Assessment Requirements for CPCCCA2011 Handle carpentry materials

Release: 1

Assessment Requirements for CPCCCA2011 Handle carpentry materials

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCCCA2011A Handle carpentry materials.
Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by handling carpentry materials for three different carpentry tasks, including:

- safely handling, sorting and stacking:
 - varying lengths of timber or similarly-proportioned materials onto an Australian standard pallet, a minimum of 0.5 cubic metres, secured ready for mechanical handling
 - different sizes and types of sheet material onto an Australian standard pallet, a minimum of 0.1 cubic metres, secured ready for mechanical handling
- preparing the following for mechanical handling:
 - varying lengths of timber or similarly-proportioned materials
 - different sizes and types of sheet material.
 -

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- requirements of Commonwealth and state or territory work health and safety (WHS) legislation relevant to handling carpentry materials
- safety data sheets
- workplace quality policies and standards for handling carpentry materials
- safety requirements for handling carpentry materials
- methods of securing materials
- types and uses of tools and equipment for handling carpentry materials:
 - hammers
 - pallets
 - pinch bars
 - tin snips
 - wheelbarrows

- requirements and processes for safely preparing the following materials for mechanical handling, and manual handling, sorting, and stacking:
 - concrete components
 - insulation
 - joinery units
 - metal sheeting
 - paints and sealants
 - plaster or fibre cement sheeting
 - reconstituted timber products
 - reinforcement materials
 - scaffolding components
 - structural steel sections and components
 - timber
- methods of handling carpentry materials:
 - material size, weight or shape factors necessitating the assistance of other workers
 - correct lifting and carrying techniques, use of pallets and control of waste
 - preparation for mechanical handling, including the use of forklifts, pallet jacks and trucks.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions and standards, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
