CPCCFWF3007 Tile curved surfaces

Release: 1

CPCCWF3007 Tile curved surfaces

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and equivalent to CPCCWF3007A Tile curved surfaces. Updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to tile curved surfaces. It includes the preparation for and tiling of columns and arches.

A person working at this level would be expected to take responsibility for organising and completing tasks assigned to them without close supervision.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Licensing, legislative or certification requirements apply to this unit in some states and territories and users are advised to check with the relevant regulatory authority.

Pre-requisite Unit

CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry.
