

CPC40308 Certificate IV in Building and Construction (Estimating)

Release: 1

CPC40308 Certificate IV in Building and Construction (Estimating)

Modification History

Not Applicable

Description

This qualification is designed to meet the needs of estimators and schedulers in the building and construction field.

Occupational titles may include:

- Building estimator
- Building scheduler.

The qualification has core unit of competency requirements that cover common skills for the construction industry.

The construction industry strongly affirms that training and assessment leading to recognition of skills must be undertaken in a real or very closely simulated workplace environment and this qualification requires all units of competency to be delivered in this context.

Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCCOHS1001A covers this requirement.

Additional units of competency may be required to meet builder registration requirements in various States and Territories.

Employability Skills Summary

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY

Employability skill

Industry/enterprise requirements for this qualification include:

Communication

- Communicates effectively with a range of relevant parties through a range of media
- Articulates complex ideas clearly
- Interprets a range of complex and technical documents, including relevant regulatory, legislative, licensing and registration requirements, codes and standards, plans, drawings and specifications, schedules, development approvals, site files, contracts, and organisational policies and procedures
- Analyses and evaluates reports and reference materials
- Understands relevant definitions, terminology, symbols and language
- Reports and records project costs
- Maintains and checks logs, records and documents
- Prepares a range of documents, including construction contracts, plans, sketches and drawings and specifications, reports, tenders, schedules, building applications and submissions and file notes
- Negotiates conflict and dispute resolution
- Analyses a range of data, including company and stakeholder resource consumption and waste product volumes
- Coordinates a range of team members and activities
- Keeps team informed of work practices, quality requirements and required actions
- Discusses ideas with team members
- Seeks expert advice where appropriate
- Works collaboratively with relevant stakeholders
- Understands various stakeholders' roles
- Relates positively to fellow workers and the management team
- Relates to people from diverse social, cultural and ethnic backgrounds and with varying physical and mental abilities

Problem solving

Teamwork

- Assesses structural integrity of residential and commercial low rise buildings
- Performs various calculations relating to rise and

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY

fall amounts, estimating resource acquisition and costs, drawing dimensions, comparisons of alternative water management systems; waste management minimisation strategies; and thermal efficiency, rated capacity and working load limits and budgeting and forecasting.

- Examines tools and equipment prior to use for damage, missing components or other defects
- Identifies and rectifies faults
- Responds effectively to hazards, risks and emergencies
- Analyses problems and applies appropriate remedial solutions
- Resolves business disputes
- Devises approaches, implements and reflects on environmental and water, energy and resource efficiency management policies and procedures relevant to work site to improve environmental sustainability and shares alternative approaches as required

Initiative and enterprise

- Evaluates properties of construction materials and selects appropriate materials based on evaluation
- Develops compliant, alternative solutions to construction problems
- Assesses thermal efficiency of buildings and reviews design solutions for effectiveness and compliance
- Identifies opportunities for improved water management
- Evaluates effective strategies for insulating structures
- Develops waste management strategies and dispute resolution procedures
- Identifies environmental and resource efficiency improvements, applies knowledge about resource use to organisational activities and customer service and develops resource efficiency tools

Planning and organising

- Plans and coordinates various work operations
- Prepares project schedules
- Participates in effective implementation of organisation's operational plans
- Plans and organises on-site activities and implements procedures associated with building and

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY

construction work

- Identifies and organises resource requirements and obtains supply information
- Supervises various administrative and work processes, including payments collects, analyses and organises workplace information and data
- Plans and organises inspections
- Organises testing of construction materials to ensure suitability

Self management

- Manages own performance to ensure required levels of service standards, work quality and professional competence
- Manages work priorities and professional development
- Uses feedback to improve own performance
- Organises and completes daily work activities
- Is open to new ideas and techniques
- Seeks feedback on personal performance
- Uses information effectively to improve work performance
- Learns from colleagues as part of effective teamwork

Technology

Learning

- Operates office equipment
- Uses computer equipment and relevant software
- Uses cameras
- Assesses new and emerging technologies for application to construction processes
- Uses a range of tools and equipment
- Maintains tools and equipment as required
- Uses technology to improve efficiency and effectiveness of managing work

Packaging Rules

Packaging rules

To achieve this qualification, the candidate must demonstrate competency in:

- 15 units of competency:
- 8 core units
- 7 elective units.

The elective units are to be chosen as follows:

Approved Page 5 of 7

- up to 7 units from general elective units
- up to 3 units from qualifications in CPC08 or another current Training Package or state accredited course, provided the integrity of the AQF alignment is ensured, they contribute to a valid, industry-supported vocational outcome, and that no more than:
- 2 units are from a Certificate IV qualification
- 1 unit is from a Certificate III or Diploma qualification.

$\boldsymbol{\alpha}$	• 4
Core	units

CPCCBC4001A	Apply building codes and standards to the construction process for low rise building projects
CPCCBC4004A	Identify and produce estimated costs for building and construction projects
CPCCBC4005A	Produce labour and material schedules for ordering
CPCCBC4010B	Apply structural principles to residential low rise constructions
CPCCBC4011B	Apply structural principles to commercial low rise constructions
CPCCBC4012A	Read and interpret plans and specifications
CPCCBC4013A	Prepare and evaluate tender documentation
BSBPMG407A	Apply risk management techniques
Elective units	
CPCCBC4003A	Select and prepare a construction contract
CPCCBC4003A CPCCBC4006B	Select and prepare a construction contract Select, procure and store construction materials for low rise projects
	Select, procure and store construction materials for low
CPCCBC4006B	Select, procure and store construction materials for low rise projects
CPCCBC4006B CPCCBC4014A	Select, procure and store construction materials for low rise projects Prepare simple building sketches and drawings
CPCCBC4006B CPCCBC4014A CPCCBC4015A	Select, procure and store construction materials for low rise projects Prepare simple building sketches and drawings Prepare specifications for all construction works
CPCCBC4006B CPCCBC4014A CPCCBC4015A CPCCBC4016A	Select, procure and store construction materials for low rise projects Prepare simple building sketches and drawings Prepare specifications for all construction works Administer a construction contract Arrange resources and prepare for the building or

Approved Page 6 of 7

CPCCBC4023A Plan and undertake site inspection and assessment of

asbestos products and materials

CPCCBC4024A Resolve business disputes

CPCCBC4025A Manage personal work priorities and professional

development

CPCCBC4028A Prepare design brief for construction works

CPCSUS4001A Implement and monitor environmentally sustainable

work practices

BSBCUS301A Deliver and monitor a service to customers

BSBWOR402A Promote team effectiveness

BSBITU201A Produce simple word processed documents

BSBITU202A Create and use spreadsheets

BSBITU301A Create and use databases

BSBMGT403A Implement continuous improvement

BSBOHS404B Contribute to the implementation of strategies to

control OHS risk

BSBPMG404A Apply quality management techniques

BSBWRT401A Write complex documents

HLTHIR403B Work effectively with culturally diverse clients and

co-workers
