New qualification.

## Qualification Description

This is a qualification for pest management technicians seeking deeper specialisation in the urban pest management sector. Specialist roles require planning, coordinating, managing and completing small to large scale pest management operations. The qualification applies to individuals who work in urban pest management in a range of challenging contexts.

Some job functions covered by this qualification require occupational licencing or certification. Specific determination should be sought through the relevant state or territory regulatory authority.

## Entry Requirements

CPP30115 Certificate III in Urban Pest Management, or CPP30119 Certificate III in Urban Pest Management.

## Packaging Rules

To achieve this qualification, competency must be demonstrated in 11 units of competency consisting of 6 core and 5 elective units. Electives are to be selected as follows:

- 3 units from Group A or 3 units from Group B, plus
  - up to 2 units from Groups A, B or C not already selected
  - 1 elective unit may be selected from any training package, as long as it contributes to a valid, industry-supported vocational outcome and maintains the AQF level of this qualification.
