

Australian Government

CPC08 Construction, Plumbing and Services Training Package

Release 9.1

CONTENTS

Preliminary information.....	20
CPC08 sectors and functional areas.....	20
AQF qualifications in CPC08	23
CPC08 native units of competency.....	28
CPCCBC - CPCCLTC	28
CPCCOHS - CPCPDR	39
CPCPFS - CPCSUS.....	48
CPC08 units with prerequisite unit requirements.....	55
Imported units used in CPC08 qualifications.....	78
Mapping of CPC08v9 qualifications	83
Mapping of CPC08v8 qualifications	91
Mapping of CPC08v7 qualifications	107
Mapping of CPC08v6 qualifications	110
Mapping of CPC08 qualifications.....	129
Mapping of CPC08v9 units of competency	145
Mapping of CPC08v8 units of competency	157
Mapping of CPC08v7 units of competency	183
Mapping of CPC08v6 units of competency	184
Mapping of CPC08 units of competency.....	217
Overview.....	360
CPC08 Overview.....	365
Introduction	373
Qualifications Framework.....	374
Career pathways in the construction, plumbing and services industries.....	375
Skill sets.....	376
Employability skills	379
Assessment Guidelines.....	381
Competency Standards	398

Modification History

The version details of this endorsed Training Package are in the table below.

9.1	5 August 2015	<p>ISC upgrade for:</p> <ul style="list-style-type: none"> deletion of the following qualification from CPC08: <ul style="list-style-type: none"> CPC50108 Diploma of Building Surveying deletion CPC50108 Diploma of Building Surveying units
9	17 January 2014	<p>NSSC endorsement for the:</p> <ul style="list-style-type: none"> addition of one new qualification: <ul style="list-style-type: none"> CPC41013 Certificate IV in Demolition addition of seven revised non-equivalent qualifications: <ul style="list-style-type: none"> CPC30313 Certificate III in Concreting, based on superseded CPC30311 CPC30413 Certificate III in Demolition, based on superseded CPC30411 CPC32313 Certificate III in Stonemasonry (Monumental/Installation), based on superseded CPC32311 CPC32413 Certificate III in Plumbing, based on superseded CPC32412 CPC32513 Certificate III in Plumbing (Mechanical Services), based on superseded CPC32512 CPC32713 Certificate III in Gas Fitting, based on superseded CPC32712 CPC32813 Certificate III in Fire Protection, based on superseded CPC32812 addition of 16 revised non-equivalent and three new units of competency in the concreting sector: <ul style="list-style-type: none"> CPCCCO2021A Handle concreting materials CPCCCO2022A Use and maintain concreting plant, tools and equipment CPCCCO3035A Assess and specify concrete supply requirements CPCCCO3036A Plan concrete work and brief team CPCCCO3041A Place concrete CPCCCO3042A Finish concrete CPCCCO3043A Cure concrete CPCCCO3044A Carry out decorative finishes to concrete CPCCCO3046A Repair and rectify concrete CPCCCO3047A Cut and core concrete

		<ul style="list-style-type: none"> • CPCCCO3048A Construct tilt panels on site • CPCCCO3049A Apply and finish sprayed concrete • CPCCCO3050A Carry out high performance concreting • CPCCCO3051A Conduct off-form vertical concrete operations • CPCCCO3052A Conduct concrete boom delivery operations • CPCCCO3053A Slump test concrete • CPCCCO3054A Operate concrete agitator trucks • CPCCCO3055A Install topping slabs • CPCCCO4001A Supervise concreting work • addition of one revised non-equivalent unit and 14 new units of competency in the demolition sector: <ul style="list-style-type: none"> • CPCCDE3016A Identify hazards on demolition sites and apply risk management strategies • CPCCDE3017A Select and use hand tools and equipment for demolition tasks • CPCCDE3018A Select and use small plant and equipment for demolition tasks • CPCCDE3019A Demolish small buildings and structures using hand tools and small plant and equipment • CPCCDE3020A Select and use tools and equipment for hot work in the demolition industry • CPCCDE3021A Operate demolition material crushing plants • CPCCDE3022A Manage demolition recyclable and waste materials using load shifting equipment • CPCCDE3023A Operate skid steer loaders at ground level on demolition sites • CPCCDE3024A Operate mobile plant on suspended floors on demolition sites • CPCCDE3025A Operate remote-controlled plant on demolition sites • CPCCDE3026A Operate excavators at ground level to demolish building elements • CPCCDE4001A Plan and prepare for activities on demolition sites • CPCCDE4002A Plan and supervise demolition work to minimise environmental and public health and safety impact • CPCCDE4003A Supervise individual activities on demolition sites • CPCCDE4004A Finalise demolition activities and
--	--	--

		<p>supervise property handover</p> <ul style="list-style-type: none"> • addition of two revised non-equivalent and seven new stonemasonry units: <ul style="list-style-type: none"> • CPCCST2006A Identify and use stone products • CPCCST3015A Apply gilding to stone • CPCCST3016A Build solid stonemasonry walls • CPCCST3017A Construct stone arches • CPCCST3018A Inlay lead to stone • CPCCST3019A Lay stonemasonry stairs • CPCCST3020A Produce reconstituted stone • CPCCST3021A Renovate and restore stone work • CPCCST3022A Carry out profile work • addition of four revised non-equivalent and three new units of competency in the fire services sector: <ul style="list-style-type: none"> • CPCPFS3044A Install distribution and range pipes • CPCPFS3045A Fit off sprinkler heads, controls and ancillary equipment • CPCPFS3046A Test the integrity of water-based fire protection systems using pressure • CPCPFS3047A Test and maintain automatic fire sprinklers • CPCPFS3048A Install fixed fire pumpsets • CPCPFS3049A Conduct preventive maintenance on fixed fire pumpsets • CPCPFS4027A Commission fire sprinkler systems • addition of one revised non-equivalent gas services unit: <ul style="list-style-type: none"> • CPCPGS3061A Install and commission Type A gas appliances (replacing CPCPGS3058A) • addition of four new sustainability units: <ul style="list-style-type: none"> • CPCSUS4002A Use building science principles to construct energy efficient buildings • CPCSUS4003A Maximise energy efficiency through applied trade skills • CPCSUS5002A Develop action plans to retrofit existing buildings for energy efficiency • CPCSUS5003A Manage energy efficient building methods and strategies • deletion from CPC08 of eight units of competency: <ul style="list-style-type: none"> • CPCCCO3025A Resurface concrete • CPCCDE2011A Use demolition tools and equipment • CPCCDE3011A Carry out mechanical general demolition • CPCCDE3013A Operate a crushing plant
--	--	--

		<ul style="list-style-type: none"> • CPCCST2002A Identify and use stone products • CPCCST3005A Carry out profile work • CPCCST3008A Inlay lead to stone • CPCPGS3058A Install and commission Type A gas appliances. <p>ISC upgrade to:</p> <ul style="list-style-type: none"> • make minor revisions to the following seven qualifications, while maintaining their equivalence: <ul style="list-style-type: none"> • CPC20211 Certificate II in Construction Pathways • CPC31912 Certificate III in Joinery • CPC40110 Certificate IV in Building and Construction (Building) • CPC40508 IV in Building and Construction (Site Management) • CPC40912 Certificate IV in Plumbing and Services • CPC50210 Diploma of Building and Construction (Building) • CPC50612 Diploma of Hydraulic Services Design • minor editorial correction to CPC40912 Certificate IV in Plumbing and Services title • make minor revisions to the following units of competency to reflect industry requirements captured as part of the continuous improvement process, as well as other minor editorial changes, resulting in the following revised equivalent units: <ul style="list-style-type: none"> • CPCCJN2002B Prepare for off-site manufacturing process • CPCPGS4011C Design and size consumer gas installations • CPCPGS4023B Install, commission and service Type B gas appliances • make other minor editorial changes.
8	5 December 2012	<p>NSSC endorsement for the:</p> <ul style="list-style-type: none"> • addition of two new qualifications: <ul style="list-style-type: none"> • CPC31712 Certificate III in Post-Tensioning • CPC32912 Certificate III in Construction Crane Operations • deletion of four qualifications: <ul style="list-style-type: none"> • CPC20311 Certificate II in Steelfixing • CPC20411 Certificate II in Concreting • CPC20511 Certificate II in Stoneworking • CPC31711 Certificate III in Low Rise Structural Framing • replacement of one or more core units in the following 16 CPC08 qualifications, resulting in an upgrade to year code and non-equivalent status:

		<ul style="list-style-type: none"> • CPC20112 Certificate II in Construction • CPC20712 Certificate II in Drainage • CPC20812 Certificate II in Metal Roofing and Cladding • CPC20912 Certificate II in Urban Irrigation • CPC30812 Certificate III in Roof Tiling • CPC31812 Certificate III in Shopfitting • CPC31912 Certificate III in Joinery • CPC32412 Certificate III in Plumbing • CPC32512 Certificate III in Plumbing (Mechanical Services) • CPC32612 Certificate III in Roof Plumbing • CPC32712 Certificate III in Gas Fitting • CPC32812 Certificate III in Fire Protection • CPC40912 Certificate IV in Plumbing and Services • CPC50412 Diploma of Plumbing and Services • CPC50612 Diploma of Hydraulic Services Design • CPC60212 Advanced Diploma of Building and Construction (Management) • review of currency of native and imported units in CPC08 qualifications, resulting in upgrade of all but one of the remaining qualifications but no change to year code given equivalent status • addition of four new units of competency: <ul style="list-style-type: none"> • CPCCSI3015A Produce airbrushed signage • CPCCSI3016A Produce digital signage using advanced software applications • CPCPGS3047A Install LPG systems in marine craft • CPCPWT3030A Install home fire sprinkler systems • replacement of three construction units with the following non-equivalent units: <ul style="list-style-type: none"> • CPCCBC6018A Manage processes for complying with legal obligations of a building or construction contractor • CPCCCM1016A Identify requirements for safe tilt-up work • CPCCSH3006A Apply finishes • revision of existing plumbing and services units of competency (CPCP) to reflect industry requirements and sustainability policy changes since their first release (see unit mapping table for list of units and their changes) • replacement of 132 plumbing and services units with the following non-equivalent units: <ul style="list-style-type: none"> • CPCPCM2039A Carry out interactive workplace communication
--	--	---

		<ul style="list-style-type: none"> • CPCPCM2040A Read plans and calculate plumbing quantities • CPCPCM2041A Work effectively in the plumbing and services sector • CPCPCM2043A Carry out WHS requirements, which included embedding of asbestos awareness into this plumbing and services work health and safety unit (a core unit to most Certificate III level Plumbing and Fire Services units of competency), resulting in a code change to the unit • CPCPCM2045A Handle and store plumbing materials • CPCPCM2046A Use plumbing hand and power tools • CPCPCM2047A Carry out levelling • CPCPCM2048A Cut and join sheet metal • CPCPCM2049A Cut using oxy-LPG-acetylene equipment • CPCPCM2050A Mark out materials • CPCPCM2052A Weld using oxy-acetylene equipment • CPCPCM2053A Weld using manual metal arc welding equipment • CPCPCM2054A Carry out simple concreting and rendering • CPCPCM2055A Work safely on roofs • CPCPCM3021A Flash penetrations through roofs and walls • CPCPCM3022A Weld polyethylene and polypropylene pipes using fusion method • CPCPCM3023A Fabricate and install non-ferrous pressure piping • CPCPCM4011A Carry out work-based risk control processes • CPCPCM4012A Estimate and cost work • CPCPCM4013A Produce 2-D architectural drawings using CAD software • CPCPCM4014A Prepare simple sketches and drawings • CPCPCM5010A Design complex sanitary plumbing and drainage systems • CPCPCM5011A Design complex cold water systems • CPCPCM5012A Design complex stormwater and roof drainage systems • CPCPCM5013A Design complex (non-solar) heated water systems • CPCPCM5014A Design sewer infrastructure systems • CPCPDR2021A Locate and clear blockages • CPCPDR2022A Install domestic treatment plants
--	--	---

		<ul style="list-style-type: none"> • CPCPDR2023A Maintain effluent disinfection systems • CPCPDR2024A Install stormwater and sub-soil drainage systems • CPCPDR2025A Drain work site • CPCPDR2026A Install prefabricated inspection openings and enclosures • CPCPDR3021A Plan layout of a residential sanitary drainage system • CPCPDR3022A Install below ground sanitary drainage systems • CPCPDR3023A Install on-site disposal systems • CPCPFS2021A Connect static storage tanks for fixed fire protection systems • CPCPFS2022A Install portable fire equipment • CPCPFS3030A Design pre-calculated fire sprinkler systems • CPCPFS3031A Fabricate and install fire hydrant and hose reel systems • CPCPFS3032A Install distribution and range pipes • CPCPFS3033A Fit off sprinkler heads, controls and ancillary equipment • CPCPFS3034A Install control valve assemblies, actuating devices and local alarms • CPCPFS3035A Test fire protection systems for pressure • CPCPFS3036A Install special hazard systems • CPCPFS3037A Install domestic and residential life safety sprinkler systems • CPCPFS3038A Test and maintain fire hydrant and hose reel installations • CPCPFS3039A Test and maintain automatic fire sprinklers • CPCPFS3040A Conduct basic functional testing of water-based fire-suppression systems • CPCPFS3041A Inspect and test fire pumpsets • CPCPFS3042A Conduct annual functional testing of complex water-based fire-suppression systems • CPCPFS3043A Conduct functional water flow testing • CPCPFS4021A Commission domestic and residential fire suppression sprinkler systems • CPCPFS4022A Commission and maintain special hazard fire suppression systems • CPCPFS4023A Commission fire system pumpsets • CPCPFS4024A Design residential and domestic fire
--	--	--

		<p>sprinkler systems</p> <ul style="list-style-type: none"> • CPCPFS4025A Commission fire alarm and detection system interface devices • CPCPFS4026A Commission firefighting appliances • CPCPFS5010A Design fire-compliant hydraulic services • CPCPFS5011A Design fire sprinkler systems • CPCPFS5012A Design fire hydrant and hose reel systems • CPCPGS3046A Install LPG systems in caravans, mobile homes and mobile workplaces • CPCPGS3048A Install gas pressure control equipment • CPCPGS3049A Install Type A gas appliance flues • CPCPGS3050A Install Type B gas appliance flues • CPCPGS3051A Purge consumer piping • CPCPGS3052A Maintain Type A gas appliances • CPCPGS3053A Disconnect and reconnect Type A gas appliances • CPCPGS3054A Calculate and install natural ventilation for Type A gas appliances • CPCPGS3055A Install gas sub-meters • CPCPGS3056A Install gas piping systems • CPCPGS3057A Size consumer gas piping systems • CPCPGS3058A Install and commission Type A gas appliances • CPCPGS3059A Install LPG storage of aggregate storage capacity up to 500 litres • CPCPGS3060A Install LPG storage of aggregate storage capacity exceeding 500 litres and less than 8KL • CPCPGS4022A Service Type A gas appliances • CPCPGS4023A Install, commission and service Type B gas appliances • CPCPIG2021A Design domestic urban irrigation systems • CPCPIG3021A Set out, install and commission irrigation systems • CPCPIG3022A Install and commission domestic irrigation pumps • CPCPMS2021A Assemble mechanical services components • CPCPMS3031A Fabricate and install steel pressure piping • CPCPMS3032A Select and fit insulation and sheathing • CPCPMS3033A Install small bore heating systems • CPCPMS3034A Install medical gas pipeline systems
--	--	---

		<ul style="list-style-type: none"> • CPCPMS3035A Install and test ducting systems • CPCPMS3036A Install air handling units • CPCPMS3037A Install and test split system air conditioning • CPCPMS3038A Install air conditioning control equipment • CPCPMS3039A Maintain mechanical services equipment • CPCPMS3040A Install and maintain evaporative air cooling systems • CPCPMS3041A Install domestic solid fuel burning appliances • CPCPMS4022A Commission air and water systems • CPCPMS4023A Design compressed air systems • CPCPMS5010A Design steam generation and distribution systems • CPCPMS5011A Design air conditioning and ventilation systems • CPCPMS5012A Design sound attenuated hydraulic services • CPCPMS5013A Design hydronic heating and cooling systems • CPCPPS5023A Design solar water heating systems • CPCPPS5024A Conduct a water audit and identify water-saving initiatives • CPCPPS5025A Design grey water re-use systems • CPCPPS5026A Design rainwater collection, storage, distribution and re-use systems • CPCPPS5027A Design irrigation systems • CPCPPS5028A Design trade waste pre-treatment systems • CPCPPS5030A Design pump systems • CPCPPS5032A Design siphonic stormwater drainage systems • CPCPPS5033A Design vacuum sewerage systems • CPCPRF2022A Select and install roof sheeting and wall cladding • CPCPRF2023A Collect and store roof water • CPCPRF2024A Fabricate roof coverings for curved structures • CPCPRF3021A Receive roofing materials • CPCPRF3022A Fabricate and install roof drainage components • CPCPRF3023A Fabricate and install external flashings • CPCPRF3024A Install roof components
--	--	--

		<ul style="list-style-type: none"> • CPCPRF3025A Install roof coverings to curved roof structures • CPCPRF3026A Install composite roof systems • CPCPSN3022A Install discharge pipes • CPCPSN3023A Fabricate and install sanitary stacks • CPCPSN3024A Install and fit off sanitary fixtures • CPCPSN3025A Install pre-treatment facilities • CPCPSN3026A Install sewerage pumpsets • CPCPWT3020A Connect and install storage tanks to a domestic water supply • CPCPWT3021A Set out and install water services • CPCPWT3022A Install and adjust water service controls and devices • CPCPWT3023A Install and commission water heating systems • CPCPWT3024A Install and maintain domestic water treatment equipment • CPCPWT3025A Install water pumpsets • CPCPWT3026A Fit off and commission heated and cold water services • CPCPWT3027A Connect irrigation systems from drinking water supply • CPCPWT3028A Install water service • CPCPWT3029A Install water pipe systems • CPCPWT4022A Commission and maintain backflow prevention devices • CPCPWT4023A Commission and maintain hot and heated water temperature control devices • deletion of two native CPC08 units of competency: <ul style="list-style-type: none"> • CPCPCM2011A Apply first aid in the workplace (replaced with HLTF211A Provide basic emergency life support) • CPCPGS3017A Install gas detection devices. <p>ISC upgrade to:</p> <ul style="list-style-type: none"> • make minor revisions to the following qualifications, while maintaining their equivalence: <ul style="list-style-type: none"> • CPC1011: addition of unit to elective pool • CPC20211: changed packaging rules to increase qualification's flexibility • CPC30711: addition of unit to elective pool • CPC32111: addition of units to elective pool • CPC40611: addition of units to elective pool
--	--	--

		<ul style="list-style-type: none"> • replace reference to the Building Code of Australia and Plumbing Code of Australia with the National Construction Code in those units new or revised in this version upgrade • replace reference to 'OHS' with 'WHS' in plumbing and services units (except PSFS units) and qualifications • include reference to photovoltaic (solar) panels in a number of construction and plumbing and services units (see unit mapping table) • reformat skill items in required skills section of plumbing and services units (except PSFS units) to present standardised approach to skill grouping • provide advice to users regarding licensing, legislative, regulatory and certification requirements in all plumbing and services units • enhance user awareness of the need to consider unit prerequisite requirements when selecting units of competency by including a statement to that effect in the packaging rules of all qualifications • make minor content changes to CPCCBC4012B, CPCCBC5007B, CPCCBC6001B, CPCCCA2002B, CPCCCA3005B, CPCCCA3006B, CPCCCA3007C, CPCCCA3008B, CPCCCA3009B, CPCCCA3017B, CPCCCM2005B, CPCCCM2006B, CPCCCM2007B, CPCCCM2008B, CPCCCM2010B, CPCCCM3001C, CPCCPB3026B, CPCCPD3030B, CPCCRT3003B, CPCCRT3004B, CPCCRT3005B, CPCCRT3006B, and CPCCVE1002B without altering equivalence, resulting in a version upgrade • make minor editorial changes to CPCPDR4011B, CPCPDR4012B, CPCPDR4013B, CPCPGS4011B, CPCPMS4011B, CPCPPS5000B, CPCPPS5001B, CPCPPS5002B, CPCPPS5009B, CPCPPS5011B, CPCPPS5015B, CPCPRF4011B, CPCPSN3011B, CPCPSN4011B, and CPCPWT4011B without altering equivalence, resulting in a version upgrade • make minor editorial changes to the unit mapping tables of: <ul style="list-style-type: none"> • Version 7 unit mapping entry for CPCCBC5014A, which did not replace CPCCBC4023A • Version 6 unit mapping added missing entry relating to replacement of CPCPWT4003A with CPCPWT4013A • revise skill set 'Manage complex building projects': • add CPCCBC5001B Apply building codes and standards to the construction process for medium rise building projects to skill set requirement (prerequisite to CPCCBC5018A) to address its previous omission from the packaging rules, thereby increasing skill set requirement from three to four units
--	--	--

		<ul style="list-style-type: none"> • update units to current equivalent version • update skill set 'Undertake trade contracting' with current equivalent version of native and imported units • made other minor editorial changes.
7	29 November 2011	<p>NSSC endorsement for the:</p> <ul style="list-style-type: none"> • addition of four new units of competency: • CPCCDE3014A Remove non-friable asbestos • CPCCDE3015A Remove friable asbestos • CPCCBC4051A Supervise asbestos removal • CPCCBC5014A Conduct asbestos assessment associated with removal • addition of a new, or replacement of an old, asbestos unit of competency in the elective pool of the following qualifications, as well as the further addition of the associated prerequisite unit (CPCCOHS1001A Work safely in the construction industry): • CPC30411 Certificate III in Demolition • CPC40110 Certificate IV in Building and Construction (Building) • CPC40308 Certificate IV in Building and Construction (Estimating) • CPC40508 Certificate IV in Building and Construction (Site Management) • CPC40611 Certificate IV in Building and Construction (Specialist Trades) • CPC40708 Certificate IV in Building and Construction (Trade Contracting) • CPC40808 Certificate IV in Swimming Pool and Spa Building • CPC50210 Diploma of Building and Construction (Building) • deletion from CPC08 of two units of competency packaged as elective units: • CPCCDE3012A Encapsulate and remove asbestos • CPCCBC4023A Plan and undertake site inspection and assessment of asbestos products and materials.

6.1	8 June 2011	<p>ISC upgrade:</p> <ul style="list-style-type: none"> • Removal of erroneous listing in the elective pool of CPC32711 Certificate III in Gas Fitting of the unit CPCPCM2032A Weld using oxy-acetylene equipment; relocating it to its originally intended core pool location in that qualification.
-----	-------------	---

		<ul style="list-style-type: none"> • Re-coding of the following five units in response to stakeholder implementation advice with regard to the use of previous version unit codes: • CPCPGS3031A Install gas piping systems • CPCPGS3032A Size consumer gas piping systems • CPCPGS3033A Install and commission Type A gas appliances • CPCPGS3034A Install LPG storage of aggregate storage capacity up to 500 litres • CPCPGS3035A Install LPG storage of aggregate storage capacity exceeding 500 litres and less than 8KL. • Adjustment of CPC32411 Certificate III in Plumbing, CPC32511 Certificate III in Plumbing (Mechanical Services) and CPC32711 Certificate III in Gas Fitting to reflect above re-coding of five units. • Typographical changes made to ensure that unit codes for CPCPCM2028A Cut and join sheet metal, CPCPCM2029A Cut using oxy-LPG-acetylene equipment and CPCPCM2032A Weld using oxy-acetylene equipment were uniformly correctly cited. • Other minor typographical corrections, including minor change to title of unit CPCPWT3016A in qualification packaging rules.
6	19 May 2011	<p>Renaming CPC08 to Construction, Plumbing and Services Training Package in the interests of simplifying</p> <p>Applying consistent use of AQF level 2 occupational health and safety unit as a prerequisite requirement for units in Certificates II and III construction qualifications</p> <p>Removing the level 1 occupational health and safety unit as a prerequisite requirement in a range of construction qualifications</p> <p>Repackaging construction qualifications to incorporate prerequisite unit requirements</p> <p>Transferring non-high risk licensing units in construction qualifications from the core to the elective pool where a high risk licensing unit was already in the core</p> <p>Clarification of the packaging rules in CPC31011 Certificate III in Solid Plastering to confirm the requirement to complete 5 elective units</p> <p>Repackaging CPC32011 Certificate III in Carpentry and Joinery to meet industry requirements</p> <p>Embedding sustainability into core construction units of competency where appropriate</p> <p>Removing imported units with prerequisite chains from</p>

		<p>construction qualifications</p> <p>Updating imported units with most recent version in construction qualifications</p> <p>Recoding units and qualifications as a result of implementing the above changes for construction qualifications (as detailed in qualification mapping table)</p> <p>Reformatting for the purposes of clarity the information relating to the communications employability skill in the Employability Skills Qualification Summary for all Certificates I to III</p> <p>construction qualifications</p> <p>Making minor corrections to some unit mapping information in CPC08 Version 1 unit mapping table of BCG03 General Construction to CPC08 Version 1</p> <p>Amending packaging rules in construction qualifications not used for licensing, regulation or traditional trades to comply with NQC flexibility requirements</p> <p>Removing most prerequisite requirements (other than the OHS units) from all plumbing and services units from Certificates II to IV</p> <p>Repackaging the following plumbing qualifications to meet industry requirements:</p> <ul style="list-style-type: none"> • CPC32411 Certificate III in Plumbing: adding a new unit to the core to meet changing market demand and regulatory requirements • CPC32511 Certificate III in Plumbing (Mechanical Services): removing a unit from the core and endorsing a new unit in the elective pool • CPC32811 Certificate III in Fire Protection: adding new elective units and increasing the overall size of the qualification to meet industry and regulatory requirements <p>Adding six new plumbing and services units of competency:</p> <ul style="list-style-type: none"> • CPCPFS3020A Conduct basic functional testing of water-based fire-suppression systems • CPCPFS3021A Inspect and test fire pumpsets • CPCPFS3022A Conduct annual functional testing of complex water-based fire-suppression systems • CPCPFS3023A Conduct functional water flow testing • CPCPMS3021A Install domestic solid fuel burning appliances • CPCPWT3010A Connect and install storage tanks to a domestic water supply <p>Embedding sustainability into plumbing and services units of competency</p>
--	--	--

		<p>Removing imported units with prerequisite chains from plumbing and services qualifications</p> <p>Updating imported units with most recent version in plumbing and services qualifications</p> <p>Recoding units and qualifications as a result of implementing the above changes for plumbing and services qualifications (as detailed in qualification mapping table)</p> <p>Reformatting for the purposes of clarity the information relating to the communications employability skill in the Employability Skills Qualification Summary for all Certificates II and III plumbing and services qualifications</p> <p>Making minor corrections to some unit mapping information in CPC08 Version 1 unit mapping table of BCP03 Plumbing and Services Training Packages to CPC08 Version 1</p> <p>Amending packaging rules in plumbing and services qualifications not used for licensing, regulation or traditional trades to comply with NQC flexibility requirements</p> <p>Adding or correcting content in CPC08 units and qualifications to address industry requirements or correct editorial inconsistencies as follows: unit descriptors, application of the units, range statements, and qualification employability skill summaries where information was omitted or not uploaded onto NTIS</p>
5	2 March 2010	<p>Change to elective pool of one existing qualification:</p> <ul style="list-style-type: none"> • CPC31208 Certificate III in Wall and Ceiling Lining: addition of new general elective unit CPCCPB3027A Install ceiling insulation to packaging rules. <p>Addition of one new unit of competency:</p> <ul style="list-style-type: none"> • CPCCPB3027A Install ceiling insulation to address critical safety requirements in installing ceiling insulation.

4	1 March 2010	<p>Changes to packaging rules of three existing qualifications:</p> <ul style="list-style-type: none"> • CPC40110 Certificate IV in Building and Construction (Building): packaging rules changed to total of 16 units, consisting of 13 core and 3 elective units • CPC50210 Diploma of Building and Construction (Building): packaging rules changed to total of 18 units, consisting of 13 core and 5 elective units • options for choice of elective units amended and extended • CPC50308 Diploma of Building and Construction (Management): • two elective units changed to reflect changes detailed immediately below (CPCCBC5001A to CPCCBC5001B; and CPCCBC5008A to CPCCBC5018A). <p>Changes to two units of competency:</p> <ul style="list-style-type: none"> • amended content of CPCCBC5001B Apply building codes and standards to the construction process for medium rise building projects to remove duplication with other units in the Diploma qualification • deleted unit of competency (CPCCBC5008A Apply structural principles to the construction of medium rise buildings) replaced by added new unit CPCCBC5018A Apply structural principles to the construction of medium rise buildings, now with a prerequisite requirement.
3	20 October 2009	<p>Addition of new specialist stream for hydraulic services design to CPC40909 Certificate IV in Plumbing and Services.</p> <p>Addition of new hydraulic services design qualification CPC50609 Diploma of Hydraulic Services Design.</p>
2	22 July 2009	<p>Addition of two new fire systems design qualifications:</p> <ul style="list-style-type: none"> • CPC50509 Diploma of Fire Systems Design • CPC70109 Vocational Graduate Certificate in Fire Systems Design Management. <p>Addition of 18 new fire systems design units of competency.</p> <p>Addition of one imported unit (BSBAUD504B to CPC50509).</p>
1	February 2009	<p>Primary release.</p> <p>CPC08 brings together the qualifications and units of competency from three previous Training Packages:</p> <ul style="list-style-type: none"> • BCG03 General Construction • BCF00 Off-Site Construction • BCP03 Plumbing and Services.

Release Date: <5 August 2015>

Preliminary information

Important note to users

Training Packages are not static documents; they are amended periodically to reflect the latest industry practices and are version controlled. It is essential that the latest version is always used.

Check the version number before commencing training or assessment

This Training Package is Version 9.1 – check whether this is the latest version by going to the National Training Information Service (www.ntis.gov.au) and locating information about the Training Package. Alternatively, contact Construction and Property Services Industry Skills Council at www.cpsisc.com.au (www.cpsisc.com.au) to confirm the latest version number.

Explanation of version number conventions

The primary release Training Package is Version 1. When changes are made to a Training Package, sometimes the version number is changed and sometimes it is not, depending on the extent of the change. A significant change would mean assigning the version identifier 'Version 2' to the Training Package.

When a Training Package is reviewed it is considered to be a new Training Package for the purposes of version control (i.e. a new year identifier in the code is added, for example TDT02 becomes TDT07), then it is called Version 1.

Do not confuse the version number with the Training Package's national code (which remains the same during its period of endorsement).

Explanation of the review date

The review date (shown on the title page and in the footer of each page) indicates when the Training Package is expected to be reviewed in the light of changes such as changing technologies and circumstances. The review date is not an expiry date. Training Packages and their components remain current until they are reviewed or replaced.

CPC08 sectors and functional areas

CPC08 units of competency		
Sector	Functional area	Unit code identifier
Common	Management	MCM
	Sustainability	SUS

Construction	Building and construction	CBC
	Brick and blocklaying	CBL
	Carpentry	CCA
	Common	CCM
	Concreting	CCO
	Demolition	CDE
	Dogging	CDO
	Joinery	CJN
	Stairbuilding	CJS

CPC50612	Diploma of Hydraulic Services Design
CPC60108	Advanced Diploma of Building Surveying
CPC60212	Advanced Diploma of Building and Construction (Management)
CPC70109	Vocational Graduate Certificate in Fire Systems Design Management

The following qualifications in CPP07 Property Services Training Package also have close relationships with the construction, plumbing and services industry.

Qualifications in CPP07

Code	Title
CPP20112	Certificate II in Surveying and Spatial Information Services
CPP20511	Certificate II in Fire Protection Inspection and Testing
CPP30112	Certificate III in Surveying and Spatial Information Services
CPP30811	Certificate III in Fire Protection Inspection and Testing
CPP40112	Certificate IV in Surveying
CPP40212	Certificate IV in Spatial Information Services
CPP40811	Certificate IV in Access Consulting
CPP41212	Certificate IV in NatHERS Assessment
CPP50112	Diploma of Surveying
CPP50212	Diploma of Spatial Information Services
CPP50711	Diploma of Access Consulting
CPP50911	Diploma of Building Design
CPP51012	Diploma of Residential Building Energy Assessment
CPP60112	Advanced Diploma of Spatial Information Services
CPP60312	Advanced Diploma of Surveying
CPP80113	Graduate Certificate in Building Design
CPP80213	Graduate Diploma of Building Design
CPP80313	Graduate Diploma of Access Consulting

CPC08 native units of competency

CPCCBC - CPCCLTC

Code	Title
CPCCBC4001A	Apply building codes and standards to the construction process for low rise building projects
CPCCBC4002A	Manage occupational health and safety in the building and construction workplace
CPCCBC4003A	Select and prepare a construction contract
CPCCBC4004A	Identify and produce estimated costs for building and construction projects
CPCCBC4005A	Produce labour and material schedules for ordering
CPCCBC4006B	Select, procure and store construction materials for low rise projects
CPCCBC4007A	Plan building or construction work
CPCCBC4008B	Conduct on-site supervision of building and construction projects
CPCCBC4009B	Apply legal requirements to building and construction projects
CPCCBC4010B	Apply structural principles to residential low rise constructions
CPCCBC4011B	Apply structural principles to commercial low rise constructions
CPCCBC4012B	Read and interpret plans and specifications
CPCCBC4013A	Prepare and evaluate tender documentation
CPCCBC4014A	Prepare simple building sketches and drawings
CPCCBC4015A	Prepare specifications for all construction works
CPCCBC4016A	Administer a construction contract
CPCCBC4017A	Arrange resources and prepare for the building or construction project
CPCCBC4018A	Apply site surveys and set-out procedures to building and construction projects
CPCCBC4019A	Apply sustainable building design principles to water management systems
CPCCBC4020A	Build thermally efficient and sustainable structures

Code	Title
CPCCBC4021A	Minimise waste on the building and construction site
CPCCBC4022A	Supervise tilt-up work
CPCCBC4024A	Resolve business disputes
CPCCBC4025A	Manage personal work priorities and professional development
CPCCBC4026A	Arrange building applications and approvals
CPCCBC4027B	Establish a basis for sales consulting
CPCCBC4028A	Prepare design brief for construction works
CPCCBC4029B	Apply construction information to the sales process
CPCCBC4030A	Analyse and communicate industry information
CPCCBC4031A	Process client requirements
CPCCBC4032A	Apply contract law to sales processes
CPCCBC4033A	Maintain the sales environment
CPCCBC4034A	Apply codes and standards to building trade and services contracting
CPCCBC4035A	Initiate the heritage works process
CPCCBC4036A	Prepare to undertake the heritage restoration process
CPCCBC4037A	Prepare drawings for heritage works
CPCCBC4038A	Prepare work plans for restoration work
CPCCBC4039A	Undertake the heritage restoration process
CPCCBC4040A	Prepare report for heritage restoration work
CPCCBC4041A	Undertake preparations for refractory work
CPCCBC4042A	Construct a fire brick wall and arch using refractory materials
CPCCBC4043A	Operate a self-erecting tower crane
CPCCBC4044A	Operate a tower crane

Code	Title
CPCCBC4045A	Perform advanced rigging
CPCCBC4046A	Erect and dismantle advanced scaffolding
CPCCBC4047A	Quality assure fire-rated lining systems
CPCCBC4048A	Apply building codes and standards to the construction process for swimming pools and spas
CPCCBC4049A	Apply structural principles to construction of swimming pools and spas
CPCCBC4050A	Select, procure and store construction materials for swimming pools and spa projects
CPCCBC4051A	Supervise asbestos removal
CPCCBC5001B	Apply building codes and standards to the construction process for medium rise building projects
CPCCBC5002A	Monitor costing systems on medium rise building and construction projects
CPCCBC5003A	Supervise the planning of on-site medium rise building or construction work
CPCCBC5004A	Supervise and apply quality standards to the selection of building and construction materials
CPCCBC5005A	Select and manage building and construction contractors
CPCCBC5006B	Apply site surveys and set-out procedures to medium rise building projects
CPCCBC5007B	Administer the legal obligations of a building or construction contractor
CPCCBC5009A	Identify services layout and connection methods to medium rise construction projects
CPCCBC5010B	Manage construction work
CPCCBC5011A	Manage environmental management practices and processes in building and construction
CPCCBC5012A	Manage the application and monitoring of energy conservation and management practices and processes

Code	Title
CPCCBC5013A	Develop professional technical and legal reports on building and construction projects
CPCCBC5014A	Conduct asbestos assessment associated with removal
CPCCBC5018A	Apply structural principles to the construction of medium rise buildings
CPCCBC6001B	Apply building codes and standards to the construction process for large building projects
CPCCBC6002A	Generate and direct the development of new projects
CPCCBC6003A	Establish, maintain and review contract administration procedures and frameworks
CPCCBC6005A	Manage tender developments for major projects
CPCCBC6006A	Manage the procurement and acquisition of resources for building or construction projects
CPCCBC6007A	Develop, plan and implement appropriate building or construction environmental management practices and processes
CPCCBC6008A	Develop and implement an appropriate estimating and tendering system
CPCCBC6009A	Develop, plan and implement an appropriate building or construction planning process
CPCCBC6010A	Plan, develop and implement building or construction energy conservation and management practices and processes
CPCCBC6011A	Establish systems to develop and monitor building and construction costs
CPCCBC6012A	Manage and administer development of documentation for building or construction projects
CPCCBC6013A	Evaluate materials for multi-storey buildings
CPCCBC6014A	Apply structural principles to the construction of large, high rise and complex buildings
CPCCBC6015A	Apply building surveying procedures

Code	Title
CPCCBC6016A	Assess construction faults in large building projects
CPCCBC6017A	Evaluate services layout and connection methods for the planning of large building projects
CPCCBC6018A	Manage processes for complying with legal obligations of a building or construction contractor
CPCCBL2001A	Handle and prepare bricklaying and blocklaying materials
CPCCBL2002A	Use bricklaying and blocklaying tools and equipment
CPCCBL3001A	Lay paving
CPCCBL3002A	Carry out masonry veneer construction
CPCCBL3003A	Carry out cavity brick construction
CPCCBL3004A	Construct masonry steps and stairs
CPCCBL3005A	Lay masonry walls and corners
CPCCBL3006A	Lay multi-thickness walls and piers
CPCCBL3007A	Install glass blockwork
CPCCBL3009A	Install flashings and damp proof course
CPCCBL3010A	Construct masonry arches
CPCCBL3011A	Construct curved walls
CPCCBL3012A	Construct fireplaces and chimneys
CPCCBL3013A	Construct masonry structural systems
CPCCBL3014A	Install fire-rated masonry construction
CPCCBL3015A	Construct decorative brickwork
CPCCBL3016A	Construct battered masonry walls and piers
CPCCBL3017A	Carry out tuck pointing to brickwork
CPCCBL3018A	Install aerated autoclaved concrete products
CPCCCA2002B	Use carpentry tools and equipment

Code	Title
CPCCCA2003A	Erect and dismantle formwork for footings and slabs on ground
CPCCCA2011A	Handle carpentry materials
CPCCCA3001A	Carry out general demolition of minor building structures
CPCCCA3002A	Carry out setting out
CPCCCA3003A	Install flooring systems
CPCCCA3004A	Construct wall frames
CPCCCA3005B	Construct ceiling frames
CPCCCA3006B	Erect roof trusses
CPCCCA3007C	Construct pitched roofs
CPCCCA3008B	Construct eaves
CPCCCA3009B	Construct advanced roofs
CPCCCA3010A	Install and replace windows and doors
CPCCCA3011A	Refurbish timber sashes to window frames
CPCCCA3012A	Frame and fit wet area fixtures
CPCCCA3013A	Install lining, panelling and moulding
CPCCCA3014A	Construct bulkheads
CPCCCA3015A	Assemble partitions
CPCCCA3016A	Construct timber external stairs
CPCCCA3017B	Install exterior cladding
CPCCCA3018A	Construct, erect and dismantle formwork for stairs and ramps
CPCCCA3019A	Erect and dismantle formwork to suspended slabs, columns, beams and walls
CPCCCA3020A	Erect and dismantle jump form formwork
CPCCCA3021A	Erect and dismantle slip form formwork

Code	Title
CPCCCA3022A	Install curtain walling
CPCCCA3023A	Carry out levelling operations
CPCCCM1011A	Undertake basic estimation and costing
CPCCCM1012A	Work effectively and sustainably in the construction industry
CPCCCM1013A	Plan and organise work
CPCCCM1014A	Conduct workplace communication
CPCCCM1015A	Carry out measurements and calculations
CPCCCM1016A	Identify requirements for safe tilt-up work
CPCCCM2001A	Read and interpret plans and specifications
CPCCCM2002A	Carry out excavation
CPCCCM2003B	Calculate and cost construction work
CPCCCM2004A	Handle construction materials
CPCCCM2005B	Use construction tools and equipment
CPCCCM2006A	Apply basic levelling procedures
CPCCCM2006B	Apply basic levelling procedures
CPCCCM2007B	Use explosive power tools
CPCCCM2008A	Erect and dismantle restricted height scaffolding
CPCCCM2008B	Erect and dismantle restricted height scaffolding
CPCCCM2009A	Carry out basic demolition
CPCCCM2010B	Work safely at heights
CPCCCM3001C	Operate elevated work platforms
CPCCCM3002A	Operate a truck mounted loading crane
CPCCCM3003A	Work safely around power sources, services and assets
CPCCCO2013A	Carry out concreting to simple forms

Code	Title
CPCCCO2014A	Carry out concrete work
CPCCCO2021A	Handle concreting materials
CPCCCO2022A	Use and maintain concreting plant, tools and equipment
CPCCCO3026A	Carry out repair and rectification of concrete
CPCCCO3035A	Assess and specify concrete supply requirements
CPCCCO3036A	Plan concrete work and brief team
CPCCCO3041A	Place concrete
CPCCCO3042A	Finish concrete
CPCCCO3043A	Cure concrete
CPCCCO3044A	Carry out decorative finishes to concrete
CPCCCO3046A	Repair and rectify concrete
CPCCCO3047A	Cut and core concrete
CPCCCO3048A	Construct tilt panels on site
CPCCCO3049A	Apply and finish sprayed concrete
CPCCCO3050A	Carry out high performance concreting
CPCCCO3051A	Conduct off-form vertical concrete operations
CPCCCO3052A	Conduct concrete boom delivery operations
CPCCCO3053A	Slump test concrete
CPCCCO3054A	Operate concrete agitator trucks
CPCCCO3055A	Install topping slabs
CPCCCO4001A	Supervise concreting work
CPCCDE2012A	Carry out manual general demolition
CPCCDE3014A	Remove non-friable asbestos
CPCCDE3015A	Remove friable asbestos

Code	Title
CPCCDE3016A	Identify hazards on demolition sites and apply risk management strategies
CPCCDE3017A	Select and use hand tools and equipment for demolition tasks
CPCCDE3018A	Select and use small plant and equipment for demolition tasks
CPCCDE3019A	Demolish small buildings and structures using hand tools and small plant and equipment
CPCCDE3020A	Select and use tools and equipment for hot work in the demolition industry
CPCCDE3021A	Operate demolition material crushing plants
CPCCDE3022A	Manage demolition recyclable and waste materials using load shifting equipment
CPCCDE3023A	Operate skid steer loaders at ground level on demolition sites
CPCCDE3024A	Operate mobile plant on suspended floors on demolition sites
CPCCDE3025A	Operate remote-controlled plant on demolition sites
CPCCDE3026A	Operate excavators at ground level to demolish building elements
CPCCDE4001A	Plan and prepare for activities on demolition sites
CPCCDE4002A	Plan and supervise demolition work to minimise environmental and public health and safety impact
CPCCDE4003A	Supervise individual activities on demolition sites
CPCCDE4004A	Finalise demolition activities and supervise property handover
CPCCDO2011A	Handle and use dogging tools and equipment
CPCCDO3011A	Perform dogging
CPCCDO3012A	Perform crane scheduling
CPCCJN2001A	Assemble components
CPCCJN2002B	Prepare for off-site manufacturing process
CPCCJN2003A	Package manufactured products for transport

Code	Title
CPCCJN3001A	Use static machines
CPCCJN3002A	Use computer-controlled machinery
CPCCJN3003A	Manufacture components for door and window frames and doors
CPCCJN3004A	Manufacture joinery components
CPCCJN3005A	Cut and install glass
CPCCJS3002A	Manufacture stair components for straight flighted stairs
CPCCJS3003A	Assemble and install stairs
CPCCJS3004A	Manufacture and install continuous handrailing and special stair components
CPCCJS3005A	Manufacture stair components for curved and geometric stairs
CPCCJS3006A	Construct fabricated stairs
CPCCJS3011A	Design and set out stairs
CPCCLBM3001A	Licence to operate a concrete placing boom
CPCCLDG3001A	Licence to perform dogging
CPCCLHS3001A	Licence to operate a personnel and materials hoist
CPCCLHS3002A	Licence to operate a materials hoist
CPCCLRG3001A	Licence to perform rigging basic level
CPCCLRG3002A	Licence to perform rigging intermediate level
CPCCLRG4001A	Licence to perform rigging advanced level
CPCCLSF2001A	Licence to erect, alter and dismantle scaffolding basic level
CPCCLSF3001A	Licence to erect, alter and dismantle scaffolding intermediate level
CPCCLSF4001A	Licence to erect, alter and dismantle scaffolding advanced level
CPCCLTC4001A	Licence to operate a tower crane

Code	Title
CPCCLTC4002A	Licence to operate a self-erecting tower crane

CPCCOHS - CPCPDR

Code	Title
CPCCOHS1001A	Work safely in the construction industry
CPCCOHS2001A	Apply OHS requirements, policies and procedures in the construction industry
CPCCPA3001A	Prepare subgrade, base and bedding course for segmental paving
CPCCPA3002A	Lay segmental pavers
CPCCPA3003A	Cut segmental pavers
CPCCPA3004A	Finish segmental paving
CPCCPA3005A	Maintain and repair segmental paving
CPCCPB3001A	Fix standard plasterboard wall sheets
CPCCPB3002A	Fix standard plasterboard ceiling sheets
CPCCPB3003A	Fix battens
CPCCPB3004A	Fix wet area sheets
CPCCPB3005A	Fix ceiling sheets to external protected areas
CPCCPB3006A	Fix fibre cement board
CPCCPB3007A	Apply levels of finish standards to planning and inspection of own work
CPCCPB3008A	Mix plastering compounds
CPCCPB3009A	Finish plasterboard joins manually
CPCCPB3010A	Manually sand plaster work
CPCCPB3011A	Finish category 1 and 2 wet areas

CPCCPB3012A	Cut and fix paper-faced cornices
CPCCPB3013A	Plan travel routes
CPCCPB3014A	Install batt insulation products
CPCCPB3015A	Install acoustic and thermal environmental protection systems
CPCCPB3016A	Install and finish columns
CPCCPB3017A	Rectify faults in plaster applications
CPCCPB3018A	Use vacuum and electric sanding equipment to finish plaster work
CPCCPB3019A	Inspect equipment for serviceability
CPCCPB3020A	Match, mitre and install cast ornamental cornices
CPCCPB3021A	Install and fix residential acoustic plaster products
CPCCPB3022A	Use mechanical jointing equipment to finish joints
CPCCPB3023A	Load and unload plaster and plaster-related products
CPCCPB3024A	Use manual handling equipment to manoeuvre plaster products
CPCCPB3025A	Store plasterboard and related products
CPCCPB3026B	Erect and maintain trestle and plank systems
CPCCPB3027A	Install ceiling insulation
CPCCPD2011A	Handle painting and decorating materials
CPCCPD2012A	Use painting and decorating tools and equipment
CPCCPD2013A	Remove and replace doors and door and window components
CPCCPD3021A	Prepare surfaces for painting
CPCCPD3022A	Apply paint by brush and roller
CPCCPD3023A	Apply texture coat paint finishes by brush, roller and spray
CPCCPD3024A	Apply paint by spray
CPCCPD3025A	Match specified paint colour

CPCCPD3026A	Apply stains and clear timber finishes
CPCCPD3027A	Apply wallpaper
CPCCPD3028A	Apply decorative paint finishes
CPCCPD3029A	Remove graffiti and apply protective coatings
CPCCPD3030B	Apply protective paint coating systems
CPCCPD3031A	Implement safe lead paint and asbestos work practices in the painting industry
CPCCPD3032A	Apply advanced wallpaper techniques
CPCCPD3033A	Apply intumescent coatings
CPCCPD3034A	Apply advanced decorative paint finishes
CPCCRI3001A	Operate personnel and materials hoists
CPCCRI3012A	Perform basic rigging
CPCCRI3013A	Perform intermediate rigging
CPCCRI3014A	Perform advanced structural steel erection
CPCCRI3015A	Perform advanced tilt-up slab erection
CPCCRI3016A	Perform advanced tower crane erection
CPCCRT2001A	Handle roof tiling materials
CPCCRT2002A	Use roof tiling tools and equipment
CPCCRT3001A	Tile regular roofs
CPCCRT3002A	Tile irregular roofs
CPCCRT3003B	Repair and replace valleys, valley irons and flashings
CPCCRT3004B	Repair and renovate tile roofs
CPCCRT3005B	Slate a roof
CPCCRT3006B	Fix shingles to roofs and facades
CPCCSC2001A	Safely handle and use scaffolding tools and equipment

CPCCSC2002A	Erect and dismantle basic scaffolding
CPCCSC3001A	Erect and dismantle intermediate scaffolding
CPCCSF2001A	Handle steelfixing materials
CPCCSF2002A	Use steelfixing tools and equipment
CPCCSF2003A	Cut and bend materials using oxy-LPG equipment
CPCCSF2004A	Place and fix reinforcement materials
CPCCSF2005A	Arc weld reinforcement steel
CPCCSF2006A	Machine cut reinforcement materials
CPCCSF2007A	Splice and anchor using mechanical methods
CPCCSF3001A	Apply reinforcement schedule
CPCCSF3002A	Carry out monostrand post-tensioning
CPCCSF3003A	Carry out multistrand post-tensioning
CPCCSF3004A	Carry out stressbar post-tensioning
CPCCSH2001A	Prepare surfaces
CPCCSH2002A	Use aluminium sections for fabrication
CPCCSH2003A	Apply and install sealant and sealant devices
CPCCSH3001A	Set out and assemble cabinets, showcases, wall units, counters and workstations
CPCCSH3002A	Set out and fabricate shopfront commercial entries bulkheads and component fittings
CPCCSH3003A	Assemble and install shopfront commercial entries bulkheads and components
CPCCSH3005A	Apply and trim decorative finishes
CPCCSH3006A	Apply finishes
CPCCSI2001A	Use colour for signage
CPCCSI2002A	Lay out and design signage

CPCCSI2003A	Prepare surfaces for signage
CPCCSI2004A	Produce digital signage
CPCCSI2005A	Fabricate signage
CPCCSI2006A	Signwrite to simple forms
CPCCSI2007A	Apply fasteners and fixings
CPCCSI3001A	Produce vinyl signage
CPCCSI3002A	Use rotary router
CPCCSI3003A	Signwrite to decorative forms
CPCCSI3004A	Apply advanced vinyl applications
CPCCSI3005A	Use engraving systems
CPCCSI3006A	Apply gilding to signage
CPCCSI3007A	Apply lines and scrolls
CPCCSI3008A	Write showcards and chalkboards
CPCCSI3009A	Screen-print signage
CPCCSI3010A	Hand render pictorials
CPCCSI3011A	Use LED technology for signage
CPCCSI3012A	Apply electrical theory for illuminated signage
CPCCSI3013A	Install LED systems
CPCCSI3014A	Manufacture gas-charged glass-formed illuminated signage
CPCCSI3015A	Produce airbrushed signage
CPCCSI3016A	Produce digital signage using advanced software applications
CPCCSP2001A	Handle solid plastering materials
CPCCSP2002A	Use solid plastering tools and equipment
CPCCSP2003A	Prepare surfaces for plastering
CPCCSP3001A	Apply float and render to straight and curved surfaces

CPCCSP3002A	Apply set coats
CPCCSP3003A	Apply trowelled texture coat finishes
CPCCSP3004A	Restore and renovate solid plasterwork
CPCCSP3005A	Install pre-cast decorative mouldings
CPCCSP3006A	Install cast plaster blockwork
CPCCSP3007A	Apply plaster by projection machine
CPCCST2001A	Prepare for stonemasonry construction process
CPCCST2003A	Finish stone
CPCCST2004A	Lay stone
CPCCST2005A	Carry out load slinging of off-site materials
CPCCST2006A	Identify and use stone products
CPCCST3001A	Dress and mould stone
CPCCST3002A	Shape solid stone
CPCCST3003A	Split stone manually
CPCCST3004A	Dress stone manually
CPCCST3006A	Machine stone
CPCCST3007A	Turn stone
CPCCST3009A	Use computer-controlled static machinery to produce stone components
CPCCST3010A	Set out and cut letters in stone
CPCCST3011A	Plan monument construction
CPCCST3012A	Build stone veneer walls
CPCCST3013A	Carry out cemetery monument fixing
CPCCST3014A	Set and anchor stone facades
CPCCST3015A	Apply gilding to stone

CPCCST3016A	Build solid stonemasonry walls
CPCCST3017A	Construct stone arches
CPCCST3018A	Inlay lead to stone
CPCCST3019A	Lay stonemasonry stairs
CPCCST3020A	Produce reconstituted stone
CPCCST3021A	Renovate and restore stone work
CPCCST3022A	Carry out profile work
CPCCSV5003A	Produce working drawings for residential buildings
CPCCSV5004A	Apply legislation to urban development and building controls
CPCCSV5009A	Assess the impact of fire on building materials
CPCCSV6001A	Assess the construction of buildings up to three storeys
CPCCSV6002A	Produce working drawings for buildings up to three storeys
CPCCSV6003A	Assess construction faults in buildings up to three storeys
CPCCSV6004A	Apply footing and geomechanical design principles to buildings up to three storeys
CPCCSV6005A	Evaluate services layout and connection methods for residential and commercial buildings up to three storeys
CPCCSV6006A	Evaluate the use of concrete for residential and commercial buildings up to three storeys
CPCCSV6007A	Assess structural requirements for buildings up to three storeys
CPCCSV6008A	Apply building codes and standards to buildings up to three storeys
CPCCSV6009A	Implement performance-based codes and risk management principles for buildings up to three storeys
CPCCSV6010A	Apply fire technology to buildings up to three storeys
CPCCSV6011A	Apply legal procedures to building surveying
CPCCSV6012A	Facilitate community development consultation

CPCCSV6013A	Coordinate building refurbishment
CPCCSV6014A	Manage and plan land use
CPCCSV6015A	Analyse and present building surveying research information
CPCCSV6016A	Apply building surveying procedures to buildings up to three storeys
CPCCVE1002B	Undertake a basic computer design project
CPCCVE1011A	Undertake a basic construction project
CPCCWC2001A	Complete penetrations and flashings
CPCCWC3001A	Install and finish plasterboard and fibre cement sheeting to curved walls and ceilings
CPCCWC3002A	Install and finish plasterboard and fibre cement sheeting to arches
CPCCWC3003A	Install dry wall passive fire-rated systems
CPCCWC3004A	Install suspended ceilings
CPCCWF2001A	Handle wall and floor tiling materials
CPCCWF2002A	Use wall and floor tiling tools and equipment
CPCCWF3001A	Prepare surfaces for tiling application
CPCCWF3002A	Fix floor tiles
CPCCWF3003A	Fix wall tiles
CPCCWF3004A	Repair wall and floor tiles
CPCCWF3005A	Carry out decorative tiling
CPCCWF3006A	Carry out mosaic tiling
CPCCWF3007A	Tile curved surfaces
CPCCWF3008A	Tile domestic pools and spas
CPCCWP2001A	Handle waterproofing materials
CPCCWP2002A	Use waterproofing tools and equipment

CPCCWP2003A	Prepare for construction waterproofing process
CPCCWP2004A	Prepare surfaces for waterproofing application
CPCCWP3001A	Apply waterproofing process to below ground level wet areas
CPCCWP3002A	Apply waterproofing process to internal wet areas
CPCCWP3003A	Apply waterproofing process to external wet areas
CPCCWP3004A	Apply waterproofing remedial processes
CPCMCM7001A	Plan and manage complex projects
CPCMCM7002A	Manage the quality of projects and processes
CPCPCM2039A	Carry out interactive workplace communication
CPCPCM2040A	Read plans and calculate plumbing quantities
CPCPCM2041A	Work effectively in the plumbing and services sector
CPCPCM2043A	Carry out WHS requirements
CPCPCM2045A	Handle and store plumbing materials
CPCPCM2046A	Use plumbing hand and power tools
CPCPCM2047A	Carry out levelling
CPCPCM2048A	Cut and join sheet metal
CPCPCM2049A	Cut using oxy-LPG-acetylene equipment
CPCPCM2050A	Mark out materials
CPCPCM2052A	Weld using oxy-acetylene equipment
CPCPCM2053A	Weld using manual metal arc welding equipment
CPCPCM2054A	Carry out simple concreting and rendering
CPCPCM2055A	Work safely on roofs
CPCPCM3021A	Flash penetrations through roofs and walls
CPCPCM3022A	Weld polyethylene and polypropylene pipes using fusion method

CPCPCM3023A	Fabricate and install non-ferrous pressure piping
CPCPCM4011A	Carry out work-based risk control processes
CPCPCM4012A	Estimate and cost work
CPCPCM4013A	Produce 2-D architectural drawings using CAD software
CPCPCM4014A	Prepare simple sketches and drawings
CPCPCM5010A	Design complex sanitary plumbing and drainage systems
CPCPCM5011A	Design complex cold water systems
CPCPCM5012A	Design complex stormwater and roof drainage systems
CPCPCM5013A	Design complex (non-solar) heated water systems
CPCPCM5014A	Design sewer infrastructure systems
CPCPDR2021A	Locate and clear blockages
CPCPDR2022A	Install domestic treatment plants
CPCPDR2023A	Maintain effluent disinfection systems
CPCPDR2024A	Install stormwater and sub-soil drainage systems
CPCPDR2025A	Drain work site
CPCPDR2026A	Install prefabricated inspection openings and enclosures
CPCPDR3021A	Plan layout of a residential sanitary drainage system
CPCPDR3022A	Install below ground sanitary drainage systems
CPCPDR3023A	Install on-site disposal systems
CPCPDR4011B	Design and size sanitary drainage systems
CPCPDR4012B	Design and size stormwater drainage systems
CPCPDR4013B	Design and size domestic treatment plant disposal systems

CPCPFS - CPCSUS

Code	Title
CPCPFS2021A	Connect static storage tanks for fixed fire protection systems
CPCPFS2022A	Install portable fire equipment
CPCPFS3030A	Design pre-calculated fire sprinkler systems
CPCPFS3031A	Fabricate and install fire hydrant and hose reel systems
CPCPFS3034A	Install control valve assemblies, actuating devices and local alarms
CPCPFS3036A	Install special hazard systems
CPCPFS3037A	Install domestic and residential life safety sprinkler systems
CPCPFS3038A	Test and maintain fire hydrant and hose reel installations
CPCPFS3040A	Conduct basic functional testing of water-based fire-suppression systems
CPCPFS3041A	Inspect and test fire pumpsets
CPCPFS3042A	Conduct annual functional testing of complex water-based fire-suppression systems
CPCPFS3043A	Conduct functional water flow testing
CPCPFS3044A	Install distribution and range pipes
CPCPFS3045A	Fit off sprinkler heads, controls and ancillary equipment
CPCPFS3046A	Test the integrity of water-based fire protection systems using pressure
CPCPFS3047A	Test and maintain automatic fire sprinklers
CPCPFS3048A	Install fixed fire pumpsets
CPCPFS3049A	Conduct preventive maintenance on fixed fire pumpsets
CPCPFS4021A	Commission domestic and residential fire suppression sprinkler systems
CPCPFS4022A	Commission and maintain special hazard fire suppression systems
CPCPFS4023A	Commission fire system pumpsets

CPCPFS4024A	Design residential and domestic fire sprinkler systems
CPCPFS4025A	Commission fire alarm and detection system interface devices
CPCPFS4026A	Commission firefighting appliances
CPCPFS4027A	Commission fire sprinkler systems
CPCPFS5010A	Design fire-compliant hydraulic services
CPCPFS5011A	Design fire sprinkler systems
CPCPFS5012A	Design fire hydrant and hose reel systems
CPCPGS3046A	Install LPG systems in caravans, mobile homes and mobile workplaces
CPCPGS3047A	Install LPG systems in marine craft
CPCPGS3048A	Install gas pressure control equipment
CPCPGS3049A	Install Type A gas appliance flues
CPCPGS3050A	Install Type B gas appliance flues
CPCPGS3051A	Purge consumer piping
CPCPGS3052A	Maintain Type A gas appliances
CPCPGS3053A	Disconnect and reconnect Type A gas appliances
CPCPGS3054A	Calculate and install natural ventilation for Type A gas appliances
CPCPGS3055A	Install gas sub-meters
CPCPGS3056A	Install gas piping systems
CPCPGS3057A	Size consumer gas piping systems
CPCPGS3059A	Install LPG storage of aggregate storage capacity up to 500 litres
CPCPGS3060A	Install LPG storage of aggregate storage capacity exceeding 500 litres and less than 8KL
CPCPGS3061A	Install and commission Type A gas appliances
CPCPGS4011C	Design and size consumer gas installations

CPCPGS4022A	Service Type A gas appliances
CPCPGS4023B	Install, commission and service Type B gas appliances
CPCPIG2021A	Design domestic urban irrigation systems
CPCPIG3021A	Set out, install and commission irrigation systems
CPCPIG3022A	Install and commission domestic irrigation pumps
CPCPMS2021A	Assemble mechanical services components
CPCPMS3031A	Fabricate and install steel pressure piping
CPCPMS3032A	Select and fit insulation and sheathing
CPCPMS3033A	Install small bore heating systems
CPCPMS3034A	Install medical gas pipeline systems
CPCPMS3035A	Install and test ducting systems
CPCPMS3036A	Install air handling units
CPCPMS3037A	Install and test split system air conditioning
CPCPMS3038A	Install air conditioning control equipment
CPCPMS3039A	Maintain mechanical services equipment
CPCPMS3040A	Install and maintain evaporative air cooling systems
CPCPMS3041A	Install domestic solid fuel burning appliances
CPCPMS4011B	Design, size and lay out heating and cooling systems
CPCPMS4022A	Commission air and water systems
CPCPMS4023A	Design compressed air systems
CPCPMS5010A	Design steam generation and distribution systems
CPCPMS5011A	Design air conditioning and ventilation systems
CPCPMS5012A	Design sound attenuated hydraulic services
CPCPMS5013A	Design hydronic heating and cooling systems
CPCPPS5000B	Design gas bulk storage systems

CPCPPS5001B	Design industrial gas systems
CPCPPS5002B	Design gas reticulation systems
CPCPPS5009B	Analyse and report on technical plumbing systems
CPCPPS5011B	Coordinate services and penetrations within a building
CPCPPS5014A	Locate and maintain piping systems
CPCPPS5015B	Inspect plumbing and drainage systems
CPCPPS5023A	Design solar water heating systems
CPCPPS5024A	Conduct a water audit and identify water-saving initiatives
CPCPPS5025A	Design grey water re-use systems
CPCPPS5026A	Design rainwater collection, storage, distribution and re-use systems
CPCPPS5027A	Design irrigation systems
CPCPPS5028A	Design trade waste pre-treatment systems
CPCPPS5030A	Design pump systems
CPCPPS5032A	Design siphonic stormwater drainage systems
CPCPPS5033A	Design vacuum sewerage systems
CPCPRF2022A	Select and install roof sheeting and wall cladding
CPCPRF2023A	Collect and store roof water
CPCPRF2024A	Fabricate roof coverings for curved structures
CPCPRF3021A	Receive roofing materials
CPCPRF3022A	Fabricate and install roof drainage components
CPCPRF3023A	Fabricate and install external flashings
CPCPRF3024A	Install roof components
CPCPRF3025A	Install roof coverings to curved roof structures
CPCPRF3026A	Install composite roof systems

CPCPRF4011B	Design and size roof drainage systems
CPCPSN3011B	Plan layout of a residential sanitary plumbing system
CPCPSN3022A	Install discharge pipes
CPCPSN3023A	Fabricate and install sanitary stacks
CPCPSN3024A	Install and fit off sanitary fixtures
CPCPSN3025A	Install pre-treatment facilities
CPCPSN3026A	Install sewerage pumpsets
CPCPSN4011B	Design and size sanitary plumbing systems
CPCPWT3020A	Connect and install storage tanks to a domestic water supply
CPCPWT3021A	Set out and install water services
CPCPWT3022A	Install and adjust water service controls and devices
CPCPWT3023A	Install and commission water heating systems
CPCPWT3024A	Install and maintain domestic water treatment equipment
CPCPWT3025A	Install water pumpsets
CPCPWT3026A	Fit off and commission heated and cold water services
CPCPWT3027A	Connect irrigation systems from drinking water supply
CPCPWT3028A	Install water services
CPCPWT3029A	Install water pipe systems
CPCPWT3030A	Install home fire sprinkler systems
CPCPWT4011B	Design and size heated and cold water services and systems
CPCPWT4022A	Commission and maintain backflow prevention devices
CPCPWT4023A	Commission and maintain hot and heated water temperature control devices
CPCSFS5001A	Define scope and hazard level of fire systems design projects
CPCSFS5002A	Research and interpret detailed fire systems design project requirements

CPCSFS5003A	Develop plans and methodology for fire systems design projects
CPCSFS5005A	Research and evaluate fire system technologies and components
CPCSFS5006A	Create detailed designs for fire sprinkler systems
CPCSFS5007A	Create detailed designs for hydrant and hose reel systems
CPCSFS5008A	Create detailed designs for fire detection and warning systems
CPCSFS5009A	Create detailed designs for fire systems' water supplies
CPCSFS5010A	Provide documentation and support for fabrication of fire sprinkler systems
CPCSFS5011A	Provide design documentation and review and support fire system installation processes
CPCSFS5013A	Support commissioning processes and finalise fire systems design projects
CPCSFS5014A	Conduct annual fire systems certification inspections
CPCSFS5015A	Assess documentation for annual fire systems certification inspections
CPCSFS7001A	Define scope of and initiate special hazard fire systems design projects
CPCSFS7002A	Analyse, design and evaluate complex special hazard fire systems
CPCSFS7003A	Develop and submit tenders for fire systems design solutions
CPCSUS4001A	Implement and monitor environmentally sustainable work practices
CPCSUS4002A	Use building science principles to construct energy efficient buildings
CPCSUS4003A	Maximise energy efficiency through applied trade skills
CPCSUS5001A	Develop workplace policies and procedures for sustainability
CPCSUS5002A	Develop action plans to retrofit existing buildings for energy efficiency
CPCSUS5003A	Manage energy efficient building methods and strategies

Imported units used in CPC08 qualifications

Imported units in CPC08v9	
Unit code	Unit title
AHCIRG306A	Troubleshoot irrigation systems
AHCLSC303A	Construct brick and/or block structures and features
AHCLSC307A	Implement a retaining wall project
BSBADM506B	Manage business document design and development
BSBAUD504B	Report on a quality audit
BSBCUS301B	Deliver and monitor a service to customers
BSBCUS402B	Address customer needs
BSBCUS501C	Manage quality customer service

BSBFIM501A	Manage budgets and financial plans
BSBHRM402A	Recruit, select and induct staff
BSBHRM509A	Manage rehabilitation or return to work programs
BSBINN301A	Promote innovation in a team environment
BSBINN502A	Build and sustain an innovative work environment
BSBITA401A	Design databases
BSBITS401B	Maintain business technology
BSBITU201A	Produce simple word processed documents
BSBITU202A	Create and use spreadsheets
BSBITU301A	Create and use databases
BSBITU402A	Develop and use complex spreadsheets
BSBITU404A	Produce complex desktop published documents
BSBLED401A	Develop teams and individuals
BSBLED502A	Manage programs that promote personal effectiveness
BSBMGT403A	Implement continuous improvement
BSBMGT502B	Manage people performance
BSBMGT515A	Manage operational plan
BSBMGT617A	Develop and implement a business plan
BSBMKG414A	Undertake marketing activities
BSBMKG609A	Develop a marketing plan
BSBOHS201A	Participate in OHS processes
BSBOHS403B	Identify hazards and assess OHS risks
BSBOHS404B	Contribute to the implementation of strategies to control OHS risk
BSBOHS504B	Apply principles of OHS risk management
BSBOHS603B	Analyse and evaluate OHS risk

BSBPMG404A	Apply quality management techniques
BSBPMG407A	Apply risk management techniques
BSBPMG411A	Apply project quality management techniques
BSBPMG415A	Apply project risk management techniques
BSBPMG504A	Manage project costs
BSBPMG505A	Manage project quality
BSBPMG507A	Manage project communications
BSBPMG508A	Manage project risk
BSBPMG510A	Manage projects
BSBPMG522A	Undertake project work
BSBRES401A	Analyse and present research information
BSBR5K501B	Manage risk
BSBSLS403A	Present a sales solution
BSBSLS404A	Secure prospect commitment
BSBSLS502A	Lead and manage a sales team
BSBSMB301A	Investigate micro business opportunities
BSBSMB401A	Establish legal and risk management requirements of small business
BSBSMB402A	Plan small business finances
BSBSMB404A	Undertake small business planning
BSBSMB405B	Monitor and manage small business operations
BSBSMB406A	Manage small business finances
BSBSMB407A	Manage a small team
BSBWOR401A	Establish effective workplace relationships
BSBWOR402A	Promote team effectiveness
BSBWOR501B	Manage personal work priorities and professional development

BSBWOR502B	Ensure team effectiveness
BSBWRT401A	Write complex documents
CHCCOM403A	Use targeted communication skills to build relationships
CHCCOM504A	Develop, implement and promote effective workplace communication
CPPCMN2002A	Participate in workplace safety arrangements
CPPDSM4014A	Market property for sale
CPPDSM4022A	Sell and finalise the sale of property by private treaty
CPPDSM5022A	Implement asset management plan
CPPDSM6002A	Conduct a property investment feasibility study
CPPDSM6008A	Develop strategic facilities management plan
CPPFES2006A	Prepare for installation and servicing operations
CPPFES2025A	Inspect, test and maintain gaseous fire-suppression systems
CPPFES2043A	Prevent ozone depleting substance and synthetic greenhouse gas emissions
CPPFES2047A	Inspect and test control and indicating equipment
HLTFA211A	Provide basic emergency life support
HLTHIR403C	Work effectively with culturally diverse clients and co-workers
ICAICT201A	Operate a personal computer
ICAICT102A	Operate a word processing application
ICAICT105A	Operate a spreadsheet application
ICAICT210A	Operate a database application
ICAICT103A	Send and retrieve information using web browsers and email
LGAPLEM502A	Apply ecologically sustainable development principles to the built environment
LMFFM3006B	Install furnishing products
LMFFM3013B	Measure and draw site layout for manufactured furniture products

LMFFM3028B	Fabricate synthetic solid surface products
LMFFM3030B	Set up, operate and maintain CNC sizing machines
LMFFM3031B	Set up, operate and maintain CNC machining and processing centres
LMFFT4010B	Identify and calculate production costs
LMFGG2008B	Glaze/re-glaze residential windows and doors
MEM05010C	Apply fabrication, forming and shaping techniques
MEM05049B	Perform routine gas tungsten arc welding
MEM05050B	Perform routine gas metal arc welding
MEM10009B	Install refrigeration and air conditioning plant and equipment
MEM10010B	Install pipework and pipework assemblies
MEM18086B	Test, recover, evacuate and charge refrigeration systems
RIICCM210A	Install trench support
RIICFW302A	Install temporary and permanent rock anchors
RIICWD503A	Prepare work zone traffic management plan
RIIOHS202A	Enter and work in confined spaces
RIIOHS205A	Control traffic with stop-slow bat
RIIOHS302A	Implement traffic management plan
RIIWMG203A	Drain and dewater civil construction site
TAEDEL402A	Plan, organise and facilitate learning in the workplace
TLIB3011A	Set up and rig crane for lift
TLIB3013A	Maintain mobile cranes
TLIB3015A	Undertake site inspection
TLIF2006A	Apply accident-emergency procedures
TLIF2010A	Apply fatigue management strategies
TLIF3084A	Follow mobile crane safety procedures

TLILIC2001A	Licence to operate a forklift truck
TLILIC2005A	Licence to operate a boom-type elevating work platform (boom length 11 meters or more)
TLILIC2016A	Licence to drive heavy rigid vehicle
TLILIC3006A	Licence to operate a non-slewing mobile crane (greater than 3 tonnes capacity)
TLILIC3008A	Licence to operate a slewing mobile crane (up to 20 tonnes)
TLILIC4009A	Licence to operate a slewing mobile crane (up to 60 tonnes)
TLILIC4010A	Licence to operate a slewing mobile crane (up to 100 tonnes)
TLILIC4011A	Licence to operate a slewing mobile crane (over 100 tonnes)
UEENEEE101A	Apply Occupational Health and Safety regulations, codes and practices in the workplace
UEENEEJ102A	Prepare and connect refrigerant tubing and fittings
UEENEEJ105A	Position, assemble and start up single head split air conditioning and water heating heat pump systems
UEENEEJ172A	Recover, pressure test, evacuate, charge and leak test refrigerants – split systems

	outcomes. Has a new elective high risk work licensing unit included	numeric for the year has been changed to '08'.
CPC30408 Certificate III in Demolition	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC30508 Certificate III in Dogging	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes. Has a new core high risk work licensing unit included	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC30608 Certificate III in Painting and Decorating	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes. Has two units in decorative painting techniques split and enhanced: advanced decorating in the bank of elective units, as well as a new unit for application of intumescent coatings. Critical aspects of evidence updated in several units to require completion of 6 square metres of surface from previous 8 square metres.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC30708 Certificate III in Rigging	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes. Has two new core high risk work licensing units included	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.

Qualification code and title in Version 1 Training Package	Relationship to qualifications in previous Training Package	Comments in relation to previous versions of this Training Package
CPC30808 Certificate III in Roof Tiling	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC30908 Certificate III in Scaffolding	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes. Has two new core high risk work licensing units included	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31008 Certificate III in Solid Plastering	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31108 Certificate III in Steelfixing	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31208 Certificate III in Wall and Ceiling Lining	Updated qualification from previous BCG03 General Construction Training Package. Combines the previous Certificate III in Wall and Ceiling Lining (Plasterboard) developed as part of the COAG initiated intermediate qualifications development. Units from both previous qualifications have been combined in a restructured core and elective model.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.

Qualification code and title in Version 1 Training Package	Relationship to qualifications in previous Training Package	Comments in relation to previous versions of this Training Package
CPC31308 Certificate III in Wall and Floor Tiling	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31408 Certificate III in Construction Waterproofing	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes. Three waterproofing-specific units of competency are now core, whereas the previous qualification only required completion of one of the three. 'General Construction' in qualification title removed.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31508 Certificate III in Formwork/Falsework	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes. Update of packaging based on review consultation advice.	This qualification was added to the BCG03 General Construction Training Package in October 2006 as part of the COAG initiated development of intermediate construction qualifications. The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31608 Certificate III in Paving	New qualification to meet the needs of specialist pavers. Includes five new paving-specific units and draws on existing construction units for completion.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31708 Certificate III in Low Rise	Updated qualification from previous BCG03 General	This qualification was added to the BCG03 General

Qualification code and title in Version 1 Training Package	Relationship to qualifications in previous Training Package	Comments in relation to previous versions of this Training Package
Structural Framing	Construction Training Package. Same essential outcomes. Update of packaging based on review consultation advice.	Construction Training Package in October 2006 as part of the COAG initiated development of intermediate construction qualifications. The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31808 Certificate III in Shopfitting	Updated qualification from BCF00 Off-Site Training Package. Has restructured packaging, using specialist shopfitting and general construction units.	This qualification incorporates some units of competency in previous BCF00 Off-Site Training Package qualifications: Certificate III in Off-Site Construction (Machining) and Certificate III in Off-Site Construction (Pre-fabrication). These qualifications were not widely used and to some degree are replicated in other Training Packages so have been removed from the Training Package. The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC31908 Certificate III in Joinery	Updated qualification from BCF00 Off-Site Construction Training Package. Has restructured packaging using specialist joinery, shopfitting and general construction units.	This qualification incorporates some units of competency in previous BCF00 Off-Site Training Package qualifications: Certificate III in Off-Site Construction (Machining)

Qualification code and title in Version 1 Training Package	Relationship to qualifications in previous Training Package	Comments in relation to previous versions of this Training Package
		<p>and Certificate III in Off-Site Construction (Pre-fabrication).</p> <p>These qualifications were not widely used and to some degree are replicated in other Training Packages so have been removed from the Training Package.</p> <p>The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.</p>
CPC32008 Certificate III in Carpentry and Joinery	New qualification to meet the needs of jurisdictions that still have this joint trade outcome. Uses units from Carpentry and Joinery Certificate III qualifications in a flexible packaging arrangement.	
CPC32108 Certificate III in Signage	New qualification to meet the needs of the signage industry. Includes updated units from general and previous sign industry qualifications, plus six new units reflecting new technologies used in the industry.	This qualification replaces three previous BCF00 Off-Site Construction Training Package qualifications. These were Certificate III in Off-Site Construction (Sign Writing/Computer Operation), Certificate III in Off-Site Construction (sign Manufacture and Certificate III in Off-Site Construction (Neon Manufacture).
CPC32208 Certificate III in Joinery (Stairs)	Updated qualification from BCF00 Off-Site Construction Training Package. Has restructured packaging using specialist stair building,	This qualification incorporates some competencies in previous BCF00 Off-Site Training

Qualification code and title in Version 1 Training Package	Relationship to qualifications in previous Training Package	Comments in relation to previous versions of this Training Package
	joinery and general construction units.	<p>package qualifications:</p> <p>Certificate III in Off-Site Construction (Machining) and Certificate III in Off-Site Construction (Pre-fabrication).</p> <p>These qualifications were not widely used and to some degree are replicated in other Training Packages so have been removed from the Framework.</p> <p>The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.</p>
CPC32308 Certificate III in Stonemasonry (Monumental/Installation)	Updated qualification from BCF00 Off-Site Construction Training Package. Has restructured packaging using specialist stonemasonry and general construction units.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC32408 Certificate III in Plumbing	<p>Revised qualification from previous BCP03 Plumbing and Services Training Package. The packaging requirements have been changed on industry advice to now identify two mandatory streams of the minimum four streams required to complete the qualification - Water and Sanitary.</p> <p>The Roofing stream also has 8 instead of 9 core units and Water stream 23 instead of 24 core units.</p>	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.

Qualification code and title in Version 1 Training Package	Relationship to qualifications in previous Training Package	Comments in relation to previous versions of this Training Package
CPC32508 Certificate III in Plumbing (Mechanical Services)	Updated qualification from previous BCP03 Plumbing and Services Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC32608 Certificate III in Roof Plumbing	Revised qualification from previous BCP03 Plumbing and Services Training Package. The packaging requirements are 21 core units instead of the previous 20 and 4 elective units, instead of the previous 10.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC32708 Certificate III in Gas Fitting	Updated qualification from previous BCP03 Plumbing and Services Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC32808 Certificate III in Fire Protection	<p>Revised qualification from previous BCP03 Plumbing and Services Training Package. Packaging has been amended to reflect Extinguishing Agent Handling Licences as follows:</p> <p>Addition to core unit requirements of three units imported from CPP07 Property Services Training Package</p> <p><i>PRMPFS25C Inspect, test and maintain gaseous fire suppression systems</i></p> <p><i>PRMPFS43A Prevent ozone depleting substance and synthetic greenhouse gas</i></p>	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.

	<i>emissions</i> <i>PRMPFS47A Inspect and test control and indicating equipment.</i>	
CPC40108 Certificate IV in Building and Construction (Building)	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes. Has additional advice on State and Territory builder licensing requirements in qualification notes	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC40208 Certificate IV in Building and Construction (Contract Administration)	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC40308 Certificate IV in Building and Construction (Estimating)	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC40408 Certificate IV in Building and Construction (Sales)	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC40508 Certificate IV in Building and Construction (Site Management)	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC40608 Certificate	Updated qualification from	The qualification code stem

Qualification code and title in Version 1 Training Package	Relationship to qualifications in previous Training Package	Comments in relation to previous versions of this Training Package
IV in Building and Construction (Specialist Trades)	previous BCG03 General Construction Training Package. Same essential outcomes. Has four new elective high risk work licensing units included. Has new advice on pre-requirements for Heritage restoration and Refractory bricklaying streams.	has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC40708 Certificate IV in Building and Construction (Trade Contracting)	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC40808 Certificate IV in Swimming Pool and Spa Building	New qualification to meet industry demand and regulatory requirements. The qualification is based on the Certificate IV in Building and Construction (Building) with three new core units specific to swimming pool and spa building.	
CPC40908 Certificate IV in Plumbing and Services	Updated qualification from previous BCP03 Plumbing and Services Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC50108 Diploma of Building Surveying	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC50208 Diploma of Building and	Updated qualification from previous BCG03 General Construction Training	The qualification code stem has been updated to reflect the new Integrated

Qualification code and title in Version 1 Training Package	Relationship to qualifications in previous Training Package	Comments in relation to previous versions of this Training Package
Construction (Building)	Package. Same essential outcomes.	Framework and the end numeric for the year has been changed to '08'.
CPC50308 Diploma of Building and Construction (Management)	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC50408 Diploma of Plumbing and Services	Updated qualification from previous BCP03 Plumbing and Services Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC60108 Advanced Diploma of Building Surveying	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.
CPC60208 Advanced Diploma of Building and Construction (Management)	Updated qualification from previous BCG03 General Construction Training Package. Same essential outcomes.	The qualification code stem has been updated to reflect the new Integrated Framework and the end numeric for the year has been changed to '08'.

Mapping of CPC08v9 units of competency

Mapping CPC08 Version 9.1 units to Version 9

Deletion of the following units associated with the qualification CPC50108 Diploma of Building Surveying

- CPCCSV5001A Assess the construction of domestic scale buildings
- CPCCSV5002A Evaluate materials for construction of domestic scale buildings
- CPCCSV5005A Apply footing and geomechanical design principles to domestic scale buildings
- CPCCSV5006A Assess construction faults in residential buildings
- CPCCSV5007A Undertake site surveys and set-out procedures for building projects
- CPCCSV5008A Apply building control legislation to building surveying
- CPCCSV5010A Interact with clients in a regulated environment
- CPCCSV5011A Apply building codes and standards to residential buildings
- CPCCSV5012A Assess timber-framed designs for one and two storey buildings
- CPCCSV5013A Apply principles of energy efficient design to buildings
- CPCCSV5014A Apply building surveying procedures to residential buildings
- CPCCSV5015A Assess structural requirements for domestic scale buildings

Mapping Version 9 CPC08 units of competency to Version 8 CPC08

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCCCO2021A Handle concreting materials	CPCCCO2011A Handle concreting materials	Changes to performance criteria, range statement, evidence requirements and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO2011A	N
CPCCCO2022A Use and maintain concreting plant, tools and equipment	CPCCCO2012A Use concreting tools and equipment	Changes to unit title, elements, performance criteria, range statement, required skills, methods of assessment, guidance information for assessment Range of other minor editorial changes Not equivalent to CPCCCO2012A	N
CPCCCO3035A		New unit	

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
Assess and specify concrete supply requirements			
CPCCCO3036A Plan concrete work and brief team		New unit	
CPCCCO3041A Place concrete	CPCCCO3021A Place concrete	Changes to descriptor, elements and performance criteria, required skills and knowledge, critical aspects for assessment, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3021A	N
CPCCCO3042A Finish concrete	CPCCCO3022A Finish concrete	Changes to elements and performance criteria, range statement, critical aspects for assessment, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3022A	N
CPCCCO3043A Cure concrete	CPCCCO3023A Cure concrete	Changes to descriptor, elements and performance criteria, range statement, critical aspects for assessment, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3023A	N
CPCCCO3044A Carry out decorative finishes to concrete	CPCCCO3024A Carry out decorative finishes to concrete	Changes to elements and performance criteria, required skills and knowledge, range statement, critical aspects for assessment, and methods of assessment Range of other minor editorial	N

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		changes Not equivalent to CPCCCO3024A	
	CPCCCO3025A Resurface concrete	Deleted unit Replaced by non-equivalent CPCCCO3055A Install topping slabs	

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCCCO3046A Repair and rectify concrete	CPCCCO3026A Carry out repair and rectification of concrete	Changes to unit title, performance criteria, required skills and knowledge, range statement, critical aspects for assessment, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3026A	N
CPCCCO3047A Cut and core concrete	CPCCCO3027A Cut and core concrete	Changes to performance criteria, required skills and knowledge, range statement, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3027A	N
CPCCCO3048A Construct tilt panels on site	CPCCCO3028A Carry out tilt panel construction	Changes to unit title, elements and performance criteria, required skills and knowledge, range statement, critical aspects for assessment, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3028A	N
CPCCCO3049A Apply and finish sprayed concrete	CPCCCO3029A Apply and finish sprayed concrete	Changes to performance criteria, required skills and knowledge, range statement, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3029A	N
CPCCCO3050A Carry out high performance concreting	CPCCCO3030A Carry out high performance concreting	Changes to performance criteria, required skills and knowledge, range statement, and methods of assessment Range of other minor editorial changes	N

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Not equivalent to CPCCCO3030A	
CPCCCO3051A Conduct off-form vertical concrete operations	CPCCCO3031A Conduct off-form vertical concrete operations	Changes to performance criteria, required skills and knowledge, range statement, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3031A	N
CPCCCO3052A Conduct concrete boom delivery operations	CPCCCO3032A Conduct concrete boom delivery operations	Changes to performance criteria, required skills and knowledge, range statement, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3032A	N
CPCCCO3053A Slump test concrete	CPCCCO3033A Slump test concrete	Changes to performance criteria, required skills and knowledge, range statement, critical aspects for assessment, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3033A	N
CPCCCO3054A Operate concrete agitator trucks	CPCCCO3034A Conduct concrete agitator truck operations	Changes to unit title, performance criteria, required skills and knowledge, range statement, and methods of assessment Range of other minor editorial changes Not equivalent to CPCCCO3034A	N
CPCCCO3055A Install topping slabs	CPCCCO3025A Resurface concrete	Changes to unit title, descriptor, elements and performance criteria, required skills and knowledge, range statement, critical aspects for assessment, and methods of assessment	N

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Range of other minor editorial changes Not equivalent to CPCCCO3025A	
CPCCCO4001A Supervise concreting work		New unit	
	CPCCDE2011A Use demolition tools and equipment	Deleted unit Replaced by new units CPCCDE3017A and CPCCDE3018A	
	CPCCDE3011A Carry out mechanical general demolition	Deleted unit Replaced by new units CPCCDE3023A, CPCCDE3024A, CPCCDE3025A and CPCCDE3026A	
	CPCCDE3013A Operate a crushing plant	Deleted unit Replaced by CPCCDE3021A	

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCCCDE3016A Identify hazards on demolition sites and apply risk management strategies		New unit	
CPCCCDE3017A Select and use hand tools and equipment for demolition tasks		New unit	
CPCCCDE3018A Select and use small plant and equipment for demolition tasks		New unit	
CPCCCDE3019A Demolish small buildings and structures using hand tools and small plant and equipment		New unit	
CPCCCDE3020A Select and use tools and equipment for hot work in the demolition industry		New unit	
CPCCCDE3021A Operate demolition material crushing plants	CPCCCDE3013A Operate a crushing plant	New unit, based on CPCCCDE3013A Not equivalent to CPCCCDE3013A	N
CPCCCDE3022A Manage demolition recyclable and waste materials using load shifting equipment		New unit	
CPCCCDE3023A Operate skid steer		New unit	

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
loaders at ground level on demolition sites			
CPCCCDE3024A Operate mobile plant on suspended floors on demolition sites		New unit	
CPCCCDE3025A Operate remote-controlled plant on demolition sites		New unit	
CPCCCDE3026A Operate excavators at ground level to demolish building elements		New unit	
CPCCCDE4001A Plan and prepare for activities on demolition sites		New unit	
CPCCCDE4002A Plan and supervise demolition work to minimise environmental and public health and safety impact		New unit	
CPCCCDE4003A Supervise individual activities on demolition sites		New unit	
CPCCCDE4004A Finalise demolition activities and supervise property		New unit	

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
handover			
CPCCJN2002B Prepare for off-site manufacturing process	CPCCJN2002A Prepare for off-site manufacturing process	Minor changes in required knowledge and range statement Other minor editorial changes Equivalent to CPCCJN2002A	E
	CPCCST2002A Identify and use stone products	Deleted unit Replaced by CPCCST2006A	
CPCCST2006A Identify and use stone products	CPCCST2002A Identify and use stone products	Changes to descriptor, application, performance criteria (including additional performance criteria), required skills and knowledge, and critical aspects for assessment Range of other minor editorial changes Not equivalent to CPCCST2002A	N
	CPCCST3005A Carry out profile work	Deleted unit Replaced by new unit CPCCST3022A Carry out profile work	
	CPCCST3008A Inlay lead to stone	Deleted unit Replaced by new unit CPCCST3018A Inlay lead to stone	

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCCST3015A Apply gilding to stone		New unit based on superseded unit BCG3083A Apply gilding to stone Not equivalent to superseded BCG unit	
CPCCST3016A Build solid stonemasonry walls		New unit based on superseded unit BCF3059A Cavity and solid construction Not equivalent to superseded BCF unit	
CPCCST3017A Construct stone arches		New unit based on superseded unit BCG3056A Construct stone arches Not equivalent to superseded BCG unit	
CPCCST3018A Inlay lead to stone	CPCCST3008A Inlay lead to stone	New unit based on superseded unit CPCCST3008A Not equivalent to CPCCST3008A	N
CPCCST3019A Lay stonemasonry stairs		New unit based on superseded unit BCF3027A Lay stair and floor surfaces Not equivalent to superseded BCF unit	
CPCCST3020A Produce reconstituted stone		New unit based on superseded unit BCG3053A Produce reconstituted stone Not equivalent to superseded BCG unit	
CPCCST3021A Renovate and restore stone work		New unit based on superseded unit BCG3050A Renovate and restore stone work Not equivalent to superseded BCG unit	
CPCCST3022A Carry out profile work	CPCCST3005A Carry out profile work	Changes to application, performance criteria, required knowledge, and critical aspects for assessment	N

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Range of other minor editorial changes Not equivalent to CPCCST3005A	
CPCPFS3044A Install distribution and range pipes	CPCPFS3032A Install distribution and range pipes	Outcomes changed to include reference to draining down. References to sustainability and work health and safety strengthened Range of other minor editorial changes Not equivalent to CPCPFS3032A	N
CPCPFS3045A Fit off sprinkler heads, controls and ancillary equipment	CPCPFS3033A Fit off sprinkler heads, controls and ancillary equipment	Outcomes changed to include references to draining down and recharging. References to sustainability and work health and safety strengthened Range of other minor editorial changes Not equivalent to CPCPFS3033A	N
CPCPFS3046A Test the integrity of water-based fire protection systems using pressure	CPCPFS3035A Test fire protection systems for pressure	Change to unit title Outcomes changed to include references to draining down and recharging. References to sustainability and work health and safety strengthened Range of other minor editorial changes Not equivalent to CPCPFS3035A	N
CPCPFS3047A Test and maintain automatic fire sprinklers	CPCPFS3039A Test and maintain automatic fire sprinklers	Outcomes changed to include references to draining down and recharging. References to sustainability and work health and safety strengthened Range of other minor editorial changes Not equivalent to CPCPFS3039A	N

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCPFS3048A Install fixed fire pumpsets		New unit	
CPCPFS3049A Conduct preventive maintenance on fixed fire pumpsets		New unit	
CPCPFS4027A Commission fire sprinkler systems		New unit	
	CPCPGS3058A Install and commission Type A gas appliances	Deleted unit	

Unit code and title in V9 Training Package	Relationship to units in V8 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCPGS3061A Install and commission Type A gas appliances	CPCPGS3058A Install and commission Type A gas appliances	Performance criterion and item in required knowledge section added Not equivalent to CPCPGS3058A	N
CPCPGS4011C Design and size consumer gas installations	CPCPGS4011B Design and size consumer gas installations	Reference to standard updated in required knowledge section Equivalent to CPCPGS4011B	E
CPCPGS4023B Install, commission and service Type B gas appliances	CPCPGS4023A Install, commission and service Type B gas appliances	Reference to standards updated in required knowledge section and range statement Equivalent to CPCPGS4023A	E
CPCSUS4002A Use building science principles to construct energy efficient buildings		New unit	
CPCSUS4003A Maximise energy efficiency through applied trade skills		New unit	
CPCSUS5002A Develop action plans to retrofit existing buildings for energy efficiency		New unit	
CPCSUS5003A Manage energy efficient building methods and strategies		New unit	

Mapping of CPC08v8 units of competency

Mapping Version 8 CPC08 units of competency to Version 7

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCCBC4012B Read and interpret plans and specifications	CPCCBC4012A Read and interpret plans and specifications	Minor change in unit descriptor and evidence guide overview information Equivalent to CPCCBC4012A	E
CPCCBC5007B Administer the legal obligations of a building or construction contractor	CPCCBC5007A Administer the legal obligations of a building or construction contract	Minor editorial corrections to restore original intent to represent contractors rather than contracts, including associated change in unit title Literacy skills required for completing legal documents and records made more explicit Equivalent to CPCCBC5007A	E
CPCCBC6001B Apply building codes and standards to the construction process for large building projects	CPCCBC6001A Apply building codes and standards to the construction process for large building projects	Minor changes throughout unit, mostly reflecting update to National Construction Code Equivalent to CPCCBC6001A	E
CPCCBC6018A Manage processes for complying with legal obligations of a building or construction contractor	CPCCBC6004A Manage processes for and legal obligations of a building or construction contract	Changes to unit title, descriptor, application, required knowledge and critical aspects Not equivalent to CPCCBC6004A	N
CPCCCA2002B Use carpentry tools and equipment	CPCCCA2002A Use carpentry tools and equipment	Minor editorial corrections, including: removing reference to drawing requirements reformatting and rewording some critical aspects (intent unchanged) to enhance clarity Equivalent to CPCCCA2002A	E

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCCCA3005B Construct ceiling frames	CPCCCA3005A Construct ceiling frames	Photovoltaic (solar) panels added to range statement Equivalent to CPCCCA3005A	E
CPCCCA3006B Erect roof trusses	CPCCCA3006A Erect roof trusses	Change to performance criterion Equivalent to CPCCCA3006A	E
CPCCCA3007C Construct pitched roofs	CPCCCA3007B Construct pitched roofs	Photovoltaic (solar) panels added to range statement Equivalent to CPCCCA3007B	E
CPCCCA3008B Construct eaves	CPCCCA3008A Construct eaves	Photovoltaic (solar) panels added to range statement Equivalent to CPCCCA3008A	E
CPCCCA3009B Construct advanced roofs	CPCCCA3009A Construct advanced roofs	Minor change made in prerequisite unit CPCCCA3007C Equivalent to CPCCCA3009A	E
CPCCCA3017B Install exterior cladding	CPCCCA3017A Install exterior cladding	Photovoltaic (solar) panels added to range statement Equivalent to CPCCCA3017A	E
CPCCCM2005B Use construction tools and equipment	CPCCCM2005A Use construction tools and equipment	Minor editorial and formatting changes Equivalent to CPCCCM2005A	E
CPCCCM2006B Apply basic levelling procedures	CPCCCM2006A Apply basic levelling procedures	Minor editorial and formatting changes Equivalent to CPCCCM2006A	E
CPCCCM2007B Use explosive power tools	CPCCCM2007A Use explosive power tools	Minor changes made to range statement, including addition of photovoltaic (solar) panels Equivalent to CPCCCM2007A	E
CPCCCM2008B Erect and dismantle restricted height	CPCCCM2008A Erect and dismantle restricted height	Photovoltaic (solar) panels added to range statement Equivalent to CPCCCM2008A	E

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
scaffolding	scaffolding		
CPCCCM2010B Work safely at heights	CPCCCM2010A Work safely at heights	Photovoltaic (solar) panels added to range statement Equivalent to CPCCCM2010A	E
CPCCCM1016A Identify requirements for safe tilt-up work	CPCCCM2011A Carry out tilt-up work safely	Nominal AQF level of unit and unit title changed to better reflect unit outcomes Prerequisite unit requirement removed Changes to wording of elements and required skills Not equivalent to CPCCCM2011A	N
CPCCCM3001C Operate elevated work platforms	CPCCCM3001B Operate elevated work platforms	Minor change made in prerequisite unit CPCCCM2010B Equivalent to CPCCCM3001B	E
CPCCPB3026B Erect and maintain trestle and plank systems	CPCCPB3026A Erect and maintain trestle and plank systems	Minor editorial change in PC 1.6 Equivalent to CPCCPB3026A	E
CPCCPD3030B Apply protective paint coating systems	CPCCPD3030A Apply protective paint coating systems	Photovoltaic (solar) panels added to range statement Equivalent to CPCCPD3030A	E
CPCCRT3003B Repair and replace valleys, valley irons and flashings	CPCCRT3003A Repair and replace valleys, valley irons and flashings	Photovoltaic (solar) panels added to range statement Equivalent to CPCCRT3003A	E
CPCCRT3004B Repair and renovate tile roofs	CPCCRT3004A Repair and renovate tile roofs	Photovoltaic (solar) panels added to range statement Equivalent to CPCCRT3004A	E
CPCCRT3005B Slate a roof	CPCCRT3005A Slate a roof	Photovoltaic (solar) panels added to range statement Equivalent to CPCCRT3005A	E

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCCRT3006B Fix shingles to roofs and facades	CPCCRT3006A Fix shingles to roofs and facades	Photovoltaic (solar) panels added to range statement Equivalent to CPCCRT3006A	E
CPCCSH3006A Apply finishes	CPCCSH3004A Apply finishes	Element 6 and associated unit content relating to powder coating removed Not equivalent to CPCCSH3004A	N
CPCCSI3015A Produce airbrushed signage		New unit	
CPCCSI3016A Produce digital signage using advanced software applications		New unit	
CPCCVE1002B Undertake a basic computer design project	CPCCVE1002A Undertake a basic computer design project	Minor changes throughout unit Equivalent to CPCCVE1002A	E
CPCPCM2039A Carry out interactive workplace communication	CPCPCM2002A Carry out interactive workplace communication	Changes to performance criteria, required skills, range statement and critical aspects Not equivalent to CPCPCM2002A	N
CPCPCM2040A Read plans and calculate plumbing quantities	CPCPCM2004A Read plans and calculate plumbing quantities	Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2004A	N
	CPCPCM2011A Apply first aid in the workplace	Unit deleted and replaced with imported HLT07 unit (HLTFA211A)	

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCPCM2041A Work effectively in the plumbing and services sector	CPCPCM2021A Work effectively in the plumbing and services sector	Prerequisite unit updated Content on sustainability added to PC and range statement Minor updates to content throughout Changed critical aspects Not equivalent to CPCPCM2021A	N
CPCPCM2043A Carry out WHS requirements	CPCPCM2023A Carry out OHS requirements	Changes to application, elements and performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2023A	N
CPCPCM2045A Handle and store plumbing materials	CPCPCM2025A Handle and store plumbing materials	Prerequisite unit updated Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2025A	N
CPCPCM2046A Use plumbing hand and power tools	CPCPCM2026A Use plumbing hand and power tools	Prerequisite unit updated Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2026A	N
CPCPCM2047A Carry out levelling	CPCPCM2027A Carry out levelling	Prerequisite unit updated Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2027A	N
CPCPCM2048A Cut and join sheet metal	CPCPCM2028A Cut and join sheet metal	Prerequisite unit updated Changes to performance criteria, required skills, range statement and critical aspects Not equivalent to CPCPCM2028A	N

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCPCM2049A Cut using oxy-LPG-acetylene equipment	CPCPCM2029A Cut using oxy-LPG-acetylene equipment	Prerequisite unit updated Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2029A	N
CPCPCM2050A Mark out materials	CPCPCM2030A Mark out materials	Prerequisite unit updated Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2030A	N
CPCPCM2052A Weld using oxy-acetylene equipment	CPCPCM2032A Weld using oxy-acetylene equipment	Prerequisite unit updated Changes to descriptor, performance criteria, required skills, range statement and critical aspects Not equivalent to CPCPCM2032A	N
CPCPCM2053A Weld using manual metal arc welding equipment	CPCPCM2033A Weld using arc welding equipment	Prerequisite unit updated Changes to unit title, descriptor, performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2033A	N
CPCPCM2054A Carry out simple concreting and rendering	CPCPCM2034A Carry out simple concreting and rendering	Prerequisite unit updated Changes to performance criteria, required skills, range statement and critical aspects Not equivalent to CPCPCM2034A	N
CPCPCM2055A Work safely on roofs	CPCPCM2035A Work safely on roofs	Prerequisite unit updated Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM2035A	N
CPCPCM3021A Flash penetrations	CPCPCM3011A Flash penetrations	Prerequisite unit updated Changes to descriptor, performance	N

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
through roofs and walls	through roofs and walls	criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM3011A	
CPCPCM3022A Weld polyethylene and polypropylene pipes using fusion method	CPCPCM3012A Weld plastic pipe using fusion method	Prerequisite unit updated Changes to unit title, descriptor, application, performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM3012A	N
CPCPCM3023A Fabricate and install non-ferrous pressure piping	CPCPCM3013A Fabricate and install non-ferrous pressure piping	Prerequisite unit updated Changes to application, performance criteria, required skills, range statement and critical aspects Not equivalent to CPCPCM3013A	N
CPCPCM4011A Carry out work-based risk control processes	CPCPCM4001A Carry out work-based risk control processes	Changes to performance criteria, required skills and knowledge, range statement, critical aspects and context of assessment Not equivalent to CPCPCM4001A	N
CPCPCM4012A Estimate and cost work	CPCPCM4002A Estimate and cost work	Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM4002A	N
CPCPCM4013A Produce 2-D architectural drawings using CAD software	CPCPCM4003A Produce 2-D architectural drawings using CAD software	Changes to application, element, performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM4003A	N
CPCPCM4014A Prepare simple sketches and drawings	CPCPCM4004A Prepare simple sketches and drawings	Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM4004A	N

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
CPCPCM5010A Design complex sanitary plumbing and drainage systems	CPCPCM5000A Design complex sanitary plumbing and drainage systems	Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM5000A	N
CPCPCM5011A Design complex cold water systems	CPCPCM5001A Design complex cold water systems	Changes to descriptor, performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM5001A	N
CPCPCM5012A Design complex stormwater and roof drainage systems	CPCPCM5002B Design complex stormwater and roof drainage systems	Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM5002B	N
CPCPCM5013A Design complex (non-solar) heated water systems	CPCPCM5003B Design complex (non-solar) heated water systems	Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM5003B	N
CPCPCM5014A Design sewer infrastructure systems	CPCPCM5004A Design sewer systems	Changes to unit title, descriptor, performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPCM5004A	N
CPCPDR2021A Locate and clear blockages	CPCPDR2011A Locate and clear blockages	Prerequisite unit updated Changes to descriptor, performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPDR2011A	N
CPCPDR2022A Install domestic treatment plants	CPCPDR2012A Install domestic treatment plants	Prerequisite unit updated plus minor changes to unit Not equivalent to CPCPDR2012A	N
CPCPDR2023A Maintain effluent	CPCPDR2013A Maintain effluent	Prerequisite unit updated	N

Unit code and title in V8 Training Package	Relationship to units in V7 CPC08	Comments in relation to previous version of this Training Package	Equivalent / Not equivalent
disinfection systems	disinfection systems	Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPDR2013A	
CPCPDR2024A Install stormwater and sub-soil drainage systems	CPCPDR2014A Install stormwater and sub-soil drainage systems	Prerequisite unit updated plus minor changes to unit Not equivalent to CPCPDR2014A	N
CPCPDR2025A Drain work site	CPCPDR2015A Drain work site	Prerequisite unit updated Changes to performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPDR2015A	N
CPCPDR2026A Install prefabricated inspection openings and enclosures	CPCPDR2016A Install prefabricated inspection openings and enclosures	Prerequisite unit updated plus minor changes to unit Not equivalent to CPCPDR2016A	N
CPCPDR3021A Plan layout of a residential sanitary drainage system	CPCPDR3011A Plan layout of a residential sanitary drainage system	Prerequisite unit updated plus minor changes to unit Not equivalent to CPCPDR3011A	N
CPCPDR3022A Install below ground sanitary drainage systems	CPCPDR3012A Install below ground sanitary drainage systems	Prerequisite unit updated Changes to descriptor, performance criteria, required skills and knowledge, range statement and critical aspects Not equivalent to CPCPDR3012A	N
CPCPDR3023A Install on-site disposal systems	CPCPDR3013A Install on-site disposal systems	Prerequisite unit updated plus minor changes to unit Not equivalent to CPCPDR3013A	N
CPCPDR4011B Design and size sanitary drainage systems	CPCPDR4011A Design and size sanitary drainage systems	Minor editorial changes to performance criteria, required skills and knowledge, range statement and critical aspects	E

	inspection and assessment of asbestos products and materials		
CPCCBBC4051A Supervise asbestos removal		New unit	
CPCCBBC5014A Conduct asbestos assessment associated with removal	CPCCBBC4023A Plan and undertake site inspection and assessment of asbestos products and materials	New unit	N

No further native units of competency were changed, added or removed as a result of the changes made in Version 7.

Mapping of CPC08v6 units of competency

Mapping of CPC08 Version 6.1 units of competency to Version 6

There were no changes made to the content of CPC08 Version 6 units of competency in this ISC upgrade and so a mapping table is not provided.

The following five units were assigned a different unit code (while retaining the same unit title) in response to stakeholder implementation advice with regard to the use of previous version unit codes:

- CPCPGS3011A was re-coded to CPCPGS3031A
- CPCPGS3012A was re-coded to CPCPGS3032A
- CPCPGS3013A was re-coded to CPCPGS3033A
- CPCPGS3014A was re-coded to CPCPGS3034A
- CPCPGS3015A was re-coded to CPCPGS3035A.

Minor editorial changes were made to unit code or title references in CPC08 Version 6 qualifications to ensure consistent listing of the unit code or title of:

- CPCPCM2028A Cut and join sheet metal
- CPCPCM2029A Cut using oxy-LPG-acetylene equipment
- CPCPCM2032A Weld using oxy-acetylene equipment
- CPCPWT3016A Fit off and commission heated and cold water services.

Mapping of CPC08 Version 6 units of competency to Version 5

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCCBC4006B Select, procure and store construction materials for low rise projects	CPCCBC4006A Select, procure and store construction materials for low rise projects	Sustainability content added to range statement Equivalent to CPCCBC4006A	E
CPCCBC4008B Conduct on-site supervision of building and construction projects	CPCCBC4008A Conduct on-site supervision of building and construction projects	Sustainability content added to range statement Equivalent to CPCCBC4008A	E
CPCCBC4009B Apply legal requirements to building and construction projects	CPCCBC4009A Apply legal requirements to building and construction projects	Missing application information added Equivalent to CPCCBC4009A	E
CPCCBC4010B Apply structural principles to residential low rise constructions	CPCCBC4010A Apply structural principles to residential low rise constructions	Sustainability content added to performance criterion Equivalent to CPCCBC4010A	E
CPCCBC4011B Apply structural principles to commercial low rise constructions	CPCCBC4011A Apply structural principles to commercial low rise constructions	Sustainability content added to performance criterion Equivalent to CPCCBC4011A	E
CPCCBC4027B Establish a basis for sales consulting	CPCCBC4027A Establish a basis for sales consulting	Minor changes to required skills in response to addition of sustainability content Equivalent to CPCCBC4027A	E
CPCCBC4029B Apply construction	CPCCBC4029A Apply construction	Sustainability content	E

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
information to the sales process	information to the sales process	added to required skills Equivalent to CPCCBC4029A	
CPCCBC5006B Apply site surveys and set-out procedures to medium rise building projects	CPCCBC5006A Apply site surveys and set-out procedures to medium rise building projects	Missing application information added Equivalent to CPCCBC5006A	E
CPCCBC5010B Manage construction work	CPCCBC5010A Manage construction work	Sustainability content added to required knowledge Equivalent to CPCCBC5010A	E
CPCCBL3018A Install aerated autoclaved concrete products	CPCCBL3008A Install aerated autoclaved concrete products	Prerequisite unit CPCCOHS2001A added Unit outcome altered Not equivalent to CPCCBL3008A	N
CPCCCA2011A Handle carpentry materials	CPCCCA2001A Handle carpentry materials	Prerequisite unit CPCCOHS2001A added Unit outcome altered Not equivalent to CPCCCA2001A	N
CPCCCA3007B Construct pitched roofs	CPCCCA3007A Construct pitched roofs	Item added to required knowledge section Unit outcome not altered Equivalent to CPCCCA3007A	E
CPCCCM1011A Undertake basic estimation and costing	CPCCCM1001A Undertake basic estimation and costing	Prerequisite unit CPCCOHS2001A removed Unit outcome altered Not equivalent to CPCCCM1001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCCCM1012A Work effectively and sustainably in the construction industry	CPCCCM1002A Work effectively and sustainably in the construction industry	Prerequisite unit CPCCOHS2001A removed Sustainability content added to range statement Unit outcome altered Not equivalent to CPCCCM1002A	N
CPCCCM1013A Plan and organise work	CPCCCM1003A Plan and organise work	Prerequisite unit CPCCOHS2001A removed Unit outcome altered Not equivalent to CPCCCM1003A	N
CPCCCM1014A Conduct workplace communication	CPCCCM1004A Conduct workplace communication	Prerequisite unit CPCCOHS2001A removed Unit outcome altered Not equivalent to CPCCCM1004A	N
CPCCCM1015A Carry out measurements and calculations	CPCCCM1005A Carry out measurements and calculations	Prerequisite unit CPCCOHS2001A removed Unit outcome altered Not equivalent to CPCCCM1005A	N
CPCCCM2003B Calculate and cost construction work	CPCCCM2003A Calculate and cost construction work	Sustainability content added to required knowledge and range statement Equivalent to CPCCCM2003A	E
CPCCCM2010A Work safely at heights	CPCCCM1006A Work safely at heights	Unit code changed to address anomaly of a unit at nominal AQF level 1 having a level 2 prerequisite Unit outcome not altered	E

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Equivalent to CPCCCM1006A	
CPCCCM2011A Carry out tilt-up work safely	CPCCCM1007A Carry out tilt-up work safely	AQF nominal level of unit increased from 1 to 2 to allow a level 2 OHS unit as prerequisite in view of nature of work associated with unit Unit outcome not altered Equivalent to CPCCCM1007A	E
CPCCCM3001B Operate elevated work platforms	CPCCCM3001A Operate elevated work platforms	Unit version upgrade to reflect the change of code but not content of prerequisite unit Unit outcome not altered Equivalent to CPCCCM3001A	E
CPCCCO2011A Handle concreting materials	CPCCCO2001A Handle concreting materials	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO2001A	N
CPCCCO2012A Use concreting tools and equipment	CPCCCO2002A Use concreting tools and equipment	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO2002A	N
CPCCCO2013A Carry out concreting to simple forms	CPCCCO2003A Carry out concreting to simple forms	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Unit outcome altered Not equivalent to CPCCCO2003A	
CPCCCO2014A Carry out concrete work	CPCCCO2004A Carry out concrete work	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO2004A	N
CPCCCO3021A Place concrete	CPCCCO3001A Place concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3001A	N
CPCCCO3022A Finish concrete	CPCCCO3002A Finish concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3002A	N
CPCCCO3023A Cure concrete	CPCCCO3003A Cure concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3003A	N
CPCCCO3024A Carry out decorative finishes to concrete	CPCCCO3004A Carry out decorative finishes to concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Unit outcome altered Not equivalent to CPCCCO3004A	
CPCCCO3025A Resurface concrete	CPCCCO3005A Resurface concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3005A	N
CPCCCO3026A Carry out repair and rectification of concrete	CPCCCO3006A Carry out repair and rectification of concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3006A	N
CPCCCO3027A Cut and core concrete	CPCCCO3007A Cut and core concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3007A	N
CPCCCO3028A Carry out tilt panel construction	CPCCCO3008A Carry out tilt panel construction	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3008A	N
CPCCCO3029A Apply and finish sprayed concrete	CPCCCO3009A Apply and finish sprayed concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Unit outcome altered Not equivalent to CPCCCO3009A	
CPCCCO3030A Carry out high performance concreting	CPCCCO3010A Carry out high performance concreting	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3010A	N
CPCCCO3031A Conduct off-form vertical concrete operations	CPCCCO3011A Conduct off-form vertical concrete operations	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3011A	N
CPCCCO3032A Conduct concrete boom delivery operations	CPCCCO3012A Conduct concrete boom delivery operations	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3012A	N
CPCCCO3033A Slump test concrete	CPCCCO3013A Slump test concrete	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCCO3013A	N
CPCCCO3034A Conduct concrete agitator truck operations	CPCCCO3014A Conduct concrete agitator truck operations	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Unit outcome altered Not equivalent to CPCCCO3014A	
CPCCDE2011A Use demolition tools and equipment	CPCCDE2001A Use demolition tools and equipment	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDE2001A	N
CPCCDE2012A Carry out manual general demolition	CPCCDE2002A Carry out manual general demolition	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDE2002A	N
CPCCDE3011A Carry out mechanical general demolition	CPCCDE3001A Carry out mechanical general demolition	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDE3001A	N
CPCCDE3012A Encapsulate and remove asbestos	CPCCDE3002A Encapsulate and remove asbestos	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDE3002A	N
CPCCDE3013A Operate a crushing plant	CPCCDE3003A Operate a crushing plant	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Unit outcome altered Not equivalent to CPCCDE3003A	
CPCCDO2011A Handle and use dogging tools and equipment	CPCCDO2001A Handle and use dogging tools and equipment	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDO2001A	N
CPCCDO3011A Perform dogging	CPCCDO3001A Perform dogging	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDO3001A	N
CPCCDO3012A Perform crane scheduling	CPCCDO3002A Perform crane scheduling	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCDO3002A	N
CPCCJS3011A Design and set out stairs	CPCCJS3001A Design and set out stairs	Prerequisite unit requirement (CPCCOHS2001A) added to unit Unit outcome altered Not equivalent to CPCCJS3001A	N
CPCCPD2011A Handle painting and decorating materials	CPCCPD2001A Handle painting and decorating materials	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Unit outcome altered Not equivalent to CPCCPD2001A	
CPCCPD2012A Use painting and decorating tools and equipment	CPCCPD2002A Use painting and decorating tools and equipment	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD2002A	N
CPCCPD2013A Remove and replace doors and door and window components	CPCCPD2003A Remove and replace doors and door and window components	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD2003A	N
CPCCPD3021A Prepare surfaces for painting	CPCCPD3001A Prepare surfaces for painting	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3001A	N
CPCCPD3022A Apply paint by brush and roller	CPCCPD3002A Apply paint by brush and roller	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3002A	N
CPCCPD3023A Apply texture coat paint finishes by brush, roller and	CPCCPD3003A Apply texture coat paint finishes by brush, roller and spray	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
spray		Unit outcome altered Not equivalent to CPCCPD3003A	
CPCCPD3024A Apply paint by spray	CPCCPD3004A Apply paint by spray	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3004A	N
CPCCPD3025A Match specified paint colour	CPCCPD3005A Match specified paint colour	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3005A	N
CPCCPD3026A Apply stains and clear timber finishes	CPCCPD3006A Apply stains and clear timber finishes	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3006A	N
CPCCPD3027A Apply wallpaper	CPCCPD3007A Apply wallpaper	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3007A	N
CPCCPD3028A Apply decorative paint finishes	CPCCPD3008A Apply decorative paint finishes	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Unit outcome altered Not equivalent to CPCCPD3008A	
CPCCPD3029A Remove graffiti and apply protective coatings	CPCCPD3009A Remove graffiti and apply protective coatings	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3009A	N
CPCCPD3030A Apply protective paint coating systems	CPCCPD3010A Apply protective paint coating systems	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3010A	N
CPCCPD3031A Implement safe lead paint and asbestos work practices in the painting industry	CPCCPD3011A Apply lead paint and asbestos management	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit name changed to reflect the work function more accurately Unit outcome altered Not equivalent to CPCCPD3011A	N
CPCCPD3032A Apply advanced wallpaper techniques	CPCCPD3012A Apply advanced wallpaper techniques	Prerequisite requirement changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3012A	N
CPCCPD3033A	CPCCPD3013A	Prerequisite requirement	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
Apply intumescent coatings	Apply intumescent coatings	changed from CPCCOHS1001A to CPCCOHS2001A Unit outcome altered Not equivalent to CPCCPD3013A	
CPCCPD3034A Apply advanced decorative paint finishes	CPCCPD3014A Apply advanced decorative paint finishes	Prerequisite unit requirement (CPCCOHS2001A) added to unit Unit outcome altered Not equivalent to CPCCPD3014A	N
CPCCRI3012A Perform basic rigging	CPCCRI3002A Perform basic rigging	Prerequisite requirement changed from CPCCDO3001A to CPCCDO3011A Unit outcome altered Not equivalent to CPCCRI3002A	N
CPCCRI3013A Perform intermediate rigging	CPCCRI3003A Perform intermediate rigging	Prerequisite requirement changed from CPCCRI3002A to CPCCRI3012A Unit outcome altered Not equivalent to CPCCRI3003A	N
CPCCRI3014A Perform advanced structural steel erection	CPCCRI3004A Perform advanced structural steel erection	Prerequisite requirement changed from CPCCRI3002A to CPCCRI3012A Unit outcome altered Not equivalent to CPCCRI3004A	N
CPCCRI3015A	CPCCRI3005A	Prerequisite requirement	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
Perform advanced tilt-up slab erection	Perform advanced tilt-up slab erection	changed from CPCCRI3003A to CPCCRI3013A Unit outcome altered Not equivalent to CPCCRI3005A	
CPCCRI3016A Perform advanced tower crane erection	CPCCRI3006A Perform advanced tower crane erection	Prerequisite requirement changed from CPCCRI3003A to CPCCRI3013A Unit outcome altered Not equivalent to CPCCRI3006A	N
CPCCSV6006A Evaluate the use of concrete for residential and commercial buildings up to three storeys	CPCCSV6006A Evaluate the use of concrete for residential and commercial buildings up to three storeys	Method of assessment section added to unit Unit outcome not altered Equivalent to CPCCSV6006A	E
CPCCVE1011A Undertake a basic construction project	CPCCVE1001A Undertake a basic construction project	Prerequisite unit CPCCOHS2001A removed Unit outcome altered Not equivalent to CPCCVE1001A	N
CPCPCM2021A Work effectively in the plumbing and services sector	CPCPCM2001A Work effectively in the plumbing and services sector	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2001A	N
CPCPCM2023A Carry out occupational health and safety requirements	CPCPCM2003A Carry out occupational health and safety requirements	Performance criteria added and changed Sustainability content added Unit outcome altered Not equivalent to	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		CPCPCM2003A	
CPCPCM2025A Handle and store plumbing materials	CPCPCM2005A Handle and store plumbing materials	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2005A	N
CPCPCM2026A Use plumbing hand and power tools	CPCPCM2006A Use plumbing hand and power tools	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2006A	N
CPCPCM2027A Carry out levelling	CPCPCM2007A Carry out levelling	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2007A	N
CPCPCM2028A Cut and join sheet metal	CPCPCM2008A Cut and join sheet metal	Prerequisite unit (x1) requirement removed from unit Changed prerequisite Sustainability content added Unit outcome altered Not equivalent to CPCPCM2008A	N
CPCPCM2029A Cut using oxy-LPG-acetylene equipment	CPCPCM2009A Cut using oxy-LPG-acetylene equipment	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2009A	N
CPCPCM2030A Mark out materials	CPCPCM2010A Mark out materials	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2010A	N
CPCPCM2032A Weld using	CPCPCM2012A Weld using oxy-acetylene	Prerequisite unit (x1)	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
oxy-acetylene equipment	equipment	removed Changed remaining prerequisite Unit outcome altered Not equivalent to CPCPCM2012A	
CPCPCM2033A Weld using arc welding equipment	CPCPCM2013A Weld using arc welding equipment	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2013A	N
CPCPCM2034A Carry out simple concreting and rendering	CPCPCM2014A Carry out simple concreting and rendering	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2014A	N
CPCPCM2035A Work safely on roofs	CPCPCM2015A Work safely on roofs	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM2015A	N
CPCPCM3011A Flash penetrations through roofs and walls	CPCPCM3001A Flash penetrations through roofs and walls	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM3001A	N
CPCPCM3012A Weld plastic pipe using fusion method	CPCPCM3002A Weld plastic pipe using fusion method	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM3002A	N
CPCPCM3013A Fabricate and install non-ferrous pressure piping	CPCPCM3003A Fabricate and install non-ferrous pressure piping	Changed prerequisite Unit outcome altered Not equivalent to CPCPCM3003A	N
CPCPCM5002B	CPCPCM5002A	Editorial change made by	E

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
Design complex stormwater and roof drainage systems	Design complex stormwater and roof drainage systems	inserting the missing 'Method of assessment' section Unit outcome not altered Equivalent to CPCPCM5002A	
CPCPCM5003B Design complex (non-solar) heated water systems	CPCPCM5003A Design complex (non-solar) hot water systems	Minor change to unit from hot to heated, including unit title Unit outcome not altered Equivalent to CPCPCM5003A	E
CPCPDR2011A Locate and clear blockages	CPCPDR2001A Locate and clear blockages	Changed prerequisite Unit outcome altered Not equivalent to CPCPDR2001A	N
CPCPDR2012A Install domestic treatment plants	CPCPDR2002A Install domestic treatment plants	Changed prerequisite Sustainability content added Unit outcome altered Not equivalent to CPCPDR2002A	N
CPCPDR2013A Maintain effluent disinfection systems	CPCPDR2003A Maintain effluent disinfection systems	Changed prerequisite Unit outcome altered Not equivalent to CPCPDR2003A	N
CPCPDR2014A Install stormwater and sub-soil drainage systems	CPCPDR2004A Install stormwater and sub-soil drainage systems	Changed prerequisite Unit outcome altered Not equivalent to CPCPDR2004A	N
CPCPDR2015A Drain work site	CPCPDR2005A Drain work site	Changed prerequisite Unit outcome altered	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
		Not equivalent to CPCPDR2005A	
CPCPDR2016A Install prefabricated inspection openings and enclosures	CPCPDR2006A Install prefabricated inspection openings and enclosures	Changed prerequisite Unit outcome altered Not equivalent to CPCPDR2006A	N
CPCPDR3011A Plan layout of a residential sanitary drainage system	CPCPDR3001A Plan layout of a residential external sanitary drainage system	'External' removed from unit title Sustainability content added Other minor changes Not equivalent to CPCPDR3001A	N
CPCPDR3012A Install below ground sanitary drainage systems	CPCPDR3002A Install below ground sanitary drainage systems	Changed prerequisite Sustainability content added Unit outcome altered Not equivalent to CPCPDR3002A	N
CPCPDR3013A Install on-site disposal systems	CPCPDR3003A Install on-site disposal systems	Changed prerequisite Sustainability content added Unit outcome altered Not equivalent to CPCPDR3003A	N
CPCPDR4011A Design and size sanitary drainage systems	CPCPDR4001A Plan, size and lay out sanitary drainage systems	Change to unit title, descriptor, element and performance criteria Sustainability content added Other minor changes Not equivalent to CPCPDR4001A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCPDR4012A Design and size stormwater drainage systems	CPCPDR4002A Plan, size and layout stormwater drainage systems	Change to unit title, descriptor, element, performance criteria and evidence guide Sustainability content added Other minor changes Not equivalent to CPCPDR4002A	N
CPCPDR4013A Design and size domestic treatment plant disposal systems	CPCPDR4003A Plan, size and lay out domestic treatment plant disposal systems	Change to unit title, descriptor and element Sustainability content added Other minor changes Not equivalent to CPCPDR4003A	N
CPCPFS2011A Connect static storage tanks for fixed fire protection systems	CPCPFS2001A Connect static storage tanks for fixed fire protection systems	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS2001A	N
CPCPFS2012A Install portable fire equipment	CPCPFS2002A Install portable fire equipment	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS2002A	N
CPCPFS3011A Fabricate and install fire hydrant and hose reel systems	CPCPFS3001A Fabricate and install fire hydrant and hose reel systems	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3001A	N
CPCPFS3012A Install distribution and range pipes	CPCPFS3002A Install distribution and range pipes	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3002A	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
CPCPFS3013A Fit off sprinkler heads, controls and ancillary equipment	CPCPFS3003A Fit off sprinkler heads, controls and ancillary equipment	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3003A	N
CPCPFS3014A Install control valve assemblies, actuating devices and local alarms	CPCPFS3004A Install control valve assemblies, actuating devices and local alarms	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3004A	N
CPCPFS3015A Test fire protection systems for pressure	CPCPFS3005A Test fire protection systems for pressure	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3005A	N
CPCPFS3016A Install special hazard systems	CPCPFS3006A Install special hazard systems	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3006A	N
CPCPFS3017A Install domestic and residential life safety sprinkler systems	CPCPFS3007A Install domestic and residential life safety sprinkler systems	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3007A	N
CPCPFS3018A Test and maintain fire hydrant and hose reel installations	CPCPFS3008A Test and maintain fire hydrant and hose reel installations	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3008A	N
CPCPFS3019A Test and maintain automatic fire sprinklers	CPCPFS3009A Test and maintain automatic fire sprinklers	Changed prerequisite Unit outcome altered Not equivalent to CPCPFS3009A	N
CPCPFS3020A Conduct basic functional testing of		New unit	

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
water-based fire-suppression systems			
CPCPFS3021A Inspect and test fire pumpsets		New unit	
CPCPFS3022A Conduct annual functional testing of complex water-based fire-suppression systems		New unit	
CPCPFS3023A Conduct functional water flow testing		New unit	
CPCPFS4011A Commission domestic and residential fire suppression sprinkler systems	CPCPFS4001A Commission domestic and residential fire suppression sprinkler systems	Prerequisite unit requirement removed from unit Unit outcome altered Not equivalent to CPCPFS4001A	N
CPCPFS4012A Commission and maintain special hazard fire suppression systems	CPCPFS4002A Commission and maintain special hazard fire suppression systems	Prerequisite unit (x2) requirement removed from unit Unit outcome altered Not equivalent to CPCPFS4002A	N
CPCPFS4013A Commission fire system pump sets	CPCPFS4003A Commission fire system pump sets	Prerequisite unit requirement removed from unit Unit outcome altered Not equivalent to CPCPFS4003A	N
CPCPFS4014A Design residential and	CPCPFS4004A Design residential and	Prerequisite unit requirement removed from	N

Unit code and title in V6 Training Package	Relationship to units in V5 CPC08	Comments in relation to previous version of this Training Package	Equivalent/ Not equivalent
domestic fire sprinkler systems	domestic fire sprinkler systems	unit Unit outcome altered Not equivalent to CPCPFS4004A	
CPCPGS3011A Install gas piping systems	CPCPGS3001A Install gas piping systems	Prerequisite unit changed Unit outcome altered Not equivalent to CPCPGS3001A	N

CPCSFS5015A Assess documentation for annual fire systems certification inspections		New to CPC08
CPCSFS7001A Define scope of and initiate special hazard fire systems design projects		New to CPC08
CPCSFS7002A Analyse, design and evaluate complex special hazard fire systems		New to CPC08
CPCSFS7003A Develop and submit tenders for fire systems design solutions		New to CPC08
No other CPC units were changed in Version 2 of CPC08.		

Mapping Version 1 CPC08 units of competency to previous Training Package

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
CPCCBC4001A Apply building codes and standards to the construction process for low rise building projects	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4001A Apply building codes and standards to the construction process for low-rise building projects</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBC4002A Manage occupational health and safety in the building and construction workplace	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4002A Manage occupational health and safety in the building and construction workplace</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBC4003A Select and prepare a construction contract	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4003A Select and prepare a construction contract</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBC4004A Identify and produce estimated costs for building and construction projects	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4004A Identify and produce estimated costs for building and construction projects</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
CPCCBBC4005A Produce labour and material schedules for ordering	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4005A Produce labour and material schedules for ordering</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4006A Select, procure and store construction materials for low rise projects	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4006A Select procure and store construction materials for low-rise projects</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4007A Plan building or construction work	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4007A Plan building or construction work</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4008A Conduct on-site supervision of building and construction projects	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4008A Conduct on-site supervision of the building and construction project</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4009A Apply legal requirements to building and construction	Equivalent to existing unit in previous BCG03 General Construction Training	The code has an updated stem and version 'A' identifier (stream and number system

projects	Package, <i>BCGBC4009A Apply legal requirements to building and construction projects</i> that has been reformatted and has employability skills and equity audit enhancements.	remain the same).
CPCCBBC4010A Apply structural principles to residential low rise constructions	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4010A Apply structural principles to residential low rise constructions</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4011A Apply structural principles to commercial low rise constructions	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4011A Apply structural principles to commercial low rise constructions</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4012A Read and interpret plans and specifications	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4012A Read and interpret plans and specifications</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4013A Prepare and evaluate tender documentation	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4013A Prepare and evaluate tender documentation</i> that has been	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
	reformatted and has employability skills and equity audit enhancements.	
CPCCBC4014A Prepare simple building sketches and drawings	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4014A Prepare simple building sketches and drawings</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBC4015A Prepare specifications for all construction works	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4015A Prepare specifications for all construction works</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBC4016A Administer a construction contract	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4016A Administer a construction contract</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBC4017A Arrange resources and prepare for the building or construction project	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4017A Arrange resources and prepare for the building or construction project</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
CPCCBBC4018A Apply site surveys and set-out procedures to building and construction projects	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4018A Apply site surveys and set out procedures to building and construction projects</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4019A Apply sustainable building design principles to water management systems	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4019A Apply sustainable building design principles to water management systems</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4020A Build thermally efficient and sustainable structures	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4020A Build thermally efficient and sustainable structures</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4021A Minimise waste on the building and construction site	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGBC4021A Minimise waste on the building and construction site</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCBBC4022A Supervise tilt-up work	Equivalent to existing unit in previous BCG03 General	The code has an updated stem and version 'A' identifier

	employability skills and equity audit enhancements.	
CPCCCA3013A Install lining, panelling and moulding	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3013B Install lining, panelling and moulding</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCA3014A Construct bulkheads	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3014B Construct bulkheads</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCA3015A Assemble partitions	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3015B Assemble partitions</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCA3016A Construct timber external stairs	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3016B Construct external stairs</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCA3017A Install exterior cladding	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3017B Install exterior cladding</i> that	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
	has been reformatted and has employability skills and equity audit enhancements.	
CPCCCA3018A Construct, erect and dismantle formwork for stairs and ramps	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3018B Construct, erect and dismantle formwork for stairs and ramps</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCA3019A Erect and dismantle formwork to suspended slabs, columns, beams and walls	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3019B Erect and dismantle formwork to suspended slabs, columns, beams and walls</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCA3020A Erect and dismantle jump form formwork	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3020B Erect and dismantle jump form formwork</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCA3021A Erect and dismantle slip form formwork	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3021B Erect and dismantle slip form formwork</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
CPCCCA3022A Install curtain walling	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3022B Install curtain walling</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCA3023A Carry out levelling operations	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCA3023B Carry out levelling operations</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM1001A Undertake basic estimation and costing	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGVE1004B Undertake basic estimation and costing</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM1002A Work effectively and sustainably in the construction industry	Re-titled and enhanced unit previously <i>BCGCM1002B Work effectively in the general construction industry</i> . Unit has additional elements, performance criteria and assessment guidance to cover skills and knowledge in environmentally sustainable work practices.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM1003A Plan and organise work	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM1003B Plan and organise work</i> that has	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
	been reformatted and has employability skills and equity audit enhancements.	
CPCCCM1004A Conduct workplace communication	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM1004B Conduct workplace communication</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM1005A Carry out measurements and calculations	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM1005B Carry out measurements and calculations</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM1006A Work safely at heights	<i>BCGCM1006A Working safely at heights</i> is not equivalent to CPCCCM1006A Work safely at heights	Based on unit <i>BCGCM1006A Working safely at heights</i> in previous BCG03 General Construction Training Package. A prerequisite unit requirement has been added.
CPCCCM1007A Carry out tilt-up work safely	New unit proposed by and developed in conjunction with OHS regulators to reflect the need for workers in support roles on tilt-up projects to understand tilt-up work safety codes and standards.	
CPCCCM2001A Read and interpret plans and specifications	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM2001B Read and interpret plans and written specifications</i> that has	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
	been reformatted and has employability skills and equity audit enhancements.	
CPCCCM2002A Carry out excavation	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM2002B Carry out excavation</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM2003A Calculate and cost construction work	New unit used in painting and decorating qualification based on plumbing and services unit <i>CPCPCM4002A Estimate and cost work</i> .	
CPCCCM2004A Handle construction materials	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM2004B Handle construction materials</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM2005A Use construction tools and equipment	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM2005B Use construction tools and equipment</i> that has been reformatted and has employability skills and equity audit enhancements. Qualification notes state compliance with State and Territory requirements for training and assessment on pneumatic and gas-powered tools and equipment is required.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
CPCCCM2006A Apply basic levelling procedures	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM2006B Apply basic levelling procedures</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM2007A Use explosive power tools	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM2007B Use explosive power tools</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM2008A Erect and dismantle restricted height scaffolding	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM2008B Erect and dismantle restricted height scaffolding</i> that has been reformatted and has employability skills and equity audit enhancements. Change to references to 'modular' scaffolding.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM2009A Carry out basic demolition	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM2009B Carry out basic demolition</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM3001A Operate elevated work platforms	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM3001B</i>	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
	<i>Operate elevated work platforms</i> that has been reformatted and has employability skills and equity audit enhancements. Changes to content to reflect OHS regulations and indication that the unit does not cover operation of boom lifts over 11 meters.	
CPCCCM3002A Operate a truck mounted loading crane	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM3002B Operate a truck mounted loading crane</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCM3003A Work safely around power sources, services and assets	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCM3003B Work safely around power sources, services and assets</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCO2001A Handle concreting materials	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCO2001B Handle concreting materials</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCO2002A Use concreting tools and equipment	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCO2002B Use concreting tools and</i>	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
	<i>equipment</i> that has been reformatted and has employability skills and equity audit enhancements.	
CPCCCO2003A Carry out concreting to simple forms	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCO2003B Carry out concreting to simple form</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCO2004A Carry out concrete work	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCO2004B Carry out concrete work</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCO3001A Place concrete	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCO3001B Place concrete</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCCO3002A Finish concrete	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGCO3002B Finish concrete that has been reformatted and has employability skills and equity audit enhancements.</i>	The code has an updated stem and version 'A' identifier (stream and number system remain the same)
CPCCCO3003A Cure concrete	Equivalent to existing unit in previous BCG03 General Construction Training	The code has an updated stem and version 'A' identifier (stream and number system

	<i>Perform dogging</i> that has been reformatted and has employability skills and equity audit enhancements. It complements a new licensing unit developed by OHS regulators and industry for licensing this high risk work	remain the same).
CPCCDO3002A Perform crane scheduling	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGDO3002B Perform crane scheduling</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCJN2001A Assemble components	Unit from previous BCF00 Off-Site Construction Training Package, <i>BCF2013A Assemble components</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier and a new stream identified 'JN' to reflect joinery. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCJN2002A Prepare for off-site manufacturing process	Unit from previous BCF00 Off-Site Construction Training Package, <i>BCF2016A Prepare for off-site manufacturing process</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier and a new stream identified 'JN' to reflect joinery. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCJN2003A Package manufactured products for	Unit from previous BCF00 Off-Site Construction	The code has an updated stem and version 'A' identifier and a

	work.	its regulatory nature.
CPCCLTC4001A Licence to operate a tower crane	New unit developed by industry and OHS regulators to reflect new consistent national licensing of high risk work.	The unit has been formatted into the correct NTIS template but had no content changes made other than necessary editing for this purpose due to its regulatory nature.
CPCCLTC4002A Licence to operate a self-erecting tower crane	New unit developed by industry and OHS regulators to reflect new consistent national licensing of high risk work.	The unit has been formatted into the correct NTIS template but had no content changes made other than necessary editing for this purpose due to its regulatory nature.
CPCCOHS1001A Work safely in the construction industry	New unit reflecting the newly adopted Construction OHS Code of Practice requirements. The unit has been agreed by OHS regulators as meeting the training requirements for issue of construction site safety cards in most jurisdictions. Content has been updated to reflect June amendments by ASCC Working Group.	
CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry	Equivalent to existing unit in previous Construction Training Package, <i>BCGCM1001B Follow OHS policies and procedures</i> that has been re-titled and had additional content covering recognition and reporting of asbestos containing materials found in construction projects. The unit has also been reformatted and has employability skills and equity audit enhancements. Some technical terms have been amended to be consistent	The code has an updated stem and version 'A' identifier and a new stream identified 'OHS' to reflect the activity.

	equity audit enhancements.	
CPCCSF3004A Carry out stressbar post-tensioning	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGSF3004B Carry out stressbar post tensioning</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCSH2001A Prepare surfaces	New unit based on similar surface preparation units in BCG03 General Construction Training Package.	The code has a new stream identified 'SH' to reflect shopfitting work.
CPCCSH2002A Use aluminium sections for fabrication	Amalgamation of two units from previous BCF00 Off-Site Construction Training Package, <i>BCF3014A Prepare aluminium for assembly</i> and <i>BCF2015A Assemble aluminium framework</i> . It has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier and a new stream identified 'SH' to reflect shopfitting work. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCSH2003A Apply and install sealant and sealant devices	Unit from previous BCF00 Off-Site Construction Training Package, <i>BCF2018A Apply and install sealant devices</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier and a new stream identified 'SH' to reflect shopfitting work. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCSH3001A Set out and assemble cabinets, showcases, wall units,	Amalgamation of units from previous BCF00 Off-Site Construction Training Package, <i>BCF3012A Setting</i>	The code has an updated stem and version 'A' identifier and a new stream identified 'SH' to

		now allocated to the retained units and ensure consistency with other construction coding.
CPCCSH3005A Apply and trim decorative finishes	Unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3038A Apply and trim decorative finishes</i> reformatted and has employability skills and equity audit enhancements.	<p>The code has an updated stem and version 'A' identifier and a new stream identified 'SH' to reflect shopfitting work.</p> <p>Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.</p>
CPCCSI2001A Use colour for signage	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF2005A Use colour matching for signwriting</i> that has amended content, been reformatted and has employability skills and equity audit enhancements.	<p>The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work.</p> <p>Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.</p>
CPCCSI2002A Lay out and design signage	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF2004A Layout signs</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	<p>The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work.</p> <p>Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.</p>
CPCCSI2003A Prepare surfaces for signage	New unit to reflect specific skills in surface preparation for signage installation.	

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
CPCCSI2004A Produce digital signage	New unit replacing previous BCF00 Off-Site Construction Training Package unit, <i>BCF3057A Produce CAM signs - digital</i> .	
CPCCSI2005A Fabricate signage	New unit replacing previous BCF00 Off-Site Construction Training Package unit <i>BCF3063A Fabricate plastic signs</i> .	
CPCCSI2006A Signwrite to simple forms	Restructured unit from previous BCF00 Off-Site Construction Training Package <i>BCF3052A Sign write to simple forms</i> that has amended content, been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCSI2007A Apply fasteners and fixings	New unit reflecting the need to use a range of special fastenings for sign installation.	
CPCCSI3001A Produce vinyl signage	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3056A Produce AM signs - vinyl</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCSI3002A Use rotary router	New unit reflecting the need to use new technology for sign manufacture.	

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
CPCCSI3003A Signwrite to decorative forms	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3053A Sign write to decorative forms</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	<p>The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work.</p> <p>Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.</p>
CPCCSI3004A Apply advanced vinyl applications	New unit reflecting the need to use new technology for sign manufacture.	
CPCCSI3005A Use engraving systems	New unit reflecting the need to use new technology for sign manufacture.	
CPCCSI3006A Apply gilding to signage	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3022A Apply gilding to signs</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	<p>The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work.</p> <p>Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.</p>
CPCCSI3007A Apply lines and scrolls	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3026A Apply line and scroll</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	<p>The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work.</p> <p>Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency</p>

		with other construction coding.
CPCCSI3008A Write showcards and chalkboards	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3028A Write tickets and showcards</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCSI3009A Screen-print signage	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3030A Screen print</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCSI3010A Hand render pictorials	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3062A Hand render pictorials</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCSI3011A Use LED technology for signage	New unit reflecting the need to use new technology and techniques for illuminated sign manufacture.	

Unit code and title in this Training Package	Relationship to units in previous Training Package	Comments in relation to previous versions of this Training Package
CPCCSI3012A Apply electrical theory for illuminated signage	New unit reflecting the need to use new technology and techniques for illuminated sign manufacture.	
CPCCSI3013A Install LED systems	New unit reflecting the need to use new technology and techniques for illuminated sign manufacture.	
CPCCSI3014A Manufacture gas-charged glass-formed illuminated signage	Restructured unit from previous BCF00 Off-Site Construction Training Package, <i>BCF3060A Manufacture gas charged glass formed illuminated signs</i> that has amended content and employability skills and equity audit enhancements, and has been reformatted.	The code has an updated stem and version 'A' identifier and a new stream identified 'SI' to reflect signage work. Units previously had sequential code numbering through all units in BCF00 which has been changed to reflect the streams now allocated to the retained units and ensure consistency with other construction coding.
CPCCSP2001A Handle solid plastering materials	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGSP2001B Handle solid plastering materials</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).
CPCCSP2002A Use solid plastering tools and equipment	Equivalent to existing unit in previous BCG03 General Construction Training Package, <i>BCGSP2002B Use solid plastering tools and equipment</i> that has been reformatted and has employability skills and equity audit enhancements.	The code has an updated stem and version 'A' identifier (stream and number system remain the same).

Overview

What is a Training Package?

A Training Package is an integrated set of nationally endorsed Competency Standards, Assessment Guidelines and Australian Qualifications Framework (AQF) qualifications for a specific industry, industry sector or enterprise.

Each Training Package:

- provides a consistent and reliable set of components for training, and recognising and assessing people's skills, and may also have optional support materials
- enables nationally recognised qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

How do Training Packages fit within the National Training Framework?

The National Training Framework is made up of the nationally agreed quality arrangements for the vocational education and training sector, the Standards for NVR Registered Training Organisations, and Training Packages endorsed by the National Skills Standards Council (NSSC).

How are Training Packages developed?

Training Packages are developed by Industry Skills Councils or enterprises to meet the identified training needs of specific industries or industry sectors. To gain national endorsement of Training Packages, developers must provide evidence of extensive research, consultation and support within the industry area or enterprise.

How do Training Packages encourage flexibility?

Training Packages describe the skills and knowledge needed to perform effectively in the workplace without prescribing how people should be trained.

Training Packages acknowledge that people can achieve vocational competency in many ways by emphasising what the learner can do, not how or where they learned to do it. For example, some experienced workers might be able to demonstrate competency against the units of competency and even gain a qualification without completing a formal training program.

With Training Packages, assessment and training may be conducted at the workplace, off the job, at a training organisation, during regular work, or through work experience, work placement, work simulation or any combination of these.

Who can deliver and assess using Training Packages?

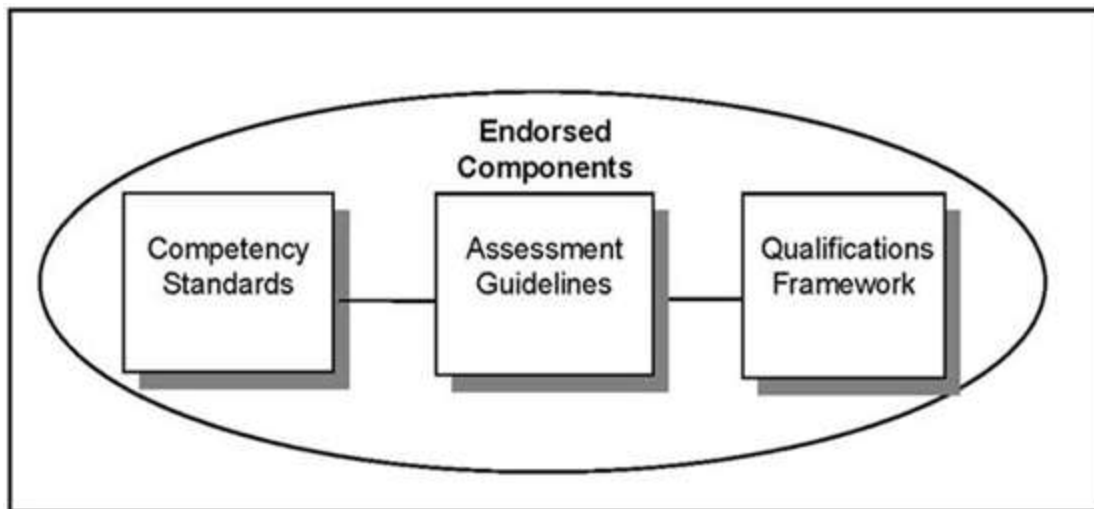

Training and assessment using Training Packages must be conducted by a registered training organisation (RTO) that has the qualifications or specific units of competency on its scope of registration, or that works in partnership with another RTO as specified in the Standards for NVR Registered Training Organisations.

Training Package components

Training Packages are made up of mandatory components endorsed by the NSSC and optional support materials.

Training Package endorsed components

The nationally endorsed components include the Competency Standards, Assessment Guidelines and Qualifications Framework. These form the basis of training and assessment in the Training Package and, as such, they must be used.

Competency standards

Each unit of competency identifies a discrete workplace requirement and includes the knowledge and skills that underpin competency as well as language, literacy and numeracy; and occupational health and safety requirements. The units of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Assessment guidelines

The Assessment Guidelines provide an industry framework to ensure all assessments meet industry needs and nationally agreed standards as expressed in the Training Package and the Standards for Registered Training Organisations. The Assessment Guidelines must be followed to ensure the integrity of assessment leading to nationally recognised qualifications.

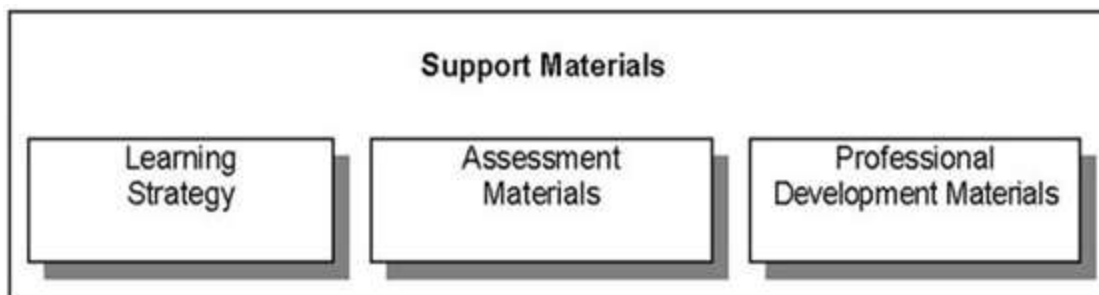

Qualifications framework

Each Training Package provides details of those units of competency that must be achieved to award AQF qualifications. The rules around which units of competency can be combined to make up a valid AQF qualification in the Training Package are referred to as the 'packaging rules'. The packaging rules must be followed to ensure the integrity of the nationally recognised qualifications issued.

Training Package support materials

The endorsed components of Training Packages are complemented and supported by optional support materials that provide for choice in the design of training and assessment to meet the needs of industry and learners.

Training Package support materials can relate to single or multiple units of competency, an industry sector, a qualification or the whole Training Package. They tend to fall into one or more of the categories illustrated below.

Training Package support materials are produced by a range of stakeholders such as RTOs, individual trainers and assessors, private and commercial developers and government agencies.

Training Package, qualification and unit of competency codes

There are agreed conventions for the national codes used for Training Packages and their components. Always use the correct codes, exactly as they appear in the Training Package, and with the title always following the code.

Training Package codes

Each Training Package has a unique five-character national code assigned when the Training Package is endorsed, for example CPC08. The first three characters are letters identifying the Training Package industry coverage and the last two characters are numbers identifying the year of endorsement.

Qualification codes

Within each Training Package, each qualification has a unique eight-character code, for example CPC20111. The first three letters identify the Training Package; the first number identifies the qualification level (noting that Arabic numbers are not used in qualification titles themselves); the next two numbers identify the position in the sequence of the qualification at that level; and the last two numbers identify the year in which the qualification was endorsed. (Where qualifications are added after the initial Training Package endorsement, the last two numbers may differ from other Training Package qualifications as they identify the year in which those particular qualifications were endorsed.)

Unit of competency codes

Within each Training Package, each unit of competency has a unique code. The unit of competency codes are assigned when the Training Package is endorsed, or when new units of competency are added to an existing endorsed Training Package.

A typical code is made up of 12 characters, normally a mixture of upper-case letters and numbers, as in CPCCJS3003A. The first three characters signify the Training Package (CPC in the above example) and up to eight characters, relating to an industry sector, function or skill area, follow. The last character is always a letter and identifies the unit of competency version. The 'A' in the example above indicates that this is the original unit of competency. An incremented version identifier usually means that minor changes have been made. Typically this would mean that wording has changed in the range statement or evidence guide, providing clearer intent. Where changes are made that alter the outcome, a new code is assigned and the title is changed.

Training Package, qualification and unit of competency titles

There are agreed conventions for titling Training Packages and their components. Always use the correct titles, exactly as they appear in the Training Package, and with the code always placed before the title.

Training Package titles

The title of each endorsed Training Package is unique and relates the Training Package's broad industry coverage.

Qualification titles

The title of each endorsed Training Package qualification is unique. Qualification titles use the following sequence:

- firstly, the qualification is identified as either Certificate I, Certificate II, Certificate III, Certificate IV, Diploma or Advanced Diploma
- this is followed by the words 'in' for Certificates I to IV and 'of' for Diploma and Advanced Diploma
- then the industry descriptor follows, for example Telecommunications
- if applicable, the occupational or functional stream follows in brackets, for example (Computer Systems).

For example:

- CPC30211 Certificate III in Carpentry
- CPC40912 Certificate IV in Plumbing and Services.

Unit of competency titles

Each unit of competency title is unique. Unit of competency titles describe the competency outcome concisely, and are written in sentence case.

For example:

- CPCCBC4028A Prepare design brief for construction works
- CPCPPS5024A Conduct a water audit and identify water-saving initiatives.

CPC08 Overview

Overview of Version 9

The changes to qualifications and units of competency in Version 9 are a result of feedback provided by stakeholders as part of CPSISC's Training Package Continuous Improvement system.

The changes were overseen by the Construction Industry Advisory Committee (CIAC) as well as Project Steering Committees and subgroups.

Overview of Version 8

Version 8 addresses a number of continuous improvement issues, ranging from technical matters to specific industry requirements.

Some changes reflected in this version of CPC08 have resulted in the need to change the packaging rules for some qualifications.

This version has also seen the addition of two new qualifications, new units of competency and the updating of native and imported units in the Training Package. The other drivers for continuous improvement were the government policy initiatives in the areas of sustainability and flexibility.

In addition to those issues requiring National Skills Standards Council (NSSC) endorsement, a range of other issues that fall within the category of an ISC upgrade have also been implemented in this version of the Training Package.

Such issues include:

- the expansion of elective pools in existing endorsed CPC08 qualifications
- the expansion of unit descriptors and range statements
- minor editorial and formatting changes to add, correct or make content of units and qualifications consistent
- the updating of imported units.

In line with a directive from the CPSISC Construction Industry Advisory Committee (CIAC) to batch changes, this version of the Training Package incorporates both categories of changes.

Overview of Version 7

The model work health and safety (WHS) regulations require a licensed removalist to undertake the removal of asbestos where the area is greater than 10 square metres.

Licences apply to the removal of friable asbestos (Class A) and non-friable asbestos (Class B). All licensed asbestos removal work requires workers to have completed the specified unit of competency for the type of asbestos to be removed. Supervisors are required to complete a supervisory unit in addition to the unit of competency for the class of removal, Class A or Class B. Assessors must complete the assessor unit of competency 'or equivalent' qualification.

Although this project was undertaken to develop only a small number of units, the development is significant because of its role in the new national WHS licensing context. The project was undertaken following representations from, and commissioning by, Safe Work Australia (SWA), which has led the development of national licensing for the safe removal of asbestos containing materials (ACM).

When approached by SWA, Construction and Property Services Industry Skills Council (CPSISC) was pleased to lend its support to this project to identify and deliver units of competency that reflect the skills and knowledge required by regulators of practitioners. The requirements will be specified through four categories:

- a Class A asbestos removalist licence
- a Class B asbestos removalist licence
- regulated supervisors of the removalist process
- regulated asbestos assessors.

It is of particular importance to note that the four new units of competency added to CPC08 with this Version 7, will be referenced in the new national licensing regime that SWA has negotiated with state and territory regulators.

It should also be noted that although for licensing purposes more than one asbestos-related unit may appear as electives in CPC08 qualifications, individual units will be referenced in regulations. Candidates would select one or more units related to the function they are to perform and the associated regulatory requirement.

Project Steering Committee members involved in Version 7 were:

Project Steering Committee Membership

Member	Representing
Pat Preston (Chair)	Asbestos Contractors Group Ltd (Victoria)
Anita Aiezza	WorkSafe (Victoria)
Simon Cocker	Construction ITAB Network
Lindsay Fraser	Construction, Forestry, Mining and Energy Union (CFMEU)
Michael Gray (Observer)	Department of Education, Employment and Workplace Relations (DEEWR)
Margot Hoyte	Australian Council of Trade Unions (ACTU)

Project Steering Committee Membership

Katherine Jones	Chief Minister's Department (ACT)
Laurie Kruize	Housing Industry Association
Alex Maroya	Master Builders Australia
Rosalie Mayo-Ramsay	Workcover (NSW)
John Robson	Robson Environmental Pty Ltd
Michael Shepherd	Asbestos Industry Association
Paul Taylor	Safe Work Australia
Guy Valentine	State Training Authority (Queensland)

Overview of Version 6

CPC08 Version 1 was released in early 2009. Since then, there have been four subsequent endorsements of the Training Package. In three of these endorsements new qualifications and units were added to the Training Package, while the other endorsement addressed aligning specific qualifications to licensing requirements. This version is different in that it is primarily focussing on continuous improvement within the Training Package. As a result of the implementation of CPC08 in all states and territories a number of issues have been identified that will improve the Training Package. Version 6 responds to many of those issues. This version also includes significant changes to the packaging of two qualifications in response to changing industry needs. The other major category of changes includes significant work to explicitly embed sustainability into the plumbing and services units in the Training Package. Comprehensive mapping guides have been included for the changes to units of competency and qualifications.

Overview of Version 5

As part of the government's recent *Energy Efficient Homes Package*, in particular the ceiling insulation program, the Department of Environment, Water, Heritage and the Arts (DEWHA) requested the development of nationally recognised training for ceiling insulation installers. CPSISC mapped available competencies and identified three relevant endorsed units:

- CPCCOHS2001A Apply OHS requirements, policies and procedures in the construction industry
- CPCCCM1006A Work safely at heights
- CPCCPB3014A Install batt insulation products.

Components of a fourth unit, CPCCPB3015A Install acoustic and thermal environmental protection systems, were selected to fill a gap in installing other types of insulation. A further unit of competency was:

- CPCCPB3027A Install ceiling insulation to address critical safety requirements in installing ceiling insulation.

Due to the lack of a national unit of competency to cover the work requirements to install ceiling insulation, CPSISC developed training support materials for registered training organisations (RTOs) to deliver the required units of competency (CPCCPB34014A and its prerequisite and co-requisite units CPCCOHS2001A and CPCCCM1006A).

DEWHA's Ceiling Insulation Program competency guidelines also included the acceptance of individual Statements of Attainment against CPCCPB3015A Install acoustic and thermal environmental protection systems as a competency requirement for supervisors of insulation installation.

Through industry consultation it was identified that individual competencies were not sufficient to ensure that supervisors had all the relevant skills and knowledge, especially in critical safety aspects. It was agreed that a new unit of competency which combined all critical functions of installing ceiling insulation should be developed to ensure consistency in training.

Overview of Version 4

The previous CPC40108 Certificate IV in Building and Construction (Building) and CPC50208 Diploma of Building and Construction (Building) qualifications in CPC08, then titled Construction, Plumbing and Services Integrated Framework Training Package, were initially designed to cover higher level building management skills and also to meet registration and licensing requirements for builders in Australian States and Territories.

At the end of the 2007 review of the three Training Packages for the construction, plumbing and services industries, concerns were raised that the requirements for individual registration as a builder were not well aligned to the competency outcomes of these higher level construction qualifications. In some jurisdictions this resulted in the requirement to complete significant additional units of competency in the Diploma in order to meet Builder Registration requirements.

The matter could not be effectively dealt with in the re-development work undertaken during the review as it was only raised, with little detail of the issues, when the review consultation process was near completion. The concerns were not raised earlier because implementation of the qualification had only begun in 2007, so there was very limited industry or RTO experience in using them at the time of the review consultation.

In 2008, in response to further feedback from stakeholders, CPSISC initiated this Version 4 project to seek a better alignment of qualifications to licensing outcomes. Initial consultation with a variety of industry, regulator and RTO stakeholders indicated that the structure of the Certificate IV met the majority of, but not all, jurisdictional categories of limited building registration/licensing. However, it was found that the Diploma structure could be greatly improved by having the underpinning content of some Certificate IV units embedded in it to ensure that training covered the relevant progressive skills required for higher classes of builder registration.

Classes of builder licensing vary considerably across the country, with some jurisdictions having up to 30 classes or categories of licensing while one jurisdiction has a single class. Mutual recognition of licensing is in place and recognition requirements can be ascertained through the Licence Recognition website (<http://www.licencerecognition.gov.au/Default.aspx>). The site sets out the scope of building work covered by licence categories in each jurisdiction but does not provide details of competency and qualification requirements for licensing in each case. In response, CPSISC initiated the Version 4 continuous improvement project to progress the issue and seek a solution.

Overview of Version 3

In 2007 during the review of BCP03 Plumbing and Services Training Package various parties involved in hydraulic design consulting raised the issue of the training and recognition pathway for their workforce using the Training Package qualification pathway. This was set out in a discussion paper circulated by the national Association of Hydraulic Services Consultants Australia (AHSCA), where the main concern was that the Training Package hydraulic design units of competency were embedded in the plumbing services stream of the then Diploma qualification CPC50408 Diploma of Plumbing and Services.

The stream of the Diploma had a prerequisite requirement of completion of the Certificate IV in Plumbing and Services, including the Plumbing and Services – Operations stream. The Certificate IV stream had, in turn, the requirement for prior completion of a relevant trade qualification or equivalent; generally interpreted to mean the completion of a Certificate III in Plumbing. The effect was that an hydraulic services design (HSD) specialisation pathway from the then plumbing and services qualification framework was limited to learners previously completing a trade outcome at Certificate III and then progressing through Certificate IV and Diploma, choosing particular streams in order to gain the range of higher level units of competency necessary to undertake the work. That pathway, still valued by the industry, remains within CPC08 Construction, Plumbing and Services Integrated Framework Training Package, despite the addition of this new Version 3 HSD material.

However, people wanting a career in the field of hydraulic design consulting by entering directly into a Certificate IV specialist hydraulic design pathway and then a specialist Diploma qualification cannot do so under the current packaging rules and entry requirements. The HSD Version 3 additions offer an alternative pathway for hydraulic design consultants within the Training Package.

Members of the PSC involved in Version 3 were:

- Paul Naylor (Chair), Master Plumbers
- Carmel Coate, National Fire Industry Association
- Gary Cook, National Plumbing & Services Training Advisory Group (NPSTAG)
- Michael McGuinness, Australian New Zealand Reciprocity Association
- Stephen Movley, Institute of Plumbing
- Doug McClusky, CEPU – Plumbing Division
- Adrian Hart, Master Plumbers Australia
- John Mahoney, SkillsTech
- Vin Ebeger, Master Plumbers & Mechanical Services Association of Australia
- Murray Thomas, Master Plumbers Association
- Shayne LaCombre, Plumbing Industry Commission.

Overview of Version 2

The version 2 update of CPC08 came about as a result of the addition of the fire systems design (FSD) material, which itself was the result of CPSISC's response to the long-held need of the fire sector to develop qualifications to support the designers of fire systems.

This small, niche sector is of great importance, given the vital work fire systems designers do in ensuring public safety and the protection of built assets. Yet the design of fire systems was not covered by any formal competency-based qualifications.

The National Fire Industry Association (NFIA) and the Fire Protection Association Australia (FPAA) played a central and active role in the project steering committee and in the development of the FSD qualifications and units of competency. Members of the PSC involved in Version 2 were:

- Wayne Smith (Chair), Fire Protection Industry Board of Queensland Inc and NFIA
- Vince Ball, Executive Director, Construction Industry Training Council, ACT
- Luke Behncke, A/Manager, Curriculum Services Branch, Skills Victoria
- Michael Boyce, Chief Executive Officer, PEER VEET
- Carmel Coate, Executive Director, NFIA
- Paul Deipenau, Service Manager, Spectrum Fire Pty Ltd
- Graeme Hunt, Delegate of the Director of Building Control, Department of Justice, Tasmania
- Bill Lea, Managing Director, Prime Water Technologies and FPAA
- Doug McClusky, Training Manager, Communications Electrical Plumbing Union (CEPU) — Plumbing Division
- Roger Thomas, Director of Engineering, Asia Pacific, Tyco Fire Protection Services
- Terry Whitty, Senior Educator, Quality and Curriculum for Building Services, RMIT.

The FSD sector is subject to a range of regulatory and performance requirements arising from fire, plumbing, environmental agencies and Australian standards. The regulatory requirements also vary from and between the various commonwealth, state and territory jurisdictions. It is expected that this sector will be subject to increasing levels of regulatory coverage.

Overview of Version 1

The Training Package review encompassed three previously endorsed Training Packages:

- BCP03 Plumbing and Services Training Package, originally endorsed in October 2003
- BCF00 Off-Site Construction Training Package, originally endorsed in July 2000
- BCG03 General Construction Training Package, endorsed in November 2003 after the review of the previous Training Package originally completed in 1998 and resulted in Certificate IV, Diploma and Advanced Diploma units of competency and qualifications being endorsed in August 2006.

To ensure that the general and off-site units of competency and qualifications integrate and meet industry needs and that plumbing and services qualifications were relevant to industry needs the review was much more than a technical scoping of the existing units of competency and packaging into qualifications. The reviewed Training Packages were restructured where necessary to provide flexible recognition points for the many specialist job roles that have grown in the industry as new building products are developed and technology and work organisation changes occur.

The review put forward and tested how an Integrated Framework of units of competency and qualifications might work across the breadth of the construction industry for the benefit of all stakeholders. In bringing the three Training Packages under a common umbrella it was not the intention to change the recognition and status of any specialist roles or trade streams of work, but to show how the skills used across the whole industry are complementary.

Under the general theme of *A More Flexible and Responsive Training System* COAG, in February 2006, introduced a set of measures to ensure Australia's training and apprenticeship system offered more flexible pathways into work roles and trades where there are ongoing skill shortages. The Construction and Property Services Industry Skills Council was asked to develop additional, nationally portable qualifications for the General Construction Training Package. The primary intention was to better meet ongoing construction industry skill demands and shortages, provide skill recognition for existing workers and improve productivity and safety.

The result was a suite of six new qualifications; three at Certificate II and three at Certificate III that were endorsed by the National Quality Council in July and September 2006. The qualifications were:

- BCG20306 Certificate II in Steelfixing
- BCG20406 Certificate II in Concreting
- BCG20506 Certificate II in Stonemasonry
- BCG31606 Certificate III in Wall and Ceiling Lining (Plasterboard)
- BCG31506 Certificate III in Formwork/Falsework
- BCG31706 Certificate III in Low Rise Structural Framing.

These intermediate qualifications had significant focus during the review to ensure they were genuinely in demand and supported by industry. There has also been the addition of four further qualifications:

- CPC20208 Certificate II in Construction Pathways
- CPC31608 Certificate III in Paving
- CPC32008 Certificate III in Carpentry and Joinery
- CPC32108 Certificate III in Signage.

Two previous qualifications in the BCF00 Off-Site Construction Training Package have been merged with similar qualifications in the general construction area. These are:

- BCF10100 Certificate I in Construction (Off-Site), now CPC10108 Certificate I in General Construction
- BCF20100 Certificate II in Off-Site Construction, now CPC20108 Certificate II in General Construction and CPC20208 Certificate II in Construction Pathways.

Three previous qualifications in the BCF00 Off-Site Construction Training Package were amalgamated into the single new qualification CPC32108 Certificate III in Signage noted above. These qualifications were:

- BCF30700 Certificate III in Off-Site Construction (Sign Writing/Computer Operation)
- BCF30800 Certificate III in Off-Site Construction (Sign Manufacture)
- BCF30900 Certificate III in Off-Site Construction (Neon Manufacture).

Two other qualifications previously in BCF00 Off-Site Construction Training Package have been deleted and not replaced as they had no take-up over the past three years and no future demand expressed by stakeholders during consultation. Other Training Package qualifications have been identified as more suitable. The deleted qualifications are:

- BCF30400 Certificate III in Off-Site Construction (Pre-fabrication)
- BCF30500 Certificate III in Off-Site Construction (Machining).
- The review work was overseen by two specialist groups:

The Review Steering Group:

- Lindsay Fraser (Joint Chair), Assistant Secretary, Construction Forestry, Mining and Energy (CFMEU)
- Laurie Kruize (Joint Chair), Manager for Training and Professional Development, Housing Industry Association (HIA)
- Vince Ball, Executive Director, Construction Industry Training Council ACT
- Peter Brilliant, Director, Building Commission Victoria
- Tom Brown, CEO, Thomas Brown Shopfitters Pty Ltd and Australian Shop and Office Fitting Industry Association (ASOFIA)
- Richard Campbell, Manager, Training Products and Support, Queensland Training Authority
- Vin Ebejer, Training Manager, Master Plumbers Australia
- Carlo Garofali, President, Concrete Placers Association NSW
- Neil Gow, National Manager Training Policy, Master Builders Australia
- David Hay, Managing Director, Metal Plaque Pty Ltd and Australian Sign and Graphics Association (ASGA)
- Paul Lawrence, Technical Trainer, Master Builders Australia NSW
- Doug McClusky, Training Manager, Communications Electrical Plumbing Union (CEPU) – Plumbing Division
- Brian Moss, Apprenticeship Manager, Australand
- Barry Peddle, Director, Institute of TAFE South Western NSW, TAFE Directors Australia
- Terry Saunby, Principal Program Manager, Curriculum Centre for Manufacturing, Engineering, Construction and Transport (MECAT), NSW TAFE
- Alan Sparks, CEO, East Coast Apprenticeships
- Glenn Thompson, Training Manager, Australian Manufacturing Workers Union (AMWU)
- Robert Wagner, General Manager, J.H. Wagner & Sons
- Alan Waldron, General Manager, Construction Training Queensland
- Bill Watson, CEO, Connectors Pty Ltd and Master Plumbers Association of Queensland

National Plumbing Review Reference Group:

- Kerry Appelt, TAFE Queensland National Plumbing and Services Training Advisory Group (NPSTAG) Queensland
- Fred Baltetsch, TAFE Victoria National Plumbing and Services Training Advisory Group (NPSTAG) Victoria
- Carmel Coate, Executive Director, National Fire Industry Association (NFIA)

- Gary Cook, Training Adviser, Sydney Water and National Plumbing and Services Training Advisory Group (NPSTAG) NSW
- Michael McGuiness, Plumbing and Services Regulator, Queensland Australian New Zealand Reciprocity Association
- Stephen Movley, President, Institute of Plumbing WA
- Paul Naylor, CEO, Master Plumbers Association of NSW
- Geoff Sharrock, CEO, Plumbing Industry Commission Victoria
- Bill Watson, CEO, Connectors Pty Ltd and Master Plumbers Association of Queensland

Introduction

In economic terms the construction industry is a major segment of the Australian economy, employing nearly 900,000 people with half of this workforce in the housing sector. The industry is characterised by contracting and with less than 3 persons per firm the norm is micro businesses with owners working directly in a trade area, rather than just business management. The trend toward contracting labour and increasingly labour hire rather than direct employment is more pronounced in the general construction industry than any other. CPC08 Construction, Plumbing and Services Training Package covers occupations and job roles in general and off-site construction, plumbing and services from entry level to management.

There are entry points at Certificate I and Certificate II that have pre-vocational outcomes suitable for entry into Australian Apprenticeships. Stakeholders strongly support achievement of full trade qualifications to help meet ongoing industry skill shortages.

Trade outcomes include shopfitting, joinery, stair building, stonemasonry (monumental/installation), signage, brick and blocklaying, carpentry, concreting, demolition, dogging, painting and decorating, segmental paving, rigging, roof tiling, scaffolding, solid plastering, steelfixing, wall and ceiling lining, wall and floor tiling and waterproofing. Plumbing and services occupations include coverage of urban irrigation, drainage, metal roofing and cladding, plumbing, mechanical services, roof plumbing, gas fitting and fire protection services.

Certificate IV and Diploma qualifications cover building and plumbing licensing requirements with the Advanced Diploma meeting skills of construction managers. The specialist field of building surveying is included with Diploma and Advanced Diploma outcomes.

Building techniques used in the construction industry have undergone changes in recent years, with significant technological advances in prefabrication, energy efficiency and project management tools. These advancements have affected a wide range of fields, from materials (concrete, metal pre-casting and alternative wood products), management methods (subcontracting, prefabrication and project management) and innovations (robotics, computer aided design and electronically linked project management teams). Benefits of technological advancement are also seen in increased productivity, new capital equipment and the improved energy efficiency of buildings.

Qualifications Framework

The Australian Qualifications Framework

What is the Australian Qualifications Framework?

A brief overview of the Australian Qualifications Framework (AQF) follows. For a full explanation of the AQF, see the *AQF Implementation Handbook* on the Australian Qualifications Framework (AQF) website <www.aqf.edu.au>.

The AQF provides a comprehensive, nationally consistent framework for all qualifications in post-compulsory education and training in Australia. In the vocational education and training (VET) sector it assists national consistency for all trainees, learners, employers and providers by enabling national recognition of qualifications and Statements of Attainment.

Training Package qualifications in the VET sector must comply with the titles and guidelines of the AQF. Endorsed Training Packages provide a unique title for each AQF qualification which must always be reproduced accurately.

Qualifications

Training Packages can incorporate the following AQF qualifications.

- Certificate I in ...
- Certificate II in ...
- Certificate III in ...
- Certificate IV in ...
- Diploma of ...
- Advanced Diploma of ...
- Graduate Certificate in ...
- Graduate Diploma of ...

On completion of the requirements defined in the Training Package, a registered training organisation (RTO) should issue a nationally recognised AQF qualification. Issuance of AQF qualifications must comply with the advice provided in the current *AQF Implementation Handbook* and the *Standards for NVR Registered Training Organisations*.

Statement of Attainment

A Statement of Attainment is issued by a Registered Training Organisation when an individual has completed one or more units of competency from nationally recognised qualification(s)/courses(s). Issuance of Statements of Attainment must comply with the advice provided in the current *AQF Implementation Handbook* and the *Standards for NVR Registered Training Organisations*.

Under the *Standards for NVR Registered Training Organisations*, RTOs must recognise the achievement of competencies as recorded on a qualification testamur or Statement of Attainment issued by other RTOs. Given this, recognised competencies can progressively build towards a full AQF qualification.

AQF Guidelines and Learning Outcomes

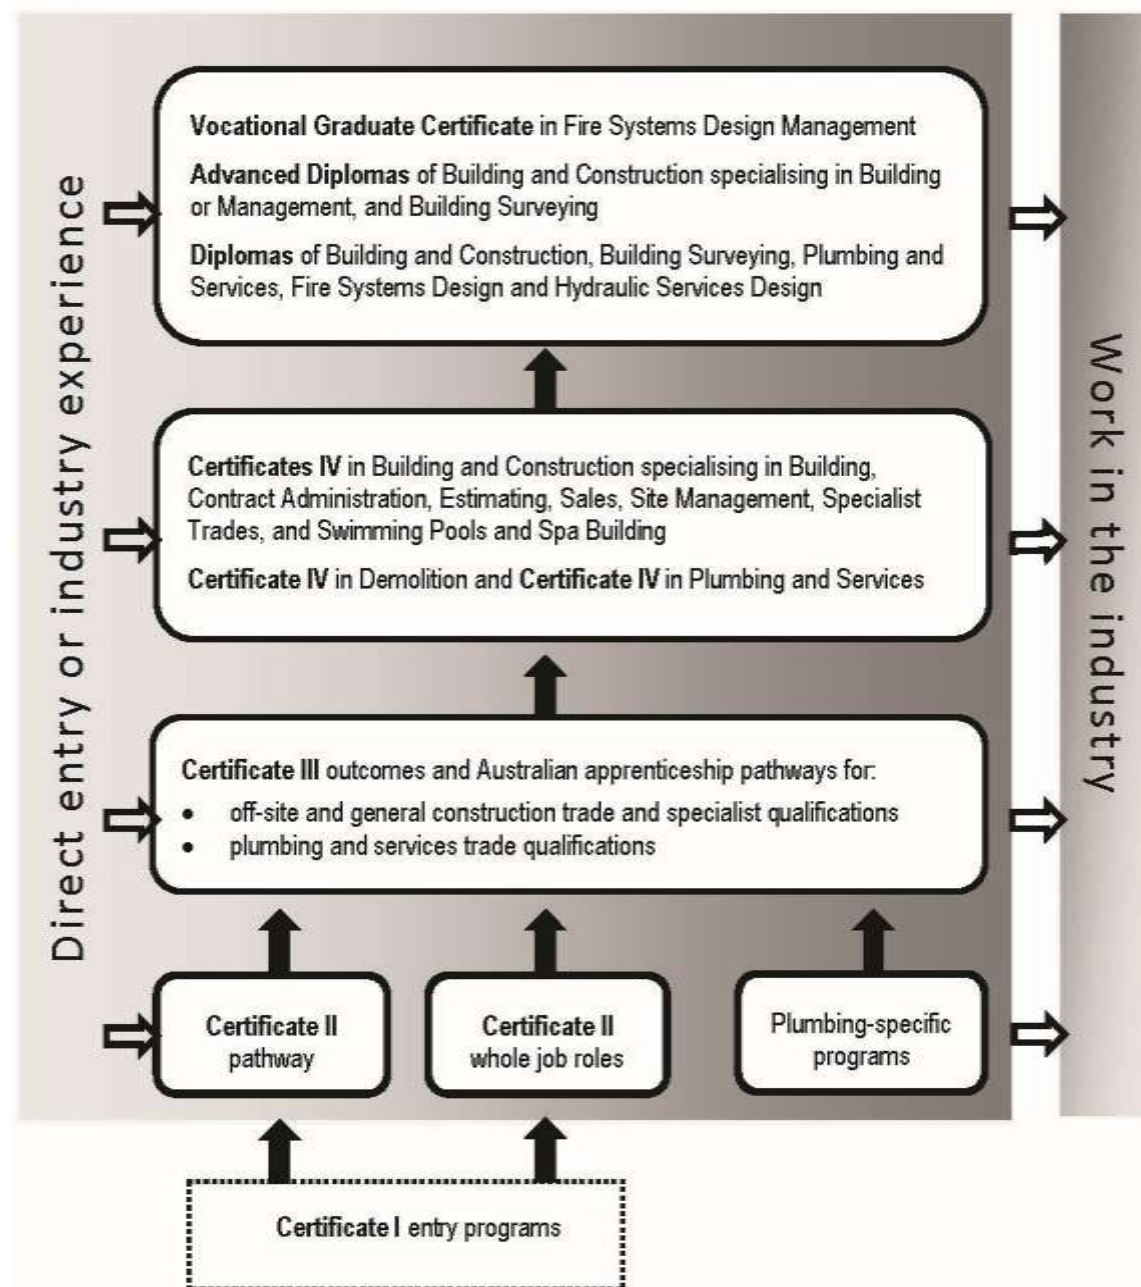

The *AQF Implementation Handbook* provides a comprehensive guideline for each AQF qualification.

Career pathways in the construction, plumbing and services industries

The diagram below represents the qualification pathways in CPC08 Construction, Plumbing and Services Training Package.

Career pathways in the construction, plumbing and services industries

The diagram below represents the qualification pathways in CPC08 Construction, Plumbing and Services Training Package.

All qualifications are open to direct entry, with the exception of the operations stream in the Certificate IV in Plumbing and Services and the plumbing and services stream in the Diploma of Plumbing and Services and also the Diploma of Hydraulic Services Design.

Skill sets

Skill sets

Definition

Skill sets are defined as single units of competency, or combinations of units of competency from an endorsed Training Package, which link to a licence or regulatory requirement, or defined industry need.

Wording on Statements of Attainment

Skill sets are a way of publicly identifying logical groupings of units of competency which meet an identified need or industry outcome. Skill sets are not qualifications.

Where skill sets are identified in a Training Package, the Statement of Attainment can set out the competencies a person has achieved in a way that is consistent and clear for employers and others. This is done by including the wording 'these competencies meet *[insert skill set title or identified industry area]* need' on the Statement of Attainment. This wording applies only to skill sets that are formally identified as such in the endorsed Training Package. See the AQF Implementation Handbook for advice on wording on Statements of Attainment by visiting the AQF website <www.aqf.edu.au>.

Skill sets in CPC08 Construction, Plumbing and Services Training Package

Skill sets are groups of units of competency that reflect a cohesive industry outcome, but one which is insufficient for a full Australian Qualifications Framework (AQF) award. Skill sets may also provide a bridge between qualifications, respond to regulatory needs or identify an emerging skill area.

Undertake trade contracting

This skill set addresses the skills used by experienced tradespersons operating as sole traders or with limited staff who contract their services to builders. They may be in the early stages of developing and growing their newly established businesses.

The skill set provides an initial set of business skills to support contractors' existing trade skills.

The completion of this skill set provides a pathway to a range of Certificate IV qualifications in CPC08.

The suggested form of words for inclusion on a Statement of Attainment is: These units from CPC08 Construction, Plumbing and Services Training Package meet industry requirements for experienced tradespersons performing trade contracting work in the construction industry.

Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCCOHS1001A covers this requirement.

Packaging rules

Undertake trade contracting

CPCCBC4004A	Identify and produce estimated costs for building and construction projects
CPCCBC4024A	Resolve business disputes
CPCCBC4034A	Apply codes and standards to building trade and services contracting
BSBCUS301B	Deliver and monitor a service to customers
BSBOHS403B	Identify hazards and assess OHS risks
BSBSMB401A	Establish legal and risk management requirements of small business
BSBSMB406A	Manage small business finances

Plus one of the following units:

BSBWRT401A	Write complex documents
CPCCBC4025A	Manage personal work priorities and professional development
CPCCBC4031A	Process client requirements

Lead a building, construction or plumbing and services team

This skill set addresses the skills used by experienced tradespersons and operators who are moving into roles with additional responsibility and team leadership, typically in smaller businesses.

The skill set provides the team leadership and other skills to enable experienced site supervisors or builders to develop staff under their supervision.

The completion of this skill set provides a pathway to a range of Certificate IV qualifications in CPC08, including credit towards the Certificate IV in Plumbing and Services.

The suggested form of words for inclusion on a Statement of Attainment is: These units from CPC08 Construction, Plumbing and Services Training Package meet industry requirements for experienced tradespersons and operators working as building, construction or plumbing and services team leaders in the construction and plumbing and services industry.

Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCCOHS1001A covers this

Lead a building, construction or plumbing and services team requirement.

Packaging rules

CPCCBC4002A	Manage occupational health and safety in the building and construction workplace
CPCCBC4009B	Apply legal requirements to building and construction projects
BSBWOR402A	Promote team effectiveness

Manage complex building projects

This skill set addresses the skills used by builders to manage complex and diverse building projects. The range and depth of skills required of builders is amplified by the size and complexity of the projects on which they work.

This skill set is a bridge for experienced builders already operating at the Certificate IV level who are preparing to undertake larger scale projects which may entail developing additional skills and also, possibly, seeking a higher level of builder's licence in the relevant State or Territory. This skill set may be supported by continuing professional development programs which are increasingly required of builders.

The completion of this skill set provides a pathway to a Diploma qualification in CPC08.

The suggested form of words for inclusion on a Statement of Attainment is: These units from CPC08 Construction, Plumbing and Services Training Package meet industry requirements for experienced builders preparing to undertake complex building projects requiring additional administrative and technical skills and a higher level of builder's licence in some jurisdictions.

Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCCOHS1001A covers this requirement.

Packaging rules

CPCCBC5001B	Apply building codes and standards to the construction process for medium rise building projects
CPCCBC5003A	Supervise the planning of on-site medium rise building or construction work
CPCCBC5007B	Administer the legal obligations of a building or construction contractor

Manage complex building projects	
CPCCBC5018A	Apply structural principles to the construction of medium rise buildings

Employability skills

Employability Skills Framework

The following table contains the employability skills facets identified in the report *Employability Skills for the Future*.

Skill	Facets
	Aspects of the skill that employers identify as important. The nature and application of these facets will vary depending on industry and job type.
Communication that contributes to productive and harmonious relations across employees and customers	<ul style="list-style-type: none"> • listening and understanding • speaking clearly and directly • writing to the needs of the audience • negotiating responsively • reading independently • empathising • using numeracy effectively • understanding the needs of internal and external customers • persuading effectively • establishing and using networks • being assertive • sharing information • speaking and writing in languages other than English
Teamwork that contributes to productive working relationships and outcomes	<ul style="list-style-type: none"> • working across different ages irrespective of gender, race, religion or political persuasion • working as an individual and as a member of a team • knowing how to define a role as part of the team • applying teamwork to a range of situations e.g. future planning and crisis problem solving • identifying the strengths of team members • coaching and mentoring skills, including giving feedback
Problem solving that contributes to productive outcomes	<ul style="list-style-type: none"> • developing creative, innovative and practical solutions • showing independence and initiative in identifying and solving problems • solving problems in teams

	<ul style="list-style-type: none"> • applying a range of strategies to problem solving • using mathematics, including budgeting and financial management to solve problems • applying problem-solving strategies across a range of areas • testing assumptions, taking into account the context of data and circumstances • resolving customer concerns in relation to complex project issues
Initiative and enterprise that contribute to innovative outcomes	<ul style="list-style-type: none"> • adapting to new situations • developing a strategic, creative and long-term vision • being creative • identifying opportunities not obvious to others • translating ideas into action • generating a range of options • initiating innovative solutions
Planning and organising that contribute to long and short-term strategic planning	<ul style="list-style-type: none"> • managing time and priorities – setting time lines, coordinating tasks for self and with others • being resourceful • taking initiative and making decisions • adapting resource allocations to cope with contingencies • establishing clear project goals and deliverables • allocating people and other resources to tasks • planning the use of resources, including time management • participating in continuous improvement and planning processes • developing a vision and a proactive plan to accompany it • predicting – weighing up risk, evaluating alternatives and applying evaluation criteria • collecting, analysing and organising information • understanding basic business systems and their relationships
Self-management that contributes to employee satisfaction and growth	<ul style="list-style-type: none"> • having a personal vision and goals • evaluating and monitoring own performance • having knowledge and confidence in own ideas and visions • articulating own ideas and visions • taking responsibility
Learning that contributes to ongoing improvement and expansion in employee and company operations and outcomes	<ul style="list-style-type: none"> • managing own learning • contributing to the learning community at the workplace • using a range of mediums to learn – mentoring, peer support and networking, IT and courses • applying learning to technical issues (e.g. learning about products) and people issues (e.g. interpersonal and cultural aspects of work) • having enthusiasm for ongoing learning • being willing to learn in any setting – on and off the job • being open to new ideas and techniques

	<ul style="list-style-type: none"> • being prepared to invest time and effort in learning new skills • acknowledging the need to learn in order to accommodate change
Technology that contributes to the effective carrying out of tasks	<ul style="list-style-type: none"> • having a range of basic IT skills • applying IT as a management tool • using IT to organise data • being willing to learn new IT skills • having the OHS knowledge to apply technology • having the appropriate physical capacity

Employability Skills Summary

An Employability Skills Summary exists for each qualification. Summaries provide a lens through which to view employability skills at the qualification level and capture the key aspects or facets of the employability skills that are important to the job roles covered by the qualification. Summaries are designed to assist trainers and assessors to identify and include important industry application of employability skills in learning and assessment strategies. The following is important information for trainers and assessors about Employability Skills Summaries.

Employability Skills Summaries provide examples of how each skill is applicable to the job roles covered by the qualification.

Employability Skills Summaries contain general information about the industry context which is further explained as measurable outcomes of performance in the units of competency in each qualification.

The detail in each Employability Skills Summary will vary depending on the range of job roles covered by the qualification in question.

Employability Skills Summaries are not exhaustive lists of qualification requirements or checklists of performance (which are separate assessment tools that should be designed by trainers and assessors after analysis at the unit level).

Employability Skills Summaries contain information that may also assist in building learners' understanding of industry and workplace expectations.

Industry requirements for employability skills

For more information on employability skills in the Construction and Property Services Industry Skills Council (CPSISC) Training Packages go to the CPSISC website at www.cpsisc.com.au (www.cpsisc.com.au).

Assessment Guidelines

Introduction

These Assessment Guidelines provide the endorsed framework for assessment of units of competency in this Training Package. They are designed to ensure that assessment is consistent with the *Standards for NVR Registered Training Organisations*. Assessments against the units of competency in this Training Package must be carried out in accordance with these Assessment Guidelines.

Assessment system overview

This section provides an overview of the requirements for assessment when using this Training Package.

Benchmarks for assessment

Assessment within the National Skills Framework is the process of collecting evidence and making judgements about whether competency has been achieved to confirm whether an individual can perform to the standards expected in the workplace, as expressed in the relevant endorsed unit of competency.

In the areas of work covered by this Training Package, the endorsed units of competency are the benchmarks for assessment. As such, they provide the basis for nationally recognised Australian Qualifications Framework (AQF) qualifications and Statements of Attainment issued by Registered Training Organisations (RTOs).

Australian Quality Training Framework assessment requirements

Assessment leading to nationally recognised AQF qualifications and Statements of Attainment in the vocational education and training sector must meet the requirements of the *Standards for NVR Registered Training Organisations* as expressed in the essential conditions and standards for initial registration and continuing registration, which may be downloaded from < www.asqa.gov.au >.

These essential conditions and standards for initial registration and continuing registration of training organisations also provide information on:

- registration of training organisations
- quality training and assessment
- assessor competency requirements
- assessment requirements
- assessment strategies
- national recognition
- access and equity and client outcomes
- monitoring assessments
- recording assessment outcomes
- issuing AQF qualifications and Statement of Attainment (see also the *Standards for NVR Registered Training Organisations* and the AQF Implementation Handbook - available on the AQF website <www.aqf.edu.au>).

Licensing requirements

A number of occupations and job roles covered by the units of competency and qualifications in CPC08 Construction, Plumbing and Services Training Package may be subject to state and territory licensing requirements. These requirements vary significantly across jurisdictions. There are 13 specific units of competency agreed by all work health and safety (WHS) regulators and the Australian Safety and Compensation Council (ASCC) as meeting certain licensing categories. These units of competency include:

- The unit CPCCOHS1001A Work safely in the construction industry aligned at Certificate I meets the requirement for the National Code of Practice for Induction for Construction Work (ASCC 2007)

- 12 high risk work licensing units of competency that support the implementation of the National Standard for Licensing Persons Performing High Risk Work (ASCC, April 2006) and these are identified as licensing competencies in the unit code and unit descriptor.

* Note: CPSISC advises that references to OHS will be progressively updated in this and future versions of CPC08 content to reflect the legislated change in the term from occupational health and safety (OHS) to work health and safety (WHS).

Licensing units of competency may be packaged into a qualification, included in a skill set, or delivered and assessed as stand-alone units.

The National Standard for licensing persons performing high risk work provides the overarching regulatory framework for the delivery and assessment of the licensing units of competency. State/territory WHS authorities have mandated the use assessment instruments for the 12 high risk work licensing units of competency. The assessment instruments have been endorsed by the national body responsible for WHS matters. For further information contact your state/territory WHS authority.

The high risk work licensing units of competency include:

High risk work licensing unit	Aligned to qualification in CPC08	Core or elective
CPCCLTC4001A Licence to operate a tower crane	CPC40611 Certificate IV in Building and Construction (Specialist Trades)	Core (crane operations stream)
CPCCLTC4002A Licence to operate a self-erecting tower crane	CPC40611 Certificate IV in Building and Construction (Specialist Trades)	Core (crane operations stream)
CPCCLSF2001A Licence to erect, alter and dismantle scaffolding basic level	CPC30911 Certificate III in Scaffolding	Core
CPCCLSF3001A Licence to erect, alter and dismantle scaffolding intermediate level	CPC30911 Certificate III in Scaffolding	Core
CPCCLSF4001A Licence to erect, alter and dismantle scaffolding advanced level	CPC40611 Certificate IV in Building and Construction (Specialist Trades)	Core (Rigging stream)
CPCCLRG3001A Licence to perform rigging	CPC30711 Certificate III in Rigging	Core

High risk work licensing unit	Aligned to qualification in CPC08	Core or elective
basic level		
CPCCLRG3002A Licence to perform rigging intermediate level	CPC30711 Certificate III in Rigging	Core
CPCCLRG4001A Licence to perform rigging advanced level	CPC40611 Certificate IV in Building and Construction (Specialist Trades)	Core (Rigging stream)
CPCCLHS3001A Licence to operate a personnel and materials hoist	CPC30711 Certificate III in Rigging	Elective
CPCCLHS3002A Licence to operate a materials hoist	CPC30711 Certificate III in Rigging	Elective
CPCCLDG3001A Licence to perform dogging	CPC30511 Certificate III in Dogging	Core
CPCCLBM3001A Licence to operate a concrete placing boom	CPC30313 Certificate III in Concreting	Elective

For further information on the implementation of these units and the National Standard for licensing persons performing high risk work visit:

Plumbing and services

The plumbing and services industry places a premium on skills and knowledge that can be demonstrated in a real workplace environment. Whilst assessment of some of the units of competency in CPC08 can be carried out in a simulated work environment, the industry strongly recommends that assessment is conducted in the workplace, wherever possible.

When selecting a plumbing and services qualification, including choice of electives, reference should be made to the requirement identified by the Australian and New Zealand Reciprocity Association that the following units must be completed for the range of plumbing specialisations which are used within the States and Territories for licensing purposes:

All streams

CPCPCM4011A Carry out work-based risk control processes

CPCPCM4012A Estimate and cost work

BSBSMB401A Establish legal and risk management requirements of small business

Water supply

CPCPWT4011B Design and size heated and cold water services and systems

CPCPWT4022A Commission and maintain backflow prevention devices

CPCPWT4023A Commission and maintain hot and heated water temperature control devices

Drainage

CPCPDR4011B Design and size sanitary drainage systems

CPCPDR4012B Design and size stormwater drainage systems

CPCPDR4013B Design and size domestic treatment plant disposal systems

Sanitary

CPCPSN4011B Design and size sanitary plumbing systems

Fire services

CPCPFS4021A Commission domestic and residential fire suppression sprinkler systems

CPCPFS4022A Commission and maintain special hazard fire suppression systems

CPCPFS4023A Commission fire system pumpsets

CPCPFS4024A Design residential and domestic fire sprinkler systems

Gasfitting

CPCPGS4011C Design and size consumer gas installations

CPCPGS4022A Service Type A gas appliances

Air conditioning and mechanical services

CPCPMS4011B Design, size and lay out heating and cooling systems

CPCPMS4022A Commission air and water systems

Roofing

CPCPRF4011B Design and size roof drainage systems

Licensing authorities

Licensing authorities across Australia have actively participated in the development of this Training Package and it is envisaged that over time the state and territory licensing requirements in a number of occupations will be aligned with the units of competency and qualifications in this Training Package. There is no one 'national' licence for the sector or any of its functions. Certification responsibilities and systems are administered by state legislation and may differ between States and Territories.

The developers of this Training Package, together with the Department of Industry, consider that the licensing/registration requirements described in this section apply to RTOs, assessors or candidates with respect to this Training Package. While reasonable care has been taken in its preparation, the developers of this Training Package and the Department of Industry cannot guarantee that the list is definitive or accurate at the time of reading; the information in this section is provided in good faith on that basis.

In order to conduct assessments for statutory licensing or other industry registration conditions, assessors may need to meet additional requirements. While RTOs may have information on the licensing requirements for their particular State or Territory, these requirements may change over time and differ between State and Territory jurisdictions. Users of this Training Package are therefore advised to consult the relevant occupational licensing authority in their State or Territory to determine the specific licensing requirements. The regulatory authorities for the building and construction and plumbing and services industries at the time of endorsement of this Training Package are:

Regulators for carpenters, joiners, builders and building related occupations

Requirements for Assessors

In order to deliver the qualifications contained in this Training Package, assessors delivering qualifications from this CPC08 Construction, Plumbing and Services Training Package should have the following minimum competency, recognition and experience:

- formal recognition of competency at least to the level being assessed

- relevant industry experience, that is, workplace experience within the last two years in the competency area being delivered
- relevant occupational registration or licensing in areas where this is a regulatory requirement to practise in the jurisdiction where the qualification is being assessed.

Assessing competence at higher AQF levels

In order to assess competence in qualifications within this Training Package at Certificate IV to Advanced Diploma level (excluding the Diploma and Advanced Diploma of Building Surveying), assessors or assessment team members collectively should have the following minimum competency, recognition and experience:

Certificate IV

Recommended construction industry requirements for assessors relative to vocational competencies:

- relevant vocational competencies and current industry experience at a professional or para-professional level in the construction industry.

This may be evidenced by registration on the National Building Professionals Register (at either levels 1 or 2) or registration on the National Building Technologists Register (at level 1).

Examples of appropriate employment include:

- principal or senior manager of a building practice constructing several complete houses a year
- project manager, contracts manager, site manager, quantity surveyor or general foreman on larger construction projects
- possession of a nationally recognised Statement of Attainment or qualification covering the units of competency being delivered and/or accepted by industry as a subject matter expert; where subject matter expertise can be evidenced by other credentials or confirmed experience equivalent to a nationally recognised AQF qualification in the subject area.

Examples of formal recognition are:

- proof of membership of a relevant professional body to at least Associate or Corporate (Chartered) level.

Diploma

Recommended construction industry requirements for assessors relative to vocational competencies:

- current industry experience at a professional or para-professional level in the construction industry.

This may be evidenced by registration on the National Building Professionals Register (at level 1).

Examples of appropriate employment include:

- principal or senior manager of a building practice working in the commercial construction sector and/or completing a significant number of residential or commercial projects each year, including a number of concurrent projects
- project manager, contracts manager or other senior manager for a building practice working in the commercial construction sector and/or completing a significant number of residential or commercial projects each year, including a number of concurrent projects

- possession of a nationally recognised Statement of Attainment or qualification covering the units of competency being delivered and/or accepted by industry as a subject matter expert; where subject matter expertise can be evidenced by other credentials or confirmed experience equivalent to a nationally recognised AQF qualification in the subject area.

Examples of formal recognition are:

- proof of membership of a relevant professional body to at least Corporate (Chartered) level.

Advanced Diploma

Recommended construction industry requirements for assessors relative to vocational competencies:

- current industry experience at a professional or para-professional level in the construction industry.

This may be evidenced by registration on the National Building Professionals Register (at level 1).

Examples of appropriate employment include:

- principal or senior manager of a building practice working in the commercial construction sector and/or completing a significant number of large scale and high rise projects each year, including a number of concurrent projects
- project manager, contracts manager or other senior manager for a building practice working in the commercial construction sector and/or completing a significant number of large scale and high rise projects each year, including a number of concurrent projects
- possession of a nationally recognised Statement of Attainment or qualification covering the units of competency being delivered and/or accepted by industry as a subject matter expert; where subject matter expertise can be evidenced by other credentials or confirmed experience equivalent to a nationally recognised AQF qualification in the subject area.

Examples of formal recognition are:

- proof of membership of a relevant professional body to at least Corporate (Chartered) level.

RTO assessments

The RTO's assessments meet the requirements of the endorsed components of Training Packages and the outcomes specified in accredited courses within the scope of its registration. The RTO must ensure that assessments (including RPL):

- comply with the Assessment Guidelines included in the applicable nationally endorsed Training Packages or the assessment requirements specified in accredited courses
- lead to the issuing of a statement of attainment or qualification under the AQF when a person is assessed as competent against nationally endorsed unit(s) of competency in the applicable Training Package or modules specified in the applicable accredited course
- are valid, reliable, fair and flexible
- provide for applicants to be informed of the context and purpose of the assessment and the assessment process

- where relevant, focus on the application of knowledge and skill to the standard of performance required in the workplace and cover all aspects of workplace performance, including task skills, task management skills, contingency management skills and job role environment skills
- involve the evaluation of sufficient evidence to enable judgements to be made about whether competency has been attained
- provide for feedback to the applicant about the outcomes of the assessment process and guidance on future options
- are equitable for all persons, taking account of individual needs relevant to assessment
- provide for reassessment on appeal.

The RTO must ensure that RPL is offered to all applicants on enrolment

The RTO must have an RPL process that:

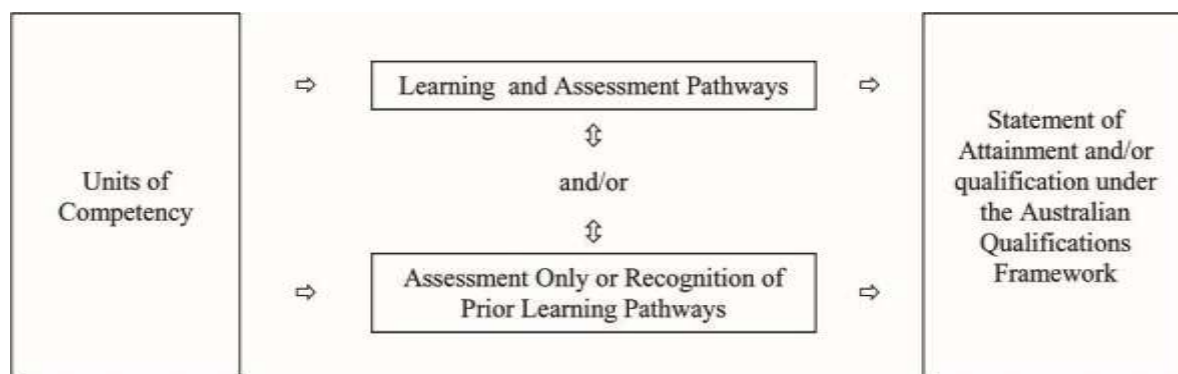

- is structured to minimise the time and cost to applicants
- provides adequate information, support and opportunities for participants to engage in the RPL process.

Pathways

The competencies in this Training Package may be attained in a number of ways including through:

- formal or informal education and training
- experiences in the workplace
- general life experience, and/or
- any combination of the above.

Assessment under this Training Package leading to an AQF qualification or Statement of Attainment may follow a learning and assessment pathway, an assessment-only or recognition pathway, or a combination of the two as illustrated in the following diagram.

Each of these assessment pathways leads to full recognition of competencies held – the critical issue is that the candidate is competent, not how the competency was acquired. Assessment, by any pathway, must comply with the assessment requirements set out in the Assessment Guidelines of the Training Package and the *Standards for NVR Registered Training Organisations*.

Learning and assessment pathways

Usually, learning and assessment are integrated, with assessment evidence being collected and feedback provided to the candidate at any time throughout the learning and assessment process.

Learning and assessment pathways may include structured programs in a variety of contexts using a range of strategies to meet different learner needs. Structured learning and assessment programs could be: group-based, work-based, project-based, self-paced, action learning-based; conducted by distance or e-learning; and/or involve practice and experience in the workplace.

Learning and assessment pathways to suit Australian Apprenticeships have a mix of formal structured training and structured workplace experience with formative assessment activities through which candidates can acquire and demonstrate skills and knowledge from the relevant units of competency.

Assessment-only or recognition of prior learning pathway

Competencies already held by individuals can be formally assessed against the units of competency in this Training Package, and should be recognised regardless of how, when or where they were achieved.

In an assessment-only or recognition of prior learning (RPL) pathway, the candidate provides current, quality evidence of their competency against the relevant unit of competency. This process may be directed by the candidate and verified by the assessor, such as in the compilation of portfolios; or directed by the assessor, such as through observation of workplace performance and skills application, and oral and/or written assessment. Where the outcomes of this process indicate that the candidate is competent, structured training is not required. The RPL requirements of the *Standards for NVR Registered Training Organisations* must be met.

As with all assessment, the assessor must be confident that the evidence indicates that the candidate is currently competent against the endorsed unit of competency. This evidence may take a variety of forms and might include certification, references from past employers, testimonials from clients, and work samples. The onus is on candidates to provide sufficient evidence to satisfy assessors that they currently hold the relevant competencies. In judging evidence, the assessor must ensure that the evidence of prior learning is:

- authentic (the candidate's own work);
- valid (directly related to the current version of the relevant endorsed unit of competency);
- reliable (shows that the candidate consistently meets the endorsed unit of competency);
- current (reflects the candidate's current capacity to perform the aspect of the work covered by the endorsed unit of competency); and
- sufficient (covers the full range of elements in the relevant unit of competency and addresses the four dimensions of competency, namely task skills, task management skills, contingency management skills, and job/role environment skills).

The assessment only or recognition of prior learning pathway is likely to be most appropriate in the following scenarios:

- candidates enrolling in qualifications who want recognition for prior learning or current competencies;
- existing workers;
- individuals with overseas qualifications;
- recent migrants with established work histories;
- people returning to the workplace; and
- people with disabilities or injuries requiring a change in career.

Combination of pathways

Where candidates for assessment have gained competencies through work and life experience and gaps in their competence are identified, or where they require training in new areas, a combination of pathways may be appropriate.

In such situations, the candidate may undertake an initial assessment to determine their current competency. Once current competency is identified, a structured learning and assessment program ensures that the candidate acquires the required additional competencies identified as gaps.

Assessor requirements

This section identifies the mandatory competencies for assessors, and clarifies how others may contribute to the assessment process where one person alone does not hold all the required competencies.

Assessor competencies

The *Standards for NVR Registered Training Organisations* specify mandatory competency requirements for assessors. For information, go to www.asqa.gov.au.

Reasonable adjustment

In accordance with the Disability Standards for Education (2005), reasonable adjustments are to be made to ensure equity in training and assessment of people with disabilities. This means that all 'education providers are under a positive obligation to make changes to reasonably accommodate the needs of a student with a disability'.

Adjustments are considered 'reasonable' if they do not impose an unjustifiable hardship on a training provider or employer. When assessing people with disabilities, assessors are encouraged to apply good practice assessment methods with sensitivity and flexibility. This should include:

- checking their initial assumptions about the capacity to include people with various disabilities
- seeking advice from people with experience and expertise in training, assessing and otherwise supporting people with disabilities.

Designing assessment tools

This section provides an overview on the use and development of assessment tools.

Use of assessment tools

Assessment tools provide a means of collecting the evidence that assessors use in making judgements about whether candidates have achieved competency.

There is no set format or process for the design, production or development of assessment tools. Assessors may use prepared assessment tools, such as those specifically developed to support this Training Package, or they may develop their own.

Developing assessment tools

When developing their own assessment tools, assessors must ensure that the tools:

- are benchmarked against the relevant unit or units of competency;
- are reviewed as part of the validation of assessment strategies required under the Standards; and
- meet the assessment requirements expressed in the *Standards for NVR Registered Training Organisations*.

A key reference for assessors developing assessment tools is TAE10 Training and Education Training Package and the unit of competency *TAEASS502B Design and develop assessment tools*.

Conducting assessment

This section details the mandatory assessment requirements and provides information on equity in assessment including reasonable adjustment.

Mandatory assessment requirements

Assessments must meet the criteria set out in the *Standards for NVR Registered Training Organisations*.

For information, go to www.asqa.gov.au.

Assessment of employability skills

Employability skills are integral to workplace competency. As such, they must be considered in the design, customisation, delivery and assessment of vocational education and training programs in an integrated and holistic way.

Employability skills are embedded and explicit within each unit of competency. Training providers must use employability skills information in order to design valid and reliable training and assessment strategies. This analysis could include:

- reviewing units of competency to locate relevant employability skills and determine how they are applied within the unit
- analysing the Employability Skills Summary for the qualification in which the unit or units are packaged to help clarify relevant industry and workplace contexts and the application of employability skills at that qualification outcome
- designing training and assessment to address employability skills requirements.

For more information on employability skills in Construction and Property Services Industry Skills Council (CPSISC) Training Packages, go to the CPSISC website at www.cpsisc.com.au.

Access and equity

An individual's access to the assessment process should not be adversely affected by restrictions placed on the location or context of assessment beyond the requirements specified in this Training Package: training and assessment must be bias-free.

Under the rules for their development, Training Packages must reflect and cater for the increasing diversity of Australia's VET clients and Australia's current and future workforce. The flexibilities offered by Training Packages should enhance opportunities and potential outcomes for all people so that we can all benefit from a wider national skills base and a shared contribution to Australia's economic development and social and cultural life.

Reasonable adjustments

It is important that education providers take meaningful, transparent and reasonable steps to consult, consider and implement reasonable adjustments for students with disability.

Under the *Disability Standards for Education 2005*, education providers must make reasonable adjustments for people with disability to the maximum extent that those adjustments do not cause that provider unjustifiable hardship. While 'reasonable adjustment' and 'unjustifiable hardship' are different concepts and involve different considerations, they both seek to strike a balance between the interests of education providers and the interests of students with and without disability.

An adjustment is any measure or action that a student requires because of their disability, and which has the effect of assisting the student to access and participate in education and training on the same basis as students without a disability. An adjustment is reasonable if it achieves this purpose while taking into account factors such as the nature of the student's disability, the views of the student, the potential effect of the adjustment on the student and others who might be affected, and the costs and benefits of making the adjustment.

An education provider is also entitled to maintain the academic integrity of a course or program and to consider the requirements or components that are inherent or essential to its nature when assessing whether an adjustment is reasonable. There may be more than one adjustment that is reasonable in a given set of circumstances; education providers are required to make adjustments that are reasonable and that do not cause them unjustifiable hardship.

See the Training Package Development Handbook

(<http://www.deewr.gov.au/Skills/Overview/Policy/TPDH/Pages/main.aspx>) for more information on reasonable adjustment, including examples of adjustments.

Further sources of information

The section provides a listing of useful contacts and resources to assist assessors in planning, designing, conducting and reviewing of assessments against this Training Package.

Competency Standards

What is competency?

The broad concept of industry competency concerns the ability to perform particular tasks and duties to the standard of performance expected in the workplace. Competency requires the application of specified skills, knowledge and attitudes relevant to effective participation in an industry, industry sector or enterprise.

Competency covers all aspects of workplace performance and involves performing individual tasks; managing a range of different tasks; responding to contingencies or breakdowns; and, dealing with the responsibilities of the workplace, including working with others. Workplace competency requires the ability to apply relevant skills, knowledge and attitudes consistently over time and in the required workplace situations and environments. In line with this concept of competency Training Packages focus on what is expected of a competent individual in the workplace as an outcome of learning, rather than focussing on the learning process itself. Competency standards in Training Packages are determined by industry to meet identified industry skill needs. Competency standards are made up of a number of units of competency each of which describes a key function or role in a particular job function or occupation. Each unit of competency within a Training Package is linked to one or more AQF qualifications.

Contextualisation of units of competency by RTOs

Registered Training Organisations (RTOs) may contextualise units of competency in this endorsed Training Package to reflect required local outcomes. Contextualisation could involve additions or amendments to the unit of competency to suit particular delivery methods, learner profiles, specific enterprise equipment requirements, or to otherwise meet local needs. However, the integrity of the overall intended outcome of the unit of competency must be maintained.

Any contextualisation of units of competency in this Training Package must be within the bounds of the following advice:

- RTOs must not remove or add to the number and content of elements and performance criteria.
- RTOs can include specific industry terminology in the range statement.
- Any amendments and additions to the range statement made by RTOs must not diminish the breadth of application of the competency, or reduce its portability.
- RTOs may add detail to the evidence guide in areas such as the critical aspects of evidence or required resources and infrastructure—but only where these expand the breadth of the competency and do not limit its use.

Construction, plumbing and services units of competency reflect the occupational requirements for each industry sector. This includes specific aspects of, and advice for, assessment that are critical to determining competency achievement.

Use of common units across all sectors of the Training Package has been maximised, however some skills that may appear generic are considered by industry stakeholders to require sector specialisation accommodated in individual units of competency.

Components of units of competency

The components of units of competency are summarised below, in the order in which they appear in each unit of competency.

Unit title

The unit title is a succinct statement of the outcome of the unit of competency. Each unit of competency title is unique, both within and across Training Packages.

Unit descriptor

The unit descriptor broadly communicates the content of the unit of competency and the skill area it addresses. Where units of competency have been contextualised from units of competency from other endorsed Training Packages, summary information is provided. There may also be a brief second paragraph that describes its relationship with other units of competency, and any licensing requirements.

Employability skills

This sub-section contains a statement that the unit contains Employability skills.

Prerequisite units (optional)

If there are any units of competency that must be completed before the unit, these will be listed.

Application of the unit

This sub-section fleshes out the unit of competency's scope, purpose and operation in different contexts, for example, by showing how it applies in the workplace.

Competency field (optional)

The competency field either reflects the way the units of competency are categorised in the Training Package or denotes the industry sector, specialisation or function. It is an optional component of the unit of competency.

Sector (optional)

The industry sector is a further categorisation of the competency field and identifies the next classification, for example an elective or supervision field.

Elements of competency

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

Performance criteria

The performance criteria specify the required performance in relevant tasks, roles, skills and in the applied knowledge that enables competent performance. They are usually written in passive voice. Critical terms or phrases may be written in bold italics and then defined in range statement, in the order of their appearance in the performance criteria.

Required skills and knowledge

The essential skills and knowledge are either identified separately or combined. Knowledge identifies what a person needs to know to perform the work in an informed and effective manner. Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Range statement

The range statement provides a context for the unit of competency, describing essential operating conditions that may be present with training and assessment, depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts. As applicable, the meanings of key terms used in the performance criteria will also be explained in the range statement.

Evidence guide

The evidence guide is critical in assessment as it provides information to the registered training organisation (RTO) and assessor about how the described competency may be demonstrated. The evidence guide does this by providing a range of evidence for the assessor to make determinations, and by providing the assessment context. The evidence guide describes:

- conditions under which competency must be assessed including variables such as the assessment environment or necessary equipment;
- relationships with the assessment of any other units of competency;
- suitable methodologies for conducting assessment including the potential for workplace simulation;
- resource implications, for example access to particular equipment, infrastructure or situations;

- how consistency in performance can be assessed over time, various contexts and with a range of evidence; and
- the required underpinning knowledge and skills

Employability skills in units of competency

The detail and application of employability skills facets will vary according to the job-role requirements of each industry. In developing Training Packages, industry stakeholders are consulted to identify appropriate facets of employability skills which are incorporated into the relevant units of competency and qualifications.

Employability skills are not a discrete requirement contained in units of competency (as was the case with Key Competencies). Employability skills are specifically expressed in the context of the work outcomes described in units of competency and will appear in elements, performance criteria, range statements and evidence guides. As a result, users of Training Packages are required to review the entire unit of competency in order to accurately determine employability skills requirements.

Explicitly embedding employability skills in units of competency

This Training Package seeks to ensure that industry-endorsed employability skills are explicitly embedded in units of competency. The application of each skill and the level of detail included in each part of the unit will vary according to industry requirements and the nature of the unit of competency.

Employability skills must be both explicit and embedded within units of competency. This means that employability skills will be:

- embedded in units of competency as part of the other performance requirements that make up the competency as a whole
- explicitly described within units of competency to enable Training Packages users to identify accurately the performance requirements of each unit with regards to employability skills.

This Training Package also seeks to ensure that employability skills are well-defined and written into units of competency so that they are apparent, clear and can be delivered and assessed as an essential component of unit work outcomes.

Sample unit of competency components showing employability skills

The following table shows the sequence of a unit of competency, and each cell contains text taken from a range of units. It provides examples of where and how various employability skills could be embedded in each component.

Please note that in the example, the bracketed employability skills are provided for clarification only and would not be present in units of competency within this Training Package.

Unit Title	Give formal presentations and take part in meetings (Communication)
Unit Descriptor	This unit covers the skills and knowledge required to promote the use and implementation of innovative work practices to effect change. (Initiative and enterprise)
Element	Proactively resolve issues. (problem solving)

Performance Criteria	Information is organised in a format suitable for analysis and dissemination in accordance with organisational requirements. (Planning and organising)
Range Statement	Software applications may include email, internet, word processing, spreadsheet, database or accounting packages. (technology) Modify activities depending on differing workplace contexts, risk situations and environments. (Learning)
Required Skills and Knowledge	Work collaboratively with others during a fire emergency. (teamwork) Instructions, procedures and other information relevant the maintenance of vessel and port security. (Communication) Evidence of having worked constructively with a wide range of community groups and stakeholders to solve problems and adapt or design new solutions to meet identified needs in crime prevention. In particular, evidence must be obtained on the ability to:
Evidence Guide	<ul style="list-style-type: none"> • assess response options to identified crime-prevention needs and determine the optimal action to be implemented • in consultation with relevant others, design an initiative to address identified issues. (Initiative and enterprise).

Employability Skills Summaries and units of competency

An Employability Skills Summary exists for each qualification. Summaries include broad advice on industry expectations with regard to employability skills at the qualification level. Summaries should be used by trainers and assessors to assist in identifying the employability skills requirements contained within units of competency.
