  - involving communities and local government in decision making, implementation, monitoring and evaluation  
  - encouraging community's and local government's contribution to problem solving  
- Alignment, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery  
- Harmonisation:  
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness  
- Managing for results, including continuous improvement of systems to:  
  - manage for development results  
  - support evidence-based decision making  
- Mutual accountability, involving demonstration of:  
  - full transparency and accountability for the use of development resources in program delivery

*Major differences may include:*  
- Financial information required  
- Reporting formats  
- Operation to different financial year ends or funding and reporting cycles  
- Audit requirements
RANGE STATEMENT

Circumstances may include:

- The number of beneficiaries has changed significantly
- The price of material and supplies has changed significantly
- Emergency circumstance prevented completion of the project
- Insufficient funding in some line items due to inflation
- Currency exchange rate

Unit Sector(s)

Not Applicable
CHCDHA408A Manage cash in development and/or humanitarian assistance contexts

Modification History
Not Applicable

Unit Descriptor
 Descriptor  This unit of competency describes the skills and knowledge required to manage cash handling issues in situations where conventional banking infrastructure may be limited or nonexistent and where the context requires that many transactions are conducted in cash

Application of the Unit
 Application  This unit may be applied in a range of development and/or humanitarian assistance work contexts and should reflect the concepts and principles of aid effectiveness and community development (i.e. ownership, alignment, harmonisation, managing for results and mutual accountability) as embodied in the Paris Declaration and Accra Agenda for Action (AAA)

This unit involves managing cash arrangements including cash requirements, cash security and cash transport, in an environment such as a development or humanitarian assistance program

These skills and knowledge are to be applied within the scope of the person's job and authority

<tbody>
<tr>
<td>1. Manage cash in a development or humanitarian assistance context</td>
<td>1.1 Manage cash security in accordance with <em>relevant policies and procedures</em> of the organisation and/or program</td>
</tr>
<tr>
<td></td>
<td>1.2 Determine quantity of cash required for an identified purpose in a <em>development or humanitarian assistance context</em></td>
</tr>
<tr>
<td></td>
<td>1.3 Ensure cash security is maximised through the use of <em>physical and non-physical barriers</em></td>
</tr>
<tr>
<td></td>
<td>1.4 Ensure cash management processes reflect the <em>concepts and principles of aid effectiveness and community development</em></td>
</tr>
<tr>
<td></td>
<td>1.5 Conduct conversion to local currency as securely as possible</td>
</tr>
<tr>
<td></td>
<td>1.6 Communicate with relevant personnel as required to ensure cash security is maximised on delivery to field locations</td>
</tr>
</tbody>
</table>
2. Facilitate safe transport of cash

2.1 Ensure cash transport arrangements are in the hands of a limited number of trusted personnel

2.2 Vary cash transport routines to mitigate risks

2.3 Ensure cash transport plans are securely communicated to field personnel charged with cash disbursement

2.4 Determine and obtain adequate levels of insurance

2.5 Document and approve cash transport plans, including contingency plan

3. Manage currency exchanges

3.1 Carry out international and local currency exchanges in accordance with guidelines and procedures of the organisation and/or program

3.2 Where cross border financial transfers occur, monitor fluctuations in currency values to ensure appropriate funding is available, adequate cash is maintained on hand and budget constraints are adhered to within donor or organisation required (or preferred) currency
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- Generally accepted accounting principles
- Donor or grant requirements
- General cash management principles
- Local laws relating to currency movements into the country
- Local banking and financial infrastructure
- Organisation policies and procedures relating to issues such as:
  - general cash management
  - transportation of cash into country and within country
  - authorisation
  - cash security
  - cash management in high security risk environments
  - remuneration and benefits policies and packages
  - relevant organisation and/or program benchmarks
- Social, cultural and political context of development or humanitarian assistance environment
- Relevant organisation and/or program structure, including formal lines of reporting and responsibility
- Relevant internal politics and informal influence or power relationships
- Problem solving strategies
- Cross cultural awareness and sensitivity
- Team dynamics
- Basic psychological principles

Essential skills:
REQUIRED SKILLS AND KNOWLEDGE

It is critical that the candidate demonstrate the ability to:

- Effectively manage cash handling issues in a development or humanitarian assistance context, including unstable or insecure environments
- Effectively determine cash requirements, ensure available funds and monitor currency fluctuations to manage currency conversion
- Prepare relevant reports and key documents
- Effectively ensure cash security and facilitate planning and organisation of safe transport of cash in a development or humanitarian assistance context, including preparing transport and contingency plans and obtaining adequate insurance
- Effectively communicate with field personnel, project partners, donors and other finance personnel
- Comply with organisation and donor policies and requirements
- Manage currency exchanges in a development or humanitarian assistance context to support availability of funding, cash maintained on hand and adherence to budget constraints within requirements

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Use appropriate communication and interpersonal techniques with colleagues and others
- Work as part of a team environment to complete tasks
- Identify and clearly define problems and demonstrate appropriate response procedures
- Initiate new ideas or work methodologies
- Accurately plan and organise work activities
- Efficiently manage own responsibilities and timelines for completion of work
- Demonstrate personal management, including initiative, self motivation and direction
- Apply project management and evaluation skills
- Work with people from culturally and linguistically diverse backgrounds, showing sensitivity to cultural differences, including:
  - awareness and understanding of cultural differences
  - ability to express that awareness and understanding clearly and concisely
- Communicate effectively with a wide range of different audiences
- Interpret and explain complex formal documents and systems and assist others to apply them in the work context
- Prepare written advice and reports requiring reasoning and precision of expression
- Use communications equipment, including telephone, radio, satellite phone, fax and email
- Demonstrate adaptability and the ability to deal with ambiguous situations
- Select and use appropriate technology
REQUIRED SKILLS AND KNOWLEDGE

- Apply skills in:
  - investigation, including analysis and deduction
  - working as part of a team
  - mediation and negotiation
  - coaching
  - presentation
  - directing and supervising others
  - administration
  - listening
  - negotiation
  - language, literacy and numeracy such as those required to:
    - collect, analyse and organise data
    - communicate in spoken and written form with a range of audiences
    - adjust spoken and written language to suit audience
    - prepare or customise materials
    - calculate and estimate times, costs and quantities

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the work context or realistically simulated work context
- Consistency of performance should be demonstrated over the required range of situations relevant to the work context
- The task of managing cash can be undertaken at a number of levels of complexity, depending on the amounts of cash to be handled, security issues and availability (or not) of local banking and financial infrastructure
- Assessors unable to assess through observation in a development or humanitarian assistance work context should particularly ensure the validity of evidence and determine with care the level of complexity at which management was undertaken
- Assessment must confirm a reasonable inference that competency is able not only to be satisfied under the particular circumstance, but is able to be transferred to other circumstances

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context
- Assessment must comply with relevant regulatory requirements and/or standards
- Resources required for assessment include access to:
  - workplace location or simulated workplace
  - specifications and work instructions
  - policy manuals and procedure manuals (international and local, including sector specific finance manuals)
  - relevant documents (such as duty statements, financial reports, cash and insurance records, transport plans)
  - relevant equipment (such as office equipment and communications equipment)
  - managers, co-workers and other finance personnel

Method of assessment:
- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the field
- Assessment may be applied under project related conditions (real or simulated) and require evidence of process
- Given the nature of this unit, assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Relevant policies and procedures may relate to:

- Cash transaction record keeping
- General financial procedures
- Corporate security requirements
- Movement of cash

Development or humanitarian assistance context may include:

- Regions where access to international financial networks or support services (such as telegraphic transfer through banks or companies such as Western Union) is limited or non-existent
- Regions where threat of break-in, personal assault, and/or robbery is high
- Countries where financial infrastructure, including banking, communication and transport, has been disrupted by destruction of physical infrastructure through natural disaster such as earthquake, flood or fire
- Regions where financial infrastructure, including banking, communication and transport, has been disrupted by war, civil war, or rioting

Physical barriers may relate to:

- Location of building
- Location of cash room within building
- Safes
- Locked doors
- Strong boxes

Non-physical barriers may relate to:

- Restricting information about cash management to a minimum number of personnel
RANGE STATEMENT

Concepts and principles of aid effectiveness and community development include:

- Ownership, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving

- Alignment, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery

- Harmonisation:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness

- Managing for results, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making

- Mutual accountability, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery
RANGE STATEMENT

Facilitate safe transport may include:

- Limiting the number of trusted personnel involved in transport of cash
- Varying routines so cash is not transported on a pre-determined schedule
- Using different modes of transportation of cash at different times
- Use of 'code' words to refer to cash to mitigate ability of others to track movements
- Not notifying drivers of travel in advance when transporting cash by road
- Never transporting cash bags/boxes with keys
- Ensuring contingency plans are in place which provide secure alternatives to ensure adequate cash is on hand

Cash transport may include:

- Transport within a country or across political boundaries (including unofficial political boundaries as may exist during times of civil unrest, war or lawlessness)

Unit Sector(s)

Not Applicable
CHCDHA409A Close out financial operations in development and/or humanitarian assistance contexts

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Close out grant at **end of funding cycle** | 1.1 Follow all *organisation procedures* in relation to closeout and in line with *concepts and principles of aid effectiveness and community development*  
1.2 Disburse all outstanding payments to vendors, taxation agencies and staff  
1.3 Clear all outstanding advances and expense reports  
1.4 Meet all *donor* requirements, including asset disposal, final financial reporting and record retention  
1.5 Provide all final financial reports to key internal stakeholders  
1.6 Remit all unspent funds back to the donor |
2. Close out project or program

2.1 Follow all organisation procedures in relation to closeout
2.2 Disburse all outstanding payments to vendors, taxation agencies and staff
2.3 Clear all outstanding advances and expense reports
2.4 Meet all donor requirements, including asset disposal, final financial reporting and record retention
2.5 Provide all final financial reports to key internal stakeholders
2.6 Remit all unspent funds back to the donor
2.7 Close all bank accounts, receive and review final statements
2.8 **Track** all assets disposed or transferred to other projects in accordance with donor and organisation requirements
2.9 Remove all financial documents to a secure location

3. Close out at end of financial year

3.1 Complete reconciliation with donor funding to identify and carry forward funding to the new fiscal period
3.2 Provide all required year-end financial reports to internal and external stakeholders in appropriate formats, which include all relevant data, and in a timely manner
3.3 Record properly valuations of gift in-kind balances
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- Generally accepted accounting principles
- Organisation’s financial software
- Donor or grant requirements
- Debt analysis systems
- Currency trading
- Customs and excise laws and systems
- Local taxation systems
- Organisation policies and procedures relating to issues such as:
  - end of funding cycle closeout
  - end of project closeout
  - end of financial year closeout
  - closeout under emergency conditions
  - cash management
  - emergency evacuation of personnel, records and assets
  - calculation of gift in-kind values and balances
  - personal security
  - document storage and security

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Effectively carry out a range of activities for closing out financial operations (at end of funding cycle, end of program or project intervention, end of financial year) including ensuring:
REQUIRED SKILLS AND KNOWLEDGE

- outstanding payments are disbursed
- outstanding advances and expense reports are cleared
- balances are recorded
- unspent funds are remitted
- bank accounts are closed
- assets are tracked
- Effectively provide or submit all key documents, financial reports and records to key stakeholders, in a timely manner and in appropriate format
- Effectively communicate with key stakeholders including project partners, relevant staff, donors, other finance staff and other colleagues
- Comply with organisation and donor policies and requirements including close out procedures

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Use appropriate communication and interpersonal techniques with colleagues and others
- Work as part of a team environment to complete tasks
- Identify and clearly define problems and demonstrate appropriate response procedures
- Initiate new ideas or work methodologies
- Accurately plan and organise work activities
- Efficiently manage own responsibilities and timelines for completion of work
- Demonstrate personal management, including initiative, self motivation and direction
- Apply project management and evaluation skills
- Work with people from culturally and linguistically diverse backgrounds, showing sensitivity to cultural differences, including:
  - awareness and understanding of cultural differences
  - ability to express that awareness and understanding clearly and concisely
- Communicate effectively with a wide range of different audiences
- Interpret and explain complex formal documents and systems and assist others to apply them in the work context
- Prepare written advice and reports requiring reasoning and precision of expression
- Use communications equipment, including telephone, radio, satellite phone, fax and email
- Demonstrate adaptability and the ability to deal with ambiguous situations
- Select and use appropriate technology
- Apply skills in:
  - investigation, including analysis and deduction
REQUIRED SKILLS AND KNOWLEDGE

- working as part of a team
- mediation and negotiation
- coaching
- presentation
- directing and supervising others
- administration
- listening
- negotiation
- language, literacy and numeracy such as those required to:
  - collect, analyse and organise data
  - communicate in spoken and written form with a range of audiences
  - adjust spoken and written language to suit audience
  - prepare or customise materials
  - calculate and estimate times, costs and quantities

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

End of funding cycle refers to:
- The end of the time frame approved by the donors for the program intervention

Organisation procedures may relate to:
- Release of payroll funds
- Transfer of bank funds
- Transfer or destruction of records
- Destruction of unused cheques
- Transfer of electronic records
- Destruction of journals and vouchers prior to last electronic back-up and audit
- Evacuation of relevant hard copy records
- Provision of advances to national staff
RANGE STATEMENT

*Concepts and principles of aid effectiveness and community development include:*

- **Ownership**, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving

- **Alignment**, involving maintaining a comprehensive understanding of partner countries’ national development strategies, institutions and procedures to guide program delivery

- **Harmonisation**:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness

- **Managing for results**, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making

- **Mutual accountability**, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery
RANGE STATEMENT

Donors may include:

- Government:
  - Australian Agency for International Development (AusAID)
  - Canadian International Development Agency (CIDA)
  - European Union (EU)
  - Japan International Cooperation Agency (JICA)
  - U.S. Agency for International Development (USAID)
- Multilateral:
  - World Food Program (WFP)
  - United Nations Children's Fund (UNICEF)
  - United Nations High Commissioner for Refugees (UNHCR)
- Private donor:
  - internal
  - external
- Corporate donor
- Local representatives of all of the above
- Local host government

End of program or project intervention may relate to:

- Completion of development program or field intervention e.g. due to successful attainment of objectives
- Decision to reposition humanitarian assistance as development activity
- Decision to evacuate

Track assets may include:

- Recording which staff are removing assets from the country
- Recording assets left at various project locations

**Unit Descriptor**

**Descriptor**

This unit of competency describes the skills and knowledge required to adapt existing technical knowledge and skills to address needs in a resource poor environment and apply them creatively and in line with needs and resources of each specific development or humanitarian assistance context.

**Application of the Unit**

**Application**

This unit may be applied in a range of development and/or humanitarian assistance work contexts and should reflect the concepts and principles of aid effectiveness and community development (i.e. ownership, alignment, harmonisation, managing for results and mutual accountability) as embodied in the Paris Declaration and Accra Agenda for Action (AAA).

These skills and knowledge are to be applied within the scope of the person's role and authority.

Elements and Performance Criteria Pre-Content
Elements define the essential outcomes of a unit of competency.
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

ELEMENT

1. Adapt technical knowledge and skills to suit specific development or humanitarian assistance context

PERFORMANCE CRITERIA

1.1 Conduct a situational analysis and audit of available community resources and capabilities relevant to development situation requiring attention

1.2 Work with understanding of the application of the concepts and principles of aid effectiveness and community development

1.3 Clarify factors that individually and in interaction may impact on the situation and have implications for effectiveness of a technical solution

1.4 Involve community members in discussion of factors potentially impacting on the situation and the solution to it in order to fully appreciate these factors and their relationship to the situation

1.5 Modify own approach to situation requiring attention by reducing technical issues to first principles

1.6 Modify approach to addressing the situation requiring attention by considering potential solutions from first principles

1.7 Review knowledge and technical solutions developed to address related situations and identify commonalities and application in relation to current situation

1.8 Consider the need to build local community capacity through transfer of skills and knowledge as a high priority in addressing the situation and creating a sustainable outcome

1.9 Clearly communicate with key stakeholders in language they understand about key technical aspects of the situation and its solution to develop their understanding and to enable and support them to contribute to the solution
ELEMENT

2. Apply technical knowledge and skills creatively to address community needs

PERFORMANCE CRITERIA

2.1 Reflect on technical aspects of the situation and work collaboratively to identify innovative approaches to finding a solution that best addresses community needs

2.2 Explore ways to address constraints and limitations in ways that may stretch conventionally acceptable boundaries but provide an adequate solution in current circumstances

2.3 Review risks associated with options outside conventionally acceptable boundaries in current circumstances and balance against potential outcomes

2.4 Work in a collaborative way with a range of key stakeholders to find effective solutions in a resource poor environment

2.5 Share technical knowledge and skills with others in a way that contributes to achieving innovative and ongoing solutions to development issues

3. Monitor and evaluate technical solutions

3.1 Establish processes to monitor technical solution and identify criteria for evaluation of outcomes over an identified period of time

3.2 Share relevant information, skills and knowledge to enable ongoing monitoring and evaluation and to make appropriate adjustments to respond to any issues identified

3.3 Participate in monitoring and evaluation with community members in line with own work role
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- Values, principles and ethics underpinning work in the sector, including the Paris Declaration and Accra Principles and principles of 'Do No Harm'
- Australian Agency for International Aid (AusAID) guidelines, including Development for All (Disability) Strategy and Child Protection Policy
- Cultural and country context of specific field projects/programs and sufficient knowledge of local language/s to support basic communication
- Partner country's national development strategies, institutions and procedures
- Basic understanding of the country's political and power structure
- First principles in area of technical expertise

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Be flexible and innovative in analysing technical issues in a specific field environment and reducing technical aspects to first principles to find practical solutions
- Analyse factors impacting on technical issues and potential solutions
- Work effectively within constraints provided by limitations on availability of resources and infrastructure and adapt technical knowledge to realistically address requirements of specific situations
- Find and develop innovative solutions for issues using limited resources and available structures in own area of technical expertise
- Effectively communicate with other stakeholders, including community members, about technical issues using language and concepts they understand
- Listen to and consider options for technical solutions that may be outside conventionally acceptable limits
- Modify thinking and application in relation to own technical skills and knowledge to address situation issues and available resources
- Share skills and knowledge with community members to support ongoing maintenance of selected technical solution
REQUIRED SKILLS AND KNOWLEDGE

- Establish and maintain monitoring and evaluation processes to support and adjust technical solution as required

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Comply with relevant organisation policies, procedures and requirements on work health and safety (WHS), stakeholder welfare, security and related issues
- Effectively communicate with and work safely with others in the work area
- Work as part of a team environment to complete tasks
- Identify and clearly define problems and demonstrate appropriate response procedures
- Initiate new ideas or work methodologies
- Accurately plan and organise work activities
- Efficiently manage own responsibilities and timelines for completion of work
- Demonstrate personal management, including initiative, self motivation and direction
- Retain clear sense of personal values and ethics in ambiguous or stressful situations
- Identify areas for personal improvement or training in self and others
- Demonstrate ethical handling of service delivery issues
- Work with people from culturally and linguistically diverse backgrounds, showing sensitivity to cultural and political differences, including:
  - awareness and understanding of cultural differences and issues associated with disadvantage and disability
  - ability to express that awareness and understanding clearly and concisely
  - ability to build rapport with others, including participants, community leaders, donors, government representatives and other non government organisations involved in development assistance work
  - use basic strategies to overcome language barriers (fluency in more than one language would be a major asset)
  - no political bias in own conduct
- Use emotional state control
- Cope with stressful work environment
- Demonstrate adaptability and the ability to deal with ambiguous situations
- Use communications equipment, including telephone, radio, satellite phone, fax and email
- Use computing equipment and common software programs
- Use administration and routine office procedures
- Select and use appropriate technology
- Demonstrate basic financial management
- Apply skills in:
  - accessing relevant records and information sources
REQUIRED SKILLS AND KNOWLEDGE

- adapting to different environments and responding effectively to challenges
- capacity building
- communicating effectively with a wide range of different audiences
- interviewing and recording
- networking
- report writing
- setting priorities
- undertaking new tasks
- working safely and encouraging a safe workplace
- language, literacy and numeracy skills such as those required to:
  - collect, analyse and organise data
  - communicate in spoken and written form with a range of audiences
  - adjust spoken and written language to suit audience
  - prepare or customise materials
  - calculate and estimate times, costs and quantities

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the workplace or realistically simulated workplace
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged.
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context.
- Resources required for assessment include access to:
  - workplace location or simulated workplace
  - specifications and work instructions
  - policy manuals and procedure manuals (international and local, including sector specific manuals)
  - relevant documents (such as project documents, trip reports, staff assessments, memos, leave records and performance reviews)
  - relevant equipment (such as vehicles, office equipment and communications equipment)
  - managers, co-workers and other staff

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the field.
- Given the nature of this unit, candidates should be expected to present evidence from within a real field environment.
- If this is not possible, demonstration of some performance criteria in this unit may be achieved through observing the behaviour and responses of the candidate under a stressful situation similar to those likely to be encountered in the field.
- While it is unethical and inappropriate to place a candidate in real danger, a life-like simulation may provide the best opportunity to observe 'near-real' responses.
- Underpinning knowledge may be assessed through:
  - written assignments
  - project reports
  - debriefings
  - action learning projects
- Assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations.
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Concepts and principles of aid effectiveness and community development include:

- **Ownership**, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving

- **Alignment**, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery

- **Harmonisation**:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness

- **Managing for results**, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making

- **Mutual accountability**, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery
RANGE STATEMENT

Factors that may impact the situation may include:

- Lack of or inability to access resources and technology
- Local policies, infrastructure and existing systems relating to technical support of the situation
- Political factors
- Community resistance
- Community ability and motivation to maintain introduced resources
- Instability or volatility - e.g. in social, physical, political and/or economic environment
- Ability to fund and support technology as part of ongoing solution
- Cultural sensitivities
- Principles of aid effectiveness

Key stakeholders may include:

- Community members
- Multi-disciplinary team members
- Other workers on the project or program
- Project or program manager
- Funding bodies
RANGE STATEMENT

Culturally sensitive issues refer to:

- Many ways in which cultures vary
- While very different cultures present obvious challenges to those moving into them, cultures which, on the surface, appear to be more closely related can also be challenging because the differences are more subtle
- Culturally sensitive issues may include:
  - clothing preferences
  - cultural imperialism
  - decision making processes
  - directness in conversation (or not)
  - disadvantage and disability
  - evangelism or proselytism
  - food and drink preferences
  - form of government
  - gender of interviewed
  - gender of interviewer
  - gifts
  - greetings
  - identification (with self, family, community, religion, cultural or ethnic group and country)
  - introductions
  - options for expressing disagreement or disapproval
  - preferences relating to positions offered to women or elders
  - requirement of single or multiple gender team
  - role of political parties
  - role of religious authorities
  - role of royal family or traditional rulers
  - role of the military
  - sensitive topics for conversations
RANGE STATEMENT

Monitor and evaluate may include:

- How identified ethical issues are considered and incorporated in the program design
  For instance, in designing a project in a conflict environment, considering if provision of aid will:
  - have a positive effect on the conflict (i.e. help people to stop fighting) or
  - add to the conflict (i.e. increase competition and mistrust)
- How identified culturally sensitive issues are considered and incorporated in the program design
  For instance, in designing a program efforts are made to ensure that:
  - the program assists the affected people without political, religious or gender discrimination
  - programs are carried out in a way that uses and enhances local knowledge and skills
- Program goal and purpose
- Program outputs
- Project activities
- Implementation plan and schedule,
- Program inputs or resources required
- Program impacts,
- Management of risks
- Constraints and assumptions
- Program sustainability
- Management structure and staffing requirements
- Addressing principles of development and/or aid effectiveness
- Financial management and use of resources

Implications may include:

- Misunderstanding and conflict
- Real and important needs of target community may not be addressed
- Image and reputation of the organisation may be affected
- Program procedures may be less efficient and effective
- Lack of participation of affected communities

Unit Descriptor
Descriptor
This unit of competency describes the skills and knowledge required to conduct rapid assessment in a humanitarian assistance context

Application of the Unit
Application
This unit refers to assessments conducted to investigate and document both the risk to human life and the suffering caused by a specific disaster and to make timely recommendations which define and prioritise the actions and resources needed for an immediate response (Relief Operations Manual)

It may be applied in a range of humanitarian assistance work contexts and should reflect the concepts and principles of aid effectiveness and community development (i.e. ownership, alignment, harmonisation, managing for results and mutual accountability) as embodied in the Paris Declaration and Accra Agenda for Action (AAA)

These skills and knowledge are to be applied within the scope of the person's role and authority

<tr>
<td>ELEMENT</td>
<td>PERFORMANCE CRITERIA</td>
</tr>
<tr>
<td>---------</td>
<td>----------------------</td>
</tr>
</tbody>
</table>
| 2. Plan for rapid assessment | 2.1 Identify objectives for the rapid assessment  
2.2 Determine all sectors and all likely affected areas that need to be covered in the assessment  
2.3 Identify and assess key factors, issues and constraints which may affect the conduct of rapid assessment  
2.4 Identify information needs and sources of reliable data  
2.5 Identify key informants for coordination, data gathering or collection  
2.6 Explain objective of assessment to key informants  
2.7 Identify appropriate and culturally sensitive data collection methods for the assessment  
2.8 Prepare and submit the assessment plan according to organisation guidelines |

| 3. Conduct rapid needs assessment | 3.1 Identify, characterise and quantify 'populations at risk' in the disaster  
3.2 Identify local environmental conditions and document likely impact of conditions in appropriate and efficient format  
3.3 Gather existing and available baseline data on the relevant sector  
3.4 Conduct focused group discussions, interviews and appropriate data collection tools with key informants, stakeholders and other agencies operating in the area and record data appropriately  
3.5 Consult existing community social structures  
3.6 Identify and document immediate and longer term needs of local community members  
3.7 Conduct rapid quality checks on the collection, evaluation and dissemination of data and key findings |
4. Undertake capacity assessment

4.1 Identify and assess local response capacity including organisational, medical and logistics resources

4.2 Identify skilled, semi-skilled personnel, youth and women groups and existing organisations in the community

4.3 Identify and assess capacities of all affected local communities, using culturally appropriate interview or survey techniques and other methods as required by relief or cultural context

4.4 Identify and assess vulnerabilities of local communities or individuals in appropriate and efficient format

4.5 Assess coping mechanism of affected population

5. Analyse and interpret data

5.1 Use a range of analysis tools and techniques which are appropriate to the local context and data being analysed

5.2 Confirm and validate data against existing baseline information

5.3 Assess the value of data, reliability of the source and accuracy of data

5.4 Synthesise data in a logical manner

5.5 Gather additional information as required

5.6 Conduct analysis sessions to determine key program interventions and strategies based on the information gathered

5.7 Identify risks to various populations
ELEMENT  PERFORMANCE CRITERIA
6. Prepare and submit report

6.1 Identify key findings of the rapid assessment
6.2 Define and prioritise the actions and resources needed to reduce immediate risks
6.3 Estimate the additional support required from national and international sources for relief and recovery
6.4 Provide recommendations regarding priority needs, further action needed, short term and long term goals
6.5 Prepare detailed plans according to interventions including general project goals, dollar amounts required and key assumptions for implementation

Required Skills and Knowledge
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes:
- General understanding of different sectors
- Social, cultural and political context of the specific humanitarian assistance environment
- Organisation structure, including formal lines of reporting and responsibility
- Organisation internal politics and informal influence or power relationships
- Organisation support systems and personnel and software relevant to sector
- Donor priorities and capabilities and the ways in which they act upon incoming information
- Donor organisation structures, key staff, funding guidelines and reporting requirements
- Data collection techniques
- Participatory Learning and Action (PLA)
- Capacity and Vulnerability framework (i.e. People Oriented Planning)
- Local Capacities for Peace (LCP) / Do No Harm framework
REQUIRED SKILLS AND KNOWLEDGE

- Basic logframe
- Analytical tools and techniques appropriate to local context and data being analysed
- Rapid assessment techniques (e.g. 10 seed technique)
- Participatory Rural Appraisal (PRA)
- General project cycle
- Organisation policies and procedures relating to issues such as:
  - assessment
  - personal security
  - reporting procedures
  - donor relations
  - data collection
- Relief to development transition issues
- Agency guidelines, such as:
  - Australian Agency for International Aid (AusAID) guidelines, including Development for All (Disability) Strategy and Child Protection Policy
  - U.S. Agency for International Development Field Operational Guide (USAID FOG)
  - United Nations High Commissioner for Refugees (UNHCR) guidelines
  - The Sphere standards (particularly on relevant sector being assessed)
  - Common complex humanitarian emergency (CHE) field operational practices
  - Common complex humanitarian emergency (CHE) field living conditions

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Effectively conduct rapid assessment in relief situations which includes planning, conducting needs and capacity assessment, analysing data and reporting key findings.
- Effectively use culturally appropriate and sensitive assessment techniques and analysis tools, prepare and produce an assessment plan and report (with findings and recommendations)
- Effectively communicate with and work safely with assessment team, community and other relevant key stakeholders
- Comply with relevant organisation and international policies, procedures and requirements
- Make rapid and accurate situational assessments, while under stress
- Use investigative skills, including analysis and deduction
- Make rapid quality checks on data gathered

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of
REQUIRED SKILLS AND KNOWLEDGE

the identified work role

These include the ability to:

- Adapt to different environments and respond effectively to challenges
- Initiate new ideas or work methodologies
- Accurately plan and organise work activities
- Efficiently manage self responsibilities and timelines for completion of work
- Use thinking, problem solving and conceptual techniques
- Build rapport with others, including donors, local officials and community members
- Use appropriate communication and interpersonal techniques with colleagues and others
- Participate in a team environment to complete tasks
- Identify problems and demonstrate appropriate response procedures
- Apply skills in:
  - interviewing
  - observation
  - planning
  - networking
  - access organisational records and information sources
  - set priorities
  - undertake new tasks quickly
  - communicate effectively with a range of different audiences
  - work with people from culturally and linguistically diverse backgrounds
  - personal management, including initiative, self motivation and direction
  - respond to identified areas for personal improvement or training in self and others
  - project management and evaluation

*continued ...*

*Essential skills (contd):*

- Use language, literacy and numeracy skills such as those required to:
  - collect, analyse and organise data
  - communicate in spoken and written form with a range of audiences
  - adjust spoken and written language to suit audience
  - prepare or customise materials
  - calculate and estimate times, costs and quantities
- Use communications equipment, including telephone, radio, satellite phone, fax and email
- Use computing equipment and common software programs
- Use administration and routine office procedures
REQUIRED SKILLS AND KNOWLEDGE

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the workplace or realistically simulated workplace
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit
- Assessment must confirm a reasonable inference that competency is able not only to be satisfied under the particular circumstance, but is able to be transferred to other circumstances
EVIDENCE GUIDE

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working

Context of and specific resources for assessment:

- This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context
- Resources required for assessment include access to:
  - workplace location or simulated workplace
  - specifications and work instructions
  - policy manuals and procedure manuals (relief operations manual, international and local, including donor manuals)
  - relevant documents (such as interview and meeting notes, and assessment reports) and standards documents
  - relevant equipment (such as office equipment and communications equipment)
  - managers, co-workers and local staff
EVIDENCE GUIDE

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the humanitarian assistance environment
- Assessment methods must be by direct observation of tasks and include questioning on underpinning knowledge
- Assessment may be applied under project related conditions (real or simulated) and require evidence of process
- Assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Concepts and principles of aid effectiveness and community development include:

- Ownership, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving

- Alignment, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery

- Harmonisation:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness

- Managing for results, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making

- Mutual accountability, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery
RANGE STATEMENT

Multi-sectoral team may include:

- Specialists or technical experts from a variety of sectors with appropriate skills and experience in emergency relief, which may include:
  - emergency relief practitioners
  - health or nutrition specialist
  - program officer
  - commodity officer
  - water and sanitation specialist
  - logistics officer
  - communications officer
  - disaster management officer
  - relief coordinator
  - relief manager
  - Area Development Program (ADP) staff
  - planning staff
  - evaluation staff
  - finance staff
- A diversity of perspectives and knowledge that will enhance the feasibility and quality of the findings and recommendations

Orientation or training may refer to:

- Orientation or training required for data collection in the field which may include:
  - locating sponsored children
  - seeking information regarding impact of disaster upon households
  - doing survey on damage, needs and capacity
  - data collection techniques including:
    - how to conduct focus groups
    - interviewing
    - techniques for validating data
RANGE STATEMENT

Objectives may include:

- Verifying numbers, locations and the needs of affected communities
- Determining nutritional status of children under five
- Assessing food security including:
  - agricultural, veterinary and fishery services
  - availability of food in the community and nearby markets
- Assessing the health of the population (general diseases especially among children), services and health facilities available (including immunisation)
- Assessing the water and sanitation situation
- Assessing situations of local conflicts in the communities
- Assessing education services and facilities
- Assessing protection related problems in the area

Sectors may include:

- Emergency medical care
- Livelihood
- Food and agriculture
- Health
- Shelter and housing needs
- Agricultural needs
- Economic needs
- Water and sanitation
- Environment
RANGE STATEMENT

Key factors, issues and constraints may include:

- Security of location
- Population figures are not verifiable
- Language
- Political instability
- Cooperation and accessibility of community
- Rebel groups
- Lack of communication, infrastructure structures or systems
- Hierarchies of power in the community
- Time constraints
- Size of affected community
- Limited movement and access
- Team lacks inadequate specialists

Key informants may include:

- Field staff
- Local community leaders
- Government officials
- Local officials
- Non-government officials

Data collection methods may include:

- Standard survey techniques
- Questionnaires, checklists and procedures
- Interviews or semi structured interviews
- Participatory rural appraisal (PRA) techniques, including:
  - proportional piling tool
  - visual inspection
  - direct observation
- Secondary data review
- Surveillance
- Technical inspections
- Critical sector analysis
- Household visits
- Transect walks
RANGE STATEMENT

Assessment plan may include:
- Guidelines and standard working procedures
- Identified information needs
- Data collection methods and data gathering procedures
- Areas of responsibility and accountability
- Designated reporting points and reporting procedures
- Designated field investigation teams
- Analysis of data
- Presentation of information
- Recording and dissemination of results
- Contingency plan

Needs assessment may include:
- Internally displaced populations and their means of survival
- Protection issues
- Coping mechanisms
- Food security and food situation
- Health
- Shelter needs
- Water and sanitation
- Education
- Status of relief operations
- Community structures

Populations at risk may include:
- Children
- Women
- Elderly
- People with physical and/or mental disability
RANGE STATEMENT

Baseline data may include:

- Area affected
- Number of people requiring immediate help
- Condition of the affected population such as:
  - health
  - expressed priorities of the affected people
  - number of homes completely destroyed and homes requiring partial repair
  - number of homeless families and individuals
- household structures including:
  - family size
  - extended family structures
  - sites being used as temporary shelters
  - number of those residing in temporary shelters
- existing resources and services for emergency measures
  - availability of food
  - services available and health facilities
  - water and sanitation facilities
  - local conflicts in the communities
  - education services and facilities
  - protection related problems or concerns in the area

Stakeholders may include:

- Community leaders
- Community groups
- Individual households
- Families residing at temporary shelter
- Local authorities counterparts
- Children
- Women
- People with a disability

Response capacity may refer to:

- Level of response by the affected country or region to cope with the situation
- Level of response of different organisations
RANGE STATEMENT

Capabilities may refer to:
- Local skills
- Local environment
- Technical skills
- Financial status and capacity
- Management skills
- Resource generation
- Networking skills

Vulnerabilities may refer to:
- Potential areas for harm or injury
- Potential areas for damage or destruction
- Attitude
- Social and organisation vulnerability

Coping mechanism may refer to:
- A variety of ways and means through which people respond to crisis or emergency situations, difficulties and problems in life

Analysis tools and techniques may include:
- Problem tree analysis
- Gender analysis
- Strengths, weaknesses, opportunities and threats (SWOT) analysis
- Nutritional assessment
- Household food economy analysis
- Health assessment
- Cost and benefit analysis
- Capacity and vulnerability analysis
- 'Do No Harm' framework (Local Capacities for Peace)
- Network analysis
- Environmental impact assessment
RANGE STATEMENT

Risks may include:

- Depleted household food stocks
- Inadequate supply of essential foods
- Malnutrition
- Inadequate supply of emergency clinical medical services
- Severe climatic conditions aggravated by lack of shelter, warm clothing or heating fuel and/or water shortages

Key findings of the assessment report may include:

- An analysis of the most predominant threat
- Areas that are most at risk
- Distribution of most vulnerable population
- Main characteristics of the affected population
- Total number affected by the disaster
- Mortality and morbidity rates
- Total number and types of injuries (minor, severe) and illness
- Emergency health situation
- Damage to:
  - economic resources
  - properties
  - road or infrastructures
  - community structures
- Shelter needs
- Food supply situation
- Water and sanitation situation
- Psychosocial and mental well being
- Impact on major livelihood
- Other organisations present in the target zone including secondary sources of information
- Level of continuing or emerging threat
- Level of response from different organisations
- Level of response by the affected country and capacity to cope with the situation
RANGE STATEMENT

*Actions may include:*
  - Medical aid
  - Food distribution
  - Immunisation
  - Supplementary feeding
  - Child protection
  - Latrine construction
  - Water supply
  - Housing projects
  - Temporary shelter

Elements and Performance Criteria Pre-Content
Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Establish a strong relationship as a basis for **contextual assessment** | 1.1 Clarify the structure and political nature of the target community or organisation, including key individuals, groups and hierarchy  
1.2 Identify and clarify any documented and endorsed change agendas  
1.3 Work with understanding of the application of the concepts and principles of aid effectiveness and community development  
1.4 Identify appropriate individual/group to champion the development and/or change processes  
1.4 Establish a relationship of trust with leadership and key individuals in the community or organisation using effective communication and relationship building practices  
1.5 Engage key individuals from the community or organisation in a process of identifying its strengths and attributing value to those strengths  
1.6 Engage key individuals from the community or organisation in a process to identify and agree the nature of the situation currently requiring attention  
1.7 Identify and engage appropriately **stakeholders with special needs and disadvantages** |
ELEMENT

2. Analyse the situation

   2.1 Identify a range of participatory approaches that may be appropriate to address specific community or organisation needs and situations requiring attention

   2.2 Work with participants to analyse the current situation using tools and processes appropriate to the identified participatory approach

   2.3 Guide the analysis process to assist participants to peel back the layers to reveal the central issues contributing to the situation the community has agreed requires attention

   2.4 Facilitate the analysis process to progress at a rate suited to the participants and in directions that allow them to explore relevant issues in sufficient depth to gain an understanding of the situation

   2.5 Facilitate the analysis process to address issues of stakeholders with special needs and disadvantages

3. Identify capacity needs and terms of reference for moving forward

   3.1 Facilitate the provision of information and evidence to the community or organisation about outcomes of the analysis of the situation

   3.2 Assist the community, counterpart or organisation to identify a range of potential options to address the agreed current situation

   3.3 Review the options in the context of available community or organisation resources and assets and overall feasibility

   3.4 Work with the community, counterpart or organisation to identify potential perceived and actual impacts of each option on the community

   3.5 Facilitate a process to prioritise identified solution options and reach agreement on priorities

   3.6 Advocate appropriately as required to address issues of stakeholders with special needs and disadvantages
ELEMENT

4. Facilitate the planning processes

PERFORMANCE CRITERIA

4.1 Work with the community, counterpart or organisation to plan processes and resources to implement the agreed strategic solution to address the identified situation

4.2 Identify and provide relevant knowledge and skills to build the capacity of participants involved in the planning process

4.3 Encourage communication processes to support planning processes in line with requirements of specific development program context

4.4 Work with the community, counterpart or organisation to identify appropriate processes and criteria to monitor and evaluate ongoing impacts of the program on the community

4.5 Advocate appropriately as required for planning to address issues of stakeholders with special needs and disadvantages

5. Facilitate implementation of capacity building solution

5.1 Assist the community, counterpart or organisation to implement planned solution to address the identified situation

5.2 Identify and provide relevant knowledge and skills to build the capacity of the community to address the situation

5.3 Encourage communication processes to support implementation in line with requirements of specific development program

5.4 Work with the community, counterpart or organisation to support their ongoing management of the situation

5.5 Advocate appropriately as required for inclusion of stakeholders with special needs and disadvantages
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 6. Monitor and evaluate outcomes | 6.1 Ensure the community, counterpart or organisation understands the importance of and rationale for monitoring and evaluation of the program in achieving desired outcomes  
6.2 Work with the community, counterpart or organisation to put in place resources and processes to monitor the impacts of the program and to identify its outcomes  
6.3 Share with the community, counterpart or organisation relevant information, skills and knowledge to enable ongoing monitoring and evaluation of the program and to make appropriate adjustments to respond to issues identified  
6.4 Contribute to monitoring of program outcomes in line with community and development program requirements and within own work role  
6.5 Participate in evaluation of development program where appropriate in line with own work role  
6.6 Assist community to make adjustments where indicated as a result of overall evaluation outcomes |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- Rationale, practices and tools underpinning capacity building in a development program context
- Specific development program work objectives and constraints
- Awareness of gender, HIV/AIDS and child protection issues
- Own work role in the context of development program work
- General project cycle as applied to specific development program work
- Relief to development transition issues
- Relevant Agency guidelines such as:
  - Australian Agency for International Aid (AusAID) guidelines, including Development for All (Disability) Strategy and Child Protection Policy
  - U.S. Agency for International Development Field Operational Guide (USAID FOG)
  - United Nations High Commissioner for Refugees (UNHCR) guidelines
REQUIRED SKILLS AND KNOWLEDGE

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Use relevant tools and processes to support a participatory approach to a development program
- Use facilitation and consultation skills to assist a community, counterpart or government department to:
  - achieve a contextual assessment
  - analyse an identified situation
  - use a resource-based approach to consider and prioritise a range of solutions
  - agree on and plan implementation of a feasible solution
  - implement the development solution
  - monitor and evaluate the ongoing impact of the development solution
- Manage communication processes in the broader context of the overall development program in line with own work role
- Provide leadership and influencing ability in monitoring implementation to achieve quality outcomes

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Comply with relevant organisation policies, procedures and requirements on work health and safety (WHS), stakeholder welfare, security and related issues
- Effectively communicate with and work safely with others in the work area
- Work collaboratively as part of a team environment to complete tasks
- Demonstrate personal management, including initiative, self motivation and direction
- Retain clear sense of personal values and ethics in ambiguous or stressful situations
- Identify areas for personal improvement or training in self and others
- Make situational assessments
- Demonstrate professional and ethical handling of issues
- Work with people from culturally and linguistically diverse backgrounds, showing sensitivity to cultural differences, including:
  - awareness and understanding of cultural differences
  - ability to express that awareness and understanding clearly and concisely
  - ability to build rapport with others, including participants, community leaders, donors and other non-government organisations
  - fluency in more than one language - a major asset
- Use emotional state control
- Use communications equipment, including telephone, radio, satellite phone, fax and email
REQUIRED SKILLS AND KNOWLEDGE

- Use computing equipment and common software programs
- Use administration and routine office procedures
- Demonstrate adaptability and the ability to deal with ambiguous situations
- Select and use appropriate technology
- Apply skills in:
  - setting priorities
  - undertaking new tasks
  - adapting to different environments and responding effectively to challenges
  - communicating effectively with a wide range of different audiences
  - working safely and encouraging a safe workplace
  - accessing organisation records and information sources
  - interviewing
  - networking
  - language, literacy and numeracy skills such as those required to:
    - collect, analyse and organise data
    - communicate in spoken and written form with a range of audiences
    - adjust spoken and written language to suit audience
    - prepare or customise materials
    - calculate and estimate times, costs and quantities
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the workplace or realistically simulated workplace
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context
- Resources required for assessment include access to actual community development context or a realistic simulation

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the field
- Given the nature of this unit, candidates should be expected to present evidence from within a real field environment
- If this is not possible, demonstration of some performance criteria in this unit may be achieved through observing the behaviour and responses of the candidate under a stressful situation similar to those likely to be encountered in the field
- Underpinning knowledge may be assessed through:
  - written assignments
  - project reports
  - debriefings
  - action learning projects
- Assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Contextual assessment process refers to:

- A process of identifying the detailed context of a particular situation which is a focus of a development program
- The contextual assessment process should enable a community to consider and clarify the components of the situation and potential contributing factors in a manner which enables community members to participate freely and effectively and reach agreement about the nature of the situation
RANGE STATEMENT

Concepts and principles of aid effectiveness and community development include:

- Ownership, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving
- Alignment, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery
- Harmonisation:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness
- Managing for results, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making
- Mutual accountability, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery

Stakeholders with special needs and disadvantages may include:

- Refugees
- Children
- The elderly
- Widowed
- People with disabilities

Participatory approaches refers to:

- The use of appropriate tools and processes to enable and support community members to participate in discussion, planning, decision-making and action in relation to development work in their community
RANGE STATEMENT

Processes and resources may include, for example:

- Systems
- Processes
- Individual skills
- Training needs analysis
- Corporate goals

Capacity building solution may include, for example:

- Workshops
- Training on the job
- Courses
- Incentives
- Encouragement
- Coaching and mentoring
- Communication
- Identifying hurdles creating impairment

Project cycle is:

- A well-known construct used to describe the normal life-cycle of a project
- In relation to capacity building, the focus would be on providing technical assistance and using approaches to build capacity in a development assistance context
- The project cycle generally includes:
  - assessment
  - analysis
  - design
  - marketing
  - monitoring
  - reporting
  - evaluation
RANGE STATEMENT

Central issues contributing to the situation may include:

- Health issues, such as:
  - health indicators such as infant mortality and malnutrition
  - health surveys in order to derive health data
  - health interventions such as immunisation or supplemental feeding programs
  - international standards for health
  - HIV/AIDS
- Food aid issues, such as:
  - food for work programs
  - dietary requirements of project participants
  - international standards on food aid
  - cultural requirements of project participants
- Issues of stakeholders with special needs and disadvantages, such as:
  - refugees
  - child protection
  - the elderly and widowed
  - people with disabilities
- Refugee issues, such as:
  - familiarity with The Humanitarian Charter and Minimum Standards in Relief (the Sphere standards) and with international law pertaining to refugees and their rights
  - consideration of cultural issues and of host communities' needs and rights
- Water issues, such as:
  - access to water and its management and purification
  - formulas for calculating the volume of water required
  - ownership and distribution of water, including storage and plumbing infrastructure
- Human resource issues, such as:
  - hiring of local staff
  - local labour hire laws
  - local workers' demand for daily cash payment
  - gender
  - capacity (such as education and experience) of counterparts
RANGE STATEMENT

- staff accommodation and other conditions
- evacuations
- notification of next-of-kin where necessary

Communication issues, such as:
- dealing with local or international media
- preparing press releases and hosting media visits
- preparing non-media marketing information

Governance and finance issues, such as:
- acquittals and budget submissions
- preparation of invoice and receipt books
- cash security
- foreign currency restrictions and transactions
- fraud and corruption

Unit Descriptor
Descriptor
This unit of competency describes the skills and knowledge required to prepare plans for the smooth transition or closure of projects in a development and/or humanitarian context

Application of the Unit
Application
This unit may be applied in a range of development field environments and should reflect the concepts and principles of aid effectiveness and community development (i.e. ownership, alignment, harmonisation, managing for results and mutual accountability) as embodied in the Paris Declaration and Accra Agenda for Action (AAA)

These skills and knowledge are to be applied within the scope of the person's role and authority

Employability skills

This unit contains employability skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

**ELEMENT**  
1. Review and evaluate project outcomes and impact

**PERFORMANCE CRITERIA**

1.1 Describe the stages and processes of a specific project in terms of the *relief and development project cycle*

1.2 Review monitoring and evaluation *data* collected throughout the project in relation to *concepts and principles of aid effectiveness and community development*

1.3 Identify impact and outcomes of individual project activities and the overall project

1.3 Identify lessons learned throughout the project and at its completion and determine its relevance and implications to other projects in the context of an overall humanitarian and/or development assistance program

1.4 Review particular issues for *stakeholders with special needs and disadvantages*

1.5 Analyse the *community capacity* to operate and manage installed facilities and ongoing outcomes of the project in general

1.6 Outline and assess indicators which demonstrate the *merit or worth* and impact of project activities according to relevant guidelines and procedures

1.7 Describe and document the current role and involvement of different *stakeholders*, the impact of their participation and their potential role in the future

1.8 In consultation with key stakeholders list and review *indicators* to determine project continuity, revision or expansion, gradual phase out or closure/termination and the required time frame

1.9 Incorporate any necessary changes or modifications in the project plan to reflect these findings
ELEMENT

2. Incorporate key information in the *transition plan*

PERFORMANCE CRITERIA

2.1 Gather *information* relevant to preparing transition plans in conjunction with stakeholders from the community and other partners.

2.2 In conjunction with partnering stakeholders, plan and recommend appropriate actions, including the phase out or exit strategies.

2.3 Prepare transition plan according to relevant guidelines and requirements.

2.4 Identify potential funding sources and prioritise donor funding opportunities particularly in the case of relief-development transition.

2.5 Prepare draft transition plan and submit to organisation, field staff and relevant partners for their review and further input.

2.6 Collect and incorporate relevant feedback from reviewers in the final plan.
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- Key components of the relief and development project cycle, including crisis versus non-crisis periods
- Relief-rehabilitation-recovery-development continuum
- Specific projects and interventions in the field and related issues
- Key issues and strategies relevant to transition of projects or programs and to project continuity, expansion, phase out and closure
- Key concepts of capacity building
- Project management and evaluation
- General context of humanitarian and development assistance environment
- Program and/or organisation structure, including formal lines of reporting and responsibility
- Emergency management concepts, principles and guidelines
- Key transition processes and exit strategies
- Problem solving and decision making techniques
- Donor priorities and requirements
- Relevant policies, procedures and guidelines relating to issues such as:
  - data collection and analysis
  - risk management
  - evaluation
  - transition
  - sustainability
  - use of communications systems
  - stakeholder or donor relations
- Agency guidelines, such as:
  - Australian Agency for International Aid (AusAID) guidelines, including
REQUIRED SKILLS AND KNOWLEDGE

Development for All (Disability) Strategy and Child Protection Policy
- U.S. Agency for International Development Field Operational Guide (USAID FOG)
- United Nations High Commissioner for Refugees (UNHCR) guidelines, especially on specific projects for vulnerable groups
- other relevant agency guidelines
- The Humanitarian Charter and Minimum Standards in Relief (The Sphere standards)

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Effectively assess impact of project activities, capacity of target population, indicators for project continuity, and prepare relevant reports
- Effectively plan and prepare transition plan with appropriate activities, transition strategies and funding sources
- Effectively communicate with, work safely and involve target groups, key staff and other key stakeholders
- Comply with relevant organisational, international and donor policies, procedures and requirements

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply skills in:
  - adaptability
  - analysis and problem solving
  - consultation and negotiation with stakeholders
  - decision making
  - identification of stakeholders
  - networking and coordination
  - personal management, including initiative, self motivation
  - planning and scheduling
  - presentation
  - problem definition
  - project management and evaluation
  - risk analysis
  - language, literacy and numeracy skills such as those required to:
    - collect, analyse and organise data
REQUIRED SKILLS AND KNOWLEDGE

- communicate in spoken and written form with a range of audiences
- adjust spoken and written language to suit audience
- prepare or customise materials
- calculate and estimate times, costs and quantities
- Work with people from culturally and linguistically diverse backgrounds and to communicate effectively with a range of different audiences using appropriate communication and interpersonal techniques
- Interpret and explain complex formal documents and systems and assist others to apply them in the workplace
- Prepare written advice and reports requiring reasoning and precision of expression
- Prepare written advice and reports requiring reasoning and precision of expression
- Use communications equipment, including telephone, radio, satellite phone, fax and email
- Evaluate and prioritise risks

continued ...

Essential skills (contd):

These include the ability to:

- Deal with ambiguous situations
- Participate in a team environment to complete tasks
- Identify problems and demonstrate appropriate response procedures
- Initiate new ideas or work methodologies
- Accurately plan and organise work activities
- Efficiently manage self responsibilities and timelines for completion of work

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.
- The application of competency is to be assessed in the workplace or realistically simulated workplace.
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints.
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace.
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit.

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working.
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working.

Context of and specific resources for assessment:

- This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged.
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context.
- Resources required for assessment include access to actual community development context or a realistic simulation.
EVIDENCE GUIDE

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the field.
- Given the nature of this unit, candidates should be expected to present evidence from within a real field environment.
- If this is not possible, demonstration of some performance criteria in this unit may be achieved through observing the behaviour and responses of the candidate under a stressful situation similar to those likely to be encountered in the field.
- Underpinning knowledge may be assessed through:
  - written assignments
  - project reports
  - debriefings
  - action learning projects
- Assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Relief and development project cycle may consist of:

- Assessment
- Analysis
- Planning
- Designing
- Marketing
- Implementing
- Monitoring
- Reporting
- Evaluation
- Transition

Relief-rehabilitation-recovery-development continuum refers to:

- The concept which proposes that relief, rehabilitation, recovery and development are not separate activities, but are part of an integrated and holistic approach to disaster environments
- Project activities are planned depending on the stages of disaster, and all interventions incorporate gender, environmental and sustainability analysis

Data refers to:

- Data to be collected and may include vulnerable groups, security risks, knowledge attitude and practices (KAP) of people on issues relevant to the project, existing resources, availability and sufficiency and reliability and community structures
RANGE STATEMENT

**Concepts and principles of aid effectiveness and community development include:**

- **Ownership,** including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving
- **Alignment,** involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery
- **Harmonisation:**
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness
- **Managing for results,** including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making
- **Mutual accountability,** involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery

**Stakeholders with special needs and disadvantages may include:**

- Refugees
- Children
- The elderly
- Widowed
- People with disabilities
RANGE STATEMENT

Community capacity may primarily refer to:
- Technical skills
- Organisation and management skills
- Financial capacity
- Resource generation and utilisation skills
- Skills in preparing operational and contingency plans
- Networking and liaison skills

Merit or worth may refer to:
- The intrinsic value of a program or project
- Value which the program adds to its context or situation
  These judgements should be made at least in part by the program stakeholders

Stakeholders may include:
- Community
- Civil society groups
- Community based organisations
- Government agencies (e.g. AusAID)
- Non-government organisations
- International government organisations (e.g. Oxfam, Care International, Red Cross, Water Aid)
- Local government and government line-agency offices
- Bi-lateral and multilateral agencies (e.g. United Nations, Area Development Bank, World Bank) and business enterprises
RANGE STATEMENT

*Indicators may include:*

- Existing community based organisation as an over-all management committee
- Trained key community leaders (e.g. in governance, financial management, program management and networking)
- Registered organisation as a legal entity, and with leadership structure
- Existing institutions (community based organisations, other non-government organisations, a government department/agency or a church) with relevant technical and managerial competence
- Community's increased level of awareness on various legal issues that affects their human rights
- Community's increased access to and control over knowledge, information and technology
- Communities have food security and sufficient income
- Increased community capacity to manage administration and finance of community based organisations
- Presence of community infrastructure such as improved health service facilities, improved educational facilities for children, improved public transport system in villages and improved road communication
- Other communication facilities like telephone, fax and internet
- Rural electrification
- Regulated marketing structure for marketing of products
RANGE STATEMENT

Transition refers to:

- The process which involves specific activities that are aimed to facilitate the phase out, termination or closure, and major changes in the program or project, and the ongoing sustainability of project outcomes.
- These include activities that involve building up the target population's ability to implement and sustain the projects on their own, and in a longer term without significant external support from the organisation.
- The focus of the transition process would depend on the major needs of the community, but in general, these would include funding, capacity building, networking with other organisations and establishing committees for operation and maintenance.

Transition plans may include:

- Purpose and objectives
- Strategies
- Guidelines
- Processes
- Key components
- Schedules
- Key indicators
- Major outputs
- Resource requirements
- Funding
- Budgets
- Staff requirements

Information may include:

- Key findings from:
  - assessment
  - analysis
  - monitoring and evaluation
  - consultations from stakeholders
- And may relate to:
  - community capacity to manage projects
  - sustainability issues
  - available resources
  - impact indicators

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to manage work in a development and/or humanitarian assistance context to achieve the most effective outcomes

Application of the Unit

Application

This unit may be applied in a range of development and/or humanitarian assistance work contexts and should reflect the concepts and principles of aid effectiveness and community development (i.e. ownership, alignment, harmonisation, managing for results and mutual accountability) as embodied in the Paris Declaration and Accra Agenda for Action (AAA)

These skills and knowledge are to be applied within the scope of the person's role and authority

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

**ELEMENT**

1. Manage delivery of relief and/or development services and programs

**PERFORMANCE CRITERIA**

1.1 Use appropriate management strategies and practices to ensure services provided address *concepts and principles of aid effectiveness and community development*

1.2 Align management practices with the goals and objectives of the organisation and/or program

1.3 Develop, maintain and apply knowledge and understanding of development strategies, institutions and procedures of *partners* in guiding delivery of services and programs

1.4 Support partners to develop effective policies and strategies to achieve identified goals and objectives

1.5 Support partners to exercise effective leadership in the implementation of their development policies and strategies

1.6 Support partners to coordinate development actions to achieve identified goals and objectives

1.7 Support personnel involved in service delivery, ensuring their safety and security in the field

1.8 Manage changing teams effectively to support service delivery

1.9 Make rapid situational assessments and *complex and difficult decisions* associated with service delivery, taking into account cultural and ethical considerations, power structures, organisation requirements and *international standards and conventions*
ELEMENT

2. Use high level communication and interpersonal skills to manage effectively

PERFORMANCE CRITERIA

2.1 Maintain and enhance skills in communication and interpersonal relationships as an ongoing priority to support effective management of aspects of development and/or humanitarian assistance work within scope of own work role

2.2 Exercise discretion in oral and written communication in relation to sensitive issues such as those of a personal, political, cultural and economic nature

2.3 Develop and apply protocols and procedures relevant to each particular situation to support accuracy and understanding of information provided and received

2.4 Take into account individual and cultural differences of stakeholders including differences related to disadvantage and/or disability

2.5 Ensure all communication is targeted to facilitate the achievement of identified outcomes and maintain an appropriately open and inclusive approach

2.6 Manage communication issues in a manner that enhances a community-centred approach consistent with development and/or humanitarian assistance work role requirements

2.7 Take appropriate measures to resolve conflict and interpersonal differences

3. Manage stakeholder relationships

3.1 Manage stakeholder relationships in a manner that supports achievement of identified development outcomes for partners

3.2 Establish and maintain relationships with other development and/or humanitarian assistance partners as a basis for more effective service delivery

3.3 Collaborate with partners to develop strategies and practices that add value and result in more effective development and/or assistance outcomes

3.4 Role model effective stakeholder relationships and support all workers to take a collaborative approach to development and/or humanitarian assistance work
ELEMENT

4. Manage resources, systems and practices to achieve identified outcomes

PERFORMANCE CRITERIA

4.1 Monitor and review aspects of development and/or humanitarian assistance work on an ongoing basis

4.2 Work with partners and other contributing organisations, where appropriate, to regularly evaluate ongoing effectiveness of the program in achieving identified outcomes

4.3 Contribute evaluation results for use in ongoing decision-making to ensure the most effective outcome possible in delivery of services

4.4 Adjust or amend systems and practices as required to improve development and/or humanitarian assistance outcomes throughout the 'life' of the program

4.5 Communicate evaluation results widely to provide all stakeholders with an evidence base to support effective decision making in the field

4.6 Use open and transparent participatory processes and practices in the use and management of resources for development and/or humanitarian assistance work

5. Manage risk in a development or humanitarian assistance context

5.1 Put in place appropriate measures to establish safety and security of personnel and manage their ongoing safety and security throughout development and/or humanitarian assistance work

5.2 Manage specific risks in relation to development or humanitarian assistance work

5.3 Manage risk associated with adverse publicity that may impact the success of the program relating to issues

5.4 Manage risk associated with personnel working under pressure and in difficult conditions, especially over extended periods of time

5.5 Manage risk associated with working in highly complex and rapidly changing contexts and needing to respond quickly and effectively to largely unpredictable and challenging issues
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- A range of management strategies and practices appropriate for use in development and/or humanitarian assistance contexts and their contribution to aid effectiveness
- Values, principles and ethics underpinning work in the sector
- International conventions and legal obligations and responsibilities arising from them
- Legal and ethical responsibilities, including work health and safety (WHS) and environmental regulations, equal employment and anti-discrimination requirements as well as responsibilities in the field context
- Development strategies, institutions and procedures of partner countries
- Effective approaches to address communication issues and achieve identified outcomes in a management role in a development and/or humanitarian assistance context
- Donor priorities and requirements
- Detailed knowledge of theoretical thinking and topical issues related to development and/or humanitarian assistance
- Project management
- The Humanitarian Charter and Minimum Standards in Relief (The Sphere standards)
- Agency guidelines, such as:
  - Australian Agency for International Aid (AusAID) guidelines, including Development for All (Disability) Strategy and Child Protection Policy
  - U.S. Agency for International Development Field Operational Guide (USAID FOG)
  - United Nations High Commissioner for Refugees (UNHCR) guidelines, especially on specific projects for vulnerable groups
  - other relevant agency guidelines
- Common field operational practices
- Partner country's national development strategies, institutions and procedures

Essential skills:
It is critical that the candidate demonstrate the ability to:
REQUIRED SKILLS AND KNOWLEDGE

- Manage the delivery, evaluation and continuous improvement of services in a development and/or humanitarian assistance context
- Support partner countries to exercise effective leadership in implementing and coordinating their development policies and strategies to achieve identified goals and objectives
- Use high level communication and interpersonal skills to manage effectively
- Manage stakeholder relationships in the context of a development and/or humanitarian assistance project or program
- Manage and promote effective team work in a context where team composition may change rapidly and frequently
- Actively seek to collaborate with partners to create added value and greater development effectiveness
- Work with partner countries and other contributing organisations to monitor and evaluate development and/or humanitarian assistance work on an ongoing basis
- Continuously improve systems to manage for development results at all stages of program delivery and support evidence-based decision making
- Demonstrate full transparency and accountability for the use of development resources in program delivery

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Use high level communication and interpersonal techniques
- Provide leadership in line with work role
- Manage problem solving and implementation of solutions
- Efficiently manage project or program in line with work role responsibilities
- Manage personnel from a wide range of cultural backgrounds

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the workplace or realistically simulated workplace
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context
- Resources required for assessment include access to:
  - workplace location or simulated workplace
  - specifications and work instructions
  - policy manuals and procedure manuals (international and local, including sector specific manuals)
  - relevant documents (such as staff assessments, memos, leave records and performance reviews)
  - relevant equipment (such as vehicles, office equipment and communications equipment)
  - managers, co-workers and other staff

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the field
- Given the nature of this unit, candidates should be expected to present evidence from within a real field environment
- If this is not possible, demonstration of some performance criteria in this unit may be achieved through observing the behaviour and responses of the candidate under a stressful situation similar to those likely to be encountered in the field
- While it is unethical and inappropriate to place a candidate in real danger, a life-like simulation may provide the best opportunity to observe 'near-real' responses
- Underpinning knowledge may be assessed through:
  - written assignments
  - project reports
  - debriefings
  - action learning projects
- Assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Concepts and principles of aid effectiveness and community development include:

- Ownership, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving
- Alignment, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery
- Harmonisation:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness
- Managing for results, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making
- Mutual accountability, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery
RANGE STATEMENT

Partners may include:

- Host governments
- Donor agencies
- Project participants
- Other government and/or non-government organisations

Complex and difficult decision may include:

- Decisions involving complex cultural and ethical considerations such as dealing with corruption, treatment of women, treatment of people with a disability
- Managing issues relating to power structures and conflict between social, political, religious or ethnic groups
- Responding to highly complex and rapidly changing contexts and challenges
RANGE STATEMENT

*International standards and conventions may include:*

- Universal Declaration of Human Rights (1948)
- European Convention on Human Rights (1950)
- Convention on the Elimination of all forms of Racial Discrimination (1965)
- International Covenant on Civil and Political Rights (1966)
- International Covenant on Economic, Social and Cultural Rights (1966)
- The four Geneva Covenants of 1949 and their two Additional Protocols of 1977
- Convention on the Status of Refugees (1951) and the Protocol Relating to the Status of Refugees (1976)
- Convention on the Elimination of all forms of Discrimination Against Women (1979)
- African Charter on Human and People's Rights
- Convention against Torture and other Cruel, Inhuman or Degrading Treatment or Punishment (1984)
- The Humanitarian Charter and Minimum Standards in Relief (The Sphere standards) organisational policy and procedure documents
- The Oxfam Gender handbook (while not a formal standard or convention is clearly a well respected benchmark for many non-government organisations)
- Convention on the rights of persons with disabilities
- Principles of Aid effectiveness as embodied in the Paris Declaration (2005) and Accra principles (2008)
RANGE STATEMENT

Monitor and review program or project may include:

- How identified ethical issues are considered and incorporated in the program design
  For instance, in designing a project in a conflict environment, considering if provision of aid will:
  - have a positive effect on the conflict (i.e. help people to stop fighting)
  - add to the conflict (i.e. increase competition and mistrust)
- How identified culturally sensitive issues are considered and incorporated in the program design
  For instance, in designing a program efforts are made to ensure that:
  - the program assists the affected people without political, religious or gender discrimination
  - programs are carried out in a way that uses and enhances local knowledge and skills
- Program goal and purpose
- Program outputs
- Project activities
- Implementation plan and schedule,
- Program inputs or resources required
- Program impacts,
- Management of risks
- Constraints and assumptions
- Program sustainability
- Management structure and staffing requirements
- Addressing principles of development and/or aid effectiveness

Specific risks may include:

- Issues that may impact infrastructure, including transport, food security and communication systems
- Emergency situations
- Political instability and/or corruption

Unit Descriptor

Descriptor

This unit of competency describes the skills and knowledge required to effectively manage local relief operations while supporting the strategic objectives of the organisation and adhering to organisation and international policy and practice requirements

Application of the Unit

Application

This unit may be applied in a range of humanitarian assistance work contexts and should reflect the concepts and principles of aid effectiveness and community development (i.e. ownership, alignment, harmonisation, managing for results and mutual accountability) as embodied in the Paris Declaration and Accra Agenda for Action (AAA)

The application context is very demanding, with very low levels of support and infrastructure present and work must be undertaken at a rapid rate and simultaneously with multiple other tasks

These skills and knowledge are to be applied within the scope of the person's role and authority

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Organise and lead a humanitarian assistance team</td>
<td>1.1 Prepare preliminary estimates of human, financial and other resource needs based on the scope of likely humanitarian response</td>
</tr>
<tr>
<td></td>
<td>1.2 Coordinate with key organisation support units, including human resources, information technology and logistics for support and advice, and establish close working relationship with these units</td>
</tr>
<tr>
<td></td>
<td>1.3 Implement management information systems according to organisation guidelines</td>
</tr>
<tr>
<td></td>
<td>1.4 Provide orientation and briefing to the team in line with the concepts and principles of aid effectiveness and community development</td>
</tr>
</tbody>
</table>
ELEMENT: Plan the operation

PERFORMANCE CRITERIA:

2.1 Develop operational plan and business plan that is aligned with program strategy, using *appropriate tools*

2.2 Determine key activities appropriate to the *response level* and according to organisational guidelines, program design, donor and grant requirements

2.3 Formulate immediate action steps to involve stakeholders

2.4 Gather data to determine program design and response, geographic targets, population targets and the range of other essential critical decisions required for program effectiveness

2.5 Ensure planning includes issues of *stakeholders with special needs and disadvantages*

2.6 Prepare schedules to ensure that *resources* are brought in at the right times
## ELEMENT

### 3. Implement and manage the humanitarian assistance project cycle

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1 Conduct and lead team <strong>assessments</strong> in a timely manner</td>
</tr>
<tr>
<td>3.2 Implement planning and design <strong>processes</strong> according to organisation guidelines</td>
</tr>
<tr>
<td>3.3 Ensure that funding is available</td>
</tr>
<tr>
<td>3.4 Define roles and responsibilities of key <strong>external stakeholders</strong></td>
</tr>
<tr>
<td>3.5 Delegate tasks to appropriate personnel</td>
</tr>
<tr>
<td>3.6 Ensure that design and management of relief response complies with organisational policies and other international humanitarian standards</td>
</tr>
<tr>
<td>3.7 Manage <strong>project cycle</strong> to maximise program effectiveness and to ensure processes are being followed</td>
</tr>
<tr>
<td>3.8 Monitor and assess changing and evolving needs as the situation develops</td>
</tr>
<tr>
<td>3.9 Monitor and assess initial response and its long-term implications, and make decisions according to assessment</td>
</tr>
<tr>
<td>3.10 Monitor and assess expenditures according to organisation guidelines</td>
</tr>
<tr>
<td>3.11 Document project activities and progress and ensure documentation of best practice and innovation into project plans and budgets</td>
</tr>
<tr>
<td>3.12 Prepare update and situation reports</td>
</tr>
</tbody>
</table>

### 4. Maintain local security strategy

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.1 Conduct security assessments in coordination with security officer and other relevant key officers</td>
</tr>
<tr>
<td>4.2 Determine ways to protect and secure organisation and project <strong>assets</strong> and resources</td>
</tr>
<tr>
<td>4.3 Coordinate with security officer to ensure that critical documents such as evacuation and field security policy, operation and contingency plans are developed and updated</td>
</tr>
<tr>
<td>4.4 Ensure staff safety according to organisation standards and procedures</td>
</tr>
</tbody>
</table>
ELEMENT
5. Build strategic alliances with **key stakeholders**

PERFORMANCE CRITERIA
5.1 Build positive relationships with key stakeholders during the initial months of the response
5.2 Conduct regular consultations with key stakeholders and provide relevant updates
5.3 Advocate as required to ensure inclusion and engagement of stakeholders with special needs and disadvantages
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- Organisation goals, structures, policies and procedures, support systems and personnel
- Humanitarian assistance operations
- Program and project management
- Project cycle and field operations
- Human resource management principles
- Financial procedures
- Management information systems
- Donor priorities and structures
- Planning tools and assessment tools
- Strategic planning
- All legislation relevant to the organisation's operation
- Critical path/program evaluation and review technique (PERT) methodology
- Consultative methods and processes
- Performance management
- Relevant organisation software
- Local and international work health and safety (WHS) requirements
- Emergency and development programming
- High level of understanding of emergency relief administration, program response, program design and project writing
- Strong knowledge of computer applications including word processing and spreadsheets
- Early warning analysis and emergency program
- Implementation of emergency relief and disaster mitigation (ERDM) strategies as defined by documents, meetings and other gatherings
- Food aid programming or logistics
- International humanitarianism, sphere standards and international codes of conduct
- Transition management
- Security assessments
- Relevant organisation codes of conduct
- Agency guidelines, such as:
  - Australian Agency for International Aid (AusAID) guidelines, including
Development for All (Disability) Strategy and Child Protection Policy

- U.S. Agency for International Development Field Operational Guide (USAID FOG)
- United Nations High Commissioner for Refugees (UNHCR) guidelines, especially on specific projects for vulnerable groups
- other relevant agency guidelines

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Effectively plan, organise and manage international humanitarian assistance operations, develop and prepare operational and business plans, and security and contingency plans
- Effectively ensure staff safety, security arrangements and available funding
- Effectively use culturally appropriate and sensitive assessment and monitoring methods, prepare and produce assessment, monitoring and situation reports including findings and recommendations
- Effectively communicate with, work safely, coordinate and build positive relationships with affected communities, relief team, key support units and other relevant key stakeholders and agencies
- Comply with relevant organisation, international and donor policies, procedures and requirements
- Use high-level diplomacy skills for relationship building with local government, multilateral organisations, donors and other non-government organisations
- Work with a reasonable level of comfort in high tension and high security risk situations
- Maintain performance expectations in diverse cultural contexts, psychologically stressful environments and physical hardship conditions with limited resources
- Demonstrate a high degree of negotiation and persuasion skills to seek funding commitments from donors, special arrangements and concessions from local governments
- Promote team building environment and transfer skills and knowledge to team
- Adjust to harsh living conditions and demonstrate emotional maturity

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply skills in:
  - people capacity building
  - mentoring, coaching and training
  - using appropriate communication and interpersonal techniques with colleagues and others and participating in a team environment to complete tasks
  - identifying problems and appropriate response procedures and initiating new ideas or work methodologies
  - accurately planning and organising work activities
- efficiently managing self responsibilities and timelines for completion of work
- thinking, problem solving and conceptual techniques
- analysis and evaluation
- performance management, planning and coordination
- project management and report writing
- working safely and encouraging a safe workplace
- networking

**Evidence Guide**

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this unit of competency:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the workplace or realistically simulated workplace
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit
- Assessment must confirm a reasonable inference that competency is able not only to be satisfied under the particular circumstance, but is able to be transferred to other circumstances
EVIDENCE GUIDE

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work.
- All workers should develop their ability to work in culturally and linguistically diverse (CALD) environments.
- In particular, workers should be aware of cultural, historical and current issues facing the people and culture in which they are working.
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working.

Context of and specific resources for assessment:

- This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged.
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context.
- Resources required for assessment include access to:
  - workplace location or simulated workplace
  - specifications and work instructions
  - policy manuals and procedure manuals (international and local, including humanitarian assistance operations and security manuals)
  - relevant documents (such as assessment notes, response plans and reports) and standards documents
  - relevant equipment (such as office equipment and communications equipment)
  - managers, co-workers and local staff
EVIDENCE GUIDE

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-the-job assessment in the humanitarian assistance environment.
- Assessment methods must be by direct observation of tasks and include questioning on underpinning knowledge.
- Assessment may be applied under project related conditions (real or simulated) and require evidence of process.
- Assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Humanitarian assistance team may include:

- Highly experienced professionals in:
  - needs assessment
  - programming
  - project management
  - health
  - nutrition
  - food distribution
  - logistics
  - water and sanitation
  - finance
  - disaster mitigation
  - agriculture
  - human resource

Management information systems may include:

- Schedules of meetings with sector managers and other key staff
- Internal tracking and evaluation systems
- Prescribed organisation software systems
- Hard copy or electronic reporting systems
- External reporting systems, including schedule of reports to organisation and donor
RANGE STATEMENT

Concepts and principles of aid effectiveness and community development include:

- Ownership, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving

- Alignment, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery

- Harmonisation:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness

- Managing for results, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making

- Mutual accountability, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery

Appropriate tools may include:

- Critical path method
- Mapping needs
- Resources
- Competitors
- Competencies and using intersections as the basis for planning
- Complementarity to regional strategies and plans
- Complementarity to national strategy and plan
RANGE STATEMENT

**Response level may include:**
- The first 24 to 72 hours, first 7 days, first 30 days, next 90 days, following one year
- Response level according to critical criteria such as:
  - national office capacity
  - donor funding potential
  - staff required
  - capacity to support
- Terms such as low level, medium level, maximum level

**Stakeholders with special needs and disadvantages may include:**
- Refugees
- Children
- The elderly
- Widowed
- People with disabilities

**Resources may include:**
- Project supplies and equipment such as:
  - blankets, water, water container, food, cooking kits, clothes and plastic sheeting
  - communications equipment including:
    - satellite phones, cellular phones, fax machines, hand held radios and high frequency radios
  - laptop computers with all necessary software
  - information, manuals, policies and forms needed for administration and operations

**Assessments may include:**
- Early warning indicators for communities
- Assessment surveys
- Area Development Program (ADP) or Village Damage and Needs assessment forms
- Checklist on external stakeholders
RANGE STATEMENT

Processes may include:
- Concept phase
- Seed phase
- Design
- Implementation phase
- Exit strategy

External stakeholders may include:
- International organisations such as:
  - World Health Organisation (WHO)
  - World Food Program (WFP)
  - United Nations Children's Fund (UNICEF)
  - United Nations Development Program (UNDP)
  - United Nations High Commissioner for Refugees (UNHCR)
  - World Bank
  - U.S. Agency for International Development (USAID)
  - Australian Agency for International Development (AusAID)
  - Canadian International Development Agency (CIDA)
- International non-government organisations
- National Council of Churches
- Government donors
- Government ministries (e.g. in health, agriculture and labour)

Project cycle may include:
- Assessment
- Analysis
- Design
- Marketing
- Monitoring
- Reporting
- Evaluation
RANGE STATEMENT

Assets may include:

- Vehicles
- Office equipment
- Office machinery
- Office furniture
- Communication devices

Key stakeholders may include:

- Local government
- Other government agencies
- Local partners
- Donors
- International non-government organisations
- United Nations agencies

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Identify strategic priorities in a development and/or humanitarian assistance context</td>
<td>1.1 Work collaboratively with local and/or international partners to identify priorities which maximise long term development and self reliance of target communities and groups</td>
</tr>
<tr>
<td></td>
<td>1.2 Ensure identified priorities maximise cross project efficiencies and build on existing strengths and capacities of stakeholders and local infrastructure</td>
</tr>
<tr>
<td></td>
<td>1.3 Ensure identified priorities take into account external influences likely to impact future projects</td>
</tr>
<tr>
<td></td>
<td>1.4 Ensure identified priorities reflect and take into consideration application of the concepts and principles of aid effectiveness and community development</td>
</tr>
<tr>
<td></td>
<td>1.4 Clarify potential sources of funding that may be available to address identified priorities</td>
</tr>
</tbody>
</table>
2. Work collaboratively to design a development and/or humanitarian assistance program

2.1 Consult with partners working in the sector to identify the range and coverage of separate projects planned or operating concurrently in the geographical area and sector

2.2 Identify, capture and maximise efficiency gains from integrating projects

2.3 Identify and document cross sectoral issues in partnership with other organisations and target community or group

2.4 Ensure program design incorporates measures to effectively address cross sectoral issues

2.5 Ensure documentation clearly communicates to personnel the implications of cross sectoral issues

2.6 Ensure program design adheres to organisation policies, procedures and document in line with any accepted formats and proformas

2.7 Ensure program design includes criteria for evaluation of impact and effectiveness and processes for monitoring implementation as a basis for evaluation

3. Prepare operational plan

3.1 Prepare operational plan which reflects needs identified during consultation and information gathering stage and conforms to organisation standards

3.2 Submit draft design for review to appropriate personnel, partnering organisations and representatives of the target community or group

3.3 Evaluate feedback and appropriately incorporate into operational plan

3.4 Identify performance indicators in project plan as well as methodology for data collection
ELEMENT

4. Monitor implementation of program

PERFORMANCE CRITERIA

4.1 Collect *program information* as outlined in project plan about program activities, outcomes achieved, expenditure and issues arising

4.2 Interview *key stakeholders* using *culture and gender sensitive interview techniques* and arrangements

4.3 Seek feedback regarding program activities, program outcomes and impact on the community, personnel behaviour and performance and recommendations for changes or for future programs

4.4 Identify and appropriately investigate unforeseen aspects of program activities

4.5 Actively consider cross sectoral issues in monitoring the project, taking into consideration *field constraints*

5. Evaluate impact of program

5.1 Analyse data and feedback and use as the basis for evaluating the impact of the program and how effectively it is addressing the established criteria

5.2 Identify extent to which program has achieved identified outcomes

5.3 Compare findings from the data and feedback against the established criteria to determine the impact of the program

5.4 Identify and document alternative and unplanned program outcomes and impacts

5.5 Compare program expenditure against budgets and available ongoing funding

5.6 Identify *appropriate adjustments* to the program

5.7 Prepare relevant documentation to report on the program, including recommendations for changes to address *performance variations*

5.8 Report on the program evaluation to relevant stakeholders
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes:

- Agency guidelines, such as:
  - Australian Agency for International Aid (AusAID) guidelines, including Development for All (Disability) Strategy and Child Protection Policy
  - U.S. Agency for International Development Field Operational Guide (USAID FOG)
  - United Nations High Commissioner for Refugees (UNHCR) guidelines, especially on specific projects for vulnerable groups
  - other relevant agency guidelines
- Analytical tools and techniques appropriate to local context and data being analysed
- Basic logframe
- Broad knowledge of humanitarian and development assistance theoretical thinking and topical issues
- Capacity and vulnerability framework (People Oriented Planning)
- Data collection techniques
- Donor priorities, organisation structures and key staff, funding guidelines and reporting requirements
- General project cycle
- Local Capacities for Peace (LCP)/Do No Harm framework
- Organisation internal politics and informal power or influence relationships
- Organisation policies and procedures relating to issues such as:
  - donor relations
  - data collection
  - assessment techniques
  - confidentiality
- Organisation software relevant to programming sector
- Organisation structure, including formal lines of reporting and responsibility
REQUIRED SKILLS AND KNOWLEDGE

- Organisation support systems and personnel
- Participatory Learning and Action (PLA)
- Participatory Rural Appraisal (PRA)
- Personal security
- Rapid assessment tools (e.g. 10 seed technique)
- Social, cultural and political context of the specific field environment
- The Humanitarian Charter and Minimum Standards in Relief (The Sphere standards)

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Comply with relevant organisation and donor policies and requirements
- Effectively communicate with and obtain relevant feedback and design recommendations from relevant personnel and partner organisations and target communities or groups
- Effectively communicate with key stakeholders, donors and obtain relevant feedback and recommendations for the program
- Effectively monitor and evaluate program activities and outputs, interventions, budget, staffing needs, performance and impact against goals and performance indicators, and make appropriate recommendations for modifications, future programs or planning
- Effectively prepare and produce monitoring and evaluation reports that include summary of monitoring and evaluation methodology, feedback and data summaries, key findings and recommended modifications to the program plan
- Work collaboratively to identify and agree strategic priorities, design a program and prepare an operational plan that takes into account and addresses relevant cross sectoral issues and external influences

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply skills in:
  - accessing a variety of records and information sources
  - accurately planning and organising work activities
  - adapting to different environments and responding effectively to challenges
  - administration and routine office procedures
  - building rapport with others, including donors, local officials and community members
  - communicating effectively with a range of different audiences
REQUIRED SKILLS AND KNOWLEDGE

- efficiently managing self responsibilities and timelines for completion of work
- identifying problems and appropriate response procedures
- initiating new ideas or work methodologies
- making rapid and accurate situational assessments, while under stress
- managing resources
- networking
- participating in a team environment to design and plan program
- program and project design, planning and report writing
- setting priorities and undertaking new tasks quickly
- thinking, problem solving and conceptual techniques
- using analytical tools and techniques
- using appropriate communication and interpersonal techniques with colleagues and others and participating in a team environment to complete tasks
- using investigative skills, including analysis and deduction

**Essential skills (cont):**

- using language, literacy and numeracy skills such as those required to:
  - collect, analyse and organise data
  - communicate in spoken and written form with a range of audiences
  - adjust spoken and written language to suit audience
  - prepare or customise materials
- using communications equipment, including telephone, radio, satellite phone, fax and email
- using computing equipment and common software programs
- working with people from culturally and linguistically diverse backgrounds, with awareness and understanding of cultural differences and ability to express that awareness and understanding clearly and concisely

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the workplace or realistically simulated workplace
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit
- Certain aspects of program monitoring and evaluation present a greater level of difficulty, including actively considering cross sectoral issues, evaluating the impact of the project, identifying non-reported interventions and identifying staffing needs
- The type and scale of evaluation may vary considerably and it may be necessary to undertake several evaluations before gaining sufficient competency to achieve this unit
- Assessment must confirm a reasonable inference that competency is able not only to be satisfied under the particular circumstance, but is able to be transferred to other circumstances
EVIDENCE GUIDE

Access and equity considerations: • All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work
• All workers should develop their ability to work in a culturally diverse environment
• In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working
• Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working

Context of and specific resources for assessment: • This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged
• Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context
• Resources required for assessment include access to:
  • workplace location or simulated workplace
  • specifications and work instructions
  • policy manuals and procedure manuals (international and local, including donor manuals)
  • relevant documents (such as assessment notes and conclusions) and standards documents
  • relevant equipment (such as office equipment and communications equipment)
  • managers, co-workers and local staff
EVIDENCE GUIDE

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the humanitarian assistance environment.
- Assessment methods must be by direct observation of tasks and include questioning on underpinning knowledge.
- Assessment may be applied under project related conditions (real or simulated) and require evidence of process.
- Assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

External influences may include:

- Trends in funding opportunities, both within the organisation and from other sources.
- Domestic political forces within the country.
- Non-domestic political forces.
- Government and non-government agencies and organisations including humanitarian agencies, World Bank and UNHCR.
RANGE STATEMENT

Concepts and principles of aid effectiveness and community development include:

- Ownership, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving
- Alignment, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery
- Harmonisation:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness
- Managing for results, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making
- Mutual accountability, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery

Efficiency gains may include:

- Use of personnel across a number of projects or programs
- Cost savings through sharing office support for projects
RANGE STATEMENT

*Cross sectoral issues may include:*

- Child protection
- Peace building
- Relief to development transition
- Sustainability of program / project (i.e. relating to whether the program activities are able to continue once project funding has ceased)
- Human rights:
  - as set out in the United Nations' Charter of Human Rights
  - target groups within a field situation maintain these rights and therefore are treated as 'rights bearers' rather than as beneficiaries
- Gender issues which encompass but are not limited to the socially defined sex roles, attitudes and values to which communities and societies ascribe as appropriate for one sex or the other:
  - gender does not describe the biological sexual characteristics by which females and males are identified
  - it is ensured that both sexes are included in data gathering using appropriate PRA exercises and 'shielding'
  - as per Oxfam Gender Training Manual which provides further guidance on gender issues
- Potential political, social and cultural impacts of project
- Environmental issues such as adhering to the minimum standards set out in the Humanitarian Charter and Minimum Standards in Disaster Response (Sphere standards)

*continued ...*
RANGE STATEMENT

Cross sectoral issues may include (contd):

- International standards and conventions on environmental issues include:
  - Organisation for Economic Co-operation and Development (OECD) Environmental Checklist
  - Accelerator Mass Spectrometry (AMS) Environmental Markers
  - AMS Generic Field Codes
  - World Bank Environmental Assessment Sourcebook
  - Convention on Biological Diversity (Rio de Janeiro, 1992)
  - United Nations Framework Convention on Climate Change (New York, 1992)
  - International Convention to Combat Desertification (1994)
  - Vienna Convention for the Protection of the Ozone Layer (Vienna, 1985)
  - Montreal Protocol on Substances that Deplete the Ozone Layer (Montreal, 1987)
  - Convention on Wetlands of International Importance Especially as Waterfowl Habitat (Ramsar, 1971)

Operational plan includes:

- Goals and objectives
- Outputs
- Indicators
- Resource requirements
- Timelines
RANGE STATEMENT

Performance indicators will depend on the nature of the program and may include:

- Achievement of goals in areas such as:
  - health statistics (such as mortality rates and weight for age ratios)
  - food distribution
  - commodity distribution
  - infrastructure establishment
  - micro economic development
- Improved outcomes for the community in specified areas of community living
- Enhanced community capacity to address identified issues
- Achievement of identified goals within a specified timeframe

Program information may include:

- Internal or external information, such as
  - monthly project reports
  - financial reports
  - project activity schedules
  - project logbooks
  - receipts and invoices
  - data from related projects
  - international agency reports (World Bank, UNHCR and data from government agencies
  - data from other organisations

Key stakeholders may include:

- Program staff
- Host governments
- Donor agencies
- Program participants
- Other organisations

Culture and gender sensitive interview techniques may include:

- Separating genders
- Separating age cohorts
- 'Shielding' the group from overt influence
RANGE STATEMENT

Field constraints may include:
- Local political environment
- Technological infrastructure
- Environmental conditions
- Road and transport networks
- Ethnic or religious tensions
- Criminal activity
- Cultural factors

Appropriate adjustments may refer to changes to the program to better address issues and achieve outcomes and may include:
- Changes to design of certain elements of the program
- Additional or different resources to be applied
- Training or development of personnel involved

Performance variations may include:
- Program activities that have not been planned but could occur or are occurring and are not being reported by local personnel

Unit Descriptor

Descriptor
This unit of competency describes the skills and knowledge required to manage budgets and track financial income and expenditure while satisfying multiple donor requirements and local legislative demands

Application of the Unit

Application
This unit may be applied in a range of development and/or humanitarian assistance work contexts and should reflect the concepts and principles of aid effectiveness and community development (i.e. ownership, alignment, harmonisation, managing for results and mutual accountability) as embodied in the Paris Declaration and Accra Agenda for Action (AAA)

Managing complex funding arrangements may primarily apply in work environments with program or project funding to multiple projects from multiple donors

These skills and knowledge are to be applied within the scope of the person’s job and authority

Elements and Performance Criteria Pre-Content
Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Clarify financial environment | 1.1 Determine *local legislative requirements*, including taxation, labour laws, *currency transaction restrictions* and regulations and other liabilities  

1.2 Ensure financial context reflects the *concepts and principles of aid effectiveness and community development*  

1.2 Negotiate *donor requirements*, in cooperation with organisation offices, both local, regional and off-shore  

1.3 Determine *local financial environmental constraints*  

1.4 Anticipate funding requirements, including cash requirements, and ensure they are projected by fiscal year and life of project |
## ELEMENT

### PERFORMANCE CRITERIA

| 2. Communicate donor requirements to staff | 2.1 Communicate multiple donor requirements to field, national office and other organisation staff, including initial briefings and ongoing communication to ensure compliance  
2.2 Where project is operating in a country with existing national office, specifically outline **major differences** between donor requirements and existing financial requirements  
2.3 Explain major differences between various **donors** to field and national office staff, as required |
| 3. Comply with donor requirements | 3.1 Meet donor reporting requirements consistently and in a timely manner, and include appropriate data in required format  
3.2 Ensure variances to budget are within approved ranges  
3.3 Outline **circumstances** where an amendment to a grant might be possible, and discuss options for grant amendments, including formal and informal, verbal and written amendments and required supporting documentation |
| 4. Manage expenditure within complex funding arrangements | 4.1 Develop budgets which facilitate the clear tracking of funds from different donors to their specifically funded projects  
4.2 Manage program funding to multiple projects from multiple donors  
4.3 Ensure **core costs** are covered from grants  
4.4 **Monitor** and **control expenditure** to ensure that it does not exceed **available funding** |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- Social, cultural and political context of relief environment
- Organisation structure, including formal lines of reporting and responsibility
- Organisation internal politics and informal influence or power relationships
- Generally accepted accounting principles
- Organisation's financial software
- Donor organisation's structure and key staff
- Grant documents including contracts and standard attachments
- Industry standard finance practices
- Non-government organisation benchmarks in related areas
- Cross cultural awareness and sensitivity
- Team dynamics
- Problem solving strategies
- Organisation policies and procedures relating to issues such as:
  - banking
  - budget preparation and monitoring
  - calculation of gift in-kind values and balances
  - cash management
  - cash management
  - closeout under emergency conditions
  - currency transactions
  - document security
  - document storage
  - document storage and security
  - donor relations
  - emergency evacuation of personnel, records and assets
REQUIRED SKILLS AND KNOWLEDGE

- end of financial year closeout
- end of funding cycle closeout
- end of project closeout
- evaluation methodologies
- financial standards
- personal security

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Manage funding arrangements at a number of levels of complexity from a small scale intervention in a region with stable government and good financial and other infrastructure, through to a range of multi-sectoral interventions involving diverse donors during a complex humanitarian emergency
- Effectively interpret key donor requirements of a major external donor and a major internal donor, and communicate and interpret these requirements (including major differences) to relevant staff
- Comply with organisation and donor policies and requirements of varying levels of complexity, including monitoring activities of other staff and negotiation with donors over grant amendments
- Effectively determine legal requirements, restrictions, donor requirements, financial environment constraints, and prepare report with recommendations
- Effectively determine or anticipate funding requirements for the fiscal year and life of project/s, and negotiate donor requirements
- Ensure that donor requirements are met or renegotiated and communicated effectively with donors, staff, other finance staff and other colleagues
- Effectively develop budgets and ensure core costs are covered
- Effectively monitor and control expenditure and prepare reports, and manage funding arrangements from multiple donors and multiple projects
- Effectively communicate with key stakeholders including project partners, relevant staff, donors and other colleagues

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Use appropriate communication and interpersonal techniques with colleagues and others
- Work as part of a team environment to complete tasks
- Identify and clearly define problems and demonstrate appropriate response procedures
- Initiate new ideas or work methodologies
REQUIRED SKILLS AND KNOWLEDGE

- Accurately plan and organise work activities
- Efficiently manage own responsibilities and timelines for completion of work
- Demonstrate personal management, including initiative, self motivation and direction
- Apply project management and evaluation skills
- Work with people from culturally and linguistically diverse backgrounds, showing sensitivity to cultural differences, including:
  - awareness and understanding of cultural differences
  - ability to express that awareness and understanding clearly and concisely
- Communicate effectively with a wide range of different audiences
- Interpret and explain complex formal documents and systems and assist others to apply them in the workplace
- Prepare written advice and reports requiring reasoning and precision of expression
- Use communications equipment, including telephone, radio, satellite phone, fax and email
- Demonstrate adaptability and the ability to deal with ambiguous situations
- Select and use appropriate technology
- Apply skills in:
  - investigation, including analysis and deduction
  - working as part of a team
  - mediation and negotiation
  - coaching
  - presentation
  - directing and supervising others
  - administration
  - listening
  - negotiation

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the workplace or realistically simulated workplace
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit
- Assessors need to be aware of potential complexities and note that complying with donor requirements in a straightforward, small scale grant situation may not provide evidence against all performance criteria within this unit
- Assessors unable to assess through observation in a relief environment should particularly ensure the validity of evidence and determine with care the level of complexity at which management was undertaken
- Assessment must confirm a reasonable inference that competency is able not only to be satisfied under the particular circumstance, but is able to be transferred to other circumstances

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit may be assessed independently, however, holistic assessment practice with other related units of competency is encouraged
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context
- Assessment must comply with relevant regulatory requirements and/or standards
- Resources required for assessment include access to:
  - workplace location or simulated workplace
  - specifications and work instructions
  - policy manuals and procedure manuals (international and local, including sector specific finance manuals)
  - relevant documents (such as contracts, records of communications with donors, staff briefing notes and records)
  - relevant equipment (such as office equipment and communications equipment)
  - managers, co-workers and other finance staff

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the field
- Assessment may be applied under project related conditions (real or simulated) and require evidence of process
- Given the nature of this unit, assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Local legislative requirements may include:
- Requirements unique to the local context
- Requirements which are common to many countries and/or areas
- Taxation requirements
- Customs and excise requirements
- Currency taxation requirements
- Labour and industrial relations requirements

Currency transaction restrictions may include:
- Limits on the amount of foreign currency able to be imported into or transported within the country
- Requirements that only certain banks or entities carry out currency transactions
RANGE STATEMENT

Concepts and principles of aid effectiveness and community development include:

- Ownership, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving
- Alignment, involving maintaining a comprehensive understanding of partner countries’ national development strategies, institutions and procedures to guide program delivery
- Harmonisation:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness
- Managing for results, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making
- Mutual accountability, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery
RANGE STATEMENT

*Key donor requirements may include:*
- Reporting data and information requirements
- Reporting timeframes and frequency
- Reporting formats
- Project flexibility
- Purchasing standards
- Use of funds for overhead costs
- Restriction on purchase from certain countries
- Level of back-up documentation required to support reports
- Tracking of staff time
- Utilities
- Rentals etc
- Need to expend funds or percentage of funds within donor country of origin
- Budget variance allowances

*Local financial environmental constraints refer to:*
- The sum of issues impacting on financial operations, including but going beyond local legislative restrictions to aspects such as:
  - currency and banking laws
  - financial infrastructure
  - economic health
  - inflation
  - price volatility
- Other factors may include:
  - scarcity of goods and/or services
  - local monopolies
  - inflation rate
  - transportation difficulties
  - criminal activity
  - numbers of traders
  - scarcity of currency
  - black market or barter systems
RANGE STATEMENT

Major differences may include:

- Financial information required
- Reporting formats
- Operation to different financial year ends or funding and reporting cycles
- Audit requirements

Donors may include:

- Government:
  - Australian Agency for International Development (AusAID)
  - Canadian International Development Agency (CIDA)
  - European Union (EU)
  - Japan International Cooperation Agency (JICA)
  - U.S. Agency for International Development (USAID)
- Multilateral:
  - World Food Program (WFP)
  - United Nations Children's Fund (UNICEF)
  - United Nations High Commissioner for Refugees (UNHCR)
- Private donor:
  - internal
  - external
- Corporate donor
- Local representatives of all of the above
- Local host government

Circumstances may include:

- The number of beneficiaries has changed significantly
- The price of material and supplies has changed significantly
- Emergency circumstance prevented completion of the project
- Insufficient funding in some line items due to inflation
- Currency exchange rate
RANGE STATEMENT

Core costs may include:
- Some operational costs
- Travel
- Capital expenses
- Staff training
- Cost of maintaining local or regional office

Monitor expenditure may include:
- Collation of financial information to enable production of monthly reports
- Working closely with field staff or managers where expenditure levels are of concern

Control expenditure involves:
- Feeding information about remaining funds back to field managers prior to expenditure of funds and then not processing requisitions once all funds have been expended

Available funding may include:
- The unspent portion of funds which have been promised by donors, funds which are actually currently available (which may include both more and less than the level of funding originally committed to by the donor)

Options for negotiation may include:
- Reporting deadlines
- Country of origin restrictions on purchase of goods
- Overhead rates
- Disposition of assets
- Carry-forwards/project extensions (cost or no cost)
- Pre-approvals/pre-authorisations
- Amendments to budgets
- Changes in interventions

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Develop implementation plans</td>
<td>1.1 Formulate implementation plan for a specific project in consultation with key stakeholders and according to relevant formats and checklists</td>
</tr>
<tr>
<td></td>
<td>1.2 Ensure plan addresses all stages of the general project cycle for a development and/or humanitarian assistance project and reflects the concepts and principles of aid effectiveness and community development</td>
</tr>
<tr>
<td></td>
<td>1.3 Ensure implementation plan conforms to strategy, policies, standards and decisions agreed during community action planning processes</td>
</tr>
<tr>
<td></td>
<td>1.4 Ensure implementation plan clearly shows the roles and responsibilities of different stakeholders and human resources needs</td>
</tr>
<tr>
<td></td>
<td>1.5 Ensure implementation plan clearly articulates the detailed work-schedule and major milestones</td>
</tr>
<tr>
<td></td>
<td>1.6 Develop clear monitoring mechanisms or plans to support the implementation plan</td>
</tr>
<tr>
<td></td>
<td>1.7 Determine the field constraints and prepare contingency plans to manage the risks and assumptions</td>
</tr>
<tr>
<td></td>
<td>1.8 Submit draft implementation plan for review to relevant personnel involved in consultation processes</td>
</tr>
<tr>
<td></td>
<td>1.9 Collect feedback from reviewers and incorporate relevant information in the final plan</td>
</tr>
</tbody>
</table>
ELEMENT

2. Coordinate preparations for execution of the plan

PERFORMANCE CRITERIA

2.1 Determine personnel needs, and recruit and train the required number of personnel

2.2 Inform and consult senior management about the plan and other relevant information

2.3 Develop terms of reference for process and performance monitoring requirements, in consultation with relevant field personnel and other stakeholders

2.4 Determine relevant and appropriate monitoring checklists, formats and methodology

2.5 Ensure availability of required tools and equipment

2.6 Formulate contractual provisions according to prevailing norms, standards and program and/or organisation requirements

2.7 Mobilise key stakeholders, including external or local contractors for effective implementation
ELEMENT

3. Monitor execution of the implementation plan

PERFORMANCE CRITERIA

3.1 Determine *data collection tools and techniques* for monitoring which are appropriate to the local context, and use them in a culturally sensitive manner

3.2 *Involve* all relevant stakeholders in the monitoring process

3.3 Ensure any construction work adheres to standards, and all built structures are according to the design

3.4 Alter designs only when the site condition requires a different approach

3.5 Monitor quality of workmanship to meet the design requirements

3.6 Employ qualified persons to carry out the construction work

3.7 Ensure construction work complies with relevant *precautionary or work health and safety (WHS)* measures

3.8 Obtain feedback from stakeholders regarding the applicability of the process, suitability of the intervention, staff performance and recommendation for future interventions

3.9 Adhere to the monitoring plan strictly and inform key stakeholders of any deviations in the plan

3.10 Make on-site decisions according to the needs and urgency, and if major and necessary deviations result from the implementation plan
ELEMENT

4. Prepare and submit monitoring reports

PERFORMANCE CRITERIA

4.1 Collect and validate comparative data using appropriate methods

4.2 Analyse data and feedback, and use them as basis for response to performance

4.3 Determine relevant and applicable information from the monitoring conducted and make adjustments to the plan when necessary

4.4 Determine performance variations according to program and/or organisation guidelines

4.5 Prepare monitoring reports according to program and/or organisation and donor requirements and circulate to relevant stakeholders for feedback and action
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes:

- General context of development and humanitarian assistance environment and key components of the relief and development project cycle
- In-depth understanding of technical, design and legislative aspects of specific programs and project activities
- Project management, monitoring mechanisms, evaluation and performance management
- Program and/or organisation structure, including formal lines of reporting and responsibility
- Emergency management concepts, principles and guidelines
- Problem solving and decision making techniques
- Donor priorities and requirements
- Contract provisions and management
- WHS measures
- Basic research, demographic and economic analysis techniques
- Data collection and techniques
- Sectoral requirements
- Relevant policies, procedures and guidelines relating to issues such as:
  - data collection and analysis
  - risk management
  - evaluation
  - security of personnel and assets
  - currency transactions and security
  - document storage and security
  - data gathering, reporting and recording
  - evaluation methodologies
  - industry standard risk evaluation practices
  - relevant benchmarks in related areas
  - cross cultural awareness and sensitivity
  - relevant manuals and standards
REQUIRED SKILLS AND KNOWLEDGE

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Effectively develop and produce implementation plan for specific projects or interventions
- Effectively monitor implementation of activities and make necessary adjustments to the plan
- Effectively identify personnel requirements, develop terms of reference, employ qualified persons, monitor performance and make recommendations
- Effectively ensure availability of tools and equipment, develop and monitor appropriate mechanisms (such as monitoring and contingency), and prepare relevant plans and reports
- Effectively communicate with, work safely, involve and mobilise key stakeholders including target communities, key staff and others
- Comply with relevant organisation, international and donor standards, policies, procedures and requirements

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Develop planning processes
- Conduct site investigation and/or inspections
- Monitor procedures and work progress
- Make adjustments or changes to the design or plans
- Interpret and apply relevant plans, procedures and policies
- Coordinate activities
- Respond to identified problems and concerns in the field
- Use safety equipment and personal protective equipment
- Select and use appropriate technology
- Work with people from culturally and linguistically diverse backgrounds, communicate effectively with a range of different audiences using appropriate communication and interpersonal techniques
- Interpret and explain complex formal documents and systems and assist others to apply them in the workplace and prepare written advice and reports requiring reasoning and precision of expression
- Evaluate and prioritise risks and use emergency risk modelling processes to estimate risk
- Deal with ambiguous situations
- Participate in a team environment to complete tasks
- Identify problems and demonstrate appropriate response procedures
- Initiate new ideas or work methodologies
REQUIRED SKILLS AND KNOWLEDGE

- Accurately plan and organise work activities
- Assess tools, machinery and equipment techniques
- Apply skills in:
  - project management and evaluation
  - use of communications equipment, including telephone, radio, satellite phone, fax and email
  - identification of stakeholders
  - consultation and negotiation with stakeholders
  - risk analysis
  - problem definition
  - adaptability
  - presentation
  - efficient management of self, responsibilities and timelines for completion of work
  - use of effective thinking, problem solving and conceptual techniques

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The application of competency is to be assessed in the workplace or realistically simulated workplace
- Assessment is to occur under standard and authorised work practices, safety requirements and environmental constraints
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- The circumstantial or unsolicited testimony of project participants, governments or other non-government organisations regarding ethical behaviour should be considered as significant evidence in relation to this unit

Access and equity considerations:

- All workers in development and humanitarian assistance should be aware of access, equity and human rights issues in their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In particular workers should be aware of cultural, historical and current issues facing the people and culture in which they are working
- Assessors and trainers must take into account relevant access and equity issues relating to the culture in which they are working

Context of and specific resources for assessment:

- This unit may be assessed independently, however holistic assessment practice with other related units of competency is encouraged
- Assessment of essential underpinning knowledge, other than confirmatory questions, will usually be conducted in an off-site context
- Resources required for assessment include access to actual community development context or a realistic simulation
EVIDENCE GUIDE

Method of assessment:

- Assessment needs to take into consideration the practical difficulties associated with attempting on-job assessment in the field.
- Given the nature of this unit, candidates should be expected to present evidence from within a real field environment.
- If this is not possible, demonstration of some performance criteria in this unit may be achieved through observing the behaviour and responses of the candidate under a stressful situation similar to those likely to be encountered in the field.
- Underpinning knowledge may be assessed through:
  - written assignments
  - project reports
  - debriefings
  - action learning projects
- Assessment should be supported by supplementary evidence from a wide range of sources, preferably including evidence from one or more field situations.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Implementation plan refers to:
- Detailed framework prepared in consultation with the target communities and generally includes:
  - key strategies
  - sequence of activities
  - relevant processes and procedures
  - human resources needs
  - capacity building initiatives
  - work schedules
  - monitoring mechanisms
  - resource allocation and utilisation plans
  - resource requirements and budget

Key stakeholders may include:
- Field staff
- Community based organisations
- Community leaders or representatives
- Organisation/program personnel and managers
- Local government representatives and line-agency offices
- Non-government organisation representatives
- International non-government organisation representatives (e.g. Oxfam, Care International, Red Cross, Water Aid)
- Civil society groups
- Bi-lateral and multilateral agencies (e.g. United Nations and World Bank)

General project cycle may consist of:
- Assessment
- Analysis
- Planning
- Designing
- Marketing
- Implementing
- Monitoring
- Reporting
- Evaluation
- Transition
RANGE STATEMENT

Concepts and principles of aid effectiveness and community development include:

- Ownership, including:
  - using delivery processes that support partner countries to exercise effective leadership over their development policies and strategies
  - coordinating development actions
  - involving communities and local government in decision making, implementation, monitoring and evaluation
  - encouraging community's and local government's contribution to problem solving

- Alignment, involving maintaining a comprehensive understanding of partner countries' national development strategies, institutions and procedures to guide program delivery

- Harmonisation:
  - actively seeking to collaborate with other Official Development Assistance (ODA) partners to create added value and greater development effectiveness

- Managing for results, including continuous improvement of systems to:
  - manage for development results
  - support evidence-based decision making

- Mutual accountability, involving demonstration of:
  - full transparency and accountability for the use of development resources in program delivery

Major milestones may refer to:

- Indicators in work schedule and may include:
  - commencement of work
  - completion of work
  - reporting dates
  - monitoring visits
  - mid and project end evaluations
RANGE STATEMENT

Field constraints may include:

- Non-availability of skilled labour
- Non-availability of resources
- Road blockade due to landslide or other disasters
- Non-availability of volunteer labour due to peak season of cultivation, festival time and other related activities
- Potential conflicts, riots and violence
- Cultural and social taboos and beliefs

Methodology refers to:

- Methodology used in monitoring
  - This may vary depending on the type of monitoring to be conducted and may involve:
    - participatory monitoring
    - monitoring by external experts
    - process monitoring
    - performance monitoring
    - impact monitoring
    - compliance monitoring
    - baseline monitoring

Contractual provisions may include:

- Lump-sum contract
- Labour contract
- Build-operate and transfer contract
- Item-wise contract
- Material contract
- Fixed-term contract
RANGE STATEMENT

Data collection tools and techniques may include:

- Interviewing
- Brainstorming
- Direct observation
- Participatory mapping
- Ranking
- Focus group discussions
- Venn diagram
- Community meetings
- Transect walk
- Time-use analysis
- Trend analysis
- Household surveys using structured and semi-structured questionnaires
- Wealth ranking
- Pair-wise ranking
- Matrices

Involve refers to:

- How relevant stakeholders may be involved in monitoring and may include activities such as:
  - planning
  - review of project outputs
  - data gathering
  - field visits and interviews
  - monitoring impact
  - report writing
RANGE STATEMENT

Precautionary or work health and safety (WHS) measures refer to:

- Measures that need to be considered during construction work and may include:
  - effective supervision
  - carefully designed work methods and well trained workers
  - regular changeover of workers
  - safety equipment and first aid kit on site
  - fencing around the site
  - provision of a guard or watch man

- Precautionary or WHS concerns may include:
  - lack of expert supervision
  - careless worker and work methods
  - tiredness and lack of concentration
  - faulty equipment
  - interference by casual onlookers and animals
  - children playing on unattended sites

Performance variations may include:

- Project activities that have not been planned but could occur or are occurring, and are not reported by local staff

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Demonstrate an understanding of the delivery of quality services for people with disabilities | 1.1 Demonstrate understanding of key issues facing people with disabilities and their carers  
1.2 Demonstrate understanding of the policy, regulatory, legislative and legal requirement context applying to disability work  
1.3 Demonstrate commitment to access and equity principles  
1.4 Take into account personal values and attitudes regarding disability when planning and implementing work with people with disabilities  
1.5 Demonstrate understanding of different impacts on clients of specific disabilities, including acquired and developmental disabilities |
2. Demonstrate the capacity to support rights, interests and needs of people with disabilities

**PERFORMANCE CRITERIA**

2.1 Demonstrate understanding of strategies that assist in people with disabilities to exercise their rights and independence

2.2 Acknowledge *different client requirements*

2.3 Comply with legal responsibilities and duty of care

2.4 Report situations that may pose a health or safety issues, according to organisation procedures

2.5 Apply a range of *models for working in the sector* to meet different client needs
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:
- Knowledge of developmental and acquired disabilities
- Understanding different client requirement according to different disabilities
- Knowledge of networks in the disability sector
- Holistic and client-centred care
- Consumer needs and rights including duty of care
- Principles of empowerment/disempowerment in relation to people with disabilities
- Principles of access and equity
- Principles and practices of confidentiality
- Awareness of discriminatory actions
- Common risks to safety
- Role of guardianship board, public trustee and independent advocate
- Awareness and understanding of consent and strategies utilised to determine ability to consent

**Essential skills:**
It is critical that the candidate demonstrate the ability to:
- Demonstrate an understanding of the rights and responsibilities of people with disabilities, stereotypes that may exist about people with disabilities and awareness of the impact of own attitudes on working with people with disabilities

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.
REQUIRED SKILLS AND KNOWLEDGE
These include the ability to:

- Demonstrate application of skills in interpersonal communication with clients and other stakeholders

Evidence Guide
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on ‘What if?’ scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a ‘period of time’ and/or in a ‘number of locations’, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Context includes:

- The relevant statutory framework
- Historical context of work e.g. changing attitudes, changing approaches to working with clients
- Changing social context of work e.g. consumer centred approach, changing government and societal views, approaches to working with clients
- Political context e.g. government policies and initiatives
- Economic context e.g. the current economic situation as it relates to and affects people with disabilities and the subsequent impact on client needs
- Facts/myths about disability

Issues include:

- Access to services for people with disabilities and their carers
- Meeting individual needs and personal goals of people with disabilities
- Family and carer issues
- Grief and loss

Models for working in the sector may include:

- Community development and education
- Health promotion
- Case management
- Working with families
- Peer support/self help
- Residential services
- Respite care
- Home based support
- Community access
- Advocacy
- Employment support
- Lifestyle support
- Business services
- Support
RANGE STATEMENT

The underpinning values and philosophies of the sector may include:

- A holistic and consumer-centred approach
- Community education
- Delivery of appropriate services
- Commitment to meeting the needs and upholding the rights of clients
- Commitment to empowering clients

Different client requirements may depend upon:

- Type of disability such as:
  - physical
  - sensory
  - intellectual
  - psychiatric
- Support availability including:
  - family
  - financial
  - physical and emotional
  - employment
  - education and training
  - presence of a terminal illness/condition

Policy and legislative requirements include:

- Disability Services Act
- Disability Discrimination Act
- Privacy Act
- Equal employment opportunity principles
- Guardianship Board
- Individual rights
- Disability service standards
- Nurses Act
- Medical Act
- Medication regulations
RANGE STATEMENT

Commitment to access and equity principles includes:

- Creation of a client oriented culture
- A non-discriminatory approach to all people using the service, their family and friends, the general public and co-workers
- Ensuring the work undertaken takes account of and caters for differences including: cultural, physical, religious, economic, social, developmental, behavioural, emotional and intellectual

Rights include principles expressed in:

- Charters of rights
- Outcomes standards documents
- General human rights
- Freedom from discrimination
- Freedom of information

Rights include:

- Privacy
- Confidentiality
- Common law
- To be treated in a dignified, safe and comfortable manner
- To express own feelings
- Friendship
- Freedom of association
- Choice to participate
- Access to complaint mechanisms

Interests include:

- Financial
- Accommodation
- Services
- Recreation

</tr>
</tbody>
</table>
ELEMENT

2. Communicate effectively with people with a disability

PERFORMANCE CRITERIA

2.1 Identify specific communication needs of people with a disability including, where appropriate:
   - identifying and using techniques, devices and aids specific to each person with a disability
   - translation and language interpreters
   - cultural interpreters
   - referral to specialists

2.2 Identify areas of mistrust or conflict that may require conflict resolution

2.3 Identify need to include additional people including trusted friends, case workers, family members or adults

2.4 Select from a range of appropriate communication strategies and employ to:
   - establish rapport
   - exchange information
   - facilitate resolution of issues
   - defuse potentially difficult situations

2.5 Apply effective communication where appropriate to provide a brief intervention

2.6 Give feedback and advice in a way which reflects current identified good practice

2.7 Show due regard to individual differences, needs and rights in communicating with clients and colleagues

2.8 Communicate referrals to other staff, manager or specialist services as appropriate to ensure duty of care responsibilities are met in situations where break downs in communication occur
ELEMENT

3. Demonstrate the capacity to support *rights, interests and needs* of people with disabilities

PERFORMANCE CRITERIA

3.1 Demonstrate understanding of strategies that assist people with disabilities to exercise their rights and independence

3.2 Acknowledge *different client requirements* and adapt approach to address specific requirements of each person, using positive practices in all interactions with people with disabilities

3.3 Comply with legal responsibilities and duty of care

3.4 Report situations that may pose health or safety issues according to organisation procedures

3.5 Apply *different models for working in the sector* as required to meet client needs

4. Demonstrate the capacity to provide support across a range of disability types

4.1 Apply fundamental knowledge of physical and psychological *stages of human development*

4.2 Apply fundamental knowledge of factors that may enhance or inhibit human development

4.3 Demonstrate understanding of a range of support practices for people with an intellectual disability, sensory disability, neurological impairment, acquired brain injury, physical disability or developmental delay

4.4 Demonstrate understanding and application of support practices for a range of types of disability

5. Respond to situations of risk or potential risk to people with disabilities

5.1 Identify and *respond to situations of risk* and report to *appropriate people*

5.2 Report uncharacteristic or inappropriate behaviour

5.3 Report situations of risk which may adversely affect the health of people with disabilities

5.4 Identify indications of possible abuse and/or neglect and report according to organisation policy and protocol
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Awareness and understanding of consent and strategies utilised to determine ability to consent
- Awareness of discriminatory actions
- A range of developmental and acquired disabilities, including:
  - acquired brain injury
  - autism spectrum disorder
  - cognitive disability
  - developmental delay
  - intellectual disability
  - neurological impairment
  - physical disability
  - sensory disability, including hearing, vision impairment
  - speech/language disability
- Common risks to safety
- Communication needs, strategies and resources in relation to people with disabilities
- Consumer needs and rights including duty of care
- Different types of requirements likely to be associated with different disabilities
- Fundamental knowledge of stages of biological and psychological development of the human being throughout the lifespan
- Indicators of abuse and/or neglect in relation to people with disabilities
- Networks in the disability sector
- Principles and practices of:
  - access and equity
  - confidentiality
  - empowerment/disempowerment in relation to people with disabilities
REQUIRED SKILLS AND KNOWLEDGE

- Relevant legislation, regulations and policies, including legalities associated with using restrictive and prohibitive practices
- Relevance of the work role and functions to maintaining sustainability of the workplace, including environmental, economic, workforce and social sustainability
- Role of guardianship board, public trustee and independent advocate
- Varying emotional, relationship building and dependence and independence issues and responses associated with differing life stages

continued ...

Essential knowledge (contd):

- Underpinning philosophies and values, including:
  - commitment to empowering clients
  - commitment to meeting the needs and upholding the rights of clients
  - community education and capacity building
  - competency and image enhancement as a means of addressing devaluation
  - delivery of person-centred services
  - holistic and client-centred approach
  - practices which focus on the individual person
  - rightful place in community
  - self determination
  - strengths-based support
  - the impact of social devaluation on an individual's quality of life
  - the social model of disability

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding of:
  - the rights and responsibilities of people with disabilities
  - stereotypes that may exist about people with disabilities
  - the impact of own attitudes on working with people with disabilities
- Make informed observations and report appropriately
- Respond to situations of risk or potential risk

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role
REQUIRED SKILLS AND KNOWLEDGE

These include the ability to:

- Apply skills in interpersonal communication with clients and other stakeholders
- Communicate effectively with people with a range of different disabilities
- Recognise and act upon opportunities to enhance sustainability in the workplace

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment

Method of assessment:
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Context includes:

- Changing social context of work e.g. consumer centred approach, changing government and societal views, approaches to working with clients
- Economic context e.g. The current economic situation as it relates to and affects people with disabilities and the subsequent impact on client needs
- Facts/myths about disability
- Historical context of work e.g. changing attitudes, changing approaches to working with clients
- Political context e.g. government policies and initiatives
- The relevant statutory framework

Stages of human development may relate to:

- Stages of cognitive development
- Stages of physical development
- Stages of psychosocial development

Issues may include:

- Access to services for people with disabilities and their carers
- Family and carer issues
- Grief and loss
- Support in meeting individual needs and personal goals of people with disabilities
RANGE STATEMENT

Different models for working in the sector may include:
- Advocacy
- Behaviour management
- Business services support
- Case management
- Community access
- Community development and education
- Employment support
- Health promotion
- Home based support
- Lifestyle support
- Peer support/self help
- Residential services
- Respite care
- Working with families

The underpinning values and philosophies of the sector may include:
- A holistic and person-centred approach
- Commitment to empowering clients
- Commitment to meeting the needs and upholding the rights of clients
- Community education
- Delivery of appropriate services

Different client requirements may depend upon:
- Type of disability, including:
  - cognitive
  - intellectual
  - physical
  - psychiatric
  - sensory
- Support availability including:
  - education and training
  - employment
  - family
  - financial
  - physical, emotional and behavioural
- Presence of a chronic illness/condition
RANGE STATEMENT

Policy and legislative requirements include:

- Disability Discrimination Act and associated standards
- Disability Service Standards
- Disability Services Acts (Commonwealth and State)
- Equal employment opportunity principles
- Guardianship Board
- Medical legislation
- Medication regulations
- Nurses Act
- Office of the Public Advocate
- Privacy Act
- Restrictive practices legislation

Commitment to access and equity principles includes:

- A non-discriminatory approach to all people using the service, their family and friends, the general public and co-workers
- Client oriented culture
- Ensuring the work undertaken takes account of and caters for differences including: cultural, physical, religious, economic, social, developmental, behavioural, emotional and intellectual
- Implementation of person-centred practices

Rights include principles expressed in:

- Charters of human rights
- Disability standards
- Freedom from discrimination
- Freedom of information
RANGE STATEMENT

Rights include:
- Access to complaint mechanisms
- Choice to participate
- Common law
- Confidentiality
- Freedom of association
- Friendship
- Privacy
- To be treated in a dignified, safe and comfortable manner
- To express own feelings

Interests include:
- Accommodation
- Financial
- Recreation
- Services

Appropriate people include:
- Administrators
- Carers
- Colleagues
- Disability services
- Emergency services
- Health care services
- Health workers
- Home and community care services
- Relatives
- Supervisors

Respond to situations of risk in the context of the work role may include:
- Identifying risks
- Providing information on risks or potential risks
- Risk minimisation
- Strategies for preventing abuse of people with disabilities

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

1. Work to enhance the independence and 'self-determination' of the person with a disability

1.1 Encourage and support independent action and thinking by the person with the disability

1.2 Identify options for action on relevant issues and discuss with the person with the disability and/or their advocate/s /carer

1.3 Listen to and act upon decisions and/or preferred options of the person with the disability and/or their advocate/s /carer are within organisation policies and protocols

1.4 Provide assistance to person with a disability, their carers and significant others as appropriate to enhance communication of their needs, interests and requirements
ELEMENT

2. Foster the independence of a person with a disability

2.1 Develop and support strategies to promote independence, taking differences into account

2.2 Provide on-going support, where required, to maximise independence of person with disability

2.3 Encourage colleagues to promote independence of people with disability

2.4 Encourage people with disability to participate in appropriate forums and provide them with information and skills to do so

2.5 Identify and utilise compensatory aids and modifications in the environment that promote individual strengths and capacities

3. Contribute to the development and review of policy and legislation related to disabilities and disability services

3.1 Encourage people with disability and/or their advocate/s /carer to express their views about policies, legislation and empowerment

3.2 Report non-compliance with legislation and/or policy and protocols to an appropriate person

3.3 Contribute to review of legislation and policy frameworks

3.4 Provide feedback from consumers through appropriate mechanisms

3.5 Work as member of team to research and contribute to policies on empowerment
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant policies, protocols and practices of the organisation in relation to Unit Descriptor and work role
- Understanding of the legislative processes related to the rights of people with disability
- Strategies for supporting independent action and thinking
- Basic principles of person-centred practice
- Basic principles of strengths-based practice
- Basic principles of active support
- Basic principles of lobbying
- Strategies for reinforcing the rights of people with disability to contribute and to be heard
- Concepts of self-advocacy
- Social justice principles
- Roles and responsibilities in contributing to the review of legislation and policy frameworks
- Principles and practices of public speaking
- Mechanisms for providing feedback to consumers

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding and adherence to own work role and responsibilities
- Follow organisation policies, protocols and procedures
- Liaise and report appropriately to supervisor
- Demonstrate understanding and application of legislation and policy related to providing services in the disability sector
- Promote the self-determination and empowerment of people with disability
REQUIRED SKILLS AND KNOWLEDGE

- Support strengths-based practices
- Demonstrate understanding of impact of personal values and attitudes on providing an effective service

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include the ability to:

- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow and give work-related instructions and directions and the ability to seek clarification and comments from clients, colleagues, health professionals and other service providers
  - industry work roles will require workers to possess a literacy level that will enable them to, read and write client's service delivery plans, record in health records, and write reports and submissions

- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess oral communication skills that will enable them to ask questions, clarify understanding, recognise and interpret non-verbal cues, provide information and express encouragement and support and speak in small and large public forums

- Apply problem solving skills that require negotiation and mediation skills to resolve problems of a intermediate nature within organisation protocols
- Work effectively with clients, colleagues and supervisors.
- Implement education programs for individuals and small groups in relation to sexuality
- Examine impact of personal values and attitudes on service delivery
- Support diversity in relationships and sexual expression

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place
  - relevant organisation policy, protocols and procedures
  - equipment and resources normally used in the workplace

Method of assessment may include:

- Observation in the workplace
- Written assignments/projects
- Case study and scenario analysis
- Questioning
- Role play simulation

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

People with disability may include:

- Individuals at any stage of the life span
- Individuals living in the community, either alone or with family or carers
- Individuals living in supported community accommodation
- Individuals living in funded residential facilities
- Prospective individuals to the service or services

Contexts may include:

- An individual's own dwelling
- Shared households or group dwellings
- Specialist residential facilities
- Community centres
- Supported employment venues
- Open employment venues
- Community/government agencies

Policy and legislation may include those related to:

- Access and equity
- Building codes and standards
- Criminal acts
- Disability discrimination
- Disability service standards
- Disability services
- Equal employment opportunity
- Freedom of information
- Guardianship
- Occupational health and safety
- Privacy
- Public health
- Restrictive practices
RANGE STATEMENT

Report may include:

- Verbal:
  - telephone
  - face-to-face
- Non-verbal (written):
  - progress reports
  - case notes
  - incident reports

Forums may include:

- Internal and external committees
- Seminars
- Conferences
- Open meetings
- Political campaign meetings
- Court and tribunal appearances

Strategies for supporting people with disability to express their ideas and opinions may include:

- Role modelling
- Training
- Provision of information to support views
- Connecting individual’s with lobbyist and people with appropriate expertise
- Assistance with preparation of reports/submissions and speech writing

Sexuality and identity needs may include:

- Love and affection
- Relationships and intimacy
- Touch
- Physical appearance
- Need for privacy and discretion
- Access to assistive/protective devices
- Safety
- Sexual health
- Contraception
- Pregnancy, child birth and parenting

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assist people with disabilities who are ageing to identify their current and future needs | 1.1 Identify, discuss and implement appropriate strategies to meet the current and future needs of people with disabilities who are ageing  
1.2 Uphold the dignity, privacy and personal choice of people with disabilities who are ageing in relation to needs, within organisation constraints  
1.3 Assist people with disabilities to evaluate and select strategies to meet their current and future requirements and achieve their goals  
1.4 Encourage significant others to participate in the identification and evaluation of strategies where appropriate |
| 2. Support the interests and needs of people with disabilities who are ageing | 2.1 Identify information and skills required by people with disabilities to meet their future requirements  
2.2 Provide or develop opportunities to obtain information and develop skills  
2.3 Provide individual and group support to promote physical, psychological and social independence in accordance with resources and organisation policies and procedures |
ELEMENT

3. **Encourage and support people with disabilities who are ageing to exercise independent action and thinking**

   **PERFORMANCE CRITERIA**

   3.1 Describe opportunities for people with disabilities who are ageing to enhance their independence, discuss with them and/or their significant others and justify choices

   3.2 Encourage, listen to and act upon decisions and opinions of people with disabilities who are ageing, within the constraints of organisation policies and procedures

   3.3 Support participation of people with disabilities in *appropriate community settings and forums*, with information and training if required

   3.4 Develop strategies to promote independence, taking into account individual differences

   3.5 Document information within organisation procedures/guidelines and report to appropriate co-workers

4. **Support the interests, rights and needs of people with disabilities with pervasive age related changes, including people with dementia**

   **PERFORMANCE CRITERIA**

   4.1 Respond appropriately to physical, psychological and social changes in people with disabilities who are ageing and report uncharacteristic behaviours that may be the affect of progressive/pervasive conditions

   4.2 Monitor and record signs of dementia and other progressive conditions that may have an adverse effect on the health of people with disabilities who are ageing
Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Principles and practices which focus on the individual person
- The social model of disability
- The impact of social devaluation on an individual's quality of life
- Competency and image enhancement as a means of addressing devaluation
- Organisation policy and procedures, including occupational safety and health, lifestyle and futures planning, duty of care and dignity of risk
- Disability Service Standards
- Organisation policy and procedures, including occupational safety and health (particularly manual health), lifestyle and futures planning, duty of care and dignity of risk
- Individual needs assessment, specifically changing needs
- Promoting successful ageing
- Stress and coping with change
- Grief and loss, bereavement
- Bereavement
- Life span development
- Contemporary views on ageing
- Impact of physical, psychological and social change on the person who is ageing
- Empowerment for people with disabilities
- Issues and services available for people who are ageing
- Understanding of dementia

**Essential skills:**

It is critical that the candidate demonstrate the ability to:
REQUIRED SKILLS AND KNOWLEDGE

- Provide a range of supports that identify, document and respond to individual current and future needs
- Communicate and interact with the individual, family, other relevant stakeholders and staff
- Identify necessary skills and attributes to maintain or improve independence
- Implement strategies to assist the individual to maintain or increase degree of independence
- Demonstrate understanding of the aspects and affects of dementia as it relates to a person with a disability
- Address other specific issues confronting older people including dysphagia and incontinence

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Sensitively and respectfully communicate and respond to the individual needs of people with disabilities who are ageing
- Demonstrate application of skills in:
  - a range of oral and written communication skills
  - observation and needs assessment
  - skills development techniques
  - developing and maintaining positive relationships
  - carrying out changing needs assessments

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or a simulated environment under the normal range of conditions
- Assessment should be conducted on more than one occasion to cover a variety of circumstances to establish consistency
- A diversity of assessment tasks is essential for holistic assessment

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resources required for assessment of this unit include access to all relevant resources commonly provided in the disability service setting, including:
  - appropriate documentation and resources normally used in the workplace
  - relevant organisation policy and procedure manuals, legislation and standards
  - organisation mission statement, strategic and business plan
  - other documentation relevant to the work context such as:
    - individual routines and support plans
    - changing needs assessment tools
    - referrals forms

Method of assessment may include:

- Observation of work performance
- Written tasks
- Interview and questioning
- Authenticated portfolio/log book
- Supporting statement of supervisor/s
- Authenticated evidence of relevant work experience and/or formal/informal learning

Related units:

There are no pre-requisites for this unit but it is recommended that participants demonstrate basic knowledge and skills in supporting a person with a disability.

It is suggested that this unit is assessed after completion of the following units of competence:

- CHCDIS301A Work effectively with people with a disability
- CHCDIS302A Maintain an environment designed to empower people with disabilities
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

The needs of people with disabilities include:

- Psychological
- Physical
- Social
- Cognitive

Strategies to meet current and future needs of people with disabilities include:

- Conducting changing needs assessments
- Conducting futures planning with the person
- Developing individual action plans with the person with a disability that address their changing needs
- Referrals to appropriate specialist services such as, occupational therapy, physiotherapy

Significant others may include:

- Family
- Advocates / carer
- Support person
- Key worker
- Team members
- Health and other professionals
RANGE STATEMENT

Organisation policies and procedures may include:

- Legislation
- Disability Service standards
- Policies and procedures, such as duty of care, dignity of risk
- Budget allocations
- Individual funding plans

Appropriate community settings and forums may include:

- Generic services
- Advocacy groups
- Consumer groups

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Support the person with a disability to engage with a social network and the broad community | 1.1 Identify interests, abilities and requirements of person with disability in order that they may engage with a social network  
1.2 Match relevant options, networks and services to requirements of person with disability  
1.3 Identify and access appropriate resources according to organisation policy and protocols  
1.4 Provide information about options available to person with disability and/or their advocate/s/carer  
1.5 Recognise and accommodate individual choices and cultural differences |
ELEMENT
2. Support strategies for community participation and inclusion according to *individualised plan*

PERFORMANCE CRITERIA
2.1 Support the person and, where appropriate their family, to implement strategies to address barriers to participation, according to the individualised plan

2.2 Assist the person and, where appropriate their family, to identify and access community options that will meet needs identified in the individualised plan

2.3 Support the person and, where appropriate their family, to access opportunities to establish connections through shared interests

2.4 Assist the person, if appropriate, to become an active member of their local neighbourhood

2.5 Provide the person and, where appropriate their family, the necessary supports for participation, according to the individualised plan

2.6 Assist person with disability and, where appropriate their family to select activities that will enhance successful integration

2.7 Provide support in a manner that provides a positive role model and promotes development and/or maintenance of the person's skills

2.8 Identify aspects of involvement in the individualised plan outside scope of knowledge, skills and/or job role and seek appropriate support

2.9 Identify strategies for community participation and inclusion that may require review and report to supervisor

3. Assist in minimising isolation for *people with disabilities*

3.1 Assess physical barriers to participation and identify solutions with involvement of person with disability

3.2 Recognise own limitations in addressing issues and seek advice when necessary

3.3 Assist the person and, where appropriate their family, to implement strategies to address transport issues according to the individualised plan
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do
the task outlined in elements and performance criteria of this unit, manage the task and
manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant policies, protocols and practices of the organisation in relation to Unit
  Descriptor and work role
- Understanding of the legislative processes related to the rights and responsibilities of
  people with a disability
- Understanding of elements of best practice in the area of community inclusion
- Strategies for identifying the psychosocial interests, abilities and requirements of a
  person with a disability
- Strategies for matching options, networks and services to the requirements of people
  with a disability
- Knowledge of programs and agencies that support community integration
- Transport services available for people with various types of disabilities
- Strategies for providing community education
- Aids and equipment used to facilitate community integration
- Group dynamics
- Working with families and family systems
- Role of carers

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding of and adherence to own work role and responsibilities
- Follow organisation policies, protocols and procedures
- Liaise and report appropriately to agencies
- Promote community integration to enhance the psychosocial well being of people with a
  disability
- Uphold rights and responsibilities of people with a disability through community
REQUIRED SKILLS AND KNOWLEDGE

- Implement a wide range of activities for facilitation of community integration
- Implement individualised community support plan
- Apply aids and equipment as required to facilitate community participation

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow and give work-related instructions and directions and the ability to seek clarification and comments from clients, colleagues, health professionals and other service providers
  - industry work roles will require workers to possess a literacy level that will enable them to, read and write client's service delivery plans, record in health records, complete assessment tools and write reports and submissions

- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - This requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess effective verbal and non-verbal communication skills that will enable them to ask questions, clarify understanding and meaning, recognise and interpret non-verbal cues, adapt communication styles to meet specific needs, provide information and express encouragement and support

- Apply problem solving skills that require negotiation and medication skills to resolve problems of a difficult nature within organisation protocols

- Collaborate and network with a variety of stakeholders in order to achieve service objectives

Range Statement
RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**People with disabilities may include:**
- Individuals at any stage of the life span
- Individuals living in the community, either alone or with family or carers
- Individuals living in supported community accommodation
- Prospective individuals to the service or services

**Contexts may include:**
- An individual's own dwelling
- Shared households or group dwellings
- Specialist residential facilities
- Community centres
- Respite services
- Supported employment venues
- Community/government agencies

**Social network may include:**
- Family groups
- Support groups
- Direct neighbourhood or local community
- Work groups
- Sports and other recreation groups
- Age-related groups (youth or senior citizens)
- Community centres
- Clubs

**Individualised plan may include:**
- Relevant stakeholders
- Community inclusion goals
- Strategies
- Who is responsible for actioning
- Review dates
RANGE STATEMENT

Elements of inclusion best practice may include:

- Person-centred support
- Capacity thinking
- Building alliances within the community
- Create understanding
- Open choices and opportunities
- Raising expectations
- Nurture relationships

Appropriate resources may include:

- Specialised transport
- Mobility aids
- Communication aids
- Personnel

Examples of physical entry and exit issues may include:

- Kerbs
- Lifts
- Ramps
- Lighting
- Signs
- Amenities

</tbody>
</table>
ELEMENT                        PERFORMANCE CRITERIA

2. Contribute to skills assessment  2.1 Provide information about client demonstration of *skills* in different environments to the planning process
                                             2.2 Conduct review of client skills and competencies as required to address organisation policy and procedures
                                             2.3 Provide feedback to supervisor about any changes in client's status likely to have an impact on skill development and maintenance
                                             2.4 Participate in assessment in a manner that respect a client’s rights and dignity
                                             2.5 Where appropriate, support the engagement of *relevant others* in the assessment process

3. Provide strengths-based support  3.1 Encourage client to identify strengths
                                             3.2 Work in a manner that acknowledges the client as their own expert
                                             3.3 Provide support for the client to identify resources to compliment strengths
                                             3.4 Encourage support to mobilise their strengths

4. Provide active support  4.1 Encourage people with disability to engage as actively as possible in all living activities
                                             4.2 Monitor level of engagement for possible changes
                                             4.3 Identify strategies and opportunities to maximise engagement
ELEMENT

5. Utilise incidental learning opportunities to enhance skills development

PERFORMANCE CRITERIA

5.1 Identify situations as potential informal learning opportunities and encourage learning

5.2 Withdraw support to an appropriate level as directed in order to encourage experiential learning

5.3 Provide appropriate constructive information and feedback to person with disability as soon as possible in appropriate format

5.4 Provide encouragement when person with disability takes initiative in learning situation

5.5 Identify and describe a range of informal learning opportunities in context of organisation policies and procedures

6. Support implementation of person-centred skills development plans

6.1 Interact with person with a disability in a manner that is motivating and empowering and demonstrates respect for the person

6.2 Communicate with supervisor or relevant others if experiencing difficulty in implementing the skills development plan

6.3 Collate and maintain records to assist with monitoring and review of person-centred skills development plan
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Current practices, philosophies and theories, including:
  - the social model of disability
  - the impact of social devaluation on an individual's quality of life
  - competency and image enhancement as a means of addressing devaluation
  - practices which focus on the individual person
  - strengths-based practice
  - active support
  - person-centred practice
  - rightful place in community
  - community education and capacity building
  - self determination
- Foundation knowledge of lifespan development
- Concepts and their relationship, including:
  - vulnerability
  - power
  - independence
- Basic knowledge of assessment processes relating to skills development and maintenance
- Knowledge of assessments processes and protocols used by the organisation/service
- Understanding of communication needs, strategies and resources
- Principles of access and equity
- Principles and practices of confidentiality
- Tools, equipment and other resources used in the learning process
- Various teaching and learning strategies
- Strategies for identifying and maximising informal learning opportunities
REQUIRED SKILLS AND KNOWLEDGE

- Services and resources available to people with special learning needs
- Basic knowledge of:
  - task analysis
  - prompting, principles of prompting and fading prompting
  - strategies to create independence
  - reinforcers
  - motivators to learn
  - common de-motivators and blocks
- Understanding of maintenance techniques and generalisation
- Understanding of incidental learning

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Communicate effectively with people with a range of different disabilities
- Use communication techniques / devices that meet the client's communication needs
- Identify skill and competency requirements
- Apply skills in interpersonal communication with clients and other stakeholders
- Demonstrate understanding of and adherence to own work role and responsibilities
- Follow organisation policies and protocols
- Liaise and report to relevant personnel
- Demonstrate and apply knowledge of learning and development in order to implement skills development plans for a person with a disability
- Collaborate and network with a variety of personnel in order to achieve learning and development objectives
- Use communication techniques that encourage and motivate
- Demonstrate appropriate prompting during training session
- Demonstrate appropriate application of reinforcers during training session
- Demonstrate understanding of incidental learning opportunities

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situation and settings

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Current philosophies, theories and practices includes:

- Practices which focus on the individual person
- Strengths-based practice
- Active support
- Person-centred practice
RANGE STATEMENT

Skills may include:

- Communication
- Personal hygiene
- Meal preparation
- Transport
- Money handling
- Dressing
- Grooming
- Eating
- Working
- House hold tasks
- Recreational activities

People with disability may include:

- Individuals at any stage of the life span
- Individuals living in the community, alone, with a partner, sharing with others or with family or carers
- Individuals living in supported community accommodation
- Individuals living in funded residential facilities

Contexts may include:

- An individual's own dwelling
- Shared households or group dwellings
- Specialist residential facilities
- Community centres
- Supported employment venues
- Open employment venues
- Community/government agencies
- Open employment venues
- Voluntary agencies
- Training agencies
RANGE STATEMENT

Skills development may be in:
- Life skills
- Vocational skills
- Social skills
- Personal support skills
- Developing and maintaining relationships including intimate relationships
- Maintaining physical health including sexual health
- Safety

Learning strategies may include:
- Role modelling
- Demonstration
- Skills component mastery
- Contextualisation
- Drama and role plays
- Peer education

Relevant others may include:
- Advocate/s
- Behavioural consultants (for acquired brain injury)
- Carers
- Colleagues
- Development officers
- Disability support workers
- Educational psychologists
- Employment officers
- Family
- Friends
- Occupational therapists
- Outreach workers
- Programming staff
- Relatives
- Supervisors
- Teachers
- Technicians

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Establish and maintain an appropriate relationship with people with disabilities | 1.1 Ensure all dealings with people with disabilities aim to generate a trusting relationship, and include protecting confidentiality, privacy, individual choice and decision-making  
1.2 Demonstrate respect for individual differences in all dealings with people with disabilities  
1.3 Demonstrate support for the interests, rights and decision-making of people with disabilities in all dealings |
| 2. Provide appropriate support to people with disabilities | 2.1 Support people with disabilities in accordance with their needs, rights and self determination  
2.2 Assist people with disabilities according to organisation guidelines  
2.3 Support people with disabilities to meet their cultural needs  
2.4 Seek assistance when it is not possible to provide appropriate support to people with disabilities |
3. Assist in maintaining an environment that enables maximum independent living

3.1 Plan all support for people with disabilities to enable them to direct their own care where appropriate, within organisation procedures

3.2 Assist in maintaining a safe and healthy environment, including minimising physical dangers and risks

3.3 Support people with disabilities to maintain a clean and comfortable environment

3.4 Respond to situations of risk to health and safety in accordance with organisation procedures
Required Skills and Knowledge
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant organisation policies and procedures and responsibilities within it
- Relevant policies, protocols, and practices of the organisation in relation to own work activities
- Basic knowledge of different types of disabilities and their effect on client needs
- Understanding of support requirements for people with disabilities
- Different religious, cultural, spiritual, physical and ceremonial perspective
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required

See additional information for assessors regarding the following:

- alcohol and other drugs (AOD) abuse
- cultural and linguistic diversity
- risk of self-harm
- women
- men
- community education
- Aboriginal and Torres Strait Islander people
- mental health
- acquired brain injury

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Provide appropriate support to the range of clients accessing the services of the organisation
REQUIRED SKILLS AND KNOWLEDGE

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills in:
  - interpersonal relationship appropriate to work with people with disabilities
  - oral communication necessary to develop a trusting relationship with people with disabilities:
  - language may be English or community language as required by service or organisation

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Consistency in performance should consider the range of clients and situations encountered in the workplace
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place

Method of assessment:
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Individual differences may be:
- Culture
- Age
- Economic
- Social
- Gender
- Physical
- Emotional
- Cognitive
- Intellectual
- Language

Rights may be detailed in:
- Service/outcomes standards documents
- Legislation
- Organisation policies and practices

Support will be in the context of services offered including:
- Personal support
- Employment support
- Community access
- Accommodation support
- Lifestyle support
RANGE STATEMENT

Assist may include:

- Providing information
- Assistance with mobility or providing specific support such as transport
- Encouragement and support for decisions and actions
- General household assistance and maintenance

3.3 Evaluate implementation of the support procedure and change procedures where necessary

Required Skills and Knowledge

Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Role and responsibilities of self and others in the organisation
- Impact of disability on person with disability
- Impact of disabilities upon people with disabilities
- Assessment processes
- Support procedures for daily living
- Program planning
- Basic training processes
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required

See additional information for assessors regarding the following:
- alcohol and other drugs (AOD) abuse
- cultural and linguistic diversity
- risk of self-harm
- women
- men
- community education
- Aboriginal and Torres Strait Islander people
REQUIRED SKILLS AND KNOWLEDGE

- mental health
- acquired brain injury

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Match client support requirements with support procedures
- Identify and evaluate effectiveness of support procedures

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include the ability to:

- Address occupational health and safety issues to minimise risk
- Demonstrate application of skills in:
  - communication
  - casework assessment skills
  - program design and planning
  - informal or formal training

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Consistency in performance should consider the requirements of particular support procedures

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place

Method of assessment may include:

- Observation in the workplace
- Written assignments/projects
- Case study and scenario analysis
- Questioning
- Role play simulation
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Significant others include:
- Family
- Friends
- Other support people and advocates
- Carers

Relevant information includes:
- Written and verbal records
- Observations
- Requests

Implementation of the support procedures may be evaluated through:
- Observation
- Reviewing objectives and outcomes of procedures
- Feedback from people with disabilities and their significant others

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assess learning ability and needs of person with disability | 1.1 Work with the person with a disability and relevant others and within job role boundaries, to assess person's skill development/maintenance needs using recognised assessment/planning tools  
1.2 Identify skills development and/or maintenance opportunities for inclusion in individualised plans  
1.3 Document assessment outcomes in line with organisation guidelines  
1.4 Make referrals to other staff or specialist services as appropriate |
ELEMENT

2. Develop person-centred skill development/maintenance plan

2.1 Using appropriate communication techniques, engage the person with a disability in identifying their learning goals

2.2 Identify and describe a range of learning strategies and opportunities to address person's goals

2.3 Develop formal person-centred skills development/maintenance plans using appropriate methodology and, where appropriate, in conjunction with other relevant personnel

2.4 Document person-centred skills development/maintenance plans in the person's support plan

3. Implement skills development/maintenance plan

3.1 Work with the person with a disability to implement skills learning and maintenance strategies in a manner that is motivating and empowering and demonstrates respect for the person

3.2 Inform colleagues and relevant of the person-centred skills development/maintenance plans and provide guidance to ensure they are implemented in a consistent way

3.3 Access and utilise equipment and resources as required to facilitate the learning process

3.4 Maintain records to demonstrate achievements against person-centred skills development or maintenance plan and assist with monitoring and review

4. Evaluate skills development and review plan

4.1 Monitor progress and provide feedback to person with disability and/or their advocate/s regarding progress towards learning objectives

4.2 Review records as a basis for evaluating effectiveness of person-centred skills development/maintenance plan and make changes as required

4.3 Identify opportunities to maintain and enhance skills in an ongoing way
ELEMENT

5. Use incidental learning opportunities to enhance skills development

PERFORMANCE CRITERIA

5.1 Identify situations as potential informal learning opportunities and encourage learning

5.2 Withdraw support to an appropriate level as directed in order to encourage experiential learning

5.3 Provide appropriate constructive advice and feedback to person with disability as soon as possible in appropriate format

5.4 Provide encouragement when person with disability takes initiative in learning situation

5.5 Identify and describe a range of informal learning opportunities in context of organisation policies and procedures
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Current practices, philosophies and theories, including:
  - the social model of disability
  - the impact of social devaluation on an individual’s quality of life
  - competency and image enhancement as a means of addressing devaluation
  - practices which focus on the individual person
  - strengths-based practice
  - active support
  - person-centred practice
  - rightful place in community
  - community education and capacity building
  - self determination
- Social, sexual, emotional psychological and cognitive development across the lifespan
- Overview of adult and childhood learning theories
- Assessment processes relating to skills development and maintenance
- Tools, equipment and other resources utilised in the learning process
- Various teaching and learning strategies
- Strategies for identifying and maximising informal learning opportunities
- Services and resources available to people with special learning needs
- Task analysis
- Prompting, principles of prompting and fading prompting
- Strategies to create independence
- Reinforcers
- Motivators to learn
- Common de-motivators and blocks
- Understanding of maintenance techniques and generalisation
REQUIRED SKILLS AND KNOWLEDGE

- Understanding of incidental learning

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding and adherence to own work role and responsibilities
- Follow organisation policies and protocols
- Liaise and report to relevant personnel
- Demonstrate and apply knowledge of learning and development in order to assess, determine, implement, monitor and evaluate skills development of a person with a disability
- Collaborate and network with relevant people in order to achieve learning and skills development and maintenance objectives
- Demonstrate appropriate task breakdown
- Apply communication techniques that encourage and motivate
- Use appropriate prompting during training session
- Apply reinforcers appropriately during training session
- Demonstrate appropriate use of incidental learning opportunities
- Use communication techniques / devices that meet the client’s communication needs

Essential skills (contd):
In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow and give work-related instructions and directions and the ability to seek clarification and comments from clients, colleagues, health professionals and other service providers
  - industry work roles will require workers to possess a literacy level that will enable them to, read and write client's service delivery plans, record in health records, complete assessment tools and write reports and submissions
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
REQUIRED SKILLS AND KNOWLEDGE

- Industry work roles will require workers to possess effective verbal and non-verbal communication skills that will enable them to ask questions, clarify understanding and meaning, recognise and interpret non-verbal cues, adapt communication styles to meet specific needs, provide information and express encouragement and support.

- Apply numeracy skills required to fulfil work role in a safe manner and as specified by the organisation:
  - Industry work roles will require workers to be able to perform mathematical functions, such as addition and subtraction up to three digit numbers and multiplication and division of single and double digit numbers.

- Apply problem solving skills that require negotiation and mediation skills to resolve problems of a difficult nature within organisation protocols.

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions.
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situation and settings.
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - a relevant workplace or simulation of realistic workplace setting for assessment
  - relevant organisation policy, protocols and procedures

Method of assessment may include:
- Observation in the workplace
- Written assignments/projects
- Case study and scenario analysis
- Questioning
- Role play simulation

Related unit:
This unit builds on the skills and knowledge acquired in the following unit, but there is no pre-requisite requirement:
- CHCDIS323A Contribute to skills development and maintenance
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

People with disability may include:

- Individuals at any stage of the life span
- Individuals living in the community, alone, sharing with others or a partner or with family or carers
- Individuals living in supported community accommodation
- Individuals living in funded residential facilities

Contexts may include:

- An individual's own dwelling
- Shared households or group dwellings
- Specialist residential facilities

- Supported employment venues
- Open employment venues
- Community/government agencies
- Voluntary agencies
- Training agencies

Skills development and/or maintenance may be in:

- Life skills
- Vocational skills
- Social skills
- Personal support skills
- Developing and maintaining relationships including intimate relationships
- Maintaining physical health including sexual health
- Safety
RANGE STATEMENT

Learning strategies may include:
- Role modelling
- Demonstration
- Skills component mastery
- Contextualisation
- Drama and role plays
- Peer education

Assessment tools include:
- Formal skills assessment tools
- Lifestyle planning tools
- Observation checklists
- Assessment tools specific to the organisation
- Assessment tools specified by the specialist

Formal skills development plans document:
- Learning objective
- Performance expectations
- Criteria for achievement
- When formal training occurs
- Resources and equipment required
- Baseline assessment
- Progress and independence
- Task analysis
- Prompting
- Reinforcement
- Training sequence
RANGE STATEMENT

Relevant people may include:

- Advocate/s
- Behavioural consultants (for acquired brain injury)
- Carers
- Development officers
- Disability support worker
- Educational psychologists
- Employment officers
- Occupational therapists
- Outreach worker
- Programming staff
- Teachers
- Technicians

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Quality measures used in quality assurance or total quality management
- Relevant production processes
- Organisation and legislative policies and procedures relating to people with disabilities as workers
- Impact of disability/disabilities on people with disabilities
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required

See additional information for assessors regarding the following:

- alcohol and other drugs (AOD) abuse
- cultural and linguistic diversity
- risk of self-harm
- women
- men
- community education
- Aboriginal and Torres Strait Islander people
- mental health

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Apply appropriate understanding of work carried out by people with disabilities
- Work within procedures for supporting people with disabilities as workers

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills in:
REQUIRED SKILLS AND KNOWLEDGE

- relevant production processes
- applying appropriate competencies outlined in standards belonging to the relevant industry or occupation
- communication and consultation with workplace clients and stakeholders

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Consistency in performance should consider the particular requirements of services and workplaces

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resources required for assessment of this unit include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Evaluate and prioritise the needs of a person with complex care issues | 1.1 Demonstrate understanding of the impact of dual/multiple diagnosis can have on identifying and prioritising needs  
1.2 Utilise purpose designed tools to assess specific problems of the older person according to job role and responsibilities  
1.3 Seek advice from health professionals and other relevant personnel when analysing and interpreting assessment data  
1.4 Recognise the impact of complex care issues on the carer/s |
ELEMENT

2. Liaise and negotiate with appropriate personnel in the development of a service delivery plan

PERFORMANCE CRITERIA

2.1 Utilise best practice guidelines when choosing strategies to address complex and/or special needs

2.2 Liaise with relevant experts and health professional/s when developing service delivery plans

2.3 Negotiate and establish goals with the person, their advocate/s and/or their significant other/s, aiming to achieve maximum quality of life

2.4 Access and/or negotiate resources in order to deliver identified services

2.5 Access community support agencies to facilitate the achievement of established goals

3. Coordinate the delivery of the service delivery plan

3.1 Delegate services and care activities to appropriately skilled workers

3.2 Recognise when a service and/or care worker is no longer able to provide the level of service required

3.3 Provide support and respite for the carer/s

3.4 Determine all service providers' understanding of the service delivery plan and their roles and responsibilities within that plan

4. Coordinate the monitoring, evaluation and review of the service delivery plan

4.1 Determine all service providers' understanding of the mechanism/s for providing feedback on the effectiveness of the service delivery plan

4.2 Seek feedback from all service providers when evaluating effectiveness of the service delivery plan and re-prioritising care needs

4.3 Seek feedback from the person and/or their advocate when evaluating effectiveness of the service delivery plan

4.4 Seek advice and assistance from relevant health professionals when the person's goals are not being reached
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Understanding of own work role and responsibilities
- Understanding of basic knowledge of physiology and psychology of a range of disability types and principles of assessment in determining, monitoring and evaluating the service needs of the person with complex or special needs as it relates to the work role
- Relevant policies, protocols and practices of the organisation in relation to Unit Descriptor and work role
- Understanding of the manifestations and presentation of common health problems associated with different disability types
- Understanding of the manifestations and presentation of behavioural problems associated with different disability types
- Impact of cultural and individual differences of service plan development and delivery
- Role and function of various health professionals
- Types of community services and the services each provides
- Role of carers
- Principles and practices of assessment of individuals with complex and/or special needs
- Strategies for conducting assessment of people with complex and/or special needs
- Assessment tools used in the assessment of complex and/or special needs
- Strategies for analysing and interpreting data
- Processes and practices in developing and managing service delivery plans
- Principles of delegation and supervision
- Strategies for conducting effective case conferences
- Principles and practices of case management

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Prioritise and manage the changing service needs of clients with complex and special care needs
REQUIRED SKILLS AND KNOWLEDGE

- Liaise and report to appropriately persons/agencies
- Adhere to own work role and responsibilities
- Recognise own limitations and the need for assistance
- Work collaboratively with colleagues, health professionals and other services
- Apply problem solving skills that require negotiation and mediation skills to resolve problems of a difficult nature within organisation protocols
- Collaborate and network with a variety of stakeholders in order to achieve service objectives
- Safely use and coordinate the use of relevant technology effectively in line with work health and safety (WHS) guidelines

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Follow organisation policies and protocols
- Apply basic knowledge of physiology and psychology of different types of disability and principles of assessment in determining, monitoring and evaluating the service needs of the older person with complex or special needs as it relates to the work role
- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow and give work-related instructions and directions and the ability to seek clarification and comments from clients, colleagues, health professionals and other service providers
  - industry work roles will require workers to possess a literacy level that will enable them to, read and write client's service delivery plans, record in health records, complete assessment tools and write reports and submissions
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess effective verbal and non-verbal communication skills that will enable them to ask questions, clarify understanding and meaning, recognise and interpret non-verbal cues, adapt communication styles to meet specific needs, provide information and express encouragement and support
- Apply numeracy skills required to fulfil work role in a safe manner and as specified by the organisation:
  - industry work roles will require workers to be able to perform mathematical functions, such as addition and subtraction up to three digit numbers and multiplication and division of single and double-digit numbers
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - an appropriate workplace where assessment can take place
  - relevant organisation policy, protocols and procedures
  - resources normally used in the workplace

Method of assessment may include:
- Observation of work activities
- Observation of simulation and/or role play
- Written tasks
- relevant formal and informal education/training courses
- Case studies and scenarios
- Interviews/Questioning
- Role plays

Related units:
- This unit of competency should be assessed after or in conjunction with related units:
  - CHCDIS301A Work effectively with people with disabilities
  - CHCICS402B Facilitate individualised plans

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Complex and/or special needs may include an older person with one or more of the following:

- Mental health problem
- Behavioural problems
- Dual diagnosis e.g. intellectual disability/autism
- Chronic pain
- Medical issues associated with the disability
- Developmental or acquired disability
- Dysphagia
- Acquired brain injury
- Alcohol and other drug misuse/abuse problem
- Chronic health problem

Data collection methods may include:

- Use of industry specific assessment tools
- Use of best practice focus assessment tools
- Interviews
- Observation
- Review of previous health records
- Consultation with the older person, their advocate/s, informal carer/s and/or significant other/s

Health records may include:

- Assessments
- Plans of care
- Case histories
- Progress notes
- Test results
- Referral records
- Observation charts
- Medication charts

Resources may include:

- Financial
- Aids and equipment
- Qualified health specialists (wound consultants, continence advisors, palliative care consultants)
RANGE STATEMENT

Reporting may be, and include:
- Verbal:
  - telephone
  - face-to-face
  - case conferences
- Non-verbal (written):
  - progress reports
  - case notes
  - incident reports

Relevant personnel may include:
- Aboriginal and Torres Strait Islander Health Worker
- Carer
- Dietician
- Diversional therapist
- Drug and alcohol worker
- Neuropsychologist and behaviour consultant for people with an acquired brain injury
- Occupational therapist
- Pain specialist
- Pharmacist
- Physiotherapist
- Psychiatrist
- Psychologist
- Respiratory technician
- Social worker
- Speech Pathologist
- Wound consultant

Work collaboratively may include:
- Liaison
- Asking and clarifying
- Seeking feedback
- Providing information and reports
- Identifying and exploring perceptions and expectations
- Negotiation

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

ELEMENT

1. Support the person with a disability to identify and engage in social networks within the broad community

PERFORMANCE CRITERIA

1.1 Work with the person with disability to identify their strengths, interests, abilities and support requirements so they may engage with a social network

1.2 Work with the person to identify an appropriate social network and to clarify the support they will need to actively engage with this network

1.3 Work with the person to identify any possible barriers to participation and inclusion

1.4 Work with the person to develop strategies to manage potential barriers

1.5 Promote and raise awareness of community inclusion through community education and involvement of people with disability

1.6 Research, identify and network with relevant services to explore community inclusion opportunities

1.7 Match relevant services and networks to the requirements of person with disability

1.8 Identify and access appropriate resources according to organisation policy and protocols

1.9 Provide information about options available to person with disability and/or their advocate /carer

1.10 Recognise and accommodate individual choices and spiritual/cultural differences
ELEMENT

2. Assist the person with a disability and relevant others to develop and implement individualised community support plan

PERFORMANCE CRITERIA

2.1 Support the person to develop a person-centred individualised plan to participate in the community

2.2 Assist the person to establish their requirements in order to maximise their participation in community life

2.3 Assist the person, if appropriate, to become an active member of their neighbourhood and local community

2.4 Assist the person to develop strategies to address barriers to participation, and include them in the individualised plan

2.5 Assist the person to identify and access community options that will meet their needs as identified in the individualised plan

2.6 Assist the person to access opportunities to establish connections through shared interests with other community members

2.7 Provide the person with necessary supports for participation, according to the individualised plan

2.8 Assist person and their family/carer to select activities that will enhance inclusion

2.9 Give support in a manner that provides a positive role model and promotes development and/or maintenance of the person's skills

2.10 Where appropriate, support other workers to implement the individualised community support plan

2.11 Identify aspects of worker involvement in the individualised plan outside scope of knowledge, skills and/or job role and respond accordingly

2.12 Identify strategies for community participation and inclusion that may require review and consult with the person
ELEMENT

3. Develop strategies to minimise isolation for person with a disability

PERFORMANCE CRITERIA

3.1 Identify requirements for support, devices, aids and environmental modification and develop strategies to deal with these in conjunction with person and/or their advocate/s/carer

3.2 Identify support or devices required to assist with communication

3.3 Assess physical barriers to participation and identify solutions with involvement of person with disability

3.4 Recognise own limitations in addressing issues and seek advice when necessary

3.5 Where appropriate, identify and assess barriers to communication/social participation caused by cognitive deficits associated with acquired brain injury and develop solutions

3.6 Discuss travel and transport issues with person and identify strategies to address these

3.7 Put in place processes to evaluate ongoing success of strategies

4. Determine risks associated with supporting community participation and inclusion

4.1 Conduct location or activity risk assessment specific to the person’s circumstances

4.2 Discuss elements of risk with the person and appropriate others

4.3 Work with the person and appropriate others to identify strategies to remove or reduce risk

4.4 Develop strategies to remove or reduce risk according to organisation policy and procedures and legislative requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge and understanding of:

- Relevant policies, protocols and practices of the organisation in relation to work role
- Legislative processes related to the rights and responsibilities of people with disability
- Elements of best practice in the area of community inclusion
- The social model of disability and the impact of social devaluation on an individual's quality of life
- Competency and image enhancement as a means of addressing devaluation
- Principles of active support
- Broad understanding of lifespan development
- Strengths-based and person-centred practice
- The impact of stigma
- Principles of risk assessment and mitigation
- Duty of care requirements
- Strategies for:
  - Identifying psychosocial interests, abilities and requirements of people with disability
  - Matching options, networks and services to the requirements of people with disability
  - Creating independence
  - Providing community education
  - Communication to assist with community participation
- Programs and agencies that support community inclusion
- Financial supports to assist with accessing the community
- Worker role in assisting the client with financial management
- Transport services available for people with various types of disabilities
- Aids and equipment used to facilitate community inclusion
- Group dynamics
- Working with families and family systems
REQUIRED SKILLS AND KNOWLEDGE

- Role of carers
- Task analysis
- Prompting, principles of prompting and fading prompting
- Reinforcers
- Motivators to learn and common de-motivators and blocks
- Maintenance techniques and generalisation
- Incidental learning

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Promote community inclusion to enhance the psychosocial well being of people with disability
- Develop individualised community support plans
- Uphold rights and responsibilities of people with disability through community inclusion
- Educate the community in a way that promotes a positive image of the person/people with disability
- Coordinate a wide range of activities for facilitation of community inclusion
- Network
- Support other workers to implement strategies that support community participation and inclusion
- Develop strategies that minimise the impact of stigma
- Collaborate and network with a variety of personnel in order to achieve learning and development objectives
- Demonstrate appropriate task breakdown
- Apply communication techniques that encourage and motivate
- Use appropriate prompting and application of reinforcers during training session
- Demonstrate appropriate use of incidental learning opportunities
- Develop communication strategies to address identified needs or issues

*continued ...*

**Essential skills (contd):**

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate understanding of and adherence to own work role and responsibilities
- Follow organisation policies, protocols and procedures
REQUIRED SKILLS AND KNOWLEDGE

- Liaise and report appropriately to agencies
- Communicate effectively with people with disability and their carers
- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow and give work-related instructions and directions and the ability to seek clarification and comments from clients, colleagues, health professionals and other service providers
  - industry work roles will require workers to possess a literacy level that will enable them to, read and write client's service delivery plans, record in health records, complete assessment tools and write reports and submissions
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess effective verbal and non-verbal communication skills that will enable them to ask questions, clarify understanding and meaning, recognise and interpret non-verbal cues, adapt communication styles to meet specific needs, provide information and express encouragement and support
- Apply problem solving skills that require negotiation and medication skills to resolve problems of a difficult nature within organisation protocols
- Collaborate and network with a variety of stakeholders in order to achieve service objectives
- Apply aids and equipment as required to facilitate community inclusion

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situation and settings

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - appropriate workplace where assessment can take place
  - relevant organisation policy, protocols and procedures
  - equipment and resources normally used in the workplace
EVIDENCE GUIDE

Method of assessment may include:
- Observation in the workplace
- Written assignments/projects
- Case study and scenario analysis
- Questioning
- Role play simulation

Related units: This unit should be assessed in conjunction with related unit:
- CHCDIS301A Work effectively with people with a disability

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

People with disability may include:
- Individuals at any stage of the life span
- Individuals living in the community, alone, sharing with others, with a partner or with family or carers
- Individuals living in supported community accommodation
RANGE STATEMENT

Social network may include:
- Family groups
- Support groups
- Direct neighbourhood or local community
- Work groups
- Sports and other recreation groups
- Age-related groups (youth or senior citizens)
- Community centres
- Clubs
- Church groups

Individualised community support plan may include:
- Relevant stakeholders
- Community inclusion goals
- Strategies to achieve goals
- Finance and budget
- Opportunities for further inclusion
- Who is responsible for actioning
- Review dates

Possible barriers to participation and inclusion may include:
- Stigma
- Skills
- Behaviour
- Transport
- Accessibility
- Finance

Elements of inclusion best practice may include:
- Person-centred support
- Capacity thinking
- Building alliances within the community
- Create understanding
- Open choices and opportunities
- Raising expectations
- Nurture relationships
RANGE STATEMENT

Networking may include:
- Building on the skills of the person
- Identifying associations and networks if individuals that share the person’s interests
- Learning about the neighbourhood
- Asking the following:
  - with whom would the person enjoy spending time
  - where could the person make a difference
  - who could add to the knowledge and experience the person has
  - what roles could the person take
  - is there someone who would be able to support the person
- Equipment/resources required

Appropriate resources may include:
- Specialised transport
- Mobility aids
- Communication devices/aids
- Personnel

Examples of physical entry and exit issues may include:
- Kerbs
- Lifts
- Ramps
- Lighting
- Signs
- Amenities

Location risk may include:
- Safety of specific premises
- Safety of the activity

Risks associated with supporting community participation may include:
- Non-acceptance
- Poor match with activity and the group
Unit Sector(s)

Not Applicable
CHCDIS411A Communicate using augmentative and alternative communication strategies

Modification History
Not Applicable

Unit Descriptor
Descriptor
This unit describes the knowledge and skills required by the worker to communicate with people who have complex communication needs (CCN) through effective use of augmentative and alternative communication (AAC) strategies and systems.

Augmentative and alternative refers to methods that replace or supplement speech to address the needs of people whose oral speech skills limit their ability to meet their participation and communication needs.

Application of the Unit
Application
Work performed requires a range of well developed skills where some discretion and judgement is required and individuals will take responsibility for their own outputs.

Note that application of this unit may vary according to signs/language used in specific geographical areas or for participants working with specific CALD groups.

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify the current *communication* ability and needs of the person | 1.1 Work in collaboration with relevant others to identify the communication needs of person with a disability  
1.2 Use appropriate tools to identify the level of their current communication ability, in line with own work role and organisation requirements  
1.3 Document the outcomes of this process in line with organisation procedures  
1.4 Identify the need to consult with additional people including family members  
1.5 Make appropriate referrals to *professionals and other service providers* as required |
ELEMENT

2. Develop effective augmentative and alternative communication strategies

   2.1 Apply understanding of augmentative and alternative communication
   2.3 Develop communication strategies to meet individual needs and level of communication
   2.4 Take into account the person's history and preferences when developing communication strategies
   2.5 Adjust available tools and programs to address individual needs and preferences
   2.6 Seek advice from other staff and relevant others

3. Implement augmentative and alternative communication strategy

   3.1 Demonstrate the use of different strategies and devices in augmentative and alternative communication
   3.2 Apply understanding of participation model as a communication strategy
   3.3 Document communication strategies in the person's communication support plan or person-centred plan
   3.4 Organise the environment to optimise communication opportunities
   3.5 Reinforce communication by timely and appropriate response
   3.6 Identify difficulties experienced by the person communicating and respond to difficulties within own work role and responsibilities
   3.7 Communicate difficulties outside own role and responsibilities to appropriate person
   3.8 Contribute to consistent use of the communication strategy by following established directions, by providing information and training and by maintaining contact with other users or support persons
   3.9 Set up and maintain recording system to assist with monitoring and review
ELEMENT

4. Monitor, report and review communication strategies

PERFORMANCE CRITERIA

4.1 Review recordings to monitor success of communication strategies and make changes as required

4.2 Identify barriers to the effective use of augmentative and alternative communication strategies and devices

4.3 Work with other relevant people to overcome the barriers

4.4 Implement any modifications to communication strategies and devices

4.5 Identify opportunities to increase communication vocabulary

4.6 Maintain records according to established directions and within organisation protocols
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Principles and practices of augmentative and alternative communication
- The process for assessing for the use of augmentative and alternative communication
- Understanding of the different levels of communication
- Recognition of communication styles of individuals
- Different communication skills relevant to client group e.g. signing
- Basic knowledge of causes of communication impairment
- Cross cultural communication protocols
- Understanding of the influence of communication on behaviour
- Understanding of the person's communication level and its impact on skill development
- Understanding of the person's communication level and its impact on their active community participation
- Roles and functions of different professionals in the development, implementation and maintenance of augmentative and alternative communication strategies and devices
- Available range of communication aids and their correct use
- Augmentative and alternative communication strategies and their correct use for the person's level of communication
- The total communication environment and the need for consistency
- Role and responsibility as part of a team that supports augmentative and alternative communication
- Task analysis
- Prompting, principles of prompting and fading prompting
- Strategies to create independence
- Reinforcers
- Motivators to learn
- Common de-motivators and blocks
- Understanding of maintenance techniques and generalisation
REQUIRED SKILLS AND KNOWLEDGE

- Understanding of incidental learning

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Participate in a multi-disciplinary team
- Follow established augmentative and alternative communication strategy interaction guidelines
- Use augmentative and alternative communication strategies and devices
- Respond appropriately to each individual's augmentative and alternative communication strategy
- Identify barriers to effective communication using augmentative and alternative communication strategies/devices
- Monitor effective communication using augmentative and alternative communication strategies/aids
- Use observation skills
- Apply techniques to work with specialists and relevant others
- Use effective communication skills including:
  - development of rapport
  - active listening
  - make reasonable adjustments to own communication techniques to meet individual needs
- Collaborate and network with a variety of personnel in order to achieve learning and development objectives
- Demonstrate appropriate task breakdown
- Apply communication techniques that encourage and motivate
- Use appropriate prompting and application of reinforcers during training session
- Demonstrate appropriate use of incidental learning opportunities

**Evidence Guide**

**EVIDENCE GUIDE**
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The individual being assessed must demonstrate the use of five different strategies/aids used for AAC in a range of different environments
- Assessment of this unit must occur in a real or simulated workplace
  Such an environment must provide a typical range of augmentative and alternative communication requirements
- The specific assessment context will be defined by the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
- The competencies described need to be assessed over time and events, under normal workplace conditions
- Assessment should not require a higher level of communication competency than that required by work responsibilities
EVIDENCE GUIDE

Access and equity considerations:
• All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
• All workers should develop their ability to work in a culturally diverse environment
• In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
• Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
• This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
• Resources required for assessment of this unit include access to:
  • a relevant workplace or an appropriately simulated environment where assessment may take place

Method of assessment:
• In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
• Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
• Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Augmentative and alternative communication includes:

- Augmentative and alternative communication (AAC) is used to increase understanding of spoken language and to augment or supplement expression
- AAC systems comprise communication aids, symbols, strategies and techniques or methods
- AAC systems include both aided and unaided strategies, including access techniques

Communication refers to the manner in which the meaning of a message is transmitted/received, and includes:

- Unaided using, for example:
  1. natural gestures
  2. facial expression
  3. eye contact
  4. vocalisation
  5. key word signs - Makaton vocabulary
- Aided where the person communicates using a communication aid (i.e. something other than their body), such as:
  - real objects
  - photographs
  - line drawings
  - communication aids, such as 'Chat Books', 'Personal Communication Dictionaries', 'Books About Me'
  - electronic device with speech output
**RANGE STATEMENT**

*Communication symbol refers to a system of representing meaning:*
- When people speak, their meaning is represented by spoken words which act as 'symbols'
- Where a person is unable to speak, their meaning has to be represented by a different set of symbols
- These communication symbols include:
  - spoken words - traditional orthography (letters/words)
  - photographs
  - pictographs / line drawings - set of pictorial symbols (e.g. picture communication symbols, boardmarkers, softpics, compics)
  - written text - key word signs - also termed 'symbolic language' as the sign represents a concept
  - key word signs - Makaton vocabulary, etc
  - manual signs

*Communication strategies refer to:*
- Strategies for initiating and maintaining an interaction with a communication partner
- A specific way of using communication strategies within everyday situations, including, for example:
  - community request card for shopping
  - personal communication dictionary of idiosyncratic signs

*Communication access refers to:*
- A means of access - technique
- Addresses the method of transmitting messages, such as:
  - scanning
  - eye gaze
  - auditory scanning
  - via a keyboard, pointed index finger or switching
- Communication strategies / devices may range from high technology (use of computers and voice output communication devices) through to pointing with a fist to a communication board
RANGE STATEMENT

Understanding AAC systems may include:

- Choice, selection and use of a symbol system and appropriate communication strategy/device
- Being an effective communication partner by being familiar with a range of AAC strategies/devices
- Being familiar with range of strategies required to implement a system effectively

Assessment tools include:

- Observation checklists such as Checklist of Communication Competence
- Assessment tools specific to the organisation
- Assessment tools specified by the specialist

Professionals and other service providers may include:

- Speech pathologist
- Psychologist
- Carer/family
- Education staff
- Support staff
- Occupational therapist

Different strategies and devices may include, but are not limited to:

- Chat books
- Choice making using object symbols
- Choice making using photos or line drawings
- Choice making using real life experiences
- Community request cards
- Finger spelling
- Head wand or head stick
- Icon
- Large print
- Leisure pack
- Key word signing - Makaton vocabulary
- Mime
- Personal communication dictionary
- Activity Sequence Boards
- Picture exchange communication system (PECS)
- Voice output communication aids (VOCA)
RANGE STATEMENT

Monitoring and review include:

- Observations made by self or others
- Reviewing documentation detailing use of communication strategy/strategies as described in communication support plan
- Informal and formal discussions with client and relevant others regarding effectiveness of communication strategy
- Client planning meetings

Appropriate information may include:

- Essential communication requirements in a specific setting, including:
  - work
  - school
  - home
  - day service
  - shops
- Communication barriers in a specific setting, including:
  - access to communication partners familiar with AAC strategies
  - lack of trained staff
  - lack of awareness by staff
  - noise and environmental distractions
  - lack of privacy and space
  - comfort and positioning requirements

Environmental factors that optimise communication opportunities may include:

- Comfort
- Ready access to communication aids
- An environment that fosters communication

Environmental factors that optimise the use of the communication strategy may include:

- Appropriately trained staff
- Appropriately trained carers
- Consistency across different settings
- Time for communication
RANGE STATEMENT

*Appropriate person may include:*  
- Speech pathologist  
- Psychologist  
- Carer/family  
- Education staff  
- Support staff  
- Occupational therapist  
- Supervisor  
- Disability worker

*Other users may include:*  
- Work  
- School  
- Home  
- Day service  
- Shops  
- Community services  
- Recreational facilities

*Barriers may include but are not limited to:*  
- Opportunity barriers (those outside the person) such as policy, practice, attitude, knowledge and skill  
- Access barriers (relating to the person) such as linguistic, cognitive, motor and sensory skills  
- Note frameworks such as:  
  - the 'Participation Model' by Beukelman and Mirenda is used within the AAC community to ascertain barriers in access and opportunity  
  - *Ref* 'Augmentative and Alternative Communication: Supporting Children and Adults with Complex Communication Needs'  
    David R. Beukelman and Pat Mirenda  2005  
  - *Checklist of Communication Competencies*  
    (Bloomburg and West 1999)

| 2. Design and/or use appropriate aids | 2.1 Discuss options for adaptations and design of aids and justify choices  
2.2 Design appropriate aids according to group requirements  
2.3 Carry out adaptations to location and environment in response to identified group requirements  
2.4 Put in place a process for evaluation and review of adaptations, including setting dates and identifying people to contribute |
| 3. Design new location to group requirements | 3.1 Actively involve people with disabilities, significant others and other support staff in process of identifying building requirements  
3.2 Plan and note physical entry and exit with group's requirements in mind  
3.3 Identify and record requirements for aids, environmental design and support, and strategies to deal with these  
3.4 Recognise own limitations and seek *expert assistance* where necessary  
3.5 Make reports and recommendations on building requirements to managers or *boards of management*  
3.6 Recognise and describe individual and cultural differences impacting on the design of locations and develop strategies to deal with these |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge*:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Organisation policies and procedures relating to the design and adoption of group surroundings
- Impact of disabilities on people with disabilities
- Occupational health and safety guidelines
- Ergonomics
- Range of available aids
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required

See additional information for assessors regarding the following:

- alcohol and other drugs (AOD) abuse
- cultural and linguistic diversity
- risk of self-harm
- women
- men
- community education
- Aboriginal and Torres Strait Islander people
- mental health

*Essential skills*:

It is critical that the candidate demonstrate the ability to:

- Identify specific requirements of people with disabilities
- Apply consultation requirements relating to proposed adaptations
- Demonstrate application of skills in:
  - designing
REQUIRED SKILLS AND KNOWLEDGE

- assessment
- communication with individuals and groups

Evidence Guide
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Consistency in performance should consider the particular requirements of services and workplaces

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - relevant organisation policy, protocols and procedures
  - equipment and resources normally used in the workplace

Method of assessment may include:

- Observation in the workplace
- Written assignments/projects
- Case study and scenario analysis
- Questioning
- Role play simulation

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Locations may refer to:

- Workplaces
- Community centres
- Residences
- Educational and recreational facilities
- Various service facilities
RANGE STATEMENT

Examples of physical exit and entry issues involve:
- Curbs
- Lifts
- Lighting
- Signs

Environmental support may involve:
- Volunteers
- Co-workers
- Training officers being trained to support the person with a disability

Examples of assessment processes include:
- Job or activity analysis
- Task analysis

Expert assistance may come from:
- Architects
- Builders
- Other specialists

Examples of boards of management include:
- Appointed management committees
- Elected management committees
- Chief executive officers

### PERFORMANCE CRITERIA

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>
| **2. Match workplace/job and person with a disability** | **2.1** Assess work requirements, abilities and interests of person with disability in accordance with organisation procedures  
**2.2** Follow relevant organisation procedures to match person with disability and job  
**2.3** Redesign jobs where necessary to match ability of person and requirements of job or employer  
**2.4** Provide information and/or training re disabilities as necessary, to *others* in selected workplace  
**2.5** Ensure working conditions are negotiated between the *relevant parties*  
**2.6** Ensure relevant parties are aware of specific WHS issues related to work for each client and potential co-workers |

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>
| **3. Assess skills and productivity for wages** | **3.1** Analyse job and tasks involved to identify productive units and record information  
**3.2** Determine the pro rata legal wage to be paid to workers with a disability who cannot work at full productive capacity, using a transparent wage assessment tool or process that complies with relevant legislation  
**3.3** Conduct regular wage reviews according to the requirements of the legal wage agreement under which the worker with a disability is paid |

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>
| **4. Provide information on the industrial relations system as it relates to the employment of people with disabilities** | **4.1** Provide people with disabilities with information about industrial awards and their implications for employment  
**4.2** Provide people with disabilities with information about the role of relevant *industrial parties* |
5. Monitor employment opportunities

5.1 Develop and maintain positive relationships with (potential) employers of people with disabilities

5.2 Evaluate job vacancies to determine their relevance to interests of people with disabilities

5.3 Identify relevant job vacancies and refer to people with disabilities as appropriate

5.4 Initiate, conduct and document research into identified employers' businesses and jobs

5.5 Monitor and document trends in industry to enhance the placement of people with disabilities in the long term

5.6 Evaluate job vacancies to determine their relevance to interests of people with disabilities
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Up-to-date knowledge of employment opportunities and/or programs for clients (targeted to people with disabilities, or general)
- Federal and state government programs and assistance relating to workplace participation by people with disabilities
- Relevant industrial legislation listed in this unit's Range Statement
- Marketing theory and techniques
- Negotiation techniques
- Impact of disability on people with disabilities
- Potential WHS issues and risks associated with person with a disability undertaking specific work
- Human development - psychological, cognitive, social and physical
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required

See additional information for assessors regarding the following:

- alcohol and other drugs (AOD) abuse
- cultural and linguistic diversity
- risk of self-harm
- women
- men
- community education
- Aboriginal and Torres Strait Islander people
- mental health

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Maximise participation in work based on available jobs or employment opportunities
REQUIRED SKILLS AND KNOWLEDGE

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills in:
  - task or job analysis
  - marketing
  - negotiation
  - Maintain documentation as required, including effective use of relevant information technology in line with WHS guidelines

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

_Critical aspects for assessment and evidence required to demonstrate this unit of competency:_

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Consistency in performance should consider the requirements of particular work roles and responsibilities
EVIDENCE GUIDE

Access and equity considerations:

• All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
• All workers should develop their ability to work in a culturally diverse environment
• In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
• Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

• This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
• Resources required for assessment of this unit include access to:
  • a relevant workplace or an appropriately simulated environment where assessment may take place

Method of assessment:

• In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
• Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
• Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Types of employment include:
- Supported
- Open

Relevant parties include:
- Employer
- Person with a disability
- Support networks for workers
- Union representative
- Wage assessor
- Carer

Industrial and statutory conditions include:
- Awards
- Registered agreements
- Other relevant wage/salary systems relating to employment for people with disabilities
- Knowledge of incentives and other assistance available to employer and apprentice including Disabled Apprentice Wage Support Scheme
- Individual contracts

Industrial parties include:
- Unions
- Employer organisations
- Industrial commissions
RANGE STATEMENT

Others include:
- People with disabilities
- Other staff
- Other organisations
- Carers

Identify relevant job vacancies will consider:
- Preferences of clients
- Chosen career options of clients
- Alternative opportunities

Potential employers include:
- Community organisations
- Private organisations
- Government organisations

ELEMENT

3. Review and monitor programs

PERFORMANCE CRITERIA

3.1 Ensure changes to client service are within policy and budgetary frameworks
3.2 Undertake training as required for implementation to meet changing client needs and community expectations
3.3 Modify specified aspects of the service or service delivery as needed to meet changing client and service requirements
3.4 Ensure changes to client service are within procedural and legislative requirements and maintain high standards of delivery
3.5 Undertake appropriate planning to ensure client needs are met
3.6 Develop required programs
3.7 Make referrals to external services as appropriate

4. Support rights, interests and needs of people with disabilities

4.1 Support and encourage people with disabilities to exercise their rights and independence where appropriate
4.2 Recognise different client requirements in service delivery
4.3 Comply with legal and ethical responsibilities and duty of care

5. Develop and implement a framework for quality service delivery

5.1 Devise strategies to ensure the delivery of high quality services continue to reflect best practice
5.2 Establish and implement protocols and procedures for managing service delivery to reflect best practice in the disability sector
5.3 Identify and address barriers in the organisation that may impact on delivery of high quality service
5.4 Regularly update procedures for managing service delivery to reflect current best practice, relevant legislative changes, and changing client needs
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Relevant legislation relating to disability issues
- Relevant specific culture and language used by people with disabilities
- Working with families and family systems
- Understanding different client requirements according to different disabilities
- Networks in the disability sector
- Consumer needs and rights including duty of care
- Principles of empowerment/disempowerment in relation to people with disabilities
- Principles of access and equity
- Current issues facing clients and existing services for addressing needs and rights
- Principles and practices of confidentiality
- Working with people from culturally and linguistically diverse backgrounds
- Working with people at risk of self-harm
- Organisation policies, practices and programs relating to the work role
- Organisation occupational health and safety policies and procedures
- Organisation philosophy and guidelines
- Rights and responsibilities of people with disabilities
- Understanding of stereotypes of people with disabilities
- Available client services
- Awareness of own attitudes to people with disabilities
- Awareness of discriminatory actions
- Common risks to safety
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required

See additional information for assessors regarding the following:

- alcohol and other drugs (AOD) abuse
REQUIRED SKILLS AND KNOWLEDGE

- cultural and linguistic diversity
- risk of self-harm
- women
- men
- community education
- Aboriginal and Torres Strait Islander people
- mental health

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Coordinate service or a range of services in the disability sector
- Develop or influence policy relating to quality service delivery

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - interpersonal communication with clients and other stakeholders
  - program development, review and revision

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Consistency in performance should relate to requirements of the particular workplace

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
**EVIDENCE GUIDE**

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.

- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.

- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

---

**Range Statement**

**RANGE STATEMENT**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Protocols include:*

- Communication with clients
- Assessment of client needs
- Collection, recording and reporting of information
- Processes for decision-making for consideration of client needs
RANGE STATEMENT

Context includes:

- Statutory framework within which work takes place
- Historical context of work e.g. changing attitudes; changing approaches to working with clients
- Changing social context of work e.g. consumer centred approach, changing government and societal views, approaches to working with clients
- Political context e.g. government policies and initiatives
- Economic context e.g. the current economic situation as it relates to and affects people with disabilities and the subsequent impact on client needs
- Facts/myths about disability

Issues include:

- Access to services for people with disabilities and their carers
- Meeting individual needs and personal goals of people with disabilities
- Family and support structures
- Income and employment service
- Training for people with disabilities
- Participation and integration in the community
- Grieving and loss

Different models of work in the sector may include:

- Community development and education
- Health promotion
- Case management
- Working with families
- Peer support/self help
- Residential services
- Community access respite care
- Home based support
- Behaviour management
- Advocacy
- Employment support
- Lifestyle support
- Business services support
- Education and training
RANGE STATEMENT

The underpinning values and philosophies of the sector may include:

- A holistic and consumer-centred approach
- Community education
- Targeting of appropriate services
- Commitment to meeting the needs and upholding the rights of clients
- Commitment to empowering clients

Different client requirements may depend upon:

- Type of disability e.g.
  - physical
  - sensory
  - intellectual
  - psychiatric
  - cognitive
- Support availability including:
  - family
  - carer
  - financial
  - physical and emotional
  - behaviour management
  - employment
  - education and training

Policy and legislative requirements include:

- Disability Discrimination Act
- Disability Service Standards
- Disability Services Act
- Equal Employment Opportunity principles
- Guardianship Board
- Individual rights
- Medical Act
- Medication regulations
- Nurses Act
- Privacy Act
- Restrictive practices legislation
RANGE STATEMENT

A commitment to access and equity principles includes:

- Creation of a client oriented culture
- A non-discriminatory approach to all people using the service, their family and friends, the general public and co-workers
- Ensuring the work undertaken takes account of, and caters for differences including: cultural, physical, religious, economic, social, developmental, behavioural, emotional and intellectual

Rights include principles expressed in:

- Charters of rights
- Outcomes standards documents
- General human rights
- Freedom from discrimination
- Freedom of information

Rights may be detailed in:

- Legislation
- Resident handbooks
- Mission statements
- Industry and organisation service standards

Rights include:

- Privacy
- Confidentiality
- Common law
- To be treated in a dignified, safe and comfortable manner
- To express own feelings
- Freedom of association
- Choice to participate
- Access to complaint mechanisms

Interests include:

- Financial
- Accommodation
- Services
- Recreation
RANGE STATEMENT

Needs may include:

- Personal
- Security
- Safety

Strategies include those to address:

- Service access
- Individual needs
- Decision-making and choice
- Privacy, dignity and confidentiality
- Participation and integration
- Valued status
- Complaints and disputes
- Service management
- Abuse prevention

Barriers may include:

- Negative personal attitudes and values of staff
- Organisation procedures and practices
- Client service strategies
- Social, cultural and religious
- Physical and economic

Unit Descriptor

Unit Descriptor
This unit of competency describes the skills and knowledge required to facilitate family dispute resolution with the aim of assisting families to reach mutual agreement on issues related to relationships, children, property and assets.

This unit requires a candidate to have experience and competence in the facilitation of a basic mediation process.

It expands on basic mediation principles and process and outlines dispute resolution skills specific to family dispute resolution in the family law context, including, mediation, conciliation, facilitation and conferencing.

Application of the Unit

Application
This unit applies to Dispute Resolution Practitioners performing complex family dispute resolution using a variety of facilitative processes within the Family Law environment.

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Obtain participants' agreement to enter into facilitated dispute resolution | 1.1 Explain the facilitated dispute resolution process to potential participants  
1.2 Advise participants of the practitioner's role and any limitations in relation to the provision of advice or other services  
1.3 Discuss with the participants the family dispute resolution practitioner's specific procedures and practices  
1.4 Explain limitations on confidentiality and obtain written agreement to participate in dispute resolution process |
| 2. Assist participants to define and clarify the issues | 2.1 Engage with participants using a range of interpersonal and effective communication skills and organisation resources to identify parenting and property or assets issues for consideration  
2.2 Screen for family violence using a range of tools prior to the commencement of the dispute resolution process  
2.3 Identify the most appropriate dispute resolution process for the client's presenting circumstance  
2.4 Explain the practitioner's chosen process for dispute resolution  
2.5 Document information and actions according to organisation policy and/or relevant legislation |
| 3. Assist communication and information exchange between participants | 3.1 Use a broad range of facilitation skills to encourage active listening between participants  
3.2 Manage the interactions between participants to ensure fair and respectful engagement  
3.3 Conduct separate sessions where appropriate  
3.4 Manage power imbalances in the dispute resolution session |
ELEMENT

4. Invite the framing of disputes so as to increase the range of options

   4.1 Assist participants to develop agendas for the process that consider the broader range of issues

   4.2 Provide expert information in a facilitative role, whilst maintaining impartiality, and client self determination, refraining from advising on a particular outcome

   4.3 Assist parties to communicate on issues that impact on children, with regard to practitioner's legislative requirements to consider best interests of the child

5. Encourage mutual personal understanding between participants

   5.1 Encourage participants to acknowledge each other's needs, fears and concerns using communication techniques

   5.2 Identify and encourage cooperative behaviour and demonstrated and/or expressed intentions to commit to resolving disputes

   5.3 Monitor and manage any disruptive behaviours and communications

6. Assist participants to generate and evaluate options

   6.1 Use techniques and strategies to aid participant to generate potential options for dispute resolution

   6.2 Encourage discussion about the effects of each option on parties involved in the dispute, with particular consideration for children affected by the agreement to be made

   6.3 Promote and monitor the best interests of the child in participants' agreements, including assessment of risk to vulnerable parties

   6.4 Document outcomes and agreements according to organisation and legislative requirements.

   6.5 Explain any legal obligations of agreements reached, if applicable

   6.6 Provide participants with appropriate referral supports post dispute resolution
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Contemporary research and approaches in the provision of conflict management
- Contemporary research and approaches in responding to needs of Aboriginal and Torres Strait Islander families and communities
- Contemporary research and approaches in responding to needs of culturally and linguistically diverse families and communities
- Thorough understanding of the provision for children and property in the Family Law Act, Child Support (Assessment) Act
- Impact of conflict, particularly high and/or ongoing conflict, on children, and the use of child focused and child inclusive techniques to address and minimise these impacts where required in job role
- Understanding and relevant application within job role context of main concepts of family, couple and child dynamics in normal developmental and abnormal forms
- An understanding of the sources of power imbalances in relationships and an ability to recognise and respond appropriately to the indicators of such imbalances in their clients.
- Procedures and instruments to screen for abuse before and during the dispute resolution process in addition to safety planning requirements and procedures for clients and staff as well as limitations.
- Community, educational or other resources for referral or use within the dispute resolution process
- Other dispute resolution options such as litigation or community based interventions, as well as their strengths and limitations
- Self knowledge, including personal and cultural attitudes toward family conflict and the impact of self on the parties and process
- Range of impacts of separation and divorce on couples, parents, children and other family members

Essential skills:
It is critical that the candidate demonstrate the ability to:
REQUIRED SKILLS AND KNOWLEDGE

- Apply dispute diagnostic skills including:
  - recognising indicators of substance abuse
  - recognising and responding appropriately to the indicators of domestic and family violence and abuse and power imbalances in client situations
  - identifying, responding to and managing cultural dimensions of the conflict
  - recognising own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process

- Apply relationship skills including:
  - effective liaison and working relationships with other allied professionals
  - establishing and maintaining trust and respect
  - encouraging client self determination
  - recognising own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process
  - applying age appropriate methods of relating to and eliciting perceptions, information and responses from children who have experienced high levels of parental conflict

- Apply content management skills including:
  - obtaining, identifying, analysing, prioritising and evaluating information
  - assessing the issues and options and reasoning logically
  - reading, comprehending and using relevant documentation
  - writing clearly and concisely using neutral language
  - creating, maintaining and organising records and materials in an appropriate manner
  - eliciting information from other professionals in the dispute resolution process
  - using and exchanging information in a manner that broadens rather than limits the participants' options.
  - recognise issues that may undermine the dispute resolution process, like mental health, alcohol and other drug issues

- Apply process skills including:
  - conducting appropriate intake procedures and ascertaining appropriateness of mediation for participants
  - assisting participants to articulate concerns, negotiate and develop an agenda
  - assisting participants in converting positions of interest and to explore own underlying interests and become aware of others, particularly children
  - work within a child focused approach.
  - encourage clients to focus on future options and contingencies and to create and assess workable options
  - assist clients to understand consequences of their suggestions and plans
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.
- Observation of workplace performance is essential for assessment of this unit.
- Consistency of performance should be demonstrated over the required range of client situations or scenarios relevant to the workplace including:
  - facilitated family dispute resolution
  - family conciliation
  - co-facilitated dispute resolution
  - with voluntary and involuntary participants
  - case of parenting and property disputes
  - multiparty dispute resolution
  - complex cases

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.
EVIDENCE GUIDE

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Method of assessment may include:

- Observation in the workplace
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice

Dispute resolution skills involving actual client contact are to be assessed initially in simulated settings

- If successful, further assessment is to be conducted during workplace application under direct supervision of an experienced and qualified dispute resolution practitioner
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Appropriateness of process may include:
- Parties' particular circumstances
- Benefits and risks of the process
- Alternatives open to the participants

Practitioner's role and any limitations may include:
- Legal advice
- Legal representation
- Therapeutic intervention limitations

Limitations on confidentiality may include but are not limited to:
- Mandatory obligations on matters of child abuse and/or domestic and family violence
- Criminal matters with risk to self and/or others
- Duty of Care to self, client, community and colleagues
- Disclosed risks of harm for client, staff, community
- Other applicable legislation and regulations within work role and jurisdictions
RANGE STATEMENT

Interpersonal and effective communication skills may include:

- Approach is non-judgemental
- Displaying empathy to all participants before, during and after the process
- Active, effective and appropriate listening
- Clarifying information and assumptions
- Speaking clearly, simply, effectively at the communication and comprehension level of the participants
- Establish rapport with each of the participants and demonstrating respect for individual difference
- Questioning to elicit information, feeling, fears and perspectives
- Working effectively with interpreters

Parenting and property or assets issues may include but is not limited to:

- Asset division
- Child support payments
- Residency of children
- Contact with non-resident parents
- Variations and/or review of existing agreements

Tools for screening for family violence may include:

- Documented questionnaires and procedures for gathering information in relation to risk
- Scripts and preambles
- Defined questions
- Measures and rating scales of risk

Dispute resolution process may include but is not limited to:

- Forms of mediation:
  - facilitative
  - settlement oriented
  - therapeutic
  - evaluative
  - narrative
RANGE STATEMENT

Range of facilitation skills may include:

- Mirroring strategy
- Role modeling cooperation and listening through co-facilitation/mediation
- Reframing issues
- Respectful interruptions
- Encouraging active listening
- Formulating transition statements for clarification
- Recognising power imbalances and manage high levels of conflict
- Managing risk issues if necessary and terminate the process of dispute resolution safely
- Knowing how and when to use individual sessions

Provide expert information in a facilitative role may include:

- Expert information which does not infringe upon participant self determination, however, assist the participants to view situations more broadly with the aid of expert information
- The expert information provide is considered an intervention or facilitative strategy which acts as a bridge between the principle of self determination and any legislative requirements

Client self determination means:

- Managing the process of dispute resolution in a non directive manner whereby participants determine the outcome
- The facilitative role does not include the provisions of advice or determination of dispute resolution.

Communication skills to encourage effective participation may include:

- Reframing positional statements in terms of underlying interests, such as needs, fears, and concerns
- Clarifying information and assumptions from both participants
- Summarising communications and consolidating areas of participants' agreements
- Giving constructive feedback
- Working effectively with interpreters
RANGE STATEMENT

Assessment of risk to vulnerable parties may include:

- Processes for evaluating the nature of specific risks to safety for individual clients using tools and structured clinical judgement
- The content of risk may relate to:
  - exposure to violence
  - mental health issues
  - children's and parenting issues

Risk may include but is not limited to:

- Being physically hurt, intimidated, bullied, harassed or controlled
- Threatened with physical harm, intimidation, bullying or harassment
- Harm or threat of harm to children
- Harm or threat of harm to pets and loved ones
- Harm or threat of harm to property
- Inability to fully participate in significant events such as court ordered mediations
- Having residential address known by a person who uses violence against you

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Respect and utilise other professionals</td>
<td>1.1 Promote cooperation with other professionals</td>
</tr>
<tr>
<td></td>
<td>1.2 Encourage clients to use <em>other professional resources</em></td>
</tr>
<tr>
<td></td>
<td>1.3 Inform co-facilitators and others involved of developments in the family mediation process</td>
</tr>
</tbody>
</table>
ELEMENT
2. Conduct the family dispute resolution process in a procedurally fair manner

PERFORMANCE CRITERIA
2.1 Ensure that participants reach agreement freely, voluntarily, without undue influence and on the basis of informed consent
2.2 Ensure each participant has equal opportunity to speak, be heard and present needs, interests and concerns
2.3 Assess the capacity for participants to engage in the dispute resolution process
2.4 Assist participants to understand the implications and ramifications of available options
2.5 Provide sufficient opportunity for participants to access advice and information from other experts
2.6 Intervene in manipulative or intimidating negotiation tactics
2.7 Obtain an undertaking from participants in financial and/or property disputes to disclose financial and related circumstances
2.8 Advise participants of the desirability and availability of independent legal advice
2.9 Encourage participants, where appropriate to obtain independent legal advice
2.10 Assist participants to assess the feasibility and practicality of any proposed agreements in both the long term and short term
ELEMENT

3. Advise on and/or determine the process whereby resolution is attempted

PERFORMANCE CRITERIA

3.1 Inform participants of own qualifications and experience in dispute resolution
3.2 Facilitate disputes within own limits of competence
3.3 Refer participants to professional experts for psychological, counselling and/or legal interventions
3.4 Facilitate participants' awareness of the interests of others affected by the dispute and proposed agreement
3.5 Assist participants to consider the needs and interests of other parties, especially children, to the dispute
3.6 Make available information about own training, education and expertise to aid participants' self determination in the dispute resolution process

4. Respect confidentiality of participant information

4.1 Discuss with participants their expectations of confidentiality before undertaking the family dispute resolution process
4.2 Include provisions for confidentiality in any written agreements to enter the process
4.3 Inform participants of the limitations of confidentiality
4.4 Explain obligations of confidentiality and seek agreement for private sessions with participants
4.5 Inform participants of any subpoena, or other notification to testify or to produce documents as soon as possible.
4.6 Obtain participants' consent to discuss the content of dispute resolution process with parties' lawyers and/or other expert advisors
4.7 Disclose to participants' representatives substance of agreements reached only after obtaining permission from the respective parties
4.8 Maintain confidentiality in the storage and disposal of client records
ELEMENT

5. Terminate a family dispute resolution process whenever continuation of the process is likely to harm or prejudice one or more participants

PERFORMANCE CRITERIA

5.1 Respond to issues of misuse of the dispute resolution process

5.2 Terminate or suspend the dispute process when it is being used for purposes other than mutual attempt to arrive at a fair solution or its usefulness has been exhausted

5.3 Withdraw from the dispute resolution process when a proposed agreement is being reached that is considered by the practitioner to be unconscionable

5.4 Assist participants to access further process options for dealing with their dispute

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Contemporary research and approaches in the provision of conflict management
- Contemporary research and approaches in responding to needs of Aboriginal and Torres Strait Islander families and communities
- Contemporary research and approaches in responding to needs of Culturally and linguistically diverse families and communities
- Thorough understanding of the provision for children and property in the Family Law Act, Child Support (Assessment)Act
- Impact of conflict, particularly high and/or ongoing conflict, on children, and the use of child focused and child inclusive techniques to address and minimise these impacts
- Understanding and relevant application within job role context of main concepts of family, couple and child dynamics in normal developmental and abnormal forms
- An understanding of the sources of power imbalances in relationships and an ability to recognise and respond appropriately to the indicators of such imbalances in their clients.
REQUIRED SKILLS AND KNOWLEDGE

- Procedures and instruments to screen for abuse before and during the dispute resolution process in addition to safety planning requirements and procedures for clients and staff as well as limitations.
- Community, educational or other resources for referral or use within the dispute resolution process
- Other dispute resolution options such as litigation or community based interventions, as well as their strengths and limitations
- Self knowledge, including personal and cultural attitudes toward family conflict and the impact of self on the parties and process
- Range of impacts of separation and divorce on couples, parents, children and other family members

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply dispute diagnostic skills including:
  - recognising indicators of substance abuse
  - recognise and respond appropriately to the indicators of domestic and family violence and abuse and power imbalances in client situations
  - identifying, responding to and managing cultural dimensions of the conflict
  - recognise own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process
- Apply relationship skills including:
  - effective liaison and working relationships with other allied professionals
  - establishing and maintaining trust and respect
  - encouraging client self determination
  - recognising own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process
  - applying age appropriate methods of relating to and eliciting perceptions, information and responses from children who have experienced high levels of parental conflict
- Apply content management skills including:
  - obtaining, identifying, analysing, prioritising and evaluating information
  - assessing the issues and options and reasoning logically
  - reading, comprehending and using relevant documentation
  - writing clearly and concisely using neutral language
  - creating, maintaining and organising records and materials in an appropriate manner
  - eliciting information from other professionals in the dispute resolution process
  - using and exchanging information in a manner that broadens rather than limits the participants’ options
- Apply process skills including
REQUIRED SKILLS AND KNOWLEDGE

- conducting appropriate intake procedures and ascertaining appropriateness of mediation for participants
- assisting participants to articulate concerns, negotiate and develop an agenda
- assisting participants in converting positions of interest and to explore own underlying interests and become aware of others, particularly children
- work within a child focused approach.
- encouraging clients to focus on future options and contingencies and to create and assess workable options
- assisting clients to understand consequences of their suggestions and plans

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of client situations or scenarios relevant to the workplace including:
  - facilitated family dispute resolution
  - family conciliation
  - co-facilitated dispute resolution
  - with voluntary and involuntary participants
  - case of parenting and property disputes
  - multiparty dispute resolution
  - complex cases
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate person
Method of assessment may include:

- Observation in the workplace
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice

Dispute resolution skills involving actual client contact are to be assessed *initially* in simulated settings:

- If successful, further assessment is to be conducted during workplace application under direct supervision of an experienced and qualified dispute resolution practitioner
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Other professional resources may include:
- Lawyers
- Counsellors
- Community Health
- Mental Health
- Community Welfare agencies
- Child Support Agency
- Centrelink
- Child Protection agencies
- Children's Contact Services
- Family Relationship Centres
- Parent Educators
- Domestic violence services

Capacity for participants to engage in the process may include:
- Unwilling
- Intellectual and/or other disability or special needs
- Cultural or religious factors
- Language
- Legal requirements

Manipulative or intimidating tactics may include:
- Coercion by one party over another
- Aggressive body language
- Inappropriate expressions of emotions
- Real or perceived threatening behaviour or language
- Silence, stalling, sabotage and dominance of time in the process
- Withdrawing with intent terminate the session before agreements reached as a matter of abuse of power
- Refusing to negotiate on any issue
RANGE STATEMENT

Obtain an undertaking for disclosure of financial and related circumstances:

- Obtaining disclosure only if relevant to the issue of dispute resolution and only in accordance with the provisions of the Family Law Act

Limitations of confidentiality may include:

- Statutory, judicially or ethically mandated reporting
- Potential and/or real risk of harm to self or others disclosed during the dispute resolution process
- When the process is being misused by participants
- When the usefulness of the process has been exhausted

Terminate a family dispute resolution process may relate to reasons which include but are not limited to:

- When the process is being misused by participants
- When the usefulness of the process has been exhausted

Misuse of the dispute resolution process may include:

- Delaying proceedings in the hope of reinforcing the continuation of an existing arrangement with respect to assets and children
- Buying time in order to dissipate or conceal assets
- The dispute resolution practitioner is of the opinion that one or both parties is in some way acting in bad faith

</tr>
</thead>
</table>
| 1. Disclose actual and potential grounds of bias and conflicts of interest | 1.1 Inform participants they may retain the dispute resolution practitioner by informed, written waiver of the conflict of interest  
1.2 Withdraw from the dispute resolution practitioner role when a *bias or conflict of interest* impedes *impartiality* regardless of participant's express agreement |
| 2. Identify and disclose potential grounds of bias or conflict of interest at any time in the process | 2.1 Take reasonable steps to minimise the risk of being in a position of potential bias or conflict of interest before the process commences  
2.2 Ensure participants have time to select an alternative family dispute resolution practitioner |
| 3. Avoid conflict of interest and/or perceived conflicts of interest when recommending other services | 3.1 Provide a range of options when *referring participants* to services or individual professionals  
3.2 Maintain respectful and legal practices when managing participant information |
ELEMENT

4. Apply ethical standards to the dispute resolution process

PERFORMANCE CRITERIA

4.1 Remind participants of their right to terminate the dispute resolution process if they perceive the practitioner to be partial

4.2 Maintain professional and personal boundaries as a dispute resolution practitioner

4.3 Adhere to own professional code of ethics when practicing as dispute resolution practitioner

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Practitioners' professional ethical standards
- Knowledge of what constitutes bias and perceived bias
- Knowledge of what constitutes conflict of interest and perceived conflict of interest
- Working knowledge and application of impartiality for dispute resolution practitioners when required to inform clients of legal parameters
- Contemporary research and approaches in the provision of conflict management approaches
- Contemporary research and approaches in responding to needs of Aboriginal and Torres Strait Islander families and communities
- Contemporary research and approaches in responding to needs of culturally and linguistically diverse families and communities
- Thorough understanding of the provision for children and property/financial matters in the Family Law Act, and Child Support (Assessment) Act within specified job role
- Impact of conflict, particularly high and or/ongoing conflict, on children, and the use of child focused and child inclusive techniques to address and minimise these impacts
- Understanding and relevant application within job role context of main concepts of family, couple and child dynamics in normal developmental and abnormal forms
REQUIRED SKILLS AND KNOWLEDGE

- An understanding of the sources of power imbalances in relationships and an ability to recognise and respond appropriately to the indicators of such imbalances in their clients.
- Procedures and instruments to screen for abuse before and during the dispute resolution process in addition to safety planning requirements and procedures for clients and staff as well as limitations.
- Community, educational or other resources for referral or use within the dispute resolution process
- Other dispute resolution options such as litigation or community based interventions, as well as their strengths and limitations
- Self knowledge, including personal and cultural attitudes toward family conflict and the impact of self on the parties and process
- Range of impacts of separation and divorce on couples, parents, children and other family members

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Avoid bias and conflict of interest and how to avoid professional breaches of conduct and ethical standards and how to manage them when/if they arise
- Apply dispute diagnostic skills including:
  - recognising indicators of substance abuse
  - recognise and respond appropriately to the indicators of domestic and family violence and abuse and power imbalances in client situations
  - identifying, responding to and managing cultural dimensions of the conflict
  - recognise own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process
- Apply relationship skills including:

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Bias or conflict of interest may include:

- Relationships of a personal nature with one or more participants to the dispute
- Prior knowledge of or involvement with the client on a professional level which would be seen to be a conflict of interest
- Real and/or perceived conflicts
- Religious or cultural issues that compromise impartiality of practitioner
- Personal values that prevent impartiality of the practitioner
- Practitioner seeking to make inappropriate personal gain monetary or otherwise from the vulnerability of the client and/or their information.
- Practitioners refraining from becoming involved in relationships with parties
- Client's inappropriate attempt to exchange information

Impartiality means:

- Freedom from favouritism or bias either in word or action or the omission of action, or the appearance of such favouritism or bias
RANGE STATEMENT

Professional code of ethics may include but is not limited to:

- Social workers
- Psychologists
- Lawyers
- Counsellors
- Community and welfare workers
- Dispute resolution practitioners

Referral to other services may include:

- Lawyers
- Counsellors
- Community health
- Mental health
- Community welfare agencies
- Child support
- Centrelink
- Child protection agencies
- Children's contact services
- Family relationship centres
- Parent educators
- Domestic and family violence services

<tbody>
<tr>
<td><strong>Assess suitability of dispute for resolution processes in the context of family domestic violence</strong></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1 Demonstrate familiarity with standard protocols that screen for the existence of family violence</td>
</tr>
<tr>
<td>1.2 Seek specialist assistance to implement the screening protocols where appropriate</td>
</tr>
<tr>
<td>1.3 Ensure protocols are in place before entering into an agreement to act as a third party</td>
</tr>
<tr>
<td>1.4 Demonstrate recognition of the impact of dynamics of family domestic violence on the dispute resolution process</td>
</tr>
<tr>
<td>1.5 Demonstrate recognition of the possible impact and risk of dispute resolution process on the safety concerns of family members</td>
</tr>
</tbody>
</table>
ELEMENT

2. Take appropriate measures to ensure the safety of participants in the dispute resolution process when family violence is present

   2.1 Activate appropriate pre determined security protocols
   2.2 Establish a climate for the disclosure of family domestic violence and current safety concerns
   2.3 Use video conferencing or other personal protective and screening measures
   2.4 Establish separate sessions for the participants and enable a support person to attend the family dispute resolution sessions
   2.5 Refer participants to appropriate community supports and alternative programs
   2.6 Suspend or terminate the family dispute resolution session with appropriate steps to protect the safety of the participants

3. Implement procedures that manage violent, controlling, intimidating behaviour that may occur in dispute resolution process

   3.1 Identify behaviours of intimidation, control and manipulation that people who use violence may attempt in the session
   3.2 Establish each person's understanding of essential rules for respectful and safe participation in the process
   3.3 Implement strategies to ensure the equal participation and expression of key concerns and issues by each party
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Contemporary research and approaches in the provision of conflict management
- Contemporary research and approaches in responding to needs of Aboriginal and Torres Strait Islander families and communities
- Contemporary research and approaches in responding to needs of Culturally and linguistically diverse families and communities
- Impact of conflict, particularly high and/or ongoing conflict, on children, and the use of child focused and child inclusive techniques to address and minimise these impacts
- Understanding and relevant application within job role context of main concepts of family, couple and child dynamics in normal developmental and abnormal forms
- An understanding of the sources of power imbalances in relationships and an ability to recognise and respond appropriately to the indicators of such imbalances in their clients.
- Procedures and instruments to screen for abuse before and during the dispute resolution process in addition to safety planning requirements and procedures for clients and staff as well as limitations.
- Community, educational or other resources for referral or use within the dispute resolution process
- Self knowledge, including personal and cultural attitudes toward family conflict and the impact of self on the parties and process
- Range of impacts of separation and divorce on couples, parents, children and other family members
- Knowledge of behaviour and socialisation theories including those which emphasise that thinking patterns can be changed to give people acceptable and constructive alternatives to harmful behaviour
- Understanding of the prevalence of beliefs in the broader society which condone violence, and individuals' rights to safety and autonomy
- Knowledge of legislative requirements and provisions relevant to area of service delivery and delegated responsibility
REQUIRED SKILLS AND KNOWLEDGE

- Knowledge which incorporates theories and concepts of planning and control procedures, resource management and risk management
- A knowledge of techniques for dealing with potentially volatile clients and group situations

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply dispute diagnostic skills including:
  - recognising indicators of substance abuse
  - recognise and respond appropriately to the indicators of domestic and family violence and abuse and power imbalances in client situations
  - identifying, responding to and managing cultural dimensions of the conflict
  - recognise own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process

- Apply relationship skills including:
  - effective liaison and working relationships with other allied professionals
  - establishing and maintaining trust and respect
  - encourage client self determination
  - recognise own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process
  - apply age appropriate methods of relating to and eliciting perceptions, information and responses from children who have experienced high levels of parental conflict

- Apply process skills including:
  - conducting appropriate intake procedures and ascertaining appropriateness of mediation for participants
  - assisting participants to articulate concerns, negotiate and develop an agenda
  - assisting participants in converting positions of interest and to explore own underlying interests and become aware of others, particularly children
  - work within a child focused approach.
  - encourage clients to focus on future options and contingencies and to create and assess workable options
  - assist clients to understand consequences of their suggestions and plans

- Use response skills which include maintaining separate confidentiality strategies when working with users of violence, their partner and family members
- Apply assessment skills to identify needs and related issues which impact on user of violence, partner, and/or family
- Use problem solving skills for a broad range of unpredictable problems involving analysis, assessment, evaluation and the ability to adjust plans and acquire additional resources to assist users of violence, their partner, and/or family
REQUIRED SKILLS AND KNOWLEDGE

- Demonstrate skills in dealing with volatile and potentially volatile clients and group situations

continued ...

Essential skills (contd):

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Facilitate separate sessions with a high degree of risk management measures
- Set up and facilitate a video conference
- Seek professional supervision as appropriate
- Apply ethical standards in cases of family violence

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.
- Observation of workplace performance is essential for assessment of this unit.
- Consistency of performance should be demonstrated over the required range of client situations or scenarios relevant to the workplace including:
  - facilitated family dispute resolution
  - family conciliation
  - co-facilitated dispute resolution
  - with voluntary and involuntary participants
  - case of parenting and property disputes
  - multiparty dispute resolution
  - complex cases where family violence is/has been a factor

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.
EVIDENCE GUIDE

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on ‘What if?’ scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Method of assessment may include:

- Observation in the workplace.
- Written assignments/projects or questioning should be used to assess knowledge.
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.

Dispute resolution skills involving actual client contact are to be assessed initially in simulated settings.

- If successful, further assessment is to be conducted during workplace application under direct supervision of an experienced and qualified dispute resolution practitioner.
- The assessment environment should not disadvantage the candidate.
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English.
- Where the candidate has a disability, reasonable adjustment may be applied during assessment.
- Language and literacy demands of the assessment task should not be higher than those of the work role.
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Family and domestic violence refers to:

- Violent, threatening, patterned and repeated use of coercive or controlling behaviour that occurs in current or past family, domestic or intimate relationships
- This can include not only physical assaults but an array of power and control tactics used along a continuum in concert with one another, direct or indirect threats, sexual assault, emotional and psychological torment, economic control, property damage, social isolation and behaviour which causes a person to live in fear
- The blame for abuse and violence is often wrongly attributed to the person who is subject to the violence leaving them feeling responsible
- The use of abuse and violence is often wrongly and/or excused by external circumstances such as alcohol, unemployment

Specialist assistance may include:

- Supervisors
- Team leaders
- Specialist domestic and family violence workers
RANGE STATEMENT

Standard protocols that screen for family violence may include:
- Documented questionnaires and procedures for gathering information in relation to risk
- Scripts and preambles
- Defined questions
- Measures and rating scales of risk

Support person may include:
- Friend or relative
- Representative
- Advocate
- Legal representative

Community resources may include:
- Domestic violence services
- Lawyers
- Counsellors
- Community health
- Mental health
- Community welfare agencies
- Child support
- Centrelink
- Child protection agencies
- Children's contact services
- Family relationship centres
- Parent educators
- Behaviour change groups such as alcohol and other drugs (AOD) support groups, users of violence groups

Assess suitability of dispute for resolution processes includes assessment of risk to vulnerable parties, which may involve:
- Processes for evaluating the nature of specific risks to safety for individual clients using tools and structured clinical judgement
- The content of risk may relate to:
  - exposure to further violence
  - mental health issues
  - children's and parenting issues
RANGE STATEMENT

Risk may include but is not limited to:

- Being physically hurt, intimidated, bullied, harassed or controlled
- Threatened with physical harm, intimidation, bullying or harassment
- Harm or threat of harm to children
- Harm or threat of harm to pets and loved ones
- Harm or threat of harm to property
- Inability or reduced ability to effectively participate in significant events such as compulsory family dispute resolution
- Inability or reduced ability to negotiate free and fair arrangements whether by reason of a history of domestic violence or otherwise
- Having residential address known by a person who uses violence against you

</tr>
</tbody>
</table>
ELEMENT

2. Comply with legislative and policy requirements

2.1 Undertake work in accordance with requirements of legislation and organisation policies

2.2 Report promptly, incidents of non compliance resulting from breaches of legislation

2.3 Inform authorised persons or bodies of inadequacies in workplace procedures which may contribute to non compliance

2.4 Review own conduct and seek feedback from others to confirm continuing compliance with legislation, policy and procedures

2.5 Report changes to personal circumstances affecting compliance in a regulated education environment

3. Identify and comply with industrial instruments relating to the job role

3.1 Identify the industrial award relevant to the job role and identify key responsibilities

3.2 Source and read any relevant certified agreements

3.3 Clarify award conditions with appropriate personnel as required
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Understand and adhere to own work role and responsibilities
- Legislation relating to the education sector, the education support workers role and key requirements of each
- Integration of legislation to form legislative framework for the education environment
- Curriculum and curriculum framework
- Organisations policies and procedures for responding to legislative issues
- Duty of care responsibilities as applies to non teaching staff
- Safe working practices
- Potential hazards and risks for students resulting from breaches of relevant legislation or policy
- Key requirements of Industrial awards
- Relevant code/s of ethics
- Equal employment opportunity and equity and diversity principles

**Essential skills:**

The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Follow school/centre policies and procedures
- Identify inappropriate conduct
- Undertake basic research and evaluation of enabling legislation, awards, certified agreements, workplace policies and work procedures
- Liaise with and report to relevant personnel
REQUIRED SKILLS AND KNOWLEDGE

- Respond to diversity, including gender and disability in compliance with legislation and policies
- Apply environmental and work health and safety (WHS)
- Undertake self assessment
- Communicate with others involving exchanges of complex oral and written information
- Apply the level of reading, writing, language and numeracy competence required to perform effectively in an education support role

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Legislation and guidelines will be specific to the particular education environment and may relate to but are not limited to:

- Public sector employment
- Affirmative action
- Education and/or training legislation
- Codes of ethics/conduct
- Child protection legislation
- Student protection/safety policies
- Employment law
- Legislated standards
- Information and records management standards
- Organisations enabling legislation and regulations
- Security, storage, handling and classification of documents
- Financial management and accountability
- Anti corruption legislation
- Anti-discrimination
- Professional standards
- Employee relations
- Duty of care
- WHS
- Criminal, contract and administrative laws

Education environment may include:

- Government school (pre-primary, primary and secondary)
- Private/non-government school (pre-primary, primary and secondary)
- Education centre
- Kindergarten
- Special education centre
- Community education centre

Conflicting legislative directives may include:

- Apparent contradictions between statutes
- Apparent conflict between statutes and policy requirements
RANGE STATEMENT

A regulated education environment includes:

- Schools and other education facilitates where potential employees are required to undergo background checks in compliance with legislation designed to protect students.
- Schools and other education facilities where the employment of teaching staff and the operation of the facility are regulated by government.

Changes to personal circumstances that must be reported may include:

- Any change to the individuals criminal history:
  - a persons criminal history changes if they are charged or convicted of a criminal offence, whether or not a conviction is recorded
- Student temporarily or permanently residing with staff.

Inadequacies in workplace procedures may include:

- Insufficient financial/other controls
- Records processes unable to be audited
- Ambiguous guidelines
- No guidelines or policies
- Unnecessary complexities
- Use of non current legislation
- Inadequate employment procedures
- Inadequate/sufficient training
- Inaction where an employee's criminal history changes

Industrial instruments may include:

- Awards
- Certified agreements
- Workplace agreements
- Contracts of employment

| 1. Contribute to planning and preparation of educational program | 1.1 Contribute to implementation, planning and preparation in accordance with lesson plan/s and educational requirements under guidance of teacher or other education professional  
  1.2 Show clear understanding of objectives and outcomes of educational programs  
  1.3 Show clear understanding of the relationship of objectives and outcomes of educational programs to learning areas, curriculum and curriculum framework  
  1.4 Demonstrate compliance with curriculum-related performance management reporting requirements |
ELEMENT

2. Facilitate the implementation of planned educational program

PERFORMANCE CRITERIA

2.1 Organise and distribute notes and students' work
2.2 Guide students in the location and use of relevant materials needed to participate in the lesson or activity
2.3 Provide assistance with *general activities*
2.4 Implement *classroom strategies* to support student's individual needs under teacher direction
2.5 Assist students in moving from one piece of equipment to another, if required, according to teacher direction
2.6 Assist the teacher in identifying and representing educational needs of students
2.7 Provide assistance to students in the operation of computers during the delivery of planned education program

3. Contribute to a consistent and stable learning environment

3.1 Understand and implement classroom routines appropriately
3.2 Explain routines and give support to parent/carer helpers as required
3.3 Undertake responsibilities and duties in a positive manner to promote cooperation and good relationships
3.4 Provide suggestions for environmental modifications to suit the individual needs of students in accordance with established guidelines
3.5 Assist teacher in understanding when there is communication difficulty between them and a student

4. Contribute to individual and group *assessment* in consultation with the teacher

4.1 Record and report observations as specified in the job role
4.2 Provide contributions to reviews/case conferences of students when requested
4.3 Encourage, acknowledge and act upon constructive student and teacher feedback
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Education system's policies and procedures
- Structure of the education system
- School/centre's policies and procedures
- Curriculum and curriculum framework
- Duty of care responsibilities
- Safe working practices
- Potential hazards and risks for students
- State and federal legislative and regulatory requirements
- Industrial awards and duty statements
- Relevant code/s of ethics
- Cultural and linguistic background of students and families
- Developmental milestones of children/young people (cognitive, motor, language, social, emotional)
- Child management techniques
- Contextual factors which influence the child's emotional and psychological development
- Factors that enhance the development of self-esteem and self identity
- Understand own work role and responsibilities

Essential skills:
The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:
- Demonstrate effective application of skills in:
  - team work
  - negotiation
  - communication/interpersonal skills of questioning, informing, listening and
REQUIRED SKILLS AND KNOWLEDGE

discussing
- organisation planning, administrative support skills
- time management skills
- active listening
- study skills
- Adhere to own work role and responsibilities
- Follow school/centre policies and procedures
- Communicate effectively with other adults in the working environment
- Liaise with and report to relevant personnel
- Apply knowledge of learning and development to role and responsibilities
- Support the implementation of planned education programs
- Contribute to the assessment of students
- Support and encourage a positive approach to learning
- Communicate with children/young people verbally and non-verbally to set and apply appropriate limits, taking into account the child/young person's age, development, culture and needs whilst valuing individuality and differences

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessments can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Educational environment may include:

- Government school (pre-primary, primary and secondary)
- Private/non-government school (pre-primary, primary and secondary)
- Education centre
- Kindergarten
- Special educational centre
- Community education centre
RANGE STATEMENT

General activities may include:
- Hearing student reading
- Writing
- Cutting
- Pasting

Educational requirements will vary according to such variables as:
- Students from a range of ethnic backgrounds
- Aboriginal or Torres Strait Islander students
- Students with a disability or disabilities
- Students who are learning English as their second or later language
- Students with special social, emotional, health and/or psychological needs
- Age and ability of students
- Personal characteristics of students
- Individual learning styles of students

Educational programs may include:
- Literacy and numeracy
- Remediation skills
- Life skills
- Communication and speech
- Individual and class social skills
- Arts
- English
- Health and physical education
- Languages other than English
- Mathematics
- Science
- Society and environment
- Technology and enterprise
- Therapy programs
RANGE STATEMENT

Classroom strategies may include:

- Peer tutoring
- Multi-level teaching
- Cross-curricular teaching
- 'Buddy' support systems
- Small group instruction
- Individualised instruction
- Intensive instruction
- Demonstration
- Vertical grouping
- Peer modelling
- Individual/group assessment

Assessment includes:

- Related to planned learning outcomes
- Integrated within and/or across sequences of learning experiences
- Designed to be inclusive of all students and allow students to demonstrate achievements in a variety of ways
- Designed to provide students with clear and constructive feedback on performance within an appropriate timeframe
- Designed to encourage student/peer monitoring and reflection where appropriate
- Planned and conducted in accordance with school/centre policies

</table>
| 4. Contribute to the inclusion of all students into the classroom and community | 4.1 Encourage students to recognise and affirm differences in personal learning styles and abilities according to established guidelines  
4.2 Liaise effectively with the teacher or other appropriate person concerning special requirements for an individual student  
4.3 Assist students from culturally or linguistically diverse backgrounds in orientating themselves to formal and informal school/centre structures  
4.4 Implement language programs for students from linguistically diverse backgrounds  
4.5 Identify various approaches to study and learning by culturally diverse students and those with different abilities  
4.6 Demonstrate awareness of school/centre inclusive policy and procedure |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Education system's policies and procedures
- School/centre's policies and procedures
- Inclusive schooling policies
- Curriculum and curriculum framework
- Duty of care responsibilities
- Relevant codes of ethics
- Cultural and linguistic background of students and families
- Developmental stages of children/young people in the physical, cognitive, language, social and emotional domains
- Strategies to support the stages of development in each domain
- Materials and resources to support the stages of development in each domain
- How children learn
- Child management techniques
- Positive behaviour guidance strategies
- Contextual factors which influence the child's emotional and psychological development
- Factors that enhance the development of self-esteem and self identity
- Understand own work and responsibilities

Essential skills:

The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate effective application of skills in:
REQUIRED SKILLS AND KNOWLEDGE

- team work
- negotiation
- communication/interpersonal skills of questioning, informing, listening and discussing
- organisation planning, administrative support skills
- time management skills
- active listening
- Adhere to own work role and responsibilities
- Follow school/centre policies and procedures
- Communicate effectively with other adults in the working environment
- Liaise with and report to relevant personnel
- Identify the capabilities of individual children
- Use and respond to non-verbal communication and cues of children
- Implement strategies to support the development of students
- Support and encourage a positive approach to learning
- Support an inclusive environment
- Respond effectively to behaviours
- Apply the level of reading, writing, language and numeracy competence required to perform effectively in an education support role

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Education environments may include:

- Government school (pre-primary, primary and secondary)
- Private/non-government school (pre-primary, primary and secondary)
- Education centre
- Kindergarten
- Special educational centre
- Community educational centre
RANGE STATEMENT

School/centre requirements may include:
- School/centre priorities
- Parent requests
- Limitations of resources

Student educational requirements will vary according to variables such as:
- Students from a range of ethnic backgrounds
- Aboriginal or Torres Strait Islander students
- Students with a disability or disabilities
- Students with special social, emotional, health and/or psychological needs
- Age and ability of students
- Personal characteristics of students
- Individual learning styles of students

Positive behaviour may be promoted by:
- Verbal comments and attention
- Appropriate physical contact e.g. hugs
- Providing physical and psychological space
- Opportunities to suit the child's preferences
- Opportunities to 'let off steam' are created
- Acknowledgement and encouragement
- Talking about feelings
- Anticipating trouble and re-directing or distracting child
- Modelling

Behavioural guidelines may cover:
- School/centre procedures
- Out of bounds areas
- Expectations about behaviour with other children/adults
- Positive feedback
- Procedures for health and safety

</thead>
<tbody>
<tr>
<td>1. Practise effective administrative processes</td>
<td>1.1 Manage day-to-day duties and tasks within an acceptable timeframe and according to school or centre procedures and policies</td>
</tr>
<tr>
<td></td>
<td>1.2 Use effective communication strategies to prevent misunderstandings</td>
</tr>
<tr>
<td></td>
<td>1.3 Communicate progress of task as required and seek feedback on work performance</td>
</tr>
<tr>
<td></td>
<td>1.4 Seek assistance from relevant colleague when difficulties arise in achieving allocated tasks</td>
</tr>
</tbody>
</table>
ELEMENT

2. Select and utilise equipment effectively

PERFORMANCE CRITERIA

2.1 Identify and access required equipment to complete task, following instructions as required

2.2 Check equipment for serviceability in accordance with equipment instructions

2.3 Operate equipment in accordance with manufacturer's instructions and following instructions as required

2.4 Operate and maintain specialist equipment for students with particular needs according to direction and student need

2.5 Identify equipment faults and take action to ensure equipment is repaired in accordance with manufacture's instructions

2.6 Report repairs outside education support worker's responsibility to the appropriate persons

3. Prepare and maintain teaching aids, materials and resources

3.1 Prepare and maintain materials and resources for use in classes, displays and demonstrations effectively

3.2 Correctly estimate the quantities and resources to complete the task

3.3 Design and produce teaching aids according to direction

3.4 Ensure correct and efficient use of supplies

3.5 Perform clean-up duties as required according to set procedures

4. Monitor classroom supplies

4.1 Monitor stock levels to allow timely re-ordering in accordance with school/centre procedures and individual responsibility as required by job role

4.2 Obtain information on appropriate equipment or supplies required for lessons and activities as required

4.3 Report discrepancies to the appropriate person/s

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.
REQUIRED SKILLS AND KNOWLEDGE

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Education system’s policies and procedures
- Structure of the education system
- Curriculum and curriculum framework
- School/centre’s policies and procedures
- Duty of care responsibilities
- Safe working practices
- Potential hazards and risks for students
- State and Federal legislative and regulatory requirements
- Industrial awards and duty statements
- Types of equipment and technology used in school/centres
- Understand own work role and responsibilities

Essential skills:

The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:
- Demonstrate effective application of skills in:
  - team work
  - negotiation
  - communication / interpersonal skills of questioning, informing, listening and discussing
  - organisation planning, administrative support skills
  - time management skills
  - active listening
  - safe work practices
  - using current technology including computers
  - word processing
- Adhere to own work role and responsibilities
- Follow school/centre policies and procedures
- Communicate effectively with other adults in the working environment
- Liaise with and report to relevant personnel
REQUIRED SKILLS AND KNOWLEDGE

- Apply knowledge of learning and development to role and responsibilities
- Use equipment, including computers and other current technology, effectively
- Prepare and maintain resources
- Support school/centre activities within own work role

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - computers and other technology

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Education environment may include:**
- Government school (pre-primary, primary and secondary)
- Private/non-government school (pre-primary, primary and secondary)
- Education centre
- Kindergarten
- Special education centre
- Community education centre

**Duties and tasks may include:**
- Duties/tasks defined in the job profile/job description
- Other duties requested of the Assistant by the teacher or Principal
- Administration and/or handling of money

**School or centre procedures and policies may include:**
- Education system's (government or non-government) policies and procedures
- Individual school's and / or centre's policies and procedures
- Goals, objectives, plans, systems, and processes
- Quality management policy and practice
- Relevant health regulations and guidelines
- State and federal legislation which impacts on the school/centre's operation such as occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination
RANGE STATEMENT

Equipment may include:
- Overhead projector
- Radio/cassette player
- CD players or Personal Listening devices
- Digital camera
- Television and VCR/DVD
- Photocopier
- Fax
- Telephone/answering machine
- Intercom
- Calculator
- Computer (PC or Laptop)
- Printer/zip drive/modem/scanner
- Filing systems

Information/documentation may include:
- Correspondence (faxes, memos, letters, email)
- Computer databases (library catalogue, student records)
- Computer files (letters, memos and other documents)
- Forms
- Invoices (from suppliers)
- Personnel records (personal details)
- Minutes of meetings

School/centre's requirements that relate to computer procedures may include:
- Log-on procedures
- Correctly identifying and opening files
- Locating data
- Saving and closing files
- Storing data
- Manufacturer's guidelines
- Security procedures
- Despatching and collecting procedures
- Procedures for updating records

Sources of help may include:
- Help function
- Assistance from another staff member
- Searching on an internet search engine
RANGE STATEMENT

School/centre related activities may include:

- Functions
- Excursions
- Assemblies
- Sporting events
- Clubs (arts, drama, book)

Safety and legal requirements may include:

- Staff ratios
- Behavioural or medical problems
- Duty of care responsibilities
- 'Unsafe' policy
- High risk activities
- Weather
- Location of activity

</tr>
<tr>
<td></td>
<td>3.3 Maintain student confidentiality at all times</td>
</tr>
</tbody>
</table>
ELEMENT

4. Support student reading program

PERFORMANCE CRITERIA

4.1 Develop reading support strategies to meet individual student needs in consultation with teachers

4.2 Implement support procedures for readers in accordance with reading program and teacher guidelines

4.3 Support students' reading ability according to program guidelines and report progress regularly to teachers

4.4 Use support procedures to encourage the development of self-reliance in students

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Policy, procedure and legislative issues affecting performance as education support workers
- Understanding of the support required by developing readers and a range of strategies that can be used to encourage independent reading
- Roles and responsibilities to education support workers and teachers in providing reading support to students
- A range of effective communication strategies for use with students and teachers

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Be empathic and culturally sensitive when responding to students
- Use literacy of a level that supports the identification and collation of reading materials as directed by teachers
REQUIRED SKILLS AND KNOWLEDGE

- Complete a sequence of tasks with direction and support from the teacher
- Interpret information from written and/or verbal directions
- Undertake simple research to identify appropriate texts and record information as appropriate
- Problem solve with respect to choosing an appropriate response, identifying problems, selecting an effective solution
- Communicate with active listening skills, give clear directions and/or instructions, frame questions to elicit thoughtful responses, express an opinion, suggest improvements to strategy/methods for assisting/supporting students and teachers
- Manage time to provide support to learners as guided by teachers
- Work in a team (e.g. consultation with the teaching team and other education support workers on workplace procedures and new approaches to accommodate individual student requirements)

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Identify what readers do when they read
- Select texts appropriate to teacher and student needs
- Implement a reading support program as directed by the teacher
- Maintain and complete required records accurately

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

General skills and knowledge required by readers to make meaning of texts may include:

- Ability to comprehend and use the language systems of the texts
- Ability to access the text (visually, physically, Braille etc.)
- Knowledge that specific texts types have their own generic structure
- Understanding that all texts convey information
- Understanding that texts are created and read for specific personal, social, scientific, cultural and aesthetic purposes
- Ability to understand the purposes of reading:
  - to enjoy
  - to appreciate
  - to critically evaluate
  - to reflect on texts to develop greater understanding
  - for research
  - to gain information
  - to compare ideas and/or theories
  - to obtain instructions/directions
RANGE STATEMENT

Genres of texts may include:

- Literary texts - characterised by the aesthetic use of language and the imagination to explore understandings about human experience though real and imagined (including virtual) worlds

Examples of literary texts include:

- narrative picture books
- novels/e-books/short stories
- poems (ballads, lyrics, sonnets)
- plays/drama
- song lyrics
- biographies-autobiographies
- feature films

- Everyday texts - those associated with education, leisure, work, family, and daily life:
  - factual texts/reference books/dictionaries
  - DVDs (feature films)
  - web-linked computer games
  - personal email/on-line discussions/SMS messages
  - letters/reports
  - catalogues/advertising

- Mass-media texts - those produced in a variety of paper and electronic media for a mass audience:
  - television programs
  - newspaper stories
  - magazine features
  - radio talkback
  - television news
  - feature films
  - web pages
RANGE STATEMENT

Reading process may include:

- Using cues - we get cues from:
  - Within ourselves:
    - our language abilities
    - our knowledge and attitudes
    - within the text
    - knowing what makes sense (meaning - semantics)
    - knowing the way things are said (grammar - syntax)
  - Within the words:
    - knowing the word by sight
    - working out how to say the word
    - phonic - sounding it out
    - structural analysis - breaking it up into parts
  - Non-visual information:
    - knowledge of words - e.g. meanings and correct usage
    - knowledge of language - e.g. sentence structure, grammar
  - Visual information:
    - print/starting point/direction of reading
    - illustrations/diagrams/tables/photographs
    - Predicting - meaning; selecting cues
    - Checking - sampling text
    - Confirming - if the reading makes sense
    - Correcting - if the reading does not make sense by:
      - rethinking
      - rereading
      - integrating - (fitting the new knowledge with prior knowledge to confirm understanding)
RANGE STATEMENT

Purposes for which readers read may include:

- To access information
- To enjoy a specific use of words (poetry, description)
- To appreciate new perspective
- To confirm understanding
- To obtain instructions/directions
- To enjoy
- To fire the imagination
- To be able to discuss the texts with others
- For social purposes e.g. signs, invitations, advertisements

Running records refer to:

- Running records are a means by which a record of a student’s reading may be captured through the use of a specific set of symbols that can be quickly noted by the listener
- The use of running records by education support workers may not be desired by all teachers
- Education support workers would need to learn the system of symbols, practice until their use is automatic and determine with the teacher/s how this record-keeping tool should be used
- Teachers undertake evaluation of students’ reading of the texts and may use a running record made by an education support worker to inform the evaluation

Support strategies for use by those listening to reading should be used in the following order and may include:

1. Encouraging self-correction
2. Use of context clues
3. Reading on
4. Re-reading
5. Sounding out
RANGE STATEMENT

Procedures for supporting beginning and developing readers (determined by ability, not age) may include:

- Introduce the text:
  - student chooses from a range of teacher-selected texts, made available for reading and re-reading with support and independently

- The first reading:
  - education support worker reads the text
  - education support worker and student share responses to the text

- The second reading:
  - education support worker and student read together
  - student may 'take off' on his/her own

- Supported reading:
  - student attempts to read independently
  - education support worker becomes a listener
  - education support worker waits and observes
  - education support worker gives clues and supports the student's use of strategies such as re-reading, self-correction, reading on, using phonetic elements
RANGE STATEMENT

Procedures for supporting developing readers may include:

Stage 1

- Introduction:
  - student chooses from a range of teacher-selected texts, made available for reading and re-reading with support and independently
  - discussion of subject matter, author, type of text
- Setting the scene:
  - education support worker and student read together
  - discussion of vocabulary, characters, setting and relevant facts to confirm understanding
- Shared reading:
  - education support worker and student read together
  - education support worker and student read alternate pages or alternate paragraphs
- Independent reading:
  - supported reading (using support strategies detailed above)
  - frequent discussion of text

Stage 2

- Silent reading:
  - education support worker and student read section of text silently
  - education support worker and student discuss their understanding of the passage

Suitable texts for beginning readers may include the following attributes:

- Both fiction and factual texts
- Topics within the experience and culture of the student
- Uncluttered page layout with consistent placement of text helps focus on print
- Diagrams/illustrations support the text aids prediction
- Familiar signs and/or advertisements
- Rhythmical language and repetitive structure
- Short time-line required to finish
RANGE STATEMENT

Texts for beginning/developing readers may include the following attributes:

- More complex vocabulary and sentence pattern
- Topics cover wider field - sometimes outside the student’s experience
  - real life and imaginative books, articles and digital texts, traditional tales from other cultures and non fiction
- longer timeline
- direct speech
- illustrations support text but don't carry story and diagrams/photographs support factual text
- text encourages the learner too use all cue systems - graphophonic (letter/sound relationships), semantic (meaning) and syntactic (sentence structure)
- Increased sentence length; more text per page; paragraphs

Factual texts and picture books for older beginning readers may include the following attributes:

- Strong relationship between text and illustrations/diagrams/graphics
- Amount of text on each page suitable for reader
- Topics of interest relate to students chronological age
- Amount of text in whole book allowing frequent re-reading supporting the practice required to build confidence, knowledge of core words and feeling of success
- Vocabulary familiar through own use or discussion, thus aiding prediction

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify what writers do when they write | 1.1 Identify *links between reading and writing*  
1.2 Identify *skills and knowledge required by writers*  
1.3 Explain the *use of genre in writing*  
1.4 Identify writing processes according to specified guidelines and practices selected by teachers |
| 2. Implement a writing program | 2.1 Provide a writing program as directed by the teacher/s  
2.2 Identify and implement optimum conditions for student development of specific writing skills with guidance from teacher/s  
2.3 Maintain *writing records* in accordance with program/teacher guidelines  
2.4 Maintain student confidentiality at all times |
ELEMENT

3. Support student writing program

PERFORMANCE CRITERIA

3.1 Determine support strategies to accommodate writers' ability according to teacher guidelines based on results from the organisation's formative and diagnostic assessment

3.2 Use relationships between reading experiences and writing to enhance the writing process

3.3 Implement support for writers in accordance with writing support program specifications and teacher/s directions

3.4 Evaluate students' writing ability according to writing program guidelines and teacher directions

3.5 Encourage and support students to become independent writers

4. Support accurate use of spelling, grammar and punctuation

4.1 Encourage students to check final written work for spelling, grammar and punctuation errors

4.2 Provide guidance and encouragement through the use and demonstration of resources

4.3 Use strategies in accordance with teacher evaluation of students' needs
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- The relationships between reading and writing
- How to apply strategies to develop student's writing skills
- The purpose of formative and diagnostic assessment
- The role of the education support worker in providing writing support to students
- Policy, procedure and legislative issues affecting performance as education support workers
- A range of effective communication strategies for use with students and teachers
- A general knowledge of genres and writing styles

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Identify the relationships between reading and writing
- Implement writing support strategies as directed by the teacher
- Implement writing support programs to support writers at various stages of development
- Maintain and complete required records

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Support the identification and collation of writing material at the appropriate level for students
- Complete a sequence of tasks with direction and support from the teacher
REQUIRED SKILLS AND KNOWLEDGE

- Interpret information from written and/or verbal directions
- Solve problems with respect to choosing the appropriate response, identifying problems, selecting an effective solution and empathy and cultural sensitivity in responding to students
- Communicate with active listening skills, give clear directions and/or instructions, frame questions to elicit thoughtful responses, express an opinion, suggest improvements to strategy/methods for assisting/supporting students and teachers
- Manage time to provide effective support to learners as guided by teachers
- Consult with teachers and other colleagues to accommodate individual student requirements
- Use sound grammar, punctuation and spelling

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - an appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Links between reading and writing may include:

- Experience with various texts as a reader provides models for use as a writer
- Visual models of pages, paragraphs, sentences, gleaned from reading various materials help develop skills to structure own writing
- Reading aloud, or listening to texts, poems and stories develops a sense of the rhythms of language that can be used to test the effectiveness of own writing
- The effectiveness of different genres is demonstrated by reading examples of each
- The ways in which words are combined to make meaning are demonstrated as students construct meaning from texts
- Exploration of the use of alternative effects such as visual images on the creation of meaning in a text

Use of genre in writing novels involves:

- Creating text in a format that supports the purpose of the writing and assists the reader to make meaning
- Using accepted structures for the writing e.g. scientific reports, minutes of meetings, poetic conventions, newspaper articles, novels, short stories
- Using a particular style of language
- Inclusion or non-inclusion of graphics / illustrations / photographs / diagrams

Writing records refers to:

- Beginning writers record of independent writing
- Record of spelling words for beginning writers
- Record of spelling words for developing writers
- Annotated collection of writing samples (dated, support provided, etc)
RANGE STATEMENT

Support strategies for developing writers may include:

- Provide individual support to identify the links between students' reading experiences and writing tasks
- Make the writing process explicit when working with the student
- Model different types of writing
- Support the student plan the writing task (who they are writing for, why they are writing the piece, what the message is)
- Support the student in editing their writing by providing various strategies that may be useful (questions about the writing, its effectiveness in conveying the message, choice of words, length of paragraphs, etc)
- Use technical strategies such as spelling, punctuation and word processing conventions
- Provide support to students in identifying links between their reading and writing tasks
- Encourage the student to read
- Discuss the features of the writing with the student
- Encourage the reader to build what has been read (content/structure) into a writing plan
- Discuss what the student will write about
- Prompt the composition of sentences
- Encourage the student to write simple sentences/paragraphs
- Assist with spelling, punctuation, vocabulary - clarifying meaning, use of technical terminology, listing topic related vocabulary
- Support and encourage the student o continue to gain independence in the writing process
- Assist with research, note taking and gathering information
- Encourage and assist with reading, re-reading, editing and proof reading what has been written
- Encourage self-questioning techniques
- Encourage and promote student success
- Assist with the correct use of editing functions such as spell check, cut and paste, formatting in electronics texts
RANGE STATEMENT

Support strategies for intermediate writers may include:

- Understand the structure and purpose of different types of different types of genre
- Use assistive technology such as Text help
- Note-taking that is in line with the generic structure/organisation of the text
- Editing strategies such as self questioning techniques and RRAD (Rethink, Recognise, ADD and delete)
- Proof reading strategies for technical aspects of writing including spelling, punctuation and computer conventions
- Use appropriate vocabulary e.g. accurate scientific terms in a science report, level of formality required for the text
- Sentence structure comprehension
- Audience awareness
- Awareness of basic grammar
- Basic research skills e.g. identify the main idea, highlight key words, access reference books/websites
- Use of word classes:
  - nouns
  - pronouns
  - verbs
  - adverbs
  - adjectives
  - prepositions
  - conjunctions
  - articles

Resources that students may be taught and encouraged to use include:

- Dictionary
- Spell checker
- Thesaurus
- Encyclopaedia
- Exemplar texts from a range selected by the teacher

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Apply developmental and learning approaches to basic numeracy skills under supervision of teacher | 1.1 Identify the skills and knowledge required by students to make meaning of numbers and basic computations  
1.2 Identify numeracy processes that are relevant and appropriate to the student's ability and year level according to specified guidelines and practices of the school  
1.3 Identify links between mathematical/numeracy processes and maths support strategies  
1.4 Apply learning models and language to meet student needs |
| 2. Implement a numeracy support program | 2.1 Provide a numeracy support program as directed by the teacher, to meet the individual needs of students whilst taking into account their preferred learning styles  
2.2 Select and implement activities to support understanding of numbers, use of number computations, measurement and numerical data  
2.3 Record students' development in accordance with program/school guidelines  
2.4 Maintain student confidentiality at all times |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 3. Support student numeracy programs | 3.1 Determine support strategies to accommodate student's ability according to education guidelines and teacher requirements  
3.2 Evaluate student's numeracy ability with the teacher according to program guidelines and the outcomes of the approved formative and diagnostic assessment processes  
3.3 Implement support procedures for numeracy students in accordance with developed program specifications and teacher/school's guidelines  
3.4 Encourage the development of self-reliance in numeracy through positive feedback |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Basic mathematical concepts and operations relevant to the year levels and the needs of students
- Language associated with numeracy and mathematical operations
- Questions to encourage critical thinking about mathematics and its use as a learning tool
- Policy, procedure and legislative issues affecting performance as education support workers
- The role of education support personnel in providing mathematics support to students
- A range of basic communication strategies

**Essential skills:**
It is critical that the candidate demonstrate the ability to:

- Analyse what the students are doing when working mathematically and apply an appropriate model of learning to develop the student's numeracy skills
- Implement numeracy support strategies appropriate to the year level as directed by the teacher
- Implement numeracy support programs to support a range of students who may be at various levels as directed by the teacher
- Maintain and complete workplace records

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate sound mathematical skills applicable to the year levels in which they
REQUIRED SKILLS AND KNOWLEDGE

- Operate, i.e. early childhood, primary, secondary
- Demonstrate empathy and cultural sensitivity in responding to students
- Demonstrate literacy abilities of a level that supports the identification and collation of mathematical support material
- Demonstrate problem solving techniques
- Demonstrate interpersonal communication (e.g. active listening, giving clear directions and/or instructions, expressing an opinion, suggesting improvements to strategy/methods for assisting/supporting students and teachers
- Manage time to provide support to learners as guided by teachers
- Consult with the teaching team and other education support workers on workplace procedures and new approaches to accommodate individual student requirements
- Complete a sequence of tasks with direction and support from the teacher
- Interpret information from written or verbal directions

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - an appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Skills and knowledge required to work mathematically across a range of developmental levels include:

- Identifying the mathematics on a range of situations from real life to purely mathematical
- Identifying opportunities to apply mathematical knowledge, procedures and strategies (including increased use of technologies)
- Predicting possible outcomes of investigations
- Using mental computations strategies
- Resolving problems with imaginativeness and inventiveness
- Estimating, measuring and calculating
- Interpreting and using a range of mathematical representations
- Visualising mathematical ideas
- Constructing physical modes to represent mathematical ideas, thinking and reasoning
- Interpreting and following mathematical instructions
- Representing mathematical ideas in different ways
- Posing problems and justifying solutions
- Checking the reasonableness of conclusions and answers; and
- Communicating and justifying them

Learning models and language refer to:

- These will depend upon the level of the students and the practices of the teachers
- Education support workers are expected to introduce, explain and model the correct mathematical terms (as determined by teachers) and encourage students to use them appropriately
RANGE STATEMENT

Activities to support understanding and numeracy development in students may include:

- Demonstration/modelling: discuss with the student the purpose of the learning experience
- Allowing students to work it out, giving time, questioning, motivating, listening purposefully
- Guided practice: work together with the student on the learning activity
- Independent practice: allow the student to complete the learning activity on his/her own
- Discuss the activity with the student by using open questions that encourage the student to reflect on their learning, understanding, problem solving

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Provide opportunities to stimulate the students language development | 1.1 Provide *opportunities to listen to language* that reflects the age, interests and needs of the student  
1.2 Use language that is relevant to the student's culture and background  
1.3 Link language development to all school activities  
1.4 Select *resources to support language skills* according to criteria established by the teacher and appropriate to the student's age, interests and needs |
| 2. Implement language support program | 2.1 Provide a language program as directed by the teacher or speech pathologist  
2.2 Implement language program according to program specifications  
2.3 Model language that is appropriate to the audience, situation, purpose and place  
2.4 Use *communication strategies* that include verbal and non-verbal methods  
2.5 Maintain student confidentiality in accordance with program/school guidelines |
## ELEMENT 3. Support student language program

### PERFORMANCE CRITERIA

3.1 Extend student's language through conversation, active listening and responding  
3.2 Encourage students to express their thoughts, feelings and words  
3.3 Provide opportunities to explore non-verbal forms of communications  
3.4 Provide *opportunities to interact with others* through language  
3.5 Determine students' *understanding of language* by listening, observing conversations and questioning  
3.6 Demonstrate to the student the different *functions of language*

## ELEMENT 4. Assist students with specific communication needs

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Areas of language development of a young person e.g. listening, speaking, non-verbal expression, viewing, writing
- Policy, procedure and legislative issues affecting performance
- Implications of cultural issues in the classroom/recreation areas
- Culturally based expectations about communication
- Alternative communication systems

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Stimulate students to speak, taking into account additional language needs, age, development and culture of the student
- Interact in a positive and supportive manner with the students
- Implement a language support program as directed by the teacher or speech language pathologist

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Apply strategies for developing comprehension and expression in students
- Apply interpersonal skills (e.g. listening and understanding directions, giving clear directions and/or instructions, expressing an opinion, suggesting improvements to strategy/methods for assisting/supporting students and teachers)
- Empathise and be culturally sensitive
REQUIRED SKILLS AND KNOWLEDGE

- Use teamwork skills - working with teachers and students
- Complete a sequence of tasks/activities given direction and support from the teacher
- Interpret information from written and/or verbal directions
- Problem-solve by choosing appropriate responses, identifying problems, consulting with personnel
- Manage time effectively

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Opportunities to listen to language may include:

- Rhymes, poems, stories
- Language games
- Music
- Dramatic play
- Film, video, television
- Everyday conversations
- Discussions
- Transactions
  - greetings
  - shopping
  - directions
  - instructions

Resources to support language skills may include:

- Materials that stimulate verbal response
- Materials that extend understanding of vocabulary
- Pictures, poster, displays
- Books: fiction, non-fiction, picture
- Magazines, newspapers, comic books
- Bilingual charts, books
- Interesting objects
- Spoken word tapes
- Songs
RANGE STATEMENT

Communication strategies may include:

- Verbal and written communication
- phrases and jargon that the student uses
- naming used by family or friends/peers
- language specific to an area of the student's interest e.g. football/fashion
- language suitable for the student's age and level of comprehension
- language appropriate to each particular situation
- language that takes into account additional learning needs
- group or individual discussions
- listening to informal conversation/chatting
- volume to suit situation and audience size
- intonation
- articulation
- pronunciation
- tone of voice
- awareness of word order patterns in Standard Australian English

- Non-verbal communication
- working at the same level as the student e.g. sitting at the student's desk or on the floor
- proximity to the student
- eye contact/no eye contact
- body language
- facial expression
RANGE STATEMENT

Opportunities to interact with others include:

- Reading stories/books/poetry/rhymes aloud
- Reading stories/books that contain references to familiar objects or topics of interest to the student
- Labelling objects and speaking in simple sentences
- Responding with clear and simple answers
- Involving student in songs, rhymes, poetry, plays and jokes
- Involving the student in one-on-one conversations
- Encouraging students to talk about what they are doing, what they like, how they feel
- Encouraging students to ask questions to gather information
- Encouraging participation in group discussions
- Providing opportunities for the student to speak in public and privately, with other students and adults

Understanding of language refers to:

- Age and stage of development of the student
- The situation (formal, informal)

Functions of language may include:

- Informative - communicating information
- Expressive - communicating or generating feelings and emotions
- Directive - giving instructions or asking questions that will elicit an action/response

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Benefits of diversity of the school community and in the workplace
- Principles and practices of cultural awareness and cross-cultural communication
- How to locate legislation, policies and guidelines related to diversity
- Requirements of anti-discrimination legislation
- Direct and indirect discrimination, such as dress codes that exclude certain groups (e.g. requiring male staff to be clean shaven would indirectly discriminate against Sikhs)
- Own cultural assumptions and their effect on work practices and behaviour
- Legislative definitions of diversity
- Principles and practices of cultural awareness and cross-cultural communication
- Equal employment opportunity, equity and diversity principles

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Use a range of communication styles to suit different audiences and purposes
- Communicate effectively with people from diverse backgrounds
- Respond to diversity, including gender and disability
- Access and read formal documents such as legislation and polices related to educational work environments
- Access legislation and codes of conduct electronically or in hard copy
- Seek feedback and act upon it
- Apply the level of reading, writing, language and numeracy competence required to perform effectively in an education support role
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
  - legislation, regulations, policies and guidelines
  - definitions and benefits of workplace diversity
  - organisation's values and codes of conduct
  - organisation's procedures and protocols
  - current information on diversity issues

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Diversity may include:

- Age
- Cultural background
- Disability
- Educational level
- Ethnicity
- Expertise
- Family responsibilities
- Gender
- Interests
- Interpersonal approach
- Language
- Learning styles
- Life experience
- Marital status
- Personality
- Physical capability
- Political orientation
- Race
- Religious belief
- Sexual orientation
- Sexual identity
- Socioeconomic background
- Thinking styles
- Work experience
- Working styles
RANGE STATEMENT

Colleagues may include:

- Peers
- Teachers
- Trainees
- School support staff
- Work experience personnel
- Supervisors and school management
- External stakeholders including parents, students community groups etc.

Legislation, policy and guidelines may include:

- Codes of conduct/ethics
- Community guidelines, policy and practices that may exist within specific cultural or ethnic communities
- Disability Discrimination Act 1992
- Education Standards 2005
- Privacy Act 1988
- Public sector management acts
- Racial Discrimination Act 1975
- Sex Discrimination Act 1984
- State/territory legislation addressing diversity issues
- The organisation’s plans strategies and policies relating to diversity
- Workplace diversity guidelines
- Workplace Relations Act 1996
RANGE STATEMENT

Communication styles may include:

- Pace of delivery varied to audience needs
- Clear articulation
- Checking that the message is understood
- Use of eye contact or no eye contact, dependant on the situation
- Non-verbal communication techniques e.g. gestures, facial expressions, signing, positioning
- Written communication in a language other than English
- Speaking in a language other than English
- Use of telephone translation services
- Use of Braille materials
- Use of pictures/diagrams

**Elements and Performance Criteria Pre-Content**

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

---

**Elements and Performance Criteria**

**ELEMENT**

1. Communicate effectively with students

**PERFORMANCE CRITERIA**

1.1 Use positive and respectful communication styles with students in all situations

1.2 Use *active listening* techniques

1.3 Explore students interests and concerns through conversation where appropriate

1.4 Communicate clearly guidelines and limits for students' behaviour

1.5 Consider *non-verbal cues* when interacting with students

1.6 Use *communication strategies* that are *developmentally appropriate* for effective interaction and problem solving with students
ELEMENT

2. Use current recognised good practice techniques of communication

PERFORMANCE CRITERIA

2.1 Communicate with students to maintain the integrity of individual rights, self-determination and personal dignity

2.2 Adapt style and language to accommodate different cultural values, practices and cultural sensitivities

2.3 Conduct interactions with young people in a fair, equitable and positive manner

2.4 Report accurately disclosures that indicate a student is at risk of harm in accordance with statutory requirements and organisation procedures
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- A range of communication strategies suitable to meet students' needs
- Child protection statutory requirements (where these exist)
- Importance of stating and maintaining expectations
- Importance of principles and practices to enhance sustainability in the workplace
- Indicators of potential abuse and/or neglect
- Organisation policies and procedures relating to communicating with and about students
- Requirements of anti-discrimination legislation
- Stages of child development in relation to communication

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Active listening
- Apply the level of reading, writing, language and numeracy competence required to perform effectively in an education support role
- Communicate effectively with individuals from diverse cultural backgrounds
- Develop positive interpersonal relationships with members of the school community for the benefit of students
- Recognise non-verbal cues used by student
- Use non-verbal communication and cues appropriate to the needs if individuals
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this unit of competency:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

**Access and equity considerations:**

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Active listening involves:
- Checking understanding through restating using own words, summarising or asking questions
- Demonstrating interest in the topic using body language (e.g. make eye contact, lean forward, nod)
- Focusing attention on the speaker
- Ignoring distractions
- Listening with the senses
- Responding to questions
- Suspending own opinions and emotions
- Taking a position close to the speaker

Non-verbal cues may include:
- Body language
- Emotional state of student
- Eye contact
- Speed of delivery e.g. hesitation or rushed speech
- Tone of voice

Developmentally appropriate refers to:
- Physical, emotional, social and cognitive developmental stages
- The student's chronological age
- The student's life experiences
RANGE STATEMENT

*Communication strategies may include:*

- Adapting vocabulary to the needs of the student
- Addressing cultural issues related to the student
- Choose a location suitable for communicating
- Listening with purpose
- Making eye contact
- Paraphrasing
- Pictures to assist with understanding
- Proximity to student
- Questioning
- Reflecting back
- Repetition
- Suitable tone of voice for the interaction
- Use of clear directions and instructions
- Using body language to reinforce verbal communications
- Using humour to engage a student in conversation
- Using more than one language
- Working at student's level

*Maintain the integrity of individual rights, self-determination and personal dignity may involve:*

- Choose an appropriate place to converse
- Ensuring students are provided with choices
- Listening to students' points of view
- Respecting students' rights to make choices
- Suspending emotions and prejudices
- Using a non-threatening tone of voice

*Disclosures requiring referral to senior staff for further action may include:*

- Explanations for an injury that appears inconsistent with the injury
- Statements that imply harm to self or others
- Statements that imply that the student is the victim of abuse or neglect
RANGE STATEMENT

Statutory requirements and organisation procedures may include:

- Confidentiality requirements
- Mandatory reporting of suspected child abuse and neglect for teaching and medical staff
- Procedures for reporting suspicions to administrative staff for further action
- Procedures for reporting suspicions to teaching staff for further action

<td></td>
<td>1.7 Access wider <em>networks</em> to inform the work of the team</td>
</tr>
</tbody>
</table>
ELEMENT

2. Contribute to ideas and information within the education team

PERFORMANCE CRITERIA

2.1 Share *information and ideas* with others to enhance work processes and student learning outcomes

2.2 Provide relevant and accurate information to team members and supervisors as required

2.3 Seek information and ideas from other team members to support the achievement of work goals/targets as needed

2.4 Record information in required detail and format as determined by the team

2.5 Record information systematically and accurately and file for retrieval as determined by the team

2.6 Consider *linguistic and cultural differences* in team members’ communication style and identify the value of these to tasks identified

2.7 In consultation with teacher, identify *issues, problems and/or conflicts* encountered within the education team or workplace and consider *appropriate actions*
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Acceptable workplace conduct, including regular attendance, punctuality, maintaining and orderly workspace
- Conflict management techniques
- Effective communication techniques, including active listening, questioning and non-verbal communication
- Health and safety principles as they apply to working within a team environment
- Individual roles and responsibilities and relationships to others, including duty of care
- Relevance of the work role and functions to maintaining sustainability of the workplace, including environmental, economic, workforce and social sustainability
- Teamwork principles

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply techniques to manage own work load e.g. meeting deadlines, acknowledging if tasks are beyond current capacity, handling tasks or problems as far as possible then referring on to others as required
- Apply the level of reading, writing, language and numeracy competence required to perform effectively in an education support role
- Ask for guidance and support from other team members when required
- Recognise and act upon opportunities to enhance sustainability in the workplace
- Use effective interpersonal communication skills
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Education team may include:
  • Education support worker and one or more of the following:
    • administrators
    • committees
    • established or ad-hoc teams
    • small semi-autonomous teams
    • students
    • teachers
    • volunteers
    • work experience students

Constructive contributions may include:
  • Displaying a positive attitude
  • Finding alternative resources
  • Offering possible solutions to problems
  • Using initiative

Work requirements may include:
  • Application of particular procedures
  • Clear role definitions
  • Coordination with other work processes
  • Goals
  • Objectives
  • Organisation of resources
  • Priorities
  • Roster arrangements or particular approached to work processed specified by the organisation or work team
  • Specified targets or results
  • Timeframes
RANGE STATEMENT

Education organisation's policies and code of conduct may include:
- Anti-discrimination policies
- Behavioural standards
- Privacy requirements
- Roles and responsibilities

Networks may include:
- Community members
- Discussion lists
- Education sector groups
- Other education support workers
- Specialists

Information and ideas relevant to work may include:
- Different ways to achieve objectives
- Examples of student work
- Information about particular tasks or work requirements
- Issues that arise
- Location of and access to available resources
- Observations of students
- Technical information
- Technological options
- Useful strategies and techniques

Linguistic and cultural differences may add value to tasks through:
- Alignment with the cultural or linguistic background of students and their families
- Offering additional/alternative options to achieve team goals
- Offering background information to improve student outcomes through alternative approaches to teaching and learning
- Widening the frame of reference within which tasks are undertaken
RANGE STATEMENT

Appropriate actions to address issues, problems or conflicts may include:

- Acknowledging that all team members have the right to their opinions but that the team must find the best solution to achieve team goals
- Developing trust between team members
- Negotiation between parties in conflict to effect a win-win outcome
- Problem solving as a team
- Use of a mediator or conciliator to bring the parties to a satisfactory outcome if necessary
- Using positive language that values various opinions

ELEMENT

3. Manage enquiries in accordance with school policy and procedures

PERFORMANCE CRITERIA

3.1 Handle enquiries promptly according to organisation policy and procedures

3.2 Use effective listening and speaking skills in *oral communication*

3.3 Refer enquiries about student learning or progress to relevant person

3.4 Record and distribute verbal, written and recorded messages in order of priority, urgency and policy and procedures

3.5 Use communication equipment and information technology in accordance with school protocols

3.6 Use telephone techniques and emails according to organisation policy and protocols

4. Complete written documentation

4.1 Present *written information* and ideas in a clear and concise manner so that intended purpose is understood by the recipient

4.2 Complete and present documents within designated timeframes

4.3 Present written information to meet standards of style, format and accuracy

5. Use *technology* to support administrative and education support activities

5.1 Use available *technology* to address administrative responsibilities in line with organisation requirements

5.2 Use *word processing software*, formatting and editing to produce documents

5.3 Develop *simple spreadsheets* as required

5.4 Insert *graphics* into a word processed document and print the document

5.5 Use relevant software to prepare and/or deliver basic presentations as required by work role
**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Boundaries between teaching and education support roles in the provision of information about students
- Child safety legislation
- Policies and procedures of the organisation that apply to record-keeping and documentation preparation
- Policies of child safety, confidentiality, security and circulation of records
- Privacy legislation

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Apply the level of reading, writing, language and numeracy competence required to perform effectively in an education support role
- Complete documents accurately
- Demonstrate clear, concise and accurate communication skills with diverse range of individuals
- Follow organisation policies and procedures for record-keeping
- Follow organisation policies for preparing documents
- Maintain secure records
- Recognise and act upon opportunities to enhance sustainability in the workplace
- Set up and use basic functions of a desk top computer and printer
- Use accurate spelling, grammar and punctuation
- Use communication methods effectively to meet recipient needs
- Use desktop computer and printer
- Use effective time management for prioritising the distribution of information
REQUIRED SKILLS AND KNOWLEDGE

- Use problem solving skills to redirect enquiries and establish confidentiality protocols

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - appropriate documentation templates
  - computer and printer similar to that used in the organisation context

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Forms and documents may include:

- Accident and incident reports
- Attendance rolls
- Contact registers including telephone calls
- Invitation templates
- Letters templates
- Meeting registers, records and minutes
- Organisation polices and procures
- Promotional materials, e.g. school brochures, newsletter
- Purchase orders and invoices
- Standard forms
- Time sheets, rosters

Information of the organisation may include:

- Accounting records, e.g. receipts, petty cash payments, invoices
- Assessment and referral records
- Examples of student work e.g folio/scrapbook/printed material from computers
- Forms
- Minutes of meetings
- Records of interview
- Sign on/sign off sheets
- Stock records
- Students records, e.g statistics, student details, reports, etc.
RANGE STATEMENT

Appropriate storage and maintenance of organisation information may include:
- Database stored on computer using security protocols of the systems/organisation
- Log books easily accessed and regularly completed
- Manual and computer filing with security access controls applied as required
- Regular archiving of records
- Regular updating of staff and student records (e.g. changes of address, phone numbers)
- Shutting down computer systems when leaving the workstation for an extended period
- Use of metal filing cabinets with locks

Individuals will be determined by the organisation and may include:
- Ambulance officers
- Auditors
- Deputy principal
- Legal guardians
- Parents who have custody of a student
- Police and other emergency services personnel
- Principals
- Teachers

Organisation policies and procedures may include those relating to:
- Child protection
- Circulation
- Confidentiality
- Emergency evacuation and lock down procedures
- Filing and indexing
- Professional boundaries
- Security
- Workplace health and safety
RANGE STATEMENT

Oral communication may include:
- Answering enquiries from students and colleagues
- Answering telephone calls - e.g. listening skills, showing empathy, dealing with irate or distressed callers
- Informal discussions
- Instructing
- Liaising with fellow workers, students and external clients
- Mentoring
- Requests to and from colleagues/students/community members
- Translating
- Use of negotiating skills

Written information may include but is not limited to:
- Briefing notes
- Email
- Facsimiles
- General correspondence
- Handwritten and printed materials
- Internal and external memos
- Newsletters
- Notices
- Posters
- Proformas
- Student records/reports
- Student worksheets
- Telephone messages

Word processing software functions may include:
- Formatting
- Highlighting text
- Opening a new document
- Page and section breaks
- Print previewing
- Saving the document
- Setting margins
- Use of colours
RANGE STATEMENT

Simple spreadsheets may include:
- Alphabetical lists
- Basic formulae (e.g. sum, subtract, multiply)
- Different size columns and rows
- Headings
- Numerical data
- Text data

Graphics may include:
- Clip art
- Drawings
- Maps
- Photos

Technology may include:
- Binders
- CD-ROMs
- Computer technology, such as laptops and personal computers
- Cutters
- Digital cameras
- Laminators
- Modems
- Photocopiers
- Printers
- Scanners
- Shredders

<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Use a specified language in communication with students, parents and other colleagues | 1.1 Listen to, and speak in, a specified Aboriginal or Torres Strait Islander language as an interlocutor with students, parents and colleagues  
1.2 Participate in sustained transactions using appropriate vocabulary and grammar for the purpose of gathering or providing information  
1.3 Demonstrate appropriate use of register and a range of interactional strategies to establish, maintain and develop relationships, explain issues or solve problems |
| 2. Establish rapport and relationships to facilitate effective communication | 2.1 Establish rapport with Aboriginal and/or Torres Strait Islander students, parents or colleagues  
2.2 Clarify role of participants in professional relationships with students, parents and colleagues  
2.3 Establish and maintain effective communication with Aboriginal and/or Torres Strait Islander students, parents or colleagues |
### ELEMENT 3. Relay Aboriginal and/or Torres Strait Islander experiences and concepts to other professionals

### PERFORMANCE CRITERIA

1. Provide illustrations or examples of Aboriginal and/or Torres Strait Islander customs or concepts
2. Use analogies to enhance meaning of cultural practices where there is no direct vocabulary available

---

### Required Skills and Knowledge

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Traditional culture related to language group governing protocols of language use within a community
- How to access significant people within a language group
- Code of ethics of education worker
- Role and responsibilities of an education worker and specific understanding of own work role and responsibilities
- Basic knowledge of school's/centre's policies and procedures
- Structure of education system
- Safe working practices
- Cultural and linguistic backgrounds of students and families
- Developmental milestones of children/young people (cognitive, physical, language, social/emotional)
- Child management techniques
- Positive behaviour guidance strategies
- An understanding of own culture, western systems and structures and how this impacts on Aboriginal and/or Torres Strait Islander culture
- Impacts of cultural, sub-cultural, social, religious, gender, age, language issues etc. on attitudes towards education
- Availability of resources and assistance within and external to the school/centre
REQUIRED SKILLS AND KNOWLEDGE

- Community health issues
- Impact on learning
- Knowledge of learning and development to implement role and responsibilities in an educational environment

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Capacity to switch from Aboriginal and/or Torres Strait Islander language/s to Standard Australian English
- Identify the capabilities of individual children
- Use and respond to non-verbal communication and cues of children
- Apply knowledge of learning and development to implement role and responsibilities appropriately in an education environment
- Adhere to own work role and responsibilities
- Follow school/centre policies and procedures
- Communicate effectively with other adults in the work environment
- Liaise with relevant personnel
- Communicate verbally and non-verbally and to set and apply appropriate limits, taking into account the student's age, development, language, culture and needs

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Work effectively as a member of a team
- Employ basic conflict resolution and negotiation skills
- Respond effectively to behaviours of concern
- Respond effectively to health issues
- Demonstrate effective application of skills in:
  - communication/interpersonal skills of questioning, informing, listening and discussing
  - organisation planning, administrative support skills
  - time management skills
  - active listening
  - study
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Sustained transactions may include but are not limited to:**
- A series of questions and answers
- Lengthy oral reporting
- Eliciting information
- Reconciling points of view
- Complex negotiating and bargaining

**Appropriate vocabulary and grammar includes but is not limited to:**
- Vocabulary from specific Aboriginal and/or Torres Strait Islander language to the topic used where available, for example, use of terms commonly used in the community to explain concepts underpinning the western justice or health systems
- Stress, intonation and gesture used effectively to understand or convey intentions
- Intelligible pronunciation and stress and intonation patterns typical of the Aboriginal and/or Torres Strait Islander languages

**Professional relationships refers to:**
- Professionals with whom relationships will need to be established are:
  - other education support workers
  - teachers
  - health professionals

**Unit Sector(s)**

Unit Descriptor

Descriptor

This unit deals with the skills and knowledge required for an Aboriginal or Torres Strait Islander education worker to manage their work performance in a range of education environments.

An Aboriginal or Torres Strait Islander education worker is generally drawn from local communities because of their fluency in a specific language, kinship relationships within the community, a level of knowledge of and respect for, traditional culture and capacity to interact in the wider community.

Application of the Unit

Application

This unit covers the personal and professional performance of work as an Aboriginal and/or Torres Strait Islander Education Worker.

This work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Traditional culture related to language group governing protocols of language use within a community
- How to access significant people within a language group
- Code of ethics of Aboriginal and/or Torres Strait Islander Education Worker
- Role and responsibilities of an Aboriginal or Torres Strait Islander education worker and specific understanding of own work role and responsibilities
- Basic knowledge of school's/centre's policies and procedures
- Structure of education system
- Safe working practices
- Relevant code/s of ethics
- Cultural and linguistic backgrounds of students and families
- Developmental milestones of children/young people (cognitive, physical, language, social/emotional)
- Child management techniques
- Positive behaviour guidance strategies
- An understanding of own culture, western systems and structures and how this impacts on Aboriginal and/or Torres Strait Islander culture
- Impacts of cultural, sub-cultural, social, religious, gender, age, language issues etc. on attitudes towards education
- Availability of resources and assistance within and external to the school/centre
- Community health issues
- Impact on learning
- Knowledge of learning and development to implement role and responsibilities in an educational environment
REQUIRED SKILLS AND KNOWLEDGE

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Identify the capabilities of individual children
- Use and respond to non-verbal communication and cues of children
- Apply knowledge of learning and development to implement role and responsibilities appropriately in an education environment
- Adhere to own work role and responsibilities
- Follow school/centre policies and procedures
- Communicate effectively with other adults in the work environment
- Liaise with relevant personnel
- Communicate verbally and non-verbally and to set and apply appropriate limits, taking into account the student's age, development, language, culture and needs

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Work effectively as a member of a team
- Employ basic conflict resolution and negotiation skills
- Respond effectively to behaviours of concern
- Respond effectively to health issues
- Demonstrate effective application of skills in:
  - communication/interpersonal skills of questioning, informing, listening and discussing
  - organisation planning, administrative support skills
  - time management skills
  - active listening
  - study skills

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
EVIDENCE GUIDE

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

**RANGE STATEMENT**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Work diary may include but is not limited to:
- List contact details for:
  - students
  - families
  - significant contacts within education sector
  - references for assistance
- Calendar for:
  - planning work
  - making appointments
  - recording times of work

Competing demands may include but are not limited to:
- Family responsibilities
- Community responsibilities
- Personal health
- Timing of appointments

Role model refers to:
- A person looked to by others in Aboriginal and/or Torres Strait Islander education work as an example to be followed in areas such as:
  - respect for elders and culture
  - respect for Australian values
  - personal behaviour
  - reliability

Personal and professional integrity refers to:
- Being honest
- Showing consistency
- Following code of ethics
- Unbiased

Organisation's policies and procedures may include:
- Child protection legislation
- Anti-discrimination policy
- State education legislation
RANGE STATEMENT

Education environment may include:

- Government school (pre-primary, primary and secondary)
- Private /non-government school (pre-primary, primary and secondary)
- Education centre
- Kindergarten
- Special education centre
- Community education centre

3. Retrieve, evaluate and report on information

PERFORMANCE CRITERIA

3.1 Download, print or paste information in accordance with the requirements of the research task

3.2 Ensure information is sufficient, current and accurate to meet requirements

3.3 Meet legal and ethical requirements relating to copyright and protection of information

3.4 Organise information in a suitable format
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Internet protocols
- Organisation protocols for internet access
- Basic research techniques

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply computer technology skills
- Use communication skills to confirm search requirements, access relevant personnel and to gain feedback from learners and other stakeholders
- Apply problem solving involving differing hardware/software profiles, hardware malfunctions
- Use literacy skills to determine key words, read, analyse and record information and follow policies and procedures
- Use numeracy skills required in logical problem solving
- Relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Purpose and scope include:**
- The reason why the research is required (e.g. to inform a lesson, provide information for an assignment, etc)
- The boundaries within which the information requirements are set (e.g. timeframe, local, state-wide, national, international)

**Internal sources of online information may include:**
- Organisation policies and procedures
- Research previously undertaken by organisation staff
- Organisation data
- Bulletins and publications

**External sources of online information may include:**
- Organisations aligned with the purpose and scope of the required information
- Reference materials and publications
- Online databases and catalogues
RANGE STATEMENT

Online information may include:
- Price lists
- Catalogues
- Technical information relating to products
- Government information
- Legislation and regulations
- Statistical information
- Research papers
- Organisation policies
- Learning resources
- Market research data
- Travel information
- Banking information
- Employment opportunities
- Electronic tendering opportunities
- Business opportunities
- Copyright information
- Public information

Websites and databases may include:
- Industry websites
- Government online information services
- Virtual business communities/networks
- Education institution websites
- Archived material

Search engines may include:
- Global internet search engines
- Internet search engines focusing on particular locations (e.g. Australia, New Zealand etc)

Key words and phrases may include:
- Australian/American spelling when searching cultural or geographic terms
- Concepts
- Technical terms
- Acronyms
RANGE STATEMENT

Set criteria may include:
- Relevance
- Currency
- Authenticity
- Quality
- Accuracy
- Reliability
- Validity
- Reputability of source

Legal and ethical requirements may include:
- The organisation's code of ethics
- Policy and protocols for online use
- Copyright and intellectual property protection laws and regulations

Organise information in a suitable format may refer to:
- Reports
- Research data and findings
- Statistical information
- Presentations - audio, digital, personal
- Class notes and support documents

| 2. Organise learning resources | 2.1 Organise learning resources that are suitable to the learner and the education support worker  
2.2 Establish storage and retrieval procedures to support learning  
2.3 Place resources for access depending on student's age, family and limitations  
2.4 Prepare resources for assessment and dispatch  
2.5 Instruct learners on how to use the resource organisation system |
| 3. Demonstrate awareness of work health and safety (WHS) issues | 3.1 Store resources and equipment safely  
3.2 Provide appropriate learning environment, such as desk and chair  
3.3 Provide adequate ventilation and lighting in work area  
3.4 Demonstrate awareness of WHS issues, including when working outside |
| 4. Prepare to provide education support to students | 4.1 Prepare activities and daily requirements in advance with reference to support mechanisms where necessary  
4.2 Establish daily routines  
4.3 Clarify and confirm understanding of school / teacher requirements and ensure consistent interpretation and application  
4.4 Review progress on a weekly basis and identify future requirements |
| 5. Manage a learning timetable | 5.1 Ensure learning timetable demonstrates understanding of work-life balance  
5.2 Schedule learning activities appropriately  
5.3 Coordinate content of learning activities to provide an appropriate timetable structure  
5.4 Manage interruptions and contingencies with minimum disruption to learning |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant legislation from all levels of government that affects organisation operation, especially in regard to WHS and environmental issues, child protection, anti-discrimination and copyright
- Management of resources
- Positive learning environment
- Learning technologies

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Use communication skills to provide information to and gain feedback from learners and teachers
- Use literacy skills to document environment and resource organisation
- Undertake problem solving
- Use planning and organisation skills, including time management, organisation of material and resources
- Use contingency management skills

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

WHS issues when working outside may include but are not limited to:

- Sun safety
- Environmental hazards
- Hydration
- Vision protection
RANGE STATEMENT

Support mechanisms may include:
- Teacher/facilitator
- Peers/tutors/mentors
- Technical experts/learning specialists
- Print-based materials
- Off-site learning environment
- Training materials

Work-life balance includes:
- Including rest and relaxation in routines
- Providing adequate time for work and play
- Prioritising as required to ensure various work objectives are achieved

Schedule learning activities may include:
- Ensure variety in student activity schedule
- Sequence activities as directed by teachers
- Arrange learning activities around other business or family priorities
- Schedule activities to align with school contact times
- Take into account travel time
- Ensure the schedule includes meal times and play breaks

Contingencies may include:
- Conflict with social or vocational parameters
- Insufficient dedicated time available
- Vocational priorities take precedence
- Equipment malfunction
- Materials delayed
- Accidents or emergencies

Unit Descriptor

Descriptor

This unit describes the skills and knowledge required to use an e-learning management system that supports self-directed e-learning within the context of a pre-arranged course or program.

The unit also involves putting into place support mechanisms to assist a student to optimise the effectiveness of e-learning processes.

Application of the Unit

Application

This unit applies to education support work in a variety of contexts and work is to be undertaken with appropriate guidance, support and supervision by nominated teacher.

Use of an e-learning management system may apply to being a direct user or acting as support person to a student.

This work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher or other education professional.

--- | ---
2. Preview e-learning management system | 2.1 Test organisation's *e-learning management system* to ensure completion of an on-line course is possible
 | 2.2 Check effectiveness of functions of *e-learning management system*, including email to on-line cohort, discussion boards, downloading of materials and management of work
 | 2.3 Identify issues impacting on the effectiveness of an *e-learning management system* and identify changes to enhance its application
 | 2.4 Access sufficient information to meet the needs of the research brief

3. Implement e-learning support | 3.1 Confirm learning outcomes with students and teachers and establish access to e-learning technology and materials in accordance with individual needs and the e-learning strategy
 | 3.2 Assist students through identified *support mechanisms* and manage *contingencies* in accordance with organisation standards
 | 3.3 Use learning management system to track e-learning progress and outcomes in accordance with the learning strategy and privacy requirements

4. Review e-learning | 4.1 Review the e-learning program in terms of its applicability to the student's needs and the organisation's capacity to support the process
 | 4.2 Obtain feedback from students about their level of satisfaction with e-learning against *set criteria*
 | 4.3 Gather feedback from *other stakeholders* on the use of the e-learning management system and e-learning approaches generally
 | 4.4 Use feedback to identify areas for follow up or improvement and document recommended changes in accordance with organisation requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant legislation from all levels of government that affects the operation of an educational institution, especially in regard to work health and safety (WHS), child protection/duty of care, equal opportunity, industrial relations and anti-discrimination
- Operation of the internet
- Core management requirements of e-learning systems
- Basic knowledge of the learning process

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Effectively use an e-learning management system
- Apply understanding of the desired learning outcomes for students
- Manage contingencies to the benefit of learners
- Evaluate effectiveness of system and provide feedback

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Use computer technology
- Communicate effectively with both students and supervisors (teachers)
- Obtain and apply feedback from learners and stakeholders
- Apply literacy skills to document use of e-learning management system and record feedback
- Apply numeracy skills for managing the use of the e-learning management system
- Relate to students from a range of social, cultural and ethnic backgrounds and physical and mental abilities
- Apply problem solving processes effectively for differing hardware / software profiles
REQUIRED SKILLS AND KNOWLEDGE

and manage associated contingencies

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Assessment requires access to:
  - a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered within an educational environment where an e-learning management system/s is in use.
  - an e-learning management system and courses, documentation and procedures relevant to an educational environment - to be accessed by both 'learner' and 'trainer'.

Methods of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - observation
  - demonstration
  - questioning - oral and written
  - scenarios, simulation or role plays
  - authenticated evidence from the workplace/ training programs
- Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

E-learning management system may include:

- E-learning platforms that use either proprietary or open-source coding
- Systems such as: Claroline, Janison, Moodle, Blackboard, Webct
- Applications that enable the social constructionist approaches to e-learning

Legislation, codes and national standards relevant to the workplace may include:

- Educational legislation
- Award and enterprise agreements
- National, State/territory legislative requirements especially in regard to WHS
- Industry codes of practice
- Copyright laws
- Anti-discrimination legislation
- Privacy legislation

Support mechanisms may include:

- Online teacher / facilitator / mentor
- Site based coach / tutor / aide
- Site or virtual peer group / students
- Technical experts / help desk
- Print-based materials such as instructions, user manuals, etc.
RANGE STATEMENT

Contingencies may include:
- Technology failure such as computer, broadband access and software malfunctions
- Inadequate e-learning course content or instruction
- Difficulty of e-learning course content
- Insufficient dedicated time available
- Problems with site timetabling
- Differing hardware / software profiles than recommended standards
- Lack of contact with e-learning delivery teacher

Set criteria may include:
- Course content
- Course structure
- Presentation styles
- Technologies
- Team outcomes (site based support personnel and delivery team)
- Personal outcomes (student)
- Organisation outcomes

Other stakeholders may include:
- Organised groups
- School management
- Other teachers at the receiving site
- Other team members at the delivering site
- Community members
- Support services, e.g. network administrators
- Students
- Parents

1.3 Identify communication barriers and organise the use of interpreters/translators when necessary, in consultation with teacher  
1.4 Share knowledge of ESL student needs to support the development of whole school policies |
2. Implement an English as a Second Language (ESL) support program

   2.1 Provide an ESL support program as directed by the teacher
   2.2 Implement ESL support according to program specifications and student needs
   2.3 Provide individual support to ESL students
   2.4 Perform ESL support tasks in classroom or group activities
   2.5 Maintain student confidentiality according to program/school guidelines
   2.6 Provide information to other school staff when required

3. Support student ESL program

   3.1 Apply support strategies to accommodate language acquisition
   3.2 Identify and discuss factors affecting language acquisition with the ESL and/or classroom teacher
   3.3 Identify and deal with cultural issues in a sensitive and appropriate manner
   3.4 Advocate for the student as necessary
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Means by which students acquire English language skills
- Factors affecting language acquisition
- Immigration issues including common responses to and symptoms of 'culture shock'
- Implications of cultural issues in the classroom
- Policy, procedures and legislative issues affecting performance and education support workers
- A range of effective communication techniques

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Facilitate communication between the student, the school and home under the direction of a teacher
- Assist the student in gaining English language skills
- Implement an ESL support program as directed by the teacher
- Maintain discretion and confidentiality at all times
- Follow directions
- Provide in-class support with sensitivity

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Use strategies for developing comprehension and expression
REQUIRED SKILLS AND KNOWLEDGE

- Communicate with students with additional needs
- Empathise and be culturally sensitive when responding to students
- Manage cross-cultural issues and beliefs
- Interpret information from and/or verbal directions
- Use problem solving skills
- Use interpersonal communicate skills (active listening, giving clear directions, express an opinion, suggest improvements to strategy/methods for assisting/supporting students and teachers)
- Manage time effectively

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Interactions may include:

- Face-to-face meetings
- Telephone conversations
- Written communication

Interactions may be between:

- The students and the members of the school community and its support network, while the student is at school
- Members of the school community and parties responsible for the student from his/her home
RANGE STATEMENT

Immigration practices may generate:

- Culture shock
- Post-traumatic stress
- Integration issues
- Employment issues
- Lack of security

ESL support tasks may include:

- Learning to say the student's name correctly
- Demonstrating respect for the student's cultural and religious beliefs
- Greeting the student in their own language
- Structuring supportive socialisation activities
- Anticipating language needs and allowing adequate time to avoid frustration and aggression
- Building the student's self-esteem and confidence by providing positive responses and encouraging risk-taking in their language development
- Controlling the input of new information to avoid overwhelming the student
- Providing opportunities for students to hear and practice the same language in different ways
- Extend rapport-building strategies to develop trust prior to learning
RANGE STATEMENT

Support strategies may include:

- Review errors with the student
- Supervise repetition of tasks
- Check comprehension
- Focus on conversational English, school language as well as academic English
- Repeat directions
- Summarise the lesson
- Provide a dictionary of words
- Read aloud to students and provide comprehension
- Read assessment tasks to the students
- Assist in selecting free-reading and research material
- Model oral tasks
- Explain school notices
- Prepare rolls
- Assist teacher prepare classroom work
- Provide technology support including assistance with the operation of computers, software, DVD, digital camera and video equipment

Factors affecting language acquisition may include:

- Limited opportunities for practice
- Health issues
- Cultural issues
RANGE STATEMENT

Cultural issues may include:

- Relationships with people
- Relationships with natural environment and the land
- Religious beliefs and practices
- Links to the immediate environment of the school
- Social responsibilities and rights
- Emotional and psychological well being
- Social participation and development
- Development of skills and abilities
- Development of personal and cultural identity
- Safety
- Troubles and issues expressed by the student such as unmet needs, worries, family problems, practical difficulties and social issues
- Intercultural/intergenerational conflicts
- Diet
- Clothing

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Determine student's information requirements in consultation with teacher</td>
<td>1.1 Determine the information required by the student</td>
</tr>
<tr>
<td></td>
<td>1.2 Identify the reason for the request and prior efforts to access information</td>
</tr>
<tr>
<td></td>
<td>1.3 Consider additional sources of information and type of assistance required</td>
</tr>
<tr>
<td></td>
<td>1.4 Assist student to identify key questions to inform the research</td>
</tr>
<tr>
<td>2. Advise students to access and source additional information in consultation with teacher</td>
<td>2.1 Support students to extend their research skills</td>
</tr>
<tr>
<td></td>
<td>2.2 Demonstrate use of reference tools and equipment using developmentally appropriate communication techniques</td>
</tr>
<tr>
<td></td>
<td>2.3 Advise students on alternative sources of information</td>
</tr>
<tr>
<td></td>
<td>2.4 Inform students of access constraints regarding use of reference tools, equipment and information</td>
</tr>
</tbody>
</table>
ELEMENT

3. Encourage students to source and evaluate information

PERFORMANCE CRITERIA

3.1 Promote students' independent use of available resources
3.2 Encourage students to evaluate information
3.3 Support students to assemble information in an appropriate format for individual use
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Organisation policy in relation to assisting students in research projects
- Organisation policy related to accessing external information
- Sources for answering common student requests
- Features of the organisation's resource centre and information management process
- Inter-library loan process
- Use of online search engines
- Copyright, moral rights and intellectual property and appropriate referencing in academic work

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Demonstrate sound understanding and application of communication skills with students
- Apply basic research skills
- Apply knowledge of the available reference resources
- Apply knowledge of bibliographic tools

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Use effective communication techniques, including listening, questioning and the use of bibliographic tools and technology
- Apply techniques for using standard reference resources and tools, including searching
REQUIRED SKILLS AND KNOWLEDGE

- Use literacy skills sufficient to evaluate references and interpret a broad range of information
- Support students to undertake independent investigations

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Student contact may be:**
- In person
- By phone
- In writing
- Electronically (internet)

**Information required by the student may include:**
- Current or topical information
- Set topics or project work (e.g. school assignments)
- Frequently requested information
- Reference queries

**Sources of information independently accessed by students may include:**
- School collection or remote sources of information (e.g. searching for known items, use of catalogue system)
- Catalogues - digital and manual
- On-line resources and other databases
- Brochures, pamphlets, promotional materials
- Classroom collections

**Alternative sources of information may include:**
- School resource centres
- Internet repositories
- Libraries (public, private, corporate, school, university etc)
- Museums, galleries and archives
- Government departments (local, state and federal), agencies or shopfronts
- Businesses and corporations
- Community advisory organisations or bureaus
RANGE STATEMENT

Key questions may include:

- Where are the most likely sources of additional information?
- Is the information relevant?
- Does the information answer the question?
- Is the information sufficient?
- Is the too much information?
- Does the information inform the student’s conclusions?

Support students to extend their research skills may include:

- Discussion of alternative sources of information
- Assisting students to evaluate their own efforts
- Offering alternative viewpoints
- Introducing new technologies
- Valuing students' efforts through specific positive comments
- Assisting students to evaluate information

Reference tools and equipment may include:

- Catalogues - digital and manual
- Computers with internet access
- Filing cabinets

Access constraints may include:

- Cost
- Organisation policy (e.g. school policy on accessing specific topics, use of internet)
- Access restrictions to required information
- Availability of other assistance (e.g. access to a teacher-librarian)
- Ethical considerations
- Copyright
RANGE STATEMENT

Appropriate format for information may depend on:

- The preferred format of the teacher/class/school policy
- Student age
- Educational background or general knowledge
- Cultural language background
- Language, literacy and numeracy needs
- Physical and intellectual disabilities

ELEMENT
3. **Respond to situations of risk or potential risk to students with disabilities**

PERFORMANCE CRITERIA

3.1 Report situations which may pose a health or safety issue to students or staff according to organisation procedures

3.2 **Respond to situations of immediate risk** using predetermined strategies where available and report to **appropriate personnel**

3.3 Report uncharacteristic or **behaviours of concern** to teachers or other team members as needed

3.4 Take appropriate steps, if required, to maintain personal safety of self and others
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Awareness and understanding of consent and strategies used to determine ability to consent
- Awareness of discriminatory actions
- Common risks to safety
- Developmental and acquired disabilities
- Different student requirements according to different disabilities
- Holistic and individual-centred care
- Principles and practice of confidentiality
- Principles of access and equity
- Principles of empowerment/disempowerment in relation to students with disabilities
- Role of advocacy bodies
- Student needs and rights including duty of care

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply understanding of the rights of students with disabilities and the responsibilities of the education team
- Be aware of the impact of own attitudes on working with students with disabilities
- Demonstrate understanding of stereotypes that may exist about people with disabilities
- Demonstrate understanding of the different responsibilities of teaching staff and education support workers working with students with disabilities

cont'd

Essential skills: (cont'd)
REQUIRED SKILLS AND KNOWLEDGE

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Adapt the environment to the needs of the students
- Communicate effectively with students, teachers, parents/carers
- Demonstrate empathy and sensitivity to diversity
- Evaluate risk situations
- Identify problems and choose effective solutions
- Interpret information from written and/or verbal directions
- Manage time
- Read and understand reference material
- Use a flexible approach to learning and teaching situations
- Use technology to support student learning

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

**Method of assessment:**

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Key issues include:**

- Access to services for students with impairments and their carers
- Family and carer issues
- Grief and loss
- Meeting individual needs and personal goals of students with impairments
**RANGE STATEMENT**

*Policy regulatory, and legal requirements may include:*

- Access and equity policies of the organisation
- Anti-discrimination legislation
- Disability service standards
- Disability services legislation
- Education legislation
- Equal employment opportunity principles
- Guardianship requirements
- Individual rights
- Medication regulations and organisation policies
- Privacy legislation
- Workplace health and safety legislation

*Different student requirements may be identified from, for example:*

- Education adjustment program profile
- Negotiated education plan

*Context includes:*

- Changing social context of work, e.g. individual centred approach, changing societal views, approaches to working with students with disabilities
- Economic context, e.g. the current economic situation as it relates to and affects students with impairments and the subsequent impact on their needs
- Facts/myths about impairments
- Historical context of work, e.g. changing attitudes
- Political context, e.g. government policies and initiatives
- Relevant statutory framework

*Assess and equity includes:*

- A non-discriminatory approach to all students, their families and friends, the general public and co-workers
- A student oriented culture
- Ensuring the work undertaken caters for differences including: cultural, physical, religious, economic, social, developmental, behavioural, emotional and intellectual
RANGE STATEMENT

Effects of disability on student learning may include:

- Absence from school related to the disability
- Dependence on specific learning style may become more pronounced
- Fatigue associated with the disability may impact on learning
- Gaps in experiences brought about by the disability
- Progression through stages may be slower
- Student may experience a lowered ceiling to the complexity of concepts learned
- Student may experience reduced learning without access to special equipment or methods
- Student may have impaired capacity for sensory intake and perception
- Student may take longer to learn
- Students may experience plateaux in learning
RANGE STATEMENT

*Strategies to support students with disabilities may include:*

- Acting as a point of contact from parents
- Assisting with withdrawal activities as directed by the teacher
- Assisting with daily classroom based learning activities including listening to students read, assisting with maths and other tasks as guided by the teacher
- Assisting with practical activities such as art, music, sewing, cooking and sport
- Building the student's self-esteem and confidence by providing positive responses and encouraging risk-taking in activities that assist with development
- Controlling the input of new information to avoid overwhelming the student
- Demonstrating respect for the student
- Feeding and assisting students with personal hygiene
- Identifying the knowledge, skills, interest and experiences of the student
- Providing minimal and least intrusive cues to assist the student perform tasks and manage their own behaviour
- Providing opportunities for students to practice new skills
- Providing supportive socialisation activities
- Toileting and positioning students with physical disabilities
- Using non-verbal signals and gestures to help communicative competence

*Rights include:*

- Assess to complaint mechanisms
- Choice to participate
- Common law
- Confidentiality
- Freedom of association
- Friendship
- Privacy
- The right to learn
- To be treated in a dignified, safe and comfortable manner
- To express their own feelings
RANGE STATEMENT

Accommodating student requirements may include:

- Applying alternative strategies
- Catering for different learning styles
- Giving more time to learn
- Providing adjustments to curriculum, communication, learning environment and access etc that are necessary for the student to participate meaningfully in curriculum and school activities
- Providing age-appropriate activities
- Providing experiences and language development as a base for learning
- Providing learning experiences based on the student’s existing cognitive framework
- Working with parents and other professionals to provide a supportive environment

Education adjustment program profile refers to:

- A process used to demonstrate the types of adjustments to:
  - communication
  - curriculum
  - health and personal care
  - learning environment/access
  - safety
  - social participation/emotional well being

that are being provided for students with impairments to learn, participate and progress towards planned outcomes in relation to his/her same age peers

- Rather than focusing on the students’ disabilities, this process focuses on the adjustments that need to be made at school to facilitate the student’s presence, participation, access and achievement of education outcomes

Respond to situations of risk in the context of the education support role may include:

- Identifying risks and appropriate strategies to deal with risks as part of the education team
- Implementing strategies for preventing abuse of students with disabilities
- Providing information on risks or potential risks
- Risk minimisation
RANGE STATEMENT

Appropriate personnel include:

- Administrators
- Colleagues
- Head of department
- Principals
- Teachers
- Visiting health workers and/or therapists

Behaviours of concern may include:

- Behaviour that endangers the health or well being of others
- Behaviour that interferes with learning that the student could reasonably be expected to control
- Behaviour that places self or others at risk

Unit Sector(s)

<tbody>
<tr>
<td>4.1 Undertake supervision of students according to teacher direction and school / centre policy and procedures</td>
</tr>
<tr>
<td>4.2 Supervise students that are out of the room according to teacher direction and school / centre policy and procedure</td>
</tr>
</tbody>
</table>
ELEMENT
5. Deal with emergency situations

PERFORMANCE CRITERIA

5.1 Contribute to planning for emergency and potential emergency situations

5.2 Recognise emergency and potential emergency situations promptly and take required actions within the scope of individual responsibility

5.3 Follow emergency procedures correctly in accordance with school/centre procedures

5.4 Seek assistance promptly from colleagues and/or other authorities where appropriate

5.5 Report details of emergency situations accurately in accordance with school/centre policy

6. Support the health and well being of students

6.1 Identify health issues in the student community and their causes

6.2 Identify the impact that health issues have on student's learning

6.3 Act as a resource for families, school and the community with regard to health issue

6.4 Work with families to support individual health needs

6.5 Identify and utilise agencies within and outside the school to support student's health

6.6 Assist in the provision of health promotion programs
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Aboriginal health issues
- Cultural and linguistic background of students and families
- Curriculum and curriculum framework
- Duty of care responsibilities
- Educations system’s policies and procedures
- Hygienic food preparation
- Industrial awards and duty statements
- Potential hazards and risks for students
- Risk management
- Safe working practices
- School/centre’s policies and procedures
- State and Federal legislative and regulatory requirements, particularly WHS legislation
- Structure of the education system
- Understand own work role and responsibilities

**Essential skills:**

The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Adhere to own work role and responsibilities
- Communicate effectively with other adults in the working environment
- Demonstrate effective application of skills in:
  - active listening
  - communication / interpersonal skills of questioning, informing, listening and discussing
  - negotiation
REQUIRED SKILLS AND KNOWLEDGE

- organisation planning, administrative support skills
- safe work practices
- team work
- time management skills
- Follow school/centre policies and procedures
- Implement safe and hygienic practices
- Liaise with and report to relevant personnel
- Respond appropriately to emergency situations

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Environment may include:

- Community education centre
- Education centre
- Government school (pre-primary, primary and secondary)
- Kindergarten
- Private/non-government school (pre-primary, primary and secondary)
- Special education centre
**RANGE STATEMENT**

*Relevant procedures, guidelines, protocols, policies will address:*

- Duty of care, supervision of students, workers compensation
- Education system's (government and non-government) policies and procedures
- Relevant legislation from all levels of government that affects the school/centre's operation, especially in regard to WHS and environmental issues, equal opportunity, industrial relations and anti-discrimination
- School's and / or centre's policies and procedures

*Hazard / safety procedures may include:*

- Emergency, fire and accident procedures
- Hazard identification and issue resolution procedures
- Hazard policies and procedures
- Job procedures and instructions
- Procedures for maintenance of gardens, animal cages and environs
- Procedures for the use of personnel clothing and equipment

*Hazards may include:*

- Body fluids
- Fire
- Infections
- Manual handling
- Toxic substances
- Workplace stress

*Cleaning duties may include:*

- Dusting
- Sweeping
- Vacuuming
- Washing/showering
RANGE STATEMENT

Types of cleaning equipment may include:
- Brooms
- Buckets
- Cleaning agents
- Hoses
- Mops, dusters/dusting and washing cloths
- Vacuum cleaners

Food preparation may involve use of equipment such as:
- Food processors, blenders and mixers
- Knives, cleavers and utensils
- Large (fixed) equipment such as fridges
- Slicers,

Individual needs of students will vary based on:
- Age and ability of student
- Cultural and/or linguistic background of students
- Personal characteristics of students
- Physical capability or disability
- Students' documented medical conditions
- Students' special needs with social, emotional and/or psychological problems

Emergency situations may include:
- Bomb threats or civil disorder
- Environmental (severe storms, earthquakes, floods)
- Fire
- Hazardous releases and uncontrollable processes
- Medical emergencies
- Other natural or man-made disasters
- Smoke spread
- Specific emergencies occurring during participation in / conduct of sport and recreation activities
RANGE STATEMENT

Health issues may include:
- Alcohol and other drug abuse
- Child neglect
- Diabetes
- Domestic violence
- Hearing Loss
- Infant mortality
- Infectious Disease
- Kidney disease
- Nutrition
- Petrol sniffing
- Teenage pregnancy

Causes of health issues may include:
- Child maltreatment
- Domestic violence
- Inadequate housing
- Lack of education
- Lack of support and resources
- Poverty
- Unemployment

Impact that health issues have on student's learning may include:
- Absences from school
- Changes in behaviour
- Inability to concentrate
- Restrictions in ability to participate

Liaison may include:
- Community representatives
- Medical or other professionals
- Other school/centres
- Other teacher assistants
- Parents
- Special education teacher
- Specialist organisations

</tbody>
</table>
ELEMENT

2. Support individual students with additional needs

   2.1 Show respect, empathy, acceptance for individual differences in dealings with students
   2.2 Encourage students in ways which promote their positive self concept and esteem
   2.3 Use language, equipment, materials and strategies suited to the student
   2.4 Apply simple task analysis as necessary to assist students with additional needs
   2.5 Identify the role, purposes and content of individual education programs to address additional needs
   2.6 Follow individual education programs planned by teachers for particular students, and recommend amendments as appropriate

3. Assist with classroom programs to support students with additional needs

   3.1 Use knowledge of classroom strategies and programs used to support students with additional needs
   3.2 Identify and follow classroom strategies and programs used to support particular students
   3.3 Assist with the modification of general activities to particular needs where necessary
   3.4 Assist with whole class activities as directed by teacher
   3.5 Use behaviour management strategies and techniques appropriate to the students and as directed by teacher and others
   3.6 Take appropriate steps, if required, to maintain personal safety of self and others
ELEMENT
4. Contribute to learning opportunities

PERFORMANCE CRITERIA
4.1 Identify strategies used by teachers to encourage problem solving by students and support strategies appropriately as required of teacher aide
4.2 Identify strategies used by teachers to assist development of independence and social skills in students and support strategies appropriately as required of teacher aide
4.3 Notice and take opportunities to encourage and support incidental learning by students
4.4 Provide constructive advice and feedback to students
4.5 Where appropriate, provide suggestions to teachers or other members to improve learning opportunities of students

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role
These include knowledge of:
  • Basic knowledge and understanding of wide range of additional needs and their implications for students’ learning
  • Individual education programs

Essential skills:
It is critical that the candidate demonstrate the ability to:
  • Provide support in relation to at least two main areas of additional needs
REQUIRED SKILLS AND KNOWLEDGE

- Undertake proactive approach to assisting students

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - communication
  - problem solving

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment should be on the job and/or related to actual workplace evidence
- Simulated situations and hypothetical questioning may be used as a supplement to such assessment if this is necessary to enable the trainee/teacher aide to demonstrate all aspects of the competency
- In order to establish consistency of performance, evidence should be collected over a period of time, across a range of events
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - appropriate documentation and resources normally used in the workplace

Method of assessment may include:
- Observation of work performance
- Written tasks
- Interview and questioning
- Authenticated portfolio/log book
- Supporting statement of supervisor/s
- Authenticated evidence of relevant work experience and/or formal/informal learning

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Additional needs may be due to:

- Cultural background
- Education background
- Family issues
- Giftedness
- Intellectual disabilities
- Language impairment
- Learning difficulties
- Non-English speaking background
- Other medical conditions
- Physical difficulties
- Psychiatric disorders
- Psycho-emotional disorders
- Sensory disabilities
- Socio-cultural disadvantage

Others involved may include:

- Carer
- Class teacher
- Guidance officer
- Occupational therapist
- Physiotherapist
- Social worker
- Speech pathologist
- Support teacher
- Teacher aide medical personnel

Relevant procedures, guidelines and protocols may include:

- Confidentiality, right to privacy
RANGE STATEMENT

*Individual education programs may include:*
- Communication and speech
- Gross and fine motor skills
- Individual and class social skills
- Key work signing
- Life skills
- Literacy
- Numeracy

*Classroom strategies and programs may include:*
- 'Buddy' support systems
- Cross curricular teaching
- Multi-level teaching
- Peer modelling
- Peer tutoring
- Small group, 1:1 instructional tutoring
- Vertical grouping

**Unit Sector(s)**

Not Applicable

Not applicable.

Unit Descriptor
Descriptor
This unit deals with the skills and knowledge required for an education worker to liaise effectively with Aboriginal and/or Torres Strait Islander students in relation to education programs.

The education worker supports Aboriginal and/or Torres Strait Islander students to use educational programs more effectively and to increase their understanding of the multi-cultural nature of the learning environment.

It requires sensitivity and an understanding of cultural protocols, including appropriate interpersonal and networking skills.

Application of the Unit
Application
This unit applies to education support work in a variety of contexts and work is to be undertaken with appropriate guidance, support and supervision by nominated teacher.

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

ELEMENT

1. Support the teacher in the effective delivery of the education program to Aboriginal and/or Torres Strait Islander students

PERFORMANCE CRITERIA

1.1 Provide relevant information and advice to the teacher during planning and delivery of lessons

1.2 Prepare charts and displays on Aboriginal and/or Torres Strait Islander culture as required

1.3 Support induction of teachers unfamiliar with the local Aboriginal and/or Torres Strait Islander culture

1.4 Use discussion and relevant procedures to foster cultural awareness of staff

1.5 Apply knowledge and understanding of appropriate behavioural and developmental characteristics to activities

1.6 Raise and explain cultural issues affecting learning or relationships to the teacher when appropriate
**ELEMENT**

2. Interpret for the teacher when there is a communication difficulty between teacher and the student

   **PERFORMANCE CRITERIA**

2.1 Use knowledge of *Aboriginal and/or Torres Strait Islander* families, the community, and its culture to assist communication

2.2 Provide mediation between students, staff and others to promote mutual understanding according to direction

2.3 Provide students with lesson guidance, as required

3. Teach aspects of Aboriginal and/or Torres Strait Islander culture

   **PERFORMANCE CRITERIA**

3.1 Support language programs through a team teaching approach and in collaboration with the community

3.2 Promote and support Aboriginal and/or Torres Strait Islander studies under the supervision of the teacher

3.3 Provide knowledge and understanding of the history, language and culture that promotes respect, understanding and harmony in the classroom

4. Advise on Aboriginal and/or Torres Strait Islander studies and programs

   **PERFORMANCE CRITERIA**

4.1 Provide advice on the cultural suitability of an *education program* and its resource materials

4.2 Source and access people to assist with classes in Aboriginal and/or Torres Strait Islander culture in consultation with teacher

4.3 Plan and organise visits to the school/centre by Aboriginal and/or Torres Strait Islander role models in liaison with teachers and according to school/centre protocol

4.4 Compile and develop resource lists which promote Aboriginal and/or Torres Strait Islander studies and culture
ELEMENT

5. Facilitate support for Aboriginal and/or Torres Strait Islander students on matters which affect their education

PERFORMANCE CRITERIA

5.1 Offer support to Aboriginal and/or Torres Strait Islander students through positive role modelling, classroom strategies, promotion of regular attendance and conduct of support groups

5.2 Arrange tutoring for students during the transition from one phase to the next or as required

5.3 Support relevant teaching staff in explaining career pathways and opportunities

5.4 Contribute to reviews or case conferences of Aboriginal and/or Torres Strait Islander students as required

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Education system's policies and procedures
- Structure of the education system
- Curriculum and curriculum framework
- School/centre's policies and procedures
- Duty of care responsibilities
- Safe working practises
- Potential hazards and risks for students
- State/territory and Federal legislative and regulatory requirements
- Industrial awards and duty statements
- Relevant code/s of ethics
- Cultural and linguistic background of students and families
- Developmental milestones of children/young people (e.g. cognitive, physical, language,
REQUIRED SKILLS AND KNOWLEDGE

- Child management techniques
- Positive behaviour guidance strategies
- Contextual factors which influence the child's emotional and psychological development
- Factors that enhance the development of self-esteem and self-identity
- Own cultural conceptions and pre-conceptions and basic understanding and awareness of the differences between cultures, particularly the cultures of Aboriginal and/or Torres Strait Islander people and others
- Availability of resources and assistance within and external to the organisation in relation to cultural diversity issues
- The role and use of language and cultural interpreters
- Own work role and responsibilities

Essential skills:
The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate effective application of skills in:
  - communication/interpersonal skills of questioning, informing, listening and discussing
  - organisation planning and administrative support skills
  - time-management skills
  - active listening
  - study skills
- Identify the capabilities of individual children
- Use and respond to non-verbal communication and cues of children
- Employ culturally respectful practices
- Sensitively and respectfully communicate with persons of diverse backgrounds and cultures
- Work effectively as a member of a team
- Employ basic conflict resolution and negotiation skills
- Show respect and inclusiveness towards culturally diverse people in all work practices
- Communicate effectively with culturally diverse persons
- Apply knowledge of learning and development to implement role and responsibilities appropriately in an education environment
- Adhere to own work role and responsibilities
- Follow school/centre policies and procedures
- Communicate effectively with other adults in the work environment
REQUIRED SKILLS AND KNOWLEDGE

- Liaise with and report to relevant personnel
- Communicate verbally and non-verbally and to set and apply appropriate limits, taking into account the child/young person's age, development, culture and needs
- Respond effectively to behaviour of concern

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in culturally and linguistically diverse (CALD) environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Method of assessment:
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Educational environment may include:
- Government school (pre-primary, primary and secondary)
- Private/non-government school (pre-primary, primary and secondary)
- Education centre
- Kindergarten
- Special education centre
- Community education centre

Relevant procedures, guidelines, protocols, policies will address:
- Education system's (government or non-government) policies and procedures
- School's and / or centre's policies and procedures
- Relevant legislation from all levels of government that affects the school/centre's operation, especially in regard to work health and safety (WHS) and environmental issues, equal opportunity, industrial relations and anti-discrimination

Cultural differences may include:
- Interpersonal approach
- Thinking/learning styles
- Expectations
- Responsibilities
- Priority setting
- Cultural obligations
RANGE STATEMENT

Factors affecting Aboriginal and/or Torres Strait Islander education may include:

- History of European/Aboriginal and/or Torres Strait Islander contact
- Loss of culture, land, identity and Indigenous law
- Family links
- Geographical remoteness
- Lack of relevant and culturally appropriate education
- Feelings of isolation and vulnerability and being culturally unsafe
- Violence

Student education requirements will vary according to such variables as:

- Students with a disability or disabilities
- Students who are learning English as their second or later language
- Students with special social, emotional, health and/or psychological needs
- Age and ability of students
- Personal characteristics of students
- Individual learning styles of students

Education programs may include:

- Literacy and numeracy
- Remediation skills
- Life skills
- Communication and speech
- Individual and class social skills
- Arts
- English
- Health and physical education
- Languages other than English
- Mathematics
- Science
- Society and environment
- Technology and enterprise
RANGE STATEMENT

Classroom strategies may include:

- Peer tutoring
- Multi-level teaching
- Cross-curricular teaching
- 'Buddy' support systems
- Small group
- 1:1 instructional tutoring
- Vertical grouping
- Peer modelling

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
**Elements and Performance Criteria**

**ELEMENT**

1. Liaise with Aboriginal and/or Torres Strait Islander parents/community members on education issues under supervision of a teacher

**PERFORMANCE CRITERIA**

1.1 Explain difficulties in understanding aspects of the education program by parents/guardians according to the teacher's instructions and school policy and procedures

1.2 Convene liaison meetings between teachers and Aboriginal and/or Torres Strait Islander parents/guardians and community as requested by school/centre staff or Aboriginal and/or Torres Strait Islander groups

1.3 Facilitate community contributions to adapt school/centre policies to meet education needs of Aboriginal and/or Torres Strait Islander students

1.4 Encourage parental involvement in meetings, assemblies and events

1.5 Provide interpretation and translation for parents when there is a communication difficulty between parents and school/centre

1.6 Assist parents with forms, vouchers and documents according to school/centre administration procedures

1.7 Consult parents and Aboriginal and/or Torres Strait Islander elders in the community on sensitive issues of culture and language and the educational needs of Aboriginal and/or Torres Strait Islander students

1.8 Prepare and submit specific items for school/centre newsletters and community newspapers for final approval

1.9 Provide mediation between the school/centre and parents or community, according to teacher/school/centre direction

1.10 Represent the school/centre or system of schools (Department, Catholic or Independent schools) at community meetings as required

1.11 Contribute appropriately at meetings held to discuss issues raised by the school/centre or community
2. Identify and represent the educational needs of Aboriginal and/or Torres Strait Islander students

2.1 Identify and convey educational needs of student/s to the relevant teacher

2.2 Encourage parents to identify and convey educational needs of students to the relevant teachers

2.3 Offer appropriate suggestions to the relevant teacher on making the classroom environment supportive to Aboriginal and/or Torres Strait Islander students

2.4 Provide a first-point-of-contact between parents/community and teachers/staff when necessary

2.5 Provide appropriate liaison and communication links between parents and the school/centre or department or system as required

3. Liaise with other agencies to further the educational welfare of Aboriginal and/or Torres Strait Islander students

3.1 Maintain links with agencies for further education and training, according to the school/centre protocol

3.2 Source and compile information on other services and agencies such as family and community health and welfare and access in consultation with teacher

3.3 Provide assistance in coordination of work experience programs for Aboriginal and/or Torres Strait Islander students

4. Conduct interviews or home liaison visits to discuss the academic progress and or social development of students

4.1 Inform students and parents/guardians of the time and purposes of the planned visit/liaison

4.2 Discuss the academic and social progress of the student/s in a manner that is linguistically and culturally acceptable to the students and parents/guardians

4.3 Use appropriate interpersonal skills to allow accurate and relevant exchange of information

4.4 Carry out visits punctually and professionally

4.5 Undertake record-keeping and reporting in accordance with school/centre standards and procedures

4.6 Inform teacher/s and relevant staff of the date and nature of the visits
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Education system's policies and procedures
- Structure of the education system
- Curriculum and curriculum framework
- School/centre's policies and procedures
- Duty of care responsibilities
- Safe working practises
- Potential hazards and risks for students
- State and federal legislative and regulatory requirements
- Industrial awards and duty statements
- Relevant code/s of ethics
- Cultural and linguistic background of students and families
- Developmental milestones of children/young people (cognitive, physical, language, social, emotional)
- Child management techniques
- Positive behaviour guidance strategies
- Contextual factors which influence the child's emotional and psychological development
- Factors that enhance the development of self-esteem and self identity
- Own cultural conceptions and pre-conceptions and perspectives of diverse cultures
- An understanding of own culture, western systems and structures and how this impacts on Aboriginal and Torres Strait Islander culture
- Knowledge of the impacts of cultural, sub-cultural, social, religious, gender, age, language issues etc. on attitudes towards education
- Availability of resources and assistance within and external to the school/centre in relation to cultural diversity issues
- The role and use of language and cultural interpreters
- Community health issues
REQUIRED SKILLS AND KNOWLEDGE

- Impact on learning
- Understand own work role and responsibilities
- Understand knowledge of learning and development to implement role and responsibilities appropriately in an educational environment

Essential skills:

The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate effective application of skills in:
  - communication/interpersonal skills of questioning, informing, listening and discussing
  - organisation planning, administrative support skills
  - time management skills
  - active listening
  - study skills
- Identify the capabilities of individual children
- Use and respond to non-verbal communication and cues of children
- Employ culturally respectful practises
- Sensitively and respectfully communicate with persons of diverse backgrounds and cultures
- Work effectively as a member of a team
- Employ basic conflict resolution and negotiation skills
- Show respect and inclusiveness towards culturally diverse people in all work practices
- Communicate effectively with culturally diverse persons
- Apply knowledge of learning and development to implement role and responsibilities appropriately in an education environment
- Adhere to own work role and responsibilities
- Follow school/centre policies and procedures
- Communicate effectively with other adults in the work environment
- Liaise with and report to relevant personnel
- Communicate verbally and non-verbally and to set and apply appropriate limits, taking into account the child/young person's age, development, culture and needs
- Respond effectively to challenging behaviours
- Respond effectively to health issues
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Educational environment may include:

- Government school (pre-primary, primary and secondary)
- Private/non-government school (pre-primary, primary and secondary)
- Education centre
- Kindergarten
- Special education centre
- Community education centre

Student education requirements will vary according to such variables as:

- Students with a disability or disabilities
- Students who are learning English as their second or later language
- Students with special social, emotional, health and/or psychological needs
- Age and ability of students
- Personal Characteristics of students
- Individual learning styles of students
RANGE STATEMENT

Education program may include:
- Literacy and numeracy
- Remediation skills
- Life skills
- Communication and speech
- Individual and class social skills
- Arts
- English
- Health and physical education
- Languages other than English
- Mathematics
- Science
- Society and environment
- Technology and enterprise

Relevant procedures, guidelines, protocols, policies will address:
- Education system's (government or non-government) policies and procedures
- School's and / or centre's policies and procedures
- Relevant legislation from all levels of government that affects the school/centre's operation, especially in regard to occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination

Cultural differences may include:
- Interpersonal approach
- Thinking/learning styles
- Expectations
- Responsibilities
- Priority setting
- Cultural obligations

Factors affecting Aboriginal and Torres Strait Islander education may include:
- History of European/ Aboriginal and Torres Strait Islander contact
- Loss of culture, land, identity and indigenous law
- Family links
- Geographical remoteness
- Lack of relevant and culturally appropriate education
- Feelings of isolation and vulnerability and being culturally unsafe
- Violence

Unit Descriptor
Descriptor
This unit deals with the skills and knowledge required to work in conjunction with teacher to collect and evaluate information to inform strategies that enhance student services within the education workplace

Application of the Unit
Application
This unit is intended for education support workers operating in a range of education contexts and required to undertake research into issues relating to disabilities, funding sources, procedures, protocols, communities, education options, career options and other matters

This work is to be undertaken with appropriate guidance, support and supervision by nominated teacher

Licensing/Regulatory Information

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Collect data to inform education support role | 1.1 Work in conjunction with a teacher to identify information requirements to perform specific education support function  
1.2 Identify potential internal and external sources of information and arrange for access to the information  
1.3 Collect information within set timeframes  
1.4 Access internal and external sources to retrieve required information  
1.5 Collate required information within set timeframes in a manner which enables ease of use |
| 2. Evaluate and interpret information | 2.1 Evaluate information to determine relevance and validity to the set task  
2.2 Analyse information using reliable and suitable methods acceptable to the education context  
2.3 Use assumptions in analysis that are clear, justified and consistent  
2.4 Identify strategies for application in the education support work that are supported by evidence |
ELEMENT  

3. Present information

PERFORMANCE CRITERIA

3.1 Report recommendations and options in an accepted structure, style and format using appropriate technology

3.2 Present reports in a clear and concise manner which conforms to the education organisation requirements

3.3 Distribute reports and information in accordance with organisation requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Information collection and management procedures
- Scope and detail of required information
- Legislative underpinnings of the education work context
- Organisation procedures covering handling and storing information
- Major sources of information

Essential skills:
It is critical that the candidate demonstrate the ability to:
- Integrate application of all elements of competency and their performance criteria in a diverse education environment
- Identify and access varied sources of information
- Collate and present information to meet organisation standards
- Work effectively under pressure
- Comply with organisation procedures relating to security and confidentiality

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:
- Retrieve information from both manual and computerised systems
- Analyse information
- Plan and organise
- Communicate effectively
REQUIRED SKILLS AND KNOWLEDGE

- Undertake problem solving
- Apply the level of reading, writing, language and numeracy competence required to perform effectively in an education support role

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place
- Access to a suitable range of information sources for both candidate and the assessor/trainer

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from a workplace environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Information may include:

- Legislation, regulations, policies, procedures guidelines, awards and agreements
- Legal materials
- Student and family information
- Enrolment trends
- Student reports
- Community partnerships
- Data file records
- Library materials
- Financial records
- Basic statistical information
- Vocational education and training information
RANGE STATEMENT

Internal and external sources of information may include:
- Education organisation intranet/internet sites
- Policy and procedure manuals
- Library and resource systems
- Files/records management systems
- Specific purpose data bases
- Government and non government agencies
- Academic research materials
- Local community sources
- Commercial organisations

Relevance and validity of information means:
- Relevant - must inform the question and relate to the subject matter and the timeframe of the investigation
- Valid - information must come from a reliable source, pertain to the scope of the investigation and have been gathered using accepted methodologies

Methods of information analysis may include:
- Quantitative analysis
- Qualitative analysis
- Connections and comparison of like data
- Identification of relationships between data
- Basic statistical analysis
- Mathematical calculations
- Critical analysis
- Problem solving
- Client feedback

Conclusions are:
- The results of the information analysis - statements of the determinations made or the options available

Present information may include:
- Oral briefing
- Use of presentation software
- Routine reports and briefing notes
- Speech writing
- Proposals
- Articles and promotional material
RANGE STATEMENT

Recognition of contributions may include:

- A nod, smile or handshake
- A few positive words about the task completed
- Thanks and appreciation of the job well done
- A formal appreciation for work by way of issue of a certificate

Unit Descriptor
Descriptor
This unit describes the skills and knowledge required by education support workers to work with teachers to support students developing their mathematics skills for numeracy, including using number, measurement, estimation and problem solving.

The unit provides skills and knowledge to enable education support workers to work with the teacher to develop resources to reinforce mathematics skills for numeracy across the curriculum and to support students during various phases in the acquisition of numeracy competence.

Application of the Unit
Application
This unit applies to education support work in a variety of contexts and work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher or other education professional.

</tr>
</thead>
<tbody>
<tr>
<td>1. Facilitate application of mathematics skills for numeracy</td>
<td>1.1 Identify and explain a variety of numeracy demands and opportunities in daily life</td>
</tr>
<tr>
<td></td>
<td>1.2 Demonstrate the different functions of mathematics using activities and examples</td>
</tr>
<tr>
<td></td>
<td>1.3 Monitor students' understanding and use of mathematics through observation, listening and conversation, and provide information to teachers to inform planning</td>
</tr>
<tr>
<td></td>
<td>1.4 Identify factors affecting acquisition of mathematics skills for numeracy and discuss with the teacher/s</td>
</tr>
<tr>
<td></td>
<td>1.5 Develop numerate understandings appropriate to students' culture, age, abilities, interests and needs</td>
</tr>
<tr>
<td></td>
<td>1.6 Use examples and activities to highlight and explain applications of mathematics for numeracy to scaffold learning</td>
</tr>
<tr>
<td></td>
<td>1.7 Model use of mathematics skills appropriate to a range of life and workplace situations relevant to specific students</td>
</tr>
</tbody>
</table>
ELEMENT

2. Support students to develop mathematics skills for numerate understanding

2.1 Determine strategies for supporting students in the application of mathematics skills for numeracy in consultation with the teacher/s

2.2 Implement planned strategies to enhance the abilities of students and address their individual needs

2.3 Encourage students to problem-solve using mathematics knowledge and skills in everyday life contexts

2.4 Use explicit talk to focus students on specific mathematics knowledge and skills to be numerate

3. Enhance students' mathematics knowledge and skills through structured activities

3.1 Use accurate mathematics terminology and concepts, as planned with teacher/s, to support students' learning

3.2 Implement strategies devised with teacher/s to develop students' skills in the use of mathematics for numeracy understanding

3.3 Use planned strategies to engage students in identifying mathematical knowledge and skills for numeracy across all key learning areas

3.4 Encourage students to improve mental computation and calculation skills using strategies appropriate to students' developmental levels

3.5 Ensure students check for reasonableness of solutions when calculating, using a range of strategies including estimating and technology

3.6 Encourage students and build their confidence to attempt problem solving that requires the use of mathematics knowledge and skills
ELEMENT

4. Design resources to support mathematics learning for numeracy

PERFORMANCE CRITERIA

4.1 Plan *learning environments* and activities in advance with the teacher/s

4.2 Design *resources*, in consultation with teacher/s, to reinforce mathematical knowledge and skills, while fulfilling curriculum requirements

4.3 Design resources to suit the developmental level of the students, as determined by the teacher/s
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge and understanding of:

- Mathematical knowledge and skills appropriate to the students being supported
- The differences between the roles and responsibilities of teachers and education support workers
- Mathematical concepts and operations relevant to the year levels and the needs of students
- Language associated with mathematics and numeracy as used by supervising teacher/s
- Questions to encourage critical thinking about mathematics and its use as a learning tool
- Policy, procedure and legislative issues affecting performance as education support workers
- The role of education support personnel in implementing planned mathematics activities with students
- A range of basic communication strategies
- Questioning techniques that scaffold learning and assist students to problem-solve

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Collaborate with teacher to analyse student needs in relation to development of numeracy understanding and apply an appropriate model of learning to develop the student's mathematics knowledge and skills
- Implement support strategies appropriate to the year level in collaboration with the teacher
- Implement programs that support a range of students who may be at various levels in collaboration with the teacher
- Maintain and complete workplace records
- Adapt examples and activities to meet the specific needs in mathematics knowledge and
REQUIRED SKILLS AND KNOWLEDGE

- understanding of individual students
- Apply knowledge of stages of development in mathematics knowledge and skills
- Use specific strategies to scaffold student learning as directed by a teacher
- Use a range of strategies to support students with the acquisition of mathematics skills and knowledge

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to demonstrate application of skills in:

- Application of mathematical concepts applicable to the year levels in which they operate, i.e. early childhood, primary, secondary
- Identification, collation and development of resources to support development of mathematics skills and knowledge for numeracy
- Effective interpersonal communication (e.g. active listening, giving clear directions and/or instructions, expressing an opinion, suggesting improvements to strategy/methods for assisting/supporting students and teachers
- Time management to provide support to learners as guided by teachers
- Consulting with the teaching team and other education support workers on workplace procedures and new approaches to accommodate individual student requirements
- Problem-solving and scaffolding problem-solving
- Initiative - to use appropriate support strategies when opportunities arise and to inform teachers of student abilities

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed either on the job or off the job through an appropriate workplace simulation
- Assessment should ensure the candidate addresses the elements and performance criteria on at least three occasions, over a period of time

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including access to:
  - an educational work environment or simulation of realistic work environment to enable candidates to demonstrate their knowledge and skills while working with teachers and students
  - mathematics and numeracy terminology used in the educational organisation
EVIDENCE GUIDE

Method of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - case studies
  - demonstration
  - observation
  - questioning - oral and written
  - scenarios, simulation or role plays
  - workplace projects
  - authenticated evidence from the workplace and/or training courses
- Assessment methods should reflect work demands, such as literacy, and the needs of particular groups, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Applications of mathematics knowledge and skills for numeracy may include:

- Using mathematics in real life contexts:
  - Operations and calculations
  - Measurement of area, volume, length etc
  - Reading and interpreting data displays
  - Catering
  - Ordering
  - Reading maps, driving, navigating
  - Timetables and timelines
  - Planning use of spaces
  - Explore situations with money
  - Working mathematically to solve problems

Factors affecting acquisition of mathematics skills for numeracy may include:

- Limited opportunities for practice
- Health issues
- Socioeconomic issues
- Home language other than English

Scaffold learning involves providing temporary support to students to enable their progress toward independent thinking and learning

It may include:

- Relating new knowledge to student's current knowledge
- Breaking new information into smaller chunks
- Approaching new information in a familiar way or by referring to known information
- Encouraging students to concentrate on new information through the use of concrete or real life materials
- Providing achievable challenges with opportunities for thinking and reasoning mathematically
- Encouraging students to communicate their mathematical thinking both orally and written
- Recognising and encouraging attempts to use new information
- Encouraging repeated use of information to achieve automaticity in mental computation
RANGE STATEMENT

Encourage students to problem-solve by:

- Modelling problem-solving strategies aloud (talking the talk)
- Accepting and valuing students' attempts to solve problems
- Encouraging self-help
- Using open ended questioning
- Referring to similar problems and how they were solved
- Encouraging risk-taking
- Allowing sufficient thinking time (wait time)
- Not interrupting the child's reading
- Offering support which provides least support first, and moving to most support only if required

Accurate mathematics terminology and concepts may include:

- Vocabulary - mathematics context versus real world contexts
- Symbols
- Displays (graphs, tables etc)
- Units of measurement
- Mathematics specific conventions

Strategies to develop students' confidence and positive attitude to use their mathematical knowledge and skills (for numeracy) may include:

- Hands on activities
- Activities for real life purposes
- Using technologies
- Active engagement in learning
- Creative problem solving activities
- Investigations and open ended questions
- Opportunities to pose and solve questions
RANGE STATEMENT

*Learning environments may include:* Use of a variety of spaces to indicate mathematics is evident everywhere and across all learning areas:

- Classrooms
- Libraries
- Laboratories
- Outdoor areas
- Community spaces
- Art areas
- Parks and gardens

*Resources may include:*

- Charts
- Posters
- Games
- Concrete materials
- Handouts
- Displays
- Labels
- Workbooks
- Reference materials
- Online and digital resources

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1.      | Encourage and model spoken language | 1.1 Identify and use a variety of *styles of verbal communication*  
|         |                                     | 1.2 Demonstrate the different *functions of language* in interactions  
|         |                                     | 1.3 Monitor students' understanding and use of language through observation, listening and conversation, and provide information to teachers to inform planning  
|         |                                     | 1.4 Identify *factors affecting language acquisition* and discuss with the teacher/s  
|         |                                     | 1.5 Use language appropriate to students' culture, age, abilities, interests and needs  
|         |                                     | 1.6 *Use spoken language to effectively interact* with students  
|         |                                     | 1.7 Use *explicit talk* about language to *scaffold learning*  
|         |                                     | 1.8 Model language appropriate to the situation, the purpose and the audience for students |
2. Support students to read and interpret texts

   2.1 Determine strategies for supporting students in the interpretation of texts in consultation with the teacher/s

   2.2 Implement planned strategies to enhance the abilities of students and address their individual needs

   2.3 Encourage students to problem-solve in order to make meaning from texts

   2.4 Use explicit talk to focus students on specific literacy skills

3. Enhance students' literacy skills through writing activities

   3.1 Use accurate terminology, as planned with teacher/s, to support students' learning

   3.2 Implement strategies devised with teacher/s to develop students' skills in the use of written language

   3.3 Use planned strategies to reinforce literacy skills across all key learning areas

   3.4 Encourage students to improve spelling skills using strategies appropriate to students' developmental levels

   3.5 Support students to plan their writing tasks

   3.6 Encourage students to critically reflect on the effectiveness of their writing

   3.7 Support students to effectively edit their writing

4. Design resources to support literacy development

   4.1 Plan learning environments and activities in advance with the teacher/s

   4.2 Design resources, in consultation with teacher/s, to reinforce literacy skills, while fulfilling curriculum requirements

   4.3 Design resources to suit the developmental level of the students, as determined by the teacher/s
Required Skills and Knowledge
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

***Essential knowledge:***

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge and understanding of:

- The relationships between spoken language and literacy
- The definition of ‘texts’ and range of texts that students need to interpret
- Explicit talk to support student comprehension
- Terminology of literacy as used by supervising teacher/s
- Questioning techniques that scaffold learning and assist students to problem-solve
- Language and literacy developmental continuum appropriate to the students being supported
- The differences between the roles and responsibilities of teachers and education support workers

***Essential skills:***

It is critical that the candidate demonstrate the ability to:

- Adapt spoken language to meet the needs of students and learning programs
- Apply knowledge of stages of development in language and literacy
- Use specific strategies to scaffold student learning as directed by a teacher
- Use a range of strategies to support students with the acquisition of literacy skills and knowledge

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to demonstrate application of skills in:

- Communication
REQUIRED SKILLS AND KNOWLEDGE

- active listening
- speaking - including explicit talk, questioning
- writing - use of genres, editing, spelling
- consultation - with teachers
- Forming letters in scripts appropriate to the phase of learning of the students
- Problem-solving and scaffolding problem-solving
- Initiative - to use appropriate support strategies when opportunities arise and to inform teachers of student abilities

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed either on the job or off the job through an appropriate workplace simulation
- Assessment should ensure the candidate addresses the elements and performance criteria on at least three occasions, over a period of time
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including access to:
  - an educational work environment or simulation of realistic work environment to enable candidates to demonstrate their knowledge and skills while working with teachers and students
  - literacy terminology used in the educational organisation
EVIDENCE GUIDE

Method of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - case studies
  - demonstration
  - observation
  - questioning - oral and written
  - scenarios, simulation or role plays
  - workplace projects
  - authenticated evidence from the workplace and/or training courses
- Assessment methods should reflect work demands, such as literacy, and the needs of particular groups, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

*Styles of verbal communication may include:*
- Informal
- Formal
- Transactional e.g. greetings, shopping, giving directions/instructions
- Reading aloud
- Recounting
- Reciting
- Interrogating

*Functions of language may include:*
- Informative:
  - the communication of information
- Expressive:
  - reports feelings or attitudes of the speaker/writer/subject to evoke feelings in the listener/reader
- Directive:
  - language used for the purpose of causing (or preventing) overt actions
- To establish and maintain relationships
- To influence

*Factors affecting language acquisition may include:*
- Limited opportunities for practice
- Health issues
- Socioeconomic issues
- Home language other than English
- Planned or incidental learning opportunities
RANGE STATEMENT

*Use spoken language to effectively interact may include:*

- Use of phrases and jargon that the student uses
- Using name used by family or friends/peers
- Using language specific to an area of the student's interest e.g. Football/fashion
- Suiting language to the student's age and level of comprehension
- Encouraging participation in group or individual discussions
- Reading books, telling stories, reciting poems and rhymes out loud
- Involving students in songs, rhymes, jokes, plays, presentations
- Informal conversation / chatting
- Varied intonation (for example different intonation used when asking questions, making statements, giving commands)
- Clear articulation to support comprehension
- Appropriate pronunciation
- The ability to transition between verbal cultural norms
- Discussing student's selection of materials/photos collected at home
- Using digital photos to stimulate recall, prediction, discussion, vocabulary about a class activity or excursion
RANGE STATEMENT

Explicit talk (talking the talk) may include speaking aloud about:

- Thinking processes involved in constructing communications ('I' statements)
- Open-ended questioning about meaning and alternative ways to convey meaning
- The structure of a sentence
- The purpose of the language used
- The effectiveness of language used for the chosen audience
- Processes used to determine meaning
- Processes used to work out the spelling of words
- How a word may be broken into syllables to help with spelling or meaning
- Relating the new to the known
- Specific strategies devised for specific purposes in consultation with teacher/s

Scaffold learning involves providing temporary support to students to enable their progress toward independent thinking and learning

It may include:

- Relating new knowledge to student's current knowledge
- Breaking new information into smaller chunks
- Approaching new information in a familiar way or by referring to known information
- Encouraging students to concentrate on new information
- Providing achievable challenges
- Reinforcing attempts to use new information
- Encouraging repeated use of new information to achieve automaticity
RANGE STATEMENT

*Texts may be drawn from many genres including:

- **Literary texts** - characterised by the aesthetic use of language and the imagination to explore understandings about human experience through real and imagined (including virtual) worlds. Examples of literary texts include:
  - narrative picture books
  - novels/e-books/short stories
  - poems (ballads, lyrics, sonnets)
  - plays/drama
  - song lyrics
  - biographies/autobiographies
  - feature films

- **Everyday texts** - those associated with education, leisure, work, family and daily life:
  - factual texts/reference books/dictionaries
  - DVDs (feature films)
  - web-linked computer games
  - personal email/on-line discussions/SMS messages
  - letters/reports
  - catalogues/advertising
  - signs (street names, directional signs)

- **Mass-media texts** - those produced in a variety of paper and electronic media for a mass audience:
  - television programs
  - newspaper stories
  - magazine features
  - radio talkback
  - television news
  - feature films
  - web pages
RANGE STATEMENT

 Strategies for supporting students in the interpretation of texts may include:

- Orientation to the text
- Asking for students' opinions about parts of the text
- Asking students to compare the text to other texts
- Asking students to compare the text to their own experiences
- Encouraging students to analyse and/or criticise the text
- Encouraging students' consideration of the genre of the text
- Encouraging students' consideration of the effectiveness of the text's messages
- Engaging in discussion that summarises or encourages comment about information in the text
- Utilising Rosenblatt's Five Response Types to encourage deeper understanding of the text's meaning

Encourage students to problem-solve by:

- Modelling problem-solving strategies aloud (talking the talk)
- Accepting and valuing students' attempts to solve problems
- Encouraging self-help
- Using open ended questioning
- Referring to similar problems and how they were solved
- Encouraging risk-taking
- Allowing sufficient thinking time (wait time)
- Not interrupting the child's reading
- Offering support which provides least support first, and moving to most support only if required
RANGE STATEMENT

Accurate terminology will depend on the phase of learning being supported and may include selections from this glossary of terms:

- Active voice:
  - refers to a verb group where the subject of the clause is the actor or 'do-er' (e.g. 'the child washed the window' as opposed to 'the window was washed by the child' which is in passive voice)

- Antonym:
  - words that have an opposite or contrasting meaning to a given word (e.g. 'alive' is an antonym of 'dead')

- Clause:
  - a unit of meaning grouped around a process (verb); the basic building block of language. (e.g. 'I finished my work, even though I was tired'; My boss, who's moving to another department soon, is organising a party')

- Decoding:
  - processes involved in changing written letters into spoken sounds to arrive at the meaning of the written text - a bit like 'breaking the code'

- Discourse:
  - a Discourse (upper-case D) is a socially accepted association among ways of using language, of thinking, feeling, believing, valuing and acting that can be used to identify oneself as a member of a socially meaningful group or social network

- Encoding:
  - process of changing spoken language into symbols of written language (writing) similar to converting spoken language into a code

- Field:
  - the topic of language in a particular context, realised through processes, participants and circumstances

- Foreground:
  - make the focus by placing at the beginning of a clause, sentence, paragraph or text

continued ...
RANGE STATEMENT

Glossary (contd):

- **Genre:**
  - any staged, purposeful social activity which is accomplished through language (e.g. making a purchase in a shop, a letter to the editor, meeting procedures)
  - genres which are valued and common in formal schooling contexts include recounts, descriptions, reports, narratives, arguments and discussions
  - texts can be macro-genres; that is, they consist of two or more genres in achieving their overall purpose
  - for example, in writing an argument against the logging of rainforests, the writer might include a report about the trees that grow in rainforests and the animals that need the rainforests to survive

- **Graphophonic code/graphphonics:**
  - the set of letters and sounds and rules for using them to convert spoken language into written language
  - the grapho part of the word is derived from the Greek root graphos meaning to write and the phonic part is derived from the Greek root phonos meaning sound

- **Language:**
  - language (both oral and written) is a semiotic system that uses words, sentences and paragraphs as its set of signs and codes to convey meaning

- **Literacy:**
  - the flexible and sustainable mastery of a repertoire of practices with the texts of traditional and new communications technologies via spoken language, print, and multimedia

- **Metalanguage:**
  - a language for talking about language, its patterns and conventions

- **Metalinguistic awareness**
  - awareness of the form of language rather than its meanings i.e. its patterns, sounds and conventions
  - examples: caterpillar is a long word (even if a caterpillar is a short little creature); want I go (incorrect order) for I want to go.

- **Modality**
RANGE STATEMENT

- refers to the aspect of speaker/writer judgement or assessment of probability, usuality, obligation and inclination (e.g. 'he might be the one' 'she always wins' 'I always have to help')

continued ...

Glossary (contd):

- Mode:
  - concerned with the medium and channel of communication
  - broadly speaking, it refers to whether the channel of communication is spoken or written, and is the role that language has in the meaning making

- Morphemes:
  - the smallest units of meaning in a word
  - examples: sighs (two morphemes sigh + the plural marker s); size (one morpheme); pretty (one morpheme but two syllables)

- Multiliteracies:
  - literacy educators use the term multiliteracies to focus on the ways in which literacy education will continue to change in order to equip students with the skills necessary to be active and informed citizens in present and future societies, and to address the challenges posed by a changing world

- Onset-rime:
  - the division of a word into the initial consonant or consonant blend and the following syllables
  - Examples: p-ot (pot): str-ing (string): m-y (my)

- Passive voice:
  - refers to a verb group where the subject of the clause is the goal or the receiver of the action (the done-to) e.g. 'the car was washed by the child' as opposed to 'the child washed the car' which is active
  - the passive voice is used when the speaker/writer wishes to foreground the goal of the action as in:
    - 'the dried ingredients are added to the mixture'
    - 'the car gets serviced at the garage'
    - 'taxes were raised after the election'

- Pedagogy:
  - all the various aspects associated with teaching including teaching, assessing and planning
RANGE STATEMENT

- Phonemes:
  - the smallest element of sound that allows us to differentiate between words (examples: cat, rat or big, bag)
  - the sounds represented by those letters are phonemes
  - phonemes are the smallest building blocks of our language

*continued ...*

Glossary (*contd*):

- Phonemic awareness:
  - concepts about the structure of words (individual phonemes)
- Phonics:
  - a term commonly used instead of the term graphophonics
  - the word makes reference to the 'sound' aspect of the word and does not include the 'letter' aspect
  - phonics and graphophonics are used interchangeably
- Phonological awareness:
  - concepts about the way spoken words sound including an understanding that words can be broken into syllables, an understanding of alliteration, onset and rime, and rhyme
- Reading:
  - a problem-solving process involving the use of cognitive, cultural and social resources
- Scaffold:
  - in pedagogy: temporary support given to students to enable their progress toward independent thinking and learning
  - this support may take the form of explanations, examples, pictures or diagrams, with teacher modelling of procedures, responses etc
  - the amount of scaffolding is deliberately reduced as the student progresses
- Schematic structure:
  - the distinctive way in which a text is structured, having identifiable stages or parts which enable it to achieve its purpose
- Semantic or semantics:
RANGE STATEMENT

- meaning
- Semantic cueing system:
  - the meaning clues the reader is able to use to decode and to make meaning
  - clues relate to all different kinds of knowledge the reader has and related to the reading
- Subject-verb agreement:
  - refers to where a plural subject requires a plural finite (verb) form (e.g. 'chairs were ...') or a singular subject requires a singular finite form (e.g. 'a chair was ...')
- Synonym:
  - a word with a similar meaning to another (e.g. 'youthful' is a synonym of 'young')

Glossary (contd):

- Syntax:
  - word order: the rules that govern the way the words are ordered in sentences
- Syntactic cueing system:
  - the clues the reader is able to use about possible words because of their knowledge of syntax as they decode and make meaning
- Teacher talk:
  - the term used to refer to the specific way teachers and support personnel use language to interact with the children for the purpose of supporting their learning
- Tense:
  - the setting in time of a clause (e.g. the primary tenses are past - 'I went', present - 'I am going', and future 'I will go')
- Text:
  - most broadly, this term is used to refer to anything which can be read for meaning. A text is a combination of signs selected and organised to convey meaning
- Theme:
  - refers to what is foregrounded in a clause, which focuses the listener/reader on how the text is unfolding
RANGE STATEMENT

Strategies to develop students' skills in the use of written language may include:

- Helping students to have a go at unknown words
- Modelling (by an adult) of spelling strategies
- Scribing for beginning writers
- Using temporary spelling as a tool for early writing
- Written conversations
- String sentences
- Transformations for supported writing
- Using a digital camera to support writing

Spelling skills may be enhanced through the development of:

- Visual awareness:
  - recognising the shapes and patterns of letters and words
- Morphemic awareness:
  - recognising patterns of meaning within and between words
- Graphophonic awareness:
  - recognition of relationships between shapes (letters or groups of letters) and sounds
- Etymological awareness:
  - recognition of the historical origins of words and their meaning

Plan writing tasks may include:

- Deciding on the purpose
- Determining the audience
- Deciding what the message is
- Researching specific information and/or references
- Structuring the writing to best convey the message to the audience
- Drafting and editing
RANGE STATEMENT

Encouraging students to critically reflect on their writing may include:

- Questioning:
  - Does it say what you want it to say?
  - Is the message clearly articulated?
  - Is it easy to read?
  - Is the format inviting?
  - Is there any unnecessary material?
  - Is all the necessary information presented?
  - Is there an effective conclusion?
- Asking students to read their writing aloud
- Reading parts of the writing aloud to the student to help identify problems
- Suggesting comparison against exemplar texts

Effectively edit writing may include checking and revising:

- The structure of paragraphs
- The structure of sentences
- The information contained in the text
- The flow of the writing
- References
- Formatting
- Spelling
- Applicable genre structure
- Language/ tone/ vocabulary suits the audience and the purpose

Learning environments may include:

- Classrooms
- Libraries
- Laboratories
- Outdoor areas
- Community spaces
- Art areas
RANGE STATEMENT

Resources may include:
- Charts
- Posters
- Games
- Handouts
- Displays
- Labels
- Workbooks
- Reference materials

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Apply understanding of current education approaches relevant to the education environment</td>
<td>1.1 In consultation with teacher or other education professional, identify teaching and learning approaches applicable to the relevant education environment</td>
</tr>
<tr>
<td></td>
<td>1.2 Confirm the teaching and learning approach and its principles of practice with the supervisor</td>
</tr>
<tr>
<td></td>
<td>1.3 Select resources to support the learning approach</td>
</tr>
<tr>
<td></td>
<td>1.4 Work with teacher to plan learning activities and classroom supervision of student interactions</td>
</tr>
<tr>
<td></td>
<td>1.5 Conduct the learning activities and supervision of student interactions</td>
</tr>
<tr>
<td></td>
<td>1.6 Demonstrate principles of practice in the learning environment that reflect specified learning approaches</td>
</tr>
</tbody>
</table>
ELEMENT

2. Establish an environment conducive to student learning

PERFORMANCE CRITERIA

2.1 Identify and confirm learning requirements for the specified activity by interpretation of the learning program with the teacher

2.2 Meet specified needs of identified students in planning and preparation phase with the teacher

2.3 Assemble and where necessary, modify required resources prior to the activity

2.4 Reflect the appropriate principles of practice in the planning and delivery of the activity

2.5 Establish a positive, mutually respectful relationship with students using communication and interpersonal skills to match the student/group

3. Facilitate the learning process

3.1 Interact with students to reflect application of principles of practice in accordance with student learning styles

3.2 Conduct each activity in accordance with provided programs and directions

3.3 Take opportunities to enhance learning activities within the scope of the endorsed principles of practice

4. Support and monitor student learning

4.1 Monitor, document and report student progress to supervising staff to ensure learning outcomes are being achieved

4.2 Modify and adjust delivery strategies to meet emergent needs and unanticipated situations

4.3 Encourage students to reflect on personal learning achievements and learning experiences

4.4 Manage student interactions to ensure effective participation occurs and effective relationships are maintained

4.5 Manage behaviour of concern using a range of established and agreed techniques

4.6 Maintain store and secure student records in accordance with the organisation requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Awareness of contemporary theories of learning
- Understanding of the appropriate principles of practice for the identified education environment
- Understanding the learning process
- Learning styles and how these influence learning outcomes
- Institution's process and procedures for working with students and supporting behaviour
- Understanding of the different responsibilities of teachers and education support workers for student learning outcomes
- Relevant legislation, policies and standards that regulate education service delivery, occupational health and safety, behaviour support and anti-discrimination

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Articulate a basic understanding of the application of the principles of practice as used in the employing education environment
- Demonstrate principles of practice in the learning environment
- Adjust resources/activities to meet individual learning needs
- Implement a range of behaviour support techniques
- Comply with procedures relating to student behaviour support
- Activate the learning process
- Organise and manage data
- Use communication skills to deliver learning activities

In addition, the candidate must be able to effectively do the task outlined in elements and
REQUIRED SKILLS AND KNOWLEDGE

performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Use interpersonal skills that influence positive student and staff interactions
- Apply the level of reading, writing, language and numeracy competence required to perform effectively in an education support role
- Demonstrate the application of skills in:
  - planning and organising
  - teamwork
  - cross cultural competence, including gender and disability awareness initiative

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - relevant workplace or simulated realistic workplace setting where assessment may take place
  - principles of practice in use in the education environment
  - organisation's documentation regarding contemporary teaching practice or direct information from the supervising teacher
  - behaviour support policies and procedures applicable to the organisation

Method of assessment may include:
- Evidence gathered from a workplace environment
- Observations
- Questioning
- Case studies
- Written assignments

Range Statement
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Teaching and learning approaches will usually be based on contemporary theories of learning applicable to the education sector and may include but are not limited to:

- Direct teaching of whole class or small groups
- Use of games and activities requiring a physical response
- Use of technologies
- Provision of opportunities for students to apply their learning either on their own (e.g. reading or writing), or with others (in pairs or groups), with varying degrees of support.
- Provision of opportunities for students to reflect on and reinforce their own learning

Sector or education environment may include:

- Early years
- Middle school
- Senior years
- Special education
- Distance and flexible learning
- Vocational education
- Adult education

Principles of practice include:

- Underpinning elements that reflect the philosophy/theory of learning being used by teachers
- Principles inform the teaching and learning approaches of teachers
- Principles related to a particular type of approach
- Principles inform the operation structure within which an education support worker will work
RANGE STATEMENT

**Programs may include but are not limited to:**

- Literacy programs
- Numeracy programs
- Individualised programs
- VET courses
- Any educational program that focuses on a student's learning

**Identified students may include:**

- Students with special needs
- Students with a learning disability
- Students with other disabilities
- Students with behavioural issues

**Communication and interpersonal skills will be tailored to:**

- Phase of learning
- Activity
- Desired learning outcomes
- Student/s needs
- Age of the student/s
- Situation
- Cultural environment

**Student learning styles may include:**

- Kinaesthetic
- Aural
- Visual

**Modify and adjust delivery strategies may include:**

- Adjustments to learning activity that do not communicate the intended learning outcomes
- Adjustments that cater for a student's learning style
- Adjustments that enable flexibility e.g. in time and/or interactions within the learning group
- The scope agreed with supervisor/teacher
RANGE STATEMENT

Monitor student progress may include:

- Gathering data as required by teacher/supervisor
- Recording student achievements
- Recording problems that may develop during an activity
- Reporting back to supervisor/teacher

Manage student interactions may include:

- Behavioural support processes, e.g. following Responsible Behaviour Plans
- Encouraging individuals to contribute
- Ensuring all participants are heard
- Redirecting students who are off track
- Assisting students to problem solve
- Encouraging the appreciation of diversity

<tr>
<td></td>
<td>1.2 Adjust communication methods and style to cater for individual and cultural difference</td>
</tr>
<tr>
<td></td>
<td>1.3 Seek and provide clarification of communications when necessary</td>
</tr>
<tr>
<td></td>
<td>1.4 Interpret complex information to make it meaningful to others</td>
</tr>
</tbody>
</table>
ELEMEN
T
2. Contribute to the development of effective communication within the education organisation

PERFORMANCE CRITERIA
2.1 Consider special communication needs in developing strategies to avoid discrimination
2.2 Evaluate and revise communication skills to ensure they are effective
2.3 Use a variety of communication channels to inform staff, students, parents and external audiences of relevant information under direction of teacher
2.4 Promote the use of effective listening skills in within the education community

3. Represent the education organisation to an audience as directed by teacher

3.1 Select, prepare and present information to promote the education organisation in an accurate way
3.2 Deliver presentations in a clear and sequential manner, within time constraints
3.3 Use electronic and other media to enhance presentations
3.4 Invite participation from the audience to enhance the presentation where appropriate
3.5 Express ideas clearly and concisely, with language adjusted to meet audience needs
3.6 Match body language and verbal messages
3.7 Respect and consider differences of opinion in a manner that encourages and values the contributions of others
ELEMENT

4. Facilitate formal and informal discussions and meetings as directed by teacher

PERFORMANCE CRITERIA

4.1 Adhere to agreed venue and times when conducting formal discussions
4.2 Set and follow agendas/objectives for meetings and discussions
4.3 Provide relevant information in advance to participants to facilitate meeting outcomes
4.4 Identify and acknowledge contributions from all participants
4.5 Use effective questioning, speaking, listening and non-verbal communication techniques
4.6 Identify and cater for specific communication needs of participants

5. Produce quality written material

5.1 Present written documents in a logical and sequential way that matches the audience and purpose
5.2 Write documents in a clear and succinct manner
5.3 Write materials to conform to the education organisation standards
5.4 Construct documents using current organisation templates, guidelines and terminology
5.5 Present alternative views, approaches, and options for consideration by the reader
5.6 Formulate conclusions based on facts contained within documents
5.7 Align recommendations with presented information
5.8 Acknowledge references using the recognised reference standard of the education organisation
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant legislation, policies and standards that regulate education service delivery, work health and safety (WHS), behaviour support and anti-discrimination
- Effective oral and written techniques
- Format and processes for formal meetings
- Organisation requirements for correspondence and published materials
- Relevant referencing standards
- Range of adaptations to communication techniques that may be required by individuals with specific communication needs
- A range of questioning techniques

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Adapt presentation styles to meet the needs of the audience
- Demonstrate appreciation of the range of individual needs in a specific community audience
- Demonstrate comprehension and communication skills sufficient to simplify complex written materials for another person
- Use grammatical conventions accurately
- Chair a formal meeting
- Use presentation software
- Use a range of technologies
- Effectively communicate with a diverse range of individuals
- Demonstrate comprehension and summarisation of complex information
- Construct written information to organisation standard
- Present to an audience
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from a workplace environment
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Oral, written and non-verbal communication in and on behalf of the education organisation may occur with:*

- Representatives of groups or organisations
- Members of the public
- Supervisors in own and other education organisations
- Peers in own and other education organisation
- Teaching and non teaching staff
- Private organisations
- Academic organisations
- Public sector agencies
- Colleagues in different locations
- Networks
- Other work areas of the education organisation
RANGE STATEMENT

Oral communication may include:

- Answering questions
- Asking questions to elicit various responses (especially from students)
- Conveying descriptions, explanations and instructions
- Consulting and advising within the scope of responsibilities
- Formal and informal presentations to different audiences
- Leading discussions amongst staff and/or students
- Negotiating
- Charing and participating in meetings
- Conflict resolution
- Coaching advocacy
- On the job training

Appropriate instructions are delivered using suitable language, in a respectful way and may include:

- Instructions to students using vocabulary suited to the age group, special needs, task and/or circumstances
- Providing directions to visitors using gestures and identifiable landmarks then checking to ensure understanding
- Showing a colleague how to use equipment that may involve staffed directions
- Explaining a process or procedure to a parent, volunteer or colleague
RANGE STATEMENT

Adjustments to communication methods refers to:

- Squatting or bending down to speak to small children at their own level
- Waiting to be involved to speak
- Sensing whether humour is appropriate or not
- Body positioning e.g. ensuring you do not take up a stance that might be intimidating or threatening
- Using forms of address to suit an individual’s cultural mores
- Providing a suitable introduction
- Using pictures or diagrams where there are language barriers
- Use an interpreter
- Knowing when it is appropriate to use information and communications technology

Interpret complex information may include:

- Simplifying the information to the most important messages
- Providing examples to clarify points
- Relating the information to an individual’s circumstances
- Rendering the information in a different form
- Re-reading information with appropriate emphasis and intonation
RANGE STATEMENT

Special communication needs may include:

- Audiences not available when information is regularly disseminated
- Alternate formats for written information
- Hearing needs participants may need to position themselves to read a speaker’s lips
- People with hearing disability may need a signer to interpret for them
- Speech/language needs
- Intellectual disability
- Varying levels of literacy
- Technical inability
- Requirements for a translator
- Need for headphones
- Teleconference facilities
- Videoconference facilities

Communication channels may include:

- Faced to face conversations
- Newsletters delivered to students
- Noticeboards
- Community newspapers
- Emails
- Meetings
- Electronic newsletters
- Telephone calls
- Written information by mail
- Procedural channels e.g. grievance procedure
- Use of technology
RANGE STATEMENT

Effective listening skills may include:

- Focused attention on the speaker
- Reflecting to confirm understanding
- Questioning for clarification or further information
- Acknowledging the speaker’s point of view
- Eye contact positioning
- Gesturing
- Voice inflections
- Sounds
- Posture and facial expression
- Use of space and time

Formal discussions are usually recorded and may include:

- Staff meetings
- Interviews
- Planning meetings
- Parent/carer committee meetings
- WHS committee meetings
- Negotiations for supply/provision of resources or facilities

Informal discussions are not usually recorded and may include:

- Conversations about an issue prior to formal discussions
- Unplanned conversations
- Unplanned sharing of ideas with colleagues
- Conversations with parents about issues not requiring professional judgement

Effective questioning may include:

- Using open-ended questions
- Using closed questions
- Using probing questions
- Using direct questions
RANGE STATEMENT

Written material may be both handwritten and typed using computer equipment and may include:

- Minutes of meetings
- Routine and complex reports
- Proposals, project plans and spreadsheets
- Briefing notes
- General internal and external correspondence
- Speeches, articles and marketing materials
- Instructions, procedures and policies

Current standards for written materials in educational organisations will usually require accurate use of:

- Grammar
- Spelling
- Specific genres
- Sentence structure
- Formatting
- Vocabulary
- Punctuation
- Organisation templates
- Correspondence guidelines

| 3. Report on service delivery | 3.1 Articulate recommendations for action to be taken based on arguments for and against particular recommendations  
3.2 Provide issues and recommendations for improvement in a report to relevant personnel  
3.3 Adjust operational plans in line with recommendations and communicate these to the persons responsible for implementation |
| 4. Consolidate opportunities for further improvement | 4.1 *Document own work performance* and use the information to identify opportunities for further *professional development*  
4.2 Embed in practice responsibility for own professional development  
4.3 Incorporate new knowledge and skills into work practice |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Policies and procedures of the organisation that apply to document preparation
- Methods that are used in continuous improvement in an education environment
- Policies of circulation of records
- Organisation's standards for service delivery
- Organisation's recording, reporting and recommendation processes to facilitate continuous improvement
- Benefits of continuous improvement
- Barriers to continuous improvement
- Formal and informal opportunities for professional development

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Demonstrate participation in organisations continuous improvement processes
- Comply with legislation requirements of the education environment
- Effectively relate to a diverse range of people
- Demonstrate practical application of new knowledge and skills in the workplace
- Follow organisation policies and procedures for record-keeping
- Use literacy to access organisation's information and complete documents accurately
- Monitor and evaluate service delivery on own, team and organisation level
- Use communication methods appropriately to meet recipient needs
- Use clear, concise and accurate communication skills with diverse range of individuals
- Follow organisation policies for preparing documents
- Demonstrate accurate spelling, grammar and punctuation
- Apply time management for prioritising the distribution of information
REQUIRED SKILLS AND KNOWLEDGE

- Use desktop computer and printer

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - appropriate documentation templates
  - a computer and printer similar to that used in the organisation context
  - organisation standards
  - information about the organisations continuous improvement processes

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Continuous improvement processes may include:

- Policies and procedures which allow the organisation to systematically review and improve the quality of its services and procedures
- Cyclical audits and reviews of workplace, team and individual performance
- Seeking and considering feedback from a range of stakeholders
- Modifications and improvements to systems, processes, services and products
- Monitoring and evaluation of effectiveness
RANGE STATEMENT

Operations and services may include:

- Development and/or provision of teaching/learning resources
- Teacher support
- Student support
- Communication with parents and community members
- Administrative functions
- Operating equipment
- Maintenance of equipment
- Technology services
- Reporting
- Stocktaking
- Setting up and dismantling of displays/learning spaces and activities
- Projects
- Facilitation of VET in schools

Effectiveness of service delivery may include:

- Being in the right place at the right time
- Accurate provision of resources
- Timely provision of resources
- Contributing ideas and suggestions
- Following guidelines/policies/directions/codes of conduct
- Using initiative
- Management of students
- Keeping a sense of humour
- Role modelling for students
- Valuing diversity
- Following work health and safety (WHS) procedures
- Compliance with principles of practice used in the education environment
RANGE STATEMENT

Team members may include:
- Teachers
- Principals
- Deputy Principal
- Head of Department
- Parents of a student
- Students
- Education support workers
- Cleaners
- Administration
- Staff school officers
- Tutors
- Volunteers

Recommendations for improvement may include:
- Alterations to timetables
- Scheduling maintenance
- Alternative resources
- Alternative suppliers
- Alternative systems/software
- Reallocation of responsibilities
- Rescheduling duties
- Professional development

Report may include:
- Verbal reports
- Written reports
- Completed forms
- Agenda items
- Risk assessments
- Log entries

Document own work performance may include:
- Anecdotal notes
- Diary entries
- Commendations
- Certificates
- Feedback received
- Visual feedback/ photos/video records
CHCEDS412B Contribute to continuous improvement processes within the education environment

Date this document was generated: 31 March 2017

SkillsIQ

RANGE STATEMENT

Professional development may include:

- Participating in mentoring and coaching
- On the job learning
- Undertaking research
- Attending seminars
- Attending courses
- Participating in networks
- Work shadowing
- Job rotation
- Discussions with supervisors and/or colleagues
- Participation as a member of committees

Unit Sector(s)

Not Applicable
CHCEDS413A Support students with learning difficulties and learning disabilities

Modification History

| 1. Identify problems experienced by students with learning difficulties and learning disabilities | 1.1 Explain the difference between *learning difficulties and learning disabilities*
| | 1.2 Identify *learning difficulties associated with literacy*
| | 1.3 Identify *learning difficulties associated with numeracy*
| | 1.4 Identify *learning difficulties associated with learning how to learn*
| | 1.5 Identify *learning difficulties associated with attention deficit hyperactivity disorder*
| | 1.6 Identify *learning difficulties associated with conditions affecting processing visual information* |
ELEMENT

2. Contribute to team planning for students with learning difficulties in a supportive education environment

PERFORMANCE CRITERIA

2.1 Provide observations to the education team to inform the process for planning for students with learning difficulties

2.2 Develop expectations for students with the education team

2.3 Plan strategies to increase student access to learning with the education team

2.4 Identify and assemble required resources

3. Provide support to students with learning difficulties

3.1 Use assistive technologies where appropriate

3.2 Use planned strategies to meet the needs of individual students

3.3 Provide students with regular opportunities for practising new skills

3.4 Monitor student progress and inform teachers on a regular basis
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Diversity
- Roles and responsibilities of the teacher/s and the education support worker
- Effects of learning difficulties and learning disabilities
- Relevant legislation, policies and standards that regulate education service delivery, occupational health and safety, behaviour support and anti-discrimination
- Language, literacy and numeracy support strategies appropriate to the phase of learning
- Support appropriate to a range of learning situations for students with learning difficulties or learning disabilities

Essential skills:
It is critical that the candidate demonstrate the ability to
- Contribute to the education team and participants in planning for students with learning difficulties and/or disabilities

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:
- Communicate using a range of verbal and non-verbal, written and technological techniques
- Use inclusive language
- Maintain confidentiality
- Work as part if a team
- Practise self management
REQUIRED SKILLS AND KNOWLEDGE

- Use problem solving strategies
- Set up and use adaptive technologies required by students
- Adapt education resources to meet the needs of students with learning difficulties

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Learning difficulties and learning disabilities refer to:

- Learning difficulties:
  - short-term or persistent problems in one of more of the areas of literacy, numeracy and learning how to learn
- Learning disabilities:
  - learning difficulties with a neurological basis of persistent, long-term problems and high support needs in one of more of the areas of literacy, numeracy and learning how to learn
  - idiosyncratic learning styles that are determined by the nature of a specific disorder that inhibits learning

Learning difficulties associated with literacy may include:

- Written language difficulties:
  - expression
  - organisation
  - coherency
  - mechanics
- Reading difficulties:
  - semantic and syntactic cues
  - grapho-phonetic cue
  - studying
- Speaking and listening:
  - understanding social contexts
RANGE STATEMENT

Learning difficulties associated with numeracy may include:
- Working with measurement
- Working with number
- Chance, algebra, patterns and space
- Money

Learning difficulties associated with learning how to learn may include:
- Knowing about learning
- Knowing about themselves as learners

Learning difficulties associated with attention deficit disorder (ADD) and attention deficit and hyperactivity disorder (ADHD) may include:
- Ability to concentrate and retain information be affected by difficulties in:
  - attending to detail
  - sustaining attention
  - organising tasks
  - memory retention
- Behaviours that interfere with learning:
  - amount and level of talking
  - impulsive responses
  - need for planned 'motor breaks'

Learning difficulties associated with conditions affecting processing visual information may include:
- Visual closure
- Visual-spatial relationships
- Form discrimination
- Visual discrimination
- Visual memory
- Visual integration
- Visual pursuit and tracking

Education team may include:
- Class teachers
- Education support workers
- Heads of department
- Head of special education services
- Principal
- Specialists
RANGE STATEMENT

Expectations for students may include:
- Progress and development
- Participating in activities with peers
- Adoption of strategies and techniques to supplement intrinsic abilities
- Effective learning outcomes that fulfil students' potential

Strategies may include:
- Adjustments to activities
- Adjustments to program
- Adaptations to resources
- Use of technologies
- Behaviour modification techniques
- One-on-one support
- Peer support
- Allowing individual time for completion of tasks
- Arrangement of the learning space
- Minimal distractions

Resources may include:
- Computers
- Software
- Concrete learning materials
- Adapted learning materials
- Charts and posters
- Lists

Assistive technologies may include:
- Computer hardware
- Software that 'speaks' the words that are typed
- Spelling checkers
- Editing programs
- Spectacles
- Line guides
- Calculators
- Tape recorders

4.4 Access *professional development opportunities* and implement new skills in supervising students |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Supportive behaviour techniques appropriate to the education environment and students
- Risk management procedures of the organisation
- Appropriate sources of required additional information about students to be supervised
- Reporting requirements for hazards/incidents
- Effective use of communication equipment/procedures
- Responsibilities of the education support worker when supervising students in non-classroom environments

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Use a range of supportive behaviour techniques as described in the education organisations supportive behaviour plan
- Maintain equilibrium under stress
- Identify potential hazards and associated risks
- Contribute to the development of risk management strategies for non-classroom based activities

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Value and respond appropriately to cultural difference
- Make accurate observations of student interactions
REQUIRED SKILLS AND KNOWLEDGE

- Make accurate evaluations and report information correctly
- Use effective verbal and non-verbal communication
- Cooperate with team members and supervisors
- Maintain equilibrium whilst supervising students
- Apply judgement to determine a suitable course of action
- Demonstrate self awareness to determine own professional development needs

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency
EVIDENCE GUIDE

Access and equity considerations:
• All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
• All workers should develop their ability to work in a culturally diverse environment
• In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
• Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
• This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
• Resources required for assessment include access to:
  • relevant workplace or simulated realistic workplace setting where assessment may take place
  • education organisation's behaviour support plan
  • copies of documentation compiled by candidate
  • organisation policies and procedures for excursions, and/or bus and playground duties

Method of assessment:
• Assessment may include observation, questioning and evidence gathered from a workplace environment, case studies, demonstration, simulations and role plays

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Environment may include:*
- School grounds
- Community locations
- Building and facilities
- Bushland
- Camping grounds
- Sports grounds

*Physical hazards may include:*
- Unsafe equipment
- Hot equipment
- Sharp materials
- Motorised equipment
- Water
- Flying objects
- Protruding objects
- Holes in the ground
- Traffic
- Animals and wildlife
- People
- Transport systems
- Weather conditions

*Impediments to active supervision may include:*
- Blind spots
- Size of the area to be supervised
- Number of students to be supervised
- Accidents and incidents
- Access and exit points
RANGE STATEMENT

Strategies to address identified risks include:

- Development of an action plan in case of emergency
- Increased ratio of adults to students
- Prior inspections of areas to be visited
- Information provided in permission slips
- Changes to duty areas
- Changes to timetables
- Discussion with transport providers
- Discussions with local authorities
- Information sharing
- Knowledge of emergency procedures
- Ongoing assessment of grounds and facilities
- Expectations for behaviour clearly articulated
- Additional training for staff
- Use of portable communications equipment

Positive student management techniques may include:

- Ten micro skills for management focused language:
  - establishing expectations
  - giving instructions
  - waiting and scanning
  - cueing with parallel acknowledgement
  - encouraging through body language
  - descriptive encouraging
  - selective attending
  - giving choice
  - following through
  - defusing
- Maintaining composure
- Showing respect for individuals and cultural difference
- Modelling problem solving
- Effective use of communication skills
- Use of strategies outlined in the education organisation's supportive behaviour plan
RANGE STATEMENT

Additional needs of students may include:

- Abilities/disabilities
- Support strategies to be used
- Friends and buddies
- Known antecedent-related interventions appropriate to out of class activities
- Equipment
- Health management plans
- Critical incidents that may influence behaviour
- Emotional, behavioural, family history

Verbal and non-verbal techniques may include:

- Short positive clear instructions
- Consistent use of instructions
- Firm, calm tone of voice
- Cueing with parallel acknowledgement
- Encouraging through body language
- Descriptive encouraging
- Selective attending
- Giving choice
- Defusing
- Eye contact\positioning of self and student
- Facial expressions
- Holding student’s hand
- Gestures

Methods of communication may include:

- Walki.e. talk.i.e. - hand held radios
- Mobile phone
- Card system
- Calling out
- Sound an alarm
- Sending a message with a student
RANGE STATEMENT

Debriefing processes may include:

- Use of a quiet space
- Relevant members of staff
- Questions
- Discussion
- Reflecting back
- Assurance of survival/safety

Education team may include:

- Principal
- Teachers
- Administration staff
- Education support workers
- Guidance and school counsellor staff
- Grounds Persons
- Chaplin/minister
- Nurses
- Advisory visiting staff

Professional development opportunities may include:

- Accessing organisation policies
- Mentoring by experienced staff member
- On the job training
- Workshops, on line or studies in behaviour support
- Contributing as a team member to risk management planning and/or planning for behaviour support
- Networking
- Recommended readings

Unit Descriptor

Descriptor
This unit deals with the skills and knowledge required to support, contribute to and coordinate education opportunities for students including those from Aboriginal and/or Torres Strait backgrounds.

Application of the Unit

Application
This unit is intended for addressing areas of support for Aboriginal and/or Torres Strait Islander students learning.
It addresses inclusion of community members in school activities, demonstration that everyone is valued in day to day interactions and support for student development of their self concept.
These strategies are applicable to all students however the unit focuses specifically on approaches that address the needs of Aboriginal and/or Torres Strait Islander students.
This unit applies to work undertaken with appropriate guidance, support and supervision by a nominated teacher or other education professional.

5. Support numeracy strategies | 5.1 Select and where necessary contextualise numeracy resources to create meaningful learning experiences in consultation with the teacher
 | 5.2 Select *delivery strategies* in consultation with the teacher
 | 5.3 Manage sensitively, the resources and personnel who support the literacy programs
 | 5.4 Obtain advice to identify *barriers to learning* and to develop strategies that match students' learning needs

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Differences between cultural groups
- Requirements of anti-discrimination legislation
- Benefits of diversity to the school community
- Principles and practices of cultural awareness and cross cultural communication
- Local Aboriginal and/or Torres Strait Islander culture
- Education policies and initiatives designed to support learning outcomes for Aboriginal and/or Torres Strait Islander people
- Information sources for local Aboriginal and/or Torres Strait Islander people
- Awareness of differing social contexts
- Range of suitable teaching and learning strategies

*Essential skills:*
REQUIRED SKILLS AND KNOWLEDGE

It is critical that the candidate demonstrate the ability to:

- Attempt to acquire knowledge of local Aboriginal and/or Torres Strait Islander culture

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Use literacy skills to interpret and support the learning program and interact with colleagues within an educational organisation
- Use assertiveness to influence planning to include Aboriginal and/or Torres Strait Islander perspectives
- Use a range of communication skills to effectively interact with and liaise between differing cultural contexts
- Relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities in a positive way

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place.

Method of assessment:
- Assessment may include observation, questioning and evidence gathered from a workplace environment.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

A positive education environment provides:

- A safe, supportive education environment which may include opportunities for tutorial support
- Relevance to the cultural context of student learning
- Community engagement and participation
- Aboriginal and/or Torres Strait Islander teachers and support personnel where available
- Opportunities for students to actively engage in learning
- Flexibility
- Inclusivity
- Values
- Diversity
- Holistic learning opportunities
- Social justice

Policies and legislation may include:

- Federal/state and territory legislation relating to anti-discrimination, work health and safety (WHS), disability environmental issues and industrial relations affecting education environments
RANGE STATEMENT

Diversity may include:

- Age
- Cultural background
- Disability
- Educational level
- Ethnicity
- Expertise
- Family responsibilities
- Family structure
- Gender
- Language
- Learning styles
- Life experiences
- Marital status
- Religious belief
- Socioeconomic background
- Thinking styles
- Working styles
- Sexual orientation
- Political orientation
- Physical capacity

Interactions with students may include:

- Classroom support
- Informal conversations
- Shred humour
- Outside school encounters
- Transactional exchanges
- Giving directions
- Active listening
- Sports
- Play based learning activities

Appropriate persons may include:

- Members of student families/kinship networks
- Local elders
- Other staff members
- Students
RANGE STATEMENT

Aboriginal and/or Torres Strait Islander context may include:
- History
- Spirituality
- Relationships to land and animals
- Family relationships
- Social and emotional well being
- Music
- Song
- Dance
- Values

Community resources and personnel may refer to any of the following:
- Elders
- Traditions
- Oral histories
- Artefacts
- Music and dance
- Paintings and artwork
- Land and 'Country'
- Places
- Structures
- Persons

Pastoral care initiatives may include:
- Provision of Aboriginal and/or Torres Strait Islander adult role models in the school
- Visits by community members
- Access to community education counsellors
- Classroom practice built on relationship building
- Involvement of local Aboriginal and/or Torres Strait Islander people on school committees
- Working collaboratively with other agencies
- Home visits by appropriate personnel
- Cultural awareness training for staff
RANGE STATEMENT

Appropriate personnel may include:
- Teachers
- Heads of departments
- Principal
- Guidance officer
- Community Education Counsellor
- Collaborative partnerships with community agencies
- Police (child and youth focused initiatives like adopt a cop)
- Health education staff

Cultural identity refers to relationships with:
- Place
- People
- Environment/land
- Belief systems
- History
- Tradition
- Society

Culturally appropriate refers to:
- Within the local context
- Social norms of the cultural group
- In the context of 'Country'
- Kinship structures
- Verbal and non-verbal communication protocols
- Gender specific issues
- Language
- Use of information
- Belief systems

Cultural diversity refers to:
- The range of knowledge, skills and experience brought to a situation by all members of the group
- The range of perspectives, responses and ideas possible within a diverse group
RANGE STATEMENT

**Contextualise may include:**
- Relating materials to specific localities, times, histories
- Relating materials to students current understanding and knowledge base

**Delivery strategies may include:**
- Classroom teaching
- Formal and informal learning
- Self directed learning
- Play based learning
- Flexible learning
- Supported learning
- E learning
- Individual and group work
- Third party delivery
- External studies
- Local contextualisation
- Meaningful learning
- Culturally appropriate learning
- Strategies devised with the teachers to improve a student's access to learning
- Use of appropriate resources

**Barriers to learning may include:**
- Cultural barriers
- Communication methods
- Physical, social, emotional, intellectual disability
- Socioeconomic barriers
- Language barriers
- Literacy and numeracy skills
- Self-esteem
- Self confidence
- Family circumstances
- Health and safety
- Self efficacy
- Attendance

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Comply with policies, procedures and legislation addressing work with students with disabilities | 1.1 Identify legislative requirements  
1.2 Use work practices that meet requirements of policies, procedures and legislation related to working with students with disabilities  
1.3 Review conduct in compliance with policies, procedures and legislative requirements  
1.4 Undertake communications with parent/guardian / carer in accordance with responsibilities of the role and within organisation policies |
| 2. Demonstrate inclusive practices | 2.1 Use accurate and non-discriminatory language  
2.2 Include all students in group activities  
2.3 Display respectful interactions with all students  
2.4 Ensure all students have access to a safe learning environment  
2.5 Demonstrate value for the rights and opinions of all students |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 3. Identify implications of student learning | 3.1 Identify and describe the nature of a range of disabilities  
3.2 Explain the *effects* of a range of disabilities on student development and learning  
3.3 Discuss the *implications* of an identified disability |
| 4. Provide support to the teacher of students with disabilities | 4.1 Use *knowledge of students* to assist teacher set goals for the student  
4.2 Gather and record data as directed by the teacher  
4.3 Develop *support strategies* for individuals to enable the achievement of learning goals  
4.4 Identify, prepare and maintain *resources* to support the delivery of education programs |
| 5. Contribute to an education adjustment profile for students with disabilities | 5.1 Raise awareness of social and academic *barriers* for students with disabilities  
5.2 Provide observations to inform *education adjustment profile*  
5.3 Contribute to education adjustment profile meetings  
5.4 Implement the education program |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant legislation, policies and standards that regulate education service delivery, occupational health and safety, behaviour support and anti-discrimination
- Basic understanding of at least four (4) disabilities
- Implications for learning of one (1) disability
- Accurate language relevant to the range of disabilities
- Organisation processes for provision of support to students with disabilities
- Support appropriate to a variety of learning situations for students with disabilities

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply broad knowledge of a range of disabilities and the ways they affect development and learning
- Demonstrate understanding of the effects of one disability on effective classroom practice
- Implement education adjustment with understanding of its application

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Communicate effectively using a range of inclusive skills (verbal, non-verbal, written, electronic)
- Maintain confidentiality
- Participate in team work
REQUIRED SKILLS AND KNOWLEDGE

- Take observations and maintain records
- Problem solve and self manage
- Use adaptive and/or mobility equipment

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit can be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Policies, procedures and legislation may include:
- National, state/territory and local government legislative requirements affecting the education setting operation
- Disability standards for education
- Copyright legislation
- Privacy legislation
- Freedom of Information legislation
- National and/or international standards
- Awards, enterprise agreements and/or relevant industrial instruments
- The educational organisation's processes (e.g. goals, values, systems, policies, procedures, reporting etc)

Communications with parent/guardian/carer may include:
- Face-to-face meeting
- Telephone calls
- Informal conversations
- Written communications (paper/electronic)

Learning environment should:
- Be safe and supportive
- Be relevant to the cultural context of student learning
- Encourage community engagement and participation
- Encourage students to actively engage in learning
- Be relevant, flexible and inclusive
- Demonstrate diversity and provide social justice
RANGE STATEMENT

Disabilities may include:

- Autism spectrum disorder
- Hearing disability
- Intellectual disability
- Physical disability
- Speech language disability
- Vision disability
- Multiple disabilities
- Health related disabilities

Effects may include varied levels of:

- Social skills
- Motor skills
- Risk taking skills
- Emotional development
- Behaviour
- Growth
- Cognitive development
- Reliance on one sensory input
- Communication skills
- Identity awareness

Implications for classroom teaching and learning may include:

- Adjustments to teaching and learning programs
- Redesign of the learning environment
- Alternate teaching strategies
- Personal support requirements
- Provide and use assistive technology and equipment
- Flexible timeframes
- Behaviour support strategies
- Health and safety issues
- Contingency planning
- Specialist support staff contributions
- Use of an inclusive curriculum
RANGE STATEMENT

Knowledge of students may include:
- Preferences and interests
- Impact of disability on learning
- Future goals
- Communication style
- Changing health status
- Achievements
- Challenges
- History

Support strategies may include:
- Peer support
- Small group and individual support/teaching
- Interpreting/transliterating
- Note taking
- Volunteer tutoring
- Activities designed by a specialist
- Use of assistive technologies
- Vocational learning opportunities
- Social learning opportunities
RANGE STATEMENT

Resources may include:

- Large print texts
- Braille machines
- Embossers
- Specialised computer hardware and software
- Wheelchairs and mobility equipment
- Headphones
- Sensory materials
- Personal care equipment
- Hoists
- Signs
- Visual displays
- Games, puzzles, activities to meet specific needs
- Interpreters
- Mattresses and linen
- Health related equipment
- Specialist support workers
- Daily communication books
- Positioning equipment
- Specialised furniture
- Communication equipment

Education adjustment profile refers to:

- A profile based on a questionnaire focusing on strategies workers use to support a student with disabilities
- Education Adjustment Program (EAP) is a system (in Queensland) identifying and responding to the educational needs of students with disabilities

Cultural diversity refers to:

- The range of knowledge, skills and experience brought to a situation by all members of the group
- The range of perspectives, responses and ideas possible within a diverse group

Contextualisation may include:

- Relating materials to specific localities, times, histories
- Relating materials to students current understanding and knowledge base
RANGE STATEMENT

Delivery strategies may include:
- Classroom teaching
- Formal and informal learning
- Self directed learning
- Play based learning
- Flexible learning
- Supported learning
- E learning
- Individual and group work
- Third party delivery
- External studies
- Local contextualisation
- Meaningful learning
- Culturally appropriate learning
- Strategies devised with the teachers to improve a student's access to learning
- Use of appropriate resources

Barriers to learning may include:
- Cultural barriers
- Communication methods
- Physical, social, emotional, intellectual disability
- Socioeconomic barriers
- Language barriers
- Literacy and numeracy skills
- Self-esteem
- Self confidence
- Family circumstances
- Health and safety
- Self efficacy
- Attendance

<td>1.7 Initiate relationships with and between students that support inclusion, acknowledge diversity and contribute to a positive learning environment</td>
</tr>
</tbody>
</table>
2. Deliver and facilitate learning

2.1 Interact with students based on principles of practice and according to learning styles and identified learner characteristics

2.2 Adapt prepared resources to meet the needs of students where appropriate

2.3 Provide opportunities for students to use a range of skills during learning activities

2.4 Use a range of delivery strategies, technologies and equipment to optimise student learning

2.5 Build opportunities for practice into the delivery as appropriate

3. Demonstrate effective facilitation skills

3.1 Use suitable presentation techniques to ensure the delivery is engaging and relevant

3.2 Use facilitation skills to ensure effective participation, individual and group management

3.3 Enhance education outcomes and motivation of students by use of verbal and non-verbal communication techniques

3.4 Develop effective relationships to ensure inclusivity by use of interpersonal skills

3.5 Monitor and document students progress using agreed observation techniques

3.6 Manage behaviour of concern to ensure learning can take place according to organisation policy

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant legislation, policies and standards that regulate education service delivery, WHS, behaviour support and anti-discrimination
- A basic understanding of the principles of effective teaching and learning
- Principles of practice applicable within the education setting and phase of learning
- Understanding of issues that may be encountered by students with disabilities
- Knowledge of the levels of support appropriate to a variety of learning situations

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Articulate a basic understanding of the application of the Principles of Practice as used in the employing education environment for a specific phase of learning
- Demonstrate the use of principles of practice in classroom/learning environment situations
- Demonstrate adjustments to resources/activities to meet individual learning needs
- Demonstrate a range of appropriate behaviour support techniques
- Demonstrate basic facilitation skills

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Communicate using effective language and literacy skills including communication using verbal and non-verbal skills, written and electronic media
- Use high level organisation skills
- Observe and keep records
- Manage students
- Facilitate learning activities under the guidance and supervision of a teacher or other relevant staff
REQUIRED SKILLS AND KNOWLEDGE

- Manage and support the use of a range of suitable equipment needs
- Relate to others using effective interpersonal skills

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from a workplace environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Learning environments are many faceted and their construction may include:

- Early years
- Middle school
- Senior years
- Special education
- Distance and flexible learning
- Vocational education
- Adult education
- Physical attributes
- Social and cultural considerations
- E-learning and technologies
- On or off campus
- Flexible and distance learning
- Classroom
- Community school
- Principles of practice to be implemented
RANGE STATEMENT

Delivery requirements may include:

- Selection of an appropriate learning environment
- Individual or group activities
- On or off site delivery
- Use of a range of environments
- Development and use of resources
- Time
- Use of specific instructional strategies and techniques determined in consultation with the teacher
- Addressing particular needs of individual students
- Expected learning outcomes determined in consultation with the teacher
- Contingency planning with teacher
- Range of facilitation techniques
- Practical and/or theoretical instruction as confirmed with teachers
- Demonstration
- Practice opportunities
- WHS considerations

Learning needs may include but are not limited to:

- Individual learning style
- Literacy skills
- Numeracy skills
- Cultural relevance
- Language
- Motivation
- Abilities
- Phase of learning
- Alternative physical placement
- Assistive technology
- Adaptive technologies
- Adapted instructional strategies
RANGE STATEMENT

Resources refers to:

- Technology
- Consumables
- Research materials
- Pictures
- Texts
- Multi media
- Specific environment
- Specific equipment
- Games

Verbal and non-verbal communication may include:

- Level and tone of voice
- Age appropriate styles, vocabulary and language
- Use of inclusive language
- Clarity of articulation
- Giving clear instructions
- Use of critical listening and questioning skills
- Demonstrating problem solving/thinking process
- Providing feedback
- Use of commands in an emergency
- Use of facial expressions
- Body language
RANGE STATEMENT

Diversity may include but is not limited to:

- Age
- Cultural background
- Disability
- Educational level
- Ethnicity
- Expertise
- Family responsibilities
- Family structure
- Gender
- Language
- Learning styles
- Life experiences
- Marital status
- Religious belief
- Socioeconomic background
- Thinking styles
- Working styles
- Sexual orientation
- Political orientation
- Physical capacity

Principles of practice are:

- Underpinning elements that reflect the philosophy/theory of learning being used by teachers
- Principles inform the teaching and learning approaches of teachers
- Principles related to a particular type of approach
- Principles inform the operation structure within which an education support worker will work
RANGE STATEMENT

Range of skills in learning environment may include:
- Problem solving
- Communication
- Reading
- Teamwork
- Thinking
- Technology
- Initiative and risk taking
- Organisational
- Gross and fine motor

Delivery strategies may include:
- Demonstration/modelling
- Instruction
- Presentation
- Guided facilitation
- Initiating and facilitating discussion
- Brainstorming activities
- Practice
- Project work
- Tutoring
- Coaching
- Mentoring
- Enabling and supporting effective student participation
- Mixed strategies as appropriate to student needs
- Various groups sizes
- Enquiry models
- Play based learning

Presentation techniques may include:
- Use of specific equipment
- Use of presentation technologies
- Interactive presentation
- Movement
- Role plays
- Games
RANGE STATEMENT

Facilitation skills may include:
- Using interpersonal skills to develop a sense of belonging within the group
- Monitoring and engagement of students in the activity
- Catering for diverse learning styles in presentation
- Moving students towards intended learning outcomes

Interpersonal skills include:
- Establishing trust
- Demonstrating sensitivity to diversity
- Modelling learning behaviours
- Showing students other staff respect
- Interpret accurately non-verbal messages
- Using appropriate and inclusive language and concepts
- Establishing a supportive environment
- Active listening
- Encouraging the expression of diverse views and opinions
- Building and maintaining rapport with students

Observation techniques may include:
- Making notes at the time
- Reviewing the activity afterward
- Observing student interactions
- Questioning to monitor student progress
- Running records
- Tape recording
- Video recording
- Checklists
- Evaluations of behaviour difficulties
- Other records determined by the teacher

Behaviour of concern may include:
- Any behaviour that interferes with individual learning and affects the learning or safety of self and/or others
RANGE STATEMENT

Unanticipated situations may include:

- Students experiencing unforseen difficulties with the learning activity
- Conflict
- Health and welfare issues
- Equipment breakdown
- Lack of resources
- Relocation
- New students
- Alarms

Designated personnel may include:

- Teachers
- Heads of departments
- Principal
- Advisory visiting staff
- Guidance officer
- School counsellor
- Curriculum coordinator
- Heads of curriculum
- Heads of special education services

</tbody>
</table>
ELEMENT

2. Facilitate flexible learning for students

2.1 Develop flexible learning protocols in consultation with the supervisor and in accordance with the organisation's principles of practice.

2.2 Conduct inductions to the flexible learning environment including clarification and agreement of the objectives and protocols.

2.3 Provide technical and personal support while students are engaged in flexible learning activities.

2.4 Establish relationships that support inclusiveness, acknowledge diversity and encourages a positive learning environment.

3. Monitor and review flexible learning support

3.1 Monitor learner progress and report any identified issues to the supervisor.

3.2 Provide support and guidance within and outside the learning environment.

3.3 Monitor students' interactions with others and participation in flexible learning activities and make interventions, where necessary, to maintain momentum and engagement.

3.4 Encourage and promote learner collaboration within and outside the learning environment to enhance learning experiences.

3.5 Reflect on own performance as a flexible learning support worker with a focus on continuous improvement.

3.6 Identify, discuss with relevant personnel, and document recommendations for improvements to facilitating flexible learning and appropriateness of flexible learning systems, tools and resources.
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Relevant legislation, policies, and standards that regulate education services delivery, work health and safety (WHS) and anti-discrimination
- Technical knowledge sufficient to distinguish between a technical problem and a content problem and to respond accordingly
- Understanding of flexible learning methodologies and programs
- Principles of Practice and their application to a flexible education environment
- Understanding of issues that may be encountered by students with disabilities
- Learner attitudes to flexible learning
- Levels of support appropriate to a variety of learning situations

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply relevant WHS guidelines in the learning environment
- Communicate effectively with all stakeholders
- Use interpersonal skills to support students undertaking flexible learning

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Use language and literacy skills to effectively communicate with a diverse range of people
- Apply high level organisation skills
- Undertake observation and record-keeping
- Undertake effective student management
- Support learning across a range of subject areas
- Use technical skills required to support and manage diverse equipment needs of flexible learning programs
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from a workplace environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Flexible learning programs may include:

- Distance delivery
- Correspondence
- E learning
- Teleconferencing
- Video conferencing
- Mixed mode delivery
- Community education program

Flexible delivery policy and procedures may include:

- Students meet certain criteria to enrol in flexible learning program
- Allocation of particular rooms/spaces/times/equipment for flexible learning
- Supervisors responsibilities
- Consultation and reporting requirements
- Student responsibilities
- Conduct expected while engaged in flexible learning programs
- Specific providers/courses
- Parental consent
- Alternative arrangements if supervisor absent
RANGE STATEMENT

Resources may include:

- Digital materials
- Workbooks
- Diaries
- Log books
- Mailing materials
- Specific readings
- Passwords and logins
- Access to the internet
- Email access
- Access to an e learning management system
- Equipment
- Specific hardware/software/appliances for students with disabilities

Technical requirements may include:

- Telephone equipment
- Computer
- Printer
- Fax
- Modem
- Headphones
- Camera
- Screen
- Audio equipment
- Video conferencing equipment
- CD/DVD player
- Adaptive technologies for students with disabilities

Technical support needs and mechanisms may include:

- Technical support from IT specialists
- Meeting accessibility issues
- Support IT literacy
- WHS guidelines - ergonomic information re use of computers and other equipment
- Problem solving tools
- Access to a range of business equipment
- Specialist advice regarding adjustments for students with a disability
RANGE STATEMENT

Flexible learning protocols may include:

- Expectations of students
- Expectations of supervisors

Principles of practice are:

- Underpinning elements that reflect the philosophy/theory of learning being used by teachers
- Principles inform the teaching and learning approaches of teachers
- Principles related to a particular type of approach
- Principles inform the operation structure within which an education support worker will work

Technical and personal support may include:

- Adjustments to the environment, timetables, tools and resources supplied based on the learning program, flexible delivery mode and the characteristics of the learner
- Provision of one to one support, including assistance with articulating difficulties, problem solving and liaison with teachers and or facilitators
- Assisting students to address health and/or welfare issues

Interventions may include:

- Verbal or non-verbal direction
- Open questioning to encourage problem solving
- Use of different equipment/space
- Program/equipment adjustments
- Liaison between teachers/ supervisors/students
- Behaviour support strategies
- Substitute support strategies
- Removal of certain stimuli
- Referral to supervisor or administrator

Relevant personnel may include:

- Teachers
- Principal
- Tutors
- Information technology officer
- Head of department
- Facilitators
- Parents

| 3. Scribe for students with a hearing disability | 3.1 Establish need for a scribe with supervising teacher/s  
| | 3.2 Accurately analyse and note relevant information  
| | 3.3 Ensure *notes are structured* for ease of student access  
| | 3.4 Confirm effectiveness of note taking with student  
| 4. Establish strategies to alert students with a hearing disability to emergency situations | 4.1 Discuss appropriate signals to inform students with a hearing disability of emergencies  
| | 4.2 Ensure students with a hearing disability understand the meaning of emergency warning signals  
| | 4.3 Ensure peers can implement emergency warning procedures for students with a hearing disability  
| | 4.4 Ensure students with hearing impairment are familiar with *evacuation and lockdown procedures*  

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Effects of hearing loss on development and the ability to learn
- Appreciation of the culture of the deaf community
- The difference between Auslan and signed English and their uses
- Needs of the student with a hearing disability
- Commonly used technology
- Role of the scribe or interpreter

Essential skills:
It is critical that the candidate demonstrate the ability to:
- Demonstrate and apply knowledge of causes of hearing disability
- Work with understanding of the effects of hearing disability on listening, language development, speech, communication and learning
- Use strategies in a learning environment to support students with a hearing disability
- Be aware of emergency procedures used in the education facility

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:
- Communicate using a range of inclusive and active language and literacy skills (e.g. verbal, non-verbal, written and electronic mediums)
- Maintain confidentiality
- Display teamwork skills
REQUIRED SKILLS AND KNOWLEDGE

- Use observation and record-keeping skills
- Display management skills
- Use problem solving skills
- Manage listening devices

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit can be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

_**Hearing disability can affect student development and learning of:**_

- Communication skills
- Language
- Listening skills
- Speech
- Learning skills
- Social interaction skills

_**Effective teaching practices may include:**_

- Design the learning environment to minimise noise
- Positioning of students with a hearing disability to:
  - maximise use of residual hearing
  - enable use of other senses (e.g. sight)
- Assessment and delivery adjustments
- Use additional resources (visual or human)
- Use strategies to enable language acquisition

_**Teachers and professionals involved may include:**_

- Class teachers
- Teachers of students with a hearing disability
- Speech-language pathologists
- School counsellor/guidance officer
- Support teachers
- Audiologists
RANGE STATEMENT

Considerations to support students with a hearing disability may include:

- Repeating and rephrasing verbal information
- Checking for understanding of information
- Clarify and explain misunderstandings
- Model correct language use
- Encourage a range of communication skills (non-verbal)
- Stand in front of the student
- Use strategies suited to the students preferred learning style
- Allow extra time for tasks
- Model appropriate social behaviour
- Avoid generalisations regarding students with a hearing disability

Manage listening devices may include:

- Understanding how to turn devices on and off
- Recognise technical problems
- Change batteries
- Preventative measures (e.g. take device off when student is swimming)
- Refit a device
- Advise parents of difficulties

Analysis of information may include:

- Understanding the student's needs
- Providing accurate and informative notes

Notes are structured may include:

- Paragraphs
- Dot points
- Diagrams
- Headings and sub headings
- Columns and tables
- Abbreviations agreed with the student
RANGE STATEMENT

Strategies to alert students with a hearing disability to emergency situations may include:

- Flashing lights
- Ensure all students can make and understand emergency signals
- Provide all students with signals to assist students with a hearing disability respond to directions, environmental changes, traffic etc
- Use sirens that emit a warning signal that moves through a range of tones

Evacuation and lockdown procedures includes:

- Evacuation:
  - respond to a siren, alarm, sign, signal
  - leave building by nearest exit
  - leave belongings behind
  - follow displayed routes
  - walk quickly to assembly area
  - remain in designated area until accounted for
- Lockdown:
  - respond to a siren, alarm, sign, signal
  - close/lock doors and windows
  - block vents
  - stay calm
  - wait for all clear

</tr>
</thead>
</table>
| 1. Promote understanding of causes and treatment of hearing problems | 1.1 Apply knowledge of the physical makeup of the ear and common causes of hearing loss  
1.2 Identify a variety of *traditional treatment methods* for healthy ears  
1.3 Explain prevention measures to students and parents  
1.4 Demonstrate application of at least two *practices of ear maintenance*  
1.5 Explain importance of environmental health and nutrition to prevention of ear problems |
| 2. Apply understanding implications of hearing loss for teaching and learning | 2.1 Explain the relationship between healthy hearing and children's language development  
2.2 Explain the relationship between healthy hearing and children's ability to learn  
2.3 Identify teaching strategies to address hearing loss issues |
ELEMENT

3. Promote the prevention of hearing issues

PERFORMANCE CRITERIA

3.1 Observe and engage with students to identify hearing concerns and issues

3.2 Apply strategies for the prevention of ear health problem and to address student concerns

3.2 Access education centre policies and resources relating to environmental health and learning support
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Common health problems and their symptoms
- Education environment policies regarding personal health
- Traditional health practices
- Local health services, teaching aids and resources

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding of the link between hearing loss and learning

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Identify common health problems and their symptoms
- Identify education environment policies regarding personal health
- Traditional health practices
- Identify local health services, teaching aids and resources

| 1. Identify a range of language resources in conjunction with teacher | 1.1 Research and identify different types of language resources which can be used to present words and/or sentences for learning  
1.2 Identify existing language sources in the community which can be used for assisting the development of resources  
1.3 Identify any additional language resources required for use in learning activities |

| 2. Plan for the development of language learning resources in conjunction with teacher | 2.1 Identify the intended audience and purpose of language resources  
2.2 Establish the type and form of language resource required to meet specific learning needs  
2.3 Access a range of sources for the development of the language resources  
2.4 Demonstrate respect for community protocols and ownership of language in the development of language resources  
2.5 Plan for the development of identified language resources |
ELEMENT

3. Assist teacher to produce language resources

PERFORMANCE CRITERIA

3.1 Use *appropriate technology and equipment* to produce language resources

3.2 Consult with students, teachers and community members in the production of language resources to ensure protocols are maintained

3.3 Produce language resources in accordance with organisation guidelines for resource production

3.4 Evaluate the effectiveness of language resources in consultation with students, teachers and community members
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Community languages and dialect variations in community of work
- Community protocols for researching and using languages in the community
- Guidelines and procedures for development and production of learning resources
- Evaluation strategies involving stakeholder participation

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Engage with students and communities where English is not the first language
- Demonstrate respect for language ownership in communities where required
- Apply an understanding of community protocols for accessing information for language resource development
- Recognise suitable technologies to the development of resources

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Implement strategies for valuing and celebrating diversity and inclusivity
- Support the and encourage the contributions of stakeholders in the development of resources
- Problem solve for managing specific projects
- Communicate ideas and strategies to people of non English speaking background
- Demonstrate commitment respecting the importance of traditional languages
REQUIRED SKILLS AND KNOWLEDGE

- Use a range of equipment for the production of a range of resources

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from a workplace environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Existing language sources may include:

- Elders
- Community custodians
- Fluent speakers of the language
- Documents written in the language
- Internet sources
- Library

Intended audience may include:

- Students of all ages
- Language learners
- Language tutors
- Language teachers
- Community members
RANGE STATEMENT

Type and form of language resource may include:
- Posters
- Cards
- Audio tapes
- Books
- Visual media forms

Purpose for resource development may include:
- Language learning
- Use in a range of learning activities including:
  - reading
  - writing
  - numeracy
- Passing on oral histories
- Language maintenance projects
- Maintaining culture
- Supporting diversity in the community or education environment

Community protocols may include:
- Discussing content of intended resources with one or several:
  - elders
  - community council members
  - custodians
  - language committee members
  - clan leaders
- Obtaining permission to develop language resources
- Discussing language ownership issues

Appropriate technology and equipment may include:
- CD Rom
- Disks
- DAT recorder
- Video camera
- Computer
- Cameras
- Internet
- Desk top publishing software
- Language teaching computer games

Unit Descriptor

Descriptor

This unit deals with the skills and knowledge required by education support workers to support a student with an intellectual disability, either in a special school or in mainstream classes.

This unit provides knowledge of intellectual disability and its impact on students' learning and skills for the support worker to scaffold the students' learning and to increase opportunities for students to self-advocate.

Application of the Unit

Application

This unit applies to education support work in a variety of education contexts.

It addresses strategies for working with students with intellectual disabilities across all phases of schooling.

Work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher or other education professional.

Licensing/Regulatory Information

Not Applicable
Pre-Requisites

Pre-requisite

This unit must be assessed after achievement of the following related unit of competency:
- CHCEDS417A Facilitate learning for students with disabilities

Employability Skills Information

Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Take into account ways in which intellectual disability can affect students' development and learning | 1.1 Work with understanding of the nature and causes of intellectual disability  
1.2 Identify and explain ways in which intellectual disability can affect student learning  
1.3 Identify and explain the implications of intellectual disability for effective teaching practices  
1.4 Identify limitations in adaptive skills affecting students with intellectual disability  
1.5 Explain effects of limited adaptive skills on student learning |
ELEMENT

2. Support students with intellectual disabilities

PERFORMANCE CRITERIA

2.1 Contribute to setting goals for the student/s as part of the education team

2.2 Contribute to identifying the educational support needs of students

2.3 Provide opportunities for students to develop improved communication skills and self-advocacy abilities

2.4 Provide students with opportunities to make choices and to take risks

2.5 Provide support, as planned with teacher/s, to enable student/s to actively participate in educational programs

2.6 Provide activities and support to encourage the development of age-appropriate social skills
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include demonstrated knowledge and understanding of:

- Intellectual disability, its causes and effects
- The impact of intellectual disability on the student and their parents and caregivers
- Support appropriate to a variety of learning situations for students with intellectual disability
- Specific tools and processes used to gather information related to adjustments made for students with intellectual disabilities
- Roles and responsibilities of all members of the education team

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Work effectively with students with intellectual disabilities, their parents/caregivers and teachers
- Apply knowledge of a range of strategies for supporting students with intellectual disabilities within the context of the learning environment

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Use language and literacy to effectively and appropriately communicate using a range of verbal, non-verbal, written and electronic mediums
- Use inclusive language
- Maintain confidentiality
- Work effectively as part of a team
REQUIRED SKILLS AND KNOWLEDGE

- Undertake observation and record-keeping
- Use initiative
- Apply problem solving skills
- Demonstrate technical skills to use adaptive equipment required by students
- Use technical skills to adapt educational resources to meet the needs of students with intellectual disability

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed either on the job or off the job through an appropriate workplace simulation
- Assessment should ensure the candidate addresses the elements and performance criteria on at least three occasions, over a period of time
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to
  - a workplace environment or
  - one that closely resembles normal work practice and replicates the range of conditions likely to be encountered in an educational context in which students with intellectual disability are enrolled
  - current principles of practice applicable to the candidate's work environment in relation to students with intellectual disability
  - scenarios that require participants to address a range of situations and behaviours to achieve a specific outcome
- Key aspects of the assessment context for closely replicating a workplace include:
  - role plays and simulations where the 'student' is able to accurately replicate behaviours likely to be exhibited by a student with an intellectual disability in a learning environment
EVIDENCE GUIDE

Method of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - case studies
  - demonstration
  - observation
  - questioning - oral and written
  - scenarios, simulation or role plays
  - authenticated evidence from the workplace and/or training courses
- Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Educational support needs of students may be identified:

- As part of a specific program for identifying and responding to the educational needs of students with disabilities (such as the Education Adjustment Program in Qld)
- Using a standard questionnaire or profile to gather information about adjustments school personnel make to support students with disabilities in school

Legislation, policies and standards relevant to the educational institution and sector may include:

- National, State/territory and local government legislative requirements affecting the institution's operation, especially in regard to the provision of education, occupational health and safety and environmental issues, disability, anti-discrimination and industrial relations
- Disability Standards for Education 2005
- Copyright legislation
- Privacy legislation
- Freedom of Information legislation
- National and/or international standards
- Awards, enterprise agreements and/or relevant industrial instruments
- The educational organisation's:
  - goals, values, objectives, plans, systems and processes
  - strategic, operational and workforce plans
  - ethical and professional standards
  - principles of practice
  - education system's/school's service standards
  - quality and continuous improvement processes and standards
  - confidentiality requirements
  - reporting requirements
RANGE STATEMENT

*Intellectual disability refers to:*

- Intellectual disability is a state of functioning that begins in childhood and is characterised by limitations in both intelligence and adaptive skills
- Intellectual disability reflects the 'fit' between the capabilities of individuals and the structure and expectations of their environment
- The American Association on Mental Retardation (AAMR) has developed an internationally accepted definition using the term 'mental retardation', which is still current in the United States
  - In Australia the preferred terms are 'intellectual disability' and 'intellectual impairment'
- According to AAMR, mental retardation refers to substantial limitations in present functioning
  - It is characterised by:
  - (i) significantly below average intellectual functioning, existing concurrently with
  - (ii) related limitations in two or more of the adaptive skill areas:
    - communication
    - home-living
    - community use
    - health and safety
    - leisure
    - self care
    - social skills
    - self-direction
    - functional academics
    - work
  - (iii) intellectual disability manifests before age 18
- NOTE: there is as much diversity of characteristics, abilities and needs among people with intellectual disability as there is within the regular population
RANGE STATEMENT

Adaptive skills are:

- Those everyday coping skills that students need in order to take care of themselves and to relate to others in daily living and include:
  - communication - the process of giving and receiving information
  - life skills - those required to manage in the environment
  - community use - ability to access community facilities
  - health and safety skills relate to maintaining personal well being
  - leisure skills - ability to use free time to pursue personal interests:
    - the purpose of teaching leisure skills is to provide students with skills to be active participants in a variety of leisure pursuits
  - self care skills - as required to maintain personal hygiene and appearance:
    - these need to be taught in a structured manner
  - social skills - interpersonal skills considered appropriate in various settings:
    - they impact on the ability to form friendships and need to be taught in a structured way
  - self-direction skills
  - functional academics - school subjects that have direct application to skills needed in everyday living
  - work skills need to be developed for students to have the opportunity to access work (paid and unpaid)

- Students with intellectual disability have limited functionality in at least two adaptive skill areas
RANGE STATEMENT

Communication difficulties may include:

- Understanding language (especially complex sentences, colloquialisms and words with more than one meaning)
- Learning the rules of language (e.g. grammatical constructions, appropriate language for specific situations)
- Using language for a variety of functions (e.g. asking questions, stating information)
- Producing speech (e.g. students with Down Syndrome may have poor muscle tone which makes their speech hard to understand. It is important not to judge a student's understanding solely by that student's ability to speak)
- Some students may need to use other communication methods such as signs, gestures, object symbols, picture boards and voice output communication aids
- Students with no functional speech may access an alternative communication system while those who need to supplement their speech may be provided with augmentative communication equipment

Life skills may include:

- Organising skills
- Clothing care
- Food preparation
- Home safety
- Daily scheduling
- Planning to budget and shop

Community use skills may include:

- Using public transport
- Shopping
- Using public facilities
- Appropriate behaviour
- Participation in community groups e.g. guides, scouts, church
RANGE STATEMENT

Health and safety skills may include:
- Appropriate diet
- Illness identification and treatment
- Basic first aid
- Fitness
- Personal safety
- Appropriate behaviours
- Road safety
- Sexuality

Leisure related skills may include:
- Appropriate behaviour in leisure settings
- Home and community leisure
- Playing socially with others
- Indicating choices and needs
- Turn-taking

Self care skills may apply in areas such as:
- Eating
- Dressing
- Grooming
- Toileting
- Hygiene

Social skills may include:
- Eye contact
- Listening
- Cooperation
- Turn taking
- Showing concern for others
- Recognising and responding to emotions

Self-direction skills include:
- Making choices
- Problem solving
- Being assertive
- Initiating or completing activities
- Planning
- Following a timetable
- Seeking assistance when needed
RANGE STATEMENT

Functional academics include:
- Reading
- Writing
- Numeracy
- Social sciences (for example, a student's maths program may focus on addition and subtraction in relation to the use of money as this will have lifelong practical application)

Work skills include work-related behaviours such as
- Completing tasks
- Following schedules
- Seeking help
- Self management
- Interacting with co-workers
- Job-specific competence
- Employability skills

Causes of intellectual disability may include:
- Intellectual disability is caused by factors that affect brain functioning, for many people the cause being unknown
- Hain and Harris (1996) list known causes as:
  - anomalies in chromosomes or genes (e.g. Down syndrome)
  - extremely premature birth (e.g. where brain damage may result from lack of oxygen)
  - pregnancy problems (e.g. mother develops rubella in early pregnancy or effects of drug-alcohol use)
  - illness (e.g. meningitis, measles)
  - injury (e.g. acquired brain injury)
  - environmental (e.g. lead pollution)
RANGE STATEMENT

Intellectual disability can affect student learning in ways which include:

- The learning process presents significant challenges for students with intellectual disability
- Students are slower to learn and generally experience difficulty in the areas of:
  - attention - students with intellectual disability may need to be taught in a structured manner to pay attention to a task
  - thought processing - students may have difficulty with:
    - speed and organisation of thought processes
    - forming logical sequences of ideas
    - interpretation of symbolic and abstract concepts
    - linking new information with previous knowledge or experiences
    - perseveration (repetition of speech or behaviour)
  - memory - students with intellectual disability may have difficulty retaining and recalling information
  - perception - students with intellectual disability may have difficulty registering information through a particular sensory mode and making meaning from what has been perceived
  - generalisation - students with intellectual disability have considerable difficulty transferring skills learned in one situation to another and need to be taught how to generalise learned skills from one context to another
RANGE STATEMENT

Implications of intellectual disability for effective teaching practices include:

- The need to make adjustments to meet individual student requirements
- Provision of resources designed to meet specific needs
- Planning and working with parents/caregivers, support and specialist personnel
- Possible need for additional health and safety strategies
- Need to plan for use of realistic learning environments
- The use of multi-sensory approaches to learning activities
RANGE STATEMENT

Specific teaching strategies may include:

- The student’s attention is maximised when:
  - work is interesting and appropriate to the student’s level
  - the student’s individual learning style is catered for
  - activities are broken into achievable steps
  - the key features of an item or situation are explicitly taught
  - a quiet work area is provided for learning new work or completing difficult work
  - frequent and specific feedback is given
- Student thought processes may be supported by:
  - providing short, clear instructions
  - checking for student understanding
  - ensuring consistent use of language, teaching and behaviour support strategies
  - allowing 'wait' time for students to process thoughts
  - use of visual/pictorial supports
  - use of concrete materials, e.g. blocks for counting
  - provision of one-to-one instruction
- Student’s ability to remember may be supported by:
  - use of visual supports such as word lists, pictorial timetable, or self management charts
  - use of verbal and gestural prompts
  - use of music or rhyme (e.g. learn required facts to a jingle)
  - building in opportunities for frequent practice
  - encouraging the use of a diary

continued ...

Specific teaching strategies (contd):

- Students may be assisted to generalise by:
  - creating real-life or life-like environments
  - use of a range of concrete materials
  - use of role play
  - development of contingency plans (e.g. carrying coins/phone card for the unexpected)
  - practising the same skill with different people in different places
- Students with perceptual difficulties may be assisted
RANGE STATEMENT

by:

- use of as many sensory modes as possible to reinforce learning (e.g. studying a country - include music, costume making, cooking, dance)
- use of one-to-one instruction
- use of short, clear instructions
- linking abstract learning (e.g. reading and writing) to actual concrete experiences in the student’s recent past
- presenting paper tasks in simple, uncluttered formats (e.g. not too much information on the page)
- provision of visual support
- use of real-life or life-like situations wherever possible (e.g. study plants in the garden or the bush rather than at a desk)

- Opportunities for developing improved communication skills may include:
  - incorporating reasons to communicate in daily routines
  - specific teaching of vocabulary, grammar, appropriate responses in specific situations that relate to the student’s peer group and interests
  - teaching the student listening skills
  - providing sufficient time for processing received information
  - providing a choice of responses e.g. 'Are you hot, or are you angry?' or 'Do you want help, or can you do it?'

- Self-advocacy abilities are developed with self-esteem, communication skills, and the ability to understand one's own needs and emotions
  - skills in self-advocacy need to be explicitly taught using a person-centred approach
RANGE STATEMENT

Effects of limited adaptive skills on student learning may include:

- Being unable to make oneself understood and therefore not being able to demonstrate knowledge and understanding
- Being conditioned to follow instructions rather than make choices for oneself
- Learned helplessness
- Limited ability to care for self and manage time and belongings
- Limited ability to understand and communicate emotional and physical needs which may lead to behaviours of concern caused by frustration – as a consequence such students are sometimes denied the full range of learning opportunities provided to other students

Students may be assisted to develop adaptive skills by:

- Provision of specific instruction and training in particular adaptive skill areas
- Using opportunities to practice newly acquired skills throughout the day
- Provision of role play activities to explore social situations and relationships
- Development of self-esteem through:
  - experiences of success
  - being encouraged to positively assert oneself
  - being treated in an age-appropriate way
  - fostering a positive awareness of difference
  - support to be involved in regular age-appropriate experiences
  - acceptance and respect

(Adapted in part from the Down Syndrome Association Queensland kit: Where else but here?)

- The student's age, abilities and environment will influence the adaptive skills to be taught
RANGE STATEMENT

An education support worker may support a student with intellectual disability by:

- Assisting with establishing and maintaining a supportive environment which is emotionally, socially and physically inclusive of diversity
- Contributing information to teacher/s planning
- Scaffolding students' acquisition of language and extension of vocabulary
- Supporting the student's involvement in teaching and learning through student groupings (e.g. creating supportive relationships between more and less able students)
- Utilising strategies which respond to the student's learning styles, characteristics and needs, as developed with the teacher/s
- Assisting with the development of teaching materials which are adapted to the student's needs
- Using positive behaviour support strategies

A supportive environment is one that creates a sense of belonging for all students by:

- Accepting and valuing difference
- Facilitating academic and social development
- Supporting student risk-taking by encouraging them to 'have a go' (e.g. praise for working through the process of an activity even if outcome is not correct)
- Defining, modelling and reinforcing appropriate behaviour

A critical element of a supportive environment is the positive attitude of teachers, education support workers, students and parents

To help develop positive attitudes within the school environment:

- Share student successes
- Demonstrate a positive approach
- Focus on what students CAN do rather than on what they CAN NOT do
- Expect ALL students to develop and progress
- Allow students with intellectual disabilities to face challenges
RANGE STATEMENT

- Promote the rights of all students
- Provide access to a range of experiences
- Encourage peer interaction

The education team may include:

- Teachers
- Parents/caregivers
- Nurses
- Doctors
- Specialists
- Therapists
- Speech/language pathologists
- Guidance officers
- Education support workers
- Students (where practical)

Unit Sector(s)

Unit Descriptor
Descriptor
This unit deals with the skills and knowledge required by education support workers to support students with speech and language disabilities.

This unit provides understanding of the impacts of speech and language disabilities on students' learning and social interactions.

Application of the Unit
Application
This unit applies to education support work in a variety of education contexts, under the guidance of teachers and speech/language pathologists.

It addresses strategies that may help mitigate or overcome the effects of speech and language disabilities for students across all phases of schooling.

Licensing/Regulatory Information
Not Applicable
Pre-Requisites

Pre-requisite

This unit must be assessed after achievement of the following related unit of competency:

- CHCEDS417A Facilitate learning for students with disabilities

Employability Skills Information

Employability Skills

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Take into account ways in which speech and language disability can affect student development and learning | 1.1 Work with understanding of developmental implications of speech/language disability  
1.2 Identify and explain ways in which speech/language disability can affect student learning  
1.3 Identify effective strategies that may be used to maximise learning opportunities for the student |
ELEMENT

2. Structure the learning environment in cooperation with the teacher/s

2.1 Work with the teacher to identify and set up or modify the learning environment most effectively

2.2 Consider the size of effective student working groups in relation to the needs of group members

2.3 Organise the learning environment to maximise learning opportunities for all students

3. Support students with speech and language disabilities

3.1 Contribute as a team member to effective learning outcomes for the student with speech/language disability who has an individual education plan

3.2 Use adjustments that have been determined with teachers, to support the teaching and learning needs of the student and enable him/her to actively participate in educational activities

3.3 Facilitate successful social interactions for students with speech and language disabilities across the school community
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include demonstrated knowledge and understanding of:

- Effects of speech/language disabilities on learning and development
- Accountabilities of teachers and education support workers for student learning
- Basic strategies to enhance learning outcomes for students with speech/language disabilities
- Terminology frequently used in the workplace in relation to speech/language disabilities

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Follow organisation procedures, policies and guidelines
- Use appropriate language and terminology
- Set up and/or modify the teaching environment in consultation with the class teacher and appropriate team members to maximise opportunities for students
- Implement effective teaching/learning strategies to maximise opportunities for the student
- Assist the student to achieve goals, as part of the education team
- Support the teacher of students with speech/language disabilities
- Communicate with parents/carers within the constraints determined by policy

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to apply skills in:

- Active listening - to understand teacher requirements and student communications
- Using a variety of appropriate communication strategies that support the audience and
REQUIRED SKILLS AND KNOWLEDGE

the purpose (e.g. team consultation, parent enquiries and observations, daily record books, interactions with students)

- Reading and comprehending information sources
- Collection and presentation of accurate records/data
- Selection of appropriate resources to meet specific needs
- Use of available technologies required by students with speech/language disability
- Supporting the teacher with the implementation of teaching/learning strategies
- Advocacy

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed either on the job or off the job through an appropriate workplace simulation
- Assessment should ensure the candidate addresses the elements and performance criteria on at least three occasions, over a period of time
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to
  - a workplace environment or
  - one that closely resembles normal work practice and replicates the range of conditions likely to be encountered in an educational context in which students with speech/language disability are enrolled
  - policies and procedures of the employing organisation relevant to working with students with speech/language disabilities
  - a range of technologies used by students with speech/language disabilities in the candidate's educational facility
- Key aspects of the assessment context for closely replicating a workplace include:
  - role plays and scenarios where the 'student with a speech/language disability' demonstrates accurately behaviours and difficulties experienced by such students in learning situations
  - opportunities to problem solve with experienced team members in order to overcome barriers to learning for students with speech/language disabilities
EVIDENCE GUIDE

Method of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - case studies
  - demonstration
  - observation
  - questioning - oral and written
  - scenarios, simulation or role plays
  - workplace projects
  - authenticated evidence from the workplace and/or training

- Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Commonly used terms relating to speech/language disability may include:

- Articulation:
  - the process of producing speech sounds
- Auditory processing:
  - the process through which the brain recognises and interprets sounds
  - students with an auditory processing disorder often do not recognise subtle differences between sounds in words, even though the sounds themselves are loud and clear
  - this is more likely to occur when in a noisy environment or when listening to complex information
- Augmentative and alternative communication (AAC):
  - modes of communication, apart from speech, which are used to supplement a person's speech (augmentative communication), or to replace a person's speech (alternative communication) e.g. signing and voice output communication aids
- Communication:
  - the process of exchange of meaning through listening, speaking, viewing, signing, symbols, gesture, facial expression, reading and writing
- Communication difficulty:
  - a barrier to receiving and understanding messages and making and sending messages due to factors external to the person

continued ...

Commonly used terms relating to speech/language disability (contd):

- Communication disability:
  - a disability in the process of exchange of meaning
  - students can have a communication disability as a result of underlying speech/language disability
  - students can also have a communication disability as a result of other disabilities:
  - for example, a student with a physical disability may have a limited ability to use the muscles of the mouth, thus limiting the ability to use oral communication
  - therefore, a communication disability does not necessarily mean that there is underlying speech/language disability
- Disability:
RANGE STATEMENT

- any lack or restriction of the ability to perform an activity in the manner or within the range considered normal for a human being, resulting from disability

- Education adjustment:
  - a measure or action taken by an education provider to assist a student with a disability to participate in education on the same basis as a student without a disability
  - an education adjustment can include an aid, a facility, or a service that the student requires because of his or her disability.

- Disability (or impairment):
  - abnormality of structure or function at the level of the organ; thus language disability relates to the body structures and functions associated with language processing and production
  - inherent in this definition is the concept that the disability/impairment is intrinsic to the child
  - a reader cannot assume this is the definition of disability/impairment used in other documents: a commonly-used definition is to equate disability/impairment with severe disablement

Commonly used terms relating to speech/language disability (contd):

- Language:
  - a conventional symbolic system used to communicate
  - it is symbolic because the spoken, signed, indicated or written units of a language act as symbols, that is, they represent objects or concepts
  - it is conventional because members of a community share the meaning of the symbols
  - it is a system because there are rules for combining the symbols, and rules for using the symbols in different contexts
RANGE STATEMENT

Developmental implications of speech/language disability may include:

- Delays in comparison to the student’s age cohort due to difficulties with:
  - speech processing:
    - recognising, and manipulating speech sounds
  - language comprehension:
    - understanding a message that has been made according to the rules of a conventional symbolic system (i.e. according to the rules of a language)
  - speech production:
    - saying and using sounds in words correctly
  - language production:
    - formulating a message according to the rules of a conventional symbolic system
  - language use:
    - this refers to producing language that is appropriate to the context and also to interpreting (understanding) language according to the context
    - language use is sometimes referred to as ‘pragmatics’, and is often included as part of language production and also as part of language comprehension
RANGE STATEMENT

Ways in which speech/language disability can affect student learning include:

- Students learn through the process of communication, regardless of the mode of communication (e.g. whether it is spoken, signed, written, etc.) and the direction of the communication (e.g. teacher to student, student to student, textbook to student, student to teacher)

- A speech/language disability will result in a communication disability and can affect student's ability to:

  (i) understand and express information
  (ii) relate to others, including teachers and peers
  (iii) express needs, abilities and interests
  (iv) acquire adequate literacy and numeracy skills
  (v) participate in group activities
  (vi) develop a positive self concept
  (vii) learn appropriate behaviour and social skills
  (viii) problem solve, and
  (ix) acquire and demonstrate knowledge in key learning areas

- Speech/language disability can affect a student's participation in and achievement of learning outcomes from all areas of the curriculum

- The effect is not restricted to obvious areas such as communication in the early years curriculum, or English and language other than English (LOTE)
RANGE STATEMENT

Implications of the communication difficulty include:

- A student with speech/language disability who speaks in a way that is difficult for the listener to understand may:
  (i) often be misinterpreted by the teacher or peers
  (ii) avoid speaking, in an attempt to reduce potential frustration and embarrassment
  (iii) be given fewer opportunities to communicate by the teacher and by peers

- If this student's educational needs are not carefully considered, he/she may miss out on opportunities to:
  (i) demonstrate knowledge
  (ii) receive positive feedback from the teacher and peers relating to knowledge demonstrated
  (iii) receive additional information or correction relating to knowledge demonstrated
  (iv) request additional information or clarification of directions and instructions
  (v) direct conversation to specific areas of interest, within the current classroom topic
  (vi) negotiate activities and responsibilities with peers and the teacher
  (vii) establish an identity as a contributing and relevant member of the class.

It is important for students to participate in these interactions in all learning areas

- A student with speech/language disability who has difficulty understanding messages that have been made according to the rules of a language may have difficulty understanding the following regardless of whether they are spoken or written:
  (i) instructions and directions
  (ii) questions
  (iii) answers to questions
  (iv) explanations
  (v) requests
  (vi) comments
  (vii) discussion
RANGE STATEMENT

(viii) stories and/or lectures
(ix) conversations

- Students with **language production difficulties** may demonstrate limited capacity to:
  - convey thoughts and feelings using appropriate words and grammatical structures
  - ask questions
  - participate in conversations
  - answer questions
  - use and define vocabulary

*continued ...*

---

*Implications of the communication difficulty (contd):*

- Students with difficulty using language for a range of purposes may struggle to:
  - use and understand a range of oral and written text types, e.g. persuasive, advertising, and information
  - interact socially with peers and adults
  - understand and use figurative language
  - participate in discussions
  - understand different perspectives

- Students with speech processing difficulties may struggle to develop phonological awareness which has a significant impact on learning to read and spell
RANGE STATEMENT

Effective strategies and program adjustments may include:

- Using more and/or longer pauses during instruction, to provide more processing time than is usual;
- Providing wait time - which is time for the student to respond
- Using specific visual cues while providing spoken instruction (such as overhead transparency/whiteboard/blackboard topic headings, written instructions/examples, or symbol/picture/photo sequences)
- Providing high redundancy instruction and repetition (specific information/vocabulary/sentence structures/text features encountered many times, but in different contexts)
- Explicit pre-teaching of topic vocabulary and structures
- Activating the student's topic knowledge (especially focusing on related vocabulary) when introducing new topics or units of work
- Providing visual supports e.g. graphic organisers, to support orally presented information
- Using explicit topic shift cues in classroom discourse so the student can easily follow topic changes made by the teacher for example, the teacher may overtly teach the class that when he or she says a key phrase such as, '...okay new/different topic here...' they are to listen carefully, because new/different information will be presented continued ...

Effective strategies and program adjustments (cont'd):

- Providing more frequent and explicit opportunities for repair of conversation/interaction breakdown for example, the teacher may give explicit instructions about what students should say if they lose the thread of classroom talk, or build a low key 'checking for comprehension' routine into his or her discourse, so that students become used to indicating 'where they got lost'
- Increasing frequency of practice and review for specific activities
- Adjusting vocabulary use and syntactic complexity of classroom discourse - for example, instead of saying, 'Before you get out your books and start writing, I want you to listen to me read this description, because it demonstrates the type of thing I want you to go away and write in your groups,' the teacher may
RANGE STATEMENT

say:
'Listen to this description. It is a good description. Think about what makes it a good description'

- Using an alternative/augmentative communication system such as Makaton (an approach that uses key word signing to facilitate language)

The learning environment may include:

- A furnished room in an educational facility
- An outside area
- A community space
- Groups of people
- A sports team
- Resources
- Technology
- Levels of noise that may or may not be adjusted
- Levels of light that may or may not be adjusted

An environment conducive to learning provides:

- A safe supportive educational environment
- Relevance to the cultural context of student learning
- Community engagement and participation
- Opportunities for students to actively engage in learning
- Flexibility
- Inclusivity
- Values
- Diversity
- Holistic learning opportunities
- Social justice
RANGE STATEMENT

Suitable resources may include:

- Symbols and pictures to facilitate understanding of instructions, new concepts etc.
- The student may use a computer and associated equipment for achieving specific learning outcomes
- The student may use computer software programs (e.g. inspiration, clicker 5) to help achieve specific learning outcomes
- The student may communicate by pointing to symbols using low tech communication displays, or chat books, or a high tech device which uses a microprocessor-based voice output device

Support may include:

- A collaborative educational team approach to appropriate programming
- A learning support program
- A speech/language therapy program
- A social skills program
- A self-esteem program
- Teaching the student to use strategies/skills (for example, mental imagery, mental rehearsal, graphic organisers, self-prompts, summarising, task analysis, and think aloud) to help the student achieve specific learning outcomes
- Teaching the student to use an augmentative communication system, e.g. Makaton

Education teams may include:

- Principal
- Head of special education services
- Speech/language pathologist
- Advisory visiting teacher
- Classroom teachers
- Education support workers
RANGE STATEMENT

Contribute as a team member includes:

- Sharing information that could assist the education team to set learning goals for a student
- Evaluating specific learning activities and resources in relation to the student's learning needs, learning style, special learning needs, background and prior learning
- Asking for clarification, further information, opinions and/or feedback in relation to support for the student with speech/language disability
- Offering and receiving suggestions for improvements e.g. to the learning environment, resources, delivery strategies, structure of activities, grouping of students

Effective learning outcomes for the student with a speech/language disability may include, but are not limited to:

- Students are able to effectively demonstrate what they know and what they can do with what they know
- Students progress towards or achieve identified learning goals
- Learning builds on and extends a student's current understandings and knowledge
- Learning provides knowledge and skills that are transferable
- Learning improves communication skills

Adjustments to learning programs are limited to:

- Adjustments to the learning activity that do not compromise the intended learning outcomes
- Adjustments that cater for a student's learning style
- Adjustments that enable flexibility e.g. in time and/or interactions within the learning group
- The scope agreed with supervising teacher/s which may focus on language comprehension, production and language use
RANGE STATEMENT

Adjustments to assessment processes may include:

- Consider current assessment best practices by considering a range of assessment tools
- The student may require extra time
- Extra breaks
- Use of an alternative/augmentative communication system to demonstrate learning outcomes
- Alternate presentation of the task (e.g. Reduced complexity)
- Assistance with reading, writing and interpretation of assessment material (where appropriate)

Adjustments to the learning environment may include:

- Manipulating size of student working groups for specific learning outcomes
- Designing physical classroom features or classroom routines to reduce background noise
- Utilising locations other than the classroom to facilitate specific learning outcomes
- Placing students near a capable buddy

Unit Sector(s)

Not Applicable
CHCEDS426A Facilitate learning for students with vision impairment

Modification History
Not Applicable

Unit Descriptor
Descriptor
This unit deals with the skills and knowledge required by education support workers to support students with vision impairment.

It provides understanding of the impacts of vision impairment on students' learning and skills to scaffold students' learning, to enhance students' access to learning opportunities and to ensure vision impaired students' needs are met using the most suitable resources available.

Application of the Unit
Application
This unit applies to education support work in a variety of education contexts.

The role of the education support worker includes providing additional practice for learning activities designed by visiting specialists and day-to-day support for teachers and students encompassing various aspects of school life.

Work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher or other education professional.

Licensing/Regulatory Information

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include demonstrated knowledge and understanding of:

- Vision impairment and its impacts on learning
- Appropriate support strategies in a variety of learning situations for students with vision impairment
- General safety issues with students with vision impairment
- Required learning outcomes for student/s with vision impairment
- Orientation and mobility techniques
- Fundamental understanding of braille

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Apply knowledge of the major causes of vision impairment in students
- Demonstrate understanding of the effects of various forms of vision impairment on learning
- Apply knowledge of strategies that can be used in a learning environment to support students with visual impairment
- Use a basic range of adaptive equipment to prepare resources for students with visual impairment and their teachers

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to apply skills in:

- Language and literacy to effectively and appropriately communicate using a range of verbal, non-verbal, written and electronic mediums
REQUIRED SKILLS AND KNOWLEDGE

- Empathy with the difficulties faced by students with vision impairment
- Inclusive language use
- Maintaining confidentiality
- Teamwork
- Problem solving
- Use of adaptive equipment required by students
- Learning to utilise various equipment required by different students
- Technology to develop tactile resources and arrange timely maintenance of equipment

**Note:** Education support workers supporting students with vision impairment may need to develop additional competency in:

- Typing the braille, including shortforms, word signs and symbols
- Transcribing from braille to print

However, in undertaking this unit of competency, there is no expectation that candidates should achieve fluency in braille

**Evidence Guide**

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed either on the job or off the job through an appropriate workplace simulation
- Assessment should ensure the candidate addresses the elements and performance criteria on at least three occasions, over a period of time
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to
  - appropriate documentation, resources and technologies normally used in an educational environment supporting students with vision impairment
  - principles of practice used in the organisation
  - scenarios that replicate difficulties experienced by vision impaired students and that provide opportunities for participants to problem solve
- Key aspects of the assessment context for closely replicating a workplace include:
  - various environments - inside, outside, stairs, doors etc within which the 'student' may be assisted using orientation and mobility strategies
  - learning situations in which the participant is to provide appropriate support to meet the needs of the 'vision impaired student'
EVIDENCE GUIDE

Method of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - case studies
  - demonstration
  - observation
  - questioning - oral and written
  - scenarios, simulation or role plays
  - workplace projects
  - authenticated evidence from the workplace and/or training courses

- Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Vision impairment refers to:

- Vision impairment in educational terms is any diagnosed condition of the eye or visual system which results in reduced visual functioning for learning
- Disease, damage or injury causing vision impairment can occur to any part of the visual system, i.e. the eye, the visual pathway to the brain or visual centre of the brain

Vision impairments that require support include:

- Distance visual acuity of 6/18 or worse:
  - visual acuity figures for distance are expressed in the following way: the top figure indicates how closely a person needs to be to a letter size which a person with normal vision can see from the distance indicated by the bottom figure
  - for example, a person with visual acuity of 6/18 would need to be 6 metres from a letter which could be seen normally 18 metres away
- Restricted visual fields which adversely affect visual functioning:
  - the visual field is the total area, left and right/above and below, which a person sees while looking straight ahead
  - some eye conditions cause visual field defects and affect the ability of a student to function in the environment
  - eye conditions can affect different parts of the visual field
  - if the damage is in the central region, the ability to see fine detail is impaired
  - damage in the peripheral region, impairs the ability to move around the environment
  - some conditions result in loss of half or a portion of the visual field in one or both eyes while others cause patches where vision is poorer
- A condition which results in deterioration of vision
- Damage to the visual centres of the brain causing reduced visual functioning
- A combination of any of the above

continued ...
RANGE STATEMENT

Vision impairment (contd):

- Visual impairment may:
  - be present at birth
  - occur at any time from disease or accident
  - be part of a medical condition or syndrome
- The majority of visual conditions in children are stable and vision remains relatively unchanged
- Some conditions, however, are progressive, resulting in reduced vision over varying periods

The following conditions are not vision impairment for educational purposes:

- Normal vision in one eye (with no disease in that eye)
- Strabismus (known as squint, lazy eye or turned eye)
- Colour vision defect
- Visual perceptual problems
  - Visual perception occurs in the brain and problems can range in severity
  - in educational terms a visual perception problem is the inability to interpret written symbols
  - no specific eye disease is known to cause such problems
  - these children may have learning difficulties and require learning support
- Some conditions which affect the muscles of the eye
RANGE STATEMENT

Orientation and mobility specialists:

- Work specifically with students with vision impairment in helping them to explore their environments in a meaningful way
- In many cases, students do not know how to attend to significant information in their environment and must be taught to do this and to 'tune in', before they can explore
- The approach used is child centred and assists the student to develop skills which are appropriate throughout life
- These skills or strategies are referred to as 'Attention Directing Tools' (ADTs) and they empower the student to pay attention to those things that are appropriate for the individual student during exploration
- This, in turn, helps each student to learn about the immediate environment and to develop accurate and meaningful concepts in relation to people, traffic and the natural and built environment in general

Orientation and mobility methods and techniques used in supporting a student may include:

- The 6-Step method in teaching route travel
- Oral descriptions of the environment
- Sighted guide (encouraging the vision impaired student to hold the arm of the support worker or another student)
- Enabling the student to gain tactile knowledge of the environment through maps and hands on experiences
- Establishing labels for environmental reference points important to the student
- Enabling the student to discover aspects of the environment without assistance
- WESST (weight, ends and edges, size, shape, sound, texture) - a technique for directing attention to the qualities of an object in order to facilitate recognition of the object in the future
- NBC techniques (NearBy Considerations) - a sensory awareness technique used to gain a more complete mental map of the environment
- Search grids
- Clock face descriptors for objects placed in the learning environment
RANGE STATEMENT

Safe access:
- Will be organised by specialist support staff or the teacher in charge of the facility
- The role of the education support worker is to ensure the environment continues to conform to the safety arrangements determined for the student/s

Appropriate people may include:
- The student
- Parents/caregivers
- Orientation and mobility specialists
- Visiting specialist teachers
- Class teachers
- Learning support teachers
- Therapists
- Optometrists
- Education support workers experienced in working with the student

Adjustments to the learning environment may include:
- Removing or placing protection barrier around very hazardous features (e.g., putting pot plants under stair wells to prevent student hitting head)
- Positioning the student within the classroom to make optimum use of his/her abilities (vision?) and available technologies
- Braille labelling of objects
- Providing access to specific assistive/adaptive technologies
- Providing class learning materials with tactile adaptations for the student
- Adjustments to lighting/glare
- Additional time allowed for reading tasks (usual allowance plus 1/3)
- Adjustments to materials and equipment
RANGE STATEMENT

Terms that suggest some educational needs of students with vision impairment include:

- Low vision - a term used to describe students who may have one or more of the following:
  - reduced ability to see objects clearly at a distance
  - reduced ability to see objects clearly at close range
  - loss of vision in central or peripheral field

Students with low vision will usually use print as their main learning medium

- Braille user - a term used to describe students whose severity of vision impairment requires them to use Braille, tactile and audio materials
  These students will be those with:
  - no vision
  - the ability to perceive only light and dark
  - severely reduced visual acuity

- Braille and print user - a small group of students may use some braille and tactile materials and some print depending on the visual demands of the task

- Louis Braille was the inventor of braille, a world-wide system used by blind and visually impaired people for reading and writing. Braille is read by passing one's fingers over characters made up of an arrangement of one to six embossed or raised points or dots
RANGE STATEMENT

Ways in which vision impairment may affect students' learning include:

- Vision impairment interferes with the gathering of accurate information
- Around 80% of information received by the brain is received through the eyes
- Information that can be accessed in a glance by a sighted person will need to be taught to a student with vision impairment
- This has important implications for learning and for teaching students with vision impairment
- These students will require the following in addition to the teaching of the regular school curriculum:
  - purposeful exposure to a range and variety of experiences in which they have the opportunity to interact with the environment through all the senses
  - access to all information in an appropriate format
  - teaching of specific skills that will allow them to access and control the environment independently
RANGE STATEMENT

Additional instruction requirements may include:

- To ensure access and participation in educational programs, students will require instruction in priority areas additional to, or different from, those of their sighted peers.
- These priority areas may be provided within the class setting or in other environments and some of the following need to be considered for each student:

  (i) communication - braille literacy and numeracy, other braille codes (e.g. music, maths/ technical), listening skills, keyboard skills, handwriting, non-verbal communication

  (ii) orientation and mobility - body and environmental awareness, spatial knowledge and understanding, independent travel

  (iii) social skills - socially accepted behaviour, self-esteem, self advocacy, appropriate use of language

  (iv) concept development - specific experiences to develop concepts in all key learning areas and competencies

  (v) motor skills - fine and gross motor abilities

  (vi) use of technology - use of high and low tech devices, adaptive technology

  (vii) vision efficiency training - use of residual vision, training in use of low vision aids

  (viii) recreation skills - knowledge of and skills to access leisure activities

  (ix) activities for daily living - self care, organisation skills, time management

  (x) vocational and employment opportunities - time management, interpersonal skills, work skills
RANGE STATEMENT

Implications of vision impairment for effective teaching and learning include:

- The need to establish and maintain a supportive, safe environment that is emotionally, socially and physically inclusive of diversity
- Consideration of suitable groupings of students to support participation of students with vision impairment in teaching and learning activities
- Requirements to develop or acquire and use alternative (audio, sensory, tactile or large print) learning/teaching resources
- A need for technological resources and/or vision aids to meet the needs of students with vision impairment
- Staff who develop competency in the use of braille and suitable technologies

Students with vision impairment may require support:

- In the playground
- During sport and play
- Within the class
- During student movements, particularly in unfamiliar areas and excursions
- With supervision during examinations
- In monitoring environmental conditions
- Through the preparation and monitoring of a consistent safe environment
RANGE STATEMENT

Technological solutions for vision impaired students may include the use of:

- Braille writers and embossers:
  - Perkins Braille writer - a manual, portable, typewriter-like machine for producing Braille. The user needs knowledge of braille symbols for letters of the alphabet and braille short forms of common words and mathematical symbols. Thick paper is required for this machine, to support the embossing process.
  - Mountbatten brailler - an electronic Braille writer, notetaker and embosser:
    - has built-in speech and an optional visual display unit
    - requires the direct-input typist to have knowledge of the braille alphabet, short forms and symbols
    - requires thick paper to support the embossing process
  - Embosser - a printer which produces a Braille document from an electronic file
  - Ricoh fuser - a machine that uses heat to cause a reaction between carbon and Swell Paper
    - writing or drawings made with pencil or other carbon-based utensils will swell up when the paper is fed through the machine, creating an embossed document
  - PIAF - Pictures in a Flash - a tactile image maker which uses heat-sensitive capsule paper to produce a tactile graphic
  - Thermoform Braille duplicator
    - this machine will produce braille on plasticised Braillon paper
    - a paper master is required and only one page can be copied in a single operation
    - materials produced on braillon are expected to undergo heavy use over protracted periods

Technological solutions for vision impaired students (contd):

- Braille Notetakers e.g. Braille Note and Pac Mate - sophisticated portable computers with multiple features and Braille displays
- Computer software such as:
  - Duxbury braille translator
    - this program enables text to be converted to
RANGE STATEMENT

- braille and output from an embosser
- knowledge of braille and duxbury codes is necessary for the production of accurate braille
- JAWS screen reader
  - this program enables the user to have access to information about what is on the screen, keyboard functions, files, typed characters and words
  - the audio function can be set at various speeds to suit student abilities
  - headphones are usually necessary in order not to interrupt other students' work
- Zoomtext enlargement software
  - this program enables the users to customise the print size of all that is displayed on a computer screen
- Open book
  - a software reading package for computers
- Scanner-reading Machines e.g. SARA - use optical character recognition technology to scan text and provide an audio output
- E Beam - transfers information from a white board to a laptop computer
RANGE STATEMENT

Suitable resources may include:

- Tape recorders
- Headphones
- Digital audio players
- Talking calculators
- Tactile rulers or markers
- Tactile maps and graphics
- Braille compasses
- Concrete objects
- Enlarged or embossed worksheets
- Overhead projector
- Low vision aids:
  - Optical aids:
    - spectacles
    - magnification devices
    - closed circuit TV
    - tinted lenses
  - Non-optical aids:
    - lamps
    - dark lined books for writing
    - dark pens or pencils
    - hats or shades
    - typoscopes - any device used to isolate words, letter or lines while reading or writing
    - reading/writing/typing stands which provide an angled working station to assist with posture
    - illumination control / glare reduction

CHCEDS427A Facilitate learning for students with physical disabilities

Modification History
Not Applicable

Unit Descriptor
Descriptor
This unit describes the skills and knowledge required by education support workers to contribute effectively to learning experiences for students with physical disabilities.

This unit provides knowledge of physical disability and its impact on students' learning and provides participants with skills to scaffold students' learning, to enhance students' access to learning opportunities and to ensure physically impaired students' needs are met using the most suitable resources available.

Application of the Unit
Application
This unit applies to education support work in a variety of education contexts.

This unit applies to supporting students with permanent physical disabilities, as distinct from temporary or transient disability where students may need additional support for a short time.

Work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher or other education professional.

Licensing/Regulatory Information
Not Applicable
Pre-Requisites

Pre-requisite
This unit must be assessed after achievement of the following related unit of competency:
- CHCEDS417A Facilitate learning for students with disabilities

Employability Skills Information

Employability Skills
This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include demonstrated knowledge and understanding of:

- The effects of physical disabilities on students' learning
- Strategies that can be used to support students with physical disabilities in learning
- Principles of inclusive education
- Assembly and use of adaptive equipment used by a student
- Occupational health and safety guidelines for manual handling and hygiene

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Demonstrate and apply understanding of the causes and effects of physical disabilities
- Provide support for a student with physical disability
- Cooperate with teachers to develop and implement strategies and adjustments to support learning for a student with physical disability

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Communicate effectively, using speaking and listening skills to consult with teachers and other professionals, to interact with students and parents
- Work with people from diverse backgrounds and abilities
- Apply technology to manage adaptive and mobility equipment
- Undertake effective problem solving
- Use safe and effective manual handling techniques where required
REQUIRED SKILLS AND KNOWLEDGE

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed either on the job or off the job through an appropriate workplace simulation
- Assessment should ensure the candidate addresses the elements and performance criteria on at least three occasions, over a period of time

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to
  - a workplace environment or
  - one that closely resembles normal work practice and replicates the range of conditions likely to be encountered in an educational context in which students with physical disability are enrolled
- appropriate documentation, resources and technologies normally used in such an educational environment
- principles of practice used within the education organisation
- scenarios that replicate difficulties experienced by students with physical disabilities and that provide opportunities for participants to problem solve support
- Key aspects of the assessment context for closely replicating a workplace include:
  - various environments in which the 'student' will need access and require personal support
  - learning situations in which the participant is to provide appropriate support to meet the needs of the 'student with a physical disability'
EVIDENCE GUIDE

Method of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - case studies
  - demonstration
  - observation
  - questioning - oral and written
  - scenarios, simulation or role plays
  - workplace projects
  - authenticated evidence from the workplace and/or training courses

- Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Commonly used terms in the context of physical disability may include:

- **Ability:**
  - degree of actual power to perform a particular physical or mental task present in an individual

- **Adaptive skills/behaviours:**
  - everyday coping skills that students need to take care of themselves and to relate to others in daily living

- **Attention span:**
  - period of attention or concentration given by an individual to particular task or situation

- **Augmentative and alternative communication (AAC):**
  - modes of communication, apart from speech, which are used to supplement a person's speech (augmentative communication), or to replace a person's speech (alternative communication)

- **Classroom environment:**
  - conditions within the classroom, or affecting the classroom, which influence the learning situation, including social, physical, physical and psychological aspects

- **Disability:**
  - any lack or restriction of the ability to perform an activity in the manner or within the normal range

- **Generalisation of learning:**
  - this occurs when a skill is learned in one situation and applied in another and allows the student to operate effectively across a variety of environments without having to re-learn behaviours each time there is a change

- **Handicap:**
  - a disadvantage for an individual resulting from impairment or a disability that limits or prevents the fulfilment of a role that is normal for that individual (dependent on age, sex, social and cultural factors)

- **Impairment:**
  - any loss or abnormality of parts or functioning of the brain or body

*continued*
RANGE STATEMENT

Commonly used terms in the context of physical disability (contd):

- Memory:
  - the mental process of retaining and recalling a past act, experience, or impression

- Perception:
  - thinking involved in becoming aware of objects, items, qualities or relations through receiving, processing and interpreting impressions received via the senses
  - to register information through one or more of the sensory modes and to make meaning of it

- Thought processing:
  - allows students to organise incoming information, to make connections between pieces of information and to interpret symbolic and abstract concepts
  - it also allows information to be organised for decision-making, communication and action

Physical disability refers to:

- Physical impairment or disability which affects a person's ability to move or to coordinate and control movement
- It may also involve loss of feeling and/or inability to use certain parts of the body
- Different body systems may be involved:
  - musculoskeletal - involving joints, limbs and associated muscles
  - neurological - involving central nervous system (brain, spinal cord or nerves that run from the spinal cord)
RANGE STATEMENT

*Causes of physical disability may include:*

- Cerebral palsy
- Spina bifida
- Muscular dystrophy
- Arthritis
- Osteogenesis (brittle bones)
- Congenital malformation of the limbs
- Some acquired brain injury
- Some orthopaedic conditions
- Syndromes
- Accidents which result in brain injury, spinal injury, loss of limbs or severe burns.
- Chronic health problems such as cancer may also affect a student's physical development, resulting in disability

*A physical disability may be:*

- Present from birth (congenital) or acquired later (e.g. through an accident or illness)
- Progressive or non-progressive (this refers to whether or not the condition increases in extent or severity)
RANGE STATEMENT

Physical disability can affect student development in ways that depend on the specific condition and may include difficulties with:

- The ability to move, initiate movement, control movement and/or coordinate movement
- Gross motor skills - large groups of muscles in the legs, trunk, neck and arms are involved. The ability to control these muscles affects the student's capacity to sit, stand, roll, reach, walk
- Fine motor skills - small muscles in the arms and hand used to perform fine motor skills such as touching grasping and manipulating
- Communication - some students with physical disabilities have difficulties with voice production and may need to use augmentative and alternate methods of communication
- Emotional well being - the impact of a physical disability on the emotional well being of students will be different for each student and will vary according to life stages and their experiences
- Factors which influence a student's self-esteem and emotional status include:
  - personality of the individual
  - severity of the impairment
  - age
  - degenerative conditions
  - acquired conditions
  - family attitude
  - attitude of the school community
  - expectations
- Social skills - social skills are developed gradually as children play, share activities, share interests and share responsibilities. A physical disability may or may not interrupt this development at any or all stages
- Personal care - students with physical disability may need assistance with eating, toileting and other personal needs
RANGE STATEMENT

Physical disability can affect student learning in ways that depend on the specific condition and may include:

- Irregular school attendance:
  - students with physical disability may be absent from school for significant periods of time
  - implications for students can be wide ranging:
    - they miss out on opportunities to learn
    - friendships between peers develop in their absence
    - on return they have to readjust to the school routine
    - they may not be able to keep up with their peers

- Difficulties with access to and from the learning environment
  - these issues may be physical and/or attitudinal and can relate to all aspects of school life:
    - access to classes, eating areas and school grounds
    - classroom set-up
    - portability of learning materials, books and equipment
    - access to library, laboratories, resource centres, computers
    - sporting facilities
    - toilets and change rooms
    - water fountains
    - school tuckshop
    - transport and excursions
    - camps
    - work experience placements
    - school play/concert/other productions
    - social functions
    - emergency evacuations

- Communication difficulties:
  - for the student who has difficulty speaking or is unable to speak:
    - adaptive equipment may be needed
    - student must learn to use the equipment
    - additional time required for oral interactions
    - frustration may develop
    - behaviour may be affected
RANGE STATEMENT

- concentration may not be sustainable for long periods of time

*continued ...*

**Effects of physical disability on student learning (contd):**

- Communication difficulties:
  - For the student who is unable to write:
    - adaptive equipment may be needed
    - computer programs may be utilised e.g. a variety of software options including voice recognition typing programs
    - student may need a note taker and/or scribe.
    - student may require additional printed resources

**Implications of physical disability for effective teaching and learning may include:**

- Adjustments to the learning environment in order to facilitate access and to accommodate mobility equipment required by students with physical disabilities
- Use of inclusive practices and an environment that promotes equity and equality
- Personal support requirements, with management of additional adults in the learning environment
- Planning needs to incorporate alternate delivery methods and adaptations to ensure students with physical disability have equitable access to learning
- Education adjustment programs and education adjustment program profiles (or equivalents) may be required for students with physical disabilities
- Provision and use of adaptive technologies and equipment
- Specific supportive behaviour strategies may be required to assist students with physical disabilities to cope with additional frustrations and fatigue
- Timing of activities may need to be flexible
- Raised awareness of health and safety issues in the learning environment
- Contingency planning in place in case of emergency
- The need to take an unbiased, flexible attitude to solving difficulties
RANGE STATEMENT

Strategies to support student learning may include:

- Larger work sheets
- Fewer distracting details on work sheets/posters/wall displays
- Working with a buddy
- Adapted items to handle to assist with grasp (play, number activities, art project)
- Adjustments to games to allow participation
- Technology (modified keyboards, special programs)
- Hand outs or material available in a digital form to alleviate extensive note taking

Strategies that apply to assessment include:

- Adjustments to work sheets
- More time to complete an assignment or exam
- A scribe to write during an exam
- Three years to cover the two year program of years 11 and 12
- Different methods of assessment

Education team may include:

- Class teacher/s
- Principal
- Head of department
- Head of special education services
- Advisory visiting teachers
- Education support workers
- Nurses
- Parents/carers
- Occupational therapist
- Physiotherapist
- Speech-language pathologist
RANGE STATEMENT

Personal support may include:

- Emotional support
- Communication
- Promoting social interactions
- Facilitating the student with physical activities to increase their confidence and independence
- Physical support for the student, including:
  - positioning
  - transfers
  - moving from class to class
  - moving from activity to activity within the class
  - eating/drinking
  - personal hygiene
  - dressing
- Health care - both routine and emergency
- Preparation for some curriculum activities e.g. swimming, music, physical education
- Assisting the student to manage transport, and/or escorting the student to and from:
  - school
  - excursions
  - camps
  - sporting events
  - work experience
- Care of equipment
- Setting up specific pieces of technology used by the student
- Mobility needs and manual handling to lift and/or move some students
- Working with a range of manual handling equipment including hoists
- Placing splints onto a specified limb

When assisting the student to access the learning environment the underlying principles are:

- Maintaining the dignity of the student
- Ensuring the safety and comfort of the student
- Considering the preferences of the student
- Promoting the independence of the student
- Planning ahead
RANGE STATEMENT

Strategies to support student learning may include:

- Implementing specific learning/teaching program in cooperation with the teacher/s
- Knowing what motivates the student
- Having expectations of the student
- Incorporating student preferences
- Adapting to the preferred learning style of the student
- Ensuring, through consultation with the teacher, understanding of:
  - the purpose of the activity
  - what strategies are to be used
  - how the strategies are to be implemented
  - what level of help is to be given
  - how help/assistance is to be given
  - what information is to be recorded and in what format
- Communication:
  - learning how to use a specific communication system
  - creating opportunities for communication
  - responding to all communicative attempts
- Responsible behaviour
  - modelling expected behaviours
  - clearly establishing expectations
  - offering choices
  - following through on consequences

</table>
ELEMENT

3. Engage with students in extensive language and literacy learning

PERFORMANCE CRITERIA

3.1 Identify context for learning an Aboriginal or Torres Strait Islander language

3.2 Assist teacher to plan language learning activities to address identified context for language learning

3.3 Implement language learning activities in consultation with teacher

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Local cultures and languages
- School policies and programs relating to the promotion of language and culture in the school
- Aboriginal and/or Torres Strait Islander languages and cultures

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Assist teacher to plan, teach, assess and evaluate lessons
- Actively engage in learning process
- Plan and sustain own language
- Demonstrate a significant increase in language and/or literacy levels of students in their own Aboriginal or Torres Strait Islander language
- Identify and implement a language learning situation

In addition, the candidate must be able to effectively do the task outlined in elements and
REQUIRED SKILLS AND KNOWLEDGE

performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Communicate with local custodians and speakers
- Conduct interviews to obtain and clarify understanding of language
- Study languages and cultures

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit can be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Identify and research language and culture includes:

- Naming of languages and cultures
- Mapping of languages and cultures
- Collection and/or creation of resources relating to local languages and culture
- List of local contacts, custodians and speakers
- Negotiation with local custodians
- Description and summary of local language and culture
RANGE STATEMENT

Curriculum requirements for Aboriginal and/or Torres Strait Islander languages and culture refers to:

- Culture
- Language maintenance
- Language revitalisation

Learning an Aboriginal or Torres Strait Islander language may refer to:

- Language maintenance
- Language revitalisation
- Language reclamation

Unit Descriptor

Descriptor

This unit describes the skills and knowledge required for education support workers to coordinate learning programs/activities using an e-learning management system.

It includes establishing the learning environment, inducting students into the learning program, assisting them to use the available functions of the system, dealing with technical problems and collation of student data from the system to inform reviews.

Application of the Unit

Application

This unit applies to education support work in a variety of contexts and work is to be undertaken with appropriate guidance, support and supervision by nominated teacher.

<td>1.5 Use e-learning management system to record a range of student and course information</td>
</tr>
</tbody>
</table>
ELEMENT

2. Coordinate e-learning activities

PERFORMANCE CRITERIA

2.1 Agree protocols and *netiquette* with e-learners in accordance with organisation requirements

2.2 Induct students into the course procedures and the capability of the e-learning management system

2.3 *Facilitate interaction* between students to encourage and develop a community of learners

2.4 Provide opportunities for students to reflect and record own progress

3. Provide ongoing support for e-learning management system

3.1 Provide students with personal and *technical support* while they are engaged in e-learning through *online communication* and *personal contact*

3.2 Provide support and guidance for students using the e-learning environment, taking into account *student learning characteristics*

3.3 Identify errors or difficulties with e-learning management system and/or *technical infrastructure* and provide ongoing support and solutions

3.4 Provide effective administration of the e-learning management system

4. **Review** the effectiveness of the e-learning course

4.1 Obtain feedback from educational / training organisation on levels of satisfaction with e-learning against *set criteria*

4.2 Collect quantitative data from the e-learning management system and analyse against set criteria

4.3 Take time to *reflect on own performance* as a facilitator of an e-learning management system

4.4 Analyse data collected to identify potential improvements to the delivery of the learning program

4.5 Identify recommendations for improving the facilitation of e-learning programs, resources and tools

4.6 Document recommendations in accordance with the education/training organisation requirements and provide to relevant authorities for consideration
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Principles of learning in a virtual environment
- Technical knowledge sufficient to distinguish between a technical problem and a content problem, and to respond accordingly
- Technical knowledge required to work within the e-learning management system e.g. construction of discussion board or tests
- Use of systems that allow monitoring of students
- Structure and content of relevant e-learning resources
- Ethics related to e-learning e.g. duty of care, security of information, plagiarism
- Rationale for the use of different learning activities

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Provide an integrated demonstration of the application of all elements of competency and their performance criteria
- Adjust an e-learning site and content to suit educational / training organisation requirements
- Adjust e-learning site and content to suit learner and group needs
- Adapt level and type of support to effectively address needs of different learners

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Correctly use e-learning tools e.g. communication tools, learning activity tools,
REQUIRED SKILLS AND KNOWLEDGE

- assessment tools, monitoring tools
- Apply high-level organising skills
- Apply technological skills effectively, for example in identifying technical problems and being able to troubleshoot or know where to get required technical assistance
- Use time management skills
- Apply language, literacy and numeracy skills
- Communicate effectively, including negotiation and conflict resolution, to resolve difficulties and complaints

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered within an e-learning educational context, including:
  - an e-learning management system
  - e-learning programs
  - 'students' accessing e-learning programs simulating various problems that may occur
  - relevant documentation and resources normally used in the e-learning education environment
EVIDENCE GUIDE

Methods of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - observation
  - demonstration
  - questioning - oral and written
  - scenarios, simulation or role plays
  - authenticated evidence from the workplace/training programs

- Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

E-learning refers to:

- The term used to refer to computer-enhanced or managed learning, although it is often extended to include the use of mobile technologies such as PDAs and MP3 players
- It includes the use of, for example:
  - web-based teaching materials
  - multimedia CD-ROMs or web sites
  - discussion boards
  - collaborative software
  - email
  - blogs
  - wikis
  - computer aided assessment
  - simulations
  - games
  - learning management software
- And generally involves a combination of different methods being used
- An e-learning environment may include the following characteristics:
  - is independent of a set or scheduled time period
  - is independent of a fixed or specific venue or place
  - is connected through information communication technology
  - the internet provides the operating learning environment
  - learners can determine how, when, and where they learn

Learning program requirements may include:

- Relevant syllabus and approved work programs for a particular State or Territory
- School based subjects and work plans
- School requirements
- Community based training courses
- Vocational education and training courses
RANGE STATEMENT

Learning space may include:
- On-line class areas
- Virtual schooling/classrooms
- Discussion boards
- Chartrooms
- Designated space

Social constructivist approaches refer to:
- View our knowledge as 'constructed', because it does not necessarily reflect any external 'transcendent' realities and is contingent on convention, human perception, and social experience
- Believe that learning is the result of social interactions within a structured knowledge and skill framework
- Social constructivism contends that categories of knowledge and reality are actively created by social relationships and interactions

School routines may include:
- Timetables
- Flexible weeks
- Flexible school
- Supervision rosters
- Tutor allocations
- Daily programs

Educational organisation may include:
- Primary schools
- Secondary schools
- Middle schools
- Vocational education and training organisations
- Institutes of technical and further education
- Registered training organisations
- Some community organisations

Education/training organisation requirements will vary according to the organisation's purpose and client base
RANGE STATEMENT

E-learning management system may include:

- Moodle
- Blackboard
- WebCT
- Janison’s systems

Information may relate to:

- Enrolment information
- Teacher / facilitator details
- Surveys of learners to identify specific technology skills and support needs for e-learning
- Quizzes and assessment items
- Student details (within scope allowed within learning environments)
- Learning materials
- Learning objects
- Internet links
- Communication protocols

E-learning activities and events may be synchronous (in real time) or asynchronous (not in real time) and may include:

- Discussions/debates
- Questions, problems, brainstorming
- Games/quizzes
- E-based research activities
- Case studies
- Role plays/simulations/scenarios
- Practical activities
- Using the internet to find information sites
- Using materials on CD-ROMS
- Downloading resources including materials/ notes/ guides from dedicated learning program/course specific web site
- Learning objects (i.e. learning federation, etc.)
RANGE STATEMENT

Protocols for the e-learning interaction and environment may include:

- Boundaries of communication/standards of behaviour while on-line
- Guidelines for trainer/facilitator and e-learner interactions, such as:
  - standard of service levels
  - email guidelines, times for sending, expected response times, types of questions that are individual or group directed
  - email access and lists
  - discussion board guidelines
- Arrangements for technical support
- Learning activity and assessment requirements and processes
- Security systems
- Expectations/requirements of students, for example:
  - participation in learning events and activities
  - time requirements for submitting work
  - group work arrangements
  - ability to work online and offline as required

Netiquette is:

- A term for the conventions of politeness and respect recognised on internet activity (e.g. discussion boards, chat rooms, email, etc)
- These conventions address the relationship between personal behaviour and group phenomena, and outline a set of guidelines for conduct that is conducive to pleasant, efficient and agreeable interaction
RANGE STATEMENT

Facilitate interaction may include:
- Guiding learning activities through setting up questions, issues, scenarios to be addressed in discussion board, data conferences or email
- Observing in forums/chat and intervening when necessary to maintain focus/momentum/engagement
- Knowing when to intervene/when to let learners direct themselves
- Moderating disruptive, abusive or dominant e-learners
- Facilitating group work both online and offline
- Assisting learners in locating, using and evaluating online information
- Maintaining momentum and motivation of e-learners through ongoing individual contact and feedback

Technical support needs and mechanisms may include:
- Technical support from education organisation / system
- Meeting accessibility issues, e.g. Internet accessibility standard
- Asked questions (FAQS) service
- Problem solving tools
- Support with it literacy
- Support to help learners become self-directed e-learners
- Work health and safety (WHS) guidelines for computer-based work

Online communication may include:
- Text chat
- Chat rooms
- Discussion boards
- Audio contact through VOIP
- Data conferencing

Personal contact may include:
- Face-to-face meetings
- Telephone contact
- Email
RANGE STATEMENT

Student learning characteristics may include:

- Level of expertise in using relevant technologies
- Level and type of experience in an e-learning environment
- Specific needs
- Educational background
- Language, literacy and numeracy needs
- Employment status
- Past learning experiences
- Age
- Level of maturity
- Culture and/or language diversity
- Differing learning styles (e.g. auditory, visual, kinaesthetic, left/right brain, global/analytical, theoretical, activist, reflective)

Technical infrastructure may include:

- Technology to be used in delivery
- Type of online learning management platform, e.g. Blackboard, Moodle
- Time required for setting up and testing equipment/technology
- Setting up a specific dedicated web site for the e-learning course/program
- Setting up hyperlinks
- Liaison with information technology (IT) personnel/specialists

Review may include:

- Feedback from learners, supervisors, e-learning designers, program owners, etc.
- Identification of issues in managing/monitoring students involved in e-learning
- Identification of issues in e-learning management system operation
- Effectiveness of the e-learning protocols, their application and proposed changes
- Effectiveness of the technology being used
RANGE STATEMENT

Set criteria may include:

- Content
- Presentation
- Technologies
- Student outcomes
- Personal outcomes
- Team outcomes
- Organisation outcomes

Reflect on own performance may include:

- Critical questions about system performance, problem-solving/identification, methods used, etc.
- Listening to and acting on feedback from students and others

</thead>
</table>
| 1. Apply basic knowledge of *autism spectrum disorder* | 1.1 Demonstrate an understanding of the *historical context* and current research relating to autism spectrum disorder  
1.2 Demonstrate understanding of *processes of establishing a diagnosis of ASD*  
1.3 Work with a demonstrated understanding of the difficulties experienced by students with ASD |
| 2. Identify the effects of ASD on student development and learning | 2.1 Communicate the *effects of ASD on student development and learning*  
2.2 Identify the *implications of ASD on effective teaching and learning practices* |
| 3. Provide support to students with ASD | 3.1 Assist the student with ASD as part of the *education team*  
3.2 Work as a team member to implement education programs  
3.3 *Influence social interactions* with other students and staff |
ELEMENT | PERFORMANCE CRITERIA
--- | ---
4. Provide support to teachers of students with ASD  | 4.1 Contribute to goal setting for the student as part of the education team
 | 4.2 *Support the teaching strategies* used by the teacher
 | 4.3 Identify, maintain, prepare and use *suitable resources* for students with ASD
 | 4.4 Take appropriate steps, if required, to maintain personal safety of self and others

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Autism spectrum disorder (ASD) and its effects on development and learning
- Communication techniques for engaging students with ASD in the education context
- Education facilities policy related to working with people with a disability
- Legislation related to anti-discrimination, disability in the education environment, child safety, inclusiveness
- Positive behaviour support techniques

*Essential skills:*

It is critical that the candidate demonstrate the ability to

- Contribute to planning and support for students with ASD

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of
REQUIRED SKILLS AND KNOWLEDGE
the identified work role

These include the ability to:

- Anticipate the need for intervention or diversion in social situations between students with ASD and others
- Communicate using:
  - oral skills with teachers and colleagues to ensure understanding of tasks and strategies
  - verbal and non-verbal skills to develop supportive relationships with students without creating dependency
  - writing skills to record observations
- Empathise with students with ASD
- Make suitable resources
- Use technology to set-up, use and maintain any aids required by students with ASD

Evidence Guide
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Autism spectrum disorder (ASD) refers to:

- The term autism spectrum disorder is an umbrella term that describes autism and asperger syndrome
- Some researchers believe the spectrum also includes rett's disorder, childhood disintegrative disorder, pervasive developmental disorder not otherwise specified (PDD-NOS)
- This is because there is an overlap between these disorders with the triad of impairments- these are the three core area associated with ASD as listed communication skills, social interaction and restricted areas of interest/thinking
- There are no diagnostic criteria for ASD; it is simply a term used to describe individuals with a diagnosis of autism, asperger's syndrome or associated pervasive developmental delays without needing to specify each disorder individually
- ASD is a very complex developmental disability - a lifelong and pervasive disability that may have serious influence on every aspect of a person's family and community life
- Individuals diagnosed with ASD may display difficulties in three areas:
  - communication
  - social interaction
  - flexible thinking and behaviour
- In addition, some young people with ASD may also have sensory processing difficulties - unusual perception of sounds, sights, smell, touch and taste, which may lead to distinctive behavioural responses
- A pattern of developmental differences in all three areas is necessary to confirm a diagnosis
- The effect of these difficulties on a student will vary; no two people with ASD are the same

Historical context includes:

- Facts and myths about autism spectrum disorders
- Original research conducted by Leo Kanner (1943) and Hans Asperger (1944)
RANGE STATEMENT

Processes of establishing a diagnosis of ASD include:

- Diagnosing ASD is a highly specialised skill
- Diagnoses are generally based on a multi-disciplinary team approach, including two different perspectives, most commonly from a psychologist, speech pathologist, paediatrician or psychiatrist
- A specialist or family member may request information from school staff to assist with the diagnostic process
- **NOTE:** School staff, including advisory visiting teachers - ASD, guidance officers and special education teachers, are not qualified to make a diagnosis of ASD
RANGE STATEMENT

Effects on student development and learning include:

- The effects of ASD on learning and development will vary as no two students have identical symptoms, backgrounds or interests.
- Abilities in communication, social understanding and flexibility of thought and behaviour will vary from student to student.
- The level of difficulty experienced in each area will be specific to each individual; however the pattern of problems is the feature common to persons diagnosed with ASD.

Students diagnosed with ASD will experience difficulties in at least one of the following areas:

- Communication:
  - students with ASD may have difficulty interpreting the messages of others and in framing and conveying messages for themselves.
- Receptive language skills.
- Expressive language skills.
- Social competence:
  - social interactions of all students with ASD are disordered to some degree.
  - students may be motivated to interact socially but lack many of the skills to do so.
  - one student with ASD may seem largely disinterested and unresponsive to others, but another may have more subtle social competence.
- Behaviours that interfere with learning:
  - difficulties adjusting to change.
  - aggression/disruption.
  - stress responses.
  - self-stimulatory behaviours/repetitive actions.
  - inconsistencies in behaviour (home behaviours differ from school behaviour).
- Sensory information processing: difficulty registering, modulating and integrating information received through one or more of the senses.
- Other considerations:
  - motor skills.
  - cognition/learning characteristics.
  - self care skills.
  - personal independence.
RANGE STATEMENT

- leisure/recreation
- assessment and reporting

Implications of ASD on effective teaching and learning practices may include:
- A need for additional human resources
- Formulation of rules for acceptable class behaviour that takes into consideration the difficulties of students with ASD
- Required input from specialists and key stakeholders
- Team approach to programming specific needs
- Use of instructional design and resources

Education team may include:
- Advisory visiting teacher/s
- Class teacher/s
- Education support workers
- Guidance officer
- Nurses
- Parents/guardians
- Principal
- Therapists

Influence social interactions between students with ASD and staff and other students refers to:
- Actively supporting the student to participate as a member of his/her class group
- Developing a positive relationship with the student
- Developing good communication with students to negotiate, clarify and problem-solve
- Encouraging students to do as much as much as possible for themselves
- Helping students to have input to he style of support provided
- Minimising unnecessary withdrawal or isolation of the student
- Modelling appreciation of valued qualities displayed by students with ASD
RANGE STATEMENT

Support the teaching strategies includes:

- Contributing observations and data to assist the teacher monitor progress and planning
- Ensuring the desired learning outcomes and planned means to achieve them are clearly understood
- Following the teacher's example - using a similar vocabulary, tone of voice, positioning, wait-time, questioning techniques, and directions
- Liaising with other education support workers to share experiences and create a network of team support
- Seeking clarification when purpose of activities is unclear
- Understanding the principles of practice being used by the teacher

Suitable resources may include:

- Modified materials to enable students with ASD to participate in class activities e.g. more space between questions on worksheet, complex sentences reworded
- Specialised equipment, such as a slope board or pencil grip to improve writing skills
- Technological aids e.g. computer switches which are bigger or brightly coloured, or electronic communication devices

Support strategies for students with ASD will be developed by/with the teacher/s and may include:

- Addressing rigidity and inflexibility
- Encouraging acceptable behaviours
- Enhancing communication
- Incorporating social learning into curriculum activities

Unit Descriptor
Descriptor
This unit deals with the skills and knowledge required by education support workers to identify and respond to the developmental needs of students.

Application of the Unit
Application
This unit applies to education support work in a variety of contexts and work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher or other education professional.

Licensing/Regulatory Information
Not Applicable

Pre-Requisites
Not Applicable
## Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

### Elements and Performance Criteria

#### ELEMENT

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Provide opportunities for developmentally appropriate physical activity | 1.1 Identify *opportunities for physical development* that are appropriate to student's stage of development and capabilities  
1.2 Identify opportunities for students to learn and develop *physical skills*  
1.3 Seek and follow guidance regarding opportunities for a particular student  
1.4 Promote *appropriate physical activities* using available resources |

| 2. Promote the student's exploration and development of identity | 2.1 In conjunction with teacher, choose *learning materials and resources* that provide positive and *non-stereotypical images*  
2.2 Encourage students to take pride in their racial identity, gender identity and abilities  
2.3 Under supervision of teacher, design activities that provide opportunities to explore issues of *self-image and identity* that are within the students level of development |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 3. Promote students self-esteem | 3.1 Design activities that take into consideration the student needs, interests and capabilities  
3.2 Encourage students to take appropriate risks and to view them as opportunities to learn  
3.3 Monitor student confidence and self-esteem  
3.4 Acknowledge and support students who are experiencing negative views of themselves, their world and learning  
3.5 Share information in a variety of forms with other staff, specialist and management  
3.6 Encourage students to be active in decision-making that affects their learning and development |
| 4. Develop and promote positive interaction with and between students and adults | 4.1 Encourage students to initiate and develop positive and appropriate forms of contact with others  
4.2 Identify and address inappropriate and negative forms of contact according to organisation policies and procedures  
4.3 Model and advocate respect and courtesy in all forms of communication  
4.4 Structure learning activities to promote cooperation, mutual respect and resolution of conflict  
4.6 Provide support to students who have difficulty interacting with others to establish and maintain friendships and group membership |
| 5. Encourage and promote the acceptance of diversity by students and staff | 5.1 Encourage students to regard differences between people positively  
5.2 Assist students to understand that diversity is beneficial to the community and their future  
5.3 Negotiate problem solving between students in conflict |
6. Assist students in their cognitive development

6.1 Provide opportunities and resources that are varied and challenging to the students stage of cognitive development and interests

6.2 Use theories of cognitive development to construct appropriate learning interactions and activities

6.3 Provide activities that reflect sequential acquisition of knowledge and skills

6.4 Encourage students to explore, understand and attempt to solve problems in their environment

6.5 Introduce new ideas/activities that may build on existing knowledge, skills and interests

6.6 Arrange the education environment to provide a variety of experiences to develop students' creativity, imagination and self expression

7. Assist students in their language development

7.1 Provide developmentally relevant opportunities for students to listen, use and experiment with language

7.2 Create opportunities for group discussions and exchange of views between students

7.3 Use learning materials that are developmentally appropriate

7.4 Speak to students in a language that is appropriate to the maturation and developmental level of the student

7.5 Take time to listen and respond to students

7.6 Encourage students to express their thoughts, feelings and ideas using open-ended questions

7.7 Model and encourage two-way communication with questioning and listening
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Policy, procedure and legislative issues affective performance as education support personnel
- Physical skill and development
- Each student's rate of development, needs, interests and strengths
- Experiences that will target specific areas of physical, emotional, social, cognitive and language development
- Resources that can be used to stimulate physical, emotional, social, cognitive and language development
- Interactions between different areas of development
- Strategies that can be used to encourage independent reading
- Roles and responsibilities of education support workers and teachers in providing support to students
- A range of effective communication strategies for use with students and teachers
- Contextual factors which influence the students emotional and psychological development
- Events or crises which can challenge the students emotional and psychological development
- Factors which enhance the development of self-esteem and self identity
- Identity development processes within the students' culture

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Demonstrate integration of all elements of competency
- Assess the elements of competency within an education setting
- Analyse student behaviour against developmental theories
REQUIRED SKILLS AND KNOWLEDGE

- Select activities that are appropriate to the developmental stages of the students
- Promote and interact in a positive, respectful, and supportive manner with student/s and colleagues
- Understand, promote and support student’s developmental needs

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Use a range of communication styles to suit different audiences and purposes
- Respond to diversity in supportive and positive ways
- Empathise and be culturally sensitive in responding to students
- Access formal documents such as legislation and policies related to education environments
- Apply environmental and occupational health and safety procedures
- Identify appropriate contact
- Use problem solving in respect to choosing appropriate response, identifying problems, consulting with appropriate personnel with self and students
- Use interpersonal skills
- Consult with teaching staff, education support workers, management team and others on workplace learning strategies to accommodate student developmental needs
- Apply stages of developmental theories to working with students

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit can be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the Range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Opportunities for physical development may include:

- Fine motor and gross motor activities
- Eye-hand/foot coordination
- Balance
- Active games
- Sports
- Physical environment - constraints and potential
- Level of support
- Frequency and regularity
- Socio-dramatic play
- Art/craft activities

Physical skills may include:

- Fine motor and gross motor activities
- Eye-hand/foot coordination
- Balance
- Active games
- Sports
- Locomotion

Appropriate physical activities may include:

- Indoor and outdoor activities
- Fine motor and gross motor activities
- Eye-hand/foot coordination
- Balance
- Active games
- Sports
- Locomotion
- Coordination
RANGE STATEMENT

Learning materials and resources may include:

- Electronic forms
- Print resources e.g. References, texts and worksheets
- Auditory resources e.g. Videos, photos, charts and diagrams
- Sporting equipment
- Scientific equipment
- Nature
- Personnel
- Case studies
- Assessment materials
- Record/log books
- Constructions
- Art work
- Food

Non-stereotypical images include flexible portrayal of people regardless of:

- Age
- Cultural background
- Education
- Ethnicity
- Expertise
- Family responsibilities
- Gender
- Interests
- Interpersonal approach
- Language
- Life experiences
- Marital status
- Personality
- Physical ability
- Political orientation
- Sexual orientation
- Religious beliefs
- Socioeconomic background
- Thinking/learning styles
- Work experiences
- Working styles
RANGE STATEMENT

Self-image and identity may include:

- Perceptions of self as influenced by:
  - age
  - cultural background
  - education
  - ethnicity
  - expertise
  - family responsibilities
  - gender
  - interests
  - interpersonal approach
  - language
  - life experience
  - marital status
  - personality
  - physical ability
  - political orientation
  - sexual orientation
  - religious beliefs
  - socioeconomic background
  - thinking/learning styles
  - work experience

Student needs, interests and capabilities may include:

- English language numeracy and literacy
- Behaviour support
- Learning support
- Socio-emotional
- Cultural appropriateness
- Physical disabilities
- Intellectual disabilities
- Gifted and talented
- Interests
- Curriculum requirements

Appropriate risks refers to:

- Participation in activities where the results may be unknown and where their skills and/or knowledge are likely to be known or extended
RANGE STATEMENT

Confidence and self-esteem may include:
- Communication skills
- Physical abilities
- Emotional resilience
- Social aptness
- Cognitive abilities

Share information may include:
- Personal information
- Custodial information
- Medical details
- Assessments
- Behavioural reports and programs
- Individual learning programs
- Anecdotal and formal reporting

Forms of contact may include:
- Social
- Emotional
- Physical

Organisation polices and procedures may include:
- Documents developed by the education system, school or a sector of the school which provided policy and procedural direction

Model and advocate refers to:
- Demonstrating and promoting as part of daily life

Theories of cognitive development include:
- Behavioural, cognitive learning and social constructivist theories of learning

Sequential acquisition of knowledge and skills may include:
- Progressive attainment of knowledge and skills as outlined in the development stages of cognitive theories
RANGE STATEMENT

Two-way communication refers to:

- Congruence between verbal and non-verbal communication
- Verbal and written communication:
  - phrases and jargon that students use
  - language specific to an area of the student's interest e.g. football/fashion
  - language that takes into account any identified disability or special learning needs
  - group or individual discussions
  - listening to informal conversations/chatting
  - volume to suit situation and audience size
  - intonation
  - articulation
  - pronunciation
  - tone of voice
  - awareness of word order patterns in Standard Australian English
- Non-verbal communication:
  - working at the same level as the students (e.g. sitting at the student's desk or on the floor)
  - proximity to the student
  - eye contact/no eye contact
  - body language
  - facial language
  - care and respect in interactions may be demonstrated through the tone of voice and style of interaction
  - gestures
  - augmentative and alternative communication

<td>----------------------</td>
</tr>
</tbody>
</table>
| 2. Identify, interpret and document learning styles | 2.1 In conjunction with teacher, analyse and assess a broad range of *learning theories and styles* for relevance and application to the individual/group of students  
2.2 In conjunction with teacher, implement a range of *learning strategies*, analyse them for effectiveness and modify where necessary  
2.3 Provide planning documentation to relevant staff for approval ensuring the plan reflects a variety of learning styles |
| 3. Manage the learning environment | 3.1 In conjunction with teacher, establish the learning environment to meet the *agreed goals* and to reflect inclusive processes and practices  
3.2 Facilitate learning to include diversity of student needs  
3.3 Use *communication and interpersonal skills* to establish learning environment and motivate students  
3.4 Identify barriers to learning and make adjustments where necessary to the learning environment  
3.5 Create learning experiences using learning theories, principles and inclusive practice |
| 4. Assess situations requiring interventions | 4.1 Gather information from relevant sources and identify the immediate and long term consequences of the situation  
4.2 Identify major issue of concern, factors which are maintaining the situation and frequency of the problem occurring  
4.3 Observe and investigate interaction patterns  
4.4 Identify and make decisions about the impact of the problem on people involved and need for urgent action  
4.5 Assess the likely intent of the student central to the problem |
ELEMENT

5. In conjunction with teacher, develop, implement and review behaviour support strategies

PERFORMANCE CRITERIA

5.1 Under teacher supervision, develop clear goals to meet students needs and development stage and obtain required resources to implement strategies

5.2 Where possible develop strategies with student and implement in the least obtrusive way, under teacher supervision

5.3 Design strategies in consultation with other staff that create opportunities for students to interact with others

5.4 Under teacher supervision, regularly review strategies which are achievable within available resources

5.5 Complete incident report forms as required by organisation

6. Reflect on own professional practice

6.1 Facilitate and plan learning to meet ethical principles of practice

6.2 Monitor and review own practice as a learning facilitator with supervisor

6.3 Analyse facilitation practice to identify professional development needs

6.4 Incorporate continual improvement practices in planning and facilitation practices
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relationship between legislation and agency policy and procedures
- Principles of duty of care
- Relevant standards and code of behaviour in the workplaces
- Rights and responsibilities of students and workers
- Principles and practices of confidentiality
- Importance of ethics in practice
- School policies
- Learner needs to be learner focused
- Learning styles, strategies and theories
- Availability and type of resources
- Principles of diversity and inclusivity
- Emergency procedures

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Identify and integrate legislative responsibilities and policies and procedures into routine activities
- Interpret and analyse the legislative framework
- Make decisions according to legal, ethical and organisation policy
- Interpret and analyse the legislative framework
- Work within the ethical frameworks underpinning an education setting
- Integrate diversity into planned activities
- Plan, organise and facilitate learning activities
- Develop and implement behaviour support strategies in consultation with the teacher
REQUIRED SKILLS AND KNOWLEDGE

- Undertake self reflection and improvement process

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Communicate and use interpersonal skills
- Problem solve logistics
- Plan and organise activities
- Use literacy to the required level
- Deliver in a range of methodologies
- Reflect, observe and demonstrate facilitation

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from a workplace environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Opportunities for physical development may include:

- Fine motor and gross motor activities
- Eye-hand/foot coordination
- Balance
- Active games
- Sports
- Physical environment - constraints and potential
- Level of support
- Frequency and regularity
- Socio-dramatic play
- Art/craft activities

Physical learning environment may include:

- Classroom
- Library
- Workshop
- School support centre
- Learning support centre
- Special education units
- Special school
- Pre school
- Behaviour support units
- Excursions
- Vocational education environment

Learning environment may include:

- Physical setting
- Routines
- Procedures
- Mood/tone/climate
- Resources
- Appropriate language
- Tailoring to the individual interests and learning style
RANGE STATEMENT

Risks and constraints may include:
- Work health and safety (WHS)
- Age
- Time
- Space
- Group size
- External risks
- Appropriate groupings of students to meet their learning needs
- Environmental factors, weather, location
- Linguistic, cultural or ethnic differences
- Inadequate resources

Learning needs may include:
- English language, literacy and numeracy
- Behaviour support
- Learning support
- Socio-emotional
- Culturally appropriate
- Physical and/or intellectual disability

Relevant persons may include:
- Teachers
- Principals
- Heads of department
- Curriculum coordinators
- Parents/carers
- Specialist support staff
RANGE STATEMENT

Inclusivity and diversity principles may include:

- Age
- Cultural background
- Disability
- Education level and experience
- Ethnicity
- Gender
- Interests
- Language
- Learning styles
- Life experiences
- Thinking styles
- Responding to individuals with particular needs
- Demonstrating probity in all areas of responsibility
- Modelling organisation code of conduct
- Reinforcing ethical conduct in transaction with and between people
- Demonstrating sensitivity to the circumstances and background of others

Learning theories may include:

- Behaviour and cognitive learning theory
- Social constructivist theory

Learning styles may include:

- Aural
- Visual
- Verbal
- Kinaesthetic
- Logical
- Social
- Solitary
- Global/analytical
- Theoretical
- Activists
- Pragmatic
- Reflective
RANGE STATEMENT

**Learning strategies may include:**
- Role plays
- Written activities
- Discussion
- Group work
- Scaffold learning
- Debating
- E learning
- Case studies
- Demonstration
- Games
- Project work

**Agreed goals may include:**
- Behaviour outcomes
- Literacy outcomes
- Numeracy outcomes
- Self expression
- Social outcomes
- Curriculum outcomes
- Organisation outcomes

**Communication and interpersonal skills may include:**
- Congruence between verbal an non-verbal communication
- Written
- One on one instruction
- Critical listening an questioning
- Constructive feedback
- Age and culturally appropriate language

<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1.  Provide opportunities to stimulate the student's language development | 1.1 Provide *opportunities to listen to language* that reflects the age interests and needs of the student  
1.2 Use language relevant to the student's culture, age, abilities, interests, and needs  
1.3 Link the development of language skills to all school activities  
1.4 Select *resources and strategies* to support language skills according to criteria established by the teacher and ensure they are appropriate for age, abilities, interests and needs |
| 2.  Implement a language support program | 2.1 Provide a language program according to program specifications, and as directed by, the teacher, speech pathologist or other specialist  
2.2 Model language which is appropriate to the audience, the situation, purpose and place  
2.3 Use verbal and non-verbal *communication methods*  
2.4 Maintain student confidentiality according to program/school guidelines |
ELEMENT  | PERFORMANCE CRITERIA  
--- | ---  
3. Support the student language program  
3.1 Extend student competence through conversations, active listening and responding  
3.2 Encourage students to express their thoughts and feelings and words  
3.3 Provide opportunities for students to explore forms of non-verbal communication  
3.4 Provide opportunities for students to interact with others through language  
3.5 Monitor students understanding and use of language through listening and conversation to assist teachers with planning  
3.6 Demonstrate the different functions of language in interactions with the student  
3.7 Use explicit talk to scaffold learning  
4. Assist students with specific communication needs as required  
4.1 Identify specific communication needs of the student in consultation with the teacher  
4.2 Use alternate communication strategies or techniques according to directions from the teacher  
4.3 Promote and encourage integrations and participation in class activities  
4.4 Identify and use specialist assistance when required in supporting students  
5. Identify what students do when they read and write  
5.1 Identify the generic skills and knowledge required by students to make meaning of texts  
5.2 Recognise the links between reading and writing  
5.3 Identify and use various genre that may be read  
5.4 Recognise reading and writing processes according to teacher specifications and the level of student ability  
5.5 Select texts for specific purposes according to criteria developed by the teacher

| 6. Implement a reading and/or writing support program | 6.1 Implement the reading and/or writing program as directed by the teacher  
6.2 Keep a record of student reading and/or writing as directed by the teacher and using established systems of the education organisation  
6.3 Create optimum conditions for student development of specific writing skills with guidance from teachers  
6.4 Support student learning using accurate terminology as planned with teachers |
| 7. Support student reading and/or writing program | 7.1 Support individual student needs using reading support strategies including explicit talk  
7.2 Implement support procedures for students according to reader program and teacher requirements  
7.3 Report student reading and/or writing progress regularly to teachers as part of evaluation process  
7.4 Determine support strategies to accommodate the students writing and/or reading ability according to teacher guidelines  
7.5 Enhance the writing process by using the relationship between reading experiences and writing  
7.6 Support students to plan their writing tasks |
| 8. Support accurate use of spelling, grammar and punctuation | 8.1 Encourage students to critically reflect on the effectiveness of their writing  
8.2 Demonstrate and encourage the use of resources to provide guidance in writing  
8.3 Use strategies to support the student according to teacher evaluation of student needs |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Areas of language development across the chronological periods associated with schools and other learning environments
- Policy procedures and other legislation affecting performance as education support workers
- Culturally based expectations about communication
- Understanding of the support required by developing readers and a range of strategies that can be used to encourage independent and purposeful reading
- Roles and responsibilities of education support workers and teachers in providing literacy support to students
- A range of effective communication strategies for use with students and teachers
- The relationship between reading and writing
- How to apply appropriate strategies to develop students' writing
- Purpose of formative and diagnostic assessment
- Genres and writing styles

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Stimulate students to speak, taking into account development and culture of the students
- Interact in a positive and supportive manner with students
- Implement a literacy support program as directed by the teacher
- Identify what readers do when they read
- Identify the relationship between reading and writing
- Complete records accurately
- Select texts appropriate to teacher and student needs
REQUIRED SKILLS AND KNOWLEDGE

- Implement writing support strategies

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Implement strategies for developing comprehension and expression
- Use communication strategies for students with additional needs
- Demonstrate empathy and cultural sensitivity when responding to students
- Manage cross cultural issues and beliefs
- Complete sequence of routine tasks given direction and support from the teacher
- Interpret information from written and/or oral directions
- Apply problem solving to choosing appropriate responses, identifying problems, consulting with appropriate personnel
- Demonstrate interpersonal communication
- Use time management to support students as directed by the teacher
- Use grammar, correct spelling and punctuation

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - relevant workplace or simulated realistic workplace setting where assessment may take place
  - students in a literacy program
  - literacy terminology used in the education environment

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from a workplace environment

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Opportunities to listen to language may include:

- Stories
- Language games
- Music
- Dramatic play
- Film, video, television
- Everyday conversations
- Discussions
- Transactions (greetings, directions, instructions)

Resources and strategies to support language skills may include:

- Materials that stimulate verbal response
- Materials that extend understanding of vocabulary
- Pictures, posters and displays
- Books
- Magazines, newspaper, comic books
- Bilingual charts, books
- Interesting objects, spoken word tapes
- Songs
- Assisting with preparation of class work for students
- Providing technology support
- Provide planned level of support for tasks with the student
- Checking students comprehension
- Assist student to work at their optimal pace
- Repeat and/or clarify directions for students if needed
- Provide a summary of the lesson
- Provide basic instructions to the student
- Assist students to find appropriate research sources
- Support students in preparation of oral tasks
- Set up and prepare for practical tasks/activities
- Explaining school/class notices
RANGE STATEMENT

Communication methods may include:

- Verbal and written communication:
  - phrases and jargon used by the student
  - naming used by family or friends
  - language suitable for the students age and level of competence
  - informal conversations
  - intonation
  - language appropriate for communicating with people with learning needs and/or specific disabilities

- Non-verbal communication:
  - working at the same level as the student
  - proximity to the student
  - eye contact
  - facial expression
  - care and cultural respect considerations

Opportunities for students to explore forms of non-verbal communication may include:

- Mime
- Gestures
- Sign language
- Proximity
- Eye contact
- Body language facial expression
- Tone of voice

Opportunities for students to interact with others through language may include:

- Reading out loud
- Reading texts that contain reference to familiar objects or topics
- Language is extended by labelling objects and then using simple sentences
- Respond to questions in clear simple answers
- Involve the student in song, rhymes, poetry, plays
- One on one conversations with the student
- Encourage students to ask questions to increase understanding
- Encourage participation in group discussions
RANGE STATEMENT

Understanding and use of language may vary according to:
- Student age
- Student stage of development
- The context
- Confirmation of understanding is monitored by using repetition
- Reflection is encouraged by questioning, listening and comprehension activities
- Humour is used and encouraged
- Content can be accessed from a range of sources and collated in a logical sequence
- Computers are used to write, edit and publish

Functions of language include:
- Informative: the communication of information
- Expressive: reports feelings of attitudes of the writer, speaker or subject to evoke feelings in the reader
- Directive: language used for the purpose of causing or preventing overt actions

Explicit talk may include speaking aloud about:
- Thinking processes involved in constructing communication
- Open ended questions about meaning and alternative ways to convey meaning
- Structure of a sentence
- Purpose of language used
- Effectiveness of language used
- Processes used to work out the spelling of words
- How words are broken into syllables to aid spelling
- Relating to the unknown
- Specific strategies devised for specific purposes in consultation with teachers
RANGE STATEMENT

Scaffold learning involves providing temporary support to students to enable their progress toward independent thinking and learning.

It may include:
- Relating new knowledge to students' current knowledge
- Breaking new information into smaller chunks
- Approaching new information in a familiar way
- Encouraging students to concentrate on new information
- Providing achievable challenges
- Reinforcing attempts to use new information
- Encouraging repeated use of new information to achieve automaticity

Specific communication needs may include:
- Needs related to the development stage of the student
- Needs related to disability
- Needs arising from a different first language

Specialist assistance may include:
- Speech/language pathologist
- Advisory visiting teachers
- Medical personnel

Generic skills and knowledge required by students to make meaning of texts may include:
- Comprehend and use the language system of the text
- Access the text
- Knowledge that specific text types have their own generic structure
- Understand that all texts convey information
- Understand that texts are created and read for specific personal, special, scientific, cultural and aesthetic purposes

Genre may include:
- Literary texts
- Everyday texts
- Mass media texts
RANGE STATEMENT

Reading and writing processes may include:

- Using cues
- Non visual information
- Visual information
- Predicting
- Checking
- Confirming
- Correcting

Purposes for which readers may read may include:

- Access information
- Enjoy specific use of words
- Appreciate a new perspective
- Confirm understanding
- Obtain instructions
- Enjoy
- Provoke imagination
- Discuss the text with others
- Social purposes

Record of student reading may include:

- Running records
- Schedules
- Reading ages from standardised texts

Links between reading and writing may include:

- Experience with various texts as a reader provides model for use as a writer
- Visual models of pages, paragraphs, sentences gleaned from reading various materials helps develop skills to structure own writing
- Reading aloud or listening to texts develops a sense of rhythm of language that can be used to test the effectiveness of own writing
- Effectiveness of different genres is demonstrated by reading examples of each
- Ways in which words are combined to make meaning are demonstrated as students construct meaning form text
- Exploration of the use of alternative effects such as visual images on the creation of meaning in a text
RANGE STATEMENT

Writing resources may include:

- Beginning writers record of independent writing
- Record of spelling words for beginning writers
- Record of spelling words for developing writers
- Annotated collection of writing samples

Resources to provide guidance may include:

- Dictionary
- Spell checker
- Thesaurus
- Encyclopaedia
- Exemplar texts from a range selected by the teacher

---

**Elements and Performance Criteria**

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify personal cultural identity and its influence on interactions with Aboriginal and/or Torres Strait Islander students | 1.1 Identify significant events in own family's history which may influence own current beliefs and values  
1.2 Identify aspects of the environment which influence own cultural identity  
1.3 Examine aspects of family history and personal cultural identity for impact on personal values and interactions with Aboriginal and/or Torres Strait Islander students |
| 2. Research and document some of the impacts of colonisation on Aboriginal and/or Torres Strait Islander Australians | 2.1 Identify some Aboriginal and/or Torres Strait Islander historical issues for own district/state  
2.2 Analyse the impact of some Aboriginal and/or Torres Strait Islander historical issues in own district/state  
2.3 Identify some contemporary impacts of Aboriginal and/or Torres Strait Islander historical issues on Aboriginal and/or Torres Strait Islander people today  
2.4 Research the diversity of Aboriginal and/or Torres Strait Islander populations in own educational organisation and the wider community |
ELEMENT

3. Support cultural identity of Aboriginal and/or Torres Strait Islander students

PERFORMANCE CRITERIA

3.1 Identify and consult with appropriate persons to obtain knowledge of local Aboriginal and/or Torres Strait Islander groups

3.2 Identify and consult with colleagues to obtain knowledge about the cultural identity of Aboriginal and/or Torres Strait Islander students in the educational organisation

3.3 Develop skills and knowledge which enable supportive interactions with Aboriginal and/or Torres Strait Islander students

3.4 Handle information in a culturally appropriate way at all times including identification of how and with whom information can be shared

3.5 Provide opportunities for students to share local context and cultural knowledge

3.6 Use cultural diversity to enhance educational opportunities for all students

3.7 Incorporate recognition of and respect for Aboriginal and/or Torres Strait Islander languages into the learning context in consultation with the teacher

4. Create safe learning environments and provide social support for student achievement

4.1 In consultation with the teacher, plan and implement learning experiences that foster positive attitudes to learning and student achievement

4.2 Establish constructive relationships with students based on mutual trust and respect

4.3 Communicate and interact with students in an open, inclusive, equitable and ethical manner

4.4 Encourage involvement of family and community members in all aspects of the student's learning

4.5 Negotiate with community members any approaches to student support in areas that are outside of educational programs
ELEMENT

5. Contribute to the design and implementation of inclusive learning experiences

PERFORMANCE CRITERIA

5.1 Gather accurate and reliable information about students and their families from the teacher/supervisor and use to identify student needs and design learning experiences

5.2 Evaluate learning and assessment resources to ensure they accurately represent different cultures, are not discriminatory and do not reinforce stereotypes

5.3 Provide classroom teacher with written and verbal reports on student performance

5.4 Plan and implement learning experiences that build on the diverse backgrounds of students and their families in consultation with the teacher/supervisor

5.5 Plan and implement learning experiences that focus on events, customs and beliefs relevant to Aboriginal and/or Torres Strait Islander communities in consultation with the teacher/supervisor

5.6 Access community resources that focus on events, customs and beliefs relevant to Aboriginal and/or Torres Strait Islander communities and, in consultation with the teacher/supervisor, plan and use them in a culturally appropriate manner

5.7 Discuss with teacher/supervisor support for students whose skills in reading/writing Standard Australian English (SAE) (or equivalent) and numeracy are below conventional levels
### ELEMENT

6. Actively support students in developing personal identity, self-esteem and a positive self-image

### PERFORMANCE CRITERIA

6.1 Foster learning environments where relationships between students, teachers and other adults are based on trust and mutual respect

6.2 Communicate and interact with students to foster their confidence, self-esteem, self-image and self-efficacy

6.3 Plan, implement and evaluate group activities in consultation with the teacher, so that students use collaborative processes to set and achieve goals and solve problems

6.4 Follow the organisation's *policies and procedures on pastoral care*

6.5 Identify Aboriginal and/or Torres Strait Islander peers, mentors or members of staff to support individual students

6.6 Follow relevant *protocols* in working with Aboriginal and/or Torres Strait Islander community members
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Impact of colonisation on Aboriginal and/or Torres Strait Islander Australians
- Equity and diversity principles
- Awareness of differences between cultural groups
- Education policies and initiatives designed to support learning outcomes for Aboriginal and/or Torres Strait Islander peoples
- Information sources for local Aboriginal and/or Torres Strait Islander peoples
- A variety of appropriate teaching and learning strategies for use with Aboriginal and/or Torres Strait Islander students
- Factors affecting facilitation of individual and group learning
- Anti-discrimination and stereotyping
- Local protocols for interacting with Aboriginal and/or Torres Strait Islander community members

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Analyse and document impacts of colonisation on Aboriginal and/or Torres Strait Islander Australians
- Reference documentation of research using the American Psychological Association standards (APA)
- Interact in a culturally appropriate way with Aboriginal and/or Torres Strait Islander community members
- Interact appropriately with students/staff from diverse cultural backgrounds
- Use a range of inclusive learning strategies that encourage engagement of Aboriginal and/or Torres Strait Islander learners
- Work in consultation with the teacher to use a range of inclusive learning and teaching
REQUIRED SKILLS AND KNOWLEDGE

strategies that celebrate diversity and build student self-esteem

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include the ability to:

- Undertake research and written analysis
- Use literacy and numeracy skills to interpret and support the learning program and interact with colleagues within an educational organisation
- Use communication skills to effectively liaise between differing cultural contexts
- Undertake training/coaching
- Use demonstration and facilitation
- Use a range of communication styles to suit different audiences and purposes
- Access and read formal documents such as legislation and policies related to educational work environments and Australian history
- Use problem solving/logistical skills

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit can be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
- The candidate is required to address the elements and performance criteria in a range of at least three contexts or occasions, over a period of time
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered within an educational context.
  - research material on the impact of colonisation on Aboriginal and/or Torres Strait Islander Australians.
  - legislation, regulations, policies, procedures, protocols and guidelines.
  - definition and benefits of workplace diversity.
  - organisation's values and codes of conduct.
  - current Aboriginal and/or Torres Strait Islander student's profile and academic information.
  - current information on organisation diversity profile.
  - current information on diversity within the wider community.
  - Aboriginal and/or Torres Strait Islander students and colleagues in an educational organisation.
  - Aboriginal and/or Torres Strait Islander community members.
  - variety of learning resources as would be expected in an educational environment.
EVIDENCE GUIDE

Method of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - case studies
  - demonstration
  - observation
  - questioning - oral and written
  - scenarios, simulation or role plays
  - workplace projects
  - authenticated evidence from the workplace and/or training courses

- Assessment methods should reflect work demands, such as literacy, and the needs of particular groups, such as:
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - women
  - young people
  - older people
  - people in rural and remote locations

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

*Cultural identity refers to relationships with:*
- Place
- People
- The environment
- Belief systems
- History
- Tradition
- Society

*Significant events may include:*
- Schooling experience
- Divorce
- Family composition
- Migration
- Health
- Financial factors
- Housing arrangements
- Death of a family member
- Attendance, high mobility between schools and long absences in between

*Aspects of the environment may include:*
- Weather
- Political circumstance
- Government policy
- Religious freedom
- Educational opportunity
- Freedom of speech
- Dominant/minority groups
- Equal rights
- Media
- Songs

*Colonisation is:*
- The process of settling or inhabiting another country
RANGE STATEMENT

Aboriginal and/or Torres Strait Islander historical issues are varied and numerous
The identification and analysis of three Aboriginal and/or Torres Strait Islander historical issues will suffice the requirements for this element
These may include but are not limited to:

- Education
- Health care
- Stolen generation
- Missions and reserves
- Restriction legislation/policies
- Reconciliation initiatives and a way forward
- Assimilation
- Constitution
- Citizenship
- White Australia Policy

Diversity may include:

- Population
- Language
- Law
- Ceremonies
- Literacy
- Employment
- Living conditions
- Lifestyles

Appropriate persons may include:

- Management of the educational organisation
- Colleagues in the educational organisation
- Elders
- Aboriginal and/or Torres Strait Islander organisations

Skills and knowledge which enable supportive interactions are the same factors for Aboriginal and/or Torres Strait Islander and non-Indigenous groups
They may include skills and knowledge of:

- Language groups
- Learning styles
- Building relationships
- Speaking a few words from the student's native tongue
- Strategies which encourage involvement
- Facilitating individual and group work
- Working at the individual student's level of understanding
- Student's life experience to draw upon
- Matching work and expectations to developmental level of the student
RANGE STATEMENT

**Information may include:**

- Languages spoken
- Attendance record
- Health status
- Learning performance
- Family situation
- Family/relatives at the school
- Name of traditional Aboriginal and/or Torres Strait Islander custodians of the land
- Extent of their land
- Neighbouring peoples
- Use of Aboriginal and/or Torres Strait Islander names for local features e.g. areas, street
- Main historical events associated with the arrival of non-Indigenous peoples
- Names of the main local families today
- The main local Aboriginal or Torres Strait Islander organisations

**Cultural diversity refers to:**

- The range of knowledge, skills and experiences brought to a situation by all members of a group
- The range of perspectives, responses and ideas possible within a diverse group

**Aboriginal and/or Torres Strait Islander languages (or components of languages) may include:**

- Aboriginal languages and dialects
- Torres Strait Islander languages and dialects
- Torres Strait creoles, Yumpla tok
- Aboriginal English
- Kriol and other Australian creoles

**Community members may include:**

- Elders
- Family and relations
- Aboriginal and/or Torres Strait Islander organisations
- School community
- Other community organisations
RANGE STATEMENT

Approaches to student support in areas that are outside of educational programs may include:
- Homework group
- Breakfast group
- Cultural programs

Community resources may include:
- Elders
- Traditions
- Oral histories
- Artefacts
- Music and dance
- Paintings and artworks
- Land and 'country'
- Places
- Structures
- Personnel
- Aboriginal and/or Torres Strait Islander organisations

Culturally appropriate refers to:
- Within the local context
- Social norms of the cultural group
- In the context of 'country'
- Kinship structures
- Verbal and non-verbal communications protocols
- Gender specific issues
- Language
- Use of information
- Beliefs systems

Standard Australian English is:
- The language in which fluency is required for participation in mainstream society
RANGE STATEMENT

Policies and procedures on pastoral care may include:

- Acknowledgement of the role of Elders
- Provision of Aboriginal and/or Torres Strait Islander adult role models in the school
- Visits by/to community members
- Access to Community Education Counsellors
- Classroom practice built on relationship building
- Involvement of local Aboriginal and/or Torres Strait Islander people on school/institute committees
- Working collaboratively with other agencies
- Home visits by appropriate personnel
- Cultural awareness training for all staff

Pastoral care may include

- Programs which support the physical, social, emotional, psychological and spiritual care of the individual

Protocols may include:

- Talking to the right people e.g. community elders
- Land ownership
- Family/kinship/clan

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Apply understanding of the individual education plan process</td>
<td>1.1 Explain the role of teachers and other professionals in designing the individual education plan</td>
</tr>
<tr>
<td></td>
<td>1.2 Obtain and use information from the teacher and other specialist to develop a clear understanding of student's needs to inform implementation strategies</td>
</tr>
<tr>
<td></td>
<td>1.3 Analyse individual education plan goals and identify component parts that impact on the education support work functions</td>
</tr>
<tr>
<td></td>
<td>1.4 In conjunction with teacher, identify and implement pedagogical practices that are inclusive for students with a disability</td>
</tr>
<tr>
<td></td>
<td>1.5 Contribute to the planning process using previous experience</td>
</tr>
</tbody>
</table>
ELEMENT

2. Contribute to the implementation of the individual education plan

2.1 Identify, modify and use appropriate facilities, resources, and equipment to meet student needs

2.2 Identify and request specialist resources as needed

2.3 Discuss specialist resource needs with the teacher so funding can be sought and/or allocated

2.4 Consult, as directed by teacher, with student, parent and/or carer as appropriate to identify goals and expectations and use to inform implementation strategies

2.5 Support the needs of the student using a broad range of strategies suitable to students with a disability

3. Contribute to monitoring and review of individual education plan

3.1 Record and use observations and interactions with the student to assist the teacher with modifications to the individual education plans

3.2 Identify, document and implement where possible opportunities for additional education support to assist the teacher with modification of individual education plan

3.3 Document student’s progress and review with the teacher

4. Maintain communication with other members of the team

4.1 Develop and review strategies for ongoing communication with all parties involved in individual education plan

4.2 Identify and use clear communication channels

4.3 Facilitate and evaluate effectiveness of individual education plan with all those involved
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

_Essential knowledge:_

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- The individual education plan process including development
- The education adjustment plan process
- Policies and procedures relevant to individual education plan
- Inclusive and non discriminatory practice in the education environment
- Communication strategies relevant to age group of the learner
- Individual's disability and how this interacts with their ability to learn
- Philosophy and mission of the education organisation
- Safety and legal requirements of the organisation and education support worker

_Essential skills:_

It is critical that the candidate demonstrate the ability to:

- Contribute to implementation of individual education plans
- Contribute to ongoing monitoring and evaluation of individual education plans
- Communicate with relevant personnel about teaching/learning issues
- Problem solve
- Work in a team environment with effective consultation strategies

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate empathy and cultural sensitivity to:
  - respond to students in a culturally sensitive manner
REQUIRED SKILLS AND KNOWLEDGE

- promote cultural diversity and empathise with students
- manage cross cultural issues and beliefs
- Apply literacy ability to:
  - research, collate and collate reference material
  - interpret reference material

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place
- Access to:
  - legislation, regulations, policies and guidelines and organisation values and codes of conduct
  - student/s with a disability
  - teachers and other professionals
  - student records as required
  - a variety of learning resources

Method of assessment:
- Assessment may include observation, questioning and evidence gathered from workplace environment

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Individual education plan is:**
- A plan developed to meet the learning needs of individuals with disabilities

**Individual education plan goals may include:**
- Structure of the individual education plan
- Format of the individual education plan
- Observable and measurable
- Long and short term goals

**Pedagogical practices that are inclusive for students with a disability include:**
- Focus on student learning outcomes
- Being broad and comprehensive
- Enable access to the key learning areas in compulsory schooling or to other standards
- Being relevant to the students physical, intellectual, social and emotional needs
- Being age appropriate
- Being linked to the learning activities undertaken by students without disabilities
- Being part of the continuum of life learning
- Offering opportunities, challenges and choices
- Encourage independence while recognising the inter dependence of members of the community
- Value independent learning styles and preferred learning styles
- Enhance self-esteem, self worth and identity
- Be realistic, achievable, have clearly stated goals and anticipate the students future needs
- Include specialised methodologies and/or equipment where appropriate, for example, Braille reading, auditory learning activities
RANGE STATEMENT

Components of an individual education plan may include:
- Targeted learning outcomes
- Condition
- Criterion
- Behaviour
- Strategies
- Team responsibilities
- Evaluation

Support the needs of the student may include:
- Structuring supportive socialisation activities
- Building the students self-esteem and confidence by providing positive reinforcement
- Assisting students to develop problem solving skills
- Modelling positive attitudes to learning
- Technology
- Strategies for students in the disability area
- Curriculum areas

Contribute to monitoring and review of individual education plan may include:
- Assisting with review of the individual education plan
- Monitoring and reviewing progress of the student in achieving set goals
- Monitoring and reviewing students development of skills and abilities
- Monitoring and reviewing students psychological and emotional well being
- Monitoring and reviewing the social participation and development of the student
- Monitoring and reviewing students personal and cultural development
RANGE STATEMENT

Communication may occur with:

- Teacher
- Student
- Therapy team
- Advisory visiting teacher/personnel
- Other members of the school community
- Specialists
- Resource networks
- Referral agency

### Employability Skills Information

**Elements and Performance Criteria Pre-Content**

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Determine the research question and requirements | 1.1 In consultation with relevant staff, define *research brief* or problem according to *education organisation* requirements  
1.2 Frame and clearly articulate the *research question or topic* using key issues and support it with relevant information  
1.3 Validate and document research requirements with relevant staff |
| 2. Develop a research strategy | 2.1 Identify and evaluate suitable *research strategies* for use in the project  
2.2 Identify *sources of information*  
2.3 Develop *project plan* according to organisation's ethical and legal requirements and in consultation with relevant staff  
2.4 Determine *risk management strategies*  
2.5 Incorporate *recording processes and data management* into the project plan  
2.6 Process the research plan for approval according to organisation guidelines |
ELEMENT

3. Conduct and manage research activities

PERFORMANCE CRITERIA

3.1 Conduct research methods and activities according to the research plan
3.2 Access resources to support the research according to organisation policy and procedure
3.3 Monitor research activities and implement changes to the project plan where necessary after appropriate approval
3.4 Analyse and interpret incoming data according to research strategy
3.5 Determine and document research outcomes according to organisation requirements

4. Evaluate research outcomes

4.1 Organise research data according to the approved research strategy
4.2 Structure research outcomes to answer questions posed in the research brief or problem
4.3 Highlight and summarise specific issues and important additional findings
4.4 Discuss research outcomes with key stakeholders and make adjustments to findings based on the feedback

5. Document research processes and outcomes

5.1 Summarise research procedures and outcomes in format acceptable to the education organisation and academic standards
5.2 Store research documents as required by the organisation

6. Disseminate research results and reports

6.1 Submit research reports and findings to the relevant authorities for action
6.2 Identify processes for dissemination and seek approval from relevant authorities
6.3 Implement protection of organisation's intellectual property as required by organisation and any relevant legislation
**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Research protocols and procedures
- Organisations preferred format and style for documenting research findings
- Ethical and legal obligations of self and organisation to undertake particular research topics
- Key people in the organisation and their responsibilities for research projects

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Work, independently within a designated timeframe for the research project
- Work within ethical frameworks underpinning research within an education setting
- Analyse collected data
- Use computers for data entry and retrieval, produce documents and reports

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Analyse and present information
- Write notes, business letters and research reports
- Use computers for work processing and data entry
- Work collaboratively with a team
- Manage timeframes
- Listen, question and clarify
REQUIRED SKILLS AND KNOWLEDGE

- Read, understand, interpret written documents associated with the task

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this unit of competency:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency

**Access and equity considerations:**

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from a workplace environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Research brief may include:

- Oral instructions to conduct an investigation
- Formal written directive defining the scope of the topic to be investigated
- Outcomes of meetings that provide direction and purpose of an investigation

Education organisation may include:

- Public and private schools
- Registered training organisations
- Community education settings
- Special schools
RANGE STATEMENT

Research question or topic may refer to:

- Specific and explicated statements describing the purpose of the investigation

Research strategies are:

- Activities that the researcher will use to conduct the investigation into the identified topic

Sources of information may include:

- Other research in progress or completed
- Recently published information
- Unpublished information
- Student requirements
- Internet
- Libraries and research bodies
- Individuals
- Reference texts
- Questionnaire survey
- Interviews
- Experts
- Other stakeholders

A project plan is:

- A formal, approved document used to guide both the project execution and project control.

Ethical and legislative practices may include:

- Code of conduct
- Respect for persons, law, and government systems
- Economy and efficiency
- Integrity
- Diligence
- Openness and honesty
- Accountability
- Impartiality
- Reliability
- Confidentiality
### RANGE STATEMENT

**Risk management strategies may include:**
- Identification of risks
- Assessing level of risk
- Addressing the risks with alternative actions
- Reporting risks

**Recording processes and data management may include:**
- Note taking
- Audio and visual recording
- Anecdotal comment
- Computer data base
- Filing systems

**Research methods and activities may include:**
- Case study
- Focus groups
- Appreciative study
- Interview
- Surveys
- Action research

**Resources may include:**
- Human
- Physical
- Monetary
- Design specifications
- Reference material
- Internet and telecommunications access
- Personnel and clients

**Policies and procedures are:**
Documents developed by the education system, school or a sector of the school which provide policy and procedural direction

These may include:
- Education system policies and procedures
- School policies and procedures
- Government legislation and regulation
- Statutory body requirements
RANGE STATEMENT

*Academic standards are:*

- Appropriate formats for reports
- Documentation standards
- Referencing standards

Unit Descriptor

Descriptor: This unit deals with the skills and knowledge required for education support workers to plan and lead the activities of a small team in the education environment, in conjunction with a teacher.

Application of the Unit

Application: This unit is intended for education support workers involved in team leadership with groups of students, staff and volunteers in the education context.

This work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher.

Licensing/Regulatory Information

Employability Skills

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

1. Assist with provision of information and training to team members

1.1 Work with teacher to clarify detailed information and training requirements to address identified purpose and performance requirements of team

1.2 Articulate clearly the purpose for which the team is formed

1.3 Explain to team members the team and individual responsibilities and performance requirements

1.4 Design team member responsibilities in accordance with industrial agreements where appropriate

1.5 In consultation with teacher, work with team members to identify their training needs

1.6 Implement a systematic approach to training as appropriate to the individual and the task
ELEMENT  

2. Plan and manage workflow  

2.1 Determine timeframes for completion of the task  

2.2 Monitor and review of allocated task/functions to ensure delivery within timeframes  

2.3 Provide opportunities for team members to vary tasks undertaken where a change might enhance productivity  

2.4 Manage contingencies to ensure minimal effects on work outcomes, in consultation with teacher  

3. Review team performance, in consultation with teacher  

3.1 Develop and maintain positive and constructive relationships with and between team members  

3.2 Review and update team objectives in consultation with team members  

3.3 Identify with the team the strengths and weaknesses as benchmarked against the organisation standards  

3.4 Encourage team members to reflect upon own performance, suggest improvements and identify professional development needs  

3.5 Provide recognition to team members for their contribution to team outcomes
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Basic knowledge of state and federal legislation and local government legislation affecting the operations of an education organisation, especially in regard to work health and safety (WHS), environmental issues, disability and anti-discrimination
- Relevant industry awards and enterprise agreements
- Organisation policy and procedures pertaining to team operations
- Specific knowledge relevant to the work of the team

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Lead a team within relevant industrial and organisation frameworks
- Develop and maintain team performance and relationships
- Identify and meet training needs within the team
- Plan and manage the work of a team

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Use literacy skills to interpret legal requirements, comprehend equipment user manuals and maintain records
- Use numeracy skills to effectively manage resource requirements, timeframes, budgets (where necessary) and team allocations
- Use communication skills including effectively relating to team members and other staff
- Undertake team building and motivation
REQUIRED SKILLS AND KNOWLEDGE

- Relate to a diverse range of people

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment must demonstrate consistency of application of skills and knowledge described in this unit of competency

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place
- Access to relevant documentation and resources normally used in the education workplace
- Access to appropriate awards and agreements relevant to the candidate and team members

Method of assessment:
- Assessment may include observation, questioning, case studies, demonstration, simulation and work based projects and evidence gathered from a workplace environment

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Legislation and codes that may affect the team allocation of tasks may include:
- Federal/State and territory legislation relating to anti-discrimination, WHS, disability environmental issues and industrial relations affecting education environments
RANGE STATEMENT

Team may include:

- Colleagues
- Students
- Parents
- Home tutors
- Volunteers
- Community members
- People from diverse cultural and ethnic backgrounds
- People with a range of skills and knowledge
- Groups formed across faculties, schools, clusters, districts and regions

Performance requirements may include:

- Timelines for completion
- Standards to be achieved
- Quality of products
- Individual responsibilities
- Team productivity
- Cooperation and support between team members
- Compliance with legislation and organisation policies

Training requirements may include:

- Use of technology
- Relevant policy
- Legislation requirements
- Processes and procedures
- Use of resources
- Systems and protocols
- Specific skills
RANGE STATEMENT

Systematic approach to training includes:
- Identifying skills available within the team
- Identifying training needed by the team members
- Pairing skilled team members with less skilled team members
- Providing training in a logical sequence to build capability
- Managing the amount of information provided to maintain active learning
- Offering opportunities for practice and support
- Providing ongoing constructive feedback and positive acknowledgement of achievements
- Receiving and acting on feedback about training provided

Monitor and review task allocations may include:
- Asking team members for feedback on progress
- Monitoring timelines and outcomes
- Team discussions on progress and reasons for delays
- Requesting suggestions for improvement from the team
- Reallocation of tasks when necessary to lift team effectiveness

Contingencies may include:
- Illness
- Absenteeism
- Technology breakdown
- Resources unavailable
- Accident or emergency
- Conflict within the team

Consultation involves:
- A two way conversation in which both parties are given the opportunity to express a view, opinion, perspective, solution or options
- Consultation undertaken well usually results in a decision owned by all participants in the conversation, even when some do not agree
RANGE STATEMENT

Recognition of contributions may include:

- A nod, smile or handshake
- A few positive words about the task completed
- Thanks and appreciation of the job well done
- A formal appreciation for work by way of issue of a certificate

Unit Sector(s)

Not Applicable
CHCEDS509A Support students with multiple disabilities

Modification History
Not Applicable

Unit Descriptor
Descriptor
This unit deals with the skills and knowledge required for education support workers to provide support to students who have multiple disabilities to assist these students to participate in their learning experiences and an array of other school activities.

The unit provides strategies to work with students with multiple disabilities or impairments in early, middle and senior years of schooling.

Application of the Unit
Application
Students with multiple disabilities (or impairments) are significantly more disadvantaged in education than students with a single impairment.

Teaching and learning strategies effective for students with individual impairments may be less appropriate or effective where a student is coping with multiple challenges.

Empathy and advocacy communication skills underpin the competencies required by education support workers in this environment.

This work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher.

### ELEMENT

3. Provide support for students with multiple disabilities

#### PERFORMANCE CRITERIA

3.1  *Assist students* to set goals

3.2  *Contribute to effective learning outcomes* for the student

3.3  Provide support to student/s by accommodating his/her needs, allowing him/her to actively participate in an educational setting

3.4  Contribute to implementation of the education program as a member of the team

3.5  Influence interactions with other students and staff to nurture a *supportive environment*

4. Provide *support to the teacher* of students with multiple disabilities

4.1  Support teaching strategies employed by the teacher

4.2  Assist with setting goals for students

4.3  Support the implementation of education programs as directed by the teacher

4.4  Identify, prepare and maintain suitable *resources to support the teacher in the delivery of educational programs*

4.5  Share knowledge with the whole school to assist with and/or influence school policies
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- A range of disabilities
- Educational organisation's policies and procedures
- Disability issues
- Integration practices
- Implications of discrimination issues in the classroom
- Stages of learning
- Factors affecting learning

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Follow organisation policies and procedures
- Use appropriate language and terminology
- Identify adaptive skills
- Assist with the development and implementation of an educational appraisement program
- Support students across a range of activities to assist with their educational development
- Support the teacher of students with multiple disabilities to create a productive, supportive, caring learning environment

*continued ...*

*Essential skills (contd):*

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of
REQUIRED SKILLS AND KNOWLEDGE

the identified work role

These include the ability to:

- Demonstrate empathy and sensitivity in:
  - responding to students' needs
  - implementing support mechanisms for students with multiple disabilities and
  - promoting and fostering cross cultural issues and beliefs
- Use literacy skills to:
  - interpret and analyse reference materials
  - manage a sequence of tasks given direction and support from the teacher
  - interpret information from written and / or verbal directions
- Use problem solving skills to:
  - select appropriate response
  - identify the problem and choose an effective solution
  - be flexible in approaching a range of teaching and learning situations
  - promote discussion about solutions to problems within the work team
- Communicate effectively to:
  - listen to and interpret instructions regarding the assistance required by the student
  - provide clear directions and/or instructions
  - explain routine procedures to students
  - express an opinion, e.g. negotiate improvements to workplace strategy/methods for assisting/supporting students with multiple disabilities
  - foster a positive work attitude within the work team and school
  - demonstrate a belief in the students' abilities
- Use numeracy skills to interpret and apply numeric information as required
- Use organising and teamwork skills to:
  - consult with teachers on teaching/learning support strategies
  - manage time effectively
  - consult with teaching team on workplace procedures and make suggestions for new approaches to accommodate individual student requirements
  - consult with group members on operating procedures

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment **must** be undertaken in the workplace in a case/student specific situation so that actual skills in empathy and sensitivity, communication and problem solving can be evidenced
- Where participants are not employed as education support workers, it is recommended that they seek assessment as part of work experience or Vocational Placement
- Assessment must demonstrate consistency of application of skills and knowledge described in the elements and performance criteria in at least three contexts or occasions, over a period of time, while working in a case/student specific situation

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resources required for assessment include access to:
  - colleagues, and students with multiple disabilities or impairments, in an educational organisation
  - legislation
  - education organisation's policies, procedures and guidelines
  - organisation's values and codes of conduct
  - current information on diversity and a range of disability issues
  - resources as may be located in an educational organisation which meets the needs of students with multiple disabilities or impairments

Method of assessment:

- Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of two or more of:
  - case studies
  - demonstration
  - observation
  - questioning - oral and written
  - scenarios, simulation or role plays
  - workplace projects
  - authenticated evidence from the workplace and/or training courses
- Assessment methods should reflect work demands, such as literacy, and the needs of particular groups, such as:
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - women
  - young people
  - older people
  - people in rural and remote locations
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Terminology relating to multiple disabilities or impairments may include:

- Access:
  - to use or participate in something, for example, to access a computer, curriculum or building

- Achievement:
  - the level of actual performance or accomplishment, especially as a result of effort and ability

- Acquired injury:
  - an impairment which has developed during the person's life rather than being present from birth

- Anecdotal records:
  - recording of incidents, exactly as observed, during everyday school activities

- Education adjustment program profile:
  - a process used to demonstrate the types of adjustments to:
    - curriculum
    - communication
    - social participation/emotional well being
    - health and personal care
    - safety
    - learning environment/access
  - that are being provided for students with disabilities to learn, participate and progress towards planned outcomes in relation to his/her same age peers
  - rather than focussing on the students' disabilities, this process focuses on the adjustments that need to be made at school to facilitate the student's presence, participation, access and achievement of appropriate educational outcomes

- Attention span:
  - the period of attention or concentration given by an individual to a task

- Auditory:
  - related to hearing

- Behaviour:
  - all the observable responses of an individual to internal and external stimuli

continued...
RANGE STATEMENT

Terminology relating to multiple disabilities or impairments may include: (contd)

- Behaviour support:
  - the application of a range of positive support strategies designed to assist students to behave in socially acceptable ways

- Classroom environment:
  - the sum of the conditions within the classroom, or affecting the classroom and which influence the learning situation
  - it covers the physical setting, the structure of learning and the relationships between participants

- Cognition:
  - developmental area that involves thinking skills, including the ability to receive, process, analyse and understand information

- Communication:
  - the process of exchange of meaning through listening, speaking, viewing, signing, symbols, gesture, facial expression, reading and writing
  - this process of exchange involves receiving and understanding messages and making and sending messages

- Competency:
  - the ability to perform a task at a satisfactory standard consistently

- Comprehension:
  - understanding the message in what is read, heard or observed

- Cue:
  - a distinctive signal or hint to which a person has learned to respond

- Culture:
  - all the behavioural patterns and products of a social group
  - these are closely related to customs and values

- Curriculum:
  - the entire range of experiences and structured learning activities through which knowledge, skills and benefits are communicated in schools
  - these experiences have intended and unintended outcomes
RANGE STATEMENT

- Disability:
  - the resulting functional impact of disability or impairment on performance (that is, any restriction or lack of ability to perform an activity in the normal manner)

*continued ...*

Terminology relating to multiple disabilities or impairments may include: (contd)

- Distractibility:
  - inability to maintain attention to relevant stimuli as outside stimuli interferes

- Enrichment activities:
  - educational experiences to supplement the regular class work

- Evaluation:
  - measurement of student performance usually against stated objectives

- Facilitation:
  - supporting a team or group to stay focused on a task or process
  - it involves process management and communication skills

- Fine motor:
  - refers to movements made by the small muscles of the hand and mouth (e.g. manipulation of objects, speech etc)

- Fluency:
  - smoothness of completing a task (e.g. reading without stumbling or errors)

- Functional performance:
  - a level which is sufficient for the person to operate within a particular environment
  - it may describe writing that is less than artistic but which allows the person to communicate at their job

- Gross motor:
  - refers to movements of the large muscle groups of the arms, legs and trunk (e.g. walking, rolling, and sitting)

- Impairment:
  - an objective description defining any loss or abnormality in terms of psychological, physiological or anatomical structure or function
RANGE STATEMENT

- Inclusive curriculum:
  - a flexible model that requires each school to provide for the educational needs of all students enrolled there

- Individual differences:
  - differences in personality, physiology, and perceptual processes that can account for variations in student performance

Terminology relating to multiple disabilities or impairments may include: (contd)

- Informal assessment:
  - assessing student performances by means other than the use of standardised tests

- Interpersonal:
  - relating to other persons
  - the ability to interact and get along with others

- Interpreter:
  - a person who translates information from one form to another
  - for students who are deaf/hearing impaired, specifically used for translation between spoken language and signed language

- Kinaesthetic:
  - related to the awareness and sensations coming from muscles and joints that indicate the position and movement of body parts

- Language:
  - a conventional symbolic system used to communicate
  - it is symbolic because the spoken, signed, indicated or written units of a language always represent the same object or concept
  - it is conventional because members of a community share the meaning of the symbols
  - it is a system because there are rules for using the symbols.

- Learning style:
  - the way that an individual prefers to perceive information, think and problem solve
  - there are a number of theoretical frameworks which divide people who have similar preferences into groups
RANGE STATEMENT

- Least restrictive options:
  - choices about activities and processes which provide the maximum opportunity for access and participation by all students

- Literacy:
  - the ability to comprehend and compose spoken, written and visual texts commonly used by individuals and groups to participate fully, critically and effectively in a wide range of life roles
  - computer literacy is also now viewed as another vital strand of literacy competencies.

*continued ...*

Terminology relating to multiple disabilities or impairments may include: (contd)

- Long-term memory:
  - the mental process of retaining and recalling a past act, experience or expression after a period of time

- Modelling:
  - a process where the learner acquires a skill or attitude through watching and copying another person

- Motivation:
  - force within the individual which drives them to maintain attention or to behave in a certain way in order to satisfy a need or attain a goal

- Note taking:
  - the use of another to take lesson notes on behalf of a student who is unable to do so because of a disability

- Numeracy:
  - the ability to use skills for interpreting, applying and communicating mathematical information in commonly encountered situations to enable participation in a wide range of life roles that are appropriate to the student

- Perseveration:
  - tendency to persist in or to repeat behaviours which are no longer useful or appropriate

- Practice:
  - repetition of a performance in order to raise the quality of the performance.
RANGE STATEMENT

- Prior learning:
  - relevant information that a person has prior to instruction
  - this forms a basis for learning the new information

- Program modification:
  - making changes and adjustments to the content or manner of presentation of the class curriculum to improve a student's chances of success

- Prompt:
  - any feature added to the learning task that assists the student in performing tasks - can be verbal, gestures, visual or physical

- Reflection:
  - the process of consciously thinking over experiences in order to learn from them

continued ...

Terminology relating to multiple disabilities or impairments may include: (contd)

- Risk-taking:
  - experiences undertaken by people which may or may not have positive outcomes but from which they can learn and develop

- Scaffolding:
  - the process where a more expert person interacts with learners to guide them towards building their own understanding

- Self-concept:
  - individuals' perception of themselves

- Self-esteem:
  - Individuals' value judgement about themselves

- Short-term memory:
  - momentarily, the mental process of retaining and recalling a past act, experience or impression

- Task analysis:
  - systematic study of the components of a skill or activity so that all components can be taught a step at a time to build up to performing the complete task

- Transition:
  - a move from one educational setting to another or from secondary to a post-school option
RANGE STATEMENT

- **Verifier:**
  - a professional who has demonstrated skills to interpret a medical specialist's letter of diagnosis and to provide verification of disability and is nominated by the educational organisation as a verifier

- **Verification:**
  - a process that indicates that the student meets organisation's criteria to allow entry to a recognised disability category

- **Visualisation:**
  - mentally picturing objects or events as opposed to experiencing them directly

*Multiple disabilities or impairments refers to:*

- Students with multiple disabilities or impairments have a combination of two or more low incidence disabilities
- These occur in combinations, for example disabilities may be:
  - visual, hearing and physical
  - intellectual and hearing
  - speech language and physical
- Every student is different, even when they have a similar combination of disabilities:
  - it is important to realise that one impairment can exacerbate the difficulties caused by another
  - the interplay and impact of disabilities are greater than the sum of the individual disabilities
- The implications for learning will depend on the mix and severity of disabilities as well as on factors such as age, experiences and personality
RANGE STATEMENT

Adaptive skills refers to:

- Along with significantly impaired intellectual functioning, people with multiple disabilities or impairments have limitations in two or more of the adaptive skill areas:
  - communication
  - self care
  - home living social skills
  - community use
  - self-direction
  - health and safety
  - adjusted academics
  - leisure
  - work

These skill areas are central to successful life functioning

- Communication (giving and receiving information) difficulties:
  - understanding language (especially complex sentences, colloquialisms and words with more than one meaning)
  - learning rules of language (e.g. grammatical constructions, appropriate language for specific situations)
  - using language for a variety of functions (e.g. fulfilling basic needs, asking questions, stating information)
  - producing speech

Some students may need to use AAC (Augmentative and Alternate Communication) and/or speech generating devices

- Self care: refers to those skills necessary to maintain personal hygiene and appearance
  Students will need to be taught these skills in a structured manner
  For example, they may need an understanding of appropriate clothing for different social contexts
  Students may need specific programs in the following areas:
  - eating
  - dressing
  - grooming
RANGE STATEMENT

- toileting
- hygiene

*continued ...*

*Adaptive skills refers to:*

*continued (contd)*

- Home living: skills are those required to manage in the home environment and may include:
  - housekeeping
  - clothing care
  - food preparation
  - home safety
  - daily scheduling
  - planning to budget and shop
- Self-direction: skills include:
  - making choices
  - problem solving
  - being assertive
  - initiating or completing activities
  - planning
  - following a timetable
  - seeking assistance when needed
- Leisure: skills refer to the ability to use free time to pursue personal interests
  The purpose of teaching leisure skills is to provide students with the skills to be active participants in a variety of leisure pursuits
  Related skills include:
  - appropriate behaviour in leisure settings
  - home and community leisure
  - playing socially with others
  - indicating choices and needs
  - turn-taking
- Work Skills: need to be developed for students to have the opportunity to access work (paid and unpaid)
  These include work-related behaviours such as:
  - completing tasks
  - following schedules
  - seeking help
  - self-management
  - interacting with co-workers
RANGE STATEMENT

- job-specific competence
- Community Use: refers to the ability to access community facilities
  Skills include:
  - using public transport
  - shopping
  - using public facilities
  - appropriate behaviour

*Alternate performance strategies refers to*

- Strategies that provide the capacity to adapt/operate effectively in a normal situation
RANGE STATEMENT

Ways in which multiple disabilities may affect student learning may include:

- **Attention**
  The student may have difficulty:
  - beginning to attend the task
  - maintaining attention to complete the task
  - discriminating key features

- **Thought processing**
  The student may have difficulty with:
  - speed and organisation of though processes
  - forming logical sequence of ideas
  - interpreting symbolic and abstract concepts
  - linking new information with previous knowledge or experience
  - perseveration (repetition of speech or behaviour)

- **Memory**
  - students with an intellectual disability may have difficulty retaining and recalling information

- **Generalisation**
  - students with multiple disabilities or impairments have considerable difficulty transferring skills learned in one situation to another (e.g. money addition on a worksheet may not be generalised to the shopping centre)
  - students need to be taught how to generalise learned skills across a variety of locations, people, materials, and times

- **Perception**
  - students with multiple disabilities or impairments may have difficulty registering information through particular sensory mode (e.g. auditory or visual)
  - they may also have difficulty making meaning from what has been perceived (e.g. interpreting diagrams or pictures)
RANGE STATEMENT

Assist students may include:

- Assist a student to improve memory:
  - use visual supports such as word lists, pictorial timetable, or self management charts
  - use verbal and gestural prompts
  - use music or rhyme (e.g. learn required facts to a jingle)
  - build in opportunities for over learning (frequent practice)
  - encourage the use of a diary
- Assist students to improve generalisation ability:
  - creating real-life or life-like environments
  - use a range of concrete materials
  - use role play
  - develop contingency plans (e.g. carrying coins/phone card for the unexpected)
  - practising the same skill with different people in different places
- Assist students with perceptual difficulties:
  - use as many sensory modes as possible to reinforce learning (e.g. studying a country - include music, costume making, cooking, dance)
  - use one-to-one instruction
  - use short clear instructions
  - link abstract learning (e.g. reading and writing to actual concrete experiences in the student's recent past)
  - present paper tasks in simple, uncluttered formats (e.g. not too much information on the page)
  - provide visual, auditory or tactile support
  - use real-life or life-like situations wherever possible (e.g. study plants in the garden or the bush rather than at a desk)
- Assist students to improve adaptive skills:
  - most students acquire adaptive skills (everyday coping skills) through incidental learning
  - students with multiple disabilities or impairments may require specific instruction and training to achieve competency in these skills
  - as the skills are acquired, advantage should be taken of the many opportunities that arise for practice throughout the school day
RANGE STATEMENT

- the student's age and environment will influence the adaptive skills to be taught

Contribute to effective learning outcomes may include:
- Assisting with establishing and maintaining a supportive environment which is emotionally, socially and physically inclusive of diversity
- A curriculum which is responsive to individual needs
- Student groupings which support the student's involvement in teaching and learning
- Supporting teaching strategies which respond to the student's learning styles and needs
- Assisting with the development of teaching materials which are adapted to the student's needs
- Positive behaviour management strategies

A supportive environment is one that creates a sense of belonging for all students by:
- Accepting and valuing difference
- Facilitating academic and social development
- Supporting learner risk-taking by encouraging students to 'have a go' (e.g. praise for working through the process of an activity even if the outcome is not correct)
- Defining, modelling and reinforcing appropriate behaviour

A critical element of a supportive environment is
- The positive attitude of teachers, teacher aides, students and parents
- To help develop positive attitudes within the school environment:
  - share student successes
  - demonstrate a positive approach
  - focus on what students CAN do rather than on what they CAN NOT do
  - expect ALL students to develop and progress
  - allow students with multiple disabilities or impairments to face challenges
  - promote the rights of all students
  - provide access to a range of experiences
  - encourage peer interaction
RANGE STATEMENT

Support to the teacher of students with multiple disabilities or impairments includes:

- Develop a knowledge base in the area of multiple disabilities or impairments
- Develop a knowledge and application of appropriate resources
- Provide input into planning sessions as required
- Follow teacher directions in implementing programs
- Assist in collecting and recording data as required
- Provide feedback on student performance to the class teacher
- Encourage and guide students to do as much as possible for themselves (avoiding the development of learned helplessness)
- When needed, direct parent enquiries to the relevant teacher
- Maintain confidentiality on student and family personal information
- Use prompts and assistance only if required after the student has sufficient time to process the task
- Keep intervention to the minimum required for students to achieve success
- Fade assistance so the student can eventually do without teacher aide support
- Give sufficient feedback so the student can do it right or better next time
- Collect data on the student's performance to allow the teacher to monitor progress and make necessary program adjustments
RANGE STATEMENT

Resources to support the teacher in the delivery of educational programs may include:

- Written material - hand out notes, tests or assignments
- Technology support - setting up and operating computers, software, DVD, audio and video equipment
- Researching - sources of material for students and teachers
- Setting up and preparing for practical tasks/activities such as sewing, cooking, art, music, drama
- Students with multiple disabilities or impairments sometimes need class materials adapted to enable them to participate in class activities (e.g. more space between questions on worksheet, complex sentences reworded)
- At times, the student may need specialised equipment, such as a slope board or pencil grip to improve writing skills
- Some students will need technological aids to assist them in class activities (e.g. computer switches which are bigger or brightly coloured, or electronic communication devices)

Unit Descriptor

Descriptor

This unit deals with the skills and knowledge required by education support workers to assist the individual and education organisation to implement responsible behaviour plans.

The unit develops an understanding of relevant legislation and organisation policies.

Application of the Unit

Application

This unit applies to education support work in a variety of contexts and work is to be undertaken with appropriate guidance, support and supervision by a nominated teacher or other education professional.

Licensing/Regulatory Information

</tbody>
</table>
ELEMENT

3. Support learning environments encouraging student's responsibility

PERFORMANCE CRITERIA

3.1 Examine and determine key aspects of *philosophical approaches to behaviour management*

3.2 Support students to identify and analyse their learning goals in consultation with teacher

3.3 Implement learning experiences that encourage students to direct and manage their own learning in consultation with the teacher

3.4 Implement learning experiences where students reflect on their own learning in consultation with the teacher

4. Support implementation of strategies for student responsibility in behaviour management

4.1 Work in consultation with the teacher to identify behaviour management strategies to support students in learning to take responsibility for their own behaviour

4.2 Establish learning environments that assist students to work collaboratively

4.3 Implement *strategies for assisting students to monitor and review their own behaviour*

4.4 Implement learning experiences for students to develop *effective communication skills* and appropriate social and learning behaviours

4.5 Implement strategies for providing regular feedback and reinforcement to students

4.6 Examine *classroom behaviour management practices* for effectiveness

4.7 Implement support processes for students requiring specific skills in developing and maintaining behaviours

4.8 Evaluate and implement strategies for professional practice improvement

4.9 Use *collaborative problem solving skills* when working with colleagues and students

4.10 Take appropriate steps, if required, to maintain personal safety of self and others
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Assessment strategies involving learner's participation
- Available professional support services and resources
- Child and adolescent development theories
- Effective communication skills
- Factors to promote or diminish students' intrinsic motivation
- Importance of the student's self-esteem in the learning process
- Origins of behaviours of concern and the impact on student learning
- Philosophical approaches to behaviour support
- Practices and strategies for non-violent crisis prevention and intervention
- Requirements of relevant legislation and organisation policies
- Social and group dynamics
- Typical (and atypical) behaviours encountered in the education environment
- Universal precautions for risk management
- When and how to implement consequences for behaviours of concern
- Whole of school and student approaches to behaviour support

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Access and reference documented research information using relevant standards
- Adhere to education organisation's policies and procedures
- Demonstrate supportive and collaborative relationships with students
- Demonstrate use of a range of appropriate behaviour management strategies
- Implement student self management strategies
- Interpret feedback from colleagues relating to policies and procedures
REQUIRED SKILLS AND KNOWLEDGE

- Reflect on personal skills in behaviour management

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include the ability to:

- Apply reinforcement strategies within student behaviour support plans
- Demonstrate collaborative problem solving skills
- Encourage student's monitor and review of self
- Implement negotiation and conflict resolution strategies
- Implement proactive and reactive responses to irresponsible behaviour
- Observe and reflect
- Research and analyse

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit can be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment requires access to a range of opportunities defined in the range Statement, including:
  - appropriate workplace where assessment can take place
  - simulation of realistic workplace environment for assessment
  - relevant school/centre policy, protocols and procedures
  - educational materials
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Legislative and organisation policy requirements may include:

- Anti-discrimination Act 1991
- Commission for Children and Young People and Child Guardian Act 2000
- Education (General Provisions) Act 1989
- Freedom of Information Act 1992
- Individual education environment policy, procedure and plans
RANGE STATEMENT

Philosophical approaches to behaviour management may include:
- Behavioural
- Cognitive
- Ecosystemic
- Psychodynamic

Strategies for assisting students to monitor and review their own behaviour may include:
- Discussion
- Hypotheticals
- Questioning
- Reflection
- Role play

Effective communication skills may include:
- Conflict management
- Critical listening and questioning
- Culturally appropriate language
- Discussions (individual or group)
- Paraphrasing
- Presentations
- Providing constructive and supportive feedback
- Use of languages other than English if required
- Use of translators
- Verbal/non-verbal
- Written (e.g. electronic, letters, memos)

Classroom behaviour management practices may include:
- Body language
- Cue with parallel acknowledgement
- Descriptive encouraging
- Establish expectations
- Give instructions
- Provide choice
- Selective attending

Collaborative problem solving skills may include:
- Active listening
- Clarify
- Draw inference
- Provide positive feedback
- Summarise

</thead>
<tbody>
<tr>
<td>1. Apply communication skills appropriate to emergency relief context</td>
<td>1.1 Communicate appropriately in order to identify client needs and issues</td>
</tr>
<tr>
<td></td>
<td>1.2 Assist clients to resolve their needs and issues using appropriate communication skills</td>
</tr>
<tr>
<td></td>
<td>1.3 Communicate mission and values of the service agency appropriately</td>
</tr>
<tr>
<td></td>
<td>1.4 Communicate appropriately in working with other agencies</td>
</tr>
</tbody>
</table>
ELEMENT
2. Provide emergency relief services

PERFORMANCE CRITERIA
2.1 Assess client needs to ensure appropriate support is recommended
2.2 Provide information to clients according to their needs
2.3 Ensure recommended relief services are within agency's capabilities to provide
2.4 Refer clients to other appropriate agencies, services and professionals where necessary
2.5 Provide support and advocacy for clients according to client needs
2.6 Provide emergency relief services according to legislative and agency procedures

3. Review and monitor own work

3.1 Identify scope of work to ensure that services provided are within personal and organisation capabilities
3.2 Address diverse views and conflicts within the organisation as appropriate to ensure service provision is maintained
3.3 Participate in organisation monitoring activities to enable service provision to be reviewed
3.4 Seek to address difficulties with appropriate people and seek assistance when required

4. Undertake administrative duties

4.1 Maintain networks with other agencies
4.2 Attend review meetings to review agency range of services as required
4.3 Maintain statistics in accordance with organisation requirements
4.4 Maintain client files and financial records in accordance with organisation requirements
4.5 Mentor new volunteers in working within organisation philosophies and ethical frameworks
4.6 Undertake activities as required to support organisation mission and values
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Legislation and regulation relevant to emergency relief provision
- Client confidentiality and privacy requirements
- Mandatory reporting requirements as appropriate
- Organisation codes of practice
- Services available from the agency
- Own role and responsibilities
- Knowledge of the principles of equal employment opportunity (EEO), sex, race, disability, anti-discrimination and similar legislation and the implications for work and social practices
- Referral networks and their service provision
- Availability of resources and assistance within and external to the organisation in relation to emergency services provision
- Strategies to maintain personal well being

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Provide services within established timeframes
- Sensitively communicate with people from diverse backgrounds and cultures
- Form effective workplace relationships with co-workers and colleagues from diverse backgrounds and cultures
- Participate in identifying and implementing safe work practices
- Employ basic conflict resolution and negotiation skills
- Complete governmental and other documentation and forms
- Communicate sensitively with clients to establish needs
REQUIRED SKILLS AND KNOWLEDGE

- Involve clients in decision-making processes
- Analyse own work
- Maintain a distance between self and client in service provision
- Refer appropriately

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment may be conducted on one or more occasions, but should include the normal range of workplace activities

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in culturally and linguistically diverse (CALD) environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place, or simulation of realistic workplace setting for assessment.

Method of assessment:

- Assessment may include observation, questioning and evidence gathered from the workplace environment.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Client needs and issues may include:

- Financial difficulties
- Difficulties with utilities
- Housing issues
- Dealing with public authorities
- Food provision
- Family conflict
RANGE STATEMENT

Other agencies may include:
- Government departments
- Utilities
- Banks
- Transport providers
- Courts
- Health services
- Church agencies
- Welfare agencies
- Local government agencies
- Police
- Other service providers

Information may include:
- Available support services
- Government agencies (federal, state/territory and local)
- Completing forms and documents
- Rights and responsibilities of clients

Appropriate support may include:
- Provision of food vouchers
- Organisation of emergency housing
- Negotiating with utilities
- Provision of financial counselling
- Referral to other agencies
- Completion of forms
- Assessing suicide risk
- Providing information/options
RANGE STATEMENT

Legislative and agency procedures may include:

- Duty of care responsibilities
- Limitations of legal responsibility
- Mandatory reporting requirements
- Privacy legislation
- Funding guidelines
- Work health and safety (WHS)
- Food handling regulations
- Anti-discrimination legislation and sexual harassment
- Equal employment opportunity legislation
- Health inspections
- Child protection
- Police checks
- Goods and Services Tax (GST)
- Funding raising legislation
- Prohibitive employment
- Disability
- Racial vilification legislation
- Service delivery guidelines
- Food management
- Codes of ethics and codes of conduct
- Rights and responsibilities
- Relief services policies
- Guidelines for giving vouchers
- Compliant procedures and resolution
- Emergency and shut down procedures
- Office opening/closing procedures
- Reporting requirements
- Data collection
- Risk management
- Working within roles and responsibilities
- Volunteer agreements
- Indemnity insurance
- Security (personal and property inc information)
RANGE STATEMENT

Statistics may include:
- Number of clients
- Client demographics
- Food given
- Presenting issues
- Unmet needs
- Vouchers
- Utility accounts
- Travel
- Furniture/clothing

Service monitoring may include:
- Agency review procedures
- Incident debriefing
- Care of volunteers
- Performance appraisal
- Workload management
- Stress management

Advocacy may include:
- Negotiations with utility companies
- Negotiations with health and welfare providers
- Negotiations with finance providers
- Negotiations with housing providers
- Negotiations with government agencies
- Negotiations with education providers

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- The composition and working of labour markets
- Current and emerging issues relating to the labour market on a national, state and local level
- Understanding of characteristics of local labour market
- Unemployment figures for local area
- Current and projected skills shortages
- Occupations within key employing industries in local area
- Seasonal fluctuations impacting on recruitment

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding of labour market composition; national and industry trends and emerging issues
- Demonstrate knowledge of local labour market composition, size, characteristics, issues and trends
- Plan and carry out workplace activities using labour market information

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Apply literacy skills to read and understand a variety of texts, prepare labour market summaries and produce grammatically correct information
- Apply planning skills to organise information and plan activities
REQUIRED SKILLS AND KNOWLEDGE

- Apply problem solving skills to deal with contradictory and ambiguous information
- Apply oral and written communication skills to communicate advice and information effectively
- Demonstrate effective use of relevant information technology in line with work health and safety (WHS) guidelines

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace

Method of assessment may include:
- Observations
- Questioning
- Case studies
- Written assignments
- Evidence gathered from the workplace environment
- Demonstration over a period of time to ensure consistency of performance

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Labour market may be defined by, but is not limited to:

- Geographic location
- Client demographics
- Industry and industry sectors
- Seasonal factors
- Agricultural crops

Labour market information may include but is not limited to:

- Information regarding industries and industry sectors (e.g. workforce size, recruitment methods, conditions of employment, prospects for growth/reduction in labour force)
- Information regarding occupations (e.g. prospects of employment, type of work undertaken, workforce size, hiring methods, conditions of employment, employer expectations of workers)
- Labour market trends
- Peak and trough periods in demand for labour/seasonality
- Areas of high employment and unemployment
- Current labour market conditions
- Business and economic forecasts
- Emerging labour market developments
- Industrial framework
- Other distinguishing characteristics
RANGE STATEMENT

Information sources may include, but are not limited to:

- Publications, industry journals, articles
- Internet websites
- Telephone directories
- Commercial databases of business and industry information
- Australian Bureau of Statistics
- Department of Employment and Workplace Relations
- Workplace Agreements; information on Federal and State awards
- Visits to workplaces
- Business cards
- Industry Associations
- Employee Associations
- Chambers of Commerce
- Grower Associations
- State government departments of employment and training
- Information available from within own organisation
- Newspapers, e.g. recruitment advertisements and articles
- Community organisations
- University and other research facilities

Appropriate methods to gather information may include, but are not limited to:

- Use of internet
- Surveys
- Client interviews
- Focus groups
- Individual research
- Questioning during marketing activities to employers
- Use of libraries
- Publications
- Attendance at meetings
- Networking
- Workplace visits
- Communication with colleagues and experts
RANGE STATEMENT

Advice to clients and employers includes, but is not limited to:

- Employability, prospects of employment
- Barriers to employment
- Suitable employment opportunities for clients
- Advice to employers on availability of suitable labour
- Recruitment strategies to source suitable labour

Planning work activities may include, but is not limited to:

- Business planning and forecasting
- Job search planning
- Promotional plans
- Marketing plans
- Contact plans
- Employment plans for individual clients

Record labour market information may utilise, for example:

- Tables and charts
- Software applications
- Reports, written or verbal
- Hard copy files

Organisation policies and processes may include, but are not limited to:

- Recording of information against client and employer files and database records
- Use of Contact Management Systems for employers
- Preparation of reports on labour market intelligence and information

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:
- Local labour market composition, size, characteristics, issues and trends
- Recruitment services, products and processes of own organisation
- Relevant legislation, duty of care, ethical behaviour that relates to job role

Essential skills:
It is critical that the candidate demonstrate the ability to:
- Use labour market knowledge as an aid in planning and conducting recruitment process
- Present benefits of recruitment services to employers based on their specific needs
- Source suitable candidates for available employment opportunities using a range of appropriate sources
- Identify employment opportunities suitable for individual clients using a variety of assessment tools and techniques
- Conduct follow up to ensure needs of clients and employers involved in a recruitment process have been satisfied

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:
- Apply reading and writing skills required to access, analyse and interpret selection documentation, prepare business correspondence, prepare file notes and reports and to understand organisation policies and procedures relating to job role
- Apply oral communication skills required to negotiate service levels, sell and market services and products, interview clients to provide and elicit information, to liaise with
REQUIRED SKILLS AND KNOWLEDGE

stakeholders and colleagues and to provide feedback to clients, in particular:

- advanced questioning and active listening skills
- provision of clear and complete information
- understanding of the needs of clients and employers

- Apply numeracy skills ranging from the ability to complete basic arithmetic calculations to preparing statistical reports on performance, to calculating fees payable by employers for recruitment services

- Apply interpersonal skills including working with others, displaying empathy with clients and an ability to relate to persons from diverse backgrounds and with a range of barriers to employment

- Demonstrate application of skills, including:
  - selling skills
  - marketing skills
  - problem solving skills to address any problems or issues that arise during the recruitment process
  - organisation skills including time management skills, to effectively conduct varying stages of concurrent recruitment exercises
  - technology skills to use business equipment and software; with sound skills in use of internet

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- This unit is related to:
  - CHCES303B Use labour market knowledge
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace
  - relevant organisation policy, guidelines, procedures and protocols
  - relevant legislation

Method of assessment may include:
- Observations
- Questioning
- Case studies
- Written assignments
- Evidence gathered from the workplace environment
- Demonstration over a period of time to ensure consistency of performance
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Agree level of service with employer refers to:
- Agreements made verbally or in writing
- Agreements involving a fee payable by the employer; and those provided at no cost to the employer
- Agreements outlining the details of recruitment services to be provided

Terms and services agreed to with the employer can relate to, but are not limited to:
- Timing and duration of recruitment service
- Methods of sourcing suitable clients
- Communication protocols and frequency
- Short listing arrangements - criteria, number of clients
- Reference checking
- Skills and aptitude testing
- Interview arrangements - times, numbers of clients
- Provision of advice to unsuccessful clients

Criteria for determining service levels can include, but are not limited to:
- Costs to employer and service provider
- Likelihood of attracting suitable candidates
- Other labour market conditions
- In accordance with organisation policies and processes
- Time available
RANGE STATEMENT

Conditions of employment include, but are not limited to:

- Remuneration
- Entitlements and benefits
- Industrial instruments (Federal or State awards, workplace agreement, certified agreement)
- Superannuation
- Hours of work
- Basis of employment (e.g. permanent, temporary, contract)

Employer requirements may relate to, but are not limited to:

- Essential and desirable selection criteria
- Educational qualifications
- Licences, certificates
- Related experience
- Personal qualities
- Availability

Respond appropriately to client enquiries may include but is not limited to:

- Responding in a timely manner, as determined by relevant organisation customer service standards
- Using ethical standards of behaviour and applying duty of care to advice and information provided

Advertising may include but is not limited to:

- Internal, e.g. lodgement on internal databases and intranet; email to selected personnel
- External, e.g. lodgement on internet web sites; newspaper and journal advertisements; email to selected organisations and clients
- Outsourced

Assessment techniques and tools may include but are not limited to:

- Behavioural interviewing techniques
- Information based interview techniques
- Screening interviews based on short listing criteria
- Phone or face-to-face interviews
RANGE STATEMENT

Assessment tools used are those able to be administered and assessed by non-professional personnel such as:

- Skills inventories
- Interest inventories
- Computer based skills and aptitude testing

Legislative requirements may relate to, but are not limited to:

- Federal legislation designed to address discrimination, e.g. Sex Discrimination Act, Racial Discrimination Act, Disability Discrimination Act
- State legislation designed to address discrimination
- Disability Services Act
- Privacy Act
- Trade Practices Act
- Social Security Act
- Industrial and Workplace Relations Act
- Human Rights and Equal Opportunity Act
- Occupational Health and Safety Act
- Employment Agents Act
- Archives Act
- Financial Management and Accountability Act
- Freedom of Information Act
- Crimes Act
- Corporations law

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Federal and State Australian Apprenticeships Guidelines
- Organisation policies and procedures relating to the establishment and monitoring of Australian Apprenticeships
- Incentives and other assistance available to employer and Australian Apprentice including Disabled Apprentice Wage Support Scheme

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Demonstrate knowledge of federal and state guidelines relevant to establishing and monitoring Australian Apprenticeships
- Conduct monitoring visit, including completion of checklist
- Correctly record outcomes of visit in relevant databases

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Apply reading and writing skills required to complete forms and checklists, check training records, make file notes, report incidents of irregularity in training arrangements
- Apply oral communication skills required to provide and elicit information from apprentice and employer regarding services of organisation, Australian Apprenticeship Guidelines and incentives
  Assessors should look for skills in asking questions, providing clear information, listening to and understanding needs of apprentices and employers, and active listening
REQUIRED SKILLS AND KNOWLEDGE

skills
- Apply interpersonal skills including working with others, empathy with clients and an ability to relate to persons from diverse backgrounds
- Apply numeracy skills ranging from the ability to complete basic arithmetic calculations such as addition, subtraction, multiplication, division to recording numbers
- Demonstrate problem solving to address situations within responsibility of job role
- Apply technology skills to use business equipment

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace
  - relevant organisation policy, guidelines, procedures and protocols
  - federal and state Australian Apprenticeships guidelines
  - information on incentives and assistance available to apprentices and employers through state and federal governments and industry
EVIDENCE GUIDE

Method of assessment may include:

- Observations
- Questioning
- Case studies
- Written assignments
- Evidence gathered from the workplace environment
- Case studies and scenarios as a basis for discussion of issues and strategies in addressing queries and complaints by employer and apprentice
- Demonstration over a period of time to ensure consistency of performance

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

State and federal legislation and relevant guidelines include, but is not limited to:

- Federal Australian Apprenticeships Incentives Guidelines
- Guidelines on establishing Australian Apprenticeships, issued by State Training Authorities
- State Government Incentives Guidelines
- Industry Incentives Guidelines
RANGE STATEMENT

Australian Apprenticeships supporting information may include, but is not limited to:

- Copy of Training Contract
- Copy of Training Plan
- Fact sheets
- Incentives claims forms
- Brochures
- Marketing materials of own organisation

Necessary information collected at the visit may relate to, but is not limited to:

- Receipt of incentives
- Implementation of Training Plan
- Attendance of apprentice at workplace and training
- Conduct of apprentice
- Training Record information
- Australian Apprenticeship Centre services

Irregularities may include, but are not limited to:

- Cancellation or suspension of training
- Incentives not received
- Training Plan not commenced or followed
- Training Record Book not completed
- Poor workplace performance by apprentice

Relevant records include, but are not limited to:

- Federal government Australian Apprenticeship database
- Database and files of own organisation

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Appropriate services and programs available to assist clients, including nationally recognised training
- Assistance available to employers
- Current and emerging issues relating to work in the employment services area
- Key stakeholders (individuals and organisations) in employment services area
- National Vocational Education and Training (VET) system
- Principles of duty of care and ethical behaviour
- Relevance of the work role and functions to maintaining sustainability of the workplace, including environmental, economic, workforce and social sustainability
- Relevant State and Federal government legislation
- Understanding the impact and effects of unemployment on clients

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Demonstrate in work practices, the application of legislation relevant to the delivery of employment services
- Demonstrate knowledge and understanding of the principles of duty of care and ethical behaviour
- Demonstrate understanding of principal client groups, their needs and barriers to employment, and how this knowledge affects work plans and activities
- Demonstrate understanding of the range and roles of organisations and stakeholders in the employment services area, and how services available can be utilised to assist clients

In addition, the candidate must be able to effectively do the task outlined in elements and
REQUARED SKILLS AND KNOWLEDGE

performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic research skills to access information on stakeholders and their needs and services
- Apply interpersonal skills including working with others, empathy with clients and an ability to relate to persons from diverse backgrounds
- Apply oral communication skills (language competence) required to fulfil job roles as specified by the organisation/service
  Oral communication skills include skills to provide and impart information on processes, obligations, and options; and to liaise internally and with external organisations
- Apply technology skills to use business equipment and software applications
- Apply written communication skills (literacy competence) required to fulfil job roles as specified by organisation/service
  The level of skill may range from reading and understanding organisation policies and procedures to preparing business correspondence and records of interview
- Recognise and act upon opportunities to enhance sustainability in the workplace

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting or the inclusion of assessment tasks that are realistic and relevant to work in an employment services area
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace

Method of assessment may include:
- Observations
- Questioning
- Case studies
- Skills tasks
- Written assignments
- Evidence gathered from the workplace environment
- Third party reports
- Demonstration over a period of time to ensure consistency of performance
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Stakeholders are organisations and individuals who may include but are not limited to:

- Area Consultative Committees
- Australian Apprenticeships Support Services
- Centrelink
- Clients (i.e. job-seekers and employers)
- Community organisations
- CRS Australia
- Disability Employment Network
- Employers and employer peak bodies
- Federal, State and Local government departments and agencies
- Group Training Companies
- Job Network
- Organisations providing services to assist clients to secure suitable employment, including those funded by State and Federal government
- Training organisations
- Vocational Rehabilitation Services
RANGE STATEMENT

Issues affecting the employment services area may include but are not limited to:

- Changes and trends in work
- Changing needs and expectations of clients (i.e. job-seekers and employers)
- Government policies and priorities relating to employment and training
- International labour conventions
- Linkages between labour market programs and services
- Outsourcing of government services

Client groups may include but are not limited to:

- Aboriginal and Torres Strait Islander peoples
- Apprentices and trainees
- Ex-offenders
- Long-term unemployed people
- Mature aged people
- People from non English speaking backgrounds
- People returning to the workforce following a lengthy absence, illness, injury or other incapacity
- People with disabilities
- Refugees
- Sole parents
- Those at risk of becoming long-term unemployed, without the provision of assistance
- Youth
- Youth at risk of long term unemployment
RANGE STATEMENT

Barriers to employment are any factors that affect a person’s prospects of securing suitable employment.

They may include but are not limited to:

- Age
- Availability of suitable local employment opportunities
- Culture
- Disability
- Factors such as self-esteem, motivation, attitude, perceptions
- Health issues
- Language
- Limited work experience or gaps in work history
- Literacy and numeracy needs
- Non recognition of qualifications in Australia
- Personal factors such as hygiene, grooming, dress and appearance
- Skill level in relation to demands of labour market
- Social and economic circumstances

Resources to whom clients may be referred for assistance may include but are not limited to:

- Advocacy groups
- Centrelink
- Community organisations
- Educational institutions
- Government agencies and departments
- Health practitioners and professionals
- Industrial Relations Commission
- Members of Parliament
- Ombudsman
- Organisations delivering training and employment related programs funded by Federal, State and Local governments
- Professional service providers
- Rehabilitation providers
- Training providers
RANGE STATEMENT

Legislation relevant to the delivery of employment services includes, but is not limited to:

- Archives Act
- Corporations law
- Crimes Act
- Disability Services Act
- Employment Agents Act
- Federal legislation designed to address discrimination, e.g., Sex Discrimination Act, Racial Discrimination Act, Disability Discrimination Act
- Financial Management and Accountability Act
- Freedom of Information Act
- Human Rights and Equal Opportunity Act
- Industrial and Workplace Relations Act
- Occupational Health and Safety Act
- Privacy Act
- Social Security Act
- State child protection legislation
- State legislation designed to address discrimination
- Trade Practices Act

Duty of care responsibilities relate to but are not limited to:

- Adherence to all legislative and statutory requirements
- Adherence to industry standards of ethical practice
- Applying principles of natural justice
- Providing complete, relevant and timely information to clients, employers and other stakeholders at all times

Organisation standards for ethical behaviour may include but are not limited to:

- Avoidance of conflicts of interest
- Confidentiality of information
- Professional relationships
- Written or oral standards, stated or implied by the way the organisation conducts its business

4. Monitor contractual compliance in job role

PERFORMANCE CRITERIA

4.1 Monitor own performance against contractual compliance in job role

4.2 Identify and rectify any potential or actual non-compliance in job role
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Identity, roles and needs of key stakeholders involved in contract management and delivery
- Contractual requirements
- Ramifications of non-compliance
- Relevant legislation
- The principles of anti-discrimination, duty of care, ethical behaviour, natural justice

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding of the role of the purchaser and the needs of key stakeholders involved in contract management and delivery
- Explain contract provisions relevant to own job role and responsibilities
- Apply relevant organisation policies and procedures that relate to contractual compliance

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Access contractual documentation and organisation policies and procedures; needs of stakeholders; and legislation relevant to employment services
- Apply oral communication skills required to liaise with other stakeholders and colleagues, providing and eliciting information from clients and employers, and acknowledging and responding to a range of views
- Apply written communication skills required to fulfil job roles as specified by
REQUIRED SKILLS AND KNOWLEDGE

organisation/service:

- the level of skill may range from reading and understanding contracts and organisation policies and procedures, to documenting needs/requirements of clients and employers, to preparing correspondence and business documents
- Apply interpersonal communication skills including working with others, displaying empathy with clients and an ability to relate to persons from diverse backgrounds and with multiple barriers to employment
- Apply problem solving skills to solve problems relating to contractual compliance, including compliance with code of practice

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting or the inclusion of assessment tasks that are realistic and relevant to work in an employment services area
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged

2.3 Record Australian Apprenticeship in relevant databases  
2.4 Despatch documentation to relevant authorities for processing |
| 3. Monitor and report on service delivery | 3.1 Plan client visits and conduct at planned intervals  
3.2 Check and document client satisfaction  
3.3 Report non-compliance with obligations under Training Agreements to relevant authorities  
3.4 Record outcomes correctly in relevant databases |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Federal and State Australian Apprenticeships Guidelines including Disabled Apprentice Wage Support Scheme
- Organisation policies and procedures relating to the establishment and monitoring of Australian Apprenticeships
- Incentives and other assistance available to employer and apprentice
- Federal and state legislation, including Workplace Relations Act; work health and safety (WHS) legislation; Privacy Act; federal legislation designed to address discrimination, e.g. Sex Discrimination Act, Race Discrimination Act, Disability Discrimination Act; state legislation addressing discrimination
- State industrial framework and legislation
- Registered Training Organisations delivering appropriate training
- Roles and responsibilities of key stakeholders
- National Vocational Education and Training system

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Demonstrate knowledge of federal and state guidelines relevant to Australian Apprenticeships
- Demonstrate knowledge of training options available to employers and apprentices
- Identify a range of training options appropriate to a variety of workplace situations

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.
REQUIRED SKILLS AND KNOWLEDGE

These include the ability to:

- Apply reading and writing skills required to understand organisation policies and procedures relevant to job role, contractual requirements, legislation, to complete forms, make file notes, prepare reports and prepare business correspondence
- Apply oral communication skills required to explain Australian Apprenticeships processes and systems, promote services of the organisation, provide and elicit information from apprentice and employer regarding services of organisation, Australian Apprenticeship Guidelines and incentives, in particular skills in:
  - asking questions
  - providing clear information
  - listening to and understanding needs of apprentices and employers
  - active listening skills
- Apply interpersonal skills including working with others, empathy with clients and an ability to relate to persons from diverse backgrounds
- Apply problem solving skills to address any problems or issues that may arise in the Australian Apprenticeships arrangements
- Apply numeracy skills to provide statistical reports and undertake basic calculations
- Apply technology skills to use business equipment and software, with sound skills in entering data into databases

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - relevant organisation policy, guidelines, procedures and protocols
  - federal and state Australian Apprenticeships guidelines
  - information on incentives and assistance available to apprentices and employers through state and federal governments and industry
EVIDENCE GUIDE

Method of assessment may include:

- Observations
- Questioning
- Case studies
- Written assignments
- Evidence gathered from the workplace environment
- Case studies and scenarios as a basis for discussion of issues and strategies in addressing queries and complaints by employer and apprentice
- Demonstration over a period of time to ensure consistency of performance

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

State and federal guidelines and legislation include, but is not limited to:

- Federal Australian Apprenticeships incentives guidelines
- Guidelines on establishing Australian Apprenticeships, issued by state training authorities
- State government incentives guidelines
- Industry Incentives Guidelines

Training options may include, but are not limited to:

- Apprenticeship
- Traineeship
- Full time
- Part time
- Group Training arrangement
RANGE STATEMENT

Key stakeholder includes, but is not limited to:
- Federal and State government departments and agencies
- State training authorities
- Employers
- Australian Apprentices
- Supervising registered training organisations
- Industrial Relations Commission

Documentation includes, but is not limited to:
- Training contract
- Commonwealth incentives form
- State government incentives forms

</tbody>
</table>
ELEMENT PERFORMANCE CRITERIA

4. Undertake follow up action

4.1 Review and refine contact approach as appropriate
4.2 Provide *information* to employer as required
4.3 Provide *feedback* to client
4.4 Update information systems according to *organisation policies and procedures*

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Expectations and needs of both clients and potential employers
- Current and emerging characteristics and requirements of local labour markets
- Relevant legislative requirements, e.g. Disability Services Act, Federal and State anti-discrimination legislation, Workplace Relations Act
- Knowledge of incentives and other assistance available to employer and New Apprentice including Disabled Apprentice Wage Support Scheme
- Organisation policies on assistance available to clients and potential employers to secure and maintain an employment placement or trial workplace

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Identify appropriate target employment markets that align with individual client needs and circumstances
- Use advanced communication and sales skills to negotiate an appropriate outcome for both client and employer
REQUIRED SKILLS AND KNOWLEDGE

- Inform client and employer of appropriate forms of assistance and provide as required
- Take follow up action to assist in sustaining the employment

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills, including:
  - skills to analyse labour market information so that appropriate employers are targeted
  - sales skills to identify viable options, handle objections, sell a solution, and take follow up action as required
  - advanced communication skills, including the ability to negotiate a realistic outcome that sufficiently meets the needs of all parties; to impart and elicit information effectively; to listen actively and to be assertive when required
  - interpersonal skills to empathise and effectively interact with people from diverse backgrounds
  - technology skills to use business equipment and software

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting*
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- This unit is related to:
  - CHCES401A Analyse and apply labour market information
  - sales units contained within the Business Services Training Package
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace

Method of assessment may include:
- Evidence gathered from the workplace environment
- Structured interviews
- Observations
- Written assignment
- Project
- Questioning
- Demonstration over a period of time to ensure consistency of performance
Range Statement
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Labour market information may include but is not limited to:
- Composition of the labour market
- Information regarding industries and industry sectors (e.g. workforce size, recruitment methods, conditions of employment, prospects for growth/reduction in labour force, hiring processes and patterns)
- Information regarding occupations (e.g. prospects of employment, type of work undertaken, conditions of employment)
- Trends
- Current status
- Industrial framework
- Employer expectations

Target employment market may include, but is not limited to:
- Industries where skills and abilities of client are applicable
- Employers that offer employment in appropriate occupations
- Employers with a history of offering opportunities to clients with barriers to employment
- Employers with current job opportunities that sufficiently align with skills and abilities of client
RANGE STATEMENT

Contact approach to promote client can include, but is not limited to:

- Appointments and interviews with employers
- Telemarketing
- Telephone communication
- Correspondence
- Cold canvassing (door knocking)
- Advertising
- Business cards
- Personal profiles and resumes

Selling points include, but are not limited to:

- Examples of relevant knowledge and experience and personal qualities likely to be valued by the employer
- Points related specifically to the needs of individual employers
- Points to answer any employer queries or concerns about the client

Persuasive communication techniques may include, but are not limited to:

- Negotiation techniques
- Sales techniques
- Assertiveness
- Ability to communicate benefits of non-discrimination and diversity in the workplace
- Ability to explain legislative requirements
- Ability to present viable, realistic options to the employer

Employer resistance may relate to, but is not limited to these barriers to employment:

- Skills level, type and currency
- Limited work experience or gaps in work history
- Lack of transport
- Literacy and numeracy skill level
- Factors such as self-esteem, motivation, attitude
- Factors such as hygiene, grooming, dress and appearance
RANGE STATEMENT

Outcome may include, but is not limited to:

- Interview appointment for the client
- Trial workplacement
- Job placement (e.g. permanent, temporary, full time, part time; casual or contract)
- Forwarding of resume or profile for employer to retain on file

Provide appropriate support may include, but is not limited to:

- Role plays, mock interviews for client
- Coaching (e.g. in negotiation skills, assertiveness skills, sales skills, preparation of correspondence and forms, interview techniques, telephone interactions with employers)
- Assistance with scripts
- Providing regular practice opportunities
- Debriefing and constructive feedback
- Provision of wage subsidies or negotiation of supported wage with employer
- Provision of other assistance available to the employer if hiring takes place (e.g. workplace support, training of client, funding of workplace aids and adjustments)

Information that may be provided to the employer may relate to, but is not limited to:

- Forms of assistance available
- Sources of further information, e.g. on workplace relations matters, awards and conditions
- Marketing material relating to products and services of the organisation

Feedback to client may relate to, but is not limited to:

- Interview performance and results
- Relevant information regarding the employer, (e.g. culture, performance requirements, pay and conditions, job role and responsibilities)
- Future assistance available to them through the organisation
- Sources of assistance outside the organisation
- Action to take if difficulties arise with the placement
RANGE STATEMENT

Organisation policies and procedures relating to recording of information may include, but are not limited to:

- Recording of information against client and employer files and database records
- Use of contact management systems for employers

| 3. Improve the delivery of employment services by using labour market information | 3.1 Assess service delivery plans, processes and practices in terms of their alignment with current and emerging labour market conditions.  
3.2 Improve work practices to reflect current and emerging characteristics of the labour market. |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- The composition and working of labour markets
- Understanding of current labour market characteristics and issues
- Unemployment figures for local area
- Current and projected skills shortages
- Occupations within key employing industries in local area

Essential skills:
It is critical that the candidate demonstrate the ability to:
- Use an appropriate range of labour market data sources to collect information, including Labour Market Portal
- Analyse labour market information to determine relevance to current and future delivery of services
- Apply knowledge of labour market information to planning and improvement of service delivery

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:
- Apply literacy and numeracy skills to read and understand a variety of texts and statistics; prepare labour market information in a report format and to enter the information into organisation's information systems
- Apply planning skills to organise information and plan and review work activities
- Apply problem solving skills to deal with ambiguous information
REQUIRED SKILLS AND KNOWLEDGE

- Apply oral and written communication skills to provide and elicit advice and information effectively
- Apply technology skills to use business equipment and software including use of internet and intranet for research

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting, such as the DEWR Learning Centre

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged. This unit is related to:
  - CHCES403B Develop and monitor employment plans
  - CHCES406B Provide job search support
  - CHCCAR501B Conduct career guidance interview

- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace

Method of assessment may include:

- Observations
- Questioning
- Case studies
- Skills tasks or projects
- Written assignments
- Evidence gathered from the workplace environment
- Third party reports
- Demonstration over a period of time to ensure consistency of performance

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Labour market may be defined by, but is not limited to:
- Geographic location
- Client demographics
- Industry and industry sectors
- Seasonal factors
- Agricultural crops

Labour market information includes, but is not limited to:
- Information regarding industries and industry sectors (e.g. workforce size, recruitment methods, conditions of employment, prospects for growth/reduction in labour force)
- Information regarding occupations (e.g. prospects of employment, type of work undertaken, workforce size, hiring methods, conditions of employment, employer expectations of workers)
- Labour market trends
- Peak and trough periods in demand for labour/seasonality
- Areas of high employment and unemployment
- Current labour market conditions
- Business and economic forecasts
- Emerging labour market developments
- Industrial framework
- Services, products, business levels of competitors
- Other distinguishing characteristics
RANGE STATEMENT

Information sources include, but are not limited to:

- Information available within the organisation
- Publications, industry journals, articles
- Internet websites
- Telephone directories
- Commercial databases of businesses and industries
- Australian Bureau of Statistics
- Department of Employment and Workplace Relations
- Workplace Agreements; information on Federal and State awards
- Visits to workplaces
- Business cards
- Industry Associations
- Employee Associations
- Chambers of Commerce
- Grower associations
- State government departments of employment and training
- Newspaper recruitment advertisements
- Community organisations
- University and other research facilities

Appropriate methods to gather information may include, but are not limited to:

- Use of internet and intranet
- Surveys
- Client interviews
- Focus groups
- Individual research
- Questioning during marketing activities to employers
- Use of libraries
- Publications
- Attendance at meetings
- Networking
- Workplace visits
RANGE STATEMENT

Current and emerging characteristics of labour markets may refer to, but are not limited to:

- Volunteer workforce
- Casualisation of workforce
- Length of average working hours
- Contract employment
- Portability of skills
- Globalisation
- Impact of technology
- Lifelong learning
- Changing face of core skills
- Core vocational skills gained while at school
- Ageing population
- Transitional labour market programs

Planning activities include, but are not limited to:

- Business planning and forecasting
- Job search planning
- Promotional plans
- Marketing plans
- Contact plans
- Employment plans for individual clients

Organisation policies and processes may include, but are not limited to:

- Recording of information against client and employer files and database records
- Use of contact management systems for employers
- Preparation of reports on labour market intelligence and information

ELEMENT

3. Monitor implementation of employment plan

PERFORMANCE CRITERIA

3.1 At regular intervals, review and record client progress toward achievement of objectives

3.2 Where progress is not achieved, review and amend plan and strategies in consultation with the client

3.3 Provide feedback and support to client to support them toward achievement of goals

3.4 Where applicable, report non-compliance with obligations to relevant authorities in accordance with contractual, legislative and organisation requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Relevant legislative requirements
- Local labour market conditions
- Organisation requirements relating to format, documentation, content and monitoring of employment plans
- If applicable, contractual requirements relating to employment plans
- Understanding common effects of unemployment on clients
- Understanding of strengths-based assessment approach
- Training and other pathways to occupational areas
- Job search techniques and strategies
- Legislation that applies to employment plans
- External resources available to people seeking employment

Essential skills:
It is critical that the candidate demonstrate the ability to:
- Ensure plans are appropriate to the needs of individual clients, and labour market conditions
- Ensure plans comply with relevant legislation
- Ensure plans follow organisation policies and procedures, including documentation standards

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.
REQUIRED SKILLS AND KNOWLEDGE

These include the ability to:

- Interpret organisation, contractual and legislative requirements as they relate to employment planning
- Demonstrate application of skills, including:
  - communication skills to involve and engage a client in the employment planning process and provide constructive feedback and support
  - research skills to maintain currency of information
  - technology skills to use information systems
  - skills to access and provide appropriate support to client

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting or the inclusion of assessment tasks that are realistic and relevant to work in an employment services area
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people

Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Employment plan may include, but is not limited to:

- Intensive assistance activity agreements
- Intensive assistance support plans
- Job search skills plan
- Client action plans
- Return to work plans
- Client activity plans
- Plans of the support and assistance to be provided to the client by the organisation

Job search activities may include, but are not limited to:

- Registration with employment agencies
- Work experience/trial work placements
- Job search activities
- Job search training
- Voluntary work
- Participation in the community
- Training to address barriers to employment
- Researching labour markets or training options appropriate to their needs

Relevant legislation may include, but is not limited to:

- Social Security Act, including mutual obligation provisions
- Disability Services Act
- Privacy Act
RANGE STATEMENT

Monitor may include, but is not limited to:

- Monitoring against timeframes, outcomes and activities included in the employment plan
- Regular contact with client via mail, telephone, email and interviews
- Checking of relevant documentation
- Job search diaries and other proformas recording details of activities undertaken
- Checking of organisation information systems and databases
- Feedback from employers and providers of training and other assistance

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Contractual requirements
- Organisation policies and procedures pertaining to contract compliance
- Relevant legislation
- The principles of anti-discrimination, duty of care, ethical behaviour, natural justice
- Implications for organisation and self of non compliance with contractual requirements
- Performance monitoring process
- Audit processes
- Continuous improvement processes

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding of the relevance of key contractual requirements to own role and responsibilities, and those of the work group
- Monitor compliance with the contract via a range of appropriate methods
- Adjust plans, processes and procedures to improve performance against key contractual requirements
- Demonstrate understanding of government audit processes and requirements

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills, including:
REQUIRED SKILLS AND KNOWLEDGE

- research skills to access information on government contract
- analytical skills to analyse performance against contractual requirements and identify areas for improvement
- problem solving skills to identify strategies to improve contractual compliance
- planning skills to plan for improved contractual compliance performance
- written communication skills (literacy competence) to prepare contractually compliant documentation and reports
- oral communication skills (language competence) to convey contractual information and work with colleagues to improve delivery of contractually compliant services
- technology skills to use business equipment and software

- Evidence must include observation of performance in the work environment or in a simulated work setting or the inclusion of assessment tasks that are realistic and relevant to work in an employment services area
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace

Method of assessment may include:

- Observations
- Questioning
- Case studies
- Skills tasks
- Written assignments
- Evidence gathered from the workplace environment
- Third party reports
- Demonstration over a period of time to ensure consistency of performance
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Government includes:**
- Federal
- State
- Local

**Contract includes, but is not limited to:**
- Contracts to deliver employment services entered into with government
RANGE STATEMENT

Contractual requirements include, but are not limited to:

- Types of contracted services/ business streams
- Service delivery methods
- Standards for documentation/ record-keeping and for management of information
- Performance requirements (quantitative and qualitative), performance milestones
- Performance analysis methods, including audit processes
- Legislation relevant to delivery of employment services
- Codes of practice
- Duty of care provisions
- Conflicts of interest
- Fees, payment processes and schedules; payable and non payable outcomes
- Fraud prevention measures
- Contract dispute processes
- Penalties and implications of non-compliance with contractual requirements

Relevant legislation relates to, but is not limited to:

- Privacy Act
- Trade Practices Act
- Social Security Act
- Disability Services Act
- Employment Agents Act
- Federal legislation that addresses discrimination, e.g. Disability Discrimination Act, Race Discrimination Act, Sex Discrimination Act
- State legislation relating to Anti-Discrimination
- Financial Management and Accountability Act
- Crimes Act
- Corporations law
- Archives Act
- Freedom of Information
- Workplace Relations Act
- Human Rights and Equal Opportunity Commission Act
- Occupational health and safety
- State legislation relating to child protection
RANGE STATEMENT

Monitoring mechanisms may include, but are not limited to:

- Records and reports of work achievements against performance standards and measures
- Internal audit processes
- Regularly scheduled statistical monitoring of performance using organisation information systems
- Random checking of files and other documentation, both hard copy and electronic
- Customer surveys/ follow up
- Complaint registers

Follow up action to address performance shortfalls may include, but are not limited to:

- Strategies in accordance with work group business and performance improvement plans
- Quality and continuous improvement processes of the organisation
- Skill and knowledge development of individuals and groups
- Process improvement strategies
- Clarification of roles and performance expectations relating to individuals and groups
- Team effectiveness improvement measures
- Communication improvement strategies

Government audit requirements may include access to the following, but are not limited to:

- Case files, hard copy and electronic
- Client and employer records of all types
- Complaints register and policy
- Client feedback processes
- Information on record management
- Details of assistance provided to clients and employer
- Claim records
- Fraud prevention processes

</thead>
</table>
| 1. Plan the client's job search activities | 1.1 Identify, with the client, suitable occupations, industries and locations for job search, taking into account their individual circumstances  
1.2 Complete an action plan with the client, including strategies to approach the market and any support requirements |
| 2. Develop the client's job search skills and resources | 2.1 Assess client's current job search skills and resources to identify areas for development and improvement  
2.2 Complete a job search skills development plan with the client, targeting identified areas  
2.3 Improve client's job search skills and resources through formal and informal development activities |
3. Monitor job search strategy and skills development

3.1 Regularly review client's job search strategies and job search skills and resources to identify areas for further action and improvement

3.2 Regularly review effectiveness of support provided to the client to ensure appropriate support is maintained
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:
- Local labour market conditions and employment opportunities
- Job search strategies
- Relevant organisation policies
- Legislation that impacts on employment
- Information resources available to people seeking employment

Essential skills:
It is critical that the candidate demonstrate the ability to:
- Use research skills to maintain currency of information
- Apply current knowledge of the local labour market
- Collect relevant information to determine appropriate areas of the labour market for the client to target for marketing
- Apply appropriate tools and resources to support and assist the client in their job search
- Demonstrate and impart knowledge about job search strategies
- Work collaboratively with the client

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting or the inclusion of assessment tasks that are realistic and relevant to work in an employment services area

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- This unit is related to
  - CHCES303B Use labour market knowledge; and
  - CHCES401B Analyse and apply labour market information
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment may include:

- Observations
- Questioning
- Case studies
- Skills tasks
- Written assignments
- Evidence gathered from the workplace environment
- Third party reports
- Demonstration over a period of time to ensure consistency of performance

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Support and assistance to the client may include:

- Access to and support to use computers and other facilities provided by the organisation
- Coaching
- Mentoring
- Provision of information on accessing appropriate services and resources
- Training
RANGE STATEMENT

Information provided may take the form of:

- Labour market information
- Printed or published resources including training materials, newsletters/circulars, leaflets/brochures, publications
- Video and AV presentations
- Job search information available through the internet
- Government vacancy databases and vacancy notification systems

Modes of communication may include:

- Communication via email, phone, mail or other means
- Group training courses or workshops
- Individual or group information sessions
- IT system-based communication
- One-on-one interviews and training sessions

Job search strategies may include:

- Preparation, review and/or revision of a resume or equivalent document
- Advice, coaching or other assistance relating to
  - strategies to locate suitable jobs
  - education and training prerequisites for employment
  - preparation of job applications
  - methods to apply for jobs
  - marketing to employers
  - job interviews
  - interview follow up

Organisation procedures may include:

- Contractual requirements for information and record-keeping
- Measures to protect client confidentiality
- Explanation to client of service standards and rights
- Explanation of complaints process
RANGE STATEMENT

Client may include:

- Any person seeking the assistance of the organisation to gain suitable employment, who may include:
  - clients of government-funded employment programs and services
  - referred and self-referred clients
  - young people
  - mature age people
  - people from culturally and linguistically diverse backgrounds
  - indigenous people
  - people with disabilities
  - sole parents or carers returning to work

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- The composition and working of labour markets
- Understanding of characteristics and issues relating to labour markets on a national, state and local level
- Current and projected skills shortages
- Knowledge of workplace relations issues and legislation and awards

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Research labour market data relevant to business operations and priorities
- Analyse labour market information to determine opportunities and threats to current and future delivery of services and to identify target markets that meet specified criteria
- Apply knowledge of labour market information to planning and performance management

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills, including:
  - literacy and numeracy skills to research a variety of texts and statistical information; prepare reports based on labour market information and to enter the information into organisation’s information systems
  - planning skills to organise information; set goals and targets; and plan and review activities and the allocation of resources
REQUIRED SKILLS AND KNOWLEDGE

- problem solving skills including an ability to analyse information and deal with ambiguous information
- oral and written communication skills to provide and elicit advice and information effectively
- technology skills to use business equipment and software safely and effectively in line with work health and safety (WHS) guidelines

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace

Method of assessment may include:

- Observations
- Questioning
- Project
- Written assignment
- Evidence gathered from the workplace environment
- Demonstration over a period of time to ensure consistency of performance

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Labour market may be defined by, but is not limited to:

- Geographic location
- Client demographics
- Industry and industry sectors
- Occupation
- Seasonal factors
- Agricultural crops

Labour market information includes, but is not limited to:

- Information regarding industries and industry sectors (e.g. workforce size, recruitment methods, conditions of employment, prospects for growth/reduction in labour force)
- Information regarding occupations (e.g. prospects of employment, type of work undertaken, workforce size, hiring methods, conditions of employment, employer expectations of workers)
- Labour market trends
- Peak and trough periods in demand for labour/seasonality
- Areas of high employment and unemployment
- Current labour market conditions
- Business and economic forecasts
- Emerging labour market developments
- Industrial framework
- Services, products, business levels of competitors
- Other distinguishing characteristics
RANGE STATEMENT

Information sources include, but are not limited to:

- Information available within the organisation
- Publications, industry journals, articles
- Internet websites
- Telephone directories
- Commercial databases of information relating to businesses and industries
- Australian Bureau of Statistics
- Federal and State government departments and agencies
- Workplace Agreements; information on Federal and State awards
- Visits to workplaces
- Business cards
- Professional associations
- Industry Associations
- Employee Associations
- Chambers of Commerce
- Grower associations
- Newspapers e.g. recruitment advertisements and articles
- Community organisations
- University and other research facilities

Appropriate research methods may include, but are not limited to:

- Use of internet
- Surveys
- Client interviews
- Focus groups
- Individual research
- Questioning during marketing and networking activities
- Use of libraries
- Publications
- Attendance at meetings
- Networking
- Workplace visits
- Communication with colleagues and experts
RANGE STATEMENT

Current and emerging labour market characteristics may refer to, but are not limited to:

- Volunteer workforce
- Casualisation of workforce
- Length of average working hours
- Contract employment
- Portability of skills
- Globalisation
- Impact of technology
- Lifelong learning
- Changing face of core skills
- Core vocational skills gained while at school
- Ageing population
- Transitional labour market programs

Criteria to identify target markets include, but are not limited to:

- Match of occupations represented with those registered with the organisation
- Industry growth
- Workforce size
- Staff turnover levels
- Potential to employ people with barriers to employment
- Location
- Hiring processes and patterns
- Internal human resource management capability of specific employers
- Use of competitors' services and products
- Accessibility (e.g., public transport) of specific employers or geographic areas
- Capability of the organisation to service the account
RANGE STATEMENT

Opportunities and impacts may result from, but are not limited to:

- Openings/closures of large employers
- Retrenchments
- Changes in hiring processes and patterns
- Emergence of new industry sectors
- Development of geographic sites, e.g. industrial estates, retail precincts
- Expansion/changes in transport services
- Changes in availability and skill levels of workers
- Changes in government policy
- Emergence of competitors or changes to competitor products and services

Report on labour market information may utilise the following, but is not limited to:

- Tables and charts
- Software applications
- Reports, written and verbal
- Hard copy files
- Presentations

Organisation policies and processes may include:

- Recording of information against client and employer files and database records
- Use of contact management systems for employers
- Use of labour market information in business and strategic planning
- Preparation of regular reports on labour market intelligence and information

Planning includes, but is not limited to:

- Business plans and forecasting
- Resource usage plans
- Promotional plans
- Sales plans
- Marketing plans
- Contact/ account management plans for employers
RANGE STATEMENT

Performance management uses of labour market information include, but are not limited to:

- As a context and aid in setting and reviewing performance targets of individuals and work groups
- As a factor impacting upon the achievement of performance outcomes by individuals and work groups
- As an indicator of the need to reallocate resources

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Contractual requirements
- Organisation policies and procedures pertaining to contract compliance
- Relevant legislation
- Implications for organisation and self of non compliance with contractual requirements
- Performance monitoring and quality assurance processes and benchmarking
- Risk assessment and management
- Audit processes
- Continuous improvement processes

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding of the needs of government stakeholders and can identify strategies to establish and maintain cooperative working relationships
- Demonstrate understanding of the relevance of key contractual business performance and service quality requirements to own role and responsibilities, and those of the work group
- Manage compliance with these contract requirements via a range of appropriate methods, including the development of service standards, and regularly obtaining stakeholder feedback
- Adjust plans, processes and work practices to improve performance against key contractual requirements
- Resolve complaints and issues to the satisfaction of stakeholders, including dealing with challenging behaviours
REQUIRED SKILLS AND KNOWLEDGE

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills, including:
  - research skills to access information on government contract
  - analytical skills to analyse performance against contractual requirements and identify areas for improvement
  - problem solving skills to identify strategies to improve contractual compliance
  - planning skills to plan for improved contractual compliance performance
  - written communication skills to prepare contractually compliant documentation and reports
  - oral communication skills to convey contractual information and work with colleagues to improve delivery of contractually compliant services
  - technology skills to use business equipment and software

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting or the inclusion of assessment tasks that are realistic and relevant to work in an employment services area.
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
  - equipment and resources normally used in the workplace

Method of assessment may include:
- Observations
- Questioning
- Case studies
- Skills tasks
- Written assignments
- Evidence gathered from the workplace environment
- Third party reports
- Demonstration over a period of time to ensure consistency of performance
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Government includes:

- Federal
- State
- Local

Cooperative working arrangements may include, but are not limited to:

- Regular liaison with government on a range of contractual issues
- Cooperative resolution of any issues relating to contract
- Attendance at meetings of providers arranged by government purchaser and/or central agency
- Involvement in and contribution to surveys and studies arranged by government

Contract includes, but is not limited to:

- Contracts to deliver employment services entered into with government
RANGE STATEMENT

Contractual requirements include, but are not limited to:

- Types of contracted services/business streams
- Service delivery methods
- Standards for documentation/record-keeping and for management of information
- Performance requirements (quantitative and qualitative), performance milestones
- Performance analysis methods, including audit processes
- Legislation relevant to delivery of employment services
- Codes of practice
- Duty of Care provisions
- Conflicts of interest
- Fees, payment processes and schedules; payable and non payable outcomes
- Fraud prevention measures
- Contract dispute processes
- Penalties and implications of non-compliance with contractual requirements

Key business performance requirements may include, but are not limited to:

- Any key performance indicators (KPIs) contained in a contract that may relate to specific contacted services; specific client groups and/or may relate to quality of service delivery
- Percentages/numbers of outcomes achieved against contracted number of outcomes as at contract milestone dates
- Percentages/numbers of outcomes achieved for particular client groups (e.g. people unemployed for extended periods or those facing particular barriers)
- Percentages/numbers of outcomes where employment is sustained for a certain period
RANGE STATEMENT

Measurement of target achievement may include mechanisms such as:

- Records and reports of work achievements against performance standards and measures
- Internal audit processes
- Regularly scheduled statistical monitoring of performance using organisation information systems
- Random checking of files and other documentation, both hard copy and electronic

Action to resolve performance related issues can include, but is not limited to:

- Strategies in accordance with business and performance improvement plans
- Quality and continuous improvement processes of the organisation
- Skill and knowledge development of individuals and groups
- Process improvement strategies
- Reallocation of resources
- Clarification of roles and performance expectations relating to individuals and groups
- Team effectiveness improvement measures
- Communication improvement strategies
RANGE STATEMENT

Legislation relates to, but is not limited to:

- Privacy Act
- Trade Practices Act
- Social Security Act
- Disability Services Act
- Employment Agents Act
- Federal legislation that addresses discrimination, e.g. Disability Discrimination Act, Race Discrimination Act, Sex Discrimination Act
- State legislation relating to Anti-Discrimination
- Financial Management and Accountability Act
- Crimes Act
- Corporations law
- Archives Act
- Freedom of Information
- Workplace Relations Act
- Human Rights and Equal Opportunity Commission Act
- Work health and safety (WHS)
- State legislation relating to child protection

Key stakeholders are organisations and individuals, who may include, but are not limited to:

- Clients (i.e. job-seekers and employers)
- Organisations providing services under a government contract
- Federal, State and Local government departments and agencies
- Area Consultative Committees
- Community organisations
- Providers of complementary services and programs
- Boards of Management
- Peak bodies
- Industry associations
- Employee associations
RANGE STATEMENT

Service quality standards may relate to, but are not limited to:
- Customer service standards referring to key interaction points
- Documentation standards
- Data input
- Records management
- Complaint handling
- Confidentiality
- Standards may be written or oral

Client and employer satisfaction surveys may relate to, but are not limited to:
- Formal or informal surveys
- Those conducted by own organisation or by external experts
- Written or verbal surveys

Ethical standards may relate to, but are not limited to:
- Standards that are written or oral, stated or implied by the way the organisation conducts its business
- Avoidance of conflicts of interest
- Confidentiality of information
- Professional relationships

Reports on levels of contractual compliance may relate to, but are not limited to:
- Reports on incidents and resultant action following complaints made direct to government purchaser
- Reports to organisation on potential and real incidences of non compliance, with details of follow up action taken and results

</table>
| 1. Work within the context of relationship education | 1.1 Identify the *relevant issues which can impact on clients and their relationships*  
1.2 Apply *current theoretical frameworks, models and tools of relationship education*  
1.3 Identify *specific issues relevant to working in relationship education* and use appropriate strategies to address these issues  
1.4 Work effectively with people from diverse *family structures* and backgrounds and with diverse *cultural, religious, community and familial obligations* |
ELEMENT  

2. Work with clients to identify their interpersonal relationship needs

   2.1 Assist clients to identify positive elements of their interpersonal relationships and relationship systems

   2.2 Assist clients to identify their potential barriers to positive interpersonal relationships and relationship systems and understand key issues for change within their interpersonal relationships

   2.3 Assist clients to recognise the impact of both negative and positive emotions on relationships

   2.4 Assist clients to clarify the complexity of interpersonal relationship dynamics and issues impacting their interpersonal relationships

3. Work with the client to identify strategies to address relationship education needs

   3.1 Identify appropriate services to assist clients to develop their interpersonal relationships

   3.2 Recognise and respond to evidence of contra-indications for access to services

   3.3 Facilitate client access to services in accordance with organisation policy and procedures and within legislative requirements

   3.4 Make referrals to appropriate organisations to address client needs in accordance with organisation policy, procedures and requirements

   3.5 Monitor and review effectiveness of strategies in addressing client needs and follow up as required

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and
REQUIRED SKILLS AND KNOWLEDGE

manage contingencies in the context of the identified work role

These include knowledge of:

- Relevant issues which can impact on clients and their relationships
- How personal issues and problems such as alcoholism, gambling, mental health and other issues can potentially impact on the health and development of marriages, families and relationships
- Current theoretical frameworks, models and tools of relationship education practice
- Awareness of different theories regarding development of male and female identity, gender and potential impact of gender, roles and stereotyping on individuals and personal relationships
- Models to explain power issues in relationships and relationship systems as well as to understand and inform responses to abuse and conflict in relationships
- The nature of domestic and family violence including key indicators, effects and appropriate responses to ensure the safety of self, clients, their families, colleagues and others within appropriate cultural contexts
- Understanding of the development and importance of self-esteem
- Elements which contribute to healthy, effective and lasting relationships
- Dynamics of couples, parenting and parenting roles, stages of life-cycle and relationship cycles
- The importance of primary attachments in the lives of children
- Aspects of loss and phases of grief including the range of responses to loss and grief and potential impacts of these on relationships
- Models of conflict resolution and mediation
- Diversity of family structures and cultural, religious, community and familial obligations inherent in diverse family structures and backgrounds and the impact these can have on interpersonal relationships

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Model effective, respectful and inclusive communication skills including listening, empathic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity
- Give and receive constructive feedback in a sensitive way
- Work as part of a team, including multi-disciplinary professional groups
- Deal with conflict in an open and assertive manner
- Be aware and responsive to diverse groups of people who may challenge educator’s values and beliefs
- Deal with unexpected (and sometimes inappropriate) reactions and input from clients
- Deal effectively with resistance in for example mandated clients or where one member of a couple or family is a reluctant client
REQUIRED SKILLS AND KNOWLEDGE

- Regulate and respond to strong emotions in self and clients
- Maintain appropriate levels of confidentiality
- Work with people of different learning abilities, numeracy, literacy and education levels
- Empower and support clients who are experiencing difficulties as they make decisions and seek help
- Engage with and facilitate the relational/emotional system in couples and families in order to bring about positive change
- Employ appropriate models to assess and plan interventions to positively influence family functioning
- Deliver interventions in a way that works inclusively with the whole client, considering the full range of possible influences in their lives including personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues and the interplay and dynamics of each of these
  This includes the ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual

continued ...

Essential skills (contd):

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Recognise the diversity of family structures and cultural, religious, community and familial obligations inherent in diverse family structures and backgrounds and the impact these can have on interpersonal relationships and work effectively with people from these diverse backgrounds
- Articulate rationale for interventions related to program and relationship goals, plans, assessment, information and systemic understanding of clients context and dynamics in the context of relevant and current theoretical frameworks, models and tools for relationship education practice
- Conceptualise and hypothesise about complex interpersonal interactions for example power in relationships, abuse and conflict
- Apply knowledge of relationships and relationship education to work practice including the design, implementation and evaluation of relationship education programs

Evidence Guide
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills and application of this to engaging and resourcing clients to improve their interpersonal relationships
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to appropriately apply knowledge of relationship issues, theoretical frameworks and models of working in the area of relationship education when working with clients

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in the ability to engage and resource clients to improve their interpersonal relationships
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role
EVIDENCE GUIDE

Related units: This unit is to be assessed in conjunction with the following related unit of competency:

- CHCFAM407B Work effectively in relationship work

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Relevant issues which can impact on clients and their relationships may include but are not limited to:

- Individual/personal issues:
  - work/life balance
  - disability
  - beliefs, values, experiences, self-esteem
  - grief and loss
  - aloneness and isolation
  - aging
- Health and lifestyle:
  - alcohol and other drugs dependencies
  - gambling
  - mental health including depression, suicide/self-harm tendencies, bipolar, anxiety, post traumatic stress disorder
  - illness (acute or chronic)
  - trauma
- Couple issues:
  - sexuality, intimacy, trust, respect, love
  - affairs
  - separation, repartnering
  - same sex couples
  - infertility
  - power and control within relationships
  - domestic and family violence and abuse
  - conflict
  - finances and financial and budgeting decisions
  - recognition and acceptance of difference
- Family issues and themes and legacies:
  - parenting and transitions from partners to parents
  - attachment
  - breast feeding and early parenting
  - developmental delays in children
  - roles of father and mothers in children's lives
  - building resilience in children
  - step-parenting and blended families
  - influences of extended family and friends
  - parenting in same sex relationships
  - effects on children of any and all issues impacting on couple and family
RANGE STATEMENT

- Family of origin and multigenerational issues:
  - grandparenting when parent’s relationship breaks down
  - childhood abuse
  - alcoholism

*continued...*

**Relevant issues which can impact on clients and their relationships may include but are not limited to:**

(contd)

- Domestic and family violence, child abuse
- Family life-stage transitions and relationship life-cycles:
  - courting/dating
  - cohabitating, engagement, marriage
  - birth of first and subsequent child/children
  - aging
  - death of parent/partner
  - retirement
  - caring issues
  - children growing up, leaving home
  - older children remaining at home
  - becoming grandparents
  - separation/divorce

- Diversity (either within the family or between the family and wider community) as a result of:
  - culture
  - religion
  - gender including role development, affect of gender stereotyping
  - language
  - education, literacy, numeracy

- Socioeconomic and political issues:
  - access to goods and services
  - poverty

- Critical societal events
RANGE STATEMENT

Current theoretical frameworks, models and tools of relationship education may include:

- Examples of some theoretical frameworks are:
  - family systems theory
  - attachment theory
  - affect regulation
  - feminist theory
  - structural family therapy
  - family life-cycle theory
- Examples of models for working with families are:
  - theories of change, e.g. Prochaska Diclemente
  - building strengths
  - solutions
  - social learning theory
  - educational
  - behavioural
  - family partnership
- Examples of tools are:
  - change triangle
  - genograms
  - family and couple map
  - Johari window
  - FACES/MACES
  - MYERSBRIGGS

Specific issues relevant to working relationship education may include:

- Working in relationship education in non-conventional forms, structures and contexts
- Working in rural service delivery settings with related issues such as additional complexities regarding practitioner's role in community, confidentiality, resources, dynamics between service users who may be known to each other, and dynamics between service users and practitioners
- Working in dedicated relationship early intervention and/or prevention programs or in programs where aspects of relationship work is embedded
- Working with individuals, couples, families either individually or in various groups
RANGE STATEMENT

Family structures may include but are not limited to:
- Step families/blended families
- Adoptive families
- Foster families
- Chosen families (where people elect to live with people other than their nuclear family for example with the nuclear family of a friend)
- Same-sex parents/couples
- Nuclear families
- Extended families/multigenerational
- Single parent families

Cultural, religious, community and familial obligations may include:
- Gender entitlements or roles
- Immediate family
- Extended family
- Step family
- Financial, social, emotional or support obligations
- Celebrations
- Economic support
- Religious participation
- Domestic support
- Co-habitation and/or co-location
- Specified work and support
- Maintenance of language and cultural practices
- Carer responsibilities

Positive elements of interpersonal relationships and relationship systems may include but are not limited to:
- Trust
- Respect
- Open and honest communication
- Balance between needs of each person in the relationship and the needs of the relationship
- Clear boundaries and responsibilities
- Love
- Expectations of the relationship are met over time
- Fluid and able to change, grow and adapt to changes through life changes
RANGE STATEMENT

**Key issues for change may include:**

- The application of generic theories and models of change, e.g. Theory of change (Prochaska Diclemente)
- The application of models and theories of engagement and empowerment

**Contra-indications for access to services may include but are not limited to:**

- Where there is evidence of family domestic violence and or abuse
- Where there is evidence the relationship is very troubled and that it may benefit more appropriately from counselling
- Where literacy levels are too low
- Where there is evidence of severe mental illness

**Follow up may include:**

- Evaluating client progress toward identified goals
- Ensuring client needs have been met and to provide additional referral where required

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Work within bounds of professional practice | 1.1 Identify service and professional boundaries of practice  
1.2 Demonstrate understanding of differences between education, counselling and therapeutic practice  
1.3 Operate within boundaries of professional practice and refer appropriately to internal and external resources where required |
| 2. Apply self-awareness to work practice | 2.1 Demonstrate awareness of personal values and attitudes regarding relationship work and own these without imposing them on clients or groups when planning and implementing work with clients  
2.2 Demonstrate self-reflection and application of learning from self-reflection when planning and implementing work with clients  
2.3 Work inclusively and ethically and in accordance with access and equity principles  
2.4 Monitor impact of work practice on own health and well being and seek support as required |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 3. Receive supervision | 3.1 Demonstrate an understanding of the *role and importance of supervision* including the roles and responsibilities within the supervision relationship  
3.2 Negotiate aims/ outcomes of *supervision* and approach supervision in a planned and prepared way  
3.3 *Reflect on own practice* and recognise own strengths and challenges  
3.4 Apply learning from supervision to work practice  
3.5 Access supervision to provide practice support in *situations of risk or potential risk* to self, clients, their families, colleagues or others |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Knowledge and application of ethical behaviour and principles of equity and access
- Knowledge of legal parameters for working with service users experiencing sexual, physical and emotional abuse, and/or mental health issues
- Limitations and boundaries of educator role within the context of their responsibilities within an agency/organisation
- Agency/organisation standards and procedures in relation to referral and dealing with specific relationship issues
- Appropriate sources or referrals and ways in which these can be accessed
- Organisation policy and procedures
- Self-awareness in regard to how own experience, biases, values and beliefs or those of significant others in own life may impact on ability to work effectively with various client groups
- Roles and responsibilities within the supervision process

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Model effective, respectful and inclusive communication skills including listening, empathetic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity
- Work as part of a team, including multi-disciplinary professional groups
- Give and receive critical and constructive feedback in a sensitive way
- Deal with conflict in an open, assertive and appropriate manner
- Managing positive and negative emotions in self and service users
- Work in an ethical, empathic and sensitive manner with people from diverse cultural, linguistic and religious backgrounds
REQUIRED SKILLS AND KNOWLEDGE

- Work with people with different learning abilities, numeracy, literacy and education levels
- Be aware and responsive to diverse groups of people who may challenge practitioner's values and beliefs
- Maintain appropriate levels of confidentiality
- Reflect on one's own personal growth, relationships, values, beliefs, biases and experiences and apply a reflective practice framework
- Use one's own relating and social style in a professionally constructive way
- Set and maintain appropriate boundaries, manage issues of triangulation, and develop collaborative working relationships
- Manage one's and others' expectations of self and program and work within program boundaries
- Monitor self and capabilities to minimise the negative impact of work on own personal health and well being

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working effectively in relationship work through working within professional bounds of practice, demonstrating reflective practice and participating in supervision as the supervisee.
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance.
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect, and supplementary forms of evidence.
- Assessment must confirm sufficient ability to work effectively in relationship work.

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical, and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through the demonstration of working within own bounds of professional practice, participation in supervision as a supervisee, and the application of knowledge and skills developed through reflective practice
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

- The assessment environment should not disadvantage the candidate.
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English.
- Where the candidate has a disability, reasonable adjustment may be applied during assessment.
- Language and literacy demands of the assessment task should not be higher than those of the work role

Related units:

This unit is to be assessed in conjunction with the following related unit of competency:

- CHCFAM406B Engage and resource clients to improve their interpersonal relationships
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Professional boundaries of practice must include:

- Working within an educational context and not in a counselling or therapeutic context
- Recognition of own limitations and expertise and remaining within these
- Referring appropriately where issues are beyond the scope of own professional training and experience
- Effectively monitoring the impact of work practice on own health and well being
- Using support supervision effectively
RANGE STATEMENT

*Internal and external resources to whom service users may be referred may include:*

- Other professionals within own service
- Other programs offered by own or other services
- Self-help/support groups
- Counselling services
- Alcohol and other drug services
- Gambling assistance
- Mental health support services
- Domestic and family violence prevention and treatment services
- Financial assistance and counselling services
- Child Support Agency
- Family Magistrate Service
- Centrelink/Family Assistance Office
- Mediation centres
- Australian Taxation Office
- Family Court of Australia
- Phone support services, e.g. Mensline/Lifeline
- Family Relationship Centres
- Other agencies providing support and counselling
- Websites for example MENDS and Parenting Children
- Stepfamily Association of Australia

*Without imposing them on clients or groups must include:*

- Sensitively give and receive constructive feedback
- Effectively accommodating views, values and beliefs different to own and sensitively challenge where appropriate
- Effective use of appropriate self-disclosures
RANGE STATEMENT

Self-reflection may include:

- Collection, collation and review of feedback from various sources including from clients, colleagues and supervisor
- Reflection on feedback to identify strengths and areas of practice where development and change are required
- Planning and implementing strategies to create opportunities for development and change in work practice
- Application of new learning and skill development into work practice
- Ongoing reflection and review of work practice

Role and importance of supervision must include:

- Ensuring responsibilities of clinical governance are met as part of the supervision process
- Ensure all legislative and organisation requirements are met in relation to the provision of supervision

Supervision and reflect on own practice may include but is not limited to:

- Formal and/or informal supervision sessions
- Group supervision
- Telephone supervision
- Peer appraisals (where appropriate levels of experience exist)
- Internal or external supervision
- Journals
- Video tapes of facilitation of groups
- Co-facilitation and reports from these
- Reflecting on practice
- Negotiation of supervision between the supervisor and the supervisee
- Establishment and shared understanding of the roles and responsibilities of the supervision process
- Undertaken through the development of an appropriate professional relationship
- Involve the growth of the person, their professional development, gaining of knowledge, skills, attitudes for the further development of their professional practice
RANGE STATEMENT

*Situations of risk or potential risk may include:*

- Self-harm or suicide
- Self-destructive behaviour
- Domestic and family violence
- Abuse

ELEMENT

2. Build and maintain networks with persons within own and with other organisations, referral sources and the broader community

PERFORMANCE CRITERIA

2.1 Establish and maintain communication with relevant personnel in other organisations and within the community

2.2 Share information about other agencies and organisations with co-workers and clients in an ethical manner

2.3 Seek and utilise opportunities for collaboration with other agencies/organisations

2.4 Establish contact with other potential sources of client referral to ensure they have up-to-date information on programs provided by the agency/organisation

2.5 Demonstrate sensitivity to issues of confidentiality in all aspects of work, including when engaged in contact with referral base

3. Work collaboratively within teams

3.1 Identify goals and tasks of the team

3.2 Provide constructive and timely feedback to other team members

3.3 Contribute to activities associated with the goals/tasks of the team

3.4 Share information and ideas with other team members in a manner which supports the work of the team and the mission/goals of the agency/organisation

4. Collect, store, maintain and report on organisation information

4.1 Collect, collate and store information in accordance with organisation requirements

4.2 Report information in accordance with organisation requirements

4.3 Provide access to information to appropriate individuals and organisations

4.4 Report breaches of confidentiality in accordance with organisation and legislative requirements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Basic understanding of the current issues which impact on the sector
- Own agency/organisation's history, mission, goals, philosophy and policies and own role in relation to these
- The role and function of other agencies in relation to own agency
- Own and other agencies'/organisations' service activities
- Basic understanding of the relevant legal statutes and legislative requirements, e.g. Marriage Act, Family Law Act, Church Law, domestic and family violence legislation, Professional Codes of Ethics, Freedom of Information Act
- Own administration policies and procedures
- Data collection, collation and reporting requirements
- Taking and maintaining case notes
- Referral procedures for own and other agencies
- Appropriate contacts within other agencies and programs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Work collaboratively and effectively with diverse groups of professional colleagues including working effectively as part of a team
- Model effective, respectful and inclusive communication skills including listening, empathic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity
- Work effectively within own role within an agency/organisation context and within the program bounds
- Apply high standards of confidentiality to all work
- Work with empathy in a sensitive and non-judgemental way
REQUIRED SKILLS AND KNOWLEDGE

- Deal with conflict in an open, assertive and appropriate manner
- Collect and store organisation information
- Report on organisation and program activities and outcomes

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills and application of this to work practice
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to work effectively in relationship and family work within an agency and the sector
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in the ability to work effectively within an agency and within the relationship sector
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Related units:

This unit is to be assessed after or in conjunction with the following related units of competency:

- CHCFAM406B Engage and resource clients to improve their interpersonal relationships
- CHCFAM407B Work effectively in relationship work
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Current issues which impact on the sector may include but are not limited to:

- Funding structures, models and constraints
- Interagency collaboration
- Community capacity building approaches
- Emerging societal trends
- Changes to relevant legislation
- Current and emerging theoretical frameworks and models of working

Organisation’s programs, may include:

- Dedicated relationship education programs
- Embedded programs addressing broader issues and containing elements of relationship and personal development
- Programs targeting specific client groups
- Programs targeting specific issues within the community or issues for specific client groups
- One off programs
- Extended programs over many weeks or months
RANGE STATEMENT

Program objectives may include:
- Provision of information
- Skill development
- Behavioural change
- Enhancement of interpersonal relationships
- Affective
- Cognitive
- Psychomotor
- A combination of any or all of these objectives

Key client groups may include:
- Women/mothers
- Men/fathers
- Couples
- Families
- Adolescents
- People from diverse backgrounds including those from culturally, linguistically, religiously, and learning ability different backgrounds

Requirements and standards may include:
- Organisation requirements
- Accepted ethical standards
- Legislative and duty of care requirements including fulfilling specific obligations in relation to completing mandatory training in issues relating to child abuse and domestic and family violence
- Organisation's policies and procedures
- Organisation or professional codes of conduct and ethical practice
- Organisation's mission and goals

Potential sources of client referral may include:
- Clergy, civil marriage celebrants
- Other providers of marriage, family and relationship service activities
- Organisations and other government authorities, e.g. Family Law Court, hospitals, schools
RANGE STATEMENT

Information may include:

- Case notes for service users
- Statistics and information on use of service and profiles of service users
- Evaluations from programs
- Programs resources, promotion material
- Data requirements for reporting to funders

Unit Sector(s)

Not Applicable
CHCFAM409B Work with men

Modification History
Not Applicable

Unit Descriptor
Unit Descriptor
This unit of competency describes the skills and knowledge required to work with men in a group setting to facilitate education, skill and knowledge development and support processes.

Application of the Unit
Application
This unit of competency applies to practitioners working in the relationship education sector.

The actual setting for the skill and knowledge development could be an activity based program targeting men and the education and support outcomes may be a bi-product of the activity.

It applies to the facilitation of a men's group designed to educate and support men in a range of issues such as parenting, separation, communication.

It is based upon principles of group work facilitation but may also take an activity based approach and incorporates a gender specific application that is specifically working with men.

| 1. Describe issues facing men in today's society | 1.1 Demonstrate understanding of the range of theoretical frameworks that can be used to consider men's and father's roles  
1.2 Describe how the community and society views men's roles, the influences on the changes to men's roles over time and the implications of these changes  
1.3 Identify specific needs and characteristics of men/fatherhood and women/motherhood  
1.4 Identify issues relating to men and women  
1.5 Identify support services, networks and sources of additional information available to target group  
1.6 Identify influences of socialisation on men's communication and behaviour |
ELEMENT | PERFORMANCE CRITERIA
--- | ---
2. Engage men's participation | 2.1 Actively engage men from a range of backgrounds in group and program processes  
2.2 Identify barriers to men's participation in programs or activities and address where possible  
2.3 Identify individual strengths and challenges of group participants  
2.4 Identify and apply appropriate behaviour, ways of being, group rules, ways of communicating for men's groups  
2.5 Encourage positive and effective communication and listening skills and model in all interactions  
2.6 Manage group processes to balance individual and group needs to maintain group focus  
2.7 Facilitate the development of support mechanisms between participants to encourage shared learning and networks

3. Identify and address presenting issues | 3.1 Encourage men to identify issues affecting them or areas where they would like to pursue skill development or more information  
3.2 Identify issues and/or areas where men are seeking additional information, skills, strategies, tools which present in the group  
3.3 Demonstrate relevant knowledge of presenting issues or topics, particularly focusing on but not limited to male related perspectives  
3.4 Identify and implement strategies for addressing presenting issues  
3.5 Follow up on issues presented by participants
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include:

- Good understanding of and ability to articulate issues facing women and men today
- General understanding of a range of theoretical frameworks regarding men's roles, the inherent assumptions, strengths and weaknesses of these frameworks
- Understanding of positive fathering and step fathering models
- Knowledge of differences in communication styles, masculine and feminine world views and ways of being, gender stereo-types and impacts of these
- Good knowledge of models that explain the development and functioning of personal and family relationships
- Understanding of the diversity of family structure and the impact this can have on interpersonal relationships
- Information resources and relevant local services including networks and support systems available to men and fathers
- Characteristics of target group/s and strategies for engaging them
- Models to explain power issues in relationships and relationship systems as well as to understand and inform responses to abuse and conflict in relationships
- The nature of domestic and family violence including key indicators, effects, and appropriate responses to ensure the safety of self, clients, their families, colleagues and others within appropriate cultural contexts
- Principles and practice of conflict resolution
- Potential barriers to client groups' participation and achievement of desired outcomes
- Understanding of the development and importance of self-esteem
- Elements which contribute to healthy, effective and lasting relationships

Essential skills:
It is critical that the candidate demonstrate the ability to:
REQUIRED SKILLS AND KNOWLEDGE

- Engage men in group processes and discussions
- Apply group work skills including effective communication, coaching, mentoring, role playing, developing effective 'I' statements, reframing, in an all male context
- Facilitate opportunistic learning and link learning and skill development within the program to wider life experiences
- Facilitate links between participants and promote the development of a 'learning community' within participants in the group
- Work with men in a non-threatening way
- Model effective, respectful and inclusive communication skills including listening, empathetic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity when working with men and dealing with issues relevant to men
- Deal with unexpected (and sometimes inappropriate) reactions and input from participants
- Respond appropriately to strong emotions in self and clients
- Be aware and responsive to diverse groups of people who may challenge practitioner's values and beliefs
- Affirm and acknowledge participant experience including empathising with the experiences of men, normalising where appropriate and sensitively challenging where required
- Give and receive constructive feedback in a sensitive way
- Establish and maintain boundaries of practice with program participants
- Maintain appropriate levels of confidentiality
- Empower and support clients who are experiencing difficulties as they make decisions and seek help
- Monitor self and capabilities to minimise the negative impact of work on own personal health and well being

continued ...

Essential skills (contd):

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Work as part of a team, including multi-disciplinary professional groups and with a co-facilitator
- Effectively manage time
- Deal with conflict in an open, assertive and appropriate manner
- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
REQUIRED SKILLS AND KNOWLEDGE

- personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
- the interplay and dynamics of each of the above
- the ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working effectively with men
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to work effectively with men
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
- a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through working with men
  - realistic simulations, projects, previous relevant experience or oral questioning on ‘what if?’ scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Related units:

This unit is to be assessed after or in conjunction with the following related unit of competency:

- CHCGROUP403D Plan and conduct group activities

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

_Theoretical frameworks may include:_

- Recognition that masculinity and 'male role/s' varies between cultures, over time in a given culture and within a culture at any point in time
- In addition to the hegemonic or 'culturally authoritative' male role in any given culture at any given time, there can be a range of identifiable non-dominant forms
- Masculinity and the importance of masculinity to a sense of identity is as unique and varied as there are men
- A consideration of gender and power issues
- Theoretical frameworks which view the nature of men as fixed
- Theoretical frameworks which view the nature of men as dynamic, learned and changeable
- Attachment theory
- Family systems theory
- Feminist theory (and critiques of feminist theory)
- Family life-cycle theory
- Generative fatherhood
- Evolutionary psychology
- Neurobiology
- Recognition of the impact on identity that fatherhood can have on men
- Recognition of the roles fathers are assumed to have in children's lives
- Recognition that parenting is a practice and not a biological function
- Fathers may be:
  - birth fathers
  - step fathers
  - foster fathers
  - non-biological fathers
  - uncles
  - grandfathers
  - carers
RANGE STATEMENT

Influences on the changes to men's roles may include:

- Changes to work patterns
- Increased parenting responsibilities
- Where men become primary care givers through choice or circumstance
- Separated or single parenting
- Increased demands on relationships
- Expectations of children
- Social expectations
- Financial or job security
- Domestic responsibilities
- Step families
- Grandparents raising grandchildren

Issues relating to men and women may include:

- Feminist theory (and critiques of feminist theory)
- Gender and power issues
- Hierarchies of power
- Hegemonic masculinity and other masculinities and male identity
- Masculine and feminine codes of conduct
- Masculine and feminine communication styles
- Use of appropriate language including:
  - gender specific language
  - using positive terminology that builds on the strengths of men
  - language that is respectful of all stakeholders relevant to discussions
RANGE STATEMENT

Support services, networks and sources of additional information may include:

- Other professionals within own service
- Other programs offered by own or other services
- Self-help/support groups
- Counselling services
- Alcohol and other drug services
- Gambling assistance
- Mental health support services
- Domestic and family violence prevention and treatment services
- Financial assistance and counselling services
- Child Support Agency
- Family Relationship Centres
- Family Magistrate Service
- Family Court of Australia
- Mediation centres
- Centrelink/Family Assistance Office
- Australian Taxation Office
- Family Court of Australia
- Legal aid
- Phone support services, e.g. Mensline/Lifeline
- Websites for example MENDS and Parenting Children
- Housing/accommodation services
- Stepfamily Association of Australia

Range of backgrounds may include:

- Cultural
- Linguistic
- Religious
- Language
- Learning abilities and educational levels
- Separated fathers
- Step fathers
- Different age groups
- Employment situations
- Socioeconomic situations
- Locations
**RANGE STATEMENT**

*Barriers to men's participation may include:*

- Resistance to seeking and receiving help
- Work time conflicts
- Lack of access or comfort with host services and facilities
- Structural barriers of family, transport
- Loss of or lack of self-confidence, self-worth
- Child care responsibilities
- A perception in society and between men that men don't cry, are strong, in control and don't need help
- A perception in society and between men that men manage by themselves
- Men often adhere to set masculine codes of conduct (mateship, hierarchy, discriminating against experiencing and expressing specific emotions)

*Programs may include:*

- Specific programs run for men to facilitate their education and skill development and to provide support
- Activity based programs for example fathers and child/children's surf clinic, sporting competitions, games nights, guest speakers at social or sporting clubs, programs delivered in workplaces, offered in prisons, on building sites, do it yourself nights/courses, sports clinics, tax information nights for recently separated men, play groups
RANGE STATEMENT

Issues may include:

- Life-cycle issues for example aging, retirement
- Relationship cycle issues:
  - marriage, living together
  - transition from a couple to a family, father
  - fathering, step-fathering
- Separation:
  - isolation
  - financial hardship
  - anger, anxiety, depression
  - loss and grief
  - pride/shame
  - communication and relationship with ex-partner
  - care and contact issues
  - changes in parenting role
  - conflict between being a good father and limited physical contact
  - relationship with ex-partner
  - alternative housing requirements

continued ...
RANGE STATEMENT

Issues may include (contd):

- Family issues and themes and legacies:
  - parenting and transitions from partners to parents
  - attachment
  - early parenting
  - developmental delays in children
  - roles of father and mothers in children's lives
  - conflict between being a 'good father and competing demands and limited resources
  - building resilience in children
  - step-parenting and blended families and instant 'fatherhood' through marriage
  - care and contact issues
  - influences of extended family and friends
  - parenting in same sex relationships
  - Effects on children of any and all issues impacting on couple and family
  - Unemployment
  - Relationship with partner
  - Health and illness
  - Alcohol and other drugs, mental illness, self-destructive behaviour
  - The importance of health, diet, exercise, care of self
  - Loss of power/control over aspects of own life
  - Domestic and family violence both for users and survivors
  - Relationship conflict and breakdown
  - The importance of men and women in the community supporting children to become great adults including supporting boys to become great men

Strategies for addressing presenting issues may include:

- Identify who has influence over the issue and work with that person to address the issue
- Refer or seek additional support and assistance
- Provide additional information
- Identify existing strengths and resources which can be used to address the issue
- Work through issue to diffuse impact

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Work with fathers to increase their engagement in their children's lives | 1.1 Identify potential *roles and impact of fathers* in their children's lives  
1.2 Demonstrate understanding and value of the different ways fathers can perceive their roles in their children's lives  
1.3 Clarify fathers' aspirations for the well being of their child/children and the *experience, knowledge and skills* they can contribute to this well being  
1.4 Work with fathers to develop their *capacity to positively engage with their child/children* |
ELEMENT | PERFORMANCE CRITERIA
---|---
2. Develop and use father inclusive practice, policies, processes, and programs | 2.1 Analyse *elements of own practice* to identify communication styles which are father inclusive and those which are not father inclusive
2.2 Foster father inclusive practice in own practice
2.3 Identify and promote opportunities for improving father inclusive aspects of the organisation, its policies, processes and programs
2.4 Deliver *programs* where the structure, content, format and language are appropriate to fathers as participants
2.5 Deliver programs in a way which is at all times respectful and values the role and importance of fathers and mothers in their children's lives

3. Promote programs to fathers | 3.1 Identify the target group for program including the target group of men
3.2 Identify *key characteristics* of target group and the impact they may have on engagement of target groups including promotion of program, accessibility to program and appropriateness of venue, format and timings
3.3 Design and develop *appropriate father inclusive programs* for target group
3.4 Use *appropriate methods to promote programs* to target group
ELEMENT  
4. Engage with fathers using father inclusive practice

PERFORMANCE CRITERIA

4.1 Approach fathers as partners in change with respect for their experience, gifts and capacities as fathers

4.2 Assess fathers’ access to high quality family services to ensure equity and fairness regardless of income, employment status, special educational needs or cultural or linguistic background

4.3 Utilise a strengths-based approach to female and male staff capacities for working with fathers

4.4 Work effectively as part of a mixed gender workforce

4.5 Assist fathers to overcome any personal, community and/or societal barriers that may prevent them from becoming positive fathers

4.6 Work in partnership with fathers to develop their knowledge, skills and abilities and to help fathers choose a positive role with their children while recognising and respecting the role of mothers

4.7 Contribute to the effective monitoring and evaluation of father involvement

5. Evaluate programs and reflect on own practice from a father inclusive perspective

5.1 Seek feedback from colleagues and clients including fathers, regarding the program and own practice in relation to father inclusive appropriateness

5.2 Identify aspects of the program and own practice where father inclusive practice could be strengthened

5.3 Incorporate improved father inclusive practice into the design, development and delivery of future program and own practice
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Knowledge of fathers and stepfathers drawn from experience with a wide range of people including fathers and stepfathers from different socioeconomic backgrounds. Knowledge of the similarities and differences in the experiences that a range of people face.
- Good working knowledge of relevant topics and issues for fathers, stepfathers, parents, children and families.
- Knowledge of the agencies and services that are appropriate to fathers and stepfathers.
- Knowledge of the importance of fathers and stepfathers in children's lives.
- Knowledge of child development, including physical, emotional, psychological and cognitive development needs and the impact of fathers and mothers and family life on child development.
- General understanding of a range of theoretical frameworks regarding men's roles, the inherent assumptions, strengths and weaknesses of these frameworks.
- Knowledge of differences in communication styles, masculine and feminine world views and ways of being, gender stereo-types and impacts of these.
- Knowledge of the difficulties for children in living with step parents and in step families.

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Critically reflect own practice in relation to father inclusive practices.
- Critically examine the organisation's structures and processes to identify areas where a more father inclusive approach can be adopted.
- Promote father inclusive practice to colleagues within own agency and in other agencies.

In addition, the candidate must be able to effectively do the task outlined in elements and
REQUIRED SKILLS AND KNOWLEDGE

performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Model effective, respectful and inclusive communication skills including:
  - appropriate verbal and non-verbal communication
  - listening
  - empathic responding
  - paraphrasing
  - summarising
  - questioning
  - models of conflict resolution
  - assertiveness
  - tact and sensitivity when working with men

- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working effectively with fathers and engaging them into specific programs and existing programs
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to work effectively with fathers through the use of father inclusive practice and through the delivery of father inclusive programs

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through application of father inclusive practice whilst delivering father inclusive programs
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

 Roles and impact of fathers may include but is not limited to:

- Fathering and the roles of fathers are as unique and varied as there are fathers
- Fathers can bring with them a range of fathering roles both conceptually and in practice
- Recognition of a number of theoretical frameworks regarding roles for men and their potential impact on roles as fathers
- Recognition of the impact on identity that fatherhood can have on men
- Recognition of the roles fathers are assumed to have in children's lives
- Recognition that parenting is a practice and not a biological function
- Fathers may be:
  - birth fathers
  - step fathers
  - foster fathers
  - non-biological fathers
  - uncles
  - grandfathers
  - carers
- Fathering includes the establishment of a relationship between the father and child
- Where fathers/a father figure play/s an active role in their children's lives this can have positive outcomes on the development of literacy, numeracy and social skills, self-esteem and the development of resilience in both boys and girls
RANGE STATEMENT

Experience, knowledge and skills fathers bring to their fathering may include:

- The ability and will to commit to the physical and ongoing support that a father provides and the involvement with the child/children throughout their lives
- The capacity to make day to day decisions for the child/children that meet the children's needs
- The ability to care about and attend to the important transitions in a child's life and work to provide the optimal conditions to maximise their growth
- The ability to change and adapt as children grow older and the fathers mature in their relationship with their children
- The ability to create resources for material well being and the resolution of problems that allow opportunities for the development of emotional well being
- The ability to form lasting and healthy attachments with their children which can grow and change over time
- The capacity to relate with children by sharing meaningfully with them, both verbally and non-verbally

Capacity to positively engage with their child/children may include:

- Building on existing experience, knowledge and skills
- Enhancing understanding of developmental needs of children including social, emotional, cognitive, physical and psychological
- Identifying ways fathers can actively contribute to the developmental needs of child/children
- Valuing the establishment and maintenance of positive relationships with child/children
- Identification of factors which can negatively impact on the establishment and maintenance of positive relationships with child/children including self limiting concepts that may hold men back from achieving their full potential as fathers
RANGE STATEMENT

Elements of own practice which are father inclusive may include:

- A genuine and expressed belief in the importance of the role of father's in their children's lives while still valuing the importance of the mother in their child/children's lives
- Recognition of the responsibility both mothers and fathers to adopt a child focused approach
- A genuine and expressed belief in the experience, skills and knowledge father's bring to fathering
- Language and communication styles acceptable to men
- Ability to readily establish credibility as a reliable source of information regarding their child and their child's needs and welfare

Programs may include:

- Programs specifically targeting fathers, stepfathers and male carers for example programs designed to provide tips and hints on fathering, toddler taming, preparing for fatherhood, fatherhood post-separation, father evenings at pre-schools
- Activity based programs for example, father and child surf clinics, music competitions, father photo competitions, play groups for fathers and children, information sessions on tax and fathers
- Programs which leverage off established community organisations/events, for example, sausage sizzles at local sporting clubs with a guest speaker on 'fathering' or children and that sport
- Programs for parents and families and/or stepfamilies
- Programs for specific client groups for example, for prisoners and/or their partners
- Programs designed to work individually with clients who are fathers

Key characteristics which may impact on engagement may include:

- Culture, age, employment, values, confidence, re-partnering, access to structural supports for example child care, transport
RANGE STATEMENT

Appropriate father inclusive programs may include:

- Programs with an emphasis on providing tips, tools, strategies and information not on providing help, support or counselling
- Programs which operate from a strengths-based perspective which recognises and values a client's ability to deal with their lives and issues within their lives and relationships and values the skills, knowledge, attributes and experiences fathers bring to these fathering
- Programs that negotiate issues of work or other time commitments including child care responsibilities and are run at times that fit with these other commitments

Appropriate methods to promote programs may include:

- Using referral networks
- Development of father appropriate publicity or advertising material
- Working with key members of community or other organisations

</tr>
</tbody>
</table>
ELEMENT: Engage women's participation

2. Engage women's participation

2.1 Use appropriate language to facilitate participation
2.2 Identify individual strengths and challenges of group participants
2.3 Recognise the experience, gifts and capacities and aspirations mothers bring to their situation
2.4 Actively engage women from a range of backgrounds in group processes
2.5 Manage discussions to keep group processes relevant to the issues faced by women
2.6 Model positive and effective communication and listening skills and encourage these in all interactions
2.7 Manage individual and group needs to balance participation

3. Identify and address presenting issues

3.1 Identify issues which present in the group
3.2 Describe and implement strategies for addressing presenting issues
3.3 Demonstrate relevant knowledge of presenting issues, particularly focusing on but not limited to female related issues
3.4 Encourage women to identify issues affecting them
3.5 Identify issues presented by participants which require follow up

4. Reflect on practice to ensure women and mother inclusive practice

4.1 Seek feedback from colleagues and clients and through supervision regarding own practice in relation to women and mother inclusive practice
4.2 Reflect on own work practice including communication styles to identify areas where women and mother inclusive practice can be strengthened
4.3 Incorporate improved women and mother inclusive practice into future engagement with women and mothers
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include:

- Good understanding of and ability to articulate issues facing women and men today
- Good understanding of and ability to articulate the changing role of men and women
- Awareness of different theories regarding gender and potential impact of gender, roles and stereotyping on personal relationships
- Good understanding of characteristics of positive mothering and step-mothering
- Good working knowledge of appropriate support services and networks for women
- Good knowledge of models that explain the development and functioning of personal and family relationships
- Understanding of the development and importance of self-esteem
- Elements which contribute to healthy, effective and lasting relationships
- Dynamics of interpersonal relationships, parenting and parenting roles, stages of life-cycle and relationship cycles
- How personal issues and problems such as alcoholism, gambling, mental health and other issues can potentially impact on the health and development of women and relationships
- Self-awareness in regard to how own experience, biases, values and beliefs or those of significant others in own life may impact on ability to work effectively with various client groups
- Aspects of loss and phases of grief including the range of responses to loss and grief and potential impacts of these on women and relationships
- Models to explain power issues in relationships and relationship systems as well as to understand and inform responses to abuse and conflict in relationships
- The nature of domestic and family violence including key indicators, effects and appropriate responses to ensure the safety of self, clients, their families, colleagues and others within appropriate cultural contexts
- Models of conflict resolution and mediation
- Understanding of the diversity of family structure and the impact this can have on interpersonal relationships
REQUIRED SKILLS AND KNOWLEDGE

- Understanding of a wide range of client groups and cultural diversity

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Model effective, respectful and inclusive communication skills including listening, empathic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity when working with women
- Give and receive constructive feedback in a sensitive way
- Work as part of a team, including multi-disciplinary professional groups and with a co-facilitator
- Deal with conflict in an open, assertive and appropriate manner
- Establish and maintain boundaries of practice with program participants
- Be aware and responsive to diverse groups of people who may challenge practitioner's values and beliefs
- Deal with unexpected (and sometimes inappropriate) reactions and input from participants
- Respond appropriately to strong emotions in self and clients
- Maintain appropriate levels of confidentiality
- Empower and support clients who are experiencing difficulties as they make decisions and seek help
- Monitor self and capabilities to minimise the negative impact of work on own personal health and well being
- Articulate rationales for interventions related to program and relationship goals, plans, assessment, information and systemic understanding of clients' context and dynamics
- Conceptualise and hypothesise about complex interpersonal interactions for example power in relationships, abuse and conflict

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual
- Apply knowledge of relationships and relationship education to work practice including
REQUIRED SKILLS AND KNOWLEDGE

the design, implementation and evaluation of relationship education programs
- De-mystify and normalise key interpersonal relationship issues for clients

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working effectively with women and mothers
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to work effectively with women and mothers
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through the facilitation of educational and support groups for women
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Related units:

This unit is to be assessed after or in conjunction with the following related unit of competency:

- CHCGROUP403D Plan and conduct group activities

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Changing roles of men and women including changes to roles of mothering and fathering may include:

- Changes to work patterns
- Increased parenting responsibilities
- Separated or single parenting
- Step families
- Raising grandchildren
- Increased demands on relationships
- Expectations of children
- Social expectations
- Financial or job security
- Domestic responsibilities
- Recognition of the impact on identity that motherhood has on women and fatherhood has on men
- Recognition of the roles mothers and fathers are assumed to have in children's lives
- Recognition that parenting is a practice and not a biological function. Fathers and mothers may be:
  - birth fathers/mothers
  - step fathers/mothers
  - foster fathers/mothers
  - non-biological fathers/mothers
  - uncles/aunts
  - grandfathers/grandmothers
  - carers

Gender and power issues may include:

- Power imbalances between men and women
- Hierarchies of power - assumptions about male and female roles
- Mother blaming
- Masculine and feminine codes of conduct
- Masculine and feminine communication styles
RANGE STATEMENT

Target groups may include:
- Different backgrounds
- Separated mothers
- Biological mothers in step families
- Step mothers
- Foster mothers
- Different age groups
- Employment situations
- Socioeconomic situations
- Locations
- New mothers
- Mothers who are not the primary care givers
RANGE STATEMENT

Issues which may impact on them and their interpersonal relationships may include:

- Individual/personal issues:
  - work/life balance
  - disability
  - beliefs, values, experiences
  - being single
  - self-esteem
  - body image
  - loss of power
  - pride/shame
  - guilt
  - anger
  - self-expression
  - grief and loss
  - aloneness and isolation
  - aging
  - unemployment
  - identity

- Health and lifestyle:
  - alcohol and other drugs dependencies
  - gambling
  - mental health including depression, suicide/self-harm tendencies, bipolar, anxiety, post traumatic stress disorder
  - illness (acute or chronic)
  - trauma

- Couple issues:
  - sexuality, intimacy
  - trust, respect, love
  - affairs
  - separation and loss of family structure
  - relationship with partner/ex-partner
  - repartnering
  - same sex couples
  - infertility
  - power and control within relationships
  - finances and financial and budgeting decisions
  - domestic and family violence and abuse
  - conflict
RANGE STATEMENT

- recognition and acceptance of difference

continued ...
RANGE STATEMENT

**Issues which may impact on them and their interpersonal relationships may include:**

(contd):

- Family issues and themes and legacies:
  - parenting and transitions from partners to parents
  - attachment
  - breast feeding and early parenting
  - developmental delays in children
  - roles of father and mothers in children's lives
  - conflict between being a 'good mother' and competing demands and limited resources
  - building resilience in children
  - step-parenting and blended families and instant 'motherhood' through marriage
  - care and contact issues
  - influences of extended family and friends
  - parenting in same sex relationships
  - effects on children of any and all issues impacting on couple and family

- Family of origin and multigenerational issues:
  - grandparenting when parent’s relationship breaks down
  - childhood abuse
  - alcoholism

- Domestic and family violence, child abuse
- Family life-stage transitions and relationship life-cycles:
  - courting/dating
  - cohabitating, engagement, marriage
  - birth of first and subsequent child/children
  - aging/retirement
  - death of parent/partner
  - caring issues
  - children growing up, leaving home
  - older children remaining at home
  - becoming grandparents
  - separation/divorce
  - family court proceedings and interaction with the family law system

- Diversity (either within the family or between the family and wider community) as a result of:
  - culture
RANGE STATEMENT

- religion
- gender including role development, affect of gender stereo-typing
- language
- education, literacy, numeracy

continued ...

Issues which may impact on them and their interpersonal relationships may include:
(contd):

Socioeconomic and political issues:
- access to goods and services
- access to housing
- poverty/financial hardship
- Critical societal events

Support services and networks may include:

- Community services
- Legal support
- Internet, reading materials
- Medical or health facilities
- Women's groups or trainings

Barriers to women's participation in groups may include:

- Economic
- Acceptance of group within the family or community
- Work time conflicts
- Child care responsibilities
- Lack of access or comfort with host services and facilities
- Structural barriers of family for example limited access to transport
- Language, numeracy, learning and education levels and abilities

Appropriate language may include:

- Gender specific
- Positive terminology that builds on the strengths of women
- Respectful of all stakeholders relevant to discussions
RANGE STATEMENT

Strategies may include:

- Identify who has influence over the issue and work with that person to address the issue
- Refer or seek additional support and assistance
- Provide additional information
- Identify existing strengths and resources which can be used to address the issue
- Work through issue to diffuse impact

Unit Descriptor

Unit Descriptor
This unit of competency describes the skills and knowledge required to work with individuals and couples in a group setting.

It also describes the competencies associated with appropriate responses to a range of relationship issues that may arise in a group context, when working with couples, maintaining appropriate boundaries between education and counselling and referring participants to other services.

Application of the Unit

Application
This unit of competency applies to practitioners working in the relationship education sector.

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Recognise and respond to couples' needs within the group while maintaining group cohesion | 1.1 Establish group norms  
1.2 Observe and respond inclusively to participants' responses  
1.3 Use reflective (active) listening skills  
1.4 Use clarification skills to assist understanding and integration of learning into behaviour  
1.5 Use feedback to promote insight and enable participants to make choices about the issues which may impact on them and their relationships  
1.6 Balance task and maintenance functions to facilitate (as far as possible) the meeting of both participants' needs and program outcomes |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 2. Use appropriate conflict management strategies at couple and group level | 2.1 Promote the respect and acceptance for individual differences  
2.2 Sensitively respond to inappropriate attitudes and behaviours in an open and assertive manner  
2.3 Use negotiation and mediation techniques  
2.4 Model conflict management skills  
2.5 Explore alternative options such as referral, with participants |
| 3. Work collaboratively with co-leaders to facilitate effective group functioning and to model what a good relationship looks like | 3.1 Plan and debrief with co-facilitator  
3.2 Model respect for different leadership styles  
3.3 Listen to and acknowledge differences of opinion  
3.4 Negotiate and delegate where appropriate, task and maintenance functions in relation to the group  
3.5 Encourage and support the open interaction of co-leader/s  
3.6 Deal appropriately with differences that may result in conflict |
ELEMENT

4. Facilitate couple interaction within the group environment

PERFORMANCE CRITERIA

4.1 Monitor interactions between couples in the group and between individuals within couples, to ensure opportunities for full participation in learning activities to maximise learning outcomes

4.2 Ensure appropriate balance between opportunities for individual development and reflection, couple sharing and development and community of couple sharing and learning

4.3 Use strategies appropriate to the social, cultural and developmental stage of couples' relationship to promote couple discussion and decision-making about the on-going development and health of their relationship

4.4 Respond promptly and appropriately to couples displaying distress or concern in a manner that maximises safety and confidentiality for each individual

4.5 Maintain an appropriate balance between achievement of stated outcomes for the program and the need to be respectful of couples' privacy as well as being sensitive to the needs and concerns of each individual in the relationship

5. Maintain appropriate boundaries between educative and counselling/therapeutic interactions

5.1 Monitor own professional limitations and boundaries and clearly articulate these to participants throughout the program

5.2 Ensure an appropriate balance between processing of individual/couple issues within the larger group and within couples is maintained in keeping with the stated goals and outcomes of the program

5.3 Use interpersonal skills to effectively maintain the boundaries established by the practitioner and to maximise opportunities for achieving the stated outcomes for the program
ELEMENT

6. Recognise and respond to domestic/family violence and personal problems that impact on the health and development of relationships

PERFORMANCE CRITERIA

6.1 Ensure all interactions with participants are planned and undertaken in a manner that ensures maximum consideration for the safety of clients, colleagues, self and others

6.2 Ensure all interactions with and responses to clients are undertaken in accordance with organisation requirements, accepted practices of prevention and intervention and within legislative and duty or care requirements

6.3 Ensure all interactions with clients are undertaken in a safe and confidential environment that maximises opportunities for client needs to be accurately identified and to promote the accurate and relevant exchange of information

6.4 Assess information obtained from clients to establish priorities for action

6.5 Identify own limitations and boundaries in addressing and working with identified needs.

6.6 Seek assistance from appropriate professionals when issues are identified as beyond own limitations and boundaries

6.7 Respond to participants in a manner that is sensitive to severity of the presenting issue, specific needs of the clients and which places high priority on safety, rights and responsibilities of clients, colleagues, self and others

7. Ensure appropriate referral and support for clients with identified needs

7.1 Refer to other services based on the identified needs of clients

7.2 Provide referral and support networks in accordance with organisation/agency standards and procedures

7.3 Undertake record-keeping and reporting in accordance with organisation/agency standards and procedures

7.4 Seek support and debriefing from colleagues and other appropriate staff in order to sustain ongoing effectiveness and well being and to reflect on courses of action taken with clients
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Adult education principles and practices
- Issues relating to learning styles, abilities, numeracy, literacy levels
- Theories of change and relationship education models for working with clients
- Possible barriers for clients to access programs and achieve outcomes
- Group skills and group dynamics
- Dynamics of intimate relationships and families including nuclear and step families
- Values, beliefs, traditions and spiritual aspects of intimate relationships including marriage
- Models of conflict resolution
- The nature of domestic and family violence including key indicators, effects, and appropriate responses to ensure the safety of self, clients, their families, colleagues and others within appropriate cultural contexts
- The key indicators, nature and impact of personal issues such as alcoholism, gambling, mental health issues and other issues that could potentially impact on the health and development of marriages, families and relationships
- Knowledge of legal parameters for working with clients experiencing sexual, physical and emotional abuse, mental health issues
- Complex interpersonal interactions, power in relationships, abuse and conflict
- Knowledge and application of ethical behaviour and legal frameworks for relationship work
- Organisation policy and procedures
- Appropriate sources or referrals and ways in which these can be accessed
- Agency/organisation standards and procedures in relation to referral and dealing with specific relationship issues
- Self-awareness in regard to how own experience, biases, values and beliefs or those of significant others in own life may impact on ability to work effectively with various client groups
REQUIRED SKILLS AND KNOWLEDGE

- Limitations and boundaries of educator role within the context of their responsibilities within an agency/organisation
- Understanding of a wide range of client groups and cultural diversity including same sex couples

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Use interpersonal skills including listening, empathetic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity
- Work as part of a team including working with co-facilitator to model respectful and cooperative communication and behaviour
- Establish and maintain boundaries of practice with program participants
- Deal with conflict in an open, assertive and appropriate manner
- Be aware and responsive to diverse groups of people who may challenge own values and beliefs
- Work with reluctant clients and deal with unexpected (and sometimes inappropriate) reactions and input from participants
- Maintain appropriate levels of confidentiality
- Empower and support clients who are experiencing difficulties as they make decisions and seek help
- Set appropriate boundaries, manage issues of triangulation, and develop collaborative working relationships
- Monitor self and capabilities to minimise the negative impact of work on own personal health and well being
- Engage with and facilitate the relational/emotional system in couples in order to bring about positive change
- Assess family functioning
- De-mystify and normalise key issues for couples and families including step couples and step families

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
REQUIRED SKILLS AND KNOWLEDGE

- the interplay and dynamics of each of the above
- ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual
- Deliver interventions in a way that is sensitive to special needs of clients (gender, age, socioeconomic status, culture, race, ethnicity, sexual orientation, disability, family of origin, larger systems issues of client)
- Articulate rationales for interventions related to program and relationship goals, plans, assessment, information and systemic understanding of clients context and dynamics

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working educationally with couples within a group context
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to facilitate couple processes within a group work context
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of:
  - demonstration of competency within the working environment through the facilitation of educational groups for couples
  - realistic simulations, projects, previous relevant experience or oral questioning on ‘what if?’ scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Related units: This unit is be assessed in conjunction with (or before) the following related unit of competency:

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Respond inclusively must include:*

- The ability to work inclusively with the whole client, considering the full range of possible influences in their lives including personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues and the interplay and dynamics of each of these

- This includes the ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual
RANGE STATEMENT

Issues which may impact on them and their relationships may include:

- Individual/personal issues:
  - work/life balance
  - disability
  - beliefs, values, experiences
  - self-esteem
  - grief and loss
  - aloneness and isolation
  - aging
  - confidentiality within the couple and in the group
- Health and lifestyle:
  - alcohol and other drugs dependencies
  - gambling
  - mental health including depression, suicide/self-harm tendencies, bipolar, anxiety, post traumatic stress disorder
  - illness (acute or chronic)
  - trauma
- Diversity (either within the family or between the family and wider community) as a result of:
  - culture
  - religion
  - gender including role development, affect of gender stereo-typing
  - language
  - education, literacy, numeracy
- Socioeconomic and political issues:
  - access to goods and services
  - poverty

Issues which may impact on them and their relationships may include (contd):

- Critical societal events
- Couple issues:
  - sexuality, intimacy
  - trust, respect, love
  - affairs
  - separation
  - repartnering
  - same sex couples
  - infertility
RANGE STATEMENT

- power and control within relationships
- finances and financial and budgeting decisions
- domestic and family violence and abuse
- conflict
- recognition and acceptance of difference
- Family issues and themes and legacies:
  - parenting and transitions from partners to parents
  - developmental delays
  - team parenting
  - separation and parenting
  - attachment
  - breast feeding and early parenting
  - developmental delays in children
  - roles of father and mothers in children's lives

- Family life-stage transitions and relationship life-cycles:
  - courting/dating
  - cohabitating, engagement, marriage, remarriage
  - birth of first and subsequent child/children
  - aging
  - death of parent/partner
  - retirement
  - caring issues
  - children growing up, leaving home
  - older children remaining at home
  - becoming grandparents
  - separation/divorce/repartnering
RANGE STATEMENT

Participants' needs may include but are not limited to:

- Have their experiences validated
- Opportunities to express emotions including strong emotions
- Opportunities to develop self-awareness
- Opportunities to develop greater awareness of others including appreciation and understanding of partners and other family members
- Opportunities to develop skills including communication and self-expression skills
- Opportunities to identify and recognise characteristics of successful relationships including:
  - trust
  - respect
  - open and honest communication
  - balance between needs of each person in the relationship and the needs of the relationship
  - the establishment and maintenance of clear boundaries and responsibilities
  - love
  - expectations of the relationship are met over time
  - fluid and able to change, grow and adapt to changes through life changes

Unit Descriptor
Unit Descriptor
This unit of competency describes the skills and knowledge required to use tools to assist in the exploration of relationships between couples. Work can be undertaken with individuals and couples in individual, couple or group settings. It also describes the competencies associated with appropriate responses to a range of relationship issues that may arise when working with couples, maintaining appropriate boundaries between education and counselling and referring participants to other services.

Application of the Unit
Application
This unit of competency applies to practitioners working in the relationship education sector. Where licensed tools such as PREPARE/ENRICH, FOCUS or MYERSBRIGGS are used, additional licensed training must be undertaken. These tools can be used in a variety of settings although they are most often used with a couple as the client. The venue must be suitable for the various stages of the process.

<tr>
<td></td>
<td>1.4 Demonstrate a clear understanding of characteristics of positive interpersonal relationships</td>
</tr>
</tbody>
</table>
ELEMENT

2. Structure the use of appropriate intervention strategies to facilitate learning

   2.1 Structure the initial session with the couple to provide a clear introduction which establishes norms, goals, intended outcomes and learning processes

   2.2 Articulate clearly the strengths and limitations of tools to be used with couples including contra-indications

   2.3 Modify the use of the tools to accommodate individual couple needs where necessary, taking into account overall objectives/outcomes that have already been identified

   2.4 Provide opportunities for the couple to consolidate their learning and to plan for transfer learning into their every day contexts

3. Facilitate couple interaction

   3.1 Use tools appropriate to the social, cultural and developmental stage of couples' relationship to promote couple discussion and decision-making about the on-going development and health of their relationship

   3.2 Respond to differences resulting in conflict

   3.3 Respond promptly to couples displaying distress or concern in a manner that maximises safety and confidentiality for each individual

   3.4 Maintain a balance between achievement of stated outcomes for the program and the need to be respectful of couples' privacy and be sensitive to the needs and concerns of each individual in the relationship

   3.5 Challenge individual and couple knowledge, skills and values in a sensitive way to encourage exploration and facilitate discussion between the couple on relationship issues

   3.6 Use interpersonal skills to assist couple to explore their relationship issues

   3.7 Interact with couples in a manner sensitive to their special needs and individual differences
ELEMENT

4. Maintain appropriate boundaries between educative and counselling/therapeutic interactions

PERFORMANCE CRITERIA

4.1 Monitor own professional limitations and boundaries and clearly articulate these to participants throughout the program

4.2 Ensure an appropriate balance between processing of individual/couple issues within the larger group and within couples is maintained in keeping with the stated goals and outcomes of the program

4.3 Use interpersonal skills to effectively maintain the boundaries established by the practitioner and to maximise opportunities for achieving the stated outcomes for the program and for the couple

5. Assess learning

5.1 Use assessment strategies to assist clients and practitioner to make judgements in relation to learning achieved through the application of the tools

5.2 Integrate the assessment of learning into the structure and processes used to facilitate learning

5.3 Document accurately the outcomes of assessment

6. Evaluate the use of the tools

6.1 Provide opportunities for participant evaluation of the program and the practitioner

6.2 Use methods of evaluation consistent with the content and processes of the intervention strategy

6.3 Evaluate the use of the intervention strategy to facilitate on-going development of practice

7. Complete follow up tasks

7.1 Complete and submit reports in a timely manner to appropriate staff/organisation

7.2 Complete follow up activities in a timely manner and in accordance with the parameters established with the couple
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Adult education principles and practices
- Issues relating to learning styles, abilities, numeracy, literacy levels
- Scope and limitations of tools for relationship work
- Theories of change and relationship education models for working with clients
- Research findings based on the tools to enable appropriate responses to questions regarding the validity of the program
- Possible barriers for clients to access programs and achieve outcomes
- Group skills and group dynamics
- Current relevant theoretical frameworks for relationship work
- Dynamics of intimate relationships and families including nuclear and step families
- Values, beliefs, traditions and spiritual aspects of intimate relationships including marriage
- Models of conflict resolution
- The nature of domestic and family violence including key indicators, effects, and appropriate responses to ensure the safety of self, clients, their families, colleagues and others within appropriate cultural contexts
- The key indicators, nature and impact of personal issues such as alcoholism, gambling, mental health issues and other issues that could potentially impact on the health and development of marriages, families and relationships
- Complex interpersonal interactions, power in relationships, abuse and conflict
- Knowledge and application of ethical behaviour and legal frameworks for relationship work including when working with clients experiencing sexual, physical and emotional abuse and/or mental health issues
- Appropriate sources or referrals and ways in which these can be accessed
- Organisation policy and procedures
- Agency/organisation standards and procedures in relation to referral and dealing with specific relationship issues
- Self-awareness in regard to how own experience, biases, values and beliefs or those of significant others in own life may impact on ability to work effectively with various client groups
REQUIRED SKILLS AND KNOWLEDGE

- Limitations and boundaries of educator role within the context of their responsibilities within an agency/organisation
- Understanding of a wide range of client groups and cultural diversity including same sex couples

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Model effective, respectful and inclusive communication skills including listening, empathetic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity
- Give and receive constructive feedback in a sensitive way
- Work as part of a team, including multi-disciplinary professional groups
- Establish and maintain boundaries of practice with program participants
- Deal with conflict in an open, assertive and appropriate manner
- Be aware and responsive to diverse groups of people who may challenge own values and beliefs
- Work with reluctant clients
- Work inclusively with the whole client, considering the full range of possible influences in their lives including personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues and the interplay and dynamics of each of these
  This includes the ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual
- Deal with unexpected (and sometimes inappropriate) reactions and input from participants
- Maintain appropriate levels of confidentiality
- Empower and support clients who are experiencing difficulties as they make decisions and seek help
- Monitor self and capabilities to minimise the negative impact of work on own personal health and well being
- Engage with and facilitate the relational/emotional system in couples in order to bring about positive change
- Assess family functioning
- Set appropriate boundaries, manage issues of triangulation, and develop collaborative working relationships
- De-mystify and normalise key issues for couples and families including step couples and step families

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of
REQUIRED SKILLS AND KNOWLEDGE

the identified work role

These include the ability to:

- Articulate rationale for interventions related to program and relationship goals, plans, assessment, information and systemic understanding of clients context and dynamics

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working educationally with couples using appropriate tools
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to facilitate couple processes through the effective use of appropriate tools when working with couples
- If licensed tools such as inventories for example PREPARE/ENRICH, FOCUS, MYERSBRIGGS are used then appropriate licensed training must also be undertaken
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through the appropriate application of tools for exploring couple relationships
  - realistic simulations, projects, previous relevant experience or oral questioning on ‘what if?’ scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Related units:

This unit should be assessed after or in conjunction with the following related unit of competency:

- CHCFAM413B Facilitate couple processes within group work

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Appropriate tools may include but are not limited to:

- Simulations
- Role plays
- Brainstorming
- Games
- Demonstrations
- Case studies
- Use of resources such as written exercises, workbooks, worksheets, books, posters
- Videos
- Slides
- Film
- Music
- Mentoring
- Coaching
- Questioning including the use of open, closed, overhead and direct questions and questions to elicit elaboration of content and exploration of thoughts and feelings
- Personality inventories for example MyersBriggs or MayerTeam Inventory
- Inventories, e.g. PREPARE/ENRICH, FOCUS

Contra-indicators may include but are not limited to:

- Where there is evidence of family domestic abuse
- Where there is evidence the relationship is very troubled and that it may benefit more appropriately from counselling
- Where literacy levels are too low
- Where there is evidence of severe mental illness
RANGE STATEMENT

*Issues which may impact on couples and their relationships may include:*

- **Individual/personal issues:**
  - work/life balance
  - disability
  - beliefs, values, experiences
  - self-esteem
  - grief and loss
  - aloneness and isolation
  - aging
  - confidentiality within the couple and in the group

- **Health and lifestyle:**
  - alcohol and other drugs dependencies
  - gambling
  - mental health including depression, suicide/self-harm tendencies, bipolar, anxiety, post traumatic stress disorder
  - illness (acute or chronic)
  - trauma

- **Couple issues:**
  - sexuality, intimacy
  - trust, respect, love
  - affairs
  - separation
  - repartnering
  - same sex couples
  - infertility
  - power and control within relationships
  - finances and financial and budgeting decisions
  - domestic and family violence and abuse
  - conflict
  - recognition and acceptance of difference

- **Family issues and themes and legacies:**
  - parenting and transitions from partners to parents
  - developmental delays
  - team parenting
  - separation and parenting
  - attachment
  - breast feeding and early parenting
  - developmental delays in children
RANGE STATEMENT

- roles of father and mothers in children's lives
- building resilience in children
- step-parenting and blended families
- influences of extended family and friends
- parenting in same sex relationships
- effects on children of any and all issues impacting on couple and family

*continued ...*

*Issues which may impact on couples and their relationships may include (contd):*

- Family of origin and multigenerational issues:
  - grandparenting when parent's relationship breaks down
  - childhood abuse
  - alcoholism
- Domestic and family violence, child abuse
- Family life-stage transitions and relationship life-cycles:
  - courting/dating
  - cohabitating, engagement, marriage, remarriage
  - birth of first and subsequent child/children
  - aging
  - death of parent/partner
  - retirement
  - caring issues
  - children growing up, leaving home
  - older children remaining at home
  - becoming grandparents
  - separation/divorce/repartnering
- Diversity (either within the family or between the family and wider community) as a result of:
  - culture
  - religion
  - gender including role development, affect of gender stereo-typing
  - language
  - education, literacy, numeracy
- Socioeconomic and political issues:
  - access to goods and services
  - poverty
RANGE STATEMENT

- Critical societal events

Characteristics of positive interpersonal relationships may include but are not limited to:

- Trust
- Respect
- Open and honest communication
- Balance between needs of each person in the relationship and the needs of the relationship
- Clear boundaries and responsibilities
- Love
- Expectations of the relationship are met over time
- Fluid and able to change, grow and adapt to changes through life changes

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Establish safety parameters for group | 1.1 Identify *duty of care responsibilities* in relation to facilitator role  
1.2 Identify responsibilities for mandatory reporting  
1.3 Identify privacy regulations and obligations relating to group facilitating  
1.4 Conduct *screening of group applicants* to assess additional support needs where possible  
1.5 Establish group guidelines and boundaries for interacting in the group in agreement with participants  
1.6 Model respectful and positive language throughout group facilitation |
| 2. Recognise at risk behaviours | 2.1 Identify *at risk behaviours*  
2.2 Identify and *monitor* individuals displaying *high emotional needs* |
| 3. Respond appropriately to at risk behaviours | 3.1 Identify *appropriate support services* for referral  
3.2 Discuss at risk behaviours with supervisor or co-facilitator to determine appropriate intervention  
3.3 Validate and normalise emotional responses to issues where appropriate and sensitively challenge where required within the group setting and duty of care requirements  
3.4 Implement *harm reduction strategies* according to the needs of the individual  
3.5 Conduct *follow up* on individual in accordance with organisation policies and procedures |
Required Skills and Knowledge
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Relevant commonwealth and state legislation regarding working in relationship work specifically in regards to mandatory reporting, domestic and family violence and child abuse
- Organisation and professional protocols, standards and policy regarding critical incidents and duty of care
- Principles and practices of suicide intervention including risk assessment, management and provision of on-going support.
- Common indicators of risk of self-harm, suicide or harm to others
- Knowledge of common myths about suicide and self-harm
- Principles of crisis intervention
- Procedures for obtaining assistance and making referrals to other agencies
- Effects of positive language on framing situations
- Key issues for client group
- Self-awareness in regard to how own experience, biases, values and beliefs or those of significant others in own life may impact on ability to work effectively with various client groups
- Awareness of how other mental health issues may impact upon intervention.
- Principles around seeking out self care and support

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Recognise at risk behaviours or signs of suicide, self-harm or harm to others
- Identify and implement appropriate management strategies in response to at risk situations
- Manage the reactions of other group participants
REQUIRED SKILLS AND KNOWLEDGE

- Provide critical interventions
- Facilitate links with higher levels of care, make referrals and follow up with client
- Access supervision to provide practice support in situations of risk or potential risk

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Model effective, respectful and inclusive communication skills including listening, empathetic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity
- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual
- Monitor self and capabilities to minimise the negative impact of work on own personal health and well being

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of implementing harm reduction strategies when working in a group context.
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance.
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence.
- Assessment must confirm sufficient ability to implement harm reduction strategies for individuals in a group whilst maintaining group maintenance and function.

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.
EVIDENCE GUIDE

**Method of assessment:**

- Evidence for assessment of competence may be gathered by an appropriate combination of the following:
  - Demonstration of competency within the working environment through the implementation of harm reduction strategies in a group context
  - Realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - Observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Duty of care responsibilities must include:**

- Commonwealth and state legislation in relation to family issues including, domestic and family violence, child abuse, mandatory reporting
- Organisation policy and procedures
- Occupational health and safety requirements

**Screening of group applicants may include:**

- Phone interview
- One-on-one discussions
- Referral information
- Areas covered may include exploration of
  - level of emotional reactivity
  - criminal history
  - history of assaults
  - mental health history
  - history of emotional or psychological abuse
  - presence of domestic family violence or abuse in relationship
  - drug and alcohol abuse
  - incompatibility with selection criteria
  - language, literacy, numeracy and education abilities prevent effective engagement with program and achievement of program outcomes
RANGE STATEMENT

At risk behaviours may include:

- Negative language, abusive or withdrawal behaviours, non-participation, drug and alcohol use, signs of anxiety or panic, depression, destructive or self-sabotage behaviours and other mental health issues
- Leaving group prematurely
- Discussion of, or references in conversation of suicide, harming spouse/children/others or self
- Detachment from group process or issues raised
- Denial
- Blame projection
- Disclosure of abuse
- Criminal behaviour

High emotional needs may include:

- Expressions of strong emotions
- Withdrawal and detachment
- At risk behaviours
- Destructive or negative beliefs

Monitor may include:

- Checked on during the group session
- Follow up outside of the group
- Establishment of buddy-system from within the group
RANGE STATEMENT

Appropriate support services may include:

- Other professionals within own service
- Other programs offered by own or other services
- Self-help/support groups
- Counselling services
- Alcohol and other drug services
- Gambling assistance
- Mental health support services
- Domestic and family violence prevention and treatment services
- Financial assistance and counselling services
- Phone support services, e.g. Mensline/Lifeline
- Websites for example MENDS and Parenting Children
- Housing/accommodation services
RANGE STATEMENT

_Harm reduction strategies may include action to:_

- Acknowledge individual response and risk behaviour
- Use effective communication skills to maintain rapport
- Encourage reflection on behaviours
- Follow up with individual and group as required
- Implement buddy system
- Conduct one-on-one discussions
- Use strengths-based approach to uncover internal and external coping strategies and supports
- Refer to support services or specialist expert help
- Support the client to access another service/agency/information
- Debrief to third party affected by incident/s.
- Identify underlying significant life issues and support the client to seek assistance around these issues e.g. feelings of remorse, guilt, sadness, anger, addiction, abuse, trauma, other mental health issues
- Prepare contingency
- Distribute support information
- Normalise and validate emotions
- Sensitively challenge
- Documenting work with person to ensure all plans and safeguards are communicated in work team
- Follow policy relating to documentation, duty of care, confidentiality, support planning
- Establish with the person their desire for help and what they would consider helpful
- Provide information to match the person's needs
- Explore achievable steps to help the person strengthen their connections, relationships and formal and informal supports
- Support the person to determine how and when these supports can be used

Follow up may include:

- Telephone call
- Checking in during group session

</table>
ELEMENT

3. Use strengths-based approaches in an education context when working with clients including adults, parents, young people and children

PERFORMANCE CRITERIA

3.1 Work with clients to clearly identify issues and develop their understanding of strengths-based practice
3.2 Assist clients to establish a picture of the future using tools from strengths-based practice including the 'miracle question'
3.3 Assist clients to identify strengths, resources and growth areas they possess in order to work toward the picture of the future
3.4 Assist clients to identify strengths and resources they require from others
3.5 Assist clients to identify the first steps for them to take toward their picture of the future
3.6 Identify and record responsible party, timeframe and who is responsible for first steps

4. Deal effectively with difficult issues using a strengths perspective

4.1 Use a strengths-based approach when working with mandated and voluntary clients who have difficult issues
4.2 Use the principle of 'power with' when working with clients
4.3 Use the engagement triangle when dealing with difficult issues
ELEMENT

5. Collaboratively review progress toward the client's picture of the future

PERFORMANCE CRITERIA

5.1 Assist clients to review their progress towards the picture of the future identifying exceptions and alternative stories

5.2 Assist clients to identify and celebrate their successes in moving toward goals

5.3 Assist clients to identify what is getting in the way of movement towards their goals

5.4 Assist clients to make adjustments to their picture of the future if needed

5.5 Assist clients to identify strengths and resources they have to work toward their picture of the future

5.6 Assist clients to identify strengths and resources they require from others

5.7 Assist clients to identify continuing steps for them to take toward their picture of the future
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Good detailed knowledge of principles of strengths-based practice when working with clients
- Good understanding of the appropriate application of strengths-based tools
- Knowledge of micro-skills used in setting up a learning relationship with a client
- Knowledge of own strengths and growth areas
- Self-awareness including awareness of own beliefs, values and experiences which can impact on work practice
- The impact of 'power' when working with service users
- The power and impact of language
- A good general knowledge and understanding of the issues affecting service users
- Knowledge and application of ethical behaviour and legal frameworks for relationship work

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply principles of strengths-based practice when working with clients
- Identify, respect and foster client strengths
- Accept client's own world view
- Reflect positive attitudes about people's dignity, capacities, rights, uniqueness and commonalities
- Work consultatively and collaboratively with clients to identify realistic future goals and visions and to effect changes toward these
- Elicit client strengths to put towards possibilities for change
- Motivate supervisees to effect changes in their lives through the fostering of their strengths
REQUIRED SKILLS AND KNOWLEDGE

- Work constructively to complement people's existing strengths and assist them with solution building approaches rather than 'problem solving' approaches
- Acknowledge and address power imbalances between workers, organisations and clients
- Recognise and address dynamics inherent in organisation practices and structures that are incongruent with strengths-based principles and processes
- Use open, honest, effective and appropriate communication which is at all times respectful and promotes a partnership approach to working with clients based on consultation, collaboration and mutual learning
- Identify and address social, personal, cultural and structural constraints to people's growth
- Identify and address potential barriers to accessing programs and achieving identified outcomes including access to child care, transport, cultural, linguistic, religious, disability, language, literacy and numeracy or learning differences
- Recognise and remain within bounds of own practice

*continued ...*

Essential skills (contd):

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Understand the limitations and boundaries of the practitioner's role within the context of their responsibilities within their agency and manage own and others expectations in relation to these
- Maintain awareness of self and how experiences, biases, values and beliefs of self and significant others in own life may impact on ability to work effectively with various client groups
- Identify and address social, personal, cultural and structural constraints to people's growth
- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills to apply strengths-based practice when working with clients
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to apply a strengths-based approach to working with clients

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in delivering services to clients using a strengths-based approach
  - realistic simulations, projects, previous relevant experience or oral questioning on ‘what if?’ scenarios
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**Principles of strengths-based practice must include:**

- Respect for people's dignity, uniqueness and rights
- Self determination and empowerment
- Recognition and use of strengths (skills, capacities, knowledge, resources, information, hopes and dreams)
- Mutual learning between service user and professional
- Understanding that people are experts in their own lives
- Understanding that the issue is the problem, the person is not the problem

**Power issues may include:**

- Where and when practitioners meet with clients and how this is determined
- Who 'owns' records of the work
- Who determines what issues will be worked on
- Who determines timeframes for working on issues
RANGE STATEMENT

Strengths-based tools may include:

- **Miracle questions** - 'Let's imagine....You go to bed tonight and while you are asleep a miracle happens ....When you wake up the problem has less effect on your life. On a scale of 0 to 5, how much is the problem affecting your life? How will you know things have improved? What will be different? What will others notice is different?'

- Scaling questions assists professionals and service users to identify the problem or issue, set achievable goals, have a starting point for change, notice what is already working well, identify strengths and exceptions, measure progress and allow for the introduction of metaphors

- Vision and goal setting assists professionals and clients to identify where the service provider would like to move toward and how they can effect this change

- Strength focuses cards assists professionals and clients to identify strengths or issues

- Photo-language cards, objects and images assists professionals and service users to identify and represent significant feelings or issues

- Previous success stories assists professionals and clients to identify ways that people have successfully dealt with similar problems

- Relationship questions assists professionals and clients to identify and explore a problem by shifting the focus to how key relationships in the person's life view the situation for example, 'What would your best friend (mother) say? Or 'How would your family tell there was a miracle and your problem is solved?'

- Letter writing involves the documentation of change and learning in a personal style of writing a letter to the other person recognising changes in learning that you have observed in them

- The five column approach to problem solving is a table that enables professionals and clients to have a guide to explore problems in different ways that build on existing strengths. The guiding questions are: What is the issue? Establish a picture of the future using the miracle question. What strengths and resources do you have to put towards the picture of the future? What strengths and resources do you need from others? What are the first steps to take towards the picture of the future? Who needs to do what and
RANGE STATEMENT

Principle of 'power with' may include:

- A genuine equal partnership with the client
- Mutual respect and care demonstrated at all times and evident in language, processes and outcomes

The engagement triangle may include:

- Establishment of relevance to the client's needs
- Establishment of the professional's faith in the client's ability to commit, choose, care, change, create, connect and communicate
- Establishment of an honest and direct way of communication between the professional and the client

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

1. Work with fathers and/or mothers and/or carers of very young children and babies

1.1 Demonstrate understanding of issues affecting fathers, mothers/carers and families of very young children including first time fathers and mothers/carers from a range of family structures and backgrounds

1.2 Assist fathers, mothers or carers to explore relevant parenting issues regarding very young children including issues for first time parents/carers

1.3 Assist fathers, mothers or carers to explore relevant issues regarding very young children which may have an impact on their partner or other members of their family

1.4 Assist fathers, mothers and/or carers to explore strategies to address or minimise the impact of relevant issues on themselves and/or other members of their family

1.5 Assist fathers, mothers and/or carers to develop an understanding of and appreciation for the unique roles of fathering and mothering, parenting, parenting skills and the important role played by fathers, mothers/carers and parents in the life of their child/children

1.6 Assist fathers and mothers and/or carers to develop confidence and competence in their roles as fathers and mothers/carers
ELEMENT

2. Assist parents of very young children and babies to develop team parenting skills

   2.1 Work with parent/s and carers to identify their beliefs, values and perceptions about children, their roles as parents/carers and the place of children in their lives

   2.2 Work with parent/s to identify their own strengths and areas for development as parents

   2.3 Work with parent/s to identify their strengths and areas for development as a parenting team

   2.4 Work with parents to develop strategies and tools to build on their own and each other's strengths in order to build their capacity to work as a parenting team

   2.5 Work with separated and/or single parents to assist them to work collaboratively in raising their child/children

3. Develop parenting skills in parents of very young children and babies

   3.1 Establish rapport with parents of very young children

   3.2 Assist parents to identify relevant areas for development of their parenting confidence and competence

   3.3 Use appropriate tools and strategies to assist parents to develop parenting confidence and competence

   3.4 Assist parents to review current skill development and identify further appropriate opportunities for development

4. Work within bounds of professional practice

   4.1 Identify service and professional boundaries of practice and operate within those boundaries

   4.2 Identify internal and external resources to whom clients may be referred for assistance

   4.3 Appropriately refer clients to other services
5. Work with parents to assist them to parent across cultures

5.1 Demonstrate consideration and understanding of *cultural, religious, community and familial obligations* and their possible impact on family relationships, in all work undertaken

5.2 Consistently adapt work to meet the specific cultural and linguistic needs of clients

5.3 Work in partnership with parents to achieve a balance between the development of a strong ethnic identity and the incorporation of positive aspects of Australian society into parenting styles
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Models and theories for working with parents
- Issues affecting fathers, mothers, caregivers and families of very young children, including first time parents
- Good understanding of child development and corresponding needs of babies and very young children including key social, physical, psychological, cognitive and emotional development
- General health and well being of babies including sleep, nutrition, stimulation, settling
- Basic understanding of current theories of roles of fathers, mothers and caregivers including infant attachment theory and what this looks like and the impact of good attachment on child development
- Awareness of the impact of culture on parenting and parenting styles, including an appreciation of potential issues of working cross culturally with parents
- Paternal and maternal post-natal depression, affects and ways of addressing these
- Group skills and group dynamics
- Dynamics of intimate relationships
- Models of conflict resolution and mediation
- The nature of domestic and family violence and child abuse including key indicators and effects.
- The key indicators, nature and impact on infants and children of personal issues such as alcoholism, gambling, mental health and other issues that could potentially impact on the health and development of marriages, families and relationships
- Knowledge of legal parameters for working with clients experiencing sexual, physical and emotional abuse, mental health issues
- Complex interpersonal interactions, power in relationships, abuse and conflict
- Knowledge and application of ethical behaviour and legal frameworks for relationship work
- Appropriate sources or referrals and ways in which these can be accessed
REQUIRED SKILLS AND KNOWLEDGE

- Agency/organisation standards and procedures in relation to referral and dealing with specific relationship issues
- Self and how experience, biases, values and beliefs may impact on ability to work effectively with various client groups
- Limitations and boundaries of practitioner role within the context of their responsibilities within and agency/organisation
- Understanding of a wide range of client groups and cultural diversity including same sex couples
- Organisation policy and procedures

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Coach and mentor fathers, mothers and caregivers of very young children and babies in their respective roles
- Provide an effective role model for fathers, mothers and caregivers of very young children and babies
- Work in partnership with other services including infant welfare centres, pre-schools, kindergartens, primary schools, hospitals, maternity wards
- Demonstrate respect toward parents and caregivers of very young children and babies
- Establish and maintain boundaries of practice with program participants
- Work with diverse families and family structures
- Be aware and responsive to diverse groups of people who may challenge educator's values and beliefs
- Deal with unexpected (and sometimes inappropriate) reactions and input from participants
- Maintain appropriate levels of confidentiality
- Empower and support clients who are experiencing difficulties as they make decisions and seek help
- Set appropriate boundaries, manage issues of triangulation, and develop collaborative working relationships
- Articulate rationales for interventions related to program and relationship goals, plans, assessment, information and systemic understanding of clients context and dynamics
- Recognise and promote good attachments between infants and fathers and mothers
- Work with mental health issues including post-natal depression
- Validate and normalise where appropriate and sensitively challenge where required experiences and reactions of parents and carers of babies and very young children

continued ...

Essential skills (contd):

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of
REQUIRED SKILLS AND KNOWLEDGE

the identified work role

These include the ability to:

- Model effective, respectful and inclusive communication skills including listening, empathetic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity
- Communicate effectively, including having empathy for, and developing a good rapport with, fathers, mothers and caregivers of very young children and babies, including first time parents
- Work as part of a team, including multi-disciplinary professional groups
- Deal with conflict in an open, assertive and appropriate manner
- Respond appropriately to strong emotions in self and others
- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual
- Monitor self and capabilities to minimise the negative impact of work on own personal health and well being
- Engage with and facilitate the relational/emotional system in couples in order to bring about positive change
- Assess family functioning

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working effectively with mothers, fathers and carers of babies and very young children.
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance.
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence.
- Assessment must confirm sufficient ability to work effectively with fathers, mothers and carers of babies and very young children.

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through working with mothers, fathers and/or carers of very young children
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Issues which may impact on fathers, mothers and caregivers of very young children and babies, including first time parents may include:

- Lifestyle changes
- Financial stresses
- Housing
- Social isolation
- Levels of support
- Extended family
- Religious considerations
- Cultural aspects of parenting and parenting across cultures
- Family of origin and impact of this on own parenting styles
- Relationship changes
- Sleep deprivation
- Economic factors (effect on standard of living)
- Shift in power within the relationship, role changes, different division of labour
- Potential for role uncertainty and role conflict within the family
- Move from partners to parents
- Breast feeding, support for breast-feeding,
- Attachment between mother and baby and importance of this
- Attachment between father and baby and importance of this
- Relationships between siblings and baby
- Maintaining relationship between father and mother after the birth
- Intimacy
- Value placed on the role of father, mother, caregiver
- Levels of confidence in role of father, mother, caregiver
- Emergence of values/family 'ways of doing things' which were previously irrelevant
- Cultural differences in approach to father, mother and parent roles

continued ...

Issues which may impact on fathers, mothers and caregivers of very young children and babies, including first time parents may include:

- Influences of extended family including grandparents
- Circumcision
- Shift in mother's attention from partner to infant
- Young parents
- Congenital abnormality or chronic illness
RANGE STATEMENT

(contd)

- Developmental delays
- Mental health
- Post-natal depression for mothers and fathers

Family structures and backgrounds may include but are not limited to:

- Step families
- Adoptive families
- Foster families
- Chosen families
- Same-sex parents
- Extended families
- Sibling families

Strategies to address or minimise the impact of relevant issues on fathers, mothers and caregivers may include:

- Developing a greater understanding of 'how it is' for the other partner, members of the family
- Developing a greater respect for, and appreciation of, the value of the roles played by the other partner, members of the family
- Time management skills
- Honest, assertive and respectful communication
- Active listening
- The importance of compromise
- Maximising equitable opportunities to sleep, rest or have quality 'down time' for all parties
- Maximising equitable opportunities to meet personal needs of all parties
- Building confidence and competence in parenting skills
- Recognising the importance of the relationship between the partners and ensuring time to maintain this relationship
RANGE STATEMENT

Unique roles of fathering and mothering may include:

- The importance of early and effective attachment between fathers, mothers, other siblings and infants
- Where fathers/ a father figure plays an active role in their children's lives this can have positive outcomes on the development of literacy, numeracy and social skills, self-esteem and the development of resilience in both boys and girls
- The importance of strong father and mother roles in child/children's lives
- The potential impact on child/children of post natal depression in mothers and fathers
- The ability and will to commit to the physical and ongoing support that a father/mother provides and the involvement with the child/children throughout their lives
- The capacity to make day to day decisions for the child/children that meet the children's needs
- The ability to care about and attend to the important transitions in a child's life and work to provide the optimal conditions to maximise their growth
- The ability to change and adapt as children grow older and the fathers/mothers mature in their relationship with their children
- The ability to create resources for material well being and the resolution of problems that allow opportunities for the development of emotional well being
- The ability to form lasting and healthy attachments with their children which can grow and change over time
- The capacity to relate with children by sharing meaningfully with them, both verbally and non-verbally
- Recognition of the impact on identity that fatherhood has on men and motherhood has on women

continued ...

Unique roles of fathering and mothering may include (contd):

- Recognition of the roles fathers and mothers are assumed to have in children's lives
- Recognition that parenting is a practice and not a biological function
- Fathers/mothers may be:
  - birth fathers/birth mothers
  - step fathers/mothers
RANGE STATEMENT

- foster fathers/mothers
- non-biological fathers/mothers
- uncles/aunts
- grandfathers/grandmothers
- carers
- Concepts of generative fatherhood may include
  - men want to be good fathers
  - assistance given to men to become better fathers
    needs to focus on removing the barriers to fatherhood
  - assistance given to men to become better fathers
    needs to focus on positive affirmation of the father's commitment to their children and participation in their lives
  - critical life transitions for example, separation, are viewed as opportunities to strengthen fatherhood
  - fathering styles may be influenced by how men were fathered and by their family of origin

Work with parents and carers must include:

- Understanding of the engagement and communication processes involved in helping
- The skills and qualities to put these into operation.
- Anticipated outcomes of work with parents and carers
- The communication processes involved
- The nature of the relationship with parents
RANGE STATEMENT

Work with parents may include:

- Consideration of current, relevant theories of families and parenting:
  - attachment
  - developmental - maturational (Gesell), psychosocial (Erickson)
  - family systems theory
  - ecological approach
  - psychoanalytic theory (Freud)
  - behavioural genetics
  - ethology and modern evolutionary theory
  - role socialisation/cultural theory
  - parenting styles
- Consideration of current, relevant models for working with families and parents:
  - family partnership model
  - building strengths
  - solutions
  - social learning theory
  - educational
  - behaviour management

Strengths and areas for development as a father, mother, caregiver may include:

- Empathy
- Love
- Good at listening
- Good at anticipating the needs of others
- Willingness to consider the needs of others
- Ability to recognise own needs and ensure self care requirements are met
- Good imagination
- Patient
- Can operate with very little sleep
- Consistent in approach to things
- Good at setting clear boundaries
- Good at time and commitment management
- Good multi-tasking skills
RANGE STATEMENT

**Strengths and areas for development as a parenting team may include:**

- Recognition of different values, beliefs, customs and parenting styles which may impact on children and raising children
- Respect for differences
- Ability to identify and articulate the 'non-negotiables' of own values and beliefs
- Establishment of a united approach to parenting issues
- Establishment of clear boundaries for children and consistent approaches between parents and over time
- Examination of impact extended family and friends may have on parenting and family issues
- Effective communication
- Negotiate and compromise where possible and appropriate
- Respect and care for each other and other members of the family
- Establishment of healthy routines for sleep, diet and exercise

- Cultural, religious, community and familial obligations may include:

  - Gender entitlements or roles
  - Immediate family
  - Extended family
  - Step family
  - Financial, social, emotional or support obligations
  - Celebrations
  - Economic support
  - Religious participation
  - Domestic support
  - Co-habitation and/or co-location
  - Specified work and support
  - Maintenance of language and cultural practices
  - Carer responsibilities

**Elements and Performance Criteria**

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Support parents to maintain child focused approaches to planning and actions | 1.1. Focus on *children's issues* as a matter of priority  
1.2. Ensure the child is centre of support and intervention plans  
1.3. Engage parents using a range of *communication techniques* to establish an understanding of required contact behaviour  
1.4. Manage parents *inappropriate attempts to exchange information*  
1.5. *Manage inter parental disputes* and assist parents to recognise the needs of children and young people are separate to that of their own emotional needs  
1.6. Seek clarification and understanding of *court orders* to determine legal parameters of any service provision or interventions  
1.7. Reconcile competing ideas on the best interests of the child with the resident and non resident parent |
ELEMENT

2. Create and maintain child focused environment

PERFORMANCE CRITERIA

2.1 Plan activities \textit{and} interactions with parents ensuring they are \textit{developmentally age appropriate} for the child

2.2 Provide \textit{resources for safe interactions} of child and parents

2.3 Provide service that ensures the child's needs and wants are central to the case activities

2.4 Engage the reluctant and non participative child

3. \textit{Evaluate and monitor} child focused practice

3.1 \textit{Provide guidance and direction to less experienced staff}

3.2 Review practices and policies to ensure child focused practices are implemented

3.3 Obtain feedback from parents and children of the service as part of the \textit{evaluation processes and methodologies}

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

\textit{Essential knowledge:}

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- The stages of child development and relevance to work with vulnerable children
- Attachment and family systems theories and how these are applied to working with vulnerable and traumatised children
- Importance of peer relationships for vulnerable and isolated children
- Principles of empowerment and application of these to the work practices
REQUIRED SKILLS AND KNOWLEDGE

- Indicators, effects and dynamics on family relationships and implications of:
  - family violence and abuse
  - substance use
  - mental illness
  - disability
- Child's physical and emotional reactions to separation, conflict, violence, and trauma
- Case management principles of assessment, planning, monitoring and review
- Principles and practice standards for working within the child's best interests as stated in Family Law Act
- Workers legal responsibilities and duty of care to children/young people and parents/carers when engaging in relationship supports and interventions.
- Research and identify the parenting and family dynamics in different cultures. Where necessary seek appropriate cultural expertise to ensure practices are culturally appropriate
- Child rights to protection, active right to participate, to choose course of action and make decision at their level of ability in any planning processes
- Indicators of abuse, types of abuse, children who are particularly vulnerable and reporting systems in accordance with relevant state legislation
- Range of service options for referral to relationship support and interventions services
- Applications and relevance of concepts of parent alienation in separation and divorce
- Effects of loss, grief and depression on children experiencing family conflict
- Indicators and responses to child anxiety including childhood resilience

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Respond to children and young people experiencing the following as a result of family conflict, parental separation and/or divorce:
  - grief/loss and depression
  - post traumatic stress disorder
  - domestic and family violence
  - sexual abuse and neglect
  - cross gender issues
- Undertake case management, including assessment of child and family needs, analysing information gathered for the development, facilitation and monitoring of a client case plan within own level of responsibility
- Undertake a needs assessment interview with children and/or young people to determine individual needs that will contribute to course of interventions and/or support within own level of responsibility
- Bring parties back to the issues of impact on the children - reframe future
- Use genograms and sociograms to clarify complex family relationships
REQUIRED SKILLS AND KNOWLEDGE

- Engage children in assessment, within own level of responsibility, using:
  - age appropriate language and questioning techniques
  - non-verbal communication
  - empathy and rapport building
- Observe and report on client situations, behaviours and interactions for the purpose of informing case management, support, interventions and where necessary reporting processes including those issues for risk management and client protection
- Provide effective client referrals to other support services or as part of case management processes
- Assist families to engage in communication exchanges that contribute to positive relationship building
- Adhere to boundaries for roles and actions of both the client and the worker using accepted standards of the organisation and within the relevant legislative frameworks
- Establish a professional relationship with children and parents

<continued ...>

Essential skills (contd):

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Work autonomously for short periods of time
- Apply and model communication skills including:
  - listening and understanding
  - speaking clearly and directly
  - writing to audience needs
  - negotiating responsively
  - empathising
  - persuading effectively
  - being appropriately assertive

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills:
  - Communication methods for engaging and working with children
  - Understanding and applying to practice the concepts and intentions of Family Law Act - 'Best Interests of the Child'
  - Understanding and applying Child Development theories when engaging and working with children and families
  - Understanding and applying where necessary any mandated notification responsibilities
  - Application of confidentiality and conflict of interest policies to information obtained, recorded and maintained when working with clients
  - Ensuring child's rights to protection, active right to participate, to choose course of action and make decisions at their level of ability
  - Children's emotional and physical reactions to separation, conflict, violence and trauma.

- Observation of workplace performance is essential for assessment of this unit

- Consistency of performance should be demonstrated over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- Competency must be demonstrated in a real work environment
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment:

- Observation in the workplace together with a possible combination of the following:
  - Written assignments/projects or questioning should be used to assess knowledge
  - Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Children's issues may include:

- Type, frequency and length of contact with parents
- Preference for recreational and social activities
- Education and peer relations
- Contact and relationship with significant others and/or extended family
- Place of residence
- Preferred communications styles with parents and significant others

Communication techniques may include:

- Assertion
- Active listening
- Summarising
- Paraphrasing
- Non-verbal communication:
  - gestures
  - facial expression
  - posture and positioning
  - eye contact
- Written information, pamphlets, reports, articles

Inappropriate attempts to exchange information may include:

- Threatening staff and or other clients to disclose information
- Providing documentation to staff that breaches confidentiality
- Attempting to engage with staff to for the sole purpose of obtaining information about another party to the case
- Attempting to use gifts and bribery to exchange information
- Manipulating and coercing children to seek information from staff and others
- Illegal attempts to access confidential files
RANGE STATEMENT

Manage inter parental disputes may include:
- Ensuring safety of vulnerable clients by ensuring confidentiality of either party, not having contact with parties directly in the same environment
- Using assertiveness and negation skills to diffuse immediate conflict situations
- Modelling appropriate cooperation and communication skills to parents in conflict
- Reinforcing the organisations policy on rights and responsibilities of both clients and workers where necessary
- Undertaking risk assessments for violence and abuse
- Presenting the child's expressed wants and needs to ensure that parents refocus on the best interests of the child

Court orders may relate to
- Parental contact and residency
- Child Protection
- Domestic and family violence issues

Developmentally age appropriate activities means:
- Plan activities that consider the developmental age and milestones of the child. Including chronological age, social, emotional and intellectual development. Activities will also provide for the specific needs of the individual child where disability, culture or health concerns are present.

Resources for safe interactions may include:
- Child appropriate equipment and activities
- Appropriate environment to engage with parents
- Access to organisation policies and procedures
- Recent and relevant research on:
  - marital conflict
  - separation and divorce
  - effective communication in marital conflict interventions
- Access to court orders where relevant
- Documented history of marital/post separation conflict
RANGE STATEMENT

Provide guidance and direction to less experienced staff may include:

- Establishing and participating in peer support systems in the organisation
- Peer supervision arrangements
- Case review processes
- Mentoring or buddy arrangements
- Shadowing more experienced staff members

Evaluation processes and methodologies may include:

- Direct observation
- Client interviews
- Survey forms
- Focus groups

| 1. Identify and monitor indicators of potential incidents | 1.1 Anticipate potential causes of incidents and harmful behaviour  
1.2 Identify causes of incidents and assess these for relevance to safety of those people in the work environment  
1.3 Identify and provide information on potential responses to colleagues for action and support |
| 2. Respond to incidents | 2.1 Respond confidently and in accordance with organisation procedures  
2.2 Request assistance clearly  
2.3 Use security procedures and aids according to policy  
2.4 Ensure individual responses promote calm and reassurance  
2.5 Prioritise client safety |
 ELEMENT  PERFORMANCE CRITERIA

3. Contain incidents

3.1 Provide information designed to promote positive decision-making based on the relationship between actions and consequence

3.2 Use calm, confident and assertive communication to establish positive personal interaction and exchange information

3.3 Select response and action designed to minimise risk, prevent escalation and to preserve the safety and security of all involved

4. Minimise the impact of critical incidents

4.1 Administer assistance as necessary

4.2 Ensure procedures used to protect clients and others from endangering themselves or others, are consistent with legal, ethical and organisation requirements, and safety considerations

4.3 Ensure responses and emergency action give priority to the protection of individuals from severe harm

4.4 Promptly provide accurate and clear reports to the appropriate authority

4.5 Provide debriefing and support to clients and colleagues immediately following a crisis incident

4.6 Manage prevention of repeat incidents by review of clients continued involvement with the organisation and refer to other services where appropriate

4.7 Review and modify policy and procedures for response to critical incidents

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
REQUIRED SKILLS AND KNOWLEDGE

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Negotiation and conflict resolution strategies to be employed at times of crisis involving clients and colleagues
- Knowledge and understanding is required of the workplace occupational health and safety (OHS) system sufficient to recognise situations affecting OHS and to take appropriate action to rectify the situation
- Rights and responsibilities of workers and clients to ensure the safety of individuals in the workplace and in accordance with any duty of care requirements
- Emergency procedures/protocols and how to access emergency services in the workplace
- Team roles and responsibilities for reporting requirements
- Worker responsibilities for child protection reporting and duty of care as result of crisis situations in the work environment
- Code of conduct for workers of the organisation or professional membership and actions for responding to crisis
- Awareness of verbal and non-verbal presentation and responses in crisis response and management
- Standard organisation procedures in case of hostile clients
- Creative responses to workplace challenges at times of crisis
- Awareness of cultural variations in responding to situations and behaviours
- Understand legal boundaries of interventions
- Awareness of indicators of potential critical incidents and crisis
- Appropriate contact procedures for emergency services as required

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Use communication skills to defuse hostile situations:
  - listening and understanding
  - speaking clearly and directly
  - interpreting the needs of internal and external clients of the organisation
  - negotiate responsively
  - persuade effectively
  - being appropriately assertive
  - empathising
- Select communication skills for sensitive and effective approaches with both vulnerable and hostile adults and children in crisis situations
REQUIRED SKILLS AND KNOWLEDGE

- Manage and respond to hostile and aggressive behaviour in accordance with organisation policy and ensuring the safety of clients, colleagues and self
- Undertake situational risk assessments of potential crisis events involving clients and/or colleagues
- Undertake problem solving under pressure applying a range of strategies either individually or in a team environment
- Resolve client concerns relative to workplace responsibilities
- Implement appropriate corrective action as much as possible to eliminate risk
- Correctly use safety and/or alarm systems is implemented where necessary
- Accurately complete incident and hazards records to meet organisation and workplace safety requirements
- Apply flexible and resourceful approaches to management of crisis situations involving vulnerable parties
- Manage issues of threat or risk which may be associated with involuntary clients

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of **specified** essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit. however, simulated workplace assessment is acceptable
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
**EVIDENCE GUIDE**

*Method of assessment:*

- Observation in the workplace where possible *together with one or more of the following:*
  - written assignments/projects or questioning should be used to assess knowledge
  - case study and scenario as a basis for discussion of issues and strategies to contribute to best practice

- The assessment environment should not disadvantage the candidate

- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English

- Where the candidate has a disability, reasonable adjustment may be applied during assessment

- Language and literacy demands of the assessment task should not be higher than those of the work role

**Range Statement**

**RANGE STATEMENT**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Causes of incidents may include actions and events from:

- Others which jeopardises the safety and well being of clients, colleagues and others with in the work environment
- History of alleged or substantiated issues of child protection nature
- History of domestic and family violence
- Actual or potential violent behaviour
- Incidents of self-harm and suicidal behaviour
- Inappropriate expressions of intense anger and/or fear
- Unauthorised entry to services
- Hostage taking
- Bomb threats to individuals and/or services
- Threats of intimidation
- Engaging hostile involuntary clients

Assess these for relevance to safety may include:

- Obtaining information about individuals or group posing threats or hostility
- Ensuring children and other vulnerable client groups are able to be easily and immediately removed from potential or real crisis situations
- Determining the most appropriate and accessible escape exits in a crisis
- Identifying the need for additional staff is required to ensure safety of individuals
- Awareness of immediate environment and indicators of crisis situations as listed above.
- Analysing communication exchanges and behaviours of clients to determine levels of risks
RANGE STATEMENT

Information on potential responses may include:

- Separating parties in conflict
- Defusing strategies:
  - talking with individuals in a calm manner
  - modelling negotiation
  - empathising
  - adopting silence where appropriate
- Engaging specialist service interventions, e.g., mental health services, drug and alcohol services
- Seeking emergency services, e.g., ambulance, fire or police services
- Cultural support specialists, e.g., elders, ministers of religions
- Using communication skills including:
  - listening and understanding
  - speaking clearly and directly
  - persuading effectively
  - being appropriately assertive
  - negotiating responsively

Assistance may include:

- Contacting support for the client or colleague affected by the incident, e.g., significant others, emergency services, other service providers
- Facilitating referrals to other services
- Assisting with writing incident reports
- Assisting the client to exit real or potential risk situations

Reports may include:

- Incident reports as determined by the organisations policies on critical incidents
- Workplace Health and Safety reports relating to relevant legislation
- Witness reports for legal action
- Observational reports to contribute policy revision
RANGE STATEMENT

*Provide debriefing and support may include:*

- Ensuring colleagues and clients have opportunity to talk through a structured debriefing process individually or in team environment
- Allowing workers to self select timeout when required to ensure effective practices following a critical incident
- Assisting workers to access external support services post critical incidents
- Providing a list of potential services for individuals to access appropriate debriefing
- Monitoring and providing peer support to workers affected by critical incidents

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Identify and monitor indicators of potential incidents | 1.1 Anticipate potential *causes of incidents* and harmful behaviour  
1.2 Identify causes of incidents and *assess these for relevance to safety* of those people in the work environment  
1.3 Identify and provide *information on potential responses* to colleagues for action and support |
| 2. Respond to incidents | 2.1 Respond confidently and in accordance with organisation procedures  
2.2 Request assistance clearly  
2.3 Use security procedures and aids according to policy  
2.4 Ensure individual responses promote calm and reassurance  
2.5 Prioritise client safety |
ELEMENT

3. Contain incidents

PERFORMANCE CRITERIA

3.1 Provide information designed to promote positive decision-making based on the relationship between actions and consequence

3.2 Use calm, confident and assertive communication to establish positive personal interaction and exchange information

3.3 Select response and action designed to minimise risk, prevent escalation and to preserve the safety and security of all involved

4. Minimise the impact of critical incidents

4.1 Administer assistance as necessary

4.2 Ensure procedures used to protect clients and others from endangering themselves or others, are consistent with legal, ethical and organisation requirements, and safety considerations

4.3 Ensure responses and emergency action give priority to the protection of individuals from severe harm

4.4 Promptly provide accurate and clear reports to the appropriate authority

4.5 Provide debriefing and support to clients and colleagues immediately following a crisis incident

4.6 Manage prevention of repeat incidents by review of clients continued involvement with the organisation and refer to other services where appropriate

4.7 Review and modify policy and procedures for response to critical incidents

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
REQUIRED SKILLS AND KNOWLEDGE

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Negotiation and conflict resolution strategies to be employed at times of crisis involving clients and colleagues.
- Knowledge and understanding is required of the workplace work health and safety (WHS) system sufficient to recognise situations affecting WHS and to take appropriate action to rectify the situation.
- Rights and responsibilities of workers and clients to ensure the safety of individuals in the workplace and in accordance with any duty of care requirements.
- Emergency procedures/protocols and how to access emergency services in the workplace.
- Team roles and responsibilities for reporting requirements.
- Worker responsibilities for child protection reporting and duty of care as result of crisis situations in the work environment.
- Code of conduct for workers of the organisation or professional membership and actions for responding to crisis.
- Aware of verbal and non-verbal presentation and responses in crisis response and management.
- Standard organisation procedures in case of hostile clients.
- Creative responses to workplace challenges at times of crisis.
- Aware of cultural variations in responding to situations and behaviours.
- Understand legal boundaries of interventions.
- Awareness of indicators of potential critical incidents and crisis.
- Appropriate contact procedures for emergency services as required.

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Use communication skills to defuse hostile situations:
  - listening and understanding
  - speaking clearly and directly
  - interpreting the needs of internal and external clients of the organisation
  - negotiate responsively
  - persuade effectively
  - being appropriately assertive
  - empathising.
- Select communication skills for sensitive and effective approaches with both vulnerable and hostile adults and children in crisis situations.
REQUIRED SKILLS AND KNOWLEDGE

- Manage and respond to hostile and aggressive behaviour in accordance with organisation policy and ensuring the safety of clients, colleagues and self
- Undertake situational risk assessments of potential crisis events involving clients and/or colleagues
- Undertake problem solving under pressure applying a range of strategies either individually or in a team environment
- Resolve client concerns relative to workplace responsibilities
- Implement appropriate corrective action as much as possible to eliminate risk
- Correctly use safety and/or alarm systems is implemented where necessary
- Accurately complete incident and hazards records to meet organisation and workplace safety requirements
- Apply flexible and resourceful approaches to management of crisis situations involving vulnerable parties
- Manage issues of threat or risk which may be associated with involuntary clients

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit, however, simulated workplace assessment is acceptable
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment:

- Observation in the workplace where possible together with one or more of the following:
  - written assignments/projects or questioning should be used to assess knowledge
  - case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

ELEMENT

1. Conduct assessment

1.1 Assess and determine specific client needs in line with identified requirements in family law context

1.2 Engage both voluntary and involuntary clients using appropriate strategies and techniques

1.3 Assess and interview using child focused practices

1.4 Explain the family law system including Family Court processes and requirements to clients as required of job role

1.5 Respond to distressed clients in a non-judgemental and empathic manner

1.6 Actively provide options where appropriate for clients seeking preventative support for relationship issues

1.7 Actively provide referral options where appropriate for clients seeking post separation services
ELEMENT

2. Apply requirements and regulations of the Family Law Act to work practices within organisation context

2.1 Act as an expert witness within specified job role

2.2 Prepare accurate reports according to organisation procedures and policy

2.3 Analyse information to determine best course of action

2.4 Observe and report where required by legislation and/or organisation policy

2.5 Document observations as required by organisation policy and/or relevant legislation

2.6 Identify the need to refer clients to legal practitioners to interpret and articulate court orders and legislation to ensure all parties are informed of legislative responsibilities and rights

2.7 Advocate in court within specified job role where required and appropriate

3. Manage case work activities in the context of the family law environment

3.1 Follow case work procedures according to established policies of the organisation and arising from legislative responsibilities and obligations where appropriate

3.2 Prepare case plans according to organisation guidelines

3.3 Research and identify appropriate support systems for clients

3.4 Provide information to clients about process of family law systems and available support options

3.5 Support clients' chosen course of action in relation to the family law system

3.6 Manage power imbalances in family group interactions with services

3.7 Follow procedures for filing and service of court documentation in accordance with legal requirements and only where appropriate within job role
ELEMENT

4. Work within a multidisciplinary team

4.1 Identify and establish effective working relationships with other specialist staff in the Family Law system

4.2 Negotiate and liaise with other sections of the family law system

4.3 Promote cooperation with other professionals and encourage clients to use other professional resources where appropriate.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Understanding of the provisions for children and property in the Family Law Act and Child Support (Assessment) Act as it relates to specific job role
- Understand the relevant sections of the Family Law Act as it applies to individual work roles and organisation
- Knowledge of where to seek expert clarification of family law
- Understand Duty of Care requirements in the provision of information when working with families at pre and post separation and as it relates to specific job roles
- Referral options and systems available to clients whose needs may best be met by other services
- Confidentiality and privacy requirements under relevant legislation applicable to work context and job roles
- Working knowledge of Parenting arrangements and property settlement requirements as per the Family Law Act and any other related legislation within the provision and requirements of the job role
- Understand and apply relevant state child protection legislation as necessary
- Understand working of family court, associated legal system and legal processes as
REQUIRED SKILLS AND KNOWLEDGE

relevant to job role

- Understanding any implications of material collected through interviews with clients seeking relationship supports and/or interventions
- Awareness of family dynamics in different cultures and how this may impact on or direct practices of relationship support services
- Understand recording and reporting system requirements of the family law rules and regulations as they relate to own job role
- Understanding the important role and responsibility of legal representatives in the Family Law context and multi party disputes and how this role impacts on own work with clients, including a focus on grandparents
- Understanding the roles and responsibilities of the child consultant in the family law context
- Understand the relevance of, and need for, referral to experts on range of matters
- Working knowledge of the factors impacting upon and associated with working with children and young people in complex cases of high level parental conflict, for example:
  - grief and loss
  - separation anxiety
  - trauma
  - power and control dynamics

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Effectively and impartially collect and analyse information according to risk assessment frameworks or models
- Implement confidentiality and privacy to client information obtained, recorded and maintained by the worker and organisation
- Research both the systems and legislation relevant to the work role and Family Law context
- Use solution focused interviewing techniques with clients
- Remain impartial and objective when engaging with clients and assessing client needs
- Ensure work practices that maintain the best interests of the child are paramount to all work in the Family Law context
- Demonstrate awareness of own limitations and biases that may impact on workers capacity to remain impartial in work with couples and families
- Identify when referral is best option for clients if worker biases impeded objectivity
- Objectively engage and listen as children, young people and parents present their situations
- Ensure client is clear about worker's role of being one of information provision not one of legal adviser
- Challenge and contain behaviours where necessary
REQUIRED SKILLS AND KNOWLEDGE

- Interpret legalese into language understood by client and significant others

*continued ...*

*Essential skills (contd):*

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Apply and model communication skills including:
  - listening and understanding
  - speaking clearly and directly
  - negotiating responsively
  - empathising
  - interpreting the needs of internal and external clients
  - persuading effectively
  - being appropriately assertive
  - sharing information
- Read and interpret workplace related documentation
- Work effectively in culturally diverse environments and contexts using appropriate skills and protocols
- Accept and provide constructive criticism
- Modify language and communication skills to meet the needs of individual clients
- Be transparent working with clients
- Work effectively in a multidisciplinary team environment
- Conceptualise and evaluate the laws and systems within the family law environment as required by job role
- Work effectively with interpreters to ensure needs of specific cultural groups are met
- Demonstrate appropriate and regular use of supervision and consultation

**Evidence Guide**

**EVIDENCE GUIDE**
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills:
  - knowledge of the Family Law Act and system as it relates to specific job roles of the worker
  - establishing effective working relationships with other service providers and practitioners to provide best service provision for clients experiencing relationship difficulties
  - demonstrate an understanding of the dynamics of relationship conflict
  - established networks to facilitate effective referrals for clients
  - awareness of own limitations and biases which may impede worker impartiality when working with clients

Communication skills including:

- listening and understanding
- speaking clearly and directly
- negotiating responsively
- empathising
- interpreting the needs of internal and external clients
- persuading effectively
- being appropriately assertive
- sharing information

- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- Competency must be demonstrated in a real work environment
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on ‘What if?’ scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment may include:

- Observation in the workplace  together with a possible combination of the following:
  - Written assignments/projects or questioning should be used to assess knowledge
  - Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Clients may include:

- Children and young people
- Separating and divorced parents
- Extended family members
- Couples seeking counselling and supports as prevention to relationship breakdown
- Voluntary and involuntary individuals or family groups
RANGE STATEMENT

Specific client needs may include:

- Prevention, interventions and support for relationship needs
- Assistance and/or information on property disputes
- Assistance with access to other services
- Assistance with referral, and advocacy where appropriate
- Assistance with matters relating to parenting arrangements and child's best interests
- Information on service availability
- Assessment and support for safety and family violence issues
- Referral to legal assistance
- Assistance with financial, housing or safety issues

Appropriate strategies and techniques to engage voluntary and/or involuntary clients may include:

- Establishing rapport
- Displaying empathy
- Use simple and concise language when engaging with the client
- Use negotiation skills when required
- Use non-threatening verbal and non-verbal communication skills
- Remaining neutral and objective during engagement with the client
- Observe specific cultural protocols when communicating with clients
- Adopt client self-determination principles where appropriate
- Clarify service provision for the client
- Clarify client expectations of the service in relation to client needs
- Explain any legal or organisation boundaries and contexts for client worker relationship or service provision
- Explain and clarify legal obligations of both the client and the agency
RANGE STATEMENT

Child focused practices may include:

- Appropriate use of language considering the age and developmental stage of the child/young person
- Create child friendly environment
- Use of toys, puppets, books, sand play and other child centred resources
- Active listening
- Narrative approaches
- Advocating for the child's/young person's expressed and/or demonstrated needs

Options may relate to other sections/specialists within the family law system and those practitioners that may form part of the multidisciplinary team and may include:

- Solicitors and barristers
- Child representatives/consultants
- Police
- Court staff
- Counsellors
- Dispute resolution practitioners
- Children's contact service staff
- Child support agency
- Family educators
- Contact order program staff

Preventative support for relationship issues may include:

- Counsellors
- Relationship educators
- Dispute resolution practitioners
- Family educators
RANGE STATEMENT

**Post separation referral options may include:**
- Lawyers and barristers
- Child representatives
- Police
- Court staff
- Counsellors
- Dispute resolution practitioners
- Children’s contact service staff
- Child support agency
- Family educators
- Contact order program staff
- Domestic and family violence services
- Housing services
- Centrelink

**Specified job role may include:**
- Lawyers and barristers
- Child representatives
- Child consultant
- Court staff
- Counsellors
- Dispute resolution practitioners
- Children’s contact service staff
- Family educators
- Contact order program staff
- Other family relationship centre staff
- Family relationship support program staff

**Information may include:**
- Verbal explanations of information to assist clients' understanding of services to be provided or clarification other information as a matter of client empowerment
- Written materials, e.g. service information, contracts, case plans, court papers
- Videos, DVDs and other electronic media
RANGE STATEMENT

Organisation policy and/or legislation may include but are not limited to:

- Child Protection legislation within State operating jurisdiction
- Anti-discrimination legislation
- Child Support (Assessment) Act
- Family Law Act
- Freedom of Information legislation
- Superannuation legislation
- Privacy legislation
- De facto property legislation
- Organisation policies:
  - worker and client safety
  - recording and storing client information
  - assessment and intake
  - referral and advocacy
  - supervision and professional development
  - case work
  - collaborative work practices
  - access and equity
  - cultural diversity

Reports and documentation may include:

- Court reports
- General assessment reports
- Observational reports
- Referral reports
- Reports are required to be factual, clear and unambiguous and written within the organisation guidelines with due consideration for any legislative requirements.
- Client case plans
- Counselling agreements
- Court applications and regulatory forms
- Agreements reached as result of dispute resolution process
- Parenting plans/arrangements
- Documented contact arrangements
- Correspondence relevant to client case
- Intake and assessment documentation
- Case file notes
RANGE STATEMENT

Case work procedures may include but are not limited to:

- Facilitating case planning meetings
- Preparing case plans
- Analysing information gathered
- Preparing a case plan in collaboration with the client
- Engaging the client to participate in planning processes
- Facilitating and monitoring aspects of case plans
- Reviewing case plans in collaboration with clients

Support systems for clients may include but are not limited to:

- Advocacy and information services
- Facilitate referrals to counselling, dispute resolution and/or children’s contact services
- Domestic and family violence services
- Accommodation services
- Child support agency
- Family support services
- Alcohol and other drugs services
- Parent support and education groups
- Referral to legal practitioners e.g. in matters of:
  - matrimonial and de facto property
  - taxation law
  - superannuation
  - company and business law
  - inheritance law
  - child related matters

3.3 Explore strategies with fathers for staying connected and in relationship with children  
3.4 Explore strategies with fathers for self care and support  
3.5 Explore strategies with fathers for improving their situation and relationships |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Good understanding of and ability to articulate issues facing women and men today particularly those issues associated with separation and divorce including associated legal procedures
- General understanding of a range of theoretical frameworks regarding men's roles, the inherent assumptions, strengths and weaknesses of these frameworks
- Knowledge of differences in communication styles, masculine and feminine world views and ways of being, gender stereo-types and impacts of these
- Good knowledge of models that explain the development and functioning of personal and family relationships
- Knowledge of fathers and stepfathers drawn from experience with a wide range of people including fathers and stepfathers from different socioeconomic backgrounds. Knowledge of the similarities and differences in the experiences that a range of people face
- Aspects of loss and phases of grief including the range of responses to loss and grief and potential impacts of these on men and relationships
- Understanding of the diversity of family structure and the impact this can have on interpersonal relationships
- Information resources and relevant local services including networks and support systems available to separated fathers
- Characteristics of target group/s and strategies for engaging them
- Models to explain power issues in relationships and relationship systems as well as to understand and inform responses to abuse and conflict in relationships
- The nature of domestic and family violence including key indicators, effects, and appropriate responses to ensure the safety of self, clients, their families, colleagues and others within appropriate cultural contexts
- Principles and practice of conflict resolution
- Understanding of the development and importance of self-esteem
REQUIRED SKILLS AND KNOWLEDGE

- Elements which contribute to healthy, effective and lasting relationships
- Knowledge of child development and the impact of fathers and mothers and family life on child development
- Knowledge of the difficulties for children whose parents are separating or have separated and for children living with step parents and in step families

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Identify and manage a range of responses to separation
- Assist fathers to identify strategies for improving their circumstances
- Assist fathers to develop strategies to remain connected to children
- Assist fathers to develop and maintain self care strategies including strategies to reduce stress and anxiety and to establish and maintain healthy routines for food, rest and exercise
- Engage effectively with separated fathers
- Deal with unexpected (and sometimes inappropriate) reactions and input from participants
- Respond appropriately to strong emotions in self and clients
- Be aware and responsive to diverse groups of people who may challenge practitioner's values and beliefs
- Affirm and acknowledge participant experience including empathising with the experiences of separated fathers, normalising where appropriate and sensitively challenging where required
- Give and receive constructive feedback in a sensitive way
- Establish and maintain boundaries of practice with program participants

*continued ...*

**Essential skills (contd):**

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Model effective, respectful and inclusive communication skills including listening, empathetic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity when working with men
- Work as part of a team, including multi-disciplinary professional groups and with a co-facilitator
- Effectively manage time
REQUIRED SKILLS AND KNOWLEDGE

- Deal with conflict in an open, assertive and appropriate manner
- Maintain appropriate levels of confidentiality
- Empower and support clients who are experiencing difficulties as they make decisions and seek help
- Monitor self and capabilities to minimise the negative impact of work on own personal health and well being
- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working effectively with separated fathers
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence.
- Assessment must confirm sufficient ability to work effectively with separated fathers in a group setting
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through the facilitation of groups for separated fathers
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Understanding of roles and impact of fathers may include but is not limited to:

- Understanding that fathering and the roles of fathers are as unique and varied as there are fathers
- Recognising that fathers can bring with them a range of fathering roles both conceptually and in practice
- Understanding a number of current and relevant theoretical frameworks regarding roles for men and their potential impact on roles of fathers, e.g.
  - theoretical frameworks which view the nature of men as fixed
  - theoretical frameworks which view the nature of men as dynamic, learned and changeable
  - attachment theory
  - family systems theory
  - feminist theory (and critiques of feminist theory)
  - family life-cycle theory
  - generative fatherhood
  - evolutionary psychology
  - neurobiology
- Recognition of the impact on identity that fatherhood can have on men
- Recognition of the roles fathers are assumed to have in children's lives
- Recognition that parenting is a practice and not a biological function
- Fathers may be:
  - birth fathers
  - step fathers
  - foster fathers
  - non-biological fathers
  - uncles
  - grandfathers
  - carers
- Fathering includes the establishment of a relationship between the father and child
- Where fathers/a father figure play/s an active role in their children's lives this can have positive outcomes on the development of literacy, numeracy and social skills, self-esteem and the development of resilience in both boys and girls
RANGE STATEMENT

Experience, knowledge and skills fathers bring to their fathering may include but is not limited to:

- The ability and will to commit to the physical and ongoing support that a father provides and the involvement with the child/ren throughout their lives
- The capacity to make day to day decisions for the child/children that meet the children's needs
- The ability to care about and attend to the important transitions in a child's life and work to provide the optimal conditions to maximise their growth
- The ability to change and adapt as children grow older and the fathers mature in their relationship with their children
- The ability to create resources for material well being and the resolution of problems that allow opportunities for the development of emotional well being
- The ability to form lasting and healthy attachments with their children which can grow and change over time
- The capacity to relate with children by sharing meaningfully with them, both verbally and non-verbally
- Understanding of developmental needs of children including social, emotional, cognitive, physical and psychological needs
- Ways fathers can actively contribute to the developmental needs of child/ren
- Factors which can negatively impact on the establishment and maintenance of positive relationships with child/children including self limiting concepts that may hold men back from achieving their full potential as fathers
RANGE STATEMENT

Key issues facing fathers experiencing separation may include:

- Anxiety
- Stress
- Depression
- Stress and anxiety levels in separated men can be so high that these must be addressed as a priority before they are able to affect any other positive change or deal with other issues
- Separation and loss of family structure
- Social isolation from:
  - extended family
  - immediate family
  - friends of former couple
- Financial hardship
- Loss and grief
- Pride/shame
- Unemployment
- Issues faced by partner and child after separation
- Communication and relationship with ex-partner
- Shared parenting/co-parenting
- Effect on children
- Child focus/importance of maintaining this
- Importance of reassurance for child/ren regarding their ongoing importance in their parent's lives regardless of separation
- Care and contact issues
- Changes in parenting role
- Conflict between being a good father and limited physical contact
- Alternative housing requirements/homelessness
- Loss of power
- Family Court proceedings and frustration with 'family law system'
- Property settlement
- Maintenance
- Interaction with counsellors and mediators
- Re-partnering of ex-partner
- Relationship Conflict and Breakdown
- Developing a relationship with a new partner and the dynamics between the new partner, and any child/ren they have, and own child/ren
- Step-fathering
RANGE STATEMENT

continued ...

Key issues facing fathers experiencing separation may include: (contd)

- Responses of family and friends
- Mental illness
- Family violence and abuse

Issues faced by women and children may include but are not limited to:

- Guilt
- Sadness
- Torn loyalties
- Financial hardship
- Loss and grief
- Confusion
- Insecurity
- Loss of self-esteem
- Housing/homelessness

Range of responses to separation may include:

- Denial
- Stress
- Anxiety
- Anger
- Depression
- Stress
- Violence
- Withdrawal
- Self-harm, suicide
- Remorse
- Overcompensation
- Relief
- Optimism
RANGE STATEMENT

Common needs of separated fathers may include:

- Regain self-esteem/confidence
- To be heard/tell story
- Hear others’ stories/situations/responses
- Overcome isolation
- Gain information/support
- Advocacy
- Manage emotional responses
- Meet legal obligations
- Improve parenting/communication/relationship skills
- Accommodation/housing
- Learning housekeeping and cooking skills
- Financial advice
- Practical support

Respond appropriately may include:

- Heard, acknowledged and affirmed
- Contained if necessary
- Reframed if necessary
- Normalised as a valid response if appropriate
- Sensitive challenged if required
- Assist clients to address issues of stress, anxiety and depression to allow them to move toward a stage where they are able to engage constructively in planning and working toward the future

Key agencies include but are not limited to:

- Child Support Agency
- Family Magistrate Service
- Centrelink
- Legal aide
- Housing/accommodation services
- Mediation centres
- Australian Taxation Office
- Family Court of Australia
- Phone support services, e.g. Mensline/Lifeline
- Family Relationship Centres
- Other agencies providing support and counselling
- Websites for example MENDS and Parenting Children
- Stepfamily Association of Australia
RANGE STATEMENT

Realistic must include:

- Within the constraints of their personal context
- Where consideration is given for self care including addressing issues of stress, depression, and anxiety
- According to current legal obligations

Unit Descriptor

Unit Descriptor
This unit of competency describes the skills and knowledge required to effectively work educationally with multiple members of families simultaneously in a group or an individual family setting

Application of the Unit

Application
This unit of competence may be relevant for practitioners running relationship education programs, family support programs, parenting programs and early intervention programs

Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisites

This unit must be assessed after achievement of the following related units of competency:

- CHCFAM406B Engage and resource clients to improve their interpersonal relationships
- CHCFAM407B Work effectively in relationship work

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Plan and develop strategies for empowering healthy families</td>
<td>1.1 Demonstrate an understanding of relevant and current research based theories and models of families and interpersonal relationships and dynamics</td>
</tr>
<tr>
<td></td>
<td>1.2 Demonstrate an understanding of experiential learning models, theories, techniques and tools</td>
</tr>
<tr>
<td></td>
<td>1.3 Demonstrate a clear understanding of strengths and limitations of models, techniques and tools for use with family including contra-indications for use</td>
</tr>
</tbody>
</table>
ELEMENT

2. Apply strategies for empowering healthy families in groups or with individual families

PERFORMANCE CRITERIA

2.1 Demonstrate an understanding of the interplay of issues impacting on family members and the corresponding interplay and dynamics of inter-relational issues between family members

2.2 Provide evidence-based information about healthy family functioning

2.3 Model listening, respectful speaking, negotiating and problem solving skills

2.4 Facilitate experiential learning and practice for all family members in group or family settings

3. Facilitate group processes to support empowerment of healthy families

3.1 Recognise and respond to individual needs while maintaining family and group cohesion

3.2 Monitor interactions between family members and between individuals and the group to ensure full participation in learning activities to maximise learning outcomes

3.3 Respond appropriately to individuals and families displaying distress or concern in a manner that maximises safety and confidentiality for each individual

3.3 Demonstrate sensitivity toward social, cultural, religious, gender, age, socioeconomic, educational and family structure differences

4. Review changes in attitudes, knowledge and skills of participants and in family functioning

4.1 Progressively review and monitor outcomes and alter approach appropriately

4.2 Assess the impact on the family/group as a whole

4.3 Plan for the future and follow up as required
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Research based theories and models of family and interpersonal relationships
- Characteristics of healthy family functioning
- Relevant, current family practice theory
- Experiential learning models, theories, techniques and tools
- Family relationships
- Inter-relational issues
- Good working knowledge of relevant models for stages of group development, group dynamics particularly where interpersonal relationships already exist between members of the group
- Working knowledge of strengths-based practice principles and applications
- Basic understanding of child development including key stages of social, emotional, physical and cognitive development
- The difference between high conflict and domestic and family violence in interpersonal relationships

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Apply a strengths-based approach to working with individuals, families and groups
- Use a wide range of experiential learning processes to facilitate the empowerment of healthy families
- Empower and support clients
- Use effective conflict management in a family and group setting
- Coach individuals and families for behavioural change
- Work collaboratively with others including co-facilitators
- Work effectively with individuals and families, considering the full range of possible
REQUIRED SKILLS AND KNOWLEDGE

influences in their lives including:

- personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
- the interplay and dynamics of each of the above
- ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual

- Establish and maintain healthy boundaries
- Maintain confidentiality

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Use presentation skills including role play, psycho-drama, audience engagement, summarising, reframing and speaking respectfully and clearly
- Use group facilitation skills
- Respectfully communicate with a wide range of people including listening, empathic responding, paraphrasing, summarising, questioning, body language, appropriate use of humour and sensitivity

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills and application of this to working educationally with multiple members of families simultaneously.
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance.
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence.
- Assessment must confirm sufficient ability to work educationally with multiple members of families in groups and with individual families to assist them in developing their interpersonal skills and improving their interpersonal relationships.

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in the ability to engage and work with multiple members of families
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Related units:

This unit is to be assessed in conjunction with the following related unit of competency:

- CHCGROUP403D Plan and conduct group activities

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Research based theories and models may include:

- Examples of some theoretical frameworks are:
  - family systems theory
  - attachment theory
  - affect regulation
  - feminist theory
  - structural family therapy
  - family life-cycle theory
- Examples of models for working with families are:
  - theories of change, e.g. stages of change - Prochaska Diclemente
  - building strengths
  - solutions
  - social learning theory
  - educational
  - behavioural
  - family partnership
RANGE STATEMENT

Experiential learning models, theories techniques and tools may include but are not limited to:

- Role play
- Coaching
- Group discussions
- Exercises and activities
- Strengths-based techniques including positive reframing
- Mentoring
- Experiential and situational learning
- Psycho-drama
- Scenario/case studies
- Journals
- Letter writing
- Aim identification/goal setting
- Assessment of personal skills
- Review of resources including networks, friends and mentors
- Modelling effective communication and relationship skills
- Change triangle
- Genograms
- Family and couple map
- Johari Window
- FACES/MACES
- MYERSBRIGGS
RANGE STATEMENT

Issues impacting on family members may include:

- Couple, family and group dynamics, culture and communication styles
- Individual/personal issues:
  - work/life balance
  - disability
  - beliefs, values, experiences
  - self-esteem
  - grief and loss
  - aloneness and isolation
  - aging
- Health and lifestyle:
  - alcohol and other drugs dependencies
  - gambling
  - mental health including depression, suicide/self-harm tendencies, bipolar, anxiety, post traumatic stress disorder
  - illness (acute or chronic)
  - trauma
- Couple issues:
  - sexuality, intimacy
  - trust, respect, love
  - affairs
  - separation
  - repartnering
  - same sex couples
  - infertility
  - power and control within relationships
  - finances and financial and budgeting decisions
  - domestic and family violence and abuse
  - conflict
  - recognition and acceptance of difference
- Family issues and themes and legacies:
  - parenting and transitions from partners to parents
  - breast feeding and early parenting
  - developmental delays in children
  - roles of father and mothers in children’s lives
  - building resilience in children
  - step-parenting and blended families
RANGE STATEMENT

- influences of extended family and friends
- parenting in same sex relationships
- effects on children of any and all issues impacting on couple and family
- teenage/parent conflict
- parental abuse by children

Continued ...

Issues impacting on family members may include (contd):

- Family of origin and multigenerational issues:
  - grand-parenting when parent's relationship breaks down
  - childhood abuse
  - alcoholism
- Domestic and family violence, child abuse
- Family life-stage transitions and relationship life-cycles:
  - courting/dating
  - cohabitating, engagement, marriage
  - birth of first and subsequent child/children
  - aging
  - death of parent/partner
  - retirement
  - caring issues
  - children growing up, leaving home
  - older children remaining at home
  - becoming grandparents
  - separation/divorce
- Diversity (either within the family or between the family and wider community) as a result of:
  - culture
  - religion
  - gender including role development, affect of gender stereo-typing
  - language
  - education, literacy, numeracy
- Socioeconomic and political issues:
  - access to goods and services
  - poverty
- Critical societal events
RANGE STATEMENT

Follow up may include:

- Writing up of program outcomes and evaluations
- Documenting program for statistical and reporting requirements
- Follow up with program participants to ensure their needs have been met or to provide additional referral where required

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Encourage clients to comply with legislative, statutory and/or court orders | 1.1 Establish and confirm clients needs and expectations of the service and work role with regard specified mandated orders  
1.2 Clarify information for the client about the required compliance in service interventions and supports.  
1.3 Obtain feedback on the client's level of understanding of mandated requirements to comply.  
1.4 Advise clients of processes and timelines when interpretation and/or advice may be required from others in complex matters  
1.5 Explain organisation policies, procedures and any limitations for working with mandated clients |
| 2. Implement strategies to assist the client with compliance | 2.1 Tailor communication strategies to meet the clients needs and context  
2.2 Consult with the client regularly to ensure that interactions and plans aid and maximise opportunities for compliance  
2.3 Identify any further assistance that may require the facilitation of referral to other supports or services |
ELEMENT

3. Monitor compliance with legislative requirements and/or court orders

PERFORMANCE CRITERIA

3.1 Monitor client compliance in accordance with organisation policy and procedures

3.2 Examine cause and effect and use negotiation strategies to encourage appropriate responsibility and accountability for non compliant behaviour

3.3 Record and manage non compliance issues and any related incidents as required in individual work contexts

3.4 Discuss concerns or repeat issues of client non compliance with supervisors or as part of case review process where this is part of routine work practices

4. Manage unacceptable behaviour related to mandated compliance

PERFORMANCE CRITERIA

4.1 Challenge *unacceptable behaviour* and outline options and opportunities to change clearly and with positive encouragement

4.2 Confirm the implications of continuing unacceptable behaviour clearly, calmly and objectively

4.3 Use techniques according to organisations procedures to ensure personal safety and safety of clients/colleagues

4.4 Carryout intervention strategies according to an analysis of the situation and organisation policies and procedures
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Understanding different types of legislation/laws that may have resultant court orders that necessitate client's mandated compliance to engage and attend in service provision.
- Specific knowledge of the types of situations where mandated orders apply and the consequences of non compliance.
- Policies of the organisation that provide specific procedures and guidance for working with mandated clients.
- Process for the management non compliance by mandated clients, including the levels of responsibilities for clients, workers, organisations and other external entities.
- Potential liabilities and/or consequences for clients, workers, and organisation if court orders or legislative requirements are breached.
- Strategies for engaging involuntary and mandated clients so that genuine attempts are made to ensure clients have every opportunity to demonstrate compliant behaviour.
- Interpersonal techniques for safely and constructively challenging client non compliance within scope of job role.
- Safety management and planning strategies to address any aggressive resistant behaviour by involuntary and mandated clients.
- Indicators of potential conflict and crisis situations and how to de escalate these situations.
- Awareness of own limitations and when to consult more experienced practitioners, supervisors or colleagues for support in working with mandated clients.
- Awareness of organisation policies and procedures relating to responding to responses of behaviour, safety and security, delegations and duty of care.
- Principles of negotiation, conflict resolution and effective communication techniques.
- Reporting procedures and practices, internal and external, for working with involuntary and mandated clients.
- Awareness of the issues that may arise when working with mandated and involuntary clients.
REQUIRED SKILLS AND KNOWLEDGE

- Support and referral services and specialist as well as relevant a legal entities
- Principles of cultural practices and customs of the client and their impact on behaviour in a mandated participation context

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Comprehend and clarify for others, including colleagues and clients any requirements of mandated orders
- Identify and seek out expert individuals and services to provide advice to clients on their rights and responsibilities as involuntary clients.
- Apply effective interpersonal skills and conflict resolution skills, particularly negotiation in complex situations of high conflict as a result of a client's resistance to comply with orders
- Observe, interpret and cautiously describe in observational notes the client’s interaction with others and any relevance to mandated orders
- Identify the need to seek support form colleagues when working with involuntary clients
- Identify and respond within job role to any potential risks or concerns for own or others safety as a result of working with involuntary clients
- Apply a range of strategies for engaging with the client to problem solving issues of non compliance

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Constructively and safely challenge clients non compliance with orders - where this a requirement of the job role
- Apply effective communication skills including:
  - listening and understanding
  - speaking clearly and directly
  - persuading effectively
  - empathising
  - being appropriately assertive
  - negotiating responsively
- Work with diverse individuals and groups
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace and over a period of time.
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible.

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.

Method of assessment:
- Observation in the workplace (if possible)
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.
  - in cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written assignments/projects or questioning on essential knowledge and skills and consideration of required attitudes.
  - Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
  - The assessment environment should not disadvantage the candidate.
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English.
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment.
  - Language and literacy demands of the assessment task should not be higher than those of the work role.
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Mandated orders may include but are not limited to:*
- Court orders issued as a matter of federal or state legislation and jurisdictions:
  - contact orders program
  - child protection matter
  - family law matters
  - domestic and family violence orders

*Mandated clients includes:*
- Individuals attending the organisation or participating in aspects of service provision as a result of a court or other legally binding arrangement or directive
- Involuntary participant
RANGE STATEMENT

Complex matters may include:  
- Client may have additional needs that affect their ability to comply with court or other orders/agreements:  
  - mental health issues  
  - alcohol and other drug issues  
  - financial problems  
  - transportation issues  
  - child care problems  
  - communication issues  
  - disability  
  - language or other cultural factors  
  - conflicting orders  
  - violence and/or abusive behaviour

Limitations for working with mandated clients may include:  
- Client consistently resists compliance after all attempts are made by workers to engage with the client  
- Assessed risk determine that to continue to engage with the involuntary client has potential detrimental consequences  
- When clients deliberately sabotage attempts by the organisation and the workers to establish a workable arrangement for meeting court order requirements  
- When the needs of the client are beyond the purpose and capacity of service provision  
- When clients exhibit behaviours that are perceived or real threats to the safety of workers, colleagues or other clients  
- When courts or other legal entities direct the service provision to cease
RANGE STATEMENT

Communication strategies may include:
- Use of positive assertive language
- Non-verbal gestures
- Constructive questioning/listening
- Tone of voice
- Awareness of cultural values and sensitivity
- Defusing verbal aggression
- Negotiating agreements
- Languages other than English
- Indigenous languages
- Visual language
- Assistive language technology

Other supports or services may include:
- Legal advisers
- Psychologists
- Social Worker
- Drug and Alcohol services
- Community support agencies
- Child Support Agency
- Family Law Court
- Family Relationships Centres
- Behavioural education programs
- Medical Services

Unacceptable behaviour may include but is not limited to:
- Actual violence, threats of violence to workers and or others
- Verbal abuse or aggression towards workers and/or others
- Manipulation and sabotage of processes aimed at engagement and facilitation of services

### Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Collect and prepare material | 1.1 *Interview relevant individuals* to obtain *factual information* and records as required  
1.2 Collect, analyse and record all *sources of information* gathered  
1.3 Analyse information to confirm its authenticity and identify any further information that needs to be obtained,  
1.4 Prepare information for consideration of courts using established *organisation procedures* and compliance with any *legislative requirements*  
1.5 Liaise with relevant parties to keep them informed of the report progress  
1.6 *Arrange support*, within organisation guidelines, for clients during the preparation and final submission of the report  
1.7 *Record, and store information* in accordance with legislative requirements and organisation policies and procedures |
ELEMENT | PERFORMANCE CRITERIA
---|---
2. Provide information about the reporting process | 2.1 Provide information about the progress of the court report preparation to relevant parties as requested
| 2.2 Check levels of client understanding for potential consequences of the submission of a court report where this is part of the workers job role,
| 2.3 Refer the client to experts for exploration of options arising from the preparation and submission of a court report

3. Prepare reports | 3.1 Record and report only factual information as needed within the professional domain of the worker
| 3.2 Cite sources of information clearly with due regard for confidentiality and privacy and within legislative requirements
| 3.3 Write clearly and concisely using objective statements without value or personal judgement
| 3.4 Ensure the report focuses on the purpose for which it was requested
| 3.5 Prepare a summary or concluding statement at the end of the report and include recommendations if requested and if it is within own professional domain and expertise
| 3.6 Present copies of the file marked confidential to the intended audience and register an entry of its distribution
| 3.7 Present copies of reports to clients where this is a policy of the organisation
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Legal implications and responsibilities of preparing a report on a clients present and past circumstance, including privileged information, confidentiality, mandated reporting, consequences of potential domestics and family violence and/or abuse.
- Legislation as it applies to the gathering, preparation and recording of information for purpose of justice processes.
- Relevant organisation policy and procedures for the collecting, preparation and recording of client information and its distribution to external parties.
- Processes for interviewing to obtain information for the purpose for preparing a court report.
- Legal implications of material gained through interview.
- Workings of the justice process for which the report is to be submitted, including timeframes for submission of material and other protocols.
- Objective and concise methods of writing acceptable to justice process standards.
- Written communication which includes:
  - reading and interpreting workplace documentation.
  - writing to the intended audience needs.
  - interpreting the needs of internal and external individuals.
- Acceptable sources of information for the preparation reports.

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply interview skills with a diverse range of people for the purpose of obtaining information for preparing a court report.
- Address concise and acceptable writing standards to a level of formality acceptable to organisation and court.
REQUIRED SKILLS AND KNOWLEDGE

- Use word processing skills for the preparation of reports
- Maintain impartiality, and non-judgemental attitude in the preparation of court reports
- Identify and implement organisation procedures for obtaining, recording, and storing of information
- Distinguish between factual and subjective information and what is critical for inclusion in the report
- Seek expert advice on the preparation of the report and its content, e.g. legal advice, medical experts
- Implement confidentiality and privacy limitations where and when appropriate and in meeting legislative and organisation requirements

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Use communication techniques; active listening, reflection, summarising, questions and statements, gaining agreements on actions and explaining outcomes
- Interpret legalese into language understood by client and significant others
- Set boundaries for roles and actions
- Demonstrate empathy and rapport building
- Manage cross cultural issues

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Observation in the workplace (if possible)
- where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- in cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written assignments/projects or questioning on essential knowledge and skills and consideration of required attitudes
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Interview relevant individuals may include:

- Interviews are to be conducted in accordance with any legislative requirements and regard for confidentiality and informed consent of the client
- Relevant individuals:
  - clients and significant others
  - specialists
  - colleagues and other staff with factual and critical knowledge of the client's circumstance

Factual information includes:

- Establishing the who, what, when, where, how of the clients circumstance in objective terms
- Clients presenting circumstances including, referred by, purpose of engagement, observations of interactions and participation, current situation and any recommendations is appropriate
- A level of detail that is descriptive, objective yet not over interpretive and where personal bias and prejudices are not present.

Sources of information may include:

- Client interview
- Client records
- Observational notes and recordings of other staff
- Documentation of other services, specialist or agencies as relevant
- Interviews with clients significant others
RANGE STATEMENT

Organisation procedures may include:

- Privacy and confidentiality
- Access and equity
- Information systems obtaining, recording and storing
- Information dissemination
- Communications
- Professional indemnity
- Court report and observational note taking

Legislative requirements may relate to:

- Family Law
- Child Protection
- Domestic and Family Violence
- Privacy
- Child Support (Assessment) Act

Record and store information include:

- Recording and storing information in accordance with privacy and confidentiality policies
- Ensure that all notes, hard copy or electronic are maintained in a safe secure systems with appropriate backup systems where possible
- Ensuring the maintenance of such systems meets legislative and quality assurance standards of the organisation

Arrange support for clients may include:

- Family and friends
- Community based services
- Advocacy
- Legal Advice
- Child Support Agency
- Support and education groups

Experts may include:

- Legal advisers
- Specialist medical services
- Court staff
- Government offices
- Community based agencies with specific target groups

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. **Apply strengths-based principles when providing supervision** | 1.1 Apply knowledge of models of *supervision* including roles and responsibilities within supervision  
1.2 Apply understanding of the *principles of strengths-based practice in supervision*  
1.3 Demonstrate recognition of myths and realities for using strengths-based practice in supervision |
| 2. **Use strengths-based tools to explore issues in supervision** | 2.1 Identify a range of *strengths-based tools*  
2.2 Identify own strengths and ability to use strengths-based tools effectively in supervision  
2.3 Develop a safe and supportive environment to use the strengths-based tools effectively with others in supervision |
ELEMENT

3. Conduct supervision using a strengths-based approach

PERFORMANCE CRITERIA

3.1 Negotiate the supervision relationship using a strengths-based approach

3.2 Identify and address issues of power inherent in supervision

3.3 Formulate a plan to address issues using 'five column' approach

3.4 Identify steps, timeframes and person responsible for action to build on skills, strengths and resources to resolve issues

3.5 Record supervision process and outcomes using letters and strengths-based tools

4. Review supervision outcomes

4.1 Prepare for supervision by reviewing letters and five columns

4.2 Prepare questions for supervision that will elicit progress towards goals

4.3 Recognise and celebrate success

5. Deal with difficult issues using a strengths perspective

5.1 Identify issues that can occur in supervision

5.2 Apply a strengths-based approach to address these issues
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Theory and models of supervision
- The role of supervision including the role in building the supervisee's competence to support their work practice and the role of supervision to meet organisation requirements
- Roles and responsibilities of supervision
- Understand the application of strengths-based practice and tools in supervision
- Understand principles of strengths-based practice
- Knowledge of micro-skills used in setting up a learning relationship with a client
- Knowledge of own strengths and growth areas
- Understand the impact of expectations including client, organisation and supervisee expectations and the corresponding pressures this can bring to the supervisee

Essential skills:
It is critical that the candidate demonstrate the ability to:

- Apply strengths-based principles when providing supervision
- Recognise and remain within bounds of own practice
- Understand the limitations and boundaries of the practitioner's role within the context of their responsibilities within their agency and manage own and others expectations in relation to these
- Demonstrate awareness of self and how experiences, biases, values and beliefs of self and significant others in own life may impact on own work practice and ability to provide strengths-based supervision
- Identify, respect and foster supervisee's strengths
- Identify and address social, personal, cultural and structural constraints to people's growth
- Reflect positive attitudes about people's dignity, capacities, rights, uniqueness and
REQUIRED SKILLS AND KNOWLEDGE

commonalities
- Work consultatively and collaboratively with supervisee to identify future goals and visions and to effect changes toward these
- Elicit supervisee strengths to put towards possibilities for change
- Motivate supervisees to effect changes in their lives through the fostering of their strengths
- Work constructively to complement people's existing strengths and assist them with solution building approaches rather than 'problem solving' approaches

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:
- Acknowledge and address power imbalances between supervisors and supervisees
- Recognise and address dynamics inherent in organisation practices and structures that are incongruent with strengths-based principles and processes
- Use open, honest, effective and appropriate communication which is at all times respectful and promotes a partnership approach to working with people based on consultation, collaboration and mutual learning
- Work inclusively with the whole person, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance.
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence.
- Assessment must confirm sufficient ability to apply strengths-based approach to the provision of supervision over a sustained period of time.

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.
EVIDENCE GUIDE

Method of assessment:
- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in the provision of supervision using a strengths-based approach
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Supervision may include but is not limited to:

- Formal and/or informal supervision sessions
- Group supervision
- Telephone supervision
- Peer appraisals (where appropriate levels of experience exist)
- Internal or external supervision
- Journals
- Video tapes of facilitation of groups
- Co-facilitation and reports from these
- Facilitating reflection on practice
- Negotiation of supervision between the supervisor and the supervisee
- Establishment and shared understanding of the roles and responsibilities of the supervision process
- Undertaken through the development of an appropriate professional relationships
- Involve the growth of the person, their professional development, gaining of knowledge, skills, attitudes for the further development of their professional practice

Principles of strengths-based practice in supervision must include:

- Respect for people’s dignity, uniqueness and rights
- Self determination and empowerment
- Recognition and use of strengths (skills, capacities, knowledge, resources, information, hopes and dreams)
- Mutual learning between supervisor and supervisee
RANGE STATEMENT

Strengths-based tools may include:

- **Miracle questions** - 'Let's imagine....You go to bed tonight and while you are asleep a miracle happens .....When you wake up the problem has less effect on your life. On a scale of 0 to 5, how much is the problem affecting your life? How will you know things have improved? What will be different? What will others notice is different?'

- Scaling questions assists professionals and service users to identify the problem or issue, set achievable goals, have a starting point for change, notice what is already working well, identify strengths and exceptions, measure progress and allow for the introduction of metaphors

- Vision and goal setting assists professionals and clients to identify where the service provider would like to move toward and how they can effect this change

- Strength focuses cards assists professionals and clients to identify strengths or issues

- Photo-language cards, objects and images assists professionals and service users to identify and represent significant feelings or issues

- Previous success stories assists professionals and clients to identify ways that people have successfully dealt with similar problems

- Relationship questions can assists professionals and clients to identify and explore a problem by shifting the focus to how key relationships in the person's life view the situation for example, 'What would your best friend (mother) say? Or 'How would your family tell there was a miracle and your problem is solved?'

- Letter writing involves the documentation of change and learning in a personal style of writing a letter to the other person recognising changes in learning that you have observed in them

- The **five column approach** to problem solving is a table that enables professionals and clients to have a guide to explore problems in different ways that build on existing strengths. The guiding questions are: What is the issue? Establish a picture of the future using the miracle question. What strengths and resources do you have to put towards the picture of the future? What strengths and resources do you need from others? What are the first steps to take towards the picture of the future? Who needs to do what and
RANGE STATEMENT

when?

Issues that can occur in supervision may include but are not limited to:

- Lack of clarity of roles and responsibilities within the supervision relationship
- Fundamental and irreconcilable differences of philosophy, values, beliefs or use of theoretical frameworks or models of practice between those in a supervision relationship
- Unrealistic expectations on behalf of the supervisor or the supervisee
- Unrealistic assessment of strengths and/or unwillingness to develop realistic self-awareness on behalf of the supervisee
- Time pressures which result in insufficient contact and support provided through the supervision process

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.
The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Demonstrate an understanding of the application of current and relevant affect regulation theory, practice and models | 1.1 Demonstrate understanding of historical, current and relevant affect regulation theory and tools  
1.2 Demonstrate awareness of self including own strengths and limitations  
1.3 Demonstrate ability to positively manage own relationships including sensitivity to others and ability to respond to the needs of others  
1.4 Demonstrate ability to appropriately apply reflective, conceptual, organised and empathic styles and approaches to a range of situations |
| 2. Undertake program screening and assessment | 2.1 Discuss the program objectives and format with potential participants to assess the program's suitability for them  
2.2 Identify special needs of potential participants in pre-program assessment  
2.3 Identify conditions potentially incompatible with program objectives  
2.4 Select participants for program according to selection criteria  
2.5 Communicate confirmation of participant acceptance to client and provide referral information to clients not selected  
2.6 Undertake ongoing assessment of the suitability of continued participation in program throughout program |
3. Work in partnership with clients to develop their personal and social competence

3.1 Work with clients to develop a greater awareness of self including a sense of responsibility and ownership of own behaviour

3.2 Work with clients to develop and apply emotional regulation techniques

3.3 Work with clients to develop a greater awareness and understanding of the needs, issues, emotions, feelings, influences and responses of others and the likely impact these may have on relationships

3.4 Work with clients to develop and apply relationship management techniques

4. Assist clients to monitor and assess their ability to develop and maintain interpersonal relationships

4.1 Assist clients to reflect on and take responsibility for development of skills and corresponding changes in own lives as a result of development of interpersonal relationship skills

4.2 Assist clients to set goals for the ongoing development of personal and social competence to promote health, well being and improved relationships
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Understanding of the application, strengths and limitations of historical, current and relevant affect regulation theory, models and practice
- Knowledge of the variety of emotions in human relationships
- Role and function of emotions in human relationships for example the fight/freeze/flight responses and emotional development and pre-conscious, unconscious and conscious responses
- Different levels of emotional responses including preconscious, limbic, cortical (unconscious and conscious)
- Ways to regulate emotions and challenges for doing this
- Cross-cultural aspects of emotions and emotional regulation
- Difference between relationship conflict and domestic and family violence
- The nature of domestic and family violence including key indicators, effects, and appropriate responses to ensure the safety of self, clients, their families, colleagues and others within appropriate cultural contexts
- Models of conflict resolution and mediation
- Understanding of a wide range of client groups and cultural diversity

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Deal with unexpected (and sometimes inappropriate) reactions and input from participants
- Regulate strong emotions in self and clients
- Demonstrate self-awareness including knowing own goals, beliefs, values, motivators and rules
- Apply reflective, conceptual, organised and empathic styles of thinking when dealing
REQUIRED SKILLS AND KNOWLEDGE

with a range of issues and circumstances

- Assist clients to develop their intrapersonal and interpersonal skills and awareness
- Assist clients to explore their emotions and develop a greater understanding of these in a positive, constructive and safe way
- Assist clients to identify emotional responses which could be detrimental and/or unsafe to self, others and/or relationships
- Assist clients to develop strategies to regulate their emotions

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Model effective, respectful and inclusive communication skills including listening, empathic responding, paraphrasing, summarising, questioning, body language, models of conflict resolution, assertiveness, tact and sensitivity
- Give and receive critical and constructive feedback in a sensitive way
- Work as part of a team, including multi-disciplinary professional groups
- Deal with conflict in an open, assertive and appropriate manner
- Be aware and responsive to diverse groups of people who may challenge practitioner's values and beliefs
- Work inclusively with the whole client, considering the full range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual

EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of working effectively with clients to assist them to develop emotional regulation and develop and maintain better interpersonal relationships as a result.
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance.
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence.
- Assessment must confirm sufficient ability to work effectively with a range of clients to assist them to develop emotional regulation.

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work.
- All workers should develop their ability to work in a culturally diverse environment.
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people.
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities.

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place.
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through working with clients in groups or individually to assist them to develop emotional regulation
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Historical, current and relevant affect regulation theory and tools may include:

- Emotional intelligence
- Attachment theory
- Perception, affect, behaviour theory - CBT
- Strengths-based
- Complex developmental trauma
- Emotional iceberg - 'visible' or manifest behaviours and primary feelings are represented at the 'tip of the iceberg' and deeper seated feelings are hidden below
- Up and down regulation of emotional responses
- Neurobiology, psychology and evolutionary psychology
- Primary and secondary feelings
- Intensity of emotions and the differences between people, up and down emotional regulation
- Hierarchical nature of emotional responses and the integration of limbic and cortex brain functions
- Diaries/journals/autobiographic processes
- Reflective exercises
- Case studies/scenarios
- Exercises predicting the responses of others
RANGE STATEMENT

Awareness of self may include:
- Goals, immediate and long term
- Beliefs about ourselves and others
- Values, the things we hold dear
- Motivators
- Rules: the 'shoulds', 'musts' and 'oughts' we live by
- Self-talk, the inner voice that tells us we can or cannot do something
- Non-verbal behaviour
- Personal style
- Skills, strengths and limitations
- Awareness of emotional triggers
- Awareness of filters we use and how we perceive things
- Physiological responses to stressful situations
- The ability to explore the reality base for feelings
- Development of the ability to be open to constructive feedback
- Development of the ability to be realistic about own strengths and limitations

Reflective, conceptual, organised and empathic styles may include:
- Reflective - thoughtful, logical, problem solving focus, evaluative
- Conceptual - metaperspective, big picture, decisive, exploratory, strategic
- Organised - planning focus, purposeful, considerate, reliable
- Empathic - helpful, caring, harmonious, spiritual

Special needs may include:
- Those associated with:
  - potential for self-harm/harm to others
  - disability
  - literacy level
  - travel
  - childcare
- Cultural influences or protocols
RANGE STATEMENT

Pre-program assessment may include but is not limited to:

- Phone interview
- One-on-one discussions
- Referral information
- Areas covered may include:
  - level of emotional reactivity
  - criminal history
  - history of assaults
  - mental health history
  - history of emotional or psychological abuse
  - history of physical abuse

Conditions potentially incompatible with program objectives may include:

- Presence of domestic family violence or abuse in current relationships
- Mental illness
- Drug and alcohol abuse
- Incompatibility with selection criteria
- Language, literacy, numeracy and education abilities prevent effective engagement with program and achievement of program outcomes

Selection criteria may include:

- Location
- Life circumstances or situations
- Relevance to target issues
- Age
- Gender
- Ability to commit to group process
- Suitability for intervention focus
RANGE STATEMENT

Emotional regulation techniques may include but are not limited to:

- Understanding and empathy for others relies on understanding of self
- The development of personal competence to better manage self including an understanding of strengths and limitations and a capacity for emotional regulation
- Identifying and avoiding situational triggers e.g. excessive amounts of alcohol, private meetings with an ex-partner
- Recognising emotional triggers and avoiding them
- Recognising early warning signs including physiological signs and symptoms for emotional escalation and removing oneself from the triggers or employing counter measures for example, time out, relaxation techniques, positive thinking, mental exercises
- Awareness of self including beliefs, values, emotional 'hot buttons' and developing a context for feelings and emotions
- Establishment of clear boundaries where identification of own issues is made and separated from issues of others
- Development of assertive behaviour including recognition of own needs and ability to assertively communicate these
- Identify and process issues in order to diffuse the issue and its impact
- Using exploration of 'worst case scenarios' and dealing with these to alleviate anxiety about issues
- Recognising and appropriately responding to stressful feelings
- Adoption of positive self-talk and building of self-esteem based on realistic perception of self, strengths and growth areas
- Development of effective and appropriate support networks
- Identify and use appropriate mentor/coach
- Identify and foster environments and conditions for effective emotional management
RANGE STATEMENT

Relationship management techniques may include:

- Developing an appreciation of others and an ability to sensitivity respond effectively to their feelings
- Finding and working from common ground
- Negotiation and compromise
- Assertive and effective and respectful communication
- Working within a child focused framework
- Using strengths-based approaches to relationships
- Identify and fostering environments, opportunities and conditions for effective relationship management

Unit Descriptor
Unit Descriptor
This unit of competency describes the skills and knowledge required to monitor the training and development of educators to facilitate the delivery of quality programs.

It also includes competencies related to the design and delivery of training and development activities for educators.

Application of the Unit
Application
This unit applies to those involved in training and development of educators and includes competencies related to the design and delivery of training and development activities for educators.

Licensing/Regulatory Information
Not Applicable
Pre-Requisites

Pre-requisites

This unit must be assessed after achievement of the following related units of competency:

- CHCFAM406B Engage and resource clients to improve their interpersonal relationships
- CHCFAM407B Work effectively in relationship work
- CHCFAM408B Relationship and family work in the context of the agency and sector

Employability Skills Information

Employability Skills

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
## Elements and Performance Criteria

### ELEMENT

1. Monitor training and professional development undertaken by relationship practitioners

### PERFORMANCE CRITERIA

1.1 Consult with practitioner to determine the *types of training and development* needed in order to help the practitioner meet the demands of their role in program delivery and to meet agency/organisation/funding body requirements

1.2 Provide advice and information on the most appropriate training and development for practitioners

1.3 Evaluate training to be undertaken by practitioner against identified program needs, practitioner needs and available resources

1.4 Encourage practitioner undertaking training to raise problems or difficulties

1.5 Encourage practitioner to evaluate their progress towards achieving their learning goals for the training and development undertaken

1.6 Provide opportunities for training and development for practitioner within approved budgets

1.7 Provide further guidance and recommendations for future training and development based on practitioner evaluations and current performance

1.8 Maintain appropriate training and development records for practitioners in accordance with organisation or funding body guidelines and requirements
# CHCFAM523B Manage training and development activities for relationship practitioners

## ELEMENT

### 2. Plan and facilitate access to professional development for practitioners

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.1 Identify specific training and development needs of practitioners</td>
</tr>
<tr>
<td>2.2 Develop professional development plans in consultation with practitioners</td>
</tr>
<tr>
<td>2.3 Identify resources required for professional development</td>
</tr>
<tr>
<td>2.4 Organise resources to ensure efficient and effective access to professional development</td>
</tr>
<tr>
<td>2.5 Apply a systemic approach to professional development to ensure processes are revised and modified as necessary to meet the stated learning needs of practitioners</td>
</tr>
<tr>
<td>2.6 Provide support and feedback to practitioners to encourage the development of a critically reflective approach to work</td>
</tr>
<tr>
<td>2.7 Provide opportunities for practitioners to practice and utilise their learning in order to achieve the specific outcomes stated for the professional development</td>
</tr>
<tr>
<td>2.8 Collect and document evidence of satisfactory performance by the practitioner against the stated objectives for the professional development activity</td>
</tr>
</tbody>
</table>

### 3. Plan and conduct professional development activities

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1 Clarify the purposes and objectives of professional development activity to determine if they are achievable</td>
</tr>
<tr>
<td>3.2 Develop professional development activity in line with purposes and objectives</td>
</tr>
<tr>
<td>3.3 Estimate costs and compare against proposed budgets for professional development activity</td>
</tr>
<tr>
<td>3.4 Establish promotion and engagement strategies and provide information within designated timelines</td>
</tr>
<tr>
<td>3.5 Make contingency arrangements to ensure the smooth running of the professional development activity</td>
</tr>
<tr>
<td>3.6 Produce required resources and other products within required timeframes</td>
</tr>
<tr>
<td>3.7 Evaluate products and processes of professional development activity</td>
</tr>
</tbody>
</table>
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Methods to assess training and development needs of practitioners working in a diverse range of programs with a wide range of client groups
- Methods for assessing and evaluating professional development
- Available training opportunities and resources
- Professional development approaches and methodologies which are appropriate for relationship practitioners
- Current trends and issues in relationship education
- Good understanding of work in the area of relationship education
- Budgeting, resource allocation
- Models and roles and responsibilities of supervision, mentoring and coaching
- Conflict resolution and mediation

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Analyse individual needs for training
- Balance individual and organisation needs for training and development
- Prioritise and allocate scarce resources to maximise the achievement of organisation and individual outcomes in the area of professional development
- Provide effective coaching, mentoring and supervision for relationship practitioners
- Facilitate educators to develop a self-reflective approach to accessing training for professional development
- Integrate theory and practice of relationship education
- Analyse and evaluate external sources of training for suitability
- When working with relationship practitioners, model effective, respectful and inclusive communication skills, particularly in relation to providing them with expert support and...
REQUIRED SKILLS AND KNOWLEDGE

guidance in relation to their own professional development, including:

- listening
- empathic responding
- paraphrasing, summarising, questioning
- body language
- models of conflict resolution, assertiveness
- sense of humour, tact and sensitivity

Give and receive constructive feedback

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Analyse develop and implement systems
- Solve problems
- Deal sensitively and assertively with conflict and potentially difficult situations
- Work inclusively with the whole person, considering the range of possible influences in their lives including:
  - personality, culture, language, religion, age, gender, family of origin, education levels, learning abilities, economic situation, social context, health, disabilities and issues
  - the interplay and dynamics of each of the above
  - ability to respond respectfully to the whole person demonstrating inclusive practice through competently valuing each and every person as a whole unique individual

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills in the application of managing the training development activities for relationship practitioners
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Assessment must confirm sufficient ability to work effectively with relationship practitioners in a supervisory coordination role providing coaching, mentoring and support for professional development

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to:
  - a relevant workplace or an appropriately simulated environment where assessment may take place
EVIDENCE GUIDE

Method of assessment:

- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment through the management of training and development activities for relationship practitioners
  - realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios, case presentations, written assessment
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Types of training and development may include but are not limited to:

- Participation in training in groups
- Access to education and training to individuals
- Face-to-face formats
- Distance education
- Coaching/mentoring
- On the job training
- Training delivered from within the agency or by an external source
- Undertaking formal and informal training including recognised training, on and off the job
- Workplaces in other agencies or with other programs within own agency
- Review of current journals, articles, texts
- Undertaking supervision
- Application of reflective work practice
- Attendance at conferences, seminars, meetings
- Through opportunities to network
- Through membership of professional associations
- Staff training and development may vary in accordance with:
  - agency/organisation funding policies and guidelines
  - the scope of the role of the educator
  - paid or volunteer, full time or part time nature of the educator's role

### Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

### Elements and Performance Criteria

#### ELEMENT

1. Assess appropriateness of the case for a child inclusive approach

#### PERFORMANCE CRITERIA

1.1 Recognise and explore a family situation that may indicate/invoke child abuse or neglect

1.2 Implement protocols for child protection as per legislation and organisation policy

1.3 Provide the participants with appropriate support service referrals

1.4 Assess the participant's actions with consideration or any detrimental effects to the best interests of the child

1.5 Withdraw services when unsatisfactory behaviour or situations continue to place the child/ren at risk and follow organisation procedures for follow up actions
<table>
<thead>

<td>3.4 Assist parents/carers who may be distracted by their own interpersonal disputes or conflicts, to re focus on their caring and parental roles</td>
</tr>
</tbody>
</table>
ELEMENT

4. Integrate the children's needs and views into the ongoing counselling or dispute resolution process

PERFORMANCE CRITERIA

4.1 Engage the services of a child consultant to represent the needs, perceptions and attachments of each child to each parent/carer in the dispute

4.2 Apply knowledge of core research findings to family dispute resolution or counselling process where child's needs and views are to be incorporated into interventions and supports

4.3 Communicate with the child consultant about the child's best interests and any methods of integrating child's need and views into counselling or dispute resolution processes

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Contemporary research in the provision of conflict management approaches and the inclusion of children in conflict resolution processes
- Contemporary research and approaches in responding to needs of Aboriginal and Torres Strait Islander families and communities
- Contemporary research and approaches in responding to needs of culturally and linguistically diverse families and communities
- Thorough understanding of the provision for children and property in the Family Law Act, Child Support (Assessment) Act
- Impact of conflict, particularly high and or/ongoing conflict, on children, and the use of child focused and child inclusive techniques to address and minimise these impacts
- Understanding and relevant application within job role context of main concepts of family, couple and child dynamics in normal developmental and abnormal forms
- An understanding of the sources of power imbalances in relationships and an ability to
REQUIRED SKILLS AND KNOWLEDGE

- recognise and respond appropriately to the indicators of such imbalances in their clients
- Procedures and instruments to screen for abuse before and during the dispute resolution process in addition to safety planning requirements and procedures for clients and staff as well as limitations
- Community, educational or other resources for referral or use within the dispute resolution or counselling process
- Other dispute resolution or counselling options such as litigation or community based interventions, as well as their strengths and limitations
- Self knowledge, including personal and cultural attitudes toward family conflict and the impact of self on the parties and process
- Range of impacts of separation and divorce on couples, parents, children and other family members

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply dispute diagnostic skills including:
  - recognising indicators of substance abuse
  - recognise and respond appropriately to the indicators of domestic and family violence and abuse and power imbalances in client situations
  - identifying, responding to and managing cultural dimensions of the conflict
  - recognise own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process
- Apply relationship skills including:
  - effective liaison and working relationships with other allied professionals
  - establishing and maintaining trust and respect
  - encouraging client self determination
  - recognising own reactions to the dispute and/or disputants that might impair practitioner ability to conduct a fair process
  - applying age appropriate methods of relating to and eliciting perceptions, information and responses from children who have experienced high levels of parental conflict
- Apply content management skills including:
  - obtaining, identifying, analysing, prioritising and evaluating information
  - assessing the issues and options and reasoning logically
  - reading, comprehending and using relevant documentation
  - writing clearly and concisely using neutral language
  - creating, maintaining and organising records and materials in an appropriate manner
  - eliciting information from other professionals in the dispute resolution process
  - using and exchanging information in a manner that broadens rather than limits the participants options
REQUIRED SKILLS AND KNOWLEDGE

- Apply process skills including:
  - conducting appropriate intake procedures and ascertaining appropriateness of mediation for participants
  - assisting participants to articulate concerns, negotiate and develop and agenda
  - assisting participants in converting positions of interest and to explore own underlying interests and become aware of others, particularly children
  - work within a child focused approach using appropriate strategies for engagement.
  - encourage clients to focus on future options and contingencies and to create and assess workable options
  - Assist clients to understand consequences of their suggestions and plans

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- consistency of performance should be demonstrated over the required range of situations relevant to the workplace
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment

- Observation in the workplace is essential
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
- Child inclusive facilitation skills involving actual client contact are to be assessed initially in a simulated setting. If successful, a number of further assessments are to be conducted during workplace application with actual client families under direct supervision of an experienced and qualified practitioner and over a period of time
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Detrimental effects of parental/carer ongoing high level conflict on children may include but are not limited to:

- Trauma
- Stress
- Depression
- Problems developing social skills
- Feelings of isolation and self blame
- Grief and loss
- Mistrust
- Difficulty forming and maintaining relationships
- Difficulty determining appropriate expressions of emotions

Child focused practice in this context requires:

- Working with the parents/carers and facilitating feedback from the child's perspective about issues related to:
  - separation and divorce
  - ongoing parental/carer conflict
  - future needs and wants of the child
  - child's past and present experiences of ongoing parental/carer conflict

Needs of the child may include:

- Emotional, physical safety and protection from neglect and abuse
- To choose to participate
- To participate in planning for actions directly involving the child or young person
- Participate in age appropriate activities
- Relationship interactions with significant others
- To express emotions, concerns, feelings and wants and particular experiences

Experienced and skilled staff may include:

- Child counsellor/therapist
- Child consultant
- Psychologist
- Social worker
- Lawyer
- Child protection worker
RANGE STATEMENT

A child consultant is:

- A highly specialist role and assesses the children's experience of conflict and separation issues
- Normally, independent of the dispute resolution practitioner role

At risk children and young people may require practitioners to:

- Respond to child abuse and neglect issues according to and as defined by state laws
- Where mandatory reporting applies, practitioners must abide by that particular child protection legislation
- Adhere to professional codes of ethics and conduct in matters of alleged or substantiated child abuse or neglect
- Engage the services of a child consultant

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Engage with and gather appropriate developmental history from parents</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1 Take an appropriate history about the child in question, relative to the presenting concern</td>
</tr>
<tr>
<td>1.2 Engage parents in establishing trust and confidence in the child consultant's role</td>
</tr>
</tbody>
</table>
ELEMENT

2. Engage children and young people in assessment interviews

PERFORMANCE CRITERIA

2.1 Use a range of verbal and non-verbal and projective interview methods and their appropriate application to gain an understanding of child needs and views.

2.2 Explain role and boundaries of child consultant role to children

2.3 Explain and familiarise children with organisation processes as necessary in the counselling or dispute resolution context

2.4 Formulate the resultant content and process material from the child, including documentation requirements as required by the organisation

3. Formulate the child's material into a working knowledge of their needs and experiences, inline with their developmental stage

3.1 Come to a clinical understanding of the child's experience of conflict and separation issues, weighed by their developmental level and other salient factors in the case

3.2 Consider how best to communicate these findings to the parents or adult parties responsible for the child

4. Communicate needs, rights and interests of children and young people as expressed by them

4.1 Engage significant others and assess their ability to accept child/young person opinions, views and concerns

4.2 Communicate children's and young peoples opinions, views and concerns to parents using the child's/young people's own words and expressed efforts

4.3 Facilitate communication between children and/or young people and significant adults as appropriate

4.4 Provide timely and sensitive feedback to significant adults

4.5 Model to significant adults appropriate inclusion of children and young people needs and views in planning and decision-making
ELEMENT

5. Ensure safety of children and young people in participation process

PERFORMANCE CRITERIA

5.1 Explain to children and young people, agency and/or worker actions, for ensuring safety and minimising risk

5.2 Undertake risk and safety management of children and young people

5.3 Seek feedback from children and young people

5.4 Debrief children and young people after incidents

5.5 Implement support systems for children and young people to ensure emotional and physical safety

5.6 Create and maintain a child and young person friendly environment

5.7 Identify and monitor family relationship dynamics and issues

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Impacts of family separation and attachment distress, and an ability to identify them through observation
- Understanding of developmental sequelae of separation and conflict
- Working knowledge of child development (social, physical, cognitive and emotional), lifespan development, attachment theory, developmental models, family systems theory and theories on the vulnerability and resilience of children in high level parental conflict contexts
- Grief and loss responses of children who have experienced high levels of parental conflict and separation
- Importance of peer relationships for children
REQUIRED SKILLS AND KNOWLEDGE

- Communication models working with and engaging children
- Relationship and implications of family violence, substance use, mental illness, disability
- Legislation relevant to position and service
- Childs physical and emotional reactions to separation, conflict and violence, trauma
- Aspects of the case management processes relevant to position and organisation context
- Organisations policies, procedures and protocols in relation to child inclusive practice
- Principles and practice standards for working within the child's best interests
- Legal responsibilities and duty of care
- Child inclusive/centred practice strategies
- Indicators, effects and dynamics of abuse and neglect
- Parenting and family dynamics in different cultures
- Child rights to protection, active right to participate, to choose course of action and make decision at their level of ability
- Conflict of Interest, confidentiality and limitations of confidentiality in child inclusive practice
- Indicators of abuse, types of abuse, children who are particularly vulnerable and reporting systems
- Range of service options for referral
- Child psychopathology
- Psycho-emotional development of the child
- The inner world of the child and its expression through play and behaviour

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Recognise and work with abnormal developmental process and psychopathology in presenting children
- Work with a range of verbal, non-verbal and projective interview methods and their appropriate application
- Formulate the resultant content and process material for the child
- Engage children in assessment using effective:
  - age appropriate language and interview techniques
  - non-verbal communication
  - case notes recording
  - empathy and rapport building
  - observation
  - active listening
- Implement conflict resolution and negotiation skills when required in communications with parents/carers
- Advocate for the rights and safety of the child client
REQUIRED SKILLS AND KNOWLEDGE

- Complete risk assessment for the safety of children's participation in the interview and subsequent processes
- Facilitate referral to other specialist or support services as a result of thorough assessment and when appropriate
- Interview and engage families in communication exchanges that are meaningful and contribute to the best interests of the child through dispute resolution or counselling processes
- Set boundaries for roles and actions as the child consultant
- Manage grief and change processes during the interview processes with children
- Establish a professional relationship with children as the child consultant
- Interview children for the purpose of gathering information about their needs and views of situations affecting them as a result of parental separation, conflict or divorce
- Analyse information gathered and formulate
- Work autonomously for short periods of time in highly complex family work situations
- Maintain positive assertiveness when communicating with resistant behaviour of parents and or carers

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Supervision of child inclusive practice is essential to the development of adequate competency, including group supervision, individual supervision and observation of performance
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- Process notes and videoed sessions, are optimally used for assessment. However, simulations may be used to represent workplace conditions as closely as possible
- Resources essential for assessment include access to:
  - an organisation with a child inclusive framework
  - appropriate child interview/assessment tools
  - a specialist, qualified and experienced supervisor of child consultants/ or child inclusive practices
EVIDENCE GUIDE

Method of assessment:

- Observation in the workplace (if possible)
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Child inclusive skills involving actual client contact are to be assessed initially in a simulated setting
- If successful, a number of further assessments are to be conducted during workplace application with actual client families under direct supervision of an experienced and qualified practitioner and over a period of time
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Engagement strategies may include:

- Appropriate use of language considering the age and developmental stage of the child/young person
- Creating a child friendly environment
- Storytelling
- Narrative approaches
- Active listening
- Role play
- Use of toys, puppets, books and other child centred resources, sand play, drawing

Communication may include:

- Non-verbal communication:
  - gestures
  - posture
  - facial expression
  - eye contact
- Child directed/centred dialogue
- Active listening
- Open non leading questions
- Summarising
- Paraphrasing
- Reframing
- Drawing

Significant adults may include but is not limited to:

- Biological parent
- Carer
- Step parent
- Sibling
- Relative
- Non resident and resident parents
- Foster Carer

Organisation processes may include but are not limited to:

- Intake and assessment interviews
- Risk and safety management
- Ensure confidentiality
- Case management and associated activities
- Recording information
RANGE STATEMENT

Documentation may include:
- Case notes
- Observation recording
- Incident reports
- Progressive case notes
- Documentation prepared for legal systems
- Case plans
- Assessment reports
- Intake records
- Appropriate forms

Needs, rights and interests of children may include but are not limited to:
- Emotional and physical safety
- Right to choose to participate
- Right to participate in planning for activities directly involving the child/young person
- Right to empowerment and decision-making
- Participation in age appropriate activities
- Choice of relationship interactions
- Express feelings and needs
- Protection from abuse

Ensuring safety and minimising risk may include:
- Following organisation policy and procedure
- Identifying and responding to indicators of abuse and/or, neglect
- Creating a safe environment for child/young people to interact and participate
- Making sure resources and equipment meet safety standards
- Adhering to relevant legislation requirements to ensure the safety of children and young people
- Seeking expert advice and referral where risk factors are beyond the response expertise of the worker
RANGE STATEMENT

*Family relationship dynamics and issues may include but are not limited to:*

- Mental health
- Alcohol and other drug issues
- Separation and divorce
- Grief and loss
- Intergenerational issues
- Family systems
- Domestic and family violence
- Abuse and neglect
- Hostility and aggression
- Depression
- Disability
- Social isolation
- Cultural contexts
- Step/blended families

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assess current parenting practices | 1.1 Highlight *problematic areas for parents* to address and manage in the development of parenting arrangements  
1.2 Conduct risk assessment for the protection and safety of all parties concerned.  
1.3 Identify areas of significant distress/disorder and refer on where appropriate  
1.4 Identify *family of origin issues* and kinship dynamics  
1.5 Manage overt conflict and open hostility between parties so that successful negotiations may be achieved  
1.6 Explore the *needs of the family* to ensure expectations of parenting arrangements are realistic and achievable |
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 2. Assist clients to agree on outcomes for parenting arrangements | 2.1 Inform clients of the requirements and processes under the Family Law Act for the preparation of parenting arrangements  
2.2 Inform clients of their rights and responsibilities in relation to establishing parenting arrangements  
2.3 Encourage parents to consider the *expressed needs of the child and/or young person* when developing parenting arrangements  
2.4 Set systems in place that will monitor and review parenting arrangements where necessary  
2.5 Prepare parenting arrangements within the framework of *child focused practice* |
| 3. Monitor parenting arrangements | 3.1 Set review timeframes for established parenting arrangements in collaboration with all parties  
3.2 Assist clients to review parenting arrangements regularly and to negotiate modifications or new arrangements as required.  
3.3 Identify and manage any *issues that may arise as a result of revised parenting arrangements* |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Thorough understanding of the provision for children and property in the Family Law Act, Child Support (Assessment) Act and how these are developed into accepted parenting plans.
- An understanding of the sources of power imbalances in relationships and an ability to recognise and respond appropriately to the indicators of such imbalances in their clients.
- Age appropriate methods of relating to and eliciting perceptions, information and responses from children.
- Knowledge of impact of conflict, particularly high and ongoing conflict, on children, and the use of child focused techniques to address and minimise these impacts.
- Understanding of the nature of domestic violence. Screen for indicators of family violence and its effects, power and gender issues, child abuse and associated criminal issues which may be present and impact on parenting arrangements.
- Understanding of basic legal concepts and the law pertaining to the issues being discussed, and an ability to seek expert advice where necessary to clarify any legal issues including:
  - separation and divorce
  - asset division
  - maintenance
  - residence and contact
  - privacy and confidentiality
  - breaches of law and major trends in case law relating to the issues referred to above.
- Awareness of issues impacting on separated parents and children in high conflict relationships attempting to establish parenting arrangements, examples may include: grief and loss, poverty, unresolved conflict, violence, abuse, alienation, isolation.
- Understanding of own family of origin and importance of self awareness when working with separating and high conflict families.
- Awareness of dynamics of wider kinship networks and their importance in development.
REQUIRED SKILLS AND KNOWLEDGE

of parenting arrangements

- Understanding of *key concepts and principles* of each of the following theories and how these apply to the process of assisting clients to develop parenting arrangements:
  - attachment
  - family systems
  - human development
  - family, couple, and child dynamics in normal developmental and abnormal forms

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Recognise the complexities of relationships both in and out of the immediate family environment and consider this in the context of assisting clients to develop parenting arrangements
- Apply age appropriate techniques when engaging children in the process of establishing their needs and wants regarding parenting arrangements.
- Undertake risk assessments for issues of domestic and family violence and child protection issues in regard to parenting arrangements
- Identify and consult relevant legislation to ensure parenting arrangements meet any requirements of legislation
- Identify appropriate steps to ensure own values do not impact on decision-making in practice
- Seek expert advice where necessary
- Apply the basic concepts of a range of conflict management processes including:
  - conciliation
  - negotiation
  - mediation

*Relationship skills:*

Ability to:

- Create and maintain rapport with clients and colleagues and allied professionals
- Establish and maintain trust
- Respect the clients rights to participate and make informed decisions about parenting arrangements
- Encourage client self determination and the inclusion of child's best interest

*Content management skills include:*

Ability to:

- Obtain, identify, organise, analyse, prioritise and evaluate information
- Assess the issues and options and reason logically
- Read, comprehend and use relevant written materials
- Write clearly and concisely, using neutral language
REQUIRED SKILLS AND KNOWLEDGE

- Create, maintain and organise records and materials in an appropriate manner

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is preferred for assessment of this unit. However, where assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Assessment must demonstrate understanding of the regulations of the Family Law Act in the relation to the development of shared parenting arrangements and the best interests of the child
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment:

- Observation in the workplace (if possible) together with a possible combination of the following:
  - Written assignments/projects or questioning should be used to assess knowledge
  - Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
  - The assessment environment should not disadvantage the candidate
  - Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
  - Where the candidate has a disability, reasonable adjustment may be applied during assessment
  - Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
**RANGE STATEMENT**

*Factors affecting current parenting practices and possible family of origin issues may include:*

- Socioeconomic influences
- Mental health concerns of a family member
- Drug and alcohol issues
- Disability of a family member
- Isolation from previously established networks
- Intergenerational and family of origin issues
- Specific cultural factors, isolation and alienation
- Stress disorders
- History or presence of domestic and family violence and abuse
- Ineffective communication and relationship formation

*Needs of the family may include:*

- Information on issues affecting decision-making about parenting arrangements
- Referral to other support services
- Advocacy services
- Access to counselling or relationship education services
- Access to or facilitated referral to Children’s Contact Services

*Express needs of the child and/or young person may include but is not limited to:*

- Type, frequency and length of contact with parents
- Preference for recreational and social activities
- Education and peer relations
- Contact and relationship with significant others and/or extended family
- Place of residence
- Preferred communications styles with parents and significant others

*Child focused practice includes:*

- Engaging with the child and or young person using appropriate strategies to ensure their primary needs and concerns are identified and presented for inclusion in the development of parenting arrangements.
RANGE STATEMENT

Issues that may arise as a result of reviewed parenting arrangements may include:

- Need to consult and notify other individuals or agencies of changes to the arrangements in relation to legal or other obligations
- Further screening for domestic and family violence or abuse
- Review of any relevant court orders
- Referral to other agencies may be required e.g. family relationship counselling

**ELEMENT**

2. Support the physical development of children

2.1 Use daily routines as opportunities to acquire and practise skills

2.2 Provide access to equipment, games and toys that will develop fine and gross skills and fundamental movement skills

2.3 Provide adequate nutrition that allows for normal growth and development, and foods of increasing texture over time to stimulate speech and jaw development

3. Support the social development of children

3.1 Provide opportunities for one to one, small group and larger group interaction

3.2 Model appropriate communication with children

3.3 Acknowledge, value and respect diversity through interactions and provisions

4. Support the emotional and psychological development of children of the same age

4.1 Involve children in decision-making where circumstances safely allow

4.2 Acknowledge, encourage and appreciate children's efforts

4.3 Identify and celebrate children's social, emotional and psychological successes

4.4 Give individual attention to each child

4.5 Respond to children's feelings openly and with respect

4.6 Recognise issues of concern related to child's participation in experiences, for emotional and psychological development

4.7 Conduct and record, in line with work role, observations of children's behaviour or other expressions that may indicate social, emotional or psychological concerns

4.8 Report to supervisor concerns about emotional, social and/or psychological difficulties of the child
<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>

</table>
| 5. Support the language development of children | 5.1 Encourage children to express themselves verbally  
| | 5.2 Provide experiences to expose children to a range of *language forms* |
| 6. Support the creative development of children | 6.1 Provide experiences for children to utilise the range of their senses including vision, hearing and taste  
| | 6.2 Encourage children to express their imagination and creativity within their play and interactions  
| | 6.3 Provide experiences which encourage children to explore a variety of methods of self expression  
| | 6.4 Make available appropriate resources, material and equipment for children to initiate their own creative activities |
| 7. Support the cognitive development of children | 7.1 Provide environments and experiences to stimulate cognitive development  
| | 7.2 Encourage children to explore and problem solve with materials and diverse experiences |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Introductory knowledge of child development for children aged 0 to 12 years, including:
  - simple developmental theory
  - early brain development
  - importance of the early years for subsequent educational success
- Awareness of child injury risk and methods to minimise these risks
- Experience-based brain development in the early years of life that set neurological and biological pathways for life including: health, learning and behaviour
- Aspects of poor early childhood development, such as:
  - poor diet
  - lack of play
  - limited stimulation of brain development
  - lack of materials and resources
  - inconsistent or non existent emotional support or comfort
  - trauma
  - other life experiences which interrupt appropriate childhood activities

And potential long term impacts, which may include:

- depression
- anxiety
- suicidal thoughts
- aggression
- impulsiveness
- criminality
- hyperactivity
- substance abuse
REQUIRED SKILLS AND KNOWLEDGE

- Indicators of social, emotional and psychological difficulties in early childhood
- The implications on human development as a consequence of poor social, emotional and psychological development in early childhood
- Process for observing, recording and reporting issues of concern/difficulty in social, emotional and psychological development of children
- Basic knowledge of fundamental movement skills and associated milestones for physical development
- Importance of physical activity/fundamental movement skills milestones as they relate to overall health, well being and development of young children

continued ...

Essential knowledge (contd):

- Inclusion and acceptance of all children regardless of their race, gender or ability
- Importance of childhood
- Interest in and enjoyment of children
- Relevant quality improvement and accreditation principles
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by young children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
  - factors that support or undermine the capacity of families to rear young children adequately
  - features of a family's immediate social environment that are important for family functioning and young children's development and well being
  - features and qualities of communities that help or hinder families in their capacity to raise young children adequately
  - core needs that all children and families have in common, and how to provide inclusive child and family services
  - understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:
REQUIRED SKILLS AND KNOWLEDGE

It is critical that the candidate demonstrate the ability to:

- Work effectively with young children within a historical and philosophical framework of child care delivery
- Select appropriate experiences and materials to support all areas of children's development
- Interact effectively with children to holistically support development and learning
- Provide culturally appropriate experiences and celebrations

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Communicate with children
- Reflect on own practices
- Apply understanding of the relationship between brain development and early childhood cognition, language and health development
- Observe children to recognise, report and record emotional and psychological difficulties
- Identify indicators of emotional, social and psychological difficulties
- Engage with children to ensure psychological and emotional development experiences are appropriate for their developmental age
- Support culturally appropriate celebrations of special occasions
- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - support infants and toddlers to master key developmental tasks
  - early identification of emerging trends in child needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate this unit of competency:**

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a realistic simulated workplace setting under the normal range of workplace conditions
- Assessment of competency may be conducted on one or more occasions
- Assessment should consider the range of differences among children identified in the Range Statement

**Access and equity considerations:**

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

**Context of and specific resources for assessment:**

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a range of experiences as defined in the Range Statement
EVIDENCE GUIDE

Method of assessment may include:
- Observations
- Questioning
- Project
- Written assignment
- Evidence gathered from the workplace environment
- Demonstration over a period of time to ensure consistency of performance

Related units:
It is recommended (but not required) that this unit is assessed in conjunction with either or both related units:
- CHCCN302A Provide care for children
- CHCIC301D Interact effectively with children

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Support the development of children will involve providing experiences that may vary according to a number of factors in the service, such as:
- Child/worker ratios
- Physical environment - constraints and potential
- Purpose of the service
- The amount and type of support from parents and participation by parents
- The level of support available to the service from external bodies e.g. Advice specialist services, resource workers
- The frequency and regularity of use of the service by the child
RANGE STATEMENT

Physical development skills may include:

- Eye-hand coordination
- Dexterity
- Fine and gross motor skills and fundamental movement skills
- Balance
- Locomotion

Fundamental movement skills and gross motor skills are:

- Fundamental movement skills including balance, static, locomotion, and manipulative motor skills
- Foundation skills that provide the building blocks for specific movements such as those founding sports, games and dance
- Examples of fundamental movement skills include:
  - jumping
  - hopping
  - throwing
  - kicking
  - running
- Gross motor skills are those actions that use the muscles of the body to achieve skilfulness

Support the social development may include experiences of social interaction such as:

- Formally organised activities
- A time and place for unplanned interaction
- Meetings
- Travelling
- Walks
- Setting up environment/venue

Special occasions may include:

- Birthdays of children
- Festivals
- Celebration of achievements
- Community events
- Birthdays of animals
- Beginning and end of school term or holidays
- Cultural events
- Graduation from child care service
RANGE STATEMENT

Differences among children may include:
- Gender
- Race and culture
- Age
- Interests and preferences
- Social context and lifestyle
- Communication style
- Personality
- Length of time attending service/child care
- Abilities
- Experiences that may have impeded early brain development

Experiences provided for social interaction will vary according to the age of the children - for babies and infants:
- Trusting relationships are developed with familiar adults
- Adults work at eye level with infants
- Care routines are used for social interaction
- Adults talk, sing and recite poems with infants
- Adults listen to infants and respond

Issues of concern for psychological and emotional difficulties may include but are not limited to:
- Inappropriate interactions with others
- Withdrawal from social interactions
- Aggressive behaviour
- Verbal expressions of particular need
- Physical and emotional presentation
- Concerns conveyed to the worker by parents/carers
- Sudden and/or extreme changes to behaviour or emotional states
- Disinterest in activities or experiences
- Expressions of emotions through use of external materials and resources

Language forms may include:
- Verbal and written
- Formal and colloquial, informal
- Fun and serious styles

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Provide planned and spontaneous experiences to foster the physical development of children | 1.1 Identify and monitor children's physical skills and development  
1.2 Plan and provide developmentally appropriate experiences and opportunities to foster children's fine and gross motor and fundamental movement skills  
1.3 Plan and provide experiences which challenge the physical skills and abilities of children and *promote physical fitness*  
1.4 Plan and provide experiences to challenge the physical endeavours of children, ensuring suitable clothing to promote outdoor play in all weather conditions  
1.5 Provide opportunities for children to practice physical skills and expand/extend children's physical activities through active play and the use of outdoor space and the natural environment  
1.6 Select and provide equipment to encourage spontaneity in physically active play  
1.7 Arrange equipment to provide challenge and choice, to encourage independence and to facilitate physically active play  
1.8 Support children and families to understand the relationship between physical activity and good health whilst still respecting family and cultural values  
1.9 Plan experiences that extend children's physical activity through music and dance |
ELEMENT

2. Create opportunities for children to develop a wide range of physical skills

PERFORMANCE CRITERIA

2.1 Develop opportunities for physical activity within the context of the service

2.2 Select and provide a variety of toys, materials, equipment and spaces to encourage the development of a wide range of fine and gross motor and fundamental movement skills

2.3 Identify and seek advice when children require specialist assistance

2.4 Create opportunities to support emerging skills of individual children where necessary

2.5 Encourage children of both genders to participate in the full range of activities

2.6 Provide opportunities for children to develop and learn new physical skills

2.8 Provide opportunities for children to consolidate their physical skills towards independence

3. Interact with the child to foster skill development

3.1 Use a variety of strategies to encourage children's physical skills and development

3.2 Provide positive acknowledgement of children's efforts to participate

3.3 Participate in relevant experiences with children

3.4 Demonstrate enthusiasm for physical activity

3.5 Encourage children to express ideas for physical experiences

3.6 Respect each child's level of participation in physical experiences and opportunities

3.7 Encourage children's confidence and safety awareness when participating in physically active play
Required Skills and Knowledge
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Demonstrated understanding of children's physical development and skill development
- Knowledge of the link between lack of physical activity, childhood obesity and poor health
- Acceptance of each child's rate of development, needs, interests and strengths
- Experiences that will enhance all areas of physical development
- Needs of children with a sensory/physical disability
- Equipment, toys, music and resources that can be used to stimulate physical development
- Knowledge of interaction between physical development and other areas of development - especially social and psychological development
- Fundamental movement skills set
- Play that extends physical activity involvement and ability
- Relevant organisation standards policies and procedures
- Definitions and principles of growth and general influences on physical development including:
  - reflexes
  - grasp
  - physical development
  - qualitative and quantitative changes
  - growth, maturation and readiness
  - chronological and maturational age
  - gross motor, fine motor, coordination
  - fundamental movement skill development
  - kinaesthetic awareness
  - early perceptual development
  - sensory motor development
REQUIRED SKILLS AND KNOWLEDGE

- sensory integration
- cultural and family values
- Relevant theories including:
  - maturation
  - percentile norms
- Different beliefs about development due to culture, community, family beliefs
- Organisation standards, policies and procedures relating to physical experiences provided in the workplace to encourage the physical development of children

continued ...

Essential knowledge (contd):

- Relevant principles within the Quality Improvement Accreditation System - National Child Care Accreditation Council
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by young children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
  - factors that support or undermine the capacity of families to rear young children adequately
  - features of a family's immediate social environment that are important for family functioning and young children's development and well being
  - features and qualities of communities that help or hinder families in their capacity to raise young children adequately
  - core needs that all children and families have in common, and how to provide inclusive child and family services
  - understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Plan and arrange a range of developmental opportunities which are matched to the developmental stage and specific needs of the children and which will enhance their
REQUIRED SKILLS AND KNOWLEDGE

development

- Set up venue/environments and equipment so that they facilitate physically active play
- Provide opportunities for children to interact positively with other children and to accept individual differences giving due regard to age, cultural, and development of children
- Engage with children to promote their participation in experiences

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - reflective practice
  - acceptance of each child's rate of development, needs, interests and strengths
  - developmentally based/child focused planning
  - interpersonal skills
  - time management
  - active listening
  - empathy
  - work organisation skills
  - valuing of differences among children - stage of development, needs, interests, strength

- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - support infants and toddlers to master key developmental tasks
  - early identification of emerging trends in child needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job for a range of age groups, a range of activities and a range of needs over a number of assessment conditions and situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a range of opportunities defined in the Range Statement
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.

- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.

- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Opportunities for children to develop will vary according to a number of factors, such as:

- Physical environment
- Purpose of the service
- The amount and type of support from parents and participation by parents
- The level of support available to the service from external bodies e.g. Advice specialist services, resource workers, inclusion support workers
- The frequency and regularity of use of the service by the child
- Age of the child

Physical skills may include:

- Skills in motor areas - fine and gross motor
- Dexterity
- Eye-hand coordination
- Balance
- Locomotion
- Coordination
- Fundamental movement skills sets:
  - static balance
  - sprint run
  - vertical jump
  - catch
  - hop
  - side gallop
  - skip
  - overarm throw
  - leap
  - kick
  - dodge
  - two hand strike
  - dance and physical response to music
RANGE STATEMENT

Promote physical fitness may relate to experiences in:

- Active games
- Sports
- Exercises
- Fine motor skill areas
- Setting up venue/environment
- Range of environments and equipment
- Socio dramatic play
- Play with construction materials
- Music and movement experiences

Opportunities to develop relevant physical skills will vary according to the age/ability of the child and must include:

For infants:

- Objects to explore by mouth, swinging toys, rattles, toys to encourage sensory exploration, poke, squeeze, push along floor
- Outdoor play

For toddlers:

- Opportunities provided indoors and outdoors to practise new skills of walking, climbing, balancing and pushing and pulling wheeled toys, dancing and toddler cycling

For 3 to 5 years old:

- Opportunities to develop fine motor skills such as puzzles, pe.g. boards, beads to string, construction sets, crayons, brushes, scissors
- Opportunities through indoor and outdoor play to practise large muscle and fundamental movement skills such as running, jumping, throwing and catching a ball, dancing and cycling
RANGE STATEMENT

Opportunities provided to develop skills may need to be adapted to accommodate factors such as:

- Availability of indoor and outdoor facilities
- Environment
- Venue/location
- Type of service
- Workers own physical capabilities
- The desire and ability for children to set up equipment themselves
- Safety considerations
- Peer group pressure

Interaction may be with a variety of people including:

- Children of same age
- Children of different ages
- Adults

Diversity among children may include differences due to:

- Gender
- Race, culture and ethnicity
- Age/maturity
- Interests and preferences
- Social context and lifestyle
- Abilities
- Socioeconomic factors

The acceptance of differences among children will be affected by:

- Children's age/maturity
- Capabilities
- Children's family, school, peer group attitudes and beliefs
- Life experiences
- Prior learning experiences
RANGE STATEMENT

Experiences that promote social interaction will vary according to the age of the children:

For toddlers:
- Create opportunities for children to play together and in small groups
- Adults encourage independence and give support when children need it
- Enough equipment is provided for several children to play with similar toys
- Adults demonstrate understanding that children develop the ability to share toys at varying ages

For 3 to 5 year old children:
- Create opportunities for children to work together in small and large groups
- Provide culturally appropriate materials for children to use creatively and for role play
- Adults support children who find it difficult to play in a group

Individual differences may include:
- Age
- Gender
- Family background and lifestyle
- Abilities and disabilities
- Style of social interaction
- Appearance
- Cultural beliefs and practices
- Temperament
- Interests
- Peer group acceptance, membership or isolation

Non stereotypical images could include:
- Children and adults of both genders engaging in a range of experiences
- Children of a range of races
- Range of appearances
- Range of abilities
- Different family compositions
- People from a variety of cultural backgrounds together
- Range of additional needs of children

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.  The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Support children to build and maintain trusting relationships</td>
<td>1.1 Listen attentively and show children their views are valued and acknowledged</td>
</tr>
<tr>
<td></td>
<td>1.2 Acknowledge and support children's preferences for particular adults and peers</td>
</tr>
<tr>
<td></td>
<td>1.3 Help children to understand and accept responsibility for their own actions</td>
</tr>
<tr>
<td></td>
<td>1.4 Encourage children to express and manage feelings appropriately</td>
</tr>
<tr>
<td></td>
<td>1.5 Support children's various levels of interaction and participation with others during play</td>
</tr>
</tbody>
</table>
ELEMENT

2. Plan experiences for children to support and cooperate with others

PERFORMANCE CRITERIA

2.1 Encourage children to respect each other's individual needs, abilities and interests
2.2 Encourage children to regard *differences* positively and to discuss these differences
2.3 Support children who have difficulty interacting with others, to establish and maintain friendships and group membership
2.4 Acknowledge and encourage appropriate, supportive and effective communication between children
2.5 Provide experiences and opportunities that promote children's moral development and pro-social skills

3. Provide opportunities for social interaction

3.1 Plan and provide opportunities for different forms of social interaction between children with respect for each child's needs, interests and development stage
3.2 Encourage children to interact with a variety of people and to initiate and develop contact with others, as appropriate
3.3 Arrange the environment to encourage interaction and also accommodate a child's need for privacy, solitude and/or quiet
3.4 Celebrate *special occasions* in culturally sensitive ways
3.5 Respect children's choice to watch and observe
3.6 Structure experiences and equipment in ways that promote cooperation and conflict resolution
3.7 Foster and respect children's own grouping choice
3.8 Talk about and respond to children as group members as well as individuals
3.9 Identify and monitor children's social skills and development
3.10 Promote and support the use of social skills relevant to the transition to school for children of an appropriate age
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Children's social and moral development
- Importance of play and how it can be identified and provided for
- Theories of children's social and moral development which may include:
  - play stages
  - ecological structures
  - social learning
  - cognitive development theories
  - attachment
- A broad range of theoretical perspectives on human and learning development which may include but is not limited to: Bronfenbrenner, Parten, Bandura, Kohlberg, Bowlby
- Interaction between aspects of social development, physical development and psychological development and cognitive development
- Importance of language that is selected and used
- Organisation standards, policies and procedures
- Cultural awareness and understanding differences in social and family systems
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by young children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
  - factors that support or undermine the capacity of families to rear young children
REQUIRED SKILLS AND KNOWLEDGE

adequately

- features of a family's immediate social environment that are important for family functioning and young children's development and well being
- features and qualities of communities that help or hinder families in their capacity to raise young children adequately
- core needs that all children and families have in common, and how to provide inclusive child and family services
- understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Provide opportunities for children to interact positively with other children and to accept individual differences, giving due regard to age, cultural, and development of child/ren
- Evaluate the social development of the child and to plan activities which will enhance their development

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - acceptance of each child's rate of development, needs, interests and strengths
  - planning
  - interpersonal skills
  - team building skills
  - time management
  - active listening
  - empathy
  - organisation
  - valuing of differences among children - stage of development, needs, interests, strengths
- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - support infants and toddlers to master key developmental tasks
REQUIRED SKILLS AND KNOWLEDGE

- early identification of emerging trends in child needs and how to address them
- manage children's health needs, eating behaviours and physical activity
- provide environments and relationships that are safe for young people
- engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to a range of opportunities defined in the Range Statement, including:
  - a childcare workplace
  - children’s services, resources and equipment
  - the local environment

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Interaction may be with a variety of people including:
- Children of same age
- Children of different ages
- Adults
- Siblings

Opportunities for social interaction may include:
- Formally organised activities
- A time and space for unplanned interaction
- Meetings
- Travelling
- Talking
- Listening and responding
- During care routines
- Excursions
- Setting up venue
- Socio dramatic play
- Play with construction materials
- Art activities

Opportunities provided for social interaction will vary according to the age of the children and must include:

For toddlers:
- Create opportunities for children to play together and in small groups
- Encourage independence and give support when children need it
- Enough equipment is provided for several children to play with similar toys
- Demonstrate understanding that children develop the ability to share toys at varying ages

For 3 to 5 year old children:
- Create opportunities for children to work together in small and large groups
- Provide culturally appropriate materials for children to use creatively and for role play
- Support children who find it difficult to play in a group
RANGE STATEMENT

Individual differences may include:
- Age
- Gender
- Family background and lifestyle
- Abilities
- Style of social interaction
- Appearance
- Cultural beliefs and practices
- Temperament
- Interests
- Peer group acceptance, membership or isolation

Differences and their acceptance among children will be affected by:
- Children's age/maturity
- Capabilities
- Children's family, school, peer group attitudes and beliefs
- Life experiences
- Prior learning experiences

Diversity among children may include differences due to:
- Gender
- Race, culture and ethnicity
- Age/maturity
- Interests and preferences
- Social context and lifestyle
- Abilities
- Socioeconomic factors

Special occasions may include:
- Birthdays/name days
- Festivals
- Celebration of achievements
- Religious occasions
- Community events
- Culturally significant days
- Beginning and end of term and holidays
RANGE STATEMENT

Non stereotypical images could include:
- Children and adults of both genders engaging in a range of activities
- Children of a range of races
- Range of appearances
- Range of abilities
- Different family compositions
- People from a variety of cultural backgrounds together
- Range of additional needs of children

Areas of competence may include:
- Social situations
- Peer groups
- Communicating with adults

Experiences to present a challenge may include:
- Opportunities to develop and practice skills in a range of activities

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Encourage children's independence and autonomy | 1.1 Plan and provide opportunities to develop self help skills and independence  
1.2 Provide opportunities for children to make choices, in appropriate ways  
1.3 Encourage children to accept responsibility for their own actions  
1.4 Empower children to make their own decisions and to participate in broader decision-making  
1.5 Involve children in increasingly more significant decision-making |
ELEMENT  

2. Foster children's self-esteem and developing self concept  

PERFORMANCE CRITERIA  

2.1 Plan opportunities for children to experience individual strengths and success  
2.2 Select experiences that present a challenge within children's emerging skills and capabilities  
2.3 Monitor children's confidence while attempting more challenging activities  
2.4 Provide acknowledgment and support if a child experiences frustration and encourage children to see 'mistakes' as opportunities to learn  
2.5 Acknowledge and appreciate children's individual and group achievements  
2.6 Design experiences to explore issues of self image and identity in ways that are appropriate to the children's level of development  
2.7 Choose learning and play resources to provide positive, non stereotypical images of children  
2.8 Provide opportunities for children to build on and extend achievements  
2.9 Provide children with opportunities to initiate and assume leadership roles  
2.10 Promote and support the transition to school for children of an appropriate age  

3. Create opportunities and provide experiences that encourage children to express their feelings, needs and ideas  

3.1 Identify and monitor children's emotional development and expression of feelings  
3.2 Listen to and respond to children's expression of feelings and ideas  
3.3 Ensure expectations about how children express their feelings are related to child's stage of development  
3.4 Encourage and demonstrate socially appropriate ways for children to express their feelings and needs  
3.5 Provide opportunities for children to release feelings and express emotion through suitable experiences  
3.6 Encourage children to appreciate one another's achievements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Theories of children's emotional and psychological development which may include:
  - attachment
  - psychosocial development
  - temperament and personality
  - relationship between brain development and social and emotional development
  - family systems
- A broad range of theoretical perspectives on human and learning development which may include but is not limited to: Bronfenbrenner, Erikson, Piaget, Vygotsky, Gardner, Maslow, Bowlby
- Interaction between aspects of social development, physical development and psychological development and cognitive development
- Importance of language that is selected and used
- Different beliefs about social development due to culture, community, family beliefs
- Organisation standards, policies and procedures
- Children's emotional development
- Importance of culture in the development of self
- Contextual factors which influence the children's emotional and psychological development
- Events or crises which can challenge children's emotional and psychological development, such as:
  - separation and stranger anxiety
  - fears
  - self-esteem and self concept
- Factors which enhance the development of self-esteem and self identity
- Awareness of the following national child health and well being core competencies as
REQUIRED SKILLS AND KNOWLEDGE

they apply to all who deliver care to children:

- core principles of child development and the key developmental tasks faced by young children and their implications for practice
- cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
- environmental conditions and the experiences known to have positive effects on prenatal and early childhood
- environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
- factors that support or undermine the capacity of families to rear young children adequately

continued ...

Essential knowledge (contd):

- The following knowledge underpinning national child health and well being core competencies (contd):
  - features of a family's immediate social environment that are important for family functioning and young children's development and well being
  - features and qualities of communities that help or hinder families in their capacity to raise young children adequately
  - core needs that all children and families have in common, and how to provide inclusive child and family services
  - understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Provide opportunities for children to interact positively with other children and to accept individual differences, giving due regard to age, cultural, and development of children
- Evaluate the emotional and psychological stage of the child and to plan activities which will enhance their development

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
REQUIRED SKILLS AND KNOWLEDGE

- acceptance of each child's rate of development, needs, interests and strengths
- planning
- interpersonal skills
- team building skills
- time management
- active listening
- empathy
- organisation
- valuing of differences among children - stage of development, needs, interests, strengths

- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - support infants and toddlers to master key developmental tasks
  - early identification of emerging trends in children’s needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged

  - a childcare workplace
  - children’s services, resources and equipment
  - the local environment
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Related units:
It is recommended (but not required) that this unit be assessed in conjunction with one of the following related units:

- CHCFC503A Foster social development in early childhood
  or
- CHCFC513A Foster social development in middle childhood

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

The acceptance of differences among children will be affected by:

- Children's age/maturity
- Capabilities
- Children's family, school, peer group attitudes and beliefs
- Life experiences
- Prior learning experiences

Opportunities for experiences with an emotionally enriching and expressive component could include:

- Socio dramatic play
- Movement
- Listening to music
- Art experiences including clay and finger painting

Individual differences (diversity) among children may include:

- Abilities and disabilities
- Age/maturity
- Appearance
- Beliefs and practices (cultural, religious etc)
- Family background and lifestyle
- Gender
- Interests and preferences
- Peer group acceptance, membership or isolation
- Race, culture and ethnicity
- Social context and lifestyle
- Socioeconomic factors
- Style of social interaction
- Temperament
RANGE STATEMENT

Encouragement of a child to develop emotionally and psychologically will vary according to the age of the child and must include:

For babies/infants:
- Responding to non-verbal communication and crying

For toddlers:
- Expression through activity as well as verbally
- Encouraging children to name their feelings

For 3 to 5 year olds:
- Expression through activities such as clapping, stamping
- Expressing their feelings verbally
- Expressing feelings through paintings, drawings and other creative activities

Non stereotypical images could include:
- Children and adults of both genders engaging in a range of activities
- Children of a range of races
- Range of appearances
- Range of abilities
- Different family compositions
- People from a variety of cultural backgrounds together
- Range of additional needs of children

Areas of competence may include:
- Social situations
- Peer groups
- Communicating with adults

Experiences that present a challenge may include:
- Opportunities to develop and practice skills in a range of activities

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assist children to develop thinking and problem solving skills | 1.1 Provide varied and appropriately challenging opportunities and resources related to each child's stage of development and interests  
1.2 Provide opportunities for children to experience the consequences of their choices, actions and ideas  
1.3 Encourage children to explore, understand and solve problems in their environment  
1.4 Use a variety of strategies to maintain children's interest in solving problems  
1.5 Provide challenging and engaging experiences for each child to develop their attention span and give them time to stay with the activity until they are ready to move on  
1.6 Introduce new ideas/activities that may build on existing knowledge, skills and interests  
1.7 Use questioning and non-verbal communication to develop children's abilities to observe what is happening around them  
1.8 Identify and monitor children's cognitive development and thinking skills |
ELEMENT

2. Promote opportunities for a wide range of developmentally appropriate experiences in science, mathematics, technology and the environment

PERFORMANCE CRITERIA

2.1 Present a range of developmentally appropriate experiences in science, maths and technology
2.2 Present a range of experiences to stimulate learning about the environment
2.3 Recognise children's abilities and respond to their interests and learning potential
2.4 Encourage participation in science, maths, technology and environmental learning experiences in a way that is enjoyable
2.5 Present experiences that stimulate children's curiosity and learning
2.6 Provide opportunities for children to further explore their concept development
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Stages of cognitive development
- Peer group interactions
- Child's family and community context and influences
- Organisation standards, policies and procedures
- Planning processes and understanding of adults role in experiences
- Sensory perceptual development and brain development
- Theories of brain and language development, which may include but are not limited to: Piaget, Vygotsky and Gardner
- Social constructivist learning theory
- Interrelationship between cognitive, creative and language development
- Importance of dispositions impacting on lifelong learning
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by young children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
  - factors that support or undermine the capacity of families to rear young children adequately
  - features of a family's immediate social environment that are important for family functioning and young children's development and well being
  - features and qualities of communities that help or hinder families in their capacity to
REQUIRED SKILLS AND KNOWLEDGE

raise young children adequately
- core needs that all children and families have in common, and how to provide inclusive child and family services
- understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Encourage children in thinking and problem solving experiences with consideration for each child's culture, stage of development and interests

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - planning open ended experiences to promote children's enquiry and mathematical thinking
  - problem solving processes and tools or strategies to facilitate children's problem solving
  - use open ended questions to encourage children to predict, hypothesise, explain, reason and express their ideas and opinions
  - creative use of inexpensive resources to stimulate children's interest and curiosity
  - modelling strategies, suggesting next steps and highlighting aspects the children may have overlooked
  - supporting and encouraging children's unconventional and innovative use of materials
  - use the environment to stimulate children's curiosity
  - arrange experiences that stimulate children to explore and discuss diverse objects, people and places

- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - support infants and toddlers to master key developmental tasks
  - early identification of emerging trends in child needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
REQUIRED SKILLS AND KNOWLEDGE

- provide environments and relationships that are safe for young people
- engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a realistic simulated workplace setting under the normal range of workplace conditions, for a range of age groups and over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a range of opportunities defined in the Range Statement, including:
  - a childcare workplace
  - children's services, resources and equipment
  - the local environment

Method of assessment:
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Related units:
- This unit may be (but is not required to be) assessed in conjunction with related unit:
  - CHCFC506A Foster children's language and communication development

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Thinking skills may include:

- Reasoning
- Developing understanding and explanations
- Critical thinking
- Use of mathematical concepts
- Problem solving
- Inventing, discovering and planning

Opportunities for children to develop cognitively will vary according to the child’s age/abilities and must include:

For babies and infants:

- Responses of caregivers are prompt and consistent
- Routines to provide sensory experiences are used
- Toys that stimulate all the senses are available for touching, looking, listening, smelling and tasting
- Opportunities to perceive similarities and differences are provided

For toddlers:

- Equipment is provided to explore the concepts of size, shape, number, volume, weight, temperature, time and all senses
- Songs, rhymes and stories are provided to aid in the development of memory
- There are opportunities to help with household duties and explore built and natural environment

For 3 to 5 year old children:

- Time is allowed for children to explore
- Opportunities are provided to interact with real people and objects to gain an understanding of themselves, others and the world around them
- A variety of materials and resources is provided
- Children are alerted to aspects of the environment they may have overlooked
- Children's reasoning is responded to respectfully
RANGE STATEMENT

Understandings may include:
- Mathematical understanding
- Scientific principles
- Social understandings
- Geographical awareness
- Historical understanding
- Mechanical understanding
- Potential of computers

Opportunities to develop problem solving skills vary according to age of the child:

For babies and infants:
- Opportunities to explore cause and effect are provided

For toddlers:
- Equipment such as spades, spoons, buckets and baskets are provided to explore the environment

For 3 to 5 year olds:
- Time is made available for children to investigate a topic that interests them, for example, how a syphon works

Opportunities to explore their environment will vary according to age of the child:

For babies and infants:
- Observation and exploration

For toddlers:
- Introduce them to natural materials from local environment
- Introduce them to a range of people in community

For 3 to 5 year olds:
- Exploration of local environment through visitors, excursion, bringing experiences to children

Opportunities to explore their local environment directly will differ according to a range of factors such as:
- Distance, proximity of new experience
- Risks and hazards
- Time available
RANGE STATEMENT

Opportunities to extend children’s knowledge of the world may include:
- Excursions/incursions
- Visits
- Maps, posters, music, books etc.
- Walks in the local area
- Visitors
- Community resources

The world/environment may include:
- The natural environment
- The social world
- The cultural environment
- The world of ideas
- Human made environment

### Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Stimulate the child's use and understanding of language | 1.1 Provide developmentally relevant opportunities for children to listen and respond to language  
1.2 Link language to all interests, activities, routines, and directions  
1.3 Create opportunities for group discussions and exchange of views between children  
1.4 Create a language rich environment that incorporates materials that capture the child's attention and stimulate a response  
1.5 Speak clearly and frequently to children in language that is appropriate to the age of the child  
1.6 Take time to listen and respond to children  
1.7 Use open ended questions to encourage children to express their thoughts, feelings and words  
1.8 Model and encourage two way communication by questions and careful listening  
1.9 Repeat and expand children's words and phrases in a natural style of conversation to model communication skills |
ELEMENT

2. Support the child's skills in their own (non English) language as relevant

   2.1 Identify the family's language and use bilingual practices as relevant whilst supporting the child to maintain their first language both in the childcare and home environments
   2.2 Respond with respect to children's language
   2.3 Integrate materials in the child's language into experiences
   2.4 Encourage parents and family members to maintain their own language and participate in activities with the children
   2.5 Encourage parents to inform worker of key words and phrases
   2.6 Integrate child's cultural experiences into language development opportunities
   2.7 Seek specialised assistance and use wherever required and available

3. Contribute to assessment of language and communication skills and planning of appropriate support strategies

   3.1 Identify children with children with special language needs and monitor language development, including the provision of special language programs to meet individual needs
   3.2 Contribute to assessment of children's individual language and communication abilities and needs
   3.3 Consider English and other languages when assessing language development and use
   3.4 Develop a range of strategies for language and communication development for the individual child, including children with additional language development needs
   3.6 Discuss assessment with the parents and develop a plan in consultation with them
   3.7 Seek specialised assistance where necessary
   3.8 Regularly review child's progress and the plan
ELEMENT

4. Plan and implement developmentally appropriate language and literature experiences for children

PERFORMANCE CRITERIA

4.1 Select, read and tell developmentally appropriate stories

4.2 Use stories, rhymes and poetry to enhance children's enjoyment of language

4.3 Include language and literature experiences that support acceptance and appreciation of diversity

4.4 Use puppets and other props to stimulate children's enjoyment of language and literature
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Stages of language development
- Principles of the development of English as a Second Language and the principles of early childhood bilingualism including the link between first language maintenance and learning ESL
- Peer group interactions
- Importance of dispositions on lifelong learning
- Child’s family and community context and influences
- Organisation standards, policies and procedures
- Theories of brain and language development, which may include but are not limited to: Piaget, Vygotsky and Gardner
- Social constructivist learning theory
- Values of language, listening and literature experiences for young children
- Criteria for selecting development appropriate language and literature experiences for children
- Adult role in encouraging language and creative expression
- Language and literature extension experiences for older children
- Criteria for selecting displays and pictures to stimulate language
- Criteria for selecting and presenting age appropriate puppetry experiences
- The main theories of learning and the implications for programming
- How to access relevant and local resources
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by young children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
REQUIRED SKILLS AND KNOWLEDGE

- environmental conditions and the experiences known to have positive effects on prenatal and early childhood
- environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
- factors that support or undermine the capacity of families to rear young children adequately
- features of a family's immediate social environment that are important for family functioning and young children's development and well being

Essential knowledge (contd):

- Knowledge underpinning national child health and well being core competencies (contd):
  - features and qualities of communities that help or hinder families in their capacity to raise young children adequately
  - core needs that all children and families have in common, and how to provide inclusive child and family services
  - understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Provide opportunities to stimulate children's language development that give due regard to age, development, culture and needs of child/ren
- Stimulate language development taking into account special language needs
- Develop strategies to access specialist language services

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - planning interactions with children to enhance language development
  - extending conversations with children by supportive, active listening and open ended questions
  - use words in a way that helps children understand their meaning
  - use resources which support the first language of the child
REQUIRED SKILLS AND KNOWLEDGE

- communicate effectively with children
- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - support infants and toddlers to master key developmental tasks
  - early identification of emerging trends in child needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a realistic simulated workplace setting under the normal range of workplace conditions, for a range of age groups and over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a range of opportunities defined in the Range Statement, including:
  - a childcare workplace
  - children’s services, resources and equipment
  - the local environment

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Related units: It is recommended (but not required) that this unit be assessed in conjunction with one of the following related units:
- CHCFC505A Foster cognitive development in early childhood
or
- CHCFC515A Foster cognitive development in middle childhood

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Developmentally appropriate language and literature experiences for children may include:
- Story telling
- Story reading
- Rhymes and poetry
- Pictures
- A range of electronic media
- Puppetry and felt board
- Listening experiences
- Planned discussion groups
- Language extension experiences
RANGE STATEMENT

Strategies for language and communication development should include:

- Positive handling of materials
- Enjoyment in presentation
- Use of correct clear speech
- Frequent interactions
- Open-ended questions
- Support of children’s skills in their own language
- Formal and informal presentations

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Provide a range of developmentally appropriate music and movement experiences | 1.1 Identify and provide a wide range of *music experiences* for children that may be used to enhance children's development  
1.2 Identify and provide a wide range of *movement experiences* for children that may be used to enhance children's development  
1.3 Select and provide appropriate music and movement resources which are inclusive and encourage appreciation of diversity including cultural diversity  
1.4 Provide opportunities for children to practise developing skills |
**ELEMENT**

2. Support facilitate and extend children’s participation in music and movement

**PERFORMANCE CRITERIA**

2.1 Set up environment in a way that encourages children's participation in developmentally appropriate music and movement experiences

2.2 Link music and movement activities and make them relevant to children's daily life in care

2.3 Formulate strategies to encourage development of child's individual music and movement potential

2.4 Encourage improvisation with *instruments*

2.5 Design program to respond to children's interests that arise spontaneously as they participate in music and movement experiences

2.6 Use strategies to model appropriate attitudes and interaction to encourage children's input and participation in music and movement experiences

3. Plan and implement a range of developmentally appropriate music and movement experiences

3.1 Use observations of individual children and groups of children to plan developmentally appropriate music and movement experiences for children

3.2 Select and present a range of stimulating developmentally appropriate and inclusive music experiences for individual children and small groups of children

3.3 Select and present a range of stimulating developmentally appropriate and inclusive movement experiences for individual children and small groups of children

3.4 Use a range of methods to evaluate children's participation in and reactions to planned music and movement experiences

3.5 Make ongoing modifications to stimulate interest and involvement in music and movement experiences, based on evaluation information
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Values of providing a range of musical experiences for children
- Values of movement for children
- Links between child's stage of development and appropriateness of particular musical and movement experiences
- Strategies for fostering music and movement development
- Adult awareness of appropriate selection of music and movement experiences for different ages
- Organising and implementing and evaluating music and movement experiences
- Ways to follow and respond to children's ideas and interests
- Selection of appropriate music and movement resources which are inclusive and encourage appreciation of diversity including cultural diversity
- Basic musical concepts
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by young children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
  - factors that support or undermine the capacity of families to rear young children adequately
  - features of a family's immediate social environment that are important for family functioning and young children's development and well being
REQUIRED SKILLS AND KNOWLEDGE

- features and qualities of communities that help or hinder families in their capacity to raise young children adequately
- core needs that all children and families have in common, and how to provide inclusive child and family services
- understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Engender interest and appreciation of music in children and to encourage them to experiment with expressing themselves in music
- Use music with children including singing and simple percussion instruments
- Choose appropriate settings for movement experiences
- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - support infants and toddlers to master key developmental tasks
  - early identification of emerging trends in child needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment must include the candidate working with children over a period of time and involve more than one assessment session.
- Assessment must include assessment of ability to effectively engage children over a range of ages in developmentally appropriate music and movement experiences

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

| **2.** Provide developmentally appropriate dramatic and imaginative play experience for children | 2.1 Present play areas both indoors and outdoors which provide children with opportunities to enjoy dramatic and imaginative play  
2.2 Plan/design developmentally appropriate experiences to stimulate children's involvement  
2.3 Provide inviting, stimulating and safe experiences for individual children and small groups of children involved in imitative, dramatic and imaginative play  
2.4 Provide adult support through facilitation and extension of children's imitative, dramatic and imaginative play experiences  
2.5 Present play areas which are culturally rich and reflect the diversity of families using the service |
| **3.** Support children to participate in the expressive arts | 3.1 Encourage children to talk about their creations  
3.2 Share enthusiasm for creative work with children  
3.3 Encourage children to respect and appreciate the creative work of peers  
3.4 Provide children with opportunities to discuss and explore artwork, design and/or images |
| **4.** Provide a variety of experiences to develop children's creativity, imagination and self expression | 4.1 Provide a variety of experiences to stimulate children's awareness and develop their creativity, imagination and self expression through play  
4.2 Provide materials and experiences that stimulate different senses and promote body awareness  
4.3 Recognise, acknowledge, encourage and follow up children's enthusiasm and curiosity |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Knowledge of a wide range of developmentally appropriate experiences for children in the area of expressive arts and sensory experiences
- Characteristics of high quality learning environments
- Knowledge of aesthetic, safe, interesting, challenging environments to encourage curiosity, experimentation, active learning, literacy and choice
- The value of creative processes and experiences as well as the end product
- Strategies to encourage children's creativity and literacy including: offering suggestions, use open ended questions, offering opportunities for imaginative play
- Dramatic play and its role in socialisation
- Imitative, dramatic and imaginative play
- Use of printed materials and audio visual aids
- Adult's role in creating inviting spaces
- Barriers to creativity
- Presentation of imitation play, dramatic play and imaginative play spaces for children
- Overview of an inclusive approach
- Use of evaluations for modifications and changes to extend play and stimulate involvement
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by young children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal
REQUIRED SKILLS AND KNOWLEDGE

and early childhood development

- factors that support or undermine the capacity of families to rear young children adequately
- features of a family's immediate social environment that are important for family functioning and young children's development and well being
- features and qualities of communities that help or hinder families in their capacity to raise young children adequately
- core needs that all children and families have in common, and how to provide inclusive child and family services
- understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply understanding of the stages of children's development in planning and delivering a range of appropriate activities to stimulate an interest and love of learning in children

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - planning expressive arts opportunities and activities for children
  - communication with children
  - scaffolding children's knowledge and skills
  - creative use of resources and imagery
  - stimulating and encouraging participation
  - choose appropriate resources and music for creative experiences
  - express self through creative mediums
  - appreciation of a range of creative mediums

- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - support infants and toddlers to master key developmental tasks
  - early identification of emerging trends in child needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
REQUIRED SKILLS AND KNOWLEDGE

- provide environments and relationships that are safe for young people
- engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Candidates must be assessed over a number of occasions working with children. Assessment will include observations, examination of portfolios of evidence and questioning
- Assessment must include assessment of the ability to provide developmentally appropriate experiences over a range of ages

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Aesthetic experiences that are developmentally appropriate may include:

- Visual arts experiences, such as:
  - drawing and painting
  - modelling
  - printing
  - construction
  - collage
- Music and sound experiences, such as:
  - listening to music and singing
  - participating in music making and singing
  - listening to sounds of nature
- Taste and smell experiences
- Performance such as:
  - dance
  - drama

Appropriate materials will include:

- Thick and thin crayons
- Pencils
- Waterbased paints
- Fingepaint
- Thick and thin brushes
- Natural materials
- Clay
- Playdough
- Papier-mache
- Recycled materials
- Modeling wire
- Oil pastels
- Chalks
- Found objects and self-made objects for printing
- Joining materials

Work and play areas that promote aesthetic qualities may be:

- Indoors
- Outdoors
RANGE STATEMENT

**Strategies for fostering creative development and aesthetic awareness in children may be:**

- Provide an aesthetically pleasing environment
- Display of quality adult visual art
- Create aesthetically pleasing displays of children’s work
- Model aesthetic awareness and creativity
- Encourage visual representation and expression with the children to record aspects of the program

**Experiences presented should stimulate children's curiosity and learning through:**

- Encouraging active exploration, experimentation and learning
- Introducing new ideas and experiences via formal and informal, planned and spontaneous experiences
- Encouraging program input from children, staff, parents, community
- Encouraging problem solving and curiosity

**Range of developmentally appropriate experiences which stimulate children's imitative, dramatic and imaginative play are presented through:**

- Creation of inviting uncluttered spaces - large and small
- Provision of a range of open-ended materials to stimulate imagination
- Provision of a range of accessories
- Provision of a range of cross-cultural materials
- Mime

This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
Elements and Performance Criteria

ELEMENT

1. Provide planned and spontaneous experiences to foster the physical development of children

PERFORMANCE CRITERIA

1.1 Identify and monitor children's physical skills and development

1.2 Plan and provide developmentally appropriate experiences and opportunities to foster children's fine and gross motor and fundamental movement skills

1.3 Plan and provide experiences which challenge the physical skills and abilities of children and promote physical fitness

1.4 Plan and provide experiences to challenge the physical endeavours of children, including promotion of outdoor play, and check clothing is suitable to weather conditions

1.5 Provide opportunities for children to practice physical skills and expand/extend children's physical activities though the use of outdoor space and the natural environment

1.6 Select and provide equipment to encourage spontaneity in physically active play

1.7 Arrange equipment to provide challenge and choice, to encourage independence and to facilitate physically active play

1.8 Support children and families to understand the relationship between physical activity and good health whilst still respecting family and cultural values

1.9 Plan experiences that extend children's physical activity through music and dance
<table>
<thead>
<tr>
<th><strong>ELEMENT</strong></th>
<th><strong>PERFORMANCE CRITERIA</strong></th>
</tr>
</thead>
</table>
| 2. Create opportunities for children to develop a wide range of physical skills | 2.1 Develop opportunities for physical activity within the context of the service  
2.2 Select and provide a variety of toys, materials, equipment and spaces to encourage the development of a wide range of fine and gross motor and fundamental movement skills  
2.3 Identify and seek advice when children require specialist assistance  
2.4 Create opportunities to support emerging skills of individual children where necessary  
2.5 Encourage children of both genders to participate in the full range of activities  
2.6 Provide opportunities for children to develop and learn new physical skills  
2.8 Provide opportunities for children to consolidate their physical skills towards independence |
| 3. Interact with the child to foster skill development | 3.1 Use a variety of strategies to encourage children's physical skills and development  
3.2 Provide positive acknowledgement of children's efforts to participate  
3.3 Participate in relevant activities experiences with children  
3.4 Demonstrate enthusiasm for physical activity  
3.5 Encourage children to express ideas for physical experiences  
3.6 Encourage physical activity and active play whilst respecting each child's level of ability and participation  
3.7 Encourage children's confidence and safety awareness when participating in physically active play |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include:

- Demonstrated understanding of children's physical development and skill development
- Importance of promoting a healthy weight and the relationship between nutrition intake and physical activity in relation to childhood obesity and poor health
- Knowledge and understanding of the Australian Government Department of Health and Ageing 2004, National Physical Activity Recommendations for Children and Youth
- Acceptance of each child's rate of development, needs, interests and strengths
- Experiences that will enhance all areas of physical development
- Needs of children with a sensory/physical disability
- Equipment, toys, music and resources that can be used to stimulate physical development
- Knowledge of interaction between physical development and other areas of development - especially social and psychological development
- Fundamental movement skills set
- Play that extends physical activity involvement and ability
- Relevant organisation standards policies and procedures
- Definitions and principles of growth and general influences on physical development including:
  - physical development
  - qualitative and quantitative changes
  - growth, maturation and readiness
  - chronological and maturational age
  - gross motor, fine motor, coordination
  - fundamental movement skill development
  - kinaesthetic awareness
  - early perceptual development
  - sensory motor development
REQUIRED SKILLS AND KNOWLEDGE

- sensory integration
- cultural and family values
- Relevant theories including:
  - maturation
  - percentile norms
- Different beliefs about development due to culture, community, family beliefs

**Essential knowledge (contd):**

- Organisation standards, policies and procedures relating to physical experiences provided in the workplace to encourage the physical development of children
- Relevant principles within the Quality Improvement Accreditation System - National Child Care Accreditation Council
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
  - factors that support or undermine the capacity of families to rear children adequately
  - features of a family's immediate social environment that are important for family functioning and children's development and well being
  - features and qualities of communities that help or hinder families in their capacity to raise children adequately
  - core needs that all children and families have in common, and how to provide inclusive child and family services
  - understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Plan and arrange a range of developmental opportunities which are matched to the developmental stage and specific needs of the children and which will enhance their development
REQUIRED SKILLS AND KNOWLEDGE

- Set up venue/environments and equipment/materials so that they facilitate physically active play
- Provide opportunities for children to interact positively with other children and to accept individual differences giving due regard to age, cultural, and development of children
- Engage with children to promote their participation in experiences

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - reflective practice
  - acceptance of each child’s rate of development, needs, interests and strengths
  - developmentally based/child focused planning
  - interpersonal skills
  - time management
  - active listening
  - empathy
  - work organisation skills
  - valuing of differences among children - stage of development, needs, interests, strength
- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - identify emerging trends in child needs and how to address them
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job for a range of age groups, a range of activities and a range of needs over a number of assessment conditions and situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a range of opportunities defined in the Range Statement
EVIDENCE GUIDE

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.

- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.

- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Opportunities to support children's development will vary according to a number of factors, such as:

- Physical environment
- Purpose of the service
- The amount and type of support from parents and participation by parents
- The level of support available to the service from external bodies e.g. specialist advice services, resource workers, inclusion support workers
- The frequency and regularity of use of the service by the child
- Age of the child

Physical skills may include:

- Skills in motor areas - fine and gross motor
- Dexterity
- Eye-hand coordination
- Balance
- Locomotion
- Coordination
- Fundamental movement skills sets:
  - static balance
  - sprint run
  - vertical jump
  - catch
  - hop
  - side gallop
  - skip
  - over-arm throw
  - leap
  - kick
  - dodge
  - two hand strike
  - dance and physical response to music
RANGE STATEMENT

Promote physical fitness skills may relate to experience such as:
- Active games
- Sports
- Exercises
- Fine motor skill areas
- Setting up venue/environment
- Range of environments and equipment
- Socio dramatic play
- Play with construction materials
- Music and movement experiences

Opportunities to develop relevant physical skills will vary according to the age/ability of the child and must include:

For 6 to 12 years old:
- Opportunities for development of balance, skilled climbing, riding, skating opportunities to develop skills in running, kicking, catching, skipping, throwing, writing, drawing, gluing etc.

Opportunities provided to develop skills may need to be adapted to accommodate factors such as:
- Availability of indoor and outdoor facilities
- Environment
- Venue/location
- Type of service
- Workers own physical capabilities
- The desire and ability for children to set up equipment themselves
- Safety considerations
- Peer group pressure

Interaction may be with a variety of people including:
- Children of same age
- Children of different ages
- Adults
RANGE STATEMENT

Diversity among children may include differences due to:

- Gender
- Race, culture and ethnicity
- Age/maturity
- Interests and preferences
- Social context and lifestyle
- Abilities
- Socioeconomic factors

The acceptance of differences among children will be affected by:

- Children's age/maturity
- Capabilities
- Children's family, school, peer group attitudes and beliefs
- Life experiences
- Prior learning experiences

Experiences that promote social interaction will vary according to the age of the children:

For 6 to 12 year old children:

- Peer group interaction is very significant
- Establish initiatives to link children with a wider range of children to encourage broader interaction
- Development of trusting relationships with adults/workers
- Allow children to establish and maintain friendships and groups
- Opportunities for children to play without adult intervention are provided

Individual differences may include:

- Age
- Gender
- Family background and lifestyle
- Abilities and disabilities
- Style of social interaction
- Appearance
- Cultural beliefs and practices
- Temperament
- Interests
- Peer group acceptance, membership or isolation
RANGE STATEMENT

Non stereotypical images could include:
- Children and adults of both genders engaging in a range of experiences
- Children of a range of races
- Range of appearances
- Range of abilities
- Different family compositions
- People from a variety of cultural backgrounds together
- Range of additional needs of children

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Support children to build and maintain trusting relationships | 1.1 Listen attentively and show children their views are valued and acknowledged  
1.2 Acknowledge and support children's preferences for particular adults and peers  
1.3 Help children to understand and accept responsibility for their own actions  
1.4 Encourage children to express and manage feelings appropriately  
1.5 Support children's various levels of interaction and participation with others during play |
ELEMENT
2. Plan experiences for children to support and cooperate with others

PERFORMANCE CRITERIA

2.1 Encourage children to respect each other's individual needs, abilities and interests
2.2 Encourage children to regard differences positively and to discuss these differences
2.3 Support children who have difficulty interacting with others, to establish and maintain friendships and group membership
2.4 Acknowledge and encourage appropriate, supportive and effective communication between children
2.5 Provide experiences and opportunities that promote children's moral development and pro-social skills

3. Provide opportunities for social interaction

3.1 Plan and provide opportunities for different forms of social interaction between children with respect for each child's needs, interests and development stage
3.2 Encourage children to interact with a variety of people and to initiate and develop contact with others, as appropriate
3.3 Arrange the environment to encourage interaction and also accommodate a child's need for privacy, solitude and/or quiet
3.4 Celebrate special occasions in culturally sensitive ways
3.5 Respect children's choice to watch and observe
3.6 Structure experiences and equipment in ways that promote cooperation and conflict resolution
3.7 Foster and respect children's own grouping choice
3.8 Talk about and respond to children as group members as well as individuals
3.9 Identify and monitor children's social skills and development
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Children's social and moral development
- Importance of leisure time and how it can be provided for
- Interaction between aspects of social development, physical development and psychological development and cognitive development
- Importance of language that is selected and used
- Organisation standards, policies and procedures
- Children's emotional development
- Cultural awareness and understanding differences in social and family systems
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
  - factors that support or undermine the capacity of families to rear children adequately
  - features of a family's immediate social environment that are important for family functioning and children's development and well being
  - features and qualities of communities that help or hinder families in their capacity to raise children adequately
  - core needs that all children and families have in common, and how to provide inclusive child and family services
  - understanding of particular backgrounds, experiences and needs of children and
REQUIRED SKILLS AND KNOWLEDGE

families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Provide opportunities for children to interact positively with other children and to accept individual differences, giving due regard to age, cultural, and development of child/ren
- Evaluate the social development of the child and to plan activities which will enhance their development

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills in:
  - acceptance of each child’s rate of development, needs, interests and strengths
  - planning
  - interpersonal skills
  - team building skills
  - time management
  - active listening
  - empathy
  - organisation
  - valuing of differences among children - stage of development, needs, interests, strengths
- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - early identification of emerging trends in child needs and how to address them
  - manage children’s health needs, eating behaviours and physical activity
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a range of opportunities defined in the Range Statement, including:
  - a childcare workplace
  - children's services, resources and equipment
  - the local environment
EVIDENCE GUIDE

**Method of assessment:**

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

**Range Statement**

**RANGE STATEMENT**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Differences and their acceptance among children will be affected by:*

- Children's age/maturity
- Capabilities
- Children's family, school, peer group attitudes and beliefs
- Life experiences
- Prior learning experiences
RANGE STATEMENT

Individual differences may include:
- Age
- Gender
- Family background and lifestyle
- Abilities
- Style of social interaction
- Appearance
- Cultural beliefs and practices
- Temperament
- Interests
- Peer group acceptance, membership or isolation

Diversity among children may include differences due to:
- Gender
- Race, culture and ethnicity
- Age/maturity
- Interests and preferences
- Social context and lifestyle
- Abilities
- Socioeconomic factors

Interaction may be with a variety of people including:
- Children of same age
- Children of different ages
- Adults
- Siblings

Opportunities for social interaction may include:
- Formally organised activities
- A time and space for unplanned interaction
- Meetings
- Travelling
- Talking
- Listening and responding
- During care routines
- Excursions
- Setting up venue
- Socio dramatic play
- Play with construction materials
- Art activities
RANGE STATEMENT

Special occasions may include:
- Birthdays/name days
- Festivals
- Celebration of achievements
- Religious occasions
- Community events
- Culturally significant days
- Beginning and end of term and holidays

Opportunities provided for social interaction will vary according to the age of the children and must include:

For 6 to 12 year old children:
- Peer group interaction (very significant)
- Establish initiatives to link children with a wider range of children to encourage broader interaction
- Development of trusting relationships with adults/workers
- Allow children to establish and maintain friendships and groups
- Opportunities for children to play without adult intervention are provided

Non stereotypical images could include:
- Children and adults of both genders engaging in a range of activities
- Children of a range of races
- Range of appearances
- Range of abilities
- Different family compositions
- People from a variety of cultural backgrounds together
- Range of additional needs of children

Areas of competence may include:
- Social situations
- Peer groups
- Communicating with adults

Experiences to present a challenge may include:
- Opportunities to develop and practice skills in a range of activities

</tr>
</tbody>
</table>
ELEMENT

2. Foster children's self-esteem and developing self concept

PERFORMANCE CRITERIA

2.1 Plan opportunities for children to experience individual strengths and success
2.2 Select experiences that present a challenge within children's emerging skills and capabilities
2.3 Monitor child's confidence while attempting more challenging activities
2.4 Provide acknowledgment and support if the child experiences frustration and encourage children to see 'mistakes' as opportunities to learn
2.5 Acknowledge and appreciate children's individual and group achievements
2.6 Design experiences to explore issues of self image and identity in ways that are appropriate to the children's level of development
2.7 Choose learning and play resources to provide positive, non stereotypical images of children
2.8 Provide opportunities for children to build on and extend achievements
2.9 Provide children with opportunities to initiate and assume leadership roles

3. Create opportunities and provide experiences that encourage children to express their feelings, needs and ideas

3.1 Identify and monitor children's emotional development and expression of feelings
3.2 Listen to and respond to children's expression of feelings and ideas
3.3 Ensure expectations about how children express their feelings are related to child's stage of development
3.4 Encourage and demonstrate socially appropriate ways for children to express their feelings and needs
3.5 Provide opportunities for children to release feelings and express emotion through suitable experiences
3.6 Encourage children to appreciate one another's achievements
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include knowledge of:

- Theories of children's emotional and psychological development which may include:
  - Attachment
  - Psychosocial development
  - Temperament and personality
  - Relationship between brain development and social and emotional development
  - Family systems
- A broad range of theoretical perspectives on human and learning development which may include but is not limited to: Bronfenbrenner, Ericson, Piaget, Vygotsky, Gardner
- Interaction between aspects of social development, physical development and psychological development and cognitive development
- Importance of language that is selected and used
- Different beliefs about social development due to culture, community, family beliefs
- Organisation standards, policies and procedures
- Children's emotional development
- Importance of culture in the development of self
- Contextual factors which influence the child's emotional and psychological development
- Events or crises which can challenge the child's emotional and psychological development, including:
  - fears
  - self-esteem and self concept
- Factors which enhance the development of self-esteem and self identity
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by children and their implications for practice
REQUIRED SKILLS AND KNOWLEDGE

- cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
- environmental conditions and the experiences known to have positive effects on prenatal and early childhood
- environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
- factors that support or undermine the capacity of families to rear children adequately
- features of a family's immediate social environment that are important for family functioning and children's development and well being

continued ...

Essential knowledge (contd):

- Knowledge underpinning national child health and well being core competencies (contd)
  - features and qualities of communities that help or hinder families in their capacity to raise children adequately
  - core needs that all children and families have in common, and how to provide inclusive child and family services
  - understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Provide opportunities for children to interact positively with other children and to accept individual differences, giving due regard to age, cultural, and development of child/ren
- Evaluate the emotional and psychological stage of the child and to plan activities which will enhance their development

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - acceptance of each child's rate of development, needs, interests and strengths
  - planning
  - interpersonal skills
  - team building skills
  - time management
REQUIRED SKILLS AND KNOWLEDGE

- active listening
- empathy
- organisation
- valuing of differences among children - stage of development, needs, interests, strengths
- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - early identification of emerging trends in child needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups and a range of conditions over a number of assessment situations
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a range of opportunities defined in the Range Statement, including:
  - a childcare workplace
  - children's services, resources and equipment
  - the local environment

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Related units: It is recommended (but not required) that this unit be assessed in conjunction with related unit:
- CHCFC513A Foster social development in middle childhood

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

The acceptance of differences among children will be affected by:
- Children’s age/maturity
- Capabilities
- Children’s family, school, peer group attitudes and beliefs
- Life experiences
- Prior learning experiences

Opportunities for experiences with an emotionally enriching and expressive component could include:
- Socio dramatic play
- Movement
- Listening to music
- Art experiences including clay and finger painting
RANGE STATEMENT

Individual differences (diversity) among children may include:
- Abilities and disabilities
- Age/maturity
- Appearance
- Beliefs and practices (cultural, religious etc)
- Family background and lifestyle
- Gender
- Interests and preferences
- Peer group acceptance, membership or isolation
- Race, culture and ethnicity
- Social context and lifestyle
- Socioeconomic factors
- Style of social interaction
- Temperament

Encouragement of a child to develop emotionally and psychologically will vary according to the age of the child and must include:

For 6 to 12 year olds:
- Child will be encouraged to express their feelings appropriately e.g. Language appropriate to the context, considering impact on others
- Through both verbal and non-verbal ways

Non stereotypical images could include:
- Children and adults of both genders engaging in a range of activities
- Children of a range of races
- Range of appearances
- Range of abilities
- Different family compositions
- People from a variety of cultural backgrounds together
- Range of additional needs of children

Areas of competence may include:
- Social situations
- Peer groups
- Communicating with adults
RANGE STATEMENT

Experiences that present a challenge may include:

- Opportunities to develop and practice skills in a range of activities

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assist children to develop thinking and problem solving skills | 1.1 Provide varied and appropriately challenging opportunities and resources related to each child's stage of development and interests  
1.2 Provide opportunities for children to experience the consequences of their choices, actions and ideas  
1.3 Encourage children to explore, understand and solve problems in their environment  
1.4 Use a variety of strategies to maintain children's interest in solving problems  
1.5 Provide challenging and engaging experiences for each child to develop their attention span and give them time to stay with the activity until they are ready to move on  
1.6 Introduce new ideas/activities that may build on existing knowledge, skills and interests  
1.7 Use questioning and non-verbal communication to develop children's abilities to observe what is happening around them  
1.8 Identify and monitor children's cognitive development and thinking skills |
ELEMENT

2. Promote opportunities for a wide range of developmentally appropriate experiences in science, mathematics, technology, and the environment

PERFORMANCE CRITERIA

2.1 Present a range of developmentally appropriate experiences in science, maths, and technology

2.2 Present a range of experiences to stimulate learning about the environment

2.3 Recognise children's abilities and respond to their interests and learning potential

2.4 Encourage participation in science, maths, technology, and environmental learning experiences in a way that is enjoyable

2.5 Present experiences that stimulate children's curiosity and learning

2.6 Provide opportunities for children to further explore their concept development
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Stages of cognitive development
- Peer group interactions
- Child's family and community context and influences
- Organisation standards, policies and procedures
- Planning processes and understanding of adults role in experiences
- Sensory perceptual development and brain development
- Theories, including but not limited to: Piaget, Vygotsky and Gardner
- Social constructivist learning theory
- Interrelationship between cognitive, creative and language development
- Importance of dispositions impacting on lifelong learning
- Awareness of the following national child health and well being core competencies as they apply to all who deliver care to children:
  - core principles of child development and the key developmental tasks faced by children and their implications for practice
  - cumulative effects of multiple risk and protective factors and the developmental implications of the balance between them
  - environmental conditions and the experiences known to have positive effects on prenatal and early childhood
  - environmental conditions and experiences known to have adverse effects on prenatal and early childhood development
  - factors that support or undermine the capacity of families to rear children adequately
  - features of a family's immediate social environment that are important for family functioning and children's development and well being
  - features and qualities of communities that help or hinder families in their capacity to raise children adequately
  - core needs that all children and families have in common, and how to provide
REQUIRED SKILLS AND KNOWLEDGE

inclusive child and family services

- understanding of particular backgrounds, experiences and needs of children and families in exceptional circumstances or with additional needs

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Encourage children in thinking and problem solving experiences with consideration for each child's culture, stage of development and interests

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include the ability to:

- Demonstrate application of skills in:
  - planning open ended experiences to promote children's enquiry and mathematical thinking
  - problem solving processes and tools or strategies to facilitate children's problem solving
  - use open ended questions to encourage children to predict, hypothesise, explain, reason and express their ideas and opinions
  - creative use of inexpensive resources to stimulate children's interest and curiosity
  - modelling strategies, suggesting next steps and highlighting aspects the children may have overlooked
  - supporting and encouraging children's unconventional and innovative use of materials
  - use the environment to stimulate children's curiosity
  - arrange experiences that stimulate children to explore and discuss diverse objects, people and places

- Apply the following skills identified as underpinning national child health and well being core competencies, where they are applicable to the work role:
  - implement effective evidence-based service delivery
  - coordinate service delivery to families with an interdisciplinary teamwork approach and where possible collaborative interagency practice
  - early identification of emerging trends in child needs and how to address them
  - manage children's health needs, eating behaviours and physical activity
  - provide environments and relationships that are safe for young people
  - engage and work with parents/carers and families
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a realistic simulated workplace setting under the normal range of workplace conditions, for a range of age groups and over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged.
- Resource requirements for assessment include access to a range of opportunities defined in the Range Statement, including:
  - A childcare workplace
  - Children's services, resources and equipment
  - The local environment

Method of assessment:
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Related units:
- It is recommended (but not required) that this unit be assessed in conjunction with related unit:
  - CHCFC506A Foster children's language and communication development

Range Statement

RANGE STATEMENT
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Thinking skills may include:
- Reasoning
- Developing understanding and explanations
- Critical thinking
- Use of mathematical concepts
- Problem solving
- Inventing, discovering and planning

Opportunities for children to develop cognitively will vary according to the child's age/abilities and must include:

For 6 to 12 year old children:
- Children are assisted to identify the reasons for their opinion/action/feelings
- Child is asked to predict likely/possible consequences of actions and events
- Child is prompted to consider a variety of perceptions of an event
- Hypothesising and experimentation
- Opportunities to explore particular interests that emerge
- Opportunities to develop and maintain interest areas
- Challenging, open ended experiences
- Opportunities to develop problem solving skills will vary according to the age of the child

Understandings may include:
- Mathematical understanding
- Scientific principles
- Social understandings
- Geographical awareness
- Historical understanding
- Mechanical understanding
- Potential of computers
RANGE STATEMENT

Opportunities to develop problem solving skills vary according to age of the child:  
For 6 to 12 year olds:  
- Opportunities to develop problem solving skills in social relationships with their peers  
- Learning through 'failure'/mistakes  
- Conflict resolution strategies are developed

Opportunities to explore their environment will vary according to age of the child:  
For 6 to 12 year olds:  
- Local neighbourhood excursions

Opportunities to explore their local environment directly will differ according to a range of factors such as:  
- Distance, proximity of new experience  
- Risks and hazards  
- Time available

Opportunities to extend children’s knowledge of the world may include:  
- Excursions/incursions  
- Visits  
- Maps, posters, music, books etc.  
- Walks in the local area  
- Visitors  
- Community resources

Environment may include:  
- The natural environment  
- The social world  
- The cultural environment  
- The world of ideas  
- Human made environment

<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Assist children to consider the consequences of their actions | 1.1 Prompt children to consider potential impacts as well as consequences that are observable  
1.2 Consider with children short term and longer term impacts |
| 2. Assist children to make decisions about the fairness of their actions | 2.1 Encourage children to explore a range of responses to a situation  
2.2 Encourage children to consider a range of reasons underlying their actions |
| 3. Respond to children's questions about issues and principles | 3.1 Ensure communication about values and moral issues is appropriate to child's family and cultural background  
3.2 Ensure communication about values is in line with philosophy and guidelines of the service  
3.3 Discuss with children issues that require a moral/ethical response  
3.4 Discuss with children examples of children responding to ethical issues in different ways |
ELEMENT
4. Assist children to develop their role as members of a community

PERFORMANCE CRITERIA
4.1 Encourage children to voice their views in a range of forums relevant to an issue
4.2 Encourage children to participate in decision-making forums
4.3 Develop, select, implement and review practical strategies with children
4.4 Develop opportunities for children to contribute to community events
4.5 Develop opportunities where children can provide genuine assistance to others
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Social development of children
- Cognitive development of children
- Emotional and psychological development of children
- Philosophies underpinning children's services
- Philosophy and mission of the organisation
- Range of cultural values of families using the service
- Range of religious values and teachings of families and children using service
- Codes of ethics e.g. AECA
- United Nations Convention on the rights of the child
- Organisation standards, policies and procedures

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Provide opportunities for children to consider their actions and consequences whilst recognising different cultural values and beliefs

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include the ability to:

- Demonstrate application of skills in:
  - interpersonal
  - planning
REQUIRED SKILLS AND KNOWLEDGE

- organisation
- dealing with cross-cultural issues and beliefs

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit could be assessed either on the job or off the job through an appropriate workplace simulation for a range of age groups, a range of conditions, and over a number of assessment situations

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to a range of opportunities defined in the Range Statement, including access to:
  - a childcare workplace
  - children's services, resources and equipment
  - the local environment

Method of assessment:
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Citizenship may be at levels of:
- Local
- National
- International
- Global

Ethical understanding may include areas such as:
- Relations with people
- Relations with animals and pets
- Relationship to the natural environment and the land
- Links to the immediate environment of the service
- Social responsibilities and rights

This unit becomes increasingly relevant as children develop:

For 3 to 5 year olds:
- Focus is practical and concrete
- Examples are used in discussion
- A more local view of community membership is developed

For 5 to 12 year olds:
- A wider view of community membership is developed including the global community
- Increasing self responsibility and initiative expected in relation to social interactions

---

Elements and Performance Criteria

**ELEMENT**

**PERFORMANCE CRITERIA**

1. Apply appropriate family counselling model

   1.1 Analyse and critique a broad range of family counselling approaches

   1.2 Compare the various counselling models and identify limitations and appropriate applications to family counselling

2. Apply counselling approaches in a family counselling setting

   3.1 Determine from a range of counselling theories the most appropriate counselling approach to meet client need

   2.2 Develop a conceptualisation of the problem with regard to family context

   2.3 Develop an hypothesis to explain the presenting problem

   2.4 Identify individual behaviours and communication transactions that contribute to conflict

   2.5 Identify family relationship patterns and themes and articulate these back to the client family in an empathic way

   2.6 Identify problems with abstract thinking
ELEMENT  
3. Implement the components of a family therapy session

PERFORMANCE CRITERIA
3.1 Use hypothesis to generate relevant questions
3.2 Use case conceptualisations to develop therapeutic options
3.3 Assess onset of presenting problems and explore relationships changes around it
3.4 Track a sequence within a family dynamic
3.5 Explore the relationships web using a variety of questions
3.6 Explore behaviours, meaning and relationships using a variety of questions
3.7 Develop a systemic intervention

4. Monitor and review use of counselling approaches and theories in family counselling contexts

4.1 Utilise peer support structures to test theoretical applications
4.2 Seek out and access supervision opportunities on a regular basis to assess effectiveness of practice applications
4.3 Use self awareness and own family of origin theory to identify and refer clients with whom it is inappropriate to work
4.4 Undertake professional development on a regular basis to increase theoretical knowledge base and improve counselling approaches
4.5 Monitor and evaluate interventions for consistency, congruency with counselling approach and theory of change, cultural contextual relevance, and agreed counselling goals

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.
REQUIRED SKILLS AND KNOWLEDGE

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Development of counselling theories and practice approaches
- Own prejudices and stereotyping attitudes and behaviour and the potential influence these may have on counselling practice
- Limitations imposed on the counsellor client relationship as a result of professional and ethical responsibility in the context of an unequal balance of power in the counselling setting
- Limitations to the effectiveness or usefulness of counsellor in some circumstances and course of actions appropriate for client referral when necessary
- Contracting and reaching agreements with client about the nature, process and expected timeframes and responsibilities for counsellor and client within provisions of counselling
- Importance and opportunities for continuing professional development and maintaining a professional level of self-awareness of current scientific and professional information and education in the area of counselling practices
- Indicators and dynamics of domestic and family violence and complexities of interpersonal interactions, e.g. power, abuse and conflict
- Procedures and instruments to screen for abuse before, during and after couple or family counselling and any additional safety planning requirements and procedures for clients and staff
- Referral options and pathways to support clients seeking interventions and supports beyond or in conjunctions with counselling
- Importance and intent of counsellor participation in supervision
- Relevant state and federal legislation applicable to counselling practice
- Limitations of confidentiality that may arise in the counselling setting
- Contemporary research and approaches to counselling in diverse cultural contexts
- Relevance of concepts of couple, family and child dynamics in normal and abnormal developmental forms
- Main approaches used in counselling
- Theories of major counselling approaches
- Stages of human development and how this knowledge applies to counselling practice
- Human diversity including culture, gender, age, ability, class, spirituality and ethnicity
- Role of social contexts in the counselling relationship
- Range of impacts of separation and divorce on couples, parents, children and other family members

continued ...
REQUIRED SKILLS AND KNOWLEDGE

Essential knowledge (contd):

- Impact of conflict, particularly high level and/or ongoing conflict, on children, and the use of child focused approaches to intervene and minimise the impacts.
- Family research and implications for practice

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Identify and adhere to legislative requirements of counselling in a broad range of contexts including Family Law and counselling couples, families children
- Explain counselling goals and action plans and outline counselling process and agreements
- Assess and screen for domestic and family violence and child abuse using a range of instruments and processes
- Monitor own competence through counselling supervision and be willing to consider the views expressed by clients and by counsellor colleagues
- Manage the counselling role within an ethical context and discuss processes for client referral where necessary
- Comprehend a variety of individual and systemic therapeutic approaches and their application, including evidence-based therapies and culturally sensitive approaches
- Recognise the strengths limitations and contraindications of specific therapeutic approaches, including risk of harm associated with approaches that incorporate assumptions of family dysfunction
- Apply an appropriate counselling approach and identify specific techniques to ensure client needs are met
- Apply advanced counselling interventions and explain the contribution of counselling to the therapeutic process
- Compare and contrast counselling theories and approaches
- Identify common concerns in the provision of counselling processes
- Work in a multidisciplinary environment where appropriate
- Manage confidentiality of information obtained from clients during the counselling process
- Maintain a solid theoretical base for effective and contemporary counselling practice
- Manage the dynamics of counselling groups and family groups experiencing high levels of ongoing conflict
- Respect and promote client self determination and ability to make own decisions within the clients value, beliefs and context
- Demonstrate sensitivity when counselling individual and groups from diverse backgrounds
- Apply age appropriate communication and counselling techniques when working with children and young people
REQUIRED SKILLS AND KNOWLEDGE

- Produce case records, files and reports to a standard acceptable to industry standards
- Complete case work and participate effectively in case management processes where appropriate
- Practise self critique and non-defensive recognition of own errors

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of client situations or scenarios relevant to the workplace including
  - couples counselling
  - individual counselling as planned strategy for relationships intervention
  - family counselling
  - child and/or young person counselling
  - cases of complex family dynamics
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment

- Observation in the workplace is essential
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
- Counselling skills involving direct client contact are to be assessed initially on two occasions in a simulated counselling setting. If successful, further assessment is required during 10 hours actual counselling practice under direct supervision

The assessment environment should not disadvantage the candidate

Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English

Where the candidate has a disability, reasonable adjustment may be applied during assessment

Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Counselling approaches may include one or more of the following and is not limited to:

- Systemic family therapy
- Narrative therapy
- Group therapy
- Gestalt therapy
- Person-centred therapy
- Existential therapy
- Evidence-based family counselling

Depth of knowledge and levels of application of counselling approaches and theories is outlined in the Essential knowledge and skills section of this unit of competency

Counselling theories may include but is not limited to knowledge of principles of:

- Theory of grief and loss and relationship to individuals including children experiencing separation and divorce
- Theories of conflict management and negotiation and relevance to family/couples relationship counselling
- Theories of separation and anxiety and application to experiences of children in situations of parental conflict and separation
- Theories of human development, human sexuality, gender development and family development.
- Theories of family systems and their importance in the family relationship counselling context.
- Theories of change in complex circumstances

Peer support structures may include but are not limited to:

- Discussions and reflective practice with colleagues
- Discussions and reflective practice with other counsellors
- Exploring issues in group supervision
- Learning circles with peers
RANGE STATEMENT

Supervision requires counsellors to:
Engage in a purposeful arrangement with a clinical supervisor to:
- Reflect on the setting of their work and understand the process which lead to failure in counselling
- Consider legal and ethical obligations
- Analyse experience and practice of working with people in the counselling setting

Self awareness includes:
- Awareness of own values, experiences and family of origin, prejudices and stereotyping attitudes and behaviour and the potential influence these may have on counselling practice
- Describe the effect of complex cases on the self of the family counsellor

Professional development may include:
- Obtaining knowledge of advances and theoretical applications to counselling practice through:
  - further training or study for knowledge or skills development
  - individual research
  - attending relevant conferences
  - maintaining any standards for professional membership
  - maintaining regular individual and peer supervision

Develop an hypothesis relates to:
- Development regarding relationship patterns, their bearing on the presenting problem and the influence of extra-therapeutic factors on client systems
RANGE STATEMENT

*Family relationship patterns and themes may include but are not limited to:*
- Family violence and abuse
- Child protection issues
- High levels of conflict
- Separation divorce
- Co-dependency
- Ineffective communication
- Psychological issues relating to expressions of emotions

*Relationship webs may include:*
- Tools used to assess family history and dynamics:
  - genograms
  - sociograms
  - other diagrammatic or pictorial representation of relationships

*Develop a systemic intervention with the aim to:*
- Empower clients and their relational systems to establish effective relationships with each other and larger systems

*Counselling contexts may include:*
- Couples counselling
- Family group counselling
- Individual counselling
- Counselling children and young people

<tbody>
<tr>
<td>1. Assess for issues of violence and safety risks in the couple relationships</td>
<td>1.1 <em>Assess for domestic and family violence issues</em> as part of relationship counselling</td>
</tr>
<tr>
<td></td>
<td>1.2 Take appropriate action to address any issues of violence according to organisation policy and legislative requirements</td>
</tr>
<tr>
<td></td>
<td>1.3 Refer individuals to <em>support services</em> to manage <em>issues of safety or risk</em> if required</td>
</tr>
<tr>
<td></td>
<td>1.4 Document issues of concern or potential risk according to policy and relevant legislation</td>
</tr>
<tr>
<td></td>
<td>1.5 Assess whether there is a safe enough environment where violence exists to offer couple counselling</td>
</tr>
<tr>
<td></td>
<td>1.6 Create safe environment for couples to maximise opportunities within the counselling session</td>
</tr>
</tbody>
</table>
ELEMENT

2. Establish professional relationship with each individual

PERFORMANCE CRITERIA

2.1 Engage each individual using appropriate techniques and strategies

2.2 Remain impartial in the professional counselling relationship with couples

2.3 Explore and outline ethical boundaries and expectations of the professional counselling relationship

2.4 Identify and manage problematic issues of the professional relationship with couples

2.5 Take appropriate steps to prevent the development of problematic relationship issues between the counsellor and individuals within the couple, i.e. develop therapeutic alliance

2.6 Monitor and respond appropriately to the physical and emotional reactions of each individual to the counselling process

3. Identify and explore presenting problems

3.1 Encourage individuals to describe the presenting problems and explore their understanding of why the problem exists

3.2 Encourage couples to become aware of and discuss the problem in relation to associated behaviours or situations

3.3 Elicit the couple's understandings of attempts to previously manage the problem in the past

3.4 Evaluate couple's perception of their relationship prior to the problem existing

3.5 Reframe problems and recursive interaction
**ELEMENT**

4. Direct the therapeutic process of couples counselling

**PERFORMANCE CRITERIA**

| 4.1 | Use *questioning techniques* effectively to explore couples options, motivations, and commitments for change |
| 4.2 | Respond to communication difficulties including overt and covert aggression and hostility between individuals in the couples counselling session |
| 4.3 | Identify strengths of the relationship and encourage individuals to negotiate and develop strategic goals to be achieved in their relationship |
| 4.4 | Develop future session plans based on information and evidence obtained from current counselling session |

5. *Terminate counselling sessions*

| 5.1 | Recognise when the counselling is no longer serving the interests or needs of the client |
| 5.2 | Discuss with the client/s when counselling no longer appears to serve the client's interests or needs and either re-negotiate professional relationship or terminate the service |
| 5.3 | Engage client/s in determining any further external interventions as identified and arrange appropriate referrals |
| 5.4 | Discuss with the client any *interruptions to counselling*, planned or otherwise, and implement alternative interim counselling |

6. Seek feedback from the client/s about the counselling service provided

| 6.1 | Review counselling progress and provision regularly with clients |
| 6.2 | Obtain feedback from the clients at the conclusion of the counselling service |
| 6.3 | Use a range of *feedback strategies* to encourage client contribution to improved counselling practice |
| 6.4 | Review client feedback and use this to inform practice reflection and improvement as part of supervision |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- The historical development of counselling theories and practice approaches
- Own prejudices and stereotyping attitudes and behaviour and the potential influence these may have on counselling practice.
- Limitations imposed on the counsellor client relationship as a result of professional and ethical responsibility in the context of an unequal balance of power in the counselling setting.
- Limitations to the effectiveness or usefulness of counsellor in some circumstances and course of actions appropriate for client referral when necessary
- Contracting and reaching agreements with client about the nature, process and expected timeframes and responsibilities for counsellor and client within the provisions of counselling
- Importance and opportunities for continuing professional development and maintaining a professional level of self awareness of current scientific and professional information and education in the area of counselling practices.
- Indicators and dynamics of domestic and family violence and complexities of interpersonal interactions, e.g. power, abuse and conflict
- Procedures and instruments to screen for abuse before, during and after couple or family counselling and any additional safety planning requirements and procedures for clients and staff. Also, option for not offering relationship counselling where there is violence
- Referral options and pathways to support clients seeking interventions and supports beyond or in conjunctions with counselling
- The importance and intent of counsellor participation in supervision
- Relevant state and federal legislation applicable to counselling practice
- Limitations of confidentiality that may arise in the counselling setting
- Contemporary research and approaches to counselling in diverse cultural contexts
- Relevance of concepts of couple, family and child dynamics in normal and abnormal developmental forms
- Critical understanding and appreciation of the main approaches used in couple counselling
- Critical understanding of the theories of major couple counselling approaches,
REQUIRED SKILLS AND KNOWLEDGE

- Stages of human development and how this knowledge applies to relationship counselling practice
- Human diversity including culture, gender, age, ability, class, spirituality and ethnicity

*continued ...*

**Essential knowledge (contd):**

- Recognise the role of social contexts in the counselling relationship
- Issues impacting on same sex couples
- Family and relationship research and implications for practice

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Establish and explain professional relationships in the counselling context
- Identify and adhere to legislative requirements of counselling in a broad range of contexts including Family Law and counselling couples, families and children
- Explain counselling goals and action plans and outline relationship counselling process and agreements
- Assess and screen for domestic and family violence and child abuse using a range of indicators and processes
- Monitor own competence through counselling supervision and be willing to consider the views expressed by clients and by counsellor colleagues
- Manage the counselling role within an ethical context and discuss with clients processes referral where necessary
- Comprehend a variety of individual and systemic therapeutic relationship approaches and their application, including evidence-based therapies and culturally sensitive approaches
- Recognise the strengths, limitations and contraindications of specific therapeutic approaches, including risk of harm associated with approaches that incorporate assumptions of family dysfunction
- Apply an appropriate relationship counselling approach and identify specific techniques to ensure client needs are met, including those needs of same sex couples
- Apply advanced relationship counselling interventions and explain the contribution of counselling interventions to the therapeutic process
- Compare and contrast relationship counselling theories and approaches
- Identify common concerns in the provision of counselling processes
- Work in a multidisciplinary environment where appropriate
- Manage confidentiality of information obtained from clients during the counselling process
- Maintain a solid theoretical base for effective and contemporary counselling practice
- Manage the dynamics of counselling couples experiencing high levels of ongoing
REQUIRED SKILLS AND KNOWLEDGE

- Respect and promote client self determination and ability to make own decisions within the clients value, beliefs and context
- Demonstrate sensitivity when counselling individual and couples from diverse backgrounds
- Produce case records, files and reports to a standard acceptable to industry and obtain client consent for release of information
- Complete case work and participate effectively in case management processes where appropriate
- Apply practitioner self critique and non-defensive recognition of own errors
- Join and manage the relational/emotional system in couples

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of client situations or scenarios relevant to the workplace including
  - couples counselling
  - individual counselling as planned strategy for relationships intervention
  - complex cases of consistent high level of relationship conflict
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of live relationship counselling, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment

- Observation in the workplace is essential
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Counselling skills involving direct client contact are to be assessed initially on two occasions in a simulated counselling setting. If successful, further assessment is required during 10 hours actual counselling practice under direct supervision
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Assess for domestic and family violence issues may refer to:

- Processes for proactively enquiring about the presence of family domestic violence with the intention of preventing further violence or harm
RANGE STATEMENT

Issues of safety or risk may refer to but are not limited to:

- Being physically hurt and emotionally intimidated, bullied, harassed or controlled
- Threatened with physical harm and emotional intimidation, bullying or harassment
- Harm or threat of harm to children
- Harm or threat of harm to pets and loved ones
- Harm or threat of harm to property
- Inability to fully participate in significant events such as court ordered mediations
- Having residential address known by a person who uses violence against you
- Financial abuse
- Sexual abuse
- Social isolation

Support services may include:

- Crisis intervention services
- Legal or medical services
- Family and domestic violence services
- Child support services
- Culturally specific services
- Accommodation services
- Access to services/information
- Financial services
- Child support agency
- Mediation services
- Living skills and problem solving programs
- Educational programs
- Specialist services
- Mental health services
- Statutory child protection authorities

Engage may include techniques and strategies such as:

- Conversation - non problem-focused
- Discuss self as counsellor in professional manner
- Display respect and non-judgemental attitude
- Distribute time equally between individuals in couple
- Use open questioning in a non threatening manner
- Empathy and rapport
RANGE STATEMENT

**Counselling contexts may include:**
- Couple therapy including same sex couples therapy
- Separate sessions with individuals in the relationship

**Presenting problems may include:**
- Pre and post separation issues
- Parenting and agreements
- Sexual relationship issues
- Fertility and/or pregnancy issues
- Intimacy issues
- Grief and loss experienced one or both parties
- Family of origin influences
- Specific issues for same sex couples
- Cross cultural relationships

**Questioning techniques may include but are not limited to:**
- Questioning to scan relationship web
- Reflexive questioning
- Relational questioning
- Circular questioning

**Terminate counselling sessions may include:**
- Planned termination of counselling
- Client's decision to terminate the sessions
- Counsellor assesses and identifies issues of concern in a client case where to continue counselling would be unethical and/or place the client and/or others at risk

**Interruptions to counselling may include:**
- Counsellor illness
- Counsellor planned leave
- Counsellor changes employment
- Interruptions due to organisation change
- Counsellor ceases practice
- Other external factors e.g. client illness, expert recommendations that counselling cease
RANGE STATEMENT

Feedback strategies may include but are not limited to:

- Interviews with colleagues
- Evaluation forms
- Complaints
- Recommendations
- Suggestions
- Focus group work

</table>
ELEMENT

3. Formulate counselling responses to grief and loss

PERFORMANCE CRITERIA

3.1 Monitor and respond to client presentations including safety and assessed risks

3.2 Assist client to set goals or outcomes for the grief and loss process, dependant upon clients position in grieving process

3.3 Match therapeutic interventions to client's needs and goals

3.4 Facilitate referrals to other support services where appropriate

4. Terminate counselling sessions

4.1 Recognise when the counselling is no longer serving the interests or needs of the client

4.2 Discuss with the client/s when counselling no longer appears to serve the clients interest or needs and either renegotiate the professional relationship or terminate the service

4.3 Engage client/s in determining any further external interventions as identified and arrange appropriate referrals

4.4 Discuss with the client any interruptions to counselling, planned or otherwise, and implement alternative interim counselling

5. Seek feedback from the client/s about the counselling service provided

5.1 Review counselling progress and provision regularly with the client

5.2 Obtain feedback from the client throughout and at the conclusion of the counselling service

5.3 Use a range of feedback strategies to encourage client contribution to improved counselling practice

5.4 Review client feedback and use this to inform practice reflection and improvement in conjunction with supervision

Required Skills and Knowledge
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Difference in grief in men, women, children and young people
- Own prejudices and stereotyping attitudes and behaviour about grief and loss and the potential influence these may have on counselling practice
- Limitations imposed on the counsellor-client relationship as a result of professional and ethical responsibility in the context of an unequal balance of power in the counselling setting
- Limitations to the effectiveness or usefulness of counselling practice in some circumstances and appropriate for client referral when necessary
- Contracting and reaching agreements with client about the nature, process and expected timeframes and responsibilities of counsellor and client within the provisions of counselling
- Importance and opportunities for continuing professional development and maintaining a professional level of self awareness of current scientific and professional information and education in the area of grief and loss
- Indicators and dynamics of domestic and family violence and complexities of interpersonal interactions, e.g. power, abuse and conflict and impact of these on grief process
- Procedures and instruments to screen for abuse before, during and after couple or family counselling and any additional safety planning requirements and procedures for clients and staff
- Referral options and pathways to support clients seeking interventions and supports beyond or in conjunctions with counselling e.g. group support for grief
- The importance and intent of counsellor participation in supervision
- Relevant state and federal legislation applicable to counselling practice
- Limitations of confidentiality that may arise in the counselling setting
- Contemporary research and approaches to grief and loss counselling in diverse cultural contexts
- Developmental stages and how grief is likely to affect young people and children
- Critical understanding and appreciation of the main approaches used in grief counselling
- Critical understanding of the theories of major grief counselling approaches
- Stages of human development and how this knowledge applies to counselling practice
REQUIRED SKILLS AND KNOWLEDGE

- Human diversity including culture, gender, age, ability, class, sexuality, spirituality and ethnicity

continued ...

**Essential knowledge (contd):**
- Recognise the role of social contexts on the counselling relationship
- Range of impacts of separation and divorce on couples, parents, children and other family members
- Knowledge of the different types of grief and understanding attitudes, attachment and anxiety issues associated with grief
- Complicated grief processes e.g. people bereaved by suicide and other traumatic loss

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Identify and adhere to legislative requirements of counselling in a broad range of contexts including Family Law and counselling couples, families and children
- Explain counselling goals and action plans and outline counselling process and agreements
- Assess and screen for domestic and family violence and child abuse using a range of processes
- Monitor own competence through counselling supervision and be willing to consider the views expressed by clients and by counsellor colleagues
- Manage the counselling role within an ethical context and discuss processes for client referral where necessary
- Comprehend a variety of individual and systemic therapeutic approaches and their application, including evidence-based therapies and culturally sensitive approaches
- Recognise the strengths limitations and contraindications of specific therapeutic approaches, including risk of harm associated with approaches that incorporate assumptions of family dysfunction
- Assess grief and loss relating to cultural and spiritual differences
- Apply advanced counselling interventions and explain the contribution of counselling to the therapeutic process
- Compare and contrast grief counselling theories and approaches
- Identify common client concerns in the provision of counselling processes
- Work in a multidisciplinary environment where appropriate
- Manage confidentiality of information obtained from clients during the counselling process
- Maintain a solid theoretical base for effective and contemporary counselling practice
- Manage the dynamics of counselling groups and family groups experiencing high levels
REQUIRED SKILLS AND KNOWLEDGE

- Respect and promote client self determination and ability to make own decisions within the clients value, beliefs and context.
- Demonstrate sensitivity when counselling individual and groups from diverse backgrounds
- Apply age appropriate communication and counselling interventions when working with children and young people
- Work with child and parental loss
- Counsel and intervene for complicated grief and loss situations

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills.
- Observation of workplace performance is essential for assessment of this unit.
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment

- Observation in the workplace is essential
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Counselling skills involving direct client contact are to be assessed initially on two occasions in a simulated counselling setting. If successful, further assessment is required during 10 hours actual counselling practice under direct supervision
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Grief and loss may include but is not limited to:

- Significant loss for example:
  - relationships
  - employment
  - missed opportunities
  - goals and visions
  - infertility

Range of responses to grief and loss may include but are not limited to:

Different responses to grief will be evident depending on circumstances of loss, e.g. post loss, suicide, homicide, disaster, indirect loss, vicarious traumatisation. Responses may include:

- Disbelief
- Avoidance
- Anger
- Sadness
- Withdrawal
- Dissociation
- Suicidal ideations
- Self-harming
- Stress reactions
- Post traumatic stress disorder
- Depression
- Numbing
- Denial
- Anxiety
RANGE STATEMENT

Counselling strategies may include but are not limited to:

Depth of knowledge and levels of application of counselling approaches and theories is presented at the Essential knowledge and skills section of this unit of competency:

- Narrative therapy
- Grief and loss model
- Group therapy
- Gestalt therapy
- Person-centred therapy
- Existential therapy
- Research-informed practice

Safety and assessed risks may include:

- Processes for proactively enquiring about the presence of family domestic violence with the intention of preventing further violence or harm
- Processes for evaluating the nature of specific risks to safety for individual clients including depression, using assessment and structured clinical judgement
- The content of risk may relate to:
  - exposure to further violence
  - mental health issues
  - children's and parenting issues
RANGE STATEMENT

Other support services may include:

- Crisis intervention services
- Legal or medical services
- Family domestic violence services
- Child support services
- Culturally specific services
- Accommodation services
- Access to services/information
- Financial services
- Child support agency
- Mediation services
- Living skills and problem solving programs
- Educational programs
- Specialist services (include GP and psychiatrist)
- Grief support for grief and loss (therapeutic and self help)

Terminate counselling sessions may include:

- Planned termination of counselling
- Dealing with client decision to terminate the sessions
- Counsellor assessing and identifying issues of concern in a client case where to continue counselling would be unethical and/or place the client and/or others at risk

Interruptions to counselling may include:

- Counsellor illness
- Counsellor planned leave
- Counsellor changes employment
- Interruptions due to organisation change
- Counsellor ceases practice
- Other external factors e.g. client illness, expert recommendations that counselling cease

Feedback strategies may include but are not limited to:

- Interviews with colleagues
- In session feedback (with longer term work of grief)
- Evaluation forms
- Complaints
- Recommendations
- Suggestions
- Focus group work

## Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Engage child/young person in the counselling process | 1.1 Set an *appropriate physical environment* to engage children and young people in counselling  
1.2 Use *age appropriate engagement techniques* to gain child and/or young persons trust  
1.3 Use communication strategies that are appropriate for the children/young people's developmental stage, culture and emotional needs  
1.4 Maintain an *ethical relationship* with children/young people in accordance with practice standards and legislative requirements  
1.5 Enable children to identify problem areas and effectively participate in the counselling process  
1.6 Assess parental family/influences and engage with parents appropriately |
ELEMENT

2. Respond appropriately to allegations and disclosures of abuse

PERFORMANCE CRITERIA

2.1 Respond to disclosures and allegations in accordance with legislative requirements and organisation procedures

2.2 Document factual information and observations as required by the organisation and any statutory child protection legislation

2.3 Identify and assess risk for clients in relation to family domestic violence and other child protection concerns

3. Formulate conceptualisation of the presenting problem

3.1 Identify factors relevant to the context of children/young persons in counselling

3.2 Develop hypotheses to explain child/young person's presenting problems

3.3 Monitor and review progress of sessions towards child/young persons goals

4. Implement case work processes when counselling children and young people

4.1 Develop a clear plan of how sessions will be conducted in collaboration with children and young people

4.2 Develop measurable outcomes, treatment goals, treatment plans and after session plans with children and young people's input utilising perspectives relevant to working with children and young people

4.3 Work collaboratively with other stakeholders, including family members, other significant persons and professionals not present

4.4 Record plans and complete other case documentation in accordance with practice setting policies, professional standards and legislative obligations

4.5 Use a range of therapeutic interventions to engage and work with children and young people
### PERFORMANCE CRITERIA

5. **Terminate counselling sessions**

- 5.1 Recognise when the counselling is no longer serving the interests or needs of the client and family

- 5.2 Discuss with the client/s when counselling no longer appears to serve the clients interest or needs and either renegotiate the professional relationship or terminate the service

- 5.3 Engage client/s in determining any further external interventions as identified and arrange appropriate referrals

- 5.4 Discuss with the client any *interruptions to counselling*, planned or otherwise, and implement alternative interim counselling

6. **Seek feedback from the client/s about the counselling service provided**

- 6.1 Review counselling progress and provision regularly with the client in a developmentally appropriately way

- 6.2 Obtain feedback from the client at the conclusion of the counselling service

- 6.3 Use a range of developmentally appropriate feedback strategies to encourage client contribution to improved counselling practice

- 6.4 Review and reflect on client feedback and incorporate this information as part of supervision for the purpose of practice improvement

### Required Skills and Knowledge

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role
REQUIRED SKILLS AND KNOWLEDGE

These include knowledge of:

- Stages of child development and relevance to work with vulnerable children
- Attachment and family systems theories and how these are applied to working with vulnerable and traumatised children
- Own prejudices and stereotyping attitudes and behaviour towards children and young people and the potential influence these may have on counselling practice.
- Limitations imposed on the counsellor client relationship as a result of professional and ethical responsibility in the context of an unequal balance of power in the counselling setting when working with children and young people.
- Limitations to the effectiveness or usefulness of counsellor in some circumstances and course of actions appropriate for client referral when necessary
- Contracting and reaching agreements with parents/children and young people about the nature, process and expected timeframes and responsibilities for counsellor and client within the provisions of counselling. Particular emphasis on client confidentiality and determination of who the client is in child counselling.
- Importance and opportunities for continuing professional development and maintaining a professional level of self awareness of current scientific and professional information and education in the area of counselling practices with children and young people.
- Indicators and dynamics of domestic and family violence and complexities of interpersonal interactions, e.g. power, abuse and conflict in family and sibling relationships
- Assessment skills, tools and instrument used to screen for abuse before, during and after child counselling and any additional safety planning requirements and procedures for clients and staff
- Referral options and pathways to support clients seeking interventions and supports beyond or in conjunctions with counselling
- Relevant state and federal legislation applicable to counselling practice
- Limitations of confidentiality that may arise in the counselling of children and young people setting
- Contemporary research and approaches to counselling in diverse cultural contexts
- Relevance of concepts of couple, family and child dynamics in normal and abnormal developmental forms
- Critical understanding and appreciation of the main approaches used in child and young person counselling

*continued* ...

Essential knowledge (contd):

- Stages of human development and how this knowledge applies to child and young person counselling practice
- Human diversity including culture, gender, age, ability, class, spirituality and ethnicity
- Range of impacts of separation and divorce on parents and children and other family
REQUIRED SKILLS AND KNOWLEDGE

members
- Impact of conflict, particularly high level and/or ongoing conflict, on children, and the use of child focused approaches to intervene and minimise the impacts

Essential skills:

It is critical that the candidate demonstrate the ability to:
- Identify and adhere to legislative requirements of counselling and working with children and young people in a broad range of contexts including Family Law and Child Protection
- Explain counselling goals and action plans and outline counselling process and agreements in terms that are understood by the child/young person
- Assess and screen for domestic and family violence and child abuse using a range of processes
- Monitor own competence through counselling supervision and be willing to consider the views expressed by clients and by counsellor colleagues
- Manage the counselling role within an ethical context with particular reference to the child focused practice where necessary.
- Recognise the strengths limitations and contraindications of specific therapeutic approaches, including risk of harm associated with approaches that incorporate assumptions of family dysfunction and application of adult techniques to children and young people
- Apply an appropriate counselling approach and identify specific interventions to ensure child and young person client needs are met.
- Compare and contrast child focused counselling theories and models
- Identify common concerns in the provision of child and young person counselling processes
- Work in a multidisciplinary environment where appropriate and respect the practice base of others.
- Manage confidentiality of information obtained from child and young person clients during the counselling process particularly with regard to limitations of confidentiality
- Maintain a solid theoretical base for effective and contemporary child and young person counselling practice
- Manage the dynamics of counselling children and young people experiencing high levels familial and parental conflict.
- Respect and promote client self determination and ability to make own decisions within the clients value, beliefs and child/young persons competency and context.
- Demonstrate sensitivity when counselling children and young people from diverse backgrounds
- Apply age appropriate communication and counselling strategies and models when working with children and young people e.g. use of play
- Complete case work and participate effectively in case management processes where
REQUIRED SKILLS AND KNOWLEDGE

- Produce case records, files and reports to a standard acceptable to industry standards

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of client situations or scenarios relevant to the workplace including:
  - complex cases of child and/or young person counselling in situations of high level parental conflict

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios.
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes.
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons.

Method of assessment:

- Observation in the workplace is essential.
- Written assignments/projects or questioning should be used to assess knowledge.
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
- Counselling skills involving direct client contact are to be assessed initially on two occasions in a simulated counselling setting. If successful, further assessment is required during 10 hours actual counselling practice under direct supervision.
- The assessment environment should not disadvantage the candidate.
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English.
- Where the candidate has a disability, reasonable adjustment may be applied during assessment.
- Language and literacy demands of the assessment task should not be higher than those of the work role.
Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Appropriate physical environment may include:

- Means by which an emotionally safe and empathic environment is created
- Appropriate space - child friendly
- Toys, puppets, experiential activities (crayons, textas, paints), sand tray and symbols e.g. dolls house, books and resources appropriate to various ages and which are culturally appropriate
- Resources for care-giver and other family members where relevant
- Where worker is able to 'control' the environment - a separate child specific and friendly space
RANGE STATEMENT

Age appropriate engagement techniques may include but are not limited to:

- Age and developmentally appropriate communication techniques especially the use of play therapy
- Storytelling
- Methods of communicating with different age, religious, gender and sexual identity groups
- Non-judgemental communication techniques
- Using strategies that empower the client/young person
- Cultural, and sub-cultural awareness/sensitivity
- Demonstrating empathy
- Validating child or young persons emotions
- Using appropriate body language
- Asking open-ended questions
- Maintaining confidentiality
- The ability to ask direct questions about violence in a sensitive and appropriate way
- Active listening

Ethical relationship must include:

- Counselling practices that reflect the obligations of the practitioner under codes of ethics, and standards of professional membership and/or legislation, to ensure the safety and well being of the child and/or young person in the counselling relationship
- Counsellor knowledge and application of:
  - international conventions relating to the rights of children and young people
  - relevant international conventions on civil and human rights
RANGE STATEMENT

Respond to disclosures and allegations includes:

- Legislative and statutory requirements may include:
  - Relevant state/territory/commonwealth legislation (e.g. domestic violence, guardianship, disability services, immigration, anti-discrimination, child protection, legal practice legislation, other legislation specific to children and young people)
  - International conventions relating to the rights of children and young people
  - Relevant international conventions on civil and human rights
  - Freedom of Information legislation

Assess risk for clients includes:

- Self identification of risk, threat or attempts to self-harm
- Evidence of physical injuries
- Threat to safety
- Current or previous criminal charges for assault of client by partner/ex-partner, parents
- Current or previous police involvement
- Objective assessment of care-givers current ability to protect child/young person from further assault or harm
- Feelings of depression, anger, low self-esteem, suicidal thoughts, emotional distress or sleep disturbances
- Medical problems such as overuse of tranquillisers, or alcohol, drug or substance abuse
- Intimidation and harassment
- Child/young person being denied access to required medications/ resources
- Existing or previous orders relating to domestic violence (e.g. apprehended violence order), or breach of orders
- Avoidance of discussion regarding possible abuse
- Implausible explanation for injuries
- Frequent hospital visits/admissions
- Current or previous parental separation
- Family court and/or relationship history
- Children who have been in care
RANGE STATEMENT

Factors relevant to the context of children/young persons in counselling may include:

- Current or previous parental separation
- Family court and/or relationship history
- Children's behaviour and developmental level
- Other factors that may indicate a history of violence
- Feelings of depression, anger, low self-esteem, suicidal thoughts, emotional distress or sleep disturbances
- Presenting issues including assessment with parents/care givers

Case work processes may include:

- Interviews with child/young person, their family, significant others and carers
- Completing applications and other forms such as questionnaires
- Case documentation - file notes, case plans
- Using specialist communicators, interpreters
- Classification tools
- Obtaining and processing information from professionals including medical reports and psychological and developmental assessment
- Obtaining, processing and or providing information to/from service providers including child protection authorities
- Liaison with schools

Terminate counselling sessions may include:

- Planned termination of counselling
- Client or parents decision to terminate the sessions
- Counsellor assesses and identifies issues of concern in a client case which determine to continue counselling would be unethical and/or place the client and/or others at risk
RANGE STATEMENT

* Interruptions to counselling may include:
  - Counsellor illness
  - Counsellor planned leave
  - Counsellor changes employment
  - Interruptions due to organisation change
  - Counsellor ceases practice
  - Other external factors e.g. client illness, expert recommendations that counselling cease

* Client feedback strategies may include but are not limited to:
  - Interviews with colleagues
  - Developmentally appropriate evaluation forms
  - Complaints
  - Recommendations
  - Suggestions
  - Focus group work
  - Feedback on client from parent

* Perspectives relevant to working with children and young people may include but is not limited to:
  - Systemic
  - Experiential
  - Play therapy

<tr>
<td></td>
<td>1.4 Maintain confidentiality of group participant personal information</td>
</tr>
</tbody>
</table>
2. Facilitate group counselling

2.1 Develop goals for the counselling group

2.2 Apply a variety of strategies and interventions in the process of group development

2.3 Maintain effective facilitation of participant self awareness and individual change through the phases of the group

2.4 Professionally facilitate and reflect on influence of own values on group participants

2.5 Apply skills and techniques reflecting respect and understanding for diversity of group participants and group dynamics

2.6 Manage conflict issues appropriately as they present in the group counselling process

3. Apply ethical standards in group counselling

3.1 Adhere to recognised standards for group counselling practice

3.2 Maintain respect and confidentiality of individual participants and group content and process and negotiate group agreement re confidentiality

3.3 Maintain appropriate boundaries as group counsellor

3.4 Respond constructively and immediately to group behaviours that are disruptive, manipulative or sabotage the process

3.5 Facilitate group member debriefing as appropriate

4. Undertake supervision and professional development to ensure a high standard of facilitation skills

4.1 Identify a suitable supervisor for group counselling and negotiate a supervision plan

4.2 Participate in regular supervision sessions

4.3 Apply learning from supervision and professional development
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Variety of systemic therapeutic group work interventions and their application, including evidence-based and culturally sensitive approaches
- Recognise strengths, limitations, and contraindications of specific group counselling models, including risks of harm associated with models that incorporate assumptions of family dysfunction, pathogenesis, or cultural deficit
- Understanding and apply theories of stages of group development
- Distinguish between content and process issues and respond appropriately
- Knowledge and application of ethical behaviour and legal frameworks for the therapeutic relationship in groups
- Knowledge of support groups available to families with relationship difficulties
- Development of self awareness to facilitate the group counselling process
- Boundaries and limitations to group counselling interventions
- Organisation policy and procedures
- Knowledge of legal parameters for working with clients experiencing sexual, physical and emotional abuse, mental health issues
- Complex interpersonal interactions, power in relationships, groups, abuse and conflict
- The development of group counselling theories
- Recognition of the influence of own beliefs and attitudes on group facilitation
- Understanding of issues of discrimination affect group members from diverse cultures
- Reflection on practice and the influence of the group leaders attitudes and values
- Recognising and avoiding the uses and abuse of group techniques

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Use effective interpersonal and communication skills when working in group setting
REQUIRED SKILLS AND KNOWLEDGE

with diverse range of participants

- Manage conflict positively and constructively within the group counselling setting
- Monitor and respond appropriately to group dynamics and associated behaviours
- Monitor and respond professionally to safety concerns for self and group members
- Demonstrate appropriate and effective use of recognised and contemporary approaches in group learning/process
- Respond appropriately to a range of demonstrated and expressed emotions within groups
- Clarify boundaries and group purpose with group participants
- Apply adult learning principles
- Select and apply a range of group counselling strategies and interventions
- Deliver interventions in a way that is sensitive to special needs of clients (gender, age, socioeconomic status, culture/race/ethnicity, sexual orientation, disability, family of origin, larger systems issues of the client) and presenting issue
- Work effectively with voluntary and involuntary clients
- Modify or adapt group interventions to meet the expressed needs of the group participants
- Identify and professionally manage issues of an ethical nature in group work
- Evaluate techniques and effectiveness of group counselling facilitation

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
EVIDENCE GUIDE

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment

- Observation in the workplace is essential
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Counselling skills involving direct client contact are to be assessed initially on two occasions in a simulated counselling setting. If successful, further assessment is required during 10 hours actual counselling practice under direct supervision
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.
RANGE STATEMENT

Participant selection may include:

- Participants are selected according to purpose of group
- Opportunity for participants to fulfil identified goals in the intended process
- Specific regard for issues of mental health, substance use, behavioural issues, cultural needs, personal characteristics for example, age, gender, issues experienced
- Referral to external resources for individuals unable to be catered for in the group counselling setting
- Facilitators acceptance and positive regard for participants

Strategies may include:

- Immediacy in discussion
- Spontaneous group discussions
- Structured exercises
- Simulated role plays
- Supporting change in participants lives through the use of group interventions

Supervision and professional development may include but is not limited to:

- Senior counsellor/therapist qualified to perform supervision
- Group supervision e.g. with co facilitator
- Regular contact and structured reflection process with qualified supervisor in person or via other medium
- Training, workshops, conferences and associated learning programs attended on a regular basis as part of an overall professional and career development plan
RANGE STATEMENT

*Group dynamics may include:*
- Conflict between participants
- Attempted sabotage of process
- Manipulation of other participants
- Participants inappropriate use of behaviour or relationships
- Conflict between the facilitator and participants
- Group splitting
- Avoidance of discussion of conflict
- Conflict between co-facilitators
- Support
- Challenging feedback

*Manage conflict issues may include:*
- Terminating attempts to scapegoat and personal attacks on others
- Clarifying and normalising emotions
- Encourage participant ownership of issues and promote appropriate expression of needs and negotiated options for resolution

*Group member debriefing may include:*
- Recognise new emotion and learnings
- Recognise challenges in group participation
- Identify further needs for debriefing

*Maintain appropriate boundaries may include:*
- Apply confidentiality and mandatory reporting requirements
- Engage in appropriate supervision
- Use of appropriate group counselling interventions when needed
- Sensitive to individual readiness
- Appropriate personal disclosure

*Group needs may include:*
- Physical, emotional, psychological, intellectual needs shared by the group
RANGE STATEMENT

*Ethical standards may include:*
  * Informed consent
  * Involuntary participation
  * Right to withdraw from group counselling
  * Psychological risks associated with group involvement
  * Referral for individual counselling support

</table>
| 1. Initiate clinical supervision arrangements | 1.1 Explain the purposes of supervision  
1.2 Complete contractual agreement including goal setting and timeframes for supervision with the supervisor  
1.3 Outline expectations of supervision to the supervisor  
1.4 Identify own supervision goals when engaging with a clinical supervisor  
1.5 Match learning, experience and specialist or generalist practice areas with appropriate supervisor  
1.6 Verify the suitability and qualifications of identified supervisor, supervision model and contract |
| 2. Prepare for clinical supervision | 2.1 Provide *evidence of personal growth and professional learning* with particular regard to current counselling cases  
2.2 Explain the importance of debriefing  
2.3 Understand influence of organisation culture on policy and procedure  
2.4 Apply ethical practices and frameworks |
ELEMENT  

3. Utilise supervision to determine effectiveness of clinical practice and techniques

PERFORMANCE CRITERIA

3.1 Discuss challenging areas of practice using existing clinical cases
3.2 Undertake to discuss self analysis and evaluate own response to clients.
3.3 Maintain client confidentiality in case discussions
3.4 Evaluate knowledge of current clinical literature and its application

4. Initiate opportunities to contribute to the development of own knowledge

4.1 Understand and critique professional research and assess the quality of research studies and program evaluation literature
4.2 Use current research to inform practice
4.3 Understand the ethical, legal and contextual issues involved in the conduct of clinical research and program evaluation
4.4 Pursue professional development through self - reflective practice, collegial consultation, and professional reading
4.5 Implement a program to maintain professional competence
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Acknowledge and describe the importance, purpose and benefits of clinical supervision
- Advances and theory regarding effective practice
- Aware of legislative and professional standards requirements to practice
- Boundaries and limitations to counselling interventions
- Complex interpersonal interactions, power in relationships, abuse and conflict
- Development of counselling models and theories
- Difference between supportive and interventionist counselling
- Monitor issues related to ethics, laws, regulations and professional standards
- Organisation policy and procedures
- Personal awareness of values, family of origin work, in depth analysis
- Policies and procedures of the practice setting
- Professional ethics and standards of practice that apply to the practice of counselling
- Recognise ethical dilemmas in counselling practice
- Recognise when a legal consultation is necessary
- Recognise when unscheduled supervision is required
- Self awareness
- Support groups available to families with relationship difficulties
- Timing and appropriate termination counselling
- Understand dynamics of intimate relationships
- Understand the process for ethical decision-making
- Understanding of a wide range of client groups and cultural diversity

Essential skills:
It is critical that the candidate demonstrate the ability to:
REQUIRED SKILLS AND KNOWLEDGE

- Accept accountability
- Accept critical feedback from supervised practice
- Apply ethical standards
- Appreciate individual difference
- Consult with peers and/or supervisor if personal attitudes or beliefs threaten to adversely impact on counselling work
- Critically review own counselling practice
- Demonstrate an awareness of the impact of values, belief systems and their own relationships on the professional relationship
- Demonstrate awareness of self
- Demonstrate highly developed research and analytical skills
- Identify own professional development needs
- Identify and promote the importance of using opportunities to address environmental responsibility and sustainable practice issues
- Maintain a solid theoretical base
- Manage time
- Practise within the defined scope of practice and competence
- Provide transparent service and be accountable for actions
- Recognise opportunities for counsellors to participate in clinical research
- Seek out clinical supervision and professional development opportunities to ensure best practice and to meet duty of care requirements
- Take appropriate action when legal and ethical dilemmas emerge

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.
EVIDENCE GUIDE

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of workplace settings, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
EVIDENCE GUIDE

Method of assessment

- Observation in the workplace (if possible)
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice.
- The assessment environment should not disadvantage the candidate
- Assessment practices should take into account any relevant language or cultural issues related to Aboriginality, gender or language barriers other than English
- Where the candidate has a disability, reasonable adjustment may be applied during assessment
- Language and literacy demands of the assessment task should not be higher than those of the work role

Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Clinical supervision may include:

- Engaging with a supervisor either external or internal to the organisation
- Group supervision
- In person individual supervision with qualified and experienced clinical supervisor
- Peer supervision
- Telephone or other communication mode
RANGE STATEMENT

Self analysis may relate to:

- Belief and value systems
- Biases and prejudices
- Family of origin
- Gender
- Personal experiences
- Sexuality

Prepare for clinical supervision may include but is not limited to:

- Identifying and acknowledging reactions and responses to counselling interactions and situations
- Identifying areas of practice to be challenged
- Identifying limitations in areas for practice development
- Maintaining journal work for self reflection that contributes to the content of supervision

Evidence of personal growth and professional learning may include:

- Demonstrated workable application of:
  - ability to analyse own counselling errors and discuss options for improving practice
  - extended and improved counselling skills
  - extended knowledge of counselling theories and approaches

Unit Sector(s)

**Required Skills and Knowledge**

**REQUIRED SKILLS AND KNOWLEDGE**
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:
The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Organisation policies and procedures relating to the provision of information
- Income sources, entitlements and associated issues relating to:
  - Centrelink
  - taxation
  - child support
  - small business
  - work choices
  - wages
  - welfare rights
  - compensation such as Workcover, criminal injuries and motor vehicle accidents
  - insurance
- Expenditure support relating to:
  - utilities
  - housing
  - emergency relief and other assistance
- Consumer issues covered by legislation, regulations and instruments, relating to:
  - Uniform Consumer Credit Code (UCCC)
  - contract law
  - consumer law
  - fair trading acts
  - internal dispute resolution (IDR) and alternative dispute resolution (ADR)
  - insurance
  - consumer credit insurance
  - fringe lending
  - bankruptcy
- Types of debt:
  - secured and unsecured
  - joint debts
REQUIRED SKILLS AND KNOWLEDGE

- lodoc and nodoc debts
- guarantors and co-borrowers
- consumer credit
- leases
- fines
- government related debts

continued ...

Essential knowledge (contd):
- Debtor options:
  - formal and informal arrangements
  - debt recovery
  - bankruptcy
  - early release of superannuation
  - courts, tribunals and legal processes
- Local networks for referral and support, including:
  - legal aid
  - family law
  - welfare rights centres
  - community legal centres
  - other specialist services

Essential skills:

It is critical that the candidate demonstrate the ability to:
- Work effectively with clients to provide and clarify information relating to:
  - correct income sources and entitlements
  - living expenses and associated support
  - legal and consumer protection rights
  - debt and debt recovery processes and options
- Provide information about available referral and support services
- Access and interpret legislative and regulatory requirements relevant to specific client situations within the scope of own work role
- Impart accurate information in a clear and timely manner
- Comply with legislation and rules relating to financial counselling
- Work within organisation policies and procedures relating to the provision of information
REQUIRED SKILLS AND KNOWLEDGE

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal of range conditions
- Assessment should be gathered on one or more occasions but must reflect the normal range of client situations encountered in the workplace

Access and equity considerations:

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Related units:

This unit is part of a suite of units that describe the financial counselling process and are to be assessed concurrently or sequentially:

- CHCFIN501A Identify and apply technical information to assist clients with financial issues
- CHCFIN502A Facilitate the financial counselling process
- CHCFIN503A Develop and use financial counselling tools and techniques

| 7. Particpate in reflective practice processes | 7.1 Implement *professional supervision* in accordance with organisation policy and procedures  
7.2 Maintain knowledge of current industry information and best practice in financial counselling and utilise in professional practice  
7.3 Undertake *professional development activities* to meet organisation and industry requirements  
7.4 Ensure reflective practice is consistent with relevant codes of practice and ethical guidelines |
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role. These include knowledge of:

- Client-centred, strengths-based approaches and other counselling models consistent with these approaches
- Concept of and legal implications of informed consent
- Framework for dealing with ethical dilemmas and conflicts of interest
- Confidentiality and duty of care in a financial counselling context
- Agency policies and procedures
- Scope of practice for financial counselling and associated work roles
- Client rights and responsibilities within a financial counselling context
- Legal and financial framework
- Referral networks / resources
- Human, legal and welfare rights

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Provide a supportive environment for clients to enter into a financial counselling process
- Obtain, organise and analyse client data
- Interview clients to identify client issues
- Facilitate client decision-making and planning
- Identify appropriate strategies for client to resolve financial issues and improve their financial management
- Work in a non-judgemental manner
- Demonstrate application of skills in:
  - communication
  - research
REQUIRED SKILLS AND KNOWLEDGE

- reading and interpreting contracts and other relevant documents
- clearly presenting opinions and information

Evidence Guide

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal of range conditions
- Assessment should be gathered on one or more occasions but must reflect the normal range of client situations encountered in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
EVIDENCE GUIDE

Context of and specific resources for assessment:

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment

Method of assessment:

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

Related units:

This unit is part of a suite of units that describe the financial counselling process and are to be assessed concurrently or sequentially:

- CHCFIN501A Identify and apply technical information to assist clients with financial issues
- CHCFIN502A Facilitate the financial counselling process
- CHCFIN503A Develop and use financial counselling tools and techniques
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Client information relating to their financial situation and relevant personal details will include:

- Income and entitlements
- Credit and debt commitments
- Assets
- Household expenditure
- Possible sources of financial assistance
- Employment status
- Constituents of Household
- Any personal issues with direct impact on the financial situation

Status and validity of contracts may include:

- Original documents
- Signatories
- Guarantors
- Co-borrowers
- Timeframe
- Contract calculations
- Security
- Payment history

Action plan may be:

- Short term or long term
RANGE STATEMENT

Strategies to address their financial concerns may include:

- Assessment of the legality of debts
- Assessment of possible legal remedies
- Development of a money plan
- Strategies for increasing income
- Strategies for decreasing expenditure
- Strategies for reducing credit and debt problems
- Referral to other appropriate professionals

Referral to range of support services that may address client issues may include:

- Government income support agencies
- Support agencies for mental health, domestic violence, alcohol and other drugs (AOD) issues, gambling counselling etc.
- Accommodation agencies including emergency housing agencies
- Community health centres
- Family support agencies
- Local community support networks
- Financial assistance agencies
- Emergency relief agencies
- Dispute Resolution Services
- Free legal services
- Other Counselling services

Professional supervision may include:

- Supervision by a senior financial counsellor
- Debriefing
- Mentor group meetings
- Review with peers
- Interagency meetings to discuss cases

Professional development activities may include:

- In-house training
- External training
- Attendance at conferences, seminars
- Clinical supervision
- Attendance at industry association activities
- Case presentations/discussions
RANGE STATEMENT

Client need is identified as outside scope of own work role may include, for example:

- Specific financial situations requiring specialist counselling
- Indicators of related on non-related behavioural, emotional, psychological and/or mental health issues
- Indicators of addictive behaviour

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

**Essential knowledge:**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Agency policies and procedures
- Legal framework
- Financial systems and framework
- Social, economic and government policy context
- Duty of care
- Support networks
- Model for preparing financial statements and budgets
- Social, economic and government policy context

**Essential skills:**

It is critical that the candidate demonstrate the ability to:

- Use a range of communication skills effectively, including:
  - telephone
  - written
  - face-to-face
- Demonstrate application of skills in:
  - research
  - negotiation
  - advocacy
  - client facilitation
- Present evidence to support a case
- Research and prepare resource information for clients
- Research and prepare resource tools for use in financial counselling

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.
# Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Work within the context of rural financial counselling | 1.1 Work with a basic knowledge of the current framework and issues that apply in a *rural context*, including specific work health and safety (WHS) issues  
1.2 Identify different *models of work* that may be applied in the rural sector  
1.3 Work in a manner that demonstrates consideration and understanding of *underpinning values and philosophies* in rural financial counselling  
1.4 Deliver financial counselling services with an understanding of the impact of current and historical social, economic and political factors on clients in the rural sector |
| 2. Target services to the needs of clients in the rural sector | 2.1 Undertake financial counselling work that reflects understanding of a farm as a business enterprise as well as in the context of a family enterprise  
2.2 Ensure financial counselling work reflects understanding of family enterprise and its links/relationship with rural and farming business  
2.3 Apply knowledge of financial aspects relating to planning and management of a rural enterprise  
2.4 Collect information, including views of key *stakeholders and representatives* from relevant target groups and use in the delivery of rural financial counselling services  
2.5 Make appropriate referrals as required, using knowledge of local support networks  
2.6 Advocate on behalf of clients in the rural sector where appropriate  
2.7 Support clients in mediation and negotiation with third parties |
ELEMENT

3. Ensure personal approach aligns with client needs

PERFORMANCE CRITERIA

3.1 Demonstrate *a commitment to access and equity principles* in all work undertaken

3.2 Review personal values and attitudes regarding rural financial counselling and take into account when planning and implementing all work activities

3.3 Demonstrate consideration and understanding of *social, cultural and linguistic difference* in all work undertaken

3.4 Adapt own approach appropriately to meet individual social, cultural and linguistic needs of clients

3.5 Respond with sensitivity to clients experiencing stress
Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- Commonly used farm business structures
- Principles of farm enterprise business planning
- Thorough knowledge of cash flow budgeting
- Appreciation of primary industries
- Banking and finance industries
- Referral options (including local networks)
- Principles of client empowerment/disempowerment
- Principles of farm success planning
- Principles of access and equity
- Policy, regulatory, legislative and legal requirements, including:
  - Financial Services Reform Act
  - State rural adjustment acts
  - Privacy Act
- Political and economic context
- Current issues facing rural industries
- Principles and practices of ethics and values
- Principles and practices of confidentiality
- Court system
- Signs of mental health issues, including common indicators of suicide risk
- Working with people from culturally and linguistically diverse backgrounds, including Indigenous Australian culture
- Rural family culture and dynamics
- WHS issues relating to rural financial counselling
REQUIRED SKILLS AND KNOWLEDGE

Essential skills:

It is critical that the candidate demonstrate the ability to:

- Apply model of work in a manner that demonstrates understanding of underpinning values and philosophies in rural financial counselling
- Read and interpret enterprise profit and loss statements
- Develop and use a referral network
- Engage in mediation with financial institutions
- Apply understanding of challenges of isolation for many rural enterprises
- Apply understanding of challenges for rural financial counsellors working in a rural context including issues around isolation
- Apply understanding of client issues, including making appropriate referrals for clients with signs of mental health issues

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this unit of competency:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal of range conditions
- Assessment should be gathered on one or more occasions but must reflect the normal range of client situations encountered in the workplace
EVIDENCE GUIDE

Access and equity considerations:
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

Context of and specific resources for assessment:
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment

Method of assessment:
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Rural context includes:
- Statutory framework within which work takes place
- Farms as business enterprises
