**Assessment Requirements for
CPPCLO3040 Clean ceiling surfaces and
fittings**

Release: 2

Assessment Requirements for CPPCLO3040 Clean ceiling surfaces and fittings

Modification History

Release	Comment
Release 1	Replaces superseded equivalent CPPCLO2010A Clean ceiling surfaces and fittings. This version first released with CPP Property Services Training Package Version 4.
Release 2	Minor update to typo in the Knowledge Evidence, replace 'distilling' with 'diluting'. This version released with CPP Property Services Training Package Version 5.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit.

The person must also:

- dust and cobweb one ceiling from the ground, using equipment selected for the job
- use selected equipment and materials to clean five of the following fittings:
 - audiovisual equipment
 - cameras
 - ceiling fans
 - ceiling roses
 - cornices
 - lighting tracks
 - pendant lighting
 - recessed lights
 - skylights
 - sprinkler systems
 - vents and grilles
- one of the above fittings must be accessed using a stepladder according to manufacturer and safety specifications.

In doing the above work, the person must:

- identify site hazards and control risks before commencing the task
- identify type and characteristics of ceiling surface and fittings
- select and prepare cleaning equipment and chemicals required for the task

- use safe and efficient cleaning methods
- correctly and safely handle waste, including contaminated materials
- comply with company requirements.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- cleaning techniques for removing soil from ceiling surfaces and fittings
- types and characteristics of cleaning chemicals and their application on different surfaces, including:
 - application techniques
 - risks of damage to surfaces caused by use of incompatible chemicals
 - environmental and health controls
- key requirements of legislation, regulations, codes of practice and industry advisory standards relating to cleaning ceiling surfaces and fittings
- processes for safely handling and disposing of waste, including:
 - chemicals past their expiry date
 - obsolete equipment
 - packaging
 - used containers
 - used or contaminated personal protective equipment (PPE)
 - used or unused chemicals
- safe handling techniques for working with hazardous chemicals, including:
 - emergency chemical spill control measures
 - routes of entry and potential symptoms of exposure to chemicals
 - safe methods for diluting chemicals
 - working according to safety data sheets (SDS)
- types of ceiling and fitting surfaces and their characteristics.

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - as listed in the range of conditions
- materials:
 - cleaning chemicals as listed in the range of conditions
- specifications:
 - equipment operating manuals
 - product labels
 - SDS
 - safety instructions

- physical conditions:
 - work site or venue with ceiling surfaces and fittings
- relationships with team members and supervisor:
 - work may be conducted alone or as part of a team.

Timeframe:

- as specified by the task.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
