CPPDSM4049 Implement maintenance program for managed properties

Release: 1
CPPDSM4049 Implement maintenance program for managed properties

Modification History

Release 1.

Replaces superseded equivalent CPPDSM4049A Implement maintenance plan for managed properties.

This version first released with CPP Property Services Training Package Version 5.

Application

This unit of competency specifies the outcomes required to develop and implement a maintenance program for all types of managed properties. It includes determining property maintenance requirements, establishing a property maintenance program, establishing and maintaining a key register, monitoring the security of managed properties, and implementing and reviewing the property maintenance program.

The unit supports workers in the property industry who are involved in developing and implementing maintenance programs for all types of managed properties. It applies to real estate agents, property managers, strata managers and facility managers.

Licensing, legislative, regulatory or certification requirements apply to this unit in some States and Territories. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

Pre-requisite Unit

Nil

Competency Field

Strata community management

Unit Sector

Property services

Elements and Performance Criteria

Elements describe the essential outcomes. Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.

1. Determine

1.1. Property reports, maintenance specifications, feedback
From tenants, owner instructions and other relevant documentation are obtained and analysed to establish property maintenance requirements.

1.2. Industry benchmarks are reviewed to determine maintenance intervals and other requirements.

1.3. Work health and safety (WHS) and other legislative requirements are interpreted and incorporated into maintenance requirements.

2. Develop property maintenance program.

2.1. Property maintenance program is established in line with owner instructions, legislative requirements, and agency practice.

2.2. Reliable and efficient maintenance methods are identified in line with agency practice.

2.3. Maintenance costs are established.

2.4. Contract specifications for maintenance services are developed and incorporated into tender documents, where appropriate.

2.5. Safety and security requirements are incorporated into maintenance program.

2.6. Criteria for selecting tradespeople and other service providers to provide repair and maintenance services are established.

2.7. Register of tradespeople and other service providers is compiled and maintained.

2.8. Property maintenance schedule is established.

2.9. Systems for recording and implementing property maintenance requirements and reporting to owners are established.

2.10. Aspects of maintenance program requiring specialist advice are identified and assistance is sought as required.

3. Establish key register.

3.1. Key register system is established, administered and maintained.

3.2. Security of register and keys is maintained.

4. Implement property

4.1. Property maintenance program, including agency fees, is presented to owners for discussion and approval.
4.2. Property maintenance program is implemented in line with owner instructions, legislative requirements, and agency practice.

4.3. Regular reports on property are provided to owners.

4.4. Agency fees for property maintenance services are recorded and billed to owner.

5. Monitor security of managed properties.

5.1. Security risks associated with managed properties are identified and documented.

5.2. Causes and potential impact of security risks on agency, clients and other stakeholders are determined.

5.3. Property security measures are established in line with terms of the property management agreement, owner instructions, legislative requirements and agency practice.

6. Review property maintenance program.

6.1. Property maintenance program is reviewed in consultation with client.

6.2. Outcomes of review are prepared in required format, style and structure and presented to owners within agreed timeframes.

6.3. Recommendations for improving property maintenance program are presented to owners and other relevant people in line with agency practice.

6.4. Documentation on property maintenance is produced and maintained using business equipment and technology.

### Foundation Skills

This section describes the language, literacy, numeracy and employment skills essential to performance in this unit but not explicit in the performance criteria.

<table>
