on client operations**

**Release: 1**

# Assessment Requirements for CPPSEC4007 Identify security threats and assess impact on client operations

## Modification History

Release 1 This version first released with CPP Property Services Training Package Release 9.0.

Supersedes and is equivalent to CPPSEC4007A Assess threat. Updated to meet the Standards for Training Packages.

## Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by documenting and presenting comprehensive threat assessments of client operations for three different clients.

## Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- workplace policies and procedures that ensure compliance with legislative and regulatory requirements when conducting security threat assessments of client operations:
  - client service standards
  - licensing requirements in the security industry
  - regulatory requirements in the jurisdiction of operation
- application of *ISO 31000:2018 Risk management – Guidelines* when conducting security threat assessments of client operations
- changing operational contexts for client operations
- difference between information and intelligence in the context of security threat assessments
- methods for developing threat assessment criteria comprising qualitative and quantitative measures
- methods for determining the criticality of assets and activities to client operations
- process of dynamic risk assessment and application of risk management when identifying and assessing security threats
- purpose of *Australia's Strategy for Protecting Crowded Places from Terrorism* and understanding of:
  - definition of crowded places
  - key security issues for crowded places
  - objectives, characteristics and identification of active armed offenders
  - definition of hostile vehicles and methods of attack

- signs of chemical weapons attack and recommend response
- general features of improvised explosive devices and recommended incident response
- threat assessment and consequence analysis techniques and processes
- type and nature of a range of security threats and countermeasures associated with workplace operations
- ways that social and cultural differences may be expressed during client consultations.

## Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

All individuals engaged by a licensed RTO for security licensing purposes must hold both a security trainers licence (where such a licence exists within the relevant jurisdiction) and the licence for performing the security activities for which the individual is providing training or assessment. Regulators may impose other assessor conditions to meet jurisdictional assessment requirements.

Assessment must be conducted in the workplace or in a simulated workplace environment. Candidates must have access to:

- legislation, regulations, policies and procedures that apply to security threat assessments in the jurisdiction of operation
- client specifications, information and intelligence, information technologies and resources required to achieve the performance evidence
- *ISO 31000:2018 Risk management – Guidelines*
- *Australia's Strategy for Protecting Crowded Places from Terrorism.*
