CPPDSM3021 Collect and process information relevant to strata communities

Release: 1

CPPDSM3021 Collect and process information relevant to strata communities

Modification History

Release 1.

New unit of competency.

This version first released with CPP Property Services Training Package Version 5.

Application

This unit of competency specifies the outcomes required to gather and organise information relevant to strata community management in a format that is suitable for decision making. It requires the ability to review information requirements and obtain information from a variety of sources.

The unit supports the work of administrative staff involved in strata community management who are engaged in gathering and organising information on strata communities in a format suitable for decision making. It applies to strata managers.

Licensing, legislative, regulatory or certification requirements apply to this unit in some States and Territories. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

Pre-requisite Unit

Nil

Competency Field

Strata community management

Unit Sector

Property services

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.
