

CPC20411 Certificate II in Concreting

Release: 1

CPC20411 Certificate II in Concreting

Modification History

Not Applicable

Description

This qualification provides an occupational outcome in concreting for domestic and commercial projects. The work would be carried out under general guidance and supervision. Occupational titles may include:

- Concreter
- Construction assistant
- · Labourer.

The qualification has core unit of competency requirements that cover common skills for the construction industry, as well as two specialist fields of work.

The construction industry strongly affirms that training and assessment leading to recognition of skills must be undertaken in a real or very closely simulated workplace environment and this qualification requires all units of competency to be delivered in this context. Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCCOHS1001A covers this requirement.
