

Assessment Requirements for CPCCPB3016 Install and finish columns

Release: 3

Assessment Requirements for CPCCPB3016 Install and finish columns

Modification History

Release 3 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.5.

Amended Performance Criteria 3.2.

Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.2.

Removed duplicated comma in Knowledge Evidence.

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and equivalent to CPCCPB3016A Install and finish columns. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must satisfy all of the elements, performance criteria and foundation skills of this unit by installing a minimum of two floor-to-ceiling columns.

All work must be performed to the standard required in the workplace and must comply with laws and regulations, the National Construction Code (NCC), Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, workplace requirements, drawings and specifications.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- compliance requirements of the National Construction Code and Australian Standards for installing and finishing columns
- policies and standards for installing and finishing columns
- safety requirements for installing and finishing columns, including personal protective equipment (PPE), job safety analyses, safe work method statements and safety data sheets
- manufacturers' specifications for installing and finishing columns
- names and architectural styles for different types of columns
- types and uses of columns
- materials storage and environmentally friendly waste management
- plans, drawings and specifications for installing and finishing columns
- techniques and processes for installing and finishing columns

Approved Page 2 of 3

- processes for the calculation of material requirements for installing and finishing columns
- types of tools and equipment for installing and finishing columns.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed:

- in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques replicate construction workplace conditions, materials, activities, responsibilities and procedures
- using realistic tasks or simulated tasks, relevant specifications and work instructions, standard work practices, safety requirements and environmental constraints.
