CPP40719 Certificate IV in Security Management

Release 1

CPP40719 Certificate IV in Security Management

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 9.0.

Supersedes and is equivalent to CPP40707 Certificate IV in Security and Risk Management. Changed packaging arrangements including reduction in total number of units and changed core and elective requirements. Streaming introduced to align occupational specialisations with industry requirements.

Qualification Description

This qualification is for security supervisors and security business managers who may engage in sub-contracting arrangements for personnel and clients. Security supervisors lead teams to coordinate and implement a range of security operations and functions such as control room, monitoring centre, electronic security and guarding. Security business managers coordinate security manpower and services to clients while operating under complex regulatory and contracting arrangements.

Occupational titles may include:

- control room manager
- event security supervisor
- monitoring centre manager
- security business manager
- security operations supervisor
- technical security manager.

Legislative, regulatory or certification requirements apply in some states and territories to the provision of advice on security solutions, strategies, protocols and procedures. For further information, check with the relevant regulatory authority.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

To achieve this qualification, competency must be demonstrated in:

- 12 units of competency
 - 4 core units
 - 8 elective units.

Electives are to be chosen as follows:

- all units within Group A or all units within Group B
- up to 4 units within Groups A, B or C not already selected
- an elective unit may be selected from Group D or from any training package, as long as it contributes to a valid, industry-supported vocational outcome and maintains the AQF level of this qualification.

Core Units

CPPSEC4001	Manage work health and safety in the security work environment
CPPSEC4003	Assess and advise on client security needs
CPPSEC4005	Facilitate security operations briefing and debriefing processes
CPPSEC4022	Establish and implement ethics and governance arrangements for security businesses

Elective Units

Group A: Business Management

BSBADM409	Coordinate business resources
BSBHRM405	Support the recruitment, selection and induction of staff
