Assessment Requirements for CPPCLO3006 Clean carpets

Release: 2

Assessment Requirements for CPPCLO3006 Clean carpets

Modification History

Release	Comment
Release 1	Replaces superseded non-equivalent CPPCCL2001A Use hot water extraction, CPPCCL2002A Use bonnet cleaning, CPPCCL2003A, Use dry foam shampoo, CPPCCL2004A Use dry absorbent compound and CPPCCL2005A Use wet foam shampoo. This version first released with CPP Property Services Training Package Version 4.
Release 2	Minor update to typo in the Knowledge Evidence, replace 'distilling' with 'diluting'. This version released with CPP Property Services Training Package Version 5.

Performance Evidence

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit.

The person must also clean two different carpet types where:

- one carpet type must be a natural fibre selected from:
 - organic (plant) fibres, such as cotton and sisal
 - wool
- one carpet type must be a synthetic fibre selected from:
 - acrylic
 - nylon
 - polyester.

In cleaning the above carpets, the person must:

- identify site hazards and control risks before commencing the task
- correctly identify the type and characteristics of the carpet and carpet fibres
- identify cleaning techniques and chemicals required for the task
- use the following cleaning methods:
 - bonnet cleaning
 - hot water extraction
- use cleaning equipment safely

- check carpet after cleaning process and assess whether further cleaning is required
- correctly and safely handle waste.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- carpet characteristics, including:
 - carpet construction
 - features of fibres
- range and application of cleaning equipment and chemicals, including:
 - encapsulation
 - low environmental impact chemicals
 - low-moisture use equipment
- correct application and techniques for different cleaning methods, including:
 - dry absorbent compound
 - bonnet cleaning
 - hot water extraction
 - dry foam shampoo
 - wet foam shampoo
- environmental requirements relating to removing stains from carpets, including:
 - clean-up, containment and isolation procedures
 - emergency chemical spill control measures
 - environmental protection agency requirements relating to using and disposing of carpet cleaning chemicals
 - hazardous materials handling
 - use of low-energy carpet-cleaning methods
 - use of low-moisture carpet-cleaning methods
 - use of low water-use equipment and other water-efficient cleaning methods
 - use of non-chemical carpet-cleaning methods
- key requirements of legislation, regulations, codes of practice and industry advisory standards relating to carpet cleaning, including:
 - Australian standards AS/NZS 3733 Textile floor coverings – Cleaning maintenance of residential and commercial carpeting
 - industry advisory standards and codes, such as dangerous goods codes
- processes for safely handling and disposing of waste, including:
 - chemicals past their expiry date
 - litter
 - machine exhaust emissions
 - obsolete equipment
 - used containers
 - used or contaminated personal protective equipment (PPE)

- used or unused chemicals
- range and application of cleaning solutions used to clean carpets and their reactions with different carpet types
- safe handling techniques for working with hazardous chemicals, including:
 - emergency chemical spill control measures
 - routes of entry and potential symptoms of exposure to chemicals
 - safe methods for diluting chemicals
 - working according to safety data sheets (SDS).

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - as listed in the range of conditions
 - PPE as listed in the range of conditions
- materials:
 - cleaning chemicals as listed in the range of conditions
- specifications:
 - AS/NZS 3733 Textile floor coverings – Cleaning maintenance of residential and commercial carpeting
 - equipment operating manuals
 - product labels
 - SDS
- contingencies:
 - carpet cleaning action is repeated when carpet has not cleaned sufficiently first time
- physical conditions:
 - suitable work site or venue with carpet types listed in the performance evidence
- relationships with team members and supervisor:
 - work may be conducted alone or as part of a team
- relationship with client:
 - communication with the client is required.

Timeframe:

- as specified by the task.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
