requirements of owners and occupiers in  
strata communities**

**Release: 1**

# CPPDSM4082 Monitor service requirements of owners and occupiers in strata communities

## Modification History

Release 1.

New unit of competency.

This version first released with CPP Property Services Training Package Version 5.

## Application

This unit of competency specifies the outcomes required to identify and respond to service requirements of owners and occupiers, and to report on the service provision of strata managers. It requires the ability to determine service requirements of owners and occupiers, monitor service provision to ensure compliance with management agreement and budget parameters, and report on service provision to owners and occupiers in strata communities.

The unit supports the work of those involved in managing strata communities who have responsibility for monitoring the service requirements of owners and occupiers and reporting on service provision. It applies to strata managers.

Licensing, legislative, regulatory or certification requirements apply to this unit in some States and Territories. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

## Pre-requisite Unit

Nil

## Competency Field

Strata community management

## Unit Sector

Property services

## Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.

1. Identify and address service

1.1. Professional rapport is established with owners and occupiers to encourage accurate and relevant exchange

requirements of owners and occupiers.		of information.
	1.2.	Communication protocols and points of contact for owners and occupiers with strata manager are established.
	1.3.	<b>Service requests</b> from owners and occupiers are handled in a professional manner, prioritised and actioned.
	1.4.	Potential difficulties in dealing with service requests of owners and occupiers are identified and addressed or referred to responsible officer in strata management organisation for recommended action.
	1.5.	Service requests from owners and occupiers are analysed to determine risk factors and where necessary are referred to emergency services in line with organisational risk management procedures.
	1.6.	Occurrences that are likely to impact on quality of service provision are conveyed to owners and occupiers in a timely manner.
	1.7.	Service requests from owners and occupiers are documented detailing time, location, nature of service and action taken.
2. Monitor service provision.	2.1.	<b>Information</b> on service provision is routinely collected and analysed.
	2.2.	Service provision is monitored to ensure compliance with management agreement and budget parameters.
	2.3.	Feedback from owners and occupiers on service delivery is collected, analysed and used to improve service provision.
3. Report and make recommendations on service provision.	3.1.	Reports on service provision are prepared and communicated to owners and occupiers.
	3.2.	Meetings are conducted with strata community to discuss and review service provision, including non-conformance and quality issues, in an open and participative environment.
	3.3.	Suggestions for improvements in service provision are noted and referred to responsible officer in strata community management organisation.

## Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

***Service requests*** must include those that:

- fall within scope of management agreement
- require authorisation to proceed
- vary from the terms of the management agreement.

***Information*** must include:

- qualitative information on service provision
- quantitative information on service provision.

## Unit Mapping Information

No equivalent unit.
