

# CPCCBC6003 Establish, maintain and review contract administration procedures and frameworks

Release: 1

# CPCCBC6003 Establish, maintain and review contract administration procedures and frameworks

### **Modification History**

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCBC6003A Establish, maintain and review contract administration procedures and frameworks. Updated to meet the Standards for Training Packages 2012.

## **Application**

This unit of competency specifies the skills and knowledge required to manage organisational contract administration procedures and frameworks for building and construction projects. It includes establishing and maintaining a contract management system necessary to produce accurate and successful project outcomes in accordance with organisational guidelines.

This unit of competency applies to builders, project managers and related construction industry professionals responsible for coordinating and managing building and construction projects.

This unit of competency is suitable for those using cognitive, technical and communication skills to analyse, plan, design and evaluate approaches to unpredictable problems and/or management requirements.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

# Pre-requisite Unit

Nil.

#### **Unit Sector**

Building and Construction

#### **Elements and Performance Criteria**

Elements describe the Performance criteria describe what needs to be done to

Approved Page 2 of 4

essential outcomes.
