**Release: 1**

# Assessment Requirements for CPCCPB3008 Mix plastering compounds

## Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and equivalent to CPCCPB3008A Mix plastering compounds.  
Updated to meet the Standards for Training Packages 2012.

## Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by mixing a minimum three different plaster compounds to specification. Both hand and mechanical techniques must be used.

All work must be performed to the standard required in the workplace and must comply with Commonwealth and state/territory laws and regulations, work health and safety (WHS) and environmental requirements, manufacturers' specifications, and workplace requirements.

## Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- quality policies and standards for mixing plaster compounds
- safety requirements for mixing plaster compounds, including personal protective equipment (PPE), job safety analyses, safe work method statements and safety data sheets
- environmental requirements for mixing plaster compounds
- manufacturers' specifications for mixing plaster compounds
- hand and mechanical mixing techniques, tools and equipment
- processes for adjusting mixture consistency to suit intended use.

## Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
