**Assessment Requirements for CPCSPS4002
Select, procure and store construction
materials for swimming pool and spa
projects**

Release: 1

Assessment Requirements for CPCSPS4002 Select, procure and store construction materials for swimming pool and spa projects

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCBC4050A Select, procure and store construction materials for swimming pools and spa projects. Recoded and updated to meet the Standards for Training Packages.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by selecting, procuring and organising the delivery and safe onsite storage for projects covering two of the following:

- one swimming pool
- one spa
- one swimming pool and spa.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- regulations, standards and codes relevant to construction of swimming pools and spas
- features of project plans and specifications
- relevant sections of National Construction Code (NCC)
- properties, applications and limitations of building materials, products and components
- alternative sustainable materials
- workplace procurement procedures and systems:
- identifying materials from plans and specifications
- selecting and ordering compliant materials
- external quality testing or inspection of materials to meet industry standards
- referencing external reports and manufacturer's specifications
- seeking expert appraisal from designers, engineers and relevant industry experts as required
- refusing to accept non-compliant or substandard materials and taking appropriate action
- operational and functional features of materials handling equipment
- workplace safety:
 - hierarchy of control
 - temporary safety barriers and fences around pools

- hazardous manual tasks
- mechanical material handling
- licensing and competency requirements for operating materials handling equipment.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment.

Candidates must have access to:

- regulations, standards and codes relevant to swimming pools and spas
- relevant sections of the NCC
- project plans, specifications and manufacturer instructions
- workplace policies and procedures for procuring and storing construction materials
- workplace safety and environmental requirements.
