CPPBDN8105 Lead the building design team

Release: 1

CPPBDN8105 Lead the building design team

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 11.0.

Supersedes and is equivalent to CPPBDN8004A Lead the building design team.
Updated to meet the Standards for Training Packages 2012.

Application

This unit specifies the knowledge and skills required to lead and manage a building design team including establishing and coordinating team technical and creative skills to meet client needs. It includes responding to staff development needs, complying with employment processes, providing comprehensive and appropriate role definitions and monitoring staff performance.

This unit is suitable for experienced building designers who apply broad and coherent theoretical and technical knowledge and highly specialised skills to manage building design projects with autonomy and judgement and to deal with sometimes complex and unpredictable contingencies.

This unit forms part of the licensing requirements for people engaged in building design in some states and territories. For further information, check with the relevant regulatory authority.

Pre-requisite Unit

Nil.

Unit Sector

Building Design

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe what needs to be done to demonstrate achievement of the element.

- | | |
|------------------------------------|---|
