CPCCSP2001 Handle solid plastering materials

Release: 2

CPCCS2001 Handle solid plastering materials

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and equivalent to CPCCS2001A Handle solid plastering materials.
Updated to meet the Standards for Training Packages 2012.

Application

This unit specifies the skills and knowledge required to safely and effectively handle, sort, prepare, position and remove solid plastering materials.

The unit is suitable for people with basic skills and knowledge who undertake routine work tasks under the direction of more experienced workers.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of unit *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

CPCWHS2001 Apply WHS requirements, policies and procedures in the construction industry.

Unit Sector

Plastering

Elements and Performance Criteria

Elements describe the essential outcomes.	Performance criteria describe what needs to be done to demonstrate achievement of the element.
1 Plan and prepare to handle solid plastering materials.	1.1 Read and interpret work instructions and plan sequence of work.
	1.2 Plan all work to comply with laws and regulations,

- Australian Standards, work health and safety (WHS) and environmental requirements, manufacturers' specifications, and workplace requirements.
- 1.3 Select and use personal protective equipment (PPE) for each stage of the task.
 - 1.4 Inspect work site, assess hazards and apply risk controls, including required signage and barricades, and identify hazardous materials for separate handling by authorised personnel.
 - 1.5 Select tools and equipment, check for serviceability and report any faults.
- 2 Handle, sort and store solid plaster materials.
- 2.1 Check materials for compliance to plans and specifications.
 - 2.2 Determine handling requirements for materials from manufacturers' specifications and select and use safe manual and mechanical handling techniques.
 - 2.3 Sort materials for type and size, distribute to job locations, both manually and using mechanical devices, and stack for ease of access, task sequence and clear of traffic ways.
 - 2.4 Protect materials against physical and water damage.
- 3 Remove materials and clean up.
- 3.1 Determine handling requirements for unused materials and select and use safe handling techniques following safety data sheets.
 - 3.2 Clear the work area, and dispose of, reuse or recycle materials in accordance with state and territory legislation and workplace policies and procedures.
 - 3.3 Identify hazardous materials for separate handling by authorised personnel.
 - 3.4 Use dust suppression procedures to minimise health risk to self and others.
 - 3.5 Store reusable materials and protect against physical and water damage.

- 3.6 Clean tools and equipment, check for serviceability, report any damage or faults and store and secure.

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and equivalent to CPCCS2001A Handle solid plastering materials.
