Assessment Requirements for
CPPCLO3001 Maintain hard floor surfaces

Release: 2
Assessment Requirements for CPPCLO3001 Maintain hard floor surfaces

Modification History

Release 1  This version first released with CPP Property Services Training Package Version 4.0
Supersedes and is equivalent to CPPCLO2001A Maintain hard floor surfaces.

Release 2  This version first released with CPP Property Services Training Package Release 8.0.
Minor update in the Knowledge Evidence replaced the word ‘distilling’ with ‘diluting’.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit.

The person must also:

- clean and maintain two of the following different hard floor surfaces:
  - brick
  - ceramic tiles
  - concrete
  - cork
  - marble
  - parquetry
  - pavers
  - polished or unpolished wood
  - proprietary flooring
  - quarry tiles
  - rubber
  - slate
  - terrazzo
  - vinyl
- use two of the following different cleaning methods when cleaning the above surfaces:
  - air blowing
  - automatic floor scrubbing
  - dry buffing
- dust mopping and sweeping
- low-water cleaning methods, such as using microfibre cleaning products
- scrubbing
- spray buffing
- wet mopping.

In doing the above work, the person must:
- identify site hazards and control risks before commencing the task
- identify type and condition of hard floor surface
- select cleaning equipment and chemicals required for task
- correctly and safely handle waste, including contaminated materials
- comply with company, legislative and regulatory requirements relating to the cleaning work
- use safe and efficient cleaning methods.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:
- application methods for maintaining hard floor surfaces using microfibre cleaning techniques, including using:
  - cloth and water in spray bottle to spot clean low-level stains
  - damp mops for hard floor surface cleaning and finishing
  - dry mopping techniques
  - different cleaning chemicals and equipment for hard floor surfaces
- environmental requirements relating to maintaining hard floor surfaces, including:
  - clean-up, containment and isolation procedures
  - emergency chemical spill control measures
  - environmental protection agency requirements relating to using and disposing of cleaning chemicals
  - hazardous materials handling
  - use of low-energy cleaning methods
  - use of low-moisture cleaning methods
  - use of low water-use equipment and other water-efficient cleaning methods
  - use of non-chemical cleaning methods
- methods for cleaning and maintaining microfibre cloths and mops, including:
  - air drying for optimal performance
  - avoiding fabric softeners
  - regular hand or machine washing in hot soapy water
  - removing stains with hot water and washing liquid
  - washing products on their own to avoid static transfer of lint
• key requirements of legislation, regulations, codes of practice and industry advisory standards relating to maintaining hard floor surfaces, including:
  • quality assurance and certification requirements
  • industry advisory standards and codes, such as dangerous goods codes
• processes for safely handling and disposing of waste, including:
  • chemicals past their expiry date
  • litter
  • obsolete equipment
  • sweeping detritus
  • used containers
  • used or contaminated personal protective equipment (PPE)
  • used or unused chemicals
• safe handling techniques for working with hazardous chemicals, including:
  • emergency chemical spill control measures
  • routes of entry and potential symptoms of exposure to chemicals
  • safe methods for diluting chemicals
  • working according to safety data sheets (SDS)
• types and characteristics of different hard floor surfaces and required cleaning methods for each type.

Assessment Conditions

The following must be present and available to learners during assessment activities:
• equipment:
  • as listed in the range of conditions
  • PPE as listed in the range of conditions
• materials:
  • cleaning chemicals as listed in the range of conditions
• specifications:
  • equipment operating manuals
  • product labels
  • SDS
• physical conditions:
  • suitable work site or venue with hard floor surfaces as listed in the performance evidence
• relationships with team members and supervisor:
  • work may be conducted alone or as part of a team.

Timeframe:
• as specified by the task.
Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
