Assessment Requirements for CPCPRF3021 Receive roofing materials

Release: 2

Assessment Requirements for CPCPRF3021 Receive roofing materials

Modification History

- Release 2 This version first released with CPC Construction, Plumbing and Services Training Package Release 6.2.
- Correction to prerequisite unit code from CPCPCM2043A Carry out WHS requirements to CPCPCM2043 Carry out WHS requirements.
- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCPRF3021A Receive roofing materials. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by:

- assessing roofing material requirements from the plans and specifications of a roofing project
- locating, interpreting and applying relevant information, standards and specifications to receiving roofing materials
- sequencing material delivery to correspond with a planned construction project
- receiving the materials (including the location of spot points) and securing arrangements, ensuring:
 - application of sustainability principles and concepts
 - correct identification of requirements and details of their delivery
 - correct selection and use of appropriate processes, tools and equipment
 - completing all work to specification
 - compliance with safety regulations, standards and organisational quality procedures and processes
 - communicating and working effectively and safely with others.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- work health and safety (WHS), Commonwealth, state and territory legislation and regulations relating to:
 - handling of materials
 - hazard control

- personal protective equipment (PPE) prescribed under legislation, regulations and workplace policies and practices
- safe operating procedures, including recognising and preventing hazards associated with:
 - electricity
 - hazardous materials and substances
 - lifting and placement of loads
 - service lines
 - surrounding structures and facilities
 - trip hazards
 - use of tools and equipment
 - work site visitors and the public
 - working at heights
 - working in proximity to others
 - use of firefighting equipment
 - use of first aid equipment
 - workplace environment and safety
- tools and equipment:
 - barricades and signage
 - fall protection equipment
 - ladders
 - lifting and load shifting equipment, including:
 - chain blocks
 - elevated work platforms (EWPs)
 - forklifts
 - hand trolleys
 - hoists and jacks
 - restricted height scaffolds
 - rollers
- materials:
 - blanket and batt types
 - industrial roof components
 - laminate
 - metal rainwater products
 - metal roof covers of concealed or pierce fixed types
 - metal self-drilling and tapping screws
 - plastic building sheets for walls and roofs
 - prefabricated roofing components
 - rainwater goods
 - rivets and sealants (silicon and solder)

- thermal insulation of reflective foil
- information:
 - charts and hand drawings
 - instructions issued by authorised organisational or external personnel
 - manufacturer specifications and instructions
 - safety data sheets (SDS)
 - memos
 - organisation work specifications and requirements
 - plans and sketches
- regulatory and legislative requirements:
 - building codes
 - WHS and environmental requirements
 - plumbing regulations
 - relevant Australian standards
 - safe work procedures relating to receiving roofing materials
 - signage
 - verbal, written and graphical instructions
 - work bulletins
 - work schedules, plans and specifications.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
