**Assessment Requirements for
CPCCB3017 Carry out tuck pointing and
repointing to masonry**

Release: 1

Assessment Requirements for CPCCL3017 Carry out tuck pointing and repointing to masonry

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCL3017A Carry out tuck pointing to brickwork. Title change. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency in this unit, a candidate must meet the performance criteria of this unit by tuck pointing and repointing the bed and perpendicular joints of a masonry wall.

In doing this, the candidate must:

- apply decorative tuck pointing to a minimum of two square metres to a specified colour and finish
- apply repointing to a minimum of two square metres.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- characteristics, applications and limitations of materials for tuck pointing and repointing:
 - mortar ingredients and consistency
 - mortar adhesive ability, stability and durability
 - colouring agents and pigments
 - slaked rock lime
- processes and techniques for tuck pointing and repointing:
 - door and window reveals and sills
 - internal and external corners
 - maintaining consistent bed and perpendicular joints
- terminology relating to tuck pointing:
 - ribbon
 - struck
- functional and operational features of plant, equipment, hand and power tools
- workplace safety:
 - job safety and environmental analysis (JSEA)

- work at heights
- hazardous manual tasks
- hazardous substances
- exposure to silica
- exposure to loud
- work instructions, standards, codes relating to tuck pointing and repointing
- environmental and waste management requirements:
 - disposal of waste material
 - recycling materials

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation reflecting workplace conditions and standards, materials, equipment, activities, responsibilities, procedures, safety requirements and environmental considerations.
