

CPCCCM1012 Work effectively and sustainably in the construction industry

Release: 2

CPCCCM1012 Work effectively and sustainably in the construction industry

Modification History

Release 2	This version first released with CPC Construction, Plumbing and Services Training Package Release 6.6.	
	Correction to the Performance Criteria of Element 2.	
Release 1	1 This version first released with CPC Construction, Plumbing and Services Training Package Release 4.0.	
	Supersedes and equivalent to CPCCCM1012A Work effectively and sustainably in the construction industry. The unit of competency was updated to the Standards for Training Packages 2012.	

Application

This unit of competency specifies the skills and knowledge required to work effectively and sustainably within the construction industry.

It includes:

- identification and clarification of the construction industry work context
- scope and employment conditions
- responsibility required to be accepted by the individual
- · working in a team
- individual career path improvement activities
- sustainable work practices and techniques.

This unit is designed for those seeking attainment of basic understanding of the structure, culture and role expectations of workers within the construction industry.

It applies to workers in the construction industry. It involves working under supervision in a team environment.

No licensing, legislative, or certification requirements apply to this unit at the time of publication.
