
- outsourcing
- using contractors or consultants.

**Strategic objectives and targets for human resources** may refer to:

- equal employment opportunity and diversity
- human resources information systems
- induction
- industrial relations
- job analysis and design
- OHS
- performance management
- professional development
- recruitment and selection.
### RANGE STATEMENT

| |  
|---|---|
| | • remuneration  
| | • staff retention and succession planning.  

### Options for the provision of human resources services may include:

| |  
|---|---|
| | • external provision by a consultant or contractor  
| | • having the work performed elsewhere (outsourcing)  
| | • internal human resources provision of the service  
| | • internal non-human resources provision of the service  
| | • merging of business units.

### ELEMENT | PERFORMANCE CRITERIA
--- | ---
1. Prepare a budget | 1.1. Information on past receipts and payments is obtained from previous records, compared to current prices and cost trends, and compiled in a form that enables projections of future receipts and expenditures.  
1.2. A plan is prepared for a period which allows for expected expenditure and financial reporting requirements, using the 'most likely' prices and costs.
2. Implement and monitor a budget | 2.1. Receipts and payments are monitored and reconciled against the original budget.  
2.2. Variances against the original plan are identified, and the impact on overall profit/loss and cash flow is calculated.  
2.3. Funds are allocated in accordance with budget objectives and parameters.  
2.4. Adjustments are made where necessary to respond to unacceptable variations.  
2.5. Budgets and plans are renegotiated/ restructured where necessary to optimise enterprise performance.
3.2. Information with source documents is assembled according to the requirements of the report recipient.  
3.3. Documentation is forwarded in a timely and efficient manner.  
3.4. Non-financial objectives are reported in the context of overall enterprise performance.

---

### Required Skills and Knowledge

#### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

**Required skills**

- prepare a budget
- monitor receipts and payments
- negotiate and restructure budgets
- implement and monitor a budget
### REQUIRED SKILLS AND KNOWLEDGE

- maintain financial records
- use literacy skills to fulfil job roles as required by the organisation. The level of skill may range from reading and understanding documentation to completion of written reports
- use oral communication skills/language competence to fulfil the job role as specified by the organisation including questioning, active listening, asking for clarification, negotiating solutions and responding to a range of views
- use numeracy skills to estimate, calculate and record complex workplace measures
- use interpersonal skills to work with others and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

### Required knowledge

- budget formulation
- financial information systems
- business transactions
- banking and reconciliation
- standards for organisational recordkeeping and audit requirements.
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Competence in preparing and monitoring budgets and financial reports requires evidence that budgets have been successfully and appropriately developed and monitored in an enterprise, and that financial reports meet industry standards in their content and structure. The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following:

- prepare a budget using most likely costs and income
- develop and monitor budgets in an enterprise
- prepare financial reports to meet industry standards.

Context of and specific resources for assessment

Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole.

Budgets may include:
- recurrent operating or project based funds.

Financial reports may be:
- prepared for Taxation Commissioner
- financing agencies
- boards of management
- committees
- councils
- executive management.

</table>
| 1. Determine production process requirements | 1.1. Information regarding the characteristics of products being grown or refined/manufactured and their respective market requirements is accessed.  
1.2. Characteristics of the land under production and the quality and amount of existing infrastructure are confirmed from colleagues and other planning processes.  
1.3. Historical data, including recent data from organisational records is identified and accessed for input to production planning.  
1.4. Information regarding other organisational planning processes and potential for improvements or innovations is collected and used to inform production planning.  
1.5. Requirements of the organisation are taken into consideration during analysis.  
1.6. Production processes required to efficiently achieve the targeted production requirements in line with organisational policies are identified and compared with those that currently exist.  
1.7. Details regarding production planning are used as input to other organisational planning processes. |
| 2. Determine monitoring requirements and systems | 2.1. Production targets for each enterprise and each product, crop, herd, or flock are established from the range of organisational management and strategic plans.  
2.2. Scheduling for production processes is determined taking varying organisational factors into consideration.  
2.3. Environmental and waste management controls are established and specifically included in the production plan.  
2.4. Monitoring points and performance indicators for the production process are established using target, environmental management and scheduling information.  
2.5. Prepared risk management strategies are put into place and acted upon when necessary.  
2.6. A plan is prepared that documents the decisions taken, the assessments made, the targets established, and any specific issues that relate to environmental and Occupational Health and Safety (OHS) risks. |
<p>| 3. Monitor/evaluate | 3.1. Checks are made to ensure that the performance |</p>

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following:

- identify production processes required to achieve targeted production
- establish production targets for each enterprise and each product, crop, herd, or flock
- schedule production processes with monitoring points and performance indicators
- evaluate production processes and make modifications
- create, and maintain records and documentation as described in the production plan.

### Context of and specific resources for assessment

Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole.

The production process includes:

- the resources, personnel, methodology, and any interactions between them for an agricultural or horticultural enterprise.

AHCBUS506A Develop and review a business plan

Modification History
Not Applicable

Unit Descriptor

| Unit descriptor | This unit covers developing and reviewing a business plan and defines the standard required to: set strategic goals, targets and directions for the enterprise; determine clear and measurable indicators of operational performance; identify and design risk management and mitigation strategies; develop appropriate operational plans; document the business plan; monitor the business plan to identify strengths, weaknesses and areas for improvement. |

Application of the Unit

| Application of the unit | This unit applies to those whose role is to set the short, medium or long term goals and targets for the business plan and may relate to marketing and production targets, resource and asset development and management, acquisitions, capital, property improvements, and operational systems. |

Licensing/Regulatory Information

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
### ELEMENT | PERFORMANCE CRITERIA
---|---
1. Determine scope | 1.1. Scope of the business plan and associated systems is determined in consultation with key and specialist personnel.  
1.2. Accurate information is accessed to inform business plan development.  
1.3. Trends and seasonal variations are accounted for and incorporated into the business plan.  
1.4. Strategic goals, targets and directions of the enterprise are accounted for in the development of the business plan.  
1.5. Legal obligations are understood and complied with in developing the business plan.  

2. Prepare business plan | 2.1. Operational goals and targets that enhance opportunities to meet the enterprise strategic plan are developed.  
2.2. Supply chains are identified and incorporated into the business plan.  
2.3. Risk management needs are identified and addressed within the business plan.  
2.4. Trial systems are incorporated in order to test budgetary impact and operational potential prior to full implementation of the business plan.  
2.5. Indicators of operational performance are clear and measurable and allow for realistic analysis of performance.  

3. Document and review business plan | 3.1. Fiscal and operational systems that enhance performance management and suit enterprise requirements are included.  
3.2. Resource considerations are incorporated into the business plan.  
3.3. Business plan is accurately documented and clearly communicated to all relevant parties.  
3.4. Performance against the business plan is monitored to identify strengths, weaknesses and areas for improvement.  
3.5. Recommendations to improve the business plan and associated systems are made as required.  

### Required Skills and Knowledge
REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- set realistic goals
- operate manual and/or electronic commercial systems
- consider and evaluate alternatives
- develop and manage supply chains
- design performance criteria, and operational and tactical plans that are incorporated into a business plan
- analyse information and results
- identify and design risk management and mitigation strategies
- identify and design appropriate operational plans
- use literacy skills to fulfil job roles as required by the organisation. The level of skill may range from reading and understanding documentation to completion of written reports
- use oral communication skills/language competence to fulfil the job role as specified by the organisation including questioning, active listening, asking for clarification, negotiating solutions and responding to a range of views
- use numeracy skills to estimate, calculate and record complex workplace measures
- use interpersonal skills to work with others and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

### Required knowledge

- budgeting
- forecasting
- relevant industrial awards and agreements
- communication techniques
- risk management factors and priorities
- indicators of operational performance
- the fiscal and operational systems, and the resource considerations, that are relevant to business planning
- logical and analytic methods
- profit and loss and cash flow systems
- working knowledge of environmental, OHS, industrial relations, taxation, corporate and industry legislation as they relate to the enterprise
- capital investment analysis.
## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Competence in developing and reviewing a business plan requires evidence that demonstrates ability to scope the business plan and determine key objectives and targets. The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following:

- set strategic goals, targets and directions for the enterprise
- determine clear and measurable indicators of operational performance
- identify and design risk management and mitigation strategies
- develop appropriate operational plans
- document the business plan
- monitor the business plan to identify strengths, weaknesses and areas for improvement.

#### Context of and specific resources for assessment

Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole.

Business plans may include:

- the goals and targets for the business plan which may be short, medium or long term and may relate to marketing and production targets
- resource and asset development and
RANGE STATEMENT

| Management, acquisitions          | • capital  
|                                  | • property improvements  
|                                  | • operational systems.  

Operational goals and targets may include:

| • link directly to the enterprise strategic plan and also to Occupational Health and Safety (OHS), environment, quality and customer/market satisfaction key result areas.

| 1. Survey climate and enterprise data | 1.1. Historical climate data is obtained and interpreted from a range of sources.  
1.2. Weather and climate risk factors are identified.  
1.3. Information on normal and significant climate events and their impact on natural and rural systems are collected.  
1.4. Current and historical property and enterprise situation is detailed according to enterprise guidelines.  
1.5. Short and long term enterprise goals are reviewed.  
1.6. Climate and enterprise data is sourced, presented and updated according to enterprise requirements. |
| 2. Climate risks and opportunities are identified and analysed | 2.1. Forecasted chances of seasonal climate are analysed.  
2.2. Climate risks and opportunities are identified.  
2.3. Impact on production of different weather and climate risk factors are determined according to enterprise requirements.  
2.4. Qualitative and quantitative risk and opportunity factors are identified and developed.  
2.5. Importance of climate variability and significant climate events is evaluated.  
2.6. Tactics to address a range of different climate variability risks and opportunities are outlined according to enterprise requirements.  
2.7. Contingency options for enterprises and the business are identified. |
| 3. Prepare climate risk management strategies | 3.1. Climate variability and seasonal climate forecasts are analysed.  
3.2. Insurance and other options are addressed in strategies.  
3.3. Major climate risk factors are addressed in strategies.  
3.4. Financial outcomes for all strategies are prepared according to enterprise guidelines.  
3.5. Impacts on the environment, property value and equity are predicted for the preferred strategies.  
3.6. Preferred production, enterprise or alternative strategies are reviewed, and options selected according to enterprise requirements.  
3.7. A planned strategy to cope with variable climate and climate risk management is presented in a format according to enterprise guidelines. |
## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- research climate and enterprise data
- analyse and interpret climate and enterprise data
- prepare risk management strategies
- integrate climate risk, and opportunities and management strategies at a business management level
- use literacy skills to fulfil job roles as required by the organisation. The level of skill may range from reading and understanding documentation to completion of written reports
- use oral communication skills/language competence to fulfil the job role as specified by the organisation, including questioning, active listening, asking for clarification, negotiating solutions and responding to a range of views
- use numeracy skills to estimate, calculate and record complex workplace measures
- use interpersonal skills to work with others and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

#### Required knowledge

- current forecasting techniques and phenomena, such as El Nino, ENSO, Southern Oscillation Index (SOI) and Pacific and Indian Ocean SST patterns
- the impact of weather and climate phenomena on rainfall, plant growth and yields
- causes of general patterns of weather and climate over Australia
- climate variability and climate change
- direct and indirect impacts of climate variability on land management and sustainability
- property and enterprise management decisions affected by the variable climate
- recognition of climate risks and opportunities
- seasonal climate forecasting systems and related indicators
- drought planning and strategies
- flood planning and strategies
- climate and weather issues pertaining to sustainable agriculture
- potential impacts of greenhouse warming on land and natural resource management
- strategic options and planning in response to climate variability for a range of seasons (normal, drier or wetter than normal), and other risks and opportunities
- calculating financial returns for different strategic options
### REQUIRED SKILLS AND KNOWLEDGE

- computer applications and Internet to access, record and analyse data
- principles of decision-making based on the variable climate and seasonal climate forecasts.
# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following:

- research climate and enterprise data
- analyse and interpret climate and enterprise data
- prepare risk management strategies
- integrate climate risk and opportunities for management strategies at a business management level.

### Context of and specific resources for assessment

Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

BSBMGT516C Facilitate continuous improvement

Modification History
Not applicable.

Unit Descriptor

| **Unit descriptor** | This unit describes the performance outcomes, skills and knowledge required to lead and manage continuous improvement systems and processes. Particular emphasis is on the development of systems and the analysis of information to monitor and adjust performance strategies, and to manage opportunities for further improvements.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement. |

Application of the Unit

| **Application of the unit** | This unit applies to managers who take an active role in managing a continuous improvement process in order to achieve an organisation's objectives. Where managers are closely associated with the creation and delivery of products and services, they play an important part in influencing the ongoing development of the organisation.

At this level, work will normally be carried out using complex and diverse methods and procedures which require the exercise of considerable discretion and judgement, using a range of problem-solving and decision-making strategies. |

Licensing/Regulatory Information
Not applicable.

## Range Statement

<table>
<thead>
<tr>
<th><strong>RANGE STATEMENT</strong></th>
</tr>
</thead>
</table>

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

### Strategies may refer to:
- clarification of roles and expectations
- communication devices and processes, such as intranet and email communication systems, to facilitate input into workplace decisions
- long-term or short-term plans that factor in opportunities for team input
- mentoring and 'buddy' systems to support team members to participate in decision making
- performance plans
- reward and recognition programs for high performing staff
- training and development activities.

### Systems may refer to:
- forums and meetings
- newsletters and reports
- policies and procedures
- electronic communication devices.

### Continuous improvement processes may include:
- cyclical audits and reviews of workplace, team and individual performance
- evaluations and monitoring of effectiveness
- modifications and improvements to systems, processes, services and products
- policies and procedures that allow an organisation to systematically review and improve the quality of its products, services and procedures
- seeking and considering feedback from a range of stakeholders.

### Stakeholders may include:
- business or government contacts
- funding bodies
- individuals within the work team
- internal and external contacts
- organisation's clients and customers
- professional associations
- senior management and board members.
### RANGE STATEMENT

<table>
<thead>
<tr>
<th><strong>Sustainability requirements</strong> may include:</th>
<th><strong>Knowledge management systems</strong> may include:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• addressing environmental and resource sustainability initiatives, such as environmental management systems, action plans, green office programs, surveys and audits</td>
<td>• best practice transfer</td>

<tr>
<td>• referencing standards, guidelines and approaches, such as sustainability covenants and compacts or triple bottom line reporting</td>
<td></td>
</tr>
<tr>
<td>• supporting sustainable supply chain.</td>
<td></td>
</tr>
</tbody>
</table>
### RANGE STATEMENT

- performance management
- post-project reviews
- proximity and architecture
- social software
- storytelling.

**Operational progress** may refer to:

- customer service indicators
- OHS indicators
- productivity gains
- success in meeting agreed goals and performance indicators.

**Recording of work team performance** may include:

- annotated performance plans
- quantitative data, such as production figures
- recommendations for improvement
- records and reports.

**Employability Skills**

This unit contains Employability Skills.

### Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Develop cooperative working relationships and strategic alliances with other organisations | 1.1 Gather information about relevant services, organisations and key people and store, maintaining currency and accessibility  
1.2 Provide information about own service to other organisations and liaise with staff from relevant organisations on a formal and informal basis to optimise client service delivery  
1.3 Share resources, where possible, with other organisations to overcome duplication in service delivery |
| 2. Represent the organisation | 2.1 *Promote a positive image of the organisation* at available opportunities  
2.2 Effectively communicate issues, policies and practices of the organisation to a range of audiences in an appropriate format  
2.3 Handle complaints about services in accordance with organisation procedures |
ELEMENT  

3. Maintain networks

PERFORMANCE CRITERIA

3.1 Maintain networks and other work relationships to provide identifiable benefits for clients and the organisation

3.2 Apply appropriate time and effort to establishing and maintaining networks to assist achievement of work outcomes

3.3 Follow protocols for communication between network participants and services including those relating to confidentiality

3.4 Provide advocacy to develop working relationships between client and other organisations/agencies

3.5 Identify cultural diversity within networks and ensure communication is appropriate
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

It is critical that the candidate demonstrate knowledge of:

- Approaches to networking
- Relevant organisations, services and individuals
- Promotional strategies applicable to the service or organisation

The candidate must also be able to demonstrate relevant knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role, such as knowledge of:

- Funding bodies and lines of contact

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Maintain a network of formal and informal groups relevant to the work situation
- Represent organisation in both formal and informal settings in a positive manner
- Maintain documentation as required, including effective use of relevant information technology in line with occupational health and safety (OHS) guidelines

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - promotion
  - negotiation
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions. This may include the use of languages other than English and alternative communications systems.
- Assessment must include a range of group settings and networks.

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment of this unit include access to:
  - an appropriate workplace where assessment can be conducted or simulation of realistic workplace setting for assessment

Method of assessment:

- Assessment may include observations, questioning and evidence gathered from the workplace environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Promote a positive image of the organisation include to:

- Internal and external clients
- Professional networks
- Managers
- Funding bodies
- Political groups
- Community groups and associations

Networks include:

- Formal and informal groups which are directly related to work activities or which make a valuable contribution to effective performance

Employability Skills

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Gather and record information | 1.1 Identify, access and collect appropriate information in order to meet:  
- client needs  
- specific workplace needs  
- organisation needs  
1.2 Ensure all processes and procedures promote:  
- confidentiality  
- security  
- integrity of the information  
1.3 Collate, prioritise and store information according to purpose of record and established procedures  
1.4 Ensure information gathered is relevant, accurate and consistent with the organisation's values and client needs |
ELEMENT  

2. Prepare and present reports

PERFORMANCE CRITERIA

2.1 Prepare reports to meet:
   - audience/client needs
   - standard reporting protocols and procedures
   - organisation criteria

2.2 Include conclusions and recommendations in reports that are clearly supported by the information gathered and verifiable evidence

2.3 In preparing reports, use appropriate technology within the operator's level of expertise and within established guidelines that promote safe working conditions for self and others

2.4 Circulate reports to key people, assess their feedback for relevance and incorporate into report

2.5 Present reports to appropriate person/s for implementation in accordance with organisation guidelines

3. Supervise processes for collection, use, storage and dissemination of information

3.1 Monitor issues arising from day to day operation of information systems and develop solutions cooperatively

3.2 Provide appropriate training opportunities for staff to ensure effective use of relevant technology

3.3 Where appropriate, provide advice on complex areas of information

3.4 Develop processes for dealing with information requests and exchanges
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Available sources of information
- Appropriate documentation required for specific types of reporting
- Importance of using opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Interviewing methods
- Organisation polices and procedures relating to reporting and records systems
- Research methods and information gathering
- The range of report writing which is required of the organisation for internal and external purposes

Essential skills:
It is critical that the candidate demonstrate the ability to:
- Collect, collate and store information
- Prepare and present information in a range of formats to meet the needs of the client

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:
- Demonstrate application of skills in:
  - report writing
  - a range of oral and written communication skills
  - research
REQUIRED SKILLS AND KNOWLEDGE

- safe and effective use and coordination of relevant technology in line with occupational health and safety (OHS) guidelines

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
  This may include the use of languages other than English and alternative communications systems
- Assessment must include assessment of the normal range of information and presentation of information

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can be conducted or simulation of realistic workplace setting for assessment

Method of assessment:

- Assessment may include observations, questioning and evidence gathered from the workplace e.g. prepared reports

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

*Information may be sought from:*
- Clients
- Group meetings
- Individuals, including:
  - family, support network
  - specialists
  - stakeholders
  - team members
- Other agencies
- Written sources

*Reports may be:*
- Administration files
- Client reports/case notes
- Court reports
- Expenses
- Incident reports
- Log books
- Reports to case management conferences
- Reports to funding, policy or legal bodies
- Timesheets

*Relevant people will include:*
- Community groups/leaders
- External organisations
- Family and support networks of clients
- Inside the organisation
- Specialist organisations
- Team members

### Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Assess and improve the safety of environments** | 1.1 Assess *environments* for suitability and safety against *relevant criteria* and make decisions  
1.2 Identify hazards and potential risks in the environment with others involved  
1.3 Identify and clearly communicate the level of response required to address a hazard  
1.4 Facilitate strategy development among others involved  
1.5 Develop, implement and review a plan with others |
ELEMENT

2. Coordinate the response to accidents and emergencies

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.1 Develop, maintain and practise evacuation procedures with all workers and children</td>
</tr>
<tr>
<td>2.2 Review steps already taken by workers and implement additional actions required</td>
</tr>
<tr>
<td>2.3 Seek medical assistance as required</td>
</tr>
<tr>
<td>2.4 Implement a plan to meet the emotional needs of children and others in the situation</td>
</tr>
<tr>
<td>2.5 Allocate tasks to different people and give directions about how to proceed</td>
</tr>
<tr>
<td>2.6 Sensitively and calmly provide accurate information to parents</td>
</tr>
<tr>
<td>2.7 Use policies and procedures of the organisation to inform people of actions required of them</td>
</tr>
<tr>
<td>2.8 In light of the incident, review service's policies and procedures with others and change as required</td>
</tr>
</tbody>
</table>

3. Plan and monitor supervision

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1 Develop safety limits and guidelines with others involved</td>
</tr>
<tr>
<td>3.2 Plan, implement and review appropriate levels of supervision to suit a range of experiences and situations</td>
</tr>
<tr>
<td>3.3 Develop strategies for the service which can be used to address specific incidents</td>
</tr>
<tr>
<td>3.4 Regularly and carefully monitor implementation of supervision plan and procedures</td>
</tr>
</tbody>
</table>

4. Promote hygiene and safety practices

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.1 Explain and monitor policies for medication administration, storage and documentation</td>
</tr>
<tr>
<td>4.2 Monitor and reinforce the safe storage of hazardous materials with workers</td>
</tr>
<tr>
<td>4.3 Demonstrate and effectively communicate guidelines for safe food handling and storage</td>
</tr>
<tr>
<td>4.4 Promote and demonstrate practices for managing children's hygiene needs</td>
</tr>
</tbody>
</table>
ELEMENT

5. Promote appropriate practices to respond to illnesses

PERFORMANCE CRITERIA

5.1 Regularly and clearly communicate infection control and medication guidelines to others
5.2 Suggest specific practices to address situations as they arise
5.3 Inform parents of infections
5.4 Develop procedures for responding to sick children
5.5 Report notifiable diseases/infections to the appropriate government organisation according to guidelines

6. Monitor travel and excursions

6.1 Establish and communicate procedures for safety in relation to excursions and transport
6.2 Monitor travel practices in relation to service procedures and regulations
6.3 Organise responsibilities during excursions

7. Provide guidance to workers when abuse is identified or investigated

7.1 Explain policies and procedures clearly and calmly
7.2 Support workers to provide information to appropriate bodies

8. Monitor care provided by others

8.1 Observe care practices and give specific instruction as required
8.2 Regularly review care routines with workers
8.3 Review practices to ensure policies regarding care are met
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Up to date knowledge of regulations on safety, health and hygiene
- Potential hazards to children, including traffic and the spread of infectious diseases and cross infection
- Strategies to minimise the spread of infectious diseases
- Developmental stage appropriate toys and equipment
- Legal requirements for supervision including worker - child ratios
- Food preparation, cooking and storage of food - temperatures
- Child protection policy of service
- State/territory requirements about abuse and reporting process
- Common childhood illnesses recognition, management strategies
- Incident records
- Indicators of different types of child abuse
- Organisation procedures
- Strategies for developing responsible behaviour by children in cars and buses
- Organisation standards, policies and procedures

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply a thorough understanding of dangers and hazards for specific age groups
- Make informed and appropriate decisions under pressure to ensure the safety of children, including in the home environment, and in particular:
  - personal hygiene to prevent cross infection e.g. handwashing
  - modelling safe behaviours and hygiene practices
  - risk identification in relevant environments
REQUIRED SKILLS AND KNOWLEDGE

- risk reduction strategies in that environment
- risk minimisation strategies in response to specific incidents
- ways of supervising appropriate to the age of the child
- supervision systems e.g. an area/ a group of children/ floater

- Address issues in planning supervision according to the ages of children - For 5 to 12 year olds:
  - absences of children booked in need to be investigated
  - older children may be able to assist in responding to an incident if directed clearly and supported to do so
  - developing children's capacity to monitor their own safety
  - developing children's capacity to develop strategies with staff

- Assess additional supervision requirements for a child due to - child's disability:
  - level of risk taking behaviour
  - age/stage of development of child
  - child's level of competence in the activity selected
  - child's level of responsibility
  - child's familiarity with environment/equipment/materials

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - strategies for developing responsible behaviour by children in cars and buses
  - decision-making under pressure

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a realistic simulated workplace setting under the normal range of workplace conditions
- Consistency in performance is best assessed for a range of age groups, a range of conditions and over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to a range of opportunities, including access to:
  - a childcare workplace
  - children's services, resources and equipment
  - the local environment
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects of this unit in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Environments may be assessed for safety in relation to:

- Hazards
- Noise
- Pollution
- Fences
- Buildings
- Grounds
RANGE STATEMENT

Relevant criteria for assessing environments may include:
- Regulations
- Policies of organisation
- Industry standards e.g. QA and IS principles
- Occupational health and safety (OHS) guidelines

Criteria for assessing safety of environments may include:
- Legislation and regulatory requirements
- Safety criteria developed by service
- Own judgement and experience

A plan to meet the emotional needs of people involved in an accident or emergency may include:
- Reassurance/comfort
- Counselling
- 'Debriefing'

Areas where close/additional supervision may be required include:
- Hazards e.g. Water
- Specified equipment
- Areas without fences
- Toilets

Plan for supervision may include:
- Limit setting for children
- Deployment of workers
- Programming
- Separating different aged children
- Placement of equipment
- Staff/child ratio

Limits and guidelines related to supervision may include:
- Out of bounds areas
- Rules for safe play

Additional supervision may be required for:
- Excursions
- Boisterous activities e.g. Touch football
- Swimming
- Younger children
- Children with additional needs e.g. ADD
RANGE STATEMENT

Supervision strategies on excursions include:

- Head counts
- Developing and maintaining group norms that foster safety

Practices to respond to sick children may include:

- One to one care
- Separation from other children
- Contacting parents
- Requesting parent to take child home

Government organisation which may need to be consulted/ notified include:

- Work Cover, if worker situation
- Public health unit

Guidelines for reporting may include:

- Public health guidelines e.g. a number of cases, timeframe for reporting
- Organisation guidelines e.g. who is to write and set report

Procedures for safety in travel may include:

- Regulations are followed e.g. children are appropriately restrained
- Restraints are effectively installed
- Behaviour guidelines and limits for children during travel

Supervision of travel and care practices may be monitored by:

- Observation
- Discussion with worker

Unit Descriptor

<table>
<thead>
<tr>
<th>Unit descriptor</th>
</tr>
</thead>
<tbody>
<tr>
<td>This unit describes the performance outcomes, skills and knowledge required to sustain and develop an environment in which continuous improvement, innovation and learning are promoted and rewarded.</td>
</tr>
<tr>
<td>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</td>
</tr>
</tbody>
</table>

Application of the Unit

<table>
<thead>
<tr>
<th>Application of the unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>This unit applies to people with managerial responsibilities, including for building a better and more effective work environment. Continuous improvement and innovation have links with the model of the learning organisation and people working at this level play an important role in building the culture, values and attitudes of the organisation.</td>
</tr>
<tr>
<td>Links may be made between continuous improvement and formal quality systems, such as International Organization for Standardization (ISO) or quality software. However it is not assumed that formal quality systems or software are in the workplace.</td>
</tr>
<tr>
<td>Innovation is seen as an important attitude and set of practices, which should be fostered by people working at this level in teams and across the organisation.</td>
</tr>
</tbody>
</table>

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Review programs, systems and processes | 1.1. Establish strategies to monitor and evaluate performance and **sustainability** of key systems and processes  
1.2. Undertake detailed analyses of **supply chains**, and operational, product and service delivery systems  
1.3. Identify performance measures, and assessment tools and techniques, and evaluate their effectiveness  
1.4. Analyse **performance reports** and variance from plans for key result areas of the organisation  
1.5. Identify and analyse changing trends and opportunities relevant to the organisation  
1.6. Seek advice from specialists, where appropriate, to identify technology and electronic commerce opportunities |
| 2. Develop options for continuous improvement | 2.1. Brief groups on performance improvement strategies and innovation as an essential element of competition  
2.2. Foster creative climate and organisational learning by promoting interaction within and between work groups  
2.3. Encourage, test and recognise new ideas and entrepreneurial behaviour where successful  
2.4. Accept failure of an idea during trialling, and recognise, celebrate and embed success into systems  
2.5. Undertake risk management and cost-benefit analysis for each option or idea approved for trial  
2.6. Approve innovations through agreed organisational processes |
| 3. Implement innovative processes | 3.1. Promote continuous improvement and sustainability as essential to doing business  
3.2. Address impact of change and consequences for people, and implement transition plans  
3.3. Ensure objectives, timeframes, measures and communication plans are in place to manage implementation  
3.4. Implement contingency plans in the event of non-performance  
3.5. Follow up failure by prompt investigation and analysis of causes and manage emerging challenges and opportunities effectively |
<table>

</table>

### Overview of assessment

<table>
<thead>
<tr>
<th>Critical aspects for assessment and evidence required to demonstrate competency in this unit</th>
<th>Evidence of the following is essential:</th>
</tr>
</thead>
<tbody>
<tr>
<td>- demonstration of consultation processes to introduce or evaluate an existing continuous improvement process or system, including suggested actions or an action plan</td>
<td></td>
</tr>
<tr>
<td>- generation of an idea or concept that exhibits creative thinking and offers the possibility of benefiting the organisation</td>
<td></td>
</tr>
<tr>
<td>- demonstration of how the concept or idea was introduced, tested and evaluated, which does not have to have been shown to work or to be adopted by the business</td>
<td></td>
</tr>
<tr>
<td>- application of knowledge of quality management and continuous improvement theories.</td>
<td></td>
</tr>
</tbody>
</table>

### Context of and specific resources for assessment

| Context of and specific resources for assessment | Assessment must ensure access to appropriate documentation and resources normally used in the workplace. |

### Method of assessment

<table>
<thead>
<tr>
<th>Method of assessment</th>
<th>The following assessment methods are appropriate for this unit:</th>
</tr>
</thead>
<tbody>
<tr>
<td>- analysis of responses to case studies and scenarios</td>
<td></td>
</tr>
<tr>
<td>- assessment of reports</td>
<td></td>
</tr>
<tr>
<td>- direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate</td>
<td></td>
</tr>
<tr>
<td>- observation of presentations</td>
<td></td>
</tr>
<tr>
<td>- oral or written questioning to assess knowledge of creativity and innovation theories and concepts</td>
<td></td>
</tr>
<tr>
<td>- evaluation of strategies established to monitor and evaluate performance of key systems and processes</td>
<td></td>
</tr>
<tr>
<td>- review of briefing of groups on performance improvement strategies and innovation</td>
<td></td>
</tr>
<tr>
<td>- review of documentation communicating costs and benefits of innovations and improvements to relevant groups and individuals.</td>
<td></td>
</tr>
</tbody>
</table>

### Guidance information for assessment

| Guidance information for assessment | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended. |
Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Sustainability may include:

- addressing environmental and resource sustainability initiatives, such as environmental management systems, action plans, green office programs, surveys and audits
- applying the waste management hierarchy in the workplace
- complying with regulations and corporate social responsibility considerations for sustainability to enhance the organisation's standing in business and community environments
- determining organisation's most appropriate waste treatment, including waste to landfill, recycling, re-use, recoverable resources and wastewater treatment
- implementing ecological footprint
- implementing environmental management systems, e.g. ISO 14001:1996 Environmental management systems life cycle analyses
- implementing government initiatives, e.g. Australian government's Greenhouse Challenge Plus
- improving resource and energy efficiency
- initiating and maintaining appropriate organisational procedures for operational energy consumption
- introducing a green office program - a cultural change program
- introducing green purchasing
- introducing national and international reporting initiatives, e.g. Global Reporting Initiative
- introducing product stewardship
- reducing emissions of greenhouse gases
- reducing use of non-renewable resources
- referencing standards, guidelines and approaches, such as sustainability covenants and compacts or triple bottom line reporting
- supporting sustainable supply chain.

Supply chains include:

- network of facilities that procures raw materials, transforms them into intermediate products or services
### RANGE STATEMENT

| and then finished goods or service, and delivers them through a distribution system |
| procurement, production and distribution, viewed as interlinked not as discrete elements. |
| Performance reports may include: |
| - budget or cost variance |
| - customer service |
| - environmental |
| - financial |
| - OHS |
| - quality |
| - other operating parameters. |

Elements and Performance Criteria Pre-Content

| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Interpret financial reports               | 1.1. Ensure regular financial information is received from management in a form that all board members can understand  
1.2. Clarify purpose of *financial reports* and their key features with board members  
1.3. Identify income shortfalls and expenditure overruns |
| 2. Evaluate financial reports                | 2.1. Consider and discuss financial implications of reports with other board members and management  
2.2. Compare data with previous reports and decisions  
2.3. Compare year to date and end of financial year data with budgeted outcomes  
2.4. Seek *independent advice* where necessary |
| 3. Recognise board responsibilities for assets | 3.1. Identify *statutory responsibilities* of board members with respect to assets  
3.2. Identify funding body restrictions on the acquisition, use and disposal of assets  
3.3. Comply with statutory responsibilities and funding body requirements with respect to assets |
| 4. Make decisions on finance                 | 4.1. Analyse recommendations on finances in terms of their impact on the organisation and its vision and objectives  
4.2. Prioritise financial decisions against organisational objectives  
4.3. Make decisions in accordance with the organisation's policy and legal and funding requirements  
4.4. Ensure procedures are in place to document financial decisions |
| 5. Approve expenditures                      | 5.1. Check expenditure proposals are within budget and meet statutory and funding body requirements  
5.2. Check the organisation's current financial situation  
5.3. Approve expenditure only if it is consistent with budget, statutory and funding body requirements, and the organisation's financial situation |
| 6. Review financial decisions                | 6.1. Monitor outcomes and actions from decisions  
6.2. Identify and monitor *external influences* on budgets and finances  
6.3. Ensure procedures are in place to document variations to financial agreements |
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

**Required skills**

- numeracy skills to read financial reports and calculations
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- communication and teamwork skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- evaluation and decision-making skills to monitor and review information presented to the board and enact decisions
- initiative and enterprise skills to set priorities when making financial decisions

**Required knowledge**

- concept of community control of organisations and how it may impact on financial decisions
- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that might impact on financial decisions
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on financial decisions
- organisational procedures and processes regarding finances
- organisational vision and objectives
- previous budget performance and financial reports
- purpose and components of financial reports
- relevant protocols and cultural responsibilities when making financial decisions
- statutory and funding body requirements relevant to the organisation's financial decisionmaking
- statutory and funding body responsibilities in relation to financial reporting and assets

SISCCRD303A Facilitate inclusion for people with a disability

Modification History
Not Applicable

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to assist people with a disability to maximise their participation in recreation activities. It focuses on implementing strategies to facilitate participation in community recreation activities.

Application of the Unit
This unit applies to recreation officers in a community recreation environment with responsibility for facilitating programs for clients with a disability. Work would be undertaken in locations such as community recreation centres and indoor or outdoor recreation facilities with a focus on community development.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
Nil

Employability Skills Information
This unit contains employability skills.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - interact and build rapport with people with a disability to identify their needs
  - consult key stakeholders to identify networks and opportunities for participation
  - convey information about available services and options

- problem-solving skills to:
  - identify recreation opportunities to enhance participation of people with a disability
  - apply and review strategies to link them to appropriate activities and networks

- research skills to identify sources of information and resources available to people with a disability

- teamwork skills to liaise with members of the community and other stakeholders to identify and source opportunities for participation

Required knowledge

- legislation and organisational policies and procedures that:
  - enable non-discriminatory treatment of people with a disability
  - identify and meet individual preferences according to the principles and practices of social justice

- social, political, cultural and historical issues that affect, or are relevant to, access and participation issues for people with a disability

- resources required for the effective participation of people with a disability

- specific recreation opportunities and activities appropriate to people with a disability

- relevant modified equipment and activities appropriate to people with a disability

- community organisations, services and activities that provide recreation opportunities for people with a disability

- barriers that affect the access and participation of people with a disability to enable the development of strategies to overcome these

- community inclusion principles to enable effective participation of clients with a disability
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- applies principles and practices of social justice, anti-discrimination and equal access to identify the needs and opportunities for participation in recreation activities and networks for people with a disability
- identifies strategies to align recreational opportunities with the specific requirements and needs of people with a disability and organisational objectives
- monitors strategies to facilitate recreational opportunities for people with a disability and adjusts accordingly.

Context of and specific resources for assessment

Assessment must ensure:

- identifying and addressing support requirements, within the bounds of legislative and organisational constraints, for those with the sort of disability or needs that are commonly encountered in the candidate's current or intended work environment
- access to people with disabilities to enable the identification of individual needs
- access to key people and organisations that support people with a disability
- access to relevant sources of information about recreational services and options for people with a disability
- access to relevant legislation and organisational policies and procedures concerning inclusion processes.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of the candidate interacting with people with disabilities and community organisations and networks to identify recreational opportunities
- oral or written questioning to assess candidate's knowledge of factors that affect access and participation of people with disabilities
- third-party reports from a supervisor detailing
candidate’s work performance.
Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SISCCRD301A Facilitate community development through recreational activities.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Organisational policies and procedures may include:
- occupational health and safety
- community inclusion principles
- communication protocols
- ethical practices
- principles of social justice
- advocacy
- practices to address cross cultural issues
- roles of volunteer staff.

Relevant legislation may include:
- occupational health and safety
- equal opportunity
- anti-discrimination
- privacy.

Support requirements may include:
- physical
- sensory
- intellectual
- psychiatric
- cultural and linguistic
- logistical
- income
- family systems.

Barriers to participation may include:
- cultural
- family
- religious
- community perceptions
- impact of disability on participation
- communication difficulties
- transport
- time and resource constraints
- confidence
- support services available.

Key people and organisations may include:
- community groups
- support groups.

Communication strategies may include:
- verbal
- non verbal.
include:

- visual
- sensory
- tactile.

   4.2. Review volunteer performance and provide feedback and opportunities for additional training where required.
   4.3. Maintain volunteer records according to
ELEMENT PERFORMANCE CRITERIA

organisational policies and procedures and relevant legislation.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- written and verbal communication skills to:
  - prepare and distribute documentation
  - provide induction and feedback
- planning and organisational skills to arrange selection, induction and monitoring of volunteers
- teamwork skills to build rapport with and between volunteers
- problem-solving skills to assess suitability of volunteers for different roles
- literacy skills to analyse organisational policies and procedures that enable all processes to be conducted appropriately.

Required knowledge

- legislation and organisational policies and procedures that enable the safe, legal and ethical participation of volunteers
- issues that affect the availability of volunteers to enable effective recruitment and management.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- identifies and implements organisational requirements, policies and procedures for recruiting, inducting and managing volunteers
- conducts volunteer induction and identifies and arranges any additional training required by volunteers
- maintains records of recruitment, induction and management processes for volunteers.

Context of and specific resources for assessment

Assessment must ensure:

- resourcing and implementation of volunteer induction sessions that are of a sufficient breadth to demonstrate competency and consistency of performance
- access to real or simulated volunteers appropriate to local organisational volunteer requirements
- access to a venue appropriate to the number of volunteers being recruited and inducted
- access to presentation equipment appropriate to the induction sessions being conducted
- access to documentation such as job descriptions and organisational policies and procedures.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of candidate conducting induction sessions
- oral or written questioning to assess knowledge of organisational policies and procedures and their application to volunteer selection, recruitment and management
- third-party reports from a supervisor detailing appropriate work performed by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Volunteer management policy** may include:
- volunteer management philosophy
- volunteer eligibility
- rights and responsibilities
- expenses
- record keeping
- training and accreditation
- conflict of interest.

**Volunteer requirements** may include:
- operational area
- duties
- competencies required
- time involvement.

**Target areas** may include:
- past and present membership
- volunteer agencies
- unemployed
- retired
- service organisations.

**Organisational policies and procedures** may include:
- occupational health and safety
- selection processes
- training procedures
- recording and reporting
- communication protocols
- administration procedures
- security
- emergency procedures.

**Selection processes** may include:
- appraisal tests
- interviews
- timelines
- notification procedures.

**Relevant legislation** may include:
- occupational health and safety
- working with children
- anti-discrimination
- privacy.

**Follow-up processes** may include:
- notification of selection outcome
- feedback to unsuccessful applicants.
Relevant documentation may include:
- induction time and location.
- position description
- outline of duties
- licence
- proof of age
- police check.

Requirements may include:
- expectations
- authorities and responsibilities
- event or activity details
- cash handling
- security
- regulatory requirements
- grievance procedures
- reporting.

Roles may include:
- coach or instructor
- fundraiser
- official
- administrator
- organiser
- finance
- administration
- technical assistance
- maintenance
- transport
- first aid.

 | further action.

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This section describes the skills and knowledge required for this unit.

**Required skills**

- presentation of ideas at meetings
- approach and enlist support of volunteers
- coordinate committees/teams
- negotiate for sites and resources
- plan and coordinate activities
- implement general risk management
- use literacy skills to read, interpret and follow organisational policies and procedures, develop sequenced written instructions, record accurately and legibly information collected and select and apply procedures to a range of tasks
- use oral communication skills/language competence to fulfil the job role as specified by the organisation including questioning, active listening, asking for clarification, negotiating solutions and responding to a range of views
- use numeracy skills to estimate, calculate and record routine and more complex workplace measures and data
- use interpersonal skills to work with others and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

**Required knowledge**

- network to seek ideas
- group practices/protocols
- scope of acceptable activities within various cultures/groups in the community
- budgets for management of costs
- basic money/cash handling and recording of expenses and income
- summarising results of activities
- basic financial statements
- public safety
- Occupational Health and Safety (OHS) approaches and procedures
- relevant local government by-laws
- permits required for some fundraising activities
REQUIRED SKILLS AND KNOWLEDGE

- meeting procedures.
### Evidence Guide

#### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following:

- present ideas for fund-raising at meetings
- approach and enlist support of volunteers
- coordinate committees/teams and the sites and resources required for fund-raising
- coordinate activities and implement general risk management.

**Context of and specific resources for assessment**

Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

### Range Statement

#### RANGE STATEMENT

The range statement relates to the unit of competency as a whole.

**Fund raising activities may include:**

- activities with the potential to provide a source of funds for the groups operation, from the group members, contacts of the group members, or from the wider community
- activities seeking donations, payment for goods and services provided and funds from social activities such as local events, stalls and large scale community events
- activities combined with promotion or sponsorship at community events to promote group, projects and/or program.

3 Work effectively with others.

3.1 Develop and apply knowledge of *funeral services industry protocols*.

3.2 Use *effective communication strategies* when dealing with others in workplace.

3.3 Share personal workplace strengths with other *team members* and seek support from peers and supervisors to build on skills gaps within context of required work activities.
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

**Required skills**

- ability to comply with workplace policies and procedures and industry protocols
- self-management, planning and organisational skills to manage work activities
- problem-solving skills in teams and individually to deal with contingencies
- communication skills, including clear and direct communication, active listening and questioning techniques and using and interpreting non-verbal communication to effectively liaise with others
- literacy and numeracy skills to source, follow, interpret and complete workplace documentation.

**Required knowledge**

- workplace policies and procedures
- workplace organisational structure
- stakeholders and structure of the funeral services industry
- broad understanding of relevant federal, state or territory, and local government legislation and regulations applying to the funeral services industry
- environmental impacts applying to the funeral services industry and minimal impact practices to reduce these especially those that relate to resource, water and energy use.
- industry awards and agreements.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- ability to source initial and updated general funeral services industry information, specific workplace policies and procedures and apply this information to day-to-day activities
- effective communication with clients and workplace colleagues to ensure job role requirements are efficiently met
- monitoring and evaluation of own work outcomes.

Context of and specific resources for assessment

Assessment must ensure:

- demonstration of skills in environment where industry knowledge and protocols can be developed
- access to relevant documentation, such as workplace policies and procedures and job role documentation.

Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- written or verbal questioning to assess knowledge and understanding of relevant legislative, regulatory and industry requirements
- review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SIFIND002A Deal with grief and trauma.

Employability skills embedded in this unit should be assessed holistically with other relevant units that make up the skill set or qualification and in the context of the job role.
Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included. Conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Sources of information may include:

- media
- reference books
- training materials
- libraries
- unions
- industry associations
- industry publications
- internet
- personal observation and experience
- colleagues, supervisors and managers
- industry contacts, mentors and advisers.

Information may include:

- industry working conditions
- employee and employer rights and responsibilities
- social and environmental issues and requirements
- industrial relations issues
- career and professional development opportunities within industry
- industry expectations of staff
- quality assurance policies and procedures
- new products and services
- local, regional or national industry trends.
RANGE STATEMENT

Workplace policies and procedures may include:

- workplace ethics
- modes of communication
- hours of operation
- contact with clients
- job descriptions and responsibilities
- maintenance and use of technology
- interaction with other team or organisation members
- OHS
- quality assurance
- documentation completion, storage and dispatch.
- workplace practices in regard to environmental considerations.

Relevant legislation, regulations and codes of practice may include:

- OHS
- Workplace Relations Act
- equal employment opportunity (EEO)
- anti-discrimination
- workers' compensation legislation and regulations
- cemetery Acts and by-laws
- Crematorium Acts
- local government regulations
- Births, Deaths and Marriages Registration
- approved code of practice for embalmers
- Environmental Protection Act
- Privacy Acts.

Opportunities for improvement may include:

- managing time
- improving work practices
- setting goals
- prioritising
- giving and receiving feedback.

Funeral services industry protocols may include:

- demonstrating tact
- maintaining confidentiality of client and business information
- respecting others' views
- acting responsibly.
RANGE STATEMENT

*Effective communication strategies* may include:

- using tact and discretion
- empathising
- determining and interpreting needs of others
- listening and understanding workplace information
- writing to audience needs
- negotiating responsively
- speaking clearly and directly to others
- sharing workplace-related information.

*Team members* may include:

- funeral home owners or managers
- funeral directors
- funeral arrangers
- stonemasons
- embalmers
- mortuary technicians
- drivers and riders
- customer service staff
- sales consultants
- sales coordinators
- managers
- cemetery or crematorium managers or operators
- chapel attendants
- gravediggers
- florists
- caterers
- clients
- mourners
- peers
- supervisors.

</tr>
</tbody>
</table>
## Elements and Performance Criteria

| 1. Develop operational strategies and procedures | 1.1 Develop an action plan to provide a clear and coherent direction, in accordance with the *business goals and objectives*  
1.2 Identify *occupational health and safety (OHS) and environmental issues* and implement strategies to minimise risk factors  
1.3 Develop a *quality system* for the business in line with industry standards, compliance requirements and cultural criteria  
1.4 Develop performance measures and *operational targets* to conform with the business plan  
1.5 Develop strategies for innovation, including the utilisation of existing, new or emerging technologies, where practicable, to optimise business performance |
| 2. Implement operational strategies and procedures | 2.1 Implement systems and key performance indicators/targets to monitor business performance and customer satisfaction  
2.2 Implement systems to control stock, expenditure/cost, wastage/shrinkage and risks to health and safety in accordance with the business plan  
2.3 Maintain staffing requirements, where applicable, within budget to maximise productivity  
2.4 Carry out the provision of goods/services in accordance with established legal, ethical cultural and *technical standards*  
2.5 Provide goods/services in accordance with time, cost and quality specifications, and customer requirements  
2.6 Apply quality procedures to address product/service and customer requirements |
| 3. Monitor business performance | 3.1 Regularly monitor.review the achievement of operational targets to ensure optimum business performance, in accordance with the business plan goals and objectives  
3.2 Review systems and structures, with a view to more effectively supporting business performance  
3.3 Investigate and analyse operating problems to establish causes and implement changes as required as part of the business quality system  
3.4 Amend operational policies and procedures to incorporate corrective action |
| 4. Review business operations | 4.1 Review and adjust business plan, as required, to maintain business viability, in accordance with business goals and objectives |
4.2 Clearly record proposed changes to aid future planning and evaluation
4.3 Undertake ongoing research into new business opportunities and adjust business goals and objectives as new business opportunities arise

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- analytical skills to develop criteria and targets for the business plan
- communication skills to question, clarify and report
- literacy skills to interpret legal requirements, company policies and procedures
- numeracy skills to manage performance information and to control the finances
- technology skills to use relevant business equipment.

Required knowledge

- methods for developing and maintaining networks
- methods for implementing operation and revenue control systems
- methods for monitoring performance and implementing improvements
- OHS responsibilities and procedures for managing hazards
- principles of risk management relevant to the business, including risk assessment
- quality system principles and methods
- relevant industry codes of practice
- relevant marketing, sales and financial concepts
- relevant performance measures
- role of innovation
- systems to manage staff, stock, expenditure, services and customer service
- environmentally sustainable business practice and operation
- technical or specialist skills relevant to the business operation.
## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Operational strategies and procedures may be determined by: | • business premises (size, location, layout) |
| | • financial control systems and procedures |
| | • management and administrative systems and procedures |
| | • methods/techniques/technology |
| | • physical and natural resources |
| | • plant and equipment, including OHS requirements |
| | • premises, plant and equipment, which may be new or previously owned |
| | • purchase (sole or shared ownership) or leasing |
| | • raw materials |
| | • requirements, which may be one-off requirements or recurrent requirements (such as equipment maintenance) specific to the nature of the business |
| | • technology |
| | • environmentally sustainable principles of business operation |
| | • use of existing, new and emerging technologies including e-commerce. |

| Business goals and objectives may include: | • customer needs/marketing projections |
| | • family or community benefits |
| | • financial projections |
| | • goals, objectives, plans, systems and processes |
| | • lifestyle issues |
| | • proposed size and scale of the business, market focus of the business |
| | • short-, medium- or long-term goals |
| | • social responsibility. |

| Occupational health and safety and environmental issues must include: | • controls, which may include instructions to workplace personnel concerning site hazards and controls, material safety data sheets, use of personal protective equipment, vehicle access, signs and barricades, traffic control, outside contractors |
| | • establishment and maintenance of procedures for assessing and controlling risks |
| | • establishment and maintenance of procedures for |
| **Quality system** may include: | • manual or computer quality control systems  
• quality assurance/management approaches  
• random inspections and assessments of goods and services against predetermined standards  
• random inspections and assessments of processes against predetermined standards  
• random sampling and follow-up of customers. |
|---|---|
| **Operational targets** may include: | • external targets, which may relate to market share and positioning and may involve exploring new markets, building national or international trade links  
• internal targets, which may relate to size, quality, quantity and diversity, wages to sales, sales to area/stock levels/stock turnover/average debtor payment periods and levels  
• staffing level and skills mix  
• targets, which may be short-, medium- or long-term. |
| **Technical standards** may include: | • current and generally agreed descriptions of what the product/service is, how it should be produced/delivered and the environmental sustainability, quality, safety, efficiency or other measures to determine the activity is done effectively. |

</tr>
</tbody>
</table>

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to maintain the effectiveness of business technology in the workplace. It includes maintaining existing technology and planning for future technology requirements.

Application of the Unit

This unit applies to individuals with a broad knowledge of business technology who contribute well developed skills in creating solutions to maintenance and upgrade issues with existing technology. They may have responsibility to provide guidance or to delegate aspects of these tasks to others.

Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.

</table>
## Elements and Performance Criteria

| 1. Maintain performance of hardware and software | 1.1 Monitor and evaluate system effectiveness to ensure it meets *organisational and system requirements*
| | 1.2 Use operating system, drive and disk structure, reports and files to identify performance problems
| | 1.3 *Maintain disk drives and peripherals* according to manufacturers’ and organisational requirements
| | 1.4 Replace *consumables* in accordance with manufacturers’ and organisational requirements
| 2. Provide basic system administration | 2.1 Carry out system back-up procedure at regular intervals according to organisational and system requirements
| | 2.2 Install and operate *software* applications in accordance with developers’ and organisational requirements
| | 2.3 Maintain and update security access procedures in line with organisational requirements
| | 2.4 Ensure that licence for use of software is used, checked and recorded in accordance with organisational requirements
| | 2.5 Regularly maintain and update virus programs in accordance with organisational requirements
| 3. Identify future technology requirements | 3.1 Maintain knowledge of current and new *technology* by regularly accessing *sources of information*
| | 3.2 Identify and develop *improved technology systems* using feedback from clients and colleagues
| | 3.3 Assess existing technology against newly available technology to determine future needs and priorities
| | 3.4 Identify and select new technologies to achieve and maintain continuous organisational development
| | 3.5 Obtain management and budget approval for new selected technologies

SkillsIQ
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to explain the operation and troubleshooting of technology in the work environment
- literacy skills to interpret and evaluate the purposes and objectives of various uses of technology; to display logical organisation of written information
- problem-solving skills to address routine and non-routine faults with hardware and software
- research and analytical skills to analyse and identify organisation’s future technology requirements.

Required knowledge

- costs and benefits of technology maintenance strategies
- general features and capabilities of current industry accepted hardware and software products
- principles of environmental sustainable practice in implementing business technology
- importance of back-up and security procedures; maintenance and diagnostic procedures; licensing, installation and purchasing procedures
- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety (OHS).
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

AHCCCF411A Develop approaches to include cultural and human diversity

Modification History
Not Applicable

Unit Descriptor

| Unit descriptor | This unit covers developing approaches to include cultural and human diversity and defines the standard required to: identify the range of cultural and social groups in a land management area; determine the linkages and potential impacts between natural resource issues and cultures; negotiate and maintain cultural protocols for dealing with land management issues; develop working relationships with representatives of cultural groups; and facilitate the involvement of culturally diverse groups in community issues related to land management. |

Application of the Unit

| Application of the unit | This unit applies to those whose job role includes identifying and accessing culturally diverse groups in the community so that they are included in program development and implementation. A high level of cultural awareness and the need to observe cultural protocols are important parts of the process. Note: for indigenous contexts, the delivery and assessment against this unit must comply with community protocols and guidelines and be supported by elders and custodians of country. |

### Required Skills and Knowledge

#### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

**Required skills**

- flexibility in the application of program guidelines and policy
- conflict resolution

---

**ELEMENT** | **PERFORMANCE CRITERIA**
--- | ---
1. Identify potential for cultural diversity | 1.1. Information on the population is used to identify the range of cultural diversity.  
1.2. Potential involvement of individuals and groups of people are identified in the context of the program.  
1.3. Adjustments to program and program promotional materials are identified to meet cultural frameworks of different peoples.
2. Develop processes to include culturally diverse groups | 2.1. Cultural protocols are identified to ensure contacts with individuals/communities are successful.  
2.2. Key persons who may influence relationships are identified.  
2.3. Steps to develop and maintain contact with culturally diverse groups are formulated in line with understanding of the cultures, goals of the relationship, and any relevant enterprise guidelines.  
2.4. Processes are inclusive of an equitable involvement of various sections of the community and their perspectives.
3. Communicate potential and support for culturally diverse group | 3.1. People and groups of culturally diverse background in the area are approached to promote their potential involvement in groups and programs in line with formulated steps.  
3.2. Potential of program and group activities is communicated in a culturally relevant manner.  
3.3. Approaches are adjusted in light of any new information on cultural groups and protocols.  
3.4. Links between individuals and culturally diverse groups are facilitated to ensure good community relationships and development of the program.
REQUIRED SKILLS AND KNOWLEDGE

- negotiation skills
- use literacy skills to read, interpret and follow organisational policies and procedures, develop sequenced written instructions, record accurately and legibly information collected and select and apply procedures to a range of tasks
- use oral communication skills/language competence to fulfil the job role as specified by the organisation including questioning, active listening, asking for clarification, negotiating solutions and responding to a range of views
- use numeracy skills to estimate, calculate and record routine and more complex workplace measures and data
- use interpersonal skills to work with others and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

Required knowledge

- sources of culturally relevant materials and verbal information
- understanding of indigenous peoples and history
- cultural protocols and perspectives
- relevant legislation and guidelines
- principles of equal opportunity and affirmative action
- current relationships between culturally diverse groups in the area
- understanding of the role of various sections of the community in historical and relationship terms.
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following:

- identify the range of cultural and social groups in a land management area
- determine the linkages and potential impacts between natural resource issues and cultures
- negotiate and maintain cultural protocols for dealing with land management issues
- develop working relationships with representatives of cultural groups
- facilitate the involvement of culturally diverse groups in community issues related to land management.

Context of and specific resources for assessment

Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole.

Culturally diverse groups include:

- indigenous peoples
- immigrant peoples of overseas birth
- people born in Australia who conform with overseas cultures, practices and beliefs in part or in full, and male and female perspectives in the communities.

Pre-Requisites
Not Applicable
Employability Skills Information

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

**ELEMENT**

1. Build respectful and trusting working relationships with young people

**PERFORMANCE CRITERIA**

1.1 Facilitate safe individual or group processes with young people and apply principles of youth work practice

1.2 Identify the conditions necessary for young people to change and grow

1.3 Actively listen to the young person's stories and experiences to clarify issues

1.4 Identify and explore strengths and exceptions

1.5 Encourage and support young people to identify relationships between their issues and social structures

1.6 Identify and avoid colonising practices
ELEMENT

2. Work with young people to identify their needs, rights, strengths, hopes and opportunities

PERFORMANCE CRITERIA

2.1 Clarify the young person's expressed, demonstrated, or felt needs and concerns
2.2 Explore exceptions, identify strengths and resources
2.3 Problem solve immediate issues or concerns
2.4 Work with client to create their own reframe of current circumstances
2.5 Work to externalise the young person's issue or problem
2.6 Acknowledge circumstances outside of the young person's control

3. Define identified goals

3.1 Ensure the young person has been heard and problems acknowledged before moving to future planning
3.2 Assist young people to explore future possibilities and ways of being
3.3 Use creative methods, processes and questions to consider and create possibilities
3.4 Identify barriers that hinder the way young people would like changes to take place
3.5 Establish with the young person their desired outcomes

4. Develop and implement action plans

4.1 Utilise a range of youth work interventions to create future opportunities
4.2 Explore additional resources needed to achieve goals
4.3 Develop proposals and strategies for action plans
4.4 Measure and ensure change is noticed
4.5 Document intervention work as required
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Aspects of human behaviour and development related to young people, their personal and social development and relationships
- Dynamics and principles of group work
- Identification of personal values and their impact on performance
- Knowledge of statutory requirements and application of the concept of duty of care and child protection
- Organisation reporting procedures and practice
- Principles of case planning practices
- Principles of effective communication
- Principles/relevant cultural practices and customs of the community and the young people in the service
- Relevant organisation procedures and policies related to program, service and personal support for young people, referral, reporting of young people's issues and experiences
- Strengths-based practices
- Support services and specialists and their guidelines for access and service provision

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Demonstrate knowledge and application of relevant organisation procedures and policies related to individual and group support/interventions with young people
- Identify personal values and their impact on performance
- Interact with young people from different cultural backgrounds in individual and group settings
- Support vulnerable young people and those with special needs and risks to participate in the decision-making and planning of actions and opportunities
REQUIRED SKILLS AND KNOWLEDGE

- Support young people according to their circumstances and the objectives of the young persons desired goals, individual needs, risks and circumstances, including education and employment

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills in:
  - case planning skills
  - general counselling strategies/techniques
  - group facilitation skills
  - listening and assessing information presented by young people in individual or group setting
  - negotiation and conflict management skills
  - referral and advocacy
- Maintain documentation as required, including effective use of relevant information technology in line with occupational health and safety (OHS) guidelines

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Performance can be demonstrated through assessment of evidence generated from work practice
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment of this unit include access to:
  - a workplace or an accurately simulated environment where assessment may take place.

Method of assessment:
- Knowledge testing and simulation exercises conducted in a training program.
- Knowledge tested or inferred from explanations and performance in workplace applications.
- Observation of performance in routine workplace activities.
- Documentation and products produced as part of routine work activities.
- Observation and documentation from specially conducted assignments based on routine work requirements.
- Observations from supervisors, colleagues and clients.
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole.

This Range Statement reflects the very diverse nature of young people and family needs and circumstances and different services provided in and for community services. Selection from the Range Statement will reflect the specific requirements of the work site and the defined work role.

The variables of performance will depend on whether the context of assessment is institutional or community based.

Safe group work practices include:

- Advocating for groups of young people
- Basic conflict management skills
- Basic group dynamics
- Basic negotiation skills
- Basic stages of group development
- Different types of groups
- Empowering young people in groups
- Facilitation skills
- How different people learn
- Responding to the dynamics between young people
- Situational analysis skills
RANGE STATEMENT

Principles of youth work practice include:

- Being non-judgemental
- Considering the whole context of the young person
- Engaging with diversity and difference
- Focusing on the strength and capacities
- Integrity, acceptance, equity and equality
- Noticing change and achievement
- Recognising the person first not just the issues
- Self agency/young person directed practice
- Social justice, rights, access, equity and youth participation, fairness, honesty and respect
- Transparency and transparent boundaries
- Valuing the person
- Working collaboratively
- Working towards 'power with' rather than 'power over' young people
- Working with young people in partnership

Creative methods and processes may include:

- Creative use of questioning, hypothetical and 'what if' questions
- Creative visualisation, future imagining,
- Identify the young person's relationship with hope and use processes that ensure safety and respect
- Other creative processes and activities to validate young people's experiences and explore other possible perspectives for the same event, experience or story
- Story telling, writing, drawing, arts, music, and other forms of creative expression
RANGE STATEMENT

Barriers may include, but are not limited to:

- Age
- Behaviours and attitudes of others
- Cultural
- Financial and other resource constraints
- Geographical
- Health
- Intellectual
- Limited opportunities
- Linguistic
- Political
- Self belief
- Situational
- Social
- Societal stereotypes
- Young person's behaviours and choices

Youth work interventions include:

- Brief interventions
- Community development
- Facilitating change
- Group work
- Individual work
- Problem solving
RANGE STATEMENT

Additional resources may include
- Aboriginal, Torres Strait Islander liaison
- Counsellors
- Drug and alcohol services
- Education/training/skills development
- Employment/career development
- Intervention and behaviour management programs
- Medical
- Physical, mental, social and emotional developmental programs and strategies
- Program coordinator
- Recreation/sporting groups
- Religious/spiritual adviser
- Resources in the client's natural networks
- Special support needs
- Specialist cultural liaison and support
- Welfare organisations

Document intervention may include:
- Assists good practice
- Assists, compliments and demystifies the change process
- Enable the young person or groups story to emerge
- Enable young people and groups to own the records
- Enable young people or the group to write, participate in and keep records
- Ensure the young person or group knows about the records
- Keep records open and available to young people
- Maintain youth work accountability to the young person or group
- Record in a manner that benefits the young person, the youth workers and the organisation

Unit Descriptor

Descriptor

This unit addresses the establishment and maintenance of facilities to enable or facilitate the provision of appropriate first aid in the workplace

Application of the Unit

Application

The skills and knowledge described in this competency unit are suitable for those in nominated workplace first aider roles

Training Package users should ensure implementation is consistent with any specific workplace and/or relevant legislative requirements in relation to WHS and provision of first aid

Application of these skills and knowledge should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries

ELEMENT

2. Manage a workplace first aid facility

   PERFORMANCE CRITERIA

   2.1 Monitor and maintain availability of adequate resources to support workplace first aid response
   2.2 Conduct regular inspections of stock and equipment to ensure currency and operational readiness in line with workplace requirements
   2.3 Ensure equipment is recovered and reprocessed and that waste is disposed of safely according to legislative and workplace procedures
   2.4 Ensure equipment and resources are stored and maintained in line with relevant legislation and manufacturer's/supplier's instructions
   2.5 Contribute to the review of risks in the workplace and validation of organisation policies and procedures relating to the provision of first aid
   2.6 Contribute to planning for response to major workplace incidents
   2.7 Deploy appropriate equipment, resources and personnel to ensure timely and effective first aid response in line with workplace requirements
   2.8 Use safe manual handling techniques

3. Manage workplace first aid records

   3.1 Ensure documentation is completed as required according to legislation and workplace procedures
   3.2 Maintain first aid records in line with legislative requirements and workplace security practices
   3.3 Send relevant documents to appropriate bodies in line with workplace and legislative requirements
   3.4 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisation policies
ELEMENT

4. Evaluate the provision of first aid in the workplace

PERFORMANCE CRITERIA

4.1 Evaluate management of workplace incidents and develop an action plan in consultation with relevant parties to improve first aid response in the workplace if required

4.2 Participate in debriefing/evaluation in order to improve future operations and address individual needs

4.3 Ensure first aid response is provided in a culturally aware, sensitive and respectful manner

4.4 Implement and evaluate workplace management procedures in accordance with risk assessment

4.5 Formulate and review contingency planning to identify and select alternative management principles and procedures as required
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Working knowledge of:
  - Australian Resuscitation Council (ARC) Guidelines relating to provision of first aid
  - company/organisation standard operating procedures (SOPS)
  - first aid risk assessment practices and procedures
  - first aiders' skills and limitations in relation to first aid response in the workplace
  - how to gain access to and interpret Safety Data Sheets (SDS)
  - legal responsibilities and duty of care
  - occupational health and safety requirements in the provision of first aid
  - priorities of management in first aid
  - procedures for dealing with major and minor accidents in the workplace
  - safe storage and handling of medication in the workplace
  - First aid equipment and resources to manage injuries and illnesses addressed in HLTFA311A: Apply first aid and HLTFA412A: Apply advanced first aid
  - First aid management procedures for conditions identified in the Range Statement
  - Infection control principles and procedures, including using standard precautions
  - State/territory regulations, legislation and policies relating to:
    - currency of first aid skills and knowledge
    - first aid training
    - occupational health and safety requirements in the provision of first aid
    - workplace first aid provision
  - Stress management techniques and available support
  - Social issues, with particular reference to workplace culture, issues and resources and associated organisation requirements:
    - importance of first aid response to be culturally aware, sensitive and respectful
    - debriefing counselling procedures
    - consent and confidentiality
    - own skills and limitations
REQUIRED SKILLS AND KNOWLEDGE

Essential skills:
It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role
This includes the ability to:
- Apply first aid principles in the workplace
- Assess workplace first aid requirements
- Communicate effectively and assertively and show leadership in an incident
- Conduct an initial casualty assessment and prioritisation
- Conduct/review first aid risk assessment
- Demonstrate:
  - adequate infection control procedures - use of standard precautions
  - consideration of the welfare of casualties and first aiders
  - incident management skills
  - safe manual handling
  - safe storage and handling of medication in the workplace
  - safe storage and handling procedures for pressurised gases
- Implement WHS guidelines
- Interpret, use and maintain records of the range of documentation required by the workplace and regulatory authorities
- Maintain first aid equipment and resources in operational condition
- Make prompt and appropriate decisions relating to managing an incident in the workplace
- Manage a first aid response in an identified workplace context
- Plan an appropriate first aid response in line with established first aid principles, ARC Guidelines and/or State/Territory regulations, legislation and policies and respond appropriately to contingencies in line with own level of skills and knowledge
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use high level literacy and numeracy skills as required to read, interpret, address and communicate guidelines, protocols and reporting requirements
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects of assessment:**
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Currency of first aid knowledge and skills is to be demonstrated in line with state/territory regulations, legislation and policies, ARC and industry guidelines

**Interdependence of units:**
Competence in this unit may be assessed individually or with other related competency units, such as:
- Occupational health and safety
- Risk assessment
- Emergency procedures

**Access and equity considerations:**
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Related units: This unit should be assessed either after or in conjunction with achievement of the following related competency unit:

- HLTFA412A Apply advanced first aid

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Workplace first aid facility may involve:

- First aid room/clinic
- First aid kits suited to specific workplace needs
- First aid equipment and resources
- Availability of personnel trained to provide first aid

Workplace first aid management must take into account:

- Workplace policies and procedures
- Industry/site specific regulations, codes
- Workplace WHS requirements
- State and territory workplace health and safety legislative requirements

Workplace and legislative requirements for a first aid facility include:

- State/territory regulations, legislation and policies
- Specific industry requirements, regulations and/or WHS issues
- Specific hazards present in the workplace
- Number of employees in the workplace
- Number of different workplace sites/locations
- Proximity to local services, including doctors, hospital, ambulance and other emergency services
RANGE STATEMENT

First aid resources may include but are not limited to:

Non-consumables:

- Equipment, such as:
  - oxygen resuscitation/cylinders
  - AED
  - thermometers
  - auto-injectors
  - back boards
  - stretchers
  - soft bag resuscitator
  - first aid kit
  - casualty’s medication
  - analgesic inhalers
  - analgesic gas equipment
  - resuscitation mask or barrier
  - spacer device
  - cervical collars
  - Personal Protective Equipment

- Relevant texts and documentation, such as:
  - Australian Resuscitation Council Guidelines
  - first aid principles, policies and procedures
  - reference materials including SDSs, relevant Occupational Health and Safety Act and Regulations
  - first aid code of practice/compliance codes
  - workplace records and blanks
  - Communication systems and equipment
RANGE STATEMENT

First aid resources may include but are not limited to:

**Consumables:**
- First aid kits, including bandages, tape, scissors, splinter removers, antiseptic, eye management, disinfectants, resuscitation masks, emergency numbers and contacts, etc
- Dressings
- Ointments
- Cold packs
- Analgesics
- Splints
- Sharps disposal
- Bio-hazardous waste bags/bins
- Medical grade oxygen
- Bandages
- Medication
- Personal protective equipment
- Eye wash
- Disinfectants
- Bronchodilators

Workplace hazards and risks may include:
- Hazards associated with workplace equipment, machinery, substances and processes
- Environmental risks
- Risks associated with first aid response involving:
  - first aid equipment (oxygen cylinders, AED)
  - exposure to blood and other body substances
  - risk of further injury to the casualty
  - risks associated with the proximity of other workers and bystanders

First aid bodies and professional organisations may include:
- Australian Resuscitation Council (ARC)
- Support Groups
- Registered Providers/Authorities
- Emergency services
RANGE STATEMENT

First aid management skills must include:
- Administration of analgesic gases in accordance with ARC Guidelines, state/territory regulations, legislation and policies and industry requirements
- CPR
- Infection control
- AED (where available)

First aid management must account for:
- Location and nature of the workplace
- Environmental conditions e.g. electricity, biological risks, weather, motor vehicle accidents
- Location of emergency services personnel
- Number of casualties and potential casualties
- Use and availability of first aid equipment, resources and pharmaceuticals
- Types of dangers/risks to the casualty and any others in the vicinity of the situation
- Confined spaces, subject to industry need

Documentation may include:
- Incident/injury reports
- Casualty history forms
- Disease notification
- Workcover forms
- Medication registers
- Workers' compensation
- Day book
- Pre-participation records (sport)
- Medical histories
- Management records
- Stock records
- Infection control records
- Training records
- First aid risk assessment

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to recognise and respond to life threatening emergencies using basic life support measures only

Application of the Unit

The skills and knowledge described here enable a first aider to provide an initial response to an emergency in line with practised actions, Australian Resuscitation Council (ARC) Guidelines, guidelines of Australian national peak clinical bodies and State/Territory legislation and regulations.
Application should be contextualised as required to reflect workplace and community requirements relating to specific risks and hazards and associated injuries.
Training Package users should ensure that implementation is consistent with State/Territory requirements for currency.

| 2. Apply identified first aid procedures | 2.1 Reassure casualty in a caring and calm manner and make comfortable using available resources  
2.2 Determine and explain relevant first aid procedures to provide comfort  
2.3 Seek consent from casualty prior to applying first aid management  
2.4 Respond to the casualty in a culturally aware, sensitive and respectful manner  
2.5 Use identified first aid procedures as required in accordance with established first aid principles, ARC Guidelines, guidelines of Australian national peak clinical bodies and State/Territory legislation and regulations  
2.6 Use safe manual handling techniques as required |
| 3. Communicate details of the incident | 3.1 Request ambulance support and/or appropriate medical assistance according to circumstances  
3.2 Accurately convey observation of casualty’s condition and management activities to ambulance services/relieving personnel  
3.3 Adopt a communication style to match the casualty’s level of consciousness  
3.4 Accurately assess and report details of casualty’s physical condition, changes in condition, management and responses to management in line with established procedures  
3.5 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisation policies |
| 4. Evaluate own performance | 4.1 Seek feedback from appropriate clinical expert  
4.2 Recognise the possible psychological impacts on rescuers of involvement in critical incidents  
4.3 Participate in debriefing/evaluation to improve future response and address individual needs |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- ARC guidelines, guidelines of Australian national peak clinical bodies and State/Territory legislation and regulations, including requirements for currency
- Awareness of stress management techniques and available support
- Basic anatomy and physiology relating to:
  - absence of:
    - normal breathing
    - response/consciousness
  - choking/airway obstruction
  - severe bleeding
  - shock
- Chain of survival
- Duty of care requirements
- First aid procedures for:
  - airway management
  - bleeding control
  - care of unconscious
  - casualty that is unresponsive/unconscious and not breathing normally
  - chest pain
  - infection control as it relates to standard precautions
  - respiratory distress, including asthma
  - severe allergic reaction
  - shock
- How to access emergency response support services/personnel
- Need to be culturally aware, sensitive and respectful
- Own skills and limitations
- Privacy and confidentiality requirements
- Relevant workplace hazards
REQUIRED SKILLS AND KNOWLEDGE

- Understanding of the use of an Automated External Defibrillator (AED), including when to use and when not to

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Assess vital signs and response of casualty
- Call an ambulance and/or medical assistance, according to circumstances and report casualty's condition
- Demonstrate first aid casualty management principles:
  - assess and minimise danger
  - check for response
  - maintain casualty's airway, breathing and circulation
- Demonstrate:
  - consideration of the welfare of the casualty
  - control of external bleeding
  - correct procedures for CPR on a resuscitation manikin (i.e. as per units HLTCPR211A Perform CPR)
  - implementation of standard precautions
  - safe manual handling of casualty
- Identify and minimise hazards to health and safety of self and others in the immediate workplace or community environment
- Plan an appropriate first aid response in line with established first aid principles, ARC Guidelines and guidelines of Australian national peak clinical bodies and State/Territory legislation and regulations and respond to contingencies in line with own skills
- Report details of emergency incident and first aid provided

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects of assessment:
- The individual being assessed must provide evidence of specified essential knowledge and essential skills.
- Competence should be demonstrated working individually and as part of a first aid team.
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace or community setting.
- Currency of knowledge and skills is to be demonstrated in line with ARC Guidelines, guidelines of Australian national peak clinical bodies and State/Territory legislation and regulations.

Context and resources required for assessment:
- For assessment purposes, demonstration of skills in CPR procedures requires using a model of the human body (resuscitation manikin) in line with ARC Guidelines.
- Demonstration of first aid procedures for severe bleeding must be demonstrated using standard precautions and first aid equipment including trauma dressings.

Access and equity considerations:
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.

Related unit:
- This unit stands alone and incorporates the content of unit HLT CPR 211A Perform CPR.
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Condition of the casualty must include, but is not limited to:

- Severe bleeding
- Absence of:
  - Response/consciousness
  - Normal breathing
- Choking/airway obstruction
- Severe allergic reaction

Identified first aid procedures must include:

- Airway management
- Cardiopulmonary Resuscitation (CPR)
- Control severe bleeding
- Provide assistance with self-administered medications, such as auto-injector, bronchodilator and space device in line with State/Territory legislation and regulations and any available medical/pharmaceutical instructions
- Care of the unconscious person

Resources and equipment are used appropriate to the risk to be met and may include:

- AED (if available)
- Auto-injector
- Bronchodilator and space device
- First aid kit
- Resuscitation mask or barrier

A hazard is:

A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these
RANGE STATEMENT

Appropriate clinical expert may include:

- Ambulance officer/paramedic
- Appropriately qualified health care professional

Unit Sector(s)

Not Applicable
SISXFAC405A Plan and provide sport and recreational services

Modification History
Not Applicable

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to determine the sport and recreation services required by clients and to plan, implement and evaluate the services from a facility management perspective.

Application of the Unit
This unit applies to those who work autonomously in an administrative or organisational capacity in a sport, recreation or fitness environment. This may include facility and administration coordinators supporting the management of ancillary functions required to ensure the effective provision of specific services and programs in locations such as fitness centres, outdoor sporting grounds or complexes, aquatic centres or sporting organisations and associations.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

</tr>
</tbody>
</table>

1. Establish need for the sport and recreation service.
   - 1.1. Undertake research to identify target groups for the service and establish needs.
   - 1.2. Determine the type and nature of services that will address the identified needs.
   - 1.3. Gain necessary approvals according to organisational policies and procedures and relevant legislation.
   - 1.4. Make recommendations for relevant services to the appropriate facility personnel according to organisational policies and procedures.

2. Plan the service.
   - 2.1. Establish objectives and evaluation procedures for the service according to organisational policies and procedures.
   - 2.2. Establish and document work plans for the service according to organisational policies and procedures.
   - 2.3. Identify resources for the service and establish a budget according to organisational policies and procedures.
   - 2.4. Determine service content and design according to organisational policies and procedures.
   - 2.5. Determine a promotional plan for the service according to organisational policies and procedures.

3. Implement the service.
   - 3.1. Obtain and allocate resources according to work plan.
   - 3.2. Implement work plan according to organisational policies and procedures.
   - 3.3. Monitor, review and modify or cancel the service in response to new or changing circumstances as required.
   - 3.4. Conduct service safely according to stated outcomes and objectives.
**ELEMENT** | **PERFORMANCE CRITERIA**
---|---
4. Evaluate the service. | 4.1. Seek *feedback* on the service from service users and staff.  
4.2. Assess service outcomes against objectives according to organisational policies and procedures.  
4.3. Develop and document recommendations for improvements to future services.  
4.4. Submit recommendations for improvements to appropriate personnel.  
4.5. Review own performance and identify potential improvements.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - consult and interact with target groups in the community to elicit information required to determine needs for the service
  - source, interpret and confirm information to inform service planning
  - liaise with appropriate personnel to make suggestions and plan the service
  - seek feedback from service users and staff
- problem-solving skills to:
  - plan a service according to target group needs
  - assess risk factors
  - modify the service as required
  - assess service outcomes against initial objectives to suggest potential improvements
- planning and organising skills to:
  - source and allocate resources for the service
  - develop and implement a work plan for the service within appropriate timelines
- language and literacy skills to:
  - complete research into user needs
  - produce and document service plans
  - complete documentation in relation to recommendations for improvement
- numeracy skills to develop budgets for service provision
- self-management skills to review and reflect on own work performance in planning and implementing the service according to participant expectations.

Required knowledge

- legislation to enable:
  - safe and equitable delivery of the service to target groups
  - safe use of equipment and materials
- organisational policies and procedures to enable safe, satisfactory and beneficial outcomes for all participants
- principles of inclusive practices
- reasons for individual participation in sport and recreation services to ensure this information is included in planning for service
- risk-analysis processes to evaluate the risk and possible impact of planned sport and recreation services
- activity-specific knowledge of planned sport and recreation services to ensure services match participants’ needs
- insurance arrangements to suit the service.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- plans and provides services within budgetary constraints that reflect the needs of a range of participants
- monitors the provision of services and applies effective contingency-management techniques to deal with a range of new or changing situations that may arise, and makes adjustments in response to these changing situations
- evaluates and makes recommendations on services and reflects on own work performance to identify ways in which service outcomes and benefits to participants can be improved.

Context of and specific resources for assessment

Assessment must ensure planning, implementation and evaluation of multiple sport and recreation services to allow the candidate to demonstrate competency and consistency of performance.

Assessment must also ensure access to:

- an environment or facility appropriate to the planning and provision of recreation services
- target groups with specific needs
- appropriate persons to provide approvals
- resources for the service
- organisational documentation relevant to service provision.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of planning and implementing a sport and recreation service
- observation of interacting with a range of target groups to establish service needs
- observation of dealing with contingencies, such as changing circumstances in service provision
- oral and or written questioning to assess knowledge of principles of community development practices
- portfolio containing evidence of work plans for sport and recreation services
- third-party reports from a supervisor detailing appropriate work performed by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SISXCCS404A Address client needs.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Target groups** may include:
- culturally and linguistically diverse
- age-specific
- disability-specific
- gender-specific.

**Services** may include:
- major events
- educational programs
- group or individual programs.

**Needs** may include:
- cultural
- linguistic
- special needs.

**Organisational policies and procedures** may include:
- organisational objectives
- occupational health and safety
- resource allocation
- emergency procedures.

**Relevant legislation** may include:
- occupational health and safety
- equal opportunity
- privacy
- working with children
- state and territory statutory requirements
- local laws and by-laws
- ordinances and policy.

**Work plan** may include:
- objectives
- timeframes
- administration procedures
- risk factors, including:
  - ground and facility risks
  - equipment risks.

**Resources** may include:
- staff
- equipment
- venues
- documentation.

**Budget** may include:
- setting fees
- allocating funds.
New or changing circumstances may include:

- participant numbers
- weather
- facility booking falling through
- equipment failure
- emergencies.

Feedback may include:

- qualitative
- quantitative
- evaluation forms and surveys
- financial information.

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to coordinate a response to an emergency situation according to an organisation’s policies and procedures. The unit focuses on assessing emergency situations, implementing an emergency action plan, and coordinating a prompt and effective response.

Application of the Unit
This unit applies to staff members designated as safety officers during a specific indoor or outdoor activity at locations such as camp sites, training areas and outdoor sites, sporting grounds and competition venues or the warden in a sport, recreation or fitness centre, which may include a community leisure centre, gym, aquatic centre or indoor activities centre.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - liaise with all parties to coordinate effective responses to emergency situations
  - convey information to relevant authorities
  - debrief emergency team members
- problem-solving skills to:
  - assess emergency situations and develop action plans
  - improvise equipment or techniques where required
- planning and organisational skills to coordinate resources and equipment necessary to respond effectively to emergency situations
- self-management skills to review and reflect on own work performance in coordinating emergency responses
- language and literacy skills to:
  - complete emergency documentation
  - interpret and respond to emergency reports and signals.

Required knowledge

- organisational emergency policies and procedures and staff responsibilities to enable prompt and effective response to emergencies and incidents
- legislation relevant to own work role and level of responsibility including:
  - duty of care
  - occupational health and safety
  - environment protection
  - hazardous substances and dangerous goods
  - public health and safety
- location and use of rescue and emergency equipment to enable effective implementation of an emergency response
- rescue techniques to enable selection of technique appropriate to type of emergency
- emergency response agencies within the activity area and direct communication channels to enable information about an emergency to be communicated quickly and directly
- factors that impact on emergency situations to enable appropriate contingency planning
- behaviour and characteristics of typical emergencies to enable the development of an action plan to quickly and effectively bring the situation under control.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:
- identify and implement organisation policies and procedures to assess and coordinate emergency responses promptly and safely
- comply with relevant legislation in coordination of emergency response
- coordinate participatory arrangements for the management of the emergency response
- complete all relevant documentation
- evaluate and reflect on performance to identify ways in which emergency procedures can be improved.

Context of and specific resources for assessment

Assessment must ensure:
- coordination of multiple emergency responses, which may be simulated to reflect the individual’s current or intended work environment to demonstrate competency and consistency of performance.

Assessment must also ensure access to:
- equipment and resources to ensure adequate response to emergencies
- staff and clients in industry-appropriate ratios
- legislation and organisational policies and procedures.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:
- observation of applying organisational emergency procedures when responding to emergency situations
- observation of interacting with safety officers and wardens to ensure effective coordination of emergency situations
- oral and or written questioning to assess knowledge of relevant legislation which underpins the effective implementation of organisational emergency procedures
- third-party reports from a supervisor detailing work performance.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SISXWHS402 Implement and monitor Work Health and Safety policies.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Reports or signals may include:
- verbal
- emergency warning and alarm systems
- hand signals
- telephone and radio communications
- whistles.

Emergency situations may include:
- fire
- hazardous release of chemicals
- bomb threats or civil disorder
- environmental conditions
- other natural or man-made disasters
- activity-specific.

Organisational policies and procedures may include:
- Work Health and Safety
- emergency procedures
- reporting incidents
- staff roles and responsibilities in the event of an emergency
- communication lines
- exit and assembly points.

Designated personnel may include:
- supervisors
- managers.

Potential for escalation may include:
- spread of fire
- threat to adjoining areas
- danger of explosion
- loss of communications
- involvement of additional persons
- deterioration in environmental conditions.

Emergency equipment may include:
- hoses
- monitors
- foam equipment and extinguishers
- blankets
- spill kits
- personal protective clothing and equipment
- ladders
- salvage gear.
- rescue equipment
- first-aid and evacuation equipment and resources.

**Emergency team** may include:
- nominated safety officers or wardens
- emergency team members
- emergency response related persons.

**Appropriate authorities** may include:
- Police Search and Rescue
- State Emergency Service
- Fire Brigade
- Ambulance Service
- Land Management Authorities
- Australian Volunteer Coastguard.

**Emergency evacuation** may include:
- total or partial
- to an internal or external refuge
- to an assembly point.

**Unit Sector(s)**
Cross-Sector.

**Co-requisite units**

**Competency Field**
Emergency Response.
AHCCCF404A Contribute to association governance

Modification History

| 1. **Monitor association activities**        | 1.1. Activities undertaken by group are monitored to ensure:  
|                                              | 1.1.1. association objectives are being adhered to  
|                                              | 1.1.2. resolutions of committee and members meetings are being followed  
|                                              | 1.1.3. finances are properly managed  
|                                              | 1.1.4. any employees are managed and volunteers are appropriately supervised  
|                                              | 1.1.5. legislative requirements are being met  
|                                              | 1.1.6. ethical requirements are being met  
|                                              | 1.1.7. group operations and approaches are sensitive to and inclusive of community and sections within the community.  
|                                              | 1.2. Variations from expected standards are noted, and where required, immediate or routine action taken.                                                                                                           |
| 2. **Identify opportunities, threats and risks** | 2.1. Opportunities for the group to commence new projects or activities are identified and submitted to the committee.  
|                                              | 2.2. Threats to the ongoing operation of the group are identified and raised at committee meetings.  
|                                              | 2.3. Risks associated with the group's activities and ongoing operation is identified.  
|                                              | 2.4. Risks and proposed risk control measures are submitted to the committee.                                                                                                                                         |
| 3. **Participate in board/committee meeting** | 3.1. Committee agendas are reviewed prior to meetings.  
|                                              | 3.2. Agenda items and reports to committee are submitted as required.  
|                                              | 3.3. Committee meetings are attended and issues discussed as placed on the agenda or as modified.  
|                                              | 3.4. Good communications are established and maintained with other committee members to ensure competent management of group affairs.  
|                                              | 3.5. Personal observations and concerns including opportunities, threats and risks are raised at committee meetings.  
|                                              | 3.6. Actions are taken on personal commitments made at committee meeting and reported to the committee.                                                                                                                |
## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- prepare brief verbal and written reports
- contribute to conflict resolution
- requires knowledge of relevant legislation, basic financial statements, committee meeting and members meeting procedures, objectives and rules of association and community goals and plans, and diversity in community and range of views and goals
- use literacy skills to read, interpret and follow organisational policies and procedures, develop sequenced written instructions, record accurately and legibly information collected and select and apply procedures to a range of tasks
- use oral communication skills/language competence to fulfil the job role as specified by the organisation including questioning, active listening, asking for clarification, negotiating solutions and responding to a range of views
- use numeracy skills to estimate, calculate and record routine and more complex workplace measures and data
- use interpersonal skills to work with others and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

### Required knowledge

- requirements of relevant legislation
- interpretation of basic financial statements
- requirements of programs
- committee meeting and members meeting procedures
- objectives and rules of association
- basic management practice including practices in employing people
- community goals and plans
- diversity in community and range of views and goals
- Occupational Health and Safety (OHS) and corporate governance legislation and codes of practice
- public safety requirements.
# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

The evidence required to demonstrate competency in this unit must be relevant to workplace operations and satisfy holistically all of the requirements of the performance criteria and required skills and knowledge and include achievement of the following:

- complete a checklist for association governance covering meeting procedure, finances, staff management, legislative compliance, ethical conduct and community consultation
- conduct a SWOT analysis for the associations operations
- participate in board/committee meetings.

#### Context of and specific resources for assessment

Competency requires the application of work practices under work conditions. Selection and use of resources for some worksites may differ due to the regional or enterprise circumstances.

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole.

### Areas of employee supervision may include:

- direct supervision and appropriateness
- recruitment of paid employees and volunteers
- appraisal of paid employees including any disciplinary actions
- employment conditions including remuneration and benefits
- training provided
- relationships and cooperation between employees
- employees and volunteers
**RANGE STATEMENT**

- committee.

BSBATSIC511A Plan and conduct a community meeting

Modification History
Not applicable.

Unit Descriptor

| Unit descriptor | This unit describes the performance outcomes, skills and knowledge required to plan and conduct community meetings that the board initiates or facilitates. Some aspects of governance activities may be subject to legislation, rules, regulations and codes of practice relevant to different job roles and jurisdictions. |

Application of the Unit

| Application of the unit | This unit applies to individuals who need to communicate with community members in their role of monitoring and guiding the activities of the organisation. |

Licensing/Regulatory Information
Not applicable.

Pre-Requisites

| Prerequisite units | |

| | |
Employability Skills Information

| Employability skills | This unit contains employability skills. |

Elements and Performance Criteria Pre-Content

| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Negotiate the basis of a meeting and plan the event | 1.1. Undertake consultation on the purpose, location, date and time of the proposed meeting with *appropriate people*  
1.2. Develop a broad agenda and list of *invited guests* in consultation with appropriate people  
1.3. *Communicate* details of the meeting to the community, invited guests and other key people and groups  
1.4. Plan transport and other arrangements to maximise attendance  
1.5. Address the requirements of people with *special needs* to ensure equity and access |
| 2. Conduct the meeting | 2.1. Follow community procedures for choosing a chairperson for the meeting  
2.2. Follow the agenda and relevant meeting *protocols*  
2.3. Acknowledge all points of view through appropriate *meeting processes* of discussion and documentation  
2.4. Encourage full participation  
2.5. Seek consensus in decision making  
2.6. Manage *difficult situations* appropriately |
| 3. Record decisions | 3.1. Clearly outline meeting decisions being voted on to those present  
3.2. Clarify recommended actions resulting from decisions with participants  
3.3. Identify people and organisations responsible for actions  
3.4. Record decisions and recommended actions |
| 4. Communicate outcomes | 4.1. Share meeting outcomes with board, members and relevant others  
4.2. Encourage participants to use their networks to communicate information provided and decisions made at the meeting  
4.3. Follow up people and organisations identified as responsible for actions to ensure they understand what is required  
4.4. Report outcomes to participating Elders, community members and organisations through established channels |
### Required Skills and Knowledge

#### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

**Required skills**

- communication, teamwork and negotiation skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- leadership and networking skills to encourage participation and ensure meeting effectiveness
- negotiation and conflict-management skills to handle differences of opinion
- planning skills to increase participation and ensure protocols are followed
- facilitation and public-speaking skills to manage the meeting, present ideas and communicate effectively with the audience

**Required knowledge**

- community consultation methods
- concept of community control of organisations and how it may impact on the conduct of community meetings
- consensus decision-making principles
- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that might impact on the conduct of community meetings
- decision-making strategies
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on the conduct of community meetings
- organisational policies and procedures relevant to community meetings
- provisions of federal, state or territory legislation and funding body requirements that influence decisionmaking
- relevant community bodies that might be included in community meetings
- relevant protocols and cultural responsibilities in relation to conducting community meetings

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| **Appropriate people** may include: | • Elders  
• managers  
• members  
• staff  
• traditional owners. |
|-------------------------------------|----------------------------------------------------------|
| **Invited guests** may include:     | • Elders  
• government representatives  
• land councils  
• members  
• representatives of local businesses  
• representatives of other Aboriginal and Torres Strait Islander organisations or communities  
• staff  
• traditional owners. |
| **Communication** may include:      | • email  
• facsimile  
• notices  
• networks  
• posters  
• telephone  
• word of mouth. |
| **Special needs** may relate to:    | • arrangements for people with disabilities  
• child care  
• cultural brokers  
• interpreters  
• transport. |
| **Protocols** may include:         | • agenda formats  
• introductions, welcomes and acknowledgements  
• land, gender and clan issues  
• meeting procedures  
• minute taking. |
RANGE STATEMENT

- order of speakers.

**Meeting processes** may include:
  - decision-making processes
  - forms of discussion
  - gender groups
  - language.

**Difficult situations** may include:
  - conflict
  - impasse in decision making
  - organisational problems.

SISCCRO304A Plan and conduct disability recreation programs

Modification History
Not Applicable

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to plan and conduct recreation programs for people with a disability including both frail and moderately active participants. It focuses on the needs of participants with a disability and the resources required to safely conduct and supervise a recreation program for participants with a disability.

Application of the Unit
This unit applies to those working as recreation officers in a community recreation environment with responsibility for facilitating programs for clients with a disability. Work would be undertaken in locations such as community recreation centres and indoor or outdoor recreation facilities with a focus on community development.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
Nil

Employability Skills Information
This unit contains employability skills.

</table>

1. Identify participant needs and expectations.
   1.1. Identify participants’ needs and aims according to organisational policies and procedures.
   1.2. Conduct relevant assessments to determine variations in status of participants in consultation with relevant support personnel and according to organisational policies and procedures as required.
   1.3. Identify any special requirements according to participants' needs.
   1.4. Advise participants of any reason why they should not participate in a given program.
   1.5. Identify barriers to participation by people with a disability.

2. Plan a disability recreation program.
   2.1. Identify equipment and resources appropriate for the program.
   2.2. Design and document a program plan to meet the identified needs and abilities of participants, according to relevant legislation and organisational policies and procedures.
   2.3. Seek agreement on the program plan from staff, participants and organisations where relevant.
   2.4. Determine the range of activities for the program according to participant needs and capabilities.
   2.5. Identify and access resources required for the program in advance.
   2.6. Identify support requirements for people with a disability according to relevant legislation and organisational policies and procedures.

3. Prepare for the program.
   3.1. Communicate instructions and relevant information about the program using appropriate communication strategies.
   3.2. Encourage participants to seek clarification of information as required.
   3.3. Remove required equipment from store and check for damage or deterioration and report, where appropriate, to the responsible person.
   3.4. Issue suitable equipment and aids and provide assistance with
ELEMENT | PERFORMANCE CRITERIA
--- | ---
3.5. | Set up equipment according to approved procedures and instructions.
3.6. | Modify or condition equipment for use by different participant groups according to workplace policies and procedures.
4.1. | Encourage participants to warm up and cool down.
4.2. | Monitor technique and correct use of equipment, where relevant, and provide appropriate feedback to participants.
4.3. | Provide assistance with use of aids, including modification, as appropriate.
4.4. | Seek feedback from participants regarding their progress during the program and modify as required.
4.5. | Employ appropriate techniques to motivate clients to maintain a reasonable participation rate.
4.6. | Identify risks to participant safety and take action to minimise these according to relevant legislation and organisational policies and procedures.
4.7. | Modify the program, where necessary, based on an assessment of the conditions, status of persons with a disability, facilities and equipment.
5.1. | Conclude the program at a pace appropriate to the participant, their level of involvement and the duration of the program.
5.2. | Inform participants of follow-up programs and recreational opportunities.
5.3. | Collect and check issued equipment for damage and wear according to organisational policies and procedures.
6.1. | Seek and acknowledge feedback from participants and identify further needs.
6.2. | Evaluate all relevant components of the program and record outcomes.
6.3. | Identify potential areas for improvement in future programs.
6.4. | Review own performance and identify potential improvements.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - consult with participants and personnel about recreation activities that will meet participant needs
  - convey information and instructions to participants about the programs and safe use of equipment
  - seek feedback on the program
  - report missing or damaged equipment
- problem-solving skills to:
  - plan programs according to participants' needs, abilities and risk factors
  - select a range of activities and exercises and modify programs and equipment as required
- planning and organisational skills to source, allocate and coordinate resources and equipment for planned recreation program
- teamwork skills to liaise with support personnel and other appropriate staff and organisations to plan and conduct programs
- language and literacy skills to produce and document program plans and complete documentation in relation to damaged or missing equipment or materials
- self-management skills to review and reflect on own performance in facilitating personal development for participants with a disability
- activity-specific skills to conduct disability recreation programs safely and effectively

Required knowledge

The following knowledge must be assessed as part of this unit:

- legislation and organisational policies and procedures relevant to:
  - designing a safe and non-discriminatory recreation program for people with a disability
  - identifying support requirements and specific needs of people with a disability
  - recording and maintaining records for equipment use and maintenance
- principles of community development regarding inclusive client-centred practices
- impact of disability on participation in recreation activities and the variation in abilities of people with a disability
- appropriate selection of activities for the program
- risk analysis processes for assessing the potential impact of planned recreation program on participant safety
- activity-specific knowledge to match activities with client needs and capabilities, including exercises suitable for people with a disability, such as stretching and mobility exercises
- factors affecting group dynamics and conflict resolution strategies to enable constructive engagement of participants
- modified equipment and aids for participants with a disability and equipment testing and checking techniques to enable safe use of all equipment
- social, political, cultural and historical issues that affect or are relevant to people with a disability
- individual structural and functional variations to the human body and barriers to participation for people with a disability
- screening processes for entry into programs or activities and general contraindications to participation
- evaluation processes to enable improvements to be made to the program
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- encourages participation and interaction of people with a disability using appropriate communication strategies that enhance emotional wellbeing
- plans recreation programs that determine the range of activities or exercises for people with a disability and coordinates and allocates program resources to optimise their use by participants
- applies contingency management techniques to deal with problems and issues that may arise during program implementation
- delivers recreation programs safely and in a manner that reflects the needs and capabilities of participants with a disability
- monitors the progress of participants and provides feedback to enhance client motivation and self-esteem.

Context of and specific resources for assessment

Assessment must ensure the candidate delivers multiple recreation programs of a sufficient duration to demonstrate techniques that balance individual and group needs and consistency of performance.

Assessment must also ensure access to:

- people with a range of disabilities to participate in the program
- an environment or facility appropriate to the specific program content
- equipment, resources and support staff required for the delivery of the program
- key people and organisations that support people with a disability
- relevant legislation and organisational policies and procedures in relation to inclusion processes.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of candidate preparing for and resourcing
a disability recreation program, including developing program plans

- observation of candidate interacting with a range of participants with disabilities, conveying information for safe participation in programs, and delivering and evaluating programs
- observation of candidate dealing with contingencies such as the changing availability of equipment or venues
- oral or written questioning to assess candidate's knowledge of techniques and activity skills in relation to program aims and community development principles
- portfolio containing evidence of candidate's program plans and modifications
- third-party reports from a supervisor detailing appropriate work performed by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SISCCRD303A Facilitate inclusion for people with a disability.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Participants' needs and aims may include:
- physical
- emotional
- motivational
- psychological.

Organisational policies and procedures may include:
- occupational health and safety
- risk minimisation
- privacy
- roles and responsibilities
- staff behaviour
- time constraints and scheduling requirements
- budget allocation
- use and maintenance of equipment.

Assessments may include:
- interviews with participants and carers
- medical history
- physical ability tests.

Variations in status of participants may include:
- impact of medication
- chronological age
- physiological age
- medical conditions.

Disability may include:
- physical
- sensory
- intellectual
- psychiatric.

Equipment and resources may include:
- staff
- equipment and aids
- venues and facilities
- music.

Program plan may include:
- objectives
- date and time
- resources
- sessions, stages or structure
- movement of people and equipment into and out of venue
- timelines
• pre-program information.

**Relevant legislation** may include:
• occupational health and safety
• equal opportunity
• privacy.

**Activities** may include:
• stretching and mobility
• strengthening or conditioning
• confidence building
• back care
• balance
• chair based
• floor work.

**Communication strategies** may include:
• verbal
• modelling or demonstration
• hand or arm signals
• braille
• audio tape.

**Damage or deterioration** may include:
• damage to fabric
• missing parts.

**Risks** may include:
• level of challenge and difficulty
• behaviour of other participants.

**Unit Sector(s)**
Community Recreation

**Competency Field**
Community Recreation Operations
SISCCRO303A Plan and conduct recreation programs for older persons

Modification History
Not Applicable

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to plan and conduct recreation programs for older persons including frail and moderately active participants. It focuses on the application of planning skills to develop a program that takes into account the needs of older participants and the resources required to safely conduct and supervise a recreation program for older participants.

Application of the Unit
This unit applies to those working as recreation officers in a community recreation environment with responsibility for conducting programs for older clients. Work would be undertaken in locations such as community recreation centres and indoor or outdoor recreation facilities with a focus on community development.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
Nil

Employability Skills Information
This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>

Elements describe the essential outcomes of a unit of competency. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

1. Identify participant needs and expectations.
   1.1. Identify participants' needs and aims according to organisational policies and procedures.
   1.2. Conduct relevant assessments to determine variations in status of participants in consultation with relevant support personnel according to organisational policies and procedures.
   1.3. Identify any special requirements according to participants' needs.
   1.4. Advise participants of any reasons for not participating in a given program.
   1.5. Identify barriers to participation for older persons.

2. Plan a recreation program for older persons.
   2.1. Identify equipment and resources appropriate to the program.
   2.2. Design and document a program plan to meet the identified needs and abilities of participants according to relevant legislation and organisational policies and procedures.
   2.3. Seek agreement on the program plan from staff, participants and organisations where relevant.
   2.4. Assess the likely demands of the program on the participants in consultation with appropriate personnel.
   2.5. Determine the range of activities to be included in the program according to participant needs and capabilities.
   2.6. Identify support requirements for older persons according to relevant legislation and organisational policies and procedures.

3. Prepare for the program.
   3.1. Communicate instructions and relevant information about the program and encourage participants to seek clarification as required.
   3.2. Access required equipment from store and check for
ELEMENT | PERFORMANCE CRITERIA
---|---

**damage or deterioration** and report where appropriate to the responsible person according to organisational policies and procedures.

3.3. Issue suitable equipment and aids and provide assistance with fitting where necessary.

3.4. Set up equipment according to organisational policies and procedures.

3.5. Modify or condition equipment for use by different participant groups according to workplace policies and procedures.

4. Conduct the program.

4.1. Encourage participants to warm up and cool down through safe and appropriate exercises.

4.2. Monitor technique and correct use of equipment, where relevant, and provide appropriate feedback to participants.

4.3. Provide assistance with use of aids, including modification, as appropriate.

4.4. Seek feedback from participants regarding their progress during the program and modify as required.

4.5. Use techniques that motivate clients to maintain an appropriate participation rate.

4.6. Identify risks to participant safety and take action to minimise these, according to relevant legislation and organisational policies and procedures.

4.7. Modify the program, where necessary, based on an assessment of the conditions, status of older persons, facilities and equipment.

5. Conclude the program.

5.1. Conclude the program at a pace appropriate to the participants, their level of involvement and the duration of the program.

5.2. Inform participants of follow-up programs and recreational opportunities.

5.3. Collect and check issued equipment for damage and wear according to organisational policies and procedures.

6. Evaluate the program.

6.1. Seek and acknowledge feedback from participants and identify further needs.

6.2. Evaluate all components of the program and record outcomes.

6.3. Identify potential areas for improvement in future programs.

6.4. Review own performance and identify potential

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - consult with participants and personnel about recreation activities to meet participant needs
  - convey information and instructions to participants about the program and safe use of the equipment
  - seek feedback on the program
  - report missing or damaged equipment according to organisational requirements

- problem-solving skills to:
  - plan programs according to participants' needs, abilities and risk factors
  - select a range of activities and exercises and modify programs and equipment as required

- planning and organisational skills to source, allocate and coordinate the resources and equipment needed for the recreation program

- teamwork skills to liaise with support personnel and other appropriate staff and organisations to plan and conduct the program

- language and literacy skills to produce and document a program plan and complete documentation in relation to damaged or missing equipment or materials

- self-management skills to review and reflect on own work performance in facilitating personal development of older participants

- activity-specific skills to safely conduct recreation programs for older participants.

Required knowledge

- legislation and organisational policies and procedures relevant to:
  - designing a program for older participants that enables safe and non-discriminatory conduct
  - identifying support requirements and specific needs of older persons, such as use of modified equipment, aids and venues
  - producing and maintaining records for equipment use and maintenance

- principles of community development to enable inclusive client-centred practices

- stages and impact of ageing on participation in recreation activities and the variations in older people's abilities, to enable appropriate selection of activities for the program

- risk analysis processes for assessing the potential impact of a planned recreation program on participant safety

- activity-specific knowledge to match activities with client needs and capabilities, including suitable exercises for older persons such as stretching and mobility exercises

- factors affecting group dynamics and conflict resolution strategies

- modified equipment and aids for older participants and equipment testing and
checking techniques

- social, political, cultural and historical issues that affect or are relevant to older persons

- screening processes of older persons for entry into programs or activities and general contraindications for participation evaluation processes to enable improvements to be made to the program.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- encourages participation and interaction of older persons using appropriate communication strategies that enhance emotional wellbeing
- plans recreation programs that determine the range of activities or exercises for older persons and coordinates and allocates program resources to optimise their use by participants
- applies contingency management techniques to deal with problems and issues that may arise during program implementation
- delivers recreation programs safely and in a manner that reflects the needs and capabilities of older participants
- monitors the progress of participants and provides feedback to enhance participant motivation and self-esteem.

Context of and specific resources for assessment

Assessment must ensure the delivery of multiple recreation programs of a sufficient duration to demonstrate techniques that balance individual and group needs and consistency of performance.

Assessment must also ensure access to:

- older persons to participate in program
- an environment or facility appropriate to the specific program content
- equipment, resources and support staff required for the delivery of the program
- access to key people and organisations that support older people
- relevant legislation and organisational policies and procedures in relation to inclusion processes.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of candidate preparing for and resourcing recreation programs for older persons including
developing program plans

- observation of candidate interacting with a range of older participants, conveying information for safe participation in programs and delivering and evaluating programs
- oral or written questioning to assess candidate's knowledge of the ageing process in relation to program design and delivery
- portfolio containing evidence of candidate's program plans and modifications
- third-party reports from a supervisor detailing appropriate work performed by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SISCCRD301A Facilitate community development through recreational activities.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Participants' needs and aims may include:
- physical
- emotional
- motivational
- psychological.

Organisational policies and procedures may include:
- occupational health and safety
- privacy
- roles and responsibilities
- staff behaviour
- risk minimisation
- time constraints and scheduling requirements
- budget allocation
- use and maintenance of equipment.

Assessments may include:
- interviews with participants and carers
- medical history
- physical ability tests.

Variations in status of participants may include:
- impact of medication
- chronological age
- physiological age
- medical conditions.

Equipment and resources may include:
- staff
- equipment and aids
- venues and facilities
- music.

Program plan may include:
- objectives
- date and time
- resources
- sessions
- movement of people and equipment into and out of venue
- timelines
- pre-program information.

Relevant legislation may include:
- occupational health and safety
- equal opportunity
- privacy.
Activities may include:
- stretching and mobility
- strengthening or conditioning
- confidence building
- posture
- balance
- chair based
- floor work.

Damage or deterioration may include:
- damage to fabric
- missing parts.

Risks may include:
- level of challenge and difficulty
- behaviour of other participants
- equipment failure.

Unit Sector(s)
Community Recreation

Competency Field
Community Recreation Operations
SISCCRO301A Assist with recreation games not requiring equipment

Modification History
Not Applicable

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to assist in the planning and conduct of recreation games not requiring equipment, in a community recreation setting.

Application of the Unit
This unit applies to those who work as assistants with limited responsibility in a range of roles and settings across the sport and recreation sector. This may include those working as assistants in after school or holiday care programs in a range of locations and settings.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
Nil

Employability Skills Information
This unit contains employability skills.
## Elements and Performance Criteria Pre-Content

### Elements and Performance Criteria

**ELEMENT**

Elements describe the essential outcomes of a Unit of Competency.

**PERFORMANCE CRITERIA**

Performance Criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the Required Skills and Knowledge section and the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

1. Assist in planning recreation games.
   - **1.1.** Confirm *participant group* and *characteristics* with appropriate personnel.
   - **1.2.** Offer *suggestions* which are appropriate for the participants and support the *aims of the recreation games* according to *relevant legislation* and *organisational policies and procedures*.
   - **1.3.** Identify and select *recreation games* in consultation with appropriate personnel to encourage maximum participation and enjoyment of participants.
   - **1.4.** Clarify *game requirements* in consultation with appropriate personnel.
   - **1.5.** Plan recreation games appropriate to the abilities and needs of participants according to organisational policies and procedures.
   - **1.6.** Check and confirm suggested recreation games with a responsible person according to organisational policies and procedures.

2. Assist with the conduct of recreation games.
   - **2.1.** Communicate *information* required to safely participate in the session according to organisational policies and procedures.
   - **2.2.** Carry out *allocated tasks* promptly, efficiently and as directed.
   - **2.3.** Respond to participant queries according to own level of responsibility.
   - **2.4.** Monitor participants' performance in consultation with a responsible person.
   - **2.5.** Report *problems* in participant behaviour to responsible person as required.
   - **2.6.** Seek participant feedback and identify further needs.

3. Assist in the evaluation of the recreation games.
   - **3.1.** Provide personal feedback on the outcomes of the recreation games to appropriate staff.
   - **3.2.** Convey participant feedback on the recreation games
ELEMENT         PERFORMANCE CRITERIA

3.3. Review own work performance and identify potential improvements.

to appropriate staff.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - offer suggestions during planning for the recreation games
  - confirm arrangements with responsible staff
  - interact with participants and colleagues to clarify client requirements
  - convey information about the session
  - seek and convey feedback from participants

- problem-solving skills to:
  - select and plan recreational games to suit participants' interests and abilities
  - identify and report problems related to activities
  - implement contingencies for situations arising beyond area or responsibility

- planning and organisational skills to confirm arrangements with the responsible person

- self-management skills to:
  - recognise and act within boundaries of role and responsibilities
  - review and evaluate session outcomes in relation to personal performance

- teamwork skills to liaise with appropriate staff to carry out allocated tasks

- literacy and numeracy skills to interpret and seek clarification on recreational games requirements such as rules and regulations.

Required knowledge

- legislation and organisational policies and procedures that:
  - enable the safe and non-discriminatory conduct of recreation games
  - ensure compliance with roles and responsibilities of staff working in an assisting role

- potential hazards associated with the games to ensure safe conduct of the session

- techniques and skills appropriate to different recreation games to ensure participant needs are met according to their abilities

- techniques to motivate participants to interact and participate in recreation games

- information sources to access information about the requirements of recreation games.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- identifies, confirms and carries out assigned duties according to own level of responsibility and refers tasks outside own level to appropriate personnel
- carries out allocated tasks responsibly and in a non-discriminatory manner according to instructions of responsible person and reports any difficulties to the appropriate personnel
- clarifies and conveys information about essential aspects of the games to assist and encourage participants to fully participate in the recreation games
- contributes to the evaluation of the recreation games and suggests how they could be improved and reflects on own work performance.

Context of and specific resources for assessment

Assessment must ensure participation in the planning and conduct of multiple recreation games or sessions to enable the candidate to demonstrate competency and consistency of performance.

Assessment must also ensure access to:

- sport and recreation environments, venues or facilities that reflect local requirements
- participants with varying needs
- responsible staff or appropriate personnel
- information about recreation games
- legislation and organisational policies and procedures in relation to the conduct of recreation games.

Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of the candidate interacting with a range of participants, including conveying information for safe participation in recreation games and assisting in delivery, supervision and evaluation of games according to own level of responsibility
- observation of candidate dealing with contingencies
such as situations arising beyond area or responsibility
- oral or written questioning to assess knowledge of techniques and skills appropriate to different recreation games
- third-party reports from a supervisor detailing appropriate work performed by the candidate.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:
- SISXCAI303A Plan and conduct sport and recreation sessions.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Participant group** may include:  
- experienced  
- inexperienced  
- adults  
- children.

**Characteristics** may include:  
- needs and interests  
- numbers  
- age and gender  
- previous experience  
- special requirements.

**Appropriate personnel** may include:  
- coordinator  
- supervisor  
- manager.

**Suggestions** may include:  
- type of games  
- content of games  
- methods of working with participants  
- timing and sequencing of games.

**Aims of the recreation games** may include:  
- participation  
- confidence  
- motivation  
- self-improvement  
- fitness  
- lifestyle adjustment.

**Relevant legislation** may include:  
- occupational health and safety  
- equal opportunity  
- privacy  
- working with children.

**Organisational policies and procedures** may include:  
- occupational health and safety  
- communication protocols  
- roles and responsibilities  
- duty of care  
- reporting channels.

**Recreation games** may include:  
- competitive  
- non-competitive  
- traditional.
SISCCRO301A Assist with recreation games not requiring equipment

- cultural activities
- individual or group.

**Game requirements** may include:
- safety
- rules and regulations
- resources
- scheduling.

**Information** may include:
- game requirements
- expected behaviour
- clothing and footwear
- hydration
- instructions
- potential hazards.

**Allocated tasks** may include:
- providing access to facilities or recreation areas
- providing advance information to participants
- organising refreshments.

**Problems** may include:
- aggressive or unacceptable behaviour
- inappropriateness of game type or duration
- participant injury.

Unit Descriptor

Descriptor

This unit of competency describes the application of in-depth level of knowledge of anatomy and physiology required to analyse available health information in relation to specific services to be provided.

Application of the Unit

Application

The application of knowledge and skills described in this competency unit relate to functioning independently to plan and provide services.

Some disciplines will require a state/territory regulatory determination regarding delegation and supervision.

This unit ensures individuals can apply in-depth knowledge of human anatomy and physiology in the delivery of specific services.

Licensing/Regulatory Information

Not Applicable
Pre-Requisites

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- In-depth understanding of the structure, physiology and normal functioning of all body systems.
- Understanding of the structure and function of cells, including:
  - cell/tissue requirements for survival
  - basic understanding of cellular respiration
- Transport systems:
  - active (primary) and passive (diffusion - simple, facilitated)
  - osmosis
  - forces (hydrostatic and osmotic)
- Recognition of the signs and symptoms of common clinical conditions and the (provisional) diagnosis of same.
- Understanding of pharmacological processes and drug actions, indications and contraindications (appropriate to this level).
- Understanding of the impact of:
  - trauma (penetrating, blunt)
  - common environmental emergencies (diving, altitude, temperature etc)
  - overdose and poisoning
  - surgical insult
- Basic chemistry (molecules and compounds; chemical reaction, energy; acids and bases) and as related to metabolism, respiration, pH.
- Pathophysiology of diseases associated with each body system and the impact of disease on each body system and their related structures, especially in relation to potential impact of specific health procedures provided.
- Effects of biological maturation and aging processes on body systems and their components and in relation to specific health procedures provided.
- Defence system and immunity processes in relation to the whole body and the individual.
REQUIRED SKILLS AND KNOWLEDGE

body systems and in relation to specific health procedures provided.

**Essential skills:**

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Describe in detail and articulate using appropriate and accurate terminology, the major components of each body system, their location, inter-relationships and associated pathophysiology, especially in relation to specific health care services.
- Explain processes and structures of human anatomy and physiology in relation to potential health issues associated with provision of specific health care services.
- Explain the structure and functioning of the body systems, relationships between these systems and the potential impact of specific health care services to be provided.
- Identify variations from normal functioning and potential interactions between body systems and other internal and external factors.
- Plan and deliver health care services appropriate to client's health status in line with principles and concepts underpinning specific approaches, philosophies and regimes of health care.
- Refer to an appropriate practitioner for advice, guidance or confirmation in relation to health issues outside normal practice or own experience.

**Evidence Guide**

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- Candidates must demonstrate their ability to apply Essential Knowledge identified for this competency unit before undertaking independent workplace application.
- This competency unit should be assessed in conjunction with relevant competency unit(s) in delivery of specific services (e.g. complementary therapies, nursing or dental care).
- Evidence must demonstrate the individual's ability to apply their knowledge within the requirements of an identified aspect of delivering health care or health care support services to a specific age group.
- Consistency of performance should be demonstrated over the required range of workplace situations relevant to an identified work role.

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.
EVIDENCE GUIDE

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Where, for reasons of safety, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible
- Resources for assessment may include access to materials and space as required to demonstrate competence, such as:
  - relevant organisation policies and procedures
  - anatomical models, charts and/or diagrams as required to support explanations
  - relevant equipment
  - workplace and simulated work environment

Method of assessment may include:

- Observation in the workplace with questioning to address appropriate application of knowledge
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning - verbal and written
- Role-play / simulation

Related units:

- This unit should be assessed in conjunction with competency unit(s) related to planning/delivery of specific health care services (e.g. complementary therapies, nursing or dental care)

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Understanding of anatomy, physiology and pathophysiology includes knowledge of the major body systems:

- Cardiovascular system
- Respiratory system
- Musculo-skeletal system
- Endocrine system
- Nervous system
- Digestive system
- Urinary system
- Reproductive system
- Integumentary system
- Lymphatic system
- The special senses - smell, taste, vision, equilibrium and hearing
- Immune system
RANGE STATEMENT

Common problems to be identified may include, but are not limited to:

- Common respiratory problems, such as:
  - asthma
  - upper respiratory tract infection
- Genitourinary conditions, such as:
  - incontinence
  - dysuria
  - prostatic cancer
- Gastro-intestinal and abdominal conditions, such as:
  - gallstones
  - gastroenteritis
  - diverticulitis
  - appendicitis
- Ear health conditions, such as:
  - otitis media
  - impairment
- Skin condition, infections and wounds, such as:
  - impetigo
  - dermatitis
  - pressure sores
- Dental problems, such as:
  - gingivitis
  - halitosis
  - abscesses
- Eye problems, such as:
  - myopia
  - impairment
  - cataracts
- Cardio vascular problems, such as:
  - congestive cardiac failure
  - thrombosis
- Nervous problems, such as:
  - cerebrovascular accident
  - dementia
RANGE STATEMENT

Factors with potential to impact health may include but are not limited to:

- External factors, such as:
  - diet and nutritional factors
  - use of alcohol, tobacco and other substances
  - environmental factors impacting health
  - level and type of physical activity
  - surgical insult and anaesthesia

- Internal factors, such as:
  - inter-relationship between body systems
  - emotional responses
  - patterns of thinking
  - disease process
  - pathogens

A health history may include:

- History of any presenting problem (character, severity and duration of symptoms)
- Client concerns and beliefs regarding their problems
- Past health history, including use of alcohol, tobacco and other substances
- Previous surgery
- Medications being taken
- Allergies
- Family circumstances, including identifying environmental health factors that may contribute to client's health issues
- Basic dietary information, including diet history to determine nutrition and fluid intake

Factors responsible for abnormal readings may include:

- Differences in temperature measurements due to a range of internal and external body factors
- Effect of exertion and anxiety on pulse rate and blood pressure
- Faulty equipment or improper use of equipment
- Failure to correctly calibrate equipment
- Impact of environmental factors on equipment
- Surgical insult and anaesthesia
RANGE STATEMENT

Information provided to client may include:

- Information about potential impact of a range of internal and external factors on health
- Information on likely causes and management of uncomplicated health conditions.
- Information on strategies to maintain good health and manage chronic health problems
- Information on specific health issues and available health care services/treatments

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to respond effectively to behaviours of concern in clients and others

These skills are associated with handling difficult incidents rather than managing ongoing behaviours

Application of the Unit

Application

The unit will be suitable for work roles such as Security Officers, Care Assistance Workers and others exposed to behaviours of concern

Application of this unit should be contextualised to reflect any requirements, issues and practices specific to each workplace

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Client issues needing to be referred to an appropriate health professional
- OHS issues relating to difficult and challenging behaviour
- Organisation's reporting processes

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Effectively use techniques for monitoring own service area including client satisfaction
- Foresee and respond quickly and effectively to contingencies
- Identify when assistance is required
- Interpret and follow the instructions and guidance of health professionals involved with the care of client
- Maintain duty of care
- Maintain personal safety and the safety of others
- Monitor and/or maintain security equipment
- Remain alert to potential incidents of difficult or challenging behaviour
- Remain calm and positive in adversity
- Speak in a firm, diplomatic and culturally appropriate manner
- Think and respond quickly and strategically
- Use literacy skills in reading, writing and oral communication to fulfil job role in a safe manner and as specified by the organisation, including:
  - understand symbols used in OHS signs
REQUIRED SKILLS AND KNOWLEDGE

- read workplace safety pamphlets or procedure manuals and labels
- use appropriate verbal and non verbal communication styles
- ask questions
- provide clear information
- listen to and understand workplace instructions and clarify when necessary
- apply literacy skills as required in English or a community language.
- Use numeracy skills to complete basic arithmetic calculations such as addition, subtraction, multiplication, division to recording numbers
- Use problem solving skills to:
  - effectively utilise available resources
  - prioritise workload
- Work with others and display empathy with client and relatives

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace (simulating difficult or challenging behaviour) or in a simulated workplace and under the normal range of work conditions
- This unit can be assessed independently, but holistic assessment practice is encouraged with other related units of competency
- Assessment may be conducted on one occasion but should include a diverse range of sources of difficult and challenging behaviours, as may be expected in the workplace
- A diversity of assessment tasks is also essential for holistic assessment
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Planned responses may be based on:

- Established organisation procedures
- Knowledge of individual persons and underlying causes
- Own ability and experience
RANGE STATEMENT

Difficult or challenging behaviours may include:
- Aggression
- Confusion or other cognitive impairment
- Intoxication
- Intrusive behaviour
- Manipulation
- Noisiness
- Self-destructive
- Verbal offensiveness
- Wandering

Strategies for dealing with challenging behaviours may include:
- Diversional activities
- Following established emergency response procedures
- Referring to appropriate personnel eg supervisor, security officer

Selection of strategies for dealing with challenging behaviours may be based on:
- Established procedures and guidelines
- Potential effect on different parties, clients, staff and others
- The nature of the incident

Organisation policies and procedures may include:
- Debriefing of staff involved in incident
- Incident reporting and documentation
- Operational guidelines for handling incidents and/or cases involving difficult and challenging behaviour

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to connect to the internet, securely send and receive emails, search the internet using web browsers and interact securely and in a socially responsible manner with a range of different internet sites.

Application of the Unit
This unit applies to individuals who use business technology to perform a range of routine tasks in the workplace or home office. They use fundamental knowledge of internet connection requirements, email and web browsers to perform tasks under direct supervision or with limited responsibility.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement but users should confirm requirements with the relevant federal, state or territory authority.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
## Elements and Performance Criteria Pre-Content

<table>

<tbody>
<tr>
<td>Elements describe the essential outcomes of a unit of competency.</td>
<td>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</td>
</tr>
</tbody>
</table>
## Elements and Performance Criteria

| 1. Connect to and access the internet | 1.1 Connect to the internet through the existing **internet connection** and confirm functionality |
| 1.2 Open an **internet browser** and set a home page of personal choice by setting **internet options** |
| 1.3 Ensure internet **browser software security** |
| 1.4 Adjust the display of the internet browser to suit personal requirements |
| 1.5 Modify toolbar to meet user and internet browser needs |
| 1.6 Access a particular website, note privacy and other conditions of use and retrieve data |
| 1.7 Use **socially responsible behaviour** when sharing information on the internet |
| 1.8 Enter uniform resource locator (URL) in address line of internet browser |
| 2. Use email for communications | 2.1 Open email application package, create new email message and add addressees |
| 2.2 Compose the text of an email message according to **organisational guidelines** and spell check and edit text as required |
| 2.3 Create and add an automatic signature for the user |
| 2.4 Attach **files** to the email message where required |
| 2.5 Determine and set a priority and send the email message |
| 2.6 Reply to and forward a received message using available features |
| 2.7 Open and save an attachment to the relevant folder |
| 2.8 Search for, sort and save email message using available settings |
| 2.9 Adjust email accounts to restrict and quarantine possible **email security** problems |
| 2.10 Print an email message as required |
| 3. Search the internet | 3.1 Review organisational guidelines on internet access  
| | 3.2 Open an internet application and locate and access a **search engine** on the internet and define search expressions based on the data required  
| | 3.3 Enter appropriate key words into the search engine to locate the desired information  
| | 3.4 Refine a search depending on outcomes of the original search  
| | 3.5 Save search expression results and present them in a report according to the information requirements  
| | 3.6 Create a bookmark within the internet browser or a link for the required web page for the key results  
| | 3.7 Save the key results in a bookmark folder  
| | 3.8 Modify the internet browser options for printing and print a web page  
| | 3.9 Close the internet browser  

| 4. Access and use consumer-specific sites on the internet | 4.1 Identify, access and review information-specific sites to gain consumer information  
| | 4.2 Identify and use **internet application sites** to lodge details and gain access and information  
| | 4.3 Access and use online forms on the internet  

| 5. Undertake online transactions | 5.1 Access an online transaction site  
| | 5.2 Ensure security of transaction site  
| | 5.3 Enter required information into fields on merchant's website  
| | 5.4 Ensure that pop-up dialog boxes, prompts or feedback mechanisms are completed  
| | 5.5 Enter, check and make changes to preferred **transaction options**  
| | 5.6 Complete online transaction  
| | 5.7 Record and archive receipts according to business processes  
| | 5.8 Close down and leave transaction process  

## 6. Conduct an advanced search

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>6.1 Use search tools and advanced search features</td>
<td></td>
</tr>
<tr>
<td>6.2 Use <strong>Boolean search</strong> techniques when required to enhance the search</td>
<td></td>
</tr>
<tr>
<td>6.3 Use multiple or meta-search tools with a range of keywords</td>
<td></td>
</tr>
<tr>
<td>6.4 Use search engines particular to a field of knowledge to refine the outcome</td>
<td></td>
</tr>
<tr>
<td>6.5 Access related virtual community sites and newsgroups and note their objectives and operational arrangements</td>
<td></td>
</tr>
<tr>
<td>6.6 Conduct a search with domain names to refine the search</td>
<td></td>
</tr>
</tbody>
</table>

## 7. Use information that has been located

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>7.1 Cross-reference information found by using several websites to determine accuracy of information obtained</td>
<td></td>
</tr>
<tr>
<td>7.2 Check date that website was last updated or properties of website to determine currency of information</td>
<td></td>
</tr>
<tr>
<td>7.3 Determine website authority by looking at copyright statements, privacy statements and organisational information</td>
<td></td>
</tr>
<tr>
<td>7.4 Save and print information found in different file forms</td>
<td></td>
</tr>
</tbody>
</table>
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - communicate with peers and supervisors
  - seek assistance and expert advice
  - undertake online transactions
- literacy skills to:
  - compose email messages
  - interpret user manuals and help functions
  - read and interpret basic online documents
  - read and write basic workplace documents
- problem-solving skills to address common operational problems when using web browsers
- research skills to locate varied sources of information online
- technical skills to use:
  - digital device
  - email applications
  - internet search functions
  - peripheral hardware
  - keyboard to enter text into web browsers and email applications.

Required knowledge

- basic technical terminology related to reading help files and prompts
- basic knowledge of copyright and privacy statements
- different types of messages that occur, such as:
  - error messages
  - message to install plug-ins
- different types of search engines
- procedures for using email applications
- procedures for evaluating and assessing the authority, reliability and authenticity of information
- internet search functions
- internet speed, traffic loads related to times of accessing the internet
- internet web browsers
- makeup and structure of internet addresses
- organisational guidelines on internet and email use (web etiquette or netiquette)
- different internet search techniques
- web browser update techniques
- use of key words and bookmarks.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

| Indigenous people and other people from a non-English speaking background may need additional support.  
| In cases where practical assessment is used it should be combined with targeted questioning to assess required knowledge. |
## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Internet connection may include: | • 3G or high-speed downlink packet access (HSDPA) cellular network  
• 4G cellular network  
• broadband  
• cable  
• dial-up  
• digital subscriber line (DSL)  
• fibre to the ‘x’ (FTTx)  
• high-speed digital subscriber line (HSDSL)  
• integrated services digital network (ISDN) network terminating unit (NTU)  
• satellite  
• wireless modem  
• worldwide interoperability for microwave access (WiMAX). |
| Internet browser may include: | • Firefox  
• Galleon  
• Google Chrome  
• Internet Explorer  
• Konqueror  
• Lynx  
• Mozilla  
• Netscape Navigator  
• Opera  
• Phoenix. |
| Internet options may include: | • configuring:  
• history  
• home page  
• location of temporary files  
• privacy level  
• security level  
• type of connection. |
| Browser software | • application enabling  
• cookie handling |
### Security may include:
- pop-up blocking
- privacy levels
- security zones
- trusted sites.

### Socially responsible behaviour may relate to:
- not using obscene, profane, lewd, vulgar, rude, inflammatory or threatening language
- not publishing information that, if acted upon, could cause damage to property or persons, nor publish deliberately false or defamatory information about a person or organisation
- not engaging in personal attacks, including prejudicial or discriminatory attacks, not harass (distress or annoy) another person
- not accessing material that is profane, obscene, pornographic or paedophilic, that promotes illegal acts, or that advocates violence or discrimination
- not sending inappropriate emails
- taking responsibility for protecting personal information by not revealing personal information, including names, addresses, photographs, credit card details and telephone numbers.

### Organisational guidelines may include:
- content of emails
- downloading information and accessing particular websites
- opening mail with attachments
- personal use of emails and internet access
- virus risk (MS Windows OS and Mac OS only).

### Files may include:
- email messages
- HTML pages
- music
- PDF files
- pictures
- text files.

### Email security may relate to:
- taking steps to restrict:
  - malware
  - phishing
  - spam.

### Search engine may include:
- Alexa Internet
- AllTheWeb
- AltaVista
- Bing
- Cuil
- Excite
- Galaxy
- GigaBlast
- Go.com
- Google
- HotBot
- Live Search
- Lycos
- search.AOL
- specific search engines
- Yahoo.

**Internet application sites** may include:

- consumer:
  - banking
  - shopping
  - education and training
  - government
  - health
  - interest groups
  - news
  - travel.

**Transaction options** may include:

- currency
- delivery address
- freight
- invoice address.

**Boolean search** may include terms:

- AND
- OR
- NOT
- NAND
- NOR
- NE
- GE
- LE
- GT
- LT.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to operate presentation applications and perform basic operations, including creating, formatting and adding effects to presentations.

Application of the Unit

This unit applies to individuals employed in a range of work environments who create electronic presentations.

Presentations are an important form of communication and marketing used by organisations to convey information. They may be formal or informal.

An individual demonstrating this competency will be able to present a set range of data in a simple and direct format using a presentation package.

Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement but users should confirm requirements with the relevant federal, state or territory authority.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.
## Elements and Performance Criteria Pre-Content

<table>

</tr>
</tbody>
</table>
### Elements and Performance Criteria

| 1. Create presentations | 1.1 Open a presentation package application and create a simple design for a presentation according to organisational requirements  
1.2 Open a blank presentation and add text and graphics  
1.3 Apply existing styles within a presentation  
1.4 Use presentation template and slides to create a presentation  
1.5 Use various *tools* to improve the look of the presentation  
1.6 Save presentation to directory |
|----------------------------|---------------------------------------------------------------------------------------------------|
| 2. Customise basic settings | 2.1 Adjust display to meet *user requirements*  
2.2 Open and view different *toolbars* to view options  
2.3 Ensure *font settings* are appropriate for the purpose of the presentation  
2.4 View multiple slides at once |
| 3. Format presentations | 3.1 Use and incorporate organisational charts and bulleted lists, and modify as required  
3.2 Add *objects* and manipulate to meet presentation purposes  
3.3 Import objects and modify for presentation purposes  
3.4 Modify slide layout, including text and colours, to meet presentation requirements  
3.5 Use *formatting tools* as required within the presentation  
3.6 Duplicate slides within and across a presentation  
3.7 Reorder the sequence of slides and delete slides for presentation purposes  
3.8 Save presentation in another *format*  
3.9 Save and close presentation to *storage device* |
| 4. Add slide show effects | 4.1 Incorporate preset animation and multimedia effects into presentation as required to enhance the presentation  
4.2 Add slide transition effects to presentation to ensure smooth progression through the presentation  
4.3 Test presentation for overall effect  
4.4 Use onscreen navigation tools to start and stop slide show or move between different slides as required |
| 5. Print presentation and notes | 5.1 Select appropriate *print format* for presentation  
5.2 Select preferred slide orientation |
5.3 Add notes and slide numbers
5.4 Preview slides and run spell check before presentation
5.5 Print the selected slides and submit presentation to appropriate person for feedback

**Required Skills and Knowledge**

*This section describes the skills and knowledge required for this unit.*

**Required skills**

- communication skills to:
  - communicate with peers and supervisors
  - seek assistance and expert advice
- literacy skills to:
  - interpret user manuals and help functions
  - read and write basic workplace documents
- problem-solving skills to address common operational problems when operating a presentation package
- technical skills to operate a personal computer (PC).

**Required knowledge**

- basic technical terminology to read help files and prompts
- different types of:
  - formal and informal presentations
  - audience types
- effect of design features on readability and appearance of electronic presentations
- presentation pitfalls
- use of suitable presentation effects for different audiences.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

</tbody>
</table>

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to operate spreadsheet applications and perform basic operations, including creating and formatting spreadsheet data, incorporating charts and objects, and customising and printing spreadsheets.

Application of the Unit

This unit applies to individuals who perform a range of routine tasks in the workplace using a fundamental knowledge of spreadsheets under direct supervision or with limited responsibility.

The use of spreadsheets for business and mathematical applications is widespread. In some cases, spreadsheets can operate as sophisticated computerised ledgers and enable the collation, manipulation and presentation of complex data.

Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement but users should confirm requirements with the relevant federal, state or territory authority.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.
### Elements and Performance Criteria Pre-Content

<table>
<thead>
<tr>
<th>Element</th>
<th>Performance Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elements describe the essential outcomes of a unit of competency.</td>
<td>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</td>
</tr>
</tbody>
</table>
## Elements and Performance Criteria

| 1. Create spreadsheets | 1.1 Open spreadsheet application, create spreadsheet files and enter numbers, text and symbols into cells according to information requirements  
1.2 Enter *simple formulas and functions* using cell referencing where required  
1.3 Correct formulas when error messages occur  
1.4 Use a range of common tools during spreadsheet development  
1.5 Edit columns and rows within the spreadsheet  
1.6 Use the auto-fill function to increment data where required  
1.7 Save spreadsheet to directory or folder |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2. Customise basic settings | 2.1 Adjust page *layout* to meet user requirements or special needs  
2.2 Open and view different *toolbars*  
2.3 Change *font settings* so that they are appropriate for the purpose of the document  
2.4 Change *alignment* options and line spacing according to spreadsheet *formatting features*  
2.5 *Format* cell to display different styles as required  
2.6 Modify margin sizes to suit the purpose of the spreadsheets  
2.7 View multiple spreadsheets concurrently |
| 3. Format spreadsheet | 3.1 Use formatting features as required  
3.2 Copy selected formatting features from another cell in the spreadsheet or from another active spreadsheet  
3.3 Use *formatting tools* as required within the spreadsheet  
3.4 Align information in a selected cell as required  
3.5 Insert headers and footers using formatting features  
3.6 Save spreadsheet in another format  
3.7 Save and close spreadsheet to *storage device* |
| 4. Incorporate object and chart in spreadsheet | 4.1 Import an object into an active spreadsheet  
4.2 Manipulate imported *object* by using formatting features  
4.3 Create a chart using selected data in the spreadsheet  
4.4 Display selected data in a different chart  
4.5 Modify chart using formatting features |
5. Print spreadsheet

<table>
<thead>
<tr>

<td></td>
<td>5.3 Print spreadsheet or selected part of spreadsheet</td>
</tr>
<tr>
<td></td>
<td>5.4 Submit the spreadsheet to <em>appropriate person</em> for approval or feedback</td>
</tr>
</tbody>
</table>

**Required Skills and Knowledge**

*This section describes the skills and knowledge required for this unit.*

**Required skills**

- communication skills to:
  - communicate with peers and supervisors
  - seek assistance and expert advice
- literacy skills to:
  - interpret user manuals and help functions
  - read and write basic workplace documents
- numeracy skills to enter simple formulas into spreadsheet
- problem-solving skills to address common operational problems when using spreadsheet applications
- technical skills to:
  - operate a personal computer (PC)
  - use a keyboard to enter text and numerical data.

**Required knowledge**

- basic technical terminology related to reading help files and prompts
- formatting styles and their effect on formatting, readability and appearance of spreadsheets
- log-in procedures relating to accessing a PC
- purpose, use and function of spreadsheet application.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

</table>
background may need additional support.

In cases where practical assessment is used it should be combined with targeted questioning to assess required knowledge.
## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| **Simple formulas and functions** may include: | • addition  
• division  
• multiplication  
• subtraction  
• application of the above to a series of cells. |
|---|---|
| **Tools** may include: | • help  
• search and replace  
• simple formatting tools  
• spell check  
• undo. |
| **Edit** may relate to: | • adding  
• copying  
• deleting  
• moving  
• pasting  
• selecting. |
| **Data** may include: | • symbols added to the document  
• text added to the document. |
| **Layout** may include: | • display modes  
• orientation  
• size. |
| **Toolbars** may contain: | • buttons  
• menus  
• a combination of both. |
| **Font settings** may include: | • colour  
• size  
• type. |
| **Alignment** may refer to: | • centred  
• justified  
• left  
• right. |
| **Formatting features** may include: | • bold  
• hyphenation |
- italics
- underline.

**Format** may refer to:
- saving the spreadsheet as another type of document:
  - comma separated values or text
  - HTML
  - XML.

**Formatting tools** may include:
- menu commands within the application:
  - copy
  - cut
  - help
  - paste
  - search and replace
  - spell check
  - undo.

**Storage device** may include:
- disks:
  - CD
  - DVD
  - blu-ray
- external hard drive, such as universal serial bus (USB) flash drive
- internal hard drive
- web storage area.

**Object** may include:
- items that can be inserted into the spreadsheet, such as:
  - other documents
  - pictures
  - sound.

**Appropriate person** may include:
- authorised business representative
- client
- supervisor.

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to operate a personal computer (PC) in a home or small office environment. This entry level unit provides the learner with information technology (IT) literacy skills in setting up a personal computer, accessing files with application programs, sending and retrieving emails, using the internet, using peripheral devices, such as printers, scanners, webcams and data projectors, applying basic security procedures and power-management settings, and backing up and shutting down a personal computer.

Application of the Unit

This unit applies to workers who require the IT literacy skills to operate a personal computer in a small office environment, such as hospitality industry, real estate office, medical centre and school office.

Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement but users should confirm requirements with the relevant federal, state or territory authority.

Pre-Requisites

Not applicable.

Employability Skills Information

This unit contains employability skills.
## Elements and Performance Criteria Pre-Content

<table>

</tr>
</tbody>
</table>
# Elements and Performance Criteria

| 1. Prepare to use the personal computer | 1.1 Identify *physical components* and associated *peripheral devices* of the *personal computer* to become familiar with the available network  
1.2 Check physical *connectivity* of devices to ensure correct operation and performance  
1.3 Boot up and follow *procedures* to activate the computer |
|---|---|
| 2. Manage computer configurations | 2.1 Alter the computer *settings* to best suit the user  
2.2 Configure *power-management settings* to minimise power consumption as an environmentally sustainable measure  
2.3 Identify *operating system* and the *application programs* loaded on the computer to determine computer capability  
2.4 Conduct basic software installation and removal to improve computer capability  
2.5 Navigate and manipulate desktop environment to create and customise desktop icons and access application programs |
| 3. Access and use basic application programs | 3.1 Open a folder with file documents containing *basic office applications*, make *minor changes* and save in a different folder  
3.2 Send and retrieve a simple email message using the desktop icon to communicate with other parties  
3.3 Access the internet using the web browser to view and conduct basic web information search  
3.4 Use firewall and antivirus and malware scans to reduce *security risks and threats* in the system |
| 4. Access and use basic peripheral devices | 4.1 Access external storage devices to retrieve, copy, move and save information in different mediums and locations  
4.2 Use *printer settings* on an installed printer to print a document  
4.3 Access *audiovisual (AV) devices* to view and play a multimedia file |
| 5. Shut down computer | 5.1 Back up important documents and programs to minimise risk of data loss  
5.2 Save any work to be retained and close open |
application programs
5.3 Shut down computer and switch off any unused peripheral devices

**Required Skills and Knowledge**

*This section describes the skills and knowledge required for this unit.*

**Required skills**

- communication skills to:
  - communicate with peers and supervisors
  - read and write basic workplace documents
  - seek assistance and expert advice
- literacy skills to interpret user manuals and help functions
- technical skills to:
  - apply basic keyboarding skills
  - apply power-management settings
  - back up and save information
  - input user-access details for accessing a PC
  - install and remove software
  - manage mouse for different applications
  - save and retrieve files to and from various locations
  - send and retrieve emails
  - use peripheral and storage devices
  - use the internet.

**Required knowledge**

- basic parts of a computer and various hardware components
- basic software operation and application packages
- basic computer functions, including security functions
- peripheral devices
- storage devices.
Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

| **Method of assessment** | • appropriate learning and assessment support when required  
• personal computer, including printer, mouse, keyboard and monitor  
• use of basic software currently used in industry. |
| Where applicable, physical resources should include equipment modified for people with special needs. |

| Guidance information for assessment | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, where appropriate.  
Assessment processes and techniques must be culturally appropriate, and suitable to the communication skill level, language, literacy and numeracy capacity of the candidate and the work being performed.  
Indigenous people and other people from a non-English speaking background may need additional support.  
In cases where practical assessment is used it should be |
combined with targeted questioning to assess required knowledge.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Physical components may include: | • keyboard  
• monitor  
• mouse  
• processor. |
| Peripheral devices may include: | • AV device  
• external memory device  
• multicard reader and writer  
• network element:  
  • broadband router  
  • digital subscriber line (DSL) and cable modem  
  • hub  
  • wireless device  
• personal digital assistant (PDA) and MP3 player  
• printer  
• scanner  
• smartphone  
• tablet  
• uninterruptible power supply (UPS)  
• universal serial bus (USB) dongle, such as:  
  • Bluetooth  
  • flash memory  
  • wireless device. |
| Personal computer may include: | • communications system  
• desktop  
• laptop  
• server  
• workstation. |
| Connectivity may include: | • AV connection  
• cable, wireless, infra-red or Bluetooth connection  
• internal connection or USB dongle  
• network or stand-alone computer  
• ports:  
  • firewire |
### Procedures may include:

- fingerscan
- smartcard
- user name and password.

### Settings may include:

- monitor settings:
  - brightness
  - colour
  - contrast
- mouse settings:
  - buttons
  - speed.

### Power-management settings after a period of non-use may include:

- automatic power off
- hibernation settings
- monitor power-saver settings.

### Operating system may include:

- open source
- proprietary:
  - Mac
  - Unix or Linux
  - Windows.

### Application programs may include:

- email
- instant messaging
- internet or web browsers
- internet protocol (IP) voice applications, such as Skype
- media players
- office applications
- power-management software
- search engines
- Windows Explorer.

### Basic office applications may include:

- media files
- PowerPoint
- spreadsheets
- word processor.

### Minor changes may include:

- altering basic text
- renaming documents.

### Security risks and threats may include:

- security threats:
  - cookies media used for backup
- pop-ups
- screen visibility
- spam
- trojan horses
- unauthorised access:
  - adware
  - hackers
  - identity fraud
  - malware
  - phishing
  - spyware
- viruses
- web browser risks
- worms.

SISXRSK301A Undertake risk analysis of activities

Modification History
The release details of this endorsed unit of competency set are in the table below. The latest information is at the top.

<table>
<thead>
<tr>
<th>Release</th>
<th>Comments</th>
</tr>
</thead>
</table>
| 3       | Reduction of repetition.  
          | No changes to competency outcome. |

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to undertake a risk-analysis process in relation to an activity and in accordance with an organisation’s risk-management policies and procedures. In this context, the risk-analysis process is conducted using structured analysis methodology according to the current Australian and New Zealand Standard.

Application of the Unit
This unit applies to those who work in a range of roles and settings in the sport, fitness and recreation industry. This may include those working in after-school or holiday-care programs in a range of locations, in coaching activities or those undertaking a role in outdoor recreation activities, such as camps and other guided activities as well as indoor recreation and fitness activities.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
## Elements and Performance Criteria Pre-Content

**Elements and Performance Criteria**

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elements describe the essential outcomes of a unit of competency.</td>
<td>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</td>
</tr>
</tbody>
</table>
| 1. Establish the context of the risk analysis. | 1.1. Access the organisation’s *records* for the activity and location.  
1.2. Obtain applicable technical documentation.  
1.3. Access and clarify *risk-evaluation criteria*, as determined by the organisation’s risk-management policy and plan. |
| 2. Identify risks associated with an activity. | 2.1. Identify and document *potential sources of risk* for the specific activity and location.  
2.2. Consider and document areas of impact on the organisation.  
2.3. Consider and document possible causes of risk and hazards. |
| 3. Conduct risk analysis of an activity. | 3.1. Determine existing organisational controls for each risk according to *Work Health and Safety legislation* and industry best practice guidelines and standards.  
3.2. Assess the likelihood of any given risk turning into an accident, injury or loss.  
3.3. Assess the consequences of particular incidents in order to determine the degree of emphasis to be placed on the risk.  
3.4. Analyse the likelihood and consequences of particular risks and *classification of risk*. |
| 4. Undertake risk assessment of an activity. | 4.1. Compare the level of risk established during the analysis process with previously established risk-evaluation criteria.  
4.2. Rank or prioritise risks for further action, taking account of the wider context of the risk.  
4.3. Consider the objectives of the organisation and the extent of opportunity which could result from taking the risk.  
4.4. Accept risks that fall into the low or acceptable
### ELEMENT

### PERFORMANCE CRITERIA

Categorise risks without further treatment.

5. **Treat risks associated with an activity.**
   
   5.1. Identify specific *risk-treatment options* applicable to risks that fall outside the low or acceptable categories.
   
   5.2. *Evaluate* risk-treatment options according to the organisation’s *risk-management plan*.
   
   5.3. Document the activity-specific risk-treatment plan.
   
   5.4. Implement the risk-treatment plan prior to and during the activity.

6. **Monitor and review the risk management of an activity.**
   
   6.1. Document risk analysis, evaluation and treatment options.
   
   
   6.3. Repeat the risk analysis of the activity regularly to ensure the risk-treatment plan remains relevant.
   
   6.4. Make changes to the conduct of an activity, where required, in accordance with review recommendations.
   
   6.5. Implement recommendations of the organisation’s risk audit in future risk analysis of the activity.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- problem-solving skills to:
  - identify and assess hazards, level of risk and treatment options
  - develop appropriate strategies to manage risks for an activity, within the parameters of the organisational risk-management plan
- planning and organising skills to:
  - develop, implement and monitor a systematic risk-management plan for an activity
  - make changes in response to risk-management plan
- literacy and numeracy skills to:
  - access and analyse required risk-assessment information
  - document a risk-management plan for a specific activity
- communication skills to:
  - contribute to risk-management review
  - consult with relevant personnel to implement review recommendations.

Required knowledge

- organisation risk-management procedures to enable risks associated with activities to be assessed and addressed so that activities can be undertaken safely
- legislation and organisation policies and procedures to enable risk identification and assessment for relevant activities and identification of the legal responsibilities associated with risk-management
- sport, fitness and recreation industry risk-management standards and best practice guidelines for selected activity to inform selection of risk treatment options
- hierarchy of controls to enable the most appropriate and viable risk-treatment options to be applied to activities
- hazards associated with specific activities and locations to enable effective risk-treatment options to be identified for the activity and location
- risk-assessment principles and methodology
- common risk-management terminology, such as risk, risk-management, hazard, risk analysis and risk-management plan
- equipment design limits and effects of operating outside design limits
- risk-evaluation criteria to enable level of risk to be assessed accurately.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:
- work effectively and professionally within organisation risk-management systems and objectives and comply with legislative requirements to undertake risk assessments that are appropriate for specific activities and locations
- work within parameters of own job role and responsibilities to assess, select and where appropriate resource viable risk-treatment options; and develop and implement a risk-treatment plan consistent with organisation policies and procedures within required timeframes
- document and monitor the risk-treatment plan and contribute to the review of processes and outcomes
- access and clarify information to inform application of risk-analysis procedures.
- Due to issues such as differences in risk associated with different client groups, different equipment, different locations and different environmental conditions, this unit of competency must be assessed through the analysis of risk associated with more than one activity (or one activity with different client groups and or in different locations) in order to ensure consistency of performance over the range statement and contexts applicable to risk analysis of activities.

Context of and specific resources for assessment

Assessment must ensure:
- development and implementation of a risk-treatment plan for specific activities relevant to the individual’s current or intended work environment to demonstrate competency and consistency of performance.

Assessment must also ensure access to:
- an environment or facility appropriate to the specific activity
- support staff, locations and resources to implement
risk-control measures
- organisation policies and procedures related to risk analysis of activities
- organisation reporting requirements.

**Method of assessment**
A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:
- observation of applying organisational risk-analysis procedures to activities and locations
- oral and or written questioning to assess the knowledge of risk-analysis techniques and evacuation skills in relation to risk-assessment methodologies
- third-party reports from a supervisor detailing work performance over multiple applications
- portfolio of records and reports documenting risk-treatment plans and outcomes.

**Guidance information for assessment**
Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:
- SISFFIT304A Instruct and monitor fitness programs
- SISOODR303A Guide outdoor recreation sessions
- SISXCAI303A Plan and conduct sport, and recreation sessions.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Records** may include:
- equipment maintenance history
- maintenance schedule
- incident reports
- injury statistics or records
- failure reports
- equipment or activity specific policies or procedures.

**Risk-evaluation criteria** may include:
- legislation
- regulations
- Australian Standards
- organisational policies, aims and objectives
- operating procedures and guidelines.

**Potential sources of risk** may include:
- physical
- chemical
- environmental
- psychological
- financial, commercial and legal
- behavioural.

**Work health and safety legislation** include:
- hazards and risks
- emergency response
- consultation and participation.

**Classification of risk** may include:
- diseases
- economic perils
- environmental
- financial
- human perils
- natural perils
- Work Health and Safety product liability
- professional liability
- property damage
- public liability
- security
- technology.

**Risk-treatment options** may include:
- avoidance
include:
- reduction
- transfer
- finance
- acceptance.

*Evaluate* may include:
- extent of risk reduction
- extent of benefits or opportunities created
- taking into account the risk-evaluation criteria.

*Risk-management plan* may include:
- objectives
- equipment and resources
- contingencies.

*Risk-treatment plan* may include:
- implementation details
- responsibilities
- schedules
- expected outcome
- budgeting
- performance measures
- review process.

**Unit Sector(s)**
Cross-Sector.

**Competency Field**
Risk Management.

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to plan and evaluate meals and menus in a manner that meets the cultural and religious needs of client groups.

Application of the Unit

Application

Work performed requires a range of well developed skills where some discretion and judgement is required.

Individual will take responsibility for their own outputs and may participate in work teams.

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

**ELEMENT**

1. Plan meals and menus to meet food-related cultural and religious needs of client groups

   **PERFORMANCE CRITERIA**

   1.1 Identify client group and use correct terminology

   1.2 Consider cultural groups and general characteristics of their cuisine during meal and menu planning

   1.3 Identify factors that may influence food choices

   1.4 Identify dietary regimes associated with cultural and religious groups

   1.5 Observe cultural customs

2. Modify existing menus to meet food-related cultural and religious needs of client groups

   2.1 Plan and modify menus to meet cultural and religious needs of the client group

   2.2 Incorporate sufficient choice into menus

Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Australian Dietary Guidelines
- Basic cooking methods and equipment
- Basic knowledge of food preparation and food service systems
- Basic principles of nutrition
- Basic principles of nutrition, diet therapy, nutrition supplements and factors that place clients at risk of malnutrition and inadequate hydration
- Common fluid and food restrictions
- Costing (portion size, mathematics) procedures
- Infection control policy and procedures relevant to food service provision
- Work health and safety (WHS) work practices relevant to the specific workplace and in accordance with relevant state/territory/national legislation
- Planning and evaluating meals and menus
- Range of menus and menu items
- Requirements of certain menus
- Standardised recipes
- Various cultural requirements in relation to food, relevant to the profile of the community served by the organisation
- Work organisation methods

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Identify and develop meals and menus that meet specific cultural and religious needs of client groups
- Communicate constructively with clients and other staff to ensure best service

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Plan and evaluate meals and menus
- Demonstrate safe food handling practices
- Use numeracy skills ranging from the ability to complete basic arithmetic calculations to the collating to recording of numbers and costing of menus
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

**Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this competency unit:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations
Concurrent assessment and relationship with other units:

This unit can be assessed independently, however it may be assessed in conjunction with:

- HLTNA303B Plan and modify menus according to special dietary needs

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - Food safety and HACCP procedure manuals
  - Manufacturers/ manuals and recommendations for equipment
  - Food packaging and storage requirements
  - WHS, cultural diversity and other relevant legislation
  - Work plan
  - Enterprise policy, mission statements, procedures

Method of assessment:

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Cuisine of cultural groups within Australian society includes, but is not limited to:
- Aboriginal and Torres Strait Islander
- Asian
- European
- Indian
- Mediterranean
- Mexican
- South American
- South Pacific Islander
- African

Religious groups within Australian society who may follow particular dietary restrictions include but are not limited to:
- Jewish
- Hindu
- Muslim
- Some Christian denominations eg Seven Day Adventist

Factors influencing food choices include but are not limited to:
- Availability and accessibility
- Familiarity
- Beliefs and values
- Food advertising
- Cultural preferences

Food-related religious needs include but are not limited to:
- Kosher
- Halal
- Hindu (vegetarian - ovo-lacto, lacto or vegan)

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to develop meals and menus to meet the nutrition requirements of specific client groups

Application of the Unit

Application

This work is undertaken under the direction of a dietitian

Work performed requires a range of well developed skills where some discretion and judgement is required

Individuals will take responsibility for their own outputs and may participate in work teams

Licensing/Regulatory Information

Not Applicable
Pre-Requisites
Not Applicable

Employability Skills Information

Employability Skills  This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify *conditions requiring a nutrition care plan* most commonly encountered by the client group | 1.1 Identify food service systems  
1.2 Identify the conditions commonly encountered by the client group requiring a nutrition care plan or dietary modification  
1.3 Identify *nutrient imbalance* contributing to common lifestyle diseases and disorders  
1.4 Identify dietary factors associated with common lifestyle diseases/diet related chronic diseases and other nutrition-related conditions, food intolerances, allergies |
| 2. Identify the special nutritional and dietary needs of client groups | 2.1 Identify special nutritional and dietary needs for conditions encountered by the client group  
2.2 Report identified dietary and nutrition needs to the dietitian |
ELEMENT

3. Develop or modify meals and menus to meet the special nutritional and dietary needs of client groups

PERFORMANCE CRITERIA

3.1 Plan and modify meals and menus to meet the nutritional and dietary needs of the client group, using standard guidelines

3.2 Assess meals and menus for their suitability for *texture modification* to meet special nutritional and dietary needs, using standard guidelines

3.3 Consult with dietitian about the special nutritional and dietary needs of client groups

3.4 Incorporate sufficient choices of dishes and drinks in to menus for special needs, using standard guidelines

4. Plan meals to meet the nutritional needs of 'at risk' groups

4.1 Identify *groups 'at risk'* of nutritional deficiencies

4.2 Identify the nutritional needs of 'at risk' groups, and note the differences to 'well' population

4.3 Plan meals to meet the nutritional needs of 'at risk' groups

Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Australian Dietary Guidelines
- Basic cooking methods and equipment
- Basic knowledge of food preparation and food service systems
- Planning and evaluating meals and menus
- Basic principles of nutrition
- Basic principles of nutrition, diet therapy, nutrition supplements and factors that place clients at risk of malnutrition and inadequate hydration
- Common fluid and food restrictions
- Costing (portion size, mathematics) procedures
Infection control policy and procedures relevant to food service provision
Work health and safety (WHS) work practices relevant to the specific workplace and in accordance with relevant state/territory/national legislation
Other relevant dietary guidelines
Range of menus and menu items
Requirements of certain menus
Standardised recipes
Various cultural requirements in relation to food, relevant to the profile of the community served by the organisation
Work organisation methods

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Communicate constructively with clients and other staff to ensure best service
- Identify and assist in developing a care plan for particular client groups
- Modify meals and menus according to specific nutritional and dietary needs

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Demonstrate safe food handling practices
- Plan and evaluate meals and menus
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility
- Use numeracy skills that may range from the ability to complete basic arithmetic calculations to the collating to recording of numbers and costing of menus

**Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
**Critical aspects for assessment and evidence required to demonstrate this competency unit:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

**Concurrent assessment and relationship with other competency units:**

This unit can be assessed independently, however it may be assessed in conjunction with:

- HLTNA301B Provide assistance to nutrition and dietetic services
- HLTNA304C Plan meals and menus to meet cultural and religious needs

**Context of and specific resources for assessment:**

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - food safety and HACCP procedure manuals
  - manufacturers' manuals and recommendations for equipment
  - food packaging and storage requirements
  - WHS, cultural diversity and other relevant legislation
  - work plan
  - enterprise policy, mission statements, procedures

**Method of assessment:**

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

*Conditions requiring dietary modification include but are not limited to:*

- Acquired brain injury
- Cancer
- Chewing/swallowing difficulties
- Coeliac disease
- Constipation
- Diabetes
- Food allergies and intolerance's
- Gastro-intestinal disorders
- Heart disease
- HIV/AIDS
- Hypertension
- Malnutrition
- Overweight and obesity
- Poor dental health
- Renal disease
- Stroke

*Other nutrition-related conditions include, for example:*

- Absence of teeth or poorly fitting dentures
- Coeliac disease
- Constipation
- Iron deficiency anaemia
- Poor appetite

*Nutrient imbalance may include but is not limited to:*

- Food intake patterns
- High fat and/or cholesterol
- Low fibre
- Low Kjs
- Low fluid
- High salt
- High sugar
- Excess kilojoules
RANGE STATEMENT

Special dietary needs include but are not limited to:

- Allergy/food intolerance diets (e.g. lactose-free)
- Fluid diets
- Gluten-free
- High energy, high protein
- Modified energy
- Modified fat
- Modified fibre
- Modified protein
- Modified sodium (or more rarely potassium)
- Texture modified

Texture modification may include:

- Food textures:
  - unmodified
  - texture A (soft)
  - texture B (minced and moist)
  - texture C (smooth puree)
- Thickened fluids:
  - unmodified fluids (regular)
  - level 150 (mildly thick)
  - level 400 (moderately thick)
  - level 900 (extremely thick)

Nutritional requirements of 'at risk' client groups may include but are not limited to:

- Specific requirements for common lifestyle related diseases/disorders such as diabetes, heart disease, obesity, hypertension, dental caries, and constipation
- High energy and/or high protein for those with:
  - inadequate dietary intake
  - poor appetite
  - unintentional weight loss
  - increased energy needs due to illness
- Nutritional imbalances such as food intake patterns, high fat and/or cholesterol, low fibre, high salt, high sugar, excess kilojoules
RANGE STATEMENT

'At risk' groups may include but are not limited to:

- Low socio-economic status
- Older persons
- People with disabilities
- Extended care
- Aboriginal and Torres Strait Islander people
- Pregnant women
- Those with acute or chronic diseases/disorders requiring dietary management

Unit Descriptor

Descriptor

This unit deals with the provision of advanced first aid response, life support, management of casualty(s), the incident and other first aiders, until the arrival of medical or other assistance, and provision of support to other providers.

This unit builds on HLTFA311A: Apply first aid to include additional skills and use of a range of equipment.

Application of the Unit

Application

These skills and knowledge may be applied in a range of situations, including community and workplace settings.

Training Package users should ensure implementation is consistent with any specific workplace and/or relevant legislative requirements in relation to first aid, including State/Territory requirements for currency.

Application of these skills and knowledge should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries.

Competency outcomes in advanced resuscitation must be equivalent to unit:
• HLTFA404C Apply advanced resuscitation techniques

Licensing/Regulatory Information
Not Applicable

Pre-Requisites
Pre-requisite units

Elements and Performance Criteria Pre-Content
Elements define the essential outcomes of a unit of competency.
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assess the situation | 1.1 Identify, assess and minimise hazards that may pose a risk of injury or illness to self and others  
1.2 Assess risks to first aider and others and determine appropriate response to ensure prompt control of situation  
1.3 Ascertain and prioritise need(s) for emergency services/medical assistance and undertake triage where required  
1.4 Deploy resources to appropriate locations as required in line with workplace procedures |
| 2. Manage the casualty(s) | 2.1 Determine and explain the nature of casualty's injury/condition and relevant first aid procedures to provide comfort  
2.2 Respond to the casualty in a culturally aware, sensitive and respectful manner  
2.3 Seek consent for management of the casualty's injury/illness from person(s) where relevant  
2.4 Determine and implement welfare procedure according to casualty(s) needs  
2.5 Control effects of injury and determine and apply appropriate first aid management to meet the needs of the casualty and situation  
2.6 Assist with self-medication in accordance with State/Territory regulations, legislation and policies and manufacturer's/supplier's instructions subject to casualty's regime  
2.7 Monitor casualty’s condition and respond in a timely manner in accordance with established first aid principles and procedures  
2.8 Correctly operate basic life support equipment according to relevant legislation and manufacturer's/supplier's instructions  
2.9 Apply safety procedures for operation of pressurised gases  
2.10 Use safe manual handling techniques  
2.11 Finalise casualty management according to casualty's needs and first aid principles |
## ELEMENT

### PERFORMANCE CRITERIA

3. Coordinate first aid activities until arrival of medical assistance

<table>
<thead>
<tr>
<th>Performance Criterion</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1 Identify available <em>resources</em> required and establish communication links with appropriate personnel, emergency management services and medical assistance as appropriate</td>
</tr>
<tr>
<td>3.2 Deploy correct amount of <em>resources</em> to appropriate locations in an effective manner to ensure timely arrival of required resources</td>
</tr>
<tr>
<td>3.3 Document the provision of resources and recommend modifications as required</td>
</tr>
<tr>
<td>3.4 Monitor the condition of casualties in accordance with first aid principles and workplace procedures</td>
</tr>
<tr>
<td>3.5 Coordinate evacuation of casualties according to relevant evacuation procedures</td>
</tr>
<tr>
<td>3.6 Arrange support services for personnel involved in the incident in accordance with relevant principles and procedures</td>
</tr>
</tbody>
</table>

4. Communicate essential incident details

<table>
<thead>
<tr>
<th>Performance Criterion</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.1 Maintain communication with relevant personnel using appropriate media and equipment</td>
</tr>
<tr>
<td>4.2 Communicate first aid information with other providers/carers to meet their needs and in accordance with workplace procedures</td>
</tr>
<tr>
<td>4.3 Calmly provide information to reassure casualty, adopting a communication style to match the casualty’s level of consciousness</td>
</tr>
<tr>
<td>4.4 Prepare an incident report in line with organisation requirements</td>
</tr>
<tr>
<td>4.5 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisation policies</td>
</tr>
</tbody>
</table>
ELEMENT 5. Evaluate the incident

PERFORMANCE CRITERIA

5.1 Evaluate management of the incident and where required develop an action plan in consultation with relevant parties

5.2 Participate in debriefing/evaluation in order to improve future operations and address individual's needs

5.3 Formulate and review contingency planning to identify and select alternative management principles and procedures as required

Required Skills and Knowledge

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes a demonstrated understanding of:

- Awareness of stress management techniques and available support
- Complications and associated methods of management for conditions, based on a risk assessment relevant to the workplace or community setting of:
  - abdominal injuries
  - allergic reactions
  - altered and loss of consciousness
  - asthma
  - anaphylaxis
  - bleeding
  - burns – thermal, chemical, friction, electrical
  - cardiac arrest
  - chest pain
  - choking/airway obstruction
  - drowning
  - envenomation – snake, spider, insect and marine bites and stings
  - environmental impact such as hypothermia, hyperthermia, dehydration, heat stroke
  - injuries- cold and crush injuries; eye and ear injuries; head, neck and spinal injuries; minor skin injuries; needle stick injuries; soft tissue injuries including sprains, strains, dislocations, fractures
  - medical conditions, including cardiac conditions, epilepsy, diabetes, asthma and other respiratory conditions
  - pain relief
  - poisoning and toxic substances (including chemical contamination)
  - respiratory distress
  - seizures
• shock
• stroke
• substance misuse – common drugs and alcohol, including illicit drugs
• unconsciousness, not breathing or not breathing normally

• First aid management procedures in accordance with ARC Guidelines, guidelines of Australian national peak clinical bodies, State/Territory regulations, legislation and policies and organisation requirements including:
  • management of anaphylactic shock reaction
  • management of acute exacerbations of asthma
  • spinal care
  • use of AED, oxygen, bronchodilator
  • use of analgesic gases

• First aid management procedures may also relate to emergency childbirth

• Incident management procedures including:
  • awareness of confined spaces and dangerous places
  • basic triage for a multiple casualty incident
  • coordinate activities of other first aiders
  • manual handling, hazardous substances, dangerous goods or chemicals
  • removal of casualty to safe area, if appropriate
  • safe access to the casualty

• Safety procedures for the operation of pressurised gases

• Social issues, especially in particular workplace or community context(s) in which first aid is to be applied, including:
  • confidentiality
  • importance of debriefing
  • need to be culturally aware, sensitive and respectful
  • own skills and limitations

• State and regulatory requirements relating to currency of skill and knowledge

• Working knowledge of:
  • advanced resuscitation techniques as per HLTFA404C Apply advanced resuscitation techniques
  • ARC Guidelines, guidelines of Australian national peak clinical bodies and/or State/Territory regulations, legislation and policies relating to provision of first aid
  • basic anatomy (skeleton, muscles, joints, bones), physiology and toxicology
  • capabilities of emergency management services
  • company/organisation standard operating procedures (SOPs)
  • first aiders’ skills and limitations
  • how to gain access to and interpret Safety Data Sheets (SDS)
  • infection control principles and procedures, including using standard precautions
  • legal responsibilities and duty of care, including confidentiality
  • priorities of management in first aid
  • procedures for dealing with major and minor accidents in the workplace
  • safe storage and handling procedures for pressurised gases
  • work health and safety requirements in the provision of first aid.

**Essential skills:**
It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Administer medication in line with State/Territory regulations, legislation and policies and any available medical/pharmaceutical instructions
- Apply advanced resuscitation techniques as per HLTFA404C Apply advanced resuscitation techniques
- Call an ambulance and/or medical assistance according to relevant circumstances and report casualty’s condition
- Communicate effectively and assertively and show leadership in an incident
- Comply with WHS legislation
- Conduct an initial casualty assessment
- Demonstrate:
  - adequate infection control procedures
  - consideration of the welfare of the casualty
  - safe manual handling
  - safe storage and handling procedures for pressurised gases
- Demonstrate procedure for control of external bleeding
- Demonstrate procedure for management of airway in the unconscious casualty including the safe and effective use of any airway adjuncts
- Demonstrate proficiency in the safe and effective use of any fracture immobilisation equipment taught
- Demonstrate the application of first aid principles
- Demonstrate the correct posturing of a casualty
- Interpret and use listed documents
- Make prompt and appropriate decisions relating to managing an incident in the workplace
- Manage specific injuries/illnesses and conditions as identified in the Essential Knowledge for this competency unit
- Plan an appropriate first aid response in line with established first aid principles, policies and procedures, ARC Guidelines, guidelines of Australian national peak clinical bodies, State/Territory legislation and regulations and industry requirements and respond appropriately to contingencies in line with own skills
- Prepare a written incident report or provide information to enable preparation of an incident report
- Provide assistance with self-medication as per subject’s own medication regime and in line with State/Territory legislation, regulations and policies and any available medical/pharmaceutical instructions
- Use a range of first aid equipment as outlined in the Range Statement
- Use literacy and numeracy skills as required to read, interpret and apply guidelines

**Evidence Guide**

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the
EVIDENCE GUIDE

Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects of assessment:
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competence should be demonstrated working individually and, where appropriate, as part of a first aid team
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace or community setting
- Currency of first aid knowledge and skills is to be demonstrated in line with state/territory regulations, legislation and policies, ARC and industry guidelines

Method of assessment may include:
- Skills in performing first aid procedures are to be assessed through demonstration, with questioning to confirm essential knowledge
- Skills may be assessed through simulations, using anatomical models, manikins or in a high fidelity simulation centre
- For assessment purposes, demonstration of skills in CPR procedures requires using a model of the human body (resuscitation manikin) in line with ARC Guidelines

Access and equity considerations:
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Awareness of stress management techniques and available support
- Infection control principles and procedures, including use of standard precautions
- Principles for evaluating management options relating to transporting casualty and/or waiting for assistance
- Principles of identifying and preparing area for safe evacuation (including aero-medical evacuation)
- Principles of preparing for providing first aid in an area remote from ready assistance, including identifying and preparing supplies to address contingencies specific to different types of situation
- Understanding of WHS principles
- Working knowledge of communication systems, equipment and methods as available in the remote situation

**Essential skills:**

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Accurately listen to, clarify and apply medical instructions
- Administer medication under direct instruction from an authorised health worker and in accordance with State/Territory regulations, legislation and policies
- Communicate effectively and assertively and show leadership in an incident
- Conduct an initial casualty assessment in a remote situation
- Demonstrate:
  - adequate infection control procedures, including standard precautions
  - identification and preparation of area for safe evacuation (including aero-medical evacuation)
REQUIRED SKILLS AND KNOWLEDGE

- safe manual handling
- Evaluate available options for transporting or maintaining condition of casualty
- Improvise treatment and associated resources
- Interpret and use listed documents
- Make prompt and appropriate decisions relating to managing an incident in a remote situation
- Plan an appropriate first aid response in line with established first aid principles, policies and procedures, ARC Guidelines and/or state/territory regulations, legislation and policies and industry requirements and respond appropriately to contingencies in line with own level of skills and knowledge
- Prepare a written incident report or provide information to enable preparation of an incident report
- Transport casualty safely using available methods
- Undertake contingency planning in relation to providing a first aid response in a remote situation
- Use available communication methods and equipment to access medical assistance
- Use available resources effectively to manage pain
- Use literacy and numeracy skills as required to read, interpret and apply guidelines and protocols

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects of assessment:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competence should be demonstrated working individually and, where appropriate, as part of a first aid team
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace or community setting
- Currency of first aid knowledge and skills is to be demonstrated in line with State/Territory regulations, legislation and policies, Australian Resuscitation Council and industry guidelines
- Assessment should utilise aspects of actual or simulated remote situation relevant to work or community context

Method of assessment may include:

- Skills in performing first aid procedures are to be assessed through demonstration, with questioning to confirm essential knowledge
- Skills may be assessed through simulations, using anatomical models, manikins or in a high fidelity simulation centre

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Related unit: This unit should be assessed either after or in conjunction with achievement of the following related competency unit:

- HLTFA311A Apply first aid

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Contextualisation to address specific requirements may include:

- Focus on first aid management of specific types of injury
- First aid provision under specific constraints or circumstances (e.g. in confined spaces, in maritime work environment or in work environment involving identified risks/hazards)

Preparation for isolated/remote travel may include:

- Selection of relevant communication equipment
- Accessing relevant first aid supplies and resources to cater for environmental conditions
- Considering access/egress opportunities
- Notifying relevant authorities of travel plans

In remote/isolated situations consideration to travel or wait would depend upon:

- Severity of injury
- Time required for medical assistance to arrive
- Whether movement might hinder rescue
- Advice given by authorised health worker
- Whether contact with medical and/or emergency services has been achieved
RANGE STATEMENT

Documentation, especially in remote/isolated situations may include recording:

- Time
- Location
- Description of injury
- First aid management
- Fluid/oral intake/output, including fluid loss via:
  - blood
  - vomit
  - faeces
  - urine
- Administration of medication including time, date, person administering, dose
- Vital signs

Authorised health worker may include:

- Paramedic/ambulance officer
- General practitioner
- Nurse practitioner

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to prepare for and conduct projects in specific activity areas. It also involves undertaking contingency planning to enable the achievement of project outcomes.

Application of the Unit
This unit applies to those working autonomously and within supervisory roles in a sport, fitness and recreation environment, including those in roles such as recreation officers, program managers, logistics coordinators, sports trainers, coaches, development officers, personal trainers and outdoor leaders. These roles may be performed in a wide range of sport, fitness and recreation environments. The unit focuses on the application of project management skills and the requirement to meet time lines, quality standards, legislative obligations, budgetary limits and other requirements set for the project.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
No applicable

Employability Skills Information
This unit contains employability skills.

1. **Identify the project.**
   - 1.1. Identify *scope* of the *project*.
   - 1.2. Identify required *resources* and their availability.
   - 1.3. Identify the required budget for the project.
   - 1.4. Identify interrelationships with other concurrent projects.
   - 1.5. Assess the project’s potential impact on the organisation and individuals.

2. **Prepare a project implementation plan.**
   - 2.1. Identify *contract requirements* of the project.
   - 2.2. Identify *key milestones* and *quality measures* for the project.
   - 2.3. Confirm project budget.
   - 2.4. Allocate tasks and resources and identify relevant personnel to be informed and consulted.
   - 2.5. Identify and access administrative support required for the project.
   - 2.6. Develop contingency-management plans for project outcomes.
   - 2.7. Confirm project management plan with *relevant personnel*.

3. **Implement project.**
   - 3.1. Access and allocate resources according to project management plan.
   - 3.2. Coordinate communication processes between all relevant personnel within project team.
   - 3.3. *Monitor* project activities and progress according to project management plan.
   - 3.4. Identify deviations from project management plan and take actions to address deviations.
   - 3.5. Notify appropriate personnel where original project
ELEMENT | PERFORMANCE CRITERIA
---|---
requirements cannot be met.
3.6. Maintain *project records*.

4. Finalise project outcomes.
4.1. Complete the project according to contract requirements.
4.2. Evaluate relevant components of the project according to quality measures in consultation with relevant personnel.
4.3. Identify potential areas of improvement of future projects.
4.4. Review own performance in conducting the project and identify potential improvements.
Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication and negotiation skills to:
  - consult with project team members
  - convey information on project progress
  - liaise and negotiate with internal and external service providers
- planning and organising skills to:
  - develop, monitor and maintain project implementation schedules
  - design risk and contingency management plans
  - coordinate project resources within timelines and budget
- problem-solving skills to:
  - define and monitor objectives of the project
  - identify and address deviations to the project-management plan
  - develop contingency plans
- literacy and numeracy skills to:
  - interpret a project-management plan
  - complete project documentation
  - identify and meet budget and timeframe requirements
- self-management skills to review and reflect on own work performance to conduct a project.

Required knowledge

- organisation policies and procedures to enable accountability and satisfactory completion of project outcomes according to organisation protocols and standards
- legislation to enable project to be conducted safely and responsibly, such as:
  - anti-discrimination
  - Work Health and Safety
  - privacy
  - duty of care
  - trade practices
  - goods and services
  - contract
  - environment protection
- quality-assurance principles to enable project accountability in the achievement of quality outcomes
- project-management techniques to effectively prepare, implement and monitor a project implementation plan within budget and on time
- organisation financial recording and reporting requirements
- conflict-resolution techniques to enable negotiation of issues arising during the
• project
• evaluation processes to enable improvements to be made to future projects.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:
- implements, monitors and review a project management plan according to organisation recording and reporting systems
- liaise with relevant personnel and allocate and coordinate project tasks and resources to maximise timely project outcomes
- use communication strategies and systems to encourage and maintain information flow and exchange between project team personnel while maintaining commercial confidentiality
- apply contingency-management techniques to deal with a range of problems and issues that may arise during the project and report those outside own level of responsibility to relevant personnel
- conduct projects according to ethical practices and comply with legislation and organisation policies and procedures
- evaluate and reflect on own work performance to identify ways in which future project outcomes and benefits to the organisation and individuals can be improved.

Context of and specific resources for assessment

Assessment must ensure:
- conduct of multiple projects within budgetary constraints and timeframes that are of sufficient breadth to demonstrate competency and consistency of performance.

Assessment must also ensure access to:
- a sport, fitness and recreation environment that reflects local issues and initiatives for which projects can be implemented
- equipment and resources required for the project, including support staff, equipment and materials
- organisational procedures and protocols, such as project reporting or recording requirements
- sources of information on project-management
Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of interacting with project team, including allocating tasks and monitoring progress
- observation of dealing with contingencies in relation to project deviations and budgets
- oral and or written questioning to assess knowledge of relevant organisational policies and procedures for conducting a project
- third-party reports from a supervisor detailing work performance
- portfolio containing evidence of research and documentation, such as a project-management plan and project reports.

Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- SISXIND409 Organise a sport, fitness or recreation event.
Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Scope** may include:
- objectives
- desired outcomes
- benefits to the organisation
- cost
- risks
- inclusions
- exclusions
- quality standards
- time.

**Project** may include:
- internal or external projects
- conferences and major meetings
- promotional or other events
- introduction of new technology or systems
- product or service development
- research or development projects
- ongoing business projects
- skills-improvement projects.

**Resources** may include:
- service providers
- financial
- human
- physical
- technical.

**Contract requirements** may include:
- performance standards
- timelines
- names of parties bound by contract
- payment
- completion requirements
- staffing
- ownership of materials
- indemnity and insurance
- reporting mechanisms.

**Key milestones** may include:
- recording and reporting
- developing a work plan
- timelines
achievement of key tasks and project phases
measurement and achievement of set outcomes
completion of task
completion of contract phases and requirements.

Quality measures may include:
- objectives and outcomes
- benchmarks
- standards
- key performance indicators
- project monitoring process
- achievement of timelines
- costs.

Relevant personnel may include:
- project managers
- senior staff
- board members
- sponsors
- clients
- internal and external service providers.

Monitor may include:
- progress and timeframes
- performance
- variables
- activities
- problems and issues
- changes to project plan
- costs associated with the project.

Project records may include:
- team reports
- project control chart
- critical path
- control point chart
- Gantt and bar charts
- milestone chart
- budget control chart
- interim and final reports.

| 1. Act in accordance with culture and professional boundaries | 1.1. Demonstrate respect for *local history*  
1.2. Identify and follow *community protocols*  
1.3. Adhere to personal *legal responsibilities under corporation law*  
1.4. Follow the organisation's *code of conduct*  
1.5. Identify and manage real and perceived conflict of interest |
| 2. Participate actively in board matters | 2.1. Plan for participation in board activities  
2.2. Attend board meetings and other board activities regularly  
2.3. Make positive and constructive contributions to discussions  
2.4. Prepare for meetings and undertake assigned follow-up actions |
| 3. Encourage and respect contributions from others | 3.1. Listen to and consider others' points of view  
3.2. Represent the community's views objectively  
3.3. Seek consensus when decision making |
| 4. Work with the wider community | 4.1. Keep up-to-date with *local Aboriginal and Torres Strait Islander and non-Aboriginal and Torres Strait Islander issues*  
4.2. Identify and undertake cooperative actions involving *other groups*  
4.3. Demonstrate respect for the values, policies and processes of other groups |
| 5. Manage stress | 5.1. Recognise signs of stress in self and others  
5.2. Identify potential and actual sources of stress  
5.3. Implement stress-reduction strategies if required  
5.4. Evaluate the effectiveness of stress-reduction strategies and make changes if required |
## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- teamwork skills to:
  - work with others
  - participate in discussions and decision making
- communication skills to ensure culturally appropriate communication takes place in meeting environments
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- evaluation and decision-making skills
- listening and speaking skills to participate effectively in discussions
- self-management skills to implement stress-management strategies when required
- time-management skills to organise time effectively in order to maximise effectiveness as a board member

### Required knowledge

- key historical events of significance to the local community
- code of conduct and organisational policies and procedures with regard to participation in board activities
- provisions of relevant corporation law that relate to personal responsibilities as a board member
- how to identify real and potential conflict of interest, and procedures to follow if these exist
- relevant protocols and cultural responsibilities that impact on performance as a board member
- rules of the constitution
- sources and signs of stress and stress-management strategies
- time-management strategies

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Establish a recruitment and selection process | 1.1. Obtain expert advice on legal requirements relevant to **recruiting and selecting** staff  
1.2. Identify organisational policies and procedures relevant to appointing staff  
1.3. Develop an agreed process for recruiting and appointing staff that complies with legal and organisational requirements |
| 2. Recruit and select the manager | 2.1. Develop a position description for the manager that includes appropriate selection criteria  
2.2. Ensure that advertising for the position complies with organisational policy and legal requirements  
2.3. Establish a selection panel that represents **key stakeholders**  
2.4. Develop appropriate interview questions, using **independent assistance** as required  
2.5. Participate in interviewing and selecting a manager who satisfies the established selection criteria |
| 3. Negotiate an employment contract | 3.1. Check the employment contract developed to ensure it complies with organisational policy and legal requirements  
3.2. Benchmark salary and conditions against similar organisations  
3.3. Identify and document performance outcomes  
3.4. Review and renegotiate contract as required |
| 4. Work with the manager | 4.1. Ensure that the manager is inducted  
4.2. Develop **communication and reporting mechanisms** between the manager and the board  
4.3. Develop protocols for decision making and **delegation of powers**  
4.4. Establish policy and procedure to manage conflict and/or grievances between the manager and the board  
4.5. **Regularly review** the manager's performance in accordance with the employment contract |
## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- communication and negotiation skills to:
  - work with others to develop and implement recruitment and selection processes and agree on an employment contract
  - give feedback to the manager about performance
- conflict-management skills to deal with grievances, disputes and disagreements
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- organisational skills to ensure that policies and procedures are followed in relation to recruitment, selection and management of the manager

### Required knowledge

- award structures for industrial agreements
- benchmarking of salaries and conditions
- concept of community control of organisations and how it may impact on the recruitment and selection process
- contract management principles
- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that might impact on the recruitment and selection process and the role of the manager
- documentation required for recruitment and selection
- equal employment opportunity and anti-discrimination legislation in relation to recruiting and selecting staff
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on recruitment and selection process and the work of the manager
- interviewing techniques and selection processes
- organisational policies and procedures in relation to the selection, appointment and management of staff, including grievance procedures
- performance management processes and models for giving feedback
- provisions of federal, state or territory legislation and funding body requirements that may impact on the recruitment and selection process and work of the manager
- relevant aspects of industrial relations legislation
## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

</tr>
</tbody>
</table>

**Recruitment and selection** will include:

- developing or adapting position and job descriptions
- advertising
- developing selection criteria
- following established application process
- short-listing applicants
- selecting interview panel
- developing interview questions
- short-listing interviewees
- conducting referee and security checks
- selecting suitable candidate
- informing successful and unsuccessful candidates.

**Key stakeholders** may include:

- board members
- community members
- Elders
- local government
- funding body representative
- other Aboriginal and Torres Strait Islander organisations
- staff
- traditional owners.

**Independent assistance** may include:

- consultants
- peak body groups
- experienced network members
- senior government or non-government personnel
- employee groups.

**Communication and reporting mechanisms** may include:

- manager's report for the annual general meeting
- regular written and verbal report
- report against performance outcomes
- standing item at board meeting.
### RANGE STATEMENT

**Delegation of powers** may relate to:
- employing and dismissing staff
- purchasing goods and services
- signing cheques
- signing contracts
- speaking to the media.

**Regular review** may include:
- annual performance review
- assessment against performance outcomes
- independent assessment
- interview
- 360 degree feedback.

### Elements and Performance Criteria Pre-Content

| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Demonstrate knowledge of your culture | 1.1. Outline *relevant traditional and cultural responsibilities* in a manner appropriate to the audience  
1.2. Follow accepted cultural *protocols* when undertaking board duties  
1.3. Identify the role of Elders and their relationship to the organisation |
| 2. Demonstrate respect for cultural diversity | 2.1. Treat individuals and groups with diverse *lifestyles*, backgrounds, *cultures* and languages with respect and sensitivity  
2.2. Accommodate cultural differences in dealings with other people |
| 3. Identify the impacts of colonisation on Aboriginal and Torres Strait Islander culture | 3.1. Identify how changes in Aboriginal and Torres Strait Islander culture since colonisation impact on the organisation and its members today  
3.2. Recommend ways in which the organisation can help to restore, protect and maintain culture |
| 4. Apply Aboriginal and Torres Strait Islander cultural practices to governance processes | 4.1. Identify relevant *Aboriginal and Torres Strait Islander cultural practices* that contribute to effective governance of organisations  
4.2. Work with other board members to incorporate relevant Aboriginal and Torres Strait Islander cultural practices into the organisation's governance processes |
| 5. Deal with potential and actual cultural exploitation | 5.1. Identify examples of *potential and actual harm*  
5.2. Work with other board members to develop strategies for responding to potential and actual damage to cultural integrity |
| 6. Deal with potential and actual stereotyping and prejudice | 6.1. Identify *areas of potential and actual social conflict* as a consequence of stereotyping and prejudice  
6.2. Work with other board members to develop strategies toward reconciliation in consultation with *appropriate individuals or groups* in targeted areas |
| 7. Determine the effects of new legislation and policy on the organisation | 7.1. Assess the potential *impact* of new and proposed *legislation and policy* on the organisation and its members  
7.2. Develop strategies to respond to new and proposed legislation and policy |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 8. Determine the impact of development on culture | 8.1. Identify *relevant social, technical, economic and political changes* that may impact on the activities of the organisation  
8.2. Assess current and future impact of development on culture  
8.3. Develop strategies to maximise positive impact and prevent or minimise negative impact on culture |
Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analysis and evaluation skills to assess key changes in legislation and policy and how they relate to the organisation and community
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- oral, diagrammatic or written literacy skills to be able to gather and share information
- problem-solving and decision-making skills to develop strategies to address cultural issues

#### Required knowledge

- Aboriginal and Torres Strait Islander cultural governance practices that may affect the effective governance of organisations
- basic information on intellectual property rights and copyright law in relation to cultural knowledge and objects
- concept of community control of organisations and how it may impact on the protection of cultural values
- concepts of stereotyping and prejudice and their impacts on individuals
- cultural context in which Aboriginal and Torres Strait Islander boards operate
- current and proposed changes in legislation and policy that could impact on the organisation
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on the maintenance and protection of cultural values in an organisation
- how historical factors, such as colonisation, have had an impact on local community members and the organisation
- provisions of federal, state or territory legislation and funding body requirements that may impact on decision making
- relevant protocols and cultural responsibilities
- social, technical, economic and political changes likely to occur in the short to medium term that could have an impact on the activities of the organisation
## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

<table>
<thead>
<tr>
<th>Critical aspects for assessment and evidence required to demonstrate competency in this unit</th>
<th>Evidence of the ability to:</th>
</tr>
</thead>
<tbody>
<tr>
<td>provide appropriate information to others about cultural protocols and responsibilities relevant to board duties</td>
<td></td>
</tr>
<tr>
<td>identify historical factors that may impact on the community and the organisation</td>
<td></td>
</tr>
<tr>
<td>develop strategies to restore, protect and maintain cultural values in the organisation</td>
<td></td>
</tr>
</tbody>
</table>

### Context of and specific resources for assessment

Assessment must ensure:

- access to examples of legislation and policy affecting Aboriginal and Torres Strait Islander people and their culture
- knowledge and performance are assessed over time to confirm consistency in performance.

Note:

This unit contains skills and knowledge specific to Aboriginal and Torres Strait Islander culture. Particular care should be taken when choosing an appropriately qualified and suitable person or persons to conduct this assessment. Where appropriate, this may require involving a respected community member to assist with assessment.

### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- analysis of feedback from the community and stakeholders
- analysis of responses to case studies and scenarios
- direct questioning combined with reflection of practical board performance by the candidate
- observation of performance on a board or simulated board
<table>
<thead>
<tr>
<th>Guidance information for assessment</th>
<th>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</th>
</tr>
</thead>
</table>
| **EVIDENCE GUIDE**                 | - observation of presentations and group discussions  
|                                   | - oral or written questioning to assess knowledge  
|                                   | - observation of performance in role plays. |
Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Relevant traditional and cultural responsibilities** may include:

- Aboriginal and Torres Strait Islander lore
- kinship
- land ownership
- men's and women's business
- relationships with Elders and traditional owners
- responsibilities in relation to significant events, such as births, marriages and deaths.

**Protocols** may include:

- acknowledgements
- appropriate time, place or ceremony for communication
- family, kinship and clan
- land ownership
- talking to the right people
- welcomes.

**Lifestyles** may include:

- remote
- rural
- traditional
- urban.

**Cultural diversity** may include:

- beliefs and values
- ceremonies
- employment
- language
- law and lore
- lifestyles
- literacy
- living conditions.

**Aboriginal and Torres Strait Islander cultural practices** may include:

- bush meetings
- committee meetings in appropriate language
- constitutions recognising traditional owners
- decision-making processes.

**Potential and actual harm** may include:

- copyright issues
### RANGE STATEMENT

| include: | shift from community focus to business focus. |

| Areas of potential and actual social conflict may include: | family | land | public spaces | schools | workplaces. |

| Appropriate individuals or groups may include: | businesses | church groups | community sector organisations | community leaders | local government | schools | sporting clubs. |

| Impact may include: | changes in employment opportunities | changes in educational opportunities | changes in land ownership and control | financial changes. |

| Legislation and policy may include: | anti-discrimination and equal opportunity laws | extended trading hours | Native Title | pastoral and mining leases | relevant social security law | 'Three Strikes' laws. |

| Relevant social, technical, economic and political changes may include: | changing technologies | education | land developments | land ownership changes | living standards | mainstreaming services. |

Unit Descriptor

Descriptor

This competency unit describes the skills and knowledge required to make a home visit to assess needs and/or deliver services

Application of the Unit

Application

This unit addresses workers who are required to deliver services to people in their home or other residence

It includes preparation and follow up as well as working safely in an unfamiliar and potentially unpredictable environment

Application of this unit should be contextualised to reflect any specific work requirements and practices

Licensing/Regulatory Information

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Prepare for home visit</td>
<td>1.1 Check that client is expecting and prepared for a home visit at the agreed time</td>
</tr>
<tr>
<td></td>
<td>1.2 Clarify purpose of home visit and history of client in relation to unexpected issues and needs</td>
</tr>
<tr>
<td></td>
<td>1.3 Prepare equipment, resources and/or documents required address purpose of home visit and contingencies</td>
</tr>
<tr>
<td></td>
<td>1.4 Allow time in schedule for contingencies</td>
</tr>
<tr>
<td></td>
<td>1.5 Check that entry to the home is ensured</td>
</tr>
<tr>
<td></td>
<td>1.6 Ensure co-worker(s) are aware of intended time and place of home visit and mobile contact details</td>
</tr>
</tbody>
</table>
ELEMENT  PERFORMANCE CRITERIA

2. Undertake home visit

2.1 Obtain entry to the home, check for hazards to own and others’ health and safety and take action to control risk

2.2 Take standard precautions to control infection and, where required, take additional precautions

2.3 Demonstrate respect for the home and contents and sensitivity as a guest in the environment

2.4 Follow appropriate risk management practices when delivering services in an unfamiliar and potentially unsafe environment

3. Establish client relationship in the home

3.1 Communicate with client or resident to clarify purpose of visit and confirm client acceptance

3.2 Provide opportunity for client to identify and express any issues or concerns in relation to the home visit and/or associated matters

3.3 Provide appropriate support and information within scope of own work role and record and report relevant health issues or concerns promptly to appropriate person

3.4 Deal with behaviours of concern promptly, firmly and diplomatically in accordance with relevant policies and procedures

4. Follow up home visit

4.1 Document all aspects of the home visit in line with organisation policies and procedures

4.2 Promptly report and refer any areas of concern to an appropriate authority

4.3 Ensure any arrangements for follow up visits are recorded and implemented

Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.
**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Infection control practices in relation to own work role and applied to working in unfamiliar and unpredictable environments.
- Legislative, regulatory and organisation requirements relating to reporting issues observed during home visits.
- WHS issues and procedures in relation to working in unfamiliar and unpredictable environments.

**Essential skills:**

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Communicate clearly and sensitively with clients who are confined to their home, including aged, frail and disabled clients.
- Prepare appropriately for home visits.
- Use problem solving skills, including the ability to use available resources in a client's home setting and prioritise workload for home visits.
- Work with others and display understanding of issues relevant to home visits.
- Use language, literacy and numeracy skills to:
  - Communicate in English and/or community language, depending on client group.
  - Complete basic arithmetic calculations such as addition, subtraction, multiplication, division and recording numbers.
- Use oral communication skills, including:
  - Asking questions.
  - Clarifying workplace instructions when necessary.
  - Listening to and understanding workplace instructions.
  - Providing clear information.

**Evidence Guide**

**EVIDENCE GUIDE**
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- This unit is most appropriately assessed in the workplace or in a simulated workplace
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Purpose of home visit may include:

- Assessment of client requirements
- Delivery of services
- Delivery of products, materials or equipment
- Consultation (eg. in relation to complementary or alternative therapy)
- Regular or planned organisation follow up

History of client in relation to unexpected issues and needs may include but is not limited to:

- Worker unable to obtain safe access to the home
- Interpreter required
- Client behaviour unpredictable (eg. aggression, dementia)
- Specific health and safety risks identified
- Client in need of basic supplies (eg. food or medication)

Check for hazards includes:

- Checking the working order of fire safety equipment including smoke alarms

Areas for concern may include but are not limited to:

- Client very sick, injured or deceased
- Signs of violence or abuse
- Signs of deterioration of client's physical or mental condition
- Client in need of basic supplies (eg. food, other consumables or medication)

</table>

Unit Descriptor

Descriptor

This unit describes the skills and knowledge required to handle waste in a safe manner within the health care environment

Application of the Unit

Application

The unit will apply to a variety of work roles, but is not intended for specialised or full-time, or substantially full-time, cleaning work roles

Work is often performed under limited supervision and generally within a team environment

Individuals are accountable for their own results

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Determine job requirements | 1.1 Review work sheets to determine waste handling requirements  
| | 1.2 Select and obtain appropriate equipment required for waste handling tasks to maximise work effectiveness and efficiency  
| | 1.3 Organise and set up work areas to ensure safe, effective and efficient handling of waste in accordance with workplace requirements and relevant legislation  
| | 1.4 Identify and manage potential risks and hazards to work according to job requirements, in accordance with workplace requirements, work health and safety (WHS), infection control and other relevant legislation  
| | 1.5 Follow workplace procedures for reporting identified risks  
| | 1.6 Select and fit emergency and personal protective equipment in accordance with job requirements, manufacturers’ specifications, workplace requirements and relevant legislation |
ELEMENT  
2. Identify and segregate waste  

2.1 Clearly identify and handle hazardous, dangerous and non-conforming waste in accordance with workplace policies and procedures as well as relevant legislation  

2.2 Accurately identify, label and segregate all waste according to waste types in accordance with workplace policies and procedures and relevant legislation  

2.3 Carefully place all sorted waste into correct waste category containers to prevent litter in work areas and avoid cross contamination  

2.4 Frequently monitor waste containers to ensure adequate available containers and to secure containment of waste  

2.5 Empty or replace full waste containers promptly to minimise disruption to the workplace, in accordance with policies and procedures and job requirements  

2.6 Clearly label segregated waste in accordance with job requirements, workplace policies and procedures and relevant legislation  

3. Transport and store waste appropriately  

3.1 Select appropriate transport equipment for waste transport activities to maximise work effectiveness and efficiency and in accordance with workplace policies and procedure and relevant legislation  

3.2 Colour code and label all transport equipment in accordance with workplace policies and procedures and relevant legislation  

3.3 Ensure that transport loads are secured and not overloaded according to workplace requirements and relevant legislation  

3.4 Perform waste collection rounds as often as required to minimize waste overflow hazards  

3.5 Enclose and secure storage areas in accordance with workplace requirement and relevant legislation  

3.6 Ensure that waste types are stored in accordance with relevant legislation and workplace requirements
**ELEMENT**  
4. Conduct quality control activities

**PERFORMANCE CRITERIA**

4.1 Inspect and check waste to ensure that it is placed in the correct waste receptacle

4.2 Inspect storage areas and check they are secured in accordance with workplace requirements and relevant legislation

4.3 Ensure all details of quality control activities are documented accurately and promptly in accordance with workplace requirements and relevant legislation

5. Clean up work areas

5.1 Clean waste storage sites and all equipment to ensure safe and effective future operation in accordance with company requirements

5.2 Dispose of waste from cleaning activities in accordance with workplace requirements, council requirements and relevant legislation

---

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Containment methods
- Duty of care in provision of waste handling activities
- Emergency response procedures
- Infection control guidelines
- WHS requirements
- Potential risks and hazards to waste sorting and containment
- Relevant environmental regulations
REQUIRED SKILLS AND KNOWLEDGE

- Relevant industry standards
- Relevant legislation
- Site waste management processes
- Sorting and transporting techniques
- Waste contaminants
- Waste non-conformance procedures
- Waste types, streams and characteristics
- Workplace requirements
- Workplace waste management plans

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Identify potential risks, hazards to waste handling and waste non-conformances
- Interpret job requirements appropriately
- Organise work areas and waste containers
- Select appropriate emergency and personal protective equipment

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Apply materials handling skills
- Apply procedures for packaging and containment of waste
- Communicate effectively, including: interpersonal; listening; questioning; following instructions; clear labelling; giving information
- Demonstrate methodical organisation of work
- Identify and handle waste non-conformances
- Identify waste streams/types/characteristics
- Identify waste types
- Operate equipment correctly
- Organise equipment availability
- Read and interpret work requirements
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues, including appropriate practices to ensure efficient use of resources
- Use emergency and personal protective equipment
- Use safe and efficient work practices
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this competency unit:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations relevant to an identified work role.

**Context of and specific resources for assessment:**

- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Reassessment to accommodate changing workplace requirements and in accordance with the policies of the organisation
- Resources for assessment may include access to materials and space as required to demonstrate competence, such as:
  - waste collection requirements
  - waste management plans
  - range of wastes for identification and handling
  - workplace policies and procedures
  - WHS requirements
  - personal protective equipment
  - equipment for waste handling
Consistency in performance:

- Assessment may include observations, questioning and evidence gathered from the workplace environment.
- Assessment may require a variety of sites and waste characteristics that reflect different needs within the work environment.
- Assessment may be conducted on one occasion but should include normal range of workplace activities.
- Regular assessment of manual handling implications should be carried out on all tasks, particularly when:
  - introduced
  - changed
  - new personnel are inducted

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.

Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
Health care sites include:
- Hospitals
- Nursing homes
- Clinics
- Community settings
- Home settings

Waste categories include:
- Clinical waste
- Body fluids, blood, suctioned fluids, excretions
- Sharps
- Cytotoxic waste
- Pharmaceutical waste
- Chemical waste
- Radioactive waste
- Organic products
- Liquid waste
- General waste

Equipment includes, but is not limited to:
- Barriers and warning signs
- Spill kits
- Mobile garbage bins and trolleys
- Appropriate waste containers

Potential risks and hazards include, but are not limited to:
- Risks and hazards that could lead to injury or illness of employees, contractors, visitors or the public
- Damage to plant, vehicles or property
- Harm to the environment
- Manual handling
- Contamination
- Compaction equipment
- Gases and fumes
- Hazardous waste eg sharps
Emergency and personal protective equipment may include:
- Gloves
- Overalls and protective clothing
- Eye protection
- Appropriate footwear
- Fire extinguisher
- First aid kit
- Spill kit
- Emergency procedures guide
- Material safety data sheet information
- Breathing apparatus
- Face shield or mask
- Hearing protection

Waste characteristics include:
- Waste streams
- Waste types
- Waste generation
- Disposal methods
- Recycling
- Reuse
- Contamination

Cleaning could include:
- Shovelling
- Sweeping out
- Vacuuming
- Use of decontamination products
- Water hosing
- Cleaning products/fluids

Supervisor may be:
- Nominated personnel
- WHS Representative

Work instructions may be:
- Given verbally
- Written
- In English
- In community language
- Provided visually on video, instructions sheets
Workplace procedures may include:

- Cleaning procedures
- Quality activities
- Team meetings
- Incident notification
- Work performance requirements
- Infection control practices

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Maximise safety during cleaning | 1.1 Correctly use personal protective equipment suitable for conditions and /or required by established procedures  
1.2 Check cleaning equipment to be used for safe operation and set up to meet manufacturer's and relevant safety protocols  
1.3 Where required, select suitable cleaning agents and prepare in accordance with manufacturer's and relevant work health and safety (WHS) requirements, and in accordance with organisation policy  
1.4 Where required, barricade work site and install appropriate signs to reduce safety hazards during cleaning activities |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 2. Clean and maintain surfaces in clinical areas | 2.1 Identify surface type and texture so that suitable cleaning equipment and method(s) can be selected  
2.2 Select suitable cleaning agent  
2.3 Prepare and clean surfaces as required by cleaning routines and organisation policy  
2.4 Remove stains and spillages from surfaces  
2.5 Remove dirt and soil  
2.6 Maintain wet areas in an odour free, soil and hazard free condition  
2.7 Dry surfaces as required |
| 3. Ensure maintenance of cleaning standards | 3.1 Clean unit or location to achieve a low bacteria condition as required by organisation policy and procedures  
3.2 Ensure surfaces and areas are regularly cleaned in accordance with the organisation's established cleaning schedules and routines  
3.3 Follow all established procedures, including infection control as required to minimise cross infection |
| 4. Manage waste | 4.1 Assess all waste for health and safety risks and handle in accordance with relevant organisation and WHS requirements  
4.2 Remove waste promptly according to established procedures to maintain a clean and tidy environment/area and avoid build up of unpleasant odours  
4.3 Where required, spot clean waste receptacles and surrounds and replace soiled liners to minimise build up of odour and to maintain a soiled-free appearance |
| 5. Store equipment and cleaning agents safely | 5.1 Clean and dry equipment before storage  
5.2 Store cleaning agents in accordance with manufacturer's instructions and organisation policy |
Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Correct hygiene procedures
- Infection control policy and procedures
- WHS implications of work
- Other organisation policies and procedures relating to work performance
- Range and extent of cleaning responsibilities in relation to other aspects of the worker's role

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Comply with WHS policies and procedures including infection control in a clinical setting
- Correctly use relevant cleaning equipment and cleaning agents to achieve required cleaning standard
- Handle waste safely and effectively in line with organisation waste management policy

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Minimise disruption to the work environment
- Minimise safety hazards for self and others
- Recognise and adapt to cultural differences in the workplace, including modes of behaviour and interactions among staff and others
- Select and use equipment and cleaning agents effectively
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues, including appropriate practices to ensure efficient use of resources
• Use effective communication to constructively achieve planned outcomes
• Use equipment, signage and technology relevant to work safely and competently
• Use numeracy skills to complete basic arithmetic calculations such as addition, subtraction, multiplication, division and recording numbers
• Use procedures appropriate to the cleaning area and purpose
• Use time management strategies to set priorities
• Use reading and writing skills as required to fulfil job roles in a safe manner and as specified by organisation to a level of skill that may range across:
  • reading labels
  • reading workplace safety pamphlets or procedure manuals
  • understanding symbols used in WHS signs
• Use literacy support available in the workplace if required, ranging from having access to support or assistance from expert/mentor/supervisor, to having no communication supports available
• Use oral communication skills as required to fulfil job roles in a safe manner and as specified by the organisation, including skills in:
  • asking questions
  • providing clear information
  • listening to and understanding workplace instructions
  • clarifying workplace instructions when necessary
  • literacy as required in English or a community language, depending on client group and organisation requirements

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

• The individual being assessed must provide evidence of specified essential knowledge as well as skills
• Consistency of performance should be demonstrated over the required range of workplace situations relevant to an identified work role
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit is most appropriately assessed in the workplace or in a simulated workplace
- Resources for assessment may include access to materials and space as required to demonstrate competence, such as:
  - relevant organisation policies and procedures
  - cleaning schedules
  - other documentation relevant to the work context such as:
    - floor plans
    - instructions for the use of equipment and chemicals
    - specific instructions for staff

Method of assessment may include:

- Observation of work performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff/client feedback
- Portfolio/CV
- Supporting statement of supervisor(s)
- Authenticated evidence of relevant work experience and/or formal/informal learning
- Case studies and scenarios as a basis for discussion of issues and strategies to achieve required cleaning outcomes in specific work environments and communities
EVIDENCE GUIDE

Access and equity considerations:
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

A clinical setting may include:
- Hospital ward
- Residential care facility
- Medical, allied health or other practitioner's rooms
- A specific health care area eg sterilising unit, clinic, laboratory
Safety protocols may include:
  - The principle WHS Act in each state and territory and relevant national WHS standards
  - Infection control policy and procedures
  - Organisation policy
  - Established procedures
  - State, territory and national legislation and standards
  - Manufacturers' instructions
  - Use of cleaning products in accordance with organisation policy and procedure

Personal protective equipment may include:
  - Gloves
  - Safety glasses
  - Safety shoes
  - Face masks
  - Overalls
  - Hair nets
  - Hearing protection
  - Caps
  - Clothing used to maintain hygiene standards or
  - Clothing used as prescribed in manufacturers of chemicals or equipment
  - Signage
Cleaning equipment may include a range of:
- Brooms
- Mops
- Brushes
- Dusters / dusting and washing rags
- Buckets
- Hoses
- Spotting agent dispensers
- Wands
- Sprayers
- Pile lifter and auto sweeping
- Air blowing
- Vacuum cleaning
- Scrubbing machines
- Dry foam machine
- Wands
- Extraction machinery
- Steam cleaners

Manufacturers' specifications and safety information is:
- Pre-printed on chemical containers
- On material data safety sheets
- On laminated safety cards at the work site
- On wall posters

Cleaning agents may be:
- Chemicals mixed on the job or pre-mixed
- Neutral PH detergents
- Acidic cleaners
- Graffiti remover

Cleaning operations may include:
- Sweeping
- Dusting
- Scrubbing
- Spotting
- Polishing and buffing
- Vacuuming
- Mopping
Hazards and risks may include:

- Clinical waste, body fluids or tissue
- Slippery surfaces
- Loose electrical fittings
- Broken glass
- High bacteria growths
- Needle stick injuries
- Sharp surfaces
- Fumes from cleaning agents
- Allergic reactions
- Client's cleaning chemical mixtures
- Unlabelled cleaning chemical containers

Surface types may include:

- Floors, walls and ceilings
- Fabric upholstery
- Carpet
- Rugs/mats
- Coir matting
- Concrete
- Terrazzo
- Vinyl
- Slate
- Ceramic
- Wood/parquetry/polished wood
- Marble
- Plastic/acrylic
- Laminate
- Glass
- Metal
- Granite
- Brick
- Rubber
- Synthetic grass
- Benches and shelves
- Furniture and equipment surfaces
Wet areas may include:

- Restroom
- Toilet
- Bathroom/ensuite/spa
- Wash up area
- Kitchen, beverage area or servery
- Laundry
- Scrub area
- Pan or utility roomlinic or treatment area
- Sink

Waste may be:

- Wet or dry
- Paper
- Dust
- Food
- Plant waste
- Animal hair/fur
- Clinical waste
- Syringes
- Body fluids and tissue

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to collect soiled linen from user-locations, deliver soiled linen to a designated holding area, distribute clean linen and maintain economic linen stock levels at user-locations

Application of the Unit

Application

Work is often performed under limited supervision and generally within a team environment. Individuals are accountable for their own results

Licensing/Regulatory Information

Not Applicable

Pre-Requisites

Not Applicable
### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

---

### Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

---

### Elements and Performance Criteria

<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Collect soiled linen</td>
<td>1.1 Collect soiled linen periodically from <em>user locations</em>  &lt;br&gt; 1.2 Replace soiled linen bags according to <em>organisation procedures</em>  &lt;br&gt; 1.3 Transport soiled linen to designated holding area using appropriate equipment and safe handling techniques  &lt;br&gt; 1.4 Carry out work to minimise risk of cross contamination and in compliance with WHS policy and procedures  &lt;br&gt; 1.5 Identify and report <em>hazards</em> to supervisor  &lt;br&gt; 1.6 Follow appropriate procedures for dealing with accidents, including sharp injuries</td>
</tr>
<tr>
<td>2. Distribute clean linen</td>
<td>2.1 Transport clean linen to user locations using appropriate <em>equipment</em> and safe handling techniques  &lt;br&gt; 2.2 Re-stock linen to ensure adequate supply for users  &lt;br&gt; 2.3 Rotate linen stock and return old stock for reprocessing</td>
</tr>
</tbody>
</table>
ELEMENT

3. Maintain linen stock levels

PERFORMANCE CRITERIA

3.1 Maintain optimum stock levels to ensure productivity and linen is available

3.2 Consult with others where necessary about linen supplies

3.3 Requisition linen to meet pre-determined quantity levels

3.4 Maintain storage and security of linen according to organisation requirements

3.5 Maintain linen stock records according to organisation requirements

3.6 Participate in stock takes, if required

Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Delivery and collection timetables
- Quality standards
- Relevant WHS legislation and infection control codes of practice, enterprise policies and procedures
- Safety and environmental aspects related to workplace operation and manual handling, including workplace hazards
- Types of linen and individual uses

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Complete all activities accurately and in a timely and safe manner
- Complete work systematically with attention to detail without damage to goods, equipment or personnel
• Comply with enterprise requirements, WHS legislation, infection control and manual handling procedures and relevant health regulations
• Demonstrate effective coordination of required processes
• Use effective communication with user-locations maintained in relation to linen usage trends and stock levels

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

• Apply delivery and collection timetables
• Recognise and adapt to cultural differences in the workplace, including modes of behaviour and interactions among staff and others
• Use numeracy skills to complete basic arithmetic calculations such as addition, subtraction, multiplication, division and recording numbers
• Use oral communication skills required to fulfil job roles in a safe manner and as specified organisation, including skills in:
  • asking questions
  • providing clear information
  • listening to and understanding workplace instructions
  • clarifying workplace instructions when necessary
  • literacy in English or a community language, depending on client group and organisation requirements
• Use reading and writing skills required to fulfil job roles in a safe manner and as specified by organisation at a level of skill that may range from the ability to understand symbols used in WHS signs, to reading workplace safety pamphlets or procedure manuals and to reading labels
• Use literacy support available in the workplace as required, ranging from having access to support or assistance from expert/mentor/supervisor, to having no communication supports available

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible. Acceptable simulation requires:
  - safe and efficient collection of soiled linen
  - management of stock levels at user locations
  - consultation with relevant people at the user location
- Resources essential for assessment include:
  - access to relevant workplace or appropriately simulated environment where assessment can take place
  - organisation mission statement, strategic and business plan
  - relevant policies and procedures manuals
  - other documentation relevant to the work context such as, organisation charts, floor plans, instructions for the use of equipment
- Specific instructions for staff

Method of assessment:

- Observation in the workplace (if possible)
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
- Questioning
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

User locations may include but is not limited to

- Hospital
- Aged care facility
- Residential accommodation
- Operating theatre
- Day surgery centre
- Sterilising service
- Dwelling
- Professional rooms
- Clinic
- Community service facility
RANGE STATEMENT

Hazards may include but are not limited to:
- Exposure to heat
- Sharp objects
- Potentially infectious linen
- Sharps
- Foreign objects

Equipment may include but is not limited to:
- Linen trolleys of various sizes
- Linen bags
- Baskets
- Bins

Organisation procedures may include but is not limited to:
- Linen stock delivery, inventory management and stock rotation
- Collection locations and procedures
- Standard work practice for safe handling of soiled linen
- Use of protective clothing
- Notification of hazards and incidents
- Data recording (manual or electronic)
- Security and safe storage of clean and soiled linen

Consultation/Liaison may be required with:
- Management representative at user-location eg Nursing Unit Manager
- Linen supplier
- Customer/s

Maintenance of optimum stock levels may include:
- Review of imprest levels for each linen item
- Assessment of user requirements based on past and expected utilisation of linen
- Minimisation of stock holdings
RANGE STATEMENT

Sources of information/documents may include:
- Customer/s
- Requisition dockets or forms
- Imprest system documentation
- Stock lists
- User-location management representative
- Australian standards, infection control and quality standards

Linen storage modes may include:
- Shelving
- Racks
- Trolleys
- Cupboards
- Linen bags

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to safely and appropriately perform minor non-trade maintenance tasks

Application of the Unit

Application

Work performed requires a range of well developed skills where some discretion and judgement is required. Individuals will take responsibility for their own outputs and may participate in work teams

Licensing/Regulatory Information

Not Applicable

Pre-Requisites

Not Applicable
### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

---

### Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

---

### Elements and Performance Criteria

#### 1. Identify maintenance task to be undertaken

- **1.1** Assess maintenance request for requirements of skill, *materials*, cost, disruption to normal operations and availability of *tools*
- **1.2** Confirm access to work area
- **1.3** Identify the need for assistance
- **1.4** Identify the need for *personal protective equipment*
- **1.5** Refer to operational maintenance schedules and drawings if necessary

#### 2. Identify tools and materials required

- **2.1** Identify and select required tools and equipment
- **2.2** Check tools for serviceability and safe use
- **2.3** Estimate material quantities
- **2.4** Assemble tools and materials
3. Prepare to undertake maintenance
   3.1 WHS requirements for specific maintenance tasks are assembled
   3.2 Assemble materials
   3.3 Prepare the work area
   3.4 Inform people likely to be affected by the maintenance task

4. Perform maintenance
   4.1 Safely and effectively use tools
   4.2 Safely locate tools when not in use
   4.3 Use materials according to maintenance requirements
   4.4 Follow safe working practices

5. Clean up work area
   5.1 Stack/store materials for re-use or disposal
   5.2 Clear the work area
   5.3 Clean, maintain and store tools
   5.4 Clean, visually check and store power leads
   5.5 Clean, maintain and store equipment
   5.6 Clear the work area and remove waste according to organisation waste disposal requirements

6. Notification of completion of task and complete documentation
   6.1 Notify supervisor of completion of the maintenance task
   6.2 Record the completion of the maintenance task according to organisation policy and procedures
   6.3 File documentation according to organisation requirements

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:
- Basic knowledge of the organisation's buildings, structures, building services, plant, equipment and machinery to be maintained
- Enterprise maintenance and reporting policies and procedures
- Identification of facility, plant, equipment and machinery faults and problems which will require reference to a tradesperson
- Purpose and use of hand and power tools
- Purpose and use of relevant maintenance materials
- Safe working practices
- Use of personal protective equipment

Essential skills:
It is critical that the candidate demonstrate the ability to:
- Work safely and follow the organisation's work health and safety (WHS) practices
- Apply relevant knowledge of the organisation's buildings, structures, building services, plant, equipment and machinery to be maintained
- Identify boundaries of role and when to refer problems and tasks to a tradesperson
- Demonstrate correct and safe use of hand and power tools

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:
- Apply problem solving skills - the ability to use available resources and prioritise workload
- Communicate with others in relation to work to be undertaken and potential workplace disruption
- Demonstrate safe working practices
- Follow infection control practices
- Follow maintenance manuals and manufacturers' recommendations for servicing and maintenance
REQUIRED SKILLS AND KNOWLEDGE

- Follow preventative schedules
- Maintain workshop and plant room cleanliness
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues, including appropriate practices to ensure efficient use of resources
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations
EVIDENCE GUIDE

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - Workplace health and safety policies
  - Hand and power tools appropriate to the maintenance tasks in the organisation and to the worker's role
  - Suitable work area
  - Maintenance policy and procedures
  - Tool handling manuals
  - Job description

Method of assessment

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Role play simulation

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Minor non-trade maintenance tasks may be carried out on:

- Buildings
- Structures
- Fences
- Building services
- Plant
- Equipment
- Machinery
- Furniture

Minor non-trade maintenance tasks may include but is not limited to:

- Surface preparation and minor painting
- Changing light globes and tubes
- Replacement of client call pieces
- Minor repairs to ward and office furniture
- Minor repairs to damaged carpentry items
- Bed wheel maintenance
- Preventative maintenance
- Fan belt changes
- Taking readings
- Cleaning of plant rooms
- Cleaning of roofs and gutters
- Cleaning of drains
- Checking dampers in air-conditioning
RANGE STATEMENT

*Materials may include, but are not limited to:*

- Paint
- Thinners
- Timber
- Adhesives
- Lubricants
- Sealant
- Nails, screws, bolts, rivets and nuts
- Laminates
RANGE STATEMENT

Tools may include, but are not limited to:

- Adjustable spanners
- Bars (crow and pinch)
- Bolt cutters
- Brooms
- Chisels
- Hacksaws and handsaws
- Hammers
- Measuring tapes
- Nips
- Picks/mattocks
- Pliers
- Sealant gun
- Shovel/spades
- Sledge hammers
- Spanners and wrenches
- Spirit level
- Straight edge
- String lines
- Trowels and float
- Wire cutters
- Paint brushes/rollers
- Spatula/putty knives
- Screwdrivers
- Drills
- Nail guns
- Staplers
- Sanders
- Angle grinders
- Pneumatic wrenches
- Circular saw
- Jig saws
- Planers
- Routers
- Jackhammer
- Other tools powered by compressed air or electricity
RANGE STATEMENT

Work area may be within:
- Home/residential settings
- Community centres
- Hospitals
- Other health care facilities

Personal protective equipment may include but are not limited to:
- Overalls, boots
- Hard hat/cap
- Safety glasses/goggles
- Gloves
- Ear plugs/muffs
- Face masks/ respirators

Affected person may include, but is not limited to:
- Tradesperson
- Engineer
- Maintenance supervisor
- Contractor
- Manager
- Supervisor and staff in place where the maintenance task is being performed
- Neighbours

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.  The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
**Elements and Performance Criteria**

1. **Carry out routine assessment of plant, equipment and machinery**
   
   1.1 Identify service requirements of *plant, equipment and machinery* according to organisation requirements and manufacturer's specifications
   
   1.2 Identify potential repair and routine repair and routine replacement requirements of plant, equipment and machinery according to organisation requirements and manufacturer's guidelines

2. **Prepare for routine servicing and/or minor repairs**
   
   2.1 Identify and locate tools, equipment, parts, liquids and materials required to undertake the task
   
   2.2 Locate maintenance manuals and documented servicing routines
   
   2.3 Prepare the area required to undertake the task

3. **Perform routine servicing and minor repairs**
   
   3.1 Service and/or repair plant, equipment and machinery according to maintenance manuals, manufacturer's guidelines, enterprise procedures and WHS practices
   
   3.2 Inform *appropriate person(s)* upon completion of the task and complete the maintenance record
   
   3.3 Advise appropriate person(s) of faults and major repair and replacement requirements

---

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.
REQUIRED SKILLS AND KNOWLEDGE

This includes knowledge of:

- Amount of time required to complete routine servicing of plant, equipment and machinery
- Basic knowledge of the organisation's plant, equipment and machinery to be serviced and repaired
- Enterprise maintenance and reporting policies and procedures
- Identification of plant, equipment and machinery faults and problems that will require reference to a tradesperson
- Work health and safety (WHS) policies and procedures including safe working practices

Essential skills:

It is critical that the candidate demonstrate the ability to

- Work safely and follow the organisation's work health and safety practices
- Apply relevant knowledge of the organisation's plant, equipment and machinery to be serviced and repaired
- Identify boundaries of role and when to refer problems and tasks to a tradesperson
- Demonstrate correct and safe use of hand and power tools

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply problem solving skills - the ability to use available resources and prioritise workload
- Communicate with others in relation to work to be undertaken and potential workplace disruption
- Demonstrate correct and safe use of hand and power tools
- Demonstrate safe working practices
- Follow infection control practices
- Follow maintenance manuals and manufacturer's recommendations for servicing and maintenance
- Maintain workshop and plant room cleanliness
- Use appropriate practices to ensure efficient use of resources
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - Workplace health and safety policies
  - Infection control policy in relation to engineering maintenance
  - Maintenance policy and procedures
  - Maintenance manuals
  - Manufacturers' recommendations for maintenance
  - Job descriptions

Method of assessment

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Role play simulation
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
**RANGE STATEMENT**

*Plant, equipment and machinery may include, but is not limited to:*

- Air-conditioning systems
- Boilers
- Heating systems
- Chillers
- Motorised machinery
- Cleaning equipment
- Kitchen equipment
- Laundry equipment
- Sterilisers
- Gardening equipment
- Vehicles

*Routine servicing tasks may include, but are not limited to:*

- Cleaning or changing filters
- Changing spark plugs
- Adjustments and calibrations
- Checking for wear
- Lubrication
- Checking fluid levels and adding fluids
- Cleaning

*Minor repair tasks may include, but are not limited to:*

- Replacement of fan belts
- Tightening connections
- Wheel replacement

*Appropriate person(s) may include:*

- Tradesperson
- Engineer
- Maintenance supervisor
- Contractor
- Manager

*Routine servicing and repair work may be undertaken in the following settings and other similar settings:*

- Home/residential settings
- Community centres
- Hospitals
- Other health care facilities

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to prepare and present meals in a manner that meets the nutritional requirements of client groups in a range of community and health care food service settings

Application of the Unit

Application

Work performed requires a range of well developed skills where some discretion and judgement is required. Individuals will take responsibility for their own outputs and may be limited responsibility for the output of others

Licensing/Regulatory Information

Not Applicable
Pre-Requisites

Pre-requisite unit

This unit must be assessed after successful achievement of pre-requisite:

- HLTFS207C Follow basic food safety practices

Employability Skills Information

Employability Skills

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

1. Identify the client groups in a range of settings
   1.1 Identify client groups
   1.2 Identify and confirm the nutritional needs of the client group
   1.3 Identify a range of foods that meet the nutritional needs of the client group

2. Select appropriate foods for specific client groups, preferably with the assistance of a dietitian
   2.1 Select appropriate foods for menu items to meet the nutritional needs of specific client groups, and to promote healthy eating
   2.2 Select appropriate standard recipes
3. Prepare, cook, serve and evaluate meals suitable for specific client group

3.1 Accurately follow standard recipes to ensure product consistency, nutritional integrity and to minimise wastage

3.2 Prepare appropriate meals for specific client group in an appeasing and attractive manner

3.3 Modify food texture to meet the needs of client groups and enterprise standards

3.4 Serve/plate meals appropriate to the setting, using portion control equipment as required

3.5 Evaluate meals against organisation standards

3.6 Evaluate meals against client satisfaction

4. Follow WHS principles for self and client safety

4.1 Monitor workplace safety and take action to foresee and avoid hazards

4.2 Promptly rectify faults to equipment or refer appropriately to ensure prompt remedial action

4.3 Use suitable food preparation and cookery methods to maximise nutritional value of foods prepared and maintain food safety

4.4 Use infection control procedures according to established guidelines

4.5 Discard out-of-date food and ingredients

4.6 Use hygiene practices that comply with relevant legislation

4.7 Comply with cleaning, sanitation and waste storage and disposal practices

4.8 Receive, store, prepare, cook, serve and handle food to prevent deterioration, contamination and the growth of microorganisms

4.9 Store left over food safely and hygienically and use within a safe period of time or discard according to enterprise standards

5. Evaluate work performance

5.1 Seek advice and support from legitimate sources when necessary

5.2 Adjust work to incorporate advice that addresses performance issues to maintain the agreed standards of work
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Basic cookery methods including the principles of bulk cooking
- Client conditions and consequent needs and requirements
- Different cultural requirements relevant to client group
- Food safety principles and regulations
- Foods that promote good health
- WHS work practices relevant to the specific workplace and in accordance with relevant state/territory/national legislation
- Principles of nutrition including food selection and cookery methods that comply with the Dietary Guidelines for Australians i.e. adults, children and adolescents
- Using food and cooking equipment and technology

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Communicate constructively with clients and other staff to ensure best service and client safety
- Comply with safe food handling, hygiene practices and infection control procedures
- Facilitate the provision of appropriate foods to the client group
- Prepare nutritional meals

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Apply problem solving skills - the ability to use available resources and prioritise
REQUIRED SKILLS AND KNOWLEDGE

workload

• Demonstrate safe food handling practices
• Demonstrate safe handling of equipment
• Plan and evaluate meals and menus
• Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
• Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

• The individual being assessed must provide evidence of specified essential knowledge as well as skills
• Observation of workplace performance is essential for assessment of this unit
• Consistency of performance should be demonstrated over a number of occasions
EVIDENCE GUIDE

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible.
  Acceptable simulation requires:
  - Preparation of nutritional meals that meet a client group's needs
  - Compliance with safe food handling requirements
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - Procedure manuals of the food service operation
  - Food safety and HACCP procedure manuals
  - Manufacturer's manuals and recommendations for equipment used in kitchen
  - Food packaging and storage requirements
  - WHS, cultural diversity and other relevant legislation
  - Work plans
  - Enterprise policy, mission statements, procedures and performance management systems

Method of assessment

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
- Questioning
- Role play simulation
- Authenticated evidence of relevant work experience and/or formal learning
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Client groups include individuals in a range of health care and community food service settings such as:

- Aged care facilities
- Childcare centres
- Hostels and hospitals
RANGE STATEMENT

Foods may include:
- Chilled
- Frozen
- Fresh
- Planted
- Packaged
- Bulk
- Dairy
- Fruit
- Vegetables
- Dried
- Meat
- Fish
- Soups
- Food for enteral feeding

The work environment may include:
- Food preparation areas
- Food preparation tools and equipment
- Walls
- Floors
- Work surfaces
- Food storage area including cold storage
- Kitchen chemical storage areas
- Food service and dining areas

Evaluation of meals may include:
- Balance and variety in colour, flavour and texture
- Nutritional content relevant to the client group
- Feasibility of production
- Food wastage
- Client satisfaction
- Client health

Unit Descriptor

Descriptor

This unit describes the minimum competency requirements for the transportation of food

It relates to the transportation of food where the transport operator does not have direct physical contact with food

Where person who transports also directly handles food, the relevant food-handling standard also applies

Application of the Unit

Application

This unit of competency covers the minimum requirements for the transportation of food

This unit of competency supports the implementation of national and state food safety legislation regulations and is based on the national Food Safety Guideline Competency Standards

Licensing/Regulatory Information

Not Applicable
Pre-Requisites

Pre-requisite unit  
This unit must be assessed after successful achievement of pre-requisite:
- HLTFS207C Follow basic food safety practices

Employability Skills Information

Employability Skills  
This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.  
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Prepare to transport food | 1.1 Check that vehicles and containers/receptacles used to transport food are appropriate for use  
1.2 Prepare vehicles and containers/receptacles for food transportation  
1.3 Load and secure food, according to product requirements and workplace food safety and WHS procedures |
2. Transport food

**ELEMENT**

**PERFORMANCE CRITERIA**

2.1 Monitor and control food safety hazards as required by the *food safety program* to ensure that food safety is maintained during transport

2.2 Promptly report *non-conformance* with food safety requirements and take corrective action

2.3 Unload food according to product requirements and workplace procedures

2.4 Record food safety information to meet the requirements of the food safety program
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Awareness of the environmental conditions necessary to maintain food safety
- Characteristics of food transported as they affect loading and handling of food and the potential for cross-contamination resulting from location in proximity to other food or non-food items that are transported
- Loading practices as required by work responsibility, which includes procedures to load food in temperature-controlled environments where this is a work requirement
- Methods and procedures used to control food safety hazards, which depend on the type of controls and equipment used and include an understanding of the purpose and operation of equipment and procedures in place to maintain food safety
- Microbiological, physical and chemical hazards that can occur when loading, transporting and unloading food, appropriate to nature and method of food transported and within scope of work responsibility, which includes:
  - the types of hazards likely to occur
  - the conditions under which they occur
  - possible consequences
- Procedures used to confirm that food safety-related equipment is operational and the cleaning and sanitation requirements of food containers/receptacles, relevant to work responsibilities
- Record-keeping responsibilities relating to food safety
- Sources of information on procedures and responsibilities for food safety relating to own work

Essential skills:
It is critical that the candidate demonstrate the ability to

- Apply knowledge of aspects of the food safety program relevant to the transport of food
**REQUIRED SKILLS AND KNOWLEDGE**

- Demonstrate procedures used to transport food consistent with the food safety program

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. This includes the ability to:

- Confirm that the vehicle and associated equipment are ready to transport food
- Identify and report non-conformance and/or unusual circumstances which could affect food safety
- Load/unload food as required by work responsibility by following procedures to ensure that food is loaded/unloaded in correct sequence and configuration and that food cannot become contaminated by being located in proximity to other food or non-food items
- Locate and follow workplace information relating to food safety responsibilities
- Maintain the work area and vehicles in a tidy state to meet workplace requirements
- Monitor food safety hazards as required by the food safety program
- Prepare to transport food, which will vary depending on the type of food and transport method and may include:
  - confirming that food holding containers/receptacles meet workplace hygiene standards
  - confirming that equipment used to maintain the required environment during transport is ready for use and that food parameters are met prior to loading/transporting/unloading, for example typical parameters such as the temperatures of:
    - food
    - food loading/unloading areas
    - transport containers/receptacles
- Record results of monitoring and maintain records as required by the food safety program
- Take appropriate corrective action in response to failure to meet food safety requirements as required by workplace procedures
- Transport food safely
- Use food safety program information to find advice on food safety responsibilities relating to own work

**Evidence Guide**

**EVIDENCE GUIDE**
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the typical range of food transportation and related food safety requirements

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Assessment should be structured on whole work activities and address all knowledge and skill requirements
- Simulations may be used to represent workplace conditions as closely as possible
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - food safety program
  - food transport vehicles and containers/receptacles
  - monitoring devices and procedures
  - reporting procedures

Method of assessment:

- Observation in the work place (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Role play simulation
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

A food safety program:

- Systematically identifies the food safety hazards that may be reasonably expected to occur in all food handling operations of the food business
- Identifies where and how each hazard can be controlled, describes how these controls are to be monitored, the corrective action required if control conditions are not met and information to be recorded
- Must comply with relevant national, state and industry legislation/regulations
- For the purpose of applying this guideline competency standard in circumstances where formal food safety programs are not a legal requirement, the term can be understood to cover the same detail as would be covered by a food safety program. Where a business has not identified food safety hazards, determined where and how these hazards are to be controlled and how controls are to be monitored, this guideline competency standard would not apply

Procedures outlining food safety responsibilities may be:

- Provided in formats to suit the workplace such as written, verbal, diagrams and electronic advice

Transport vehicles are:

- Appropriate for the transportation of food
- Capable of maintaining the required environment for the food type transported

Safe food transport parameters:

- Depend on the type of food transported
- Industry guidelines and codes should be used as a basis for setting these parameters where available
RANGE STATEMENT

Confirming readiness for use of food transport vehicle and containers/receptacles may include:

- Confirming that the vehicle is in good operating order and that containers/receptacles used to store food meet the relevant hygiene requirements
- Where food must be transported in a controlled temperature environment, this includes bringing the food handling area and storage container/receptacle within the required temperature range before loading/unloading and confirming that equipment required to maintain temperature is operational

Responsibility for monitoring food safety, identifying non-conformance and taking corrective action:

- Relates to own tasks and responsibilities
- Occurs in the context of the food safety program
- An example of corrective action includes separating or isolating non-conforming product

</table>
## ELEMENT

### 2. Wash and dry dishes

2.1 Wash dishes and other items safely and at the correct temperature

2.2 Use correct washing implements

2.3 Remove stains from pots and pans in the washing process

2.4 Follow temperature standards according to food regulations

2.5 Wash and disinfect dishes

2.6 Use correct drying method

### 3. Store dishes

3.1 Take dry dishes and other items to storage area and stack safely

3.2 Dispose of cracked, chipped or broken dishes appropriately
Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Infection control policy and procedures
- Work health and safety (WHS) work practices relevant to the specific workplace and in accordance with relevant state/territory/national legislation
- Temperature requirements for hand and machine washing, rinsing and drying

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Wash, dry and store dishes according to organisation procedures
- Operate dishwasher safely and in accordance with manufacturer's recommendations

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Apply problem solving skills, including the ability to use available resources and prioritise workload
- Demonstrate safe handling and chemical usage practices
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use equipment for dish washing
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

**Evidence Guide**
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of workplace situations

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible
- Resources essential for assessment include:
  - relevant policies and procedures manuals
  - other documentation relevant to the work context such as instructions for the use of equipment and specific instructions for staff

Method of assessment

- Observation in the workplace (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Role play simulation
- Supporting statement of supervisor(s)
- Authenticated evidence of relevant work experience and formal training
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in culturally and linguistically diverse (CALD) environments.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Kitchenware may include:

- Crockery
- Cutlery
- Utensils
- Pots and pans
- Removing stains from pots and pans may require pots and pans to be scrubbed by hand, soaked and/or re-washed
- Washing may be by hand or in a dishwashing machine
- Standards of hygiene for washed and finished kitchenware will be determined by organisation policy and food regulations

**Unit Descriptor**

**Descriptor**

This unit of competency describes the skills and knowledge required to provide food services to clients in their accommodation setting, which may be physically separate from a production kitchen.

**Application of the Unit**

**Application**

This competency unit refers to an understanding of enterprise food service delivery, menu distribution and collection, preparation of minor means and refreshments, plating of meals, distribution of meals and general housekeeping functions.

This competency unit is provided as a "composite unit" for workers who may have multi-functional or multi-skilled roles with duties which include food service work combined with a range of other duties (e.g. cleaning, portering, wardsperson, personal care, linen distribution, client transport).

**Licensing/Regulatory Information**

</tbody>
</table>
| 2. Plate, heat and distribute meals and beverages | 2.1 Plate meals from bulk food to a standard determined by the enterprise  
2.2 Implement portion control to minimise waste  
2.3 Rethermalise meals (applicable to cook-chill systems) or reheat if required, according to food standards and regulations  
2.4 Check each meal against documentation, prior to meal delivery  
2.5 Complete meals tray assembly and check for accuracy according to established routines and procedures  
2.6 Prepare beverage utensils for use  
2.7 Leave trolley or tray in an appropriate location for meal delivery  
2.8 Deliver and leave meals and/or beverages in the appropriate place for clients, within the designated timeframe  
2.9 Replace missing or incorrect meals and/or beverages with appropriate meals and/or beverages  
2.10 Replace or refill water jugs according to specific client requirements according to established policy and procedure  
2.11 Check room numbers, bed numbers and client name against appropriate documentation  
2.12 Report the need of a client for assistance to sit up, or assist the client to sit up, according to organisation policies and procedures |
| 3. Prepare *minor meals*, refreshments and snacks | 3.1 Prepare minor meals, refreshments and snacks in an attractive manner  
3.2 Prepare and deliver mid meals according to schedule |
### ELEMENT

4. Collect utensils and meal trays

#### PERFORMANCE CRITERIA

4.1 Collect trays and all utensils after the client has finished eating
4.2 Check tray for foreign objects
4.3 Stack trays on trolley in a safe manner
4.4 Collect empty water jugs at designated times
4.5 Return dirty beverage utensils for cleaning
4.6 Maintain a stock of clean beverage utensils
4.7 Report insufficient food or fluid intake to the appropriate person(s) according to enterprise procedures
4.8 Seek client feedback on general satisfaction and report to appropriate person(s) according to enterprise procedures

5. Maintain good housekeeping

#### PERFORMANCE CRITERIA

5.1 Clean ward or unit food service area and equipment according to enterprise routines and standards
5.2 Maintain food service area in a clean, tidy and hygienic condition
5.3 Replenish food stocks, crockery and utensils as required

### Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Causes of food contamination, cross contamination
- Enterprise food service system and standard operating procedures
- Enterprise menu processing system
- Factors that place client at nutritional risk
- Food safety principles
- Hazard Analysis and Critical Control Points (HACCP) principles
- Meals distribution equipment and operational procedures
- Microbiological basis for food deterioration and food poisoning
- WHS work practices relevant to the specific state/territory/national legislation
- Procedures for delivery of meals to potentially infectious clients
- Role and need for special diets and nutritional support

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Identify reasons for different and special diets and nutritional support
- Apply principles of food handling hygiene
- Comply with safe food handling and hygiene practices and infection control procedures
- Communicate constructively with client and other staff to ensure best service and client safety

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Accurately deliver food according to delivery schedules
- Apply problem solving skills - the ability to use available resources and prioritise workload
- Demonstrate cleaning techniques for equipment and work areas
- Demonstrate food presentation
- Demonstrate good housekeeping
- Provide assistance to clients with appropriate menu selections, especially for clients with special physical and medical needs
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

**Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of workplace situations

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible. Acceptable simulation requires:
  - Communication with clients
  - Receiving food, preparing for delivery and delivery to clients
- Resources essential for assessment include:
  - Equipment normally used in the work context of this unit
  - WHS, cultural diversity, food safety and other relevant legislation
  - Job description and performance management tools
  - Work plans
  - Enterprise policies, mission statements, procedures and performance management systems

Method of assessment

- Observation in the workplace (if possible)
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Role play simulation
- Supporting statement from supervisor(s)
- Authenticated evidence of relevant work experience and formal learning
Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Special needs of clients may include:

- Disabilities
- Eating difficulties
- Intellectual difficulties
- Frail and aged
- Confusion and dementia
- Nutrition risk factors
- Metabolic disorders
- Different cultural requirements
- Require diet supplements
RANGE STATEMENT

Food may include:
- Chilled
- Frozen
- Fresh
- Cooked
- Bulk
- Packaged

Food types include:
- Dairy
- Fruit and vegetables
- Dried goods
- Packaged food
- Meat
- Fish
- Soups

Minor meals, refreshments and snacks may include:
- Early or light breakfast
- Min-meals
- Beverages eg tea, coffee, soft drink, juice, water, cocoa
- Biscuits, cakes
- Special functions

Unit Descriptor

Descriptor
This unit of competency describes the skills and knowledge required to receive, transport and store food in a safe and hygienic manner according to enterprise and statutory requirements.

This unit is based on the commercial catering competency standards (199X) unit of competency transport and store food in a safe and hygienic manner (BCAT3).

Application of the Unit

Application
The application of knowledge and skills described in this competency unit relates to the receipt and distribution of food and refreshments to clients, as well as collection of trays, utensils and other equipment.

The application and knowledge described in this competency unit could take place in a range of health settings, including hospitals and specialist sterilisation facilities.

The application of knowledge and skills takes place with reference to safe food handling requirements.

**4. Deliver meals and/or beverages**

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.1 Check each meal against <em>appropriate documentation</em> prior to meal delivery</td>
</tr>
<tr>
<td>4.2 Reheat meals, if required, according to food regulations</td>
</tr>
<tr>
<td>4.3 Complete and check meal tray assembly for accuracy according to established routines and procedures</td>
</tr>
<tr>
<td>4.4 Prepare <em>beverage utensils</em> for use</td>
</tr>
<tr>
<td>4.5 Leave trolley or tray in a convenient and appropriate location for meal delivery</td>
</tr>
<tr>
<td>4.6 Deliver meals and/or beverages to client and leave in an appropriate place within the designated timeframe</td>
</tr>
<tr>
<td>4.7 Replace missing or incorrect meals and/or beverages with appropriate meals and beverages</td>
</tr>
<tr>
<td>4.8 Refill water jugs according to specific client requirements and established policy and procedure</td>
</tr>
<tr>
<td>4.9 Check room numbers, bed numbers and client name against appropriate documentation</td>
</tr>
<tr>
<td>4.10 Assist client to sit up if required, under direction, and when this is in keeping with organisation policy and procedures</td>
</tr>
</tbody>
</table>
ELEMENT

5. Collect utensils and meal trays

PERFORMANCE CRITERIA

5.1 Collect trays and all utensils after client has finished eating
5.2 Check tray for foreign objects and stack on trolley safely
5.3 Return dirty beverage utensils for cleaning
5.4 Maintain a stock of clean drinking utensils
5.5 Collect empty water jugs
5.6 Report insufficient food or fluid intake to the appropriate person(s) according to enterprise procedures, when this is within the scope of the work role
5.7 Seek client feedback on general acceptance/satisfaction with meals and report to appropriate person(s) according to enterprise procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Causes of food contamination, cross contamination
- Common kitchen pests and principles of their control
- Conditions leading to bacterial growth and to common causes of bacterial food poisoning
- Food poisoning organisms
- Hazard analysis and critical control point (HACCP) principles and stock control
- Hygiene requirements when handling food
- Microbiological basis for food deterioration and food poisoning
- Need to correctly follow menus
- WHS work practices relevant to the specific workplace and in accordance with relevant
REQUIRED SKILLS AND KNOWLEDGE

- state/territory/national legislation
- Procedures for delivery of meals to potentially infectious clients
- Range of menus
- Safe food handling principles
- Storage requirements of specified foods
- Transfer of infectious diseases and infection control policy and procedures

Essential skills:

It is critical that the candidate demonstrate the ability to

- Apply basic principles of nutrition
- Consistently use safe food handling practices and principles of food handling hygiene
- Communicate with clients and other staff to ensure best service and client safety

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Apply cleaning, sterilisation, sanitation and infection control techniques for equipment and work areas
- Apply problem solving skills - the ability to use available resources and prioritise workload
- Communicate with appropriate person(s) about client safety
- Communicate with clients to ensure correct delivery
- Communicate with relevant person(s) about factors that compromise food safety
- Demonstrate safe manual handling of food containers, food trays and trolleys
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

Context of and specific resources for assessment:

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible. Acceptable simulation requires:
  - Communication with clients
  - Receiving food, preparing for delivery and delivery to clients
- Resources essential for assessment include:
  - Equipment normally used in the work context of this unit
  - WHS, cultural diversity, food safety and other relevant legislation
  - Work plans
  - Enterprise policies, mission statements, procedures and performance management systems

Method of assessment

- Observation in the work place (if possible)
- Written assignments/projects, eg food safety principles
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Role play simulation
EVIDENCE GUIDE

**Access and equity considerations:**

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

**RANGE STATEMENT**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Foods include:**

- Chilled
- Frozen
- Fresh - planted, packaged or in bulk
RANGE STATEMENT

Food types include:
- Dairy
- Fruit and vegetables
- Dried goods and canned food
- Meat
- Fish
- Soups

Transporting and storing may include:
- Using hot boxes to deliver meals to clients
- Rethermalisation trolley
- Client/staff take away food packs
- Chilled and frozen food
- Excursion/recreation activities
- Staff shopping for food
- Transporting food in private motor vehicle
- Refrigerated vehicle

Food transport records include:
- Time
- Temperature

Environmental food conditions relate to:
- Temperature
- Humidity

Delivery of food may involve:
- Use of a specific delivery system
- Completion of tray assembly

The food environment includes:
- Food preparation areas
- Food preparation tools and equipment
- Walls
- Floors
- Work surfaces
- Food storage area including cold storage
- Kitchen
- Chemical storage areas
- Food service and dining areas
RANGE STATEMENT

Foreign objects may include:
- Medical supplies
- Syringes
- Personal items of the client

Beverage utensils may include:
- Water jugs and glasses
- Utensils for prescribed fluids

Appropriate documentation may include:
- Menu
- Meal ticket
- Nourishment chart
- Ward diet records
- Care plan

Meal trays and beverages may include special diet menus and beverages and may include:
- Specific diet therapies
- Vegetarian
- Cultural requirements
- Religious beliefs
- Individual preferences

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to provide first aid response, life support, management of casualty(s), the incident and other first aiders, until the arrival of medical or other assistance.

Application of the Unit

Application

These skills and knowledge may be applied in a range of situations, including community and workplace settings.

Training Package users should ensure implementation is consistent with any specific workplace and/or relevant legislative requirements in relation to first aid, including State/Territory requirements for currency.

Application of these skills and knowledge should be contextualised as required to address specific industry, enterprise or workplace requirements and to address specific risks and hazards and associated injuries.

A current Senior First Aid, Workplace Level 2 or Level 2 qualification may provide evidence of skills and knowledge required by this competency unit. However, as with all evidence of competence, evidence must be assessed against the requirements specified in the unit of competency.

Elements and Performance Criteria Pre-Content
Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assess the situation | 1.1 Identify assess and minimise *hazards* in the situation that may pose a risk of injury or illness to self and others  
1.2 Minimise immediate *risk* to self and casualty's health and safety by controlling any hazard in accordance with work health and safety requirements  
1.3 Assess casualty and identify injuries, illnesses and conditions |
| 2. Apply first aid procedures | 2.1 Adopt a communication style to match the casualty’s level of consciousness  
2.2 Use available *resources and equipment* to make the casualty as comfortable as possible  
2.3 Respond to the casualty in a culturally aware, sensitive and respectful manner  
2.4 Determine and explain relevant first aid procedures to provide comfort  
2.5 Seek consent from casualty prior to applying first aid management  
2.6 Provide *first aid management* in accordance with *established first aid principles and procedures*  
2.7 Seek first aid assistance from others in a timely manner and as appropriate  
2.8 Correctly operate first aid equipment for first aid management according to manufacturer/supplier’s instructions and procedures  
2.9 Use safe manual handling techniques  
2.10 Monitor *casualty's condition* and respond in accordance with established first aid principles and procedures  
2.11 Finalise casualty management according to casualty’s needs and first aid principles |
| 3. Communicate details of the incident | 3.1 Request ambulance support and/or appropriate medical assistance according to relevant circumstance  
3.2 Accurately convey observation of casualty’s condition and management activities to ambulance services / relieving personnel |
ELEMENT  PERFORMANCE CRITERIA

3.3 Accurately assess and report details of casualty’s physical condition, changes in conditions, management and response to management in line with established procedures

3.4 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisation policies

4. Evaluate own performance

4.1 Seek feedback from appropriate clinical expert

4.2 Recognise the possible psychological impacts on rescuers involved in critical incidents

4.3 Participate in debriefing/evaluation to improve future response and address individual needs

Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes a demonstrated understanding of:

- Awareness of stress management techniques and available support
- First aid management, based on a risk assessment relevant to the workplace or community setting of:
  - abdominal injuries
  - allergic reactions
  - altered and loss of consciousness
  - asthma
  - anaphylaxis
  - bleeding
  - burns – thermal, chemical, friction, electrical
  - cardiac arrest
  - chest pain
  - choking/airway obstruction
  - drowning
- envenomation – snake, spider, insect and marine bites and stings
- environmental impact such as hypothermia, hyperthermia, dehydration, heat stroke
- injuries- cold and crush injuries; eye and ear injuries; head, neck and spinal injuries; minor skin injuries; needle stick injuries; soft tissue injuries including sprains, strains, dislocations, fractures
- medical conditions, including cardiac conditions, epilepsy, diabetes, asthma and other respiratory conditions
- poisoning and toxic substances (including chemical contamination)
- respiratory distress
- seizures
- shock
- stroke
- substance misuse – common drugs and alcohol, including illicit drugs
- unconsciousness, not breathing or not breathing normally
- Guidelines for provision of first aid as outlined in Australian Resuscitation Council (ARC) Guidelines and guidelines of Australian national peak clinical bodies and State / Territory legislation and regulations
- Social / legal issues including:
  - duty of care
  - confidentiality
  - importance of debriefing
  - need to be culturally aware, sensitive and respectful
  - own skills and limitations
- Understanding of:
  - basic work health and safety requirements in the provision of first aid
  - basic principles and concepts underlying the practice of first aid
  - chain of survival
  - infection control principles and procedures, including use of standard precautions
  - priorities of management in first aid when dealing with life threatening conditions
  - procedures for dealing with major and minor injury and illness
- Understanding of the use of an Automated External Defibrillator (AED), including when to use and when not to
- Understanding the causes of asphyxia due to body position

**Essential skills:**

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply first aid principles
- Call an ambulance and/or medical assistance according to relevant circumstances and report casualty(s) condition
- Communicate effectively and assertively in an incident
- Conduct an initial casualty assessment
- Management of:
  - Anaphylaxis using adrenalin auto-injector
  - Avoiding asphyxia due to body position
  - Bronchospasm using bronchodilator and spacer device
  - Cardiac arrest using single rescuer procedure, including the demonstration of a seamless changeover between operators
  - External haemorrhage
  - Fractures, sprains and strains using arm slings, roller bandages and other appropriate immobilisation techniques
  - Unconscious casualty including using a recovery position
- Demonstrate:
  - ability to call an ambulance
  - consideration of the welfare of the casualty
  - safe manual handling
  - site management to prevent further injury
  - understanding of causes contributing to asphyxia due to body position
- Demonstrate correct procedures for performing CPR using a manikin, including standard precautions (i.e. as per unit HLTCPR211A Perform CPR)
- Demonstrate infection control, including use of standard precautions
- Evaluate own response and identify appropriate improvements where required
- Follow State and Territory work health and safety legislative requirements
- Make prompt and appropriate decisions relating to managing an incident in the workplace
- Plan an appropriate first aid response in line with established first aid principles, ARC Guidelines and guidelines of Australian national peak clinical bodies, industry standards and State / Territory legislation and regulations and respond to contingencies in line with own skills
- Prepare a written incident report or provide information to enable preparation of an incident report
- Provide assistance with self-medication as per subject’s own medication regime and/or administer medication in line with State/Territory legislation and regulations, organisation policies and any available medical/pharmaceutical instructions
- Unpack, activate and follow prompts of an AED

**Evidence Guide**
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package. The evidence guide supplements assessment requirements that apply to all units in this Training Package. Users of this evidence guide should first read the package’s assessment guidelines.

**Critical aspects of assessment:**
- The individual being assessed must provide evidence of essential knowledge and essential skills
- Competence should be demonstrated working individually and as part of a first aid team
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace or community setting
- Currency of first aid knowledge and skills is to be demonstrated in line with ARC Guidelines and guidelines of Australian national peak clinical bodies and State / Territory legislation and regulations

**Context and resources required for assessment:**
- Skills in performing first aid procedures are to be assessed through demonstration, with questioning to confirm essential knowledge
- Demonstration of first aid procedures over the required range of situations relevant to the workplace setting must be demonstrated using standard precautions and first aid equipment including roller bandages, triangular bandages, other trauma dressings, bronchodilator and spacer device, adrenalin auto-injectors and AED
- For assessment purposes, demonstration of skills in CPR procedures requires using a model of the human body (resuscitation manikin) in line with ARC Guidelines

**Access and equity considerations:**
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package. The evidence guide supplements assessment requirements that apply to all units in this Training Package. Users of this evidence guide should first read the package’s assessment guidelines.

**Related units:**
This unit incorporates the content of units:
- HLTCP211A Perform CPR
- HLTFA211A Provide basic emergency life support

**Range Statement**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Contextualisation to address specific requirements may include:**
- First aid provision under specific constraints or circumstances (e.g. in confined spaces, in maritime work environment or in work environment involving identified risks/hazards)
- Focus on first aid management of specific types of injury

**Established first aid principles and procedures include:**
- Australian Resuscitation Council Guidelines
- Guidelines of Australian national peak clinical bodies
- Primary First Aid Principles to:
  - Preserve life
  - Prevent illness, injury and condition(s) becoming worse
  - Promote recovery
  - Protect the unconscious casualty
- State/Territory legislation and regulations

**Hazards may include:**
- A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these
- Relevant hazards may be classified under the headings:
  - Biological hazards
  - Chemical hazards
  - Hazards associated with manual handling
  - Physical hazards
Risks may include:

- Environmental risks
- Exposure to blood and other body substances
- Risks associated with the proximity of other workers and bystanders
- Risks from body position
- Risks from equipment, machinery and substances
- Risks from vehicles
- Risks from first aid equipment
- Risk of further injury to the casualty

Casualty’s condition is managed for:

- Abdominal injuries
- Airway obstruction
- Allergic reactions
- Altered and loss of consciousness
- Bleeding
- Body position
- Burns – thermal, chemical, friction, electrical
- Cardiac arrest
- Chest pain
- Choking/airway obstruction
- Drowning
- Envenomation – snake, spider, insect and marine bites and stings
- Environmental impact such as hypothermia, hyperthermia, dehydration, heat stroke
- Injuries: cold and crush injuries; eye and ear injuries; head, neck and spinal injuries; minor skin injuries; needle stick injuries; soft tissue injuries including sprains, strains, dislocations, fractures
- Medical conditions, including cardiac conditions, epilepsy, diabetes, asthma and other respiratory conditions
- Poisoning and toxic substances (including chemical contamination)
- Respiratory distress
- Seizures
- Shock
- Stroke
- Substance misuse – common drugs and alcohol, including illicit drugs
- Unconsciousness, not breathing or not breathing normally

First aid management must take into account:

- Infection control
- Legal and social responsibilities of first aider
• The setting in which first aid is provided, including:
  • industry/site specific regulations, codes etc.
  • location and nature of the incident
  • location of emergency services personnel
  • situational risks associated with, for example, electrical and biological hazards, weather, motor vehicle accidents
  • State and Territory work health and safety legislative requirements
  • workplace policies and procedures
  • WHS requirements
• The use and availability of first aid equipment and resources

**Resources and equipment are used appropriate to the risk to be met and may include:**

• AED
• Auto-injector
• Bronchodilator and spacer device
• First aid kit
• Puffer/inhaler
• Resuscitation mask or barrier

**Appropriate clinical expert may include:**

• Ambulance officer/paramedic
• Appropriately qualified health care professional

**Report details should include:**

• Time
• Description of injury/illness
• First aid management
• Incident details
• Location
• Vital signs

**Report details may include:**

• Administration of medication including:
  • date
  • dose
  • person administering
  • time
• Fluid intake/output, including fluid loss via:
  • blood
  • faeces
  • urine
  • vomit
• Injury report forms
• Workplace documents as per organisation requirements

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to undertake the efficient and effective maintenance of a client's domestic living environment

Application of the Unit

Application

The purpose of the home care and domestic assistance to be provided is to assist a client to remain in their normal domestic environment, rather than in institutional care.

Work will be performed within a prescribed range of functions involving a defined range of skills and known routines and procedures.

</table>
ELEMENT | PERFORMANCE CRITERIA
--- | ---
3. Monitor and maintain equipment | 3.1 Check equipment regularly to identify service, repair or replacement needs
 | 3.2 Refer to manufactures guidelines/instructions for equipment where appropriate
 | 3.3 Arrange/report service and/or repairs

4. Implement home care or domestic assistance plan | 4.1 Select appropriate equipment to undertake the required home care or domestic assistance tasks
 | 4.2 Undertake tasks in a systematic sequence to ensure that the outcomes of the home care or assistance plan are met
 | 4.3 Clean and store equipment in an orderly manner as required after tasks are completed
 | 4.4 Follow relevant document procedures/criteria
 | 4.5 Provide feedback regarding service to supervisor or coordinator according to established procedures

5. Maintain a safe and hygienic home environment for clients | 5.1 Follow WHS guidelines in implementing the home care or assistance plan to avoid safety hazards for self and clients
 | 5.2 Maintain established standards of hygiene for self and clients when implementing the home care or assistance plan
 | 5.3 Follow established procedures for infection control where required when implementing the home care or assistance plan

6. Monitor client service | 6.1 Obtain feedback from client to determine that procedure/service is satisfactory
 | 6.2 Seek advice from appropriate sources to maintain best practice service delivery to clients
 | 6.3 Address performance issues to maintain the agreed standard of service delivery
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential Knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Client rights and responsibilities
- Dangerous/hazardous substances
- First Aid and/or CPR (cardiopulmonary resuscitation), subject to organisation policy, and if required by employer or contract for service provision
- HACC (home and community care) service provision guidelines and standards
- Industrial relations award
- Infection control
- Limits of own knowledge
- Own immunisation status
- Workplace health and safety

Essential Skills:

It is critical that the candidate demonstrate the ability to

- Communicate effectively with clients and on their behalf
- Comply with WHS policies and procedures
- Effectively implement, monitor and review client home care or domestic assistance plan
- Use relevant equipment to maintain the required standard in the clients' environment

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Demonstrate experience in domestic cleaning
- Drive a car (current driver's license)
- Exercise patience and tolerance
- Follow organisation policies and procedures relating to work performance including:
REQUIRED SKILLS AND KNOWLEDGE

- discipline
- maintain confidentiality and privacy of clients
- maintenance of insurance, registration and/or other legal requirements relating to use of motor vehicle
- minimise disruption to the client's home environment
- minimise safety hazards for self and others
- select and use equipment and cleaning agents effectively
- use correct hygiene procedures
- Solve problems including the ability to use available resources and prioritise workload
- Use time management strategies to set priorities
- Use numeracy skills ranging from the ability to complete basic arithmetic calculations such as addition, subtraction, multiplication, division and recording numbers
- Use oral communication skills required to fulfil job roles in a safe manner and as specified by the organisation, including skills in asking questions, providing clear information, listening to and understanding workplace instructions, and clarifying workplace instructions when necessary
- organisation may require competence in English or a community language, depending on client group
- Use reading and writing skills required to fulfil job roles in a safe manner and as specified by the organisation
- the level of skill may range from the ability to understand symbols used in WHS signs, to reading workplace safety pamphlets or procedure manuals, to reading labels and handling chemicals such as cleaning fluids
- literacy support available in the workplace may range from having access to support or assistance from expert/mentor/supervisor, to having no communication supports available
- literacy may be required in English or a community language.
- Work with others and display empathy with client and relatives

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The individual being assessed must have a current driver’s license

Method of assessment may include:

- Observation of work activities in client support
- Observation of simulation and/or role play involving client support
- Discussion of physical and/or behavioural contingency scenarios involving duty of care
- Authenticated transcripts of relevant education/training courses
- Recognition of relevant life/work experience
- Written assignments/projects or questioning should be used to assess knowledge
- Authenticated reports of experience in working in a home care environment (Documentation associated with performance reviews, client feedback forms, supervisor/co-ordinator evaluations of work performance)
- Training records associated with OH Safety training, Orientation/Induction Training
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
EVIDENCE GUIDE

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Equipment may include:

- Cleaning equipment
- Domestic appliances
- Whitegoods
RANGE STATEMENT

Clients may be:
- Cognitively impaired
- From a range of cultures and language backgrounds
- Hearing impaired
- Indigenous persons
- Mentally or intellectually disabled
- Physically disabled or frail
- Vision impaired
- Young or aged

Home environment may include:
- Caravan/mobile home
- Group home
- Hostel
- House, flat or other dwelling
- Inside and outside
- Private or public housing
- Residential care or other institution
- Temporary accommodation

Maintenance of hygiene standards for the client may include: but is not limited to:
- Checking clients stored food and drink for fitness for consumption
- Cleanliness of food preparation area, bathing area, toilets

Home care or domestic assistance tasks may include but is not limited to:
- Basic and simple gardening
- Bed making
- Cleaning electrical appliances
- Cleaning kitchen, bathroom and toilet
- Cleaning out refrigerator
- Cleaning windows and other surfaces
- Dusting
- Emptying commodes
- Ironing
- Mopping
- Vacuuming
- Washing (including bringing in, hanging out and folding)
Unit Sector(s)

Not Applicable
HLTCSD203D Prepare and maintain beds

Modification History
Not applicable.

Unit Descriptor
Descriptor
This unit of competency describes the skills and knowledge required to apply bed making and cleaning practices to a range of 'beds' to ensure that clients can safely occupy a clean bed.

Application of the Unit
Application
Bed making practices may apply to occupied or unoccupied beds.
Where beds in an acute setting are occupied, bed making will be usually performed in an assisting role or under the supervision of an appropriate health professional according to organisation policy.

1.4 Check bed linen for displaced personal items, aids and *equipment*, and place aids and equipment in appropriate area/container |
ELEMENT                                PERFORMANCE CRITERIA

2. Make bed                             2.1 Maintain the client's dignity and privacy
2.2 Strip bed linen, where necessary    2.3 Remove clinical waste and soiled linen and place in appropriate container
2.4 Clean the bed according to established procedures, where necessary
2.5 Place clean bed linen on bed in accordance with organisation procedures
2.6 Re-position existing bed linen
2.7 Ask the client whether they are comfortable, or if they have any specific bed needs
2.8 Handle reusable clean bed linen in accordance to organisation procedures
2.9 Clean mattresses and pillows regularly and on discharge, in accordance with organisation procedures

3. Leave bed ready for occupancy or continued occupancy
3.1 Adjust bed height for occupancy and apply brakes according to bed type
3.2 Keep bed and equipment/aids accessible and leave the bed ready for occupancy
3.3 Report damaged and/or faulty beds, equipment, mattresses, pillows and linen to appropriate personnel
3.4 Clean (or dispose of appropriately) and return to storage area all cleaning implements

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.
REQUIRED SKILLS AND KNOWLEDGE

This includes knowledge of:

- Bed cleaning procedures
- Bed linen items
- Hygiene policies and procedures
- Infection control policy and procedures
- WHS policies and procedures
- Procedures for safe handling of soiled linen

**Essential skills:**

It is critical that the candidate demonstrate the ability to

- Prepare, make and leave a bed ready for occupancy in accordance with organisation procedures
- Follow instructions from nursing staff

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes the ability to:

- Undertake the organisation's cleaning procedures for bed types
- Undertake safe manual handling techniques
- Undertake correct disposal of clinical waste, including taking into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Undertake the correct bed making procedures i.e. hospital corners
- Use reading and writing skills required to fulfil job roles in a safe manner and as specified by organisation and may include the ability to:
  - understand symbols used in WHS signs
  - read workplace safety pamphlets or procedure manuals
  - read labels
- Use literacy support available in the workplace:
  - support may range from having access to support or assistance from expert/mentor/supervisor, to having no communication supports available
  - literacy may be required in English or a community language
- Use problem solving skills required including the ability to use available resources and prioritise workload
- Use oral communication skills required to fulfil job roles in a safe manner and as specified by the organisation, including skills in:
  - asking questions
REQUIRED SKILLS AND KNOWLEDGE

- providing clear information
- listening to and understanding workplace instructions
- clarifying workplace instructions when necessary
- competence in English or a community language, depending on client group and organisation requirements
- Use numeracy skills that may range from the ability to complete basic arithmetic calculations such as addition, subtraction, multiplication, division to recording numbers
- Work with others and display empathy with client and relatives

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

Context of and specific resources for assessment:

- Bed linen may include sheets, blankets, quilts, pillowcases, doonas, under-blankets, mattress protectors and personal bed linen
EVIDENCE GUIDE

Method of assessment

- Observation in the work place (if possible)
- Written assignments/projects or questioning should be used to assess knowledge
- Discussion of physical and/or behavioural contingency scenarios involving duty of care
- Recognition - authenticated transcripts of relevant education/training/work or life experiences
- Third Party - authenticated reports of providing client support
- Case studies and scenarios as a basis for discussion of issues and strategies in client support

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related units:

This unit can be assessed independently; however holistic assessment practice with other clients and health services units of competency is encouraged

Where beds are made/maintained and the occupant is still in the bed this unit should be assessed in conjunction with:

- HLTCS305D Assist with client movement

Co-assessment may be also considered with:

- HLTHSE204D Follow safe manual handling practices
Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Beds may include:**
- Balkan beam
- Cot
- Domestic beds
- Electro-mechanical bed
- Flotation mattress
- Isolettes
- Maternity delivery bed
- Paediatric bed
- Renal chair
- Trolley

**Equipment may include but is not limited to:**
- Bed end note holder
- Bedside table
- Chair lifts
- Commodes
- "Monkey grips"
- Personal aids such as hearing aids, glass eyes, false teeth, breast prosthesis, false limbs
- Pressure care devices e.g. Roho mattress, egg carton mattress, foam mattress
- Slings
- Splints
- Walking frames/sticks
RANGE STATEMENT

Clearing a client area may involve:

- Returning items to their correct locations

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to perform Cardiopulmonary Resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) Guidelines.

Application of the Unit

Application

The skills and knowledge described here relate specifically to performing Cardiopulmonary Resuscitation (CPR) and do NOT address other aspects of resuscitation, life support or first aid.

Licensing/Regulatory Information

Employability Skills Information

Employability Skills  This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.  The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

ELEMENT | PERFORMANCE CRITERIA
--- | ---
1. Respond to signs of an unconscious casualty | 1.1 Identify *hazards* to health and safety of self and others
 | 1.2 Minimise immediate risk to health and safety of self, casualty and others by isolating any hazard(s)
 | 1.3 Approach the casualty in a calm, culturally aware, sensitive and respectful manner
 | 1.4 Assess vital signs of casualty
 | 1.5 Recognise the need for CPR
2. Perform CPR | 2.1 Perform CPR in line with ARC Guidelines
 | 2.2 Seek assistance from others and/or ambulance support as appropriate
3. Communicate details of the incident | 3.1 Request ambulance support or appropriate medical assistance and/or ambulance support using available means of communication
 | 3.2 Accurately convey details of casualty's condition and CPR procedures performed to emergency services/relieving personnel
 | 3.3 Calmly provide information to reassure casualty, adopting a communication style to match the casualty's level of consciousness
 | 3.4 Provide reports, where applicable, in a timely manner, presenting all relevant facts relating to performing CPR according to established procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:
REQUIRED SKILLS AND KNOWLEDGE

- ARC guidelines
- Awareness of stress management techniques and available support
- Basic anatomy and physiology relating to performing CPR
- Chain of survival
- Duty of care requirements
- How to access ambulance/medical assistance and/or emergency response support
- Infection control principles and procedures, including use of standard precautions
- Need to be culturally aware, sensitive and respectful
- Own skills and limitations
- Privacy and confidentiality requirements
- Procedures for performing CPR
- Relevant workplace hazards
- State and territory regulatory requirements, ARC Guidelines and accepted industry practice relating to currency of skill and knowledge
- Understanding of the use of an Automated External Defibrillator (AED), including when to use and when not to

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Assess breathing and responsiveness of casualty
- Call an ambulance
- Call for medical assistance
- Demonstrate correct procedures for performing CPR using a resuscitation manikin, including:
  - standard precautions
  - checking for response and normal breathing
  - appropriate location, rate and depth of compression
  - recommended ratio of compressions to ventilations in ARC Guidelines
  - appropriate duration and cessation of CPR
  - may include use of an AED
- Identify and minimise hazards to health and safety of self and others in the immediate workplace or community environment
- Report details of incident and CPR as provided
- Use infection control procedures, including standard precautions
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects of assessment:
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competence must be demonstrated working individually
- Currency of CPR knowledge and skills is to be demonstrated in line with State/Territory, ARC and industry guidelines

Context and resources required for assessment:
- For assessment purposes, demonstration of skills in CPR procedures requires using a model of the human body (resuscitation manikin) in line with Australian Resuscitation Council Guidelines

Access and equity considerations:
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Condition of the casualty may include:
- Signs of collapse
- Absence of signs of life:
  - unconscious
  - unresponsive
  - not moving
  - not breathing normally

Demonstrated CPR procedure must:
- Include adult / child and infant casualties
- Conform to ARC guidelines, including:
  - recognition that 'any resuscitation is better than none'
  - demonstrate:
    - appropriate rate, location and depth of compression
    - correct ratio of compression to ventilation
    - checking for signs of life
    - appropriate duration and cessation of CPR
- Demonstrated CPR procedure may also include use of an AED if available

Access to equipment / resources includes:
- Barrier device
- Manikin
- Resuscitation mask
- AED (if available)

A hazard is:
- A source or situation with the potential for harm in terms of human injury or ill-health, damage to property, the environment, or a combination of these

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required for the safe, timely and efficient transport of clients from one location to another at a particular site, or to other sites.

Application of the Unit

Application

Work will be performed within a prescribed range of functions involving a defined range of skills and known routines and procedures.

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Prepare for transport | 1.1 Confirm transport with relevant personnel  
1.2 Explain procedure to client or relevant personnel and answer any questions as required  
1.3 Prepare for the safe and timely transportation of the client  
1.4 Select equipment and check to ensure that it is clean, complete and correctly functioning for transportation according to transportation requirements  
1.5 Check any other equipment to ensure that it is attached correctly and safely to transportation equipment |
| 2. Transport client | 2.1 Transport client to designated location in accordance with transportation requirements and organisation policy  
2.2 Manoeuvre equipment to ensure client comfort and safety and minimise risk to self |
ELEMENT  | PERFORMANCE CRITERIA
---|---
3. Deliver client | 3.1 Deliver client to designated location and inform relevant personnel of client's arrival as required  
                             3.2 Inform relevant personnel of client's needs as required  
                             3.3 Return equipment as required  
                             3.4 Carry out reporting requirements as appropriate

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Client confidentiality and privacy requirements
- Client handling procedures
- Infection control procedures
- Procedures for securing a client
- When client issues need to be referred to an appropriate health professional

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Follow instructions in accordance with organisation procedures
- Transport and deliver client to correct destination according to safe working practices
- Communicate effectively with clients

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of
REQUIRED SKILLS AND KNOWLEDGE
the identified work role

This includes the ability to:

- Apply safe working practices, including manual handling techniques
- Interpret and follow the instructions and guidance of health professionals involved with the care of clients
- Solve problems including the ability to use available resources and prioritise workload
- Use numeracy skills ranging from the ability to complete basic arithmetic calculations such as addition, subtraction, multiplication, division to recording numbers
- Use oral communication skills required to fulfil job roles in a safe manner and as specified by the organisation, including skills in:
  - asking questions
  - providing clear information
  - listening to and understanding workplace instructions
  - clarifying workplace instructions when necessary
  - competence in English or a community language, depending on client group and organisation requirements
- Use reading and writing skills required to fulfil job roles in a safe manner and as specified by the organisation
  - the level of skill may range from the ability to understand symbols used in WHS signs, to reading workplace safety pamphlets or procedure manuals, to reading labels and manufacturers' specifications for equipment use
  - literacy support available in the workplace may range from having access to support or assistance from expert/mentor-supervisor, to having no communication support available
  - literacy may be required in English or a community language
  - Work with others and display empathy with client and relatives

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

Context of and specific resources for assessment:

- Access to equipment used for transporting clients
- Relevant policies and procedures manuals
- Organisation charts
- Instructions for the use of equipment
EVIDENCE GUIDE

Method of assessment:

- Observation of work activities in transporting clients
- Observation of simulation and/or role play involving transporting clients
- Discussion of physical and/or behavioural contingency scenarios involving duty of care
- Authenticated transcripts of relevant education/training courses
- Recognition of relevant life/work experience
- Written assignments/projects or questioning should be used to assess knowledge
- Authenticated reports of experience in transporting clients (Documentation associated with performance reviews, client feedback forms, supervisor/co-ordinator evaluations of work performance)
- Training records associated with OH Safety training, Orientation/Induction Training, Safe Manual Handling
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related unit:

This unit can be assessed independently, however it may be assessed wholly or partly with:

- HLTCS305D Assist with client movement
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Transportation requirements may include:
- Mode of transport
- Destination
- Information specific to the client
- Transportation of deceased persons
- Accompaniment by health professionals eg nurse or medical officer
- Client clothing requirements
- Documentation requirements

Transportation equipment may include but is not limited to:
- Wheelchair
- Stretcher
- Trolley
- Bed
- Motor vehicle

Other equipment may include but is not limited to:
- IV stand
- Monitors
- Humidicrib
- Oxygen

Client needs may include:
- Appropriate escort eg registered nurse, medical officer, parent, carer, attendant
- Nutritional requirements
- Comfort requirements
