CPC08 Construction, Plumbing and Services Training Package

Release: 6.1

CONTENTS

Overview of CPC08 volumes.....	7
Preliminary information.....	9
Summary of AQF qualifications in CPC08 Construction, Plumbing and Services Training Package	14
Native units of competency in CPC08	16
CPC08 units with prerequisite unit requirements	42
Imported units used in CPC08 qualifications.....	63
Mapping of CPC08 Construction, Plumbing and Services Training Package to previous Training Package	69
Mapping of qualifications.....	251
Overview	293
CPC08 Construction, Plumbing and Services Training Package overview.....	298
Introduction.....	304
Qualifications Framework.....	305
Skill sets.....	312
Employability skills.....	312
Assessment Guidelines	315
Competency Standards.....	335

Modification History

Version modification history

The version details of this endorsed Training Package are in the table below.

Version	Release date	Comments
6.1	28 July, 2011	<p>ISC upgrade:</p> <ul style="list-style-type: none"> Removal of erroneous listing in the elective pool of CPC32711 Certificate III in Gas Fitting of the unit CPCPCM2032A Weld using oxy-acetylene equipment; relocating it to its originally intended core pool location in that qualification. Re-coding of the following five units in response to stakeholder implementation advice with regard to the use of previous version unit codes: <ul style="list-style-type: none"> CPCPGS3031A Install gas piping systems CPCPGS3032A Size consumer gas piping systems CPCPGS3033A Install and commission Type A gas appliances CPCPGS3034A Install LPG storage of aggregate storage capacity up to 500 litres CPCPGS3035A Install LPG storage of aggregate storage capacity exceeding 500 litres and less than 8KL. Adjustment of CPC32411 Certificate III in Plumbing, CPC32511 Certificate III in Plumbing (Mechanical Services) and CPC32711 Certificate III in Gas Fitting to reflect above re-coding of five units. Typographical changes made to ensure that unit codes for CPCPCM2028A Cut and join sheet metal, CPCPCM2029A Cut using oxy-LPG-acetylene equipment and CPCPCM2032A Weld using oxy-acetylene equipment were uniformly correctly cited. Other minor typographical corrections, including minor change to title of unit CPCPWT3016A in qualification packaging rules.

1	February 2009	<p>Primary release.</p> <p>CPC08 brings together the qualifications and units of competency from three previous Training Packages:</p> <ul style="list-style-type: none"> • BCG03 General Construction • BCF00 Off-Site Construction • BCP03 Plumbing and Services.

Overview of CPC08 volumes

Volume #	Volume contents		
Volume 1	CPC08 Introduction, Qualifications Framework, Assessment Guidelines and Competency Standards		
	CPC08 units of competency		
	Sector	Functional area	Unit code identifier
Volume 2	Common	Management	MCM
		Sustainability	SUS
Volume 3	Construction	Building and construction	CBC
		Brick and blocklaying	CBL
Volume 4	Construction	Carpentry	CCA
		Common	CCM
		Concreting	CCO
		Demolition	CDE
		Dogging	CDO
		Joinery	CJN
		Stairbuilding	CJS
		High risk licensing	CL

		Occupational health and safety	COHS
Volume 5	Construction	Segmental paving	CPA
		Plasterboard	CPB
		Painting and decorating	CPD
		Rigging	CRI
		Roof tiling	CRT
		Scaffolding	CSC
		Steelfixing	CSF
		Shopfitting	CSH

Volume #	Volume contents		
	CPC08 units of competency		
	Sector	Functional area	Unit code identifier
Volume 6	Construction	Signage	CSI
		Plastering	CSP
		Stonemasonry	CST
		Surveying	CSV
		Vocational entry	CVE
		Wall and ceiling lining	CWC
		Wall and floor tiling	CWF
		Waterproofing	CWP
Volume 7	Plumbing and services	Common	PCM
		Drainage	PDR
		Fire services	PFS

		Fire system design	SFS
		Gas services	PGS
Volume 8	Plumbing and services	Irrigation	PIG
		Mechanical services	PMS
		Plumbing services	PPS
		Roofing	PRF
		Sanitary	PSN
		Water	PWT

Preliminary information

Important note to users

Training Packages are not static documents; they are amended periodically to reflect the latest industry practices and are version controlled. It is essential that the latest version is always used.

Check the version number before commencing training or assessment

This Training Package is Version 6.1 – check whether this is the latest version by going to the National Training Information Service (www.ntis.gov.au) and locating information about the Training Package. Alternatively, contact Innovation and Business Industry Skills Council at www.cpsisc.com.au to confirm the latest version number.

Explanation of version number conventions

The primary release Training Package is Version 1. When changes are made to a Training Package, sometimes the version number is changed and sometimes it is not, depending on the extent of the change. A significant change would mean assigning the version identifier ‘Version 2’ to the Training Package.

When a Training Package is reviewed it is considered to be a new Training Package for the purposes of version control (i.e. a new year identifier in the code is added, for example TDT02 becomes TDT07), then it is called Version 1.

Do not confuse the version number with the Training Package’s national code (which remains the same during its period of endorsement).

Explanation of the review date

The review date (shown on the title page and in the footer of each page) indicates when the Training Package is expected to be reviewed in the light of changes such as changing technologies and circumstances. The review date is not an expiry date. Training Packages and their components remain current until they are reviewed or replaced.

Summary of AQF qualifications in CPC08 Construction, Plumbing and Services Training Package

Qualifications in CPC08	
Code	Title
CPC10111	Certificate I in Construction
CPC20111	Certificate II in Construction
CPC20211	Certificate II in Construction Pathways
CPC20311	Certificate II in Steelfixing
CPC20411	Certificate II in Concreting
CPC20511	Certificate II in Stoneworking
CPC20711	Certificate II in Drainage
CPC20811	Certificate II in Metal Roofing and Cladding
CPC20911	Certificate II in Urban Irrigation
CPC30111	Certificate III in Bricklaying/Blocklaying
CPC30211	Certificate III in Carpentry
CPC30311	Certificate III in Concreting
CPC30411	Certificate III in Demolition
CPC30511	Certificate III in Dogging
CPC30611	Certificate III in Painting and Decorating
CPC30711	Certificate III in Rigging
CPC30811	Certificate III in Roof Tiling

Qualifications in CPC08	
Code	Title
CPC30911	Certificate III in Scaffolding
CPC31011	Certificate III in Solid Plastering
CPC31111	Certificate III in Steelfixing
CPC31211	Certificate III in Wall and Ceiling Lining
CPC31311	Certificate III in Wall and Floor Tiling
CPC31411	Certificate III in Construction Waterproofing
CPC31511	Certificate III in Formwork/Falsework
CPC31611	Certificate III in Paving
CPC31711	Certificate III in Low Rise Structural Framing
CPC31811	Certificate III in Shopfitting
CPC31911	Certificate III in Joinery
CPC32011	Certificate III in Carpentry and Joinery
CPC32111	Certificate III in Signage
CPC32211	Certificate III in Joinery (Stairs)
CPC32311	Certificate III in Stonemasonry (Monumental/Installation)
CPC32411	Certificate III in Plumbing
CPC32511	Certificate III in Plumbing (Mechanical Services)
CPC32611	Certificate III in Roof Plumbing
CPC32711	Certificate III in Gas Fitting
CPC32811	Certificate III in Fire Protection
CPC40110	Certificate IV in Building and Construction (Building)
CPC40208	Certificate IV in Building and Construction (Contract Administration)

Qualifications in CPC08	
Code	Title
CPC40308	Certificate IV in Building and Construction (Estimating)
CPC40408	Certificate IV in Building and Construction (Sales)
CPC40508	Certificate IV in Building and Construction (Site Management)
CPC40611	Certificate IV in Building and Construction (Specialist Trades)
CPC40708	Certificate IV in Building and Construction (Trade Contracting)
CPC40808	Certificate IV in Swimming Pool and Spa Building
CPC40911	Certificate IV in Plumbing and Services
CPC50108	Diploma of Building Surveying
CPC50210	Diploma of Building and Construction (Building)
CPC50308	Diploma of Building and Construction (Management)
CPC50408	Diploma of Plumbing and Services
CPC50509	Diploma of Fire Systems Design
CPC50611	Diploma of Hydraulic Services Design
CPC60108	Advanced Diploma of Building Surveying
CPC60208	Advanced Diploma of Building and Construction (Management)
CPC70109	Vocational Graduate Certificate in Fire Systems Design Management

Native units of competency in CPC08

Note: Units coded CPCMCM and CPCSUS may be found in Volume 2 of CPC08. Unit codes commencing with CPCC may be found in Volumes 3 to 6. Unit codes commencing with CPCS may be found in Volume 7 and those commencing CPCP are found in Volumes 7 and 8.

Units of competency in CPC08

Code	Title
CPCCBC4001A	Apply building codes and standards to the construction process for low rise building projects
CPCCBC4002A	Manage occupational health and safety in the building and construction workplace
CPCCBC4003A	Select and prepare a construction contract
CPCCBC4004A	Identify and produce estimated costs for building and construction projects
CPCCBC4005A	Produce labour and material schedules for ordering
CPCCBC4006B	Select, procure and store construction materials for low rise projects
CPCCBC4007A	Plan building or construction work
CPCCBC4008B	Conduct on-site supervision of building and construction projects
CPCCBC4009B	Apply legal requirements to building and construction projects
CPCCBC4010B	Apply structural principles to residential low rise constructions
CPCCBC4011B	Apply structural principles to commercial low rise constructions
CPCCBC4012A	Read and interpret plans and specifications
CPCCBC4013A	Prepare and evaluate tender documentation
CPCCBC4014A	Prepare simple building sketches and drawings
CPCCBC4015A	Prepare specifications for all construction works
CPCCBC4016A	Administer a construction contract
CPCCBC4017A	Arrange resources and prepare for the building or construction project
CPCCBC4018A	Apply site surveys and set-out procedures to building and construction projects
CPCCBC4019A	Apply sustainable building design principles to water management systems
CPCCBC4020A	Build thermally efficient and sustainable structures
CPCCBC4021A	Minimise waste on the building and construction site

Units of competency in CPC08	
Code	Title
CPCCBC4022A	Supervise tilt-up work
CPCCBC4023A	Plan and undertake site inspection and assessment of asbestos products and materials
CPCCBC4024A	Resolve business disputes
CPCCBC4025A	Manage personal work priorities and professional development
CPCCBC4026A	Arrange building applications and approvals
CPCCBC4027B	Establish a basis for sales consulting
CPCCBC4028A	Prepare design brief for construction works
CPCCBC4029B	Apply construction information to the sales process
CPCCBC4030A	Analyse and communicate industry information
CPCCBC4031A	Process client requirements
CPCCBC4032A	Apply contract law to sales processes
CPCCBC4033A	Maintain the sales environment
CPCCBC4034A	Apply codes and standards to building trade and services contracting
CPCCBC4035A	Initiate the heritage works process
CPCCBC4036A	Prepare to undertake the heritage restoration process
CPCCBC4037A	Prepare drawings for heritage works
CPCCBC4038A	Prepare work plans for restoration work
CPCCBC4039A	Undertake the heritage restoration process
CPCCBC4040A	Prepare report for heritage restoration work
CPCCBC4041A	Undertake preparations for refractory work
CPCCBC4042A	Construct a fire brick wall and arch using refractory materials
CPCCBC4043A	Operate a self-erecting tower crane

Units of competency in CPC08	
Code	Title
CPCCBC4044A	Operate a tower crane
CPCCBC4045A	Perform advanced rigging
CPCCBC4046A	Erect and dismantle advanced scaffolding
CPCCBC4047A	Quality assure fire-rated lining systems
CPCCBC4048A	Apply building codes and standards to the construction process for swimming pools and spas
CPCCBC4049A	Apply structural principles to construction of swimming pools and spas
CPCCBC4050A	Select, procure and store construction materials for swimming pools and spa projects
CPCCBC5001B	Apply building codes and standards to the construction process for medium rise building projects
CPCCBC5002A	Monitor costing systems on medium rise building and construction projects
CPCCBC5003A	Supervise the planning of on-site medium rise building or construction work
CPCCBC5004A	Supervise and apply quality standards to the selection of building and construction materials
CPCCBC5005A	Select and manage building and construction contractors
CPCCBC5006B	Apply site surveys and set-out procedures to medium rise building projects
CPCCBC5007A	Administer the legal obligations of a building or construction contract
CPCCBC5009A	Identify services layout and connection methods to medium rise construction projects
CPCCBC5010B	Manage construction work
CPCCBC5011A	Manage environmental management practices and processes in building and construction
CPCCBC5012A	Manage the application and monitoring of energy conservation and management practices and processes

Units of competency in CPC08	
Code	Title
CPCCBC5013A	Develop professional technical and legal reports on building and construction projects
CPCCBC5018A	Apply structural principles to the construction of medium rise buildings
CPCCBC6001A	Apply building codes and standards to the construction process for large building projects
CPCCBC6002A	Generate and direct the development of new projects
CPCCBC6003A	Establish, maintain and review contract administration procedures and frameworks
CPCCBC6004A	Manage processes for and legal obligations of a building or construction contract
CPCCBC6005A	Manage tender developments for major projects
CPCCBC6006A	Manage the procurement and acquisition of resources for building or construction projects
CPCCBC6007A	Develop, plan and implement appropriate building or construction environmental management practices and processes
CPCCBC6008A	Develop and implement an appropriate estimating and tendering system
CPCCBC6009A	Develop, plan and implement an appropriate building or construction planning process
CPCCBC6010A	Plan, develop and implement building or construction energy conservation and management practices and processes
CPCCBC6011A	Establish systems to develop and monitor building and construction costs
CPCCBC6012A	Manage and administer development of documentation for building or construction projects
CPCCBC6013A	Evaluate materials for multi-storey buildings
CPCCBC6014A	Apply structural principles to the construction of large, high rise and complex buildings
CPCCBC6015A	Apply building surveying procedures

Units of competency in CPC08	
Code	Title
CPCCBC6016A	Assess construction faults in large building projects
CPCCBC6017A	Evaluate services layout and connection methods for the planning of large building projects
CPCCBL2001A	Handle and prepare bricklaying and blocklaying materials
CPCCBL2002A	Use bricklaying and blocklaying tools and equipment
CPCCBL3001A	Lay paving
CPCCBL3002A	Carry out masonry veneer construction
CPCCBL3003A	Carry out cavity brick construction
CPCCBL3004A	Construct masonry steps and stairs
CPCCBL3005A	Lay masonry walls and corners
CPCCBL3006A	Lay multi-thickness walls and piers
CPCCBL3007A	Install glass blockwork
CPCCBL3009A	Install flashings and damp proof course
CPCCBL3010A	Construct masonry arches
CPCCBL3011A	Construct curved walls
CPCCBL3012A	Construct fireplaces and chimneys
CPCCBL3013A	Construct masonry structural systems
CPCCBL3014A	Install fire-rated masonry construction
CPCCBL3015A	Construct decorative brickwork
CPCCBL3016A	Construct battered masonry walls and piers
CPCCBL3017A	Carry out tuck pointing to brickwork
CPCCBL3018A	Install aerated autoclaved concrete products
CPCCCA2002A	Use carpentry tools and equipment

Units of competency in CPC08	
Code	Title
CPCCCA2003A	Erect and dismantle formwork for footings and slabs on ground
CPCCCA2011A	Handle carpentry materials
CPCCCA3001A	Carry out general demolition of minor building structures
CPCCCA3002A	Carry out setting out
CPCCCA3003A	Install flooring systems
CPCCCA3004A	Construct wall frames
CPCCCA3005A	Construct ceiling frames
CPCCCA3006A	Erect roof trusses
CPCCCA3007B	Construct pitched roofs
CPCCCA3008A	Construct eaves
CPCCCA3009A	Construct advanced roofs
CPCCCA3010A	Install and replace windows and doors
CPCCCA3011A	Refurbish timber sashes to window frames
CPCCCA3012A	Frame and fit wet area fixtures
CPCCCA3013A	Install lining, panelling and moulding
CPCCCA3014A	Construct bulkheads
CPCCCA3015A	Assemble partitions
CPCCCA3016A	Construct timber external stairs
CPCCCA3017A	Install exterior cladding
CPCCCA3018A	Construct, erect and dismantle formwork for stairs and ramps
CPCCCA3019A	Erect and dismantle formwork to suspended slabs, columns, beams and walls
CPCCCA3020A	Erect and dismantle jump form formwork

Units of competency in CPC08	
Code	Title
CPCCCA3021A	Erect and dismantle slip form formwork
CPCCCA3022A	Install curtain walling
CPCCCA3023A	Carry out levelling operations
CPCCCM1011A	Undertake basic estimation and costing
CPCCCM1012A	Work effectively and sustainably in the construction industry
CPCCCM1013A	Plan and organise work
CPCCCM1014A	Conduct workplace communication
CPCCCM1015A	Carry out measurements and calculations
CPCCCM2001A	Read and interpret plans and specifications
CPCCCM2002A	Carry out excavation
CPCCCM2003B	Calculate and cost construction work
CPCCCM2004A	Handle construction materials
CPCCCM2005A	Use construction tools and equipment
CPCCCM2006A	Apply basic levelling procedures
CPCCCM2007A	Use explosive power tools
CPCCCM2008A	Erect and dismantle restricted height scaffolding
CPCCCM2009A	Carry out basic demolition
CPCCCM2010A	Work safely at heights
CPCCCM2011A	Carry out tilt-up work safely
CPCCCM3001B	Operate elevated work platforms
CPCCCM3002A	Operate a truck mounted loading crane
CPCCCM3003A	Work safely around power sources, services and assets
CPCCCO2011A	Handle concreting materials

Units of competency in CPC08	
Code	Title
CPCCCO2012A	Use concreting tools and equipment
CPCCCO2013A	Carry out concreting to simple forms
CPCCCO2014A	Carry out concrete work
CPCCCO3021A	Place concrete
CPCCCO3022A	Finish concrete
CPCCCO3023A	Cure concrete
CPCCCO3024A	Carry out decorative finishes to concrete
CPCCCO3025A	Resurface concrete
CPCCCO3026A	Carry out repair and rectification of concrete
CPCCCO3027A	Cut and core concrete
CPCCCO3028A	Carry out tilt panel construction
CPCCCO3029A	Apply and finish sprayed concrete
CPCCCO3030A	Carry out high performance concreting
CPCCCO3031A	Conduct off-form vertical concrete operations
CPCCCO3032A	Conduct concrete boom delivery operations
CPCCCO3033A	Slump test concrete
CPCCCO3034A	Conduct concrete agitator truck operations
CPCCDE2011A	Use demolition tools and equipment
CPCCDE2012A	Carry out manual general demolition
CPCCDE3011A	Carry out mechanical general demolition
CPCCDE3012A	Encapsulate and remove asbestos
CPCCDE3013A	Operate a crushing plant
CPCCDO2011A	Handle and use dogging tools and equipment

Units of competency in CPC08	
Code	Title
CPCCDO3011A	Perform dogging
CPCCDO3012A	Perform crane scheduling
CPCCJN2001A	Assemble components
CPCCJN2002A	Prepare for off-site manufacturing process
CPCCJN2003A	Package manufactured products for transport
CPCCJN3001A	Use static machines
CPCCJN3002A	Use computer-controlled machinery
CPCCJN3003A	Manufacture components for door and window frames and doors
CPCCJN3004A	Manufacture joinery components
CPCCJN3005A	Cut and install glass
CPCCJS3002A	Manufacture stair components for straight flighted stairs
CPCCJS3003A	Assemble and install stairs
CPCCJS3004A	Manufacture and install continuous handrailing and special stair components
CPCCJS3005A	Manufacture stair components for curved and geometric stairs
CPCCJS3006A	Construct fabricated stairs
CPCCJS3011A	Design and set out stairs
CPCCLBM3001A	Licence to operate a concrete placing boom
CPCCLDG3001A	Licence to perform dogging
CPCCLHS3001A	Licence to operate a personnel and materials hoist
CPCCLHS3002A	Licence to operate a materials hoist
CPCCLRG3001A	Licence to perform rigging basic level
CPCCLRG3002A	Licence to perform rigging intermediate level

Units of competency in CPC08	
Code	Title
CPCCLRG4001A	Licence to perform rigging advanced level
CPCCLSF2001A	Licence to erect, alter and dismantle scaffolding basic level
CPCCLSF3001A	Licence to erect, alter and dismantle scaffolding intermediate level
CPCCLSF4001A	Licence to erect, alter and dismantle scaffolding advanced level
CPCCLTC4001A	Licence to operate a tower crane
CPCCLTC4002A	Licence to operate a self-erecting tower crane
CPCCOHS1001A	Work safely in the construction industry
CPCCOHS2001A	Apply OHS requirements, policies and procedures in the construction industry
CPCCPA3001A	Prepare subgrade, base and bedding course for segmental paving
CPCCPA3002A	Lay segmental pavers
CPCCPA3003A	Cut segmental pavers
CPCCPA3004A	Finish segmental paving
CPCCPA3005A	Maintain and repair segmental paving
CPCCPB3001A	Fix standard plasterboard wall sheets
CPCCPB3002A	Fix standard plasterboard ceiling sheets
CPCCPB3003A	Fix battens
CPCCPB3004A	Fix wet area sheets
CPCCPB3005A	Fix ceiling sheets to external protected areas
CPCCPB3006A	Fix fibre cement board
CPCCPB3007A	Apply levels of finish standards to planning and inspection of own work
CPCCPB3008A	Mix plastering compounds
CPCCPB3009A	Finish plasterboard joins manually

Units of competency in CPC08	
Code	Title
CPCCPB3010A	Manually sand plaster work
CPCCPB3011A	Finish category 1 and 2 wet areas
CPCCPB3012A	Cut and fix paper-faced cornices
CPCCPB3013A	Plan travel routes
CPCCPB3014A	Install batt insulation products
CPCCPB3015A	Install acoustic and thermal environmental protection systems
CPCCPB3016A	Install and finish columns
CPCCPB3017A	Rectify faults in plaster applications
CPCCPB3018A	Use vacuum and electric sanding equipment to finish plaster work
CPCCPB3019A	Inspect equipment for serviceability
CPCCPB3020A	Match, mitre and install cast ornamental cornices
CPCCPB3021A	Install and fix residential acoustic plaster products
CPCCPB3022A	Use mechanical jointing equipment to finish joints
CPCCPB3023A	Load and unload plaster and plaster-related products
CPCCPB3024A	Use manual handling equipment to manoeuvre plaster products
CPCCPB3025A	Store plasterboard and related products
CPCCPB3026A	Erect and maintain trestle and plank systems
CPCCPB3027A	Install ceiling insulation
CPCCPD2011A	Handle painting and decorating materials
CPCCPD2012A	Use painting and decorating tools and equipment
CPCCPD2013A	Remove and replace doors and door and window components
CPCCPD3021A	Prepare surfaces for painting
CPCCPD3022A	Apply paint by brush and roller

Units of competency in CPC08	
Code	Title
CPCCPD3023A	Apply texture coat paint finishes by brush, roller and spray
CPCCPD3024A	Apply paint by spray
CPCCPD3025A	Match specified paint colour
CPCCPD3026A	Apply stains and clear timber finishes
CPCCPD3027A	Apply wallpaper
CPCCPD3028A	Apply decorative paint finishes
CPCCPD3029A	Remove graffiti and apply protective coatings
CPCCPD3030A	Apply protective paint coating systems
CPCCPD3031A	Implement safe lead paint and asbestos work practices in the painting industry
CPCCPD3032A	Apply advanced wallpaper techniques
CPCCPD3033A	Apply intumescent coatings
CPCCPD3034A	Apply advanced decorative paint finishes
CPCCRI3001A	Operate personnel and materials hoists
CPCCRI3012A	Perform basic rigging
CPCCRI3013A	Perform intermediate rigging
CPCCRI3014A	Perform advanced structural steel erection
CPCCRI3015A	Perform advanced tilt-up slab erection
CPCCRI3016A	Perform advanced tower crane erection
CPCCRT2001A	Handle roof tiling materials
CPCCRT2002A	Use roof tiling tools and equipment
CPCCRT3001A	Tile regular roofs
CPCCRT3002A	Tile irregular roofs

Units of competency in CPC08	
Code	Title
CPCCRT3003A	Repair and replace valleys, valley irons and flashings
CPCCRT3004A	Repair and renovate tile roofs
CPCCRT3005A	Slate a roof
CPCCRT3006A	Fix shingles to roofs and facades
CPCCSC2001A	Safely handle and use scaffolding tools and equipment
CPCCSC2002A	Erect and dismantle basic scaffolding
CPCCSC3001A	Erect and dismantle intermediate scaffolding
CPCCSF2001A	Handle steelfixing materials
CPCCSF2002A	Use steelfixing tools and equipment
CPCCSF2003A	Cut and bend materials using oxy-LPG equipment
CPCCSF2004A	Place and fix reinforcement materials
CPCCSF2005A	Arc weld reinforcement steel
CPCCSF2006A	Machine cut reinforcement materials
CPCCSF2007A	Splice and anchor using mechanical methods
CPCCSF3001A	Apply reinforcement schedule
CPCCSF3002A	Carry out monostrand post-tensioning
CPCCSF3003A	Carry out multistrand post-tensioning
CPCCSF3004A	Carry out stressbar post-tensioning
CPCCSH2001A	Prepare surfaces
CPCCSH2002A	Use aluminium sections for fabrication
CPCCSH2003A	Apply and install sealant and sealant devices
CPCCSH3001A	Set out and assemble cabinets, showcases, wall units, counters and workstations

Units of competency in CPC08	
Code	Title
CPCCSH3002A	Set out and fabricate shopfront commercial entries bulkheads and component fittings
CPCCSH3003A	Assemble and install shopfront commercial entries bulkheads and components
CPCCSH3004A	Apply finishes
CPCCSH3005A	Apply and trim decorative finishes
CPCCSI2001A	Use colour for signage
CPCCSI2002A	Lay out and design signage
CPCCSI2003A	Prepare surfaces for signage
CPCCSI2004A	Produce digital signage
CPCCSI2005A	Fabricate signage
CPCCSI2006A	Signwrite to simple forms
CPCCSI2007A	Apply fasteners and fixings
CPCCSI3001A	Produce vinyl signage
CPCCSI3002A	Use rotary router
CPCCSI3003A	Signwrite to decorative forms
CPCCSI3004A	Apply advanced vinyl applications
CPCCSI3005A	Use engraving systems
CPCCSI3006A	Apply gilding to signage
CPCCSI3007A	Apply lines and scrolls
CPCCSI3008A	Write showcards and chalkboards
CPCCSI3009A	Screen-print signage
CPCCSI3010A	Hand render pictorials
CPCCSI3011A	Use LED technology for signage

Units of competency in CPC08	
Code	Title
CPCCSI3012A	Apply electrical theory for illuminated signage
CPCCSI3013A	Install LED systems
CPCCSI3014A	Manufacture gas-charged glass-formed illuminated signage
CPCCSP2001A	Handle solid plastering materials
CPCCSP2002A	Use solid plastering tools and equipment
CPCCSP2003A	Prepare surfaces for plastering
CPCCSP3001A	Apply float and render to straight and curved surfaces
CPCCSP3002A	Apply set coats
CPCCSP3003A	Apply trowelled texture coat finishes
CPCCSP3004A	Restore and renovate solid plasterwork
CPCCSP3005A	Install pre-cast decorative mouldings
CPCCSP3006A	Install cast plaster blockwork
CPCCSP3007A	Apply plaster by projection machine
CPCCST2001A	Prepare for stonemasonry construction process
CPCCST2002A	Identify and use stone products
CPCCST2003A	Finish stone
CPCCST2004A	Lay stone
CPCCST2005A	Carry out load slinging of off-site materials
CPCCST3001A	Dress and mould stone
CPCCST3002A	Shape solid stone
CPCCST3003A	Split stone manually
CPCCST3004A	Dress stone manually
CPCCST3005A	Carry out profile work

Units of competency in CPC08	
Code	Title
CPCCST3006A	Machine stone
CPCCST3007A	Turn stone
CPCCST3008A	Inlay lead to stone
CPCCST3009A	Use computer-controlled static machinery to produce stone components
CPCCST3010A	Set out and cut letters in stone
CPCCST3011A	Plan monument construction
CPCCST3012A	Build stone veneer walls
CPCCST3013A	Carry out cemetery monument fixing
CPCCST3014A	Set and anchor stone facades
CPCCSV5001A	Assess the construction of domestic scale buildings
CPCCSV5002A	Evaluate materials for construction of domestic scale buildings
CPCCSV5003A	Produce working drawings for residential buildings
CPCCSV5004A	Apply legislation to urban development and building controls
CPCCSV5005A	Apply footing and geomechanical design principles to domestic scale buildings
CPCCSV5006A	Assess construction faults in residential buildings
CPCCSV5007A	Undertake site surveys and set-out procedures for building projects
CPCCSV5008A	Apply building control legislation to building surveying
CPCCSV5009A	Assess the impact of fire on building materials
CPCCSV5010A	Interact with clients in a regulated environment
CPCCSV5011A	Apply building codes and standards to residential buildings
CPCCSV5012A	Assess timber-framed designs for one and two storey buildings
CPCCSV5013A	Apply principles of energy efficient design to buildings

Units of competency in CPC08	
Code	Title
CPCCSV5014A	Apply building surveying procedures to residential buildings
CPCCSV5015A	Assess structural requirements for domestic scale buildings
CPCCSV6001A	Assess the construction of buildings up to three storeys
CPCCSV6002A	Produce working drawings for buildings up to three storeys
CPCCSV6003A	Assess construction faults in buildings up to three storeys
CPCCSV6004A	Apply footing and geomechanical design principles to buildings up to three storeys
CPCCSV6005A	Evaluate services layout and connection methods for residential and commercial buildings up to three storeys
CPCCSV6006A	Evaluate the use of concrete for residential and commercial buildings up to three storeys
CPCCSV6007A	Assess structural requirements for buildings up to three storeys
CPCCSV6008A	Apply building codes and standards to buildings up to three storeys
CPCCSV6009A	Implement performance-based codes and risk management principles for buildings up to three storeys
CPCCSV6010A	Apply fire technology to buildings up to three storeys
CPCCSV6011A	Apply legal procedures to building surveying
CPCCSV6012A	Facilitate community development consultation
CPCCSV6013A	Coordinate building refurbishment
CPCCSV6014A	Manage and plan land use
CPCCSV6015A	Analyse and present building surveying research information
CPCCSV6016A	Apply building surveying procedures to buildings up to three storeys
CPCCVE1002A	Undertake a basic computer design project
CPCCVE1011A	Undertake a basic construction project
CPCCWC2001A	Complete penetrations and flashings

Units of competency in CPC08	
Code	Title
CPCCWC3001A	Install and finish plasterboard and fibre cement sheeting to curved walls and ceilings
CPCCWC3002A	Install and finish plasterboard and fibre cement sheeting to arches
CPCCWC3003A	Install dry wall passive fire-rated systems
CPCCWC3004A	Install suspended ceilings
CPCCWF2001A	Handle wall and floor tiling materials
CPCCWF2002A	Use wall and floor tiling tools and equipment
CPCCWF3001A	Prepare surfaces for tiling application
CPCCWF3002A	Fix floor tiles
CPCCWF3003A	Fix wall tiles
CPCCWF3004A	Repair wall and floor tiles
CPCCWF3005A	Carry out decorative tiling
CPCCWF3006A	Carry out mosaic tiling
CPCCWF3007A	Tile curved surfaces
CPCCWF3008A	Tile domestic pools and spas
CPCCWP2001A	Handle waterproofing materials
CPCCWP2002A	Use waterproofing tools and equipment
CPCCWP2003A	Prepare for construction waterproofing process
CPCCWP2004A	Prepare surfaces for waterproofing application
CPCCWP3001A	Apply waterproofing process to below ground level wet areas
CPCCWP3002A	Apply waterproofing process to internal wet areas
CPCCWP3003A	Apply waterproofing process to external wet areas
CPCCWP3004A	Apply waterproofing remedial processes

Units of competency in CPC08	
Code	Title
CPCMCM7001A	Plan and manage complex projects
CPCMCM7002A	Manage the quality of projects and processes
CPCPCM2002A	Carry out interactive workplace communication
CPCPCM2004A	Read plans and calculate plumbing quantities
CPCPCM2011A	Apply first aid in the workplace
CPCPCM2021A	Work effectively in the plumbing and services sector
CPCPCM2023A	Carry out OHS requirements
CPCPCM2025A	Handle and store plumbing materials
CPCPCM2026A	Use plumbing hand and power tools
CPCPCM2027A	Carry out levelling
CPCPCM2028A	Cut and join sheet metal
CPCPCM2029A	Cut using oxy-LPG-acetylene equipment
CPCPCM2030A	Mark out materials
CPCPCM2032A	Weld using oxy-acetylene equipment
CPCPCM2033A	Weld using arc welding equipment
CPCPCM2034A	Carry out simple concreting and rendering
CPCPCM2035A	Work safely on roofs
CPCPCM3011A	Flash penetrations through roofs and walls
CPCPCM3012A	Weld plastic pipe using fusion method
CPCPCM3013A	Fabricate and install non-ferrous pressure piping
CPCPCM4001A	Carry out work based risk control processes
CPCPCM4002A	Estimate and cost work
CPCPCM4003A	Produce 2-D architectural drawings using CAD software

Units of competency in CPC08	
Code	Title
CPCPCM4004A	Prepare simple sketches and drawings
CPCPCM5000A	Design complex sanitary plumbing and drainage systems
CPCPCM5001A	Design complex cold water systems
CPCPCM5002B	Design complex stormwater and roof drainage systems
CPCPCM5003B	Design complex (non-solar) heated water systems
CPCPCM5004A	Design sewer systems
CPCPDR2011A	Locate and clear blockages
CPCPDR2012A	Install domestic treatment plants
CPCPDR2013A	Maintain effluent disinfection systems
CPCPDR2014A	Install stormwater and sub-soil drainage systems
CPCPDR2015A	Drain work site
CPCPDR2016A	Install prefabricated inspection openings and enclosures
CPCPDR3011A	Plan layout of a residential sanitary drainage system
CPCPDR3012A	Install below ground sanitary drainage systems
CPCPDR3013A	Install on-site disposal systems
CPCPDR4011A	Design and size sanitary drainage systems
CPCPDR4012A	Design and size stormwater drainage systems
CPCPDR4013A	Design and size domestic treatment plant disposal systems
CPCPFS2011A	Connect static storage tanks for fixed fire protection systems
CPCPFS2012A	Install portable fire equipment
CPCPFS3010A	Design pre-calculated fire sprinkler systems
CPCPFS3011A	Fabricate and install fire hydrant and hose reel systems
CPCPFS3012A	Install distribution and range pipes

Units of competency in CPC08	
Code	Title
CPCPFS3013A	Fit off sprinkler heads, controls and ancillary equipment
CPCPFS3014A	Install control valve assemblies, actuating devices and local alarms
CPCPFS3015A	Test fire protection systems for pressure
CPCPFS3016A	Install special hazard systems
CPCPFS3017A	Install domestic and residential life safety sprinkler systems
CPCPFS3018A	Test and maintain fire hydrant and hose reel installations
CPCPFS3019A	Test and maintain automatic fire sprinklers
CPCPFS3020A	Conduct basic functional testing of water-based fire-suppression systems
CPCPFS3021A	Inspect and test fire pumpsets
CPCPFS3022A	Conduct annual functional testing of complex water-based fire-suppression systems
CPCPFS3023A	Conduct functional water flow testing
CPCPFS4011A	Commission domestic and residential fire suppression sprinkler systems
CPCPFS4012A	Commission and maintain special hazard fire suppression systems
CPCPFS4013A	Commission fire system pump sets
CPCPFS4014A	Design residential and domestic fire sprinkler systems
CPCPFS4005A	Commission fire alarm and detection systems
CPCPFS4006A	Commission firefighting appliances
CPCPFS5000A	Design fire-compliant hydraulic services
CPCPFS5001A	Design fire sprinkler systems
CPCPFS5002A	Design fire hydrant and hose reel systems
CPCPGS3016A	Install LPG systems in caravans, mobile homes, water craft and mobile workplaces

Units of competency in CPC08	
Code	Title
CPCPGS3017A	Install gas detection devices
CPCPGS3018A	Install gas pressure control equipment
CPCPGS3019A	Install Type A gas appliance flues
CPCPGS3020A	Install Type B gas appliance flues
CPCPGS3021A	Purge consumer piping
CPCPGS3022A	Maintain Type A gas appliances
CPCPGS3023A	Disconnect and reconnect Type A gas appliances
CPCPGS3024A	Calculate and install natural ventilation for Type A gas appliances
CPCPGS3025A	Install subsidiary gas meters
CPCPGS3031A	Install gas piping systems
CPCPGS3032A	Size consumer gas piping systems
CPCPGS3033A	Install and commission Type A gas appliances
CPCPGS3034A	Install LPG storage of aggregate storage capacity up to 500 litres
CPCPGS3035A	Install LPG storage of aggregate storage capacity exceeding 500 litres and less than 8KL
CPCPGS4003A	Install, commission and service Type B gas appliances
CPCPGS4011A	Design and size consumer gas installations
CPCPGS4012A	Service Type A gas appliances
CPCPIG2011A	Design domestic urban irrigation systems
CPCPIG3011A	Set out, install and commission irrigation systems
CPCPIG3012A	Install and commission domestic irrigation pumps
CPCPMS2011A	Assemble mechanical services components
CPCPMS3011A	Fabricate and install steel pressure piping

Units of competency in CPC08	
Code	Title
CPCPMS3012A	Select and fit insulation and sheathing
CPCPMS3013A	Install small bore heating systems
CPCPMS3014A	Install medical gas pipeline systems
CPCPMS3015A	Install and test ducting systems
CPCPMS3016A	Install air handling units
CPCPMS3017A	Install and test split system air conditioning
CPCPMS3018A	Install air conditioning control equipment
CPCPMS3019A	Maintain mechanical services equipment
CPCPMS3020A	Install and maintain evaporative air cooling systems
CPCPMS3021A	Install domestic solid fuel burning appliances
CPCPMS4002A	Commission air and water systems
CPCPMS4003A	Design compressed air systems
CPCPMS4011A	Design, size and lay out heating and cooling systems
CPCPMS5000A	Design steam distribution systems
CPCPMS5001A	Design air conditioning and ventilation systems
CPCPMS5002A	Design sound attenuated hydraulic services
CPCPMS5003A	Design hydronic heating and cooling systems
CPCPPS5000A	Design gas bulk storage systems
CPCPPS5001A	Design industrial gas systems
CPCPPS5002A	Design gas reticulation systems
CPCPPS5003A	Design solar water heating systems
CPCPPS5004A	Conduct a water audit and identify water-saving initiatives
CPCPPS5005A	Design grey water re-use systems in sewerred areas

Units of competency in CPC08	
Code	Title
CPCPPS5006A	Design rainwater collection, storage, distribution and re-use systems
CPCPPS5007A	Design irrigation systems
CPCPPS5008A	Design trade waste pre-treatment systems
CPCPPS5009A	Analyse and report on technical plumbing systems
CPCPPS5010A	Design pump systems
CPCPPS5011A	Coordinate services and penetrations within a building
CPCPPS5012A	Design siphonic stormwater drainage systems
CPCPPS5013A	Design vacuum sewerage systems
CPCPPS5014A	Locate and maintain piping systems
CPCPPS5015A	Inspect plumbing and drainage systems
CPCPRF2012A	Select and install roof sheeting and wall cladding
CPCPRF2013A	Collect and store roof water
CPCPRF2014A	Fabricate roof coverings for curved structures
CPCPRF3011A	Receive roofing materials
CPCPRF3012A	Fabricate and install roof drainage components
CPCPRF3013A	Fabricate and install external flashings
CPCPRF3014A	Install roof components
CPCPRF3015A	Install roof coverings to curved roof structures
CPCPRF3016A	Install composite roof systems
CPCPRF4011A	Design and size roof drainage systems
CPCPSN3011A	Plan layout of a residential sanitary plumbing system
CPCPSN3012A	Install discharge pipes
CPCPSN3013A	Fabricate and install sanitary stacks

Units of competency in CPC08	
Code	Title
CPCPSN3014A	Install and fit off sanitary fixtures
CPCPSN3015A	Install pre-treatment facilities
CPCPSN3016A	Install sewerage pump sets
CPCPSN4011A	Design and size sanitary plumbing systems
CPCPWT3010A	Connect and install storage tanks to a domestic water supply
CPCPWT3011A	Set out and install water services
CPCPWT3012A	Install and adjust water service controls and devices
CPCPWT3013A	Install and commission water heating systems
CPCPWT3014A	Install and maintain domestic water treatment equipment
CPCPWT3015A	Install water pump sets
CPCPWT3016A	Fit off and commission heated and cold water services
CPCPWT3017A	Connect irrigation systems from drinking water supply
CPCPWT3018A	Install water service
CPCPWT3019A	Install water pipe systems
CPCPWT4011A	Design and size heated and cold water services and systems
CPCPWT4012A	Commission and maintain backflow prevention devices
CPCPWT4013A	Commission and maintain heated water temperature control devices
CPCSFS5001A	Define scope and hazard level of fire systems design projects
CPCSFS5002A	Research and interpret detailed fire systems design project requirements
CPCSFS5003A	Develop plans and methodology for fire systems design projects
CPCSFS5005A	Research and evaluate fire system technologies and components
CPCSFS5006A	Create detailed designs for fire sprinkler systems

Units of competency in CPC08	
Code	Title
CPCSFS5007A	Create detailed designs for hydrant and hose reel systems
CPCSFS5008A	Create detailed designs for fire detection and warning systems
CPCSFS5009A	Create detailed designs for fire systems' water supplies
CPCSFS5010A	Provide documentation and support for fabrication of fire sprinkler systems
CPCSFS5011A	Provide design documentation and review and support fire system installation processes
CPCSFS5013A	Support commissioning processes and finalise fire systems design projects
CPCSFS5014A	Conduct annual fire systems certification inspections
CPCSFS5015A	Assess documentation for annual fire systems certification inspections
CPCSFS7001A	Define scope of and initiate special hazard fire systems design projects
CPCSFS7002A	Analyse, design and evaluate complex special hazard fire systems
CPCSFS7003A	Develop and submit tenders for fire systems design solutions
CPCSUS4001A	Implement and monitor environmentally sustainable work practices
CPCSUS5001A	Develop workplace policies and procedures for sustainability

CPC08 units with prerequisite unit requirements

CPC08 unit	Prerequisite unit
CPCCBC5018A	CPCCBC5001B Apply building codes and standards to the construction process for medium rise building projects
CPCCBL2001A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL2002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCBL3001A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3004A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3005A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3006A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3007A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3009A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3010A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3012A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3013A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3014A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3015A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3016A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCBL3017A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCBL3018A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA2002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA2003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA2011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3001A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3004A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3005A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3006A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3007B	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3008A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3009A	CPCCCA3007B Construct pitched roofs CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3010A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCCA3012A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3013A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3014A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3015A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3016A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3017A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3018A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3019A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3020A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3021A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3022A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCA3023A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM2002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM2004A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM2005A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM2006A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCCM2007A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM2008A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM2009A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM2010A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM2011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM3001B	CPCCCM2010A Work safely at heights CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM3002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCM3003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO2011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO2012A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO2013A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO2014A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3021A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3022A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3023A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCCO3024A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3025A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3026A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3027A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3028A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3029A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3030A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3031A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3032A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3033A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCCO3034A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCDE2011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCDE2012A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCDE3011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCDE3012A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCDE3013A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCDO2011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCDO3011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCDO3012A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJN2001A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJN2002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJN2003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJN3001A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJN3002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJN3003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJN3004A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJN3005A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJS3002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJS3003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJS3004A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJS3005A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCJS3006A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCJS3011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCLRG3001A	CPCCLDG3001A Licence to perform dogging
CPCCLRG3002A	CPCCLRG3001A Licence to perform rigging basic level
CPCCLRG4001A	CPCCLRG3002A Licence to perform rigging intermediate level
CPCCLSF3001A	CPCCLSF2001A Licence to erect, alter and dismantle scaffolding basic level
CPCCLSF4001A	CPCCLSF3001A Licence to erect, alter and dismantle scaffolding intermediate level
CPCCPA3001A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPA3002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPA3003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPA3004A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPA3005A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3001A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3002A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3003A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3004A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3005A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3006A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCPB3007A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3008A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3009A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3010A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3012A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3013A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3014A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3015A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3016A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3017A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3018A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3019A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3020A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3021A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3022A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

CPC08 unit	Prerequisite unit
CPCCPB3023A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3024A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3025A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3026A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPB3027A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPD2011A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPD2012A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPD2013A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPD3021A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPD3022A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
CPCCPD3023A	CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry

Imported units used in CPC08 qualifications

Unit code	Unit title
BSBADM506B	Manage business document design and development
BSBAUD504B	Report on a quality audit
BSBCUS301A	Deliver and monitor a service to customers
BSBCUS402A	Address customer needs

Unit code	Unit title
BSBCUS501B	Manage quality customer service
BSBFIM501A	Manage budgets and financial plans
BSBHRM402A	Recruit, select and induct staff
BSBHRM509A	Manage rehabilitation or return to work programs
BSBINN301A	Promote innovation in a team environment
BSBINN502A	Build and sustain an innovative work environment
BSBITA401A	Design databases
BSBITS401A	Maintain business technology
BSBITU201A	Produce simple word processed documents
BSBITU202A	Create and use spreadsheets
BSBITU301A	Create and use databases
BSBITU402A	Develop and use complex spreadsheets
BSBITU404A	Produce complex desktop published documents
BSBLED401A	Develop teams and individuals
BSBLED502A	Manage programs that promote personal effectiveness
BSBMGT403A	Implement continuous improvement
BSBMGT502B	Manage people performance
BSBMGT515A	Manage operational plan
BSBMGT617A	Develop and implement a business plan
BSBMKG414A	Undertake marketing activities
BSBMKG609A	Develop a marketing plan
BSBOHS201A	Participate in OHS processes
BSBOHS403B	Identify hazards and assess OHS risks
BSBOHS404B	Contribute to the implementation of strategies to control OHS risk

Unit code	Unit title
BSBOHS504B	Apply principles of OHS risk management
BSBOHS603B	Analyse and evaluate OHS risk
BSBPMG404A	Apply quality management techniques
BSBPMG407A	Apply risk management techniques
BSBPMG504A	Manage project costs
BSBPMG505A	Manage project quality
BSBPMG507A	Manage project communications
BSBPMG508A	Manage project risk
BSBPMG510A	Manage projects
BSBRES401A	Analyse and present research information
BSBRISK501A	Manage risk
BSBSLS403A	Present a sales solution
BSBSLS404A	Secure prospect commitment
BSBSLS502A	Lead and manage a sales team
BSBSMB301A	Investigate micro business opportunities
BSBSMB401A	Establish legal and risk management requirements of small business
BSBSMB402A	Plan small business finances
BSBSMB404A	Undertake small business planning
BSBSMB405A	Monitor and manage small business operations
BSBSMB406A	Manage small business finances
BSBSMB407A	Manage a small team
BSBWOR401A	Establish effective workplace relationships
BSBWOR402A	Promote team effectiveness

Unit code	Unit title
BSBWOR501B	Manage personal work priorities and professional development
BSBWOR502B	Ensure team effectiveness
BSBWRT401A	Write complex documents
CHCCOM403A	Use targeted communication skills to build relationships
CHCCOM4B	Develop, implement and promote effective communication techniques
CPPCMN2001A	Control and direct traffic
CPPDSM4014A	Market property for sale
CPPDSM4022A	Sell and finalise the sale of property by private treaty
CPPDSM5022A	Implement asset management plan
CPPDSM6002A	Conduct a property investment feasibility study
CPPDSM6008A	Develop strategic facilities management plan
CPPFES2006A	Prepare for installation and servicing operations
FPICOT2204B	Maintain chainsaws
FPICOT2206B	Cross cut materials with a hand-held chainsaw
HLTHIR403B	Work effectively with culturally diverse clients and co-workers
ICAU1128B	Operate a personal computer
ICAU1129B	Operate a word processing application
ICAU1130B	Operate a spreadsheet application
ICAU1131B	Operate a database application
ICAU1133B	Send and retrieve information using web browsers and email
LGAPLEM502A	Apply ecologically sustainable development principles to the built environment
LMFFM3006B	Install furnishing products
LMFFM3013B	Measure and draw site layout for manufactured furniture products

Unit code	Unit title
LMFFM3028B	Fabricate synthetic solid surface products
LMFFM3030B	Set up, operate and maintain CNC sizing machines
LMFFM3031B	Set up, operate and maintain CNC machining and processing centres
LMFFT4010B	Identify and calculate production costs
LMFGG1001B	Complete a basic glass and glazing project
LMFGG2008B	Glaze/re-glaze residential windows and doors
LMFGG3015B	Fabricate and install shower screens and wardrobe doors
MEM05010C	Apply fabrication, forming and shaping techniques
MEM05049B	Perform routine gas tungsten arc welding
MEM05050B	Perform routine gas metal arc welding
MEM10009B	Install refrigeration and air conditioning plant and equipment
MEM10010B	Install pipework and pipework assemblies
MEM18086B	Test, recover, evacuate and charge refrigeration systems
PRMPFES25C	Inspect, test and maintain gaseous fire suppression systems
PRMPFES43A	Prevent ozone depleting substance and synthetic greenhouse gas emissions
PRMPFES47A	Inspect and test control and indicating equipment
PRMWM15B	Move waste using load shifting equipment
RIICBS201A	Conduct tack coat spraying operations
RIICBS202A	Hand spread asphalt
RIICBS203A	Safely handle bituminous materials
RIICCM207A	Spread and compact materials manually
RIICCM210A	Install trench support
RIICFW301A	Construct underpinning

Unit code	Unit title
RIIMPO318A	Conduct skid steer loader operations
RIIMPO320A	Conduct civil construction excavator operations
RIIOHS202A	Enter and work in confined spaces
RIIOHS205A	Control traffic with stop-slow bat
RIIOHS302A	Implement traffic management plan
RIISAM204A	Operate small plant and equipment
RIIWMG203A	Drain and dewater civil construction site
RTE3605A	Troubleshoot irrigation systems
RTF3203A	Construct brick and/or block structures and features
RTF3221A	Implement a retaining wall project
TAEDEL402A	Plan, organise and facilitate learning in the workplace
TLILIC108A	Licence to operate a forklift truck
TLILIC1008A	Licence to operate a slewing mobile crane (up to 100 tonnes)
TLILIC1108A	Licence to operate a slewing mobile crane (over 100 tonnes)
TLILIC608A	Licence to operate a non-slewing mobile crane (greater than 3 tonnes capacity)
TLILIC808A	Licence to operate a slewing mobile crane (up to 20 tonnes)
TLILIC908A	Licence to operate a slewing mobile crane (up to 60 tonnes)

CPC08 users should go to www.ntis.gov.au to download any required imported units.

Mapping of CPC08 Construction, Plumbing and Services Training Package to previous Training Package

Mapping of units of competency

Version 6.1

There were no changes made to the content of CPC08 Version 6 units of competency in this ISC upgrade and so a mapping table is not provided.

The following five units were assigned a different unit code (while retaining the same unit title) in response to stakeholder implementation advice with regard to the use of previous version unit codes:

- CPCPGS3011A was re-coded to CPCPGS3031A
- CPCPGS3012A was re-coded to CPCPGS3032A
- CPCPGS3013A was re-coded to CPCPGS3033A
- CPCPGS3014A was re-coded to CPCPGS3034A
- CPCPGS3015A was re-coded to CPCPGS3035A.

Minor editorial changes were made to unit code or title references in CPC08 Version 6 qualifications to ensure consistent listing of the unit code or title of:

- CPCPCM2028A Cut and join sheet metal
- CPCPCM2029A Cut using oxy-LPG-acetylene equipment
- CPCPCM2032A Weld using oxy-acetylene equipment
- CPCPWT3016A Fit off and commission heated and cold water services.

Version 6

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCCBBC4006B Select, procure and store construction materials for low rise projects	CPCCBBC4006A Select, procure and store construction materials for low rise projects	Sustainability content added to range statement Equivalent to CPCCBBC4006A	E
CPCCBBC4008B Conduct on-site supervision of building and construction projects	CPCCBBC4008A Conduct on-site supervision of building and construction projects	Sustainability content added to range statement Equivalent to CPCCBBC4008A	E

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCCBC4009B Apply legal requirements to building and construction projects	CPCCBC4009A Apply legal requirements to building and construction projects	Missing application information added Equivalent to CPCCBC4009A	E
CPCCBC4010B Apply structural principles to residential low rise constructions	CPCCBC4010A Apply structural principles to residential low rise constructions	Sustainability content added to performance criterion Equivalent to CPCCBC4010A	E
CPCCBC4011B Apply structural principles to commercial low rise constructions	CPCCBC4011A Apply structural principles to commercial low rise constructions	Sustainability content added to performance criterion Equivalent to CPCCBC4011A	E
CPCCBC4027B Establish a basis for sales consulting	CPCCBC4027A Establish a basis for sales consulting	Minor changes to required skills in response to addition of sustainability content Equivalent to CPCCBC4027A	E
CPCCBC4029B Apply construction information to the sales process	CPCCBC4029A Apply construction information to the sales process	Sustainability content added to required skills Equivalent to CPCCBC4029A	E
CPCCBC5006B Apply site surveys and set-out procedures to medium rise building projects	CPCCBC5006A Apply site surveys and set-out procedures to medium rise building projects	Missing application information added Equivalent to CPCCBC5006A	E
CPCCBC5010B Manage construction work	CPCCBC5010A Manage construction work	Sustainability content added to required knowledge Equivalent to	E

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
		CPCCBC5010A	
CPCCBL3018A Install aerated autoclaved concrete products	CPCCBL3008A Install aerated autoclaved concrete products	Prerequisite unit CPCCOHS2001A added Unit outcome altered Not equivalent to CPCCBL3008A	N
CPCCCA2011A Handle carpentry materials	CPCCCA2001A Handle carpentry materials	Prerequisite unit CPCCOHS2001A added Unit outcome altered Not equivalent to CPCCCA2001A	N
CPCCCA3007B Construct pitched roofs	CPCCCA3007A Construct pitched roofs	Item added to required knowledge section Unit outcome not altered Equivalent to CPCCCA3007A	E
CPCCCM1011A Undertake basic estimation and costing	CPCCCM1001A Undertake basic estimation and costing	Prerequisite unit CPCCOHS2001A removed Unit outcome altered Not equivalent to CPCCCM1001A	N
CPCCCM1012A Work effectively and sustainably in the construction industry	CPCCCM1002A Work effectively and sustainably in the construction industry	Prerequisite unit CPCCOHS2001A removed Sustainability content added to range statement Unit outcome altered Not equivalent to CPCCCM1002A	N
CPCCCM1013A Plan and organise work	CPCCCM1003A Plan and organise work	Prerequisite unit CPCCOHS2001A removed Unit outcome altered	N

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
		Not equivalent to CPCCCM1003A	
CPCCCM1014A Conduct workplace communication	CPCCCM1004A Conduct workplace communication	Prerequisite unit CPCCOHS2001A removed Unit outcome altered Not equivalent to CPCCCM1004A	N
CPCCCM1015A Carry out measurements and calculations	CPCCCM1005A Carry out measurements and calculations	Prerequisite unit CPCCOHS2001A removed Unit outcome altered Not equivalent to CPCCCM1005A	N
CPCCCM2003B Calculate and cost construction work	CPCCCM2003A Calculate and cost construction work	Sustainability content added to required knowledge and range statement Equivalent to CPCCCM2003A	E
CPCCCM2010A Work safely at heights	CPCCCM1006A Work safely at heights	Unit code changed to address anomaly of a unit at nominal AQF level 1 having a level 2 prerequisite Unit outcome not altered Equivalent to CPCCCM1006A	E
CPCCCM2011A Carry out tilt-up work safely	CPCCCM1007A Carry out tilt-up work safely	AQF nominal level of unit increased from 1 to 2 to allow a level 2 OHS unit as prerequisite in view of nature of work associated with unit Unit outcome not altered Equivalent to	E

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
		CPCCCM1007A	
CPCCCM3001B Operate elevated work platforms	CPCCCM3001A Operate elevated work platforms	Unit version upgrade to reflect the change of code but not content of prerequisite unit Unit outcome not altered Equivalent to CPCCCM3001A	E
CPCCCO2011A Handle concreting materials	CPCCCO2001A Handle concreting materials	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO2001A	N
CPCCCO2012A Use concreting tools and equipment	CPCCCO2002A Use concreting tools and equipment	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO2002A	N
CPCCCO2013A Carry out concreting to simple forms	CPCCCO2003A Carry out concreting to simple forms	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO2003A	N
CPCCCO2014A Carry out concrete work	CPCCCO2004A Carry out concrete work	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
		Unit outcome altered Not equivalent to CPCCCO2004A	
CPCCCO3021A Place concrete	CPCCCO3001A Place concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3001A	N
CPCCCO3022A Finish concrete	CPCCCO3002A Finish concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3002A	N
CPCCCO3023A Cure concrete	CPCCCO3003A Cure concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3003A	N
CPCCCO3024A Carry out decorative finishes to concrete	CPCCCO3004A Carry out decorative finishes to concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3004A	N
CPCCCO3025A Resurface concrete	CPCCCO3005A Resurface concrete	Prerequisite requirement changed from CPCCOHS1001A to	N

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
		CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3005A	
CPCCCO3026A Carry out repair and rectification of concrete	CPCCCO3006A Carry out repair and rectification of concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3006A	N
CPCCCO3027A Cut and core concrete	CPCCCO3007A Cut and core concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3007A	N
CPCCCO3028A Carry out tilt panel construction	CPCCCO3008A Carry out tilt panel construction	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3008A	N
CPCCCO3029A Apply and finish sprayed concrete	CPCCCO3009A Apply and finish sprayed concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3009A	N
CPCCCO3030A	CPCCCO3010A Carry	Prerequisite requirement	N

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
Carry out high performance concreting	out high performance concreting	changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3010A	
CPCCCO3031A Conduct off-form vertical concrete operations	CPCCCO3011A Conduct off-form vertical concrete operations	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3011A	N
CPCCCO3032A Conduct concrete boom delivery operations	CPCCCO3012A Conduct concrete boom delivery operations	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3012A	N
CPCCCO3033A Slump test concrete	CPCCCO3013A Slump test concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3013A	N
CPCCCO3034A Conduct concrete agitator truck operations	CPCCCO3014A Conduct concrete agitator truck operations	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3014A	N

Mapping Version 6 CPC08 units of competency to Version 5 CPC08			
Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCCDE2011A Use demolition tools and equipment	CPCCDE2001A Use demolition tools and equipment	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDE2001A	N
CPCCDE2012A Carry out manual general demolition	CPCCDE2002A Carry out manual general demolition	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDE2002A	N
CPCCDE3011A Carry out mechanical general demolition	CPCCDE3001A Carry out mechanical general demolition	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDE3001A	N
CPCCDE3012A Encapsulate and remove asbestos	CPCCDE3002A Encapsulate and remove asbestos	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDE3002A	N

The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.

Overview

What is a Training Package?

A Training Package is an integrated set of nationally endorsed Competency Standards, Assessment Guidelines and Australian Qualifications Framework (AQF) qualifications for a specific industry, industry sector or enterprise.

Each Training Package:

- provides a consistent and reliable set of components for training, and recognising and assessing people's skills, and may also have optional support materials
- enables nationally recognised qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

How do Training Packages fit within the National Training Framework?

The National Training Framework is made up of the nationally agreed quality arrangements for the vocational education and training sector, the Australian Quality Training Framework (AQTF), and Training Packages endorsed by the National Quality Council (NQC).

How are Training Packages developed?

Training Packages are developed by Industry Skills Councils or enterprises to meet the identified training needs of specific industries or industry sectors. To gain national endorsement of Training Packages, developers must provide evidence of extensive research, consultation and support within the industry area or enterprise.

How do Training Packages encourage flexibility?

Training Packages describe the skills and knowledge needed to perform effectively in the workplace without prescribing how people should be trained.

Training Packages acknowledge that people can achieve vocational competency in many ways by emphasising what the learner can do, not how or where they learned to do it. For example, some experienced workers might be able to demonstrate competency against the units of competency and even gain a qualification without completing a formal training program.

With Training Packages, assessment and training may be conducted at the workplace, off the job, at a training organisation, during regular work, or through work experience, work placement, work simulation or any combination of these.

Who can deliver and assess using Training Packages?

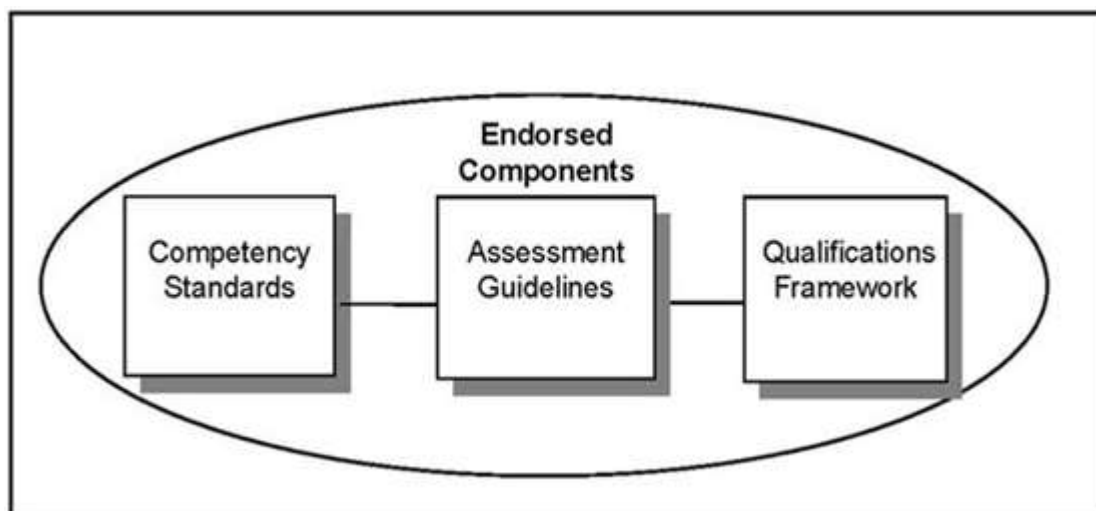

Training and assessment using Training Packages must be conducted by a registered training organisation (RTO) that has the qualifications or specific units of competency on its scope of registration, or that works in partnership with another RTO as specified in the AQTF Standards for Registered Training Organisations.

Training Package components

Training Packages are made up of mandatory components endorsed by the NQC and optional support materials.

Training Package endorsed components

The nationally endorsed components include the Competency Standards, Assessment Guidelines and Qualifications Framework. These form the basis of training and assessment in the Training Package and, as such, they must be used.

Competency standards

Each unit of competency identifies a discrete workplace requirement and includes the knowledge and skills that underpin competency as well as language, literacy and numeracy; and occupational health and safety requirements. The units of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Assessment guidelines

The Assessment Guidelines provide an industry framework to ensure all assessments meet industry needs and nationally agreed standards as expressed in the Training Package and the Standards for Registered Training Organisations. The Assessment Guidelines must be followed to ensure the integrity of assessment leading to nationally recognised qualifications.

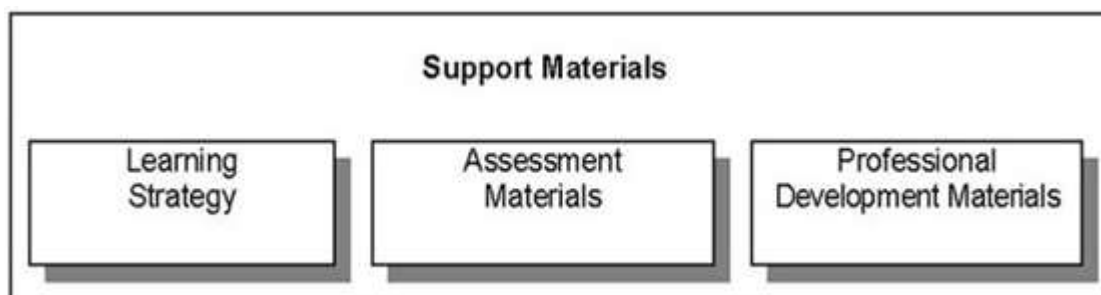

Qualifications framework

Each Training Package provides details of those units of competency that must be achieved to award AQF qualifications. The rules around which units of competency can be combined to make up a valid AQF qualification in the Training Package are referred to as the 'packaging rules'. The packaging rules must be followed to ensure the integrity of the nationally recognised qualifications issued.

Training Package support materials

The endorsed components of Training Packages are complemented and supported by optional support materials that provide for choice in the design of training and assessment to meet the needs of industry and learners.

Training Package support materials can relate to single or multiple units of competency, an industry sector, a qualification or the whole Training Package. They tend to fall into one or more of the categories illustrated below.

Training Package support materials are produced by a range of stakeholders such as RTOs, individual trainers and assessors, private and commercial developers and government agencies.

Where such materials have been quality assured through a process of ‘noting’ by the NQC, they display the following official logo. Noted support materials are listed on the National Training Information Service (NTIS) website, together with a detailed description and information on the type of product and its availability (www.ntis.gov.au).

It is not compulsory to submit support materials for noting; any resources that meet the requirements of the Training Package can be used.

Training Package, qualification and unit of competency codes

There are agreed conventions for the national codes used for Training Packages and their components. Always use the correct codes, exactly as they appear in the Training Package, and with the title always following the code.

Training Package codes

Each Training Package has a unique five-character national code assigned when the Training Package is endorsed, for example CPC08. The first three characters are letters identifying the Training Package industry coverage and the last two characters are numbers identifying the year of endorsement.

Qualification codes

Within each Training Package, each qualification has a unique eight-character code, for example CPC20111. The first three letters identify the Training Package; the first number identifies the qualification level (noting that Arabic numbers are not used in qualification titles themselves); the next two numbers identify the position in the sequence of the qualification at that level; and the last two numbers identify the year in which the qualification was endorsed. (Where qualifications are added after the initial Training Package endorsement, the last two numbers may differ from other Training Package qualifications as they identify the year in which those particular qualifications were endorsed.)

Unit of competency codes

Within each Training Package, each unit of competency has a unique code. The unit of competency codes are assigned when the Training Package is endorsed, or when new units of competency are added to an existing endorsed Training Package.

A typical code is made up of 12 characters, normally a mixture of upper-case letters and numbers, as in CPCCJS3003A. The first three characters signify the Training Package (CPC in the above example) and up to eight characters, relating to an industry sector, function or skill area, follow. The last character is always a letter and identifies the unit of competency version. The 'A' in the example above indicates that this is the original unit of competency. An incremented version identifier usually means that minor changes have been made. Typically this would mean that wording has changed in the range statement or evidence guide, providing clearer intent. Where changes are made that alter the outcome, a new code is assigned and the title is changed.

Training Package, qualification and unit of competency titles

There are agreed conventions for titling Training Packages and their components. Always use the correct titles, exactly as they appear in the Training Package, and with the code always placed before the title.

Training Package titles

The title of each endorsed Training Package is unique and relates the Training Package's broad industry coverage.

Qualification titles

The title of each endorsed Training Package qualification is unique. Qualification titles use the following sequence:

- firstly, the qualification is identified as either Certificate I, Certificate II, Certificate III, Certificate IV, Diploma or Advanced Diploma
- this is followed by the words 'in' for Certificates I to IV and 'of' for Diploma and Advanced Diploma
- then the industry descriptor follows, for example Telecommunications
- if applicable, the occupational or functional stream follows in brackets, for example (Computer Systems).

For example:

- CPC30211 Certificate III in Carpentry
- CPC40911 Certificate IV in Plumbing and Services.

Unit of competency titles

Each unit of competency title is unique. Unit of competency titles describe the competency outcome concisely, and are written in sentence case.

For example:

- CPCCBC4028A Prepare design brief for construction works
- CPCPPS5004A Conduct a water audit and identify water-saving initiatives.

CPC08 Construction, Plumbing and Services Training Package overview

Overview of Version 6

CPC08 Version 1 was released in early 2009. Since then, there have been four subsequent endorsements of the Training Package. In three of these endorsements new qualifications and units were added to the Training Package, while the other endorsement addressed aligning specific qualifications to licensing requirements. This version is different in that it is primarily focussing on continuous improvement within the Training Package. As a result of the implementation of CPC08 in all states and territories a number of issues have been identified that will improve the Training Package. Version 6 responds to many of those issues. This version also includes significant changes to the packaging of two qualifications in response to changing industry needs. The other major category of changes includes significant work to explicitly embed sustainability into the plumbing and services units in the Training Package. Comprehensive mapping guides have been included for the changes to units of competency and qualifications.

Overview of Version 5

As part of the government's recent *Energy Efficient Homes Package*, in particular the ceiling insulation program, the Department of Environment, Water, Heritage and the Arts (DEWHA) requested the development of nationally recognised training for ceiling insulation installers.

CPSISC mapped available competencies and identified three relevant endorsed units:

- CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
- CPCCCM1006A Work safely at heights
- CPCCPB3014A Install batt insulation products.

Components of a fourth unit, CPCCPB3015A Install acoustic and thermal environmental protection systems, were selected to fill a gap in installing other types of insulation.

A further unit of competency was:

- CPCCPB3027A Install ceiling insulation to address critical safety requirements in installing ceiling insulation.

Due to the lack of a national unit of competency to cover the work requirements to install ceiling insulation, CPSISC developed training support materials for registered training organisations (RTOs) to deliver the required units of competency (CPCCPB34014A and its prerequisite and co-requisite units CPCCOHS2001A and CPCCCM1006A).

DEWHA's Ceiling Insulation Program competency guidelines also included the acceptance of individual Statements of Attainment against CPCCPB3015A Install acoustic and thermal environmental protection systems as a competency requirement for supervisors of insulation installation.

Through industry consultation it was identified that individual competencies were not sufficient to ensure that supervisors had all the relevant skills and knowledge, especially in critical safety aspects. It was agreed that a new unit of competency which combined all critical functions of installing ceiling insulation should be developed to ensure consistency in training.

Overview of Version 4

The previous CPC40108 Certificate IV in Building and Construction (Building) and CPC50208 Diploma of Building and Construction (Building) qualifications in CPC08, then titled Construction, Plumbing and Services Integrated Framework Training Package, were initially designed to cover higher level building management skills and also to meet registration and licensing requirements for builders in Australian States and Territories.

At the end of the 2007 review of the three Training Packages for the construction, plumbing and services industries, concerns were raised that the requirements for individual registration as a builder were not well aligned to the competency outcomes of these higher level construction qualifications. In some jurisdictions this resulted in the requirement to complete significant additional units of competency in the Diploma in order to meet Builder Registration requirements.

The matter could not be effectively dealt with in the re-development work undertaken during the review as it was only raised, with little detail of the issues, when the review consultation process was near completion. The concerns were not raised earlier because implementation of the qualification had only begun in 2007, so there was very limited industry or RTO experience in using them at the time of the review consultation.

In 2008, in response to further feedback from stakeholders, CPSISC initiated this Version 4 project to seek a better alignment of qualifications to licensing outcomes. Initial consultation with a variety of industry, regulator and RTO stakeholders indicated that the structure of the Certificate IV met the majority of, but not all, jurisdictional categories of limited building registration/licensing. However, it was found that the Diploma structure could be greatly improved by having the underpinning content of some Certificate IV units embedded in it to ensure that training covered the relevant progressive skills required for higher classes of builder registration.

Classes of builder licensing vary considerably across the country, with some jurisdictions having up to 30 classes or categories of licensing while one jurisdiction has a single class. Mutual recognition of licensing is in place and recognition requirements can be ascertained through the Licence Recognition website (<http://www.licencerecognition.gov.au/Default.aspx>). The site sets out the scope of building work covered by licence categories in each jurisdiction but does not provide details of competency and qualification requirements for licensing in each case.

In response, CPSISC initiated the Version 4 continuous improvement project to progress the issue and seek a solution.

Overview of Version 3

In 2007 during the review of BCP03 Plumbing and Services Training Package various parties involved in hydraulic design consulting raised the issue of the training and recognition pathway for their workforce using the Training Package qualification pathway. This was set out in a discussion paper circulated by the national Association of Hydraulic Services Consultants Australia (AHSCA), where the main concern was that the Training Package hydraulic design units of competency were embedded in the plumbing services stream of the then Diploma qualification CPC50408 Diploma of Plumbing and Services.

The stream of the Diploma had a prerequisite requirement of completion of the Certificate IV in Plumbing and Services, including the Plumbing and Services – Operations stream. The Certificate IV stream had, in turn, the requirement for prior completion of a relevant trade qualification or equivalent; generally interpreted to mean the completion of a Certificate III in Plumbing. The effect was that an hydraulic services design (HSD) specialisation pathway from the then plumbing and services qualification framework was limited to learners previously completing a trade outcome at Certificate III and then progressing through Certificate IV and Diploma, choosing particular streams in order to gain the range of higher level units of competency necessary to undertake the work. That pathway, still valued by the industry, remains within CPC08 Construction, Plumbing and Services Integrated Framework Training Package, despite the addition of this new Version 3 HSD material.

However, people wanting a career in the field of hydraulic design consulting by entering directly into a Certificate IV specialist hydraulic design pathway and then a specialist Diploma qualification cannot do so under the current packaging rules and entry requirements. The HSD Version 3 additions offer an alternative pathway for hydraulic design consultants within the Training Package.

Members of the PSC involved in Version 3 were:

- Paul Naylor (Chair), Master Plumbers
- Carmel Coate, National Fire Industry Association
- Gary Cook, National Plumbing & Services Training Advisory Group (NPSTAG)
- Michael McGuiness, Australian New Zealand Reciprocity Association
- Stephen Movley, Institute of Plumbing
- Doug McClusky, CEPU – Plumbing Division
- Adrian Hart, Master Plumbers Australia
- John Mahoney, SkillsTech
- Vin Ebeger, Master Plumbers & Mechanical Services Association of Australia
- Murray Thomas, Master Plumbers Association
- Shayne LaCombre, Plumbing Industry Commission.

Overview of Version 2

The version 2 update of CPC08 came about as a result of the addition of the fire systems design (FSD) material, which itself was the result of CPSISC's response to the long-held need of the fire sector to develop qualifications to support the designers of fire systems.

This small, niche sector is of great importance, given the vital work fire systems designers do in ensuring public safety and the protection of built assets. Yet the design of fire systems was not covered by any formal competency-based qualifications.

The National Fire Industry Association (NFIA) and the Fire Protection Association Australia (FPAA) played a central and active role in the project steering committee and in the development of the FSD qualifications and units of competency. Members of the PSC involved in Version 2 were:

- Wayne Smith (Chair), Fire Protection Industry Board of Queensland Inc and NFIA
- Vince Ball, Executive Director, Construction Industry Training Council, ACT
- Luke Behncke, A/Manager, Curriculum Services Branch, Skills Victoria
- Michael Boyce, Chief Executive Officer, PEER VEET
- Carmel Coate, Executive Director, NFIA
- Paul Deipenau, Service Manager, Spectrum Fire Pty Ltd
- Graeme Hunt, Delegate of the Director of Building Control, Department of Justice, Tasmania
- Bill Lea, Managing Director, Prime Water Technologies and FPAA
- Doug McClusky, Training Manager, Communications Electrical Plumbing Union (CEPU) — Plumbing Division
- Roger Thomas, Director of Engineering, Asia Pacific, Tyco Fire Protection Services
- Terry Whitty, Senior Educator, Quality and Curriculum for Building Services, RMIT.

The FSD sector is subject to a range of regulatory and performance requirements arising from fire, plumbing, environmental agencies and Australian standards. The regulatory requirements also vary from and between the various commonwealth, state and territory jurisdictions. It is expected that this sector will be subject to increasing levels of regulatory coverage.

Overview of Version 1

The Training Package review encompassed three previously endorsed Training Packages:

- BCP03 Plumbing and Services Training Package, originally endorsed in October 2003
- BCF00 Off-Site Construction Training Package, originally endorsed in July 2000
- BCG03 General Construction Training Package, endorsed in November 2003 after the review of the previous Training Package originally completed in 1998 and resulted in Certificate IV, Diploma and Advanced Diploma units of competency and qualifications being endorsed in August 2006.

To ensure that the general and off-site units of competency and qualifications integrate and meet industry needs and that plumbing and services qualifications were relevant to industry needs the review was much more than a technical scoping of the existing units of competency and packaging into qualifications. The reviewed Training Packages were restructured where necessary to provide flexible recognition points for the many specialist job roles that have grown in the industry as new building products are developed and technology and work organisation changes occur.

The review put forward and tested how an Integrated Framework of units of competency and qualifications might work across the breadth of the construction industry for the benefit of all stakeholders. In bringing the three Training Packages under a common umbrella it was not the intention to change the recognition and status of any specialist roles or trade streams of work, but to show how the skills used across the whole industry are complementary.

Under the general theme of *A More Flexible and Responsive Training System* COAG, in February 2006, introduced a set of measures to ensure Australia's training and apprenticeship system offered more flexible pathways into work roles and trades where there are ongoing skill shortages. The Construction and Property Services Industry Skills Council was asked to develop additional, nationally portable qualifications for the General Construction Training Package. The primary intention was to better meet ongoing construction industry skill demands and shortages, provide skill recognition for existing workers and improve productivity and safety.

The result was a suite of six new qualifications; three at Certificate II and three at Certificate III that were endorsed by the National Quality Council in July and September 2006. The qualifications were:

- BCG20306 Certificate II in Steelfixing
- BCG20406 Certificate II in Concreting
- BCG20506 Certificate II in Stonemasonry
- BCG31606 Certificate III in Wall and Ceiling Lining (Plasterboard)
- BCG31506 Certificate III in Formwork/Falsework
- BCG31706 Certificate III in Low Rise Structural Framing.

These intermediate qualifications had significant focus during the review to ensure they were genuinely in demand and supported by industry. There has also been the addition of four further qualifications:

- CPC20208 Certificate II in Construction Pathways
- CPC31608 Certificate III in Paving
- CPC32008 Certificate III in Carpentry and Joinery
- CPC32108 Certificate III in Signage.

Two previous qualifications in the BCF00 Off-Site Construction Training Package have been merged with similar qualifications in the general construction area. These are:

- BCF10100 Certificate I in Construction (Off-Site), now CPC10108 Certificate I in General Construction
- BCF20100 Certificate II in Off-Site Construction, now CPC20108 Certificate II in General Construction and CPC20208 Certificate II in Construction Pathways.

Three previous qualifications in the BCF00 Off-Site Construction Training Package were amalgamated into the single new qualification CPC32108 Certificate III in Signage noted above. These qualifications were:

- BCF30700 Certificate III in Off-Site Construction (Sign Writing/Computer Operation)
- BCF30800 Certificate III in Off-Site Construction (Sign Manufacture)
- BCF30900 Certificate III in Off-Site Construction (Neon Manufacture).

Two other qualifications previously in BCF00 Off-Site Construction Training Package have been deleted and not replaced as they had no take-up over the past three years and no future demand expressed by stakeholders during consultation. Other Training Package qualifications have been identified as more suitable. The deleted qualifications are:

- BCF30400 Certificate III in Off-Site Construction (Pre-fabrication)
- BCF30500 Certificate III in Off-Site Construction (Machining).
- The review work was overseen by two specialist groups:

The Review Steering Group:

- Lindsay Fraser (Joint Chair), Assistant Secretary, Construction Forestry, Mining and Energy (CFMEU)
- Laurie Kruize (Joint Chair), Manager for Training and Professional Development, Housing Industry Association (HIA)
- Vince Ball, Executive Director, Construction Industry Training Council ACT
- Peter Brilliant, Director, Building Commission Victoria
- Tom Brown, CEO, Thomas Brown Shopfitters Pty Ltd and Australian Shop and Office Fitting Industry Association (ASOFIA)
- Richard Campbell, Manager, Training Products and Support, Queensland Training Authority
- Vin Ebejer, Training Manager, Master Plumbers Australia
- Carlo Garofali, President, Concrete Placers Association NSW
- Neil Gow, National Manager Training Policy, Master Builders Australia
- David Hay, Managing Director, Metal Plaque Pty Ltd and Australian Sign and Graphics Association (ASGA)
- Paul Lawrence, Technical Trainer, Master Builders Australia NSW
- Doug McClusky, Training Manager, Communications Electrical Plumbing Union (CEPU) – Plumbing Division
- Brian Moss, Apprenticeship Manager, Australand
- Barry Peddle, Director, Institute of TAFE South Western NSW, TAFE Directors Australia
- Terry Saunby, Principal Program Manager, Curriculum Centre for Manufacturing, Engineering, Construction and Transport (MECAT), NSW TAFE
- Alan Sparks, CEO, East Coast Apprenticeships
- Glenn Thompson, Training Manager, Australian Manufacturing Workers Union (AMWU)
- Robert Wagner, General Manager, J.H. Wagner & Sons
- Alan Waldron, General Manager, Construction Training Queensland
- Bill Watson, CEO, Connectors Pty Ltd and Master Plumbers Association of Queensland

National Plumbing Review Reference Group:

- Kerry Appelt, TAFE Queensland National Plumbing and Services Training Advisory Group (NPSTAG) Queensland
- Fred Baltetsch, TAFE Victoria National Plumbing and Services Training Advisory Group (NPSTAG) Victoria
- Carmel Coate, Executive Director, National Fire Industry Association (NFIA)

- Gary Cook, Training Adviser, Sydney Water and National Plumbing and Services Training Advisory Group (NPSTAG) NSW
- Michael McGuinness, Plumbing and Services Regulator, Queensland Australian New Zealand Reciprocity Association
- Stephen Movley, President, Institute of Plumbing WA
- Paul Naylor, CEO, Master Plumbers Association of NSW
- Geoff Sharrock, CEO, Plumbing Industry Commission Victoria
- Bill Watson, CEO, Connectors Pty Ltd and Master Plumbers Association of Queensland

Introduction

In economic terms the construction industry is a major segment of the Australian economy, employing nearly 900,000 people with half of this workforce in the housing sector. The industry is characterised by contracting and with less than 3 persons per firm the norm is micro businesses with owners working directly in a trade area, rather than just business management. The trend toward contracting labour and increasingly labour hire rather than direct employment is more pronounced in the general construction industry than any other.

CPC08 Construction, Plumbing and Services Training Package covers occupations and job roles in general and off-site construction, plumbing and services from entry level to management.

There are entry points at Certificate I and Certificate II that have pre-vocational outcomes suitable for entry into Australian Apprenticeships. Stakeholders strongly support achievement of full trade qualifications to help meet ongoing industry skill shortages.

Trade outcomes include shopfitting, joinery, stair building, stonemasonry (monumental/installation), signage, brick and blocklaying, carpentry, concreting, demolition, dogging, painting and decorating, segmental paving, rigging, roof tiling, scaffolding, solid plastering, steelfixing, wall and ceiling lining, wall and floor tiling and waterproofing.

Plumbing and services occupations include coverage of urban irrigation, drainage, metal roofing and cladding, plumbing, mechanical services, roof plumbing, gas fitting and fire protection services.

Certificate IV and Diploma qualifications cover building and plumbing licensing requirements with the Advanced Diploma meeting skills of construction managers. The specialist field of building surveying is included with Diploma and Advanced Diploma outcomes.

Building techniques used in the construction industry have undergone changes in recent years, with significant technological advances in prefabrication, energy efficiency and project management tools. These advancements have affected a wide range of fields, from materials (concrete, metal pre-casting and alternative wood products), management methods (subcontracting, prefabrication and project management) and innovations (robotics, computer aided design and electronically linked project management teams). Benefits of technological advancement are also seen in increased productivity, new capital equipment and the improved energy efficiency of buildings.

Qualifications Framework

The Australian Qualifications Framework

What is the Australian Qualifications Framework?

A brief overview of the Australian Qualifications Framework (AQF) follows. For a full explanation of the AQF, see the *AQF Implementation Handbook*. The 2007 version of the *AQF Implementation Handbook* is expected to be available on the Australian Qualifications Framework Advisory Board (AQFAB) website <www.aqf.edu.au> during September 2007, and in print in October 2007 (or you can obtain the hard copy by contacting AQFAB on phone 03 9639 1606 or email at aqfab@curriculum.edu.au).

The AQF provides a comprehensive, nationally consistent framework for all qualifications in post-compulsory education and training in Australia. In the vocational education and training (VET) sector it assists national consistency for all trainees, learners, employers and providers by enabling national recognition of qualifications and Statements of Attainment.

Training Package qualifications in the VET sector must comply with the titles and guidelines of the AQF. Endorsed Training Packages provide a unique title for each AQF qualification which must always be reproduced accurately.

Qualifications

Training Packages can incorporate the following AQF qualifications.

- Certificate I in ...
- Certificate II in ...
- Certificate III in ...
- Certificate IV in ...
- Diploma of ...
- Advanced Diploma of ...
- Vocational Graduate Certificate of ...
- Vocational Graduate Diploma of ...

Graduate Certificates and Graduate Diplomas can also be awarded in the vocational education and training sector under certain conditions – see the *AQF Implementation Handbook* for details.

On completion of the requirements defined in the Training Package, a Registered Training Organisation (RTO) should issue a nationally recognised AQF qualification. Issuance of AQF qualifications must comply with the advice provided in the current *AQF Implementation Handbook* and the AQTF 2007.

Statement of Attainment

A Statement of Attainment is issued by a Registered Training Organisation when an individual has completed one or more units of competency from nationally recognised qualification(s)/courses(s). Issuance of Statements of Attainment must comply with the advice provided in the current *AQF Implementation Handbook* and the AQTF 2007.

Under the AQTF 2007, RTOs must recognise the achievement of competencies as recorded on a qualification testamur or Statement of Attainment issued by other RTOs. Given this, recognised competencies can progressively build towards a full AQF qualification.

AQF Guidelines and Learning Outcomes

The *AQF Implementation Handbook* provides a comprehensive guideline for each AQF qualification. A summary of the learning outcome characteristics and their distinguishing features for each VET related AQF qualification is provided below.

Certificate I

Characteristics of Learning Outcomes

Breadth, depth and complexity of knowledge and skills would prepare a person to perform a defined range of activities most of which may be routine and predictable.

Applications may include a variety of employment related skills including preparatory access and participation skills, broad-based induction skills and/or specific workplace skills. They may also include participation in a team or work group.

Distinguishing Features of Learning Outcomes

Do the competencies enable an individual with this qualification to:

- demonstrate knowledge by recall in a narrow range of areas;
- demonstrate basic practical skills, such as the use of relevant tools;
- perform a sequence of routine tasks given clear direction; and
- receive and pass on messages/information.

Certificate II

Characteristics of Learning Outcomes

Breadth, depth and complexity of knowledge and skills would prepare a person to perform in a range of varied activities or knowledge application where there is a clearly defined range of contexts in which the choice of actions required is usually clear and there is limited complexity in the range of operations to be applied.

Performance of a prescribed range of functions involving known routines and procedures and some accountability for the quality of outcomes.

Applications may include some complex or non-routine activities involving individual responsibility or autonomy and/or collaboration with others as part of a group or team.

Distinguishing Features of Learning Outcomes

Do the competencies enable an individual with this qualification to:

- demonstrate basic operational knowledge in a moderate range of areas;
- apply a defined range of skills;
- apply known solutions to a limited range of predictable problems;

- perform a range of tasks where choice between a limited range of options is required;
- assess and record information from varied sources; and
- take limited responsibility for own outputs in work and learning.

Certificate III

Characteristics of Learning Outcomes

Breadth, depth and complexity of knowledge and competencies would cover selecting, adapting and transferring skills and knowledge to new environments and providing technical advice and some leadership in resolution of specified problems. This would be applied across a range of roles in a variety of contexts with some complexity in the extent and choice of options available.

Performance of a defined range of skilled operations, usually within a range of broader related activities involving known routines, methods and procedures, where some discretion and judgement is required in the selection of equipment, services or contingency measures and within known time constraints.

Applications may involve some responsibility for others. Participation in teams including group or team co-ordination may be involved.

Distinguishing Features of Learning Outcomes

Do the competencies enable an individual with this qualification to:

- demonstrate some relevant theoretical knowledge;
- apply a range of well-developed skills;
- apply known solutions to a variety of predictable problems;
- perform processes that require a range of well-developed skills where some discretion and judgement is required;
- interpret available information, using discretion and judgement;
- take responsibility for own outputs in work and learning; and
- take limited responsibility for the output of others.

Certificate IV

Characteristics of Learning Outcomes

Breadth, depth and complexity of knowledge and competencies would cover a broad range of varied activities or application in a wider variety of contexts most of which are complex and non-routine. Leadership and guidance are involved when organising activities of self and others as well as contributing to technical solutions of a non-routine or contingency nature.

Performance of a broad range of skilled applications including the requirement to evaluate and analyse current practices, develop new criteria and procedures for performing current practices and provision of some leadership and guidance to others in the application and planning of the skills.

Applications involve responsibility for, and limited organisation of, others.

Distinguishing Features of Learning Outcomes

Do the competencies enable an individual with this qualification to:

- demonstrate understanding of a broad knowledge base incorporating some theoretical concepts;
- apply solutions to a defined range of unpredictable problems;
- identify and apply skill and knowledge areas to a wide variety of contexts, with depth in some areas;
- identify, analyse and evaluate information from a variety of sources;
- take responsibility for own outputs in relation to specified quality standards; and
- take limited responsibility for the quantity and quality of the output of others.

Diploma

Characteristics of Learning Outcomes

Breadth, depth and complexity covering planning and initiation of alternative approaches to skills or knowledge applications across a broad range of technical and/or management requirements, evaluation and co-ordination.

The self directed application of knowledge and skills, with substantial depth in some areas where judgement is required in planning and selecting appropriate equipment, services and techniques for self and others.

Applications involve participation in development of strategic initiatives as well as personal responsibility and autonomy in performing complex technical operations or organising others. It may include participation in teams including teams concerned with planning and evaluation functions. Group or team co-ordination may be involved.

The degree of emphasis on breadth as against depth of knowledge and skills may vary between qualifications granted at this level.

Distinguishing Features of Learning Outcomes

Do the competencies or learning outcomes enable an individual with this qualification to:

- demonstrate understanding of a broad knowledge base incorporating theoretical concepts, with substantial depth in some areas;
- analyse and plan approaches to technical problems or management requirements;
- transfer and apply theoretical concepts and/or technical or creative skills to a range of situations;
- evaluate information, using it to forecast for planning or research purposes;
- take responsibility for own outputs in relation to broad quantity and quality parameters; and
- take some responsibility for the achievement of group outcomes.

Advanced Diploma*Characteristics of Learning Outcomes*

Breadth, depth and complexity involving analysis, design, planning, execution and evaluation across a range of technical and/or management functions including development of new criteria or applications or knowledge or procedures.

The application of a significant range of fundamental principles and complex techniques across a wide and often unpredictable variety of contexts in relation to either varied or highly specific functions. Contribution to the development of a broad plan, budget or strategy is involved and accountability and responsibility for self and others in achieving the outcomes is involved.

Applications involve significant judgement in planning, design, technical or leadership/guidance functions related to products, services, operations or procedures.

The degree of emphasis on breadth as against depth of knowledge and skills may vary between qualifications granted at this level.

Distinguishing Features of Learning Outcomes

Do the competencies or learning outcomes enable an individual with this qualification to:

- demonstrate understanding of specialised knowledge with depth in some areas;
- analyse, diagnose, design and execute judgements across a broad range of technical or management functions;
- generate ideas through the analysis of information and concepts at an abstract level;
- demonstrate a command of wide-ranging, highly specialised technical, creative or conceptual skills;
- demonstrate accountability for personal outputs within broad parameters; and
- demonstrate accountability for personal and group outcomes within broad parameters.

Vocational Graduate Certificate*Characteristics of competencies or learning outcomes*

- The self-directed development and achievement of broad and specialised areas of knowledge and skills, building on prior knowledge and skills.
- Substantial breadth and complexity involving the initiation, analysis, design, planning, execution and evaluation of technical and management functions in highly varied and highly specialised contexts.
- Applications involve making significant, high-level, independent judgements in major broad or planning, design, operational, technical and management functions in highly varied and specialised contexts. They may include responsibility and broad-ranging accountability for the structure, management and output of the work or functions of others.
- The degree of emphasis on breadth, as opposed to depth, of knowledge and skills may vary between qualifications granted at this level.

Distinguishing features of learning outcomes

- Demonstrate the self-directed development and achievement of broad and specialised areas of knowledge and skills, building on prior knowledge and skills.
- Initiate, analyse, design, plan, execute and evaluate major broad or technical and management functions in highly varied and highly specialised contexts.
- Generate and evaluate ideas through the analysis of information and concepts at an abstract level.
- Demonstrate a command of wide-ranging, highly specialised technical, creative or conceptual skills in complex contexts.
- Demonstrate responsibility and broad-ranging accountability for the structure, management and output of the work or functions of others.

Vocational Graduate Diploma**Characteristics of competencies or learning outcomes**

- The self-directed development and achievement of broad and specialised areas of knowledge and skills, building on prior knowledge and skills.
- Substantial breadth, depth and complexity involving the initiation, analysis, design, planning, execution and evaluation of major functions, both broad and highly specialised, in highly varied and highly specialised contexts.
- Further specialisation within a systematic and coherent body of knowledge.
- Applications involve making high-level, fully independent, complex judgements in broad planning, design, operational, technical and management functions in highly varied and highly specialised contexts. They may include full responsibility and accountability for all aspects of work and functions of others, including planning, budgeting and strategy development.
- The degree of emphasis on breadth, as opposed to depth, of knowledge and skills may vary between qualifications granted at this level.

Distinguishing features of learning outcomes

- Demonstrate the self-directed development and achievement of broad and highly specialised areas of knowledge and skills, building on prior knowledge and skills.
- Initiate, analyse, design, plan, execute and evaluate major functions, both broad and within highly varied and highly specialised contexts.
- Generate and evaluate complex ideas through the analysis of information and concepts at an abstract level.
- Demonstrate an expert command of wide-ranging, highly specialised, technical, creative or conceptual skills in complex and highly specialised or varied contexts.
- Demonstrate full responsibility and accountability for personal outputs.
- Demonstrate full responsibility and accountability for all aspects of the work or functions of others, including planning, budgeting and strategy.

Career pathways in the construction, plumbing and services industries

The diagram below represents the qualification pathways in CPC08 Construction, Plumbing and Services Training Package.

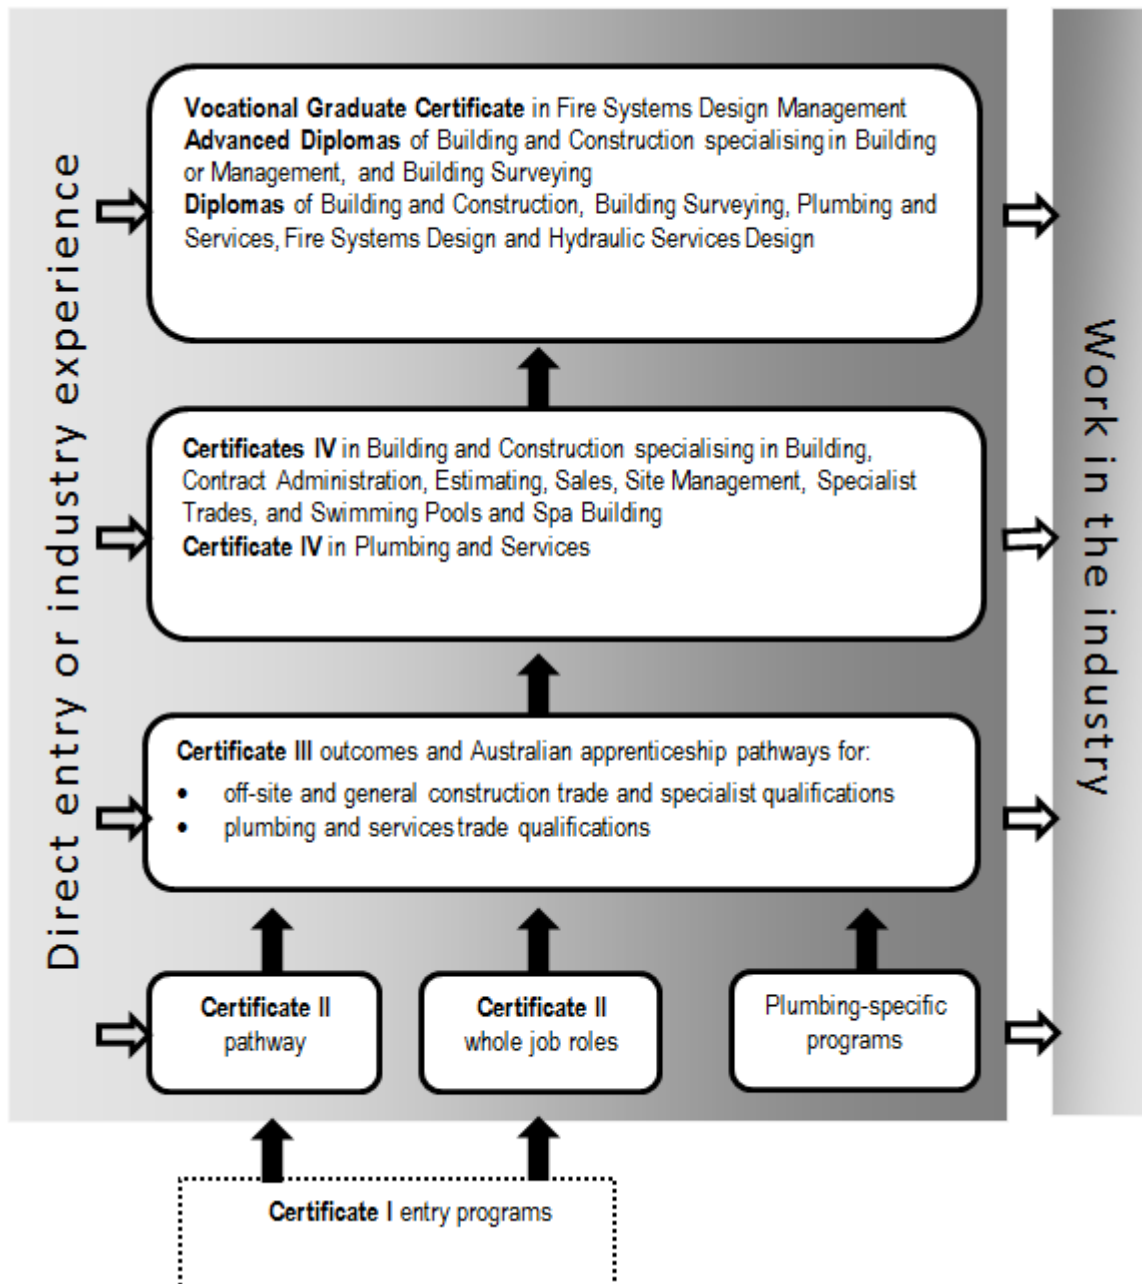

Figure 1: Construction, plumbing and services career pathways

All qualifications are open to direct entry, with the exception of the operations stream in the Certificate IV in Plumbing and Services and the Diploma of Plumbing and Services.

Skill sets

Definition

Skill sets are defined as single units of competency, or combinations of units of competency from an endorsed Training Package, which link to a licence or regulatory requirement, or defined industry need.

Wording on Statements of Attainment

Skill sets are a way of publicly identifying logical groupings of units of competency which meet an identified need or industry outcome. Skill sets are not qualifications.

Where skill sets are identified in a Training Package, the Statement of Attainment can set out the competencies a person has achieved in a way that is consistent and clear for employers and others. This is done by including the wording ‘these competencies meet *[insert skill set title or identified industry area]* need’ on the Statement of Attainment. This wording applies only to skill sets that are formally identified as such in the endorsed Training Package. See the 2007 edition of the AQF Implementation Handbook for advice on wording on Statements of Attainment - the updated version is expected to be available on the AQFAB website <www.aqf.edu.au> during September 2007 and in print in October 2007.

Skill sets in CPC08 Construction, Plumbing and Services Training Package

Skill sets are groups of units of competency that reflect a cohesive industry outcome, but one which is insufficient for a full Australian Qualifications Framework (AQF) award. Skill sets may also provide a bridge between qualifications, respond to regulatory needs or identify an emerging skill area.

- Undertake trade contracting
- Lead a building, construction or plumbing and services team
- Manage complex building projects

Employability skills

Employability Skills Framework

The following table contains the employability skills facets identified in the report *Employability Skills for the Future*.

Skill	Facets Aspects of the skill that employers identify as important. The nature and application of these facets will vary depending on industry and job type.
Communication that contributes to productive and harmonious relations across employees and	<ul style="list-style-type: none"> • listening and understanding • speaking clearly and directly • writing to the needs of the audience • negotiating responsively • reading independently

Skill	Facets Aspects of the skill that employers identify as important. The nature and application of these facets will vary depending on industry and job type.
customers	<ul style="list-style-type: none"> • empathising • using numeracy effectively • understanding the needs of internal and external customers • persuading effectively • establishing and using networks • being assertive • sharing information • speaking and writing in languages other than English
Teamwork that contributes to productive working relationships and outcomes	<ul style="list-style-type: none"> • working across different ages irrespective of gender, race, religion or political persuasion • working as an individual and as a member of a team • knowing how to define a role as part of the team • applying teamwork to a range of situations e.g. future planning and crisis problem solving • identifying the strengths of team members • coaching and mentoring skills, including giving feedback
Problem solving that contributes to productive outcomes	<ul style="list-style-type: none"> • developing creative, innovative and practical solutions • showing independence and initiative in identifying and solving problems • solving problems in teams • applying a range of strategies to problem solving • using mathematics, including budgeting and financial management to solve problems • applying problem-solving strategies across a range of areas • testing assumptions, taking into account the context of data and circumstances • resolving customer concerns in relation to complex project issues
Initiative and enterprise that contribute to innovative outcomes	<ul style="list-style-type: none"> • adapting to new situations • developing a strategic, creative and long-term vision • being creative • identifying opportunities not obvious to others • translating ideas into action • generating a range of options • initiating innovative solutions
Planning and organising that contribute to long and	<ul style="list-style-type: none"> • managing time and priorities – setting time lines, coordinating tasks for self and with others • being resourceful

Skill	Facets Aspects of the skill that employers identify as important. The nature and application of these facets will vary depending on industry and job type.
short-term strategic planning	<ul style="list-style-type: none"> • taking initiative and making decisions • adapting resource allocations to cope with contingencies • establishing clear project goals and deliverables • allocating people and other resources to tasks • planning the use of resources, including time management • participating in continuous improvement and planning processes • developing a vision and a proactive plan to accompany it • predicting – weighing up risk, evaluating alternatives and applying evaluation criteria • collecting, analysing and organising information • understanding basic business systems and their relationships
Self-management that contributes to employee satisfaction and growth	<ul style="list-style-type: none"> • having a personal vision and goals • evaluating and monitoring own performance • having knowledge and confidence in own ideas and visions • articulating own ideas and visions • taking responsibility
Learning that contributes to ongoing improvement and expansion in employee and company operations and outcomes	<ul style="list-style-type: none"> • managing own learning • contributing to the learning community at the workplace • using a range of mediums to learn – mentoring, peer support and networking, IT and courses • applying learning to technical issues (e.g. learning about products) and people issues (e.g. interpersonal and cultural aspects of work) • having enthusiasm for ongoing learning • being willing to learn in any setting – on and off the job • being open to new ideas and techniques • being prepared to invest time and effort in learning new skills • acknowledging the need to learn in order to accommodate change
Technology that contributes to the effective carrying out of tasks	<ul style="list-style-type: none"> • having a range of basic IT skills • applying IT as a management tool • using IT to organise data • being willing to learn new IT skills • having the OHS knowledge to apply technology • having the appropriate physical capacity

Employability Skills Summary

An Employability Skills Summary exists for each qualification. Summaries provide a lens through which to view employability skills at the qualification level and capture the key aspects or facets of the employability skills that are important to the job roles covered by the qualification. Summaries are designed to assist trainers and assessors to identify and include important industry application of employability skills in learning and assessment strategies.

The following is important information for trainers and assessors about Employability Skills Summaries.

Employability Skills Summaries provide examples of how each skill is applicable to the job roles covered by the qualification.

Employability Skills Summaries contain general information about the industry context which is further explained as measurable outcomes of performance in the units of competency in each qualification.

The detail in each Employability Skills Summary will vary depending on the range of job roles covered by the qualification in question.

Employability Skills Summaries are not exhaustive lists of qualification requirements or checklists of performance (which are separate assessment tools that should be designed by trainers and assessors after analysis at the unit level).

Employability Skills Summaries contain information that may also assist in building learners' understanding of industry and workplace expectations.

Industry requirements for employability skills

For more information on employability skills in the Construction and Property Services Industry Skills Council (CPSISC) Training Packages go to the CPSISC website at www.cpsisc.com.au.

Assessment Guidelines

Introduction

These Assessment Guidelines provide the endorsed framework for assessment of units of competency in this Training Package. They are designed to ensure that assessment is consistent with the AQTF 2007. Assessments against the units of competency in this Training Package must be carried out in accordance with these Assessment Guidelines.

Assessment system overview

This section provides an overview of the requirements for assessment when using this Training Package, including a summary of the AQTF requirements; licensing and registration requirements; and assessment pathways.

Benchmarks for assessment

Assessment within the National Skills Framework is the process of collecting evidence and making judgements about whether competency has been achieved to confirm whether an individual can perform to the standards expected in the workplace, as expressed in the relevant endorsed unit of competency.

In the areas of work covered by this Training Package, the endorsed units of competency are the benchmarks for assessment. As such, they provide the basis for nationally recognised Australian Qualifications Framework (AQF) qualifications and Statements of Attainment issued by Registered Training Organisations (RTOs).

Australian Quality Training Framework assessment requirements

Assessment leading to nationally recognised AQF qualifications and Statements of Attainment in the vocational education and training sector must meet the requirements of the AQTF as expressed in the AQTF 2007 *Essential Standards for Registration*.

The AQTF 2007 *Essential Standards for Registration* can be downloaded from <www.training.com.au>. The following points summarise the assessment requirements.

Registration of training organisations

Assessment must be conducted by, or on behalf of, an RTO formally registered by a State or Territory Registering/Course Accrediting Body in accordance with the AQTF 2007. The RTO must have the specific units of competency and/or AQF qualifications on its scope of registration.

Quality training and assessment

Each RTO must provide quality training and assessment across all its operations. See the AQTF 2007 *Essential Standards for Registration*, Standard 1.

Assessor competency requirements

Each person involved in training and assessment must be competent for the functions they perform. See the AQTF 2007 *Essential Standards for Registration*, Standard 1 for assessor (and trainer) competency requirements.

Assessment requirements

The RTO's assessments, including RPL, must meet the requirements of the relevant endorsed Training Package. See the AQTF 2007 *Essential Standards for Registration*, Standard 1.

Assessment strategies

Each RTO must have strategies for training and assessment that meet the requirements of the relevant Training Package or accredited course and are developed in consultation with industry stakeholders. See the AQTF 2007 *Essential Standards for Registration*, Standard 1.

National recognition

Each RTO must recognise the AQF qualifications and Statements of Attainment issued by any other RTO. See the AQTF 2007 *Essential Standards for Registration*, Condition of Registration 7: Recognition of qualifications issued by other RTOs.

Access and equity and client outcomes

Each RTO must adhere to the principles of access and equity and maximise outcomes for its clients. See the AQTF 2007 *Essential Standards for Registration*, Standard 2.

Monitoring assessments

Training and/or assessment provided on behalf of the RTO must be monitored to ensure that it is in accordance with all aspects of the *Essential Standards for Registration*. See the AQTF 2007 *Essential Standards for Registration*, Standard 3.

Recording assessment outcomes

Each RTO must manage records to ensure their accuracy and integrity. See the AQTF 2007 *Essential Standards for Registration*, Standard 3.

Issuing AQF qualifications and Statement of Attainment

Each RTO must issue AQF qualifications and Statements of Attainment that meet the requirements of the current AQF Implementation Handbook and the endorsed Training Packages within the scope of its registration. An AQF qualification is issued once the full requirements for a qualification, as specified in the nationally endorsed Training Package are met. A Statement of Attainment is issued when an individual has completed one or more units of competency from nationally recognised qualification(s)/courses(s). See the AQTF 2007 and the 2007 edition of the AQF Implementation Handbook—available on the AQFAB website <www.aqf.edu.au>.

Licensing requirements

A number of occupations and job roles covered by the units of competency and qualifications in CPC08 Construction, Plumbing and Services Training Package may be subject to state and territory licensing requirements. These requirements vary significantly across jurisdictions.

There are 13 specific units of competency agreed by all OHS regulators and the Australian Safety and Compensation Council (ASCC) as meeting certain licensing categories. These units of competency include:

- The unit CPCCOHS1001A Work safely in the construction industry aligned at Certificate I meets the requirement for the National Code of Practice for Induction for Construction Work (ASCC 2007)
- 12 high risk work licensing units of competency that support the implementation of the National Standard for Licensing Persons Performing High Risk Work (ASCC, April 2006) and these are identified as licensing competencies in the unit code and unit descriptor.

Licensing units of competency may be packaged into a qualification, included in a skill set, or delivered and assessed as stand-alone units.

The National Standard for licensing persons performing high risk work provides the overarching regulatory framework for the delivery and assessment of the licensing units of competency. State/Territory OHS authorities have mandated the use Assessment Instruments for the 12 high risk work licensing units of competency. The Assessment Instruments have been endorsed by the national body responsible for OHS matters. For further information contact your State/Territory OHS Authority.

The high risk work licensing units of competency include:

High risk work licensing unit	Aligned to qualification in CPC08	Core or elective
CPCCLTC4001A Licence to operate a tower crane	CPC40611 Certificate IV in Building and Construction (Specialist Trades)	Core (crane operations stream)
CPCCLTC4002A Licence to operate a self-erecting tower crane	CPC40611 Certificate IV in Building and Construction (Specialist Trades)	Core (crane operations stream)
CPCCLSF2001A Licence to erect, alter and dismantle scaffolding basic level	CPC30911 Certificate III in Scaffolding	Core
CPCCLSF3001A Licence to erect, alter and dismantle scaffolding intermediate level	CPC30911 Certificate III in Scaffolding	Core
CPCCLSF4001A Licence to erect, alter and dismantle scaffolding advanced level	CPC40611 Certificate IV in Building and Construction (Specialist Trades)	Core (Rigging stream)
CPCCLRG3001A Licence to perform rigging basic level	CPC30711 Certificate III in Rigging	Core
CPCCLRG3002A Licence to perform rigging intermediate level	CPC30711 Certificate III in Rigging	Core
CPCCLRG4001A Licence to perform rigging advanced level	CPC40611 Certificate IV in Building and Construction (Specialist Trades)	Core (Rigging stream)
CPCCLHS3001A	CPC30711 Certificate III in	Elective

High risk work licensing unit	Aligned to qualification in CPC08	Core or elective
Licence to operate a personnel and materials hoist	Rigging	
CPCCLHS3002A Licence to operate a materials hoist	CPC30711 Certificate III in Rigging	Elective
CPCCLDG3001A Licence to perform dogging	CPC30511 Certificate III in Dogging	Core
CPCCLBM3001A Licence to operate a concrete placing boom	CPC30311 Certificate III in Concreting	Elective

For further information on the implementation of these units and the National Standard for licensing persons performing high risk work visit:

<http://www.ascc.gov.au/ascc/healthsafety/trainingskillslicensing/licensing/licensing.htm>

Plumbing and services

The plumbing and services industry places a premium on skills and knowledge that can be demonstrated in a real workplace environment. Whilst assessment of some of the units of competency in CPC08 can be carried out in a simulated work environment, the industry strongly recommends that assessment is conducted in the workplace, wherever possible.

When selecting a plumbing and services qualification, including choice of electives, reference should be made to the requirement identified by the Australian and New Zealand Reciprocity Association that the following units must be completed for the range of plumbing specialisations which are used within the States and Territories for licensing purposes:

All streams

CPCPCM4001A	Carry out work based risk control processes
CPCPCM4002A	Estimate and cost work
BSBSMB401A	Establish legal and risk management requirements of small business

Water supply

CPCPWT4011A	Design and size heated and cold water services and systems
CPCPWT4012A	Commission and maintain backflow prevention devices

CPCPWT4013A Commission and maintain heated water temperature control devices

Drainage

CPCPDR4011A Design and size sanitary drainage systems

CPCPDR4012A Design and size stormwater drainage systems

CPCPDR4013A Design and size domestic treatment plant disposal systems

Sanitary

CPCPSN4011A Design and size sanitary plumbing systems

Fire services

CPCPFS4011A Commission domestic and residential fire suppression sprinkler systems

CPCPFS4012A Commission and maintain special hazard fire suppression systems

CPCPFS4013A Commission fire system pump sets

CPCPFS4014A Design residential and domestic fire sprinkler systems

Gasfitting

CPCPGS4011A Design and size consumer gas installations

CPCPGS4012A Service Type A gas appliances

Air conditioning and mechanical services

CPCPMS4002A Commission air and water systems

CPCPMS4011A Design, size and lay out heating and cooling systems

Roofing

CPCPRF4011A Design and size roof drainage systems

Licensing authorities

Licensing authorities across Australia have actively participated in the development of this Training Package and it is envisaged that over time the state and territory licensing requirements in a number of occupations will be aligned with the units of competency and qualifications in this Training Package. There is no one 'national' licence for the sector or any of its functions. Certification responsibilities and systems are administered by state legislation and may differ between States and Territories.

The developers of this Training Package, together with DEEWR, consider that the licensing/registration requirements described in this section apply to RTOs, assessors or candidates with respect to this Training Package. While reasonable care has been taken in its preparation, the developers of this Training Package and DEEWR cannot guarantee that the list is definitive or accurate at the time of reading; the information in this section is provided in good faith on that basis.

In order to conduct assessments for statutory licensing or other industry registration conditions, assessors may need to meet additional requirements. While RTOs may have information on the licensing requirements for their particular State or Territory, these requirements may change over time and differ between State and Territory jurisdictions. Users of this Training Package are therefore advised to consult the relevant occupational licensing authority in their State or Territory to determine the specific licensing requirements.

The regulatory authorities for the building and construction and plumbing and services industries at the time of publication of this Training Package are:

Jurisdiction	Regulatory Body	Address
National	Occupational Health and Safety Authorities	For contact details for all state/territory occupational health and safety authorities visit: http://www.ascc.gov.au/ascc/AboutUs/StateContacts/
Australian Capital Territory (for building and plumbing licences and registrations)	ACT Planning and Land Authority	2nd Floor South Dame Pattie Menzies House 16 Challis Street Dickson ACT 2601
New South Wales (for building and plumbing licences and registrations)	Office of Fair Trading	Licensing and Industry Standards Home Building Services Office of Fair Trading Level 4, 1 Fitzwilliam Street Parramatta NSW 2150
Northern Territory (for building licences)	Northern Territory Building Practitioners Board	1st Floor Cavanaugh House Darwin NT 0800

Jurisdiction	Regulatory Body	Address
Northern Territory (for all plumbing licences and registrations)	Plumbers and Drainers Licensing Board	GPO Box 1680 Darwin NT 0801
Queensland (for building licences)	Building Services Authority	11 Edmondstone Street South Brisbane QLD 4101
Queensland (for all plumbing licences and registrations)	Department of Local Government and Planning, Sport and Recreation	PO Box 15031 City East QLD 4002

Requirements for Assessors

In order to deliver the qualifications contained in this Training Package, assessors delivering qualifications from this CPC08 Construction, Plumbing and Services Training Package should have the following minimum competency, recognition and experience:

- formal recognition of competency at least to the level being assessed
- relevant industry experience, that is, workplace experience within the last two years in the competency area being delivered
- relevant occupational registration or licensing in areas where this is a regulatory requirement to practise in the jurisdiction where the qualification is being assessed.

Assessing competence at higher AQF levels

In order to assess competence in qualifications within this Training Package at Certificate IV to Advanced Diploma level (excluding the Diploma and Advanced Diploma of Building Surveying), assessors or assessment team members collectively should have the following minimum competency, recognition and experience:

Certificate IV

Recommended construction industry requirements for assessors relative to vocational competencies:

- relevant vocational competencies and current industry experience at a professional or para-professional level in the construction industry.

This may be evidenced by registration on the National Building Professionals Register (at either levels 1 or 2) or registration on the National Building Technologists Register (at level 1).

Examples of appropriate employment include:

- principal or senior manager of a building practice constructing several complete houses a year
- project manager, contracts manager, site manager, quantity surveyor or general foreman on larger construction projects
- possession of a nationally recognised Statement of Attainment or qualification covering the units of competency being delivered and/or accepted by industry as a subject matter expert; where subject matter expertise can be evidenced by other credentials or confirmed experience equivalent to a nationally recognised AQF qualification in the subject area.

Examples of formal recognition are:

- proof of membership of a relevant professional body to at least Associate or Corporate (Chartered) level.

Diploma

Recommended construction industry requirements for assessors relative to vocational competencies:

- current industry experience at a professional or para-professional level in the construction industry.

This may be evidenced by registration on the National Building Professionals Register (at level 1).

Examples of appropriate employment include:

- principal or senior manager of a building practice working in the commercial construction sector and/or completing a significant number of residential or commercial projects each year, including a number of concurrent projects
- project manager, contracts manager or other senior manager for a building practice working in the commercial construction sector and/or completing a significant number of residential or commercial projects each year, including a number of concurrent projects
- possession of a nationally recognised Statement of Attainment or qualification covering the units of competency being delivered and/or accepted by industry as a subject matter expert; where subject matter expertise can be evidenced by other credentials or confirmed experience equivalent to a nationally recognised AQF qualification in the subject area.

Examples of formal recognition are:

- proof of membership of a relevant professional body to at least Corporate (Chartered) level.

Advanced Diploma

Recommended construction industry requirements for assessors relative to vocational competencies:

- current industry experience at a professional or para-professional level in the construction industry.

This may be evidenced by registration on the National Building Professionals Register (at level 1).

Examples of appropriate employment include:

- principal or senior manager of a building practice working in the commercial construction sector and/or completing a significant number of large scale and high rise projects each year, including a number of concurrent projects
- project manager, contracts manager or other senior manager for a building practice working in the commercial construction sector and/or completing a significant number of large scale and high rise projects each year, including a number of concurrent projects
- possession of a nationally recognised Statement of Attainment or qualification covering the units of competency being delivered and/or accepted by industry as a subject matter expert; where subject matter expertise can be evidenced by other credentials or confirmed experience equivalent to a nationally recognised AQF qualification in the subject area.

Examples of formal recognition are:

- proof of membership of a relevant professional body to at least Corporate (Chartered) level.

RTO assessments

The RTO's assessments meet the requirements of the endorsed components of Training Packages and the outcomes specified in accredited courses within the scope of its registration.

The RTO must ensure that assessments (including RPL):

- comply with the Assessment Guidelines included in the applicable nationally endorsed Training Packages or the assessment requirements specified in accredited courses
- lead to the issuing of a statement of attainment or qualification under the AQF when a person is assessed as competent against nationally endorsed unit(s) of competency in the applicable Training Package or modules specified in the applicable accredited course
- are valid, reliable, fair and flexible
- provide for applicants to be informed of the context and purpose of the assessment and the assessment process
- where relevant, focus on the application of knowledge and skill to the standard of performance required in the workplace and cover all aspects of workplace performance, including task skills, task management skills, contingency management skills and job role environment skills
- involve the evaluation of sufficient evidence to enable judgements to be made about whether competency has been attained
- provide for feedback to the applicant about the outcomes of the assessment process and guidance on future options
- are equitable for all persons, taking account of individual needs relevant to assessment
- provide for reassessment on appeal.

The RTO must ensure that RPL is offered to all applicants on enrolment

The RTO must have an RPL process that:

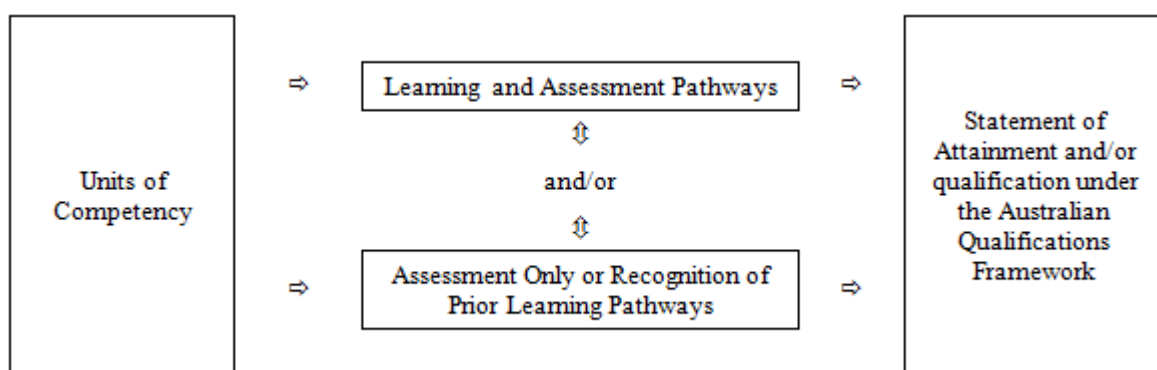

- i is structured to minimise the time and cost to applicants
- ii provides adequate information, support and opportunities for participants to engage in the RPL process.

Pathways

The competencies in this Training Package may be attained in a number of ways including through:

- formal or informal education and training
- experiences in the workplace
- general life experience, and/or
- any combination of the above.

Assessment under this Training Package leading to an AQF qualification or Statement of Attainment may follow a learning and assessment pathway, an assessment-only or recognition pathway, or a combination of the two as illustrated in the following diagram.

Each of these assessment pathways leads to full recognition of competencies held – the critical issue is that the candidate is competent, not how the competency was acquired.

Assessment, by any pathway, must comply with the assessment requirements set out in the Assessment Guidelines of the Training Package and the AQTF 2007.

Learning and assessment pathways

Usually, learning and assessment are integrated, with assessment evidence being collected and feedback provided to the candidate at any time throughout the learning and assessment process.

Learning and assessment pathways may include structured programs in a variety of contexts using a range of strategies to meet different learner needs. Structured learning and assessment programs could be: group-based, work-based, project-based, self-paced, action learning-based; conducted by distance or e-learning; and/or involve practice and experience in the workplace.

Learning and assessment pathways to suit Australian Apprenticeships have a mix of formal structured training and structured workplace experience with formative assessment activities through which candidates can acquire and demonstrate skills and knowledge from the relevant units of competency.

Assessment-only or recognition of prior learning pathway

Competencies already held by individuals can be formally assessed against the units of competency in this Training Package, and should be recognised regardless of how, when or where they were achieved.

In an assessment-only or Recognition of Prior Learning (RPL) pathway, the candidate provides current, quality evidence of their competency against the relevant unit of competency. This process may be directed by the candidate and verified by the assessor, such as in the compilation of portfolios; or directed by the assessor, such as through observation of workplace performance and skills application, and oral and/or written assessment. Where the outcomes of this process indicate that the candidate is competent, structured training is not required. The RPL requirements of the AQTF 2007 must be met.

As with all assessment, the assessor must be confident that the evidence indicates that the candidate is currently competent against the endorsed unit of competency. This evidence may take a variety of forms and might include certification, references from past employers, testimonials from clients, and work samples. The onus is on candidates to provide sufficient evidence to satisfy assessors that they currently hold the relevant competencies. In judging evidence, the assessor must ensure that the evidence of prior learning is:

- authentic (the candidate's own work);
- valid (directly related to the current version of the relevant endorsed unit of competency);
- reliable (shows that the candidate consistently meets the endorsed unit of competency);
- current (reflects the candidate's current capacity to perform the aspect of the work covered by the endorsed unit of competency); and
- sufficient (covers the full range of elements in the relevant unit of competency and addresses the four dimensions of competency, namely task skills, task management skills, contingency management skills, and job/role environment skills).

The assessment only or recognition of prior learning pathway is likely to be most appropriate in the following scenarios:

- candidates enrolling in qualifications who want recognition for prior learning or current competencies;
- existing workers;
- individuals with overseas qualifications;
- recent migrants with established work histories;
- people returning to the workplace; and
- people with disabilities or injuries requiring a change in career.

Combination of pathways

Where candidates for assessment have gained competencies through work and life experience and gaps in their competence are identified, or where they require training in new areas, a combination of pathways may be appropriate.

In such situations, the candidate may undertake an initial assessment to determine their current competency. Once current competency is identified, a structured learning and assessment program ensures that the candidate acquires the required additional competencies identified as gaps.

Assessor requirements

This section identifies the mandatory competencies for assessors, and clarifies how others may contribute to the assessment process where one person alone does not hold all the required competencies.

Assessor competencies

The AQTF 2007 specifies mandatory competency requirements for assessors. For information, Element 1.4 from the AQTF 2007 *Essential Standards for Registration* follows:

- 1.4 Training and assessment are conducted by trainers and assessors who:
- a) have the necessary training and assessment competencies as determined by the National Quality Council or its successors
 - b) have the relevant vocational competencies at least to the level being delivered or assessed
 - c) continue developing their vocational and training and assessment competencies to support continuous improvements in delivery of the RTO's services.

Reasonable adjustment

In accordance with the Disability Standards for Education (2005), reasonable adjustments are to be made to ensure equity in training and assessment of people with disabilities. This means that all 'education providers are under a positive obligation to make changes to reasonably accommodate the needs of a student with a disability'.

Adjustments are considered 'reasonable' if they do not impose an unjustifiable hardship on a training provider or employer. When assessing people with disabilities, assessors are encouraged to apply good practice assessment methods with sensitivity and flexibility. This should include:

- checking their initial assumptions about the capacity to include people with various disabilities
- seeking advice from people with experience and expertise in training, assessing and otherwise supporting people with disabilities.

Designing assessment tools

This section provides an overview on the use and development of assessment tools.

Use of assessment tools

Assessment tools provide a means of collecting the evidence that assessors use in making judgements about whether candidates have achieved competency.

There is no set format or process for the design, production or development of assessment tools. Assessors may use prepared assessment tools, such as those specifically developed to support this Training Package, or they may develop their own.

Using prepared assessment tools

If using prepared assessment tools, assessors should ensure these are benchmarked, or mapped, against the current version of the relevant unit of competency. This can be done by checking that the materials are listed on the National Training Information Service <www.ntis.gov.au>. Materials on the list have been noted by the National Quality Council as meeting their quality criteria for Training Package support materials.

Developing assessment tools

When developing their own assessment tools, assessors must ensure that the tools:

- are benchmarked against the relevant unit or units of competency;
- are reviewed as part of the validation of assessment strategies required under the AQTF 2007; and
- meet the assessment requirements expressed in the AQTF 2007 *Essential Standards for Registration*.

A key reference for assessors developing assessment tools is TAE10 Training and Education Training Package and the unit of competency TAEASS502A Design and develop assessment tools.

Conducting assessment

This section details the mandatory assessment requirements and provides information on equity in assessment including reasonable adjustment.

Mandatory assessment requirements

Assessments must meet the criteria set out in the AQTF 2007 *Essential Standards for Registration*.

For information, the mandatory assessment requirements from Standard 1 from the AQTF 2007 *Essential Standards for Registration* are as follows:

- 1.5 Assessment, including Recognition of Prior Learning (RPL):
- a) meets the requirements of the relevant Training Package or accredited course
 - b) is conducted in accordance with the principles of assessment and the rules of evidence
 - c) meets workplace and, where relevant, regulatory requirements.

Assessment of employability skills

Employability skills are integral to workplace competency. As such, they must be considered in the design, customisation, delivery and assessment of vocational education and training programs in an integrated and holistic way, as represented diagrammatically below.

Employability skills are embedded and explicit within each unit of competency. Training providers must use employability skills information in order to design valid and reliable training and assessment strategies. This analysis could include:

- reviewing units of competency to locate relevant employability skills and determine how they are applied within the unit
- analysing the Employability Skills Summary for the qualification in which the unit or units are packaged to help clarify relevant industry and workplace contexts and the application of employability skills at that qualification outcome
- designing training and assessment to address employability skills requirements.

For more information on employability skills in CPC08 Construction, Plumbing and Services Training Package go to the Construction and Property Services Industry Skills Council (CPSISC) website at www.cpsisc.com.au.

Access and equity

An individual's access to the assessment process should not be adversely affected by restrictions placed on the location or context of assessment beyond the requirements specified in this Training Package: training and assessment must be bias-free.

Under the rules for their development, Training Packages must reflect and cater for the increasing diversity of Australia's VET clients and Australia's current and future workforce. The flexibilities offered by Training Packages should enhance opportunities and potential outcomes for all people so that we can all benefit from a wider national skills base and a shared contribution to Australia's economic development and social and cultural life.

Reasonable adjustments

It is important that education providers take meaningful, transparent and reasonable steps to consult, consider and implement reasonable adjustments for students with disability.

Under the Disability Standards for Education 2005, education providers must make reasonable adjustments for people with disability to the maximum extent that those adjustments do not cause that provider unjustifiable hardship. While 'reasonable adjustment' and 'unjustifiable hardship' are different concepts and involve different considerations, they both seek to strike a balance between the interests of education providers and the interests of students with and without disability.

An adjustment is any measure or action that a student requires because of their disability, and which has the effect of assisting the student to access and participate in education and training on the same basis as students without a disability. An adjustment is reasonable if it achieves this purpose while taking into account factors such as the nature of the student's disability, the views of the student, the potential effect of the adjustment on the student and others who might be affected, and the costs and benefits of making the adjustment.

An education provider is also entitled to maintain the academic integrity of a course or program and to consider the requirements or components that are inherent or essential to its nature when assessing whether an adjustment is reasonable. There may be more than one adjustment that is reasonable in a given set of circumstances; education providers are required to make adjustments that are reasonable and that do not cause them unjustifiable hardship.

See Part 4, Chapter 2 of the Training Package Development Handbook (DEEWR, September 2007) for more information on reasonable adjustment, including examples of adjustments.

Further sources of information

The section provides a listing of useful contacts and resources to assist assessors in planning, designing, conducting and reviewing of assessments against this Training Package.

Competency Standards

What is competency?

The broad concept of industry competency concerns the ability to perform particular tasks and duties to the standard of performance expected in the workplace. Competency requires the application of specified skills, knowledge and attitudes relevant to effective participation in an industry, industry sector or enterprise.

Competency covers all aspects of workplace performance and involves performing individual tasks; managing a range of different tasks; responding to contingencies or breakdowns; and, dealing with the responsibilities of the workplace, including working with others. Workplace competency requires the ability to apply relevant skills, knowledge and attitudes consistently over time and in the required workplace situations and environments. In line with this concept of competency Training Packages focus on what is expected of a competent individual in the workplace as an outcome of learning, rather than focussing on the learning process itself.

Competency standards in Training Packages are determined by industry to meet identified industry skill needs. Competency standards are made up of a number of units of competency each of which describes a key function or role in a particular job function or occupation. Each unit of competency within a Training Package is linked to one or more AQF qualifications.

Contextualisation of units of competency by RTOs

Registered Training Organisations (RTOs) may contextualise units of competency in this endorsed Training Package to reflect required local outcomes. Contextualisation could involve additions or amendments to the unit of competency to suit particular delivery methods, learner profiles, specific enterprise equipment requirements, or to otherwise meet local needs. However, the integrity of the overall intended outcome of the unit of competency must be maintained.

Any contextualisation of units of competency in this Training Package must be within the bounds of the following advice:

- RTOs must not remove or add to the number and content of elements and performance criteria.
- RTOs can include specific industry terminology in the range statement.
- Any amendments and additions to the range statement made by RTOs must not diminish the breadth of application of the competency, or reduce its portability.

- RTOs may add detail to the evidence guide in areas such as the critical aspects of evidence or required resources and infrastructure—but only where these expand the breadth of the competency and do not limit its use.

Construction, plumbing and services units of competency reflect the occupational requirements for each industry sector. This includes specific aspects of, and advice for, assessment that are critical to determining competency achievement.

Use of common units across all sectors of the Training Package has been maximised, however some skills that may appear generic are considered by industry stakeholders to require sector specialisation accommodated in individual units of competency.

Components of units of competency

The components of units of competency are summarised below, in the order in which they appear in each unit of competency.

Unit title

The unit title is a succinct statement of the outcome of the unit of competency. Each unit of competency title is unique, both within and across Training Packages.

Unit descriptor

The unit descriptor broadly communicates the content of the unit of competency and the skill area it addresses. Where units of competency have been contextualised from units of competency from other endorsed Training Packages, summary information is provided. There may also be a brief second paragraph that describes its relationship with other units of competency, and any licensing requirements.

Employability skills

This sub-section contains a statement that the unit contains Employability skills.

Prerequisite units (optional)

If there are any units of competency that must be completed before the unit, these will be listed.

Application of the unit

This sub-section fleshes out the unit of competency's scope, purpose and operation in different contexts, for example, by showing how it applies in the workplace.

Competency field (optional)

The competency field either reflects the way the units of competency are categorised in the Training Package or denotes the industry sector, specialisation or function. It is an optional component of the unit of competency.

Sector (optional)

The industry sector is a further categorisation of the competency field and identifies the next classification, for example an elective or supervision field.

Elements of competency

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

Performance criteria

The performance criteria specify the required performance in relevant tasks, roles, skills and in the applied knowledge that enables competent performance. They are usually written in passive voice. Critical terms or phrases may be written in bold italics and then defined in range statement, in the order of their appearance in the performance criteria.

Required skills and knowledge

The essential skills and knowledge are either identified separately or combined. Knowledge identifies what a person needs to know to perform the work in an informed and effective manner. Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Range statement

The range statement provides a context for the unit of competency, describing essential operating conditions that may be present with training and assessment, depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts. As applicable, the meanings of key terms used in the performance criteria will also be explained in the range statement.

Evidence guide

The evidence guide is critical in assessment as it provides information to the registered training organisation (RTO) and assessor about how the described competency may be demonstrated. The evidence guide does this by providing a range of evidence for the assessor to make determinations, and by providing the assessment context. The evidence guide describes:

- conditions under which competency must be assessed including variables such as the assessment environment or necessary equipment;
- relationships with the assessment of any other units of competency;
- suitable methodologies for conducting assessment including the potential for workplace simulation;
- resource implications, for example access to particular equipment, infrastructure or situations;
- how consistency in performance can be assessed over time, various contexts and with a range of evidence; and
- the required underpinning knowledge and skills

Employability skills in units of competency

The detail and application of employability skills facets will vary according to the job-role requirements of each industry. In developing Training Packages, industry stakeholders are consulted to identify appropriate facets of employability skills which are incorporated into the relevant units of competency and qualifications.

Employability skills are not a discrete requirement contained in units of competency (as was the case with Key Competencies). Employability skills are specifically expressed in the context of the work outcomes described in units of competency and will appear in elements, performance criteria, range statements and evidence guides. As a result, users of Training Packages are required to review the entire unit of competency in order to accurately determine employability skills requirements.

Explicitly embedding employability skills in units of competency

This Training Package seeks to ensure that industry-endorsed employability skills are explicitly embedded in units of competency. The application of each skill and the level of detail included in each part of the unit will vary according to industry requirements and the nature of the unit of competency.

Employability skills must be both explicit and embedded within units of competency. This means that employability skills will be:

- embedded in units of competency as part of the other performance requirements that make up the competency as a whole
- explicitly described within units of competency to enable Training Packages users to identify accurately the performance requirements of each unit with regards to employability skills.

This Training Package also seeks to ensure that employability skills are well-defined and written into units of competency so that they are apparent, clear and can be delivered and assessed as an essential component of unit work outcomes.

Sample unit of competency components showing employability skills

The following table shows the sequence of a unit of competency, and each cell contains text taken from a range of units. It provides examples of where and how various employability skills could be embedded in each component.

Please note that in the example, the bracketed employability skills are provided for clarification only and would not be present in units of competency within this Training Package.

Unit Title	Give formal presentations and take part in meetings (Communication)
Unit Descriptor	This unit covers the skills and knowledge required to promote the use and implementation of innovative work practices to effect change. (Initiative and enterprise)
Element	Proactively resolve issues. (problem solving)
Performance Criteria	Information is organised in a format suitable for analysis and dissemination in accordance with organisational requirements. (Planning and organising)
Range Statement	Software applications may include email, internet, word processing, spreadsheet, database or accounting packages. (technology)

	Modify activities depending on differing workplace contexts, risk situations and environments. (Learning)
Required Skills and Knowledge	Work collaboratively with others during a fire emergency. (teamwork) Instructions, procedures and other information relevant the maintenance of vessel and port security. (Communication)
Evidence Guide	Evidence of having worked constructively with a wide range of community groups and stakeholders to solve problems and adapt or design new solutions to meet identified needs in crime prevention. In particular, evidence must be obtained on the ability to: <ul style="list-style-type: none">• assess response options to identified crime-prevention needs and determine the optimal action to be implemented• in consultation with relevant others, design an initiative to address identified issues. (Initiative and enterprise).

Employability Skills Summaries and units of competency

An Employability Skills Summary exists for each qualification. Summaries include broad advice on industry expectations with regard to employability skills at the qualification level. Summaries should be used by trainers and assessors to assist in identifying the employability skills requirements contained within units of competency.

For more information on employability skills in CPC08 Construction, Plumbing and Services Training Package go to the Construction and Property Services Industry Skills Council (CPSISC) website at www.cpsisc.com.au.
