Assessment Requirements for CPPSEC3119 Implement cash-in-transit security procedures

Assessment Requirements for CPPSEC3119 Implement cash-in-transit security procedures

Modification History

Release 1.

Supersedes and is equivalent to CPPSEC3051A Implement cash-in-transit security procedures.

Updated to meet the Standards for Training Packages.

This version first released with CPP Property Services Training Package Version 7.0.

Performance Evidence

To demonstrate competency in this unit, a person must implement cash-in transit security procedures for two separate operations involving different security risk situations.

In doing this, the person must meet the performance criteria for this unit.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- standard operating procedures and workplace policies that ensure compliance with legislative and regulatory requirements when implementing cash-in-transit security procedures:
  - anti-discrimination and diversity
  - apprehension, arrest and restraint of persons
  - counter terrorism
  - duty of care
  - licensing requirements and permits for firearms, and handling and carrying dangerous goods
  - limits of own responsibility and authority
  - trespass and the removal of persons
  - use of force
  - workplace health and safety (WHS) including manual handling
- approved communication terminology, call signs and radio channels used in the security industry
- cash-in-transit surveillance and monitoring techniques
- chain of command relevant to cash-in-transit operation
- correct strategic positioning and tactics when conducting cash-in-transit operations
- factors that may indicate escalation of conflict or risk and situations requiring specialist assistance
- principles of effective teamwork

- procedures for activating and de-activating a range of common security systems and devices
- procedures for communicating and collaborating with emergency services
- procedures for handling non-conforming consignments
- procedures for responding to a violent encounter including armed robbery
- process of dynamic risk assessment and how it is applied
- the phonetic alphabet and how it is used
- types of security incidents and emergencies that may be encountered during cash-in-transit operations and appropriate responses for each
- understanding of the force model.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations (RTOs). All individuals engaged by a licensed RTO for security licensing purposes must hold both a security trainer's licence (where such a licence exists within the relevant jurisdiction) and a security operative licence that authorises the security activities about which the individual is training/assessing. Regulators may impose other assessor conditions to meet jurisdictional assessment requirements.

Assessment of performance must be undertaken in an operational workplace environment or environment that reflects workplace conditions. Tasks are to be performed to the level of proficiency and within the time limits that would be expected in a workplace.

The assessment of performance evidence must be done by direct observation of the learner by an assessor, either by an assessor observing the learner physically or by an assessor observing the learner via audio and visual media.

Assessment of performance evidence is only valid where the learner has been assessed performing the role of a security officer.

Assessors are responsible for ensuring that the person demonstrating competency has access to:

- specifications of assessment tasks to implement cash-in-transit security procedures
- appropriate documents, materials, cash-in-transit equipment and personal protective equipment (PPE) currently used in industry
- standard operating procedures and workplace policies related to the security work role and which specify requirements for complying with industry legislation and regulations.
