Assessment Requirements for CPPCLO3106 Pressure wash and clean surfaces

Release: 2

Assessment Requirements for CPPCLO3106 Pressure wash and clean surfaces

Modification History

Release 2 This version first released with CPP Property Services Training Package Release 17.0.

Editorial corrections in the Knowledge Evidence.

 Release 1
 This version first released with CPP Property Services Training Package Release 15.0.

 Comparison
 Comparison

Supersedes and is equivalent to CPPCLO3020 Pressure wash and clean surfaces.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by using pressure washing to:

- remove three of the following:
 - · residue from industrial equipment used for food processing
 - graffiti from brick or concrete
 - grease and oil from concrete
 - pollution marks from a painted surface.

Candidates must clean each surface on at least two occasions.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- personal and site security procedures and requirements:
 - site access security cards, codes and keys
 - areas of the worksite not to be accessed
 - alarm activation and deactivation
 - maintaining client privacy and confidentiality
 - contingencies if personal safety at risk
- types of hazards and risks and ways to control:
 - work health and safety (WHS) requirements
 - Safe Work Australia regulations and guidelines
 - job safety analyses (JSAs) and safe work method statements (SWMS)
 - manufacturer instructions and safety data sheets (SDS)

- types of personal protective equipment (PPE) and correct selection, care, use and disposal
- slips, trips, falls and spills
- manual-handling techniques when carrying, lifting, pushing and pulling
- · identification and safe practices with hazardous materials on site
- correct use of signage, barriers, containment and engineering controls and PPE
- safe use of electrical equipment
- organisational requirements for:
 - reporting incidents accidents and injury, damage to or breakages in the cleaning area or cleaning equipment, theft and threats to personal security and breaches of site security
 - procedures for checking equipment operation and safety
 - use of cleaning equipment, cleaning agents, consumables and PPE
- cleaning methods and precautions for surface types:
 - brick, including rendered brick surfaces
 - concrete, including polished concrete
 - metal, including industrial kitchen equipment and industrial machinery
 - painted
 - glass
 - polyresin
- types of soil:
 - algae and moss
 - graffiti made with ink, markers and paint
 - grease and oil
 - pollution marks and soil on structures
- functions and features of pressure washing equipment, safe use, routine maintenance and storage:
 - brooms, cloths, squeegees and microfibre products
 - hoses
 - lances
 - pressure washers (electric or diesel)
 - wet area electrical safety connections
- types of cleaning agents their purpose, action, correct use, precautions, safe handling, storage and disposal:
 - purified water
 - detergents
 - surfactants
 - disinfectants
 - solvents
 - abrasives
- cleaning principles:

- cleaning agent, time, agitation, temperature
- significance of pH value of cleaning agents
- sequence and direction of cleaning
- achieve results while doing no harm
- environmentally sustainable work practices and compliance with environmental regulations:
 - storage and disposal of cleaning agents
 - · ways of minimising negative environmental impact
 - conserving energy and water
 - recycling
- waste disposal:
 - general waste
 - hazardous waste
 - recyclable waste
 - organic and green waste
 - used materials and cleaning agents.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- industry-standard cleaning equipment
- appropriate PPE
- manufacturer's instructions and workplace documents.
